

## Student Practicum and Capstone COVID-19 Vaccination Requirements Preceptor Form

Instructions: The Colorado School of Public Health prioritizes the health and safety of our students and community partners. Given the current COVID-19 pandemic, we are requiring the following document be completed and signed by preceptors as a part of the practicum or capstone application process. Please read the following information, answer the questions, and sign. If you have any questions, please contact Mary K. Dinger, PhD, Faculty Director of Practice-based Learning ([mary.dinger@cuanschutz.edu](mailto:mary.dinger@cuanschutz.edu)).

### Colorado School of Public Health COVID-19 Vaccination Policy Information

All Colorado School of Public Health students must submit proof of completed World Health Organization (WHO) COVID-19 vaccination or a ColoradoSPH approved medical exemption, to participate in any in-person practicum or capstone educational activities. If a student fails to submit proof of a completed COVID-19 vaccination or receive an approved exemption, they will not be allowed to enroll in practicum or capstone courses. For the Colorado School of Public Health, these requirements apply to all students regardless of their home campus (i.e., University of Colorado Anschutz Medical Campus; Colorado State University; University of Northern Colorado).

Students who are granted a medical exemption will be required to adhere to additional safety protocols at their practicum and capstone site and with any in-person course sessions including, but not limited to: wearing masks, social distancing, staying home when sick, quarantining in accordance with up-to-date CDC guidance, submitting CU Anschutz or practicum/capstone site daily attestations, and undergoing asymptomatic testing (at the frequency required by CU Anschutz) at the individual's own cost and expense. Additionally, all ColoradoSPH affiliated practicum and capstone partners may reserve and exercise their right to decline or rescind a student's clinical, practicum, capstone or other educational activity placement - if that partner requires vaccination against COVID-19 and the student is unwilling or unable to provide verification of vaccination to that partner.

**Preceptor Question 1:** Will ColoradoSPH practicum/capstone students be required to provide verification of a completed COVID-19 vaccination to your organization/agency?

Yes  No

**Preceptor Question 2:** Will your organization/agency accept a medical exemption approved by the ColoradoSPH, in lieu of verification of a completed COVID-19 vaccination? Please note that students with a medical exemption will be required to adhere to additional safety protocols at their practicum and capstone site (as stated above).

Yes  No

**Preceptor Question 3:** Which of the following best describes how the student will engage in practicum or capstone educational activities with your organization/agency?

- Online/virtual only → the student will **NOT** be participating in-person for any practicum or capstone educational activities (not even one meeting)
- In-Person → the student will be participating in-person for some or all of their practicum or capstone educational activities

If you answered **online/virtual only**, please know that the student will be asked to notify the course instructor and obtain approval from the Associate Dean for Academic and Student Affairs regarding any changes from online/virtual only to in-person practicum or capstone activities.

Please contact Faculty Director of Practice-Based Learning, Dr. Mary Dinger ([Mary.Dinger@cuanschultz.edu](mailto:Mary.Dinger@cuanschultz.edu)) if you have additional questions about COVID-19 safety protocols for practicum and capstone students.

**Student Question 1:** Does your practicum/capstone organization/agency require ColoradoSPH practicum/capstone students to provide verification of a completed COVID-19 vaccination?

Yes  No

**Student Question 2:** Will your practicum/capstone organization/agency accept a medical exemption approved by the ColoradoSPH, in lieu of verification of a completed COVID-19 vaccination? Please note that students with a medical exemption will be required to adhere to additional safety protocols at their practicum and capstone site (as stated above).

Yes  No

**Student Question 3:** Which of the following best describes how you will engage in practicum or capstone educational activities with your organization/agency?

- Online/virtual only → I will **NOT** be participating in-person for any practicum or capstone educational activities (not even one meeting)
- In-Person → I will be participating in-person for some or all of my practicum

If you answered **online/virtual only**, you agree to notify the course instructor, obtain approval from the Associate Dean for Academic and Student Affairs, and provide COVID-19 vaccination verification or an approved exemption, prior to engaging in any in-person practicum or capstone activities.

- I agree     I do not agree

**PLEASE NOTE:** Adherence to all CU Anschutz and Colorado School of Public Health requirements and guidelines related to COVID-19 vaccination is considered an aspect of Professional Conduct addressed in the Colorado School of Public Health Honor and Conduct Code. Violations of these protocols may result in immediate consequences and honor code proceedings.
