

CAMPUS CELL COVERAGE

Campus Distributed Antenna System

The Anschutz Medical Campus has partnered with several cellular phone providers to offer reliable cellular phone coverage throughout the campus. The Campus Distributed Antenna System (CDAS) carries the cellular signal through the buildings to provide consistent coverage.

[View a campus map](#) detailing areas covered by the distributed antenna system.

If you are having a problem with cellular service in your area please contact your carrier first, we have contact information for those participating in this service listed below.

If you would like to expand coverage in your area please contact our [Customer Service Representatives](#), charges may apply.
