

Adding and Sharing Your Pronouns in Zoom

Pronouns are an essential piece to expressing yourself and building a respectful community. When you add pronouns to your profile, they are visible to your Zoom contacts as part of your Zoom profile card in the Zoom desktop client and mobile app. You can also choose when or if your pronouns are shown during a meeting that you host or join, or webinar that you are the host or panelist for. Webinar attendees' pronouns are never visible.

Note: In order to use the pronoun feature, you must update the Zoom desktop client to 5.7.0.

How to add Pronouns to your Profile

1. Sign in to the Zoom web portal (ucdenver.zoom.us)
2. In the navigation panel, click "Profile."

zoom

- In the Pronouns field, enter your pronouns (no need to add parentheses around your pronouns, as the system will add them for you).

The image shows a profile update form. At the top, there are two input fields: "First Name" and "Last Name". The "First Name" field has a red border and a red error message below it that says "The First Name is required". Below these is a "Display Name" field with a blue border. Underneath is a "Pronouns" field with a question mark icon and a blue border, which is circled in black. Below the "Pronouns" field is a dropdown menu labeled "How would you like to share your pronouns?" with the text "Select an option" and a downward arrow. At the bottom of the form are two buttons: "Save" (blue) and "Cancel" (white).

Image: an oval around the pronoun field

- In the How would you like to share your pronouns? Drop-down field, choose from the following options:
 - Always share in meetings and webinars:** Your pronouns will appear next to your display name automatically in any meetings that you host or join, and any webinars that you're the host or panelist for.
 - Ask me every time after joining meetings and webinars:** You will be asked if you want your pronouns to appear next to your display name in every meeting that you host or join, and any webinars that you're the host or panelist for.
 - Do not share in meetings and webinars:** Your pronouns will not appear next to your display name in any meetings or webinars. You will have to manually choose to share your pronouns.

The image shows a dropdown menu titled "How would you like to share your pronouns?". The menu is open, showing three options: "Always share in meetings and webinars", "Ask me every time after joining meetings and webinars", and "Do not share in meetings and webinars". The first option is currently selected and highlighted in light blue.

Image: a dropdown list for sharing pronouns

Note: Even if you choose not to share your pronouns in meetings or webinars, your pronouns will still appear in your profile card and be visible to your Zoom contacts if you have entered them in the Pronouns field.

6. Click Save.

Share or Unshare your Pronouns in a Meeting

During a meeting, click Participants. Hover over your name and click “More” and choose “Share your Pronouns.” Alternatively, you can hover over your video thumbnail, click the ellipses button in the top-right corner, then click “Share My Pronouns”. You can unshare your pronouns as well.
