Install MS Outlook on Mobile:

1. Install and register for Duo.
2. Open the App Store.
3. Search for Outlook and select Get > Install.
4. Sign in with your Apple ID.
5. Click Open when the app completes installation.
7. On the Get Notified screen, select the options (email, calendar invitations, etc.) for which you would like to be notified.
8. On the Add Email Account screen, enter your @cuanschutz.edu or @ucdenver.edu email address and select Add Account.
10. Authenticate to your email account using the campuses’ Duo Authentication app (should already be installed on your mobile device).
11. Respond to requests for additional setup options.
12. You should now see your campus email begin to sync to your iOS device.
