**PROGRAM OVERVIEW**

The Department of Architecture at the University of Colorado Denver offers a Bachelor of Science in Architecture degree program on the downtown Denver campus. The program’s design studio-based curriculum combines critical thinking with active making in pursuit of creative solutions to contemporary design problems. In their first three years of study, students learn the fundamentals of design, how to apply them to the design of buildings, neighborhoods, and cities, and how to graphically communicate a design solution. In their senior year, students have the option to choose one of two curricular tracks: The **Architectural Design Track** and the **Architectural Studies Track**.

The **Architectural Design Track** is for students who intend to pursue a professional Master of Architecture degree (MArch) and a professional career in architecture. This track optimally prepares students for admission to a two-year accredited graduate architecture degree program in the United States, Canada, or compatible degree programs internationally.

The **Architectural Studies Track** offers students a less prescribed path, with greater freedom to shape the direction of their studies in the senior year. Based on individual interests and projected career paths, students who choose this track will have the opportunity to focus on one or more areas of study in architecture and/or allied disciplines. These include architectural history/theory, technology, and/or visualization, among other options.

In addition to offering a strong foundation in architecture, both the Architectural Design and the Architectural Studies tracks prepare students to pursue graduate studies and future careers in allied design disciplines, including Digital Design (games and animation), Industrial Design, Graphic Design, Landscape Architecture, Urban Design, and Real Estate Development, among others.

Whereas students who choose the **Architectural Design Track** are optimally prepared for admission to a two-year accredited graduate architecture degree, students who choose the **Architectural Studies Track** and later in their careers decide to pursue a professional graduate degree in architecture, they may be required to take additional courses at the graduate level, including additional design studios, to meet the stringent requirements of a professional Master of Architecture degree.

**ACADEMIC ADVISING**

Fully admitted students in the BS ARCH program are supported by undergraduate advising housed within CAP Student Services. Pre-Architecture (CLAS) students are supported by advisors in the Academic Success and Advising Center.

**SAMPLE ACADEMIC PLAN OF STUDY**

The following academic plan is a sample pathway to completing degree requirements for this major. Students should tailor this plan based on previously completed college coursework (e.g., AP, IB, CLEP, dual/concurrent enrollment, and transfer credit), course availability, and individual preferences related to course load, schedules, or add-on programs such as minors or double-majors. Students deviating from this plan must fulfill course prerequisites and should meet with a CAP academic advisor to confirm degree requirements.
ARCHITECTURE – Architectural Design
Bachelor of Science (B.S.) – Catalog Year 2021-2022

Year Three
Semester 5  15
ARCH 3111 Design Studio III  6
ARCH 3130 Construction Practices: Material & Structural Systems  3
CAP Elective  3
CU Denver Core  3

Semester 6  15
ARCH 3121 Design Studio IV  6
ARCH 3430 Construction Practices: Building Envelope  3
ARCH 36XX History/Cultural Elective  3
CU Denver Core  3

Year Four
Semester 7  15
ARCH 4111 Design Studio V  6
ARCH 3340 Theory of Structures I  3
General Elective  3
General Elective  3

Semester 8  15
ARCH 4121 Design Studio VI  6
ARCH 3330 Building Systems I  3
General Elective  3
General Elective  3

Program Requirements & Policies
Students are responsible for meeting with a CAP academic advisor to confirm degree requirements and progress made toward degree completion. Students fulfilling the BS ARCH degree are required to complete the following minimum program requirements (full information available at catalog.ucdenver.edu):

1) Students must complete a minimum of 120 credit hours.
2) Students must maintain at least a 2.0 University of Colorado cumulative grade point average to remain in good standing.
3) A total of at least 45 upper-division (3000/4000 level) credits is required.
4) Students must complete a minimum of 30 credit hours from CU Denver, including at least three design studios.
5) Students must repeat required architecture core courses in which a grade lower than C- is earned in order to fulfill requirements. ARCH and CAP electives are not included; see degree plan for more details.

CAP Electives  
Any ARCH / LDAR / UPRL / HIPR courses numbered 3000-4999 NOT listed above.  
6  
Check individual courses for pre-requisites; please consult CAP Advising to discuss applicable transfer coursework.

| Total Program Hours: | 120 |

*Course reserved for fully admitted BS ARCH students, only.

**CAREER RESOURCES**

Are you interested in learning about career and occupational options for this major? Visit the CU Denver Career Center located in the Tivoli Student Union (TV) Suite 267, 303-315-7315 to speak with a career counselor. Admitted BS ARCH students are also encouraged to connect with CAP’s career and professional resource to discuss individual career goals; please call 303-315-1000 to arrange an appointment. Additional resources may be found at [www.onet.org](http://www.onet.org), [www.ncarb.org](http://www.ncarb.org), and [www.aia.org](http://www.aia.org).
