

ARCHITECTURE – Architectural Design

Bachelor of Science (B.S.) – Catalog Year 2023-2024

PROGRAM OVERVIEW

The Department of Architecture at the University of Colorado Denver offers a pre-professional Bachelor of Science in Architecture degree program, and students may choose one of two curricular tracks: The **Architectural Design Track** and the **Architectural Studies Track**.

The **Architectural Design Track** is for students who desire additional Design Studios to hone their design skills. This track also prescribes additional history and technical course work to support design thinking and application.

The **Architectural Studies Track** offers students a less prescribed path, with greater freedom to shape the direction of their studies in the senior year. Based on individual interests and projected career paths, students who choose this track will have the opportunity to focus on one or more areas of study in architecture and/or allied disciplines. These include architectural history/theory, technology, and/or visualization, among other options.

Both tracks will allow students to complete a four studio-track professional Master of Architecture degree (MArch) at CU Denver and pursue a professional career in architecture. In addition to offering a strong foundation in architecture, both the Architectural Design and the Architectural Studies tracks prepare students to pursue graduate studies and future careers in allied design disciplines, including Digital Design (games and animation), Industrial Design, Graphic Design, Landscape Architecture, Urban Design, and Real Estate Development, among others.

Both tracks prepare students for admission to a two-year (minimum) accredited graduate architecture degree program in the United States, Canada, or compatible degree programs internationally. Advanced standing in a Master of Architecture program can be maximized in either track by selecting elective courses in technical studies and professional practice typically recognized by accredited graduate architecture degree programs. **Students should meet with a CAP academic advisor for guidance on determining which track is best suited for their academic and professional goals.**

ACADEMIC ADVISING

SAMPLE ACADEMIC PLAN OF STUDY

The following academic plan is a *sample* pathway to completing degree requirements for this major. Students should tailor this plan based on previously completed college coursework (e.g., AP, IB, CLEP, dual/concurrent enrollment, and transfer credit), course availability, and individual preferences related to course load, schedules, or add-on programs such as minors or double-majors. **Students deviating from this plan must fulfill course prerequisites and should meet with a CAP academic advisor to confirm degree requirements.**

Year One	Semester 1		16
	ARCH 1110 Intro. to Architecture		3
	ENGL 1020 Composition I		3
	MATH 1110 College Algebra or MATH 1130 Precalculus		4
	First-Year Experience / CU Denver Core		3
	CU Denver Core		3

Semester 2		15-16
MATH 1120 College Trig. or CU Denver Core Bio/Phys. Sci.		3-4
ARCH 2230 Architectural History I		3

PROGRAM REQUIREMENTS & POLICIES

Students are responsible for meeting with a CAP academic advisor to confirm degree requirements and progress made toward degree completion. Students fulfilling the BS ARCH degree are required to complete the following minimum program requirements (full information available at catalog.ucdenver.edu):

- 1) Students must complete a minimum of 120 credit hours.
- 2) Students must maintain at least a 2.0 University of Colorado cumulative grade point average to remain in good standing.
- 3) A total of at least 39 upper-division (3000/4000 level) credits is required.
- 4) Students must complete a minimum of 30 credit hours from CU Denver, including at least three design studios.
- 5) Students must repeat *required* architecture core courses in which a grade lower than C- is earned in order to fulfill requirements. CAP electives are not included; see degree plan for more details.
