

# PBHL 3001 (EPI) I-PREP

Be ahead of the game!

Strengthen your foundational knowledge of scientific reasoning, fraction manipulation, mathematical reasoning, and help you become more confident in your abilities.

## Who needs I-Prep?

- Students who are enrolled in PBHL 3001: Intro to Epidemiology

**FREE FOR CU DENVER STUDENTS!**

## How to sign up

- Sign up through **Navigate**
- Visit **Virtual Front Desk**
- Zoom ID provided after registration

## Friday, January 15

**Part 1:** 10:00am - 1:00pm  
**Part 2:** 2:00pm - 5:00pm

## Saturday, January 23

**Part 1:** 9:30am - 12:30pm  
**Part 2:** 1:30pm - 4:30pm

*Highly recommended to complete both Parts 1 & 2. Both parts do not have to be on same date.*

## Part 1 Topics

- Fraction Manipulation
- 2x2 Tables

## Part 2 Topics

- Scientific Methods and Study Design
- Word Problems Practice
- Study Tips

## Benefits of I-Prep

- Work with peers to learn key concepts and complete practice problems similar to those in class.
- Meet your network of classmates and LRC's tutors, and opportunity to form study groups
- Build transferable study strategies
- Receive additional course-related materials to reference throughout the semester

For additional support during the semester, please take advantage of the free SI, tutoring, study skills workshops, and other services. Visit our **website** for more info/to sign up.

# CHEM I-PREP

Be ahead of the game!

Take advantage of I-Prep (Intense Preparation) sessions to refresh your understanding of foundational knowledge in chemistry and become more confident in your abilities.

## Who needs I-Prep?

- Students enrolled in CHEM 2031 or CHEM 1000
- Students preparing to take the GCAT

## How to sign up

- Sign up through **Navigate**
- Visit **Virtual Front Desk**
- Zoom ID provided after registration

### January 13th

**Part 1:** 11:30am - 3:00pm  
**Part 2:** 4:00pm - 7:30pm

### January 14th

**Part 1:** 9:30am - 1:00pm  
**Part 2:** 2:00pm - 5:30pm

### January 16th

**Part 1:** 9:30am - 1:00pm  
**Part 2:** 2:00pm - 5:30pm

*Completing both Parts 1 & 2 is highly recommended. Choose any convenient combo of Part 1 & 2.*

## Part 1 Topics

- Significant Figures
- SI Units
- Dimensional Analysis
- Chemical Formulas
- Atomic Number vs Mass
- Virtual Study Tips

## Part 2 Topics

- Naming Chemical Compounds
- Molar Mass
- Avogadro's Number
- Interconverting between Grams, Moles, Molecules & Atoms
- Percent Mass
- Balancing Chemical Equations
- Stoichiometry
- Limiting Reagent

## Benefits of I-Prep

- Work with peers to learn key concepts and complete practice problems similar to those in class.
- Meet your network of classmates and LRC's tutors, and opportunity to form study groups

"It was very helpful, I feel more prepared to take this class."  
"I had been in fear of the topics for years until today."

For additional support during the semester, please take advantage of the free SI, tutoring, study skills workshops, and other services. Visit our **website** for more info/to sign up.
