

**Crosswalk of eFRPA Historical Data to Interfolio FAR Categories**  
**Updated 12/8/2020**

**Notes:**

Many Scholarly and Creative Work categories have sub-category options within them. FAR sub-categories have been expanded beyond those available in eFRPA. The initial sub-categories for eFRPA entries were assigned based on input from the Interfolio Advisory Group (IAG), but can be modified as needed. The "Revision/Iteration of Earlier Completed Work?" and author role fields were also assigned based on eFRPA category, where available, and can be updated if desired. See the "CU Denver Faculty Activity Report" course in Canvas for instructions on changing the overall Scholarly and Creative Work category (e.g., Journal Article, Chapter).
