A lecture for students involving viewing, reading, and discussion of conventions of post 1945 art including painting, photography, sculpture, installation, multi-media and other. 
Prereq: FINE 2600 and FINE 2610. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4800 - Senior Art Seminar**

*Summer 2010 Registration F A 4800*
Required of Fine Arts majors in the B.F.A. and B.A. studio degree tracks majoring in Painting/Drawing, Photography or Sculpture. Course work covers research into professional practices, business practices, creative practice and career development. 
Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: 90 credits completed, 45 credits in fine arts; open to UCD Fine Arts Majors only. Cross-listed with FINE 5800. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 27 Hours**

**Drawing Emphasis Courses**

**FINE 2000 - Life Drawing**

*Summer 2010 Registration F A 2000*
This course introduces the student to the human figure, addressing anatomy, movement and proportion. Discussion of historic and contemporary critical methods supplement studio practice. Exploring a variety of drawing media, students expand their drawing skills and relate the principles of composition and design to figure drawing. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1100, 1400. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3000 - Intermediate Drawing**

*Summer 2010 Registration F A 3000*
In this course students develop an artistic voice through the creation of a series of work that stretch a chosen concept. Students will explore complex approaches to the picture
plane and search our unique motifs, juxtapositions and frames of reference. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2020, 2015, 2100, 2600, 2610. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3310 - Drawing and the Printed Image**

*Summer 2010 Registration* F A 3310

Relationships between history of drawing and technology will be explored in this course. Students will produce mixed media drawings that utilize different types of technology as a tool in the creation of or as inspiration for fine art drawings. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2600, 2610. **Semester Hours:** 3 to 3

**When Offered:** FALL

Registration is changing. Visit our website for details ucdenver.edu/registration.

or

**FINE 4020 - Anatomy for the Artist**

*Summer 2010 Registration* F A 4020

An intensive study of the human figure, focusing on its structure, movement and proportions. Skeletal and muscular systems are explored in depth using the classic texts of artistic anatomy to enhance students' drawings from observation. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2020, 2100, 2600, 2610, 3000, 3310. Cross-listed with FINE 5020. **Semester Hours:** 3 to 3

**When Offered:** SPRING

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4000 - Advanced Drawing I**

*Summer 2010 Registration* F A 4000

This course is the first advanced level study of drawing. Students will explore techniques and develop a rigorous body of drawings that express their concepts and theories through various processes needed in creating an independent body of work. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2020, 2100, 2600, 2610, 3000, 3230, 3310. Cross-listed with FINE 5000. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

____ - Upper-division Art History Elective (3 semester hours)
Visual Arts Electives (6 semester hours) May include studio, lecture, internship or art history

Total: 21 Hours

Painting Emphasis Courses

FINE 2200 - Painting I

Summer 2010 Registration F A 2200
This course is an introduction to the language of painting. Students will learn to develop composition in layers, working from value to color and from direct observation to abstraction while exploring the range of visual possibilities that painting offers. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1600. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 2210 - Painting II: Figure Painting

Summer 2010 Registration F A 2210
This course is an exploration of representing the human form in pictorial space. Students will gain a knowledge of figural color, proportion, scale and space; and will understand the conceptual and visual weight carried by expressive gesture and figural form. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1600, 2000, 2200, 2600. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3200 - Intermediate Painting I

Summer 2010 Registration F A 3200
In this course, students develop an awareness of historical and contemporary artistic practice. Students create works that stretch a chosen concept, with focus on the study of painterly "Space - deep", shallow, foreshortened, ambiguous, fragmented and in dialog with actual space. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2200, 2210, 2600, 2610. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3210 - Intermediate Painting II
Summer 2010 Registration  F  A  3210
In this course, students develop an awareness of historical and contemporary artistic practice. Students will create works that stretch a chosen concept, with focus on a study of narrative "Approaches - including" symbolism, metaphor, juxtaposition, allegory, drama and stilled time. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 200, 2210, 2600, 2610, 3200. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 4200 - Advanced Painting I

Summer 2010 Registration  F  A  4200
This course is the advanced level study of painting where students are to create an independent body of work that expresses an individual vision and direction based on the cumulative experiences and knowledge gained from previous painting and drawing courses. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600 Painting Methods and Materials, 2000 Life Drawing, 2015 Intermedia, 2200 Painting I, 2210 Painting II: Figure, 2600-2610, Art Survey I & II, 3200 Intermediate Painting I, 3210 Intermediate Painting II, 3240 Abstract Painting, 3300 Painting and the Printed Image, 4100 Painting and Drawing Theory & Practice. Cross-listed with FINE 5200. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

_____ - Upper-division Art History Elective (3 semester hours)
_____ - Visual Arts Elective (3 semester hours) *May include studio, lecture, internship or art history*

**Total: 21 Hours**

Photography Emphasis Courses

FINE 1150 - Introduction to Photography

Summer 2010 Registration  F  A  1150
Students learn traditional, film-based photographic practice. Topics such as camera functions, film processing, black and white darkroom printing, color theory and alternative darkroom techniques are explored through demonstrations, critiques, readings and discussions of historical and contemporary photography. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
FINE 2155 - Introduction to Digital Photography

Summer 2010 Registration F A 2155
Students learn digital image manipulation, input and output strategies, and digital camera functions through assignments that emphasize conceptual development. Presentations, readings, projects and class discussions help students gain an understanding of the role of digital imaging in contemporary photography. Prereqs: FINE 1150. Priority given to Photography Majors and Minors. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3160 - Color and Studio Lighting

Summer 2010 Registration F A 3160
Students explore traditional color photography, studio lighting, concept development, critical thinking, and expressive uses of the medium. Topics include chromogenic printing, color theory, 4x5 technique and studio lighting. Students gain insight into the creative impact of color on photographic representation. FINE 1150, FINE 2155. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3161 - The Silver Fine Print

Summer 2010 Registration F A 3161
Students learn advanced black and white darkroom techniques while translating ideas into photographic form. Techniques include the zone system, split filter printing, toning, montage printing, and film/paper choices. Students gain insight into photographic artists, techniques, and movements. Prereq: FINE 1150, FINE 2155. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration. Note: must be completed before 3171

FINE 3162 - The Digital Fine Print

Summer 2010 Registration F A 3162
Students learn the fine art of digital printing as it relates to photographic practice and theory. Assignments focus on conceptual development, advanced image manipulation, workflow, and color management. Students gain insight into the role of digital imaging in contemporary photography. Prereq: FINE 1150, FINE 2155. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100,
FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3 to 3  
**When Offered:** FALL  
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3171 - Concepts and Processes in Photography  

_Summer 2010 Registration F A 3171_  
Students develop skills in alternative photographic techniques. Processes covered include cameraless and pinhole photography, reticulation, non-silver printing, enlarged negatives, liquid emulsions and digital/traditional cross-manipulation. Students gain insights into the relationship between ideas and experimental ways of creating images.  
Prereq: FINE 1150, FINE 2155, FINE 3161. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3 to 3  
**When Offered:** SPRING  
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3630 - History of Photography  

_Summer 2010 Registration F A 3630_  
Students examine the history of photography from its origins to the present. Emphasis is placed on photography as an artistic medium. Topics covered include important movements, photographers, and technical innovations, as well as photographer's broader role in visual culture. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 21 Hours**

**Sculpture Emphasis Courses**

FINE 2500 - Bronze Casting and Metal Sculpture  

_Summer 2010 Registration F A 2500_  
Students learn lost wax casting with ceramic shell investment and bonded sand. Modeling, foundry work, centrifugal casting and welding for cast metal is introduced, as is steel fabrication and mixed media. Individual vocabularies are explored and design skills required. Prereq: FINE 1500. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.
FINE 3500 - Modeling and Casting the Figure

*Summer 2010 Registration F A 3500*

Study of the human figure from life and imagination directs visual vocabulary towards expression three dimensionally. Mold making using rubber, alginate and plaster is introduced for casting in metal, resin, synthetics, plastic, paper and biodegradable materials. Drawing is included. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610, FINE 2500, FINE 2510. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3510 - Installation Art

*Summer 2010 Registration F A 3510*

Students learn to modify the way a particular space is experienced through material intervention in everyday public or private spaces. Material use ranges from everyday and natural materials to new media such as video, sound, performance, computers and the Internet. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 4500 - Kinetic Sculpture

*Summer 2010 Registration F A 4500*

Students explore movement and balance in sculptural work using pivot points and motors. Sound, projection, sensors and mechanics provide cause and effect scenarios in conjunction with knowledge, materials, and techniques acquired to date in the program. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

- Upper-division Art History Elective (3 semester hours)
- Visual Arts Electives (6 semester hours) *May include studio, lecture, internship or art history*

**Total: 21 Hours**

**Fine Arts BFA — 3D Graphics and Animation, Digital Design, Drawing,**
Painting, Photography, Sculpture, Transmedia

All students pursuing a BFA in fine arts must complete 28 semester hours of visual arts courses and also select an emphasis area, consisting of 54 additional semester hours. Students interested in pursuing a double emphases (e.g., emphases in drawing and painting) are encouraged to consult a College of Arts & Media advisor to discuss required courses.

General Requirements

- All major courses within the major must be completed with a C (2.0) or better.
- All upper-division visual arts courses must be taken at UC Denver unless approved otherwise by visual arts faculty.
- 27 semester hours of visual arts credits (at any level) must be taken at UC Denver.
- 25 semester hours of total visual arts courses must be upper-division.

Students must also follow the College of Arts and Media's general degree requirements.

Required Visual Arts Courses

To be completed by all BFA-seeking students:

FINE 1015 - Interdisciplinary Foundations

*Summer 2010 Registration F A 1015*

Students will work across 2-D, 3-D, and 4-D media to develop interdisciplinary skills, strategies and methodologies for investigating contemporary ideas informed by theories of visual culture. Critical concepts are integrated into creative production through projects, research assignments, critiques and presentations. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 1100 - Drawing I

*Summer 2010 Registration F A 1100*

This course explores the act of drawing as a process of visual thought as an initial step to artistic expression. Students will develop an understanding of the basic principles of
drawing as a way of learning to see. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 1400 - Two Dimensional Design**

*Summer 2010 Registration F A 1400*

Focuses on the concepts and visual elements of all forms of two-dimensional art. Students gain an understanding of basic design principles as they analyze and visually articulate formal concerns in viewing contemporary and historical artworks as applied to studio problems. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 1500 - Three-Dimensional Design**

*Summer 2010 Registration F A 1500*

Students explore the elements of art and the principles of design applied to three-dimensional design while developing an understanding of material properties, techniques, processes and tools. Creative practice is accompanied by written, theoretical and verbal critical thinking skills. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 2015 - Intermedia Foundations**

*Summer 2010 Registration F A 2015*

Students will develop techniques, strategies and methodologies for investigating contemporary ideas informed by theories of visual culture while implementing critical concepts into creative production centered in digital media. Course work includes creative projects, research assignments, critiques and presentations. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 2600 - History of Art I (Survey)**

*Summer 2010 Registration F A 2600*

(This course is an approved Colorado Statewide Guaranteed Transfer Course). Overview of various cultures of humankind from cave painting to the Renaissance. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-AH1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 2610 - History of Art II (Survey)**

*Summer 2010 Registration F A 2610*

Survey of various cultures of humankind from the Renaissance to the present. **Semester**
**Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3600 - Art History Survey III: Non-Western Art**

*Summer 2010 Registration F A 3600*
Introduces the art of non-western cultures through a survey of diverse cultures. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4990 - Contemporary Art - 1945 To the Present**

*Summer 2010 Registration F A 4990*
A lecture for students involving viewing, reading, and discussion of conventions of post 1945 art including painting, photography, sculpture, installation, multi-media and other. Prereq: FINE 2600 and FINE 2610. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4950 - BFA Thesis**

*Summer 2010 Registration F A 4950*
The BFA thesis course involves the preparation, exhibition and critical faculty response to creative work and self-promotional materials as developed by graduating seniors on the B.F.A. degree track. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: 90 credits completed, 45 credit in fine arts; open to UCD Fine Arts Majors only. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 28 Hours**

**3D Graphics and Animation Emphasis Courses**

The digital animation center (DAC) program at the University of Colorado Denver is a competitive and rigorous four-year curriculum focused on preparing students to work in a wide variety of fields that use animated digital computer graphics (CG), including entertainment, film and television, gaming, medicine and science. Tuition rates in the 13 DAC classes are set higher than most undergraduate UC Denver courses due to the nature of the equipment, computing and software requirements of the program. At the time of this publication, tuition for FINE 1810 and FINE 1820 is $1533.00 per course. Tuition for the other eleven courses is $4050.00 per course. Students should refer to the course information listed on the University of Colorado Denver Web site for any changes in the current tuition rate for all DAC courses.
In order to maintain the highest standards of excellence for the UC Denver DAC, acceptance into the DAC core cadre comes at the end of the first year and is competitive by portfolio review. To be considered, students are required to take the first two courses in the DAC curriculum, FINE 1810 and FINE 1820. These two courses are open to all College of Arts & Media and UC Denver students with permission of the DAC. Students wishing to enroll in the DAC’s entry level courses must contact DAC faculty member Howard Cook at howard.cook@ucdenver.edu or the College of Arts & Media Advising office at CAMadvising@ucdenver.edu to be able to register.

**DAC Entry Courses (open enrollment):**

**FINE 1810 - Digital Animation Foundations: Producing Animation**

*Summer 2010 Registration F A 1810*

A lecture/lab course that explores the theory, practices and fundamentals of producing 3D animation. Students will explore the foundations of the animation process including the production pipeline, studio organizations, traditional animation techniques, foundational cinematography, storyboarding and character development. Note: Offered through Extended Studies (Continuing and Professional Education) due to separate tuition structure. Acceptance to the Digital Animation Center is competitive by interview/portfolio review with the Area Head for the program. Prereq: A basic knowledge of computer operating systems. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 1820 - Digital Animation Foundations: Introduction to Digital 3D**

*Summer 2010 Registration F A 1820*

A lecture/lab course that explores the foundations of creating digital 3D content. Primary focus is an introduction to current 3D software. Class lectures, demonstrations and hands-on application will expose the student to the expectations for commercial high-end 3D animation production. Note: Offered through Extended Studies (Continuing and Professional Education) due to separate tuition structure. Acceptance to the Digital Animation Center is competitive by interview/portfolio review with the Area Head for the program. Prereq: A basic knowledge of computer operating systems. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**DAC Core Cadre Course Work (acceptance into the DAC Core Cadre is competitive through portfolio review):**
FINE 2810 - Digital Animation Techniques: Surface Modeling

Summer 2010 Registration F A 2810
A lecture/lab course focused on the mastery of creating surface models for digital 3D content. Students will develop skills/knowledge about the processes and techniques for building complex 3D objects with an emphasis on artistic excellence through application of current 3D technologies. Note: Offered through Extended Studies (Continuing and Professional Education) due to separate tuition structure. Acceptance to the Digital Animation Center is competitive by interview/portfolio review with the Area Head for the program. Prereq: FINE 1810, 1820 and acceptance into the Digital Animation Center Animation Program. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 2820 - Digital Animation Techniques: Surface Properties

Summer 2010 Registration F A 2820
A lecture/lab course focused on mastery of creating surface textures/materials for digital 3D content. Students will develop skills/knowledge about the processes and techniques for creating realistic 3D textures/materials with an emphasis on artistic excellence through application of current 3D technologies. Note: Offered through Extended Studies (Continuing and Professional Education) due to separate tuition structure. Acceptance to the Digital Animation Center is competitive by interview/portfolio review with the Area Head for the program. Prereq: FINE 1810, 1820 and acceptance into the Digital Animation Center Animation Program. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 2830 - Digital Animation Techniques: Lighting

Summer 2010 Registration F A 2830
A lecture/lab course focused on mastery of lighting the digital 3D environment. Students will develop skills/knowledge about the processes and techniques for creating realistic 3D lighting/lighting effects with an emphasis on artistic excellence through application of current 3D technologies. Note: Offered through Extended Studies (Continuing and Professional Education) due to separate tuition structure. Acceptance to the Digital Animation Center is competitive by interview/portfolio review with the Area Head for the program. Prereq: FINE 2810, 2820, and acceptance into the Digital Animation Center Animation Program. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 2850 - Digital Animation Techniques: 3D Character Creation

Summer 2010 Registration F A 2850
A lecture/lab course focused on mastery of skills for creating digital 3D characters.
Students will develop skills/knowledge to shape, mold, transform/articulate, deform digital 3D shapes creating digital characters with an emphasis on artistic excellence through application of current 3D technologies. Note: Offered through Extended Studies (Continuing and Professional Education) due to separate tuition structure. Acceptance to the Digital Animation Center is competitive by interview/portfolio review with the Area Head for the program. Prereq: FINE 2810, 2820 and acceptance into the Digital Animation Center Animation Program. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3810 - Digital Animation Studio: Set/Environment Design

Summer 2010 Registration F A 3810
A mid-program capstone studio course focuses on developing a project from preproduction through final product using a standard production pipeline model within a collaborative work environment. Students will design and create high-production value CG set/environment utilizing current 3D technologies. Note: This course is required for all DAC students entering year four of the animation emphasis. It is also open to all visual arts students, subject to course instructor approval, with a sophomore or greater standing. Coreq: FINE 2830, 2850 and Acceptance into the Digital Animation Center Animation Program. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3820 - Digital Animation Techniques: Rigging and Animation

Summer 2010 Registration F A 3820
A lecture/lab course focused on mastery of skills for rigging and animating digital 3D objects/characters. Students explore the processes/techniques of animation rigging, its relationship to the skeletal/muscular system, articulated joints for manipulating character bones, muscle deformations, clothes and facial features Note: Offered through Extended Studies (Continuing and Professional Education) due to separate tuition structure. Acceptance to the Digital Animation Center is competitive by interview/portfolio review with the Area Head for the program. Prereq: FINE 2830, 2840 and acceptance into the Digital Animation Center Animation Program. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3830 - Digital Animation Technique: Character Animation

Summer 2010 Registration F A 3830
A lecture/lab course focused on mastery of skills for animating digital 3D objects/characters. Students explore the process/techniques of key frame/pose-to- pose animating considering character performance, thought, constraints and velocity with an emphasis on artistic excellence through applications of current 3D technologies. Note: Offered through Extended Studies (Continuing and Professional Education) due to separate tuition structure. Acceptance to the Digital Animation Center is competitive by
interview/portfolio review with the Area Head for the program. Prereq: FINE 3810, 3820 and acceptance into the Digital Animation Center Animation Program. **Semester Hours:** 3to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3845 - Digital Animation Discovery and Preproduction Seminar**

*Summer 2010 Registration F A 3845*
A seminar course focused on the development and preproduction phases for the DAC senior thesis short. The principle focus of the course will be story development, preproduction activities and organizing the production team and production pipeline for the thesis short. Note: this course is required for all DAC students entering year four of the animation emphasis. It is also open to all visual arts students, subject to course instructor approval, with a sophomore or greater standing. Coreq: FINE 3830 and 3850 for all DAC thesis students. All other visual arts students, sophomore or greater, with permission of instructor. **Semester Hours:** 3to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3850 - Digital Animation Techniques: Dynamic Simulation**

*Summer 2010 Registration F A 3850*
A lecture/lab course exploring the theory/techniques of dynamic and particle simulations for 3D content. Students explore how to develop effects (smoke, fire, steam, explosions) and dynamic materials (cloth), with an emphasis on artistic excellence through application of current 3D technologies. Note: Offered through Extended Studies (Continuing and Professional Education) due to separate tuition structure. Acceptance to the Digital Animation Center is competitive by interview/portfolio review with the Area Head for the program. Prereq: FINE 3810, 3820 and acceptance into the Digital Animation Center Animation Program. **Semester Hours:** 3to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4810 - Digital Animation Studio: Animation Production I**

*Summer 2010 Registration F A 4810*
A mid-program capstone studio course focuses on developing a project from reproduction through final product using a standard production pipeline model within a collaborative work environment. Students will design and create high-production value CG set/environment utilizing current 3D technologies. Note: This course is required for all DAC students entering year four of the animation emphasis. It is also open to all visual arts students, subject to course instructor approval, with a sophomore or greater standing. Coreq: FINE 3830, FINE 3845, FINE 3850, and acceptance into the Digital Animation Center Animation Program. **Semester Hours:** 3to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.
FINE 4820 - Digital Animation Studio: Animation Production II

*Summer 2010 Registration F A 4820*

The continuation of the two-course capstone production experience preparing DAC students for their animation career. Students will work in a one-on-one mentorship environment focused on completion of the BFINE thesis short and their student "Demo Reel" in preparation for graduation. Note: Offered through Extended Studies (Continuing and Professional Education) due to separate tuition structure. Acceptance to the Digital Animation Center is competitive by interview/portfolio review with the Area Head for the program. Prereq: FINE 4810 and acceptance into the Digital Animation Center Animation Program. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

The following courses are required for 3D animation majors, but are offered at the standard UC Denver tuition rates:

**ENGL 2250 - Introduction to Film**

*Summer 2010 Registration ENGL 2250*

Introduces students to the critical study of cinema as an art form and a cultural phenomenon. Topics include cinematography, editing, mise-en-scene and sound; the connections between cinema and related art forms; film genres; the social dimensions of film production and reception; and films by such key filmmakers as Alfred Hitchcock, Maya Deren and Spike Lee. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4632 - Media History and Aesthetics**

*Summer 2010 Registration F A 4632*

This survey class will present the current and historic impact of media technology on the arts and professional design practice. Through lectures, research and discussion students will become familiar with issues specific to digital media and design. Prereq: Digital Design majors: FINE 3410, portfolio review or permission of instructor. Cross-listed with FINE 5632. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

- Visual Arts Electives (9 semester hours) *May include studio, lecture, internship or art history*

**Total: 54 Hours**
Digital Design Emphasis Courses

Admission into the BFA digital design program or the digital design minor is by portfolio review. This review process occurs April 1 or November 1 (or on the following business day if the deadline falls on a weekend or holiday) during a student’s sophomore year after a student has met the following eligibility criteria:

University of Colorado Denver Students

- You have completed, or are in the process of completing, the following Foundation Studio classes: FINE 1100, FINE 1400, FINE 2015, FINE 2405 and FINE 2415 (FINE 2405 and FINE 2415 should be taken after a student’s freshman year and are offered only in fall semester).
- A cumulative fine arts GPA of 2.75.

Transfer Students

- You have completed, and are transferring, a minimum of 24 semester hours from a previous institution.
- You have completed, or are in the process of completing, the equivalents of the following foundation studio classes: FINE 1100, FINE 1400, FINE 2405 and FINE 2415.
- A cumulative fine arts GPA of 2.75.

Students who are applying for entrance into the digital design program or minor are required to submit a portfolio that consists of (1) a written statement, (2) a designed portfolio on CD-ROM or DVD and (3) unofficial transcript(s) from all previous post-secondary education institutions with the understanding that digital design is a fall start program. Upon acceptance into the digital design program, students may register for upper-division digital design classes.

Please contact CAMadvising@ucdenver.edu for program and portfolio information, or contact the Digital Design Area Head Brian DeLevie at brian.delevie@ucdenver.edu.

Note that Digital Design offers FINE 3438, FINE 3441 and FINE 4434 to all majors.

Emphasis Course Requirements:

FINE 2405 - Introduction to Digital Design

Summer 2010 Registration F A 2405
A project-based exploration of the design potentials of vector, raster and motion based digital media. Through project critiques, discussion and demonstration students will create projects that examine technology as an art medium and a design strategy. Note:
Priority seating given to Digital Design and Transmedia majors. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 2415 - Typography Studio**

*Summer 2010 Registration F A 2415*

A studio course that teaches principles of typography and organization that is the foundation of design and artistic practice. Through drawing, editing, arranging and moving typographic forms, students will create projects that examine how typography is used to create meaning. Note: Priority seating given to Digital Design majors. Prereq: FINE 1400 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3414 - Motion Design I**

*Summer 2010 Registration F A 3414*

A workshop devoted to understanding time based imagery that focuses on utilizing video and motion graphics as a creative communication tool. Students will create projects that explore topics using video, animation, time and motion using a non-linear digital editing software. Note: Priority seating given to Digital Design and Transmedia majors. Prereq: Digital Design majors: passed portfolio review, FINE 2405 and 2415. Digital Design minors: FINE 2405 and 2415. Transmedia: FINE 2405, 2510, 3505 - can be taken concurrently with 3424 and 3438, or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3415 - Design Studio I**

*Summer 2010 Registration F A 3415*

In a design laboratory students learn to turn ideas into visual solutions through the application of design principles. Through lectures, writings, readings, discussion and critiques of projects assigned students will build visual literacy in relation to digital design. Note: Priority seating given to digital design majors. Prereq: Digital Design majors: passed portfolio review, FINE 2405, 2415 can be taken concurrently with 3414 and 3424. Digital Design minors: FINE 2405 and 2415 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3424 - Interactive Media**

*Summer 2010 Registration F A 3424*

A workshop exploring how interactive media can be used to convey a message and deliver information. Through critiques of projects, discussion and research, students will learn principles of user interface design, aesthetics and structure including their potential cultural impact. Note: priority seating given to Digital Design and Transmedia majors.
Prereq: Digital Design majors: passed portfolio review, FINE 2405 and 2415. Digital Design minors: FINE 2405 and 2415. Transmedia: FINE 2405, 2510, 3505 - can be taken concurrently with 3414 and 3438 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3428 - Design Studio II**

**Summer 2010 Registration F A 3428**
In a studio environment students will develop advanced projects using animation, interactivity and motion graphics to create innovative solutions to design problems. Students will learn to apply design theory to practice through discussion, critiques and assigned projects throughout the semester. Prereq: FINE 3410, 3414, 3424 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3434 - 3D Motion Design**

**Summer 2010 Registration F A 3434**
A workshop devoted to 3D as a medium for creating works of art. Through demonstration, discussion, readings and project based explorations, students will learn to navigate and create in the 3D digital environment. Note: Priority seating given to Digital Design and Transmedia majors. Prereq: Digital Design majors: FINE 3410, FINE 3414 and FINE 3424; Digital Design minors and Transmedia majors: FINE 2405, FINE 3414 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3444 - Interactive Media II**

**Summer 2010 Registration F A 3444**
An intense workshop-laboratory devoted to using interactivity as a medium for communicating ideas and information. Through creative investigations, readings and discussions, students will create projects that explore active viewer participation using vector and raster animation, non-linear editing and viewer interaction. Prereq: Digital Design majors: FINE 3410, FINE 3414, FINE 3424, can be taken concurrently with FINE 3434; Transmedia majors: FINE 3414, FINE 3424 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3454 - Motion Design II**

**Summer 2010 Registration F A 3454**
An intense workshop-laboratory devoted to using time and motion as a medium for communicating ideas and information. Through creative investigations, readings and
discussions students will explore linkages between non-linear editing, animation and 3-dimensional animation as used in motion graphics. Prereq: FINE 3434, 3444, and portfolio review. Can be taken concurrently with FINE 3428/3444/3454. Transmedia: FINE 3414, 3424 or permission of instructor. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4400 - Design Studio III**

*Summer 2010 Registration F A 4400*

Set up as a collaborative studio course, students learn to identify problems in the cultural and urban environment and design solutions that address those problems. Through discovery and research students will learn how design can be a catalyst for change. Prereq: Digital Design majors: FINE 3428, FINE 3434, FINE 3444, FINE 3454, can be taken concurrently with FINE 4480, portfolio review or permission of instructor. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4480 - The Practice of Design**

*Summer 2010 Registration F A 4480*

Through lectures, studio visits and research, students will engage the profession and examine the role of the artist as a designer. Projects will focus on resume writing, interview techniques, portfolio and general business practices to prepare students for entering profession or post-graduate studies. Note: Priority seating given to Digital Design majors. Prereq: Digital Design majors: FINE 3428, FINE 3434, FINE 3454, and portfolio review. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4495 - Design Studio IV**

*Summer 2010 Registration F A 4495*

Through critique, research, writing and discussion, students will critically explore a topic and develop professional quality visual solutions. Students will create work that expresses their personal artistic vision in relation to significant contemporary and historical artists and practice. Prereq: Digital Design majors: FINE 4400, FINE 4480, and portfolio review. Prereq/Coreq: FINE 4950 or permission of instructor. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4632 - Media History and Aesthetics**

*Summer 2010 Registration F A 4632*

This survey class will present the current and historic impact of media technology on the
arts and professional design practice. Through lectures, research and discussion students will become familiar with issues specific to digital media and design. Prereq: Digital Design majors: FINE 3410, portfolio review or permission of instructor. Cross-listed with FINE 5632. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 54 Hours

**Drawing Emphasis Courses**

**FINE 1600 - Painting Methods and Materials**

*Summer 2010 Registration F A 1600*

This course introduces students to color theory through an exploration of various painting materials/ techniques including: complex color mixing, preparing surfaces, producing studies utilizing different painting mediums, and writings, lectures, and discussions surrounding the scientific and symbolic nature of color. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1100 Drawing I, 1400 Two-Dimensional Design. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 2000 - Life Drawing**

*Summer 2010 Registration F A 2000*

This course introduces the student to the human figure, addressing anatomy, movement and proportion. Discussion of historic and contemporary critical methods supplement studio practice. Exploring a variety of drawing media, students expand their drawing skills and relate the principles of composition and design to figure drawing. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1100, 1400. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 2020 - Drawing II: Spatial Thinking and Visualization**

*Summer 2010 Registration F A 2020*

Building on skills learned in FINE 1100, students explore complex problems in the representation of space. Perceptual and constructed perspective is utilized to create real and invented form. The Golden Mean is studied in master artworks and translated into effective compositions. Note: Students missing the first 2 classes of this course may be
FINE 2100 - The Media of Drawing

Summer 2010 Registration F A 2100
This course introduces students to the notion of drawing from life through an exploration of drawing methods/materials in the creation of artist's books- including learning various binding techniques and studying movement and juxtaposition as we draw in and from these books. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1100 Drawing I, 1400 Two-Dimensional Design. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3000 - Intermediate Drawing

Summer 2010 Registration F A 3000
In this course students develop an artistic voice through the creation of a series of work that stretch a chosen concept. Students will explore complex approaches to the picture plane and search our unique motifs, juxtapositions and frames of reference. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2020, 2015, 2100, 2600, 2610. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3310 - Drawing and the Printed Image

Summer 2010 Registration F A 3310
Relationships between history of drawing and technology will be explored in this course. Students will produce mixed media drawings that utilize different types of technology as a tool in the creation of or as inspiration for fine art drawings. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2100, 2600, 2610. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
FINE 3230 - Abstract Drawing

*Summer 2010 Registration F A 3230*
This course explores abstract drawing as a focus for creative expression through the concept, methods and techniques of abstraction. Students explore strategies in abstract composition, mark-making and expressive use of materials as they develop a complex visual vocabulary of form. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2015, 2600, 2610, 2000, 2020, 2100. **Semester Hours:** 3 **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 4000 - Advanced Drawing I

*Summer 2010 Registration F A 4000*
This course is the first advanced level study of drawing. Students will explore techniques and develop a rigorous body of drawings that express their concepts and theories through various processes needed in creating an independent body of work. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2020, 2100, 2600, 2610, 3000, 3230, 3310. Cross-listed with FINE 5000. **Semester Hours:** 3 **Registration is changing. Visit our website for details ucdenver.edu/registration.**

FINE 4010 - Advanced Drawing II

*Summer 2010 Registration F A 4010*
This course is the second advanced level study of drawing. Students will create a more rigorous and challenging body of work that emphasizes a stylistic development of critical ideas and methodologies that were developed in the first level of advanced drawing. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2020, 2100, 2600, 2610, 3000, 3230, 3310, 4020, 4000, 4100. **Semester Hours:** 3 **Registration is changing. Visit our website for details ucdenver.edu/registration.**

FINE 4020 - Anatomy for the Artist

*Summer 2010 Registration F A 4020*
An intensive study of the human figure, focusing on its structure, movement and proportions. Skeletal and muscular systems are explored in depth using the classic texts of artistic anatomy to enhance students' drawings from observation. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015,
1100, 1400, 1500, 1600, 2000, 2015, 2020, 2100, 2600, 2610, 3000, 3310. Cross-listed with FINE 5020. **Semester Hours:** 3 to 3 **When Offered:** _SPRING_ 
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4100 - Painting & Drawing Theory & Practice**

_*Summer 2010 Registration F A 4100_*
This course focuses on a study of critical art theory from 1900 to now and its effects on art practice. Students read, research, discuss writing, and produce artwork while forming connections between published critical theory and their own creative ideas. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2600, 2610, must have Junior standing, 90 credits completed. **Semester Hours:** 3 to 3 **When Offered:** _FALL_ 
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4800 - Senior Art Seminar**

_*Summer 2010 Registration F A 4800_*
Required of Fine Arts majors in the B.F.A. and B.A. studio degree tracks majoring in Painting/Drawing, Photography or Sculpture. Course work covers research into professional practices, business practices, creative practice and career development. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: 90 credits completed, 45 credits in fine arts; open to UCD Fine Arts Majors only. Cross-listed with FINE 5800. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

____ - Upper-division Art History Elective (3 semester hours)
____ - Studio Arts Electives (9 semester hours)
____ - Visual Arts Electives (6 semester hours) *May include studio, lecture, internship or art history*

**Total: 54 Hours**

**Painting Emphasis Courses**

**FINE 1600 - Painting Methods and Materials**

_*Summer 2010 Registration F A 1600_*
This course introduces students to color theory through an exploration of various painting materials/ techniques including: complex color mixing, preparing surfaces, producing studies utilizing different painting mediums, and writings, lectures, and discussions surrounding the scientific and symbolic nature of color. Note: Students
missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1100 Drawing I, 1400 Two-Dimensional Design. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 2000 - Life Drawing

Summer 2010 Registration F A 2000
This course introduces the student to the human figure, addressing anatomy, movement and proportion. Discussion of historic and contemporary critical methods supplement studio practice. Exploring a variety of drawing media, students expand their drawing skills and relate the principles of composition and design to figure drawing. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1100, 1400. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 2200 - Painting I

Summer 2010 Registration F A 2200
This course is an introduction to the language of painting. Students will learn to develop composition in layers, working from value to color and from direct observation to abstraction while exploring the range of visual possibilities that painting offers. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1600. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 2210 - Painting II: Figure Painting

Summer 2010 Registration F A 2210
This course is an exploration of representing the human form in pictorial space. Students will gain a knowledge of figural color, proportion, scale and space; and will understand the conceptual and visual weight carried by expressive gesture and figural form. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1600, 2000, 2200, 2600. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3200 - Intermediate Painting I

Summer 2010 Registration F A 3200
In this course, students develop an awareness of historical and contemporary artistic practice. Students create works that stretch a chosen concept, with focus on the study of
painterly "Space - deep", shallow, foreshortened, ambiguous, fragmented and in dialog with actual space. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2200, 2210, 2600, 2610. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3210 - Intermediate Painting II**

*Summer 2010 Registration F A 3210*

In this course, students develop an awareness of historical and contemporary artistic practice. Students will create works that stretch a chosen concept, with focus on a study of narrative "Approaches - including" symbolism, metaphor, juxtaposition, allegory, drama and stilled time. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 200, 2210, 2600, 2610, 3200. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3240 - Abstract Painting**

*Summer 2010 Registration F A 3240*

This course introduces the practice of abstract painting as a focus for creative expression and inquiry into the concepts, methods and techniques of abstraction. Students will explore various strategies in abstract composition, expressive use of materials and color interaction. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2200, 2210, 2600, 2610. **Semester Hours:** 3 to 3
**When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3300 - Painting and the Printed Image**

*Summer 2010 Registration F A 3300*

The role of technology in the history of painting will be explored in this course. Students will produce works of art that combine photo-mechanical imagery with the hand painted mark by utilizing different types of technology as a tool in combination with painting. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2200, 2600,
2610. **Semester Hours:** 3 to 3  
**When Offered:** *SPRING*  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4100 - Painting & Drawing Theory & Practice**

*Summer 2010 Registration F A 4100*  
This course focuses on a study of critical art theory from 1900 to now and its effects on art practice. Students read, research, discuss writing, and produce artwork while forming connections between published critical theory and their own creative ideas. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600, 2000, 2015, 2600, 2610, must have Junior standing, 90 credits completed.  
**Semester Hours:** 3 to 3  
**When Offered:** *FALL*  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4200 - Advanced Painting I**

*Summer 2010 Registration F A 4200*  
This course is the advanced level study of painting where students are to create an independent body of work that expresses an individual vision and direction based on the cumulative experiences and knowledge gained from previous painting and drawing courses. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600 Painting Methods and Materials, 2000 Life Drawing, 2015 Intermedia, 2200 Painting I, 2210 Painting II: Figure, 2600-2610, Art Survey I & II, 3200 Intermediate Painting I, 3210 Intermediate Painting II, 3240 Abstract Painting, 3300 Painting and the Printed Image, 4100 Painting and Drawing Theory & Practice. Cross-listed with FINE 5200.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4210 - Advanced Painting II**

*Summer 2010 Registration F A 4210*  
This course is the second advanced level study of painting where students are to create an independent body of work that expresses an individual vision and direction based on the cumulative experiences and knowledge gained from previous painting and drawing courses. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: FINE 1015, 1100, 1400, 1500, 1600 Painting Methods and Materials, 2000 Life Drawing, 2015 Intermedia, 2200 Painting I, 2210 Painting II: Figure, 2600-2610, Art Survey I & II, 3200 Intermediate Painting I, 3210 Intermediate Painting II, 3240 Abstract Painting, 3300 Painting and the Printed Image, 4100 Painting and Drawing Theory & Practice. Cross-listed with FINE 5210.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.
FINE 4800 - Senior Art Seminar

Summer 2010 Registration F A 4800
Required of Fine Arts majors in the B.F.A. and B.A. studio degree tracks majoring in Painting/Drawing, Photography or Sculpture. Course work covers research into professional practices, business practices, creative practice and career development. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: 90 credits completed, 45 credits in fine arts; open to UCD Fine Arts Majors only. Cross-listed with FINE 5800. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 54 Hours

Photography Emphasis Courses

Students must complete the first seven courses listed in the “Required Visual Arts Courses” section and FINE 1150 and FINE 2155 before going on to the upper-division photography courses. FINE 3160, FINE 3161 and FINE 3162 may be completed in any order after having completed FINE 2155. FINE 3161 must be completed before FINE 3171. FINE 3162 must be completed before FINE 3172. FINE 3630 and all 3000-level studio courses must be completed prior to beginning the advanced photography sequence (FINE 4195 and FINE 4196).

FINE 1150 - Introduction to Photography

Summer 2010 Registration F A 1150
Students learn traditional, film-based photographic practice. Topics such as camera functions, film processing, black and white darkroom printing, color theory and alternative darkroom techniques are explored through demonstrations, critiques, readings and discussions of historical and contemporary photography. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 2155 - Introduction to Digital Photography

Summer 2010 Registration F A 2155
Students learn digital image manipulation, input and output strategies, and digital camera functions through assignments that emphasize conceptual development.
Presentations, readings, projects and class discussions help students gain an understanding of the role of digital imaging in contemporary photography. Prereqs: FINE 1150. Priority given to Photography Majors and Minors. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3160 - Color and Studio Lighting**

*Summer 2010 Registration F A 3160*

Students explore traditional color photography, studio lighting, concept development, critical thinking, and expressive uses of the medium. Topics include chromogenic printing, color theory, 4x5 technique and studio lighting. Students gain insight into the creative impact of color on photographic representation. FINE 1150, FINE 2155. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3161 - The Silver Fine Print**

*Summer 2010 Registration F A 3161*

Students learn advanced black and white darkroom techniques while translating ideas into photographic form. Techniques include the zone system, split filter printing, toning, montage printing, and film/paper choices. Students gain insight into photographic artists, techniques, and movements. Prereq: FINE 1150, FINE 2155. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

*Note:* must be completed before 3171

**FINE 3162 - The Digital Fine Print**

*Summer 2010 Registration F A 3162*

Students learn the fine art of digital printing as it relates to photographic practice and theory. Assignments focus on conceptual development, advanced image manipulation, workflow, and color management. Students gain insight into the role of digital imaging in contemporary photography. Prereq: FINE 1150, FINE 2155. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3to 3

*When Offered:* FALL

Registration is changing. Visit our website for details ucdenver.edu/registration.

*Note:* must be completed before 3172
FINE 3171 - Concepts and Processes in Photography

Summer 2010 Registration F A 3171
Students develop skills in alternative photographic techniques. Processes covered include cameraless and pinhole photography, reticulation, non-silver printing, enlarged negatives, liquid emulsions and digital/traditional cross-manipulation. Students gain insights into the relationship between ideas and experimental ways of creating images. Prereq: FINE 1150, FINE 2155, FINE 3161. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. Semester Hours: 3 to 3 When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3172 - Digital Bookmaking

Summer 2010 Registration F A 3172
Students create handmade artists books using digital technologies. Projects build skills in idea development, use of text and image, digital image manipulation, digital printing, scanning and book binding. Students learn strategies for creating visual narratives through photography. Prereq: FINE 1150, FINE 2155, FINE 3162. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. Semester Hours: 3 to 3 When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3630 - History of Photography

Summer 2010 Registration F A 3630
Students examine the history of photography from its origins to the present. Emphasis is placed on photography as an artistic medium. Topics covered include important movements, photographers, and technical innovations, as well as photographer's broader role in visual culture. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3631 - Photography: Theory and Criticism

Summer 2010 Registration F A 3631
Students investigate the historical texts of photographic criticism. Readings relate to photography as a fine art form, concentrating on 1970 to the present. Through discussions, readings and critical writing, students examine and appreciate the
significance of photographic theory. Prereq: FINE 3630. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3635 - Photography Now**

*Summer 2010 Registration F A 3635*
Students investigate trends in fine art photography from 1990 through the present. By examining current topics, styles, and techniques students gain insights into contemporary photographic practice and its relationship to the history and future of the medium. Prereq: FINE 3630. **Semester Hours:** 3 to 3
**When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4195 - Advanced Photography I**

*Summer 2010 Registration F A 4195*
Students create an independent body of photographic work that integrates sophisticated concepts with technical mastery. Through critiques, presentations and discussions, students relate subject matter to historical and contemporary context. Students build expertise in the area of professional development in photography. Prereq: FINE 1150, FINE 2155, FINE 3160, FINE 3161, FINE 3162, FINE 3171, FINE 3172, FINE 3630. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4196 - Advanced Photography II**

*Summer 2010 Registration F A 4196*
Students create an independent body of photographic work that integrates sophisticated concepts with technical mastery. Through critiques, presentations and discussions, students relate subject matter to historical and contemporary context. Students build expertise in the area of professional development in photography. Prereq: FINE 1150, FINE 2155, FINE 3160, FINE 3161, FINE 3162, FINE 3171, FINE 3172, FINE 4195. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4800 - Senior Art Seminar**

*Summer 2010 Registration F A 4800*
Required of Fine Arts majors in the B.F.A. and B.A. studio degree tracks majoring in
Painting/Drawing, Photography or Sculpture. Course work covers research into professional practices, business practices, creative practice and career development. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: 90 credits completed, 45 credits in fine arts; open to UCD Fine Arts Majors only. Cross-listed with FINE 5800. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

- Studio Arts Electives (9 semester hours)
- Visual Arts Electives (6 semester hours) May include studio, lecture, internship or art history

Total: 54 Hours

Sculpture Emphasis Courses

FINE 2500 - Bronze Casting and Metal Sculpture

Summer 2010 Registration F A 2500
Students learn lost wax casting with ceramic shell investment and bonded sand. Modeling, foundry work, centrifugal casting and welding for cast metal is introduced, as is steel fabrication and mixed media. Individual vocabularies are explored and design skills required. Prereq: FINE 1500. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 2510 - Wood and Metal Sculpture

Summer 2010 Registration F A 2510
Wood, metal fabrication and introduction of the found object are premise for the exploration of individual visual vocabularies. Investigation and design are applied towards developing conceptual ideas while students advance skills in the metal and wood studios. Prereq: FINE 1500, FINE 2500 (Can be taken concurrently with FINE 2500). Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3500 - Modeling and Casting the Figure

Summer 2010 Registration F A 3500
Study of the human figure from life and imagination directs visual vocabulary towards expression three dimensionally. Mold making using rubber, alginate and plaster is introduced for casting in metal, resin, synthetics, plastic, paper and biodegradable materials. Drawing is included. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610, FINE 2500, FINE 2510. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
FINE 3510 - Installation Art

Summer 2010 Registration F A 3510
Students learn to modify the way a particular space is experienced through material intervention in everyday public or private spaces. Material use ranges from everyday and natural materials to new media such as video, sound, performance, computers and the Internet. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3515 - Public Art

Summer 2010 Registration F A 3515
Students connect with professional/visiting artists installing public art works on campus for the Auraria Sculpture Park. Public relations, installation techniques, curatorial and administration skills are developed. Students learn to establish, maintain and promote the current sculpture collection on campus. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3525 - Environmental Sculpture

Summer 2010 Registration F A 3525
Students create environmental site-specific work to exist in a certain place. This involves temporary outdoor landscaping combined with permanently site sculptured elements. The format, the political, the historical, or the social context of the natural environment will be explored. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2500, FINE 2510, FINE 2600, FINE 2610, FINE 3500, FINE 3510. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3530 - Iron Casting

Summer 2010 Registration F A 3530
Students will learn traditional and innovative mold making techniques for casting iron. Working with lost wax, sand molds and space age materials students will cast ingots molds to final object. Furnace and Cupola design and fabrication techniques are researched. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3535 - Sculpture Rendering
Students apply traditional and mixed media drawing skills, photography and digital reproduction to depict the sculptural object in two and three-dimensional space. Students learn to construct small-scale models and develop sculpture proposals. Drawing as sculpture medium is explored. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 4500 - Kinetic Sculpture

Students explore movement and balance in sculptural work using pivot points and motors. Sound, projection, sensors and mechanics provide cause and effect scenarios in conjunction with knowledge, materials, and techniques acquired to date in the program. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 4505 - Performance Art

Students use the human body as a vehicle and premise to examine social, political and personal concerns through events and situations around conceptual idea, time, space, and a relationship between performer and audience. Site, object and documentation are integral components. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 4510 - Advanced Sculpture

Individual decision-making is stressed in developing a strong body of work. Competent technical skills and conceptual ideology are expanded to achieve complete visual experiences and development of conceptual ideas. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610, FINE 3500, FINE 3510, FINE 3515, FINE 3525, FINE 3530, FINE 3535, FINE 4500. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 4800 - Senior Art Seminar

Required of Fine Arts majors in the B.F.A. and B.A. studio degree tracks majoring in
Painting/Drawing, Photography or Sculpture. Course work covers research into professional practices, business practices, creative practice and career development. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: 90 credits completed, 45 credits in fine arts; open to UCD Fine Arts Majors only. Cross-listed with FINE 5800. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

- Upper-division Art History Elective (3 semester hours)
- Studio Arts Electives (9 semester hours)
- Visual Arts Electives (6 semester hours) *May include studio, lecture, internship or art history*

**Total: 54 Hours**

**Transmedia Emphasis Courses**

Student must apply for admission to the Transmedia emphasis. For more information, please contact College of Arts and Media advising at CAMAdvising@ucdenver.edu.

**FINE 2405 - Introduction to Digital Design**

*Summer 2010 Registration F A 2405*
A project-based exploration of the design potentials of vector, raster and motion based digital media. Through project critiques, discussion and demonstration students will create projects that examine technology as an art medium and a design strategy. Note: Priority seating given to Digital Design and Transmedia majors. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 2510 - Wood and Metal Sculpture**

*Summer 2010 Registration F A 2510*
Wood, metal fabrication and introduction of the found object are premise for the exploration of individual visual vocabularies. Investigation and design are applied towards developing conceptual ideas while students advance skills in the metal and wood studios. Prereq: FINE 1500, FINE 2500 (Can be taken concurrently with FINE 2500). **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3414 - Motion Design I**

*Summer 2010 Registration F A 3414*
A workshop devoted to understanding time based imagery that focuses on utilizing video and motion graphics as a creative communication tool. Students will create projects that
explore topics using video, animation, time and motion using a non-linear digital editing software. Note: Priority seating given to Digital Design and Transmedia majors. Prereq: Digital Design majors: passed portfolio review, FINE 2405 and 2415. Digital Design minors: FINE 2405 and 2415. Transmedia: FINE 2405, 2510, 3505 - can be taken concurrently with 3424 and 3438, or permission of instructor. Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3424 - Interactive Media

Summer 2010 Registration F A 3424
A workshop exploring how interactive media can be used to convey a message and deliver information. Through critiques of projects, discussion and research, students will learn principles of user interface design, aesthetics and structure including their potential cultural impact. Note: priority seating given to Digital Design and Transmedia majors. Prereq: Digital Design majors: passed portfolio review, FINE 2405 and 2415. Digital Design minors: FINE 2405 and 2415. Transmedia: FINE 2405, 2510, 3505 - can be taken concurrently with 3414 and 3438 or permission of instructor. Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3434 - 3D Motion Design

Summer 2010 Registration F A 3434
A workshop devoted to 3D as a medium for creating works of art. Through demonstration, discussion, readings and project based explorations, students will learn to navigate and create in the 3D digital environment. Note: Priority seating given to Digital Design and Transmedia majors. Prereq: Digital Design majors: FINE 3410, FINE 3414 and FINE 3424; Digital Design minors and Transmedia majors: FINE 2405, FINE 3414 or permission of instructor. Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3438 - Text, Image and Electronic Art

Summer 2010 Registration F A 3438
A workshop-laboratory devoted to examining advanced concepts concerning the role of image and text within time-based and interactive media in design/artistic practices. Through creative investigations, readings and discussion students consider the new and expanding roles of text and image within the electronic sphere. Note: priority is given to Digital Design and Transmedia majors. Prereq: Digital Design majors: FINE 3410, 3414, 3424 and portfolio review. Transmedia: FINE 2405,2510, 3505 - can be taken concurrently with 3414 and 3424. Other: Permission of instructor. Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
FINE 3441 - Narrative and Experience

Summer 2010 Registration F A 3441
A workshop-laboratory that focuses on narrative structure and its ability to create, control and manipulate viewer and user-experience. Through creative explorations, students will examine issues of narrative, identity, reception and audience and private/public space and develop approaches to creating user-centered works of art and design. Note: Priority seating is given to Digital Design and Transmedia majors. Prereq: Digital Design majors: FINE 3410, FINE 3414 and FINE 3424; Transmedia majors: FINE 3414, FINE 3424 and FINE 3438; Other: Permission of instructor. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3510 - Installation Art

Summer 2010 Registration F A 3510
Students learn to modify the way a particular space is experienced through material intervention in everyday public or private spaces. Material use ranges from everyday and natural materials to new media such as video, sound, performance, computers and the Internet. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3520 - Sculpture: Contemporary Artists and Concepts

Summer 2010 Registration F A 3520
Provides the art student (sculpture majors and non-majors) with a focused opportunity to look at contemporary sculpture, installation and performance art, and to examine the philosophical issues, processes, and methods, motivating practicing artists today. Prereq: FINE 1100, 1500, 2600 and 2610. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3535 - Sculpture Rendering

Summer 2010 Registration F A 3535
Students apply traditional and mixed media drawing skills, photography and digital reproduction to depict the sculptural object in two and three-dimensional space. Students learn to construct small-scale models and develop sculpture proposals. Drawing as sculpture medium is explored. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 4434 - Virtual Landscapes
**Summer 2010 Registration F A 4434**
In a studio environment students will explore place in relation to contemporary digital art practice. Through readings, lectures and production of projects assigned, students will create work that addresses the natural, urban and virtual environment. Prereq: Digital Design majors: FINE 3434 and portfolio review. Transmedia: FINE 3434 and 4500. Or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4500 - Kinetic Sculpture**

**Summer 2010 Registration F A 4500**
Students explore movement and balance in sculptural work using pivot points and motors. Sound, projection, sensors and mechanics provide cause and effect scenarios in conjunction with knowledge, materials, and techniques acquired to date in the program. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4510 - Advanced Sculpture**

**Summer 2010 Registration F A 4510**
Individual decision-making is stressed in developing a strong body of work. Competent technical skills and conceptual ideology are expanded to achieve complete visual experiences and development of conceptual ideas. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610, FINE 3500, FINE 3510, FINE 3515, FINE 3525, FINE 3530, FINE 3535, FINE 4500. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4632 - Media History and Aesthetics**

**Summer 2010 Registration F A 4632**
This survey class will present the current and historic impact of media technology on the arts and professional design practice. Through lectures, research and discussion students will become familiar with issues specific to digital media and design. Prereq: Digital Design majors: FINE 3410, portfolio review or permission of instructor. Cross-listed with FINE 5632. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

___ - Studio Arts Electives (9 semester hours)
___ - Visual Arts Elective (3 semester hours) *May include studio, lecture, internship or art history*

**Total: 54 Hours**
The French program offers courses in advanced language, linguistics, literature, civilization, culture and business, all taught exclusively in French. A minor is also offered. All French majors are strongly encouraged to participate in a study abroad program. Please see your French department advisor for information about opportunities to include study abroad as part of your major.

Admission and Grade Requirements

To be admitted to major status in French, students must have an overall GPA of C+ (2.3). The minimum grade acceptable in any French course applied to a French major is C (2.0). The grade point average in all courses applied to a French major at UC Denver must be 2.5. No courses taken on a pass/fail basis may be credited toward a French major. Upon declaring a major in French, each student will be assigned to a faculty advisor with whom the student should consult at least once per semester thereafter. It is especially important that students have their transcripts reviewed by their advisor before enrolling in their final 30 credit hours at UC Denver. Failure to do so may result in delay of graduation. Students presenting four years of high school French (Level IV) for admission to UC Denver must see a French advisor before enrolling in courses for the major. Students with advanced placement credits from high school must see a French advisor about course equivalencies. The Department of Modern Languages does not accept CLEP credits.

Honors in French

Qualified majors will automatically graduate with regular honors in French. Faculty occasionally nominate students for extra course work leading to higher levels of honors in French. For information, consult the French advisor in the Department of Modern Languages.

Outcomes Assessment

During their final semester in the language, French major students participate in an oral proficiency interview and take a written outcomes assessment exam to measure their level of proficiency and mastery of key concepts.

Residency Requirement

All students majoring in French must complete 30 semester hours of upper-division French courses (courses numbered 3000 and above). A minimum of 18 of those semester hours must be taken from the faculty in French at the Downtown Campus. Courses taken at other institutions while a student is enrolled at UC Denver may be
applied to the major only with departmental approval before enrollment in those courses. Students studying French for the professions must also take courses in other areas. Requirements for both tracks are outlined below.

**Course Requirements for the Major**

**Track A: Language, Literature and Culture**

Students wishing to improve their linguistic skills as well as their knowledge of Francophone literature and culture may choose this track.

**Required Courses**

**FREN 3010 - French Phonetics and Pronunciation**

*Summer 2010 Registration FR 3010*

Helps students acquire speech habits through knowledge of phonetics. Topics include the function of the speech organs, accurate production and recognition of sound, and the use of phonetic symbols. Note: Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. *Semester Hours: 3 to 3*

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FREN 3020 - Oral Practice**

*Summer 2010 Registration FR 3020*

Conversation course, using dialogues, debates, small-group discussion, and short oral presentations to improve fluency in spoken French and to build vocabulary. Discussions center around current issues. Note: Students with native or near-native-level proficiency will not be allowed to take FREN 3020. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. *Semester Hours: 3 to 3*

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FREN 3050 - Advanced Grammar and Composition**

*Summer 2010 Registration FR 3050*

Rigorous review of grammar (including past and future tenses, conditional mood and
nominal phrase), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, syntax and grammar. Note: May be taken before or after FREN 3050. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FREN 3060 - Advanced French Language Skills**

*Summer 2010 Registration FR 3060*

Rigorous review of grammar (including subjunctive, interrogative, verbal phrase and passive voice), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, and grammar. Note: May be taken before or after FREN 3050. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 12 Hours**

**Electives**

- Three courses at the 4000 level: **9 semester hours**

- Three electives at 3000 or 4000 level: **9 semester hours**

  *Note:* students must take at least one literature course and at least one culture or civilization course.

**Total: 18 Hours**

**Track A Major Total: 30 Hours**
Track B: International Language and Culture for the Professions

This option in the French major offers career possibilities, both in government and private industry, at home and abroad. Languages are useful in business, industry, commerce, civil service, law, library science, media, science, economics, health and social sciences. Students who follow this course of study could also qualify as teachers of general business subjects in bilingual as well as traditional school systems. Students interested in this track should contact the French advisor in the Department of Modern Languages as early as possible in their academic career, but not later than the second semester of the sophomore year.

Prerequisites

(these courses do not count toward the major total of 48 hours)

ECON 2012 - Principles of Economics: Macroeconomics

Summer 2010 Registration ECON 2012
Covers topics of inflation, unemployment, national income, growth and problems of the national economy, stabilization policy, plus others at the discretion of the instructor. Purpose is to teach fundamental principles, to open the field of economics in the way most helpful to further a more detailed study of special problems, and to give those not intending to specialize in the subject an outline of the general principles of economics. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 2022 - Principles of Economics: Microeconomics

Summer 2010 Registration ECON 2022
Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 1070 - Algebra for Social Sciences and Business

Summer 2010 Registration MATH 1070
Topics in algebra designed for students who intend to take business calculus. Functions, graphs, scatter plots, curve-fitting, solving systems of equations, polynomial and rational functions, and selected other topics. Note: Graphics calculator required. No co-credit
with MATH 1110 or MATH 1130. Prereq: intermediate algebra and satisfactory score on the placement exam. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-MA1

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**MATH 1110 - College Algebra**

*Summer 2010 Registration MATH 1110*

Topics in algebra designed for students who intend to take the calculus sequence. Functions, domains, ranges, graphs, data scatter plots and curve fitting, solving equations and systems of equations, polynomial functions, rational functions, and selected other topics. Graphic calculators and/or computer algebra systems are used extensively. Applications are emphasized. Note: No co-credit with either MATH 1070 or 1130. Prereq: intermediate algebra and satisfactory score on the placement exam. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-MA1

Registration is changing. Visit our website for details ucdenver.edu/registration. (or higher level math course)

**Required French Courses**

**FREN 1000 - Introduction to Cultures of the French- Speaking World**

*Summer 2010 Registration FR 1000*

Introduces students to the many cultures of the French-speaking world. Taught in English for accessibility to students from different colleges at the University. The countries studied are: France, its overseas departments (Guadeloupe and Martinique) and territories (Tahiti); Quebec; Senegal; and other African countries. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-AH1

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FREN 3020 - Oral Practice**

*Summer 2010 Registration FR 3020*

Conversation course, using dialogues, debates, small-group discussion, and short oral presentations to improve fluency in spoken French and to build vocabulary. Discussions center around current issues. Note: Students with native or near-native-level proficiency will not be allowed to take FREN 3020. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
FREN 3050 - Advanced Grammar and Composition

Summer 2010 Registration FR 3050
Rigorous review of grammar (including past and future tenses, conditional mood and nominal phrase), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, syntax and grammar. Note: May be taken before or after FREN 3060. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FREN 3060 - Advanced French Language Skills

Summer 2010 Registration FR 3060
Rigorous review of grammar (including subjunctive, interrogative, verbal phrase and passive voice), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, and grammar. Note: May be taken before or after FREN 3050. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FREN 3112 - Survey of French Literature I

Summer 2010 Registration FR 3112
Introduces survey of the major literary trends and prominent writers of French literature from 842 A.D. to the end of the 18th century. Note: May be taken before or after FREN 3122. Prereq: FREN 2120 or equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

FREN 3122 - Survey of French Literature II
Summer 2010 Registration  FR 3122
Introduces survey of the major literary trends (romanticism, realism and existentialism) and writers of the 19th and 20th centuries. Students become acquainted with prominent writers of the period such as Beauvoir, Chateaubriand, Hugo, Balzac, Flaubert, Proust, Camus and Sartre. Note: May be taken before or after FREN 3112. Prereq: FREN 2120 or permission of instructor.  
Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FREN 3130 - Current Topics of the French-Speaking World

Summer 2010 Registration  FR 3130
Combines discussion and writing on political, economic, and social conditions in contemporary France and the Francophone world. Articles from current French newspapers, news magazines, television broadcasts, and the World Wide Web are analyzed for a better understanding of modern French culture. Prereq: FREN 2120 or equivalent.  
Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

FREN 3140 - Contemporary Francophone Cultures

Summer 2010 Registration  FR 3140
Through the reading of short stories and cultural texts, engages students in the exploration of cultures of the Francophone world. Addresses political, economic and geographic status of each region as well as societal identity, immigration, the individual and cultural identity. Prereq: FREN 2120 or equivalent.  
Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FREN 4050 - Advanced French for Business

Summer 2010 Registration  FR 4050
Concentrates on the technical language necessary to meet the economic and commercial needs of the modern world. Prepares students for the practical certificate of business and economic French of the Paris Chamber of Commerce. Note: Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 3050 or 3060 plus one other 3000-level French course or permission of instructor.  
Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
FREN 4082 - Introduction to Translation

Summer 2010 Registration FR 4082
Introduces the methodology and practice of written translation from English to French/French to English. Students will learn techniques on how to avoid word-by-word translation, faulty sentence structure and Anglicisms by focusing on grammar, syntax and vocabulary. Note: Students must demonstrate third-year competence and advanced writing skills in English. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 3050 or 3060 and one other upper-division French class. Cross-listed with FREN 5082. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FREN 4210 - French Civilization - Twentieth and Twenty-First Centuries

Summer 2010 Registration FR 4210
(Continuation of FREN 4200) The development of French culture and civilization in a historical perspective from the beginning of the 20th century to the present. Includes historical background, sciences and techniques, daily life, the arts, literature and philosophy, and religion. Note: May be taken before or after FREN 4200. Prereq: Two 3000-level courses or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 27 Hours

French Electives

Choose two (at least one at 4000 level) from:

FREN 3120 - French Cultural Identities: Myths and Realities

Summer 2010 Registration FR 3120
The self-assured demeanor of the average French man or woman both attracts and confounds. In fact, a French person's behavior -- or that of the French government -- can seem impossible to decode if not understood within an authentically French context. This course examines that context and explores how the French view everyday life. Includes analysis of classic French films. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to
FREN 3130 - Current Topics of the French-Speaking World

Summer 2010 Registration FR 3130
Combines discussion and writing on political, economic, and social conditions in contemporary France and the Francophone world. Articles from current French newspapers, news magazines, television broadcasts, and the World Wide Web are analyzed for a better understanding of modern French culture. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FREN 3140 - Contemporary Francophone Cultures

Summer 2010 Registration FR 3140
Through the reading of short stories and cultural texts, engages students in the exploration of cultures of the Francophone world. Addresses political, economic and geographic status of each region as well as societal identity, immigration, the individual and cultural identity. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FREN 4200 - French Civilization Through the Nineteenth Century

Summer 2010 Registration FR 4200
Development of French culture and civilization from a historical perspective, beginning with the origins of France and continuing through the 19th century. Includes historical background, sciences and techniques, daily life, the arts, literature and philosophy, and religion. Note: May be taken before or after FREN 4210. Prereq: Two 3000-level courses or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Any 3000- or 4000-level literature course (not already taken from required list)

Total: 6 Hours

Business Courses

(please be aware of prerequisites in business course descriptions)

ACCT 2200 - Financial Accounting and Financial Statement Analysis

Summer 2010 Registration ACCT 2200
The financial accounting process, the role of the profession and the analysis of financial
statements. Principal focus on interpretation of financial statements, with emphasis on asset and liability valuation problems and the determination of net income. Prereq: MATH 1070 and sophomore standing. A grade of 'C' or better is required in this course to proceed to ACCT 2220. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 1000 - Introduction to Business**

*Summer 2010 Registration MGMT 1000*
This course will introduce students to the nature and role of business in our society. Problems confronting business are surveyed from a management, financial, economic and marketing viewpoint. Career opportunities in business are also considered. Students are advised to take this course during their freshman year and may not take it in the junior or senior years. Prereq: Open to freshman and sophomores, non-degree students and music majors at all levels. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 3000 - Managing Individuals and Teams**

*Summer 2010 Registration MGMT 3000*
Focuses on helping students understand how to manage individuals and groups effectively. Students are encouraged to know themselves better and how their behavior affects how they deal with organizational situations; they also learn how individuals differ and how to design, manage and work in a team. This is a business core course therefore a grade of a 'C' or better must be earned to satisfy graduation requirements. Prereq: Junior standing. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 3000 - Principles of Marketing**

*Summer 2010 Registration MKTG 3000*
Focuses on the basic marketing concepts of Buyer Behavior, Marketing Research, Marketing Planning and Implementation and the marketing process of product, price, distribution and promotion. This is a business core course therefore a grade of a 'C' or better must be earned to satisfy graduation requirements. Prereq: Junior standing. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM Registration is changing. Visit our website for details ucdenver.edu/registration.

One 3000-level course in international business

**Total: 15 Hours**

**Recommended**
Track B Major Total: 48 Hours

Secondary Foreign Language Teacher Licensure Program

With this option, students complete a major in French along with additional course work required for certification to teach French in the public schools. This program should be chosen early in the students' careers. For information, see the Teacher Education Program section of this catalog or contact the CLAS Advising Office (phone 303-556-2555 or visit North Classroom, 4002) and the French advisor.

Geography BA

Requirements for Major in Geography

Students must declare a major by the time they have completed 60 semester hours of course work. The geography program (within the Department of Geography and Environmental Sciences) offers a BA degree that includes a full range of courses in the fundamentals of geography taught mainly by full-time faculty. Five degree options are available for the major in geography: general, environmental science, environmental studies, urban studies and planning and earth science. Total semester-hour requirements vary among the five options, but all options require a minimum of 24 hours of upper-division credit. In addition, for each option, at least 15 semester hours must be taken at the Downtown Campus.

- Option 1—General Geography
- Option 2—Environmental Science
- Option 3—Environmental Studies
- Option 4—Urban Studies and Planning
- Option 5—Earth Science

Option 1—General Geography

Option Advisors: Frederick B. Chambers and Brian Page

OPTION 1 REQUIREMENTS

Lower division
GEOG 1202 - Introduction to Physical Geography

Summer 2010 Registration GEOG 1202
The science that studies the processes, forms, and spatial or geographic structures of natural systems operating at or near the earth's surface, including weather, climate, and landform processes. Semester Hours: 3 to 3
GT Pathways Category Key: GT-SC2
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 1302 - Introduction to Human Geography

Summer 2010 Registration GEOG 1302
Systematic introduction to basic concepts and approaches in human geographic analysis. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 2080 - Introduction to Mapping and Map Analysis

Summer 2010 Registration GEOG 2080
Studies major elements in the preparation of thematic maps, including sources of data collection and manipulation of data, and cartographic techniques for display of data. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Upper division

GEOG 3232 - Weather and Climate

Summer 2010 Registration GEOG 3232
Introduces the processes and systems that govern both day-to-day weather and longer-term climate variations. Covers instrumentation and weather forecasting techniques. Prereq: GEOG 1202 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3411 - Globalization and Regional Development

Summer 2010 Registration GEOG 3411
Addresses global political-restructuring and its implications for regional development in the U.S. Both historical and contemporary processes of globalization are examined. Topics include: the environmental basis of American industrial growth, the relationship between technological change and geographical shifts, the rise and decline of Fordism, the transfer of Japanese manufacturing methods to the U.S., the role of regional and national industrial policy, and the social consequences of globalization for labor and communities. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
GEOG 4080 - Introduction to GIS

Summer 2010 Registration GEOG 4080
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5080. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5080 - Introduction to GIS

Summer 2010 Registration GEOG 5080
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Cross-listed with GEOG 4080. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 18 Hours

ADDITIONAL REQUIREMENTS

Choose six additional courses, including at least one course from each of the following subfields:

Physical Geography

GEOG 3240 - Colorado Climates

Summer 2010 Registration GEOG 3240
Provides a broad overview of the various weather and climate patterns that are found within the state of Colorado. To accomplish this, the state of Colorado will be divided into regions which (hopefully) have a large degree of homogeneity in terms of weather and climate controls. Note: Taught in a seminar style with students giving presentations and reports on their findings about a given region. Prereq: GEOG 1202 and/or GEOG 3232 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4010 - Landscape Geochemistry
Summer 2010 Registration GEOG 4010
A holistic approach to studying the role chemical elements play in
synthesis/decomposition cycles, and the resultant environment from interaction of the
lithosphere with the hydrosphere, atmosphere, biosphere, and pedosphere during
geological and ecological timeframes, together with anthropogenic activities. Prereq:
Introductory college-level physical geography or environmental science course or
permission of instructor. Cross-listed with GEOL 4010/ENVS 5010. **Semester Hours:** 3 to
3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4020 - Earth Environments and Human Impacts

**Summer 2010 Registration GEOG 4020**
Basic concepts describing earth's biomes and physical environment are presented in a
systems context. Global warming assessment, from both political and scientific
perspectives, is then presented. Model visualization of these concepts to consider
human impacts on Earth's biomes is discussed. Earth system viewpoint, having links of
Earth's biomes to oceans and atmosphere, completes the course discussion. Prereq:
GEOG 1202 and 3232 or permission of instructor. Cross-listed with ENVS 5020, GEOL
4020. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4240 - Principles of Geomorphology

**Summer 2010 Registration GEOG 4240**
Systematic study of processes associated with rock structures, weathering, mass
wasting, fluvial, wind, glacial, and shorelines, and the resultant landforms they can
produce, influence, and change over time. Course includes field trips and in-class
exercises to help solidify concepts. Cross-listed with GEOL 4630 and GEOG
5240. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4270 - Glacial Geomorphology

**Summer 2010 Registration GEOG 4270**
Provides an in-depth view of the processes and systems found in glacial environments.
Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics;
glacial erosional processes and landforms; glacial depositional processes and
landforms. Prereq: GEOG 1202 or GEOL 1072. Cross-listed with GEOG/GEOL
4270/5270. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Human Geography
ENVS 1342 - Introduction to Environment and Society

Summer 2010 Registration ENVS 1342
Overview of perspectives on environmental issues within the context of sustainable development and taking a systems approach. The focus is on social science approaches to explore the human footprint on the earth, environmentalism, scientific uncertainty, policy creation and social change. Semester Hours: 3 to 3
GT Pathways Category Key: GT-SS2
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 1602 - Introduction to Urban Studies

Summer 2010 Registration GEOG 1602
Surveys the process of urbanization, emphasizing the development of American cities and using Denver as an example. Topics covered include the evolution of metropolitan form and land use patterns, cultural landscape formation, city planning and architectural design, and urban social and policy issues. Semester Hours: 3 to 3
GT Pathways Category Key: GT-SS2
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 2202 - Natural Hazards

Summer 2010 Registration GEOG 2202
Surveys those physical phenomena that often cause substantial damage when they occur in areas of human settlement. Semester Hours: 3 to 3
GT Pathways Category Key: GT-SS2
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3300 - Population and Resources in the World Environment

Summer 2010 Registration GEOG 3300
Increasing world human populations are examined in the context of regional and global resources. Opposing viewpoints are studied, and students are required to complete a case study of a self-selected issue analyzing viewpoints associated with relevant opposing opinions. Prereq: upper division standing. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3430 - Geography of Tourism

Summer 2010 Registration GEOG 3430
Geographic analysis of trends in recreation, travel, and tourism, and their economic, social, and environmental impacts. Examines growth and change in resorts and tourist destination areas. Prereq: GEOG 1302 or 3411. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
GEOG 3501 - Geography of Health

Summer 2010 Registration GEOG 3501
Offers a critical geographic perspective to human health issues, examining disease distributions, how changing relationships between people and their environments (natural, built, and social environments) influence health, and different approaches to the study of health in geography. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4265 - Sustainability in Resources Management

Summer 2010 Registration GEOG 4265
Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 5265. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5265 - Sustainability in Resources Management

Summer 2010 Registration GEOG 5265
Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Cross-listed with GEOG 4265. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4335 - Contemporary Environmental Issues

Summer 2010 Registration GEOG 4335
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 5335. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5335 - Contemporary Environmental Issues

Summer 2010 Registration GEOG 5335
Provides an overview of environmental challenges facing society today, focusing on how
humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 4335. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4350 - Environment and Society in the American Past**

*Summer 2010 Registration* GEOG 4350
Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 5350. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**OR**

**GEOG 5350 - Environment and Society in the American Past**

*Summer 2010 Registration* GEOG 5350
Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 4350. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4640 - Urban Geography: Denver and the U.S.**

*Summer 2010 Registration* GEOG 4640
Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular emphasis is placed on the U.S. and Colorado’s Front Range. Cross-listed with GEOG 5640. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**OR**

**GEOG 5640 - Urban Geography: Denver and the U.S.**

*Summer 2010 Registration* GEOG 5640
Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular emphasis is placed on the U.S. and Colorado’s Front Range. Cross-listed with GEOG 4640. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
GEOG 4710 - Disasters, Climate Change, and Health

Summer 2010 Registration GEOG 4710
Provides a review of the impacts of disasters and climate change on human health, using a broad framework of preparedness, mitigation, response, recovery, and adaptation. Prereq: GEOG 2202 or GEOG 3501. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Regional Geography

GEOG 1102 - World Regional Geography

Summer 2010 Registration GEOG 1102
Analysis of the relationships of man and the landscape based on geographic distributions in the world. Semester Hours: 3 to 3 GT Pathways Category Key: GT-SS2
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3100 - Geography of Colorado

Summer 2010 Registration GEOG 3100
An analysis of the physical environment, history of settlement, and resource base of Colorado in relation to present economic patterns of the state. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3120 - Geography of Europe

Summer 2010 Registration GEOG 3120
An analysis of the physical environment, resource utilization, economic development and cooperation in Europe. A cultural and political geography which focuses on continuity and change in Eastern and Western Europe. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3130 - Central America and the Caribbean

Summer 2010 Registration GEOG 3130
Surveys the physical environment and cultural development of Central America and the Caribbean Islands. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3140 - Geography of South America

Summer 2010 Registration GEOG 3140
The physical environment, cultural development, and political instability within the area are analyzed. Influence of the landscape and climate, as well as Iberian cultural and
land tenure patterns on historic settlement and modern growth are discussed. Problems associated with population, economics, politics, education, and geography are emphasized. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3150 - Middle East**

*Summer 2010 Registration* GEOG 3150
Physical, cultural, and economic approach to the arid lands of the Middle East, including Arab land of the Sahara. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3160 - Geography of China**

*Summer 2010 Registration* GEOG 3160
Geographic survey of the physical, cultural, and economic features characterizing the geography of China. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Techniques for Geographical Analysis**

**GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing**

*Summer 2010 Registration* GEOG 4060
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5060, GEOL 4060, GEOL 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing**

*Summer 2010 Registration* GEOG 5060
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 4060, GEOL 4060, 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4070 - Remote Sensing II: Advanced Remote Sensing**

*Summer 2010 Registration* GEOG 4070
Focuses on digital image processing of satellite and aerial images. Students explore the
nature of digital image data, gain an understanding of image analysis using PCs, and learn about the use of analysis products in the development of GIS databases. Prereq: GEOG 4060/5060 or GEOL 4060/5060 or permission of instructor. Cross-listed with GEOG 5070, GEOL 4070, 5070. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5070 - Remote Sensing II: Advanced Remote Sensing

Summer 2010 Registration GEOG 5070
Focuses on digital image processing of satellite and aerial images. Students explore the nature of digital image data, gain an understanding of image analysis using PCs, and learn about the use of analysis products in the development of GIS databases. Prereq: GEOG 5060/4060 or GEOL 5060/4060 or permission of instructor. Cross-listed with GEOG 4070, GEOL 5070, 4070. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4081 - Introduction to Cartography and Computer Mapping

Summer 2010 Registration GEOG 4081
Provides an introduction to the art and science of cartography (map making). Students will learn about design principles, tools and techniques of map production, culminating in the creation of a high-quality map through hands-on exercises. Prereq: GEOG 3080. Cross-listed with GEOG 5081. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4085 - GIS Applications for the Urban Environment

Summer 2010 Registration GEOG 4085
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The selection of specific topics is flexible, based on the interests of enrolled students. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5085. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5085 - GIS Applications for the Urban Environment

Summer 2010 Registration GEOG 5085
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The selection of
specific topics is flexible, based on the interests of enrolled students. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4085. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4090 - Environmental Modeling with Geographic Information Systems**

*Summer 2010 Registration* GEOG 4090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5090 - Environmental Modeling with Geographic Information Systems**

*Summer 2010 Registration* GEOG 5090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4095 - Deploying GIS Functionality on the Web**

*Summer 2010 Registration* GEOG 4095
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of instructor. Cross-listed with GEOG 5095. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5095 - Deploying GIS Functionality on the Web**

*Summer 2010 Registration* GEOG 5095
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4220 - Environmental Impact Assessment**

*Summer 2010 Registration GEOG 4220*
The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor. Cross-listed with GEOG 5220, URPL 6651. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5220 - Environmental Impact Assessment**

*Summer 2010 Registration GEOG 5220*
The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor. Cross-listed with GEOG 4220, URPL 6651. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4230 - Hazard Mitigation and Vulnerability Assessment**

*Summer 2010 Registration GEOG 4230*
Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 5230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5230 - Hazard Mitigation and Vulnerability Assessment**

*Summer 2010 Registration GEOG 5230*
Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 4230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
GEOG 4235 - GIS Applications in the Health Sciences

Summer 2010 Registration GEOG 4235
Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor. Cross-listed with GEOG 5235, HBSC 7235. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5235 - GIS Applications in the Health Sciences

Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor. Cross-listed with GEOG 4235, HBSC 7235. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4770 - Applied Statistics for the Natural Sciences

Summer 2010 Registration GEOG 4770
Surveys statistical techniques including: quick review of basic statistics, tests for normality and outliers, display of data; simple and multiple regression; ANOVA and its relation to regression. Emphasis on computer or stat-pak analysis and interpretation of statistical results. Prereq: College algebra and GEOG 3080, or consent of instructor. Cross-listed with ENVS 5600, GEOL 4770, 5770. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 18 Hours

OPTION TOTAL: 36 HOURS

Option 2—Environmental Science

Option Advisor: Frederick B. Chambers
Option 2 allows geography majors to concentrate on course work in environmental science.

ANCILLARY COURSES

Option 2 students must take one general biology and one general chemistry course (both with labs), OR a sequence of either (BIOL 2051 and 2061 with labs or CHEM 2031 and 2061 with labs). If applying to the MS in Environmental Sciences program, students must have taken both sequences. Also, students must have an introductory statistics course. Course choices with descriptions are below:

**BIOL 2051 - General Biology I**

*Summer 2010 Registration BIOL 2051*

Introduces four major areas of study: (1) the chemistry of biological systems; (2) the structure and function of the cell; (3) cellular energy transformations (photosynthesis and respiration); and (4) genetics (mitosis, meiosis, patterns of inheritance, molecular genetics). Note: Biology and health science (pre-med, pre-vet, pre-physical therapy, etc.) majors must also take the accompanying laboratory - BIOL 2071. Prereq: CHEM 1000 or high school chemistry required. **Semester Hours:** 3 to 3

**GT Pathways Category Key:** GT-SC1

Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 2071 - General Biology Laboratory I**

*Summer 2010 Registration BIOL 2071*

Introduces the basic scientific approach and report preparation through exercises and experiments in cell biology, basic biochemical techniques, genetics, molecular genetics and applications of biotechnology. Note: Exercises corresponding to topics in BIOL 2051. Coreq: BIOL 2051. **Semester Hours:** 1 to 1

**GT Pathways Category Key:** GT-SC1

Registration is changing. Visit our website for details ucdenver.edu/registration.

(4 semester hours total), followed by:

**BIOL 2061 - General Biology II**

*Summer 2010 Registration BIOL 2061*

This course is a continuation of BIOL 2051. Introduces four major areas of study: (1) evolution, (2) animal structure and function, (3) plant structure and function and (4) ecology. Note: Biology and health science (pre-med, pre-vet, nursing, etc.) majors must also take the accompanying laboratory - BIOL 2081. Prereq: BIOL 2051 or equivalent with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3

**GT Pathways Category Key:** GT-SC1

Registration is changing. Visit our website for details ucdenver.edu/registration.
BIOL 2081 - General Biology Laboratory II

Summer 2010 Registration BIOL 2081
Study of evolution, plant and animal anatomy, developmental biology; includes two off-campus ecology field trips. Note: Exercises corresponding to topics in BIOL 2061. Prereq: BIOL 2071 or equivalent with a grade of "C" (2.0) or higher; Coreq: BIOL 2061. Semester Hours: 1 to 1 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.
(4 semester hours total)

CHEM 2031 - General Chemistry I

Summer 2010 Registration CHEM 2031
Topics include chemical structure, atomic and molecular properties, molecular geometry and bonding, and gas laws. Prepares students to take upper division chemistry courses. Note: a beginning course for science majors, medical technologists, pre-medical and pre-dental students. Prereq: One year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent); Coreq: CHEM 2038. Semester Hours: 3 to 3 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 2038 - General Chemistry Laboratory I

Summer 2010 Registration CHEM 2038
Students perform laboratory experiments on topics covered in CHEM 2031 and gain experience in observing, recording, and interpreting physical and chemical phenomena. Note: Laboratory to accompany CHEM 2031. Coreq: CHEM 2031. Semester Hours: 1 to 1 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.
(4 semester hours total), followed by:

CHEM 2061 - General Chemistry II

Summer 2010 Registration CHEM 2061
(Continuation of CHEM 2031.) Topics include kinetics, equilibria and thermodynamics. Prereq: CHEM 2031; Coreq: CHEM 2068. Semester Hours: 3 to 3 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 2068 - General Chemistry Laboratory II
**Summer 2010 Registration CHEM 2068**

Students gain experience with laboratory technique and elementary chemical instrumentation. Note: Laboratory to accompany CHEM 2061 and a continuation of CHEM 2038. Prereq: CHEM 2038; Coreq: CHEM 2061. **Semester Hours:** 2to 2

**Pathways Category Key:** GT-SC1

Registration is changing. Visit our website for details ucdenver.edu/registration.

(5 semester hours total)

- AND -

One introductory statistics course (3 semester hours). Suitable courses include:

**MATH 2830 - Introductory Statistics**

**Summer 2010 Registration MATH 2830**

Basic statistical concepts, summarizing data, probability concepts, distributions, confidence intervals, hypothesis testing. Prereq: intermediate algebra. **Semester Hours:** 3to 3

**Pathways Category Key:** GT-MA1

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 2090 - Statistics and Research Methods**

**Summer 2010 Registration PSY 2090**

Introduces statistics and research methods in the field of psychology. Note: Intended for those who plan to major in psychology. Completion of college algebra or equivalent is recommended. Prereq: PSYC 1000. **Semester Hours:** 4to 4

Registration is changing. Visit our website for details ucdenver.edu/registration.

**OPTION 2 REQUIREMENTS**

**Lower division**

**ENVS 1042 - Introduction to Environmental Sciences**

**Summer 2010 Registration ENVS 1042**

This laboratory or survey course develops a basic understanding of ecological relationships and environmental systems. Issues such as the effects of human activities on earth’s environment, extinction or diversity, greenhouse effect, hazardous or toxic wastes and human population growth are discussed. **Semester Hours:** 4to 4

**Pathways Category Key:** GT-SC1

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 1202 - Introduction to Physical Geography**
**GEOG 1202 - The science that studies the processes, forms, and spatial or geographic structures of natural systems operating at or near the earth's surface, including weather, climate, and landform processes.**

**Semester Hours:** 3 to 3  
**GT Pathways Category Key:** GT-SC2  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 1302 - Introduction to Human Geography**

**Summer 2010 Registration**

Systematic introduction to basic concepts and approaches in human geographic analysis.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**ENVS 1342 - Introduction to Environment and Society**

**Summer 2010 Registration**

Overview of perspectives on environmental issues within the context of sustainable development and taking a systems approach. The focus is on social science approaches to explore the human footprint on the earth, environmentalism, scientific uncertainty, policy creation and social change.  
**Semester Hours:** 3 to 3  
**GT Pathways Category Key:** GT-SS2  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 2080 - Introduction to Mapping and Map Analysis**

**Summer 2010 Registration**

Studies major elements in the preparation of thematic maps, including sources of data collection and manipulation of data, and cartographic techniques for display of data.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Upper division**

**GEOG 3232 - Weather and Climate**

**Summer 2010 Registration**

Introduces the processes and systems that govern both day-to-day weather and longer-term climate variations. Covers instrumentation and weather forecasting techniques.  
**Prereq:** GEOG 1202 or permission of instructor.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3411 - Globalization and Regional Development**
**Summer 2010 Registration GEOG 3411**
Addresses global political-restructuring and its implications for regional development in the U.S. Both historical and contemporary processes of globalization are examined. Topics include: the environmental basis of American industrial growth, the relationship between technological change and geographical shifts, the rise and decline of Fordism, the transfer of Japanese manufacturing methods to the U.S., the role of regional and national industrial policy, and the social consequences of globalization for labor and communities. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 4335 - Contemporary Environmental Issues**

**Summer 2010 Registration GEOG 4335**
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 5335. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5335 - Contemporary Environmental Issues**

**Summer 2010 Registration GEOG 5335**
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 4335. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4080 - Introduction to GIS**

**Summer 2010 Registration GEOG 4080**
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5080 - Introduction to GIS**
Summer 2010 Registration GEOG 5080
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Cross-listed with GEOG 4080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 22 Hours

**ADDITIONAL REQUIREMENTS**

Choose six additional courses:

**Environmental Science**

**GEOG 4020 - Earth Environments and Human Impacts**

Summer 2010 Registration GEOG 4020
Basic concepts describing earth's biomes and physical environment are presented in a systems context. Global warming assessment, from both political and scientific perspectives, is then presented. Model visualization of these concepts to consider human impacts on Earth's biomes is discussed. Earth system viewpoint, having links of Earth's biomes to oceans and atmosphere, completes the course discussion. Prereq: GEOG 1202 and 3232 or permission of instructor. Cross-listed with ENVS 5020, GEOL 4020. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4265 - Sustainability in Resources Management**

Summer 2010 Registration GEOG 4265
Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 5265. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5265 - Sustainability in Resources Management
Summer 2010 Registration GEOG 5265
Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 4265. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Plus one class from the following list:**

**ENVS 3082 - Energy and the Environment**

*Summer 2010 Registration ENVS 3082*
For students of various backgrounds who wish to increase their understanding of the environmental and technical issues of supplying the energy demands of our society. Alternative energy sources and conservation are explored as solutions to promote a sustainable society. Prereq: One course in college science or mathematics. Cross-listed with PHYS 3082. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENVS 5030 - Environmental Geology**

*Summer 2010 Registration ENVS 5030*
Applies geological information to interactions between people and the physical environment. Increasing awareness of its importance in our society means that this is an expanding field as companies are required to address the environmental consequences of their actions. Prereq: Entry into MSES program, senior standing in sciences or geography, or permission of instructor. Cross-listed with GEOL 4030 and 5030. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3240 - Colorado Climates**

*Summer 2010 Registration GEOG 3240*
Provides a broad overview of the various weather and climate patterns that are found within the state of Colorado. To accomplish this, the state of Colorado will be divided into regions which (hopefully) have a large degree of homogeneity in terms of weather and climate controls. Note: Taught in a seminar style with students giving presentations and reports on their findings about a given region. Prereq: GEOG 1202 and/or GEOG 3232 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4010 - Landscape Geochemistry**
Summer 2010 Registration GEOG 4010
A holistic approach to studying the role chemical elements play in synthesis/decomposition cycles, and the resultant environment from interaction of the lithosphere with the hydrosphere, atmosphere, biosphere, and pedosphere during geological and ecological timeframes, together with anthropogenic activities. Prereq: Introductory college-level physical geography or environmental science course or permission of instructor. Cross-listed with GEOL 4010/ENVS 5010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4240 - Principles of Geomorphology

Summer 2010 Registration GEOG 4240
Systematic study of processes associated with rock structures, weathering, mass wasting, fluvial, wind, glacial, and shorelines, and the resultant landforms they can produce, influence, and change over time. Course includes field trips and in-class exercises to help solidify concepts. Cross-listed with GEOL 4630 and GEOG 5240. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4270 - Glacial Geomorphology

Summer 2010 Registration GEOG 4270
Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Prereq: GEOG 1202 or GEOL 1072. Cross-listed with GEOG/GEOL 4270/5270. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Upper-Division Environmental-Oriented Biology or Chemistry (3 Hours)
One upper-division biology or chemistry course related to the student’s environmental science interest must be taken as part of the environmental science option.

Techniques for Environmental Analysis

**Quantitative methods (one course):**

GEOG 4770 - Applied Statistics for the Natural Sciences

Summer 2010 Registration GEOG 4770
Surveys statistical techniques including: quick review of basic statistics, tests for normality and outliers, display of data; simple and multiple regression; ANOVA and its
relation to regression. Emphasis on computer or stat-pak analysis and interpretation of statistical results. Prereq: College algebra and GEOG 3080, or consent of instructor. Cross-listed with ENVS 5600, GEOL 4770, 5770. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOL 4770 - Applied Statistics for the Natural Sciences**

*Summer 2010 Registration GEOL 4770*
Surveys statistical techniques including: quick review of basic statistics, tests for normality and outliers, display of data; simple and multiple regression; Anova and its relation to regression. Emphasis on computer or stat-pak analysis and interpretation of statistical results. Prereq: College algebra and GEOG 3080, or consent of instructor. Cross-listed with GEOL 5770, GEOG 4770, ENVS 5600. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Geo-Spatial Analysis (one course):**

**GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing**

*Summer 2010 Registration GEOG 4060*
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5060, GEOL 4060, GEOL 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing**

*Summer 2010 Registration GEOG 5060*
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 4060, GEOL 4060, 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4085 - GIS Applications for the Urban Environment**
Summer 2010 Registration **GEOG 4085**
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The selection of specific topics is flexible, based on the interests of enrolled students. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5085. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Summer 2010 Registration **GEOG 5085**
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The selection of specific topics is flexible, based on the interests of enrolled students. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4085. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4090 - Environmental Modeling with Geographic Information Systems

Summer 2010 Registration **GEOG 4090**
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**OR**

GEOG 5090 - Environmental Modeling with Geographic Information Systems

Summer 2010 Registration **GEOG 5090**
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
GEOG 4230 - Hazard Mitigation and Vulnerability Assessment

*Summer 2010 Registration GEOG 4230*

Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 5230. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5230 - Hazard Mitigation and Vulnerability Assessment

*Summer 2010 Registration GEOG 5230*

Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 4230. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4235 - GIS Applications in the Health Sciences

*Summer 2010 Registration GEOG 4235*

Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor. Cross-listed with GEOG 5235, HBSC 7235. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5235 - GIS Applications in the Health Sciences

*Summer 2010 Registration GEOG 5235*

Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor. Cross-listed with GEOG 4235, HBSC 7235. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 18 Hours
OPTION TOTAL: 40 HOURS

Option 3—Environmental Studies

Option Advisors: Rafael Moreno and Deborah Thomas

Option 3 gives geography majors the opportunity to concentrate on the topic of human-environmental interaction, emphasizing environmental policy, sustainability and social issues.

OPTION 3 REQUIREMENTS

Lower division

ENVS 1042 - Introduction to Environmental Sciences

*Summer 2010 Registration ENVS 1042*
This laboratory or survey course develops a basic understanding of ecological relationships and environmental systems. Issues such as the effects of human activities on earth’s environment, extinction or diversity, greenhouse effect, hazardous or toxic wastes and human population growth are discussed. *Semester Hours: 4 to 4 GT*  
*Pathways Category Key: GT-SC1*
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENVS 1342 - Introduction to Environment and Society

*Summer 2010 Registration ENVS 1342*
Overview of perspectives on environmental issues within the context of sustainable development and taking a systems approach. The focus is on social science approaches to explore the human footprint on the earth, environmentalism, scientific uncertainty, policy creation and social change. *Semester Hours: 3 to 3 GT Pathways Category Key: GT-SS2*
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 1302 - Introduction to Human Geography

*Summer 2010 Registration GEOG 1302*
Systematic introduction to basic concepts and approaches in human geographic analysis. *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.
GEOG 2080 - Introduction to Mapping and Map Analysis

Summer 2010 Registration GEOG 2080
Studies major elements in the preparation of thematic maps, including sources of data collection and manipulation of data, and cartographic techniques for display of data. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Upper division

GEOG 3232 - Weather and Climate

Summer 2010 Registration GEOG 3232
Introduces the processes and systems that govern both day-to-day weather and longer-term climate variations. Covers instrumentation and weather forecasting techniques. Prereq: GEOG 1202 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3411 - Globalization and Regional Development

Summer 2010 Registration GEOG 3411
Addresses global political-restructuring and its implications for regional development in the U.S. Both historical and contemporary processes of globalization are examined. Topics include: the environmental basis of American industrial growth, the relationship between technological change and geographical shifts, the rise and decline of Fordism, the transfer of Japanese manufacturing methods to the U.S., the role of regional and national industrial policy, and the social consequences of globalization for labor and communities. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4080 - Introduction to GIS

Summer 2010 Registration GEOG 4080
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-
GEOG 5080 - Introduction to GIS

Includes hands-on use of a geographic information system workstation. Cross-listed with GEOG 4080. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 22 Hours

**ADDITIONAL REQUIREMENTS**

Choose six additional courses:

**Environmental Studies**

Choose three courses from the following:

**GEOG 3300 - Population and Resources in the World Environment**

*Summer 2010 Registration GEOG 3300*
Increasing world human populations are examined in the context of regional and global resources. Opposing viewpoints are studied, and students are required to complete a case study of a self-selected issue analyzing viewpoints associated with relevant opposing opinions. Prereq: upper division standing. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3302 - Water Resources**

*Summer 2010 Registration GEOG 3302*
Introduces water resources aimed at students with little or no background in the field. This is a broad course covering topics ranging from the physical aspects of water to water politics and international law. While the course is largely a lecture format, discussion of current issues is a significant part of the class. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3501 - Geography of Health**

*Summer 2010 Registration GEOG 3501*
Offers a critical geographic perspective to human health issues, examining disease
distributions, how changing relationships between people and their environments (natural, built, and social environments) influence health, and different approaches to the study of health in geography. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4335 - Contemporary Environmental Issues**

*Summer 2010 Registration* GEOG 4335
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 5335. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5335 - Contemporary Environmental Issues**

*Summer 2010 Registration* GEOG 5335
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 4335. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4350 - Environment and Society in the American Past**

*Summer 2010 Registration* GEOG 4350
Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 5350. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5350 - Environment and Society in the American Past**

*Summer 2010 Registration* GEOG 5350
Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 4350. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Environmental Policy and Planning

Choose two:

**GEOG 4220 - Environmental Impact Assessment**

*Summer 2010 Registration GEOG 4220*

The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor. Cross-listed with GEOG 5220, URPL 6651. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5220 - Environmental Impact Assessment**

*Summer 2010 Registration GEOG 5220*

The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor. Cross-listed with GEOG 4220, URPL 6651. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4230 - Hazard Mitigation and Vulnerability Assessment**

*Summer 2010 Registration GEOG 4230*

Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 5230. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5230 - Hazard Mitigation and Vulnerability Assessment**

*Summer 2010 Registration GEOG 5230*

Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq:
GEOG 2202 or permission of instructor. Cross-listed with GEOG 4230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4260 - Natural Resource Planning and Management**

**Summer 2010 Registration GEOG 4260**
Considers methods for managing renewable and non-renewable resources using both legislative and economic controls. The role of technology, ideologies, and equity are discussed. Decision making techniques are applied to problems of resource and environmental management. The ability to allocate and control resource usage to ensure sustainability are discussed. Cross-listed with URPL 6653. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

- OR -

**PUAD 5631 - Seminar in Environmental Politics and Policy**

**Summer 2010 Registration PUAD 5631**
Examines the fundamental principles of politics and policy that shape strategies of environmental protection. Focuses on the role of institutional processes, government organizations and nongovernmental organizations in environmental politics and policy. Cross-listed with PUAD 7631. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4265 - Sustainability in Resources Management**

**Summer 2010 Registration GEOG 4265**
Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 5265. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

- OR -

**GEOG 5265 - Sustainability in Resources Management**

Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 4265. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
GEOG 4710 - Disasters, Climate Change, and Health

**Summer 2010 Registration** GEOG 4710
Provides a review of the impacts of disasters and climate change on human health, using a broad framework of preparedness, mitigation, response, recovery, and adaptation. Prereq: GEOG 2202 or GEOG 3501. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5633 - Seminar in Natural Resource and Environmental Health Law

**Summer 2010 Registration** PUAD 5633
Administrative law aspects of environmental policy implementation and enforcement, the role of courts in both stimulating and limiting statutory reform, and regulatory innovation. Focus on the legal aspects of both natural resource allocation and management, and environmental protection. Alternatives to traditional processes for environmental dispute resolution. Cross-listed with PUAD 7633. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Techniques for Environmental Analysis

Choose one:

GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing

**Summer 2010 Registration** GEOG 4060
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5060, GEOL 4060, GEOL 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing

**Summer 2010 Registration** GEOG 5060
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 4060, GEOL 4060, 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4070 - Remote Sensing II: Advanced Remote Sensing
Summer 2010 Registration GEOG 4070
Focuses on digital image processing of satellite and aerial images. Students explore the nature of digital image data, gain an understanding of image analysis using PCs, and learn about the use of analysis products in the development of GIS databases. Prereq: GEOG 4060/5060 or GEOL 4060/5060 or permission of instructor. Cross-listed with GEOG 5070, GEOL 4070, 5070. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5070 - Remote Sensing II: Advanced Remote Sensing

Summer 2010 Registration GEOG 5070
Focuses on digital image processing of satellite and aerial images. Students explore the nature of digital image data, gain an understanding of image analysis using PCs, and learn about the use of analysis products in the development of GIS databases. Prereq: GEOG 5060/4060 or GEOL 5060/4060 or permission of instructor. Cross-listed with GEOG 4070, GEOL 5070, 4070. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4081 - Introduction to Cartography and Computer Mapping

Summer 2010 Registration GEOG 4081
Provides an introduction to the art and science of cartography (map making). Students will learn about design principles, tools and techniques of map production, culminating in the creation of a high-quality map through hands-on exercises. Prereq: GEOG 3080. Cross-listed with GEOG 5081. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4085 - GIS Applications for the Urban Environment

Summer 2010 Registration GEOG 4085
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The selection of specific topics is flexible, based on the interests of enrolled students. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5085. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5085 - GIS Applications for the Urban Environment

Summer 2010 Registration GEOG 5085
Takes a more detailed look at basic concepts presented in the introductory GIS course,
concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The selection of specific topics is flexible, based on the interests of enrolled students. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4085. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4090 - Environmental Modeling with Geographic Information Systems**

*Summer 2010 Registration* GEOG 4090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5090 - Environmental Modeling with Geographic Information Systems**

*Summer 2010 Registration* GEOG 5090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4095 - Deploying GIS Functionality on the Web**

*Summer 2010 Registration* GEOG 4095
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of instructor. Cross-listed with GEOG 5095. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4235 - GIS Applications in the Health Sciences

*Summer 2010 Registration GEOG 4235*
Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software.
Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor.
Cross-listed with GEOG 5235, HBSC 7235.
*Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5235 - GIS Applications in the Health Sciences

*Summer 2010 Registration GEOG 5235*
Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software.
Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor.
Cross-listed with GEOG 4235, HBSC 7235.
*Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4770 - Applied Statistics for the Natural Sciences

*Summer 2010 Registration GEOG 4770*
Surveys statistical techniques including: quick review of basic statistics, tests for normality and outliers, display of data; simple and multiple regression; ANOVA and its relation to regression. Emphasis on computer or stat-pak analysis and interpretation of statistical results.
Prereq: College algebra and GEOG 3080, or consent of instructor.
Cross-listed with ENVS 5600, GEOL 4770, 5770.
*Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

Community/Professional Experience

(optional but highly recommended)

GEOG 3939 - Internship/Cooperative Education

*Summer 2010 Registration GEOG 3939*
Designed experiences involving application of specific, relevant concepts and skills in
supervised employment situations. Prereq: Junior standing and 2.75 Gpa. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 18 Hours**

**OPTION TOTAL: 40 HOURS**

*Note:* Up to 4 semester hours of honors thesis course work or up to 3 semester hours of internships may be counted toward the 18 hours of additional requirements. Such substitutions must be approved by a program option advisor.

**Option 4—Urban Studies and Planning**

**Option Advisors:** Brian Page and Amanda Weaver

Option 4 allows geography majors to concentrate on social and spatial aspects of metropolitan growth and change. Students are given the opportunity to take advanced planning courses in their junior and senior years.

**OPTION 4 REQUIREMENTS**

**Lower Division**

**GEOG 1202 - Introduction to Physical Geography**

*Summer 2010 Registration** GEOG 1202

The science that studies the processes, forms, and spatial or geographic structures of natural systems operating at or near the earth's surface, including weather, climate, and landform processes. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SC2
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 1302 - Introduction to Human Geography**

*Summer 2010 Registration** GEOG 1302

Systematic introduction to basic concepts and approaches in human geographic analysis. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 1602 - Introduction to Urban Studies**

*Summer 2010 Registration** GEOG 1602

Surveys the process of urbanization, emphasizing the development of American cities and using Denver as an example. Topics covered include the evolution of metropolitan
form and land use patterns, cultural landscape formation, city planning and architectural
design, and urban social and policy issues. **Semester Hours:** 3 to 3
**GT Pathways**
**Category Key:** GT-SS2
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 2080 - Introduction to Mapping and Map Analysis

*Summer 2010 Registration* GEOG 2080
Studies major elements in the preparation of thematic maps, including sources of data
collection and manipulation of data, and cartographic techniques for display of
data. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Upper division

GEOG 3232 - Weather and Climate

*Summer 2010 Registration* GEOG 3232
Introduces the processes and systems that govern both day-to-day weather and longer-
term climate variations. Covers instrumentation and weather forecasting techniques.
Prereq: GEOG 1202 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3411 - Globalization and Regional Development

*Summer 2010 Registration* GEOG 3411
Addresses global political-restructuring and its implications for regional development in
the U.S. Both historical and contemporary processes of globalization are examined.
Topics include: the environmental basis of American industrial growth, the relationship
between technological change and geographical shifts, the rise and decline of Fordism,
the transfer of Japanese manufacturing methods to the U.S., the role of regional and
national industrial policy, and the social consequences of globalization for labor and
communities. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4080 - Introduction to GIS

*Summer 2010 Registration* GEOG 4080
Introduces various aspects of geographic information systems (GIS), including
justification, definition of hardware/software, database design, and data conversion. GIS
is a computer-based mapping system providing a graphical interface to locational and
relational attribute data on facilities and land. Includes hands-on use of a geographic
information system workstation. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 5080 - Introduction to GIS

**Summer 2010 Registration GEOG 5080**
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Cross-listed with GEOG 4080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 21 Hours

**ADDITIONAL REQUIREMENTS**

Choose six additional courses:

**Urban Studies and Planning**

GEOG 4640 - Urban Geography: Denver and the U.S.

**Summer 2010 Registration GEOG 4640**
Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular emphasis is placed on the U.S. and Colorado's Front Range. Cross-listed with GEOG 5640. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5640 - Urban Geography: Denver and the U.S.

**Summer 2010 Registration GEOG 5640**
Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular emphasis is placed on the U.S. and Colorado's Front Range. Cross-listed with GEOG 4640. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Plus three courses from the following list:

GEOG 4000 - Planning Methods I

*Summer 2010 Registration GEOG 4000*
Focuses on the application of statistical, quantitative, and mathematical techniques and computer applications for urban and regional planning and policy development. Major topics include types of data, sampling, basic probability distributions, hypothesis testing, regression and correlation, and an introduction to multivariate and cluster analysis. Applications in planning and development are emphasized. Cross-listed with URPL 5510. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

URPL 5510 - Planning Methods I

*Summer 2010 Registration URP 5510*
Focuses on application of methodological techniques commonly used in planning practice. Course covers data collection, management, analysis, communication and presentation. Major topics include primary/secondary data analysis, database construction, descriptive and inferential statistics, sampling, probability distributions, hypothesis testing, and correlation. Cross-listed with GEOG 4000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4220 - Environmental Impact Assessment

*Summer 2010 Registration GEOG 4220*
The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor. Cross-listed with GEOG 5220, URPL 6651. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5220 - Environmental Impact Assessment

*Summer 2010 Registration GEOG 5220*
The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor. Cross-listed with GEOG 4220, URPL 6651. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
GEOG 4230 - Hazard Mitigation and Vulnerability Assessment

Summer 2010 Registration GEOG 4230
Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 5230. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5230 - Hazard Mitigation and Vulnerability Assessment

Summer 2010 Registration GEOG 5230
Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 4230. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4260 - Natural Resource Planning and Management

Summer 2010 Registration GEOG 4260
Considers methods for managing renewable and non-renewable resources using both legislative and economic controls. The role of technology, ideologies, and equity are discussed. Decision making techniques are applied to problems of resource and environmental management. The ability to allocate and control resource usage to ensure sustainability are discussed. Cross-listed with URPL 6653. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

URPL 6653 - Natural Resource Planning and Management

Summer 2010 Registration URP 6653
Considers methods for managing renewable and non-renewable resources using both legislative and economic controls. The role of technology, ideologies, and equity are discussed. Decision making techniques are applied to problems of resource and environmental management. The ability to allocate and control resource usage to ensure sustainability are discussed. Cross-listed with Geog 4260. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4265 - Sustainability in Resources Management
*Summer 2010 Registration GEOG 4265*
Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 5265. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5265 - Sustainability in Resources Management**

*Summer 2010 Registration GEOG 5265*
Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 4265. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4400 - Regional Economic Development**

*Summer 2010 Registration GEOG 4400*
Examines the economies of metropolitan, rural, state, and national regions, placing each within the fabric of global relations that direct capital, manage productive activities, and govern prosperity's geography. Organized both sectorally and spatially, the course addresses key sectors of the emerging global economy, as well as the rationale of the "entrepreneurial" state at the public-private interface. Posits institutional approaches and professional roles in the management of regional economies. Seeks in theory a template of regional change, and both the means and purpose of policy intervention. Finds in strategic planning, an integration of developmental and environmental perspectives. Prereq: URPL 5520 or permission of instructor. Cross-listed with URPL 6671. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**URPL 6671 - Regional Economic Development**

*Summer 2010 Registration URP 6671*
Examines the economies of metropolitan, rural, state, and national regions, placing each within the fabric of global relations that direct capital, manage productive activities, and govern prosperity's geography. Organized both sectorally and spatially, the course addresses key sectors of the emerging global economy, as well as the rationale of the "Entrepreneurial" state at the public-private interface. Posits institutional approaches and professional roles in the management of regional economies. Seeks in theory a
template of regional change, and both the means and purpose of policy intervention. Finds in strategic planning an integration of developmental and environmental perspectives. Prereq: Urp 5520 or permission of instructor. Cross-listed with Geog 4400. *Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4630 - Transportation Planning I: Transport Network Analysis**

*Summer 2010 Registration* GEOG 4630
Examines several important aspects of the transport network: accessibility and connectivity of nodes and linkages and the volume and direction of the flow of a transport network. Descriptive, predictive, and planning methods and models discussed include graph theoretical measures, connectivity matrices, gravity model, abstract mode model, entropy-maximization, trip generation model and flow allocation models. Prereq: URPL 5510 or permission of instructor. Cross-listed with URPL 6673. *Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**OR**

**URPL 6673 - Transportation Planning I: Land Use and Transport**

*Summer 2010 Registration* URPL 6673
Examines several important aspects of the transport network: accessibility and connectivity of nodes and linkages and the volume and direction of the flow of a transport network. Descriptive, predictive, and planning methods and models discussed include graph theoretical measures, connectivity matrices, gravity model, abstract mode model, entropy-maximization, trip generation model and flow allocation models. Prereq: Urp 5510 or permission of instructor. Cross-listed with Geog 4630. *Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4670 - Transportation Planning II: Urban Transportation Planning**

*Summer 2010 Registration* GEOG 4670
Examines major issues of transportation in urban development, the urban transportation system, the relationship between land use planning and transportation planning, urban transportation planning processes and selected issues. Introduces the use of two state-of-the-art multi-modal transportation computer programs - EMME2 and TransCAD. Prereq: URPL 6673. Cross-listed with URPL 6674. *Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-
URPL 6674 - Transportation Planning II

Summer 2010 Registration URPL 6674
Examines issues of transportation in urban development, the urban transportation system, the relationship between land use planning and transportation planning, urban transportation planning processes and selected issues. Covers theoretical, policy, and practical perspectives to understand the merits of employing specific planning policies or other infrastructure investments. Prereq: Urp 6673. Cross-listed with Geog 4670. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4710 - Disasters, Climate Change, and Health

Summer 2010 Registration GEOG 4710
Provides a review of the impacts of disasters and climate change on human health, using a broad framework of preparedness, mitigation, response, recovery, and adaptation. Prereq: GEOG 2202 or GEOG 3501. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

URPL 5501 - Planning Issues and Processes

Summer 2010 Registration URPL 5501
Provides an overview of planning history and theory. The philosophical, political, and economic roots of the various theories are discussed. Ideas are placed in the context of the planning profession's history and its present aims, interests, and ethics. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Techniques for Urban Analysis

Choose one:

GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing

Summer 2010 Registration GEOG 4060
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5060, GEOL 4060, GEOL 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing
Summer 2010 Registration GEOG 5060
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 4060, GEOL 4060, 5060. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4070 - Remote Sensing II: Advanced Remote Sensing

Summer 2010 Registration GEOG 4070
Focuses on digital image processing of satellite and aerial images. Students explore the nature of digital image data, gain an understanding of image analysis using PCs, and learn about the use of analysis products in the development of GIS databases. Prereq: GEOG 4060/5060 or GEOL 4060/5060 or permission of instructor. Cross-listed with GEOG 5070, GEOL 4070, 5070. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 5070 - Remote Sensing II: Advanced Remote Sensing

Summer 2010 Registration GEOG 5070
Focuses on digital image processing of satellite and aerial images. Students explore the nature of digital image data, gain an understanding of image analysis using PCs, and learn about the use of analysis products in the development of GIS databases. Prereq: GEOG 5060/4060 or GEOL 5060/4060 or permission of instructor. Cross-listed with GEOG 4070, GEOL 5070, 4070. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4081 - Introduction to Cartography and Computer Mapping

Summer 2010 Registration GEOG 4081
Provides an introduction to the art and science of cartography (map making). Students will learn about design principles, tools and techniques of map production, culminating in the creation of a high-quality map through hands-on exercises. Prereq: GEOG 3080. Cross-listed with GEOG 5081. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4085 - GIS Applications for the Urban Environment

Summer 2010 Registration GEOG 4085
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS
applications within both the natural and social sciences are highlighted. The selection of specific topics is flexible, based on the interests of enrolled students. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5085. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5085 - GIS Applications for the Urban Environment**

*Summer 2010 Registration* GEOG 5085
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The selection of specific topics is flexible, based on the interests of enrolled students. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4085. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4090 - Environmental Modeling with Geographic Information Systems**

*Summer 2010 Registration* GEOG 4090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5090 - Environmental Modeling with Geographic Information Systems**

*Summer 2010 Registration* GEOG 5090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4095 - Deploying GIS Functionality on the Web**
Summer 2010 Registration  GEOG 4095
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of instructor. Cross-listed with GEOG 5095. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5095 - Deploying GIS Functionality on the Web

Summer 2010 Registration  GEOG 5095
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of instructor. Cross-listed with GEOG 4095. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4235 - GIS Applications in the Health Sciences

Summer 2010 Registration  GEOG 4235
Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor. Cross-listed with GEOG 5235, HBSC 7235. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5235 - GIS Applications in the Health Sciences

Summer 2010 Registration  GEOG 5235
Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor. Cross-listed with GEOG 4235, HBSC 7235. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Community/Professional Experience

(optional but highly recommended)
GEOG 3939 - Internship/Cooperative Education

*Summer 2010 Registration* GEOG 3939
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 Gpa. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 18 Hours**

**OPTION TOTAL: 39 HOURS**

*Note:* Up to 4 semester hours of honors thesis course work or up to 3 semester hours of internship may be counted toward the 18 hours of additional requirements. Such substitutions must be approved by a program option advisor.

**Option 5—Earth Science**

**Option Advisor:** Ryan Sincavage

Option 5 allows geography majors to concentrate on studying natural and physical processes within and on the surface of the planet.

**OPTION 5 REQUIREMENTS**

**Lower division**

**ENVS 1342 - Introduction to Environment and Society**

*Summer 2010 Registration* ENVS 1342
Overview of perspectives on environmental issues within the context of sustainable development and taking a systems approach. The focus is on social science approaches to explore the human footprint on the earth, environmentalism, scientific uncertainty, policy creation and social change. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS2
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 1302 - Introduction to Human Geography**

*Summer 2010 Registration* GEOG 1302
Systematic introduction to basic concepts and approaches in human geographic
analysis. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOL 1072 - Physical Geology: Surface Processes**

*Summer 2010 Registration GEOL 1072*
Introductory course in physical geology that covers surface processes and landforms, and includes one all-day field trip. Note: Required for geology majors. **Semester Hours:** 4 to 4
**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOL 1082 - Physical Geology: Internal Processes**

*Summer 2010 Registration GEOL 1082*
Introductory course in physical geology that covers internal processes and properties of the earth's interior, with plate tectonics as the underlying theme. Includes one all-day field trip. Note: Required for geology majors. **Semester Hours:** 4 to 4
**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 2080 - Introduction to Mapping and Map Analysis**

*Summer 2010 Registration GEOG 2080*
Studies major elements in the preparation of thematic maps, including sources of data collection and manipulation of data, and cartographic techniques for display of data. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Upper division**

**GEOG 3411 - Globalization and Regional Development**

*Summer 2010 Registration GEOG 3411*
Addresses global political-restructuring and its implications for regional development in the U.S. Both historical and contemporary processes of globalization are examined. Topics include: the environmental basis of American industrial growth, the relationship between technological change and geographical shifts, the rise and decline of Fordism, the transfer of Japanese manufacturing methods to the U.S., the role of regional and national industrial policy, and the social consequences of globalization for labor and
GEOG 4335 - Contemporary Environmental Issues

Summer 2010 Registration GEOG 4335
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 5335. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 5335 - Contemporary Environmental Issues

Summer 2010 Registration GEOG 5335
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 4335. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4080 - Introduction to GIS

Summer 2010 Registration GEOG 4080
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 5080 - Introduction to GIS

Summer 2010 Registration GEOG 5080
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic
information system workstation. Cross-listed with GEOG 4080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 20 Hours**

**ADDITIONAL REQUIREMENTS**

Choose six additional courses:

**Earth Science**

**GEOG 3232 - Weather and Climate**

*Summer 2010 Registration GEOG 3232*
Introduces the processes and systems that govern both day-to-day weather and longer-term climate variations. Covers instrumentation and weather forecasting techniques. Prereq: GEOG 1202 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4240 - Principles of Geomorphology**

*Summer 2010 Registration GEOG 4240*
Systematic study of processes associated with rock structures, weathering, mass wasting, fluvial, wind, glacial, and shorelines, and the resultant landforms they can produce, influence, and change over time. Course includes field trips and in-class exercises to help solidify concepts. Cross-listed with GEOL 4630 and GEOG 5240. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOL 3011 - Mineralogy**

*Summer 2010 Registration GEOL 3011*
Principles of mineralogy, including crystallography, crystal chemistry, and a systematic study of the more important nonsilicate and silicate minerals. Origins and occurrences of minerals. Prereq: Physical geology and college-level chemistry. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOL 3421 - Sedimentation and Stratigraphy**

*Summer 2010 Registration GEOL 3421*
Introduces the principles of sedimentology and stratigraphy. Emphasis is on dynamic processes within sedimentary environments and the resulting stratigraphic record. Prereq: GEOL 1082 or equivalent. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.
Plus one of the following courses:

GEOG 3240 - Colorado Climates

Summer 2010 Registration GEOG 3240
Provides a broad overview of the various weather and climate patterns that are found within the state of Colorado. To accomplish this, the state of Colorado will be divided into regions which (hopefully) have a large degree of homogeneity in terms of weather and climate controls. Note: Taught in a seminar style with students giving presentations and reports on their findings about a given region. Prereq: GEOG 1202 and/or GEOG 3232 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4010 - Landscape Geochemistry

Summer 2010 Registration GEOG 4010
A holistic approach to studying the role chemical elements play in synthesis/decomposition cycles, and the resultant environment from interaction of the lithosphere with the hydrosphere, atmosphere, biosphere, and pedosphere during geological and ecological timeframes, together with anthropogenic activities. Prereq: Introductory college-level physical geography or environmental science course or permission of instructor. Cross-listed with GEOL 4010/ENVS 5010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4020 - Earth Environments and Human Impacts

Summer 2010 Registration GEOG 4020
Basic concepts describing earth's biomes and physical environment are presented in a systems context. Global warming assessment, from both political and scientific perspectives, is then presented. Model visualization of these concepts to consider human impacts on Earth's biomes is discussed. Earth system viewpoint, having links of Earth's biomes to oceans and atmosphere, completes the course discussion. Prereq: GEOG 1202 and 3232 or permission of instructor. Cross-listed with ENVS 5020, GEOL 4020. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4095 - Deploying GIS Functionality on the Web

Summer 2010 Registration GEOG 4095
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of
instructor. Cross-listed with GEOG 5095. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5095 - Deploying GIS Functionality on the Web**

*Summer 2010 Registration GEOG 5095*

Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of instructor. Cross-listed with GEOG 4095. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4270 - Glacial Geomorphology**

*Summer 2010 Registration GEOG 4270*

Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Prereq: GEOG 1202 or GEOL 1072. Cross-listed with GEOG/GEOL 4270/5270. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOL 3032 - Geology of Colorado**

*Summer 2010 Registration GEOL 3032*

Introductory course focused on the geology of Colorado. The course is divided into two parts: the first half covers general principles of geology, and the second is devoted to the observation of rock types, structures, and geologic relationships in the field. Discussion of plate tectonics, rock formation, construction and interpretation of geologic maps, the geologic time scale, geologic provinces of Colorado, evolution of major landforms, formation and development of mineral resources of Colorado, and current topics in environmental geology. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOL 4030 - Environmental Geology**

*Summer 2010 Registration GEOL 4030*

Applies geological information to interactions between people and the physical
environment. Increasing awareness of its importance in our society means that this is an expanding field as companies are required to address the environmental consequences of their actions. Prereq: Entry into MSES program, senior standing in sciences or geography, or permission of instructor. Cross-listed with ENVS 5030 and GEOL 5030. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**ENVS 5030 - Environmental Geology**

*Summer 2010 Registration ENVS 5030*
Applies geological information to interactions between people and the physical environment. Increasing awareness of its importance in our society means that this is an expanding field as companies are required to address the environmental consequences of their actions. Prereq: Entry into MSES program, senior standing in sciences or geography, or permission of instructor. Cross-listed with GEOL 4030 and 5030. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOL 4111 - Field Geology**

*Summer 2010 Registration GEOL 4111*
Introduces methods of geologic mapping in sedimentary, igneous and metamorphic rocks. Includes plane table surveying, brunton and pace methods, and the use of aerial photographs. Prereq: GEOL 3011; GEOL 3231 and 3421 strongly recommended. **Semester Hours:** 5 to 5
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOL 4402 - Unsaturated Zone Hydrology**

*Summer 2010 Registration GEOL 4402*
Focuses on water and contaminant transport through the unsaturated zone, infiltration and drainage, and heat and gas transport. Students learn to design, perform field installation, and collect data in order to model and predict contaminant movement on/off site. Prereq: Chemistry, physics, calculus or permission of instructor. Cross-listed with ENVS 5403. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Techniques for Earth Science Analysis**

Choose one:

**GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing**
**Summer 2010 Registration** GEOG 4060
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5060, GEOL 4060, GEOL 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing**

**Summer 2010 Registration** GEOG 5060
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 4060, GEOL 4060, 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4090 - Environmental Modeling with Geographic Information Systems**

**Summer 2010 Registration** GEOG 4090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5090 - Environmental Modeling with Geographic Information Systems**

**Summer 2010 Registration** GEOG 5090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4095 - Deploying GIS Functionality on the Web**

**Summer 2010 Registration** GEOG 4095
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies.
Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of instructor. Cross-listed with GEOG 5095. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 5095 - Deploying GIS Functionality on the Web**

*Summer 2010 Registration* GEOG 5095
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of instructor. Cross-listed with GEOG 4095. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4770 - Applied Statistics for the Natural Sciences**

*Summer 2010 Registration* GEOG 4770
Surveys statistical techniques including: quick review of basic statistics, tests for normality and outliers, display of data; simple and multiple regression; ANOVA and its relation to regression. Emphasis on computer or stat-pak analysis and interpretation of statistical results. Prereq: College algebra and GEOG 3080, or consent of instructor. Cross-listed with ENVS 5600, GEOL 4770, 5770. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOL 4111 - Field Geology**

*Summer 2010 Registration* GEOL 4111
Introduces methods of geologic mapping in sedimentary, igneous and metamorphic rocks. Includes plane table surveying, brunton and pace methods, and the use of aerial photographs. Prereq: GEOL 3011; GEOL 3231 and 3421 strongly recommended. **Semester Hours:** 5 to 5
Registration is changing. Visit our website for details ucdenver.edu/registration.
Total: 20 Hours

OPTION TOTAL: 40 HOURS

Senior Exit Examination

All majors are required to take a senior exit examination based on required courses in the discipline.

History BA

The bachelor's degree in history provides students with firm grounding for advanced studies in education, librarianship, law, business and public service, as well as graduate work in the humanities and social sciences broadly. History is an all-inclusive discipline, making it an excellent choice for students with a wide variety of career goals.

Students must declare a major by the time they have completed 60 semester hours of course work. For the BA in history, students must complete a minimum of 36 semester hours of history course work. Majors must complete at least 18 upper-division (3000- and 4000-level) hours at the University of Colorado Denver. Not more than 48 hours of history will be counted toward graduation requirements. No grade below a C (2.0) will count toward major requirements to graduate.

Course Requirements

Required History Courses

HIST 3031 - Theory and Practice of History: An Introduction to the Major

Summer 2010 Registration HIST 3031
Introduces history majors to the discipline at the outset of their course work. Covers historiographical trends and methodologies, and familiarizes students with the various types of research and writing they are likely to encounter in their classes. Note: This course should be taken as early as possible, and must be taken before HIST 4839. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4839 - History Seminar

Summer 2010 Registration HIST 4839
Covers the use of documentary sources and historical criticism, with students utilizing these skills in a historical research paper. Note: Required for history majors. Preferably
taken in the senior year. Prereq: HIST 3031. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Students must complete HIST 3031 before enrolling in HIST 4839. Majors must take a minimum of 15 credit hours in History at the 4000-level, including HIST 4839.

**Total: 6 Hours**

**Distribution Requirement**

A minimum of 6 semester hours in each of the following areas: United States, Europe and world (Africa, Asia, Latin America). At least 3 semester hours in each area must be upper-division (3000- and 4000-level).

**Total: 18 Hours**

**Electives**

The degree requires a minimum of 12 additional semester hours of electives, which can be satisfied by a combination of additional history courses, history internships, or history honors independent study for eligible students.

**Total: 12 Hours**

**Major Total: 36 Hours**

**BA in History with Secondary Licensure**

Students seeking secondary social studies teacher licensure may pursue a BA in history. This option enables them to complete their history major as well as fulfill requirements for licensure at the undergraduate level.

If you are interested in this option, you should meet with a CLAS advisor as soon as possible. You can complete your degree, including licensure, within a 4-year graduation plan, but only if you declare it early in your college career and meet regularly with your advisors.

To earn the professional teacher licensure, you will complete a major in history and then complete the teacher licensure requirements through the School of Education & Human
Development (SEHD). The licensure process requires that you be admitted into the SOEHD to complete licensure classes. You will be working with your CLAS advisor through the application process.

Get to know your advisor! He/she is your guide through what can be a complex process dictated by the State of Colorado. Call 303-556-8316 for more information.

Human Resources Management Emphasis—BS in Business Administration

Human resources management offers opportunities for students to develop professional competence in the areas of personnel administration and development. Students acquire an understanding of, and skills in, developing and implementing human resources systems, including recruitment, selection, evaluation, training, motivation and compensation.

Required Course

MGMT 3010 - Managing People for a Competitive Advantage

Summer 2010 Registration MGMT 3010
Provides an overview of the management of human resources in organizations. Areas of study include recruitment, selection, training, career development, performance appraisal, compensation and employee or labor relations. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Electives

Choose two:

MGMT 4420 - Human Resources Management: Staffing

Summer 2010 Registration MGMT 4420
Methods, theories, research findings, and issues in staffing. Topics include performance-based framework for selecting employees, establishing performance expectations, planning the recruitment process and finding valid and useful tools to select the best candidate. Prereq: MGMT 3010 (may be taken concurrently). **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
MGMT 4430 - Human Resources Management: Training

Summer 2010 Registration MGMT 4430
Methods, theories, research findings, and issues in training. Topics include how to design, deliver, and evaluate training programs. Prereq: MGMT 3010 (may be taken concurrently). Cross-listed with MGMT 6720. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MGMT 4440 - Human Resource Management: Performance Management

Summer 2010 Registration MGMT 4440
Focuses on the design and implementation of human resource management systems to assess and enhance employee performance. Areas of study include performance definition and measurement, goal setting, feedback, employee development, rater training, and pay for performance. Prereq: MGMT 3010 (may be taken concurrently). Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MGMT 4450 - Human Resources Management: Compensation

Summer 2010 Registration MGMT 4450
Develop and administer pay systems considering economic and social pressures, traditional approaches and strategic choices in managing compensation. Current theory research and practice. Students design a compensation strategy and a system that translates that strategy into reality. Prereq: MGMT 3010 (may be taken concurrently). Cross-listed with MGMT 6740. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Management Electives

Choose three:

Any MGMT Course (3 semester hours)

BLAW 4120 - Legal Issues for Entrepreneurs

Summer 2010 Registration BLAW 4120
Skills in legal and factual analysis and the application of ethical theories are addressed with an emphasis on applicability for entrepreneurs. The cases are drawn from a variety of functional areas such as accounting, information systems, finance, management,
marketing and production. Topics include securities, venture capital, employment law and consumer law. Cross-listed with ENTP 3120. **Semester Hours:** 3 to 3  
**When Offered:** FASPRSUM  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENTP 3000 - Principles of Entrepreneurship**

*Summer 2010 Registration ENTP 3000*  
Focuses on the concepts, skills, know-how, practical information, attitudes and alternatives that are relevant for start-up companies. The materials are designed to enhance the student's capacity to anticipate HR, financial, marketing problems through the application of proper planning. The primary objective of the course is to teach participants the practical aspects of entrepreneurship in order to change the odds of success. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 18 Hours**

**Individually Structured Major BA**

**Requirements for the Major**

The ISM program plan requires course work over two or three disciplines. A discipline is defined as a single department or program such as biology, ethnic studies or math. The ISM program plan must comply with the following policies:

- Between 48 and 54 semester hours are allowed for the program plan.
- A minimum of 16 semester hours must be upper-division credit.
- Each discipline requires a minimum of 15 semester hours, of which at least 3 must be upper-division hours.
- A minimum of 6 semester hours in each discipline must be taken from Downtown Campus faculty.
- A maximum of one discipline may be outside CLAS.
- A third optional discipline may be a mixture of course work, excluding courses from the first and second disciplines.
- An ISM title must be consistent with the academic theme and disciplines in the program plan.

The ISM program plan contract is approved by faculty for each discipline and submitted to the CLAS Advising Office, North Classroom, 4002, for college approval by the
associate dean. The ISM program plan must be approved before one-third of the ISM course work is completed. Typically, a maximum of 18-21 hours of previously completed courses is allowed.

Graduation requirements for ISM students include a minimum 2.0 GPA for all ISM course work, a minimum 2.0 GPA in each discipline in the program plan and a minimum of 24 hours of course work taken from Downtown Campus faculty.

**Information Systems Emphasis—BS in Business Administration**

The information systems program at the University of Colorado Denver is a nationally accredited program for students who want to design and implement effective solutions to meet organizational and management needs for information, control and decision making.

An information systems (ISMG) emphasis draws on a diverse set of skills and strengths requiring creative and innovative thinking at the intersections of disciplinary knowledge and practice. Information systems students learn how information technology, effective teamwork and leadership and sound project management combine to enable innovation and change, to improve organizational agility and to add competitive value. Courses require extensive hands-on projects, teamwork and use of high-end technology. A combination of technical skills gained in class work with broad based business process knowledge enables our graduates to be ideally situated to take leading roles in shaping the technology-based future of employers in the Rocky Mountain region and the nation.

**Undergraduate options**

The Business School at the University of Colorado Denver offers a bachelor of science in business administration where you may choose information systems as your primary core specialty:

- Information Systems, Bachelor of Science in Business Administration degree
Or you may choose to add an information systems speciality to another business discipline.

- Accounting and Information Systems emphasis
- Financial Management Systems emphasis
- Management and Information Systems emphasis
- Marketing and Information Systems emphasis
Career Opportunities

Careers in information systems continue to be one of the highest growth markets in the business world. A student completing the information systems program curriculum will be prepared for challenging careers as business analyst, database analyst, Web content manager, project manager, IT consultant and information auditing and compliance specialist. Employment possibilities include financial operations, health care, management consulting, service operations, transportation and logistics and government.

Information systems is becoming the foundation of all business activities, and a solid understanding of the role of information systems in business and in the national and global economy is now critical for every business student. The information systems emphasis focuses on effective use of information technology in business. You are equipped with logical and analytical thinking in all areas of business and a strong basis for continued career growth in a variety of growing professions. You will develop the technical skills, business know-how and administrative insights required for acquisition, deployment and management of IT resources and services development, operation and evolution of IS infrastructure for use in accounting, finance, marketing, management and other business processes.

Curriculum

The courses emphasize both team and individual work, allowing students to gain critical thinking skills, knowledge and experience to analyze, design, program, implement and use information.

Requirements for the Information Systems emphasis

Lower Division

ISMG 2050 - Introduction to Business Problem Solving

*Summer 2010 Registration* ISMG 2050
Focuses on the technology and problem solving skills necessary for students to succeed both at school and in the business world. Focuses on business decision making using spreadsheets, database and web tools. Students solve problems in statistics, accounting, finance, marketing, management and information systems. The objective is to provide problem solving methods necessary for students to succeed in the business community. This is a business core course therefore a grade of a 'C' or better must be
earned to satisfy Business graduation and prerequisites for other business courses. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 2800 - Designing for the Web**

*Summer 2010 Registration ISMG 2800*

Students examine how the Web is evolving to support a variety of business needs. The course covers the design and usability principals necessary for improving online interactions via traditional websites as well as using technologies promoting collaboration and information sharing (e.g. social networks, blogs, wikis, forms). Topics include: the principles of web page and web site design; hypertext markup language, cascading style sheets, streaming video, online collaboration technologies; client and server scripting; and the process of testing and publishing web sites. Prereq: ISMG 2050 or taken concurrently with ISMG 2050. **Semester Hours:** 3 to 3 **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Upper Division: Junior Year**

**ISMG 3000 - Principles of Information Systems**

*Summer 2010 Registration ISMG 3000*

Covers the role of information technology in business organizations. It exposes students to innovative and interesting technologies and illustrates how those technologies are changing the way businesses operate. It highlights the importance of IT in organizations, including the relationship between technology & competitiveness, the alignment of business and IT strategy, the development and management of an effective IT infrastructure and the use of IT strategy, the development and management of an effective IT infrastructure and the use of IT-enabled organizational processes. Topics include: coping with information intensity, web sites, social networks and blogs; business intelligence at each level of management; IT based reports and data; collaboration and the impact of technology on organizational interaction; the use of IT for controlling and enhancing business processes; security, privacy & disaster recovery; and emerging technologies. Note: Business core course therefore a grade of a “C” or better must be earned to satisfy graduation requirements. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 3500 - Enterprise Data and Content Management**

*Summer 2010 Registration ISMG 3500*

The success of today’s business often hinges on the ability to turn mountains of data into critical information to make right decisions quickly and efficiently. This course introduces students to data, content and multimedia management using current enterprise data
management tools. Topics include: Oracle SQL for relational database and for multi-
media content; Oracle forms and reports, XML, and content management. Prereq: ISMG
2050 or equivalent, transfer credit VALIDATION (may need ISMG 2075 - 1
credit).

 Semester Hours: 3to 3
When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 3600 - System Strategy, Architecture and Design

Summer 2010 Registration ISMG 3600
This course is designed to provide the understanding of current concepts related to
information systems development in an organizational context. It emphasizes the
interactive nature of the analysis and design process. Topics include: requirements
analysis, model based analysis and design; evaluating outsourcing, COTS and other
systems acquisition options; and quality, six-sigma, and ethics in design. New concepts
such as agile modeling and extreme programming are covered. Prereq: ISMG 2050 or
equivalent, transfer credit VALIDATION (may need ISMG 2075 - 1 credit).
 Semester Hours: 3to 3
When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

Upper Division: Senior Year

ISMG 4200 - Building Business Applications

Summer 2010 Registration ISMG 4200
Examines how business technologies are designed and implemented. Usability, logic,
and platform selection issues are highlighted through the development of simple
business systems. Includes Windows interface design; storing, retrieving, and
manipulating information; real time decision making; task automation through iteration;
platform selection (mobile, desktop or web); and web programming. Prereq: ISMG
2800.
 Semester Hours: 3to 3
When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 4700 - Business Data Communications and Networking

Summer 2010 Registration ISMG 4700
Provides an in-depth knowledge of data communications and networking requirements
including: networking and telecommunications technologies, hardware, and software.
Emphasis is upon the analysis and design of networking applications in organizations.
Management of telecommunications networks, cost-benefit analysis, and evaluation of
connectivity options are also covered. Students learn to evaluate, select, and implement
different communication options within an organization. Topics include: network hardware and software; network configuration; network applications; distributed versus centralized systems; network architectures, topologies and protocols; network performance analysis; privacy, security, reliability; management of telecommunications, and communications standards. Prereq: Jr. Standing. **Semester Hours:** 3 to 3  
**When Offered:** SPRING  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 4900 - Project Management and Practice**

**Summer 2010 Registration ISMG 4900**  
Covers the factors necessary for successful management of enhancement projects. Both technical and behavioral aspects of project management are discussed. The focus is on management of development for enterprise-level systems. Topics include: managing the system lifecycle; requirements determination, logical design, physical design, testing, implementation; metrics for project management; managing expectations: superiors, users, team members and others related to the project; determining skill requirement and staffing the project; cost-effectiveness analysis; reporting and presentation techniques; effective management of both behavioral and technical aspects of the project; change management. Note: Successful completion of this course meets the educational requirements to sit for both the PMP and CAPM exams. Prereq: ISMG 2200. Cross-listed with CSCI 4900 and MGMT 4900. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Important note**

It is particularly important to take the required courses in the proper sequence to fulfill the prerequisites and ensure you can complete your degree within four years. Please refer to the sample degree plan for the recommended course sequence.

**Information Systems Electives**

**ACCT 3054 - Accounting Systems and Data Processing**

**Summer 2010 Registration ACCT 3054**  
The design and analysis of accounting information systems, with special emphasis on computers and computer programming, and the role of accounting in the role of accounting in the management process. Must earn a grade of 'C' or better to qualify for graduation. Prereq: Completion of ACCT 2220 and ISMG 2050 with a grade of 'C' or better (Strictly enforced). **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.
CSCI 2312 - Intermediate Programming

Summer 2010 Registration C SC 2312
Programming topics in the C++ language. The emphasis is on problem solving using object oriented and Generic Programming. Topics include advanced I/O, classes, inheritance, polymorphism and virtual functions, abstract base classes, exception handling, templates, and the Standard Template Library. Prereq: CSCI 1410. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CSCI 2421 - Data Structures and Program Design

Summer 2010 Registration C SC 2421
Topics include a first look at an algorithm, data structures, abstract data types, and basic techniques such as sorting, searching, and recursion. Programming exercises are assigned through the semester. Prereq: ENGL 1020, CSCI 2312. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 4300 - Information Security and Compliance

Summer 2010 Registration ISMG 4300
This course covers information security threats and various mechanisms available to organizations to defend against information compromise. It offers thorough analysis of state, national, and international information security regulations with which businesses must comply, including the Sarbanes-Oxley, Gramm-Leach-Billey and Hippa Acts. The regulatory compliance analysis will include measures the organizations must and should perform to be in compliance. Semester Hours: 3 to 3 When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 4750 - Business Intelligence and Financial Modeling

Summer 2010 Registration ISMG 4750
In this course, the student learns to analyze and solve financial problems with spreadsheet models, apply Oracle Financial and Business Intelligence software that is widely used in corporate financial operations and model risk and uncertainty with Monte Carlo software. Prereq: ISMG 2050, FNCE 3000 and ISMG 3000 (or ACCT 3054) with a grade of 'C' or better. Cross-listed with FNCE 4750. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 4760 - Customer Relationship Management

Summer 2010 Registration ISMG 4760
This marketing-theory driven course examines customer relationship management
(CRM) as a key strategic process for organizations. Composed of people, technology and processes, effective CRM optimizes the selection or identification, acquisition, growth and retention of desired customers to maximize profit. Besides presenting an overview of the CRM process, its strategic role in the organization and its place in marketing, students have an opportunity to create simulated CRM database using popular software package that help to illustrate what CRM can do, its advantages and limitations. Prereq: MKTG 3000 and ISMG 3000. Cross-listed with MKTG 4760. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Specialization in a minor area**

You may also choose a secondary business minor area to support your career objectives.

**Accounting**

Choose two from the following:

**ACCT 3054 - Accounting Systems and Data Processing**

*Summer 2010 Registration ACCT 3054*

The design and analysis of accounting information systems, with special emphasis on computers and computer programming, and the role of accounting in the role of accounting in the management process. Must earn a grade of 'C' or better to qualify for graduation. Prereq: Completion of ACCT 2220 and ISMG 2050 with a grade of 'C' or better (Strictly enforced). **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 3220 - Intermediate Financial Accounting I**

*Summer 2010 Registration ACCT 3220*

An intensive analysis of generally accepted accounting principles, accounting theory and preparation of annual financial statements for public corporations. Must complete course with a 'C' to qualify in graduation requirements. Prereq: Completion of ACCT 2220 with a grade of 'C' or better. Strictly enforced. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 3230 - Intermediate Financial Accounting II**

*Summer 2010 Registration ACCT 3230*

Selected topics not covered in ACCT 3220. Must complete course with a grade of 'C' to qualify in graduation requirements. Prereq: ACCT 3220, completed with a grade of a 'C'
or better. Strictly enforced. **Semester Hours:** 3
**When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 4780 - Accounting and Information Systems Processes and Controls**

**Summer 2010 Registration ACCT 4780**
The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. It focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: Completion of ACCT 2200, ACCT 2220 and ACCT 3054 with a grade of 'C' or better (strictly enforced). Cross-listed with ACCT 6510, ISMG 4780, and ISMG 6510. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Finance**

Choose two from the following:

**FNCE 3500 - Management of Business Capital**

**Summer 2010 Registration FNCE 3500**
Students learn the basic principles of managing capital in the business firm. Topics include financial statement analysis, management of working capital, theory and management of capital structure and cost of capital. A grade of 'C' or better must be earned to receive credit for this course and to take subsequent courses for which it is a prerequisite. Prereq: MATH 1080, DSCI 2010, ACCT 2220, FNCE 3000 with a grade of 'C' or better. **Semester Hours:** 3
**When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FNCE 4330 - Investment and Portfolio Management**

**Summer 2010 Registration FNCE 4330**
In this course students learn about the different types of investment vehicles, including methods to estimate their value and analyze their risk. They will also be introduced to portfolio management, including the identification of objectives and constraints and the analysis and use of investment information. Topics include the functioning of security markets, asset allocation, security valuation, and portfolio analysis. A grade of 'C' or better must be earned to receive credit for the course, and to take subsequent courses for which it is a prerequisite. Prereq: FNCE 3500 (and its prerequisites) and FNCE 4330, FNCE 4350 (which may be taken concurrently). **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
FNCE 4350 - Financial Markets and Institutions

Summer 2010 Registration FNCE 4350
Focuses on the supply and demand for loanable funds, the process of money creation, the structure of interest rates, and the role of banks and the Federal Reserve in the financial system. Special attention is devoted to the impact of monetary and fiscal policies on interest rates, the flow of funds and economic activity; and the operation of financial markets and institutions. A grade of 'C' or better must be earned in this course to receive credit for the area of emphasis and to take subsequent courses for which it is a prerequisite. Prereq: FNCE 3000. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

FNCE 4750 - Business Intelligence and Financial Modeling

Summer 2010 Registration FNCE 4750
In this course, the student learns to analyze and solve financial problems with spreadsheet models, apply Oracle Financial and Business Intelligence software that is widely used in corporate financial operations and model risk and uncertainty with Monte Carlo software. Prereq: ISMG 2050, FNCE 3000 and ISMG 3000 (or ACCT 3054) with a grade of 'C' or better. Cross-listed with ISMG 4750. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Human Resource Management

Choose two from the following:

**MGMT 3010 - Managing People for a Competitive Advantage**

Summer 2010 Registration MGMT 3010
Provides an overview of the management of human resources in organizations. Areas of study include recruitment, selection, training, career development, performance appraisal, compensation and employee or labor relations. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 4420 - Human Resources Management: Staffing**

Summer 2010 Registration MGMT 4420
Methods, theories, research findings, and issues in staffing. Topics include performance-based framework for selecting employees, establishing performance expectations, planning the recruitment process and finding valid and useful tools to select the best
candidate. Prereq: MGMT 3010 (may be taken concurrently). **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 4430 - Human Resources Management: Training**

*Summer 2010 Registration MGMT 4430*
Methods, theories, research findings, and issues in training. Topics include how to
design, deliver, and evaluate training programs. Prereq: MGMT 3010 (may be taken
concurrently). Cross-listed with MGMT 6720. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 4450 - Human Resources Management: Compensation**

*Summer 2010 Registration MGMT 4450*
Develop and administer pay systems considering economic and social pressures,
traditional approaches and strategic choices in managing compensation. Current theory
research and practice. Students design a compensation strategy and a system that
translates that strategy into reality. Prereq: MGMT 3010 (may be taken concurrently).
Cross-listed with MGMT 6740. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 4770 - Human Resource Information Systems**

*Summer 2010 Registration MGMT 4770*
Focuses on the management of human resource information systems. It addresses how
modern information systems tools can provide better human resource intelligence to
users in today’s enterprises, allowing them to make better decisions. It examines how
information about workforce and human resource management processes can be
collected and used to set targets to meet strategic objectives, monitor performance,
receive notifications when performance is below expectations and respond immediately
by taking corrective actions. Prereq: MGMT 3000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Management**

Choose two from the following:

**MGMT 4350 - Leading Organizational Change**

*Summer 2010 Registration MGMT 4350*
Focuses on the tasks and skills of a leader in leading organizational changes. Topics
include: diagnosing problems, creating urgency, building the change team, creating a
vision, implementing change strategies, sustaining the momentum and making change
stick. These tasks and skills are studied in various organizational change contexts.
Prereq: MGMT 3000 with a grade of 'c' or better and MGMT 4370. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 4370 - Organization Design**

*Summer 2010 Registration MGMT 4370*
Examines how to structure organizations to perform effectively. Addresses the effects of computer-based information technologies (e.g. intranets, extranets, and the internet) on firm structure, strategy, and culture. Emphasis is placed on the role of the task, technology, and the environment as constraints on organizational design. Prereq: MGMT 3000. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 4400 - Environments of International Business**

*Summer 2010 Registration MGMT 4400*
An overview of the environmental complexities that arise when business activities and firms cross national borders. Key international business environmental complexities associated with country differences, cross-border trade and investment, and global monetary system are examined. Prereq: MGMT 3000 and junior standing. Cross-listed with INTB 4400. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Marketing**

Choose two from the following:

**MKTG 3100 - Marketing Research**

*Summer 2010 Registration MKTG 3100*
Provides practical experience in research methodologies, planning an investigation, designing a questionnaire, selecting a sample, interpreting results and making a report. Techniques focus on attitude surveys, behavioral experiments, and qualitative research. Prereq: MKTG 3000 and DSCI 2010. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 3200 - Buyer Behavior**

*Summer 2010 Registration MKTG 3200*
Focuses on improving the student's understanding of consumer and organizational buying behavior as a basis for better formulation and implementation of marketing
strategy. Blends concepts from the behavioral sciences with empirical evidence and introduces buyer research techniques. Prereq: MKTG 3000. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 4050 - Applied Marketing Management**

*Summer 2010 Registration MKTG 4050*

The course is designed to enhance the student's ability to formulate and implement a marketing plan and to better understand the relationship of marketing to other business functions. Emphasized application of marketing concepts through the use of cases, simulations or projects. Prereq: MKTG 3000 and DSCI 2010. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 4760 - Customer Relationship Management**

*Summer 2010 Registration MKTG 4760*

This marketing-theory driven course examines customer relationship management (CRM) as a key strategic process for organizations. Composed of people, technology and processes, effective CRM optimizes the selection or identification, acquisition, growth and retention of desired customers to maximize profit. Besides presenting an overview of the CRM process, its strategic role in the organization and its place in marketing, students have an opportunity to create simulated CRM database using popular software package that help to illustrate what CRM can do, its advantages and limitations. Prereq: MKTG 3000. Cross-listed with ISMG 4760. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**NOTE:**

All information systems courses are not offered every semester.

**International Business Emphasis—BS in Business Administration**

Increasingly, businesses are reorienting their thinking, planning and operations to capitalize on opportunities that exist in the world marketplace. Every phase of business is affected by this reorientation. For individuals with the appropriate skills, training and interest, international business provides excellent career opportunities.

The international business curriculum is designed to enhance and build on thorough training in basic business skills and to provide students with additional skills and knowledge appropriate to international business.
Required Foundation Courses

MGMT 4370 - Organization Design

Summer 2010 Registration MGMT 4370
Examines how to structure organizations to perform effectively. Addresses the effects of computer-based information technologies (e.g. intranets, extranets, and the internet) on firm structure, strategy, and culture. Emphasis is placed on the role of the task, technology, and the environment as constraints on organizational design. Prereq: MGMT 3000. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MKTG 4050 - Applied Marketing Management

Summer 2010 Registration MKTG 4050
The course is designed to enhance the student's ability to formulate and implement a marketing plan and to better understand the relationship of marketing to other business functions. Emphasized application of marketing concepts through the use of cases, simulations or projects. Prereq: MKTG 3000 and DSCI 2010. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Required Emphasis Courses

FNCE 4370 - International Financial Management

Summer 2010 Registration FNCE 4370
Financial management in the international environment. Topics include international capital movements; international operations as they affect the financial functions; foreign and international institutions; and the foreign exchange process. Also considers foreign exchange theory and risk management, financial requirements, problems, sources, and policies of firms doing business internationally. A grade of 'C' or better must be earned to receive credit for the course and to take subsequent courses for which it is a prerequisite. Prereq: FNCE 3000. Semester Hours: 3 to 3 When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

MGMT 4400 - Environments of International Business

Summer 2010 Registration MGMT 4400
An overview of the environmental complexities that arise when business activities and firms cross national borders. Key international business environmental complexities associated with country differences, cross-border trade and investment, and global monetary system are examined. Prereq: MGMT 3000 and junior standing. Cross-listed
MGMT 4410 - Operations of International Business

Summer 2010 Registration MGMT 4410
Focuses on the impact of environmental factors on international business operations and the identification and analysis of complex strategic and operational issues facing business firms in global markets. The strategies and structures of international businesses, alternative foreign market entry modes, and the unique roles of various business functions at international business firms are explained and assessed. Prereq: INTB 4400 or MGMT 4400. Cross-listed with INTB 4410. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MKTG 4200 - International Marketing

Summer 2010 Registration MKTG 4200
Studies managerial marketing policies and practices of firms marketing their products in foreign countries. Analytical survey of institutions, functions, policies, and practices in international marketing. Relates marketing activities to market structure and environment. Prereq: MKTG 3000. Semester Hours: 3 to 3
When Offered: FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 18 Hours

A second area of emphasis in business is highly recommended. In addition, serious consideration should be given to advanced study of a foreign language and to either a minor or a certificate in international affairs, offered by the College of Liberal Arts and Sciences.

Elective Business Emphasis Courses (9 credit Hours)

- Three business courses (3000 or 4000 level), 3 semester hours each
Students are strongly recommended to take courses within the same business discipline, including internationally-oriented courses within the discipline such as MKTG 4220 (Asian Business Development and Marketing) and ACCT 4370 (Internationally Accounting)

International Studies BA
Program Requirements

The major consists of 48 to 51 semester hours, structured as follows:

- complete 9 semester hours from a list of introductory courses listed below
- choose three thematic concentrations from the following five: language and culture, international relations and comparative politics, economics and development, international commerce, and regional societies and history. Majors complete 12 hours in each theme (except international commerce, which requires 15). Below is a list of preapproved courses in each concentration. Students wishing to apply courses not on the list may do so with the approval of the program director.
- a capstone seminar (3 semester hours) for students in their last year
- the major is interdisciplinary, and students must take classes in at least three different disciplines (anthropology, economics, geography, history, international commerce/business, modern languages, political science or religious studies). No more than 18 hours in any one discipline will be accepted toward the major.
- students are expected to develop a regional specialization. They must choose courses from the introductory and thematic concentration lists that contribute to an understanding of a world region.
- all international studies majors must demonstrate a proficiency in a language other than English. This may be fulfilled with the fourth semester of a foreign language course sequence. Students must receive a grade of C or better in all language courses; they also have the option of testing out of this requirement.
- majors must complete at least half (24 hours) of the semester hours at the Downtown Campus. A cumulative GPA of 2.5 or better is required, with a minimum grade of C- earned in all major courses to graduate.

Required Courses

Introductory Courses

Choose one course from each of the following three groups:

Choose one:

ECON 2012 - Principles of Economics: Macroeconomics

Summer 2010 Registration ECON 2012
Covers topics of inflation, unemployment, national income, growth and problems of the national economy, stabilization policy, plus others at the discretion of the instructor. Purpose is to teach fundamental principles, to open the field of economics in the way most helpful to further a more detailed study of special problems, and to give those not
intending to specialize in the subject an outline of the general principles of economics. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 1102 - World Regional Geography**

*Summer 2010 Registration GEOG 1102*
Analysis of the relationships of man and the landscape based on geographic distributions in the world. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS2
Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose one:

**INTB 3000 - Global Perspectives**

*Summer 2010 Registration INTB 3000*
Globalization brings both opportunities and anxieties that need to be fully explored, discussed and understood both by the business and non-business student. This interdisciplinary course is designed to stimulate thought, perspective, discussion and debate for business and non-business students on issues ranging from globalization; political economy and geopolitics; the environment; cultures; finances; economic integration; trade; global regions; emerging markets; human rights; terrorism and conflict; leadership, ethics and values; entrepreneurship, to future trends in global issues. The Global Perspective course is designed (1) to increase and promote both business and non-business students' capacity for international understanding and international enterprise through the study and discussion of global business environment-related issues from multiple points of view in a neutral forum. (2) It is to provide students with the awareness that global issues cannot be viewed in isolation, that they are all interrelated. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 3022 - Introduction to Comparative Politics**

*Summer 2010 Registration P SC 3022*
Comparison of the basic political features of selected countries with focus on political behavior, institutions and political cultures. Themes examined include development, democratization, social movements, political instability and globalization. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 3042 - Introduction to International Relations**
Summer 2010 Registration  P  SC 3042
Basic background and theories of international relations with focus on the interaction between nation states, international organizations, regimes and transnational movements. Themes examined include foreign policy conduct, international security and political economy, human rights and environmental management. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose one:

ANTH 2102 - Culture and the Human Experience

Summer 2010 Registration  ANTH 2102
An application of the concept of culture to several aspects of the human experience, including gender relations, emotion and personality, cognition, language, health and healing and economic behavior. In exploring these dimensions of the human experience, the course focuses on selected cultures from each of the world's major geographic areas. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 3451 - Introduction to African History

Summer 2010 Registration  HIST 3451
By looking at specific examples of the cultural, political, and economic experience of African society, this course attempts to introduce and make comprehensive the diverse history of the people of Africa. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 3460 - Introduction to Latin American History

Summer 2010 Registration  HIST 3460
Surveys the historical development of the modern Latin American countries, beginning with the independence movements of the early 19th century. Emphasizes the 20th century issues and problems that have characterized these countries and affected their relations with the United States. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 3470 - Introduction to Asian History

Summer 2010 Registration  HIST 3470
Introduces the origin and development of civilization in China, Japan and Korea. Explores the relationship between culture and civilization. Readings are drawn from literature, religion, philosophy, anthropology and history. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
HIST 3480 - Introduction to European History

*Summer 2010 Registration* HIST 3480

Students are introduced to the major themes of European history and culture from the Enlightenment to the present. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 3483 - Introduction to Modern South Asia

*Summer 2010 Registration* HIST 3483

Surveys the social, economic, and political processes that shaped modern South Asia. Considers issues in contemporary political debates within their original historical contexts and trace the power of relationships that affected changes, long-term continuities, and revivals. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 2660 - World Religions

*Summer 2010 Registration* RLST 2660

Provides an introduction to the basic beliefs and concepts of the world's great religious traditions. Covers the history, development, belief patterns, and institutional forms of the world's religions, including Judaism, Zoroastrianism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism and Shintoism. **Semester Hours:** 3 to 3  **GT Pathways Category Key:** GT-AH3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 9 Hours**

**Thematic Concentrations**

Students must take a minimum of four upper-division courses in each of three of the following five concentrations, for a total of 36 semester hours (12 hours in each concentration). Please note that the concentration in international commerce requires five courses rather than four, for a total of 39 semester hours. The list below does not include all the international courses applicable to the major, only the ones frequently taught. It is expected to change as departments develop new courses and hire new faculty in different areas.

*Note:* Concentrations are interdisciplinary and are not the same as academic departments. Students must take courses in at least three different academic departments and no more than 18 semester hours in any one department.
Language, Culture and Literature

This concentration aims at deepening the student’s understanding of the cultural underpinnings and worldviews of different societies.

Modern languages: any upper-division courses in the Department of Modern Languages except Methods of Teaching French/German/Spanish. We have not listed the courses individually because there are so many upper-division courses on world literature and culture available in modern languages.

ANTH 3121 - Language and Communication

Summer 2010 Registration ANTH 3121
Definitions of language and communication and their relationship to human behavior, thought and culture. The classification of languages, linguistic universals, language acquisition, multilingualism, and nonhuman communication, with consideration of the evolutionary implications of such studies. Prereq: Introductory course in cultural anthropology. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 4130 - Comparative Religious Systems

Summer 2010 Registration ANTH 4130
A cross-cultural analysis of religious belief and behavior. Emphasis is placed on religions found among non-Western cultural groups and includes consideration of how major religions of the world are manifested on local levels. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 5130, RLST 4010, 5010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

RLST 4010 - Comparative Religious Systems

Summer 2010 Registration RLST 4010
A cross-cultural analysis of religious belief and behavior. Emphasis is placed on religions found among non-Western cultural groups and includes consideration of how major religions of the world are manifested on local levels. Cross-listed with ANTH 4130, 5130, RLST 5010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHIL 4650 - Differing Concepts of God

Summer 2010 Registration PHIL 4650
God, gods, and goddesses have been imagined in many different modes, forms, aspects, and guises throughout human history. This course investigates Paleolithic
models of God, the Great Goddess of the Neolithic era, the gods of mythological traditions, Biblical God, the abstract God of the philosophers, the God of the pantheists, the deists, and the God of the mystics. Cross-listed with PHIL 5655, RLST 4400 and 5400. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 4400 - Differing Concepts of God**

*Summer 2010 Registration RLST 4400*
God, gods, and goddesses have been imagined in many different modes, forms, aspects, and guises throughout human history. This course investigates Paleolithic models of God, the Great Goddess of the Neolithic era, the gods of mythological traditions, Biblical God, the abstract God of the philosophers, the God of the pantheists, the deists, and the God of the mystics. Cross-listed with RLST 5400, PHIL 4650 and 5655. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**International Relations and Comparative Politics**

Courses in this concentration stress comparative approaches, diplomacy and conflict resolution. Students will have an understanding of how different societies make decisions and manage international relations. How do other cultures conceive of and practice power?

**ANTH 4180 - The Nature of Power**

*Summer 2010 Registration ANTH 4180*
Introduces the major theories of power used in contemporary anthropology, with an emphasis on cross-cultural perspectives. Explores how power is defined, determined and exercised globally and locally and how different systems of power articulate with one another. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 5180. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 3121 - The World at War, 1914-1945**

*Summer 2010 Registration HIST 3121*
Examines World Wars I and II as episodes in a protracted conflict among the nations of the capitalist West, the emerging states of Asia and the colonial world, and the USSR. Studies the causes and consequences of the wars. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
HIST 4032 - Globalization in World History Since 1945

Summer 2010 Registration HIST 4032
An interdisciplinary course on contemporary world history and globalization. While the course is historically structured, economic, political, and sociological matters are explored. Cross-listed with HIST 5032. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4220 - U.S. Foreign Policy Since 1912

Summer 2010 Registration HIST 4220
The main thrust is the emergence of the U.S. from isolation toward full-scale participation in the affairs of Europe and other areas. Special attention is given to U.S. intervention in two world wars, the Cold War, and the over extension of U.S. commitments since 1960. Cross-listed with HIST 5220. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4412 - Mexico and the United States: People and Politics on the Border

Summer 2010 Registration HIST 4412
Examines the convoluted relations between these two republics, focusing on diplomatic, cultural, and social interactions. Cross-listed with HIST 5412. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4471 - The Second World War

Summer 2010 Registration HIST 4471
The War in its totality: causes, military strategies (equal treatment to European and Pacific theaters), campaigns, impact of technology and weapons, political and social upheaval. Cross-listed with HIST 5471. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4475 - The Vietnam War

Summer 2010 Registration HIST 4475
Covers the conflict in Vietnam, with roots in the period prior to World War II. Main topics include the rise of nationalism in French Indochina, the war against the French, the Northern move to unify Vietnam, American intervention, and eventual victory of the Northern regime. Cross-listed with HIST 5475. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 3022 - Introduction to Comparative Politics
Comparison of the basic political features of selected countries with focus on political behavior, institutions and political cultures. Themes examined include development, democratization, social movements, political instability and globalization. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 3042 - Introduction to International Relations**

**Summer 2010 Registration P SC 3042**

Basic background and theories of international relations with focus on the interaction between nation states, international organizations, regimes and transnational movements. Themes examined include foreign policy conduct, international security and political economy, human rights and environmental management. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4057 - Religion and Politics**

**Summer 2010 Registration P SC 4057**

Exploration of: (1) theoretical perspectives on the relationship between religion and politics; (2) causes of and justifications for the historical development of the Western separation of "church" and state; (3) contemporary responses to and analyses of this separation; and (4) several current debates about public policy in America that reveal tensions between these two spheres. Cross-listed with PSCI 5057 and RLST 4500, 5500. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**RLST 4500 - Religion and Politics**

**Summer 2010 Registration RLST 4500**

Exploration of: (1) theoretical perspectives on the relationship between religion and politics; (2) causes of and justifications for the historical development of the Western separation of "church" and state; (3) contemporary responses to and analyses of this separation; and (4) several current debates about public policy in America that reveal tensions between these two spheres. Cross-listed with PSCI 4057, 5057 and RLST 5500. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4105 - Comparative Politics: Europe**

**Summer 2010 Registration P SC 4105**

An intensive and comparative analysis of the political systems and processes of Europe.
Emphasis on political culture and economy; executive-legislative relationships; electoral systems; political parties and interest groups; political conflict and citizen participation; and the impact of social changes on political institutions. Cross-listed with PSCI 5105. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4146 - Indigenous Politics**

*Summer 2010 Registration* P SC 4146
Surveys the status of the world’s native peoples and nations, and the role of law and politics in the future of indigenous peoples in the global arena. Examines questions of human rights, economic development, and international law and politics. Prereq: PSCI 1001. Cross-listed with PSCI 5145 and ETST 4146. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4156 - The Arab-Israeli Peace Process**

*Summer 2010 Registration* P SC 4156
Critical analysis of Arab and Israeli perspectives on the on-going peace negotiations in the Middle East. Historical background and religious-cultural aspects of current problems. Prereq: Upper division standing. Cross-listed with ETST 4156. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4185 - Corruption in the U.S. and Abroad**

*Summer 2010 Registration* P SC 4185
Explores the causes and consequences of administrative and political corruption in developed and developing countries, and evaluates various anti-corruption strategies. Prereq: PSCI 1001 or 3022. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4216 - International Politics: Human Rights**

*Summer 2010 Registration* P SC 4216
The system of nation states, concepts of national interest, goals of foreign policies, conduct of diplomacy, and the bearing of these elements on the problem of human rights. Presentation and evaluation of the solutions that have been offered for the securing of justice and the maintenance of peace. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4217 - Human Rights in Theory and Practice**
Summer 2010 Registration  P SC 4217
Explores the ideas of human rights and the practical efforts to actualize rights in society. Students study the theories of rights and the evolution of rights in history, as well as work with a service organization. Cross-listed with PSCI 5217. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4225 - Democracy and Democratization

Summer 2010 Registration  P SC 4225
Examines the conditions under which countries turn from authoritarianism towards democracy and become stable democratic regimes. Also examines the impact of foreign and international factors on new democracies. Cross-listed with PSCI 5225. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4226 - The United Nations in World Affairs

Summer 2010 Registration  P SC 4226
Current operation and future potential of the United Nations as a complex actor in world affairs, both expressing conflicting interests of its participants and promoting universal goals, including world peace, human rights, and environmental protection. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4236 - American Foreign Policy

Summer 2010 Registration  P SC 4236
Examines the postwar events, controversies, and most recent challenges in U.S. foreign policy. Analyses of the major sources of U.S. foreign policy, such as ideology, national interests, and national power. Attention to the pattern and process of foreign policy-making. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4266 - International Law

Summer 2010 Registration  P SC 4266
Investigates the body of law that regulates relations between nations and provides a framework for solving common problems and disputes between nations. Prereq: Upper division political science major. Cross-listed with PSCI 5266. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4286 - International Relations: War or Peace?
Summer 2010 Registration  P SC 4286
Presents alternative theoretical frameworks for the explanation of war and peace. Investigations of the efficacy of international law, just-war norms and the UN in preventing or containing conflict. Prereq: PSCI 1001. Cross-listed with PSCI 5286. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4726 - Russian and Chinese Foreign Policy**

Summer 2010 Registration  P SC 4726
Foreign policies of Russia and China; relations with Western powers and the Third World; interaction of domestic developments and foreign policy; role of national interest, ideology, and elite personalities. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4736 - The Middle East in World Affairs**

Summer 2010 Registration  P SC 4736
Evolution and revolution in the Middle East. The character of nationalism in the area. Analysis of inter-regional and international problems affecting the Middle East, with special emphasis on current Arab-Israeli relations. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4807 - Revolution and Political Violence**

Summer 2010 Registration  P SC 4807
Study, discussion, and evaluation of alternative frameworks for the analysis of revolution and political violence. The theoretical material is firmly couched in case situations such as Western, class, colonial, urban, international, historical, racial, religious, and intergenerational violence. The class develops its own theoretical model(s). **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4995 - Travel Study Topics**

Summer 2010 Registration  P SC 4995
Students study various topics at an off-campus location, either a foreign country or another city or region in the United States, led by a Downtown Denver Campus instructor. Prereq: PSCI 1001 or 3022 or permission of instructor. Cross-listed with PSCI 5995. **Semester Hours:** 1to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

* If not taken to fulfill the introductory major requirements.
Economics, Development and Environment

Students taking this concentration will develop an understanding of economic processes in an international context. The courses offer comparative approaches and cultural perspectives on development and environment.

Note: Students in this concentration must take

ECON 2012 - Principles of Economics: Macroeconomics as one of their three introductory courses.

Required economics course

ECON 2022 - Principles of Economics: Microeconomics

Summer 2010 Registration ECON 2022
Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022. Semester Hours: 3 to 3

Pathways Category Key: GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose three upper division courses from the following:

ANTH 4010 - Global Health Studies I: The Biocultural Basis of Health

Summer 2010 Registration ANTH 4010
This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health studies; the second is ANTH 4020. Prereq: Upper division and/or graduate standing. Cross-listed with ANTH 5014, HBSC 4010 and 5010. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 4070 - Culture of Development and Globalization

Summer 2010 Registration ANTH 4070
Anthropological critiques of development and globalization point out that they have occurred without regard for the diversity of human culture and human need. Beginning with this analysis, this course goes one step further by examining culture and values of development and how they affect the way development gets done. Prereq: Upper division standing and permission of instructor. Cross-listed with ANTH 5070. Semester
**Hours**: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 4140 - Principles of Economic Anthropology**

*Summer 2010 Registration ANTH 4140*
Both formalist and substantivist perspectives are used to examine economic organization in a cross-cultural perspective. Special attention is focused on gift-giving in pre-stratified societies, craft specialization in middle-range societies, specialized economies in non-market-oriented ancient states and economic organization in modern world systems. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 5140. **Semester Hours**: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 4170 - Culture and the Environment**

*Summer 2010 Registration ANTH 4170*
Examines the historical origins of Western and non-Western ideas of the environment and the place of people within it. The imposition of Western ideas on non-Western groups regarding environmental policy is also examined, with special attention given to practices of conservation, development and transnational monetary policy. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 5170. **Semester Hours**: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 4390 - Laboratory Methods in Archaeology**

*Summer 2010 Registration ANTH 4390*
Methods and theories of archaeology are used to scrutinize the collection and interpretation of data and the relationships of archaeology to other disciplines. Core materials emphasize the critique of basic archaeological assumptions. Note: Course content varies slightly each time it is offered, in response to student needs and the availability of projects (e.g., laboratory work, urban excavation, survey and mapping). May be repeated for credit when topics change. Prereq: ANTH 1302 or equivalent. **Semester Hours**: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 4081 - Intermediate Macroeconomic Theory**

*Summer 2010 Registration ECON 4081*
National income and employment theory. Primary emphasis placed on determination of employment and prices. Problems of unemployment and inflation analyzed and appropriate policies considered. Prereq: ECON 2012, 2022 and 3801. **Semester Hours**: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
ECON 4230 - Law and Economics

Summer 2010 Registration ECON 4230
Applies economic theory to legal decision making. Topics include property law, tort law, contract law, the common law, crime and punishment, comparisons to traditional forms of legal decision making and the economic approach to politics. Prereq: ECON 2022. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 4410 - International Trade

Summer 2010 Registration ECON 4410
Trade theory identifies who wins and loses from trade and why there are usually overall gains. Explores issues in immigration, globalization, income inequality, tariffs, dumping, the WTO, the environment, wages, and growth strategies among others. Prereq: ECON 2022. Cross-listed with ECON 5410. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 4420 - International Finance

Summer 2010 Registration ECON 4420
The international adjustment process, including the foreign exchange market, balance of payments disequilibria, price and income adjustment, fiscal and monetary policy, and the international monetary system. Prereq: ECON 2012. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 4540 - Environmental Economics

Summer 2010 Registration ECON 4540
Economic approach to environmental problems: relationship between ownership structures, externalities and environmental damage; poverty, population pressure, and environmental degradation; valuation of environmental amenities; sustainability of economic activity; cost-benefit analysis applied to the environment; evaluation of alternative instruments for environmental control. Prereq: ECON 2022. Cross-listed with ECON 5540. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 4770 - Economic Development--Theory and Problems

Summer 2010 Registration ECON 4770
Introduces theory and practice of economic development. Topics include development and growth models, economic planning, income distribution, human and capital resources, foreign investment and the multinationals, technology transfer, trade and development. Discussions of current issues regarding world debt, economic stabilization,
the new protectionism, empirical studies, and examples of development in various countries. Prereq: ECON 2012 or ECON 2022. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3300 - Population and Resources in the World Environment**

*Summer 2010 Registration GEOG 3300*
Increasing world human populations are examined in the context of regional and global resources. Opposing viewpoints are studied, and students are required to complete a case study of a self-selected issue analyzing viewpoints associated with relevant opposing opinions. Prereq: upper division standing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3411 - Globalization and Regional Development**

*Summer 2010 Registration GEOG 3411*
Addresses global political-restructuring and its implications for regional development in the U.S. Both historical and contemporary processes of globalization are examined. Topics include: the environmental basis of American industrial growth, the relationship between technological change and geographical shifts, the rise and decline of Fordism, the transfer of Japanese manufacturing methods to the U.S., the role of regional and national industrial policy, and the social consequences of globalization for labor and communities. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3420 - Political Ecology**

*Summer 2010 Registration GEOG 3420*
Addresses the political economy of development in the third world, focusing on contemporary issues of agrarian change, ecological degradation, deforestation and urbanization. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3430 - Geography of Tourism**

*Summer 2010 Registration GEOG 3430*
Geographic analysis of trends in recreation, travel, and tourism, and their economic, social, and environmental impacts. Examines growth and change in resorts and tourist destination areas. Prereq: GEOG 1302 or 3411. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4265 - Sustainability in Resources Management**
**Summer 2010 Registration** GEOG 4265
Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 5265. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**INTB 3000 - Global Perspectives**

**Summer 2010 Registration** INTB 3000
Globalization brings both opportunities and anxieties that need to be fully explored, discussed and understood both by the business and non-business student. This interdisciplinary course is designed to stimulate thought, perspective, discussion and debate for business and non-business students on issues ranging from globalization; political economy and geopolitics; the environment; cultures; finances; economic integration; trade; global regions; emerging markets; human rights; terrorism and conflict; leadership, ethics and values; entrepreneurship, to future trends in global issues. The Global Perspective course is designed (1) to increase and promote both business and non-business students' capacity for international understanding and international enterprise through the study and discussion of global business environment-related issues from multiple points of views in a neutral forum. (2) It is to provide students with the awareness that global issues cannot be viewed in isolation, that they are all interrelated. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4085 - Comparative Public Policy**

**Summer 2010 Registration** PSC 4085
Comparison of public policy making in such areas as health care, environment, family assistance, and employment in the United States and at least two other countries. Prereq: Graduate standing or permission of instructor. Cross-listed with PSCI 5085. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4126 - Introduction to International Political Economy**

**Summer 2010 Registration** PSC 4126
A short introduction to international economy, including classic readings of international political economy (such as Smith, Ricardo, Marx, Lenin), and more recent work on globalization, applying related theories to the current world economy. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PSCI 4235 - Politics and Markets in Latin America

*Summer 2010 Registration* P SC 4235
Explores political economic development in Latin America within the context of the world system. Includes the study of colonization, land tenure, foreign investment, authoritarianism, militarism, social and revolutionary movements, human rights and democratization. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4248 - Gender, Globalization and Development

*Summer 2010 Registration* P SC 4248
Analyzes the effects of globalization on the gendered processes of international development and strategies to empower women to achieve gender justice across race, class and national divisions. Cross-listed with PSCI 5245 and WGST 4248. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4326 - Advanced International Political Economy: Globalization

*Summer 2010 Registration* P SC 4326
Engages the current debate about globalization. Conceptualizes globalization and evaluates the pros and cons of global trade and finance for developed and developing countries. Develops a model for a sustainable and just global economy. Prereq: PSCI 4126. Cross-listed with PSCI 5326. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4365 - Global Ecological Crises

*Summer 2010 Registration* P SC 4365
Overview of global ecological problems such as climate change, transboundary pollutions, and loss of bio-diversity in an attempt to understand the political, economic, and cultural forces behind these problems and the status of legal and policy initiatives to address them. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4555 - International Women’s Resistance

*Summer 2010 Registration* P SC 4555
Examines local and international struggles of women to build peace and justice by
resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Cross-listed with PSCI 5555, ETST 4555 and WGST 4555. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**International Commerce**

The objective of this concentration is to give students an introduction to international business practices.

ECON 2012 and ECON 2022 are prerequisites for most of these courses. Note that the first three courses are prerequisites for MGMT 4400 and MKTG 4200. Students opting for this concentration must take both MGMT 4400 and MKTG 4200. Students must meet Business School entrance requirements for the international commerce concentration, with a 3.0 GPA overall or in the last 24 hours.

*Note:* This concentration requires 15 hours, not 12.

**ACCT 2200 - Financial Accounting and Financial Statement Analysis**

*Summer 2010 Registration ACCT 2200*

The financial accounting process, the role of the profession and the analysis of financial statements. Principal focus on interpretation of financial statements, with emphasis on asset and liability valuation problems and the determination of net income. Prereq: MATH 1070 and sophomore standing. A grade of 'C' or better is required in this course to proceed to ACCT 2220. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

(MATH 1070 or MATH 1110 prerequisite and sophomore standing).

**MGMT 3000 - Managing Individuals and Teams**

*Summer 2010 Registration MGMT 3000*

Focuses on helping students understand how to manage individuals and groups effectively. Students are encouraged to know themselves better and how their behavior affects how they deal with organizational situations; they also learn how individuals differ and how to design, manage and work in a team. This is a business core course therefore a grade of a 'c' or better must be earned to satisfy graduation requirements. Prereq: Junior standing. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 3000 - Principles of Marketing**

*Summer 2010 Registration MKTG 3000*

Focuses on the basic marketing concepts of Buyer Behavior, Marketing Research, Marketing Planning and Implementation and the marketing process of product, price,
distribution and promotion. This is a business core course therefore a grade of a 'C' or better must be earned to satisfy graduation requirements. Prereq: Junior standing. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 4400 - Environments of International Business**

*Summer 2010 Registration MGMT 4400*
An overview of the environmental complexities that arise when business activities and firms cross national borders. Key international business environmental complexities associated with country differences, cross-border trade and investment, and global monetary system are examined. Prereq: MGMT 3000 and junior standing. Cross-listed with INTB 4400. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 4200 - International Marketing**

*Summer 2010 Registration MKTG 4200*
Studies managerial marketing policies and practices of firms marketing their products in foreign countries. Analytical survey of institutions, functions, policies, and practices in international marketing. Relates marketing activities to market structure and environment. Prereq: MKTG 3000. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

* Students must have junior standing to take the 3000-level courses and must be formally admitted to the international studies program to take the 4000-level courses.

**Regional Societies and History**

Students in this concentration are expected to develop a historical understanding of how nations and political systems develop. To understand why international actors behave in a given way, one needs to understand the historical background of those actors; this concentration will familiarize students with that background.

**ANTH 4220 - Community in Global Context**

*Summer 2010 Registration ANTH 4220*
Presents the community study method from the perspective of anthropology and as a widely applicable research technique in planning, development and other areas of public affairs. Also includes analyses of case studies and student field research. Prereq: Introductory course in cultural anthropology. Cross-listed with ANTH 5220. **Semester**
ANTH 4250 - Culture Change in the Modern World

*Summer 2010 Registration* ANTH 4250
Processes and dilemmas of culture change using macro-level theories as well as models of change for communities and individuals. Conceptual and practical problems of modernity relating to globalization, urbanization, environmental degradation and technological change. *Prereq:* At least one course in cultural anthropology. *Semester Hours:* 3 to 3

ANTH 4740 - Ethnography of Mexico and Central America

*Summer 2010 Registration* ANTH 4740
Geographic affiliations, culture, history, traditional ways of life and culture change in Mexico and Central America. Cross-listed with ANTH 5740. *Semester Hours:* 3 to 3

ANTH 4995 - Travel Study

*Summer 2010 Registration* ANTH 4995
A flexible format that permits courses to be taught in various areas of the world. Cultures of the Himalayas. Concerned broadly with contemporary Himalayan culture. Focuses on Tibetan cultures and the Tibetan diaspora, and the Nepalese (Newari) culture of the Katmandu Valley. The goals for this course are: to acquaint the student with social, political and cultural features of this part of the world; to teach, through directed field experiences, how cultural anthropology is practiced; to understand how the process of tourism differs from the study of anthropology; how tourism, however it is practiced, changes in fundamental ways those subject to it. The Arts of Self and Society in Contemporary China. An intensive introduction to contemporary conditions and issues in the People’s Republic of China, including social relations, popular culture, eating practices, religious practices and everyday life. Uses a combination of readings, lectures, field trips to local sites and ethnographic field projects. Usually situated in Kunming, Yunnan province, in southwest China, but the location may vary. *Note:* Students enroll additionally in Chinese language classes at levels from beginning to advanced. *Prereq:* Permission of instructor. Cross-listed with ANTH 5995. *Semester Hours:* 3 to 9

GEOG 3120 - Geography of Europe
Summer 2010 Registration GEOG 3120
An analysis of the physical environment, resource utilization, economic development and cooperation in Europe. A cultural and political geography which focuses on continuity and change in Eastern and Western Europe. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3130 - Central America and the Caribbean

Summer 2010 Registration GEOG 3130
Surveys the physical environment and cultural development of Central America and the Caribbean Islands. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3140 - Geography of South America

Summer 2010 Registration GEOG 3140
The physical environment, cultural development, and political instability within the area are analyzed. Influence of the landscape and climate, as well as Iberian cultural and land tenure patterns on historic settlement and modern growth are discussed. Problems associated with population, economics, politics, education, and geography are emphasized. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3150 - Middle East

Summer 2010 Registration GEOG 3150
Physical, cultural, and economic approach to the arid lands of the Middle East, including Arab land of the Sahara. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 3350 - Colonial Latin America

Summer 2010 Registration HIST 3350
Surveys the creation of colonial empires by Spain and Portugal, 1492-1808. Topics include Native American responses to European incursions, women in colonial society, and slavery in Latin America. Cross-listed with ETST 3350. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 3500 - African History in Novels and Films

Summer 2010 Registration HIST 3500
Introduces modern Africa through the eyes of creative artists. Various topics, such as
childhood, religion, and colonialism, are presented from various points of view—African and non-African. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 3995 - Travel Study Topics**

*Summer 2010 Registration HIST 3995*

Created for students doing travel study in a foreign country; register through the Office of International Education. **Semester Hours:** 1 to 15
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4024 - Nineteenth Century Europe**

*Summer 2010 Registration HIST 4024*

A general study of the evolution of Europe from 1789 to 1900. Covers the French Revolution, industrialization, romanticism, nationalism, realism, socialism, and imperialism in the context of European history. Cross-listed with HIST 5024. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4025 - Twentieth Century Europe**

*Summer 2010 Registration HIST 4025*

A general study of the evolution of Europe since 1900. Covers militarism, fascism, communism, and existentialism in the context of European history. Cross-listed with HIST 5025. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4027 - The Enlightenment: Eighteenth Century Intellectual History**

*Summer 2010 Registration HIST 4027*

Studies the transformation of the European and American intellectual world in the late 17th and 18th centuries. Focuses on the novel ideas, institutions and discursive practices of the philosophies in Europe and America. Themes include the popularization of scientific thinking, rationalism, deism and secularization, the public sphere, popular sovereignty and confidence in the future. Cross-listed with HIST 5027. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4028 - After the Revolutions: Nineteenth Century Intellectual History**

*Summer 2010 Registration HIST 4028*

Romanticism and other 19th century reactions to the dislocation engendered by the bourgeois revolutions and industrialization. Focuses on intellectual and cultural
responses to social and economic change, ideologies, and social theories. Topics include romanticism, conservatism, liberalism, Marxism, the neo-enlightenment, ideas of progress and Darwinism. Cross-listed with HIST 5028. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4029 - Fin de Siecle: Late Nineteenth and Early Twentieth Century Intellectual History**

*Summer 2010 Registration HIST 4029*

The crisis of confidence in Europe and America in the late 19th and early 20th centuries. Focuses on aesthetic and philosophical disillusionment and attempts to reorient European and American thinking, as well as upon reactions to World War I. Topics include Nietzsche, psychoanalysis, surrealism, and other intellectual and artistic movements. Prereq: Previous introductory history course or other introductory humanities course. Cross-listed with HIST 5029. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4046 - Victorians and Victorianism**

*Summer 2010 Registration HIST 4046*

Taking an interdisciplinary perspective, this course examines English people and English life during the reign of Queen Victoria, 1837-1901. What were the defining features of the Victorian age? What did it mean to be “Victorian?” When and why did the Victorian paradigm break down? Cross-listed with HIST 5046. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4051 - Great Britain: 1760-1914**

*Summer 2010 Registration HIST 4051*

Studies Britain’s long 19th century, with a focus on the social consequences of industrialization, state growth and imperialism. Examines who benefited and who lost as a result of the social, economic, political, and cultural changes of the era. Cross-listed with HIST 5051. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4062 - Modern France, 1789 to the Present**

*Summer 2010 Registration HIST 4062*

Considers the shaping of modern France from the 18th century Bourbon Monarchy and aristocratic society to today’s liberal democracy, in which multiculturalism, globalization
and supranational institutions call into question the very nature of French identity. Cross-listed with HIST 5062. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4071 - Modern Germany**

*Summer 2010 Registration HIST 4071*
Surveys the major political, institutional, social, economic, and cultural developments that have occurred in Germany since the late 18th century. Cross-listed with HIST 5071. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4074 - Post-War Germany**

*Summer 2010 Registration HIST 4074*
Historical survey of Germany since the second world war, with an emphasis on culture and society. Cross-listed with HIST 5074. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4082 - Reform and Revolution in Russia: The 1860s to 1917**

*Summer 2010 Registration HIST 4082*
Emphasis upon Russia's attempts to modernize, beginning with great reforms of the 1860s and 1870s; increasing polarization of government and opposition groups. Examines governmental point of view through several monographs and revolutionary theory, including those of Marx, Engels, Lenin and Trotsky. Cross-listed with HIST 5082. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4083 - Russia Since 1917**

*Summer 2010 Registration HIST 4083*
Studies the development of the Soviet Union from its formation in the October Revolution, through the Civil War, the new economic policy, industrialization, collectivism, the Stalinist purges, up to the present. Cross-listed with HIST 5083. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4086 - Eastern Europe**

*Summer 2010 Registration HIST 4086*
Studies the countries of Eastern Europe from their origins in the Middle Ages to the present. Cross-listed with HIST 5086. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
HIST 4303 - Sex and Gender in Modern Britain

*Summer 2010 Registration HIST 4303*
Examines modern British history by focusing on sex and gender as central aspects in people's lives. Considers the ways gender shapes the realms of politics, economics, society and culture in Britain from the 18th century to the present. Cross-listed with HIST 5303 and WGST 4303.*Semester Hours:* 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4411 - Modern Mexico

*Summer 2010 Registration HIST 4411*
Designed to familiarize students with the critical issues in Mexican political, economic and social history. Traces the emergence of independence and the difficult consolidation of an independent nation state. Cross-listed with HIST 5411, ETST 4411.*Semester Hours:* 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4414 - Nationalism and State Building in Latin America, 1750-1850

*Summer 2010 Registration HIST 4414*
Explores the problems of nationalism and post-colonial state building by examining the late colonial and early national periods of Latin American history. The course discusses the impact of the enlightenment, the events of the Wars of Independence, and the quandaries faced by the new nations. Cross-listed with HIST 5414.*Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4415 - Social Revolutions in Latin America

*Summer 2010 Registration HIST 4415*
A theoretical framework and an empirical basis for understanding the large-scale social movements that have influenced the course of Latin American nations. Cross-listed with HIST 5415.*Semester Hours:* 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4421 - Modern China

*Summer 2010 Registration HIST 4421*
Surveys Chinese history in the modern era. Includes examination of Western domination of China; revolution and internal fragmentation of China; Japanese attacks and World War II; and civil war and the communist revolution. Cross-listed with HIST
5421. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4451 - Southern Africa**

*Summer 2010 Registration HIST 4451*  
An in-depth history of the clash of peoples and cultures in Africa south of the Zambezi River. African and Afrikaner political, economic and cultural development in a single land and the consequences of several competing nationalisms existing side by side are examined. Apartheid and African opposition to it are analyzed. Cross-listed with HIST 5451. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4455 - African Struggle for Independence**

*Summer 2010 Registration HIST 4455*  
An assessment of African leadership from the colonial era to the present. Cross-listed with HIST 5455. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4460 - The Islamic World's Golden Age**

*Summer 2010 Registration HIST 4460*  
The Islamic world's golden age before European expansion was characterized by sophisticated business institutions, scholarship, new technologies, and art. This class asks: What roles did Islam play in connecting diverse societies across broad regions? What characterized these territories? Cross-listed with HIST 5460. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4461 - The Modern Middle East**

*Summer 2010 Registration HIST 4461*  
Cross-listed with HIST 5461. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4621 - Explorers and Exploration**

*Summer 2010 Registration HIST 4621*  
Examines the history of travel and exploration from the 13th century to the present. Readings draw primarily from first-person accounts to understand why people voyage, what they hope to discover, and what happens to them along the way. Cross-listed with HIST 5621. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.
PSCI 3125 - Introduction to Latin American Society

*Summer 2010 Registration P SCI 3125*
Explores the central characteristics of political-economic systems and cultures of Latin America. Prepares students to follow developments in the region with greater understanding and to pursue advanced study. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4155 - Political Systems of the Middle East and North Africa

*Summer 2010 Registration P SCI 4155*
Comparative analysis of political processes in the Middle East and North Africa. Islamic political theory and its contemporary manifestations. The role of nationalism and the quest for modernity in the political development of this region. Parties and programmed modernization in transitional politics. Violent and nonviolent change. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4165 - Islamic Politics and Culture

*Summer 2010 Registration P SCI 4165*
Comprehensive, in-depth study of Islam and Muslims. Islam is viewed as a "way of life" with social, economic, psychological, spiritual, and political implications. Among topics to be examined are: women in Islam, Jihad, fundamentalism, Islamic movements, Islam and the West. Cross-listed with RLST 3100. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

RLST 3100 - Islamic Politics and Culture

*Summer 2010 Registration RLST 3100*
Comprehensive, in-depth study of Islam and Muslims. Islam is viewed as a "way of life" with social, economic, psychological, spiritual, and political implications. Among topics to be examined are: women in Islam, Jihad, fundamentalism, Islamic movements, Islam and the West. Cross-listed with PSCI 4165. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4175 - Politics and Governments of the Pacific Rim

*Summer 2010 Registration P SCI 4175*
Examines the domestic governments and political economies of selected Pacific Rim countries--especially Japan, Korea, Taiwan, China, Singapore, and Malaysia--and of these countries involvement in the international political economy and U.S. foreign
PSCI 4505 - The Post-Soviet World: Origins and Present Condition

Summer 2010 Registration P SC 4505
Central and East Europe, Russia, and Central Asia, from earliest times to the present. Equal emphasis on economics, culture and politics. Particular attention to recent developments in the former Soviet Union. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4554 - Chicano and Latino Politics

Summer 2010 Registration P SC 4554
Analysis of the social, cultural, and economic factors that affect political behavior of Latinos. Special attention is paid to the Mexican American cultural heritage and to relations between Mexican Americans and Anglo Americans. Cross-listed with ETST 4558. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4615 - Politics and Government of China

Summer 2010 Registration P SC 4615
Political and governmental changes within China, from the 19th century to the present. Primary emphasis on contemporary political systems and sociopolitical problems. China's struggle for independence and economic development. The Chinese revolutions, Maoist communism, and the post-Maoist period. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 3400 - Asian Philosophies and Religions

Summer 2010 Registration RLST 3400
We in the Western world encounter a vastly different world, a radically different "universe of meaning," when we examine the traditions of the East. Even what we tacitly assume to be "real" is claimed by the Hindus and Buddhists of India to be a grand illusion. The world of China is, again, very different from India. An examination of Tibetan and Japanese religious forms will conclude our study of Asian thought. Cross-listed with PHIL 3666. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHIL 3666 - Asian Philosophies and Religions
Summer 2010 Registration **PHIL 3666**

Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 3500 - Religions of India**

Summer 2010 Registration **RLST 3500**
Examines the transcendentalist philosophy of India, which rests at the foundation of the great Eastern religious traditions of Hinduism and Buddhism. The Indian ideas of God, the soul, time, the nature of the universe, and its ultimate goal are examined. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 3660 - Chinese Philosophy and Culture**

Summer 2010 Registration **RLST 3660**
China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools, including Confucianism, Taoism, Mohism, Legalism, Chinese "logic", and the later schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with PHIL 3981. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**International Studies Capstone Course**
All majors must take a 3-semester-hour seminar focusing on a global issue. Currently the designated capstone courses are:

**HIST 4417 - Commodities and Globalization: Dessert in World History**

*Summer 2010 Registration HIST 4417*
Traces the impact of "dessert commodities" (sugar, cacao, vanilla and coffee) on Latin America during an early period of globalization (nineteenth century). Explores cultural shifts in North Atlantic countries that created the incessant demand for dessert. Prereq: Senior or graduate student standing. Cross-listed with HIST 5417. *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4126 - Introduction to International Political Economy**

*Summer 2010 Registration PSCI 4126*
A short introduction to international economy, including classic readings of international political economy (such as Smith, Ricardo, Marx, Lenin), and more recent work on globalization, applying related theories to the current world economy. *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

Return to International Studies

**Management Emphasis—BS in Business Administration**

The management curriculum provides the foundation for careers in supervision and general management in a wide variety of organizations. It develops skills in management practice through an understanding of general management principles, individual and group behavior, organizational change and design and human resources management.

**Required Foundation Courses**

**MKTG 4050 - Applied Marketing Management**
**Summer 2010 Registration** MKTG 4050

The course is designed to enhance the student's ability to formulate and implement a marketing plan and to better understand the relationship of marketing to other business functions. Emphasized application of marketing concepts through the use of cases, simulations or projects. Prereq: MKTG 3000 and DSCI 2010. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Required Emphasis Courses**

**MGMT 3010 - Managing People for a Competitive Advantage**

**Summer 2010 Registration** MGMT 3010

Provides an overview of the management of human resources in organizations. Areas of study include recruitment, selection, training, career development, performance appraisal, compensation and employee or labor relations. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 4350 - Leading Organizational Change**

**Summer 2010 Registration** MGMT 4350

Focuses on the tasks and skills of a leader in leading organizational changes. Topics include: diagnosing problems, creating urgency, building the change team, creating a vision, implementing change strategies, sustaining the momentum and making change stick. These tasks and skills are studied in various organizational change contexts. Prereq: MGMT 3000 with a grade of 'c' or better and MGMT 4370. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 4370 - Organization Design**

**Summer 2010 Registration** MGMT 4370

Examines how to structure organizations to perform effectively. Addresses the effects of computer-based information technologies (e.g. intranets, extranets, and the internet) on firm structure, strategy, and culture. Emphasis is placed on the role of the task, technology, and the environment as constraints on organizational design. Prereq: MGMT 3000. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Choose two:**

Any upper-division MGMT course (3 semester hours)

**BLAW 4120 - Legal Issues for Entrepreneurs**
**BLAW 4120**
Skills in legal and factual analysis and the application of ethical theories are addressed with an emphasis on applicability for entrepreneurs. The cases are drawn from a variety of functional areas such as accounting, information systems, finance, management, marketing and production. Topics include securities, venture capital, employment law and consumer law. Cross-listed with ENTP 3120. **Semester Hours:** 3 to 3. **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENTP 3000 - Principles of Entrepreneurship**
Focuses on the concepts, skills, know-how, practical information, attitudes and alternatives that are relevant for start-up companies. The materials are designed to enhance the student's capacity to anticipate HR, financial, marketing problems through the application of proper planning. The primary objective of the course is to teach participants the practical aspects of entrepreneurship in order to change the odds of success. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 18 Hours**
These 6 hours must be in addition to MGMT courses that were used to satisfy the international business or diversity requirements.

**Management/Information Systems (MGIS)**
Within the management curriculum students can choose to add additional courses in information systems to complement their individual interests as well as prior education and work experiences.

**Required Information System courses**

**ISMG 4500 - Database Management and Applications**

**Summer 2010 Registration ISMG 4500**
The success of today's business often hinges on the ability to turn mountains of data into critical information and to utilize the critical information to make the right decisions quickly and efficiently. This course introduces students to the basic principles of data management and utilization. Topics include data modeling, normalization and database design, query formulation using SQL and QBE and interface design. Actual database management systems products (e.g. Oracle and Access) are utilized to demonstrate the design of database applications in management, marketing, finance, accounting and other business areas. Each student will also design a working database system as a
ISMG 4600 - Systems Analysis and Design

Summer 2010 Registration ISMG 4600
Provides an understanding of the system development and maintenance process. It enables students to evaluate and choose a system development methodology. Topics include: systems development life cycle phases, structured analysis and design, object-oriented analysis and design; prototyping, joint application development (JAD) and structured walk-through; communication, interviewing, interpersonal and presentation skills; risk and feasibility analysis, project management, systems operations and support. Prereq: ISMG 3000. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 4900 - Project Management and Practice

Summer 2010 Registration ISMG 4900
Covers the factors necessary for successful management of enhancement projects. Both technical and behavioral aspects of project management are discussed. The focus is on management of development for enterprise-level systems. Topics include: managing the system lifecycle; requirements determination, logical design, physical design, testing, implementation; metrics for project management; managing expectations: superiors, users, team members and others related to the project; determining skill requirement and staffing the project; cost-effectiveness analysis; reporting and presentation techniques; effective management of both behavioral and technical aspects of the project; change management. Note: Successful completion of this course meets the educational requirements to sit for both the PMP and CAPM exams. Prereq: ISMG 2200. Cross-listed with CSCI 4900 and MGMT 4900. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 9 Hours

Marketing Emphasis—BS in Business Administration

Marketing is concerned with directing the activities of the organization toward the satisfaction of customer wants and needs. This involves understanding customers, identifying those wants and needs that the organization can best serve, guiding the
development of specific products or services, planning and implementing ways to take products or services to the market, securing the customer's order and finally, monitoring customer response in order to guide future activities.

In most organizations, marketing is a major functional area that provides a wide variety of career opportunities in such fields as personal selling and sales management, advertising and sales promotion, public relations, marketing research, physical distribution, product management, market management, marketing information systems and retail management. Increasingly, career opportunities exist in service businesses and nonprofit organizations.

Required Foundation Courses

**BLAW 4120 - Legal Issues for Entrepreneurs**

*Summer 2010 Registration BLAW 4120*

Skills in legal and factual analysis and the application of ethical theories are addressed with an emphasis on applicability for entrepreneurs. The cases are drawn from a variety of functional areas such as accounting, information systems, finance, management, marketing and production. Topics include securities, venture capital, employment law and consumer law. Cross-listed with ENTP 3120. **Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 4370 - Organization Design**

*Summer 2010 Registration MGMT 4370*

Examines how to structure organizations to perform effectively. Addresses the effects of computer-based information technologies (e.g. intranets, extranets, and the internet) on firm structure, strategy, and culture. Emphasis is placed on the role of the task, technology, and the environment as constraints on organizational design. Prereq: MGMT 3000. **Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

Required Emphasis Courses
**MKTG 3100 - Marketing Research**

*Summer 2010 Registration MKTG 3100*

Provides practical experience in research methodologies, planning an investigation, designing a questionnaire, selecting a sample, interpreting results and making a report. Techniques focus on attitude surveys, behavioral experiments, and qualitative research. 
Prereq: MKTG 3000 and DSCI 2010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 4050 - Applied Marketing Management**

*Summer 2010 Registration MKTG 4050*

The course is designed to enhance the student's ability to formulate and implement a marketing plan and to better understand the relationship of marketing to other business functions. Emphasized application of marketing concepts through the use of cases, simulations or projects. Prereq: MKTG 3000 and DSCI 2010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Electives**

Choose three:

**MKTG 3200 - Buyer Behavior**

*Summer 2010 Registration MKTG 3200*

Focuses on improving the student's understanding of consumer and organizational buying behavior as a basis for better formulation and implementation of marketing strategy. Blends concepts from the behavioral sciences with empirical evidence and introduces buyer research techniques. Prereq: MKTG 3000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 4000 - Advertising**

*Summer 2010 Registration MKTG 4000*

Analyzes principles and practices in advertising from a managerial viewpoint. Considers the reasons to advertise, product and market analysis as the planning phase of the advertising program, media selection, creation and production of advertisements, copy testing, and development of advertising budgets. Prereq: MKTG 3000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 4200 - International Marketing**
**MKTG 4200 - Managerial Marketing in Foreign Countries**

Studies managerial marketing policies and practices of firms marketing their products in foreign countries. Analytical survey of institutions, functions, policies, and practices in international marketing. Relates marketing activities to market structure and environment. Prereq: MKTG 3000. **Semester Hours:** 3

**When Offered:** FALL SPR

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 4220 - Asian Business Development and Marketing**

This course investigates methods of Business Development and Marketing in the Asian Business Environment. It seeks to examine and explain methods of determining market potential and techniques tapping this market potential in this dynamic and rapidly growing business environment. The course uses a combination of experienced guest speakers, Asian business cases and projects to develop the marketing skills in students to successfully compete in Asia. Prereq: MKTG 3000. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 4580 - International Transportation**

Analysis of international transportation (primarily sea and air) in world economy. Detailed study of cargo documentation and freight rate patterns. Included are liability patterns, logistics, economics, and national policies of transportation. Prereq: MKTG 3000. **Semester Hours:** 3

**When Offered:** FALL SPR

Registration is changing. Visit our website for details ucdenver.edu/registration.

Distinctly influences the way marketers conduct marketing activities. The Internet media promises to establish marketing theories, identifies obsolete situations, explores how marketing functions have irreversibly changed as a result of the internet, and outlines basic marketing strategies for successful online marketing. Prereq: MKTG 3000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 4950 - Special Topics**

*Summer 2010 Registration MKTG 4950*
Courses offered on an irregular basis for the purpose of presenting new subject matter in marketing. Prerequisites vary depending upon the particular topic and instructor requirements. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Total: 24 Hours

Marketing courses that were used to satisfy the international business requirement cannot be applied to the marketing area of emphasis.

Mathematics BS

Degree Requirements

Required Core Courses for All Mathematics Majors

MATH 1401 - Calculus I

*Summer 2010 Registration MATH 1401*
First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: Students cannot receive credit for both MATH 1080 and 1401. Prereq: MATH 1120 or 1130 and satisfactory score on the placement exam. *Semester Hours: 4to 4GT* Pathways Category Key: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 2411 - Calculus II

*Summer 2010 Registration MATH 2411*
The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: MATH 1401. *Semester Hours: 4to 4GT* Pathways Category Key: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 2421 - Calculus III

*Summer 2010 Registration MATH 2421*
The third of a three-semester sequence in calculus (MATH 1401, 2411 and 2421). Topics include vectors, vector-valued functions, partial differentiation, differentiation, multiple integration, and vector calculus. Prereq: MATH 2411. *Semester Hours: 4to 4GT*
Pathways Category Key: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 3000 - Introduction to Abstract Mathematics

Summer 2010 Registration MATH 3000
Students learn to prove and critique proofs of theorems by studying elementary topics in abstract mathematics, including logic, sets, functions, equivalence relations and elementary combinatorics. Prereq: MATH 1401. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 3191 - Applied Linear Algebra

Summer 2010 Registration MATH 3191
Topics include systems of equations, Gaussian elimination with partial pivoting, LU-decomposition of matrices, matrix algebra, determinants, vector spaces, linear transformations, eigenvalues and applications. Note: No co-credit with MATH 3195. Prereq: MATH 2411. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 3200 - Elementary Differential Equations

Summer 2010 Registration MATH 3200
First and second order differential equations, Laplace transforms, systems of equations, with an emphasis on modeling and applications. Note: No co-credit with MATH 3195. Prereq: MATH 2411; coreq is MATH 3191. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4408 - Applied Graph Theory

Summer 2010 Registration MATH 4408
Introduces discrete structures and applications of graph theory to computer science, engineering, operations research, social science, and biology. Topics include connectivity, coloring, trees, Euler and Hamiltonian paths and circuits, matching and covering problems, shortest route and network flows. Prereq: CSCI/MATH 2511 or MATH 3000. Cross-listed with CSCI 4408. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 3250 - Problem Solving Tools
Summer 2010 Registration MATH 3250
Students learn and refine both problem solving techniques and computer programming skills. Examples, exercises, and projects are taken from a wide range of mathematical topics including algebra, calculus, linear algebra and probability. Note: This course will not count toward a graduate degree in applied mathematics. Prereq: MATH 2421. Cross-listed with MATH 5250. Semester Hours: 3 to 3 When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 3800 - Probability and Statistics for Engineers

Summer 2010 Registration MATH 3800
Basic probability theory, discrete and continuous random variables, point and interval estimation, test of hypotheses, one-way analysis of variance, and simple linear regression. Note: no co-credit with MATH 4810. Prereq: MATH 2411; coreq: MATH 2421. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

MATH 4810 - Probability

Summer 2010 Registration MATH 4810
Examines elementary theory of probability, including independence, conditional probability, and Bayes' theorem; random variables, expectations and probability distributions; joint and conditional distributions; functions of random variables; limit theorems, including the central limit theorem. Prereq: MATH 2421 and 3191. Cross-listed with MATH 5310. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4779 - Math Clinic

Summer 2010 Registration MATH 4779
The clinic is intended to illustrate the applicability and utility of mathematical concepts. Research problems investigated originate from a variety of sources--industry, government agencies, educational institutions, or nonprofit organizations. Prereq: consult Schedule Planner or instructor. Cross-listed with MATH 5779. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TOTAL REQUIRED CORE: 30 HOURS

Core Areas

Choose one course from each of the following three areas:
Analysis

Choose one:

MATH 3200 - Elementary Differential Equations

Summer 2010 Registration MATH 3200
First and second order differential equations, Laplace transforms, systems of equations, with an emphasis on modeling and applications. Note: No co-credit with MATH 3195. Prereq: MATH 2411; coreq is MATH 3191. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4201 - Topology

Summer 2010 Registration MATH 4201
Metric spaces and topological spaces, compactness, separation properties, and connectedness. Prereq: MATH 3000. Semester Hours: 3 to 3
When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4310 - Introduction to Real Analysis I

Summer 2010 Registration MATH 4310
Calculus of one variable, the real number system, continuity, differentiation, integration theory, sequence and series. Prereq: MATH 2421 and 3000. Semester Hours: 4 to 4
When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4450 - Complex Variables

Summer 2010 Registration MATH 4450
Infrequent. Topics include complex algebra, Cauchy-Riemann equations, Laurent expansions, theory of residues, complex integration, and introduction to conformal mapping. Prereq: MATH 2421 and MATH 3000. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4650 - Numerical Analysis I

Summer 2010 Registration MATH 4650
Methods and analysis of techniques used to resolve continuous mathematical problems on the computer. Solution of linear and nonlinear equations, interpolation and integration. Prereq: MATH 2411, 3191 or 3195, and programming experience. Cross-listed with CSCI 4650, 5660, and MATH 5660. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
MATH 4733 - Partial Differential Equations

Summer 2010 Registration MATH 4733
Infrequent. Initial/Boundary value problems for first-order, wave, heat and Laplace Equations; maximum principles; Fourier Series and applications. Prereq: MATH 2421 and 3200. Cross-listed with MATH 5733. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Modeling

Choose one:

MATH 4387 - Regression Analysis, Modeling and Time Series

Summer 2010 Registration MATH 4387
Topics include linear and multiple regression, basic experimental designs, one-way analysis of variance. Emphasis is on practical aspects and applications of linear models to the analysis of data in business engineering, behavioral, biological and physical sciences. Prereq: MATH 3191 and 3800/4820. Cross-listed with MATH 5387. Semester Hours: 3 to 3
When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4791 - Continuous Modeling

Summer 2010 Registration MATH 4791
Every other year. Surveys mathematical problems that arise in natural sciences and engineering. Topics may include population models, epidemic models, mechanics, heat transfer and diffusion, tomography, pharmaco-kineatics, traffic flow, fractal models, wave phenomena, and natural resource management. Most models discussed are based on differential and integral equations. Emphasis is formulation and validation of models as well as methods of solution. Prereq: MATH 3191 and 3200. Cross-listed with MATH 5791. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4792 - Probabilistic Modeling

Summer 2010 Registration MATH 4792
Every other year. Markov chains; Poisson processes, continuous time Markov chains, elementary topics in queuing theory, and some mathematical aspects of Monte Carlo simulation, including random variate generation, variance reduction, and output analysis. Prereq: MATH 4810, 5310 and some programming experience. Cross-listed with MATH 5792. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
MATH 4793 - Discrete Math Modeling

*Summer 2010 Registration MATH 4793*
Every other year. Focuses on the use of graph theory and combinatorics to solve problems in a wide variety of disciplines. Applications are selected from computer science, communication networks, economics, operations research, and the social, biological and environmental sciences. Prereq: MATH 3191 and 4408. Cross-listed with MATH 5793. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4794 - Optimization Modeling

*Summer 2010 Registration MATH 4794*
Every other year. Principles of model formulation and analysis are developed by presenting a wide variety of applications, both for natural phenomena and social systems. Examples of optimization models to represent natural phenomena include principles of least time and energy. Examples in social systems include resource allocation, environmental control and land management. Specific applications vary, but are chosen to cover a wide scope that considers dichotomies, such as discrete vs. continuous, static vs. dynamic, and deterministic vs. stochastic. Some computer modeling language (like GAMS) is taught. Prereq: MATH 2421 and 3191. Cross-listed with MATH 5794. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Discrete Math**

Choose one:

MATH 3140 - Introduction to Modern Algebra

*Summer 2010 Registration MATH 3140*
Studies the fundamental algebraic structures used in modern mathematics. Topics include groups, rings, fields and polynomials. Prereq: MATH 3000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 3301 - Introduction to Operations Research I - Deterministic Systems

*Summer 2010 Registration MATH 3301*
A mathematical approach to decision making based on optimization. Topics include
linear programming, network flows and production models. Prereq: MATH 3191 or 3195. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 4408 - Applied Graph Theory**

**Summer 2010 Registration MATH 4408**
Introduces discrete structures and applications of graph theory to computer science, engineering, operations research, social science, and biology. Topics include connectivity, coloring, trees, Euler and Hamiltonian paths and circuits, matching and covering problems, shortest route and network flows. Prereq: CSCI/MATH 2511 or MATH 3000. Cross-listed with CSCI 4408. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 4409 - Applied Combinatorics**

**Summer 2010 Registration MATH 4409**
Every other year. Major emphasis is on applied combinatorics and combinatorial algorithms, with applications in computer science and operations. Topics include general counting methods, generating functions, recurrence relations, inclusion-exclusion, and block designs. Prereq: MATH 4408 and 3140. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TOTAL CORE AREAS: 9 HOURS**

**Electives Mathematics Majors Must Complete**

Mathematics majors must take three upper-division mathematics courses, excluding MATH 3040, chosen to provide depth and breadth. Depth is obtained by taking a two-semester sequence of upper-division courses, one of which may be a course taken for the core area requirement.

**Portfolio, Interview, Survey**

In the semester of graduation, students must:

- submit a portfolio consisting of two papers, typically written for previous courses, that demonstrate mathematical and writing proficiency
- participate in an exit interview, which may be scheduled by the department administrative assistant
- complete a senior survey, available from the department administrative assistant
Math Majors Considering Graduate Study

Mathematics majors who are considering graduate study in mathematics should plan to take the following courses as part of their major:

**MATH 4310 - Introduction to Real Analysis I**

*Summer 2010 Registration MATH 4310*

Calculus of one variable, the real number system, continuity, differentiation, integration theory, sequence and series. Prereq: MATH 2421 and 3000. **Semester Hours: 4 to 4**

*When Offered: FALL*

Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**MATH 4320 - Introduction to Real Analysis II**

*Summer 2010 Registration MATH 4320*

Convergence, uniform convergence; Taylor's theorem; calculus of several variables including continuity, differentiation and integration; Picard's theorem in ordinary differential equations and Fourier series. Prereq: MATH 4310. **Semester Hours: 4 to 4**

*When Offered: SPRING*

Registration is changing. Visit our website for details ucdenver.edu/registration.

### Required Courses for Each Option

**PURE MATHEMATICS OPTION**

All core courses, with MATH 3200 chosen (30 semester hours), plus the following:

**MATH 3140 - Introduction to Modern Algebra**

*Summer 2010 Registration MATH 3140*

Studies the fundamental algebraic structures used in modern mathematics. Topics include groups, rings, fields and polynomials. Prereq: MATH 3000. **Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 4201 - Topology**

*Summer 2010 Registration MATH 4201*

Metric spaces and topological spaces, compactness, separation properties, and
connectedness. Prereq: MATH 3000. **Semester Hours:** 3

**When Offered:** SPRING

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**MATH 4110 - Theory of Numbers**

*Summer 2010 Registration MATH 4110*

Every other year. Topics include divisibility, prime numbers, congruencies, number theoretic functions, quadratic reciprocity, and special diophantine equations, with applications in engineering. Prereq: MATH 3000. Cross-listed with MATH 5110. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**MATH 4409 - Applied Combinatorics**

*Summer 2010 Registration MATH 4409*

Every other year. Major emphasis is on applied combinatorics and combinatorial algorithms, with applications in computer science and operations. Topics include general counting methods, generating functions, recurrence relations, inclusion-exclusion, and block designs. Prereq: MATH 4408 and 3140. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 4310 - Introduction to Real Analysis I**

*Summer 2010 Registration MATH 4310*

Calculus of one variable, the real number system, continuity, differentiation, integration theory, sequence and series. Prereq: MATH 2421 and 3000. **Semester Hours:** 4

**When Offered:** FALL

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 4320 - Introduction to Real Analysis II**

*Summer 2010 Registration MATH 4320*

Convergence, uniform convergence; Taylor's theorem; calculus of several variables including continuity, differentiation and integration; Picard's theorem in ordinary differential equations and Fourier series. Prereq: MATH 4310. **Semester Hours:** 4

**When Offered:** SPRING

Registration is changing. Visit our website for details ucdenver.edu/registration.

- Two approved math electives (6 semester hours)
  
  Pure Mathematics Option Total: 50 Hours
APPLIED MATHEMATICS OPTION

All core courses with MATH 3200 and 4810 chosen (30 semester hours), plus the following:

MATH 3301 - Introduction to Operations Research I - Deterministic Systems

Summer 2010 Registration MATH 3301
A mathematical approach to decision making based on optimization. Topics include linear programming, network flows and production models. Prereq: MATH 3191 or 3195. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

OR

MATH 3302 - Operations Research II

Summer 2010 Registration MATH 3302
Elementary stochastic processes and standard nondeterministic operations research models: Markov chains, Poisson processes, renewal processes, queuing theory, inventory models, Markov decision processes, simulation. Prereq: MATH 3191 and 3800. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

OR

MATH 4408 - Applied Graph Theory

Summer 2010 Registration MATH 4408
Introduces discrete structures and applications of graph theory to computer science, engineering, operations research, social science, and biology. Topics include connectivity, coloring, trees, Euler and Hamiltonian paths and circuits, matching and covering problems, shortest route and network flows. Prereq: CSCI/MATH 2511 or MATH 3000. Cross-listed with CSCI 4408. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4650 - Numerical Analysis I

Summer 2010 Registration MATH 4650
Methods and analysis of techniques used to resolve continuous mathematical problems on the computer. Solution of linear and nonlinear equations, interpolation and integration. Prereq: MATH 2411, 3191 or 3195, and programming experience. Cross-listed with CSCI 4650, 5660, and MATH 5660. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Two modeling courses, chosen from:
MATH 4387 - Regression Analysis, Modeling and Time Series

Summer 2010 Registration MATH 4387
Topics include linear and multiple regression, basic experimental designs, one-way analysis of variance. Emphasis is on practical aspects and applications of linear models to the analysis of data in business engineering, behavioral, biological and physical sciences. Prereq: MATH 3191 and 3800/4820. Cross-listed with MATH 5387. Semester Hours: 3to 3 When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4791 - Continuous Modeling

Summer 2010 Registration MATH 4791
Every other year. Surveys mathematical problems that arise in natural sciences and engineering. Topics may include population models, epidemic models, mechanics, heat transfer and diffusion, tomography, pharmaco-kinetics, traffic flow, fractal models, wave phenomena, and natural resource management. Most models discussed are based on differential and integral equations. Emphasis is formulation and validation of models as well as methods of solution. Prereq: MATH 3191 and 3200. Cross-listed with MATH 5791. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4792 - Probabilistic Modeling

Summer 2010 Registration MATH 4792
Every other year. Markov chains; Poisson processes, continuous time Markov chains, elementary topics in queuing theory, and some mathematical aspects of Monte Carlo simulation, including random variate generation, variance reduction, and output analysis. Prereq: MATH 4810, 5310 and some programming experience. Cross-listed with MATH 5792. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4793 - Discrete Math Modeling

Summer 2010 Registration MATH 4793
Every other year. Focuses on the use of graph theory and combinatorics to solve problems in a wide variety of disciplines. Applications are selected from computer science, communication networks, economics, operations research, and the social, biological and environmental sciences. Prereq: MATH 3191 and 4408. Cross-listed with MATH 5793. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4794 - Optimization Modeling
Every other year. Principles of model formulation and analysis are developed by presenting a wide variety of applications, both for natural phenomena and social systems. Examples of optimization models to represent natural phenomena include principles of least time and energy. Examples in social systems include resource allocation, environmental control and land management. Specific applications vary, but are chosen to cover a wide scope that considers dichotomies, such as discrete vs. continuous, static vs. dynamic, and deterministic vs. stochastic. Some computer modeling language (like GAMS) is taught. Prereq: MATH 2421 and 3191. Cross-listed with MATH 5794. 

Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Two approved math electives: **6 semester hours**

**Applied Mathematics Option Total: 48 Hours**

**COMPUTER SCIENCE OPTION**

All core courses with MATH 4408 chosen (30 semester hours), plus the following:

**CSCI 2421 - Data Structures and Program Design**

Summer 2010 Registration C SC 2421

Topics include a first look at an algorithm, data structures, abstract data types, and basic techniques such as sorting, searching, and recursion. Programming exercises are assigned through the semester. Prereq: ENGL 1020, CSCI 2312. 

Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 3140 - Introduction to Modern Algebra**

Summer 2010 Registration MATH 3140

Studies the fundamental algebraic structures used in modern mathematics. Topics include groups, rings, fields and polynomials. Prereq: MATH 3000. 

Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 4650 - Numerical Analysis I**

Summer 2010 Registration MATH 4650

Methods and analysis of techniques used to resolve continuous mathematical problems on the computer. Solution of linear and nonlinear equations, interpolation and
integration. Prereq: MATH 2411, 3191 or 3195, and programming experience. Cross-listed with CSCI 4650, 5660, and MATH 5660. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 4660 - Numerical Analysis II**

*Summer 2010 Registration MATH 4660*
Numerical differentiation and integration, numerical solution of ordinary differential equations, and numerical solutions of partial differential equations as time allows.
Prereq: MATH 3195 or both 3191 and 3200; MATH or CSCI 4650 or 5660; or programming experience. Cross-listed with MATH 5661, CSCI 4660 and 5661. **Semester Hours:** 3 to 3 **When Offered:** FALL SUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**MATH 4674 - Parallel Computing and Architectures**

*Summer 2010 Registration MATH 4674*
Infrequent. Examines a range of topics involved in using parallel operations to improve computational performance. Parallel architectures, parallel algorithms, parallel programming languages, interconnection networks, and their relation to specific computer architectures. Prereq: MATH 4650. Cross-listed with MATH 5674. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

One modeling course, chosen from:

**MATH 4387 - Regression Analysis, Modeling and Time Series**

*Summer 2010 Registration MATH 4387*
Topics include linear and multiple regression, basic experimental designs, one-way analysis of variance. Emphasis is on practical aspects and applications of linear models to the analysis of data in business engineering, behavioral, biological and physical sciences. Prereq: MATH 3191 and 3800/4820. Cross-listed with MATH 5387. **Semester Hours:** 3 to 3 **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 4791 - Continuous Modeling**

*Summer 2010 Registration MATH 4791*
Every other year. Surveys mathematical problems that arise in natural sciences and engineering. Topics may include population models, epidemic models, mechanics, heat transfer and diffusion, tomography, pharmaco-kinetics, traffic flow, fractal models, wave phenomena, and natural resource management. Most models discussed are based on differential and integral equations. Emphasis is formulation and validation of models as
well as methods of solution. Prereq: MATH 3191 and 3200. Cross-listed with MATH 5791. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 4792 - Probabilistic Modeling**

*Summer 2010 Registration MATH 4792*

Every other year. Markov chains; Poisson processes, continuous time Markov chains, elementary topics in queuing theory, and some mathematical aspects of Monte Carlo simulation, including random variate generation, variance reduction, and output analysis. Prereq: MATH 4810, 5310 and some programming experience. Cross-listed with MATH 5792. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 4793 - Discrete Math Modeling**

*Summer 2010 Registration MATH 4793*

Every other year. Focuses on the use of graph theory and combinatorics to solve problems in a wide variety of disciplines. Applications are selected from computer science, communication networks, economics, operations research, and the social, biological and environmental sciences. Prereq: MATH 3191 and 4408. Cross-listed with MATH 5793. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 4794 - Optimization Modeling**

*Summer 2010 Registration MATH 4794*

Every other year. Principles of model formulation and analysis are developed by presenting a wide variety of applications, both for natural phenomena and social systems. Examples of optimization models to represent natural phenomena include principles of least time and energy. Examples in social systems include resource allocation, environmental control and land management. Specific applications vary, but are chosen to cover a wide scope that considers dichotomies, such as discrete vs. continuous, static vs. dynamic, and deterministic vs. stochastic. Some computer modeling language (like GAMS) is taught. Prereq: MATH 2421 and 3191. Cross-listed with MATH 5794. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Two approved math electives: 6 semester hours
One upper division computer science elective approved by advisor: 3 semester hours

**Computer Science Option Total: 54 Hours**
DISCRETE MATHEMATICS OPTION

This option allows students and advisors to create a program that differs from the pre-approved option.

Such a program must be approved by the advisor at least one year before graduation.

All core courses, with MATH 4408 chosen (30 semester hours) plus the following:

MATH 3140 - Introduction to Modern Algebra

*Summer 2010 Registration MATH 3140*
Studies the fundamental algebraic structures used in modern mathematics. Topics include groups, rings, fields and polynomials. Prereq: MATH 3000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4201 - Topology

*Summer 2010 Registration MATH 4201*
Metric spaces and topological spaces, compactness, separation properties, and connectedness. Prereq: MATH 3000. **Semester Hours:** 3 to 3
*When Offered: SPRING*
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

MATH 4310 - Introduction to Real Analysis I

*Summer 2010 Registration MATH 4310*
Calculus of one variable, the real number system, continuity, differentiation, integration theory, sequence and series. Prereq: MATH 2421 and 3000. **Semester Hours:** 4 to 4
*When Offered: FALL*
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4409 - Applied Combinatorics

*Summer 2010 Registration MATH 4409*
Every other year. Major emphasis is on applied combinatorics and combinatorial algorithms, with applications in computer science and operations. Topics include general counting methods, generating functions, recurrence relations, inclusion-exclusion, and block designs. Prereq: MATH 4408 and 3140. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4793 - Discrete Math Modeling
Summer 2010 Registration MATH 4793
Every other year. Focuses on the use of graph theory and combinatorics to solve
problems in a wide variety of disciplines. Applications are selected from computer
science, communication networks, economics, operations research, and the social,
biological and environmental sciences. Prereq: MATH 3191 and 4408. Cross-listed with
MATH 5793.

Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

MATH 4794 - Optimization Modeling

Summer 2010 Registration MATH 4794
Every other year. Principles of model formulation and analysis are developed by
presenting a wide variety of applications, both for natural phenomena and social
systems. Examples of optimization models to represent natural phenomena include
principles of least time and energy. Examples in social systems include resource
allocation, environmental control and land management. Specific applications vary, but
are chosen to cover a wide scope that considers dichotomies, such as discrete vs.
continuous, static vs. dynamic, and deterministic vs. stochastic. Some computer
modeling language (like GAMS) is taught. Prereq: MATH 2421 and 3191. Cross-listed
with MATH 5794.

Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose one course from the following

MATH 3210 - Higher Geometry I

Summer 2010 Registration MATH 3210
Studies the foundations of modern geometry by examining axiomatic systems for various
geometrics, with an emphasis on non-Euclidean hyperbolic geometry. Prereq: MATH
3000.

Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4110 - Theory of Numbers

Summer 2010 Registration MATH 4110
Every other year. Topics include divisibility, prime numbers, congruencies, number
theoretic functions, quadratic reciprocity, and special diophantine equations, with
applications in engineering. Prereq: MATH 3000. Cross-listed with MATH
5110.

Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
MATH 4220 - Higher Geometry II

Summer 2010 Registration MATH 4220
Studies affine and projective geometries. Coordinates are introduced in this framework. Planes and higher dimensional spaces are examined. Prereq: MATH 3191. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

One Math elective above MATH 3000, excluding 3040: 3 semester hours
Discrete Mathematics Option Total: 51-52 Hours

PROBABILITY AND STATISTICS OPTION

All core courses with MATH 3200 and 4810 chosen (30 semester hours), plus the following:

MATH 4650 - Numerical Analysis I

Summer 2010 Registration MATH 4650
Methods and analysis of techniques used to resolve continuous mathematical problems on the computer. Solution of linear and nonlinear equations, interpolation and integration. Prereq: MATH 2411, 3191 or 3195, and programming experience. Cross-listed with CSCI 4650, 5660, and MATH 5660. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4387 - Regression Analysis, Modeling and Time Series

Summer 2010 Registration MATH 4387
Topics include linear and multiple regression, basic experimental designs, one-way analysis of variance. Emphasis is on practical aspects and applications of linear models to the analysis of data in business engineering, behavioral, biological and physical sciences. Prereq: MATH 3191 and 3800/4820. Cross-listed with MATH 5387. Semester Hours: 3 to 3 When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.
-OR-

MATH 4792 - Probabilistic Modeling

Summer 2010 Registration MATH 4792
Every other year. Markov chains; Poisson processes, continuous time Markov chains, elementary topics in queuing theory, and some mathematical aspects of Monte Carlo simulation, including random variate generation, variance reduction, and output analysis. Prereq: MATH 4810, 5310 and some programming experience. Cross-listed with MATH
MATH 4820 - Statistics

Summer 2010 Registration MATH 4820
Point and confidence interval estimation, principles of maximum likelihood, sufficiency and completeness, tests of simple and composite hypothesis, linear models and multiple regression, analysis of variance. Prereq: MATH 3800. MATH 4810 highly recommended, but not required. Cross-listed with MATH 5320.

Semester Hours: 3 to 3

When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

Probability and Statistics Option Total: 48 Hours

ACTUARIAL SCIENCE OPTION

All core courses with MATH 3200 and 4810 chosen (30 semester hours), plus the following:

MATH 3301 - Introduction to Operations Research I - Deterministic Systems

Summer 2010 Registration MATH 3301
A mathematical approach to decision making based on optimization. Topics include linear programming, network flows and production models. Prereq: MATH 3191 or 3195.

Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

MATH 3302 - Operations Research II

Summer 2010 Registration MATH 3302
Elementary stochastic processes and standard nondeterministic operations research models: Markov chains, Poisson processes, renewal processes, queuing theory, inventory models, Markov decision processes, simulation. Prereq: MATH 3191 and 3800.

Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-
MATH 4408 - Applied Graph Theory

*Summer 2010 Registration* MATH 4408
Introduces discrete structures and applications of graph theory to computer science, engineering, operations research, social science, and biology. Topics include connectivity, coloring, trees, Euler and Hamiltonian paths and circuits, matching and covering problems, shortest route and network flows. Prereq: CSCI/MATH 2511 or MATH 3000. Cross-listed with CSCI 4408. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4387 - Regression Analysis, Modeling and Time Series

*Summer 2010 Registration* MATH 4387
Topics include linear and multiple regression, basic experimental designs, one-way analysis of variance. Emphasis is on practical aspects and applications of linear models to the analysis of data in business engineering, behavioral, biological and physical sciences. Prereq: MATH 3191 and 3800/4820. Cross-listed with MATH 5387. **Semester Hours:** 3 to 3  **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4650 - Numerical Analysis I

*Summer 2010 Registration* MATH 4650
Methods and analysis of techniques used to resolve continuous mathematical problems on the computer. Solution of linear and nonlinear equations, interpolation and integration. Prereq: MATH 2411, 3191 or 3195, and programming experience. Cross-listed with CSCI 4650, 5660, and MATH 5660. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4820 - Statistics

*Summer 2010 Registration* MATH 4820
Point and confidence interval estimation, principles of maximum likelihood, sufficiency and completeness, tests of simple and composite hypothesis, linear models and multiple regression, analysis of variance. Prereq: MATH 3800. MATH 4810 highly recommended, but not required. Cross-listed with MATH 5320. **Semester Hours:** 3 to 3  **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

One modeling course, chosen from:

MATH 4792 - Probabilistic Modeling
Summer 2010 Registration MATH 4792
Every other year. Markov chains; Poisson processes, continuous time Markov chains, elementary topics in queuing theory, and some mathematical aspects of Monte Carlo simulation, including random variate generation, variance reduction, and output analysis. Prereq: MATH 4810, 5310 and some programming experience. Cross-listed with MATH 5792. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 5350 - Mathematical Theory of Interest

Summer 2010 Registration MATH 5350
Rates of interest, term structure of interest rates, force of interest, yield rate, principal, equation of value, annuity, perpetuity, stocks, bonds, other financial instruments. Prereq: MATH 4810/5310. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
(MATH 5350 strongly recommended)
One MATH elective above 3000: 3 semester hours
Actuarial Science Option Total: 45 Hours

Suggested minor for actuarial science major option:

Actuaries need a background in business, particularly accounting, economics and finance. You are strongly advised to do a minor in one of these areas. Recommended classes are:

ACCT 2200 - Financial Accounting and Financial Statement Analysis

Summer 2010 Registration ACCT 2200
The financial accounting process, the role of the profession and the analysis of financial statements. Principal focus on interpretation of financial statements, with emphasis on asset and liability valuation problems and the determination of net income. Prereq: MATH 1070 and sophomore standing. A grade of 'C' or better is required in this course to proceed to ACCT 2220. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 2012 - Principles of Economics: Macroeconomics

Summer 2010 Registration ECON 2012
 Covers topics of inflation, unemployment, national income, growth and problems of the national economy, stabilization policy, plus others at the discretion of the instructor. Purpose is to teach fundamental principles, to open the field of economics in the way most helpful to further a more detailed study of special problems, and to give those not intending to specialize in the subject an outline of the general principles of
economics. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 2022 - Principles of Economics: Microeconomics**

**Summer 2010 Registration ECON 2022**
Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FNCE 3000 - Principles of Finance**

**Summer 2010 Registration FNCE 3000**
This course provides an introduction to financial markets and institutions, interest rates and the time value of money, principles of security valuation, concepts of risk and return, costs of capital and capital budgeting. Note: This course is required in the Business Core. A grade of 'C' or better must be earned to receive credit as a core course and to take subsequent courses for which it is a prerequisite. Prereq: MATH 1070 or MATH 1080 and MATH 1110 and DSCI 2010, ACCT 2200, ECON 2012, ECON 2022 and junior standing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATHEMATICS EDUCATION OPTION**

All core courses with MATH 3800 and 4408 chosen (30 semester hours), plus the following:

**MATH 3140 - Introduction to Modern Algebra**

**Summer 2010 Registration MATH 3140**
Studies the fundamental algebraic structures used in modern mathematics. Topics include groups, rings, fields and polynomials. Prereq: MATH 3000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 3210 - Higher Geometry I**

**Summer 2010 Registration MATH 3210**
Studies the foundations of modern geometry by examining axiomatic systems for various geometrics, with an emphasis on non-Euclidean hyperbolic geometry. Prereq: MATH
MATH 4010 - History of Mathematics

Summer 2010 Registration MATH 4010
A history of the development of mathematical techniques and ideas from early civilization to the present, including the inter-relationships of mathematics and sciences. Prereq: MATH 1401. Cross-listed with MATH 5010. Semester Hours: 3 to 3 When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4201 - Topology

Summer 2010 Registration MATH 4201
Metric spaces and topological spaces, compactness, separation properties, and connectedness. Prereq: MATH 3000. Semester Hours: 3 to 3 When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

One modeling course, chosen from:

MATH 4387 - Regression Analysis, Modeling and Time Series

Summer 2010 Registration MATH 4387
Topics include linear and multiple regression, basic experimental designs, one-way analysis of variance. Emphasis is on practical aspects and applications of linear models to the analysis of data in business engineering, behavioral, biological and physical sciences. Prereq: MATH 3191 and 3800/4820. Cross-listed with MATH 5387. Semester Hours: 3 to 3 When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4791 - Continuous Modeling

Summer 2010 Registration MATH 4791
Every other year. Surveys mathematical problems that arise in natural sciences and engineering. Topics may include population models, epidemic models, mechanics, heat transfer and diffusion, tomography, pharmaco-kinetics, traffic flow, fractal models, wave phenomena, and natural resource management. Most models discussed are based on differential and integral equations. Emphasis is formulation and validation of models as well as methods of solution. Prereq: MATH 3191 and 3200. Cross-listed with MATH 5791. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
MATH 4792 - Probabilistic Modeling

Summer 2010 Registration MATH 4792
Every other year. Markov chains; Poisson processes, continuous time Markov chains, elementary topics in queuing theory, and some mathematical aspects of Monte Carlo simulation, including random variate generation, variance reduction, and output analysis. Prereq: MATH 4810, 5310 and some programming experience. Cross-listed with MATH 5792. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4793 - Discrete Math Modeling

Summer 2010 Registration MATH 4793
Every other year. Focuses on the use of graph theory and combinatorics to solve problems in a wide variety of disciplines. Applications are selected from computer science, communication networks, economics, operations research, and the social, biological and environmental sciences. Prereq: MATH 3191 and 4408. Cross-listed with MATH 5793. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 4794 - Optimization Modeling

Summer 2010 Registration MATH 4794
Every other year. Principles of model formulation and analysis are developed by presenting a wide variety of applications, both for natural phenomena and social systems. Examples of optimization models to represent natural phenomena include principles of least time and energy. Examples in social systems include resource allocation, environmental control and land management. Specific applications vary, but are chosen to cover a wide scope that considers dichotomies, such as discrete vs. continuous, static vs. dynamic, and deterministic vs. stochastic. Some computer modeling language (like GAMS) is taught. Prereq: MATH 2421 and 3191. Cross-listed with MATH 5794. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration. Approved math elective: 3 semester hours
Mathematics Education Option Total: 48 Hours

Note:
Certification by the School of Education and Human Development is required for public school teaching. Contact the school for details.

Mechanical Engineering BS
Typical Curriculum for BS (Mechanical Engineering—see note 1)

Freshman Year

First Semester

CHEM 1130 - Engineering General Chemistry

*Summer 2010 Registration CHEM 1130*
A one-semester non-laboratory version of general chemistry for engineers and those science majors who do not require laboratory credit and do not plan to take a second semester of chemistry. Prereq: One year of high school chemistry or Chem 1000 and Math 1110 (or high school equivalent). **Semester Hours:** 5 to 5
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 1020 - Core Composition I

*Summer 2010 Registration ENGL 1020*
Provides opportunities to write for different purposes and audiences, with an emphasis on learning how to respond to various rhetorical situations; improving critical thinking, reading, and writing abilities; understanding various writing processes; and gaining a deeper knowledge of language conventions. **Semester Hours:** 3 to 3
**GT Pathways Category Key:** GT-C01
Registration is changing. Visit our website for details ucdenver.edu/registration.

MECH 1025 - CAD and Graphics for Mechanical Engineering

*Summer 2010 Registration ME 1025*
Introduction to 3-D computer-aided design software, solid modeling, industry-standard engineering drawing practices, and engineering graphics. Applications to mechanical engineering. Prereq: High School Geometry and Algebra. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 1401 - Calculus I

*Summer 2010 Registration MATH 1401*
First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: Students cannot receive credit for both MATH 1080 and 1401. Prereq: MATH
1120 or 1130 and satisfactory score on the placement exam. **Semester Hours:** 4 to 4 GT 
**Pathways Category Key:** GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 15 Hours**

---

**Second Semester**

**MATH 2411 - Calculus II**

*Summer 2010 Registration MATH 2411*

The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: MATH 1401. **Semester Hours:** 4 to 4 GT **Pathways Category Key:** GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2311 - General Physics I: Calculus-Based**

*Summer 2010 Registration PHYS 2311*

Covers vector displacement, uniform and accelerated motion, force, momentum, energy, rotating systems, oscillations, and an introduction to thermodynamics. Emphasis is on basic principles. Coreq: MATH 1401. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2321 - General Physics Lab I**

*Summer 2010 Registration PHYS 2321*

**Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

Core Curriculum Electives (see note 3) (6 semester hours)

**Total: 15 Hours**

---

**Sophomore Year**

**First Semester**

**MATH 2421 - Calculus III**
Summer 2010 Registration **MATH 2421**
The third of a three-semester sequence in calculus (MATH 1401, 2411 and 2421). Topics include vectors, vector-valued functions, partial differentiation, differentiation, multiple integration, and vector calculus. Prereq: MATH 2411. **Semester Hours**: 4 to 4
**Pathways Category Key**: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MECH 2023 - Statics**

Summer 2010 Registration **ME 2023**
A vector treatment of force systems and their resultants; equilibrium of trusses, beams, frames, and machines, including internal forces and three-dimensional configurations, static friction, properties of areas, distributed loads and hydrostatics. Prereq: PHYS 2311. Coreq: MATH 2411. Cross-listed with CVEN 2121. **Semester Hours**: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2331 - General Physics II: Calculus-Based**

Summer 2010 Registration **PHYS 2331**
Covers electrostatics, magnetic fields, electromagnetic waves (including light), and optics. Prereq: PHYS 2311. Coreq: MATH 2411. **Semester Hours**: 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2341 - General Physics Lab II**

Summer 2010 Registration **PHYS 2341**
Prereq: PHYS 2321. **Semester Hours**: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

Core Curriculum Electives *(see note 3)* (6 semester hours)

**Total**: 18 Hours

**Second Semester**

**ENGL 2030 - Core Composition II**

Summer 2010 Registration **ENGL 2030**
Focuses on academic and other types of research-based writing and builds on the work completed in ENGL 1020. Focuses on critical thinking, reading and writing as well as working with primary and secondary source material to produce a variety of research-
based essays. Emphasis on using both print-based and electronic-based information. Prereq: ENGL 1020. **Semester Hours:** 3 to 3

**GT Pathways Category Key:** GT-C02

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGR 3012 - Thermodynamics**

**Summer 2010 Registration** ENGR 3012
Introduces thermodynamic properties and state relationships, processes and cycles with work and heat transfer. Applications of the first and second laws to energy-related engineering systems. Prereq: MATH 1401 and PHYS 2311. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 3195 - Linear Algebra and Differential Equations**

**Summer 2010 Registration** MATH 3195
Presents the essential ideas and methods of linear algebra and differential equations, emphasizing the connections between and the applications of both subjects. The course is designed for students in the sciences and engineering. Note: No co-credit with MATH 3200 and MATH 3191. Prereq: MATH 2411. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MECH 2033 - Dynamics**

**Summer 2010 Registration** ME 2033
A vector treatment of dynamics of particles and rigid bodies, including rectilinear translation, central-force, and general motion of particles, kinematics of rigid bodies, the inertia tensor, plane motion of rigid bodies, energy and momentum methods for particles, systems of particles, and rigid bodies. Prereq: MECH 2023 or CVEN 2121. Cross-listed with CVEN 3111. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MECH 3030 - Electric Circuits and Systems**

**Summer 2010 Registration** ME 3030
Basic electrical engineering concepts for non-majors. Basic study of circuit analysis (RLC and Op-amps), transformers and motor equations, and simple electronic circuits (diodes and transistors). Prereq: MATH 2421 and PHYS 2331. Cross-listed with ELEC 3030. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MECH 3032 - Electric Circuits and Systems Lab**

**Summer 2010 Registration** ME 3032
Basic electrical engineering lab for MECH majors. Coreq: MECH 3030 or ELEC
MECH 3010 - Elementary Numerical Methods and Programming

*Summer 2010 Registration M E 3010*
A development of basic numerical methods used to solve engineering problems. Introduction to MATLAB to implement numerical simulations. Coreq: MATH 3195 or (MATH 3191 and MATH 3200). *Semester Hours: 3to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

MECH 3021 - Introduction to Fluid Mechanics

*Summer 2010 Registration M E 3021*
Applies exact and approximate theories to engineering problems in fluids. Examples include potential flow theory, Euler's equations for in viscid fluids, Bernoulli's equations, Navier-Stokes equations, and pipe flow. Prereq: MECH 2033 or CVEN 3111 and MATH 2421. *Semester Hours: 3to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

MECH 3022 - Thermodynamics II

*Summer 2010 Registration M E 3022*
Generalized thermodynamic cycles; general thermodynamic cycle considerations, compressor, expander, heat exchanger processes, refrigeration cycles, mixtures and combustion. Prereq: ENGR 3012 and MATH 2421. *Semester Hours: 3to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

MECH 3027 - Measurements

*Summer 2010 Registration M E 3027*
Principles of digital and analog measurements; systems for sensing, transporting, modifying, and outputting information; systematic and random error analysis. The laboratory includes a variety of instruments and components illustrating fundamental
experimental measurement techniques and methods. Prereq: MATH 3195 or (MATH 3191 and MATH 3200), MECH 3030 and MECH 3032. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MECH 3028 - Laboratory of Mechanical Measurements**

*Summer 2010 Registration M E 3028*
Modern techniques for Mechanical measurements. Laboratory includes techniques for the calibration of transducers and analysis of Statistical uncertainty. Data Acquisition Systems used for Signal acquisition and measurement of common mechanical quantities, such as displacement, velocity, acceleration and force. Design and characterization of a second order measurement system based on strain gages. Coreq: MECH 3027. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MECH 3043 - Strength of Materials**

*Summer 2010 Registration M E 3043*
Application of exact and approximate theories of stress and displacement to engineering problems in solids. Examples include torsion of rods and bending of beams. Combined stresses, principal stresses and energy methods are examined. Prereq: MECH 2023, CVEN 2121. Cross-listed with CVEN 3121. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 16 Hours**

**Second Semester**

**MECH 3023 - System Dynamics I: Vibrations**

*Summer 2010 Registration M E 3023*
Modeling of dynamical systems. Analysis of single and multiple degree of freedom systems. Introduction to continuous systems. Prereq: CVEN 3111 or MECH 2033, MATH 3195 or MATH 3191 and MATH 3200 and MECH 3010. Coreq: CVEN 3121 or MECH 3043. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MECH 3024 - Introduction to Materials Science**

*Summer 2010 Registration M E 3024*
The development of the physical principles relating the structural features of materials to their observed properties. Prereq: PHYS 2311. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
MECH 3031 - Fluids/Thermal Laboratory

Summer 2010 Registration ME 3031
Laboratory exercise in compressible and incompressible fluid flow; steady state and transient heat transfer. Prereq: ENGR 3012. Coreq: MECH 3021. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MECH 3034 - Properties of Engineering Materials

Summer 2010 Registration ME 3034
Experiments to determine material properties and the effect of processing on properties important in mechanical design. Materials include metal, polymers, and composites. Loadings include tension, compression, and bending under static, dynamic impact and creep states. Coreq: MECH 3024 or (MECH 3043 or CVEN 3121). Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MECH 3035 - Design of Mechanical Elements

Summer 2010 Registration ME 3035
Review of mechanics of materials and stress analysis; detailed design of various machine elements such as fasteners, springs, brakes and gears. Includes design project. Prereq: MECH 3043, CVEN 3121. Coreq: MECH 3024. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MECH 3042 - Heat Transfer

Summer 2010 Registration ME 3042
Basic laws of heat transfer by conduction, convection, and radiation with engineering design applications. Includes design project. Prereq: ENGR 3012 and MATH 2421. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MECH 3065 - Intermediate Dynamics

Summer 2010 Registration ME 3065
An in-depth study of Newtonian dynamics with constraints. Mechanism synthesis using graphical and analytic techniques. Prereq: MECH 2033 or CVEN 3111 and MECH 3010. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 17 Hours
Senior Year

First Semester

MECH 3145 - Manufacturing Processes Design

Summer 2010 Registration ME 3145
Basic manufacturing background will be provided to engineering students in order to: (1) apply manufacturing specifications to the design of mechanical devices, and (2) communicate with technical personnel in a production environment. Topics cover metal casting, bulk and sheet metal forming, material removal and joining and fastening processes. Prereq: MECH 1025. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MECH 4023 - System Dynamics II: Controls

Summer 2010 Registration ME 4023
Introduces the Laplace Transformation. Control system analysis using root locus and frequency response methods. Basic compensation techniques are be covered. Prereq: MECH 3023. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MECH 4035 - Senior Design I

Summer 2010 Registration ME 4035
Group and individual projects to design engineering components and systems. Design methodology, product specs, creativity, design reviews, communication, presentations, and report writing are emphasized. MECH 4035 and MECH 4045 form a one year sequence and must be taken consecutively. Prereq: MECH 3035 and MECH 3042. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MECH Technical Electives (see note 5) (6 semester hours)

Total: 15 Hours

Second Semester

MECH 4045 - Senior Design II

Summer 2010 Registration ME 4045
Student teams manufacture and construct and/or redesign mechanical parts or
assemblies that they designed in previous course (MECH 4035). A proposal, oral progress reports, and a final written report and demonstration are required. MECH 4035 and MECH 4045 form a one year sequence and must be taken consecutively. Prereq: MECH 4035. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

- MECH Technical Electives (6 semester hours)
- Core Curriculum Electives (see note 3) (6 semester hours)

**Total: 15 Hours**

**Notes**

1. Students enrolled prior to fall 2006 may choose either the new core curriculum or the old core curriculum.
2. The communication requirements include ENGL 1020 and ENGL 2030.
3. Common core requirements of the College of Engineering and Applied Science. Refer to the “Undergraduate Core Curriculum in Engineering” in this catalog or to the “Common Core Requirements” guide available from your advisor for further information.
4. CVEN 2121 and CVEN 3111 may be substituted for MECH 2023 and MECH 2033 respectively.
5. Not all courses may be offered every semester. Students should check the current Schedule Planner.

**Program Total: 128 Hours**

Students should check with departmental advisors to determine their degree requirements. The particular curriculum to be satisfied by each student is the one published in the catalog current at the time of their matriculation. For additional information, see the departmental advisor.

Students should refer to the section in this chapter on “Academic Policies” of the College of Engineering and Applied Science. In addition to planning for sequences of courses based on prerequisites, students should plan to complete sophomore-level courses before taking junior level courses and should have completed their junior-level mechanical engineering courses before starting their senior-level mechanical engineering electives. All students should see their advisors at least once each semester.

**Music BS**
Undergraduate Degree Requirements

The BS in music has a competitive application process. Please refer to the MEIS Web site at http://cam.ucdenver.edu/meis for additional guidelines and information. To be eligible for an audition-based BS in music, students must complete 54 semester hours of music foundation courses and then select one of the three emphasis areas: recording arts, music business or performance. Students must pass a music audition as part of the application process and pass varying levels of performance proficiency as part of their curricula. Students must complete all major courses with a C/2.0 or higher.

Music Foundation Courses

MUSC 2470 - Music Applications on the Computer

*Summer 2010 Registration MUS 2470*
Introduces the use of computers in the music industry. Topics include basic computer operation, computer hardware, desktop publishing for music business, music notation, MIDI sequencing and digital audio. Students individually create several computer lab projects. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MUSC 2540 - Audio Production I

*Summer 2010 Registration MUS 2540*
Operating principles and performance characteristics of microphones, amplifiers, speaker systems, equalizers, mixers and multi-track recorders; acoustics of music, auditoriums and recording studios. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MUSC 2700 - Introduction to Music Business

*Summer 2010 Registration MUS 2700*
Introduces music as a business and a product, emphasizing music publishing, recording, broadcasting, marketing, licensing and legal aspects. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MUSC 3210 - Music and Entertainment Marketing

*Summer 2010 Registration MUS 3210*
In this course students learn the essential elements of marketing as applied to the music and entertainment industry. Course topics include: marketing principles, theories and tools utilized in the music and entertainment businesses and specific industry practices and applications. Prereq: MUSC 2700. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
MUSC 3220 - Artist Management

Summer 2010 Registration MUS 3220
Students learn the theory and practice of artist management as it relates to developing a career through entrepreneurship, establishing business structures for the artist, and concepts including: promotion, live performance, recording, contracts, and essential business practices. Prereq: MUSC 2700Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1023 - Piano Class I

Summer 2010 Registration PMUS 1023
This course focuses on beginning note reading in both treble and bass clefs, learning one octave major key scales, basic harmonization, and beginning improvisation. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: Acceptance to the MEIS programSemester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1024 - Piano Class II

Summer 2010 Registration PMUS 1024
Continuation of PMUS 1023. This course focuses on more advanced note reading, technique, chord vocabulary, sight reading, and improvisation. Introduction of minor scales. Performances in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: Acceptance to the MEIS program, PMUS 1023 or approval of instructorSemester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1025 - Piano Class III

Summer 2010 Registration PMUS 1025
Continuation of PMUS 1024. This course assumes general fluency in major and minor scales. Focus on expanding chord vocabulary, sight reading, transposition, and performing more advanced repertoire. Performances in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: Acceptance to the MEIS Program, PMUS 1023 and PMUS 1024, or approval of instructorSemester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1026 - Piano Class IV
PMUS 1026 - Summer 2010 Registration
Continuation of PMUS 1025. This course assumes fluency in major and minor scales. Focus on harmonizing with complex chords, playing by ear, improvisation, and playing repertoire in broader range of key signatures. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Course meets in Roland Piano Lab. Prereq: Acceptance to the MEIS program, PMUS 1023, PMUS 1024 and PMUS 1025, or approval of instructor. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1100 - Music Theory I

PMUS 1100 - Summer 2010 Registration
Study of harmonic procedures as derived from the common practice period, and their relationship to contemporary concepts. Coreq: PMUS 1110 and PMUS 1023. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1110 - Ear Training and Sight Singing I

PMUS 1110 - Summer 2010 Registration
Laboratory course designed to help students listen to music analytically and to apply the harmonic principles learned in PMUS 1100 to the performance of music. Coreq: PMUS 1100 and PMUS 1023. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1200 - Music Theory II

PMUS 1200 - Summer 2010 Registration
Continuation of PMUS 1100. Prereq: PMUS 1110 and PMUS 1100. Coreq: PMUS 1210 and PMUS 1023. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1210 - Ear Training and Sight Singing II

PMUS 1210 - Summer 2010 Registration
Laboratory course designed to help students listen to music analytically and to apply the harmonic principles learned in PMUS 1200 to the performance of music. Prereq: PMUS 1100 and PMUS 1110. Coreq: PMUS 1200 and PMUS 1023. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1500 - General Recital

PMUS 1500 - Summer 2010 Registration
May be taken on a pass/fail basis only. Co-requisite for all applied music courses for
music majors and minors. Attendance at musical performances is required. **Semester Hours:** 0 to 0
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1500 - General Recital
PMUS 1500 - General Recital
PMUS 1500 - General Recital
PMUS 1502 through PMUS 1762 (24 instruments) 2 cr/each. Students must take 2 semesters of 1000-level lessons.
PMUS 2502 through PMUS 2562 (24 instruments) 2 cr/each. Students must take 2 semesters of 2000-level lessons.
PMUS 1410 through PMUS 4430 (15 ensembles)

**PMUS 2100 - Music Theory III**

*Summer 2010 Registration PMUS 2100*
Exposes students to the theoretical aspects of Western European classical music from the Baroque period to the Classical period. Emphasis is placed on the melodic aspects of classical music including the creation of melody and the combining of melodies into polyphonic structures. Prereq: PMUS 1200 and PMUS 1210. Coreq: PMUS 2110 and PMUS 1023. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PMUS 2110 - Ear Training and Sight Singing III**

*Summer 2010 Registration PMUS 2110*
A laboratory course designed to help students listen to music analytically and to apply the harmonic principles learned in PMUS 2100 to the performance of music. Prereq: PMUS 1200 and PMUS 1210. Coreq: PMUS 2100 and PMUS 1023. **Semester Hours:** 1 to 1 **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PMUS 2200 - Contemporary Styles**

*Summer 2010 Registration PMUS 2200*
Surveys classical, jazz, and popular styles of the 20th century. Prereq: PMUS 2100. **Semester Hours:** 3 to 3 **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PMUS 3830 - History and Literature of Music I**

*Summer 2010 Registration PMUS 3830*
This course provides a historical perspective of Western music literature from the
medieval through the classical era. Prereq: Any semester of music theory. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PMUS 3831 - History and Literature of Music II**

*Summer 2010 Registration PMUS 3831*

This course provides a historical perspective of Western music literature from the Romantic era through the present day. Prereq: Any semester of music theory. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS _____ - UD Music History Elective* (3 semester hours)

**Total: 54 Hours**

* UD = upper division (3000- or 4000- level course)

**Performance Emphasis Courses**

Students must successfully pass a Sophomore Proficiency on their primary instrument or voice in order to be accepted into the Performance emphasis. Students are required to successfully complete a Junior Recital, in addition to the 2-credit PMUS 4200 Senior Recital. Contact the MEIS Office for more information at 303-556-2279.

**PMUS 1500 - General Recital**

*Summer 2010 Registration PMUS 1500*

May be taken on a pass/fail basis only. Co-requisite for all applied music courses for music majors and minors. Attendance at musical performances is required. **Semester Hours:** 0 to 0
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1500 - General Recital
PMUS 1500 - General Recital
PMUS 1500 - General Recital
PMUS 3502 through PMUS 3762 (24 instruments) 3 cr/each. Students must take 2 semesters of 3000-level lessons.
PMUS 4502 through PMUS 4762 (24 instruments) 3cr/each. Students must take 2 semesters of 4000-level lessons.

**PMUS 3300 - Advanced Jazz Improvisation**

*Summer 2010 Registration PMUS 3300*

Explores the techniques and concepts of instrumental jazz/commercial improvisation and sight reading. Major concepts include understanding and interpreting the
construction of jazz harmonic nomenclature and the mastery of the melodic elements of improvisation. Prereq: PMUS 1310 or permission of the instructor. **Semester Hours:** 2 to 2

Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1410 through PMUS 4430 (15 ensembles)
Performance students must take a minimum of 8 ensembles (8 semester hours), one with every semester of applied lessons.

**PMUS 4200 - Senior Recital**

*Summer 2010 Registration PMUS 4200*
This course is for music performance students to prepare for their capstone senior recital and to prepare materials for their required portfolio. Prereq: Permission of instructor. **Semester Hours:** 2 to 2

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 22 Hours**

**Music Business Emphasis Courses**

**MUSC 2560 - Audio Production II**

*Summer 2010 Registration MUS 2560*
Studies aesthetics and technology of electronic music, voltage controlled and MIDI sound synthesis, and multi-track analog recording and signal processing. Team lab recording projects. Prereq: MUSC 2540 or permission of instructor. **Semester Hours:** 4 to 4

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 3720 - Law and the Music Industry**

*Summer 2010 Registration MUS 3720*
Students will learn how to use and analyze music law principles through a review of essential court case studies. Students will be tested on lecture material and provided with an opportunity to complete research papers for a more in-depth examination. Prereq: MUSC 2700 (Intro to Music Business), MUSC 3220 (Artist Management), Jr. standing. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 4740 - Music Business Analysis**

*Summer 2010 Registration MUS 4740*
Students learn to analyze specific managerial situations unique to the music and entertainment industries and will understand aspects of finance, taxation, and
management science. Prereq: MUSC 3210 (Music and Ent Mktg.), MUSC 3220 (Artist Mgmt.).

**Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 25 Hours**

**Recording Emphasis Courses**

Students must be accepted into the recording arts emphasis before being able to take any of the upper-division courses in this area. Please consult a CAM advisor for details.

**MUSC 2560 - Audio Production II**

*Summer 2010 Registration MUS 2560*
Studies aesthetics and technology of electronic music, voltage controlled and MIDI sound synthesis, and multi-track analog recording and signal processing. Team lab recording projects. Prereq: MUSC 2540 or permission of instructor. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 3540 - Recording Studio Maintenance and Calibration**

*Summer 2010 Registration MUS 3540*
A basic course in calibration, alignment, and minor repair necessary for functional operation of the recording studio. Prereq: Admittance to Recording Arts/Tech focus. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 3550 - Critical Listening for Recording Arts**

*Summer 2010 Registration MUS 3550*
Students will be trained to recognize: boosts and cuts in different bands of frequencies at increasingly small increments, types of distortion, parameters for compression, delay, reverb and stereo imaging. Students will develop a vocabulary for describing sounds and improving auditory memory. Prereq: Admittance to Recording Arts/Tech focus. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 4505 - Audio Post Production I**

*Summer 2010 Registration MUS 4505*
Reviews all aspects of audio synchronized with picture, including music, sound effects, narration, and dialog replacement. Topics studied with respect to film, video and multimedia. Prereq: Admittance to Recording Arts/Tech focus. Cross-listed with MSRA
MUSC 4575 - Surround Sound

Summer 2010 Registration MUS 4575
This lecture-lab course deals with surround sound in film, digital TV and DVDs. Topics include monitoring, microphone techniques, recording, mixing, mastering, delivery formats and psychoacoustics. Students work on two lab projects in the semester. Prereq: MUSC 4550 and admittance to Recording Arts/Tech focus. Cross-listed with MSRA 5575. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

MUSC 4550 - Audio Production III

Summer 2010 Registration MUS 4550
Advanced studies in sound recording and reinforcement, aesthetics and techniques of multi-track digital recording and stereo imaging. Team lab recording projects. Prereq: Admittance to Recording Arts/Tech focus. Cross-listed with MSRA 5550. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

MUSC 4580 - Audio Production Seminar

Summer 2010 Registration MUS 4580
Faculty and majors of the music engineering program assemble to discuss and demonstrate issues of artistic and technical applications of recording technology. Student projects, faculty, and guest lectures provide topical focus. (Music facility fee applies.) Prereq: Admittance to Recording Arts/Tech focus. Cross-listed with MSRA 5580. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MUSC 4580 - Audio Production Seminar (Senior Project)

MUSC 4580 - Audio Production Seminar (Senior Project)

PHYS 3620 - Sound and Music

Summer 2010 Registration PHYS 3620
Considers the basic nature of sound waves, the ear and hearing, and musical instruments. Although this course is mainly descriptive, some high school algebra will be
used. Prereq: MATH 1070 or equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 28 Hours**

**Music Industry Studies Emphasis—BS in Music**

**Undergraduate Degree Requirements**

The music program has a competitive entrance process. Please refer to the CAM Web site for details and information. To be eligible for a BS in music, emphasis in music industry studies (MIS), students must complete the 14 semester hours of music performance courses, 20 semester hours of musicianship courses, 13 semester hours of music industry studies core courses and 26 semester hours of music business or music technology courses. While no audition is required as part of the application process, students are required to complete performance and musicianship courses. Students must pass their major courses with a C (2.0) or better.

**Music Performance, Musicianship and MIS Core Courses**

**MUSC 2300 - Introduction to Songwriting**

*Summer 2010 Registration MUS 2300*
Studies the craft of songwriting. Emphasis is on the creation of original melodies and lyrics. A variety of non-classical contemporary musical styles are considered. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 2470 - Music Applications on the Computer**

*Summer 2010 Registration MUS 2470*
Introduces the use of computers in the music industry. Topics include basic computer operation, computer hardware, desktop publishing for music business, music notation, MIDI sequencing and digital audio. Students individually create several computer lab projects. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
MUSC 2540 - Audio Production I

Summer 2010 Registration MUS 2540
Operating principles and performance characteristics of microphones, amplifiers, speaker systems, equalizers, mixers and multi-track recorders; acoustics of music, auditoriums and recording studios. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MUSC 2560 - Audio Production II

Summer 2010 Registration MUS 2560
Studies aesthetics and technology of electronic music, voltage controlled and MIDI sound synthesis, and multi-track analog recording and signal processing. Team lab recording projects. Prereq: MUSC 2540 or permission of instructor. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

MUSC 2700 - Introduction to Music Business

Summer 2010 Registration MUS 2700
Introduces music as a business and a product, emphasizing music publishing, recording, broadcasting, marketing, licensing and legal aspects. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1023 - Piano Class I

Summer 2010 Registration PMUS 1023
This course focuses on beginning note reading in both treble and bass clefs, learning one octave major key scales, basic harmonization, and beginning improvisation. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: Acceptance to the MEIS program **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1024 - Piano Class II

Summer 2010 Registration PMUS 1024
Continuation of PMUS 1023. This course focuses on more advanced note reading, technique, chord vocabulary, sight reading, and improvisation. Introduction of minor scales. Performances in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: Acceptance to the MEIS program, PMUS 1023 or approval of instructor **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.
PMUS 1025 - Piano Class III

Summer 2010 Registration PMUS 1025
Continuation of PMUS 1024. This course assumes general fluency in major and minor scales. Focus on expanding chord vocabulary, sight reading, transposition, and performing more advanced repertoire. Performances in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: Acceptance to the MEIS Program, PMUS 1023 and PMUS 1024, or approval of instructor. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

or

PMUS 1040 - Class Guitar

Summer 2010 Registration PMUS 1040
Designed to provide each student with a basic knowledge of the fretboard. The course material focuses on beginning note reading, basic chord forms and elementary improvisation. Students have the opportunity to perform in both individual and group settings. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

or

PMUS 1050 - Voice Class I

Summer 2010 Registration PMUS 1050
Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Development of technique, confidence, and control through group and solo singing. Development of repertoire that includes contemporary and commercial vocal styles. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1026 - Piano Class IV

Summer 2010 Registration PMUS 1026
Continuation of PMUS 1025. This course assumes fluency in major and minor scales. Focus on harmonizing with complex chords, playing by ear, improvisation, and playing repertoire in broader range of key signatures. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Course meets in Roland Piano Lab. Prereq: Acceptance to the MEIS program, PMUS 1023, PMUS 1024 and PMUS 1025, or approval of instructor. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

or
PMUS 1041 - Class Guitar II

Summer 2010 Registration PMUS 1041
This group guitar class is designed to go beyond PMUS 1040 and provide students with an advanced knowledge of the fretboard. The course material focuses on advanced position note reading, complex chord forms and scale vocabulary. Students have the opportunity to perform in both individual and group settings. Prereq: PMUS 1040. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

or

PMUS 1060 - Voice Class II

Summer 2010 Registration PMUS 1060
Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Extension of PMUS 1050, with opportunity to continue to develop individual skills in singing. Development of technique, confidence, and control through group and solo singing. Development of repertoire that includes contemporary and commercial vocal styles. Prereq: PMUS 1050. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1100 - Music Theory I

Summer 2010 Registration PMUS 1100
Study of harmonic procedures as derived from the common practice period, and their relationship to contemporary concepts. Coreq: PMUS 1110 and PMUS 1023. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1110 - Ear Training and Sight Singing I

Summer 2010 Registration PMUS 1110
Laboratory course designed to help students listen to music analytically and to apply the harmonic principles learned in PMUS 1100 to the performance of music. Coreq: PMUS 1100 and PMUS 1023. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1200 - Music Theory II

Summer 2010 Registration PMUS 1200
Continuation of PMUS 1100. Prereq: PMUS 1110 and PMUS 1100. Coreq: PMUS 1210
PMUS 1210 - Ear Training and Sight Singing II

*Summer 2010 Registration PMUS 1210*
Laboratory course designed to help students listen to music analytically and to apply the harmonic principles learned in PMUS 1200 to the performance of music. Prereq: PMUS 1100 and PMUS 1110. Coreq: PMUS 1200 and PMUS 1023.*Semester Hours: 1 to 1*
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1310 - Sight Reading and Improvisation

*Summer 2010 Registration PMUS 1310*
Explores the techniques and concepts of instrumental jazz/commercial improvisation and beginning sight reading. Major concepts include understanding and interpreting the construction of jazz harmonic nomenclature and the mastery of the melodic elements of improvisation. Prereqs: PMUS 1100, PMUS 1110, PMUS 1200, PMUS 1210, PMUS 1023.*Semester Hours: 2 to 2*
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1500 - General Recital

*Summer 2010 Registration PMUS 1500*
May be taken on a pass/fail basis only. Co-requisite for all applied music courses for music majors and minors. Attendance at musical performances is required.*Semester Hours: 0 to 0*
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 2200 - Contemporary Styles

*Summer 2010 Registration PMUS 2200*
Surveys classical, jazz, and popular styles of the 20th century. Prereq: PMUS 2100.*Semester Hours: 3 to 3*When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

or

MUSC 2220 - Commercial Electronic Music Composition
Summer 2010 Registration **MUS 2220**
An investigation, analysis and application of contemporary electronic music compositional and production techniques in relation to commercial music and historical context. Prereq: PMUS 1200, PMUS 1210 and MUSC 2300. **Semester Hours**: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**or**

**MUSC 3310 - Songwriting II**

Summer 2010 Registration **MUS 3310**
Presents concepts of songwriting that build upon those presented in MUSC 2300. Students are expected to understand and discuss musical concepts and lyric structure and use these concepts in the creation of original songs. Prereq: MUSC 2300, PMUS 1200, PMUS 1210 and PMUS 1023. **Semester Hours**: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PMUS 3830 - History and Literature of Music I**

Summer 2010 Registration **PMUS 3830**
This course provides a historical perspective of Western music literature from the medieval through the classical era. Prereq: Any semester of music theory. **Semester Hours**: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PMUS 3831 - History and Literature of Music II**

Summer 2010 Registration **PMUS 3831**
This course provides a historical perspective of Western music literature from the Romantic era through the present day. Prereq: Any semester of music theory. **Semester Hours**: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

____ _____ - Electives in Performance (2 semester hours)

**Total: 50 Hours**

Students select either music business or music technology and complete all listed courses and elective credits.

**Music Business Focus Courses**

**MUSC 3720 - Law and the Music Industry**

Summer 2010 Registration **MUS 3720**
Students will learn how to use and analyze music law principles through a review of
essential court case studies. Students will be tested on lecture material and provided with an opportunity to complete research papers for a more in-depth examination. Prereq: MUSC 2700 (Intro to Music Business), MUSC 3220 (Artist Management), Jr. standing. **Semester Hours:** 3to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 4740 - Music Business Analysis**

*Summer 2010 Registration MUS 4740*  
Students learn to analyze specific managerial situations unique to the music and entertainment industries and will understand aspects of finance, taxation, and management science. Prereq: MUSC 3210 (Music and Ent Mktg.), MUSC 3220 (Artist Mgmt.). **Semester Hours:** 3to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 26 Hours**

**Music Technology Focus Courses**

Students must be accepted into the MIS/tech focus before being able to take any of the upper-division courses in this area. Please consult CAM advisor for more details.

**MUSC 3540 - Recording Studio Maintenance and Calibration**

*Summer 2010 Registration MUS 3540*  
A basic course in calibration, alignment, and minor repair necessary for functional operation of the recording studio. Prereq: Admittance to Recording Arts/Tech focus. **Semester Hours:** 3to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 3550 - Critical Listening for Recording Arts**

*Summer 2010 Registration MUS 3550*  
Students will be trained to recognize: boosts and cuts in different bands of frequencies at increasingly small increments, types of distortion, parameters for compression, delay, reverb and stereo imaging. Students will develop a vocabulary for describing sounds and improving auditory memory. Prereq: Admittance to Recording Arts/Tech focus. **Semester Hours:** 3to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 4505 - Audio Post Production I**

*Summer 2010 Registration MUS 4505*  
Reviews all aspects of audio synchronized with picture, including music, sound effects,
narration, and dialog replacement. Topics studied with respect to film, video and multimedia. Prereq: Admittance to Recording Arts/Tech focus. Cross-listed with MSRA 5505. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

or

**MUSC 4575 - Surround Sound**

*Summer 2010 Registration MUS 4575*
This lecture-lab course deals with surround sound in film, digital TV and DVDs. Topics include monitoring, microphone techniques, recording, mixing, mastering, delivery formats and psychoacoustics. Students work on two lab projects in the semester. Prereq: MUSC 4550 and admittance to Recording Arts/Tech focus. Cross-listed with MSRA 5575. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 4550 - Audio Production III**

*Summer 2010 Registration MUS 4550*
Advanced studies in sound recording and reinforcement, aesthetics and techniques of multi-track digital recording and stereo imaging. Team lab recording projects. Prereq: Admittance to Recording Arts/Tech focus. Cross-listed with MSRA 5550. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 4580 - Audio Production Seminar**

*Summer 2010 Registration MUS 4580*
Faculty and majors of the music engineering program assemble to discuss and demonstrate issues of artistic and technical applications of recording technology. Student projects, faculty, and guest lectures provide topical focus. (Music facility fee applies.) Prereq: Admittance to Recording Arts/Tech focus. Cross-listed with MSRA 5580. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 3620 - Sound and Music**

*Summer 2010 Registration PHYS 3620*
Considers the basic nature of sound waves, the ear and hearing, and musical instruments. Although this course is mainly descriptive, some high school algebra will be used. Prereq: MATH 1070 or equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

_____ _____ - Music Technology Electives (3 semester hours)
Total: 26 Hours

Philosophy BA

Students must declare a major by the time they have completed 60 semester hours of course work. A total of 36 semester hours must be completed for the philosophy major, at least 18 of which must be taken at the Downtown Campus. A minimum grade of $C$ (2.0) is required in each course. For those students who qualify for and fulfill the requirements for graduation with honors, a total of at least 39 hours is required.

A total of 18 upper-division semester hours are required for the major, and no more than 6 hours below the 3000 level may be counted toward the major. Courses taken at other institutions must be approved by an advisor in the Department of Philosophy to be applied toward the major.

Unless otherwise noted, registration for 4000-level courses in philosophy require a minimum grade of $C$ (2.0) in every prior philosophy course and completion of at least PHIL 3002 or PHIL 3022 or permission of instructor.

Program Requirements

Required Courses

PHIL 3002 - Ancient Greek Philosophy

*Summer 2010 Registration PHIL 3002*
History of ancient Greek thought, including traditional myth, pre-Socratic fragments, Plato's dialogues, and Aristotle's systematic philosophy. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHIL 3022 - Modern Philosophy

*Summer 2010 Registration PHIL 3022*
History of philosophy from Descartes through Kant. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

(It is recommended, but not required, that PHIL 3002 be taken before PHIL 3022)

PHIL 3440 - Introduction to Symbolic Logic
Summer 2010 Registration PHIL 3440
Covers truth functional and quantificational logic through polyadic first order predicate calculus and theory of identity. Attention is given to such problems in metatheory as proofs of the completeness and consistency of systems of logic. Cross-listed with MATH 3440. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHIL 4760 - Kant

Summer 2010 Registration PHIL 4760
A close study of Immanuel Kant's revolutionary thought, focusing on Kant's ontology, epistemology, and ethical theory, as they are articulated in his Critique of Pure Reason and Critique of Practical Reason. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5830. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 12 Hours

Additional distribution requirements

(All are upper-division courses)

One course in social/political philosophy
One course in ethics
One course in Continental philosophy
One course in EITHER American or analytic philosophy
One course with specific focus in the history of philosophy (may be fulfilled by a course in a single figure)

Total: 15 Hours

Electives

Choose three:

One upper-division elective (may include courses from previous lists that are not counted toward those requirements)
Two electives at any level
Total: 9 Hours

Major Total: 36 Hours

Course work required for graduation with honors:

3-6 semester hours taken over two semesters of:

PHIL 4950 - Honors Thesis

Summer 2010 Registration PHIL 4950
Semester Hours: 3 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

Physics BS

Program Requirements

Students must declare their intention to major in physics by the time they have completed 60 semester hours and complete between 47 and 51 semester hours (depending on the track chosen) in physics and related topics. Additionally, all tracks require 16 semester hours in math ancillary courses. No grade below a C (2.0) can be used to meet the requirements for the major. At least 12 semester hours of the requirements for the major must be completed at the Downtown Campus.

A senior thesis, usually from participation in research, is required for all students wishing to graduate with departmental honors. All other students are encouraged to do research leading to a project report or senior thesis.

Required Courses Common to All Tracks

Required Physics Courses

PHYS 2311 - General Physics I: Calculus-Based
Summer 2010 Registration PHYS 2311
Covers vector displacement, uniform and accelerated motion, force, momentum, energy, rotating systems, oscillations, and an introduction to thermodynamics. Emphasis is on basic principles. Coreq: MATH 1401. Semester Hours: 4to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2331 - General Physics II: Calculus-Based

Summer 2010 Registration PHYS 2331
Covers electrostatics, magnetic fields, electromagnetic waves (including light), and optics. Prereq: PHYS 2311. Coreq: MATH 2411. Semester Hours: 4to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2371 - Topic-Driven Physics Lab

Summer 2010 Registration PHYS 2371
A focused topic is used to show how many fundamental ideas in physics provide the basis for current applications and research. A laboratory component further illustrates the ideas and develops essential skills in physics experimentation. Coreq: PHYS 2331. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2711 - Vibrations and Waves

Summer 2010 Registration PHYS 2711
Introduces vibrations and waves associated with physical phenomena. Analytic and numerical methods in physical contexts. Topics include harmonic oscillators, resonance, coupled oscillators, nonlinear oscillators, waves in elastic media, sound waves, pulses and dispersion. Prereq: PHYS 2331 and MATH 2411. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2811 - Modern Physics I

Summer 2010 Registration PHYS 2811
Presents a study of the events and discoveries that occurred during the latter part of the 19th and the first part of the 20th centuries which led to the discovery of quantum mechanics; namely, special relativity, particle nature of radiation, wave properties of particles, models of the atom, and the introduction of quantum mechanics. Prereq: PHYS 2331 and MATH 2411. Semester Hours: 4to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 3120 - Methods of Mathematical Physics
Typically covers calculus of variations, special functions, partial differential equations, integral transforms, linear vector spaces, and tensor analysis. Prereq: MATH 2421 and 3195 (or equivalent) or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 3711 - Junior Laboratory I**

*Summer 2010 Registration PHYS 3711*
Advanced laboratory in classical and modern physics. Prereq: PHYS 2811. **Semester Hours:** 2 to 2
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 3811 - Quantum Mechanics**

*Summer 2010 Registration PHYS 3811*
A course in which both wave and matrix mechanics are developed and applied to selected problems in atomic physics. Prereq: PHYS 2811 and 3211. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

*Note:* The department will accept the following combination of independent study and introductory lab courses in lieu of PHYS 2371. However, PHYS 2371 is strongly recommended because it provides explicit preparation for upper division lab courses.

**PHYS 1840 - Independent Study: PHYS**

*Summer 2010 Registration PHYS 1840*
Students must check with a faculty member before taking this course. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2321 - General Physics Lab I**

*Summer 2010 Registration PHYS 2321*
**Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2341 - General Physics Lab II**
Summer 2010 Registration PHYS 2341
Prereq: PHYS 2321. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total physics courses required for all tracks: 26 Hours

Required Ancillary Courses

MATH 1401 - Calculus I

First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: Students cannot receive credit for both MATH 1080 and 1401. Prereq: MATH 1120 or 1130 and satisfactory score on the placement exam. Semester Hours: 4 to 4
Pathways Category Key: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 2411 - Calculus II

The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: MATH 1401. Semester Hours: 4 to 4
Pathways Category Key: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 2421 - Calculus III

The third of a three-semester sequence in calculus (MATH 1401, 2411 and 2421). Topics include vectors, vector-valued functions, partial differentiation, differentiation, multiple integration, and vector calculus. Prereq: MATH 2411. Semester Hours: 4 to 4
Pathways Category Key: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 3195 - Linear Algebra and Differential Equations

Presents the essential ideas and methods of linear algebra and differential equations, emphasizing the connections between and the applications of both subjects. The course is designed for students in the sciences and engineering. Note: No co-credit with MATH
3200 and MATH 3191. Prereq: MATH 2411. **Semester Hours:** 4 to 4

Registration is changing. Visit our website for details ucdenver.edu/registration.

*Note:* The department will accept the following combination of math courses in place of MATH 3195:

**MATH 3191 - Applied Linear Algebra**

*Summer 2010 Registration MATH 3191*

Topics include systems of equations, Gaussian elimination with partial pivoting, LU-decomposition of matrices, matrix algebra, determinants, vector spaces, linear transformations, eigenvalues and applications. Note: No co-credit with MATH 3195. Prereq: MATH 2411. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MATH 3200 - Elementary Differential Equations**

*Summer 2010 Registration MATH 3200*

First and second order differential equations, Laplace transforms, systems of equations, with an emphasis on modeling and applications. Note: No co-credit with MATH 3195. Prereq: MATH 2411; coreq is MATH 3191. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total ancillary math courses required for all tracks:** 16 Hours

**Total required semester hours for all physics major tracks:** 42 Hours

**Pure and Applied Physics (Track 1)**

Take in addition to the courses common to all tracks:

**PHYS 3211 - Analytical Mechanics**

*Summer 2010 Registration PHYS 3211*

Topics include the Lagrange and Hamiltonian formulations, the two-body problem, rigid body motion, and small oscillations. Prereq: PHYS 2711, MATH 2421 and 3195 or equivalent. Coreq: PHYS 3120. **Semester Hours:** 4 to 4

Registration is changing. Visit our website for details ucdenver.edu/registration.
PHYS 3411 - Thermal Physics

*Summer 2010 Registration PHYS 3411*
Covers the basic concepts of the three related disciplines of thermodynamics, statistical mechanics, and kinetic theory. Prereq: PHYS 2331, 2811 and MATH 2421; Coreq: MATH 3195 or equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 3721 - Junior Laboratory II

*Summer 2010 Registration PHYS 3721*
Advanced laboratory in classical and modern physics. Prereq: PHYS 3711. **Semester Hours:** 2 to 2
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 4331 - Principles of Electricity and Magnetism

*Summer 2010 Registration PHYS 4331*
Elements of mathematical theory of electricity and magnetism, including electrostatics, magnetostatics, polarized media, direct and alternating current theory, and introduction to electromagnetic fields and waves. Prereq: PHYS 2331 and 3120. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 4711 - Senior Laboratory I

*Summer 2010 Registration PHYS 4711*
Individual project laboratory with emphasis on modern methods of physical experimentation. Prereq: PHYS 3721. **Semester Hours:** 2 to 2
Registration is changing. Visit our website for details ucdenver.edu/registration.

(or a course in computational physics approved by advisor)

*Note:* Students who must retake PHYS 4331 may fulfill this requirement by obtaining a C or better in

PHYS 4351 - Bioelectromagnetism

*Summer 2010 Registration PHYS 4351*
The fundamental theory of electric and magnetic fields is developed and applied to problems of biology and medicine. Examples in medical diagnostics and treatment are built upon rigorous application of Maxwell's equations and constitutive models of electromagnetic properties of biomaterials. Prereq: PHYS 2331 and 3120. **Semester**
Hours: 4to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

Elective Physics Courses

Six semester hours of physics-related electives at 3000-level or above approved by advisor, including up to 3 hours of independent study

Total Track 1 Specific Courses: 21 Hours

Biophysics and Medical Physics (Track 2)

Take in addition to the courses common to all tracks:

PHYS 3251 - Biophysics of the Body

Summer 2010 Registration PHYS 3251
Fundamental ideas of mechanics are used to model the form and function of the human body, including statistics, locomotion, energy, and fluid flow. Topics from analytical mechanics are included to ensure student knowledge of Lagrangian and Hamiltonian formalisms. Semester Hours: 4to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 3411 - Thermal Physics

Summer 2010 Registration PHYS 3411
Covers the basic concepts of the three related disciplines of thermodynamics, statistical mechanics, and kinetic theory. Prereq: PHYS 2331, 2811 and MATH 2421; Coreq: MATH 3195 or equivalent. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 4351 - Bioelectromagnetism

Summer 2010 Registration PHYS 4351
The fundamental theory of electric and magnetic fields is developed and applied to problems of biology and medicine. Examples in medical diagnostics and treatment are built upon rigorous application of Maxwell's equations and constitutive models of electromagnetic properties of biomaterials. Prereq: PHYS 2331 and 3120. Semester Hours: 4to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.
(recommended option)
-OR-
PHYS 4331 - Principles of Electricity and Magnetism

Summer 2010 Registration PHYS 4331
Elements of mathematical theory of electricity and magnetism, including electrostatics, magnetostatics, polarized media, direct and alternating current theory, and introduction to electromagnetic fields and waves. Prereq: PHYS 2331 and 3120. Semester Hours: 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

Biophysics electives (8-9 hours)

Biophysics electives at the 3000-level or above approved by advisor (including up to 3 semester hours independent study and/or two courses, PHYS 3151 and PHYS 3161, listed below)
-OR-
The following four courses (an option primarily for pre-med physics majors):

BIOL 2051 - General Biology I

Summer 2010 Registration BIOL 2051
Introduces four major areas of study: (1) the chemistry of biological systems; (2) the structure and function of the cell; (3) cellular energy transformations (photosynthesis and respiration); and (4) genetics (mitosis, meiosis, patterns of inheritance, molecular genetics). Note: Biology and health science (pre-med, pre-vet, pre-physical therapy, etc.) majors must also take the accompanying laboratory - BIOL 2071. Prereq: CHEM 1000 or high school chemistry required. Semester Hours: 3 to 3 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 2061 - General Biology II

Summer 2010 Registration BIOL 2061
This course is a continuation of BIOL 2051. Introduces four major areas of study: (1) evolution, (2) animal structure and function, (3) plant structure and function and (4) ecology. Note: Biology and health science (pre-med, pre-vet, nursing, etc.) majors must also take the accompanying laboratory - BIOL 2081. Prereq: BIOL 2051 or equivalent with a grade of "C" (2.0) or higher. Semester Hours: 3 to 3 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 3151 - Biophysics Outlook I

Summer 2010 Registration PHYS 3151
Designed as a companion to General Biology I (but can take stand-alone), this course
explores how biophysics concepts and experimental methods add to the knowledge of life's processes at the molecular and cellular level. Prereq: PHYS 2311 and PHYS 2331. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 3161 - Biophysics Outlook II**

*Summer 2010 Registration PHYS 3161*
Designed as a companion to General Biology I (but can take stand-alone), this course explores how biophysics concepts and experimental methods contribute to the understanding of the structure and function of plants, animals & ecological systems. Prereq: PHYS 2311 and PHYS 2331. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 3721 - Junior Laboratory II**

*Summer 2010 Registration PHYS 3721*
Advanced laboratory in classical and modern physics. Prereq: PHYS 3711. **Semester Hours:** 2 to 2
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-
The following two courses (an option primarily for pre-med physics majors):

**BIOL 2071 - General Biology Laboratory I**

*Summer 2010 Registration BIOL 2071*
Introduces the basic scientific approach and report preparation through exercises and experiments in cell biology, basic biochemical techniques, genetics, molecular genetics and applications of biotechnology. Note: Exercises corresponding to topics in BIOL 2051. Coreq: BIOL 2051. **Semester Hours:** 1 to 1 **GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 2081 - General Biology Laboratory II**

*Summer 2010 Registration BIOL 2081*
Study of evolution, plant and animal anatomy, developmental biology; includes two off-campus ecology field trips. Note: Exercises corresponding to topics in BIOL 2061. Prereq: BIOL 2071 or equivalent with a grade of "C" (2.0) or higher; Coreq: BIOL 2061. **Semester Hours:** 1 to 1 **GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

Numerical modeling or probability and statistics course approved by advisor: 3 semester hours
Total Track 2 Specific Courses: 25 Hours

Major Total: 63-67 Hours

Pre-Med Students

Note: courses above marked * are generally required for medical school admissions. In addition, the following are generally required for medical school admissions but NOT for the biophysics and medical physics track:

CHEM 2031 - General Chemistry I

Summer 2010 Registration CHEM 2031
Topics include chemical structure, atomic and molecular properties, molecular geometry and bonding, and gas laws. Prepares students to take upper division chemistry courses. Note: a beginning course for science majors, medical technologists, pre-medical and pre-dental students. Prereq: One year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent); Coreq: CHEM 2038. Semester Hours: 3 to 3 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 2038 - General Chemistry Laboratory I

Summer 2010 Registration CHEM 2038
Students perform laboratory experiments on topics covered in CHEM 2031 and gain experience in observing, recording, and interpreting physical and chemical phenomena. Note: Laboratory to accompany CHEM 2031. Coreq: CHEM 2031. Semester Hours: 1 to 1 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 2061 - General Chemistry II

Summer 2010 Registration CHEM 2061
(Continuation of CHEM 2031.) Topics include kinetics, equilibria and thermodynamics. Prereq: CHEM 2031; Coreq: CHEM 2068. Semester Hours: 3 to 3 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 2068 - General Chemistry Laboratory II

Summer 2010 Registration CHEM 2068
Students gain experience with laboratory technique and elementary chemical instrumentation. Note: Laboratory to accompany CHEM 2061 and a continuation of
CHEM 2038. Prereq: CHEM 2038; Coreq: CHEM 2061. **Semester Hours:** 2 to 2GT
**Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 3411 - Organic Chemistry I**

*Summer 2010 Registration CHEM 3411*
Lecture course designed to introduce the study of structure, reactions, properties, and mechanisms of organic molecules. Prereq: CHEM 2061. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 3418 - Organic Chemistry Laboratory I**

*Summer 2010 Registration CHEM 3418*
Laboratory course to augment concepts of CHEM 3411, illustrating the practical aspects of organic chemistry. Prereq: CHEM 2068; Prereq or Coreq: CHEM 3411. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 3421 - Organic Chemistry II**

*Summer 2010 Registration CHEM 3421*
Lecture course designed to introduce the study of structure, reaction, properties and mechanisms of organic molecules. Note: Continuation of CHEM 3411. Prereq: CHEM 3411. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 3428 - Organic Chemistry Laboratory II**

*Summer 2010 Registration CHEM 3428*
Laboratory course to augment concepts of CHEM 3421, illustrating the practical aspects of organic chemistry. Prereq: CHEM 3418; Prereq or Coreq: CHEM 3421. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total additional pre-med (but not required for Track 2):** 19 hours

**Political Science BA**

Undergraduate students must declare their intention to major in political science by the time they have completed 60 semester hours, and must complete a minimum of 36
semester hours in political science, of which at least 21 must be upper-division courses. Fifteen of the 36 hours must be taken from Downtown Campus faculty. Courses are distributed among the primary fields as listed in this section, i.e., American politics, comparative politics, international relations, political theory and public policy and administration. To count for the major, all course work must be completed with a grade of C (2.0) or better. Two cognate courses (which don’t count toward the 36 hours) from the list below must also be completed.

**Traditional Option**

**Required Core**

**PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice**

*Summer 2010 Registration P SC 1001*

Introduces the study of politics, its human importance, and its relationship to social institutions. Analysis of the relationship between individual political behavior and characteristics of the political system. Development of key concepts such as power, legitimacy, authority, political socialization, and revolution. Note: Required of all PSCI majors.**Semester Hours:** 3

**GT Pathways Category Key:** GT-SS1

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 1101 - American Political System**

*Summer 2010 Registration P SC 1101*

General introduction to the American political system with emphasis upon citizen involvement, the relationships among the various levels and branches of government, formal and informal institutions, processes, and behavior. Note: Required of all PSCI majors.**Semester Hours:** 3

**GT Pathways Category Key:** GT-SS1

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 3011 - Research Methods**

*Summer 2010 Registration P SC 3011*

Design of political/social research, both qualitative and quantitative. Applications of statistical techniques and procedures to social and political phenomena. Use of computer and the Internet.**Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**PSCI 4011 - GIS in Political Science**

*Summer 2010 Registration P SC 4011*

Computer lab course developing methodological skills in Geographic Information
Systems (GIS) in political contexts. Geospatial computerized mapping skills are important in political fields such as urban planning, electoral analysis, environmental justice, demographics, public health, and criminal justice. Designed for beginners. Cross-listed with PSCI 5011. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 9 Hours**

**Choose two:**

**PSCI 4207 - Theories of Social and Political Change**

*Summer 2010 Registration P SC 4207*
Conservative, radical, and incremental approaches to change. Role of psychological and sociological factors in political change. Comparative perspectives on change. Self-perpetuation processes of power systems and their vulnerabilities. Requisites of system maintenance and system change. Selected case studies. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4407 - Early Political Thought**

*Summer 2010 Registration P SC 4407*
Main currents of political thought in their historical setting from Plato to Machiavelli, with a critical evaluation of those elements of continuing worth. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4417 - Modern Political Thought**

*Summer 2010 Registration P SC 4417*
Main currents of political thought in their historical setting from the 17th century to the present. Development of the student's own political theory. PSCI 4407 is not a prerequisite for PSCI 4417. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4427 - Law, Politics and Justice**

*Summer 2010 Registration P SC 4427*
Analysis of the relationship of politics, law, and justice, particularly the degree to which moral norms and political concerns should and do influence legal standards and their perceived legitimacy. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4437 - Coercion and the State**
An analysis of: (1) the historical emergence of the modern state; (2) the theoretical justifications for the concentration of political power and the activist state; (3) the internationalization of the European state system; and (4) anarchist and Fourth World challenges. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

American law, politics, and conflict. History and development of American political theories and ideas from Native American roots through the colonial period to the present. Political theory and practice in the U.S. today. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**One 4000-level course in each of three fields:**

American politics, comparative politics, and international relations

**Total: 9 Hours**

**Experiential-Learning Requirement * **

Choose one:

**PSCI 3914 - The Urban Citizen**

Course emphasis is community, the individual, and the good life. Experiential learning and classroom discussions about capacities of urban citizens. Focus is on social, political, and economic resources that individuals command, issues of equality and inequality, and possibilities of constructive change. Prereq: A willingness to spend a semester working and studying together as a team in both the classroom and the community. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 3939 - Internship/Cooperative Education**

Designed experiences involving application of political concepts and skills in supervised employment situations. Prereq: Junior or senior standing and 3.0 GPA. **Semester**
**PSCI 4217 - Human Rights in Theory and Practice**

*Summer 2010 Registration PSC 4217*

Explores the ideas of human rights and the practical efforts to actualize rights in society. Students study the theories of rights and the evolution of rights in history, as well as work with a service organization. Cross-listed with PSCI 5217. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**PSCI 4934 - CU at the Capitol**

*Summer 2010 Registration PSC 4934*

Examines current year legislative session of Colorado General Assembly. Study of various elected leaders; Colorado party system; Governor-Assembly relations; citizen and lobbyist influence; corruption and virtue in politics; current affairs. Each student will be placed in a state government internship. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Experiential learning project in any PSC class: **3 semester hours**

* Students with significant volunteer experience in the community or for whom the experiential-learning requirement poses a hardship may petition the chair to waive the requirement (36 hours still required).

**Total: 3 Hours**

**Electives**

Three political science elective courses

**Total: 9 Hours**

**Political Science Total: 36 Hours**

---

**Required Cognate Courses**

In addition to the 36 hours above, choose two of the following cognate courses:

**ECON 2012 - Principles of Economics: Macroeconomics**

*Summer 2010 Registration ECON 2012*

Covers topics of inflation, unemployment, national income, growth and problems of the
national economy, stabilization policy, plus others at the discretion of the instructor. Purpose is to teach fundamental principles, to open the field of economics in the way most helpful to further a more detailed study of special problems, and to give those not intending to specialize in the subject an outline of the general principles of economics.  

**Semester Hours:** 3 to 3  
**GT Pathways Category Key:** GT-SS1  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 2022 - Principles of Economics: Microeconomics**

*Summer 2010 Registration ECON 2022*  
Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022.  
**Semester Hours:** 3 to 3  
**GT Pathways Category Key:** GT-SS1  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 1016 - World History to 1500**

*Summer 2010 Registration HIST 1016*  
Surveys the rise of civilizations and their interactions from prehistoric to modern times. The emphasis is on the understanding of the various styles or characteristics of civilizations within a global context.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 1026 - World History Since 1500**

*Summer 2010 Registration HIST 1026*  
Surveys the interactions of the world's civilizations in modern times. The emphasis is on understanding the concept of modernization within a global context.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 1211 - Western Civilization I**

*Summer 2010 Registration HIST 1211*  
Introduces ancient Mediterranean civilization and the birth of Europe. Covers topics on economics and society, political organization, intellectual history, and art from 3000 B.C. to A.D. 1500.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.
HIST 1212 - Western Civilization II

*Summer 2010 Registration HIST 1212*
Introduces modern European civilization and its spread over the world. Covers topics on economics and society, political organization, intellectual history, and art from A.D. 1500 to the 20th century. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 1361 - U.S. History to 1876

*Summer 2010 Registration HIST 1361*
Provides an introduction to the major forces, events and individuals that shaped the historical development of American society, beginning with the European settlement of America and concluding with the Civil War, reconstruction and the early growth of an industrial order. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-HI1
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 1362 - U.S. History Since 1876

*Summer 2010 Registration HIST 1362*
Provides an introduction to the major forces, events, and individuals that shaped the historical development of American society from the Civil War to the present. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-HI1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 6 Hours

**Major Total:** 42 Hours

**Public Policy Option**

This option was designed for students who specifically desire to pursue careers in public policy and/or public administration in the public or nonprofit sectors. Grounded in basic political science theory and familiarity with American, comparative and international politics, this BA track emphasizes the specifically political aspects of public policy processes and settings. Cases will emphasize key policy issues confronting U.S. local, state and national decision makers and citizens. A focus on politics and the policy-making process will prepare students conceptually and methodologically to move
beyond partisan politics to address how leaders can best mobilize resources to achieve constituent goals consistent with the public interest.

**Required Core**

**PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice**

*Summer 2010 Registration* **P SCI 1001**
Introduces the study of politics, its human importance, and its relationship to social institutions. Analysis of the relationship between individual political behavior and characteristics of the political system. Development of key concepts such as power, legitimacy, authority, political socialization, and revolution. Note: Required of all PSCI majors. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 1101 - American Political System**

*Summer 2010 Registration* **P SCI 1101**
General introduction to the American political system with emphasis upon citizen involvement, the relationships among the various levels and branches of government, formal and informal institutions, processes, and behavior. Note: Required of all PSCI majors. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 3011 - Research Methods**

*Summer 2010 Registration* **P SCI 3011**
Design of political/social research, both qualitative and quantitative. Applications of statistical techniques and procedures to social and political phenomena. Use of computer and the Internet. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 9 Hours**

**One 4000-level course in each of the following three fields:**

**American Politics**

**PSCI 4002 - Topics in Political Science**

*Summer 2010 Registration* **P SCI 4002**
Specialized areas of politics. Note: May be taken more than once for credit when topics
vary. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4014 - Media and Politics**

*Summer 2010 Registration P SC 4014*
Explores the impact of the news media on the American political system, including public policy and citizen participation, and addresses trends in news coverage and media ownership, and their impact on public opinion. Prereq: PSCI 1001 and 1101 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4024 - Legislatures and Legislation**

*Summer 2010 Registration P SC 4024*
Structure and organization of legislatures, informal influences, and the process of statute law making. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4025 - Local Governance and Globalization**

*Summer 2010 Registration P SC 4025*
Introduces international political economy, consequences of globalization for localities, interplay between wealth and power among nations, multinational corporations, NGOs and the UN, and impact of their actions on local governments. Topics include development, aid, trade, outsourcing, eco-sustainability and global equity. Prereq: Graduate standing or permission of instructor. Cross-listed with PSCI 5025. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4044 - The Presidency**

*Summer 2010 Registration P SC 4044*
An overview of the historical, constitutional, and functional aspects of the presidency. Focuses on the powers and vulnerabilities of the presidency and on the style and politics of the current president. Prereq: PSCI 1101. Cross-listed with PSCI 5044. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4094 - Seminar: American Politics**

*Summer 2010 Registration P SC 4094*
controversies arising under the U.S. Constitution. Cross-listed with PSCI 5014. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4124 - Denver Politics**

*Summer 2010 Registration* P SC 4124
Surveys Denver's dominant political and economic forces and community agendas that compete with the downtown growth machine. Examines urban renewal strategies, gentrification and grass-roots resistance, and the role of officials in shaping Denver's distribution of wealth and life-opportunities. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4324 - Politics, Public Policy and Leadership**

*Summer 2010 Registration* P SC 4324
Role of politics in public and nonprofit sectors. Theories of administration and policy-making, emphasizing the role of leadership in public outcomes. Hands-on approach to case studies and use of students' policy experiences in practical application of theories. Cross-listed with PSCI 5324. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4354 - Environmental Politics**

*Summer 2010 Registration* P SC 4354
Political, legal, and economic forces in environmental law and policy. Special emphasis on air and water pollution and on threats to public and agricultural land. Environmental groups and their opponents. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4374 - Public Priorities for the 21st Century**

*Summer 2010 Registration* P SC 4374
Identification of and planning for social, political, and economic trends in American society likely to transform governmental, nonprofit, and private entities. Rigorous examination of and debate on competing priorities such as liberty, security, welfare, equality, diversity, growth and ecology. Cross-listed with PSCI 5374. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4477 - Constitutional Law I**

*Summer 2010 Registration* P SC 4477
Nature and scope of the following American constitutional principles as developed by the
U.S. Supreme Court: federalism, jurisdiction of the federal courts, separation of powers, the taxing power, and the commerce power. Case method. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4487 - Constitutional Law II**

*Summer 2010 Registration P SC 4487*
Continuation of PSCI 4477, with emphasis on the war powers of the president, citizenship, the Bill of Rights, and the Civil War amendments. (Case method.) Note: PSCI 4477 is not a prerequisite for PSCI 4487. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4545 - Immigration Politics**

*Summer 2010 Registration P SC 4545*
Introduces students to central theories of migration and a survey of immigration law and policy in the 20th century. Highlights experiences of Mexican and Latin American immigrants and related topics, including: U.S.-Mexican foreign relations, bilingual education, undocumented immigration and globalization. Cross-listed with PSCI 5545. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Comparative Politics and International Relations**

**PSCI 4085 - Comparative Public Policy**

*Summer 2010 Registration P SC 4085*
Comparison of public policy making in such areas as health care, environment, family assistance, and employment in the United States and at least two other countries. Prereq: Graduate standing or permission of instructor. Cross-listed with PSCI 5085. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4124 - Denver Politics**

*Summer 2010 Registration P SC 4124*
Surveys Denver's dominant political and economic forces and community agendas that compete with the downtown growth machine. Examines urban renewal strategies, gentrification and grass-roots resistance, and the role of officials in shaping Denver's distribution of wealth and life-opportunities. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PSCI 4185 - Corruption in the U.S. and Abroad

Summer 2010 Registration P SC 4185
Explores the causes and consequences of administrative and political corruption in developed and developing countries, and evaluates various anti-corruption strategies. Prereq: PSCI 1001 or 3022. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4226 - The United Nations in World Affairs

Summer 2010 Registration P SC 4226
Current operation and future potential of the United Nations as a complex actor in world affairs, both expressing conflicting interests of its participants and promoting universal goals, including world peace, human rights, and environmental protection. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4236 - American Foreign Policy

Summer 2010 Registration P SC 4236
Examines the postwar events, controversies, and most recent challenges in U.S. foreign policy. Analyses of the major sources of U.S. foreign policy, such as ideology, national interests, and national power. Attention to the pattern and process of foreign policy-making. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4266 - International Law

Summer 2010 Registration P SC 4266
Investigates the body of law that regulates relations between nations and provides a framework for solving common problems and disputes between nations. Prereq: Upper division political science major. Cross-listed with PSCI 5266. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4326 - Advanced International Political Economy: Globalization

Summer 2010 Registration P SC 4326
Engages the current debate about globalization. Conceptualizes globalization and evaluates the pros and cons of global trade and finance for developed and developing countries. Develops a model for a sustainable and just global economy. Prereq: PSCI 4126. Cross-listed with PSCI 5326. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PSCI 4645 - Comparative Political Leadership

Summer 2010 Registration P SC 4645
Comparative study of historical, socio-cultural, and psychological bases of political leadership. Leadership types in peasant societies, empires, and revolutionary movements. Dilemmas of democratic versus authoritarian leadership in modernizing and industrial states. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Public Policy and Administration

PSCI 4009 - Politics of the Budgetary Process

Summer 2010 Registration P SC 4009
Develops each student's understanding of budgeting and financial management in the public and nonprofit sectors. An overview of public sector and nonprofit fiscal management is provided, along with thorough exploration of the political influences that affect financial decision-making. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4024 - Legislatures and Legislation

Summer 2010 Registration P SC 4024
Structure and organization of legislatures, informal influences, and the process of statute law making. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4084 - Local Government and Administration

Summer 2010 Registration P SC 4084
Policy and administrative challenges faced by local government in the 21st century. Emphasis on cities under federalism, alternative forms of city governance, and new challenges from increasingly diverse constituents. Issues of poverty, public safety, health, transportation, environment, corruption, and accountability. Cross-listed with PSCI 5084. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4274 - Conflict Resolution and Public Consent Building

Summer 2010 Registration P SC 4274
Alternative strategies for resolving or mediating conflicts facing public or nonprofit organizations and for building public consent, with emphasis on personal, interpersonal, organizational, interest-group, cross-cultural, and roots of conflict and bases for consent.
Cross-listed with PSCI 5274. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4414 - Organizational Change Agents**

*Summer 2010 Registration P SC 4414*
Explores strategies for changing public and nonprofit organizations and of ways leadership abilities can be used for this purpose. Analysis of obstacles to organizational change and of methods for overcoming them. Principles of change applied to real-life contexts. Cross-listed with PSCI 5514. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4644 - Ethical Responsibilities of Leaders**

*Summer 2010 Registration P SC 4644*
Explores concepts of ethical decision making within the context of public leadership in both the public and non-profit sectors. Universal and individual ethical standards are examined. Cross-listed with PSCI 5644. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 9 Hours**

**Elective courses**

Choose any two additional courses from the list above, plus choose one other upper or lower division PSCI course.

**Total: 9 Hours**

**Two political theory courses**

**PSCI 4427 - Law, Politics and Justice**

*Summer 2010 Registration P SC 4427*
Analysis of the relationship of politics, law, and justice, particularly the degree to which moral norms and political concerns should and do influence legal standards and their perceived legitimacy. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4437 - Coercion and the State**

*Summer 2010 Registration P SC 4437*
An analysis of: (1) the historical emergence of the modern state; (2) the theoretical
justifications for the concentration of political power and the activist state; (3) the internationalization of the European state system; and (4) anarchist and Fourth World challenges. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**Experiential-Learning Requirement ***

Choose one:

**PSCI 3939 - Internship/Cooperative Education**

_Summer 2010 Registration PSC 3939_
Designed experiences involving application of political concepts and skills in supervised employment situations. Prereq: Junior or senior standing and 3.0 GPA. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4934 - CU at the Capitol**

_Summer 2010 Registration PSC 4934_
Examines current year legislative session of Colorado General Assembly. Study of various elected leaders; Colorado party system; Governor-Assembly relations; citizen and lobbyist influence; corruption and virtue in politics; current affairs. Each student will be placed in a state government internship. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

* Students with significant volunteer experience in the community or for whom the experiential-learning requirement poses a hardship may petition the chair to waive the requirement (36 hours still required).

**Total: 3 Hours**

**Two cognate courses**

**ECON 2012 - Principles of Economics: Macroeconomics**

_Summer 2010 Registration ECON 2012_
Covers topics of inflation, unemployment, national income, growth and problems of the national economy, stabilization policy, plus others at the discretion of the instructor. Purpose is to teach fundamental principles, to open the field of economics in the way most helpful to further a more detailed study of special problems, and to give those not
intending to specialize in the subject an outline of the general principles of economics.

**Semester Hours:** 3 to 3
**GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 2022 - Principles of Economics: Microeconomics**

*Summer 2010 Registration ECON 2022*
Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022.

**Semester Hours:** 3 to 3
**GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**Public Policy Option Total: 42 Hours**

**Psychology BA**

Students should consult with the advisor when they declare a psychology major, which must be done once they have completed 60 semester hours of course work. Psychology BA major requirements include at least 37 and not more than 48 semester hours in psychology. Of these, at least 15 hours must be in upper-division courses completed at the Downtown Campus. No grade below C (2.0) will be accepted toward the major requirements. Note that a prior college-level algebra course is strongly recommended for PSYC 2090.

PSYC 3939, Internship/Cooperative Education, does NOT count toward the 37-hour minimum or the 15-hour upper-division requirement, but it does count as elective psychology credit.

**Program Requirements**

**Required Courses**

**PSYC 1000 - Introduction to Psychology I**

*Summer 2010 Registration PSY 1000*
Introduces the scientific study of behavior, including an overview of the biological basis of behavior, sensation or perception, states of consciousness, learning and memory, thinking and language, intelligence, motivation and emotion.

**Semester Hours:** 3 to 3
Pathways Category Key: GT-SS3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 1005 - Introduction to Psychology II

*Summer 2010 Registration* PSY 1005
Introduces the scientific study of behavior, including an overview of the history of psychology, development, personality, psychological disorders, therapy, health psychology and social behavior. PSYC 1000 is not a prerequisite for this course. **Semester Hours:** 3 to 3
**GT Pathways Category Key:** GT-SS3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 2090 - Statistics and Research Methods

*Summer 2010 Registration* PSY 2090
Introduces statistics and research methods in the field of psychology. Note: Intended for those who plan to major in psychology. Completion of college algebra or equivalent is recommended. Prereq: PSYC 1000. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 2220 - Biological Basis of Behavior

*Summer 2010 Registration* PSY 2220
Introduces the biological basis of behavior. This course will feature concepts like neurons, synaptic and hormonal transmission, and physiological set-points. Behavior of simple (invertebrate) and complex organisms (vertebrates) will be related to the activity of specific brain neural networks. Prereq: PSYC 1000 or BIOL 2051. **Semester Hours:** 3 to 3
**GT Pathways Category Key:** GT-SC2
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 13 Hours

Choose three, including one or both PSYC 3222 and PSYC 4144:

PSYC 3104 - Behavioral Genetics

*Summer 2010 Registration* PSY 3104
Interdisciplinary course on relationships between behavior and heredity, with emphasis on human behavioral genetics. Prereq: General biology or general psychology. Cross-listed with BIOL 3104. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3222 - Principles of Learning and Behavior
Summer 2010 Registration PSY 3222
Introduces the scientific study of learning and behavior, focusing on "Behaviorism." Principles of operant and classical conditioning are discussed. A particular emphasis is placed on the relevance and application of these principles to understanding human behavior and psychopathology. Prereq: PSYC 1000. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3254 - Introduction to Animal Behavior

Summer 2010 Registration PSY 3254
Surveys the behavior of nonhuman animals, emphasizing the evolution through natural selection. Prereq: One semester of general biology, biological anthropology, or other course emphasizing evolutionary perspective. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3262 - Health Psychology

Summer 2010 Registration PSY 3262
An overview of the scientific study of attitudes, behaviors, and personality variables related to health and illness. Emphasis is on the interaction of biological, psychological, and social factors that cause illness and influence its treatment and prevention. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3263 - Hormones and Behavior

Summer 2010 Registration PSY 3263
The hormonal regulation of behavior will be the primary focus of this course. Topics include: hormonal basis of sexual differentiation and behavioral differences, parental behavior, biological rhythms, aggression, mood and stress. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3265 - Drugs, Brain and Behavior

Summer 2010 Registration PSY 3265
Explores the pharmacological, biological, and behavioral basis of drug effects. Topics include mechanisms of drug action, brain reward pathways, role of environment and history on drug effects, and the impact of science on drug abuse and medication development. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PSYC 3724 - Developmental Psychobiology

Summer 2010 Registration PSY 3724
Explores the biological influences on the development of brain and behavior. Emphasis is on the evolution and development, the role of experience in prenatal and postnatal development, the ontogeny of sensory systems, learning and memory, and the biological bases of language acquisition. Prereq: PSYC 1000/1005 or BIOL 2051/2061. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3810 - Neuropsychology

Summer 2010 Registration PSY 3810
Brain organization and function and its relationship to human memory, language, perception, and other cognitive abilities. Covers the application of clinical neuropsychology to working with individuals that have neurological disorders. Prereq: PSYC 1000 and 2220 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3822 - Aging, Brain and Behavior

Summer 2010 Registration PSY 3822
Examines the aging process, behavioral changes during senescence and the accompanying changes in the aged brain. Changes that are part of healthy aging are studied, as will age-related brain disorders. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 4054 - Behavioral Neuroscience

Summer 2010 Registration PSY 4054
The morphological, neurochemical and physiological bases of behavior. Emphasis is on structure and function of the brain. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 4144 - Human Cognition

Summer 2010 Registration PSY 4144
Studies information processing in humans, with emphasis on memory, thinking and language. Prereq: PSYC 1000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PSYC 4164 - Psychology of Perception

*Summer 2010 Registration* PSY 4164
Studies sensory processes and perceptual variables. Covers processes related to vision, audition, gustation and olfaction. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 9 Hours

**Choose four, including at least two or all three of PSYC 3205, PSYC 3305, and PSYC 4415:**

PSYC 3090 - Research Methods in Experimental Psychology

*Summer 2010 Registration* PSY 3090
Lecture and associated laboratory exercises that consider principles of experimental methodology, data collection and interpretation, presentation of results, evaluation of scientific literature, scientific writing, and advanced statistical concepts. Note: Strongly recommended for students who wish to pursue a career in research or professional psychology. Prereq: PSYC 1000, 1005 and 2090. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3135 - Organizational Psychology

*Summer 2010 Registration* PSY 3135
Surveys the behavior of individuals in organizations. Topics include leadership and motivation theories; group dynamics; measuring, understanding, and explaining job attitudes; analyzing and designing jobs; training and organizational development. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3205 - Human Development I: Child Psychology

*Summer 2010 Registration* PSY 3205
Studies human development covering birth, infancy, toddler, preschool and school-aged child. Covers biological, cognitive and social processes. Prereq: PSYC 1000 or 1005. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3215 - Human Development II: Adolescence and Adulthood

*Summer 2010 Registration* PSY 3215
Study of human development from adolescence through adulthood and aging. Covers
biological, cognitive, and social processes. Prereq: PSYC 1000 or 1005. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3235 - Human Sexuality**

*Summer 2010 Registration PSY 3235*
Examines the physiological, psychological, and social psychological bases of human sexuality. Research on the range of sexual behaviors, individual sexual response, sexual development, sexual dysfunction, and variants of sexual orientation. Prereq: PSYC 1000, 1005 and 2090, or permission of instructor. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3305 - Abnormal Psychology**

*Summer 2010 Registration PSY 3305*
Borderline disorders as extreme variations of the normal personality. Major functional and organic disorders. Theories of mental disorders and methods of psychotherapy. Prereq: PSYC 1000. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3405 - Family Psychology**

*Summer 2010 Registration PSY 3405*
Overview of theory and research pertaining to marital and family structure, functioning and dynamics. Prereq: PSYC 1005. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3505 - Psychology and the Law**

*Summer 2010 Registration PSY 3505*
Examines the legal and extralegal applications of psychology, such as assessment of insanity and competence, psychologists as expert witnesses, accuracy of eyewitness accounts, and issues relating to employment discrimination. Prereq: PSYC 1000, 1005, and 2090 or permission of instructor. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3610 - Psychological Trauma**

*Summer 2010 Registration PSY 3610*
Overview of psychological trauma, including: history, theoretical application, trauma models, diagnosis and treatment implications. Topics include family violence, child abuse, sexual abuse, and the trauma of war. Prereq: PSYC 1000, 1005 and 2090 or
PSYC 3611 - Psychology of Women

Summer 2010 Registration PSY 3611
Reviews psychological theories and research of women's social, cultural, emotional and behavioral experience. Examines the sociocultural context of women's experience and explores women's socialization, developmental issues, cognitive abilities and achievement motivation, personality variables, stereotypes, psychological disorders, victimization, intimacy and sexuality. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3612 - Domestic Abuse

Summer 2010 Registration PSY 3612
Examines the nature and extent of domestic violence. Personal characteristics and dynamics that contribute to spouse abuse are reviewed. Theories and research in the general field of family violence, victims' and perpetrators' treatment, and child abuse are discussed. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 4415 - Experimental Social Psychology

Summer 2010 Registration PSY 4415
Readings and lectures focused on the formulation of researchable problems in social psychology. Prereq: PSYC 1000 and 1005. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 4455 - Theories of Personality

Summer 2010 Registration PSY 4455
An in-depth look at several major theories of personality, including those from psychodynamic, behavioral, and humanistic schools of thought. Students are required to think actively and abstractly, and communicate their ideas in papers and classroom contributions. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 4485 - Psychology of Cultural Diversity
Summer 2010 Registration PSY 4485
Studies diversity in the development of the individual across Asian, Black, Hispanic, and Native American cultures. The experience of self, role of the family, expression of emotions, and psychology of prejudice are emphasized. Prereq: Six semester hours of psychology, sociology, and/or anthropology in any combination. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 4500 - Psychotherapy

Summer 2010 Registration PSY 4500
Overview of the major systems of psychotherapy, including psychoanalysis, person-centered therapy, family therapy, cognitive or behavioral approaches, and relationships among the various approaches. Prereq: 12 hours in psychology, including PSYC 1005 and 2090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 4645 - Industrial Psychology

Summer 2010 Registration PSY 4645
Surveys the field of industrial psychology. Organizational structure, communication networks, personnel selection, training, stress, and human relations are examined. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 4730 - Clinical Psychology: Ethics and Issues

Summer 2010 Registration PSY 4730
An in-depth exploration of the values and ideas that guide professional practice in psychology, including professional codes of conduct and philosophical ethical principles. Topics include confidentiality, informed consent, competence, integrity and respect. Prereq: 12 hours in psychology, including PSYC 1005 and 2090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 12-13 Hours

**One integrative course:**

PSYC 4511 - History of Psychology

Summer 2010 Registration PSY 4511
Development of psychological theories since 500 B.C. Schools of psychology and their adherents. Readings of primary and secondary sources. Prereq: PSYC 1000 and 1005
plus 6 additional credit hours in psychology (12 hours total). **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3 Hours**

**BA Major Total: 37-38 Hours**

**PSYCHOLOGY BS REQUIREMENTS**

**Psychology BS**

Students must declare a major by the time they have completed 60 semester hours of course work. To be admitted to the BS major, students must have sophomore standing and have received grades of *B* or better in General Biology I and II for majors with laboratory, or the equivalent. Students must take at least 48 hours and a maximum of 56 semester hours in psychology, biology and chemistry that will count toward graduation. A minimum of 15 upper-division semester hours must be taken from Downtown Campus faculty. No grade below *C* is acceptable toward the major requirements; i.e., psychology, biology or chemistry courses in which a student earns a *C*- or below will not count toward the major.

**Psychology Requirements**

**Required Psychology Courses**

**PSYC 1000 - Introduction to Psychology I**

*Summer 2010 Registration PSY 1000*

Introduces the scientific study of behavior, including an overview of the biological basis of behavior, sensation or perception, states of consciousness, learning and memory, thinking and language, intelligence, motivation and emotion. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 1005 - Introduction to Psychology II**

*Summer 2010 Registration PSY 1005*

Introduces the scientific study of behavior, including an overview of the history of psychology, development, personality, psychological disorders, therapy, health psychology and social behavior. PSYC 1000 is not a prerequisite for this
PSYC 2090 - Statistics and Research Methods

*Summer 2010 Registration PSY 2090*
Introduces statistics and research methods in the field of psychology. Note: Intended for those who plan to major in psychology. Completion of college algebra or equivalent is recommended. Prereq: PSYC 1000.*Semester Hours:* 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 2220 - Biological Basis of Behavior

*Summer 2010 Registration PSY 2220*
Introduces the biological basis of behavior. This course will feature concepts like neurons, synaptic and hormonal transmission, and physiological set-points. Behavior of simple (invertebrate) and complex organisms (vertebrates) will be related to the activity of specific brain neural networks. Prereq: PSYC 1000 or BIOL 2051.*Semester Hours:* 3 to 3
GT Pathways Category Key: GT-SC2
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 4054 - Behavioral Neuroscience

*Summer 2010 Registration PSY 4054*
The morphological, neurochemical and physiological bases of behavior. Emphasis is on structure and function of the brain. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor.*Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 16 Hours

**Choose two:**

PSYC 3090 - Research Methods in Experimental Psychology

*Summer 2010 Registration PSY 3090*
Lecture and associated laboratory exercises that consider principles of experimental methodology, data collection and interpretation, presentation of results, evaluation of scientific literature, scientific writing, and advanced statistical concepts. Note: Strongly recommended for students who wish to pursue a career in research or professional psychology. Prereq: PSYC 1000, 1005 and 2090.*Semester Hours:* 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.
PSYC 3104 - Behavioral Genetics

Summer 2010 Registration PSY 3104
Interdisciplinary course on relationships between behavior and heredity, with emphasis on human behavioral genetics. Prereq: General biology or general psychology. Cross-listed with BIOL 3104. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3222 - Principles of Learning and Behavior

Summer 2010 Registration PSY 3222
Introduces the scientific study of learning and behavior, focusing on "Behaviorism." Principles of operant and classical conditioning are discussed. A particular emphasis is placed on the relevance and application of these principles to understanding human behavior and psychopathology. Prereq: PSYC 1000. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3254 - Introduction to Animal Behavior

Summer 2010 Registration PSY 3254
Surveys the behavior of nonhuman animals, emphasizing the evolution through natural selection. Prereq: One semester of general biology, biological anthropology, or other course emphasizing evolutionary perspective. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3263 - Hormones and Behavior

Summer 2010 Registration PSY 3263
The hormonal regulation of behavior will be the primary focus of this course. Topics include: hormonal basis of sexual differentiation and behavioral differences, parental behavior, biological rhythms, aggression, mood and stress. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3265 - Drugs, Brain and Behavior

Summer 2010 Registration PSY 3265
Explores the pharmacological, biological, and behavioral basis of drug effects. Topics include mechanisms of drug action, brain reward pathways, role of environment and history on drug effects, and the impact of science on drug abuse and medication development. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. Semester
**Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3724 - Developmental Psychobiology**

*Summer 2010 Registration PSY 3724*
Explores the biological influences on the development of brain and behavior. Emphasis is on the evolution and development, the role of experience in prenatal and postnatal development, the ontogeny of sensory systems, learning and memory, and the biological bases of language acquisition. Prereq: PSYC 1000/1005 or BIOL 2051/2061. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3810 - Neuropsychology**

*Summer 2010 Registration PSY 3810*
Brain organization and function and its relationship to human memory, language, perception, and other cognitive abilities. Covers the application of clinical neuropsychology to working with individuals that have neurological disorders. Prereq: PSYC 1000 and 2220 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3822 - Aging, Brain and Behavior**

*Summer 2010 Registration PSY 3822*
Examines the aging process, behavioral changes during senescence and the accompanying changes in the aged brain. Changes that are part of healthy aging are studied, as will age-related brain disorders. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 4164 - Psychology of Perception**

*Summer 2010 Registration PSY 4164*
Studies sensory processes and perceptual variables. Covers processes related to vision, audition, gustation and olfaction. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 6-7 Hours

**Experiential Learning Requirement**
Students must complete at least one of the following (all require consultation with BS advisor AND permission of instructor):

**PSYC 3939 - Internship/Cooperative Education**

*Summer 2010 Registration PSY 3939*
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing, completion of minimum of 12 hours in psychology with minimum grade of 'C'. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 4840 - Independent Study: PSYC**

*Summer 2010 Registration PSY 4840*
Prereq: Permission of instructor. **Semester Hours:** 1 to 3
Honors Project in Psychology (3.5 GPA required): **3 Semester Hours**

**Total: 3 Hours**

**Physical and Biological Science Requirements**

**Required Courses**

**BIOL 2051 - General Biology I**

*Summer 2010 Registration BIOL 2051*
Introduces four major areas of study: (1) the chemistry of biological systems; (2) the structure and function of the cell; (3) cellular energy transformations (photosynthesis and respiration); and (4) genetics (mitosis, meiosis, patterns of inheritance, molecular genetics). Note: Biology and health science (pre-med, pre-vet, pre-physical therapy, etc.) majors must also take the accompanying laboratory - BIOL 2071. Prereq: CHEM 1000 or high school chemistry required. **Semester Hours:** 3 to 3

**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 2061 - General Biology II**

*Summer 2010 Registration BIOL 2061*
This course is a continuation of BIOL 2051. Introduces four major areas of study: (1) evolution, (2) animal structure and function, (3) plant structure and function and (4) ecology. Note: Biology and health science (pre-med, pre-vet, nursing, etc.) majors must also take the accompanying laboratory - BIOL 2081. Prereq: BIOL 2051 or equivalent with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3

**GT Pathways Category Key:**
GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 2071 - General Biology Laboratory I

*Summer 2010 Registration* BIOL 2071
Introduces the basic scientific approach and report preparation through exercises and experiments in cell biology, basic biochemical techniques, genetics, molecular genetics and applications of biotechnology. Note: Exercises corresponding to topics in BIOL 2051. Coreq: BIOL 2051. **Semester Hours:** 1
**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 2081 - General Biology Laboratory II

*Summer 2010 Registration* BIOL 2081
Study of evolution, plant and animal anatomy, developmental biology; includes two off-campus ecology field trips. Note: Exercises corresponding to topics in BIOL 2061. Prereq: BIOL 2071 or equivalent with a grade of “C” (2.0) or higher; Coreq: BIOL 2061. **Semester Hours:** 1
**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 2031 - General Chemistry I

*Summer 2010 Registration* CHEM 2031
Topics include chemical structure, atomic and molecular properties, molecular geometry and bonding, and gas laws. Prepares students to take upper division chemistry courses. Note: a beginning course for science majors, medical technologists, pre-medical and pre-dental students. Prereq: One year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent); Coreq: CHEM 2038. **Semester Hours:** 3
**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 2038 - General Chemistry Laboratory I

*Summer 2010 Registration* CHEM 2038
Students perform laboratory experiments on topics covered in CHEM 2031 and gain experience in observing, recording, and interpreting physical and chemical phenomena. Note: Laboratory to accompany CHEM 2031. Coreq: CHEM 2031. **Semester Hours:** 1
**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 2061 - General Chemistry II
**Summer 2010 Registration CHEM 2061**
(Continuation of CHEM 2031.) Topics include kinetics, equilibria and thermodynamics. Prereq: CHEM 2031; Coreq: CHEM 2068. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 2068 - General Chemistry Laboratory II**

**Summer 2010 Registration CHEM 2068**
Students gain experience with laboratory technique and elementary chemical instrumentation. Note: Laboratory to accompany CHEM 2061 and a continuation of CHEM 2038. Prereq: CHEM 2038; Coreq: CHEM 2061. **Semester Hours:** 2 to 2 **GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 17 Hours**

Choose two:

**BIOL 3225 - Human Physiology**

**Summer 2010 Registration BIOL 3225**
The basic orientation of the course is toward understanding the functioning of the body as a set of homeostatic mechanisms. Particular emphasis is placed on membrane potentials, muscle, circulation, respiration, digestion, the kidney, the control of metabolism and acid-based balance. Prereq: One year of general biology, general cell biology and one year of chemistry with grades of 'C' (2.0) or higher. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3244 - Human Anatomy**

**Summer 2010 Registration BIOL 3244**
Introduces the structural aspects of the human body. Anatomical models, microscope slides and dissections, including human cadavers are used in the lab. Prereq: one year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3611 - General Cell Biology**

**Summer 2010 Registration BIOL 3611**
Covers the structure and function of the cell including bioenergetics, membranes, secretion, respiration and the cell cycle. Prereq: One year of general biology with a
grade of "C" (2.0) or higher and one year of general chemistry. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3654 - General Microbiology**

*Summer 2010 Registration* **BIOL 3654**
Covers all aspects of the biology of microorganisms: their cellular structures and function, growth and metabolism, general and molecular genetics, diversity and interactions with other organisms and the environment (ecology). The objective is to provide students with a thorough introduction to microbiology including basic microbiological laboratory techniques. Note: General cell biology or general genetics is recommended. Prereq: One year of general biology and one year of general chemistry with grades of "C" (2.0) or higher. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3832 - General Genetics**

*Summer 2010 Registration* **BIOL 3832**
Introduces molecular, classical, developmental and population genetics. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 4134 - Human Genetics**

*Summer 2010 Registration* **BIOL 4134**
Advanced survey of the current status of the field. Emphasis on understanding, diagnosis and treatment of genetic disease and on the impact of molecular biology on human genetics. Prereq: General genetics with a grade of "C" (2.0) or higher. Cross-listed with 5134. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 4165 - Neurobiology**

*Summer 2010 Registration* **BIOL 4165**
Overview of neuroscience, covering the cellular basis of neuronal activity, muscle, sensory structures and the structure and function of the human brain. Prereq: One year of general biology and general cell biology with grades of "C" (2.0) or higher. Cross-listed with BIOL 5165. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 4621 - Immunology**
Summer 2010 Registration BIOL 4621
Studies antibody-antigen interactions, the immune system, inflammation, hypersensitivity, autoimmunity, and recovery from infection. Prereq: One year of general biology and general cell biology with grades of "C" (2.0) or higher; general genetics strongly recommended. Cross-listed with BIOL 5621. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 4810 - General Biochemistry I

Summer 2010 Registration CHEM 4810
Topics include structure, conformation, and properties of proteins; enzymes, mechanisms and kinetics; carbohydrates, lipids and membranes, and energetics. Prereq: CHEM 3421 or 3491. Cross-listed with CHEM 5810. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6-8 Hours

BS Major Total: 48-51 Hours

Additional elective courses in psychology, biology and chemistry may be taken up to the maximum of 56 hours.

PSYCHOLOGY BA REQUIREMENTS

Sociology BA

Students must declare a major by the time they have completed 60 semester hours of course work. The major requires a total of 34 hours with an average grade of C (2.0) in all courses. At least 16 of the 34 hours must be upper-division (3000-4000 level) courses. The maximum number of hours allowed in sociology is 48.

Course Requirements

Core Courses

The core consists of the following group of courses, all of which must be completed with a grade of C (2.0) or better:

SOCY 1001 - Introduction to Sociology
**Summer 2010 Registration SOC 1001**
A survey course in which the main concepts that define the sociological perspective are presented, and a picture of society is provided by examining major social institutions and forms of social organization within society. **Semester Hours:** 3 to 3
**GT Pathways Category Key:** GT-SS3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SOCY 3001 - Urban Sociology**

**Summer 2010 Registration SOC 3001**
The city and urban society are examined in terms of social structure, residential and institutional patterning, process of interaction, demographic processes, and patterns of growth and change. Cross-listed with ETST 3001. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SOCY 3111 - Research Methods**

**Summer 2010 Registration SOC 3111**
Design of social research. Application of statistical techniques and procedures to social phenomena. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SOCY 3121 - Statistics**

**Summer 2010 Registration SOC 3121**
Quantitative techniques used in analyzing social phenomena. Prereq: MATH 1070 or equivalent. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SOCY 4150 - History of Sociological Theory**

**Summer 2010 Registration SOC 4150**
An analysis of the major contributions and determinants of earlier social analysts to present-day social thought and analysis of pertinent sociological issues. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SOCY 4160 - Contemporary Sociological Theory**

**Summer 2010 Registration SOC 4160**
The explication of various conceptual approaches to the problems of social order, societal functioning and integration, social conflict, and social structural change by the examination of the work of contemporary theorists. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
**Total: 19 Hours**

*Must be taken from Downtown Campus faculty*

**Electives: 15 Hours**

Choose a minimum of 15 hours and a maximum of 29 hours of electives in sociology, with an average grade of C (2.0) in all courses.

**Major Total: 34 Hours**

All prospective majors should contact the department as early in their academic careers as possible for information and for assignment to a major advisor. Transfer or returning students should consult with the department chairman concerning completion of the core courses.

The department requires that at least 13 hours of sociology be taken from Downtown Campus faculty, including the following courses: SOC 3111, 3121, 4150 and 4160.

**Spanish BA**

The Spanish program studies the language, linguistics, literature, culture and civilization of Spain, Spanish America and the Spanish-speaking areas of the United States.

**Admission and Grade Requirements**

To be admitted to major status in Spanish, students must have an overall GPA of C+ (2.3). The minimum grade acceptable in any course applied to a Spanish major or minor is a C (2.0). The GPA in all courses applied to a Spanish major or minor at UC Denver must be 2.5. No courses taken on a pass/fail basis may be credited toward a Spanish major or minor.

**Residency Requirement**

The BA in Spanish requires 30 semester hours of upper-division course work in Spanish and 6 additional hours in related fields. A minimum of 18 semester hours of Spanish course work for the major, and 9 hours for the minor, must be taken from Spanish faculty at the Downtown Campus. Courses taken at other institutions while a student is enrolled at UC Denver may be applied to the major only with departmental approval before enrollment in those courses.
Proficiency Requirement

Before enrolling in their final semester in the language, Spanish majors must be evaluated by the faculty in oral and written skills. Students must see their Spanish advisor for specific information.

Course Requirements for the Major

Students majoring in Spanish for the BA degree must complete 30 semester hours of upper-division course work, at least 12 of which must be at the 4000 level. All course work applied to the 30-semester hour minimum must be taught in Spanish. In addition, students must complete 6 semester hours in courses in related fields outside the curriculum in Spanish.

Program Requirements

Language, Literature and Culture Track

LITERATURE

SPAN 3252 - Introduction to the Study of Literature

*Summer 2010 Registration SPAN 3252*

The basic terms and skills needed to analyze both the themes and form of literary works, together with an introduction to research skills. All literary examples come from Hispanic literature. Note: SPAN 3252 is a prerequisite (previous or concurrent) to all other literature courses taught in Spanish. Prereq: SPAN 2120 or 2130 (or equivalent). *Semester Hours: 3 to 3*

Registration is changing. Visit our website for details ucdenver.edu/registration.

   At least one course on the literature of Spain: **3 semester hours**
   At least one course on the literature of Spanish America: **3 semester hours**

Total: 9 Hours

LANGUAGE SKILLS AND THEORY

SPAN 3060 - Hispanic Phonetics: Theory and Practice

*Summer 2010 Registration SPAN 3060*

Explores the phonetics of spoken Spanish throughout the world. Theoretical content: classification of all Spanish sounds and how they are affected and change according to their phonetic environment and region. Practical features: pronunciation and strategies
teaching English speakers to pronounce Spanish. Prereq: SPAN 3010 or upper division standing in Spanish. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

6 additional hours in language skills and theory

**Total: 9 Hours**

**CULTURE AND CIVILIZATION OF SPAIN OR SPANISH AMERICA**

Choose two:

**SPAN 3070 - Bilingual Communities: Spanish as a Language of Contact**

*Summer 2010 Registration* **SPAN 3070**
Explores bilingualism by tracing the series of linguistic and ethnic contacts that converted Castilian from a Latin dialect to the language of the Spanish empire, the primary language of Latin America, and a fast-growing language in the United States. Prereq: SPAN 3010 for majors, or permission of instructor for non-majors. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPAN 3212 - Spanish American Culture and Civilization**

*Summer 2010 Registration* **SPAN 3212**
Surveys the social, political, economic, religious, literary, and artistic life of Spanish America from the conquest to the present. Note: Taught in Spanish for major and minor credit. Prereq: SPAN 2120 or 2130. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPAN 3221 - Culture and Civilization of Spain I**

*Summer 2010 Registration* **SPAN 3221**
From prehistoric times through Phoenician, Greek, Roman, and Visigothic eras to the Moorish invasion in 711; the Arab period; the Reconquest; the Catholic Kings; the Imperial Period; and the Inquisition. Prereq: Upper division standing in Spanish. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPAN 3222 - Culture and Civilization of Spain II**

*Summer 2010 Registration* **SPAN 3222**
(Continuation of 3221.) Studies the social, intellectual, and artistic development of Spain from the time of the Bourbons (18th century) through the civil war of 1936, and the Franco regime to the restoration of democracy under Juan Carlos I and the present day.
Prereq: Upper division standing in Spanish. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPAN 4230 - Modern Culture of Spain through Film and Narrative**

*Summer 2010 Registration SPAN 4230*
Culture of modern Spain studied through Spanish film. The death of military dictator Francisco Franco opened the process for the recuperation of a usurped democratic, representational system that has become the basis of a cultural and economic resurgence. Taught in Spanish. Prereq: SPAN 3252 and one other Spanish/Spanish American literature course at the 3000-level. Cross-listed with SPAN 5230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**RELATED FIELDS**

Choose 2 courses from the following fields of study (see Modern Languages departmental web site for a list of pre-approved courses):

- Latin American studies (from fields such as history, geography, political science, art history)
- Hispanic American studies
- Linguistics (in the fields of anthropology or English)
- Comparative literature
- Upper-division courses in another foreign language

**Total: 6 Hours**

**MAJOR TOTAL: 30 Hours**

**International Language and Culture for the Professions Track**

This option in the Spanish major offers career possibilities, both in government and private industry, at home and abroad. Languages are useful in business, industry, commerce, civil service, law, library science, media, science, economics, health and social sciences. Students who follow this course of study could also qualify as teachers of general business subjects in bilingual as well as traditional school systems. (However, students who wish to be certified to teach Spanish in the public schools should consult
the department for information concerning the undergraduate language licensure program.)

International Spanish for the professions is a controlled-enrollment major that takes two years to complete. Interested students should contact the Spanish advisor in the Department of Modern Languages to declare the major. This should be done as early as possible in the student’s academic career, but not later than the second semester of the sophomore year.

PREREQUISITES

(These courses do not count toward the major total of 45 semester hours)

ECON 2012 - Principles of Economics: Macroeconomics

*Summer 2010 Registration ECON 2012*
Covers topics of inflation, unemployment, national income, growth and problems of the national economy, stabilization policy, plus others at the discretion of the instructor. Purpose is to teach fundamental principles, to open the field of economics in the way most helpful to further a more detailed study of special problems, and to give those not intending to specialize in the subject an outline of the general principles of economics. **Semester Hours:** 3to 3 **GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 2022 - Principles of Economics: Microeconomics

*Summer 2010 Registration ECON 2022*
Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022. **Semester Hours:** 3to 3 **GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 1070 - Algebra for Social Sciences and Business

*Summer 2010 Registration MATH 1070*
Topics in algebra designed for students who intend to take business calculus. Functions, graphs, scatter plots, curve-fitting, solving systems of equations, polynomial and rational functions, and selected other topics. Note: Graphics calculator required. No co-credit with MATH 1110 or MATH 1130. Prereq: intermediate algebra and satisfactory score on the placement exam. **Semester Hours:** 3to 3 **GT Pathways Category Key:** GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.
**MATH 1110 - College Algebra**

*Summer 2010 Registration MATH 1110*

Topics in algebra designed for students who intend to take the calculus sequence. Functions, domains, ranges, graphs, data scatter plots and curve fitting, solving equations and systems of equations, polynomial functions, rational functions, and selected other topics. Graphic calculators and/or computer algebra systems are used extensively. Applications are emphasized. Note: No co-credit with either MATH 1070 or 1130. Prereq: intermediate algebra and satisfactory score on the placement exam. **Semester Hours:** 3 to 3  **GT Pathways Category Key:** GT-MA1

Registration is changing. Visit our website for details ucdenver.edu/registration.

(or higher level math course)

**SPAN 2110 - Second Year Spanish I**

*Summer 2010 Registration SPAN 2110*

Continues the development of skills acquired in 1010 and 1020. Readings deal with Hispanic culture and current topics from Spain and Latin America. Development of informal oral and written expression. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: SPAN 1020 with a grade of 'C' (2.0) or higher. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**SPAN 2120 - Second Year Spanish II**

*Summer 2010 Registration SPAN 2120*

Continues the development of skills acquired in SPAN 1010, 1020 and 2110, together with a review of grammar. Readings deal with Hispanic culture and literature. Development of informal oral and written expression. SPAN 2120 satisfies the fourth-semester language requirement at most graduate schools. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: SPAN 2110 with a grade of 'C' (2.0) or higher. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
REQUIRED SPANISH COURSES

SPAN 3082 - Introduction to Translation I

*Summer 2010 Registration SPAN 3082*
The first course in a two-semester sequence that introduces the methodology and practice of written translation. Thorough analysis of source texts precedes translation into target language. Students must demonstrate third-year competence in Spanish and advanced writing skills in English. Prereq: Upper division standing in Spanish. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPAN 3252 - Introduction to the Study of Literature

*Summer 2010 Registration SPAN 3252*
The basic terms and skills needed to analyze both the themes and form of literary works, together with an introduction to research skills. All literary examples come from Hispanic literature. Note: SPAN 3252 is a prerequisite (previous or concurrent) to all other literature courses taught in Spanish. Prereq: SPAN 2120 or 2130 (or equivalent). **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPAN 3700 - Spanish for International Business I

*Summer 2010 Registration SPAN 3700*
Development of proficiency in oral and written Spanish as used in business and industry throughout the Hispanic world, together with an increased awareness of social, economic, and political conditions affecting business transactions, particularly in long-term operations. Prereq: Upper division standing in Spanish. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPAN 3710 - Spanish for International Business II

*Summer 2010 Registration SPAN 3710*
(Continuation of SPAN 3700.) Further development of oral and written language proficiency, together with further examination of pertinent social, economic, and political conditions of the Hispanic world. Prereq: Upper division standing in Spanish; SPAN 3700 desirable. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 12 Hours

Two of the following language skills and theory courses:
SPAN 3010 - Advanced Conversation and Composition I

Summer 2010 Registration SPAN 3010
Expansion and reinforcement of oral and written skills in Spanish at an advanced level, in a broad cultural context. Oral activities are individual and in groups. Topics are introduced through oral activities, and are then used for written assignments. Prereq: SPAN 2120 or 2130. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPAN 3020 - Advanced Conversation and Composition II

Summer 2010 Registration SPAN 3020
(Continuation of SPAN 3010.) Development of oral and written skills in Spanish in preparation for taking other advanced courses. Topics of increasing complexity are selected from current publications in Spanish. Prereq: SPAN 3010. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPAN 3060 - Hispanic Phonetics: Theory and Practice

Summer 2010 Registration SPAN 3060
Explores the phonetics of spoken Spanish throughout the world. Theoretical content: classification of all Spanish sounds and how they are affected and change according to their phonetic environment and region. Practical features: pronunciation and strategies teaching English speakers to pronounce Spanish. Prereq: SPAN 3010 or upper division standing in Spanish. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPAN 3310 - Spanish Writing and Grammar I

Summer 2010 Registration SPAN 3310
A close study of the structure of the language and practice in its written use. Note: Recommended for those intending to teach Spanish at the secondary level. Prereq: Upper division standing in Spanish. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6 Hours

Two of the following culture courses:

SPAN 3070 - Bilingual Communities: Spanish as a Language of Contact

Summer 2010 Registration SPAN 3070
Explores bilingualism by tracing the series of linguistic and ethnic contacts that
converted Castilian from a Latin dialect to the language of the Spanish empire, the primary language of Latin America, and a fast-growing language in the United States. Prereq: SPAN 3010 for majors, or permission of instructor for non-majors. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPAN 3212 - Spanish American Culture and Civilization**

*Summer 2010 Registration SPAN 3212*
Surveys the social, political, economic, religious, literary, and artistic life of Spanish America from the conquest to the present. Note: Taught in Spanish for major and minor credit. Prereq: SPAN 2120 or 2130. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPAN 3222 - Culture and Civilization of Spain II**

*Summer 2010 Registration SPAN 3222*
(Continuation of 3221.) Studies the social, intellectual, and artistic development of Spain from the time of the Bourbons (18th century) through the civil war of 1936, and the Franco regime to the restoration of democracy under Juan Carlos I and the present day. Prereq: Upper division standing in Spanish. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**Electives**

Two SPAN electives, to be taken at the 4000 level.

**Total: 6 Hours**

**SPANISH TOTAL: 30 Hours**

**BUSINESS COURSES**

(please be aware of prerequisites in business course descriptions)

**ACCT 2200 - Financial Accounting and Financial Statement Analysis**

*Summer 2010 Registration ACCT 2200*
The financial accounting process, the role of the profession and the analysis of financial statements. Principal focus on interpretation of financial statements, with emphasis on asset and liability valuation problems and the determination of net income. Prereq: MATH 1070 and sophomore standing. A grade of 'C' or better is required in this course
to proceed to ACCT 2220. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 1000 - Introduction to Business**

*Summer 2010 Registration MGMT 1000*
This course will introduce students to the nature and role of business in our society. Problems confronting business are surveyed from a management, financial, economic and marketing viewpoint. Career opportunities in business are also considered. Students are advised to take this course during their freshman year and may not take it in the junior or senior years. Prereq: Open to freshman and sophomores, non-degree students and music majors at all levels. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 3000 - Managing Individuals and Teams**

*Summer 2010 Registration MGMT 3000*
Focuses on helping students understand how to manage individuals and groups effectively. Students are encouraged to know themselves better and how their behavior affects how they deal with organizational situations; they also learn how individuals differ and how to design, manage and work in a team. This is a business core course therefore a grade of a 'c' or better must be earned to satisfy graduation requirements. Prereq: Junior standing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 4400 - Environments of International Business**

*Summer 2010 Registration MGMT 4400*
An overview of the environmental complexities that arise when business activities and firms cross national borders. Key international business environmental complexities associated with country differences, cross-border trade and investment, and global monetary system are examined. Prereq: MGMT 3000 and junior standing. Cross-listed with INTB 4400. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 3000 - Principles of Marketing**

*Summer 2010 Registration MKTG 3000*
Focuses on the basic marketing concepts of Buyer Behavior, Marketing Research, Marketing Planning and Implementation and the marketing process of product, price,
distribution and promotion. This is a business core course therefore a grade of a 'C' or better must be earned to satisfy graduation requirements. Prereq: Junior standing. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Business Total: 15 Hours**

**SPANISH BUSINESS OPTION TOTAL: 45 Hours**

**RECOMMENDED:**

- Language study abroad / international travel or field study
- Internship in target language
- Official proficiency exam

**Undergraduate Licensure Program in Spanish**

With this option, students complete a major in Spanish along with additional course work required for certification to teach Spanish in the public schools. This program should be chosen early in the students' careers. For information, see the Teacher Education Program section of this catalog or contact the CLAS Advising Office (phone 303-556-2555 or visit North Classroom, 4002) and the Spanish advisor.

**Honors in Spanish**

Students who complete all the requirements for the Spanish major (as outlined above) and meet the following criteria are encouraged to talk with the Spanish faculty about participation in the honors program. Successful completion of this program by students majoring in Spanish leads to graduation with the distinction of *cum laude, magna cum laude* or *summa cum laude*.

*Cum laude*

Overall GPA of 3.5 or better and Spanish GPA of 3.8 or better

*Magna cum laude or summa cum laude*

1. Overall GPA of 3.5 or better and Spanish GPA of 3.8 or better—and—
2. *6 semester hours of Spanish 4840, Independent Study*, spread over two semesters. The candidate must present the independent study topic for approval by the faculty honors committee by the end of the semester preceding the independent study. At the end of the independent study project, and at least one
month before the end of the second semester, the candidate shall submit a **written thesis** to the faculty honors committee.

3. The designation of *magna* or *summa* will be the decision of the faculty honors committee.

### Theatre, Film and Television BA

All students pursuing a bachelor of arts (BA) in theatre, film and television complete a total of at least 53 semester hours for the major: 38 semester hours of foundation courses and 15 semester hours of approved electives. Each course must be completed with a C/2.0 or better. At least 24 of the major semester hours must be earned at UC Denver. **Students must also follow the College of Arts and Media's general degree requirements.**

Students in the theatre, film and video production program are required to know and abide by the policies and procedures outlined in the TFVP Student Handbook, available by contacting CAMadvising@ucdenver.edu.

### Required Foundation Courses

**TFVP 1050 - Video Production/Post-Production I**

*Summer 2010 Registration TFVP 1050*

Students gain a knowledge of single camera video techniques and are introduced to non-linear digital editing. Course work is hands-on and collaborative, with several projects shot and edited. Learning centers on storytelling, including pacing and aesthetics. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 1100 - Introduction to Theatre, Film, and Television**

*Summer 2010 Registration TFVP 1100*

An introduction to dramatic and cinematic texts, styles and productions; students will research and analyze a play and develop it into a film script. They will present their understanding by storyboards and multi-media presentations, exams and written work. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 1110 - Production Design: Theatre, Film and Video**
Summer 2010 Registration TFVP 1110
This design/research class explores the creative skills, technical knowledge and scholarly engagement employed by production designers. The students will understand how design elements enhance a production and create a production design for a video, film or play. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 1550 - Scriptwriting I

*Summer 2010 Registration TFVP 1550*
Each student conceptualizes, designs and creates short scripts for stage and screen. Instruction includes story development through first draft and rewrites, incorporation of critical feedback and the merger of image and idea to convey dramatic concepts. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 1611 - Acting Lab I

*Summer 2010 Registration TFVP 1611*
Students will perform scenes, have required readings and write research papers introducing them to the basic performance skills required for Stage and Screen Acting. This work will provide a foundation and vocabulary for future projects, where students interact with performers. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 2090 - Production Management Techniques

*Summer 2010 Registration TFVP 2090*
Demonstrates introductory management principles and aspects of budgeting, scheduling and managing theatre and film productions. Class time includes lectures, planning exercises, demonstrations, critiques, and media presentations along with peer review. Outside of class, students will write and plan a production. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 2100 - Visual Culture

*Summer 2010 Registration TFVP 2100*
Study academic theories surrounding visual cultures related to Film, Theatre & Video relating to topics such as representation, spectatorship, and mass media by viewing, research, and analyzing. Creative projects, readings, and written responses will increase sensitivity to visuals usage. Note: TFVP majors and minors only, or permission of
TFVP 2800 - Elements of Directing

Summer 2010 Registration TFVP 2800
Uses text analysis and visualization techniques as the foundation of the director's work and investigates its dimensions of practice in theatre and film. Students develop fluency in interpretive analysis and in crating meaning through image and action. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100, TFVP 1611. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 3810 - Introduction to Production Process

Summer 2010 Registration TFVP 3810
Part one of two-course sequence. Students introduced to theoretical and practical applications of production tools, vocabulary, and experiences in a variety of production settings. Students participate as crew members for both theatrical and film events thereby acquiring production skills. Note: Must be taken before TFVP Production Process. TFVP majors and minors only, or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 3820 - Production Process

Summer 2010 Registration TFVP 3820
Part two of two-course sequence. Students will increase their experience by applying production skills and theories learned in Intro to Production Process in a practicum setting to support theatre and film activities. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 3810 (Intro to Production Process) Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 3910 - BA Junior Project

Summer 2010 Registration TFVP 3910
This course consists of structured work and independent work sessions assisting students with portfolio and career path. Students will be required to work on planning an event, either in theatre or film and produce professional portfolio for faculty review. Prereq: TFVP majors and minors only with junior status, or permission of instructor Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.
TFVP 4910 - BA Senior Project

*Summer 2010 Registration TFVP 4910*
This course consists of structured work and independent work sessions assisting students with portfolio and career path. Students will be required to work on planning an event, either in theatre or film and produce professional portfolio for faculty review. Prereq: TFVP majors and minors only with senior status, or permission of instructor. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

Select two courses from the following:

**FILM 3070 - History of Silent Film Production**

*Summer 2010 Registration FILM 3070*
Examines history of cinema from its 19th century origins until the introduction of sound. Studies important trends in the silent era, including the beginnings of film comedy, early documentary, origins of Hollywood narrative, avant-garde cinema, German Expressionism and Soviet Cinema. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3080 - History of Sound Film Production**

*Summer 2010 Registration FILM 3080*
Students learn various film genres from early sound period, through the present. Traces the development of the various Hollywood genres- and examines representative Hollywood films and major developments of American films from the post-studio period and filmmakers in other cultures. Note: TFVP majors and minors only, or permission instructor. Prereq: TFVP 1100. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3610 - Performance: Theory/History/Criticism I**

*Summer 2010 Registration THTR 3610*
Part one of two semester course sequence exploring questions of dramatic theory and dramaturgy in context of the development of Western Theater before 1850 and an analysis of historical modes of production, dramatic text and artistic creation in relation to contemporary theatrical practice. Prereq: THTR 1100 or FILM 1100 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
THTR 4610 - Performance: Theory/History/Criticism II

*Summer 2010 Registration THTR 4610*

Part two of course sequence exploring questions of dramatic theory and dramaturgy in context of development of Western Theater after 1850 and an analysis of historical modes of production, dramatic text and artistic creation in relation to contemporary theatrical practice. Note: TFVP majors and minors only, or permission of instructor.

Prereq: TFVP 1100. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Approved Elective Courses**

Select 15 semester hours from the following:

**FILM 2050 - Film/Video Prod/Post II**

*Summer 2010 Registration FILM 2050*

Students create productions using three-chip digital cameras and advanced techniques. Preproduction through post-productivity working with actors, and maximizing production values are stressed. Students employ a range of cinematic techniques to tell stories, convey character state of mind, and communicate information and meaning. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 2500 - Introduction to Screenwriting for Film and Television**

*Summer 2010 Registration FILM 2500*

Students learn the basic elements of the craft of creating a script for film or television through exercises such as idea generation, characters, and scene setting. Genre conventions, three act structure, and other foundation elements are addressed for future work. Note: ENGL 1020, ENGL 2030 or ENGL 2154 are recommended. TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1550. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3111 - Shooting Action and Physical Effects**

*Summer 2010 Registration FILM 3111*

Examines techniques for shooting action based on the needs of the editor. A workshop for production projects. This course analyzes films, storyboard and shoot projects designed for specific outcomes such as: chase, hand combat and car chases. Prereq: Four college-level courses in film/video production and post-production. (For TFVP
majors only) **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3264 - Advanced Digital Effects**

*Summer 2010 Registration FILM 3264*
Cinematography and Post Productions majors study software and create projects with advanced visual effects. With industry standard techniques in animation, applying compositing, image acquisition and motion graphics. Students will create a variety of projects by the end of the semester. Note: Other majors by permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3270 - Film/Video Production III**

*Summer 2010 Registration FILM 3270*
Involves the scripting, planning, casting, storyboarding, and production of individual student projects to be shot on film or digital video. Emphasis is on storytelling and professional techniques. Prereq: Six college-level courses in film/video production, postproduction and scriptwriting. For TFVP majors only. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3275 - Film and Video Postproduction III**

*Summer 2010 Registration FILM 3275*
Students edit the individual projects shot on film or video FILM 3270, using skills from previous classes. Emphasis on outputting a professional quality narrative product with full audio and visual sweetening. Students benefit from longer format and more complex projects. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100, TFVP 2050, FILM 3270. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3300 - Advanced Lighting for Film and Video**

*Summer 2010 Registration FILM 3300*
Students master film and video set lighting techniques for studio and locations. Focus is on art, technology, methodology, exposure, instruments, rigging and terminology. Prereq: Six college-level courses in film/video production and postproduction. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3350 - Editing Aesthetics**
Summer 2010 Registration FILM 3350
Students study samples of existing films and their own work for artistic and visual merits. Students edit several short films, learn the guidelines for editing and develop the ability to identify the role of rhythm and pacing in films. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 3400 - Intermediate Screenwriting

Summer 2010 Registration FILM 3400
Emphasis is on creating character, conflict and structure through the use of theme, motifs, subplots, and story tone. Students complete the first act and a 25-page feature film treatment or the first draft of a feature-length script. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, FILM 2500. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 4270 - Film and Video Production IV

Summer 2010 Registration FILM 4270
Students work on final production project in a major position such as planning, casting, budgeting, and shooting a final professional quality film or video to be edited in FILM 4280 the following semester. Students use skills from previous complex projects. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100, TFVP 2050, FILM 3270, FILM 3275. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 4280 - Film and Video Postproduction IV

Summer 2010 Registration FILM 4280
Students edit longer format and more complex individual project shot on film or video in FILM 4270, using skills from previous classes and outputting a professional quality product with full audio and visual sweetening. Students benefit from more complex projects. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100, TFVP 2050, FILM 3270, FILM 3275, FILM 4270. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 4350 - Analysis of Contemporary Motion Picture Editing Techniques

Summer 2010 Registration FILM 4350
Focuses on analysis of editing techniques, through viewing of contemporary feature films and episodic television exemplars. The techniques of cutting for character, story, action, comedy and genre is covered citing the work of the top editors of our time.
Prereq: Junior standing. Cross-listed with FILM 5350. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 4400 - Advanced Screenwriting**

*Summer 2010 Registration* **FILM 4400**
This course focuses on creating and refining a feature length dramatic script (90-120 pages). Students will view films, read essays and articles, and analyze styles. They will apply these techniques and use this information to improve their own work. Prereq: FILM 3400 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 4500 - Writing for Episodic Television**

*Summer 2010 Registration* **FILM 4500**
Explores the constructive and critical process of writing prime-time dramatic television and alternative broadcast platforms. Each student is guided through a series of viewings, readings, and writing exercises culminating with the written completion of television episodes for an original series. Prereq: FILM 2500 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 4600 - Topics in Film**

*Summer 2010 Registration* **FILM 4600**
Specialized topics in film and video. Prereq: Permission of instructor. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 4840 - Independent Study: FILM**

*Summer 2010 Registration* **FILM 4840**
**Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 3840 - Applications Seminar**

*Summer 2010 Registration* **TFVP 3840**
Reflection on the intellectual competencies, artistic capabilities, and skill sets gained throughout student's academic career. Coursework includes investigation and writing on
specified topics of industry opportunities to assist career advancement. Designed to be an alternative if Internship is not appropriate. Note: TFVP majors and minors only, or permission of instructor. Prereq: Senior status. **Semester Hours:** 1 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 2530 - Acting: Character and Staging**

*Summer 2010 Registration* THTR 2530

Fully prepared scene studies leading to advance work in characterization and staging. Methods of discovering and utilizing the range of creative potential play scripts from the current production season are emphasized. Prereq: Voice and Movement I (or equivalent), and Performance and Visualization I and II (or equivalent). **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 2560 - Topics in Theatre**

*Summer 2010 Registration* THTR 2560

**Semester Hours:** 1 to 6

Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 2700 - Art for the Theatre**

*Summer 2010 Registration* THTR 2700

Students will study principles of theatre and screen productions design. They will do exercises in drawing, sketching, drafting, rendering and model building with practical application towards theatre, film, and video design techniques. Upon completion, student will have a basic production design skills. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 2840 - Independent Study: THTR**

*Summer 2010 Registration* THTR 2840

Prereq: Written permission of the supervising instructor. **Semester Hours:** 1 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3010 - Stage and Production Management**

*Summer 2010 Registration* THTR 3010

This is a course that addresses aspects of planning and managing various theatrical
events and live performances. Emphasizes maximum results, given the complexity of live performance and the resource pool. Prereq: THTR/FILM 1600 or THTR/FILM 1610 or instructor permission. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3530 - Acting: Character and Text**

*Summer 2010 Registration THTR 3530*
Fully prepared scene studies leading to advance work in characterization and text. Methods of discovering and utilizing the range of creative potential play scripts from the current production program are emphasized. Prereq: THTR/FILM 1611. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3560 - Topics in Theatre**

*Summer 2010 Registration THTR 3560*
Various topics in the study of the theatre of special interest to majors with an emphasis in theatre. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3720 - Lighting Design**

*Summer 2010 Registration THTR 3720*
A practical introduction to the history, theory, practice and equipment for lighting performing arts productions. Course emphasizes textual analysis for lighting design, basic electricity, lighting equipment and control, safety practices and lighting graphics. Requirements include related experiences with departmental productions. Prereq: THTR/FILM 1100 and THTR 2700 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3730 - Scene Design**

*Summer 2010 Registration THTR 3730*
Introduces the principles and practices of scenic design for the theatre. Emphasizes textual analysis, the aesthetic and practical elements of design, design development and theatrical graphics. Requirements include related experiences working departmental production. Prereq: THTR/FILM 1100 and THTR 2700 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3740 - Costume Design**
Summer 2010 Registration **THTR 3740**
Introduces the principles and practices of costume and make-up design for the theatre. Costume design focuses on basic figure drawing, practical elements of design, design development and different costume rendering techniques. Make-up design encompasses basic and specialty make-up application along with creating life masks. Prereq: THTR 1100 or FILM 1100 and THTR 2700 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3760 - Sound Design for the Theater**

Summer 2010 Registration **THTR 3760**
Studies sound design with practical application towards usage in the theatrical discipline. Includes studio techniques, live playback, script analysis, graphic techniques for sound plots and selection and recording techniques to amplify or otherwise manipulate the performer's voice, recreate sounds as they naturally occur and influence the emotional content of the drama. Prereq: THTR/FILM 1100 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3840 - Independent Study: THTR**

Summer 2010 Registration **THTR 3840**
Prereq: Written permission of supervising instructor. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 4530 - Acting: Character and Media**

Summer 2010 Registration **THTR 4530**
Provides the study, skill development and workshop experience for the actor in media work-film, television, video and voice over. Prereq: THTR 1611 or FILM 1611. Cross-listed with THTR 5530. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 4540 - Directing: Staging and Process**

Summer 2010 Registration **THTR 4540**
Explores the Director's contemporary staging options, rehearsal processes and production development of text and non-text-based work in the context of traditional as well as experimental approaches to theatricality. Prereq: THTR 1100 or FILM 1100.
Cross-listed with THTR 5540. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 4550 - Playwriting: The Short Form**

*Summer 2010 Registration THTR 4550*
Writing workshop in one-act plays, with special emphasis on the demands of production: space, acting, staging conventions and techniques. Prereq: A creative writing course or permission of instructor. Cross-listed with THTR 5550. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 4560 - Topics in Theatre**

*Summer 2010 Registration THTR 4560*
Various topics in the study of the theatre of special interest to acting majors, with an emphasis in theatre. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 4730 - Advanced Scenic Design**

*Summer 2010 Registration THTR 4730*
Students will continue studies in graphic techniques, design styles and the integration of production design areas. Students will complete projects in scenic design for various production forms. Outcomes will include fully realized design projects with renderings, models and drafting. Prereq: THTR 1100 and 1110. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 4760 - Topics in Design**

*Summer 2010 Registration THTR 4760*
A special topics investigation of trends in production design and experimental practices in traditional and non-traditional endeavors. Prereq: THTR 3730 and 4730 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 4840 - Independent Study: THTR**

*Summer 2010 Registration THTR 4840*
Prereq: Written permission of supervising instructor. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Total for Program: 53 Hours

Theatre, Film and Television BFA

The Department of Theatre, Film and Video Production offers a rigorous and structured bachelor of fine arts (BFA) program to a limited number of students with exceptional abilities and qualifications who aspire to work specifically in film/theatre production or writing/directing. The BFA’s goal is to provide training at a professional skill level while implementing overall departmental goals, culminating in a comprehensive review that requires successful completion of a portfolio and/or thesis project. The program prepares students to begin their careers with entry-level positions in their areas of study, start their personal creative work or continue their studies in a graduate program.

Emphases and Degree Requirements

All students pursuing a BFA in theatre, film and television complete a total of at least 78 semester hours for the major: 36 semester hours of foundation courses and 42 semester hours in an emphasis area. Students choose between emphases in film/theatre production and writing/directing; see detailed course requirements below. Each course must be completed with a C/2.0 or better. At least 24 of the major semester hours must be earned at UC Denver. Students must also follow the College of Arts and Media’s general degree requirements.

Admission Procedures and Incoming Assessment
Criteria for BFA

The first step for students seeking a BFA is to apply to the university and be accepted under the theatre, film and television bachelor of arts (BA) program. Typically then, after at least three semesters and satisfactory completion of foundation sequence courses in theatre, video/television and film, the qualified student is able to audition/interview during spring semester for admittance into the BFA program the following fall.

Assessment for admission to the BFA program includes the following:

- Grade Point Average of 2.75 or better.
- Department Interview. Each student is interviewed by members of the Theatre, Film and Video Production faculty to ascertain whether the student’s aspirations and expectations are related to those of the BFA program.
- Diagnostic Exam and Essay. Students are required to take an objective examination and write an essay on material covered in the foundation sequence courses. This examination is offered during the spring semester.
• Résumé. The résumé should include theatre/film/video work experience and education to date.
• Successful completion of foundation courses (see below) with a grade of C or better in each course. Students should have at least 24 foundation semester hours completed or in progress at the time of application in spring semester. Note that the BFA foundation courses may also apply toward the Theatre, Film and Television BA degree requirements (for those who end up pursuing the BA instead of the BFA).
• Development and successful presentation of a portfolio of the student’s work to date. Faculty will review each student’s classroom, studio and production work. For further information, including annual spring semester application deadlines, please contact CAMadvising@ucdenver.edu.

Transfer Students

Transfer students are considered on a case-by-case basis. However, a minimum of at least one semester (12 semester hours) “residency” in the BA program is required before students can participate in a spring audition/interview for possible admittance into the BFA program. Students are only admitted to the BFA for fall semester.

Admission Deferment

Students admitted to the BFA program may defer their admission for one year, to the fall semester of the academic year following their original admission to the program. Students must contact the Theatre, Film and Video Department (303-556-6352) to formally request their deferment. If more than one year elapses after a student's semester of admission and that student has not begun BFA emphasis course requirements, full reapplication is required to attempt to pursue the BFA.

Student Handbook

All students in the theatre, film and video production program are required to know and abide by the policies and procedures outlined in the TFVP Student Handbook, available by contacting CAMadvising@ucdenver.edu.

Required Foundation Courses for Both Film/Theatre Production and Writing/Directing Emphases

TFVP 1050 - Video Production/Post-Production I
Summer 2010 Registration TFVP 1050
Students gain a knowledge of single camera video techniques and are introduced to non-linear digital editing. Course work is hands-on and collaborative, with several projects shot and edited. Learning centers on storytelling, including pacing and aesthetics. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 1100 - Introduction to Theatre, Film, and Television

Summer 2010 Registration TFVP 1100
An introduction to dramatic and cinematic texts, styles and productions; students will research and analyze a play and develop it into a film script. They will present their understanding by storyboards and multi-media presentations, exams and written work. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 1110 - Production Design: Theatre, Film and Video

Summer 2010 Registration TFVP 1110
This design/research class explores the creative skills, technical knowledge and scholarly engagement employed by production designers. The students will understand how design elements enhance a production and create a production design for a video, film or play. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 1550 - Scriptwriting I

Summer 2010 Registration TFVP 1550
Each student conceptualizes, designs and creates short scripts for stage and screen. Instruction includes story development through first draft and rewrites, incorporation of critical feedback and the merger of image and idea to convey dramatic concepts. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 1611 - Acting Lab I

Summer 2010 Registration TFVP 1611
Students will perform scenes, have required readings and write research papers introducing them to the basic performance skills required for Stage and Screen Acting. This work will provide a foundation and vocabulary for future projects, where students interact with performers. Prereq: TFVP majors and minors only, or permission of
TFVP 2090 - Production Management Techniques

*Summer 2010 Registration TFVP 2090*
Demonstrates introductory management principles and aspects of budgeting, scheduling and managing theatre and film productions. Class time includes lectures, planning exercises, demonstrations, critiques, and media presentations along with peer review. Outside of class, students will write and plan a production. Prereq: TFVP majors and minors only, or permission of instructor.*Semester Hours: 3to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 2100 - Visual Culture

*Summer 2010 Registration TFVP 2100*
Study academic theories surrounding visual cultures related to Film, Theatre & Video relating to topics such as representation, spectatorship, and mass media by viewing, research, and analyzing. Creative projects, readings, and written responses will increase sensitivity to visuals usage. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100.*Semester Hours: 3to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 2800 - Elements of Directing

*Summer 2010 Registration TFVP 2800*
Uses text analysis and visualization techniques as the foundation of the director’s work and investigates its dimensions of practice in theatre and film. Students develop fluency in interpretive analysis and in crating meaning through image and action. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100, TFVP 1611.*Semester Hours: 3to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 3810 - Introduction to Production Process

*Summer 2010 Registration TFVP 3810*
Part one of two-course sequence. Students introduced to theoretical and practical applications of production tools, vocabulary, and experiences in a variety of production settings. Students participate as crew members for both theatrical and film events thereby acquiring production skills. Note: Must be taken before TFVP Production
TFVP 3820 - Production Process

**Summer 2010 Registration TFVP 3820**
Part two of two-course sequence. Students will increase their experience by applying production skills and theories learned in Intro to Production Process in a practicum setting to support theatre and film activities. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 3810 (Intro to Production Process)**Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Select two courses from the following:

**FILM 3070 - History of Silent Film Production**

**Summer 2010 Registration FILM 3070**
Examines history of cinema from its 19th century origins until the introduction of sound. Studies important trends in the silent era, including the beginnings of film comedy, early documentary, origins of Hollywood narrative, avant-garde cinema, German Expressionism and Soviet Cinema. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100.**Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3080 - History of Sound Film Production**

**Summer 2010 Registration FILM 3080**
Students learn various film genres from early sound period, through the present. Traces the development of the various Hollywood genres- and examines representative Hollywood films and major developments of American films from the post-studio period and filmmakers in other cultures. Note: TFVP majors and minors only, or permission instructor. Prereq: TFVP 1100.**Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3610 - Performance: Theory/History/Criticism I**

**Summer 2010 Registration THTR 3610**
Part one of two semester course sequence exploring questions of dramatic theory and dramaturgy in context of the development of Western Theater before 1850 and an analysis of historical modes of production, dramatic text and artistic creation in relation to contemporary theatrical practice. Prereq: THTR 1100 or FILM 1100 or permission of
THTR 4610 - Performance: Theory/History/Criticism II

Summer 2010 Registration THTR 4610
Part two of course sequence exploring questions of dramatic theory and dramaturgy in context of development of Western Theater after 1850 and an analysis of historical modes of production, dramatic text and artistic creation in relation to contemporary theatrical practice. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total for Foundation: 36 Hours

Film and Theatre Production Emphasis Courses

Required Courses

FILM 2050 - Film/Video Prod/Post II

Summer 2010 Registration FILM 2050
Students create productions using three-chip digital cameras and advanced techniques. Preproduction through post-productivity working with actors, and maximizing production values are stressed. Students employ a range of cinematic techniques to tell stories, convey character state of mind, and communicate information and meaning. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 2060 - Film and Video Lighting and Grip

Summer 2010 Registration FILM 2060
Provides an understanding of lighting theory, tools, and techniques for studio and location production. Students use lighting equipment (lights, stands, nets, flags, grids, diffusion, light meters and waveform). The lighting aesthetics addressed in class will influence future work. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
**FILM 2640 - Introduction to Digital Effects**

*Summer 2010 Registration FILM 2640*
Gain skills and awareness of motion graphics in film/video. Communicate ideas using graphic elements and learn the fundamentals of digital effects, animation, compression, and color correction. Students will be able to devise visual strategies to augment their films. Prereq: TFVP 1100. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 3222 - Theatre, Film & Video Business**

*Summer 2010 Registration TFVP 3222*
Students explore and evaluate business issues in film and theatre production such as finance, distribution, organization and legal issues through readings and projects. Students develop a solid business basis for work in these fields. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 3550 - Directing Process**

*Summer 2010 Registration TFVP 3550*
Students learn professional options and opportunities through a sequence of seminars and project-based workshops presented by directors in film and theatre. These interactions with faculty will influence their work in stage productions or documentary, episodic, and narrative film/television. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100, TFVP 1611, TFVP 2800. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 4090 - Senior Seminar & Project**

*Summer 2010 Registration TFVP 4090*
The course integrates the development of four capstone projects (research, creative work, collaborative process and service/outreach) with a continuing forum focused on current issues in professional practice. Note: TFVP majors and minors only, or permission of instructor. Prereq: Senior status in BFA. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 4095 - Senior Thesis Project**

*Summer 2010 Registration TFVP 4095*
The BFA thesis course involves the preparation, exhibition and critical faculty response to creative work and self-promotional materials as developed by graduating seniors on the BFA degree track. Note: TFVP majors and minors only, or permission of instructor.
Prereq: Senior status in department. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

- Internship (3 semester hours)

**Approved Elective Courses**

Select 18 semester hours from the following:

**FILM 2500 - Introduction to Screenwriting for Film and Television**

*Summer 2010 Registration FILM 2500*

Students learn the basic elements of the craft of creating a script for film or television through exercises such as idea generation, characters, and scene setting. Genre conventions, three act structure, and other foundation elements are addressed for future work. Note: ENGL 1020, ENGL 2030 or ENGL 2154 are recommended. TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1550. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3111 - Shooting Action and Physical Effects**

*Summer 2010 Registration FILM 3111*

Examines techniques for shooting action based on the needs of the editor. A workshop for production projects. This course analyzes films, storyboard and shoot projects designed for specific outcomes such as: chase, hand combat and car chases. Prereq: Four college-level courses in film/video production and post-production. (For TFVP majors only) **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3264 - Advanced Digital Effects**

*Summer 2010 Registration FILM 3264*

Cinematography and Post Productions majors study software and create projects with advanced visual effects. With industry standard techniques in animation, applying compositing, image acquisition and motion graphics. Students will create a variety of projects by the end of the semester. Note: Other majors by permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3270 - Film/Video Production III**

*Summer 2010 Registration FILM 3270*

Involves the scripting, planning, casting, storyboarding, and production of individual student projects to be shot on film or digital video. Emphasis is on storytelling and professional techniques. Prereq: Six college-level courses in film/video production,
postproduction and scriptwriting. For TFVP majors only. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3275 - Film and Video Postproduction III**

*Summer 2010 Registration FILM 3275*
Students edit the individual projects shot on film or video FILM 3270, using skills from previous classes. Emphasis on outputting a professional quality narrative product with full audio and visual sweetening. Students benefit from longer format and more complex projects. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100, TFVP 2050, FILM 3270. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3300 - Advanced Lighting for Film and Video**

*Summer 2010 Registration FILM 3300*
Students master film and video set lighting techniques for studio and locations. Focus is on art, technology, methodology, exposure, instruments, rigging and terminology. Prereq: Six college-level courses in film/video production and postproduction. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3350 - Editing Aesthetics**

*Summer 2010 Registration FILM 3350*
Students study samples of existing films and their own work for artistic and visual merits. Students edit several short films, learn the guidelines for editing and develop the ability to identify the role of rhythm and pacing in films. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 3400 - Intermediate Screenwriting**

*Summer 2010 Registration FILM 3400*
Emphasis is on creating character, conflict and structure through the use of theme, motifs, subplots, and story tone. Students complete the first act and a 25-page feature film treatment or the first draft of a feature-length script. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, FILM 2500. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 4270 - Film and Video Production IV**

*Summer 2010 Registration FILM 4270*
Students work on final production project in a major position such as planning, casting,
budgeting, and shooting a final professional quality film or video to be edited in FILM 4280 the following semester. Students use skills from previous complex projects. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100, TFVP 2050, FILM 3270, FILM 3275. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 4280 - Film and Video Postproduction IV**

*Summer 2010 Registration FILM 4280*

Students edit longer format and more complex individual project shot on film or video in FILM 4270, using skills from previous classes and outputting a professional quality product with full audio and visual sweetening. Students benefit from more complex projects. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100, TFVP 2050, FILM 3270, FILM 3275, FILM 4270. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 4350 - Analysis of Contemporary Motion Picture Editing Techniques**

*Summer 2010 Registration FILM 4350*

Focuses on analysis of editing techniques, through viewing of contemporary feature films and episodic television exemplars. The techniques of cutting for character, story, action, comedy and genre is covered citing the work of the top editors of our time. Prereq: Junior standing. Cross-listed with FILM 5350. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 4400 - Advanced Screenwriting**

*Summer 2010 Registration FILM 4400*

This course focuses on creating and refining a feature length dramatic script (90-120 pages). Students will view films, read essays and articles, and analyze styles. They will apply these techniques and use this information to improve their own work. Prereq: FILM 3400 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 4500 - Writing for Episodic Television**

*Summer 2010 Registration FILM 4500*

Explores the constructive and critical process of writing prime-time dramatic television and alternative broadcast platforms. Each student is guided through a series of viewings,
readings, and writing exercises culminating with the written completion of television episodes for an original series. Prereq: FILM 2500 or permission of instructor. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 4600 - Topics in Film**

*Summer 2010 Registration* FILM 4600
Specialized topics in film and video. Prereq: Permission of instructor. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 4840 - Independent Study: FILM**

*Summer 2010 Registration* FILM 4840
**Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 3840 - Applications Seminar**

*Summer 2010 Registration* TFVP 3840
Reflection on the intellectual competencies, artistic capabilities, and skill sets gained throughout student's academic career. Coursework includes investigation and writing on specified topics of industry opportunities to assist career advancement. Designed to be an alternative if Internship is not appropriate. Note: TFVP majors and minors only, or permission of instructor. Prereq: Senior status **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 2530 - Acting: Character and Staging**

*Summer 2010 Registration* THTR 2530
Fully prepared scene studies leading to advance work in characterization and staging. Methods of discovering and utilizing the range of creative potential play scripts from the current production season are emphasized. Prereq: Voice and Movement I (or equivalent), and Performance and Visualization I and II (or equivalent). **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 2560 - Topics in Theatre**

*Summer 2010 Registration* THTR 2560
**Semester Hours:** 1 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.
THTR 2700 - Art for the Theatre

*Summer 2010 Registration THTR 2700*

Students will study principles of theatre and screen productions design. They will do exercises in drawing, sketching, drafting, rendering and model building with practical application towards theatre, film, and video design techniques. Upon completion, student will have a basic production design skills. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 2840 - Independent Study: THTR

*Summer 2010 Registration THTR 2840*

Prereq: Written permission of the supervising instructor. **Semester Hours:** 1 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 3010 - Stage and Production Management

*Summer 2010 Registration THTR 3010*

This is a course that addresses aspects of planning and managing various theatrical events and live performances. Emphasizes maximum results, given the complexity of live performance and the resource pool. Prereq: THTR/FILM 1600 or THTR/FILM 1610 or instructor permission. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 3530 - Acting: Character and Text

*Summer 2010 Registration THTR 3530*

Fully prepared scene studies leading to advance work in characterization and text. Methods of discovering and utilizing the range of creative potential play scripts from the current production program are emphasized. Prereq: THTR/FILM 1611. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 3560 - Topics in Theatre

*Summer 2010 Registration THTR 3560*

Various topics in the study of the theatre of special interest to majors with an emphasis in theatre. **Semester Hours:** 1 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 3720 - Lighting Design

*Summer 2010 Registration THTR 3720*

A practical introduction to the history, theory, practice and equipment for lighting
performing arts productions. Course emphasizes textual analysis for lighting design, basic electricity, lighting equipment and control, safety practices and lighting graphics. Requirements include related experiences with departmental productions. Prereq: THTR/FILM 1100 and THTR 2700 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3730 - Scene Design**

*Summer 2010 Registration THTR 3730*
Introduces the principles and practices of scenic design for the theatre. Emphasizes textual analysis, the aesthetic and practical elements of design, design development and theatrical graphics. Requirements include related experiences working departmental production. Prereq: THTR/FILM 1100 and THTR 2700 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3740 - Costume Design**

*Summer 2010 Registration THTR 3740*
Introduces the principles and practices of costume and make-up design for the theatre. Costume design focuses on basic figure drawing, practical elements of design, design development and different costume rendering techniques. Make-up design encompasses basic and specialty make-up application along with creating life masks. Prereq: THTR 1100 or FILM 1100 and THTR 2700 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3760 - Sound Design for the Theater**

*Summer 2010 Registration THTR 3760*
Studies sound design with practical application towards usage in the theatrical discipline. Includes studio techniques, live playback, script analysis, graphic techniques for sound plots and selection and recording techniques to amplify or otherwise manipulate the performer's voice, recreate sounds as they naturally occur and influence the emotional content of the drama. Prereq: THTR/FILM 1100 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3840 - Independent Study: THTR**

*Summer 2010 Registration THTR 3840*
Prereq: Written permission of supervising instructor. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
THTR 4530 - Acting: Character and Media

Summer 2010 Registration THTR 4530
Provides the study, skill development and workshop experience for the actor in media work-film, television, video and voice over. Prereq: THTR 1611 or FILM 1611. Cross-listed with THTR 5530. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4540 - Directing: Staging and Process

Summer 2010 Registration THTR 4540
Explores the Director’s contemporary staging options, rehearsal processes and production development of text and non-text-based work in the context of traditional as well as experimental approaches to theatricality. Prereq: THTR 1100 or FILM 1100. Cross-listed with THTR 5540. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4550 - Playwriting: The Short Form

Summer 2010 Registration THTR 4550
Writing workshop in one-act plays, with special emphasis on the demands of production: space, acting, staging conventions and techniques. Prereq: A creative writing course or permission of instructor. Cross-listed with THTR 5550. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4560 - Topics in Theatre

Summer 2010 Registration THTR 4560
Various topics in the study of the theatre of special interest to acting majors, with an emphasis in theatre. Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4730 - Advanced Scenic Design

Summer 2010 Registration THTR 4730
Students will continue studies in graphic techniques, design styles and the integration of production design areas. Students will complete projects in scenic design for various production forms. Outcomes will include fully realized design projects with renderings, models and drafting. Prereq: THTR 1100 and 1110. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4760 - Topics in Design
Summer 2010 Registration THTR 4760
A special topics investigation of trends in production design and experimental practices in traditional and non-traditional endeavors. Prereq: THTR 3730 and 4730 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4840 - Independent Study: THTR

Summer 2010 Registration THTR 4840
Prereq: Written permission of supervising instructor. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

____
- Upper-division Film Studies Courses from the English Department (maximum of 6 semester hours)
- Audio Production and Postproduction Music Courses Related to Theatre, Film or Video (maximum of 6 semester hours)

**Total for Film and Theatre Production Emphasis:** 42 hours

**Writing/Directing Emphasis Courses**

**Required Courses**

FILM 2500 - Introduction to Screenwriting for Film and Television

Summer 2010 Registration FILM 2500
Students learn the basic elements of the craft of creating a script for film or television through exercises such as idea generation, characters, and scene setting. TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1550. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 3550 - Directing Process

Summer 2010 Registration TFVP 3550
Students learn professional options and opportunities through a sequence of seminars and project-based workshops presented by directors in film and theatre. These interactions with faculty will influence their work in stage productions or documentary, episodic, and narrative film/television. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100, TFVP 1611, TFVP 2800. **Semester Hours:**
3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 4090 - Senior Seminar & Project**

*Summer 2010 Registration TFVP 4090*
The course integrates the development of four capstone projects (research, creative work, collaborative process and service/outreach) with a continuing forum focused on current issues in professional practice. Note: TFVP majors and minors only, or permission of instructor. Prereq: Senior status in BFA. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 4095 - Senior Thesis Project**

*Summer 2010 Registration TFVP 4095*
The BFA thesis course involves the preparation, exhibition and critical faculty response to creative work and self-promotional materials as developed by graduating seniors on the BFA degree track. Note: TFVP majors and minors only, or permission of instructor. Prereq: Senior status in department. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 4560 - Directors at Work**

*Summer 2010 Registration TFVP 4560*
Through creation and participation on a premiere production of a devised and/or mixed media, performance work in collaboration with faculty and guest professional artists, directing students will sharpen the application of skills and learn aesthetics and structure. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100, TFVP 1611, TFVP 2800, TFVP 3550. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

or

**TFVP 4570 - Directing Practicum**

*Summer 2010 Registration TFVP 4570*
Directing Practicum is professional practice training through a mentored project-based assistantship with a director. During class students will be connected to and assist directors on film and theatre projects, working one on one, to develop their skills. By application only. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100, TFVP 1611. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 3530 - Acting: Character and Text**
**Summer 2010 Registration** **THTR 3530**

Fully prepared scene studies leading to advance work in characterization and text. Methods of discovering and utilizing the range of creative potential play scripts from the current production program are emphasized. Prereq: THTR/FILM 1611. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

- Internship (3 semester hours)
- Two Upper-division Screenwriting Courses (6 semester hours)

**Approved Elective Courses**

Select 15 semester hours from the following:

**FILM 2050 - Film/Video Prod/Post II**

**Summer 2010 Registration** **FILM 2050**

Students create productions using three-chip digital cameras and advanced techniques. Preproduction through post-productivity working with actors, and maximizing production values are stressed. Students employ a range of cinematic techniques to tell stories, convey character state of mind, and communicate information and meaning. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 2060 - Film and Video Lighting and Grip**

**Summer 2010 Registration** **FILM 2060**

Provides an understanding of lighting theory, tools, and techniques for studio and location production. Students use lighting equipment (lights, stands, nets, flags, grids, diffusion, light meters and waveform). The lighting aesthetics addressed in class will influence future work. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 2640 - Introduction to Digital Effects**

**Summer 2010 Registration** **FILM 2640**

Gain skills and awareness of motion graphics in film/video. Communicate ideas using graphic elements and learn the fundamentals of digital effects, animation, compression, and color correction. Students will be able to devise visual strategies to augment their
FILM 3111 - Shooting Action and Physical Effects

Summer 2010 Registration FILM 3111
Examines techniques for shooting action based on the needs of the editor. A workshop for production projects. This course analyzes films, storyboard and shoot projects designed for specific outcomes such as: chase, hand combat and car chases. Prereq: Four college-level courses in film/video production and post-production. (For TFVP majors only) Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 3264 - Advanced Digital Effects

Summer 2010 Registration FILM 3264
Cinematography and Post Productions majors study software and create projects with advanced visual effects. With industry standard techniques in animation, applying compositing, image acquisition and motion graphics. Students will create a variety of projects by the end of the semester. Note: Other majors by permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 3270 - Film/Video Production III

Summer 2010 Registration FILM 3270
Involves the scripting, planning, casting, storyboarding, and production of individual student projects to be shot on film or digital video. Emphasis is on storytelling and professional techniques. Prereq: Six college-level courses in film/video production, postproduction and scriptwriting. For TFVP majors only. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 3275 - Film and Video Postproduction III

Summer 2010 Registration FILM 3275
Students edit the individual projects shot on film or video FILM 3270, using skills from previous classes. Emphasis on outputting a professional quality narrative product with full audio and visual sweetening. Students benefit from longer format and more complex projects. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100, TFVP 2050, FILM 3270. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 3300 - Advanced Lighting for Film and Video
Summer 2010 Registration FILM 3300
Students master film and video set lighting techniques for studio and locations. Focus is on art, technology, methodology, exposure, instruments, rigging and terminology. Prereq: Six college-level courses in film/video production and postproduction. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 3350 - Editing Aesthetics

Summer 2010 Registration FILM 3350
Students study samples of existing films and their own work for artistic and visual merits. Students edit several short films, learn the guidelines for editing and develop the ability to identify the role of rhythm and pacing in films. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 3400 - Intermediate Screenwriting

Summer 2010 Registration FILM 3400
Emphasis is on creating character, conflict and structure through the use of theme, motifs, subplots, and story tone. Students complete the first act and a 25-page feature film treatment or the first draft of a feature-length script. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, FILM 2500. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 4270 - Film and Video Production IV

Summer 2010 Registration FILM 4270
Students work on final production project in a major position such as planning, casting, budgeting, and shooting a final professional quality film or video to be edited in FILM 4280 the following semester. Students use skills from previous complex projects. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100, TFVP 2050, FILM 3270, FILM 3275. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 4280 - Film and Video Postproduction IV

Summer 2010 Registration FILM 4280
Students edit longer format and more complex individual project shot on film or video in FILM 4270, using skills from previous classes and outputting a professional quality product with full audio and visual sweetening. Students benefit from more complex projects. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1050, TFVP 1100, TFVP 2050, FILM 3270, FILM 3275, FILM 4270. Semester Hours:
FILM 4350 - Analysis of Contemporary Motion Picture Editing Techniques

*Summer 2010 Registration FILM 4350*
Focuses on analysis of editing techniques, through viewing of contemporary feature films and episodic television exemplars. The techniques of cutting for character, story, action, comedy and genre is covered citing the work of the top editors of our time. Prereq: Junior standing. Cross-listed with FILM 5350. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 4400 - Advanced Screenwriting

*Summer 2010 Registration FILM 4400*
This course focuses on creating and refining a feature length dramatic script (90-120 pages). Students will view films, read essays and articles, and analyze styles. They will apply these techniques and use this information to improve their own work. Prereq: FILM 3400 or permission of instructor. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 4500 - Writing for Episodic Television

*Summer 2010 Registration FILM 4500*
Explores the constructive and critical process of writing prime-time dramatic television and alternative broadcast platforms. Each student is guided through a series of viewings, readings, and writing exercises culminating with the written completion of television episodes for an original series. Prereq: FILM 2500 or permission of instructor. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 4600 - Topics in Film

*Summer 2010 Registration FILM 4600*
Specialized topics in film and video. Prereq: Permission of instructor. **Semester Hours:** 1to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FILM 4840 - Independent Study: FILM
**Summer 2010 Registration**  
**FILM 4840**  
**Semester Hours:** 1to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 3222 - Theatre, Film & Video Business**

**Summer 2010 Registration**  
**TFVP 3222**  
Students explore and evaluate business issues in film and theatre production such as finance, distribution, organization and legal issues through readings and projects. Students develop a solid business basis for work in these fields. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100.  
**Semester Hours:** 3to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**TFVP 3840 - Applications Seminar**

**Summer 2010 Registration**  
**TFVP 3840**  
Reflection on the intellectual competencies, artistic capabilities, and skill sets gained throughout student's academic career. Coursework includes investigation and writing on specified topics of industry opportunities to assist career advancement. Designed to be an alternative if Internship is not appropriate. Note: TFVP majors and minors only, or permission of instructor. Prereq: Senior status  
**Semester Hours:** 1to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 2530 - Acting: Character and Staging**

**Summer 2010 Registration**  
**THTR 2530**  
Fully prepared scene studies leading to advance work in characterization and staging. Methods of discovering and utilizing the range of creative potential play scripts from the current production season are emphasized. Prereq: Voice and Movement I (or equivalent), and Performance and Visualization I and II (or equivalent).  
**Semester Hours:** 3to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**THTR 2560 - Topics in Theatre**

**Summer 2010 Registration**  
**THTR 2560**  
**Semester Hours:** 1to 6  
Registration is changing. Visit our website for details ucdenver.edu/registration.
THTR 2700 - Art for the Theatre

Summer 2010 Registration THTR 2700
Students will study principles of theatre and screen productions design. They will do exercises in drawing, sketching, drafting, rendering and model building with practical application towards theatre, film, and video design techniques. Upon completion, student will have a basic production design skills. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 2840 - Independent Study: THTR

Summer 2010 Registration THTR 2840
Prereq: Written permission of the supervising instructor. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 3010 - Stage and Production Management

Summer 2010 Registration THTR 3010
This is a course that addresses aspects of planning and managing various theatrical events and live performances. Emphasizes maximum results, given the complexity of live performance and the resource pool. Prereq: THTR/FILM 1600 or THTR/FILM 1610 or instructor permission. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 3560 - Topics in Theatre

Summer 2010 Registration THTR 3560
Various topics in the study of the theatre of special interest to majors with an emphasis in theatre. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 3720 - Lighting Design

Summer 2010 Registration THTR 3720
A practical introduction to the history, theory, practice and equipment for lighting performing arts productions. Course emphasizes textual analysis for lighting design, basic electricity, lighting equipment and control, safety practices and lighting graphics. Requirements include related experiences with departmental productions. Prereq: THTR/FILM 1100 and THTR 2700 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 3730 - Scene Design
Summer 2010 Registration THTR 3730
Introduces the principles and practices of scenic design for the theatre. Emphasizes textual analysis, the aesthetic and practical elements of design, design development and theatrical graphics. Requirements include related experiences working departmental production. Prereq: THTR/FILM 1100 and THTR 2700 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 3740 - Costume Design

Summer 2010 Registration THTR 3740
Introduces the principles and practices of costume and make-up design for the theatre. Costume design focuses on basic figure drawing, practical elements of design, design development and different costume rendering techniques. Make-up design encompasses basic and specialty make-up application along with creating life masks. Prereq: THTR 1100 or FILM 1100 and THTR 2700 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 3760 - Sound Design for the Theater

Summer 2010 Registration THTR 3760
Studies sound design with practical application towards usage in the theatrical discipline. Includes studio techniques, live playback, script analysis, graphic techniques for sound plots and selection and recording techniques to amplify or otherwise manipulate the performer's voice, recreate sounds as they naturally occur and influence the emotional content of the drama. Prereq: THTR/FILM 1100 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Summer 2010 Registration THTR 3840
Prereq: Written permission of supervising instructor. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4530 - Acting: Character and Media

Summer 2010 Registration THTR 4530
Provides the study, skill development and workshop experience for the actor in media work-film, television, video and voice over. Prereq: THTR 1611 or FILM 1611. Cross-listed with THTR 5530. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
THTR 4540 - Directing: Staging and Process

Summer 2010 Registration THTR 4540
Explores the Director's contemporary staging options, rehearsal processes and production development of text and non-text-based work in the context of traditional as well as experimental approaches to theatricality. Prereq: THTR 1100 or FILM 1100. Cross-listed with THTR 5540. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4550 - Playwriting: The Short Form

Summer 2010 Registration THTR 4550
Writing workshop in one-act plays, with special emphasis on the demands of production: space, acting, staging conventions and techniques. Prereq: A creative writing course or permission of instructor. Cross-listed with THTR 5550. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4560 - Topics in Theatre

Summer 2010 Registration THTR 4560
Various topics in the study of the theatre of special interest to acting majors, with an emphasis in theatre. Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4730 - Advanced Scenic Design

Summer 2010 Registration THTR 4730
Students will continue studies in graphic techniques, design styles and the integration of production design areas. Students will complete projects in scenic design for various production forms. Outcomes will include fully realized design projects with renderings, models and drafting. Prereq: THTR 1100 and 1110. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4760 - Topics in Design

Summer 2010 Registration THTR 4760
A special topics investigation of trends in production design and experimental practices in traditional and non-traditional endeavors. Prereq: THTR 3730 and 4730 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4840 - Independent Study: THTR
Prereq: Written permission of supervising instructor. **Semester Hours:** 1 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Upper-division Film Studies Courses from the English Department**
(maximum of 6 semester hours)

**Audio Production and Postproduction Music Courses Related to Theatre, Film or Video** (maximum of 6 semester hours)

Total for Writing/Directing Emphasis: 42 Hours

Undergraduate Minors

Anthropology Minor

A minimum of 18 semester hours in anthropology must be completed with an average of C (2.0) or better. Nine of the 18 hours must be upper division and 9 hours must be taken from Downtown Campus faculty.

Program Requirements

Required Courses

Choose a minimum of three courses from the following:

**ANTH 1302 - Introduction to Archaeology**

*Summer 2010 Registration ANTH 1302*

Introduces the study of past cultures and their environments. Emphasis is on the scientific method, aspects of research design and analytical techniques used by archaeologists to determine chronology, taphonomy, source production areas, exchange networks, and human-environment interactions. Note: Three hours of lecture and a two-hour lab each week. **Semester Hours:** 4 to 4

**GT Pathways Category Key:** GT-SS3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 1303 - Introduction to Biological Anthropology**

*Summer 2010 Registration ANTH 1303*

Introduces the study of human biological evolution, both processes and outcomes, from primate ancestors to fossil hominids to contemporary human populations. Methods of obtaining and interpreting data concerning the genetic, biological and evolutionary basis of physical variation in living and skeletal populations. Note: 3 hours of lecture and a 2
hour lab each week. **Semester Hours:** 4

**GT Pathways Category Key:** GT-SC1

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 2102 - Culture and the Human Experience**

*Summer 2010 Registration ANTH 2102*

An application of the concept of culture to several aspects of the human experience, including gender relations, emotion and personality, cognition, language, health and healing and economic behavior. In exploring these dimensions of the human experience, the course focuses on selected cultures from each of the world's major geographic areas. **Semester Hours:** 3

**GT Pathways Category Key:** GT-SS3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 3101 - Foundations of Cultural Anthropology**

*Summer 2010 Registration ANTH 3101*

Covers current theories in cultural anthropology and discusses the nature of field work. Major schools of thought and actual field studies are explored with an emphasis on anthropological data gathering, analysis and writing. Prereq: Introductory course in cultural anthropology. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 3121 - Language and Communication**

*Summer 2010 Registration ANTH 3121*

Definitions of language and communication and their relationship to human behavior, thought and culture. The classification of languages, linguistic universals, language acquisition, multilingualism, and nonhuman communication, with consideration of the evolutionary implications of such studies. Prereq: Introductory course in cultural anthropology. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 3301 - World Prehistory**

*Summer 2010 Registration ANTH 3301*

Explores of 3.5 million years of human cultural development that examines the prehistory of Africa, Asia, Europe and the Americas. Patterns and processes that underlie the earliest hominin expansion out of Africa, tool use, origins of fire, the peopling of the Americas, the development of metallurgy, the domestication of plants and animals and the rise of cities and the state are examined. Emphasis is on both regional developments and landmark projects that have helped clarify prehistory. Prereq: Introductory course in archaeology. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
ANTH 3512 - Human Evolution

Summer 2010 Registration ANTH 3512
Provides an overview of the fossil and archaeological evidence for human origins. Theory and method in paleoanthropology is emphasized. The goal is to outline current knowledge of human biological evolution and the lifeways of our evolutionary relatives. Prereq: ANTH 1303. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 9-11 Hours

Elective Courses

Total: 7-9 Hours

Minor total: 18 Hours

Art History Minor

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177.

Students may transfer up to 6 semester hours of non-UC Denver courses toward a minor. All other courses must be taken at UC Denver. Each course must be completed with a C/2.0 or better. Students pursuing a BA or BFA in fine arts may use up to 6 semester hours to fulfill major and minor requirements; the remaining semester hours must be taken in addition to the major requirements. Students pursuing a major in art history may not pursue a minor in art history. Consult a CAM advisor for further details.

Program Requirements

FINE 2600 - History of Art I (Survey)

Summer 2010 Registration F A 2600
(This course is an approved Colorado Statewide Guaranteed Transfer Course). Overview of various cultures of humankind from cave painting to the Renaissance. Semester Hours: 3to 3 GT Pathways Category Key: GT-AH1
Registration is changing. Visit our website for details ucdenver.edu/registration.
FINE 2610 - History of Art II (Survey)

Summer 2010 Registration F A 2610
Survey of various cultures of humankind from the Renaissance to the present. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

- Upper-division Art History Electives (9 semester hours)
- Studio Arts Elective (3 semester hours)

Total: 18 Hours

Astrophysics Minor

Astrophysics is an important and well-represented subdiscipline of physics. It includes the study of the solar system, galactic and extra-galactic astrophysics, as well as cosmology. A minor in this field combines a theoretical approach with observational analysis. There is also opportunity to do research in this field.

While the Department of Physics offers minors in both physics and astrophysics, it is not possible to receive minors in both fields. Physics majors may elect to receive only the astrophysics minor from the department.

The astrophysics minor requires a total of 17 semester hours, in which no grade below a C (2.0) may be used to meet the requirements for the minor. At least 6 semester hours taken for the minor must be completed at the Downtown Campus. Requirements for the minor in astrophysics may be used to fulfill the requirements of the major in physics. However, a student majoring in physics who wants to minor in astrophysics needs to take 15 semester hours in astrophysics that do not overlap with the major.

Program Requirements

Required Physics Courses:

PHYS 1052 - General Astronomy I

Summer 2010 Registration PHYS 1052
The history of astronomy is studied from early civilizations to the present. The basic motions of the earth, moon, sun, and planets are discussed both qualitatively and quantitatively, using elementary principles of physics. Properties of our solar system are discussed in detail, including results from unmanned space probes. Note: An additional
30 hours of laboratory work (at times to be arranged), plus appropriate report preparation time, are required to complete laboratory component of the course. Prereq: High school algebra or equivalent. **Semester Hours:** 4 to 4 **GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Either of the following two sequences:**

**PHYS 2010 - College Physics I**

*Summer 2010 Registration PHYS 2010*
(This course is an approved Colorado Statewide Guaranteed Transfer Course). Mechanics, heat and sound. Prereq: College algebra and trigonometry. **Semester Hours:** 4 to 4 **GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2020 - College Physics II**

*Summer 2010 Registration PHYS 2020*
Electricity, magnetism, light and modern physics. Prereq: PHYS 2010. **Semester Hours:** 4 to 4 **GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2030 - College Physics Lab I**

*Summer 2010 Registration PHYS 2030*
**Semester Hours:** 1 to 1 **GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2040 - College Physics Lab II**

*Summer 2010 Registration PHYS 2040*
Prereq: PHYS 2030. **Semester Hours:** 1 to 1 **GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Sequence Total: 10 Hours**

-OR-

**PHYS 2311 - General Physics I: Calculus-Based**

*Summer 2010 Registration PHYS 2311*
Covers vector displacement, uniform and accelerated motion, force, momentum, energy, rotating systems, oscillations, and an introduction to thermodynamics. Emphasis is on
basic principles. Coreq: MATH 1401. **Semester Hours:** 4to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2321 - General Physics Lab I**

*Summer 2010 Registration PHYS 2321*

**Semester Hours:** 1to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2331 - General Physics II: Calculus-Based**

*Summer 2010 Registration PHYS 2331*
Covers electrostatics, magnetic fields, electromagnetic waves (including light), and optics. Prereq: PHYS 2311. Coreq: MATH 2411. **Semester Hours:** 4to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 2341 - General Physics Lab II**

*Summer 2010 Registration PHYS 2341*
Prereq: PHYS 2321. **Semester Hours:** 1to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Sequence Total:** 10 Hours

**Elective Physics Courses**

Choose one:

**GEOL 1302 - Introduction to Astrogeology**

*Summer 2010 Registration GEOL 1302*
Surveys the geology of the planets and their environments in space, including the origin and destiny of the universe. Intended for non-majors, the course provides an introduction to the geological origin, evolution, structure, and geomorphology of the planets. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHYS 3040 - Modern Cosmology**

*Summer 2010 Registration PHYS 3040*
Designed for non-majors, covering the large-scale structure of the universe. Topics covered are gravitational concepts, neutron stars, pulsars, black holes, big bang universe and cosmological tests. Prereq: PHYS 2010 or equivalent. **Semester Hours:**
PHYS 3050 - General Astronomy II

Summer 2010 Registration PHYS 3050
Evolution of our sun and other stars is studied, as well as the methods used to gain the information. Discussion includes objects such as neutron stars, novae and supernovae, and black holes. Large-scale structures, including clusters and galaxies, are studied. Prereq: PHYS 1052, 2010 or 2311. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 3060 - Astronomical Image Processing Lab

Summer 2010 Registration PHYS 3060
Techniques in digital image processing. Emphasis on data reduction of astronomical images, processed and reduced on the department's own computer and software platform. Exercise and project oriented. Prereq: MATH 2411 or PHYS 2811 or 1052 and PHYS 2020. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 3840 - Independent Study: PHYS

Summer 2010 Registration PHYS 3840
Note: Students must check with a faculty member before taking this course. Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 3939 - Internship/Cooperative Education

Summer 2010 Registration PHYS 3939
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 4840 - Independent Study: PHYS

Summer 2010 Registration PHYS 4840
Note: Students must check with a faculty member before taking this course. Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PHYS 4920 - Advanced Undergraduate Seminar

Summer 2010 Registration PHYS 4920
Studies a focused topic such as: size and age of the universe, critical phenomena, non-linear optics, energy, fiber-optic communications, among others. Students research these topics and give a seminar outlining their findings. Prereq: PHYS 2811 or permission of instructor. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 4931 - Internship in Applied Physics

Summer 2010 Registration PHYS 4931
Lab experience at major federal and industrial laboratories; an alternative means by which senior physics students complete their senior lab requirement. Note: To be taken in lieu of PHYS 4711 and/or 4721. Prereq: PHYS 3721. **Semester Hours:** 2 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 4980 - Advanced Physics Topics

Summer 2010 Registration PHYS 4980
Covers a particular topic, as announced in the 'Schedule Planner.' Note: May be taken more than once for credit in different topics. Prereq: PHYS 2811. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 3 Hours

**Minor Total:** 17 Hours

*Topics in these classes vary. See departmental advisor for approval.

**Biology Minor**

For a biology minor, students must complete all biology core requirements (22 hours), of which a minimum of 9 hours must be completed in residence on the UC Denver Downtown Campus. The minimum grade in each UC Denver course is **C-** (1.7); however, a GPA of 2.5 is required in biology courses taken at UC Denver to complete the minor. In addition, students must complete one year of general chemistry including laboratory with a grade of **C-** (1.7) or higher.

**Course Requirements**
BIOL 2051 - General Biology I

*Summer 2010 Registration BIOL 2051*
Introduces four major areas of study: (1) the chemistry of biological systems; (2) the structure and function of the cell; (3) cellular energy transformations (photosynthesis and respiration); and (4) genetics (mitosis, meiosis, patterns of inheritance, molecular genetics). Note: Biology and health science (pre-med, pre-vet, pre-physical therapy, etc.) majors must also take the accompanying laboratory - BIOL 2071. Prereq: CHEM 1000 or high school chemistry required. **Semester Hours: 3**
**GT Pathways Category Key: GT-SC1**
Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 2071 - General Biology Laboratory I

*Summer 2010 Registration BIOL 2071*
Introduces the basic scientific approach and report preparation through exercises and experiments in cell biology, basic biochemical techniques, genetics, molecular genetics and applications of biotechnology. Note: Exercises corresponding to topics in BIOL 2051. Coreq: BIOL 2051. **Semester Hours: 1**
**GT Pathways Category Key: GT-SC1**
Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 2061 - General Biology II

*Summer 2010 Registration BIOL 2061*
This course is a continuation of BIOL 2051. Introduces four major areas of study: (1) evolution, (2) animal structure and function, (3) plant structure and function and (4) ecology. Note: Biology and health science (pre-med, pre-vet, nursing, etc.) majors must also take the accompanying laboratory - BIOL 2081. Prereq: BIOL 2051 or equivalent with a grade of "C" (2.0) or higher. **Semester Hours: 3**
**GT Pathways Category Key: GT-SC1**
Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 2081 - General Biology Laboratory II

*Summer 2010 Registration BIOL 2081*
Study of evolution, plant and animal anatomy, developmental biology; includes two off-campus ecology field trips. Note: Exercises corresponding to topics in BIOL 2061. Prereq: BIOL 2071 or equivalent with a grade of "C" (2.0) or higher; Coreq: BIOL 2061. **Semester Hours: 1**
**GT Pathways Category Key: GT-SC1**
Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 3411 - Principles of Ecology
**BIOL 3411**
A lecture course that examines the interrelationships between organisms and their environments. Subject matter includes organism, population and ecosystem levels of study and application to current environmental issues. The emphasis is on the underlying principles of ecology that involve all types of organisms. Note: Satisfies core ecology requirement for biology major. May not be used as upper division biology elective. No co-credit with BIOL 3412. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**BIOL 3412 - Fundamentals of Applied Ecology**

**Summer 2010 Registration BIOL 3412**
Ecology is the science of interrelationships between organisms, including humans and their environment. This lecture course examines applications of ecological principles to human needs and environmental protection. Covers the ecology of humans and managed systems. Note: Satisfies core ecology requirement for biology major. May not be used as upper division biology elective. No co-credit with BIOL 3411. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3611 - General Cell Biology**

**Summer 2010 Registration BIOL 3611**
Covers the structure and function of the cell including bioenergetics, membranes, secretion, respiration and the cell cycle. Prereq: One year of general biology with a grade of "C" (2.0) or higher and one year of general chemistry. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3832 - General Genetics**

**Summer 2010 Registration BIOL 3832**
Introduces molecular, classical, developmental and population genetics. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**One of the following structure/function courses:**

**BIOL 3225 - Human Physiology**

**Summer 2010 Registration BIOL 3225**
The basic orientation of the course is toward understanding the functioning of the body as a set of homeostatic mechanisms. Particular emphasis is placed on membrane
potentials, muscle, circulation, respiration, digestion, the kidney, the control of metabolism and acid-based balance. Prereq: One year of general biology, general cell biology and one year of chemistry with grades of 'C' (2.0) or higher. **Semester Hours:** 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3244 - Human Anatomy**

*Summer 2010 Registration BIOL 3244*
Introduces the structural aspects of the human body. Anatomical models, microscope slides and dissections, including human cadavers are used in the lab. Prereq: one year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3654 - General Microbiology**

*Summer 2010 Registration BIOL 3654*
Covers all aspects of the biology of microorganisms: their cellular structures and function, growth and metabolism, general and molecular genetics, diversity and interactions with other organisms and the environment (ecology). The objective is to provide students with a thorough introduction to microbiology including basic microbiological laboratory techniques. Note: General cell biology or general genetics is recommended. Prereq: One year of general biology and one year of general chemistry with grades of "C" (2.0) or higher. **Semester Hours:** 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 4335 - Plant Science**

*Summer 2010 Registration BIOL 4335*
Lecture, lab and field trips. An in-depth study of flowering plants, including embryology, structure, function, reproduction, ecology and evolution of the group. Emphasis is placed upon morphology and anatomy at all stages of plant development. Prereq: One year of general biology with a grade of "C" (2.0) or higher. Cross-listed with BIOL 5335. **Semester Hours:** 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Ancillary chemistry courses:**

**CHEM 2031 - General Chemistry I**

*Summer 2010 Registration CHEM 2031*
Topics include chemical structure, atomic and molecular properties, molecular geometry
and bonding, and gas laws. Prepares students to take upper division chemistry courses. Note: a beginning course for science majors, medical technologists, pre-medical and pre-dental students. Prereq: One year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent); Coreq: CHEM 2038. **Semester Hours:** 3 to 3 GT **Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 2038 - General Chemistry Laboratory I**

*Summer 2010 Registration CHEM 2038*
Students perform laboratory experiments on topics covered in CHEM 2031 and gain experience in observing, recording, and interpreting physical and chemical phenomena. Note: Laboratory to accompany CHEM 2031. Coreq: CHEM 2031. **Semester Hours:** 1 to 1 GT **Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 2061 - General Chemistry II**

*Summer 2010 Registration CHEM 2061*
(Continuation of CHEM 2031.) Topics include kinetics, equilibria and thermodynamics. Prereq: CHEM 2031; Coreq: CHEM 2068. **Semester Hours:** 3 to 3 GT **Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 2068 - General Chemistry Laboratory II**

*Summer 2010 Registration CHEM 2068*
Students gain experience with laboratory technique and elementary chemical instrumentation. Note: Laboratory to accompany CHEM 2061 and a continuation of CHEM 2038. Prereq: CHEM 2038; Coreq: CHEM 2061. **Semester Hours:** 2 to 2 GT **Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Minor Total: 31 Hours**

**Business Administration Minor**

Students in other undergraduate schools and colleges at the Downtown Campus wishing to take a minor in business administration must have a 2.0 GPA to enter as a business minor plus a 2.0 GPA in business courses.
Prerequisites

ISMG 2050 - Introduction to Business Problem Solving

Summer 2010 Registration ISMG 2050
Focuses on the technology and problem solving skills necessary for students to succeed both at school and in the business world. Focuses on business decision making using spreadsheets, database and web tools. Students solve problems in statistics, accounting, finance, marketing, management and information systems. The objective is to provide problem solving methods necessary for students to succeed in the business community. This is a business core course therefore a grade of a 'C' or better must be earned to satisfy Business graduation and prerequisites for other business courses. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 1070 - Algebra for Social Sciences and Business

Summer 2010 Registration MATH 1070
Topics in algebra designed for students who intend to take business calculus. Functions, graphs, scatter plots, curve-fitting, solving systems of equations, polynomial and rational functions, and selected other topics. Note: Graphics calculator required. No co-credit with MATH 1110 or MATH 1130. Prereq: intermediate algebra and satisfactory score on the placement exam. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 1110 - College Algebra

Summer 2010 Registration MATH 1110
Topics in algebra designed for students who intend to take the calculus sequence. Functions, domains, ranges, graphs, data scatter plots and curve fitting, solving equations and systems of equations, polynomial functions, rational functions, and selected other topics. Graphic calculators and/or computer algebra systems are used extensively. Applications are emphasized. Note: No co-credit with either MATH 1070 or 1130. Prereq: intermediate algebra and satisfactory score on the placement exam. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 1080 - Polynomial Calculus

Summer 2010 Registration MATH 1080
A one-semester course in single-variable calculus. Topics include limits, derivatives, differentiation rules, integration and integration rules. Emphasis is on applications to business and social sciences. Note: No knowledge of trigonometry is required. Those planning to take more than one semester of calculus should take MATH 1401 instead of
MATH 1080. Prereq: MATH 1070 or 1110. No co-credit with MATH 1401. **Semester Hours:** 3 to 3  
**GT Pathways Category Key:** GT-MA1  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**DSCI 2010 - Business Statistics**

*Summer 2010 Registration DSCI 2010*

Basic principles of probability and statistics with applications in business. Includes descriptive statistics, probability and probability distributions, data collection, sampling distributions, statistical inference, simple regression and the use of a computer to perform statistical analysis. Students are required to present their analyses in written and/or oral form and defend their conclusions. This is a business core course. Therefore a grade of a 'C' or better must be earned to satisfy Business graduation requirements and prerequisites for other business courses. Prereq: MATH 1070, MATH 1080, and computer literacy (working knowledge of basic operating system and file manipulation commands, email, the world-wide web, a word processing package and spreadsheets). **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.  
  
**ECON 2022 - Principles of Economics: Microeconomics**

*Summer 2010 Registration ECON 2022*

Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022. **Semester Hours:** 3 to 3  
**GT Pathways Category Key:** GT-SS1  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Required Courses**

**MGMT 1000 - Introduction to Business**

*Summer 2010 Registration MGMT 1000*

This course will introduce students to the nature and role of business in our society. Problems confronting business are surveyed from a management, financial, economic and marketing viewpoint. Career opportunities in business are also considered. Students are advised to take this course during their freshman year and may not take it in the junior or senior years. Prereq: Open to freshman and sophomores, non-degree students and music majors at all levels. **Semester Hours:** 3 to 3  
**When Offered:** FASPRSUM  
Registration is changing. Visit our website for details ucdenver.edu/registration.
ACCT 2200 - Financial Accounting and Financial Statement Analysis

Summer 2010 Registration ACCT 2200
The financial accounting process, the role of the profession and the analysis of financial statements. Principal focus on interpretation of financial statements, with emphasis on asset and liability valuation problems and the determination of net income. Prereq: MATH 1070 and sophomore standing. A grade of 'C' or better is required in this course to proceed to ACCT 2220.
Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

BLAW 3000 - Legal and Ethical Environments of Business I

Summer 2010 Registration BLAW 3000
Addresses the most fundamental ways the legal and ethical environments of business affect managers. Students are taught to identify legal issues, make ethical judgments about business conduct, and understand the ways ethical and social issues are developed. Topics include actual analysis of legal and ethical issues, ethical theory and its application, law-making processes, contracts, torts, product liability, criminal law, constitutional law and real property. This is a business core course therefore a grade of "C" or better must be earned to satisfy Business graduation requirements and prerequisites for other business courses. Prereq: Junior Standing.
Semester Hours: 3 to 3
When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

MKTG 3000 - Principles of Marketing

Summer 2010 Registration MKTG 3000
Focuses on the basic marketing concepts of Buyer Behavior, Marketing Research, Marketing Planning and Implementation and the marketing process of product, price, distribution and promotion. This is a business core course therefore a grade of a 'C' or better must be earned to satisfy graduation requirements. Prereq: Junior standing.
Semester Hours: 3 to 3
When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

FNCE 3000 - Principles of Finance

Summer 2010 Registration FNCE 3000
This course provides an introduction to financial markets and institutions, interest rates and the time value of money, principles of security valuation, concepts of risk and return, costs of capital and capital budgeting. Note: This course is required in the Business Core. A grade of 'C' or better must be earned to receive credit as a core course and to take subsequent courses for which it is a prerequisite. Prereq: MATH 1070 or MATH 1080 and MATH 1110 and DSCI 2010, ACCT 2200, ECON 2012, ECON 2022 and junior
standing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 3000 - Managing Individuals and Teams**

**Summer 2010 Registration MGMT 3000**
Focuses on helping students understand how to manage individuals and groups effectively. Students are encouraged to know themselves better and how their behavior affects how they deal with organizational situations; they also learn how individuals differ and how to design, manage and work in a team. This is a business core course therefore a grade of a 'c' or better must be earned to satisfy graduation requirements.
Prereq: Junior standing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Twelve of these 18 hours must be taken while in residence at the Downtown Campus. If the student has already taken the equivalent of one or more of these courses, other higher-level business courses may be substituted with Business School approval. Up to 6 hours of the 18 required business courses may be taken at another institution. Transfer credit will be granted on the same basis that transfer credit is granted for courses taken by business majors.

**Chemistry Minor**

The objective of the chemistry minor is to provide broad introductory course work and laboratory experience to science majors without the more technical mathematical and chemical prerequisites required of the chemistry major. The chemistry minor is open to all CLAS students and should prove beneficial for science majors, pre-professional health science majors and students seeking science education certification.

Course work and grade requirements that must be satisfied to obtain a chemistry minor include:

- a minimum of 20 semester hours of chemistry courses
- a minimum of 10 upper-division chemistry hours
- upper-division course work must include three of the six subdisciplines that comprise chemistry: analytical, biochemistry, inorganic, organic, physical and environmental chemistry
- a minimum 2.0 GPA for chemistry courses taken at UC Denver
- all chemistry minor courses must be taken for a letter grade rather than with the pass/fail grading option
- to satisfy the department residency requirement, a minimum of 7 upper-division hours of chemistry must be taken at the Downtown Campus
Course Requirements

All upper division chemistry courses at UC Denver will satisfy course work requirements for the minor. Furthermore, the Department of Chemistry offers courses that have minimum chemistry and mathematics prerequisites and should be considered for the chemistry minor degree.

Analytical

CHEM 3111 - Analytical Chemistry

*Summer 2010 Registration CHEM 3111*

Topics include sampling, volumetric analyses, instrumental analyses and statistical treatment of data. Note: Lecture course for chemistry, biology, medical technology and environmental students. Prereq: CHEM 2061. **Semester Hours:** 3to 3 **When Offered:** FALL

Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 3118 - Analytical Chemistry Laboratory

*Summer 2010 Registration CHEM 3118*

Students gain experience with technique of sampling and analysis, including an introduction to instrumental methods. Note: Laboratory course to be taken concurrently with CHEM 3111. Prereq: CHEM 2068; Coreq: CHEM 3111. **Semester Hours:** 2to 2 **When Offered:** FALL

Registration is changing. Visit our website for details ucdenver.edu/registration.

Biochemistry

CHEM 3810 - Biochemistry

*Summer 2010 Registration CHEM 3810*

Introduces the principles of biochemistry for science and health science-oriented majors. Designed to cover the important aspects of modern biochemistry. Prereq: BIOL 2061 and CHEM 3411. **Semester Hours:** 4to 4

Registration is changing. Visit our website for details ucdenver.edu/registration.
Organic

CHEM 3411 - Organic Chemistry I

Summer 2010 Registration CHEM 3411
Lecture course designed to introduce the study of structure, reactions, properties, and mechanisms of organic molecules. Prereq: CHEM 2061. Semester Hours: 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 3418 - Organic Chemistry Laboratory I

Summer 2010 Registration CHEM 3418
Laboratory course to augment concepts of CHEM 3411, illustrating the practical aspects of organic chemistry. Prereq: CHEM 2068; Prereq or Coreq: CHEM 3411. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 3421 - Organic Chemistry II

Summer 2010 Registration CHEM 3421
Lecture course designed to introduce the study of structure, reaction, properties and mechanisms of organic molecules. Note: Continuation of CHEM 3411. Prereq: CHEM 3411. Semester Hours: 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 3428 - Organic Chemistry Laboratory II

Summer 2010 Registration CHEM 3428
Laboratory course to augment concepts of CHEM 3421, illustrating the practical aspects of organic chemistry. Prereq: CHEM 3418; Prereq or Coreq: CHEM 3421. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 3498 - Honors Organic Chemistry Laboratory II

Summer 2010 Registration CHEM 3498
In small groups, students use the chemical literature to devise multi-step syntheses and determine reaction mechanisms for organic compounds. Note: Laboratory course required for chemistry majors. Open to non-majors on approval of the instructor. Prereq or Coreq: CHEM 3491. Semester Hours: 2 to 2
Registration is changing. Visit our website for details ucdenver.edu/registration.
Inorganic

CHEM 3011 - Inorganic Chemistry

Summer 2010 Registration CHEM 3011
The fundamentals of inorganic chemistry, including: atomic, molecular and crystal structures; the energetics of reactions, acid-base interactions; and the chemistry of main group and transition metal elements, including coordination and organometallic chemistry. Prereq or Coreq: CHEM 3421 or 3491. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Physical

Course selections to be announced.

Environmental

CHEM 4700 - Environmental Chemistry

Summer 2010 Registration CHEM 4700
A discussion of the sources, reactions, transport, effects, and fates of chemical species in the water, soil, and air environments. Prereq: CHEM 3111 or 3411. Cross-listed with CHEM 5700. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

To register your minor in chemistry, please visit the CLAS advising office in NC 4002. After establishing your minor status, you are encouraged to meet with the chemistry minor advisor, Professor Mark Anderson in NC 3002C.

Chinese Studies Minor

The minor requires a total of 21 semester hours. A minimum of 15 semester hours must be taken from Downtown Campus faculty. All courses must be completed with a grade of C (2.0) or better.

Requirements for the Minor

Required Courses
**CHIN 1010 - Beginning Chinese I**

*Summer 2010 Registration CHIN 1010*
A basic introduction to Chinese language and culture. Students study pronunciation, vocabulary, grammar and simple writing techniques. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. No previous study of Chinese is required.  
**Semester Hours:** 5 to 5
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHIN 1020 - Beginning Chinese II**

*Summer 2010 Registration CHIN 1020*
(Continuation of CHIN 1010.) Further practice of pronunciation, study of vocabulary, grammar, and simple writing techniques. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: CHIN 1010. **Semester Hours:** 5 to 5
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CNST 1000 - China and the Chinese**

*Summer 2010 Registration CNST 1000*
A multidisciplinary introduction to Chinese society both past and present. Prehistory, birth of imperial China, literature, philosophy, religion, nationalism, revolution, modernization, contemporary life, social structure, gender, food, family life, population policy, ethnicity, popular culture, economics and politics. Note: This course is taught in English. **Semester Hours:** 3 to 3
**GT Pathways Category Key:** GT-AH1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 13 Hours**

*Note: CNST 1000 should be taken toward the beginning of the minor.*

**Additional Courses**

An additional 8 hours of course work should be selected from the following list of courses:
ANTH 4000 - Special Topics in Anthropology

Summer 2010 Registration ANTH 4000
Designed to give students a chance to evaluate critically some practical or theoretical problem under faculty supervision and to present results of their thinking to fellow students and instructors for critical evaluation. Prereq: Permission of instructor. Cross-listed with ANTH 5000. Semester Hours: 1 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 4995 - Travel Study

Summer 2010 Registration ANTH 4995
A flexible format that permits courses to be taught in various areas of the world. Cultures of the Himalayas. Concerned broadly with contemporary Himalayan culture. Focuses on Tibetan cultures and the Tibetan diaspora, and the Nepalese (Newari) culture of the Katmandu Valley. The goals for this course are: to acquaint the student with social, political and cultural features of this part of the world; to teach, through directed field experiences, how cultural anthropology is practiced; to understand how the process of tourism differs from the study of anthropology; how tourism, however it is practiced, changes in fundamental ways those subject to it. The Arts of Self and Society in Contemporary China. An intensive introduction to contemporary conditions and issues in the People’s Republic of China, including social relations, popular culture, eating practices, religious practices and everyday life. Uses a combination of readings, lectures, field trips to local sites and ethnographic field projects. Usually situated in Kunming, Yunnan province, in southwest China, but the location may vary. Note: Students enroll additionally in Chinese language classes at levels from beginning to advanced. Prereq: Permission of instructor. Cross-listed with ANTH 5995. Semester Hours: 3 to 9
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHIN 2110 - Second Year Chinese I

Summer 2010 Registration CHIN 2110
Continuing development of listening, speaking, reading, and writing skills in practical Chinese, with grammar review and introduction of the Chinese dictionary. In addition to contemporary Chinese, there is some emphasis on Chinese classical materials, such as proverbs. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: CHIN 1020. Semester Hours: 5 to 5
Registration is changing. Visit our website for details ucdenver.edu/registration.
CHIN 2120 - Second Year Chinese II

Summer 2010 Registration CHIN 2120  
(Continuation of CHIN 2110.) Satisfies the fourth semester language requirement at most graduate schools. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: CHIN 2110.  
Semester Hours: 5
  
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 4750 - Arts of China

Summer 2010 Registration F A 4750  
Surveys Chinese painting, sculpture, and architecture from the Neolithic period through the present era, including the art of Tibet. Prereq: FINE 2600 or 2610. Cross-listed with FINE 5750.  
Semester Hours: 3
  
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 3160 - Geography of China

Summer 2010 Registration GEOG 3160  
Geographic survey of the physical, cultural, and economic features characterizing the geography of China.  
Semester Hours: 3
  
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4420 - Traditional China: China to 1600

Summer 2010 Registration HIST 4420  
A general introduction to the history of China from the advent of historic civilization to the point of the great encounter with the West. Cross-listed with HIST 5420.  
Semester Hours: 3
  
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4421 - Modern China

Summer 2010 Registration HIST 4421  
Surveys Chinese history in the modern era. Includes examination of Western domination of China; revolution and internal fragmentation of China; Japanese attacks and World War II; and civil war and the communist revolution. Cross-listed with HIST
Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4186 - East Asia in World Affairs**

*Summer 2010 Registration PSC 4186*
Political and economic systems and foreign policies of East Asian powers, such as China, Japan, Taiwan, South Korea, and Hong Kong; interactions of these powers and their collective economic and political roles in world affairs; major theoretical approaches to the study of East Asian powers. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4615 - Politics and Government of China**

*Summer 2010 Registration PSC 4615*
Political and governmental changes within China, from the 19th century to the present. Primary emphasis on contemporary political systems and sociopolitical problems. China's struggle for independence and economic development. The Chinese revolutions, Maoist communism, and the post-Maoist period. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4726 - Russian and Chinese Foreign Policy**

*Summer 2010 Registration PSC 4726*
Foreign policies of Russia and China; relations with Western powers and the Third World; interaction of domestic developments and foreign policy; role of national interest, ideology, and elite personalities. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4995 - Travel Study Topics**

*Summer 2010 Registration PSC 4995*
Students study various topics at an off-campus location, either a foreign country or another city or region in the United States, led by a Downtown Denver Campus instructor. Prereq: PSCI 1001 or 3022 or permission of instructor. Cross-listed with PSCI 5995. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Take under the topic title, "Window on China," for 3 semester hours.
PHIL 3666 - Asian Philosophies and Religions

Summer 2010 Registration PHIL 3666

We in the Western world encounter a vastly different world, a radically different "universe of meaning," when we examine the traditions of the East. Even what we tacitly assume to be "real" is claimed by the Hindus and Buddhists of India to be a grand illusion. The world of China is, again, very different from India. An examination of Tibetan and Japanese religious forms will conclude our study of Asian thought. Cross-listed with RLST 3400. Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

PHIL 3981 - Chinese Philosophy and Culture

Summer 2010 Registration PHIL 3981

China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools, including Confucianism, Taoism, Mohism, Legalis, Chinese "logic," and the later schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with RLST 3660. Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 8 Hours

Minor Total: 21 Hours

* New courses may not appear in the course description section of this catalog. Contact the department for further information.

Communication Minor

Knowledge in an area of study, such as business, politics, biology or sociology, means little unless it can be communicated effectively. The minor in communication is designed to provide students who are not communication majors with knowledge and skills in communication that are useful in any discipline or profession.

The minor in communication requires 18 semester hours, with 12 hours of required courses and 6 hours of electives.

Requirements
Core Courses

COMM 1011 - Fundamentals of Communication

*Summer 2010 Registration CMMU 1011*
Studies communication theory and application. Topics include communication models, interpersonal communication and the concept of self, nonverbal communication, message preparation and analysis, and decision making.*Semester Hours: 3to 3*GT
Pathways Category Key: GT-SS3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 2020 - Communication and Citizenship

*Summer 2010 Registration CMMU 2020*
Offers an introduction to debates about, and the different means of practicing, citizenship in America.*Semester Hours: 3to 3*Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 2101 - Presentational Speaking

*Summer 2010 Registration CMMU 2101*
Theory and practice of presentational speaking in a variety of contexts to accomplish goals of asserting individuality, building community, securing adherence, discovering knowledge and belief, and offering perspectives.*Semester Hours: 3to 3*Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 4200 - Persuasion

*Summer 2010 Registration CMMU 4200*
Examines influence and communication at individual, group, organizational and societal levels. a theoretical and applied analysis of persuasion, including examination of public opinion, individual attitudes, beliefs, values, sources, credibility, ethics, and certain message and audience variables.*Semester Hours: 3to 3*Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 12 Hours**

Elective Courses

In addition to the four courses specified above, students must take two upper-division courses (3000 level or above) to be selected with the aid of the undergraduate advisor in communication.
Total: 6 Hours

Minor Total: 18 Hours

Grade and Residency Requirements for Minors

A grade of C (2.0) or better must be earned in each course completed as part of the minor. No more than 6 of the semester hours for the minor may be transferred from another university.

Community Health Science Minor

To earn a minor in community health science, a minimum of 18 semester hours are required, of which 12 must be upper-division. Students must achieve no less than a C (2.0) in each course applied toward minor requirements. At least 12 semester hours must be taken from the Downtown Campus faculty. Note that additional HBSC courses are currently being developed to provide additional choices. As they are approved, these courses will appear on the HBS Web site, the online course descriptions and term schedule planner. (Note: HBS courses, in general, are 3 semester hours under the prefix HBSC.)

Program Requirements

Community Health Science Courses

Choose two:

HBSC 2001 - Introduction to Community and Population Health Science

*Summer 2010 Registration* HBSC 2001
Introduction undergraduate students to the mission, history, knowledge-base, values, concepts, and tools of community and population health science, a field that broadly encompasses health and the socio-behavioral sciences, and forms the core of public health. Provides an overview of the principal strategies and methods of public health. *Semester Hours:* 3 to 3GT Pathways Category Key: GT-SS3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HBSC 3021 - Fundamentals of Health Promotion

*Summer 2010 Registration* HBSC 3021
Provides an overview of the field of health promotion, including an introduction to key
theories and methods, as well as exposure to the breadth of programs and diversity of settings through several case studies. Includes attention to health behaviors as contributors to current public health problems and community-based approaches to health promotion in addressing them. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HBSC 3031 - Health, Human Biology and Behavior**

**Summer 2010 Registration** HBSC 3031
Introduces the study of human health and well-being, and the allied disciplines of epidemiology and demography. The course considers the nature of disease, health problems related to nutrition and the physical environment, and morbidity and mortality from an integrated "biobehavioral" perspective. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HBSC 3041 - Health, Culture and Society**

**Summer 2010 Registration** HBSC 3041
A critical, holistic interpretation of health, illness, and human bodies that emphasizes power as a key social-structural factor in health and societal responses to illness. Explores those areas of social and cultural life where power differences are most evident in their impact on health. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**Methods Courses**

Choose at least two:

**GEOG 4235 - GIS Applications in the Health Sciences**

**Summer 2010 Registration** GEOG 4235
Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor. Cross-listed with GEOG 5235, HBSC 7235. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HBSC 4021 - Community Health Assessment**

**Summer 2010 Registration** HBSC 4021
Introduces applied methods of public health, including: analyzing community-level
assessment data, developing a casual model for selected health outcomes, maximizing community participation in the assessment process, developing assessments as a team, and setting the stage for effective intervention and evaluation. Prereq: Upper division standing, a course in statistics, and an introductory course in epidemiology (HBSC 4001, 5001). Cross-listed with HBSC 5021. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**Community Health Emphasis Courses**

Choose at least two:

**ANTH 4040 - Anthropology of Food and Nutrition**

*Summer 2010 Registration ANTH 4040*
Examines the myriad relationships between food as a biological necessity and eating as a socially and culturally conditioned activity. Takes a biocultural perspective that considers not only the tremendous variety of foods we eat, but also the complex meanings and importance attached to food and eating. Prereq: Introductory course in anthropology. Cross-listed with ANTH 5040. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 4060 - Evolutionary Medicine**

*Summer 2010 Registration ANTH 4060*
Applies evolutionary principles to an understanding of human health and illness. The view complements perspectives on health and disease emanating from biological and social sciences, but considers the health or disease process from the perspective of pathogen and host, current and previous environments, and various phases of the life cycle. Prereq: ANTH 1303. Cross-listed with ANTH 5060, HBSC 4060 and 5060. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 4090 - Political Economy of Drugs**

*Summer 2010 Registration ANTH 4090*
Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures, and the social, political and economic issues that surround their production, use and misuse. Prereq: introductory course in cultural anthropology. Cross-listed with ANTH 5090. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
ANTH 4260 - Human Reproductive Ecology

Summer 2010 Registration ANTH 4260
Considers the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, marriage patterns, birth seasonality, duration of birth intervals and reproductive senescence. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 5260. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 4560 - Human Ecology

Summer 2010 Registration ANTH 4560
Studies demographic and ecological variables as they relate to human populations. Aspects of natural selection, overpopulation and environmental deterioration are considered. Prereq: Introductory course in biological or physical anthropology. Cross-listed with ANTH 5560. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 4500 - Health Communication

Summer 2010 Registration CMMU 4500
Examines the role of communication in a wide range of health contexts. Topics include cultural constructions of health and illness, public health communication campaigns, client-provider interactions, telemedicine, community-based health programs and medical journalism. Cross-listed with COMM 5500. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 4620 - Health Risk Communication

Summer 2010 Registration CMMU 4620
Acquaints students with contemporary theory, research, and practice in health risk communication. Prereq: COMM 3120, COMM 4011, COMM 4200, COMM 4500, or permission of instructor. Cross-listed with COMM 5620, HBSC 4620, HBSC 5620, and ENVS 5620. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4020 - Earth Environments and Human Impacts

Summer 2010 Registration GEOG 4020
Basic concepts describing earth's biomes and physical environment are presented in a
systems context. Global warming assessment, from both political and scientific perspectives, is then presented. Model visualization of these concepts to consider human impacts on Earth's biomes is discussed. Earth system viewpoint, having links of Earth's biomes to oceans and atmosphere, completes the course discussion. Prereq: GEOG 1202 and 3232 or permission of instructor. Cross-listed with ENVS 5020, GEOL 4020. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4230 - Hazard Mitigation and Vulnerability Assessment

*Summer 2010 Registration* GEOG 4230
Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 5230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HBSC 3010 - Evolution of Human Sexuality

*Summer 2010 Registration* HBSC 3010
Surveys the biological and social evolution of human sexuality from an interdisciplinary perspective. Encourages critical thinking about human sexual behavior and challenges assumptions about sexuality. Students explore what happens when sexual behaviors that have evolved over the millennia mix with the cultural, political, and economic influences imposed by contemporary civilization. Prereq: Introductory courses in anthropology, biology, psychology, sociology or political science. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HBSC 4010 - Global Health Studies I: The Biocultural Basis of Health

*Summer 2010 Registration* HBSC 4010
This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health studies; the second is HBSC 4020. Prereq: Upper division and/or graduate standing. Cross-listed with HBSC 5010, ANTH 4010 and 5014. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
HBSC 4020 - Global Health Studies II: Comparative Health Systems

*Summer 2010 Registration HBSC 4020*

The course has three parts: (1) examines the social and cultural construction of sickness, systems of etiology cross culturally, the therapeutic encounter, varying roles of healer and patient, and the cultural basis of all healing systems; (2) considers health systems in the context of global health reform, and the history, organization, and roles of institutions of global health governance; and (3) considers the inter-relationship of health, foreign policy and global security. Prereq: Upper division and/or graduate standing. Cross-listed with HBSC 5020, ANTH 4020 and 5024. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

HBSC 4080 - Global Health Practice

*Summer 2010 Registration HBSC 4080*

A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Prereq: HBSC/ANTH 4010/5014, HBSC/ANTH 4020/5024, HLTH 6070 or equivalent. Cross-listed with HBSC 5080, ANTH 4080 and 5080. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

HBSC 4200 - The Global HIV/AIDS Epidemic

*Summer 2010 Registration HBSC 4200*

Provides a foundation for a critical analysis of HIV/AIDS in global context, concerning topics such as disease, the body, ethnicity/race, gender, sexuality, risk, addiction, power, and culture together with a set of ethnographic texts that explore the epidemic's impact. Cross-listed with HBSC 5200. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4345 - Gender, Science, and Medicine: 1600 to the Present

*Summer 2010 Registration HIST 4345*

Examines the ways science and medicine have both shaped and been shaped by ideas about gender. Pays particular attention to the relationship between scientific/medical ideas about the sexes and the social organization of gender. Cross-listed with HIST 5345. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
HIST 4346 - Medicine and Society: the Ancients to the Present

Summer 2010 Registration HIST 4346
Surveys change and continuity in definitions of health and illness, interactions between patients and practitioners, the practice of medical authority, and the relationships between science, clinical medicine, and the provision of health care. Cross-listed with HIST 5346. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4503 - Topics in History of Science

Summer 2010 Registration HIST 4503
Themes vary from year to year. Possible topics: Darwinism, Nature of Memory, Time and Space, Origins. Cross-listed with HIST 5503. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3235 - Human Sexuality

Summer 2010 Registration PSY 3235
Examines the physiological, psychological, and social psychological bases of human sexuality. Research on the range of sexual behaviors, individual sexual response, sexual development, sexual dysfunction, and variants of sexual orientation. Prereq: PSYC 1000, 1005 and 2090, or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSYC 3262 - Health Psychology

Summer 2010 Registration PSY 3262
An overview of the scientific study of attitudes, behaviors, and personality variables related to health and illness. Emphasis is on the interaction of biological, psychological, and social factors that cause illness and influence its treatment and prevention. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6 Hours

Total: 18 Hours

Computer Science Minor

The Department of Computer Science and Engineering offers a minor in computer science. The requirements for the minor are listed below.
Program Requirements

1. Any undergraduate student currently enrolled in a UC Denver degree program with a major other than computer science and engineering may earn a minor in computer science. This includes students from the College of Engineering and Applied Science, the College of Liberal Arts and Sciences, the Business School, the College of Arts & Media and the School of Public Affairs.
2. The student must complete the following classes with a grade of C- or better:

CSCI 1410 - Fundamentals of Computing

Summer 2010 Registration C SC 1410
First course in computing for those who will take additional computer science courses. Covers the capabilities of a computer, the elements of the computer language C++, and basic techniques for solving problems using a computer. Coreq: CSCI 1411. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CSCI 2421 - Data Structures and Program Design

Summer 2010 Registration C SC 2421
Topics include a first look at an algorithm, data structures, abstract data types, and basic techniques such as sorting, searching, and recursion. Programming exercises are assigned through the semester. Prereq: ENGL 1020, CSCI 2312. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CSCI 2511 - Discrete Structures

Summer 2010 Registration C SC 2511
Covers the fundamentals of discrete mathematics, including: logic, sets, functions, asymptotics, mathematical reasoning, induction, combinatorics, discrete probability, relations and graphs. Emphasis on how discrete mathematics applies to computer science in general and algorithm analysis in particular. Prereq: MATH 1401. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 1401 - Calculus I

Summer 2010 Registration MATH 1401
First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: Students cannot receive credit for both MATH 1080 and 1401. Prereq: MATH 1120 or 1130 and satisfactory score on the placement exam. Semester Hours: 4to 4GT
Pathways Category Key: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 2411 - Calculus II

Summer 2010 Registration MATH 2411
The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: MATH 1401. Semester Hours: 4

GT Pathways Category Key: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

3. The student must complete (with a C- or better) three additional computer science courses at the 3000 level or higher with the approval of an undergraduate advisor.

Note: Some courses at the 3000 level and above require additional prerequisites. A student must fulfill all prerequisites for the courses he/she selects. See the catalog course descriptions for prerequisite information for each course.

4. All computer science courses 3000 level and above must be taken at the Downtown Campus of UC Denver.

5. At the time of graduation, the student must have a UC Denver cumulative GPA of 2.0 and must have a 2.0 GPA for the eight classes taken for the minor.

6. The student must file a minor declaration form with an undergraduate advisor or with the Engineering Student Services office in North Classroom, 3024. For more information or an advising appointment, contact the Department of Computer Science and Engineering in North Classroom, 2605, or by phone at 303-556-4314.

Creative Writing Minor

The creative writing minor gives students the opportunity to complement their area of major study with experience writing and reading poetry or fiction.

Students minoring in creative writing must complete a total of 15 hours. None of the required courses may be taken pass/fail. Only courses completed with a grade of C (2.0) or better may be counted toward the minor. All upper-division courses must be taken with Downtown Campus English faculty. Students should take ENGL 1020 before beginning the minor.

Courses

Required Courses
ENGL 1400 - Introduction to Literary Studies

*Summer 2010 Registration ENGL 1400*

Helps students develop a sense of literary techniques and issues so they can bring an improved critical sensibility to their reading and writing. Note: Designed for students who plan to major in English or who are seriously interested in literature. Prereq or Coreq: ENGL 1020.  **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.  

ENGL 1400 will be replaced during 2010-11 by ENGL 2450 when it becomes available

ENGL 2154 - Introduction to Creative Writing

*Summer 2010 Registration ENGL 2154*

Reading, discussing, writing short fiction and poetry in a workshop setting. Prereq: ENGL 1020.  **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6 Hours

Requirements for poetry

ENGL 3020 - Poetry Workshop

*Summer 2010 Registration ENGL 3020*

Practical workshop for developing poetic craft, focusing on writing process and specialized topics. Prereq: ENGL 2154 for English majors and minors only; all others must obtain permission of instructor.  **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 4025 - Advanced Poetry Workshop

*Summer 2010 Registration ENGL 4025*

Focuses on the development of poetic craft. Prereq: ENGL 2154 and 3020 for English majors and minors only; all others must obtain permission of instructor.  **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 4160 - Poetics
**ENGL 4160 - Mechanics** of poetry in English, including meter, rhythm, rhyme, line, and other systems of measurement and logic. Emphasis is on historical development of poetic art in English. Prereq: ENGL 1400 or permission of instructor. Cross-listed with ENGL 5160. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**ENGL 4166 - History of American Poetry**

Examines major American poets and poetic trends from the colonial period to the present, with attention to cultural contexts and to development of distinctively American practices. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5166. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**ENGL 4320 - History of Poetry in English**

Studies the major schools and eras of English prosody, including the poetry of Great Britain and the United States, from the medieval period to the present. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5320. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 9 Hours**

**Requirements for fiction**

**ENGL 3050 - Fiction Workshop**

Practical workshop for developing narrative craft, focusing on writing process and specialized topics. Prereq: ENGL 2154 for English majors and minors only; all others must obtain permission of instructor. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
ENGL 4055 - Advanced Fiction Workshop

*Summer 2010 Registration ENGL 4055*
Focuses on the development of narrative craft. Prereq: ENGL 2154 and 3050 for English majors and minors only; all others must obtain permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 4200 - History of the English Novel I

*Summer 2010 Registration ENGL 4200*
Rise and development of the English novel from its beginnings in the 18th century through the mid-19th century, including such writers as Defoe, Fielding, Austen and Shelley. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5200. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

ENGL 4210 - History of the English Novel II

*Summer 2010 Registration ENGL 4210*
Overview of the English novel from mid-19th century to World War II, emphasizing the important developments which the form underwent in the hands of notable novelists, including Charles Dickens, the Brontes, George Eliot, Henry James, Joseph Conrad, D.H. Lawrence and Virginia Woolf. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5210. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

ENGL 4230 - The American Novel

*Summer 2010 Registration ENGL 4230*
Surveys major developments in the American novel from the 18th century to the 21st century. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

ENGL 4236 - The American Short Story

*Summer 2010 Registration ENGL 4236*
Traces the development of the short story in the United States, from its beginnings in colonial tales to its contemporary renaissance as a dominant literary form. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL
Criminal Justice Minor

Program Requirements

A minor in criminal justice requires 18 semester hours of course work including the following:

CRJU 1001 - Introduction to Criminal Justice

*Summer 2010 Registration CJ 1001*
This course is designed to provide an overview of the criminal justice process and the criminal justice system in general. Concepts of crime, deviance and justice are discussed and general theories of crime causality are examined. Special emphasis is placed on the components of the criminal justice system: the police, the prosecutorial and defense functions, the judiciary and the field of corrections. *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 2041 - Crime Theory and Causes

*Summer 2010 Registration CJ 2041*
This course provides a general survey of the nature and causes of crime and efforts of the criminal justice system to predict, prevent, modify and correct this behavior. This course involves a critical appraisal of various theories of crime causation, including an examination of biological, psychological, economic and sociological perspectives that explain crime and deviance. *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6 Hours

At least one of the following

CRJU 4042 - Corrections
Summer 2010 Registration C J 4042
This course consists of an overview of the field of penology and corrections. Attention is paid to conflicting philosophies of punishment, criminological theory as it applies to the field of corrections, the selectivity of the process through which offenders move prior to their involvement in correctional programs, alternative correctional placements and empirical assessments of the short and long-term consequences of one’s involvement in correctional programs. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 4043 - Law Enforcement

Summer 2010 Registration C J 4043
This course presents an overview of the role of police in the United States. Attention is placed on the origins of policing, the nature of police organizations and police work, patterns of relations between the police and the public, discretion and police role in a sociolegal context. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 4044 - Courts and Judicial Process

Summer 2010 Registration C J 4044
This course examines the basic functions, structure and organization of the federal and state court system, with special attention on the criminal court system. This course also focuses on the influence of judicial behavior on the court process by examining judges’ policy preferences, legal considerations, group processes within courts and courts’ political and social environments. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 3-9 Hours

One to three additional elective courses in criminal justice or ancillary fields.

Digital Design Minor

Admission into the BFA digital design program or the digital design minor is by portfolio review. This review process occurs April 1 or November 1 (or on the following business day if the deadline falls on a weekend or holiday) during a student’s sophomore year after a student has met the following eligibility criteria:

University of Colorado Denver Students

- You have completed, or are in the process of completing, the following Foundation Studio classes: FINE 1100, FINE 1400, FINE 2015, FINE
2405 and FINE 2415. (FINE 2405 and FINE 2415 should be taken after a student’s freshman year and are offered only in fall.)

- A cumulative fine arts GPA of 2.75.

**Transfer Students**

- You have completed, and are transferring, a minimum of 24 credit hours from a previous institution.
- You have completed, or are in the process of completing, the equivalents of the following Foundation Studio classes: FINE 1100, FINE 1400, FINE 2405 and FINE 2415.
- A cumulative fine arts GPA of 2.75.

Students who are applying for entrance into the digital design program or minor are required to submit a portfolio that consists of (1) a written statement, (2) a designed portfolio on CD-ROM or DVD and (3) official or unofficial transcript(s) from all previous post-secondary education institutions with the understanding that digital design is a fall start program. Upon acceptance into the digital design program, students may register for upper-division digital design classes.

Those applying to the minor (and not the major) are not required to complete FINE 1100, FINE 1400 or FINE 2015 (or their college-level equivalents), but they must show equivalent studio work in their application portfolios.

Contact CAMadvising@ucdenver.edu for program and portfolio information, or contact the Digital Design Area Head Brian DeLevie at brian.delevie@ucdenver.edu.

**Additional Information about the Minor**

All courses for the minor must be taken at UC Denver unless approved otherwise by the digital design faculty advisor. Each course must be completed with a C/2.0 or better. Students pursuing a BA in fine arts (art history emphasis) may use up to 9 semester hours to fulfill major and minor requirements; the remaining semester hours must be taken in addition to the major requirements. Students pursuing a major in any of the studio arts may not pursue this minor. Consult a CAM advisor for further details.

**Minor Course Requirements**

**FINE 2405 - Introduction to Digital Design**

*Summer 2010 Registration F A 2405*

A project-based exploration of the design potentials of vector, raster and motion based digital media. Through project critiques, discussion and demonstration students will create projects that examine technology as an art medium and a design strategy. Note: Priority seating given to Digital Design and Transmedia majors. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
FINE 2415 - Typography Studio

Summer 2010 Registration F A 2415
A studio course that teaches principles of typography and organization that is the foundation of design and artistic practice. Through drawing, editing, arranging and moving typographic forms, students will create projects that examine how typography is used to create meaning. Note: Priority seating given to Digital Design majors. Prereq: FINE 1400 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3414 - Motion Design I

Summer 2010 Registration F A 3414
A workshop devoted to understanding time based imagery that focuses on utilizing video and motion graphics as a creative communication tool. Students will create projects that explore topics using video, animation, time and motion using a non-linear digital editing software. Note: Priority seating given to Digital Design and Transmedia majors. Prereq: Digital Design majors: passed portfolio review, FINE 2405 and 2415. Digital Design minors: FINE 2405 and 2415. Transmedia: FINE 2405, 2510, 3505 - can be taken concurrently with 3424 and 3438, or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3415 - Design Studio I

Summer 2010 Registration F A 3415
In a design laboratory students learn to turn ideas into visual solutions through the application of design principles. Through lectures, writings, readings, discussion and critiques of projects assigned students will build visual literacy in relation to digital design. Note: Priority seating given to digital design majors. Prereq: Digital Design majors: passed portfolio review, FINE 2405, 2415 can be taken concurrently with 3414 and 3424. Digital Design minors: FINE 2405 and 2415 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3424 - Interactive Media

Summer 2010 Registration F A 3424
A workshop exploring how interactive media can be used to convey a message and deliver information. Through critiques of projects, discussion and research, students will learn principles of user interface design, aesthetics and structure including their potential cultural impact. Note: priority seating given to Digital Design and Transmedia majors. Prereq: Digital Design majors: passed portfolio review, FINE 2405 and 2415. Digital Design minors: FINE 2405 and 2415. Transmedia: FINE 2405, 2510, 3505 - can be taken concurrently with 3414 and 3438 or permission of instructor. Semester Hours: 3 to
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3434 - 3D Motion Design**

*Summer 2010 Registration F A 3434*

A workshop devoted to 3D as a medium for creating works of art. Through demonstration, discussion, readings and project based explorations, students will learn to navigate and create in the 3D digital environment. Note: Priority seating given to Digital Design and Transmedia majors. Prereq: Digital Design majors: FINE 3410, FINE 3414 and FINE 3424; Digital Design minors and Transmedia majors: FINE 2405, FINE 3414 or permission of instructor. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4632 - Media History and Aesthetics**

*Summer 2010 Registration F A 4632*

This survey class will present the current and historic impact of media technology on the arts and professional design practice. Through lectures, research and discussion students will become familiar with issues specific to digital media and design. Prereq: Digital Design majors: FINE 3410, portfolio review or permission of instructor. Cross-listed with FINE 5632. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 21 Hours**

**Economics Minor**

Students minoring in economics must complete a minimum of 15 semester hours in economics. All course work must be completed at the Downtown Campus, or the Department of Economics reserves the right to test the student’s competence in the material covered. No grade below C- will be counted toward the minor requirements.

**Courses**

**ECON 2012 - Principles of Economics: Macroeconomics**
Summer 2010 Registration ECON 2012
Covers topics of inflation, unemployment, national income, growth and problems of the national economy, stabilization policy, plus others at the discretion of the instructor. Purpose is to teach fundamental principles, to open the field of economics in the way most helpful to further a more detailed study of special problems, and to give those not intending to specialize in the subject an outline of the general principles of economics. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 2022 - Principles of Economics: Microeconomics

Summer 2010 Registration ECON 2022
Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

— plus —
Three upper-division electives in economics: **9 semester hours**
(ECON 3100 - Economics of Race and Gender is acceptable)

**Total: 15 Hours**

At least two upper-division courses must not overlap with courses required in the student's major program.

**Educational Studies Minor**

The preparation of high-quality K–12 teachers is dependent on both content knowledge and teaching methodologies. The College of Liberal Arts and Sciences, in cooperation with the School of Education & Human Development, offers an educational studies minor to assist undergraduate students unable to fit licensure course work into their bachelor's degree and to prepare them for the graduate-level licensure programs.

The CLAS educational studies minor is flexible in design and individually tailored for each student to complete some content requirements required for admission into the graduate-level teacher licensure programs at UC Denver. The educational studies minor requires course work in psychology and human development, democratic schooling principles, a K–12 internship and undergraduate course work required for licensure outside college and major requirements.
Environmental Sciences Minor

The environmental sciences minor offers students exposure to the breadth of environmental issues. Students may emphasize the natural/physical sciences, the social sciences and humanities or structure their own mixed emphasis.

Program Requirements

Lecture/Laboratory Courses

Choose two lecture/laboratory courses (see Note 2):

BIOL 2051 - General Biology I

Summer 2010 Registration BIOL 2051
Introduces four major areas of study: (1) the chemistry of biological systems; (2) the structure and function of the cell; (3) cellular energy transformations (photosynthesis and respiration); and (4) genetics (mitosis, meiosis, patterns of inheritance, molecular genetics). Note: Biology and health science (pre-med, pre-vet, pre-physical therapy, etc.) majors must also take the accompanying laboratory - BIOL 2071. Prereq: CHEM 1000 or high school chemistry required. Semester Hours: 3 to 3 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 2071 - General Biology Laboratory I

Summer 2010 Registration BIOL 2071
Introduces the basic scientific approach and report preparation through exercises and experiments in cell biology, basic biochemical techniques, genetics, molecular genetics and applications of biotechnology. Note: Exercises corresponding to topics in BIOL 2051. Coreq: BIOL 2051. Semester Hours: 1 to 1 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 2061 - General Biology II

Summer 2010 Registration BIOL 2061
This course is a continuation of BIOL 2051. Introduces four major areas of study: (1) evolution, (2) animal structure and function, (3) plant structure and function and (4)
ecology. Note: Biology and health science (pre-med, pre-vet, nursing, etc.) majors must also take the accompanying laboratory - BIOL 2081. Prereq: BIOL 2051 or equivalent with a grade of "C" (2.0) or higher. **Semester Hours:** 3
**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 2081 - General Biology Laboratory II**

**Summer 2010 Registration BIOL 2081**
Study of evolution, plant and animal anatomy, developmental biology; includes two off-campus ecology field trips. Note: Exercises corresponding to topics in BIOL 2061. Prereq: BIOL 2071 or equivalent with a grade of "C" (2.0) or higher; Coreq: BIOL 2061. **Semester Hours:** 1
**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 2031 - General Chemistry I**

**Summer 2010 Registration CHEM 2031**
Topics include chemical structure, atomic and molecular properties, molecular geometry and bonding, and gas laws. Prepares students to take upper division chemistry courses. Note: a beginning course for science majors, medical technologists, pre-medical and pre-dental students. Prereq: One year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent); Coreq: CHEM 2038. **Semester Hours:** 3
**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 2038 - General Chemistry Laboratory I**

**Summer 2010 Registration CHEM 2038**
Students perform laboratory experiments on topics covered in CHEM 2031 and gain experience in observing, recording, and interpreting physical and chemical phenomena. Note: Laboratory to accompany CHEM 2031. Coreq: CHEM 2031. **Semester Hours:** 1
**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 2061 - General Chemistry II**

**Summer 2010 Registration CHEM 2061**
(Continuation of CHEM 2031.) Topics include kinetics, equilibria and thermodynamics. Prereq: CHEM 2031; Coreq: CHEM 2068. **Semester Hours:** 3
**GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.
CHEM 2068 - General Chemistry Laboratory II

Summer 2010 Registration CHEM 2068
Students gain experience with laboratory technique and elementary chemical instrumentation. Note: Laboratory to accompany CHEM 2061 and a continuation of CHEM 2038. Prereq: CHEM 2038; Coreq: CHEM 2061. Semester Hours: 2to 2GT
Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENVS 1042 - Introduction to Environmental Sciences

Summer 2010 Registration ENVS 1042
This laboratory or survey course develops a basic understanding of ecological relationships and environmental systems. Issues such as the effects of human activities on earth’s environment, extinction or diversity, greenhouse effect, hazardous or toxic wastes and human population growth are discussed. Semester Hours: 4to 4GT
Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOL 1072 - Physical Geology: Surface Processes

Summer 2010 Registration GEOL 1072
Introductory course in physical geology that covers surface processes and landforms, and includes one all-day field trip. Note: Required for geology majors. Semester Hours: 4to 4GT
Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOL 1082 - Physical Geology: Internal Processes

Summer 2010 Registration GEOL 1082
Introductory course in physical geology that covers internal processes and properties of the earth’s interior, with plate tectonics as the underlying theme. Includes one all-day field trip. Note: Required for geology majors. Semester Hours: 4to 4GT
Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2010 - College Physics I

Summer 2010 Registration PHYS 2010
(This course is an approved Colorado Statewide Guaranteed Transfer Course). Mechanics, heat and sound. Prereq: College algebra and trigonometry. Semester Hours: 4to 4GT
Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.
PHYS 2030 - College Physics Lab I

Summer 2010 Registration PHYS 2030
Semester Hours: 1to 1 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2020 - College Physics II

Summer 2010 Registration PHYS 2020
Electricity, magnetism, light and modern physics. Prereq: PHYS 2010. Semester Hours: 4to 4 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2040 - College Physics Lab II

Summer 2010 Registration PHYS 2040
Prereq: PHYS 2030. Semester Hours: 1to 1 GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 8-10 Hours

Upper-division Courses

Choose three upper-division courses outside of the student’s major discipline from the following list (see Notes 5 and 6):

ANTH 4010 - Global Health Studies I: The Biocultural Basis of Health

Summer 2010 Registration ANTH 4010
This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health studies; the second is ANTH 4020. Prereq: Upper division and/or graduate standing. Cross-listed with ANTH 5014, HBSC 4010 and 5010. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 3411 - Principles of Ecology

Summer 2010 Registration BIOL 3411
A lecture course that examines the interrelationships between organisms and their
environments. Subject matter includes organism, population and ecosystem levels of study and application to current environmental issues. The emphasis is on the underlying principles of ecology that involve all types of organisms. Note: Satisfies core ecology requirement for biology major. May not be used as upper division biology elective. No co-credit with BIOL 3412. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 4700 - Environmental Chemistry**

*Summer 2010 Registration CHEM 4700*
A discussion of the sources, reactions, transport, effects, and fates of chemical species in the water, soil, and air environments. Prereq: CHEM 3111 or 3411. Cross-listed with CHEM 5700. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

(see note 4)

**ECON 4540 - Environmental Economics**

*Summer 2010 Registration ECON 4540*
Economic approach to environmental problems: relationship between ownership structures, externalities and environmental damage; poverty, population pressure, and environmental degradation; valuation of environmental amenities; sustainability of economic activity; cost-benefit analysis applied to the environment; evaluation of alternative instruments for environmental control. Prereq: ECON 2022. Cross-listed with ECON 5540. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENVS 3082 - Energy and the Environment**

*Summer 2010 Registration ENVS 3082*
For students of various backgrounds who wish to increase their understanding of the environmental and technical issues of supplying the energy demands of our society. Alternative energy sources and conservation are explored as solutions to promote a sustainable society. Prereq: One course in college science or mathematics. Cross-listed with PHYS 3082. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**PHYS 3082 - Energy and the Environment**

*Summer 2010 Registration PHYS 3082*
For students of various backgrounds who wish to increase their understanding of the environmental and technical issues of supplying the energy demands of our society.
Alternative energy sources and conservation are explored as solutions to promote sustainable society. Prereq: One college-level science course and MATH 1110 or equivalent. Cross-listed with ENVS 3082. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3232 - Weather and Climate**

*Summer 2010 Registration GEOG 3232*
Introduces the processes and systems that govern both day-to-day weather and longer-term climate variations. Covers instrumentation and weather forecasting techniques. Prereq: GEOG 1202 or permission of instructor. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3240 - Colorado Climates**

*Summer 2010 Registration GEOG 3240*
Provides a broad overview of the various weather and climate patterns that are found within the state of Colorado. To accomplish this, the state of Colorado will be divided into regions which (hopefully) have a large degree of homogeneity in terms of weather and climate controls. Note: Taught in a seminar style with students giving presentations and reports on their findings about a given region. Prereq: GEOG 1202 and/or GEOG 3232 or permission of instructor. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4020 - Earth Environments and Human Impacts**

*Summer 2010 Registration GEOG 4020*
Basic concepts describing earth's biomes and physical environment are presented in a systems context. Global warming assessment, from both political and scientific perspectives, is then presented. Model visualization of these concepts to consider human impacts on Earth's biomes is discussed. Earth system viewpoint, having links of Earth's biomes to oceans and atmosphere, completes the course discussion. Prereq: GEOG 1202 and 3232 or permission of instructor. Cross-listed with ENVS 5020, GEOL 4020. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**ENVS 5020 - Earth Environments and Human Impacts**

*Summer 2010 Registration ENVS 5020*
Basic concepts describing earth's biomes and physical environment are presented in a systems context. Global warming assessment, from both political and scientific perspectives, is then presented. Model visualization of these concepts to consider human impacts on Earth's biomes is discussed. Earth system viewpoint, having links of
Earth's biomes to oceans and atmosphere, completes the course discussion. Cross-listed with GEOG 4020, GEOL 4020. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing**

*Summer 2010 Registration GEOG 4060*
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5060, GEOL 4060, GEOL 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**OR**

**GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing**

*Summer 2010 Registration GEOG 5060*
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 4060, GEOL 4060, 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4080 - Introduction to GIS**

*Summer 2010 Registration GEOG 4080*
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**OR**

**GEOG 5080 - Introduction to GIS**

*Summer 2010 Registration GEOG 5080*
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic
information system workstation. Cross-listed with GEOG 4080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4090 - Environmental Modeling with Geographic Information Systems**

*Summer 2010 Registration GEOG 4090*
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5090 - Environmental Modeling with Geographic Information Systems**

*Summer 2010 Registration GEOG 5090*
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4220 - Environmental Impact Assessment**

*Summer 2010 Registration GEOG 4220*
The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor. Cross-listed with GEOG 5220, URPL 6651. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5220 - Environmental Impact Assessment**

*Summer 2010 Registration GEOG 5220*
The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor. Cross-listed with GEOG 4220, URPL 6651. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4230 - Hazard Mitigation and Vulnerability Assessment**
GEOG 4230 - Hazard Mitigation and Vulnerability Assessment

Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 5230. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4240 - Principles of Geomorphology

Systematic study of processes associated with rock structures, weathering, mass wasting, fluvial, wind, glacial, and shorelines, and the resultant landforms they can produce, influence, and change over time. Course includes field trips and in-class exercises to help solidify concepts. Cross-listed with GEOL 4630 and GEOG 5240. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4265 - Sustainability in Resources Management

Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 5265. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 5265 - Sustainability in Resources Management

Sustainability and sustainable development are the dominant economic, environmental
and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 4265. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4270 - Glacial Geomorphology**

*Summer 2010 Registration GEOG 4270*
Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Prereq: GEOG 1202 or GEOL 1072. Cross-listed with GEOG/GEOL 4270/5270. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4335 - Contemporary Environmental Issues**

*Summer 2010 Registration GEOG 4335*
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 5335. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5335 - Contemporary Environmental Issues**

*Summer 2010 Registration GEOG 5335*
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 4335. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4350 - Environment and Society in the American Past**

*Summer 2010 Registration GEOG 4350*
Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 5350. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-
GEOG 5350 - Environment and Society in the American Past

Summer 2010 Registration GEOG 5350
Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 4350. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOL 4030 - Environmental Geology

Summer 2010 Registration GEOL 4030
Applies geological information to interactions between people and the physical environment. Increasing awareness of its importance in our society means that this is an expanding field as companies are required to address the environmental consequences of their actions. Prereq: Entry into MSES program, senior standing in sciences or geography, or permission of instructor. Cross-listed with ENVS 5030 and GEOL 5030. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4232 - Historic Preservation

Summer 2010 Registration HIST 4232
Introduces the history, methodology, and goals of historic preservation. Guest speakers, field trips, research projects, and book reports. Cross-listed with HIST 5232. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4810 - Special Topics

Summer 2010 Registration HIST 4810
Cross-listed with HIST 5810. Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4354 - Environmental Politics

Summer 2010 Registration P SCI 4354
Political, legal, and economic forces in environmental law and policy. Special emphasis on air and water pollution and on threats to public and agricultural land. Environmental groups and their opponents. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Total: 9 Hours

Minor Total: 17-19 Hours

Notes:

1. All work submitted for an environmental sciences minor must have a grade of C (2.0) or above.
2. The lecture/laboratory sequence can be part of the requirements for the major, but not in the student’s major department (i.e., a biology major cannot use the general biology sequence, but could use the general chemistry sequence, which is also required for the biology major).
3. Students must take a minimum of 9 hours of the upper-division courses at the Downtown Campus.
4. If the student plans to go on to the MS in environmental sciences program, he/she should choose courses other than CHEM 4700. This is a core course in the MS in environmental sciences program.
5. Many of the upper-division courses have prerequisites; the student must check the catalog for prerequisite requirements for these courses.
6. The four upper-division elective courses for the environmental sciences minor cannot be from the student’s major discipline, even if the particular course is not counted toward the major.

Ethics Minor

A total of 15 semester hours is required for an ethics minor, with a minimum grade of C (2.0) in each course.

Required Courses

PHIL 1020 - Introduction to Ethics and Society: The Person and the Community

Summer 2010 Registration PHIL 1020
Studies some of the traditional problems in ethics that tend to be focused on individual morality within the larger context of social and political philosophy. Some specific contemporary moral and social problems may be addressed, such as AIDS, abortion, famine, and individual rights versus the collective rights of society. **Semester Hours:** 3 to 3
**GT Pathways Category Key:** GT-AH3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Choose four:

**PHIL 3150 - History of Ethics**

*Summer 2010 Registration PHIL 3150*
Surveys the ethical thought of major figures in the history of philosophy, beginning with Plato and ending with the 19th century. Examples: Aristotle, Hume, Kant and Mill. (Class readings of primary philosophical texts.) **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 3200 - Social and Political Philosophy**

*Summer 2010 Registration PHIL 3200*
Examines basic issues in social and political philosophy, including justice, freedom, individuality, power and community. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 3250 - Business Ethics**

*Summer 2010 Registration PHIL 3250*
Surveys some of the major moral problems which arise in business, such as the nature and scope of the moral responsibilities of corporations, affirmative action, and truth in advertising. Begins with a study of moral reasoning, ethical theory, and the challenges of applying ethical theory. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 3500 - Ideology and Culture: Racism and Sexism**

*Summer 2010 Registration PHIL 3500*
Surveys the nature and role of racism and sexism. Topics may include ideology theory, naturalism, the equal protection clause, recent scientific discussion, sociolegal history, and social constructionism. Cross-listed with WGST 3500. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 3939 - Internship/Cooperative Education**

*Summer 2010 Registration PHIL 3939*
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PHIL 4150 - Twentieth Century Ethics

Summer 2010 Registration PHIL 4150
Surveys representative philosophers, methods, and/or problems in 20th century ethics. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHIL 4242 - Bioethics

Summer 2010 Registration PHIL 4242
Examines some of the major moral issues confronting the nation's health care system. The class will search for solutions to such problems as financing health care for those unable to do so on their own, determining the extent of a patient's right to both refuse and demand certain types of medical treatment, and allocating scarce medical resources such as lifesaving vital organs. The springboard for examining these issues will be the doctor or patient relationship framed by the moral principles of respect for persons and beneficence. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5242, SSCI 5242, HUMN 5242. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Minor Total: 15 Hours
For those students who major in philosophy and minor in ethics, no course can satisfy the requirements for both. For example, if a student takes PHIL 4150, Twentieth Century Ethics, it cannot satisfy the requirement in the major for a course in 19th or 20th century philosophy.

Ethnic Studies Minor

Requirements for the Minor

The minor in ethnic studies offers students the opportunity to enhance and broaden the body of knowledge acquired in their chosen majors and to apply it in a variety of careers involving intercultural relations. Students are required to complete 18 semester hours (6 courses) in ethnic studies with a grade of C or better. These hours are to be taken with UC Denver faculty (any exception needs to be approved by the ethnic studies advisor). At least 9 of the required 18 hours must be in courses numbered 3000 or above.

The 18 hours required for the minor must be distributed as follows:
Core Courses

ETST 2000 - Introduction to Ethnic Studies

Summer 2010 Registration ETST 2000
Multi-disciplinary survey of contemporary and historical research analyses of the diverse social, economic, political, and cultural facets of African American, American Indian, Asian American, and Latino communities and cultures. Semester Hours: 3 to 3GT
Pathways Category Key: GT-SS3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 3 Hours

Additional Courses

Select four upper- or lower-division ETST courses from the following four focal U.S. racial/ethnic groups
- Asian-Americans
- African-Americans
- American Indians
- Chicanos/as and Latinos/as

Total: 12 Hours

Elective

ETST elective course of your choice.

Total: 3 Hours

Total: 18 Hours

Film Studies Minor

The film studies minor offers students the opportunity to gain an informed understanding of the sophisticated medium of film, its language and history. Courses cover critical writing about cinema, creative screenwriting, the evolution of Hollywood movies, international cinema and film in its cultural context. The film studies minor makes a valuable complement to a range of undergraduate majors.
Students must complete a total of 15 hours for the film studies minor. None of the required 15 hours may be taken pass/fail. Only courses completed with a grade of \textit{C} (2.0) or better may be counted toward the minor. A minimum of 9 hours must be taken with Downtown Campus faculty. Students are strongly advised to take ENGL 2250, Introduction to Film, before taking other film courses. Students are also advised to fulfill the liberal arts and sciences core curriculum writing requirements before enrolling in upper-division topics in film courses. No more than two online film studies courses can be counted toward the minor.

\textbf{Courses}

\textbf{Required Courses}

\textit{ENGL 2250 - Introduction to Film}

\textit{Summer 2010 Registration ENGL 2250}

Introduces students to the critical study of cinema as an art form and a cultural phenomenon. Topics include cinematography, editing, mise-en-scene and sound; the connections between cinema and related art forms; film genres; the social dimensions of film production and reception; and films by such key filmmakers as Alfred Hitchcock, Maya Deren and Spike Lee. \textit{Semester Hours: 3 to 3} Registration is changing. Visit our website for details ucdenver.edu/registration.

\textit{ENGL 3070 - Film History I}

\textit{Summer 2010 Registration ENGL 3070}

Examines the history of cinema from its 19th-century origins until the early sound era. Explores important developments and influences in American and international cinema, including the origins of Hollywood narrative, avant-garde cinema, German Expressionism, and Soviet Cinema. \textit{Prereq: Must have 30 semester hours or permission of the instructor. Semester Hours: 3 to 3} Registration is changing. Visit our website for details ucdenver.edu/registration.

\textit{-OR-}

\textit{ENGL 3080 - Film History II}

\textit{Summer 2010 Registration ENGL 3080}

Examines world cinema from 1938 to the present, with examples from major movements and directors--such as Film Noir, Italian Neo-Realism, the French New Wave, Jean Renoir, Agnes Varda, John Ford, Alfred Hitchcock and Werner Herzog. \textit{Prereq: Must
have 30 semester hours or permission of the instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**Electives**

Choose three:

**ENGL 2415 - Introduction to Movie Writing**

*Summer 2010 Registration ENGL 2415*

Examines structural and dramatic elements required to write a feature-length screenplay. Students conceptualize, plan, write and then re-write to complete the first ten pages of their own feature-length screenplay. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3070 - Film History I**

*Summer 2010 Registration ENGL 3070*

Examines the history of cinema from its 19th-century origins until the early sound era. Explores important developments and influences in American and international cinema, including the origins of Hollywood narrative, avant-garde cinema, German Expressionism, and Soviet Cinema. Prereq: Must have 30 semester hours or permission of the instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**ENGL 3080 - Film History II**

*Summer 2010 Registration ENGL 3080*

Examines world cinema from 1938 to the present, with examples from major movements and directors--such as Film Noir, Italian Neo-Realism, the French New Wave, Jean Renoir, Agnes Varda, John Ford, Alfred Hitchcock and Werner Herzog. Prereq: Must have 30 semester hours or permission of the instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3075 - Film Genres**

*Summer 2010 Registration ENGL 3075*

An intensive study of films of one or more significant genres, such as comedy, film noir, science fiction. Prereq: Must have 30 semester hours or permission of the instructor.
Note: May be taken more than once when genres vary. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3085 - Film Directors**

*Summer 2010 Registration ENGL 3085*

An intensive study of the films of one or more major directors, such as Chaplin, Keaton, Hitchcock, Welles, Coen Brothers. Prereq: Must have 30 semester hours or permission of the instructor. Note: May be taken more than once when directors vary. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3200 - From Literature to Film**

*Summer 2010 Registration ENGL 3200*

Explores the relationship between literature and cinema; the process of adapting and transforming a novel into a feature-length film; and the historical, cultural, and commercial influences that shaped the creation of each novel and film studied. Prereq: Must have 30 semester hours or permission of the instructor. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4420 - Film Theory and Criticism**

*Summer 2010 Registration ENGL 4420*

(1) Familiarizes students with some of the central concepts and debates in film theory and criticism, both classic and contemporary, (2) enables students to develop advanced analytic and interpretive skills, and (3) guides students toward discovering and articulating original critical and theoretical perspectives. Prereq: ENGL 2250 and 3070, 3080 or permission of instructor. Cross-listed with ENGL 5420. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4770 - Topics in English: Film and Literature**

*Summer 2010 Registration ENGL 4770*

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5770. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.  
Approved film courses from another department (3 semester hours)

**Total: 9 Hours**
Total: 15 Hours

* Repeatable with different topic or title.

French Minor

Students minoring in French must complete 15 semester hours of upper-division French courses (courses numbered 3000 and above). The minor in French must include at least one language skills class, chosen from the following:

Required Courses

Choose one:

FREN 3010 - French Phonetics and Pronunciation

Summer 2010 Registration FR 3010
Helps students acquire speech habits through knowledge of phonetics. Topics include the function of the speech organs, accurate production and recognition of sound, and the use of phonetic symbols. Note: Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FREN 3020 - Oral Practice

Summer 2010 Registration FR 3020
Conversation course, using dialogues, debates, small-group discussion, and short oral presentations to improve fluency in spoken French and to build vocabulary. Discussions center around current issues. Note: Students with native or near-native-level proficiency will not be allowed to take FREN 3020. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FREN 3050 - Advanced Grammar and Composition
Summer 2010 Registration FR 3050
Rigorous review of grammar (including past and future tenses, conditional mood and nominal phrase), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, syntax and grammar. Note: May be taken before or after FREN 3060. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FREN 3060 - Advanced French Language Skills

Summer 2010 Registration FR 3060
Rigorous review of grammar (including subjunctive, interrogative, verbal phrase and passive voice), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, and grammar. Note: May be taken before or after FREN 3050. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 3 Hours

Electives

In addition, students minoring in French must complete four additional upper-division French courses

Total: 12 Hours

Minor Total: 15 Hours
General Musicianship Minor

See the beginning of the Music and Entertainment Industry Studies section in this catalog for specific admission information to the UC Denver Department of Music and Entertainment Industry (MEIS). This competitive process is also for students interested in either music minor.

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177. All courses must be taken at UC Denver unless approved by an MEIS faculty member. All other courses must be taken at UC Denver. Students pursuing a BS in music may not declare a minor in music. Consult a CAM advisor for details. All minor courses must be passed with a C (2.0) or better.

Students must successfully audition before declaring a general musicianship minor.

Program Requirements

PMUS 1100 - Music Theory I

*Summer 2010 Registration PMUS 1100*
Study of harmonic procedures as derived from the common practice period, and their relationship to contemporary concepts. Coreq: PMUS 1110 and PMUS 1023. *Semester Hours*: 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1110 - Ear Training and Sight Singing I

*Summer 2010 Registration PMUS 1110*
Laboratory course designed to help students listen to music analytically and to apply the harmonic principles learned in PMUS 1100 to the performance of music. Coreq: PMUS 1100 and PMUS 1023. *Semester Hours*: 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1200 - Music Theory II

*Summer 2010 Registration PMUS 1200*
Continuation of PMUS 1100. Prereq: PMUS 1110 and PMUS 1100. Coreq: PMUS 1210 and PMUS 1023. *Semester Hours*: 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1210 - Ear Training and Sight Singing II
**PMUS 1210 - Laboratory course designed to help students listen to music analytically and to apply the harmonic principles learned in PMUS 1200 to the performance of music. Prereq: PMUS 1100 and PMUS 1110. Coreq: PMUS 1200 and PMUS 1023.**

**Semester Hours:** 1 to 1

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**PMUS 3830 - History and Literature of Music I**

**Summer 2010 Registration PMUS 3830**

This course provides a historical perspective of Western music literature from the medieval through the classical era. Prereq: Any semester of music theory. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**PMUS 3831 - History and Literature of Music II**

**Summer 2010 Registration PMUS 3831**

This course provides a historical perspective of Western music literature from the Romantic era through the present day. Prereq: Any semester of music theory. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- PMUS 1502 through PMUS 1762 Applied Music (2 semester hours) (24 instruments)

**PMUS 1500 - General Recital**

**Summer 2010 Registration PMUS 1500**

May be taken on a pass/fail basis only. Co-requisite for all applied music courses for music majors and minors. Attendance at musical performances is required. **Semester Hours:** 0 to 0

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- PMUS 1500 - General Recital
- PMUS 1410 through PMUS 4430 Ensembles. Students must take a minimum of 2 ensembles.

**PMUS 1023 - Piano Class I**

**Summer 2010 Registration PMUS 1023**

This course focuses on beginning note reading in both treble and bass clefs, learning one octave major key scales, basic harmonization, and beginning improvisation. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: Acceptance to the MEIS program **Semester Hours:** 1 to 1

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
PMUS 1023 Piano Class I, PMUS 1024 Piano Class II, PMUS 1025 Piano Class III and/or PMUS 1026 Piano Class IV. Students must complete 2 semesters of Piano. Piano placement is available - consult a CAM advisor. P/MUS ____ - Music Elective (1 semester hour)

Total: 23 Hours

Geography Minor

Students must complete 15 semester hours in geography, including at least 6 semester hours of upper-division courses. Students must achieve a grade of C (2.0) or above on required courses. At least 9 semester hours of upper-division geography courses must be completed at the Downtown Campus.

Geology Minor

At least two of the upper-division requirements must be completed at UC Denver. Transfer students who have earned the equivalent of all these courses elsewhere must complete a minimum of two of the required upper-division courses at UC Denver. No grade below a C (2.0) will be counted toward the minor requirements.

Required Courses

GEOL 1072 - Physical Geology: Surface Processes

Summer 2010 Registration GEOL 1072
Introductory course in physical geology that covers surface processes and landforms, and includes one all-day field trip. Note: Required for geology majors. Semester Hours: 4
GT Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOL 1082 - Physical Geology: Internal Processes

Summer 2010 Registration GEOL 1082
Introductory course in physical geology that covers internal processes and properties of the earth’s interior, with plate tectonics as the underlying theme. Includes one all-day field trip. Note: Required for geology majors. Semester Hours: 4
GT Pathways
Choose at least two of the following courses:

**GEOL 3011 - Mineralogy**

*Summer 2010 Registration* GEOL 3011
Principles of mineralogy, including crystallography, crystal chemistry, and a systematic study of the more important nonsiliclate and silicate minerals. Origins and occurrences of minerals. Prereq: Physical geology and college-level chemistry.*Semester Hours*: 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOL 3421 - Sedimentation and Stratigraphy**

*Summer 2010 Registration* GEOL 3421
Introduces the principles of sedimentology and stratigraphy. Emphasis is on dynamic processes within sedimentary environments and the resulting stratigraphic record. Prereq: GEOL 1082 or equivalent.*Semester Hours*: 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOL 4030 - Environmental Geology**

*Summer 2010 Registration* GEOL 4030
Applies geological information to interactions between people and the physical environment. Increasing awareness of its importance in our society means that this is an expanding field as companies are required to address the environmental consequences of their actions. Prereq: Entry into MSES program, senior standing in sciences or geography, or permission of instructor. Cross-listed with ENVS 5030 and GEOL 5030.*Semester Hours*: 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Minor Total: 15-16 Hours**

**German Minor**

The German program provides a variety of courses for students interested in German language, linguistics, literature, history, philosophy, music and art.

**Admission and Grade Requirements**
To be admitted to minor status in German, students must have an overall GPA of C+ (2.3). The minimum grade acceptable in any course applied to a German minor is a C (2.0). The GPA in all courses applied to a German minor at UC Denver must be 2.5. No courses taken on a pass/fail basis may be credited toward a German minor.

Residency Requirement

The German minor requires 15 semester hours of upper-division course work. A minimum of 6 semester hours must be taken from German faculty at the Downtown Campus. Courses taken at other institutions while a student is enrolled at UC Denver may be applied to the minor only with departmental approval before enrollment in those courses.

Students who have completed course work through an approved exchange program must also complete a residency requirement of a minimum of 6 credits of upper-division German courses. This residency requirement must include at least 3 semester hours of language skills courses at the Downtown Campus.

Course Requirements for the Minor

Students minoring in German must complete 15 hours of upper division German courses (courses numbered 3000 and above). The minor in German must include at least one language skills course:

Required Courses

Choose one:

GRMN 3050 - Phonetics and Pronunciation of German

Summer 2010 Registration GER 3050
Students acquire skills for articulating German with a high degree of accuracy, and systematically develop a more native-like pronunciation of German. Students learn basic linguistic principles for the purpose of gaining insight into the mechanics of spoken German. Note: Taught in German. Prereq: GRMN 2130. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GRMN 3060 - Advanced German Language Skills I

Summer 2010 Registration GER 3060
An advanced course in German language skills with equal emphasis devoted to
speaking, listening, reading and writing. Students improve their cultural awareness, pronunciation, and vocabulary as well. Specific grammar topics include: subjunctive I and II, participles I and II, extended adjectives, verb tenses, gender of nouns, and reflexive. Note: Primary language of instruction for this course is German. Prereq: GRMN 2130 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GRMN 3070 - Advanced German Language Skills II**

*Summer 2010 Registration GER 3070*
An advanced course in German language skills with equal emphasis devoted to speaking, listening, reading and writing. Students improve their cultural awareness, pronunciation, and vocabulary. Specific grammar topics include: semantic categories, functions of nouns, determiners, adjectives, relative clauses, pronouns. Note: Primary language of instruction for this course is German. Prereq: GRMN 2130 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GRMN 3080 - Advanced German Language Skills III**

*Summer 2010 Registration GER 3080*
An advanced course in German language skills with equal emphasis devoted to speaking, listening, reading and writing. Students improve their cultural awareness, pronunciation, and vocabulary as well. Specific grammar topics include: prepositions and idioms, "da" compounds, German syntax, clause typology numerals, and time expressions. Note: Primary language of instruction for this course is German. Prereq: GRMN 2130 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GRMN 3090 - Advanced German Language Skills IV**

*Summer 2010 Registration GER 3090*
An advanced course in German language skills with equal emphasis devoted to speaking, listening, reading, and writing. Students improve their cultural awareness, pronunciation and vocabulary. Specific grammar topics include: modal verbs, complex clause and sentence structure, "werden," passive voice, double infinitives, perfect infinitives, and dependent infinitives. Note: Primary language of instruction for this course is German. Prereq: GRMN 2130 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Total: 3 Hours

Electives

In addition, students minoring in German must complete four additional German courses.

Total: 12 Hours

Minor Total: 15 Hours

Students taking a German course taught in English must complete a portion of the course work (e.g., papers and exams) in German for the course to count toward the minor.

History Minor

Students interested in a minor in history are required to complete 18 hours of course work. At least 12 semester hours must be completed at UCD. No grade below a C (2.0) will count toward the minor.

Students minoring in history must take at least 9 credit hours of upper division (3000- and 4000-level) courses.

Course Requirements

Required Course

HIST 3031 - Theory and Practice of History: An Introduction to the Major

*Summer 2010 Registration HIST 3031*

Introduces history majors to the discipline at the outset of their course work. Covers historiographical trends and methodologies, and familiarizes students with the various types of research and writing they are likely to encounter in their classes. Note: This course should be taken as early as possible, and must be taken before HIST 4839. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
Total: 3 Hours

**Distribution Requirement**

A minimum of 3 semester hours must be taken in each of the following areas: United States, Europe and World.

Total: 9 Hours

**Electives**

Choose at least 6 hours of elective upper-division history credit.

Total: 6 Hours

Minor Total: 18 Hours

**Law Studies Minor**

**Program Requirements**

A total of 18 semester hours must be completed for the law studies minor. The five required courses (15 semester hours) must be taken in residence at UC Denver. A minimum grade of C is required in each course and students must maintain a GPA of 3.0 in courses taken toward the minor. Every course taken for the minor must be upper division, and cannot serve to fulfill requirements of the undergraduate core. Students should check with their major department to determine whether courses counted toward the law studies minor can fulfill major requirements. To apply for this minor, students must complete and submit a major/minor change declaration form to the CLAS Advising Office in North Classroom, 4002.

**Required Courses**

**COMM 4680 - Mass Communication Law and Policy**

*Summer 2010 Registration CMMU 4680*

Covers issues of mass communication and the law and ethics, including issues of the First and Fourth Amendments, communication regulations, intellectual property, public access and obscenity. Cross-listed with COMM 5680. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
HUMN 3250 - Introduction to Law Studies

*Summer 2010 Registration* HUM 3250
Introduces students to the materials and methods of law studies. Students learn how to read case law, brief a case, make a course outline, analyze fact patterns, and perform legal research and writing projects. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHIL 4260 - Philosophy of Law

*Summer 2010 Registration* PHIL 4260
Surveys theoretical positions on the nature of law, with particular emphasis on American law. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5260. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose two:

COMM 4681 - Communication Issues in Trial Court Practices and Processes

*Summer 2010 Registration* CMMU 4681
Introduces students to communication and language research aimed at improving the fairness, reliability, and validity of court and judicial processes, including lawyer-client interviews, interrogatories, jury selection, jury instructions, witness examination, and the use of language evidence in court. Prereq: ENGL 2030 or equivalent. Cross-listed with COMM 5681. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 4750 - Legal Reasoning and Writing

*Summer 2010 Registration* CMMU 4750
Introduces the fundamentals of legal reasoning and legal argumentation through intensive class discussion, formal debate and writing. Attention is given to the relationship between case and statutory law and their application in trial and appeals courts in the United States. Prereq: ENGL 1020, 2030, and any one 3000-level English/writing course or COMM 3120. Cross-listed with COMM 5750, PSCI 4757,
PSCI 3034 - Race, Gender, Law and Public Policy

*Summer 2010 Registration* P SCI 3034
Historical overview of race and gender relations in the U.S. and an examination of the treatment of issues of race and gender in the judicial system and public policy. Cross-listed with WGST 3034. *Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4427 - Law, Politics and Justice

*Summer 2010 Registration* P SCI 4427
Analysis of the relationship of politics, law, and justice, particularly the degree to which moral norms and political concerns should and do influence legal standards and their perceived legitimacy. *Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4494 - Judicial Politics

*Summer 2010 Registration* P SCI 4494
Examines principal actors in the legal system: police, lawyers, judges, citizens. About half of this course is devoted to the study of judicial behavior, especially at the Supreme Court level. Political and personal influences on judicial behavior. *Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 15 Hours**

**Electives**

Choose one:

BLAW 3000 - Legal and Ethical Environments of Business I

*Summer 2010 Registration* BLAW 3000
Addresses the most fundamental ways the legal and ethical environments of business affect managers. Students are taught to identify legal issues, make ethical judgments about business conduct, and understand the ways ethical and social issues are developed. Topics include actual analysis of legal and ethical issues, ethical theory and its application, law-making processes, contracts, torts, product liability, criminal law,
constitutional law and real property. This is a business core course therefore a grade of "C" or better must be earned to satisfy Business graduation requirements and prerequisites for other business courses. Prereq: Junior Standing. **Semester Hours:** 3to 3

When Offered: FASPRSUM

Registration is changing. Visit our website for details ucdenver.edu/registration.

**COMM 4140 - Argumentation**

*Summer 2010 Registration CMMU 4140*

Examines classical through contemporary theories, with special attention to types of propositions, burden of proof, analysis of issues, evidence, reasoning, fallacies, case construction, refutation and ethics. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

(taught each summer)

**COMM 4255 - Negotiations and Bargaining**

*Summer 2010 Registration CMMU 4255*

Designed to allow students to study theories and apply concepts that explain the influences of various forms of mediating, reducing, and/or resolving conflict among individuals, groups, organizations, nations and cultures. Cross-listed with COMM 5255. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MUSC 3720 - Law and the Music Industry**

*Summer 2010 Registration MUS 3720*

Students will learn how to use and analyze music law principles through a review of essential court case studies. Students will be tested on lecture material and provided with an opportunity to complete research papers for a more in-depth examination. Prereq: MUSC 2700 (Intro to Music Business), MUSC 3220 (Artist Management), Jr. standing. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 4812 - Special Topics in Philosophy**

*Summer 2010 Registration PHIL 4812*

Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
PSCI 3214 - Federal Law and American Indians

Summer 2010 Registration

Examines the legal and political history of the U.S. in relation to American Indian Nations. Focuses on specific laws and Supreme Court cases in federal Indian law, with analysis of U.S. policy. There will be some comparison with Indian policies of other countries. Cross-listed with ETST 3216. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4024 - Legislatures and Legislation

Summer 2010 Registration

Structure and organization of legislatures, informal influences, and the process of statute law making. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4477 - Constitutional Law I

Summer 2010 Registration

Nature and scope of the following American constitutional principles as developed by the U.S. Supreme Court: federalism, jurisdiction of the federal courts, separation of powers, the taxing power, and the commerce power. Case method. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 3 Hours

Minor Total: 18 Hours

The law studies program also recommends a course in informal logic to aid in preparation for the LSAT (e.g., PHIL 2441).

Literature Minor

This program is designed for students who are interested in the study of English literature but who have elected to major in another area. The recommended series of courses allows students to become acquainted with some of the methods of literary study and with a number of the most important literary works.
The literature minor allows students to complement their area of major study with systematic experience in literature.

Students minoring in literature must complete a total of 15 hours (excluding ENGL 1010, 1020, 2030). None of the required 15 hours may be taken pass/fail. Only courses completed with a grade of C (2.0) or better may be counted toward the minor. A minimum of 9 upper-division hours of work in the minor must be taken with Downtown Campus English faculty.

**Courses**

**Required Courses**

**ENGL 1400 - Introduction to Literary Studies**

*Summer 2010 Registration ENGL 1400*

Helps students develop a sense of literary techniques and issues so they can bring an improved critical sensibility to their reading and writing. Note: Designed for students who plan to major in English or who are seriously interested in literature. Prereq or Coreq: ENGL 1020. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 1400 will be replaced during 2010-11 by ENGL 2450 when it becomes available.

**ENGL 3001 - Critical Writing**

*Summer 2010 Registration ENGL 3001*

Introduces literary theory, which provides extensive practice in writing about literature. Note: Required for literature majors, and should be taken in the sophomore or junior year. Prereq: ENGL 1400 and two literature courses. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 6 Hours

**Electives; distribution requirements**

Any three upper division courses, at least two of which must be from those listed as distribution requirements for the major.

**Total:** 9 Hours
Minor Total: 15 Hours

Restrictions: These requirements may not be met by independent study. All upper-division courses must be taken from a member of the Downtown Campus faculty.

Mathematics Minor

Program Requirements

MATH 1401 - Calculus I

Summer 2010 Registration MATH 1401
First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: Students cannot receive credit for both MATH 1080 and 1401. Prereq: MATH 1120 or 1130 and satisfactory score on the placement exam. Semester Hours: 4 to 4 GT Pathways Category Key: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 2411 - Calculus II

Summer 2010 Registration MATH 2411
The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: MATH 1401. Semester Hours: 4 to 4 GT Pathways Category Key: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

MATH 2421 - Calculus III

Summer 2010 Registration MATH 2421
The third of a three-semester sequence in calculus (MATH 1401, 2411 and 2421). Topics include vectors, vector-valued functions, partial differentiation, differentiation, multiple integration, and vector calculus. Prereq: MATH 2411. Semester Hours: 4 to 4 GT Pathways Category Key: GT-MA1
Registration is changing. Visit our website for details ucdenver.edu/registration.

Three additional upper-division math courses (3 or more semester hours each, excluding MATH 3040): 9 semester hours

Minor Total: 21 Hours
Minimum of 21 semester hours with a C average.

Note: At least 6 of the upper-division semester hours must be taken at the Downtown Campus. No grade below a C- will be counted toward the minor requirements.

Music Industry Studies Minor

See the beginning of the Music and Entertainment Industry Studies section in this catalog for specific admission information to the UC Denver Department of Music and Entertainment Industry (MEIS). This competitive process is also for students interested in either music minor.

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177. All courses must be taken at UC Denver unless approved by an MEIS faculty member. All other courses must be taken at UC Denver. Students pursuing a BS in Music may not declare a minor in Music. Consult a CAM advisor for details. All minor courses must be passed with a C (2.0) or better.

Program Requirements

MUSC 2450 - Introduction to Performing Arts and Events Management

Summer 2010 Registration MUS 2450
Introduces stage management of events in the performing arts. Development of leadership and organizational skills as well as a general understanding of the profession. Cross-listed with THTR 2450. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MUSC 2470 - Music Applications on the Computer

Summer 2010 Registration MUS 2470
Introduces the use of computers in the music industry. Topics include basic computer operation, computer hardware, desktop publishing for music business, music notation, MIDI sequencing and digital audio. Students individually create several computer lab projects. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MUSC 2700 - Introduction to Music Business

Summer 2010 Registration MUS 2700
Introduces music as a business and a product, emphasizing music publishing, recording, broadcasting, marketing, licensing and legal aspects. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PMUS 1023 - Piano Class I

Summer 2010 Registration PMUS 1023
This course focuses on beginning note reading in both treble and bass clefs, learning one octave major key scales, basic harmonization, and beginning improvisation. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: Acceptance to the MEIS program Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1024 - Piano Class II

Summer 2010 Registration PMUS 1024
Continuation of PMUS 1023. This course focuses on more advanced note reading, technique, chord vocabulary, sight reading, and improvisation. Introduction of minor scales. Performances in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: Acceptance to the MEIS program, PMUS 1023 or approval of instructor Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1025 - Piano Class III

Summer 2010 Registration PMUS 1025
Continuation of PMUS 1024. This course assumes general fluency in major and minor scales. Focus on expanding chord vocabulary, sight reading, transposition, and performing more advanced repertoire. Performances in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: Acceptance to the MEIS Program, PMUS 1023 and PMUS 1024, or approval of instructor. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PMUS 1026 - Piano Class IV

Summer 2010 Registration PMUS 1026
Continuation of PMUS 1025. This course assumes fluency in major and minor scales. Focus on harmonizing with complex chords, playing by ear, improvisation, and playing repertoire in broader range of key signatures. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Course meets in Roland Piano Lab. Prereq: Acceptance to the MEIS program, PMUS 1023, PMUS 1024 and PMUS 1025, or approval of instructor. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.
Note: Students must complete two semesters of piano class for a total of 2 credits. Piano placement is available; consult a CAM advisor.

**PMUS 1100 - Music Theory I**

*Summer 2010 Registration PMUS 1100*
Study of harmonic procedures as derived from the common practice period, and their relationship to contemporary concepts. Coreq: PMUS 1110 and PMUS 1023. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PMUS 1110 - Ear Training and Sight Singing I**

*Summer 2010 Registration PMUS 1110*
Laboratory course designed to help students listen to music analytically and to apply the harmonic principles learned in PMUS 1100 to the performance of music. Coreq: PMUS 1100 and PMUS 1023. **Semester Hours:** 1to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PMUS 3830 - History and Literature of Music I**

*Summer 2010 Registration PMUS 3830*
This course provides a historical perspective of Western music literature from the medieval through the classical era. Prereq: Any semester of music theory. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PMUS 3831 - History and Literature of Music II**

*Summer 2010 Registration PMUS 3831*
This course provides a historical perspective of Western music literature from the Romantic era through the present day. Prereq: Any semester of music theory. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 21-22 Hours**

* Must be MUSC 2560, Audio Production II (4 semester hours), if student plans to apply for the MIS/tech or recording arts emphasis as a music major.

**Philosophy Minor**
A total of 15 semester hours is required for the minor in philosophy, with a minimum grade of \(C\) \((2.0)\) in each course.

**Program Requirements**

**Required Courses:**

**PHIL 1012 - Introduction to Philosophy: Relationship of the Individual to the World**

*Summer 2010 Registration PHIL 1012*

Introductory course in philosophy that focuses on some of the central questions of philosophy, including theories of reality and the nature of knowledge and its limits. The knowledge of these areas is essential to the student for informed participation in the resolution of contemporary problems in today's society. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-AH3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 3002 - Ancient Greek Philosophy**

*Summer 2010 Registration PHIL 3002*

History of ancient Greek thought, including traditional myth, pre-Socratic fragments, Plato's dialogues, and Aristotle's systematic philosophy. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 3022 - Modern Philosophy**

*Summer 2010 Registration PHIL 3022*

History of philosophy from Descartes through Kant. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

(Non-documented: It is recommended but not required that PHIL 3002 be taken before PHIL 3022.)

**Total: 9 Hours**

**Electives**

Choose two additional philosophy courses, one of which must be at the upper-division level.

**Total: 6 Hours**
Minor Total: 15 Hours

Religious studies courses cannot be used to fulfill the requirements for the minor.

Physics Minor

A total of 16 semester hours is required for a minor in physics. No grade below a C can be used to meet the requirements for the minor. At least 6 semester hours of the requirements for the minor must be completed at the Downtown Campus.

Program Requirements

Required Physics Courses

Either of the following two sequences:

PHYS 2010 - College Physics I

*Summer 2010 Registration PHYS 2010*
(This course is an approved Colorado Statewide Guaranteed Transfer Course). Mechanics, heat and sound. Prereq: College algebra and trigonometry.*Semester Hours:* 4
*GT Pathways Category Key:* GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2020 - College Physics II

*Summer 2010 Registration PHYS 2020*
Electricity, magnetism, light and modern physics. Prereq: PHYS 2010.*Semester Hours:* 4
*GT Pathways Category Key:* GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2030 - College Physics Lab I

*Summer 2010 Registration PHYS 2030*
*Semester Hours:* 1
*GT Pathways Category Key:* GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2040 - College Physics Lab II

*Summer 2010 Registration PHYS 2040*
Prereq: PHYS 2030.*Semester Hours:* 1
*GT Pathways Category Key:* GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.
Sequence Total: 10 Hours

-OR-

PHYS 2311 - General Physics I: Calculus-Based

Summer 2010 Registration PHYS 2311
Covers vector displacement, uniform and accelerated motion, force, momentum, energy, rotating systems, oscillations, and an introduction to thermodynamics. Emphasis is on basic principles. Coreq: MATH 1401. Semester Hours: 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2321 - General Physics Lab I

Summer 2010 Registration PHYS 2321
Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2331 - General Physics II: Calculus-Based

Summer 2010 Registration PHYS 2331
Covers electrostatics, magnetic fields, electromagnetic waves (including light), and optics. Prereq: PHYS 2311. Coreq: MATH 2411. Semester Hours: 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2341 - General Physics Lab II

Summer 2010 Registration PHYS 2341
Prereq: PHYS 2321. Semester Hours: 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

Sequence Total: 10 Hours

Elective Physics Courses

At least 3 of the 6 semester hours must be at the 3000 level or above.
Total: 6 Hours

Minor Total: 16 Hours
Political Science Minor

A student can earn an undergraduate minor in political science by completing 15 semester hours distributed as shown below. At least 9 of the 15 hours must be taken from Downtown Campus faculty.

Course Requirements

One lower-division course

PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice

Summer 2010 Registration P SC 1001
Introduces the study of politics, its human importance, and its relationship to social institutions. Analysis of the relationship between individual political behavior and characteristics of the political system. Development of key concepts such as power, legitimacy, authority, political socialization, and revolution. Note: Required of all PSCI majors. Semester Hours: 3 to 3 GT Pathways Category Key: GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

OR

PSCI 1101 - American Political System

Summer 2010 Registration P SC 1101
General introduction to the American political system with emphasis upon citizen involvement, the relationships among the various levels and branches of government, formal and informal institutions, processes, and behavior. Note: Required of all PSCI majors. Semester Hours: 3 to 3 GT Pathways Category Key: GT-SS1
Registration is changing. Visit our website for details ucdenver.edu/registration.

Four 4000-level courses

Choose one 4000-level course in each of four fields: political theory, American politics, comparative politics and international relations.

Minor Total: 15 Hours
Psychology Minor

Program Requirements

A minor in psychology requires the completion of 15 semester hours with a grade of \( C \) (2.0) or better, including the following courses:

**PSYC 1000 - Introduction to Psychology I**

*Summer 2010 Registration* PSY 1000

Introduces the scientific study of behavior, including an overview of the biological basis of behavior, sensation or perception, states of consciousness, learning and memory, thinking and language, intelligence, motivation and emotion. **Semester Hours:** 3 to 3

**Pathways Category Key:** GT-SS3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 1005 - Introduction to Psychology II**

*Summer 2010 Registration* PSY 1005

Introduces the scientific study of behavior, including an overview of the history of psychology, development, personality, psychological disorders, therapy, health psychology and social behavior. PSYC 1000 is not a prerequisite for this course. **Semester Hours:** 3 to 3

**Pathways Category Key:** GT-SS3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3205 - Human Development I: Child Psychology**

*Summer 2010 Registration* PSY 3205

Studies human development covering birth, infancy, toddler, preschool and school-aged child. Covers biological, cognitive and social processes. Prereq: PSYC 1000 or 1005. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**PSYC 3305 - Abnormal Psychology**

*Summer 2010 Registration* PSY 3305

Borderline disorders as extreme variations of the normal personality. Major functional and organic disorders. Theories of mental disorders and methods of psychotherapy.
Prereq: PSYC 1000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**PSYC 4415 - Experimental Social Psychology**

*Summer 2010 Registration PSY 4415*
Readings and lectures focused on the formulation of researchable problems in social psychology. Prereq: PSYC 1000 and 1005. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3222 - Principles of Learning and Behavior**

*Summer 2010 Registration PSY 3222*
Introduces the scientific study of learning and behavior, focusing on "Behaviorism." Principles of operant and classical conditioning are discussed. A particular emphasis is placed on the relevance and application of these principles to understanding human behavior and psychopathology. Prereq: PSYC 1000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**PSYC 4144 - Human Cognition**

*Summer 2010 Registration PSY 4144*
Studies information processing in humans, with emphasis on memory, thinking and language. Prereq: PSYC 1000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 4511 - History of Psychology**

*Summer 2010 Registration PSY 4511*
Development of psychological theories since 500 B.C. Schools of psychology and their adherents. Readings of primary and secondary sources. Prereq: PSYC 1000 and 1005 plus 6 additional credit hours in psychology (12 hours total). **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

At least 6 upper-division semester hours must be taken from UC Denver Downtown Campus faculty. Further information about the department may be obtained from department advisors or by calling 303-556-8565.

**Religious Studies Minor**
Eighteen semester hours, at least 9 of which must be upper division and at least 9 semester hours taken with Downtown Campus faculty. A minimum cumulative GPA of 2.0 for all UC Denver courses taken in the minor is required, with no individual course grade lower than a C (2.0).

Program Requirements

Required Courses

RLST 1610 - Introduction to Religious Studies

*Summer 2010 Registration RLST 1610*
Religion is a complex phenomenon which involves social norms, beliefs and fears, and overarching world view. Religious experiences are among the most profound an individual can have. The course examines religious phenomena from various perspectives, including philosophical, historical, psychological, anthropological, political, sociological, the symbolic and ritual. **Semester Hours:** 3to 3 **GT Pathways Category Key:** GT-AH3
Registration is changing. Visit our website for details ucdenver.edu/registration.

One course in Western religions chosen from approved list:

RLST 2660 - World Religions

*Summer 2010 Registration RLST 2660*
Provides an introduction to the basic beliefs and concepts of the world's great religious traditions. Covers the history, development, belief patterns, and institutional forms of the world's religions, including Judaism, Zoroastrianism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism and Shintoism. **Semester Hours:** 3to 3 **GT Pathways Category Key:** GT-AH3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 3000 - Judaism, Christianity and Islam: Affinity and Difference

*Summer 2010 Registration RLST 3000*
Judaism, Christianity and Islam have much in common, beginning with their common patriarch Abraham. But there are also elements in each that are unrecognizable from the perspectives of the other two. This course will trace the relationships among the Children of Abraham across history and in today's turbulent world. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 3060 - History of Early Christianity
**Summer 2010 Registration**  
**RLST 3060**  
History of the rise of Christianity and the decline of paganism in the Roman Empire from the birth of Jesus of Nazareth to ca. 500 A.D. Special emphasis on social, historical, legal, and cultural context of Christianity's rise and paganism's decline. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 2700 - The Bible as Literature**

**Summer 2010 Registration**  
**RLST 2700**  
Introduces students to biblical literature. Selections from the various genres of writing in Hebrew (history, wisdom, prophecy, literature) are read and discussed, as well as representative sections from the New Testament, including the gospels and the writings of Paul. Cross-listed with ENGL 2520. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**OR**

**ENGL 2520 - The Bible as Literature**

**Summer 2010 Registration**  
**ENGL 2520**  
Introduces students to biblical literature. Selections from the various genres of writing in Hebrew (history, wisdom, prophecy, literature) are read and discussed, as well as representative sections from the New Testament, including the gospels and the writings of Paul. Cross-listed with RLST 2700. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 3740 - Biblical Traditions: Old Testament**

**Summer 2010 Registration**  
**RLST 3740**  
Investigates the history and nature of the Biblical text. Follows the tradition of critical scholarship beginning in the Enlightenment era and continued down to the present day, sometimes entitled "Secular Humanism." Topics include theories of authorship of the Torah, its general nature and content; the historical books of the Bible, the Prophets, and the Wisdom Literature. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 3760 - Biblical Studies: New Testament**

**Summer 2010 Registration**  
**RLST 3760**  
Examines the books of the New Testament from a scholarly, historical-critical perspective, which views it as a historically and culturally conditioned text, reflecting the beliefs and attitudes of the authors who produced it. The course covers the canonical gospels, letters, and other writings of the New Testament. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
RLST 3770 - Archaeological Discoveries Relating to the Bible

Summer 2010 Registration RLST 3770
Examines the revolutionary impact of archaeology on Biblical Studies. Among these discoveries are Egyptian, Mesopotamian, and Canaanite texts, the Dead Sea Scrolls, and the Gnostic texts. Through these investigations, the Bible will be placed in its appropriate historical, literary and cultural context. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4070 - Western Religious Thought

Summer 2010 Registration RLST 4070
Focuses on philosophers and theologians who have contributed to the evolution of the three great religious traditions of the West: Judaism, Christianity and Islam. Targets thinkers from three periods: the ancient or formative era, the medieval era, and the contemporary era. Note: Specific philosophers chosen may vary in different semesters. Cross-listed with PHIL 4710. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

PHIL 4710 - Western Religious Thought

Summer 2010 Registration PHIL 4710
Focuses on philosophers and theologians who have contributed to the evolution of the three great religious traditions of the West: Judaism, Christianity and Islam. Targets thinkers from three periods: the ancient or formative era, the medieval era, and the contemporary era. Note: Specific philosophers chosen may vary in different semesters. Cross-listed with RLST 4070. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4400 - Differing Concepts of God

Summer 2010 Registration RLST 4400
God, gods, and goddesses have been imagined in many different modes, forms, aspects, and guises throughout human history. This course investigates Paleolithic models of God, the Great Goddess of the Neolithic era, the gods of mythological traditions, Biblical God, the abstract God of the philosophers, the God of the pantheists, the deists, and the God of the mystics. Cross-listed with RLST 5400, PHIL 4650 and 5655. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

PHIL 4650 - Differing Concepts of God
Summer 2010 Registration PHIL 4650
God, gods, and goddesses have been imagined in many different modes, forms, aspects, and guises throughout human history. This course investigates Paleolithic models of God, the Great Goddess of the Neolithic era, the gods of mythological traditions, Biblical God, the abstract God of the philosophers, the God of the pantheists, the deists, and the God of the mystics. Cross-listed with PHIL 5655, RLST 4400 and 5400. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4440 - Concepts of the Soul

Summer 2010 Registration RLST 4440
Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with RLST 5440 and PHIL 4470, 5470. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

PHIL 4470 - Concepts of the Soul

Summer 2010 Registration PHIL 4470
Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with PHIL 5470 and RLST 4440, 5440. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4460 - Death and Concepts of Afterlife

Summer 2010 Registration RLST 4460
Examines how the major religious traditions approach the issue of death. Where the Egyptians were fascinated by death, their Mesopotamian and Hebrew neighbors saw no kind of experience continuing after death. Concepts of the Final Judgment Day and the end of the world follow Zoroastrianism, Christianity, and Islam, while Indian religions developed a sophisticated theory of reincarnation and the "art of dying." Finally, we will turn to Chinese belief in ancestral spirits. Cross-listed with RLST 5460. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

* Fulfills requirement for either Eastern or Western religion, but not both simultaneously
One course in Eastern religions chosen from approved list:

RLST 2660 - World Religions

*Summer 2010 Registration* RLST 2660
Provides an introduction to the basic beliefs and concepts of the world's great religious traditions. Covers the history, development, belief patterns, and institutional forms of the world's religions, including Judaism, Zoroastrianism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism and Shintoism. *Semester Hours: 3to 3* [GT Pathways](#)
*Category Key:* GT-AH3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 3400 - Asian Philosophies and Religions

*Summer 2010 Registration* RLST 3400
We in the Western world encounter a vastly different world, a radically different "universe of meaning," when we examine the traditions of the East. Even what we tacitly assume to be "real" is claimed by the Hindus and Buddhists of India to be a grand illusion. The world of China is, again, very different from India. An examination of Tibetan and Japanese religious forms will conclude our study of Asian thought. Cross-listed with PHIL 3666. *Semester Hours: 3to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 3500 - Religions of India

*Summer 2010 Registration* RLST 3500
Examines the transcendentalist philosophy of India, which rests at the foundation of the great Eastern religious traditions of Hinduism and Buddhism. The Indian ideas of God, the soul, time, the nature of the universe, and its ultimate goal are examined. *Semester
RLST 3660 - Chinese Philosophy and Culture

Summer 2010 Registration RLST 3660

China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools, including Confucianism, Taoism, Mohism, Legalism, Chinese "Logic," and the later schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with PHIL 3981. Semester Hours: 3 to 3

PHIL 3981 - Chinese Philosophy and Culture

Summer 2010 Registration PHIL 3981

China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools, including Confucianism, Taoism, Mohism, Legalism, Chinese "logic," and the later schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with RLST 3660. Semester Hours: 3 to 3

RLST 4080 - Eastern Religious Thought

Summer 2010 Registration RLST 4080

Parallels the course in Western religious thought. The great religious traditions of the East, including Hinduism, Buddhism, Confucianism, and Taoism, are examined as they are presented in the writings of key philosophical representatives of each tradition. Cross-listed with PHIL 4720. Semester Hours: 3 to 3

PHIL 4720 - Eastern Religious Thought

Summer 2010 Registration PHIL 4720

Parallels the course in Western religious thought. The great religious traditions of the
East, including Hinduism, Buddhism, Confucianism, and Taoism, are examined as they are presented in the writings of key philosophical representatives of each tradition. Cross-listed with RLST 4080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 4160 - Mysticism**

*Summer 2010 Registration RLST 4160*
Explores the mystical strains within the world’s great religious traditions. Jewish, Christian, and Islamic mystics did not always express the same beliefs and attitudes as mainstream adherents. When mystics are placed side-by-side, amazing similarities appear. One cannot always tell whether a given mystical statement is Hindu, Jewish, Sufi, or Christian. This class examines these mystical traditions, East and West. Cross-listed with RLST 5160. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 4440 - Concepts of the Soul**

*Summer 2010 Registration RLST 4440*
Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with RLST 5440 and PHIL 4470, 5470. **Semester Hours:** 3 to 3

*Summer 2010 Registration RLST 3060*

History of the rise of Christianity and the decline of paganism in the Roman Empire from the birth of Jesus of Nazareth to ca. 500 A.D. Special emphasis on social, historical, legal, and cultural context of Christianity's rise and paganism's decline. **Semester Hours**: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 3080 - Reformation Europe**

*Summer 2010 Registration RLST 3080*

Between the early 16th and the middle 17th centuries, Europe was torn by explosive ideological conflicts, resulting in religious upheaval, political revolution, and civil and international wars, but also underwent important experiments in representative government and economic controls. Cross-listed with HIST 4022, 5022. **Semester Hours**: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4022 - Reformation Europe**

*Summer 2010 Registration HIST 4022*

Between the early 16th and the middle 17th centuries, Europe was torn by explosive ideological conflicts, resulting in religious upheaval, political revolution, and civil and international wars, but also underwent important experiments in representative government and economic controls. Cross-listed with HIST 5022, RLST 3080. **Semester Hours**: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 3100 - Islamic Politics and Culture**

*Summer 2010 Registration RLST 3100*

Comprehensive, in-depth study of Islam and Muslims. Islam is viewed as a "way of life" with social, economic, psychological, spiritual, and political implications. Among topics to be examined are: women in Islam, Jihad, fundamentalism, Islamic movements, Islam and the West. Cross-listed with PSCI 4165. **Semester Hours**: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-
PSCI 4165 - Islamic Politics and Culture

Summer 2010 Registration P SC 4165
Comprehensive, in-depth study of Islam and Muslims. Islam is viewed as a "way of life" with social, economic, psychological, spiritual, and political implications. Among topics to be examined are: women in Islam, Jihad, fundamentalism, Islamic movements, Islam and the West. Cross-listed with RLST 3100. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 3300 - Shamanic Traditions

Summer 2010 Registration RLST 3300
Explores shamanic religious traditions across the world. This form of religion, involving spiritism, animism, trance states, and "mind power," is the oldest and most widespread religion in world history. Covers the "Shramana" disciplines of India, probable source for the name "Shamanism;" Tibet, Central Asia Korea, China, Japan, Australia; Pacific Island, Native American, and traditional African cultures. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 3400 - Asian Philosophies and Religions

Summer 2010 Registration RLST 3400
We in the Western world encounter a vastly different world, a radically different "universe of meaning," when we examine the traditions of the East. Even what we tacitly assume to be "real" is claimed by the Hindus and Buddhists of India to be a grand illusion. The world of China is, again, very different from India. An examination of Tibetan and Japanese religious forms will conclude our study of Asian thought. Cross-listed with PHIL 3666. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

PHIL 3666 - Asian Philosophies and Religions

Summer 2010 Registration PHIL 3666

Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 3500 - Religions of India
Summer 2010 Registration RLST 3500
Examines the transcendentalist philosophy of India, which rests at the foundation of the great Eastern religious traditions of Hinduism and Buddhism. The Indian ideas of God, the soul, time, the nature of the universe, and its ultimate goal are examined. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 3660 - Chinese Philosophy and Culture

Summer 2010 Registration RLST 3660
China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools, including Confucianism, Taoism, Mohism, Legalism, Chinese "Logic", and the later schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with PHIL 3981. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHIL 3981 - Chinese Philosophy and Culture

Summer 2010 Registration PHIL 3981
China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools, including Confucianism, Taoism, Mohism, Legalism, Chinese "logic," and the later schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with RLST 3660. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 3720 - Religious Narratives

Summer 2010 Registration RLST 3720
Investigates the language and structure of religious discourse in Western literature. Welcomes interdisciplinary and comparative perspectives with a focus on cultural constructions of the sacred. Cross-listed with ENGL 3520. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

ENGL 3520 - Religious Narratives

Summer 2010 Registration ENGL 3520
Investigates the language and structure of religious discourse in Western literature. Welcomes interdisciplinary and comparative perspectives with a focus on cultural
constructions of the sacred. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with RLST 3720. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 3740 - Biblical Traditions: Old Testament**

*Summer 2010 Registration* RLST 3740
Investigates the history and nature of the Biblical text. Follows the tradition of critical scholarship beginning in the Enlightenment era and continued down to the present day, sometimes entitled "Secular Humanism." Topics include theories of authorship of the Torah, its general nature and content; the historical books of the Bible, the Prophets, and the Wisdom Literature. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 3760 - Biblical Studies: New Testament**

*Summer 2010 Registration* RLST 3760
Examines the books of the New Testament from a scholarly, historical-critical perspective, which views it as a historically and culturally conditioned text, reflecting the beliefs and attitudes of the authors who produced it. The course covers the canonical gospels, letters, and other writings of the New Testament. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 3770 - Archaeological Discoveries Relating to the Bible**

*Summer 2010 Registration* RLST 3770
Examines the revolutionary impact of archaeology on Biblical Studies. Among these discoveries are Egyptian, Mesopotamian, and Canaanite texts, the Dead Sea Scrolls, and the Gnostic texts. Through these investigations, the Bible will be placed in its appropriate historical, literary and cultural context. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 4000 - Religion and Cultural Diversity**

*Summer 2010 Registration* RLST 4000
Religion is one of the key elements which creates multiculturalism. This course explores issues in religion and religious identity in contemporary America, including Native American spiritual traditions, Jewish-American traditions, Muslim-American traditions, Asian-American traditions, the African-American Pentecostal movement, and the growth of the Black Muslim movement. Attention is also given to the question of gender issues, as the traditional model for gender roles was formulated, in part, from a religious basis. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
RLST 4010 - Comparative Religious Systems

_Summer 2010 Registration RLST 4010_
A cross-cultural analysis of religious belief and behavior. Emphasis is placed on religions found among non-Western cultural groups and includes consideration of how major religions of the world are manifested on local levels. Cross-listed with ANTH 4130, 5130, RLST 5010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

ANTH 4130 - Comparative Religious Systems

_Summer 2010 Registration ANTH 4130_
A cross-cultural analysis of religious belief and behavior. Emphasis is placed on religions found among non-Western cultural groups and includes consideration of how major religions of the world are manifested on local levels. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 5130, RLST 4010, 5010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4020 - Sociology of Religion

_Summer 2010 Registration RLST 4020_
An intensive review and analysis of the fundamental tenets of religion as a social institution, with emphasis on present-day religious cults, their beliefs and activities in society. Cross-listed with RLST 5020 and SOCY 4610, 5610. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

SOCY 4610 - Sociology of Religion

_Summer 2010 Registration SOCY 4610_
An intensive review and analysis of the fundamental tenets of religion as a social institution, with emphasis on present-day religious cults, their beliefs and activities in society. Cross-listed with SOCY 5610, RLST 4020, 5020. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4040 - Psychology of Religion

_Summer 2010 Registration RLST 4040_
Examines the theories developed by some of the great names in the field of psychology and their approaches to religion. Questions addressed include why people become religious, how religion functions in their lives, religious experience and assessment of the validity of religious claims. Key theorists studied include: William James, Sigmund Freud, Carl G. Jung, Abraham Maslow and Erich Fromm. Cross-listed with RLST
Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 4060 - Philosophy of Religion**

*Summer 2010 Registration RLST 4060*
Nature of religion and methods of studying it. Cross-listed with HUMN 5600, PHIL 4600, 5600, RLST 5060, and SSCI 5600. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**PHIL 4600 - Philosophy of Religion**

*Summer 2010 Registration PHIL 4600*
Nature of religion and methods of studying it. Cross-listed with HUMN 5600, PHIL 5600, RLST 4060, 5060, and SSCI 5600. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 4070 - Western Religious Thought**

*Summer 2010 Registration RLST 4070*
Focuses on philosophers and theologians who have contributed to the evolution of the three great religious traditions of the West: Judaism, Christianity and Islam. Targets thinkers from three periods: the ancient or formative era, the medieval era, and the contemporary era. Note: Specific philosophers chosen may vary in different semesters. Cross-listed with PHIL 4710. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**PHIL 4710 - Western Religious Thought**

*Summer 2010 Registration PHIL 4710*
Focuses on philosophers and theologians who have contributed to the evolution of the three great religious traditions of the West: Judaism, Christianity and Islam. Targets thinkers from three periods: the ancient or formative era, the medieval era, and the contemporary era. Note: Specific philosophers chosen may vary in different semesters. **RLST 4080 - Eastern Religious Thought**

*Summer 2010 Registration RLST 4080*
Parallels the course in Western religious thought. The great religious traditions of the East, including Hinduism, Buddhism, Confucianism, and Taoism, are examined as they
are presented in the writings of key philosophical representatives of each tradition. Cross-listed with PHIL 4720. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**PHIL 4720 - Eastern Religious Thought**

*Summer 2010 Registration PHIL 4720*

Parallels the course in Western religious thought. The great religious traditions of the East, including Hinduism, Buddhism, Confucianism, and Taoism, are examined as they are presented in the writings of key philosophical representatives of each tradition. Cross-listed with RLST 4080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 4100 - Special Topics in Religion**

*Summer 2010 Registration RLST 4100*

This special topics course allows for a variety of subjects to be explored in different semesters, including such issues as the nature of religious experience, communication with the divine, specific historical themes and events in religion. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 4160 - Mysticism**

*Summer 2010 Registration RLST 4160*

Explores the mystical strains within the world's great religious traditions. Jewish, Christian, and Islamic mystics did not always express the same beliefs and attitudes as mainstream adherents. When mystics are placed side-by-side, amazing similarities appear. One cannot always tell whether a given mystical statement is Hindu, Jewish, Sufi, or Christian. This class examines these mystical traditions, East and West. Cross-listed with RLST 5160. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 4260 - Kosmos: Theories of the Universe**

*Summer 2010 Registration RLST 4260*

A course in philosophical cosmology using material from the sciences, history and philosophy. The goal is to illuminate our present theories concerning the nature of the universe and the place of life within it. Cross-listed with PHIL 3420. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-
PHIL 3420 - Kosmos: Theories of the Universe

Summer 2010 Registration PHIL 3420
A course in philosophical cosmology using material from the sciences, history and philosophy. The goal is to illuminate our present theories concerning the nature of the universe and the place of life within it. Cross-listed with RLST 4260. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4280 - Current Perspectives on the Evolution of Consciousness and Culture

Summer 2010 Registration RLST 4280
Studies of evolution traditionally regard morphology (anatomy) / behavior and mind/consciousness as separate fields that belong either in biology/paleontology or in psychology/philosophy. The "middle ground" behavior, anthropology, social systems, is also treated separately in most cases. Recent approaches tend toward a more holistic view using unifying principles and "laws of nature" that show similar processes (dissipative effects, information theory, development theory) operating across all fields. Examines the relationships and common threads between the physical anatomical evolution of organisms and their behavior perception and consciousness. Prereq: Introductory course in evolution (biology/paleontology), psychology, philosophy, anthropology, or permission of instructor. Cross-listed with GEOL 3100 and PHIL 3100. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

OR

GEOL 3100 - Current Perspectives on the Evolution of Consciousness and Culture

Summer 2010 Registration GEOL 3100

RLST 4300 - Myth and Symbol

Summer 2010 Registration RLST 4300
Approaches the field of classical Greek mythology and religion from the perspective of Jungian archetypal theory. The deities of the ancient Greeks are presented as archetypal patterns with universal correlates elsewhere in world religions. A foundation in C. G. Jung's archetypal theory will be offered to ground the course material. Cross-listed with RLST 5300. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4320 - Spirituality in the Modern World

Summer 2010 Registration RLST 4320
Examines the issue of spiritual currents in the modern world. Joseph Campbell claimed that Western culture long ago lost an active sense of the sacred and that the traditional religions have not been the spiritual center for the vast majority of moderns for centuries. This class looks at the modern spiritual awakening in Shamanism, Eastern thought, the New Age movement, the men's movement, paganism and goddess religion, and the revival of traditional religious forms in recent decades. Prereq: RLST 4300. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4340 - The Hero's Journey

Summer 2010 Registration RLST 4340
The myth of the hero's journey serves as a metaphor for the vicissitudes life puts each of us through. The hero or hera represents the ego-self who undertakes the journey—a grand adventure into the realm of the unknown—to seek the treasure. He or she is
greatly transformed by the process, ultimately into the great self, who wins the boon to share with all humanity. Versions of the story are found all over the world, such as in the sagas of Gilgamesh, Odysseus, Psyche, King Arthur, Dorothy of Oz, and Luke Skywalker from a galaxy far, far, away. Cross listed with ENGL 3530. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**ENGL 3530 - The Hero's Journey**

*Summer 2010 Registration ENGL 3530*

---

**RLST 4360 - Freudian and Jungian Perspectives in Dream Analysis**

*Summer 2010 Registration RLST 4360*

Focuses on the phenomenon of dreams in a way that differs distinctly from the traditional approach to the subject in the field of psychology. Throughout history, dreams have been regarded as prophetic, as the voice of the gods. These "spiritual" approaches to dreams are examined, as well as some major theorists on dreams, especially the work of Sigmund Freud and C. G. Jung. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**RLST 4400 - Differing Concepts of God**

*Summer 2010 Registration RLST 4400*

God, gods, and goddesses have been imagined in many different modes, forms, aspects, and guises throughout human history. This course investigates Paleolithic models of God, the Great Goddess of the Neolithic era, the gods of mythological traditions, Biblical God, the abstract God of the philosophers, the God of the pantheists, the deists, and the God of the mystics. Cross-listed with RLST 5400, PHIL 4650 and 5655. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
PHIL 4650 - Differing Concepts of God

Summer 2010 Registration PHIL 4650
God, gods, and goddesses have been imagined in many different modes, forms, aspects, and guises throughout human history. This course investigates Paleolithic models of God, the Great Goddess of the Neolithic era, the gods of mythological traditions, Biblical God, the abstract God of the philosophers, the God of the pantheists, the deists, and the God of the mystics. Cross-listed with PHIL 5655, RLST 4400 and 5400. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4420 - Goddess Traditions

Summer 2010 Registration RLST 4420
Explores the many forms which goddesses have assumed through history, including the Neolithic Great Mother and her heiresses in the ancient Mediterranean cultures, such as: Isis, Ishtar, Demeter, Hecate, Aphrodite, Artemis, Athena and others, and their parallels in India. Goddess traditions have encompassed a full spectrum from virgins to Great Mothers to dark underworld goddesses of death and destruction. Cross-listed with RLST 5420 and WGST 4420. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

OR

WGST 4420 - Goddess Traditions

Summer 2010 Registration WGST 4420
Explores the many forms which goddesses have assumed through history, including the Neolithic Great Mother and her heiresses in the ancient Mediterranean cultures, such as: Isis, Ishtar, Demeter, Hecate, Aphrodite, Artemis, Athena and others, and their parallels in India. Goddess traditions have encompassed a full spectrum from virgins to Great Mothers to dark underworld goddesses of death and destruction. Cross-listed with RLST 4420, RLST 5420. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4440 - Concepts of the Soul

Summer 2010 Registration RLST 4440
Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with RLST 5440 and PHIL 4470, 5470. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PHIL 4470 - Concepts of the Soul

Summer 2010 Registration PHIL 4470
Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with PHIL 5470 and RLST 4440, 5440. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4460 - Death and Concepts of Afterlife

Summer 2010 Registration RLST 4460
Examines how the major religious traditions approach the issue of death. Where the Egyptians were fascinated by death, their Mesopotamian and Hebrew neighbors saw no kind of experience continuing after death. Concepts of the Final Judgment Day and the end of the world follow Zoroastrianism, Christianity, and Islam, while Indian religions developed a sophisticated theory of reincarnation and the "art of dying." Finally, we will turn to Chinese belief in ancestral spirits. Cross-listed with RLST 5460. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4480 - Perspectives on Good and Evil

Summer 2010 Registration RLST 4480
Examines the "problem of evil." As formulated in the philosophical tradition: if the deity is understood as perfect, then why is there evil? How can a perfect entity create imperfection? Why would an absolutely benevolent God cause or allow the innocent to suffer? Presents the classical formulation of the problem, the traditional solutions offered, and the classical critiques of each answer. Considers the perspectives of the various religious orientations, each of which deals differently with the question of suffering. Cross-listed with PHIL 4480. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHIL 4480 - Perspectives on Good and Evil

Summer 2010 Registration PHIL 4480
Examines the "problem of evil." As formulated in the philosophical tradition: if the deity is understood as perfect, then why is there evil? How can a perfect entity create imperfection? Why would an absolutely benevolent God cause or allow the innocent to suffer? Presents the classical formulation of the problem, the traditional solutions
offered, and the classical critiques of each answer. Considers the perspectives of the various religious orientations, each of which deals differently with the question of suffering. Cross-listed with RLST 4480. **Semester Hours**: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 4500 - Religion and Politics**

*Summer 2010 Registration* RLST 4500
Exploration of: (1) theoretical perspectives on the relationship between religion and politics; (2) causes of and justifications for the historical development of the Western separation of "church" and state; (3) contemporary responses to and analyses of this separation; and (4) several current debates about public policy in America that reveal tensions between these two spheres. Cross-listed with PSCI 4057, 5057 and RLST 5500. **Semester Hours**: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**OR**

RLST 4840 - Independent Study: RLST

Summer 2010 Registration RLST 4840
Various topics in religious studies pursued in independent research. Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Minor Total: 18 Hours

Sculpture Minor

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177.

Students may transfer up to 6 semester hours of non-UC Denver courses toward a minor. All other courses must be taken at UC Denver. Each course must be completed with a C/2.0 or better. Students pursuing a BA in fine arts (art history emphasis) may use up to 9 semester hours to fulfill major and minor requirements; the remaining semester hours must be taken in addition to the major requirements. Students pursuing a major in any of the studio arts may not pursue this minor. Consult a CAM advisor for further details.

Program Requirements

FINE 1500 - Three-Dimensional Design
Students explore the elements of art and the principles of design applied to three-dimensional design while developing an understanding of material properties, techniques, processes and tools. Creative practice is accompanied by written, theoretical and verbal critical thinking skills. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

### FINE 2500 - Bronze Casting and Metal Sculpture

Students learn lost wax casting with ceramic shell investment and bonded sand. Modeling, foundry work, centrifugal casting and welding for cast metal is introduced, as is steel fabrication and mixed media. Individual vocabularies are explored and design skills required. Prereq: FINE 1500. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

### FINE 2510 - Wood and Metal Sculpture

Wood, metal fabrication and introduction of the found object are premise for the exploration of individual visual vocabularies. Investigation and design are applied towards developing conceptual ideas while students advance skills in the metal and wood studios. Prereq: FINE 1500, FINE 2500 (Can be taken concurrently with FINE 2500). **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

### Select three courses from the following:

#### FINE 3500 - Modeling and Casting the Figure

Study of the human figure from life and imagination directs visual vocabulary towards expression three dimensionally. Mold making using rubber, alginate and plaster is introduced for casting in metal, resin, synthetics, plastic, paper and biodegradable materials. Drawing is included. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610, FINE 2500, FINE 2510. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

#### FINE 3510 - Installation Art

Students learn to modify the way a particular space is experienced through material intervention in everyday public or private spaces. Material use ranges from everyday and
natural materials to new media such as video, sound, performance, computers and the
Internet. Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500,
FINE 2510, FINE 2600, FINE 2610. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4500 - Kinetic Sculpture**

*Summer 2010 Registration F A 4500*

Students explore movement and balance in sculptural work using pivot points and
motors. Sound, projection, sensors and mechanics provide cause and effect scenarios in
conjunction with knowledge, materials, and techniques acquired to date in the program.
Prereq: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE
2510, FINE 2600, FINE 2610. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 4510 - Advanced Sculpture**

*Summer 2010 Registration F A 4510*

Individual decision-making is stressed in developing a strong body of work. Competent
technical skills and conceptual ideology are expanded to achieve complete visual
experiences and development of conceptual ideas. Prereq: FINE 1015, FINE 1100,
FINE 1400, FINE 1500, FINE 2015, FINE 2500, FINE 2510, FINE 2600, FINE 2610,
FINE 3500, FINE 3510, FINE 3515, FINE 3525, FINE 3530, FINE 3535, FINE
4500. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 21 Hours**

**Social Justice Minor**

**Requirements for the Minor**

The minor consists of 18 semester hours, structured as follows:

- A required introductory class (with either a social science or humanities focus); see below.
- An experiential learning component of 3 semester hours.
- Upper-division course work to be determined by individual students in consultation with the social justice minor director. At least two disciplines must be represented.
- A 3-semester-hour capstone seminar that will provide opportunity for further reflection on the experiential learning projects and student group projects.
Required course

Choose one:

SJUS 2010 - Social Justice: Theories, Narratives, and Technologies

Summer 2010 Registration SJUS 2010
How can citizens of a democracy address social justice issues? This course examines theoretical perspectives relevant to social justice, the narratives which express and question social order, and the technologies which alternately shape and reflect local, regional, and global cultures. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

SJUS 2000 - Democratic Participation and Social Justice

Summer 2010 Registration SJUS 2000
Examines how well the United States, Colorado and Denver are doing in addressing issues of social justice, such as inequality and environmental degradation. Explores various modes of democratic participation—electoral politics, community activism, and lifestyle changes—in advancing social justice. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 3 Hours

Internship

A 3-semester-hour internship in any discipline of the social sciences or humanities, involving community work and including a reflective component and public dissemination or report.

Total: 3 Hours

Upper-Division Courses

Choose three (below is a sample list of upper-division courses, but other courses may be considered):
ANTH 3142 - Cultural Diversity in the Modern World

Summer 2010 Registration ANTH 3142
An in-depth analysis of the phenomena of culture and application of the culture concept to understanding cultural diversity in the modern world. Applies the concept of culture to several basic aspects of human social life, for example: social class and gender relations, ethnicity, racism and sexism, education, health and economic behavior. Students explore these issues in the context of case studies of particular groups and/or communities, focusing primarily on the diversity of cultural expression in contemporary U.S. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 4070 - Culture of Development and Globalization

Summer 2010 Registration ANTH 4070
Anthropological critiques of development and globalization point out that they have occurred without regard for the diversity of human culture and human need. Beginning with this analysis, this course goes one step further by examining culture and values of development and how they affect the way development gets done. Prereq: Upper division standing and permission of instructor. Cross-listed with ANTH 5070. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 4022 - Critical Analysis of Communication

Summer 2010 Registration CMMU 4022
Surveys research methods used to analyze messages from rhetorical and critical perspectives. Cross-listed with COMM 5022. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 4200 - Persuasion

Summer 2010 Registration CMMU 4200
Examines influence and communication at individual, group, organizational and societal levels. a theoretical and applied analysis of persuasion, including examination of public opinion, individual attitudes, beliefs, values, sources, credibility, ethics, and certain message and audience variables. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 4260 - Communication and Conflict

Summer 2010 Registration CMMU 4260
Studies the influence of communication on intrapersonal, interpersonal, intragroup and
intergroup conflict situations. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3795 - Race and Ethnicity in American Literature**

*Summer 2010 Registration ENGL 3795*
Focuses alternately on one of several ethnic American literary traditions (e.g. African American, Chicano) and their historical, geographical, social and economic communities. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4280 - Proposal and Grant Writing**

*Summer 2010 Registration ENGL 4280*
Focuses on research, design, composition, and editing original proposals. Includes idea development, identification of funding sources, and the creation of persuasive documents. Prereq: ENGL 1020. Cross-listed with ENGL 5280. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4701 - Multimedia in the Community**

*Summer 2010 Registration ENGL 4701*
Produce dossier-quality multimedia shorts by researching and writing digital compositions for selected community organizations. Topics for research range across numerous social issues and involve all disciplines. Prereq: ENGL 2030, 3154, and 3170 or permission of instructor. Cross-listed with ENGL 5701. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ETST 3108 - Chicano/a and Latino/a History**

*Summer 2010 Registration ETST 3108*
An historical analysis of person's descendant from Mexico and Latin America. Areas of focus include ethnohistorical backgrounds, current interrelations, and social movements in both rural and urban groups. Other topics include: cultural patterns, identity maintenance, social reforms and problems of national incorporation. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ETST 3274 - Power, Poverty, Culture**

*Summer 2010 Registration ETST 3274*
Studies the process that has rendered certain groups poor for generations. Studies African Americans, Whites, Chicanos/as and Latinos/as, and other ethnic groups that
have lived in this society in a state of poverty. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ETST 3396 - History of the American Indian**

*Summer 2010 Registration ETST 3396*
Indigenous nations in North America comprise hundreds of diverse cultures. This course examines U.S. Indian policy and how indigenous nations responded; how they creatively adapted, and resisted cultural change; and how they continue to persist culturally, socially, and politically. Cross-listed with HIST 3396. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ETST 3704 - Culture, Racism and Alienation**

*Summer 2010 Registration ETST 3704*
The effects of racism on the personality of participants in racist cultures. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 3411 - Globalization and Regional Development**

*Summer 2010 Registration GEOG 3411*
Addresses global political-restructuring and its implications for regional development in the U.S. Both historical and contemporary processes of globalization are examined. Topics include: the environmental basis of American industrial growth, the relationship between technological change and geographical shifts, the rise and decline of Fordism, the transfer of Japanese manufacturing methods to the U.S., the role of regional and national industrial policy, and the social consequences of globalization for labor and communities. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4335 - Contemporary Environmental Issues**

*Summer 2010 Registration GEOG 4335*
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 5335. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
GEOG 4640 - Urban Geography: Denver and the U.S.

*Summer 2010 Registration* GEOG 4640
Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular emphasis is placed on the U.S. and Colorado's Front Range. Cross-listed with GEOG 5640. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HBSC 3041 - Health, Culture and Society

*Summer 2010 Registration* HBSC 3041
A critical, holistic interpretation of health, illness, and human bodies that emphasizes power as a key social-structural factor in health and societal responses to illness. Explores those areas of social and cultural life where power differences are most evident in their impact on health. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HBSC 4021 - Community Health Assessment

*Summer 2010 Registration* HBSC 4021
Introduces applied methods of public health, including: analyzing community-level assessment data, developing a casual model for selected health outcomes, maximizing community participation in the assessment process, developing assessments as a team, and setting the stage for effective intervention and evaluation. Prereq: Upper division standing, a course in statistics, and an introductory course in epidemiology (HBSC 4001, 5001). Cross-listed with HBSC 5021. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 3345 - Immigration and Ethnicity in American History

*Summer 2010 Registration* HIST 3345
Explores the personal and collective experience of immigrants to America. Discusses problems of assimilation, urban and rural experiences, and implications for politics, the economy and social attitudes. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4217 - Consumer Culture

*Summer 2010 Registration* HIST 4217
This interdisciplinary course examines the dynamics of the consumer culture in the context of social, economic, and technological history. The analysis begins with 17th century European origins, and continues through recent world developments, emphasizing the U.S. since 1800. Note: Open to all students. Cross-listed with HIST
5217. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4219 - Depression, Affluence and Anxiety: U.S. History, 1929 to the Present**

*Summer 2010 Registration HIST 4219*
Examines major developments, focusing on the causes of the Depression and efforts to combat it; World War II and postwar readjustments; the Cold War and challenges of world leadership; unparalleled prosperity; Civil Rights movement; the Vietnam War; and economic uncertainties amidst general prosperity. Cross-listed with HIST 5219. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 3200 - Social and Political Philosophy**

*Summer 2010 Registration PHIL 3200*
Examines basic issues in social and political philosophy, including justice, freedom, individuality, power and community. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 3280 - War and Morality**

*Summer 2010 Registration PHIL 3280*
Attempts to identify and analyze some of the major moral issues of war. When is a war just, when is it not? What are morally acceptable rules of engagement? What, if anything, justifies violating them? How does one evaluate terrorism and war against terrorism? What are moral alternatives to the violence of war? **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 3500 - Ideology and Culture: Racism and Sexism**

*Summer 2010 Registration PHIL 3500*
Surveys the nature and role of racism and sexism. Topics may include ideology theory, naturalism, the equal protection clause, recent scientific discussion, sociolegal history, and social constructionism. Cross-listed with WGST 3500. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 4920 - Philosophy of Media and Technology**

*Summer 2010 Registration PHIL 4920*
A philosophical examination of interrelationships between contemporary media, technology, and their impacts upon character of contemporary life and values. Topics
may include ethics, epistemology, democracy, advertising, media literacy and criticism. Cross-listed with PHIL 5920, HUMN 5920, SSCI 5920. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PHIL 5920 - Philosophy of Media and Technology**

*Summer 2010 Registration PHIL 5920*
A philosophical examination of interrelationships between contemporary media, technology, and their impacts upon character of contemporary life and values. Topics may include ethics, epistemology, democracy, advertising, media literacy and criticism. Cross-listed with PHIL 4920, HUMN 5920, SSCI 5920. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 3034 - Race, Gender, Law and Public Policy**

*Summer 2010 Registration PSCI 3034*
Historical overview of race and gender relations in the U.S. and an examination of the treatment of issues of race and gender in the judicial system and public policy. Cross-listed with WGST 3034. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4025 - Local Governance and Globalization**

*Summer 2010 Registration PSCI 4025*
Introduces international political economy, consequences of globalization for localities, interplay between wealth and power among nations, multinational corporations, NGOs and the UN, and impact of their actions on local governments. Topics include development, aid, trade, outsourcing, eco-sustainability and global equity. Prereq: Graduate standing or permission of instructor. Cross-listed with PSCI 5025. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4207 - Theories of Social and Political Change**

*Summer 2010 Registration PSCI 4207*
Conservative, radical, and incremental approaches to change. Role of psychological and sociological factors in political change. Comparative perspectives on change. Self-perpetuation processes of power systems and their vulnerabilities. Requisites of system maintenance and system change. Selected case studies. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RLST 4000 - Religion and Cultural Diversity**
Summer 2010 Registration RLST 4000
Religion is one of the key elements which creates multiculturalism. This course explores issues in religion and religious identity in contemporary America, including Native American spiritual traditions, Jewish-American traditions, Muslim-American traditions, Asian-American traditions, the African-American Pentecostal movement, and the growth of the Black Muslim movement. Attention is also given to the question of gender issues, as the traditional model for gender roles was formulated, in part, from a religious basis. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SOCY 3001 - Urban Sociology

Summer 2010 Registration SOC 3001
The city and urban society are examined in terms of social structure, residential and institutional patterning, process of interaction, demographic processes, and patterns of growth and change. Cross-listed with ETST 3001. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SOCY 3030 - Social Change

Summer 2010 Registration SOC 3030
Process of change in Western societies and its effects on the individual, communities, and economic and political institutions. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SOCY 4440 - Social Stratification

Summer 2010 Registration SOC 4440
The relations among the concentration of income and wealth, economic organization and power, power and class phenomena in the United States. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 9 Hours

**Capstone**

**Total:** 3 Hours

**Minor Total:** 18 Hours

**Sociology Minor**
For an undergraduate minor in sociology, a minimum of 15 semester hours in sociology must be completed with a grade of \( C \) or better. Nine of these hours must be taken from Downtown Campus faculty.

Course Requirements

Required Courses

SOCY 1001 - Introduction to Sociology

*Summer 2010 Registration SOC 1001*

A survey course in which the main concepts that define the sociological perspective are presented, and a picture of society is provided by examining major social institutions and forms of social organization within society. **Semester Hours:** 3 to 3

**GT Pathways**

**Category Key:** GT-SS3

Registration is changing. Visit our website for details ucdenver.edu/registration.

and

SOCY 4150 - History of Sociological Theory

*Summer 2010 Registration SOC 4150*

An analysis of the major contributions and determinants of earlier social analysts to present-day social thought and analysis of pertinent sociological issues. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

Electives

Nine hours of sociology elective courses, completed with a grade of \( C \) or better.

**Total: 9 Hours**

**Minor Total: 15 Hours**

Spanish Minor
Students minoring in Spanish for the BA degree must complete 15 semester hours of upper-division Spanish courses (courses numbered 3000 and higher). All course work must be taught in Spanish.

The minor in Spanish must include at least one culture and civilization class, chosen from the following:

**Required Courses**

Choose one:

**SPAN 3070 - Bilingual Communities: Spanish as a Language of Contact**

*Summer 2010 Registration SPAN 3070*

Explores bilingualism by tracing the series of linguistic and ethnic contacts that converted Castilian from a Latin dialect to the language of the Spanish empire, the primary language of Latin America, and a fast-growing language in the United States. Prereq: SPAN 3010 for majors, or permission of instructor for non-majors. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPAN 3212 - Spanish American Culture and Civilization**

*Summer 2010 Registration SPAN 3212*

Surveys the social, political, economic, religious, literary, and artistic life of Spanish America from the conquest to the present. Note: Taught in Spanish for major and minor credit. Prereq: SPAN 2120 or 2130. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPAN 3221 - Culture and Civilization of Spain I**

*Summer 2010 Registration SPAN 3221*

From prehistoric times through Phoenician, Greek, Roman, and Visigothic eras to the Moorish invasion in 711; the Arab period; the Reconquest; the Catholic Kings; the Imperial Period; and the Inquisition. Prereq: Upper division standing in Spanish. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPAN 3222 - Culture and Civilization of Spain II**
Summer 2010 Registration **SPAN 3222**
(Continuation of 3221.) Studies the social, intellectual, and artistic development of Spain from the time of the Bourbons (18th century) through the civil war of 1936, and the Franco regime to the restoration of democracy under Juan Carlos I and the present day. Prereq: Upper division standing in Spanish. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPAN 3230 - Ibero-American Cultures through Film**

Summer 2010 Registration **SPAN 3230**
A study of the Ibero-American cultures through their most representative films. Films will be windows to access the complexities and the contradictions lived in Ibero-American countries regarding a set of contemporary issues, such as violence, linguistic diversity, religious beliefs, sexuality, politics, history, social class, and globalization. Prereq: SPAN 2120 or SPAN 2130, or consent of the instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPAN 4230 - Modern Culture of Spain through Film and Narrative**

Summer 2010 Registration **SPAN 4230**
Culture of modern Spain studied through Spanish film. The death of military dictator Francisco Franco opened the process for the recuperation of a usurped democratic, representational system that has become the basis of a cultural and economic resurgence. Taught in Spanish. Prereq: SPAN 3252 and one other Spanish/Spanish American literature course at the 3000-level. Cross-listed with SPAN 5230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3 Hours**

**Electives**

In addition, students minoring in Spanish must complete four additional upper-division Spanish courses.

**Total: 12 Hours**

**Minor Total: 15 Hours**
Studio Art Minor

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177.

Students may transfer up to 6 semester hours of non-UC Denver courses toward a minor. All other courses must be taken at UC Denver. Each course must be completed with a C/2.0 or better. Students pursuing a BA in fine arts (art history emphasis) may use up to 6 semester hours to fulfill major and minor requirements; the remaining semester hours must be taken in addition to the major requirements. Students pursuing a major in any of the studio arts may not pursue this minor. Consult a CAM advisor for further details.

Program Requirements

Select two courses from the following:

FINE 1015 - Interdisciplinary Foundations

*Summer 2010 Registration F A 1015*

Students will work across 2-D, 3-D, and 4-D media to develop interdisciplinary skills, strategies and methodologies for investigating contemporary ideas informed by theories of visual culture. Critical concepts are integrated into creative production through projects, research assignments, critiques and presentations. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 1100 - Drawing I

*Summer 2010 Registration F A 1100*

This course explores the act of drawing as a process of visual thought as an initial step to artistic expression. Students will develop an understanding of the basic principles of drawing as a way of learning to see. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 1150 - Introduction to Photography

*Summer 2010 Registration F A 1150*

Students learn traditional, film-based photographic practice. Topics such as camera functions, film processing, black and white darkroom printing, color theory and alternative darkroom techniques are explored through demonstrations, critiques, readings and discussions of historical and contemporary photography. **Semester Hours:**
3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 1400 - Two Dimensional Design**

_Summer 2010 Registration F A 1400_
Focuses on the concepts and visual elements of all forms of two-dimensional art.
Students gain an understanding of basic design principles as they analyze and visually articulate formal concerns in viewing contemporary and historical artworks as applied to studio problems. _Semester Hours:_ 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 1500 - Three-Dimensional Design**

_Summer 2010 Registration F A 1500_
Students explore the elements of art and the principles of design applied to three-dimensional design while developing an understanding of material properties, techniques, processes and tools. Creative practice is accompanied by written, theoretical and verbal critical thinking skills. _Semester Hours:_ 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 2015 - Intermedia Foundations**

_Summer 2010 Registration F A 2015_
Students will develop techniques, strategies and methodologies for investigating contemporary ideas informed by theories of visual culture while implementing critical concepts into creative production centered in digital media. Course work includes creative projects, research assignments, critiques and presentations. _Semester Hours:_ 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 2200 - Painting I**

_Summer 2010 Registration F A 2200_
This course is an introduction to the language of painting. Students will learn to develop composition in layers, working from value to color and from direct observation to abstraction while exploring the range of visual possibilities that painting offers. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes.
Prereq: FINE 1015, 1100, 1400, 1600. _Semester Hours:_ 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

- Art History Elective (3 semester hours)
- Studio Arts Electives (6 semester hours)
- Upper-division Studio Arts Elective (3 semester hours)
Total: 18 Hours

Studio Photography Minor

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177.

Students may transfer up to 6 semester hours of non-UC Denver courses toward a minor. All other courses must be taken at UC Denver. Each course must be completed with a C/2.0 or better. Students pursuing a BA in fine arts (art history emphasis) may use up to 6 semester hours to fulfill major and minor requirements; the remaining semester hours must be taken in addition to the major requirements. Students pursuing a major in any of the studio arts may not pursue this minor. Consult a CAM advisor for further details.

Program Requirements

FINE 1150 - Introduction to Photography

Summer 2010 Registration F A 1150
Students learn traditional, film-based photographic practice. Topics such as camera functions, film processing, black and white darkroom printing, color theory and alternative darkroom techniques are explored through demonstrations, critiques, readings and discussions of historical and contemporary photography. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 2155 - Introduction to Digital Photography

Summer 2010 Registration F A 2155
Students learn digital image manipulation, input and output strategies, and digital camera functions through assignments that emphasize conceptual development. Presentations, readings, projects and class discussions help students gain an understanding of the role of digital imaging in contemporary photography. Prereqs: FINE 1150. Priority given to Photography Majors and Minors. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3630 - History of Photography

Summer 2010 Registration F A 3630
Students examine the history of photography from its origins to the present. Emphasis is placed on photography as an artistic medium. Topics covered include important
movements, photographers, and technical innovations, as well as photographer's broader role in visual culture. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Select three courses from the following:**

**FINE 3160 - Color and Studio Lighting**

*Summer 2010 Registration F A 3160*

Students explore traditional color photography, studio lighting, concept development, critical thinking, and expressive uses of the medium. Topics include chromogenic printing, color theory, 4x5 technique and studio lighting. Students gain insight into the creative impact of color on photographic representation. FINE 1150, FINE 2155. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 3161 - The Silver Fine Print**

*Summer 2010 Registration F A 3161*

Students learn advanced black and white darkroom techniques while translating ideas into photographic form. Techniques include the zone system, split filter printing, toning, montage printing, and film/paper choices. Students gain insight into photographic artists, techniques, and movements. Prereq: FINE 1150, FINE 2155. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Note: must be completed before 3171

**FINE 3162 - The Digital Fine Print**

*Summer 2010 Registration F A 3162*

Students learn the fine art of digital printing as it relates to photographic practice and theory. Assignments focus on conceptual development, advanced image manipulation, workflow, and color management. Students gain insight into the role of digital imaging in contemporary photography. Prereq: FINE 1150, FINE 2155. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3 to 3

*When Offered:* FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.
Note: must be completed before 3172

FINE 3171 - Concepts and Processes in Photography

Summer 2010 Registration F A 3171
Students develop skills in alternative photographic techniques. Processes covered include cameraless and pinhole photography, reticulation, non-silver printing, enlarged negatives, liquid emulsions and digital/traditional cross-manipulation. Students gain insights into the relationship between ideas and experimental ways of creating images. Prereq: FINE 1150, FINE 2155, FINE 3161. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3
**When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3172 - Digital Bookmaking

Summer 2010 Registration F A 3172
Students create handmade artists books using digital technologies. Projects build skills in idea development, use of text and image, digital image manipulation, digital printing, scanning and book binding. Students learn strategies for creating visual narratives through photography. Prereq: FINE 1150, FINE 2155, FINE 3162. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3
**When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

FINE 3175 - Creative Commercial Applications

Summer 2010 Registration F A 3175
Students learn how photographers apply creative, technical and conceptual skills to commercial photographic practice. Topics covered may include editorial strategies; studio or location photography; commercial business practices; advertising photography; shooting and lighting techniques; and professional presentation. Prereq: FINE 1150, FINE 2155, FINE 3160. Photography majors must also have completed the Fine Arts Foundation Core including: FINE 1015, FINE 1100, FINE 1400, FINE 1500, FINE 2015, FINE 2600, FINE 2610. Priority given to photography majors and minors. Photography majors and minors must apply to the program to enroll in this class. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Total: 18 Hours

Sustainability Minor

The sustainability minor is interdisciplinary, drawing on the expertise across CLAS departments: anthropology, biology, chemistry, communication, economics, environmental sciences, geography, geology, history, economics, philosophy, physics and political science. The core courses are taught by a faculty team from natural sciences and social sciences, who will present the concepts from the empirical and humanistic perspectives. The teaching team changes each term so that faculty from any given CLAS department will rotate through the core courses every 3-4 years.

The minor comprises 18 hours, distributed as follows:

- two core courses that introduce students to the systems theories that document how living things affect and are affected by their environments
- two electives chosen from an approved list of CLAS courses
- students select either a field study, internship, service learning or related travel study course
- capstone course in sustainability

Requirements for the Minor

Core Courses

SUST 3010 - The Non-Sustainable Past

Summer 2010 Registration SUST 3010
This is the first of a two-course sequence that assesses the interrelations among the historical, political, cultural, ecological, and economic aspects of contemporary environmental issues. SUST I focuses on the non-sustainable use of water, land, energy, manufactured goods, and food. Prereq: 1 Natural Science Core and 1 Social Science Core. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SUST 3011 - Toward a Sustainable Future

Summer 2010 Registration SUST 3011
This is the second of a two-course sequence that examines the interrelations among the historical, political, cultural, ecological, and economic aspects of contemporary environmental issues. Provides students with theoretical perspectives on sustainability through a series of current, problem-oriented case studies. Prereq: One natural science
core and one social science core. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**Electives**

Choose two from the following list of approved electives:

**Anthropology**

**ANTH 1302 - Introduction to Archaeology**

*Summer 2010 Registration ANTH 1302*
Introduces the study of past cultures and their environments. Emphasis is on the scientific method, aspects of research design and analytical techniques used by archaeologists to determine chronology, taphonomy, source production areas, exchange networks, and human-environment interactions. Note: Three hours of lecture and a two-hour lab each week. **Semester Hours:** 4 to 4 **GT Pathways Category Key:** GT-SS3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 1303 - Introduction to Biological Anthropology**

*Summer 2010 Registration ANTH 1303*
Introduces the study of human biological evolution, both processes and outcomes, from primate ancestors to fossil hominids to contemporary human populations. Methods of obtaining and interpreting data concerning the genetic, biological and evolutionary basis of physical variation in living and skeletal populations. Note: 3 hours of lecture and a 2 hour lab each week. **Semester Hours:** 4 to 4 **GT Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 2102 - Culture and the Human Experience**

*Summer 2010 Registration ANTH 2102*
An application of the concept of culture to several aspects of the human experience, including gender relations, emotion and personality, cognition, language, health and healing and economic behavior. In exploring these dimensions of the human experience, the course focuses on selected cultures from each of the world's major geographic areas. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SS3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 3006 - Development, Environment and Culture**
**Summer 2010 Registration**  
**ANTH 3006**  
Investigates theories, issues and problems in development and its relationship to social and environmental problems. Considers the connections between development and underdevelopment, the success and failures of development policies and five case studies in development. Prereq: Anthropology and microeconomics or macroeconomics.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 3301 - World Prehistory**  

**Summer 2010 Registration**  
**ANTH 3301**  
Explores 3.5 million years of human cultural development that examines the prehistory of Africa, Asia, Europe and the Americas. Patterns and processes that underlie the earliest hominid expansion out of Africa, tool use, origins of fire, the peopling of the Americas, the development of metallurgy, the domestication of plants and animals and the rise of cities and the state are examined. Emphasis is on both regional developments and landmark projects that have helped clarify prehistory. Prereq: Introductory course in archaeology.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 3512 - Human Evolution**  

**Summer 2010 Registration**  
**ANTH 3512**  
Provides an overview of the fossil and archaeological evidence for human origins. Theory and method in paleoanthropology is emphasized. The goal is to outline current knowledge of human biological evolution and the lifeways of our evolutionary relatives. Prereq: ANTH 1303.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 4030 - Ethnobiology**  

**Summer 2010 Registration**  
**ANTH 4030**  
Considers the relationship between human society and plants and animals in the natural world. Primary focus on the perception and cognitive organization of the environment and how that affects the definition and use of plants and animals as resources. Prereq: Introductory anthropology and/or biology. Cross-listed with ANTH 5030.  
**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 4060 - Evolutionary Medicine**  

**Summer 2010 Registration**  
**ANTH 4060**  
Applies evolutionary principles to an understanding of human health and illness. The view complements perspectives on health and disease emanating from biological and
social sciences, but considers the health or disease process from the perspective of pathogen and host, current and previous environments, and various phases of the life cycle. Prereq: ANTH 1303. Cross-listed with ANTH 5060, HBSC 4060 and 5060. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 4070 - Culture of Development and Globalization**

*Summer 2010 Registration ANTH 4070*

Anthropological critiques of development and globalization point out that they have occurred without regard for the diversity of human culture and human need. Beginning with this analysis, this course goes one step further by examining culture and values of development and how they affect the way development gets done. Prereq: Upper division standing and permission of instructor. Cross-listed with ANTH 5070. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 4170 - Culture and the Environment**

*Summer 2010 Registration ANTH 4170*

Examines the historical origins of Western and non-Western ideas of the environment and the place of people within it. The imposition of Western ideas on non-Western groups regarding environmental policy is also examined, with special attention given to practices of conservation, development and transnational monetary policy. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 5170. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 4220 - Community in Global Context**

*Summer 2010 Registration ANTH 4220*

Presents the community study method from the perspective of anthropology and as a widely applicable research technique in planning, development and other areas of public affairs. Also includes analyses of case studies and student field research. Prereq: Introductory course in cultural anthropology. Cross-listed with ANTH 5220. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 4250 - Culture Change in the Modern World**

*Summer 2010 Registration ANTH 4250*

Processes and dilemmas of culture change using macro-level theories as well as models of change for communities and individuals. Conceptual and practical problems of modernity relating to globalization, urbanization, environmental degradation and technological change. Prereq: At least one course in cultural anthropology. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
ANTH 4450 - Development and Conservation: Contemporary Issues

*Summer 2010 Registration* ANTH 4450

Applies the theoretical paradigms of political ecology to contemporary issues of sustainable development. Case studies are chosen illustrating topics based on faculty expertise and student interaction. The first part of the course presents theoretical perspectives relevant to the chosen topic. In the second half, students participate in directed problem solving activities. Prereq: ANTH 4070, ANTH 4170 and graduate standing or permission of instructor. Cross-listed with ANTH 5450. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 4460 - Development and Conservation: Theory and Practice

*Summer 2010 Registration* ANTH 4460

Examines the praxis of anthropological knowledge of human ecosystem interaction and development of economic opportunities. Issues of biodiversity, resource conservation, sustainable development and globalization are studied. Prereq: ANTH 4450 or permission of instructor. Cross-listed with ANTH 5460. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 4560 - Human Ecology

*Summer 2010 Registration* ANTH 4560

Studies demographic and ecological variables as they relate to human populations. Aspects of natural selection, overpopulation and environmental deterioration are considered. Prereq: Introductory course in biological or physical anthropology. Cross-listed with ANTH 5560. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Biology

BIOL 1550 - Basic Biology: Ecology and the Diversity of Life

*Summer 2010 Registration* BIOL 1550

Introduces important biological concepts, including: the process of science, biological diversity, evolution, basic ecological principles and environmental issues. Lectures emphasize current issues. Note: For students who are not majoring in biology. Biology and health career majors should not take this course. **Semester Hours:** 4to 4GT
**Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3330 - Plant Diversity**

*Summer 2010 Registration BIOL 3330*
Surveys all major plant groups using evolutionary and ecological principles to interpret patterns of diversity in form and function. Topics include reproduction and life cycles, adaptations and ecological interactions, paleobotany and biogeography, classification and taxonomy and evolution. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3411 - Principles of Ecology**

*Summer 2010 Registration BIOL 3411*
A lecture course that examines the interrelationships between organisms and their environments. Subject matter includes organism, population and ecosystem levels of study and application to current environmental issues. The emphasis is on the underlying principles of ecology that involve all types of organisms. Note: Satisfies core ecology requirement for biology major. May not be used as upper division biology elective. No co-credit with BIOL 3412. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3412 - Fundamentals of Applied Ecology**

*Summer 2010 Registration BIOL 3412*
Ecology is the science of interrelationships between organisms, including humans and their environment. This lecture course examines applications of ecological principles to human needs and environmental protection. Covers the ecology of humans and managed systems. Note: Satisfies core ecology requirement for biology major. May not be used as upper division biology elective. No co-credit with BIOL 3411. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 3521 - Vertebrate Biology**

*Summer 2010 Registration BIOL 3521*
The subphylum vertebrata consists of fish, amphibians, reptiles, birds and mammals--some of the most fascinating and most threatened species on earth. This course covers the geological record, evolution, taxonomy, anatomy, physiology, ecology and
conservation of these organisms. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 4154 - Conservation Biology**

**Summer 2010 Registration BIOL 4154**
Basic concepts and theories in population biology and genetics as they apply to issues relating to the preservation of biodiversity, such as the genetics of small populations, captive propagation, restoration ecology and the design of nature reserves. Prereq: Introductory ecology (BIOL 3411, 3412 or equivalent) with a grade of "C" (2.0) or higher. Cross-listed with BIOL 5154. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Business**

**MGMT 4950 - Special Topics in Management**

**Summer 2010 Registration MGMT 4950**
A number of different topics in management are offered under this course number. Consult the 'Schedule Planner' for current course offerings. Prerequisites vary depending on the topic and instructor requirements. Cross-listed with MGMT 5800. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

when offered as Business and Sustainability

**MKTG 4950 - Special Topics**

**Summer 2010 Registration MKTG 4950**
Courses offered on an irregular basis for the purpose of presenting new subject matter in marketing. Prerequisites vary depending upon the particular topic and instructor requirements. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
when offered as Nonprofit and Social Marketing

**Chemistry**

**CHEM 1474 - Core Chemistry: Chemistry For the Consumer**
Summer 2010 Registration  **CHEM 1474**
Focuses on the common household chemicals that affect US on a daily basis. Students learn the underlying chemistry of nuclear power, sunscreens, food, cleaning agents, etc. Home-based laboratory experiments with safe, common substances.  
**Semester Hours:** 4  
**GT Pathways Category Key:** GT-SC1  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 4700 - Environmental Chemistry**

Summer 2010 Registration  **CHEM 4700**
A discussion of the sources, reactions, transport, effects, and fates of chemical species in the water, soil, and air environments. Prereq: CHEM 3111 or 3411. Cross-listed with CHEM 5700.  
**Semester Hours:** 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CHEM 5700 - Environmental Chemistry**

Summer 2010 Registration  **CHEM 5700**
A discussion of the sources, reactions, transport, effects, and fates of chemical species in the water, soil and air environments. Prereq: CHEM 3111, 3411, and graduate standing. Cross-listed with CHEM 4700.  
**Semester Hours:** 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Communication**

**COMM 4282 - Environmental Communication**

Summer 2010 Registration  **CMMU 4282**
Studies the communication processes involved in policies and practices affecting natural and human environments. Cross-listed with COMM 5282.  
**Semester Hours:** 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**COMM 5282 - Environmental Communication**

Summer 2010 Registration  **CMMU 5282**
Studies the communication processes involved in policies and practices affecting natural and human environments. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4282.  
**Semester Hours:** 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Economics**

**ECON 4530 - Economics of Natural Resources**
Summer 2010 Registration ECON 4530
Examines economic models of renewable resource management and models of exhaustible resource depletion. Analyzes decisions made by private firms and governments affecting the methods and rate of resource development. Examines the effects of resource development on economic growth and environmental quality and the effects of economic development on resource scarcity. Prereq: ECON 2022. Cross-listed with ECON 5530. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 4540 - Environmental Economics

Summer 2010 Registration ECON 4540
Economic approach to environmental problems: relationship between ownership structures, externalities and environmental damage; poverty, population pressure, and environmental degradation; valuation of environmental amenities; sustainability of economic activity; cost-benefit analysis applied to the environment; evaluation of alternative instruments for environmental control. Prereq: ECON 2022. Cross-listed with ECON 5540. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 4770 - Economic Development--Theory and Problems

Summer 2010 Registration ECON 4770
Introduces theory and practice of economic development. Topics include development and growth models, economic planning, income distribution, human and capital resources, foreign investment and the multinationals, technology transfer, trade and development. Discussions of current issues regarding world debt, economic stabilization, the new protectionism, empirical studies, and examples of development in various countries. Prereq: ECON 2012 or ECON 2022. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 5530 - Economics of Natural Resources

Summer 2010 Registration ECON 5530
Examines economic models of renewable resource management and models of exhaustible resource depletion. Analyzes decisions made by private firms and governments affecting the methods and rate of resource development. Examines the effects of resource development on economic growth and environmental quality and the effects of economic development on resource scarcity. Prereq: ECON 5073. Cross-listed with ECON 4530. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 5540 - Environmental Economics
**Summer 2010 Registration** **ECON 5540**
Economic approach to environmental problems: relationship between ownership structures, externalities and environmental damage; poverty, population pressure, and environmental degradation; valuation of environmental amenities; sustainability of economic activity; cost-benefit analysis applied to the environment; evaluation of alternative instruments for environmental control. Prereq: ECON 5073. Cross-listed with ECON 4540. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Geography / Geology / Environmental Science**

**ENVS 1042 - Introduction to Environmental Sciences**

**Summer 2010 Registration** **ENVS 1042**
This laboratory or survey course develops a basic understanding of ecological relationships and environmental systems. Issues such as the effects of human activities on earth's environment, extinction or diversity, greenhouse effect, hazardous or toxic wastes and human population growth are discussed. **Semester Hours:** 4 to 4GT **Pathways Category Key:** GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENVS 1342 - Introduction to Environment and Society**

**Summer 2010 Registration** **ENVS 1342**
Overview of perspectives on environmental issues within the context of sustainable development and taking a systems approach. The focus is on social science approaches to explore the human footprint on the earth, environmentalism, scientific uncertainty, policy creation and social change. **Semester Hours:** 3 to 3GT **Pathways Category Key:** GT-SS2
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENVS 3082 - Energy and the Environment**

**Summer 2010 Registration** **ENVS 3082**
For students of various backgrounds who wish to increase their understanding of the environmental and technical issues of supplying the energy demands of our society. Alternative energy sources and conservation are explored as solutions to promote a sustainable society. Prereq: One course in college science or mathematics. Cross-listed with PHYS 3082. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 1202 - Introduction to Physical Geography**
**Summer 2010 Registration GEOG 1202**
The science that studies the processes, forms, and spatial or geographic structures of natural systems operating at or near the earth's surface, including weather, climate, and landform processes. **Semester Hours:** 3to 3
**GT Pathways Category Key:** GT-SC2
Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**GEOG 3302 - Water Resources**

**Summer 2010 Registration GEOG 3302**
Introduces water resources aimed at students with little or no background in the field. This is a broad course covering topics ranging from the physical aspects of water to water politics and international law. While the course is largely a lecture format, discussion of current issues is a significant part of the class. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**GEOG 3411 - Globalization and Regional Development**

**Summer 2010 Registration GEOG 3411**
Addresses global political-restructuring and its implications for regional development in the U.S. Both historical and contemporary processes of globalization are examined. Topics include: the environmental basis of American industrial growth, the relationship between technological change and geographical shifts, the rise and decline of Fordism, the transfer of Japanese manufacturing methods to the U.S., the role of regional and national industrial policy, and the social consequences of globalization for labor and communities. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**GEOG 4010 - Landscape Geochemistry**

**Summer 2010 Registration GEOG 4010**
A holistic approach to studying the role chemical elements play in synthesis/decomposition cycles, and the resultant environment from interaction of the lithosphere with the hydrosphere, atmosphere, biosphere, and pedosphere during geological and ecological timeframes, together with anthropogenic activities. Prereq: Introductory college-level physical geography or environmental science course or permission of instructor. Cross-listed with GEOL 4010/ENVS 5010. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**GEOG 4020 - Earth Environments and Human Impacts**
Summer 2010 Registration GEOG 4020
Basic concepts describing earth's biomes and physical environment are presented in a systems context. Global warming assessment, from both political and scientific perspectives, is then presented. Model visualization of these concepts to consider human impacts on Earth's biomes is discussed. Earth system viewpoint, having links of Earth's biomes to oceans and atmosphere, completes the course discussion. Prereq: GEOG 1202 and 3232 or permission of instructor. Cross-listed with ENVS 5020, GEOL 4020. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOL 4030 - Environmental Geology

Summer 2010 Registration GEOL 4030
Applies geological information to interactions between people and the physical environment. Increasing awareness of its importance in our society means that this is an expanding field as companies are required to address the environmental consequences of their actions. Prereq: Entry into MSES program, senior standing in sciences or geography, or permission of instructor. Cross-listed with ENVS 5030 and GEOL 5030. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4090 - Environmental Modeling with Geographic Information Systems

Summer 2010 Registration GEOG 4090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5090. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4230 - Hazard Mitigation and Vulnerability Assessment

Summer 2010 Registration GEOG 4230
Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 5230. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4265 - Sustainability in Resources Management

Summer 2010 Registration GEOG 4265
Sustainability and sustainable development are the dominant economic, environmental
and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 5265. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4335 - Contemporary Environmental Issues**

*Summer 2010 Registration GEOG 4335*
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 5335. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4350 - Environment and Society in the American Past**

*Summer 2010 Registration GEOG 4350*
Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 5350. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4640 - Urban Geography: Denver and the U.S.**

*Summer 2010 Registration GEOG 4640*
Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular emphasis is placed on the U.S. and Colorado's Front Range. Cross-listed with GEOG 5640. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 5090 - Environmental Modeling with Geographic Information Systems**

*Summer 2010 Registration GEOG 5090*
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 5230 - Hazard Mitigation and Vulnerability Assessment**

**GEOG 5230 - Hazard Mitigation**

*Summer 2010 Registration* Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 4230. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 5265 - Sustainability in Resources Management**

*Summer 2010 Registration* Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 4265. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 5335 - Contemporary Environmental Issues**

*Summer 2010 Registration* Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 4335. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 5350 - Environment and Society in the American Past**

*Summer 2010 Registration* Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 4350. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 5640 - Urban Geography: Denver and the U.S.**

*Summer 2010 Registration* Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular emphasis is placed on the U.S. and Colorado's Front Range. Cross-listed with GEOG 4640. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
History

HIST 3350 - Colonial Latin America

Summer 2010 Registration HIST 3350
Surveys the creation of colonial empires by Spain and Portugal, 1492-1808. Topics include Native American responses to European incursions, women in colonial society, and slavery in Latin America. Cross-listed with ETST 3350. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 3360 - Denver History

Summer 2010 Registration HIST 3360
Introduces the social, political, economic, and cultural life of this mile high metropolis. Founded in the 1858 gold rush, Denver has grown into a five-county metropolis of over two million. Explore this boom and bust history in lectures, slide shows and walking tours. This course offers students a chance to do their own primary source research project, as well as exams and book reports. Note: Open to all students. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 3366 - Environmental History of North America

Summer 2010 Registration HIST 3366
Examines the conversation that the peoples of North America have had with the earth, from Indian prehistory to modern industrial civilization. Out of the people-land dialogue has emerged a variety of cultures, some of which, as we shall see, successfully adapted to their environment, while others failed. Prereq: HIST 1361, 1362, 1381 or 1382. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 3451 - Introduction to African History

Summer 2010 Registration HIST 3451
By looking at specific examples of the cultural, political, and economic experience of African society, this course attempts to introduce and make comprehensive the diverse history of the people of Africa. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 3460 - Introduction to Latin American History
**Summer 2010 Registration HIST 3460**

Surveys the historical development of the modern Latin American countries, beginning with the independence movements of the early 19th century. Emphasizes the 20th century issues and problems that have characterized these countries and affected their relations with the United States. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 3470 - Introduction to Asian History**

**Summer 2010 Registration HIST 3470**

Introduces the origin and development of civilization in China, Japan and Korea. Explores the relationship between culture and civilization. Readings are drawn from literature, religion, philosophy, anthropology and history. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 3606 - Science, Technology, and Society in the Modern World**

**Summer 2010 Registration HIST 3606**

Examines the relationships among science, technology, and society from the early 19th century to the present. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4217 - Consumer Culture**

**Summer 2010 Registration HIST 4217**

This interdisciplinary course examines the dynamics of the consumer culture in the context of social, economic, and technological history. The analysis begins with 17th century European origins, and continues through recent world developments, emphasizing the U.S. since 1800. Note: Open to all students. Cross-listed with HIST 5217. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 4226 - U.S. Business History**

**Summer 2010 Registration HIST 4226**

Surveys the major changes in business practices from colonial times to the present. Primary emphasis is placed on the Industrial Revolution and after. Topics include the emergence of major personalities in the Industrial Revolution; the rise of giant corporations; the response of industrial labor unions; government intervention and regulations and the emergence of the post-industrial society. Cross-listed with HIST 5226. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
HIST 4227 - American West

Summer 2010 Registration HIST 4227
Introduces the diverse peoples, places, and approaches to the development of the trans-Missouri West from prehistoric times to the present. Cross-listed with HIST 5227. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4236 - Colorado Mining and Railroads

Summer 2010 Registration HIST 4236
Focuses on the transportation network that shaped the inland West, and its key role in the extractive industry that gave Colorado its start and nourished the highest state through adolescence. Cross-listed with HIST 5236. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4411 - Modern Mexico

Summer 2010 Registration HIST 4411
Designed to familiarize students with the critical issues in Mexican political, economic and social history. Traces the emergence of independence and the difficult consolidation of an independent nation state. Cross-listed with HIST 5411, ETST 4411. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4417 - Commodities and Globalization: Dessert in World History

Summer 2010 Registration HIST 4417
Traces the impact of "dessert commodities" (sugar, cacao, vanilla and coffee) on Latin America during an early period of globalization (nineteenth century). Explores cultural shifts in North Atlantic countries that created the incessant demand for dessert. Prereq: Senior or graduate student standing. Cross-listed with HIST 5417. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4421 - Modern China

Summer 2010 Registration HIST 4421
Surveys Chinese history in the modern era. Includes examination of Western domination of China; revolution and internal fragmentation of China; Japanese attacks and World War II; and civil war and the communist revolution. Cross-listed with HIST
**HIST 4431 - Modern Japan**

*Summer 2010 Registration HIST 4431*

Course of Japanese history since the Perry expedition. Covers Japanese Westernization and industrialization, the expansion of empire and defeat in World War II, the occupation, and the amazing technological and social transformation since the occupation years. Cross-listed with HIST 5431. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdnver.edu/registration.

**HIST 4451 - Southern Africa**

*Summer 2010 Registration HIST 4451*

An in-depth history of the clash of peoples and cultures in Africa south of the Zambezi River. African and Afrikaner political, economic and cultural development in a single land and the consequences of several competing nationalisms existing side by side are examined. Apartheid and African opposition to it are analyzed. Cross-listed with HIST 5451. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdnver.edu/registration.

**HIST 4461 - The Modern Middle East**

*Summer 2010 Registration HIST 4461*

Cross-listed with HIST 5461. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdnver.edu/registration.

**HIST 4501 - World History for Educators**

*Summer 2010 Registration HIST 4501*

Introduces world history for candidates for teaching positions. Discussion of themes, problems of research and interpretation, and relevant instructional methods. Prereq: Upper division standing. Cross-listed with HIST 5501. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdnver.edu/registration.

**HIST 4503 - Topics in History of Science**

*Summer 2010 Registration HIST 4503*

Themes vary from year to year. Possible topics: Darwinism, Nature of Memory, Time and Space, Origins. Cross-listed with HIST 5503. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdnver.edu/registration.
HIST 4504 - Animals in U.S. History

**Summer 2010 Registration** HIST 4504

Human-animal relationships offer powerful and unexpected perspectives on the American past. An eclectic range of readings and viewings, written assignments and contemplative experiences will contextualize contemporary practices, beliefs, and ethics -- vegetarianism, hunting, pet-keeping, and many others -- in historical context. Cross-listed with HIST 5504. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

---

Physics

**PHYS 3082 - Energy and the Environment**

**Summer 2010 Registration** PHYS 3082

For students of various backgrounds who wish to increase their understanding of the environmental and technical issues of supplying the energy demands of our society. Alternative energy sources and conservation are explored as solutions to promote sustainable society. Prereq: One college-level science course and MATH 1110 or equivalent. Cross-listed with ENVS 3082. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**PHYS 4850 - Physics for Design and Innovation I**

**Summer 2010 Registration** PHYS 4850

A service-learning project using fundamental physical principles to design a prototype scientific instrument, technical device, or technical process for a real-world client. Includes instruction on project management, intellectual property, and market analysis. Cross-listed with PHYS 5850. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**PHYS 4852 - Physics for Design and Innovation II**

**Summer 2010 Registration** PHYS 4852

A capstone project using fundamental physical principles to prototype a scientific instrument, technical device or technical process. The focus is on the student's own product idea. Includes online guided readings on the wider context of product development. Students should consult with instructor on necessary physics and mathematics preparation for the project. Prereq: PHYS 4850. Cross-listed with PHYS 5852. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
Note: PHYS 4850 is prerequisite for PHYS 4852

PHYS 5850 - Physics for Design and Innovation I

*Summer 2010 Registration PHYS 5850*
A service-learning project using fundamental physical principles to design a prototype scientific instrument, technical device, or technical process for a real-world client. Includes instruction on project management, intellectual property, and market analysis. Cross-listed with PHYS 4850. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 5852 - Physics for Design and Innovation II

*Summer 2010 Registration PHYS 5852*
A capstone project using fundamental physical principles to prototype a scientific instrument, technical device or technical process. The focus is on the student's own product idea. Includes online guided readings on the wider context of product development. Students should consult with instructor on necessary physics and mathematics preparation for the project. Prereq: PHYS 4850 or 5850. Cross-listed with PHYS 4852. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Note: PHYS 5850 is prerequisite for PHYS 5852

Philosophy

PHIL 4250 - Environmental Ethics

*Summer 2010 Registration PHIL 4250*
While human industry/technology creates enormous material prosperity, it can result in devastating environmental damage. This course analyzes the moral values, consequences and duties implied in relationships between human beings, animals and ecological systems, while seeking out new and ethical approaches. Cross-listed with PHIL 5250, HUMN 5250 and SSCI 5250. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHIL 5250 - Environmental Ethics

*Summer 2010 Registration PHIL 5250*
While human industry/technology creates enormous material prosperity, it can result in devastating environmental damage. This course analyzes the moral values, consequences and duties implied in relationships between human beings, animals and ecological systems, while seeking out new and ethical approaches. Cross-listed with
PHIL 4250, HUMN 5250 and SSCI 5250. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Political Science**

**PSCI 3034 - Race, Gender, Law and Public Policy**

*Summer 2010 Registration* P SC 3034
Historical overview of race and gender relations in the U.S. and an examination of the treatment of issues of race and gender in the judicial system and public policy. Cross-listed with WGST 3034. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 3035 - Political Movements: Race and Gender**

*Summer 2010 Registration* P SC 3035
Examines the emergence, growth, and decline of social movements for race and gender equality. Discussion of political issues of race and gender in the 1990s. Cross-listed with WGST 3035. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 3042 - Introduction to International Relations**

*Summer 2010 Registration* P SC 3042
Basic background and theories of international relations with focus on the interaction between nation states, international organizations, regimes and transnational movements. Themes examined include foreign policy conduct, international security and political economy, human rights and environmental management. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 3914 - The Urban Citizen**

*Summer 2010 Registration* P SC 3914
Course emphasis is community, the individual, and the good life. Experiential learning and classroom discussions about capacities of urban citizens. Focus is on social, political, and economic resources that individuals command, issues of equality and inequality, and possibilities of constructive change. Prereq: A willingness to spend a semester working and studying together as a team in both the classroom and the community. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PSCI 4009 - Politics of the Budgetary Process

Summer 2010 Registration P SC 4009
Develops each student's understanding of budgeting and financial management in the public and nonprofit sectors. An overview of public sector and nonprofit fiscal management is provided, along with thorough exploration of the political influences that affect financial decision-making. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4014 - Media and Politics

Summer 2010 Registration P SC 4014
Explores the impact of the news media on the American political system, including public policy and citizen participation, and addresses trends in news coverage and media ownership, and their impact on public opinion. Prereq: PSCI 1001 and 1101 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4025 - Local Governance and Globalization

Summer 2010 Registration P SC 4025
Introduces international political economy, consequences of globalization for localities, interplay between wealth and power among nations, multinational corporations, NGOs and the UN, and impact of their actions on local governments. Topics include development, aid, trade, outsourcing, eco-sustainability and global equity. Prereq: Graduate standing or permission of instructor. Cross-listed with PSCI 5025. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4085 - Comparative Public Policy

Summer 2010 Registration P SC 4085
Comparison of public policy making in such areas as health care, environment, family assistance, and employment in the United States and at least two other countries. Prereq: Graduate standing or permission of instructor. Cross-listed with PSCI 5085. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 4144 - Indigenous Political Systems

Summer 2010 Registration P SC 4144
Surveys political theory and practice in indigenous societies in the Americas. Examines the impact of indigenous political thought on Euro-American politics, especially the U.S. Constitution, and explores the contemporary impact of indigenous people on current
politics. Cross-listed with ETST 4144. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4206 - Social Movements, NGOs and Global Politics**

*Summer 2010 Registration P SC 4206*
Examines global social movements and NGOs as new political actors within world politics; how international relations' theoretical perspectives have addressed these actors; and the forms of interaction between these actors and institutions of global governance. Cross-listed with PSCI 5206. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4207 - Theories of Social and Political Change**

*Summer 2010 Registration P SC 4207*
Conservative, radical, and incremental approaches to change. Role of psychological and sociological factors in political change. Comparative perspectives on change. Self-perpetuation processes of power systems and their vulnerabilities. Requisites of system maintenance and system change. Selected case studies. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4215 - Women's Rights, Human Rights: Global Perspectives**

*Summer 2010 Registration P SC 4215*
Explores the global feminist movement's campaign to "engender" human rights. Examination of women's human-rights issues and the critique of this campaign as representing cultural imperialism. Prereq: Six hours of political science or instructor permission. Cross-listed with WGST 4215. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4217 - Human Rights in Theory and Practice**

*Summer 2010 Registration P SC 4217*
Explores the ideas of human rights and the practical efforts to actualize rights in society. Students study the theories of rights and the evolution of rights in history, as well as work with a service organization. Cross-listed with PSCI 5217. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4226 - The United Nations in World Affairs**

*Summer 2010 Registration P SC 4226*
Current operation and future potential of the United Nations as a complex actor in world affairs, both expressing conflicting interests of its participants and promoting universal goals, including world peace, human rights, and environmental protection. **Semester**
Hours: 3 to 3
Registration is changing. Visit our website for details ucdnver.edu/registration.

PSCI 4248 - Gender, Globalization and Development

Summer 2010 Registration P SC 4248
Analyzes the effects of globalization on the gendered processes of international development and strategies to empower women to achieve gender justice across race, class and national divisions. Cross-listed with PSCI 5245 and WGST 4248. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdnver.edu/registration.

PSCI 4324 - Politics, Public Policy and Leadership

Summer 2010 Registration P SC 4324
Role of politics in public and nonprofit sectors. Theories of administration and policy-making, emphasizing the role of leadership in public outcomes. Hands-on approach to case studies and use of students' policy experiences in practical application of theories. Cross-listed with PSCI 5324. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdnver.edu/registration.

PSCI 4326 - Advanced International Political Economy: Globalization

Summer 2010 Registration P SC 4326
Engages the current debate about globalization. Conceptualizes globalization and evaluates the pros and cons of global trade and finance for developed and developing countries. Develops a model for a sustainable and just global economy. Prereq: PSCI 4126. Cross-listed with PSCI 5326. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdnver.edu/registration.

PSCI 4354 - Environmental Politics

Summer 2010 Registration P SC 4354
Political, legal, and economic forces in environmental law and policy. Special emphasis on air and water pollution and on threats to public and agricultural land. Environmental groups and their opponents. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdnver.edu/registration.

PSCI 4365 - Global Ecological Crises

Summer 2010 Registration P SC 4365
Overview of global ecological problems such as climate change, transboundary pollutions, and loss of bio-diversity in an attempt to understand the political, economic, and cultural forces behind these problems and the status of legal and policy initiatives to
address them. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4374 - Public Priorities for the 21st Century**

**Summer 2010 Registration** P SC 4374
Identification of and planning for social, political, and economic trends in American society likely to transform governmental, nonprofit, and private entities. Rigorous examination of and debate on competing priorities such as liberty, security, welfare, equality, diversity, growth and ecology. Cross-listed with PSCI 5374. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4545 - Immigration Politics**

**Summer 2010 Registration** P SC 4545
Introduces students to central theories of migration and a survey of immigration law and policy in the 20th century. Highlights experiences of Mexican and Latin American immigrants and related topics, including: U.S.-Mexican foreign relations, bilingual education, undocumented immigration and globalization. Cross-listed with PSCI 5545. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4555 - International Women's Resistance**

**Summer 2010 Registration** P SC 4555
Examines local and international struggles of women to build peace and justice by resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Cross-listed with PSCI 5555, ETST 4555 and WGST 4555. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4645 - Comparative Political Leadership**

**Summer 2010 Registration** P SC 4645
Comparative study of historical, socio-cultural, and psychological bases of political leadership. Leadership types in peasant societies, empires, and revolutionary movements. Dilemmas of democratic versus authoritarian leadership in modernizing and industrial states. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**
Experiential learning course

Students choose a field study, internship, service learning or related travel study course.

Total: 3 Hours

Capstone

SUST 4960 - Capstone in Sustainability

Summer 2010 Registration SUST 4960
As the culmination of the Sustainability Minor, this course examines current research practices in sustainability and sustainability-related fields. Students work in teams to complete a sustainability/sustainability-related research paper and poster and present it to the campus community. Note: Topics variable depending on region under study, student interest, and faculty specialty. Prereq: SUST 3011. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 3 Hours

Total: 18 Hours

Theatre, Film and Television Minor

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177.

Students may transfer up to 6 semester hours of non-UC Denver courses toward a minor. All other courses must be taken at UC Denver. Each course must be completed with a C/2.0 or better. Students pursuing a BA or BFA in the Department of Theatre, Film and Video Production may not declare a minor in theatre, film and television. Consult a CAM advisor for further details.

Program Requirements

TFVP 1050 - Video Production/Post-Production I
Summer 2010 Registration TFVP 1050
Students gain a knowledge of single camera video techniques and are introduced to non-linear digital editing. Course work is hands-on and collaborative, with several projects shot and edited. Learning centers on storytelling, including pacing and aesthetics. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

TFVP 1100 - Introduction to Theatre, Film, and Television

Summer 2010 Registration TFVP 1100
An introduction to dramatic and cinematic texts, styles and productions; students will research and analyze a play and develop it into a film script. They will present their understanding by storyboards and multi-media presentations, exams and written work. Prereq: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

__Theatre, Film and Video Production Electives (12 semester hours)__

Chosen in consultation with department advisor

Select two courses from the following (in consultation with department advisor):

**FIILM 3070 - History of Silent Film Production**

Summer 2010 Registration FIILM 3070
Examines history of cinema from its 19th century origins until the introduction of sound. Studies important trends in the silent era, including the beginnings of film comedy, early documentary, origins of Hollywood narrative, avant-garde cinema, German Expressionism and Soviet Cinema. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FIILM 3080 - History of Sound Film Production**

Summer 2010 Registration FIILM 3080
Students learn various film genres from early sound period, through the present. Traces the development of the various Hollywood genres- and examines representative Hollywood films and major developments of American films from the post-studio period and filmmakers in other cultures. Note: TFVP majors and minors only, or permission instructor. Prereq: TFVP 1100. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
THTR 3610 - Performance: Theory/History/Criticism I

*Summer 2010 Registration THTR 3610*

Part one of two semester course sequence exploring questions of dramatic theory and dramaturgy in context of the development of Western Theater before 1850 and an analysis of historical modes of production, dramatic text and artistic creation in relation to contemporary theatrical practice. Prereq: THTR 1100 or FILM 1100 or permission of instructor. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

THTR 4610 - Performance: Theory/History/Criticism II

*Summer 2010 Registration THTR 4610*

Part two of course sequence exploring questions of dramatic theory and dramaturgy in context of development of Western Theater after 1850 and an analysis of historical modes of production, dramatic text and artistic creation in relation to contemporary theatrical practice. Note: TFVP majors and minors only, or permission of instructor. Prereq: TFVP 1100. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 24 Hours**

**Urban and Regional Planning Minor**

The undergraduate planning minor in the Department of Geography and Environmental Sciences provides nongeography undergraduate students the opportunity to pursue studies in the professional field of planning. Geography majors can pursue the urban studies option, so this minor would not be available to these majors.

Geography and urban and regional planning share a common concern for the spatial configuration of the places that we inhabit and enjoy. In recognition of this close association, there is currently an articulation agreement between the Department of Geography and Environmental Sciences and the College of Architecture and Planning that provides students with a mechanism for acceleration through the master of urban and regional planning (MURP) degree program, if accepted into that graduate program. Those students completing the requirements for an undergraduate planning minor may also be eligible to pursue an accelerated MURP degree.

To meet the requirements for this minor, students must complete three core requirements and two electives, totaling 15 semester hours. Although the three core courses may be taken in any order, it is advisable to begin with GEOG 1602, since this
course familiarize students with many key concepts used in other classes. All core courses are offered on a yearly basis.

Program Requirements

Required Core

GEOG 1602 - Introduction to Urban Studies

Summer 2010 Registration GEOG 1602
Surveys the process of urbanization, emphasizing the development of American cities and using Denver as an example. Topics covered include the evolution of metropolitan form and land use patterns, cultural landscape formation, city planning and architectural design, and urban social and policy issues. **Semester Hours:** 3 to 3
**GT Pathways Category Key:** GT-SS2
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4640 - Urban Geography: Denver and the U.S.

Summer 2010 Registration GEOG 4640
Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular emphasis is placed on the U.S. and Colorado's Front Range. Cross-listed with GEOG 5640. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4840 - Independent Study: GEOG

Summer 2010 Registration GEOG 4840
Independent research primarily for undergraduate majors. Prereq: Permission of department. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

(Take as topic: Urban Sustainability)

Total: 9 Hours

Electives
Choose two:

**GEOG 4000 - Planning Methods I**

*Summer 2010 Registration GEOG 4000*

Focuses on the application of statistical, quantitative, and mathematical techniques and computer applications for urban and regional planning and policy development. Major topics include types of data, sampling, basic probability distributions, hypothesis testing, regression and correlation, and an introduction to multivariate and cluster analysis. Applications in planning and development are emphasized. Cross-listed with URPL 5510. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**URPL 5510 - Planning Methods I**

*Summer 2010 Registration URP 5510*

Focuses on application of methodological techniques commonly used in planning practice. Course covers data collection, management, analysis, communication and presentation. Major topics include primary/secondary data analysis, database construction, descriptive and inferential statistics, sampling, probability distributions, hypothesis testing, and correlation. Cross-listed with GEOG 4000. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing**

*Summer 2010 Registration GEOG 4060*

An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5060, GEOL 4060, GEOL 5060. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing**

*Summer 2010 Registration GEOG 5060*

An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 4060, GEOL 4060, 5060. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
GEOG 4080 - Introduction to GIS

Summer 2010 Registration GEOG 4080
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 5080. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4085 - GIS Applications for the Urban Environment

Summer 2010 Registration GEOG 4085
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The selection of specific topics is flexible, based on the interests of enrolled students. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5085. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 5080 - Introduction to GIS

Summer 2010 Registration GEOG 5080
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Cross-listed with GEOG 4080. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 5085 - GIS Applications for the Urban Environment

Summer 2010 Registration GEOG 5085
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The selection of specific topics is flexible, based on the interests of enrolled students. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5085. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4090 - Environmental Modeling with Geographic Information Systems

Summer 2010 Registration GEOG 4090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 5090. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

OR

GEOG 5090 - Environmental Modeling with Geographic Information Systems

Summer 2010 Registration GEOG 5090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4090. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4095 - Deploying GIS Functionality on the Web

Summer 2010 Registration GEOG 4095
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of instructor. Cross-listed with GEOG 5095. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

OR

GEOG 5095 - Deploying GIS Functionality on the Web

Summer 2010 Registration GEOG 5095
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of instructor. Registration is changing. Visit our website for details ucdenver.edu/registration.
GEOG 4230 - Hazard Mitigation and Vulnerability Assessment

*Summer 2010 Registration GEOG 4230*
Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 5230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

GEOG 5230 - Hazard Mitigation and Vulnerability Assessment

*Summer 2010 Registration GEOG 5230*
Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 4230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4235 - GIS Applications in the Health Sciences

*Summer 2010 Registration GEOG 4235*
Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor. Cross-listed with GEOG 5235, HBSC 7235. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 5235 - GIS Applications in the Health Sciences

*Summer 2010 Registration GEOG 5235*
Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor.
GEOG 4400 - Regional Economic Development

Summer 2010 Registration GEOG 4400
Examines the economies of metropolitan, rural, state, and national regions, placing each within the fabric of global relations that direct capital, manage productive activities, and govern prosperity's geography. Organized both sectorally and spatially, the course addresses key sectors of the emerging global economy, as well as the rationale of the "entrepreneurial" state at the public-private interface. Posits institutional approaches and professional roles in the management of regional economies. Seeks in theory a template of regional change, and both the means and purpose of policy intervention. Finds in strategic planning, an integration of developmental and environmental perspectives. Prereq: URPL 5520 or permission of instructor. Cross-listed with URPL 6671. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4630 - Transportation Planning I: Transport Network Analysis

Summer 2010 Registration GEOG 4630
Examines several important aspects of the transport network: accessibility and connectivity of nodes and linkages and the volume and direction of the flow of a transport network. Descriptive, predictive, and planning methods and models discussed include graph theoretical measures, connectivity matrices, gravity model, abstract mode model, entropy-maximization, trip generation model and flow allocation models. Prereq: URPL 5510 or permission of instructor. Cross-listed with URPL 6673. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 4990 - Special Topics

Summer 2010 Registration GEOG 4990
**Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

URPL 5501 - Planning Issues and Processes

Summer 2010 Registration URPL 5501
Provides an overview of planning history and theory. The philosophical, political, and economic roots of the various theories are discussed. Ideas are placed in the context of the planning profession's history and its present aims, interests, and ethics. **Semester**
Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6 Hours

Minor Total: 15 Hours

Entrance Requirements

All undergraduate students, except geography majors, are eligible for this minor.

Performance Requirements

Students must complete 15 semester hours in geography and/or planning. Because of the professional nature of this minor and the potential for fast-tracking in the MURP program, 12 semester hours of upper-division courses are required. Students must achieve a grade of C (2.0) or higher in required courses. All upper-division courses must be completed at the Downtown Campus and a minimum of 9 semester hours must be completed in CLAS (geography) to satisfy residency requirements.

Women’s and Gender Studies Minor

The women’s and gender studies minor gives students the opportunity to explore gender issues in the humanities and social sciences. To minor in WGST, a student must complete 18 semester hours in WGST courses with a grade of C or better. At least 12 semester hours for the WGST minor must be taken with UC Denver faculty, and all courses for the minor must be approved by a WGST advisor.

Requirements for the Minor

1. Required Course: WGST 1050 (3 semester hours)

This course provides an introduction to key concepts, themes and approaches to the interdisciplinary field of women’s and gender studies. It helps students develop an overall framework for WGST in which to place their electives and internship.

WGST 1050 - Introduction to Women's and Gender Studies

Summer 2010 Registration WGST 1050
This course provides an introduction to key concepts, themes and approaches to the
interdisciplinary field of women's and gender studies. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

2. **WGST-related courses at the 3000 level or above (12 semester hours)**

These courses combine humanities and social science fields. Advisor approval is required for course selection. Students are strongly urged to take at least one course that focuses on women's and gender issues in international perspective. Courses which are eligible for WGST credit include (but are not limited to):

**Humanities**

**ENGL 3450 - Twentieth Century Women Writers**

*Summer 2010 Registration ENGL 3450*

Examines how women write about a specific theme, such as home, work, family, the "Other," as well as how women's writing may differ from men's. Theme and genre vary. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with WGST 3450. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4510 - Whores and Saints: Medieval Women**

*Summer 2010 Registration ENGL 4510*

Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Prereq: Nine hours of literature courses or instructor permission. Cross-listed with ENGL 5510, RLST 4730 and RLST 5730, WGST 4510. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FREN 4510 - French Women Writers**

*Summer 2010 Registration FR 4510*

Designed to explore writings by French and Francophone women from the Middle Ages to the present. Addresses the question of what it means to be a woman and want to write. The selections include a wide variety of genres: autobiographical writings, stories, poems, manifestos, letters, political and historical documents. Prereq: FREN 3112 or 3122 plus one other 3000-level French course or permission of instructor. Cross-listed with FREN 5510 and WGST 4511. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
HIST 3343 - Women in U.S. History

*Summer 2010 Registration HIST 3343*
An analysis of women's place in society, in the work place, and in the political arena over the last 300 years. Cross-listed with WGST 3343.*Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4230 - Women in the West

*Summer 2010 Registration HIST 4230*
Focuses on ways in which women, from the mid-19th century through the mid-20th century, of different races, classes, and ethnic background, have interacted and been active participants in the development of the Western states. Cross-listed with HIST 5230 and WGST 4230.*Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4303 - Sex and Gender in Modern Britain

*Summer 2010 Registration HIST 4303*
Examines modern British history by focusing on sex and gender as central aspects in people's lives. Considers the ways gender shapes the realms of politics, economics, society and culture in Britain from the 18th century to the present. Cross-listed with HIST 5303 and WGST 4303.*Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4307 - History of Sexuality

*Summer 2010 Registration HIST 4307*
Explores the relationships between gender and norms, sexual practice, and ideas about sexuality in Europe and the United States. Examines how sex and sexuality have changed over time and how those changes relate to social, cultural, political and economic history. Cross-listed with HIST 5307 and WGST 4307.*Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 4345 - Gender, Science, and Medicine: 1600 to the Present

*Summer 2010 Registration HIST 4345*
Examines the ways science and medicine have both shaped and been shaped by ideas about gender. Pays particular attention to the relationship between scientific/medical ideas about the sexes and the social organization of gender. Cross-listed with HIST 5345.*Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PHIL 3500 - Ideology and Culture: Racism and Sexism

Summer 2010 Registration PHIL 3500
Surveys the nature and role of racism and sexism. Topics may include ideology theory, naturalism, the equal protection clause, recent scientific discussion, sociolegal history, and social constructionism. Cross-listed with WGST 3500. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHIL 4933 - Philosophy of Eros

Summer 2010 Registration PHIL 4933
Why is philosophy an erotic activity and what are the implications of this insight? We will explore these issues, first, by reading Plato's erotic dialogues: Lysis, Symposium and Phaedrus. Then we will focus on Freud's influential (and controversial) appropriation of Plato’s thought in the writings that span his career, from The Interpretation of Dreams (1900) to Civilization and its Discontents (1930) and beyond. Finally, we will survey post-Freudian theories of eros, such as Michel Foucault's History of Sexuality, as well as the more recent contributions of thinkers such as Jonathan Lear, Thomas Nagel, Martha Nussbaum and Slavoj Zizek. Cross-listed with WGST 4933, PHIL 5933, SSCI 5933, and HUMN 5933. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RLST 4420 - Goddess Traditions

Summer 2010 Registration RLST 4420
Explores the many forms which goddesses have assumed through history, including the Neolithic Great Mother and her heiresses in the ancient Mediterranean cultures, such as: Isis, Ishtar, Demeter, Hecate, Aphrodite, Artemis, Athena and others, and their parallels in India. Goddess traditions have encompassed a full spectrum from virgins to Great Mothers to dark underworld goddesses of death and destruction. Cross-listed with RLST 5420 and WGST 4420. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPAN 4540 - Race, Class, and Gender in Spanish Golden Age Literature

Summer 2010 Registration SPAN 4540
Explores works of various genres in relation to their social and political contexts in 16th and 17th century Spain, emphasizing the cultural attitudes toward race, class, and gender that inform them. Prereq: SPAN 3252 and at least one additional literature course. Cross-listed with SPAN 5540 and WGST 4540. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

WGST 4306 - Survey of Feminist Thought
Summer 2010 Registration **WGST 4306**
Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 4306, 5306, HIST 4306, 5306, WGST 5306. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**ENGL 4306 - Survey of Feminist Thought**

Summer 2010 Registration **ENGL 4306**
Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 5306, HIST 4306, 5306, WGST 4306, 5306. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**HIST 4306 - Survey of Feminist Thought**

Summer 2010 Registration **HIST 4306**
Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 4306, 5306, HIST 5306, WGST 4306, 5306. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**Social Sciences**

**ANTH 4200 - Gender in Cross-Cultural Perspective**

Summer 2010 Registration **ANTH 4200**
A comparative analysis of gender-based status and social roles of women and men, with women's status and roles emphasized due to their near-universal construction as the "Other" sex. Examines in cross- and sub-cultural context the relations among women's status and their subsistence and reproductive activities; and the division of labor by sex, ideology and political economy. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 5200. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
ANTH 4260 - Human Reproductive Ecology

Summer 2010 Registration ANTH 4260
Considers the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, marriage patterns, birth seasonality, duration of birth intervals and reproductive senescence. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 5260. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 4020 - Feminist Perspectives on Communication

Summer 2010 Registration CMMU 4020
Introduces the communication theories of major feminist theorists such as Mary Daly, Bell Hooks, and Sonia Johnson, with a focus on how their theories challenge and transform current understandings of communication. Cross-listed with COMM 5020. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 4045 - Female-Male Friendships

Summer 2010 Registration CMMU 4045
Explores friendships between women and men across the life cycle and the role of communication in those friendships. Topics include how such friendships impact self-concepts, advantages of female-male friendships, and barriers to female-male friendships. Cross-listed with COMM 5045. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 4265 - Gender and Communication

Summer 2010 Registration CMMU 4265
Explores the relationship between gender and communication, including how language treats women and men differently and verbal and nonverbal differences in women’s and men’s communication. Cross-listed with COMM 5265. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 4268 - Communication and Diversity in U.S. History

Summer 2010 Registration CMMU 4268
Explores issues of diversity and community in the construction of U.S. culture. Emphasis on legal and historical texts that codify or challenge majoritarian notions of difference and systems of social control. Cross-listed with COMM 5268. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
COMM 4275 - Family Communication

**Summer 2010 Registration CMMU 4275**
Explores family communication processes in traditional and nontraditional families through examination of theories and research on the family. Topics include conflict, family secrets, decision decision-making, and practical guidelines for improved communication in families. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 3100 - Economics of Race and Gender

**Summer 2010 Registration ECON 3100**
Overview of the determinants of wages, employment and education in the labor market. Emphasizes the investigation of the evidence and theories of differentials that appear to be associated solely with race and sex, and public policies associated with discrimination and poverty. Prereq: ECON 2022. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 3400 - Economics of Sex and Drugs

**Summer 2010 Registration ECON 3400**
Examines the political and policy issues surrounding controversial topics in human behavior. Economic models and reasoning are applied to examine issues such as juvenile substance use and abuse, and teen pregnancy. Prereq: ECON 2022. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HBSC 3010 - Evolution of Human Sexuality

**Summer 2010 Registration HBSC 3010**
Surveys the biological and social evolution of human sexuality from an interdisciplinary perspective. Encourages critical thinking about human sexual behavior and challenges assumptions about sexuality. Students explore what happens when sexual behaviors that have evolved over the millennia mix with the cultural, political, and economic influences imposed by contemporary civilization. Prereq: Introductory courses in anthropology, biology, psychology, sociology or political science. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 3034 - Race, Gender, Law and Public Policy

**Summer 2010 Registration P SC 3034**
Historical overview of race and gender relations in the U.S. and an examination of the
treatment of issues of race and gender in the judicial system and public policy. Cross-listed with WGST 3034. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 3035 - Political Movements: Race and Gender**

*Summer 2010 Registration P SC 3035*
Examines the emergence, growth, and decline of social movements for race and gender equality. Discussion of political issues of race and gender in the 1990s. Cross-listed with WGST 3035. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4215 - Women's Rights, Human Rights: Global Perspectives**

*Summer 2010 Registration P SC 4215*
Explores the global feminist movement's campaign to "engender" human rights. Examination of women's human-rights issues and the critique of this campaign as representing cultural imperialism. Prereq: Six hours of political science or instructor permission. Cross-listed with WGST 4215. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4248 - Gender, Globalization and Development**

*Summer 2010 Registration P SC 4248*
Analyzes the effects of globalization on the gendered processes of international development and strategies to empower women to achieve gender justice across race, class and national divisions. Cross-listed with PSCI 5245 and WGST 4248. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4555 - International Women's Resistance**

*Summer 2010 Registration P SC 4555*
Examines local and international struggles of women to build peace and justice by resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Cross-listed with PSCI 5555, ETST 4555 and WGST 4555. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4564 - Gender and Politics**

*Summer 2010 Registration P SC 4564*
Analysis of the political experience of women and of strategies for change. Emphasis on
the U.S. Cross-listed with WGST 4564. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 4827 - Women and the Law**

*Summer 2010 Registration P SC 4827*
Examines the role of the courts in the development of public policy toward women; how the legal system affects the economic power, family roles, safety and political participation of women. Cross-listed with ETST 4827 and WGST 4827. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3235 - Human Sexuality**

*Summer 2010 Registration PSY 3235*
Examines the physiological, psychological, and social psychological bases of human sexuality. Research on the range of sexual behaviors, individual sexual response, sexual development, sexual dysfunction, and variants of sexual orientation. Prereq: PSYC 1000, 1005 and 2090, or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3405 - Family Psychology**

*Summer 2010 Registration PSY 3405*
Overview of theory and research pertaining to marital and family structure, functioning and dynamics. Prereq: PSYC 1005. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSYC 3611 - Psychology of Women**

*Summer 2010 Registration PSY 3611*
Reviews psychological theories and research of women's social, cultural, emotional and behavioral experience. Examines the sociocultural context of women's experience and explores women's socialization, developmental issues, cognitive abilities and achievement motivation, personality variables, stereotypes, psychological disorders, victimization, intimacy and sexuality. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
PSYC 3612 - Domestic Abuse

*Summer 2010 Registration PSY 3612*
Examines the nature and extent of domestic violence. Personal characteristics and dynamics that contribute to spouse abuse are reviewed. Theories and research in the general field of family violence, victims' and perpetrators' treatment, and child abuse are discussed. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SOCY 3010 - Sociology of Human Sexuality

*Summer 2010 Registration SOC 3010*
Increases the understanding of differences in views of sexuality, specifically the link between sex and reproduction and its role as the motivation for gender roles and sex acts. Explores the history of sexuality, cross-cultural studies and primate modeling. Cross-listed with WGST 3010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SOCY 3080 - Sex and Gender

*Summer 2010 Registration SOC 3080*
Causes and consequences of sex role differentiation at the individual, group and societal levels. Current issues related to changing norms and values concerning gender in modern society are examined. Cross-listed with WGST 3080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SOCY 3700 - Sociology of the Family

*Summer 2010 Registration SOC 3700*
The family as a social institution. Historical development and contemporary cross-cultural analysis, with emphasis on the contemporary American family. Cross-listed with WGST 3700. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SOCY 4120 - Popular Culture and the American Family

*Summer 2010 Registration SOC 4120*
A course in family sociology in which the ways American family is portrayed in the mass media and popular culture are studied. Even though the historical evolution of this reciprocal relationship is not ignored, the focus is on today's relevant issues. Cross-listed with SOCY 5120. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

See the WGST Web site for this semester's course offerings.
3. WGST Community Internship (3 semester hours)

An internship working in the community around issues related to women and gender. Working with a WGST advisor and the UC Denver Experiential Learning Center (ELC), students will choose an internship related to their interests in WGST. Through the ELC, students sign up for their internship under WGST 3939. Students will be required to complete a critical writing component comprising an ongoing log about the internship experience and an 8-10 page final paper discussing the interrelationships between the practical internship experience and the theoretical/scholarly insights of women’s and gender studies. Students may also choose to use WGST 2900, Smart Girl Leadership Training, in lieu of their internship and must follow the requirements of that course and practicum. Students must have taken WGST 1050 before enrolling for their internship.

WGST 3939 - Cooperative Education

*Summer 2010 Registration WGST 3939*

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

WGST 2900 - Smart Girl Leadership Training and Practicum

*Summer 2010 Registration WGST 2900*

Provides leadership and mentoring training, and a practicum in which UCD students mentor teenagers in their community or school settings. Following completion of the training, students work as near-peer mentors and coaches with groups of teenage girls in the Denver community and apply the skills learned in their training. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 18 Hours

Writing Minor

The writing minor allows students to complement their area of major study with systematic experience in writing.

Students minoring in writing must complete a total of 15 hours (excluding ENGL 1010, 1020, 2030). None of the required 15 hours may be taken pass/fail. Only courses
completed with a grade of C (2.0) or better may be counted toward the minor. A minimum of 9 upper-division hours of work in the minor must be taken with Downtown Campus English faculty.

Students are encouraged to take ENGL 1020 and ENGL 2030 before beginning the minor. (ENGL 2154 and ENGL 2030 can be taken concurrently.)

Courses

Required Courses

**ENGL 2070 - Grammar, Rhetoric and Style**

*Summer 2010 Registration ENGL 2070*

Teaches the basics of English grammar in order to develop a rhetorical and stylistic confidence in reading and writing, using an approach that is more descriptive than prescriptive. Teaches students how to evaluate the grammatical choices of established writers and how to develop flexibility in the grammatical choices they make in their own writing. Prereq: ENGL 1020 or equivalent. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4180 - Argumentation and Logic**

*Summer 2010 Registration ENGL 4180*

Explores the history of logic and its role in argumentation, studies various types of logical structures, and analyzes current uses of argumentation, with attention to writing arguments on current public issues. Prereq: ENGL 1020, 2030 and 2070. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4190 - Special Topic in Rhetoric and Writing**

*Summer 2010 Registration ENGL 4190*

Focuses on particular issues in rhetoric and writing as they pertain to reading and writing, including language and gender, language and culture, and language of political action. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5190. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 9 Hours**

**Distributed Course**
Choose one course from the following:

**ENGL 2154 - Introduction to Creative Writing**

*Summer 2010 Registration ENGL 2154*
Reading, discussing, writing short fiction and poetry in a workshop setting. Prereq: ENGL 1020. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**ENGL 3154 - Technical Writing**

*Summer 2010 Registration ENGL 3154*
Introduces the study and writing of technical documents. Emphasizes the processes, style, structure, and forms of technical writing. Attention is paid to audience analysis, organization, clarity and precision. Prereq: ENGL 1020. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**ENGL 3170 - Business Writing**

*Summer 2010 Registration ENGL 3170*
Focuses on the strategies and techniques of business writing, with emphasis on reader, message and form. Prereq: ENGL 1020. ENGL 2030 highly recommended. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3 Hours**

**Elective**

One 3000-/4000-level writing course.

**Total: 3 Hours**

**Minor Total: 15 Hours**

**Undergraduate Experiences**
First-Year Seminars

The Office of Undergraduate Experiences at UC Denver offers an optional program of first-year seminars (FYS) designed to assist students to successfully make the transition from high school to college, improve student retention and boost new student confidence. The FYS courses integrate rigorous academic content with academic skills such as library usage, campus resources, information literacy, time management, communication skills and career counseling.

Class size is capped at 24 students to facilitate interaction between student and instructor and to allow the instructor to serve as a mentor in the student's first semester of college. FYS classes engage students in active learning beyond the traditional classroom, laboratory or studio classes. In the FYS courses, students learn about themselves and their abilities. The experiences obtained from the FYS program aim to promote academic exploration and interdisciplinary learning, civic engagement, cultural awareness, leadership, problem solving and other professional skills.

WHY PARTICIPATE?

- higher first semester grades
- higher student satisfaction facilitated by small class size and a faculty mentor
- better utilization of campus resources paid for through student fees
- early exploration of career paths and a suitable major
- more likely to stay in college

Students are encouraged to use the FYS course to explore areas either within or outside their major. Students should work with their academic advisor during orientation to select an appropriate FYS course. All of the courses are 3 semester hours and count in the required core curriculum. Requirements vary slightly, but students should expect weekly writing and readings, participation in events outside the classroom including one service-learning activity and a final project.

Please visit our Web site for the current course offerings.

University Honors and Leadership Program

Director: Steven G. Medema
Office: 1047 Ninth Street Park
Telephone: 303-556-5297
Fax: 303-556-6744
University Honors and Leadership (UHL) is a program of excellence designed for outstanding students who have demonstrated superior achievement in academic performance and/or outstanding leadership qualities. The program is founded on the premise that the integration of rigorous programs of academic excellence and leadership education provides the ideal environment in which to develop the gifts of the next generation of leaders in academia, business, policymaking and service to communities local, national and global.

The UHL program is unique in integrating academic honors and leadership education within a highly selective learning community of outstanding students and faculty. The UHL program allows students to complement their major field of study with a traditional honors experience in the academic honors track or program of leadership education in the leadership studies track. Students move through the UHL program in cohorts that simultaneously promote community, teamwork and individual initiative. All of the UHL courses are multidisciplinary, reflecting our view that that the ability to effectively analyze the challenges faced in all sectors of society can be enhanced by the integration of appropriate pieces drawn from a broad base of perspectives and problem-solving skills. The UHL program complements this with an emphasis on the development of exceptional oral and written communication skills, projects that steep the students in sophisticated research methods and the opportunity to work in teams to solve practical problems in the community.

**The Academic Program**

UHL is a multidisciplinary cohort program consisting of 27 semester hours of course work to be completed over four years. The UHL courses will substitute for most of the UC Denver general core curriculum requirements.

UHL students are given the opportunity to pursue a traditional honors experience through the academic honors track of the UHL program or to focus on leadership education through the UHL leadership studies track. UHL students have a common first-year experience, taking a core of course work common to both tracks. The second and third years of the UHL program offer programs designed specifically for the academic honors and leadership studies tracks. The UHL students come together for a two-semester capstone research seminar in the fourth year.

**UHL Core**

The UHL Core is a body of courses the completion of which is required of all UHL students. The UHL core includes:

- UNHL 1100 Introduction to University Honors and Leadership
• UNHL 2755 UNHL Seminar
• ENGL 2030 - UHL: Core Composition II
• UNHL 4991: UHL Senior Research Seminar I (2 semester hours) (*currently under development*)
• UNHL 4992: UHL Senior Research Seminar II (2 semester hours) (*currently under development*)

Waiver of English 2030 requirement for UHL Students

All UHL students who have not previously received credit for English 2030 or its equivalent are required to complete a UHL section of English 2030. UHL students who have previously received credit for English 2030 or the equivalent will not receive additional UC Denver credit for English 2030 and so are not required to take the UHL section of this course. Students who believe that they are exempt from the English 2030 requirement should meet with the UHL Advisor to confirm this.

Credit Hour and Distribution Requirements for UHL Certification

UHL students are required to complete 27 student semester hours of UHL courses, including two (2) one-semester-hour UHL seminars, in order to graduate with UHL certification. Students who have previously received credit for English 2030 or the equivalent must complete 24 hours of UHL courses. In addition, students are required to structure their UHL curricula so that they satisfy the UC Denver core curriculum requirements within their UHL programs of study. Students should meet regularly with the UHL advisor in order to ensure that their UHL course work satisfies the necessary requirements for UHL certification and UC Denver graduation.

Academic Honors Track Requirements

The academic honors track offers a unique program for outstanding students entering UC Denver. The academic honors track provides a rigorous academic experience to complement the student’s major, provides an environment for lifelong learning and promotes self-discovery. Students will be exposed to complicated problems, competing perspectives and differing approaches to important topics. Undergraduate research will be emphasized in the academic honors track to prepare students for graduate school or any postbaccalaureate professional program.

The second and third year of the academic honors program will develop students’ core knowledge areas through the integration of humanities, arts, science, behavioral and social science, international perspectives and cultural diversity by way of multidisciplinary courses where students are exposed to complex multidimensional issues. Students continue to build and broaden their communication, analytical and
critical thinking skills. Students will learn to apply knowledge to new areas, expand their view of the world and develop sensitivity and appreciation of the arts, diversity and global society.

**A typical course of study for an Academic Honors track student is:**

**Year 1:**

UNHL 1100: Introduction to UHL (3 semester hours)

UNHL 2755: UHL Seminar (two semesters at 1 semester hour each)

English 2030-UHL: Core Composition II (3 semester hours)

**Years 2 and 3:**

Five UHL Academic Honors track electives (15 semester hours)

**Year 4:**

UNHL 4991: UHL Senior Research Seminar I (2 semester hours) *(currently under development)*

UNHL 4992: UHL Senior Research Seminar II (2 semester hours) *(currently under development)*

**NOTE:** Academic Honors track students may count one leadership studies track course toward their academic honors graduation requirements. Students who successfully complete the academic honors track will receive a university honors designation on their diploma and on their university transcript. The academic honors track complements, but does not replace, honors programs available in the student’s major. Students should consult advisors in their major as well as the UHL advisor for advice on honors sections. Meeting with advisors is encouraged during the first semester at UC Denver.

**Leadership Studies Track Requirements**

The leadership studies track is designed to develop skills and experiences that will prepare students for the new systems and challenges of leadership in corporate, institutional and public life. Leadership studies tracks work together to enhance their leadership abilities to meet the challenges of a world characterized by the increasing globalization of leadership responsibilities and the rapid change in what leaders need to
learn and know. They confront complex issues, individually and in leadership teams, while taking responsibility for becoming lifelong learners.

Students develop their leadership potential through self-guided learning strategies, practical team projects, theory-based seminars, contact with outstanding leaders and individualized mentoring. The leadership studies track is designed to create a collaborative learning environment where students work in action-oriented teams on innovative solutions to practical issues.

A typical course of study for a leadership studies track student is:

Year 1:
UNHL 1100: Introduction to UHL (3 semester hours)
UNHL 2755: UHL Seminar (two semesters at 1 semester hour each)
English 2030-UHL: Core Composition II (3 semester hours)

Years 2 and 3:
Five UHL Leadership Studies track electives (15 semester hours)

Year 4:
UNHL 4991: UHL Senior Research Seminar I (2 semester hours)
UNHL 4992: UHL Senior Research Seminar II (2 semester hours)

NOTE: Leadership track students may count one academic honors track course toward their leadership studies graduation requirements. Students who successfully complete the leadership studies track will graduate with a minor in leadership studies.

UHL Graduation Requirements

To graduate with the appropriate UHL designation (university honors or a minor in leadership studies), students are required to satisfy the course and semester hour requirements specified above and must have a GPA of 3.50 or higher in their UHL courses. No grade below B- (2.70) in a UHL course will count toward the UHL graduation requirements.

Admission
Admission to the UHL program is competitive. In addition to meeting published requirements for admission to UC Denver, students must have a high school GPA, class ranking and SAT/ACT scores commensurate with an honors educational experience. For example, we would expect that applicants would rank in the top 10 percent of their high school class and/or have scored in the 90th percentile or above on the SAT/ACT.

Students who wish to be considered for admission to the UHL program must submit the following application materials:

- A completed UHL application form
- A written essay
- 3 letters of recommendation
- High school transcripts and transcripts for all college-level work completed to date
- SAT and/or ACT scores

We require a personal interview with all students who are selected as finalists for admission.

Applicants for admission to the UHL program should show evidence of ability and desire to:

- Take responsibility for their own learning, for self-discovery and for personal and intellectual growth.
- Learn about and understand diverse, competing perspectives, viewpoints and values
- Profit from varied modes of learning
- Become responsible and contributing members of the UHL program, of the university and of society

Application information can be found on the UHL Web site at: www.ucdenver.edu/UHL.

**Transfer Student Admissions**

The UHL program may admit a limited number of transfer students into the UHL program, contingent on the availability of slots in the UHL cohorts. Students may transfer into the UHL program for the second semester of their freshmen year or the first semester of their sophomore year.

Students wishing to apply for admission to the UHL program after the first semester of the freshman year must follow the standard UHL application procedures. In addition, prospective transfer students should include with their application materials copies of transcripts for all college-level work completed to date.
Applicants for transfer admission into the UHL program will be evaluated by the UHL admissions committee on the same basis as traditional UHL admissions candidates, and transfer admissions are subject to the availability of slots in the UHL cohort.

Transfer students are required to complete 27 semester hours of UHL courses, including the UHL core, in order to graduate with UHL certification. The requirement is 24 semester hours for students who have already received credit for English 2030 or its equivalent.

Graduate Degree Programs

Accounting MS

Program Director: Michael Roberts
Telephone: 303-315-8460
E-mail: Michael.Roberts@ucdenver.edu

Faculty

Professors:
Bruce Neumann, PhD, University of Illinois

Associate Professors:
Gary Colbert, PhD, University of Oregon
Carol Dee, PhD, Louisiana State University
L. Ann Martin, PhD, University of Minnesota
Michael Roberts, PhD, Georgia State University

Assistant Professors:
George F. Klersey, PhD, University of Southern California
Mary Malina, PhD, University of Colorado Boulder
Robert Nieschwietz, PhD, Arizona State University

Senior Instructors:
Elizabeth Connor, MS, Colorado State University
Robert Hockenbury, MS, University of Houston

Instructors:
The master of science in accounting offers three specializations plus a flexible program which allows students to design individualized courses of study. The program provides students the opportunity to acquire a thorough understanding of financial and managerial accounting, auditing and taxation in preparation for successful careers in public or private accounting, as well as government or nonprofit accounting.

Students completing the MS in accounting will complete:

- 6 semester hours of required accounting course work
- 12 semester hours of elective accounting course work*
- 9 semester hours of a secondary business area
- 3 semester hours of a free accounting elective.

*The elective course work can be selected from graduate accounting courses or by selecting one of the three specializations offered within the program. Students who select the accounting and information systems audit and control (AISAAC) specialization have completely different requirements which are listed under that specialization.

A. Background Accounting Courses*

The MS in accounting also requires completion of the following undergraduate accounting prerequisites.

Must be completed with a grade of B- or higher plus a cumulative GPA of 3.0. Students with grades below a B may be subject to probation.

Required Courses:

**ACCT 2200 - Financial Accounting and Financial Statement Analysis**

*Summer 2010 Registration ACCT 2200*

The financial accounting process, the role of the profession and the analysis of financial statements. Principal focus on interpretation of financial statements, with emphasis on asset and liability valuation problems and the determination of net income. Prereq: MATH 1070 and sophomore standing. A grade of 'C' or better is required in this course to proceed to ACCT 2220. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 2220 - Managerial Accounting and Professional Issues**
**Summer 2010 Registration ACCT 2220**
Introduces managerial accounting. Shows managers how to use accounting information to make decisions. Principal focus on cost behavior analysis, budgeting and product costing. Prereq: ACCT 2200 with a grade of ‘C’ or better and sophomore standing. Strictly enforced. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 3054 - Accounting Systems and Data Processing**

**Summer 2010 Registration ACCT 3054**
The design and analysis of accounting information systems, with special emphasis on computers and computer programming, and the role of accounting in the role of accounting in the management process. Must earn a grade of ‘C’ or better to qualify for graduation. Prereq: Completion of ACCT 2220 and ISMG 2050 with a grade of ‘C’ or better (Strictly enforced). **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 3220 - Intermediate Financial Accounting I**

**Summer 2010 Registration ACCT 3220**
An intensive analysis of generally accepted accounting principles, accounting theory and preparation of annual financial statements for public corporations. Must complete course with a 'C' to qualify in graduation requirements. Prereq: Completion of ACCT 2220 with a grade of 'C' or better. Strictly enforced. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 3230 - Intermediate Financial Accounting II**

**Summer 2010 Registration ACCT 3230**
Selected topics not covered in ACCT 3220. Must complete course with a grade of 'C' to qualify in graduation requirements. Prereq: ACCT 3220, completed with a grade of a 'C' or better. Strictly enforced. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 3320 - Intermediate Cost Accounting**

**Summer 2010 Registration ACCT 3320**
Cost analysis for purposes of control and decision making. Analysis of cost behavior, role of accounting in planning and control, and managerial uses of cost accounting data. Includes use of computer assisted decision models. Must receive a ‘C’ grade to qualify in
graduation requirements. Prereq: ACCT 2220, and DSCI 2010 completed with a grade of 'C' or better. Strictly enforced. **Semester Hours:** 3

**When Offered:** FASPRSUM

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 4620 - Auditing**

**Summer 2010 Registration** ACCT 4620

Generally accepted auditing standards and the philosophy supporting them; auditing techniques available to the independent public accountant. Pertinent publications of the AICPS reviewed. Note: Students cannot receive credit for both ACCT 4620 and ACCT 6020. Prereq: ACCT 3230 must be completed with a grade of a 'C' or better. Strictly enforced. Cross-listed with ACCT 6020. **Semester Hours:** 3

**When Offered:** FALL SPR

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 15-21 Hours**

*Waived for students with appropriate background. BUSN 6550, Analyzing and Interpreting Accounting Information, may be substituted for ACCT 2200 and ACCT 2220. International course work waivers are by petition only.

Accounting courses may be taken by nondegree or non-matriculated students.

**B. Common Body of Knowledge (CBK)**

Based on prior course work, students may be required to take up to three background courses. The following are suggested:

**BUSN 6540 - Legal and Ethical Environment of Business**

**Summer 2010 Registration** BUSN 6540

Students develop a working knowledge of legal and ethical parameters for business decision making. The course addresses the legal system and mechanisms for resolving disputes. Topics include constitutional law, torts, product liability, contracts, property law, consumer protection, intellectual property, business entities and employment law. It stresses the influence of legal issues on organizational decision making. Note: Students can substitute ENTP 6822 but credit cannot be received for both. Health Administration students must take BUSN 6541. **Semester Hours:** 3

**When Offered:** FASPRSUM

Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6620 - Applied Economics for Managers**

**Summer 2010 Registration** BUSN 6620

After taking this course, students should be able to apply economic principles to make
optimal decisions given firm cost, demand and market circumstances. Also, they should be able to analyze the firms interactions with its competitive market environment. Students will learn basic aspects of federal macroeconomic policy designed to achieve stable prices and economic growth. Also, they will learn to understand the measurement of output (GDP), employment and prices; the conduct of monetary and fiscal policy; and the balance of trade. Prereq: BUSN 6530 or FNCE 6290 and BUSN 6550, both may be taken concurrently. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6640 - Financial Management

Summer 2010 Registration BUSN 6640
This course is concerned with the business firm's decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students will learn to evaluate a firm's financial position through the examination of its financial statements and to prepare pro forma statements for the firm. Prereq: BUSN 6530 or FNCE 6290, BUSN 6620 (both may be taken concurrently) and BUSN 6550 completed prior and strictly enforced. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

C. MS Accounting Core

Required Courses (all students)

(6 semester hours)

ACCT 6250 - Seminar: Financial Accounting

Summer 2010 Registration ACCT 6250
Nature and origin of accounting theory and the development of postulates, principles and practices. Methodology appropriate to development and evaluation of accounting theory, with special emphasis on accepted research standards and procedures. Prereq: ACCT 3230 and ACCT 4620 or ACCT 6020 or concurrent registration in ACCT 4620 or ACCT 6020. Semester Hours: 3 to 3 When Offered: FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

ACCT 6260 - Seminar: Managerial Accounting

Summer 2010 Registration ACCT 6260
Focuses on the conceptual foundations of managerial accounting. Behavioral and quantitative approaches regarding information for decision making, planning, control, performance evaluation and other issues are investigated. Prereq: ACCT 3320 or ACCT
Accounting Electives

(12 semester hours)

To design an individualized course of study, choose four accounting courses with three of those accounting courses numbered 6260 or higher.

Or, you may select one of the three following specializations to meet this elective requirement.

D. Accounting Specializations

If you select one of the three following specializations, you will complete the required courses, complete four of the choices within your selection of specialization, complete the secondary area and complete a free elective.

Auditing and Forensic Accounting Specialization

Complete the required courses and choose four of the following courses:

ACCT 6280 - Professional Judgment and Decision Making in Accounting

Summer 2010 Registration ACCT 6280
Accounting is a process of providing economic information useful for decision making. This course provides (1) an opportunity to develop professional judgment skills, and (2) tools to make better decisions through an active, case-oriented learning method. Cases involve representative problems professional accountants face in financial reporting, audit, tax, business services, and practice management, including ethical conflicts and technical decisions. Participants learn to apply a structured decision model, incorporating critical, creative, evaluative and reflective judgment processes and learn how to recognize and avoid common decision errors and biases. Prereq: ACCT 4620 (or equivalent) or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ACCT 6340 - Financial Statement Analysis

Summer 2010 Registration ACCT 6340
Financial statements are used as an information source on which to base investment,
lending potential or even employment. Designed to develop skills in using, understanding, analyzing, and interpreting financial statements and to make students aware of the value and limitations of financial statement information. Note: Should take in the third semester of the graduate program. Prereq: BUSN 6550 or equivalent. **Semester Hours:** 3to 3 **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 6350 - Current Issues in Professional Accounting**

*Summer 2010 Registration ACCT 6350*
An in-depth analysis of current issues in the accounting profession, including ethics development, and validity of standards and regulations. Prereq: ACCT 3230, ACCT 4620, ACCT 6020 or permission of instructor. **Semester Hours:** 3to 3 **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 6380 - Forensic Accounting**

*Summer 2010 Registration ACCT 6380*
An examination of investigative auditing, fraud auditing, litigation support, and economic quantification of damages. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 6470 - Internal Auditing**

*Summer 2010 Registration ACCT 6470*
Intro course for business students and CIA candidates. Topics include: IA fundamentals; IA standards; internal controls; managing the IA department; IA working papers, procedures and evidences; fraud detection and prevention; ethics; evaluation of the IA function, and Sarbanes-Oxley Act of 2002. Prereq: BUSN 6550 or equivalent. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 6510 - Accounting and Information Systems Processes and Controls**

*Summer 2010 Registration ACCT 6510*
The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. Focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: ACCT 3054 or ISMG 3000 or equivalent professional experience. Cross-listed with ACCT 4780, ISMG 4780 and 6510. **Semester Hours:** 3to 3 **When
ACCT 6620 - Advanced Auditing

Summer 2010 Registration ACCT 6620
Development of auditing as a profession, including evolution of standards and audit reports. Historical and contemporary literature in the field reviewed. Prereq: ACCT 4620 or ACCT 6020 or equivalent. Semester Hours: 3 to 3 When Offered: FALL SPR

ACCT 6024 - Advanced Financial Accounting

Summer 2010 Registration ACCT 6024
Advanced financial accounting concepts and practice with emphasis on accounting for partnerships, business combinations and consolidations. Prereq: ACCT 3230 or equivalent. Cross-listed with ACCT 4240. Semester Hours: 3 to 3 When Offered: FALL SPR

ACCT 6080 - Accounting for Government and Nonprofit Organizations

Summer 2010 Registration ACCT 6080
Nonprofit Organizations. Planning and control of government and nonprofit organizations. Includes program budgets, responsibility accounting and fund accounting. Prereq: ACCT 3220 or BUSN 6550 or permission of instructor. Cross-listed with ACCT 4800. Semester Hours: 3 to 3 When Offered: SPRING

ACCT 6280 - Professional Judgment and Decision Making in Accounting

Summer 2010 Registration ACCT 6280
Accounting is a process of providing economic information useful for decision making. This course provides (1) an opportunity to develop professional judgment skills, and (2) tools to make better decisions through an active, case-oriented learning method. Cases involve representative problems professional accountants face in financial reporting, audit, tax, business services, and practice management, including ethical conflicts and technical decisions. Participants learn to apply a structured decision model, incorporating critical, creative, evaluative and reflective judgment processes and learn how to recognize and avoid common decision errors and biases. Prereq: ACCT 4620 (or...
equivalent) or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 6340 - Financial Statement Analysis**

*Summer 2010 Registration ACCT 6340*
Financial statements are used as an information source on which to base investment, lending potential or even employment. Designed to develop skills in using, understanding, analyzing, and interpreting financial statements and to make students aware of the value and limitations of financial statement information. Note: Should take in the third semester of the graduate program. Prereq: BUSN 6550 or equivalent. **Semester Hours:** 3 to 3 **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 6350 - Current Issues in Professional Accounting**

*Summer 2010 Registration ACCT 6350*
An in-depth analysis of current issues in the accounting profession, including ethics development, and validity of standards and regulations. Prereq: ACCT 3230, ACCT 4620, ACCT 6020 or permission of instructor. **Semester Hours:** 3 to 3 **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 6370 - International Accounting**

*Summer 2010 Registration ACCT 6370*
Designed to expose students to the international aspects of accounting and financial management. Includes discussion of some of the different financial accounting practices across countries; financial statement analysis in a global context, international auditing practices and procedures, international tax implications and the implications of operating within the regulations of the Foreign Corrupt Practices Act, the European Union, North American Free Trade Agreement and General Agreement on Tariffs and Trade. Prereq: BUSN 6550 or equivalent. Note: Students cannot receive credit for both ACCT 6370 and INTB 6370. IFRS's are reviewed and compared with the requirements of US GAAP. Cross-listed with INTB 6370 and ACCT 4370. **Semester Hours:** 3 to 3 **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

*Three of the courses must be selected with course numbers above ACCT 6260.*

**Taxation Specialization**
Complete the required courses and choose four of the following courses:

ACCT 6140 - Tax Planning for Managers

*Summer 2010 Registration* ACCT 6140
A Federal tax survey course with an emphasis on tax planning for the graduate student who wants to understand the impact of taxation on individual and business transactions. Course materials emphasize the application of individual, partnership and corporate tax principles to the decision making process. Prereq: BUSN 6550 or equivalent. Note: Students cannot receive credit for both ACCT 4410 and 6140. Cross-listed with ACCT 4410. *Semester Hours: 3* 
*When Offered: FALL SPR*
Registration is changing. Visit our website for details ucdenver.edu/registration.

ACCT 6410 - Advanced Tax For Individuals

*Summer 2010 Registration* ACCT 6410
An advanced federal individual income tax course stressing the methodology used in tax research and in tax planning. Includes use of specialized tax software to address compliance and planning issues by solving complex case-type real-life situations. Prereq: ACCT 4410 or 6140 (or equivalent). *Semester Hours: 3* 
*When Offered: SPRING*
Registration is changing. Visit our website for details ucdenver.edu/registration.

ACCT 6420 - Advanced Tax for Businesses

*Summer 2010 Registration* ACCT 6420
An advanced federal tax course stressing research and tax planning issues of corporate and partnership entities. Includes use of specialized tax software to address compliance and planning issues by solving complex case-type, real-life situations. Prereq: ACCT 4410 or 6140 (or equivalent). *Semester Hours: 3* 
*When Offered: FALL*
Registration is changing. Visit our website for details ucdenver.edu/registration.

ACCT 6430 - International Taxation

*Summer 2010 Registration* ACCT 6430
International taxation focuses on the U.S. taxation of international transactions, including a review of the taxation systems in several countries. Includes different forms of doing business in several countries (e.g. in the U.S., would include sole proprietorship, partnerships, limited liability companies and corporations), the ease of operating each form of business, identifying how business owners are protected from the business liabilities and risks and the different, if any, tax treatments afforded each form of business. Other topics include a review of tax rates, consumption regimes (e.g. value -
added taxes), the taxation of U.S. expatriates, the tax consequences of repatriating profits to the U.S., the application of any tax treaties with the U.S. and related tax matters. **Semester Hours:** 3 to 3  
**When Offered:** SUMMER  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 6450 - Research Problems in Income Tax Accounting**

**Summer 2010 Registration ACCT 6450**  
Study of the methodology used in tax research and tax planning, together with a study of some aspects of tax administration and tax practice and some aspects of the current law and proposals for its revision. Note: This class is rarely offered. Prereq: ACCT 4410 or ACCT 6410 or permission of instructor. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 6460 - Advance Topics in Taxation**

**Summer 2010 Registration ACCT 6460**  
Course will focus on advanced topics in tax planning for closely held businesses. Format: Lectures by expert tax professionals and questions/discussion on various topics with emphasis on current issues and trends. Prereq: ACCT 6140. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.  
Three of the courses must be selected with course numbers above ACCT 6260.

**E. Secondary Area**

(9 semester hours)

Accounting is increasingly diverse and linked to many business decisions. Accountants may eventually work as systems designers, chief financial officers, cost analysts, budget officers or chief executive officers. Students will be better prepared for their careers if they develop competencies in a related field, which may be chosen from a single discipline such as finance, information systems, entrepreneurship, health administration, marketing or management. The accounting faculty strongly encourage students to gain additional expertise in finance and/or information systems.

Alternatively, a self-designed secondary area might best achieve a student’s individual objectives (must be approved by the program director). A self-designed secondary field must have a common theme or objective if it crosses several disciplines. For example, a secondary area in information systems might include an accounting technology course, a data base management course and a finance technology course. On the other hand, a finance secondary area might include two finance courses and a cost management (accounting) course or a strategic management course. When a BUSN course is a
prerequisite for a secondary area, it can be included in the secondary area by petition only. Consult a schedule planner for information about current course offerings and a current catalog for course descriptions.

**F. Free Accounting Elective**

*(3 semester hours)*

Select one graduate accounting course numbered above ACCT 6000.

**G. Total: 30 Hours**

**Accounting and Information Systems Audit and Control (AISaac) Specialization**

Recently, new regulatory environments have required companies to provide better documentation of their accounting and IT systems to improve the management and disclosure of their business processes for better financial and regulatory controls. Accounting and IT professionals have significant roles in audit and control activities, since they control the systems that monitor and report on finance, planning and operations. The courses within this specialization cover business-process management and financial controls; the emerging trends and practices in privacy and security; the strategies for integrating governance and compliance; and the IT organization’s financial and business intelligence services. These courses will focus on how to leverage the existing IT infrastructure to establish quality in financial and internal audit processes and address the regulatory issues associated with reporting, consolidation and document/content management more effectively and completely.

As you will notice the complete 30 semester hour requirements for this specialization are listed below.

**Accounting Core**

*(9 semester hours)*

**ACCT 6250 - Seminar: Financial Accounting**

*Summer 2010 Registration ACCT 6250*

Nature and origin of accounting theory and the development of postulates, principles and practices. Methodology appropriate to development and evaluation of accounting theory, with special emphasis on accepted research standards and procedures. Prereq: ACCT 3230 and ACCT 4620 or ACCT 6020 or concurrent registration in ACCT 4620 or
ACCT 6020. **Semester Hours:** 3 to 3  **When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

ACCT 6260 - Seminar: Managerial Accounting

*Summer 2010 Registration* ACCT 6260
Focuses on the conceptual foundations of managerial accounting. Behavioral and quantitative approaches regarding information for decision making, planning, control, performance evaluation and other issues are investigated. Prereq: ACCT 3320 or ACCT 6070 (or equivalent). **Semester Hours:** 3 to 3  **When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

ACCT 6620 - Advanced Auditing

*Summer 2010 Registration* ACCT 6620
Development of auditing as a profession, including evolution of standards and audit reports. Historical and contemporary literature in the field reviewed. Prereq: ACCT 4620 or ACCT 6020 or equivalent. **Semester Hours:** 3 to 3  **When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

**AIS AAC Common Courses**

*(12 semester hours)*

Choose four of the following courses:

ACCT 6020 - Auditing

*Summer 2010 Registration* ACCT 6020
Generally accepted auditing techniques and the philosophy supporting them; auditing techniques available to the independent public accountant. Pertinent publications of the AICPA reviewed. Prereq: ACCT 3230 with a grade of ‘C’ or better and ACCT 3054, strictly enforced. Cross-listed with ACCT 4620. **Semester Hours:** 3 to 3  **When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

ACCT 6510 - Accounting and Information Systems Processes and Controls

*Summer 2010 Registration* ACCT 6510
The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. Focuses on financial and information system internal controls and the flow of corporate information through an
accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: ACCT 3054 or ISMG 3000 or equivalent professional experience. Cross-listed with ACCT 4780, ISMG 4780 and 6510. Semester Hours: 3 to 3

When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6510 - Accounting and Information Systems Processes and Controls

Summer 2010 Registration ISMG 6510
Designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. Focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach issued to present concepts and techniques for evaluating the adequacy of system processes and controls. Cross-listed with ACCT 6510, 4780 and ISMG 4780. Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6040 - Business Process Management

Summer 2010 Registration ISMG 6040
Designing effective information systems for business requires an awareness of the organization(s) business processes and how to manage and streamline them. The objectives of the course are for students to understand the importance of business processes; the main types of business processes; and the evolution of business process management; business process outsourcing; business process re-engineering; business process redesign; technology enabled business processes; and automated workflow. An important activity is graphically mapping business processes, which are transformed into an application or set of applications. The organization needs to manage the electronic workflow to monitor that the work gets done and allow changes to the workflow. Case studies of organizations are studied for most topics to enhance understanding. The group projects let students apply their knowledge of the course to a specific organization. By the end of this course students should have an appreciation of the important process-centric issues in business systems design. Semester Hours: 3 to 3

When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6420 - Global Enterprise Systems

Summer 2010 Registration ISMG 6420
Examines the evolution of global enterprise systems - from internally focused enterprise resource planning (ERP) client or server systems to externally focused eBusiness. Studies the types of issues managers need to consider in implementing cross-functional integrated enterprise systems. Examines the general nature of global enterprise
computing, re-engineering principles and the technical foundations of client or server
systems and enterprise information architectures. Students learn about the global
to make students aware of the
potential value and limitations of financial statement information. Note: Should take
in the Graduate Systems Marketplace. Topics include the tools and methodology, modules,
processes and industry initiatives. Finally, the course looks into the future and predicts
trends. The objective of the course is to make students aware of the
to base investment, lending potential or even employment. Designed to develop skills in using,
understanding, analyzing, and interpreting financial statements and to make students
Semester Hours: 3 to 3 When Offered: FALL

Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6080 - Database Management Systems

Summer 2010 Registration IMSG 6080
The success of today's business often hinges on the ability to utilize critical information
to make the right decisions quickly and efficiently. Transforming mountains of data into
critical information to improve decision making is a skill every business decision maker
must possess. This focus course covers the database design topics with a focus on
enabling business decision making. Detailed topics include collecting, capturing,
querying and manipulating data (using SQL and QBE) for simple to medium complex business applications. Commercial database products (e.g. ORACLE and ACCESS) are utilized to demonstrate the design of database applications in management, marketing, finance, accounting, and other business areas. Students will be able to design and implement simple to medium complex database applications after successful completion of this course. **Semester Hours:** 3 to 3  
**When Offered:** FALL

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6180 - Information Systems Management and Strategy**

**Summer 2010 Registration ISMG 6180**

The effective use of information technology requires the alignment of competitive strategies, business processes, and IT applications. In this course, we take a top management perspective to the development of policies and plans that maximize the contribution of IT to organizational goals. We begin by examining the systems that support the operational, administrative, and strategic needs of organizations. We then investigate the approaches used to manage the IT function, taking into account legacy and emerging technologies. The vital role of the CIO and project champions are explored. Note: Students cannot receive credit for both ISMG 6180 and BUSN 6610. Cross-listed with BUSN 6610. **Semester Hours:** 3 to 3  
**When Offered:** FASPRSUM

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6430 - Information Systems Security and Privacy**

**Summer 2010 Registration ISMG 6430**

Designed to develop knowledge and skills for security of information and information systems within organizations. Focuses on concepts and methods associated with planning, designing, implementing, managing, and auditing security at all levels and on all systems platforms, including enterprise systems. This course presents techniques for assessing risk associated with accidental and intentional breaches of security as well as disaster recovery planning. Prereq: ISMG 6180 or BUSN 6610 (6810). **Semester Hours:** 3 to 3  
**When Offered:** SPRING

Registration is changing. Visit our website for details ucdenver.edu/registration.

Principal Licensure

Master of Arts Degree

Education Specialist Degree

Executive Leadership Administrator Licensure Program

Faculty

For information about faculty in this area, visit www.ucdenver.edu/education/alps.

The primary responsibility of the administrative leadership and policy studies (ALPS) faculty is to prepare leaders for public education in Colorado and the nation. Currently, the principal license is required for people seeking building-level administrative positions in Colorado.

Principal Licensure Program

ALPS offers course work that leads to the initial license for principal. Having earned an initial license, those who have obtained a master’s degree and who go on to complete a district sponsored induction program may then be awarded a professional license by the Colorado Department of Education.

ALPS’s 32 semester-hour principal licensure program is project-based, requiring students to present evidence of meeting both state and national standards through performance based assessments. A 400-hour clinical-practice experience is integrated throughout the four-semester program.

Students develop a portfolio during the principal licensure program. Portfolios not finalized by the end of the fourth semester must be completed within the two subsequent semesters (not including summer).
Note: Those already holding a principal license and master's degree should see the Executive Leadership Program (below) for pursuing administrator licensure.

Denver Metro-Area Cohorts

Denver metro-area cohorts are delivered in four 8-semester-hour courses over four consecutive semesters. Cohorts start at one or more locations each semester and involve a combination of regular in-person meetings (up to 15 times per semester) and online work.

EDUC 5751 - Principal/Administrator Licensing I Semester Hours: 5 to 9
EDUC 5752 - Principal Administrator Licensing II. Semester Hours: 5 to 9
EDUC 5753 - Principal/Administrator Licensing III. Semester Hours: 5 to 9
EDUC 5754 - Principal or Administrator Licensing IV. Semester Hours: 5 to 9

Total: 32 Hours

Distance-Learning Cohorts

Distance-learning cohorts start each summer in June with a weeklong boot camp in Denver, meet over several intensive weekends during the subsequent fall and spring semesters and end with a weekend the following summer. Online work is completed in between the in-person sessions. Distance-learning cohorts are delivered in three 9-semester-hour courses and one 5-semester-hour course:

EDUC 5751 - Principal/Administrator Licensing I. Semester Hours: 5 to 9
EDUC 5752 - Principal Administrator Licensing II. Semester Hours: 5 to 9
EDUC 5753 - Principal/Administrator Licensing III. Semester Hours: 5 to 9
EDUC 5754 - Principal or Administrator Licensing IV. Semester Hours: 5 to 9

Total: 32 Hours

MA Program

The MA is designed for those who do not already hold a graduate degree. Usually master's students will complete 9 semester hours beyond the 32 required in the licensure program, for a total of 41 semester hours of course work after the bachelor's degree.

For the MA degree, students must select at least one course in each of the following three areas:

Section A: Educational Research
RSEM 5100 - Basic Statistics Semester Hours: 3
RSEM 5200 - Introduction to Research Methods Semester Hours: 3
RSEM 5300 - Introduction to Measurement Semester Hours: 3

**Section B: Educational Foundations/Multicultural Education**

FNDS 5050 - Critical Issues in American Education. Semester Hours: 3
FNDS 5500 - Contemporary Philosophies of Education. Semester Hours: 3
FNDS 5410 - History and Philosophy of Modern Education. Semester Hours: 3
LALC 5140 - Multicultural Education Semester Hours: 3
LALC 5150 - Culture of the Classroom Semester Hours: 3
LALC 5160 - Historical and Legal Foundations of Bilingual Education Semester Hours: 3

**Section C: Educational Psychology/Special Education**

EDUC 5400 - Special Education Seminar for Principals. Semester Hours: 3
EPSY 5100 - Advanced Child Growth and Development. Semester Hours: 3
EPSY 5110 - Human Learning. Semester Hours: 3
EPSY 5140 - Advanced Adolescent Growth and Development. Semester Hours: 3
EPSY 5160 - Behavior Disorders in Exceptional Children. Semester Hours: 3
EPSY 5200 - Social Psychology of Learning. Semester Hours: 3
SPED 5140 - Advanced Assessment in Special Education. Semester Hours: 3
SPED 5180 - Curriculum Planning for Students with Special Needs. Semester Hours: 3
SPED 5400 - Advanced Seminar in Special Education. Semester Hours: 3
SPED 5600 - Special Education for School Professionals. Semester Hours: 3

Candidates must also successfully complete a comprehensive exam paper, reflecting on how the three MA classes will help them in the role of principal or administrator.

**EdS Program**

The EdS degree program affords the opportunity for advanced graduate study and is available to those who already hold a master's degree. Generally for the specialist degree students will complete 9 semester hours that constitute an area of focus, in addition to the 32 required in the licensure program. Candidates must also successfully complete a comprehensive exam paper, reflecting on how the three EdS classes will help them in the role of principal or administrator.

**Administrator Licensure - Executive Leadership Program**
Designed for the professional educator who, already holding a principal license and master's degree, wishes to obtain an initial administrator license in Colorado and prepare for a career as a superintendent or other district leader. This one-year, 12-semester-hour certificate program combines weekend meetings with online work and hands-on clinical practice—usually completed in participants' home districts. Learn more at www.ucdenver.edu/education/elp.

Additional Program Information

Individuals interested in any of these programs are encouraged to contact ALPS faculty. Conferences prior to application are encouraged and welcomed. Following admission, students are expected to maintain frequent contact with assigned advisors to plan, develop and complete their programs of study.

Candidates must also successfully complete a comprehensive exam paper, reflecting on how the three MA classes will help them in the role of principal or administrator.

**EdS Program**

The EdS degree program affords the opportunity for advanced graduate study and is available to those who already hold a master's degree. Generally for the specialist degree students will complete 9 semester hours that constitute an area of focus, in addition to the 32 required in the licensure program. Candidates must also successfully complete a comprehensive exam paper, reflecting on how the three EdS classes will help them in the role of principal or administrator.

**Administrator Licensure - Executive Leadership Program**

Designed for the professional educator who, already holding a principal license and master's degree, wishes to obtain an initial administrator license in Colorado and prepare for a career as a superintendent or other district leader. This one-year, 12-semester-hour certificate program combines weekend meetings with online work and hands-on clinical practice—usually completed in participants' home districts. Learn more at www.ucdenver.edu/education/elp.

**Additional Program Information**

Individuals interested in any of these programs are encouraged to contact ALPS faculty. Conferences prior to application are encouraged and welcomed. Following admission, students are expected to maintain frequent contact with assigned advisors to plan, develop and complete their programs of study.

**Anthropology, MA**

- Graduate School Rules apply to this program.

**Plans of Study**

MA students may pursue the thesis or non-thesis option.
• **Thesis Option:** A thesis is characterized by three factors: 1) it is based in a research question or problem; 2) it involves original research; 3) there is a fully developed research proposal. A thesis can also encompass a range of format alternatives to the traditional thesis (e.g. article submitted for publication to a peer-reviewed journal, or a video production, internship or museum exhibit, each generally accompanied by a companion paper developing a theoretical or problem-oriented question). The thesis option requires 30 semester hours, including 4-6 hours of thesis.

• **Non-Thesis Option:** This track is defined by additional course work in lieu of a thesis. The non-thesis option requires 36 semester hours of course work.

**Thesis Option**

The thesis is a major requirement for those in the MA in anthropology thesis track. The thesis should demonstrate the student’s ability to apply knowledge and skills gained from the anthropology department’s curriculum. A desirable goal for an excellent thesis would be a work of sufficient rigor and quality that it could be considered for publication.

Original data collection ("fieldwork") is recommended but not required for the thesis. Analysis of secondary data—whether quantitative, qualitative, visual or other formats—is perfectly acceptable as long as the research is informed by a clearly articulated research question and under-girded by a research proposal.

The traditional thesis is a single document that often incorporates a literature review, definition of a problem, discussion of methods to address the problem, the subsequent research activity and results. However, the student may design a thesis with different emphases, in consultation with their advisor. For example, the goal may instead be a more compact paper submitted to a peer-reviewed journal. Other thesis plans may combine some research activity such as a video production, museum exhibit or an internship, with an accompanying paper. Students pursuing the thesis option must develop a topic and research proposal that specifies their plans in the semester after their completion of 18 credit hours.

The thesis must be defended before a committee of three faculty, at least two of whom need to be on the Department of Anthropology faculty (which includes senior instructors and research faculty). The structure of the thesis is largely determined by the University of Colorado Denver Graduate School Rules; i.e., a thesis must conform to the rules.

1. For the thesis, students must prepare a full research proposal which must be approved by their thesis chair before beginning their research. This proposal must be completed by the semester after the student has completed 18 credit hours. Sections of the proposal should include, at a minimum:
   a. Introduction and statement of the problem: Should include a one sentence statement of the problem on the first page, and a discussion of its significance (i.e., why is it important that this topic be researched).
b. Literature review covering theoretical and topical material.
c. Research design and methods including a data analysis plan.

Note: Wenner-Gren and National Science Foundation both provide good models and templates for the research proposal. Those in the medical anthropology track might want to consider following the NIH model, depending the nature of their research questions and career goals.

2. All students proposing to work with humans or data on modern humans must apply for and receive approval from the Human Subjects Research Committee before they begin their research. Note: most of the material for the application will be drawn from the research proposal.

3. The draft thesis must be reviewed and approved as “defensible” by the student’s thesis committee faculty chair before a thesis defense date can be set. Defensible means the chair has reviewed the draft and suggested changes have been made.
   a. The draft sent to the student’s committee must be substantively complete: All references must be in the text and properly formatted in a references cited section; there should be no “track changes” comments in the text; the text should be formatted according to Graduate School requirements.
   b. Given the complexity of faculty and student schedules, consultation on a defense date should be done as far in advance as possible.
   c. There must be a minimum of three weeks between the agreed-upon date for the defense and distribution of the draft thesis defined as defensible by the student’s chair. If you would like feedback from your committee members before the defense, you should plan to distribute the thesis at least 4 weeks before the defense date.

Note: If you intend to graduate the same semester you defend your thesis, you must schedule, successfully defend, and complete all recommended changes in accordance with UC Denver Thesis and Dissertation Guidelines. This effectively translates to having the thesis completed and “defensible” before the middle of the semester.

Non-Thesis Option

The non-thesis option allows students to pursue their own educational goals through the selection of additional courses that fit their interests. We strongly encourage students who choose this option to consider an internship position arranged around an area of expertise or the development of a skill-set. The decision to pursue the non-thesis option should be made by the semester following the completion of 18 credit hours.

Additional Information
Students must maintain an overall GPA of 3.0 to remain in good standing and receive a grade of B- or better in a course to have it count toward graduation. The Graduate School on the Downtown Campus requires a minimum of two full years devoted to advanced study and allows up to five years to complete a master's degree, but students are strongly discouraged from spending more than four years. While it is possible to finish the MA in two years, most of our students work part-time, which limits the time they can dedicate to the program; most finish within three years. All students are required to pass a written comprehensive examination, taken after core course work has been completed.

Some students may benefit from adding a specific skills-based certificate program onto their graduate program. For example: archaeology students may wish to gain expertise in Geographic Information Systems through the GIS certificate offered through the Department of Geography and Environmental Sciences, while medical anthropology students may benefit through the certificate in public health offered through the School of Public Health or the environmental health certificate through the Master of Science in Environmental Sciences program. Graduate-level courses in certificate programs can often fulfill elective requirements in the anthropology program.

Two doctoral programs on the UC Denver campus that may be of particular interest to graduates of the anthropology graduate program are the National Science Foundation funded IGERT program on Sustainable Urban Infrastructure, and the PhD in Health and Behavioral Sciences offered through the Department of Health and Behavioral Sciences. Both are highly interdisciplinary and are natural extensions of a master's degree in anthropology.

Course Requirements

Your graduate anthropology education begins by taking ANTH 5810, Integrating Anthropology, plus two core courses that together encompass contemporary theory in anthropology. These are followed by three courses in research methods and techniques, including statistics. You are required to take the core series in two of the three subdisciplines. After completing this core, you will select from among the specialized elective courses in the research concentrations described in more detail below. You will work closely with an advisor in selecting the range of courses appropriate both to a problem orientation and to your career objectives.

Tier One: A Survey of Theoretical Perspectives in Contemporary Anthropology

*Required in fall of first year*
ANTH 5810 - Integrating Anthropology

*Summer 2010 Registration ANTH 5810*

Designed to build on specialized course work in the subdisciplines of anthropology, this course emphasizes the basic concepts that integrate and unite the discipline and give it unique perspective. These are the concepts of culture, adaptation and human evolution. In the last several weeks of the course, students consider the applicability of the anthropological perspective to specific human issues. Note: Centers on the critical examination and discussion of presentations made by department faculty and graduate students. Cross-listed with ANTH 4810. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose two:

ANTH 6103 - Current Theory in Ethnography

*Summer 2010 Registration ANTH 6103*

An in-depth inquiry into important theories in cultural anthropology through extensive primary source reading. Practice in formulating theory, critical thinking and theoretical writing are emphasized. Note: First course in a two-course required graduate sequence. Prereq: Undergraduate course work in cultural anthropology. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 6307 - Contemporary Perspectives in Archaeology

*Summer 2010 Registration ANTH 6307*

Explores contemporary theoretical methodological perspectives in archaeology. Structured to proceed from a survey of the history of archaeological thought based on recent retrospectives, to an analysis of works reflecting current perspectives and directions. Topics include: archaeological interpretation, classical versus scientific archaeology, versus culture-history, functionalist and materialist paradigms, ethno-archaeological and text-based studies, neo-evolutionism, interactionist models, Marxist perspectives, processual theory. Prereq: Undergraduate course work in archaeology. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 6503 - Biological Anthropology Core: The Fossil Record

*Summer 2010 Registration ANTH 6503*

Examines the historical development and modern practice of biological anthropology, including the theoretical and methodological foundations of this field. Emphasis is placed on the evidence for human and non-human primate evolution and the processes that
influenced this evolution. Prereq: Graduate standing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 9 Hours

**Tier Two: Methods of the Discipline**

*All students must complete or demonstrate competence in subjects covered by the following:*

**ANTH 5053 - Quantitative Methods in Anthropology**

*Summer 2010 Registration ANTH 5053*
Surveys the ways of deriving meaning from anthropological data by numerical means, including, but not confined to basic statistical procedure. Prereq: College-level algebra and graduate standing. Cross-listed with ANTH 4050. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose two:

**ANTH 6063 - Qualitative Research Design and Methods**

*Summer 2010 Registration ANTH 6063*
Much of the data collected in the social sciences is interview and text-based. This course explores methods for collecting and analyzing these data and theoretical paradigms that underlie these methods. Cross-listed with HBSC 7051. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

(same as HBSC 7051-3)

**ANTH 6317 - Archaeological Research Design and Analysis**

*Summer 2010 Registration ANTH 6317*
Examines the methods and techniques used in archaeology, including theory-building, hypothesis testing and middle range theory. Core materials emphasize the learning and critique of basic archaeological assumptions and the methods and theories used to scrutinize the collection and interpretation of data. Topics include chronometric applications and paleo-environmental reconstruction. Prereq: ANTH 6307 or equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 6513 - Biological Anthropology Core: Modern Human Variation**

*Summer 2010 Registration ANTH 6513*
Considers the theory and methods used in investigations of biological variation in
contemporary human populations. This includes the biological and cultural sources responsible for creating and maintaining contemporary variation as well as their functional consequences. Methods of research design and how to write a grant and scientific articles are considered. Prereq: Graduate standing. **Semester Hours:** 3 to 3

**Total: 9 Hours**

* Students who wish to apply for a teaching assistantship in archaeology must have completed this course.

† Students who wish to apply for a teaching assistantship in biological anthropology must have completed this course.

**Tier Three: Research Concentrations (9-21 semester hours)**

You will round out your program by selecting from the diverse range of courses offered in the department according to your particular interests in anthropology, your career goals and your plans for future graduate study. You may take courses in one or more concentrations. The courses listed are suggestions only; you must work closely with your advisor in constructing your particular program of study.

**MEDICAL ANTHROPOLOGY**

Medical anthropology is a subdiscipline of anthropology that includes the study of all aspects of health, illness and disease in human communities and populations. It draws on all of the perspectives that distinguish anthropology as a unique discipline: the analysis of human evolution and adaptation; cultural development, expressions and variability; and historical change and continuity. Medical anthropology takes as its subject a broad range of specific topics, including the study of health care systems, factors that affect the distribution and determinants of disease in populations, maternal and child health, nutrition and food habits, human development, political ecology, health policy and language and communication in health care contexts. Faculty in the department emphasize the applied dimensions of medical anthropology, preparing students for careers in public health, health care and health sciences research. Courses in the department are complemented by electives in other departments (sociology, biology, psychology, history, geography), programs on the Downtown Campus (health administration, public affairs, education) and programs at the Anschutz Medical Campus (schools of medicine, dental medicine, pharmacy and nursing).

**Courses**
ANTH 5014 - Global Health Studies I: The Biocultural Basis of Health

Summer 2010 Registration ANTH 5014
This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health studies; the second is ANTH 5024. Prereq: Upper division and/or graduate standing. Cross-listed with ANTH 4010, HBSC 4010 and HBSC 5010. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5030 - Ethnobiology

Summer 2010 Registration ANTH 5030
Considers the relationship between human society and plants and animals in the natural world. Primary focus on the perception and cognitive organization of the environment and how that affects the definition and use of plants and animals as resources. Prereq: Introductory anthropology and/or biology and graduate standing. Cross-listed with ANTH 4030. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5040 - Anthropology of Food and Nutrition

Summer 2010 Registration ANTH 5040
Examines the myriad relationships between food as a biological necessity and eating as a socially and culturally conditioned activity. Takes a biocultural perspective that considers not only the tremendous variety of foods we eat, but also the complex meanings and importance attached to food and eating. Prereq: Introductory course in anthropology and graduate standing. Cross-listed with ANTH 4040. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5060 - Evolutionary Medicine

Summer 2010 Registration ANTH 5060
Applies evolutionary principles to an understanding of human health and illness. The view complements perspectives on health and disease emanating from biological and social sciences, but considers the health or disease process from the perspective of pathogen and host, current and previous environments, and various phases of the life cycle. Prereq: ANTH 1303. Cross-listed with ANTH 4060, HBSC 4060 and 5060. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5090 - Political Economy of Drugs
ANTH 5090 - Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures, and the social, political and economic issues that surround their production, use and misuse. Prereq: introductory course in cultural anthropology. Cross-listed with ANTH 4090. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5150 - Human Biocultural Adaptability

ANTH 5260 - Human Reproductive Ecology

ANTH 5560 - Human Ecology

ANTH 6040 - Advanced Topics in Medical Anthropology
health, the health consequences of cultural change and cross-cultural psychiatry. Note: Topics vary from semester to semester. Prereq: Permission of instructor. **Semester Hours:** 1 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HBSC 7310 - Environmental Epidemiology**

*Summer 2010 Registration HBSC 7310*
Provides a basic understanding of the methods used to study the effects on human health of exposures to physical, chemical, or biological factors in the external environment. The course explains the use of epidemiologic methods through a problem solving approach to investigating environmental health case studies. Prereq: A basic statistics course and graduate standing or permission of instructor. Cross-listed with ENVS 6230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

*Note:* Students are also strongly encouraged to take elective courses in public health, epidemiology and biostatistics, which are available in the Department of Biometrics and Preventive Medicine on the Anschutz Medical Campus. See the Health Professions chapter of this catalog for further information.

**ARCHAEOLOGY**

The archaeological studies program concentrates on the study of past human societies using archaeological data collected in field and museum settings. While a quantitative and scientific approach is emphasized, the theoretical perspectives employed also draw heavily from political economy and cultural ecology. The department offers a variety of theoretical, methodological and area courses, which may be supplemented by others in the geography and environmental sciences and history departments. Internships are available in local museums and historic preservation offices in the Denver metropolitan area.

**Courses**

**ANTH 5210 - Archaeology of the American Southwest**

*Summer 2010 Registration ANTH 5210*
Considers the origins, characteristics and interrelationships of the major culture areas in the American Southwest, including the Anasazi, Hohokam, Mogollon, Sinagua and Northern Mexico. Prereq: Introduction to archaeology and graduate standing. Cross-listed with ANTH 4210. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
**ANTH 5320 - Archaeology of Mexico and Central America**

*Summer 2010 Registration ANTH 5320*

Surveys the major prehistoric and protohistoric cultures and societies of that area of Mexico and Central America identified with the evolution of Meso-American civilization. Major topics include early human colonization of the Americas, the domestication of plants and animals, the emergence of regionally-based cultures and societies, trade and exchange and the evolution of urbanism and the state. Primary emphasis on such ancient cultures and societies as those of the Olmec, Zapotec, Maya, Teotihuacan, Toltec and Aztec. Prereq: Introduction to archaeology. Cross-listed with ANTH 4320. *Semester Hours: 3 to 3*

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 5330 - Lithic Analysis**

*Summer 2010 Registration ANTH 5330*

Examines the theoretical basis and methodological tools used by archaeologists in the analysis of prehistoric stone tools. Topics of discussion include the mechanics of stone fracture, typologies, use wear analysis and core reduction techniques. Prereq: ANTH 1302. Cross-listed with ANTH 4330. *Semester Hours: 3 to 3*

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 5570 - Landscape Archaeology**

*Summer 2010 Registration ANTH 5570*

Introduces spatial archaeology through intrasite analysis and regional studies. Methods treated include site location and quantitative spatial organization. Theoretical topics include definitions of community, ancient urbanism and the impact of subsistence and politics on relations to the landscape. Prereq: ANTH 1302 or equivalent. Cross-listed with ANTH 4570. *Semester Hours: 3 to 3*

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 5910 - Field Experience in Archaeology**

*Summer 2010 Registration ANTH 5910*

Students participate in archaeological field research and data recovery and conduct laboratory analysis of materials recovered in the field. Emphasis is placed on excavation technique and accuracy of record keeping. Prereq: Background in archaeology and graduate standing. Cross-listed with ANTH 4910. *Semester Hours: 3 to 6*

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing**
Summer 2010 Registration GEOG 5060
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 4060, GEOL 4060, 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 5080 - Introduction to GIS

Summer 2010 Registration GEOG 5080
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Cross-listed with GEOG 4080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 5220 - Environmental Impact Assessment

Summer 2010 Registration GEOG 5220
The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor. Cross-listed with GEOG 4220, URPL 6651. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 5231 - History in Museums

Summer 2010 Registration HIST 5231
This core course for the museum studies area of public history introduces students to the theory and practice of museum operations. It covers the basics of museum administration, museum collection and preservation, and museum interpretation from both theoretical and practical points of view. Cross-listed with HIST 4231. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 5232 - Historic Preservation

Summer 2010 Registration HIST 5232
Introduces the history, methodology, and goals of historic preservation. Guest speakers, field trips, research projects, and book reports. Cross-listed with HIST 4232. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
HIST 5234 - Introduction to Public History

**Summer 2010 Registration HIST 5234**
An overview of history outside the academic setting. Students have the opportunity to learn about jobs through on-site visits and presentations made by people engaged in a wide variety of occupations in history other than teaching. Cross-listed with HIST 4234. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOLOGICAL ANTHROPOLOGY**

The biological anthropology concentration is concerned with modern human biological diversity and the past evolutionary history that has led to such diversity. Students in this concentration develop a firm understanding of the evolutionary processes that lead to physical and behavioral variation in humans and nonhuman primates. The concentration also emphasizes the theoretical and quantitative methods used to explore and explain this variation. Students may take courses in diverse areas including evolutionary biology, genetics, ecology, ethnobiology, epidemiology, nutrition, medical anthropology, paleoanthropology, paleontology and primatology. Because biological anthropology is multidisciplinary in nature, students are encouraged to consider courses offered outside the department.

Courses

**ANTH 5014 - Global Health Studies I: The Biocultural Basis of Health**

**Summer 2010 Registration ANTH 5014**
This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health studies; the second is ANTH 5024. Prereq: Upper division and/or graduate standing. Cross-listed with ANTH 4010, HBSC 4010 and HBSC 5010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ANTH 5030 - Ethnobiology**

**Summer 2010 Registration ANTH 5030**
Considers the relationship between human society and plants and animals in the natural world. Primary focus on the perception and cognitive organization of the environment and how that affects the definition and use of plants and animals as resources. Prereq: Introductory anthropology and/or biology and graduate standing. Cross-listed with ANTH
ANTH 5040 - Anthropology of Food and Nutrition

Summer 2010 Registration ANTH 5040
Examines the myriad relationships between food as a biological necessity and eating as a socially and culturally conditioned activity. Takes a biocultural perspective that considers not only the tremendous variety of foods we eat, but also the complex meanings and importance attached to food and eating. Prereq: Introductory course in anthropology and graduate standing. Cross-listed with ANTH 4040. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5060 - Evolutionary Medicine

Summer 2010 Registration ANTH 5060
Applies evolutionary principles to an understanding of human health and illness. The view complements perspectives on health and disease emanating from biological and social sciences, but considers the health or disease process from the perspective of pathogen and host, current and previous environments, and various phases of the life cycle. Prereq: ANTH 1303. Cross-listed with ANTH 4060, HBSC 4060 and 5060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5150 - Human Biocultural Adaptability

Summer 2010 Registration ANTH 5150
The chief concern of this course is the relationship between ourselves and our surroundings and the very immediate ways the environments in which we live affect us. The view is of ourselves as a part of, not apart from, these environments. Prereq: Background in cultural anthropology and graduate standing. Cross-listed with ANTH 4150. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5500 - Advanced Issues in Human Evolution

Summer 2010 Registration ANTH 5500
This flexible course offers an advanced treatment of issues in human biological evolution. Topics may emphasize morphological evolution, behavioral evolution, the environment of human evolution, non-human primate comparative information. Cross-listed with ANTH 4500. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
ANTH 5520 - Human Biological Variation

Summer 2010 Registration ANTH 5520
Human biological variation and adaptation, considered from an evolutionary perspective. How we measure and classify human variation often affects the conclusions we draw. This course considers the causes and maintenance of human variability and adaptability, including cultural and social factors in the genesis and maintenance of normal and abnormal traits. Prereq: Background in physical or biological anthropology and graduate standing. Cross-listed with ANTH 4520. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5530 - Anthropological Genetics

Summer 2010 Registration ANTH 5530
An advanced survey of molecular and population genetics and their applications in anthropology. Topics vary, including but not limited to: genetic epidemiology, genetic distance studies, behavioral genetics, developmental genetics, sociobiology, and use of mitochondrial DNA to reconstruct population histories. Emphasis is on applications of new technology and methodology, as well as new genetic paradigms replacing classical models of genetic causation. Prereq: Undergraduate course work in biological anthropology or general genetics. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5550 - Primate Comparative Anatomy

Summer 2010 Registration ANTH 5550
Examines human and non-human primate anatomical diversity. Students learn primate anatomy and the morphological differences among species. Explanations for the evolutionary origins of differences are reviewed, focusing on evolutionary theory, comparative methods and biomechanics. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 4550. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5560 - Human Ecology

Summer 2010 Registration ANTH 5560
Studies demographic and ecological variables as they relate to human populations. Aspects of natural selection, overpopulation and environmental deterioration are considered. Prereq: Background in biological or physical anthropology and graduate standing. Cross-listed with ANTH 4560. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5580 - Neanderthals and the Origin of Modern Humans
ANTH 5580 - Anatomically Modern Humans

Focuses on the human fossil record for the tax on Homo sapiens, including the earliest members of this group ("early" or "Archaic" Homo sapiens), the Neanderthals and so-called "Anatomically modern" Homosapiens. The goal of the course is to survey the major issues within the area of modern human origins, and to learn about the evolutionary relationships, lifeways and behaviors of these groups. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 4580. **Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5640 - Darwinian Approach to Human Behavior

**Summer 2010 Registration**

The evolution of human behaviors from a Darwinian perspective, focusing on the natural selection of behaviors that maximize reproductive success. Includes topics such as male and female reproductive strategies, female mate choice, male violence and resource acquisition and control. Prereq: ANTH 1303. Cross-listed with ANTH 4640. **Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 5074 - Human Reproductive Biology

**Summer 2010 Registration**

Comprehensive study of anatomy and physiology of human reproduction. Embryogenesis of male and female reproductive systems and detailed analysis of contraception, world population growth, population control and implications of population growth are also covered. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4074. **Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 5134 - Human Genetics

**Summer 2010 Registration**

Advanced survey of the current status of the field. Emphasis on understanding, diagnosis and treatment of genetic disease and on the impact of molecular biology on human genetics. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4134. **Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

BIOL 5494 - Population and Evolutionary Genetics

**Summer 2010 Registration**

Introduces the genetic processes underlying evolutionary change in microbial, plant and animal populations. Topics include: sources of variation, Hardy-Weinberg equilibrium, population genetic structure, natural selection and other evolutionary forces, quantitative
genetics and molecular phylogenetics. Emphasis on experimental data. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4494. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HBSC 7031 - Human Ecology and Environmental Adaptation**

*Summer 2010 Registration HBSC 7031*
Focuses on the interplay of biology, environment, culture, and behavior in the causes and exacerbation of disease. The course includes the following topics: health in environmental and evolutionary contexts; models of causation in biomedicine and other medical systems; individual, community, and population manifestations of health and disease; and biocultural interaction in disease process. Specific case studies drawn from contemporary health problems are used to illustrate in detail the nature of these processes. Prereq: Admission to the Health and Behavioral Sciences program. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HBSC 7310 - Environmental Epidemiology**

*Summer 2010 Registration HBSC 7310*
Provides a basic understanding of the methods used to study the effects on human health of exposures to physical, chemical, or biological factors in the external environment. The course explains the use of epidemiologic methods through a problem solving approach to investigating environmental health case studies. Prereq: A basic statistics course and graduate standing or permission of instructor. Cross-listed with ENVS 6230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SUSTAINABLE DEVELOPMENT AND POLITICAL ECOLOGY**

This concentration provides a critical, multicultural and multidisciplinary perspective on issues of development and resource conservation, with a strong emphasis on the integration of theoretical knowledge with field-based training opportunities. Three major themes are addressed within this concentration:

1. the types of resource management systems present in the world and their relationship to particular ecosystems
2. the types of knowledge systems and ideas associated with this diverse array of resource management systems, environmental knowledge and theoretical perspectives included
3. the culture of institutions—ranging from small-scale NGOs to the World Bank—that design and implement conservation and development
A central goal of this emphasis is to provide students with the information, opportunities and resources required for pursuing a wide variety of career options in conservation and/or development. In addition to offering the following courses, the department encourages students to develop a specialized skill in conjunction with other departments and schools, including areas such as GIS mapping (geography), ecology (biology/anthropology), legal and policy issues (political science, School of Public Affairs), land use (geography, School of Public Affairs) and research/evaluation methodologies (anthropology).

Courses

ANTH 5030 - Ethnobiology

*Summer 2010 Registration ANTH 5030*

Considers the relationship between human society and plants and animals in the natural world. Primary focus on the perception and cognitive organization of the environment and how that affects the definition and use of plants and animals as resources. Prereq: Introductory anthropology and/or biology and graduate standing. Cross-listed with ANTH 4030. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5070 - Culture of Development and Globalization

*Summer 2010 Registration ANTH 5070*

Anthropological critiques of development and globalization point out that they have occurred without regard for the diversity of human culture and human need. Beginning with this analysis, this course goes one step further by examining culture and values of development and how they affect the way development gets done. Prereq: Upper division standing and permission of instructor. Cross-listed with ANTH 4070. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5170 - Culture and the Environment

*Summer 2010 Registration ANTH 5170*

Examines the historical origins of Western and non-Western ideas of the environment and the place of people within it. The imposition of Western ideas on non-Western groups regarding environmental policy is also examined, with special attention given to practices of conservation, development and transnational monetary policy. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 4170. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
ANTH 5220 - Community in Global Context

Summer 2010 Registration ANTH 5220
Presents the community study method from the perspective of anthropology and as a widely applicable research technique in planning, development and other areas of public affairs. Also includes analyses of case studies and student field research. Prereq: Background in cultural anthropology and graduate standing. Cross-listed with ANTH 4220. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5450 - Development and Conservation: Contemporary Issues

Summer 2010 Registration ANTH 5450
Applies the theoretical paradigms of political ecology to contemporary issues of sustainable development. Case studies are chosen illustrating topics based on faculty expertise and student interaction. The first part of the course presents theoretical perspectives relevant to the chosen topic. In the second half, students participate in directed problem solving activities. Prereq: ANTH 4070, ANTH 4170 and graduate standing or permission of instructor. Cross-listed with ANTH 4450. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ANTH 5460 - Development and Conservation: Theory and Practice

Summer 2010 Registration ANTH 5460
Examines the praxis of anthropological knowledge of human ecosystem interaction and development of economic opportunities. Issues of biodiversity, resource conservation, sustainable development and globalization are studied. Prereq: ANTH 5450 or permission of instructor. Cross-listed with ANTH 4460. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Other courses in consultation with faculty advisor.

RESEARCH CONCENTRATIONS TOTAL: 9-21 HOURS

DEGREE TOTAL HOURS

Thesis Option: 30 Hours (including 4-6 hours of thesis)
Non-Thesis Option: 36 Hours

Applied Mathematics, MS

Program Requirements

Students must present 30 hours of course work and maintain a 3.0 GPA for the MS degree. At least 24 of these hours must consist of graduate-level (numbered 5000 or higher) mathematics courses. The remaining 6 hours must be either mathematics courses numbered 5000 or above or approved courses outside the department numbered 4000 or above. Up to 12 semester hours may be transferred from other institutions.

A student may devote from 4 to 6 hours (of the 30 required hours) to the writing of a thesis. Following completion of course work, all candidates must make a one-hour oral presentation before a committee consisting of three graduate faculty members.

Students must take either applied analysis or real analysis and applied linear algebra. Additionally, students must fulfill specific course work requirements for one of the following areas of specialization:

- discrete mathematics
- operations research
- applied statistics
- applied probability
- numerical analysis
- mathematics of science and engineering
- mathematical foundations of computer science
- computational biology

All master's degree students are encouraged to participate in the Math Clinic, a unique program in which students have an opportunity to work on real-world problems supplied by local businesses, research firms and government agencies.

For more detailed information about the applied mathematics MS, see the Math Graduate Handbook.

Architecture MArch

The MArch is the college's accredited professional degree for students intending to seek licensure as architects. It is a three-and-one-half-year plan of study on the Denver
Campus that has been fully accredited by the National Architectural Accrediting Board (NAAB).

Prerequisites

- Students must complete the prerequisites of college-level trigonometry and physics before enrolling in ARCH 5310, Introduction to Building Technology. Since this class should be taken in the first semester in order to stay on track for graduation, students are strongly encouraged to complete the trigonometry and physics requirements before beginning the MArch program.
- ARCH 5000, Math and Physics for Architects, is offered in the summer on a pass/fail basis. This class meets the prerequisite requirements. This class does not count toward the number of credits required for the MArch degree.
- A graphics workshop is recommended for students who do not have a background in architectural drawing and model building. This class is offered each year before the beginning of the fall semester.
- Students are also expected to have achieved a basic level of computer literacy and should be familiar with PC or Mac operating systems.

Program Requirements

Students with a bachelor’s or master’s degree unrelated to architecture must complete a seven- or eight-semester sequence of course work and accumulate a minimum of 114 semester hours of credit. Students who have completed the college’s BEnvd or any other preprofessional architecture degree from any NAAB-accredited institution and students who have completed a non-NAAB-accredited professional architecture degree in another country, and who wish to obtain the NAAB-accredited degree from this college, will be evaluated individually for advanced standing. These students will work with the associate chair of the department to develop an individualized plan of study commensurate with their previous degrees and experience, and will have to complete at least 60 semester hours of credit in residence within the College of Architecture and Planning.

Course Sequence

The MArch program is divided into five major components:

- studio design studies, 45 semester hours
- cultural studies, 12 semester hours
- technology studies, 18 semester hours
- professional studies, 6 semester hours
• electives, 33 semester hours
A wide array of electives in these areas allows students to tailor their graduate studies to their own interests.

First Year

Fall

ARCH 5110 - Design Studio I

Summer 2010 Registration ARCH 5110
This first of four core design studios introduces the basic strategies and techniques of architectural design. Focuses on the languages of design, as well as on traditional and digital methods of visualizing architectural ideas and forms. Prereq: Must have completed the College’s woodshop training program. Coreq: ARCH 5111. Semester Hours: 6to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 5111 - Introduction to Drawing

Summer 2010 Registration ARCH 5111
This course explores the development of graphic skills emphasizing drawing as a means to design. It includes investigation of drawing types and methods; diagramming of ideas and systems; informative, exploratory and developmental sketching. Coreq: ARCH 5110. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 5210 - Introduction to Architecture

Summer 2010 Registration ARCH 5210
Introduces important ways of looking at architecture and acquaints students with the various perspectives that they will later find in the rest of the curriculum. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 5310 - Introduction to Building Technology

Summer 2010 Registration ARCH 5310
Provides an overview of the structure, systems, assemblies and processes that make a building. Provides a broad view of building technology and an understanding of the interrelationship of all the parts, upon which subsequent technology courses are
Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 15 Hours

Spring

ARCH 5120 - Design Studio II

Summer 2010 Registration ARCH 5120
The second of the four core design studios focuses on concepts of small-scale building design, sitting and climate. Through a number of design exercises, students learn how these factors help shape buildings. Prereq: ARCH 5110 and ARCH 5111. Coreq: ARCH 5121. Semester Hours: 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 5121 - Design Seminar II

Summer 2010 Registration ARCH 5121
Supports fuller discussion of the key themes and concepts in ARCH 5120. Prereq: ARCH 5110 and 5111; Coreq: ARCH 5120. Semester Hours: 2 to 2
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 5220 - History of Architecture I

Summer 2010 Registration ARCH 5220
Introduces world architecture and urbanism from prehistory to the Italian Renaissance. The course helps students understand the various cultural, technological, philosophical, and aesthetic ideas that helped shape buildings through history. Buildings and settlements on all continents and in all of the major world cultures are discussed. Prereq: ARCH 5210. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 5320 - Building Construction and Methods

Summer 2010 Registration ARCH 5320
Discusses the principles and processes of building construction and introduces the major constructional systems. Stresses the relationship between architectural concepts and building technology and helps students understand how to choose building systems and materials. Prereq: ARCH 5310. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
LDAR 6632 - Site Planning

Summer 2010 Registration L A 6632
Focuses on the site planning process, including research and data gathering, data analysis and synthesis, design analysis and its relationship to building program and concept, and design synthesis of site and preparation of site plan. Design through grading, representation, manipulation and calculation of road work, utilities, and other site features. Vertical and horizontal alignment, earthwork and cost computation, and integration with existing and proposed features or systems are covered. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Elective** (3 semester hours)

**Total:** 18 Hours

Second Year

Fall

ARCH 5130 - Design Studio III

Summer 2010 Registration ARCH 5130
The third of the four core studios focuses on concepts of program, architectural meaning and human behavior in buildings. Through a number of design exercises, students learn how these factors help shape buildings. Prereq: ARCH 5120 and ARCH 5121. Coreq: ARCH 5131. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 5131 - Design Seminar III

Summer 2010 Registration ARCH 5131
Supports fuller discussion of the key themes and concepts in ARCH 5130. Prereq: ARCH 5120 and ARCH 5121. Coreq: ARCH 5130. **Semester Hours:** 2 to 2
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 5230 - History of Architecture II

Summer 2010 Registration ARCH 5230
Examines world architecture and urbanism from the Italian Renaissance to the present. Helps students understand the various cultural, technological, philosophical and aesthetic ideas that helped shape buildings through history. Buildings and settlements on all continents and in all of the major world cultures are discussed. Prereq: ARCH
ARCH 5240 - Human Factors in Design

Summer 2010 Registration ARCH 5240
Focuses on the ethical, social, cultural and psychological principles, processes which people bring to the perception and design of the built environment. Its major topics include: ethical values; cultural patterns and values; privacy and community; social, cultural and personal ritual; the symbolic content of form and environment; and programming and post-occupancy evaluation.  
Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 5330 - Environmental Control Systems I

Summer 2010 Registration ARCH 5330
The first course in the environmental control systems sequence introducing the concepts and methods of environmental control in residential buildings. Discusses the thermal behavior of buildings, climate as a determinant of building design, energy use in buildings, natural and mechanical means of environmental control, plumbing, electrical, communication systems, water supply and sanitation systems. Prereq: ARCH 5320.  
Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Elective* (3 semester hours)

Total: 18 Hours

Spring

ARCH 5140 - Design Studio IV

Summer 2010 Registration ARCH 5140
The last of the four core design studios focuses on concepts of building technology, context and environmental sustainability. Through a number of design exercises, students learn how technology helps shape buildings. Prereq: ARCH 5130 and 5131. Coreq: ARCH 5141.  
Semester Hours: 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 5141 - Design Seminar IV

Summer 2010 Registration ARCH 5141
Supports fuller discussion of the key themes and concepts in ARCH 5140. Prereq:
ARCH 5130 and 5131; Coreq: ARCH 5140. **Semester Hours:** 2to 2
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ARCH 5340 - Environmental Control Systems II**

*Summer 2010 Registration ARCH 5340*

The second course in the environmental control systems sequence focusing on the environmental systems in commercial and other non-residential buildings. Discusses natural and artificial lighting, HVAC systems, acoustics, vertical transportation and fire protection. Prereq: ARCH 5330. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ARCH 5350 - Structures I**

*Summer 2010 Registration ARCH 5350*

The first course in the structures sequence introduces the analysis and design of structural elements and focuses on the principles of static's and the strength of materials. Topics include stress determination, deflection and the behaviors of tension, compression and shear in various structural elements. Coreq: ARCH 5340. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Electives* (6 semester hours)

**Total: 18 Hours**

**Summer**

**ARCH 6150 - Comprehensive Design Studio**

*Summer 2010 Registration ARCH 6150*

A required studio focusing on an architectural project from schematic design through detailed development including structural, environmental systems, life safety, wall sections and building assemblies. A comprehensive program will inform the architectural project. Prereq: ARCH 5140 and ARCH 5141. Coreq: ARCH 6151. **Semester Hours:** 4to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ARCH 6151 - Comprehensive Design Seminar**

*Summer 2010 Registration ARCH 6151*

Supports fuller discussion of the key themes and concepts in ARCH 6150. Prereq: ARCH 5140 and ARCH 5141. Coreq: ARCH 6150. **Semester Hours:** 2to 2
Registration is changing. Visit our website for details ucdenver.edu/registration.
Electives* (6 semester hours)

Total: 12 Hours

Third Year

Fall

ARCH 5360 - Structures II

Summer 2010 Registration ARCH 5360
Focuses on the relationship between architectural concepts and the selection of structural systems. Addresses the qualitative and quantitative analysis of reinforced concrete, steel and wood structural systems and members. Prereq: ARCH 5350. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 5410 - Professional Practice

Summer 2010 Registration ARCH 5410
Introduces the essential elements of professional practice through topics such as internship, licensing, services, modes of practice, fees, marketing, documents, specification and production procedures. Examines traditional and emerging forms of practice. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 6170 - Advanced Design Studio

Summer 2010 Registration ARCH 6170
Students enter the advanced design studio after successfully completing the four core design studios and comprehensive studio (ARCH 6150). Students must take two advanced studios (unless they wish to undertake a thesis; see ARCH 6950). Topics vary according to faculty interests. Prereq: ARCH 6150 and ARCH 6151. Coreq: ARCH 6171. Semester Hours: 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 6171 - Advanced Design Seminar

Summer 2010 Registration ARCH 6171
Supports fuller discussion of key themes and concepts in ARCH 6170. Students must take two advanced design seminars (unless they wish to undertake a thesis; see ARCH
ARCH 6950 - Thesis Preparation

*Summer 2010 Registration ARCH 6950*
In place of the final advanced design studio, students may choose to develop a specialized thesis in some topic related to architecture. The thesis will normally take three semesters, starting with the three-credit hour ARCH 6490, Thesis Research Tools in the spring semester, this course in the fall semester and finishing with a six-credit thesis class in the third semester. A thesis may culminate in a design or in a written report. A thesis is expected to advance the field in some way by offering new insights into aspects of design, technology, history or professional principles. Prereq: ARCH 6490 and completion of at least one advanced design studio (ARCH 6170 or ARCH 6171). *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

Electives* (3 semester hours)

**Total: 18 Hours**

**Spring**

ARCH 6170 - Advanced Design Studio

*Summer 2010 Registration ARCH 6170*
Students enter the advanced design studio after successfully completing the four core design studios and comprehensive studio (ARCH 6150). Students must take two advanced studios (unless they wish to undertake a thesis; see ARCH 6950). Topics vary according to faculty interests. Prereq: ARCH 6150 and ARCH 6151. Coreq: ARCH 6171. *Semester Hours: 4 to 4*
Registration is changing. Visit our website for details ucdenver.edu/registration.

ARCH 6171 - Advanced Design Seminar

*Summer 2010 Registration ARCH 6171*
Supports fuller discussion of key themes and concepts in ARCH 6170. Students must take two advanced design seminars (unless they wish to undertake a thesis; see ARCH 6950). Prereq: ARCH 6150, ARCH 6151. Coreq: ARCH 6170. *Semester Hours: 2 to 2*
Registration is changing. Visit our website for details ucdenver.edu/registration.

Electives* (9 semester hours) or

ARCH 6951 - Architecture Thesis
Summer 2010 Registration ARCH 6951
Development of a master's thesis (see ARCH 6950 above). Prereq: completion of two advanced design studios ARCH 6150 and ARCH 6950. Semester Hours: 6to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

Electives* (9 semester hours)

Total: 15 Hours

* Students must take 9 elective semester hours in cultural studies, 9 elective semester hours in professional studies (3 semester hours of which must emphasize the computer), 6 elective semester hours in technology studies and 9 elective semester hours in any architecturally related electives on campus.

Biology MS

Associate Chair for Graduate Studies: Timberley Roane
Office: North Classroom, 3411
Telephone: 303-556-6592
E-mail: timberley.roane@ucdenver.edu
Web site: clas.ucdenver.edu/biology/grad.html

Requirements for Admission

Applicants must hold a baccalaureate degree from an accredited college or university, awarded within the preceding nine years. Students whose biology degree was awarded 10 or more years prior to entrance to the UC Denver program will be expected to retake or show competence in the biology core courses. Successful applicants generally have earned an overall GPA of 3.0 or better. Most applicants have an undergraduate major in biology or a related field. Students entering the master's program in biology must have completed the equivalent of a minor in biology. Although a deficit of one course is allowed, this must be completed within the first semester of entering the master's program and will not apply toward the degree.

The general GRE is required of all applicants, with scores above the 50th percentile required on all parts. The online graduate application form is submitted online to UC Denver graduate admissions. The biology supplemental application form is also required and is submitted directly to the biology program (jacki.craig@ucdenver.edu).

Plan I (thesis option) applicants must indicate an area of concentration AND MUST HAVE THE PRIOR APPROVAL OF A FACULTY MEMBER IN BIOLOGY WHO WILL
SUPERVISE THEIR THESIS WORK. Prospective thesis students must have a tentative advisor listed on the application form. Plan I applications cannot be considered without this information.

Plan II (course work only) applicants must indicate an area of concentration in addition to the name of a faculty member in biology who has tentatively agreed to serve as your advisor. Applications cannot be considered without this information.

**Application deadlines are February 1 for domestic U.S. students and January 15 for international students.** Online applications submitted electronically after the deadline dates WILL NOT be considered for that term. Applicants will be given the opportunity to have these applications considered for the next term.

Before submitting an application it is highly recommended that you meet with the associate chair for graduate studies, Dr. Timberley Roane, to make sure this program meets your needs and that you meet the program requirements.

**Degree Requirements**

All course work taken within the Department of Integrative Biology and applied toward the degree must be 5000 level or above. There is no core of required courses. A course plan is developed by the student and major advisor and is approved by the student's graduate committee. In addition to regular meetings throughout the semester, all students must meet with their faculty advisor at the beginning of each academic year to determine course schedules and upcoming deadlines. A pre-registration agreement is signed by student and advisor, and then filed with the associate chair of graduate studies in biology to make sure you are satisfying your degree requirements, and that the courses you want to take will be applicable toward your degree.

With the advisor’s and/or graduate committee’s approval, a maximum of 6 semester hours of course work at the 4000 level taken outside the department may be applied toward the degree. At least 18 semester hours must be taken from faculty in the Department of Integrative Biology at UC Denver. Upon approval of the department, no more than 12 semester hours may be transferred into the program. Two types of degree plans are offered:

**Plan I (with thesis)**

Students must form a three-person advisory committee consisting of members of the graduate faculty, with at least two from the regular UC Denver faculty. Committee membership must be approved by your graduate advisor. The thesis option requires 30 semester hours, including a minimum of 4 and no more than 6 thesis hours. You may also count a maximum of 6 hours (total) of independent study and/or graduate level
internship. Graduate internship or independent study projects must consist primarily of research. In addition, two semesters of the following are required:

**BIOL 6655 - Seminar**

*Summer 2010 Registration BIOL 6655*
Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4990. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Plan II (without thesis)**

Requires 32 semester hours, including two semesters of:

**BIOL 6655 - Seminar**

*Summer 2010 Registration BIOL 6655*
Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4990. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Comprehensive Examination**

All students in the MS in biology program are required to complete a series of biology comprehensive exams. The purpose of the exams is to demonstrate mastery of chosen biological concepts in general biology, cell biology, ecology, genetics, and anatomy/physiology. The comprehensive exams include three written exams and an oral exam.

**Financial Assistance**

Financial aid for graduate students may be available from university and/or state fellowships, research assistantships sponsored by individual faculty members and teaching assistantships. The biology department hires teaching assistants for laboratories and recitations in a number of courses. Teaching is a valuable addition to your graduate training. Hiring decisions are made by the instructors teaching labs and recitations. Please contact them (early) if you are interested.

Contact the Office of Financial Aid for information about fellowships, or the associate chair for graduate studies (303-556-6592) for information about research and teaching assistantships.

John Daley, PhD, University of Washington
Cindy Fischer, MA, University of Colorado
Linda Fried, JD/LLM, University of Miami
Wendy Guild, PhD, Massachusetts Institute of Technology
The master of business administration (MBA) program provides a general background in management and administration. This background enables the student to have the breadth of exposure and depth of knowledge required for an advanced-level management career. The program is devoted to developing the concepts, analytical tools and communication skills required for competent and responsible administration of an enterprise viewed in its entirety, within its social, political and economic environment.

The professional MBA program allows the scheduling of classes with maximum flexibility so students can progress through the program at their own pace, by taking as little as one class per semester or as many as five classes per semester, at times that are convenient to their work schedule. The program can be completed in as little as 16 months or as long as five years plus one semester.

Online courses add additional flexibility. Students may complete all degree requirements online, or combine online and campus courses to broaden your choice of electives or to fit a business travel schedule or personal learning style. Choice of online electives is limited.

The MBA program is also available in different configurations: 11-month (full time, see relevant section), health administration and the executive MBA (see relevant section). All MBAs have the same curriculum requirements; they differ only in their focus, the flexibility of course scheduling and the time required to complete the program. The 11-month and executive MBAs are lockstep programs (no open electives, no specialized tracks), where all the students complete all program requirements together. No course transfers, waivers or substitutions are permitted.

Program Requirements

Core Requirements

BUSN 6520 - Managing Individuals and Teams

Summer 2010 Registration BUSN 6520
Students learn the strengths and weaknesses of their management style and how to
work effectively with individual differences. Students also learn how to form teams around purpose/task, diagnose problems and identify and implement solutions by utilizing leadership skills such as setting goals, processes and measures, interpersonal communication, motivation and conflict management. Students develop an understanding of the effect of the organizational and social context on the behavior of individuals and teams. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6530 - Data Analysis for Managers**

*Summer 2010 Registration BUSN 6530*
Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530 and FNCE 6290. **Semester Hours:** 3 to 3  **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6540 - Legal and Ethical Environment of Business**

*Summer 2010 Registration BUSN 6540*
Students develop a working knowledge of legal and ethical parameters for business decision making. The course addresses the legal system and mechanisms for resolving disputes. Topics include constitutional law, torts, product liability, contracts, property law, consumer protection, intellectual property, business entities and employment law. It stresses the influence of legal issues on organizational decision making. Note: Students can substitute ENTP 6822 but credit cannot be received for both. Health Administration students must take BUSN 6541. **Semester Hours:** 3 to 3  **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6550 - Analyzing and Interpreting Accounting Information**

*Summer 2010 Registration BUSN 6550*
Emphasizes the use of accounting statements and data in making business decisions. External financial accounting information and concepts are used for investment and credit decisions. Internal managerial accounting information and concepts are used for product costing, cost analysis and management control. **Semester Hours:** 3 to 3  **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6560 - Marketing Management**
**BUSN 6560 - Marketing Plan Development**

*Focuses on the formulation and implementation of a marketing plan in the context of the firm's strengths, overall strategy and competitive environment. Emphasis is on understanding the marketing environment and on decision making skills regarding market selection, pricing, promotion, product configuration and management of distribution channels.*

*Semester Hours: 3 to 3*  
*When Offered: FASPRSUM*

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

---

**BUSN 6610 - Information Systems Management and Strategy**

*Examines the strategic, technological, financial and organizational issues involved with the effective management of information technology. Topics include: (1) role and importance of IT in modern organizations (e.g., IT impact on competitiveness, alignment of corporate and IT strategies, IT infrastructures and IT-enabled organizational processes), (2) alternative methods to develop, acquire and implement information systems (e.g.) evaluation of IT investments, implementing and managing complex IT projects), (3) nature of IT management (e.g., the evolving roles of enterprise IT management, IT sourcing and contractual relationships) and (4) ethical and security issues associated with IT. Note: Students cannot receive credit if they have taken BUSN 6810 or ISMG 6180. Cross-listed with ISMG 6180.*

*Semester Hours: 3 to 3*  
*When Offered: FASPRSUM*

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

---

**BUSN 6620 - Applied Economics for Managers**

*After taking this course, students should be able to apply economic principles to make optimal decisions given firm cost, demand and market circumstances. Also, they should be able to analyze the firms interactions with its competitive market environment. Students will learn basic aspects of federal macroeconomic policy designed to achieve stable prices and economic growth. Also, they will learn to understand the measurement of output (GDP), employment and prices; the conduct of monetary and fiscal policy; and the balance of trade. Prereq: BUSN 6530 or FNCE 6290 and BUSN 6550, both may be taken concurrently.*

*Semester Hours: 3 to 3*

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

---

**BUSN 6630 - Management of Operations**

*This course is concerned with the production and delivery of goods and services. It provides an overview of a variety of key Operation Management issues including scheduling, capacity determination, facility location and layout, distribution and related topics. The use of model-assisted decision making is emphasized.*

*Semester Hours: 3 to 3*
BUSN 6640 - Financial Management

Summer 2010 Registration BUSN 6640
This course is concerned with the business firm's decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students will learn to evaluate a firm's financial position through the examination of its financial statements and to prepare pro forma statements for the firm. Prereq: BUSN 6530 or FNCE 6290, BUSN 6620 (both may be taken concurrently) and BUSN 6550 completed prior and strictly enforced. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6710 - Strategic Management

Summer 2010 Registration BUSN 6710
Concerned with the development of a general management perspective in establishing the strategic direction for an enterprise. Students gain an understanding of strategy formulation and implementation within the context of the global environment. Emphasis is on the integration of knowledge acquired in the previous functional area courses. Note: This course is intended as a final semester Capstone course. Prereq: BUSN 6560 and BUSN 6640 - strictly enforced; BUSN 6630 strongly recommended and may be taken concurrently. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Electives

International business elective (1) (3 semester hours)
Free electives (5) (15 semester hours)

Total: 48 Hours

Notes and Restrictions:

Core Substitution. Students with extensive and comparable course work in a particular core subject area may petition to substitute a higher-level graduate core course on the basis of prior undergraduate or graduate course work taken at a regionally accredited college or university for the corresponding core class. This does not waive the 48-hour requirement. If a core course is substituted, another graduate level course in the same
functional area must be used as a substitute so that the student completes a total of 48 semester hours.

*International Elective.* One 3-hour course with an international focus must be completed. Contact a graduate advisor or refer to a current MBA degree plan for a complete list of options.

*Electives.* The professional MBA curriculum allows for 15 semester hours of elective credit, which can be chosen from graduate-level courses offered by the Business School, except BUSN courses numbered below 6800. Additional graduate-level course work completed at the Downtown Campus outside the Business School may be applied to the MBA degree, but only with prior written approval of the MBA program director.

*Note:* Electives for the 11-month and executive MBA programs are preselected for all students.

### MBA Specializations

Graduate students will have an opportunity to take specialized tracks within the professional MBA program by completing a prespecified program of elective courses. The following 15 tracks are available:

- Business-to-Business Marketing
- Business Intelligence
- Business-to-Consumer Marketing
- Business Strategy
- Change Management
- Corporate Financial Management
- Decision Sciences
- Enterprise Technology Management
- Entrepreneurship
- Finance
- Financial Analysis
- Human Resources Management
- Information Systems
- International Business
- Investment Management
- Managing for Sustainability
- Marketing
- Services Management
- Sports and Entertainment Management
For additional information about the professional MBA program, contact a graduate advisor at 303-315-8201.

Business Administration—11–Month MBA

Program Director: Gary Colbert
Administrative Director: Debbie Follenweider
E-mail: 11-monthMBA@ucdenver.edu
Telephone: 303-315.8800
Web site: www.busniess.ucdenver.edu/11month

The 11-month MBA is an accelerated full-time program that brings academically superior students together with select research and teaching faculty. The program enables students to focus their energies in a concentrated, total-immersion program of study earning a nationally accredited, 48-semester-hour MBA degree in just under a year.

The 11-month MBA consists of five eight-week terms, three courses per term, plus a two-week international business course abroad. In addition to a minimum of 18 hours of class time each week, the 11-month MBA students spend an average of 30 hours a week on homework. Students should expect a minimum time commitment of 48 hours per week to successfully complete this program.

Admission and Application Process

The admissions committee considers each candidate’s entire record of achievement demonstrated through academic transcripts, GMAT scores, essays, letters of recommendation, personal interviews (optional at the candidate’s discretion), work experience and extracurricular and community activities.

Previous Education

Applicants’ complete academic records, including GPAs and previous course work are considered. Undergraduate degrees do not have to be in business, but they must be from regionally accredited colleges or universities.

Testing

The GMAT is a requirement for application to the 11-month MBA program and cannot be substituted with other standardized examinations. If you take the GMAT more than once, we will evaluate your application using the highest GMAT score. The GMAT score for
students admitted into the 11-month MBA program has averaged around 600. Students must score a minimum 500 to be considered for admission to the 11-month MBA program. The GMAT Web site is www.mba.com.

The 11-month MBA also requires a highly developed proficiency in written and oral English. International applicants whose first language is not English must take the TOEFL or IELTS exam and earn a minimum score of 575/232 TOEFL or 7 IELTS to be considered for admission to the 11-month MBA program. Information on taking the TOEFL or IELTS can be obtained by visiting www.ets.org and www.ielts.org.

Work Experience

Students in the 11-month MBA program have an average of six years of work experience. However, experience ranges from the recently graduated to more than 30 years in business. Professional experience strengthens the application, since it adds relevance and depth to the learning process and enables candidates to contribute to and benefit from the knowledge of fellow classmates in the accelerated time frame of the program.

Applications

The following are required for consideration of admission to the program.

- completed application for graduate admission, parts I and II, submitted by published deadlines and fee (domestic or international as appropriate)
- two (2) letters of recommendation from professional or academic acquaintances who are familiar with the applicant’s academic/professional competence
- GMAT scores taken in the last five years sent directly to the graduate admissions office from the Educational Testing Service. When registering for the GMAT, use code MPB-OG-65
- two (2) official transcripts from each school, college or university previously attended past high school, sent directly to the graduate admissions office. A minimum baccalaureate degree is required
- include answers to the four essay questions demonstrating commitment to an accelerated MBA program
- a resumé outlining work experience
- for international students, a minimum official score of 575/232 TOEFL or 7 IELTS is required to apply

The priority date for domestic applications is June 15 (May 1 for international students). Applications (for domestic students) and current fee information are available at www.ucdenver.edu/business/11month.

All of the required admission materials should be sent to:
For further information, brochures and application materials, contact the 11-month MBA program at 303-315-8800 or 11-monthMBA@ucdenver.edu.

The 11-month MBA uses a rolling admission system. The committee reviews applications when they are complete in all respects, including transcripts, GMAT scores and letters of recommendation. Candidates are encouraged to submit their application as early in the process as possible. Completed applications are reviewed until early August; applications received after June 15 will be reviewed on a space-available basis. International applicants should have their completed applications in by May 1, to leave them sufficient time for visa and travel arrangements if they are admitted.

A personal interview may also be required for admission to the 11-month MBA.

11-Month MBA Scholarships/Loans

General financial assistance is available for qualified students. Students should apply directly to the Downtown Campus Office of Financial Aid. Call 303-556-2886 for information and forms. In addition, 11-month MBA merit-based scholarships are available only to students in the 11-month MBA. Other Business School scholarships are also available to all MBA students.

Degree Requirements

Students in the 11-month MBA complete 10 MBA core courses, one international business course (conducted abroad) and five special topics courses. All courses require that students work in teams. Due to the program’s cohort structure, individual elective options are not available to 11-month MBA students. No courses may be waived, substituted or transferred into the program. If a student finds it necessary to leave the accelerated program, credits already earned may be transferred to the professional MBA program on campus.

MBA Core Courses

BUSN 6520 - Managing Individuals and Teams

Summer 2010 Registration BUSN 6520
Students learn the strengths and weaknesses of their management style and how to work effectively with individual differences. Students also learn how to form teams around purpose/task, diagnose problems and identify and implement solutions by
utilizing leadership skills such as setting goals, processes and measures, interpersonal communication, motivation and conflict management. Students develop an understanding of the effect of the organizational and social context on the behavior of individuals and teams. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6530 - Data Analysis for Managers**

*Summer 2010 Registration BUSN 6530*

Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530 and FNCE 6290. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6540 - Legal and Ethical Environment of Business**

*Summer 2010 Registration BUSN 6540*

Students develop a working knowledge of legal and ethical parameters for business decision making. The course addresses the legal system and mechanisms for resolving disputes. Topics include constitutional law, torts, product liability, contracts, property law, consumer protection, intellectual property, business entities and employment law. It stresses the influence of legal issues on organizational decision making. Note: Students can substitute ENTP 6822 but credit cannot be received for both. Health Administration students must take BUSN 6541. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6550 - Analyzing and Interpreting Accounting Information**

*Summer 2010 Registration BUSN 6550*

Emphasizes the use of accounting statements and data in making business decisions. External financial accounting information and concepts are used for investment and credit decisions. Internal managerial accounting information and concepts are used for product costing, cost analysis and management control. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

Registration is changing. Visit our website for details ucdenver.edu/registration.
BUSN 6560 - Marketing Management

Summer 2010 Registration BUSN 6560
Focuses on the formulation and implementation of a marketing plan in the context of the firm's strengths, overall strategy and competitive environment. Emphasis is on understanding the marketing environment and on decision making skills regarding market selection, pricing, promotion, product configuration and management of distribution channels. **Semester Hours:** 3 to 3  **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6610 - Information Systems Management and Strategy

Summer 2010 Registration BUSN 6610
Examines the strategic, technological, financial and organizational issues involved with the effective management of information technology. Topics include: (1) role and importance of IT in modern organizations (e.g., IT impact on competitiveness, alignment of corporate and IT strategies, IT infrastructures and IT-enabled organizational processes), (2) alternative methods to develop, acquire and implement information systems (e.g.) evaluation of IT investments, implementing and managing complex IT projects), (3) nature of IT management (e.g., the evolving roles of enterprise IT management, IT sourcing and contractual relationships) and (4) ethical and security issues associated with IT. Note: Students cannot receive credit if they have taken BUSN 6810 or ISMG 6180. **Cross-listed with ISMG 6180.**  **Semester Hours:** 3 to 3  **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6620 - Applied Economics for Managers

Summer 2010 Registration BUSN 6620
After taking this course, students should be able to apply economic principles to make optimal decisions given firm cost, demand and market circumstances. Also, they should be able to analyze the firms interactions with its competitive market environment. Students will learn basic aspects of federal macroeconomic policy designed to achieve stable prices and economic growth. Also, they will learn to understand the measurement of output (GDP), employment and prices; the conduct of monetary and fiscal policy; and the balance of trade. Prereq: BUSN 6530 or FNCE 6290 and BUSN 6550, both may be taken concurrently. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6630 - Management of Operations

Summer 2010 Registration BUSN 6630
This course is concerned with the production and delivery of goods and services. It provides an overview of a variety of key Operation Management issues including
scheduling, capacity determination, facility location and layout, distribution and related topics. The use of model-assisted decision making is emphasized. **Semester Hours:** 3 to 3
**When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6640 - Financial Management**

*Summer 2010 Registration BUSN 6640*
This course is concerned with the business firm's decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students will learn to evaluate a firm's financial position through the examination of its financial statements and to prepare pro forma statements for the firm. Prereq: BUSN 6530 or FNCE 6290, BUSN 6620 (both may be taken concurrently) and BUSN 6550 completed prior and strictly enforced. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6710 - Strategic Management**

*Summer 2010 Registration BUSN 6710*
Concerned with the development of a general management perspective in establishing the strategic direction for an enterprise. Students gain an understanding of strategy formulation and implementation within the context of the global environment. Emphasis is on the integration of knowledge acquired in the previous functional area courses. Note: This course is intended as a final semester Capstone course. Prereq: BUSN 6560 and BUSN 6640 - strictly enforced; BUSN 6630 strongly recommended and may be taken concurrently. **Semester Hours:** 3 to 3
**When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 30 Hours**

**International Course Abroad**

The international course, which involves travel abroad, is completed as an all-day, two-week intensive course.

**Special Topics Courses**

The special topics courses, revised each year, are selected to create a broad understanding of the most current business issues. These requirements are subject to change.
Business Administration—Health Administration MBA

Program Director: Errol L. Biggs
Telephone: 303-315-8851
E-mail: errol.biggs@ucdenver.edu

Faculty

Professors:
Heidi Boerstler, PhD/JD, Yale University/University of Denver
Peter Bryant, PhD, Stanford University
C. Marlena Fiol, PhD, University of Illinois-Urbana-Champaign
Richard Foster, PhD, University of Chicago
Bruce Neumann, PhD, University of Illinois
Edward O’Connor, PhD, University of Akron

Associate Professors:
Deborah Kellogg, PhD, University of Southern California
Stephen Ross, MD, University of North Carolina

Instructors:
Errol Biggs, PhD, Pennsylvania State University

Admission Process

Requirements for Admission

Selection of students is a multistep process. When making application to the program for the MBA-HA, candidates should send their applications to:

Graduate Admissions
Graduate School of Business Administration
University of Colorado Denver
Campus Box 165, P.O. Box 173364
Denver, CO 80217-3364

Application Requirements
• complete the application for graduate admission, parts I and II, and submit by published deadlines
• send two (2) letters of recommendation from professional or academic acquaintances who are familiar with the applicant’s academic/professional competence
• send required GMAT scores directly to the graduate office from the Educational Testing Service. When registering for the GMAT, use code MPB-OG-78. GRE scores will also be considered.
• pay the appropriate application fee
• send two (2) official transcripts directly from each school, college or university previously attended past high school. A minimum baccalaureate degree is required.
• include answers to the four essay questions
• document any experience in the field of health services administration (preferred but not required)
• complete a personal interview with the health administration committee

Admission to the MBA-HA degree program is on a competitive basis. Therefore, these admission criteria represent minimum entrance qualifications expected of all students.

For further information, brochures and application materials, contact the Business School’s Graduate Program in Health Administration, University of Colorado Denver, 303-315-8200.

Health Administration Scholarships/Loans

Financial assistance is available for qualified students. Students should apply directly to the Downtown Campus Office of Financial Aid. Call 303-556-2886 for information and forms.

In addition, some funds are available only to students in the graduate program in health administration:

• Foster G. McGaw Scholarship
• UC Denver MS and MBA Health Administration Scholarship
• Colorado Health Administration Alumni Association Scholarship

Enrollment in the program also makes students eligible to apply for some nationally competitive scholarships from professional organizations.

Call 303-315.8200 for applications or visit www.business.ucdenver.edu.

Graduate Program in Health Administration

The graduate program in health administration is consistently ranked as a top program in the United States and attracts students with a variety of backgrounds and experience levels, which further enriches the classroom experience. The HA program is accredited
by the Commission on Accreditation of Healthcare Management Education. The program is the only such program in the Rocky Mountain region and was started in 1968. Full-time faculty with distinguished research records and a select group of practicing managers provide students with the latest thinking on the most important health issues.

**Degree Requirements**

The curriculum of the MBA with an emphasis in health administration is a synthesis of management concepts and techniques that are applicable to any economic organization, and tools that can be specifically applied to health services systems. The program emphasizes skills that strengthen basic analytic and decision-making processes used by top level managers in selecting broad strategies and by junior managers in administering subunits in health care organizations.

Students enrolled in the master of business administration with an emphasis in health administration must complete a minimum of 48 semester hours of graduate-level course work to receive their degree. The curriculum is based on a series of structured learning sequences. Most of the courses are available in the evening to enable working students to pursue the degree on a part-time basis. The specific course requirements are as follows (recommended sequence):

**Year One**

**BUSN 6521 - Managing Individuals and Teams (Health Section)**

*Summer 2010 Registration BUSN 6521*

Students learn the strengths and weaknesses of their management style and how to work effectively with individual differences. Students also learn how to form teams around purpose/task, diagnose problems and identify and implement solutions by utilizing leadership skills such as setting goals, processes and measures, interpersonal communication, motivation and conflict management. Students develop an understanding of the effect of the organizational and social context on the behavior of individuals and teams. The emphasis is on health care issues and is intended for health care students. *Semester Hours: 3 to 3*

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**BUSN 6530 - Data Analysis for Managers**

*Summer 2010 Registration BUSN 6530*

Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form...
and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530 and FNCE 6290. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6550 - Analyzing and Interpreting Accounting Information**

*Summer 2010 Registration* **BUSN 6550**
Emphasizes the use of accounting statements and data in making business decisions. External financial accounting information and concepts are used for investment and credit decisions. Internal managerial accounting information and concepts are used for product costing, cost analysis and management control. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HLTH 6010 - Health Care Systems**

*Summer 2010 Registration* **HLTH 6010**
Introduces the structure and function of the medical care delivery system. Includes basic concepts and measures of health, disease, quality, values, needs and utilization; issues in health care manpower, institutions and system organization; general issues in policy, reimbursement and regulation; broad community, and organizational considerations in medical care organizations. The student is introduced to the principles of epidemiology and environmental health and demonstrates the application of epidemiology concepts to planning for the healthcare service needs of a population. **Semester Hours:** 3 to 3 **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6541 - Legal and Ethical Environment of Business (Health Section)**

*Summer 2010 Registration* **BUSN 6541**
Students develop a working knowledge of legal and ethical parameters for business decision making. Addresses the legal system and mechanisms for resolving disputes. Topics include business entities, torts, contracts, employment relationships, litigation and alternative dispute resolution. It stresses the influence of legal issues on organization and decision making. The emphasis is on health care issues and is intended for health care students. **Semester Hours:** 3 to 3 **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HLTH 6071 - Introduction To Health Information Technology**

*Summer 2010 Registration* **HLTH 6071**
Examines what needs transforming in healthcare to improve value, safety, and appropriateness of care, and what the role of IT is in that transformation. IT also examines the challenges of cultural change and IT strategy in succeeding with clinical
Information projects. Differences between installation, implementation, transition and actual transformation are suggested, and methods for managing subcultures in healthcare (IT, clinical, administrative) are reviewed. Cross-listed with ISMG 6071.

**Semester Hours:** 3 to 3  **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6621 - Applied Economics for Managers (Health Section)**

**Summer 2010 Registration BUSN 6621**
After taking this course, students should be able to apply economic principles to make optimal decisions given firm cost, demand and market circumstances. Also, they should be able to analyze the firm's interactions with its competitive market environment. Students should understand basic aspects of federal macroeconomics policy designed to achieve stable prices and economic growth. Also, they should understand basic aspects of government regulation of business. The emphasis is on healthcare issues and is intended for healthcare students. Prereq: BUSN 6530 and BUSN 6550, both may be taken may concurrently.

**Semester Hours:** 3 to 3  **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 24 Hours**

**Year Two**

**HLTH 6040 - Health Care Financial Management**

**Summer 2010 Registration HLTH 6040**
Theory of insurance applied to healthcare, including benefits design and co-payments. Existing and proposed competition in insurance markets, including rating methodologies and selection issues. Managed care and medical spending accounts as responses to problems with traditional insurance. Managerial accounting methods useful for analyzing contracts and managing profitability are presented. Prereq: BUSN 6550 and 6621 or permission of instructor.

**Semester Hours:** 3 to 3  **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6640 - Financial Management**

**Summer 2010 Registration BUSN 6640**
This course is concerned with the business firm's decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students will learn to evaluate a firm's financial position through the examination of its financial statements.
and to prepare pro forma statements for the firm. Prereq: BUSN 6530 or FNCE 6290, BUSN 6620 (both may be taken concurrently) and BUSN 6550 completed prior and strictly enforced. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6560 - Marketing Management**

*Summer 2010 Registration BUSN 6560*
Focuses on the formulation and implementation of a marketing plan in the context of the firm's strengths, overall strategy and competitive environment. Emphasis is on understanding the marketing environment and on decision making skills regarding market selection, pricing, promotion, product configuration and management of distribution channels. **Semester Hours:** 3 to 3  **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6631 - Management of Operations (Health Section)**

*Summer 2010 Registration BUSN 6631*
This course focuses on managing and evaluating the processes that produce and deliver health services. Particular emphasis is on quantitative techniques to support healthcare operations including Monte Carlo simulation, decision analysis, quality improvement methods, forecasting, capacity planning, project management and inventory and supply chain management. While this course is intended for healthcare students, it is open to all. **Semester Hours:** 3 to 3  **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

**DSCI 6440 - Quality and Process Improvement**

*Summer 2010 Registration DSCI 6440*
Studies the identification, measurement and improvement of quality and the practical management issues related to implementing quality systems within organizations. Topics include historic and contemporary views of quality, statistical quality control tools including Six SigmaSM, work design and measurement and process flow and design. Note: Cannot receive credit for both DSCI 6440 and BUSN 6832. Prereq: BUSN 6530 or permission of instructor. Cross-listed with BUSN 6832. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6711 - Strategic Management (Health Section)**

*Summer 2010 Registration BUSN 6711*
Concerned with the development of a general management perspective in establishing the strategic direction for a health delivery organization. Students gain an understanding of strategy formulation and implementation within the context of the managed care
environment. Emphasis is on the integration of knowledge acquired in the previous functional area courses. Note: This course is intended as a final semester course. Required of Health Administration majors; open to others. Prereq: BUSN 6560 and 6640 - strictly enforced; BUSN 6630 strongly recommended and may be taken concurrently. Semester Hours: 3 to 3 When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

HLTH 6911 - Health Field Studies

Summer 2010 Registration HLTH 6911
The objective of this course is to expose students to health care organizations with which they are not familiar. Each student is assigned to a health care organization and given a specific problem or project to complete. Prereq: HLTH 6010 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 27 Hours

Notes and Restrictions

Students admitted into the MBA with an emphasis in health administration must meet with a graduate advisor before they register for their first semester. Call 303-315-8200 to schedule an appointment.

Administrative Residency. An administrative residency is optional but recommended for students with limited health care experience. The program faculty provide assistance to students in securing the residency, as well as regular consultation during the residency period. The program has been very successful in placing graduates in administrative residencies.

Length of program. A maximum of five years and one semester is allowed to complete the health administration program.

Specialized Tracks in the MBA with an Emphasis in Health Administration

Each track carries its own specific course requirements. To provide a variety of perspectives and experiences within a specific area of health administration, each track includes courses that span various departments within the Business School, other schools at the Downtown Campus and other University of Colorado campuses.

- International Health Management and Policy Track
- Financial Management Track
- Health Information Technology Management Track
Chemistry MS

Requirements for Admission

Students must meet the Downtown Campus Graduate School admission requirements with specific chemistry requirements as follows:

- Undergraduate GPA of at least 3.0.
- Undergraduate major in chemistry essentially equivalent to the one offered at UC Denver (see the undergraduate requirements), including two semesters of organic, analytical and physical chemistry with laboratories and one semester of inorganic chemistry. No student will be admitted to the graduate program who is not within two classes of meeting the undergraduate requirements.
- GRE examination is recommended, as is the advanced chemistry GRE examination.
- International students have additional admission requirements concerning immigration status, proof of financial responsibility and acceptable TOEFL scores.
- Failure to meet the full admission standards may lead to provisional admission.

Prospective students are encouraged to contact the graduate program director or visit the chemistry department Web site for additional details concerning the chemistry program, admission procedures, financial assistance and faculty research interests.

General Program Requirements

At the heart of the graduate program is a set of four core graduate courses in the fields of analytical, inorganic, organic and physical chemistry. A student must qualify in order to register for any core graduate class, either by passing a qualifying examination in that field or by passing the equivalent undergraduate class in that area at UC Denver with a grade of B (3.0) or better. All entering students are required to qualify in all four core fields. The qualifying requirements must be completed during the first year in the graduate program. Individual core classes may have additional prerequisites.

Depending on the program option that she/he selects, a student will be required to pass either three (Plan I) or all four (Plan II) of the graduate core courses with no grade in a core course below B- (2.7).

The remaining course work for the degree will consist of regular graduate offerings in chemistry, a limited number of which may be substituted by approved classes in related fields. In particular, students interested in interdisciplinary areas, such as biochemistry or environmental chemistry, are encouraged to take cognate courses outside the chemistry department. The chemistry graduate program director must approve in advance any
graduate class taken outside the department that is to count toward the degree. All students are required to annually submit an updated program plan for approval and to have their progress evaluated by the graduate program director.

Specific Degree Requirements

There are two options for obtaining a master’s degree from the Downtown Campus Department of Chemistry: Plan I, the thesis option, and Plan II, the course work emphasis option. All students must complete at least 3 semester hours of master's report (CHEM 6960). A student is allowed to participate in the thesis option only after the successful completion of the master's report with the proposed advisor, and upon the mutual agreement of both the student and advisor that the student is prepared to work on a master's thesis. Students who select the course work emphasis option may petition to have up to 3 additional semester hours of master's report research substitute for an equivalent number of course work hours.

Plan I. Thesis Option

Plan I is a research-oriented program involving a minimum of 30 semester hours with the following requirements:

- 21-23 semester hours of formal course work, including three of the four graduate core courses
- 4-6 semester hours of CHEM 6950, Master’s Thesis research; successful completion of the thesis research includes the presentation of the results at a departmental seminar
- 3 semester hours of CHEM 6960, Master’s Report research
- a grade of B- (2.7) or better in all courses completed: B- (2.7) or better in all core courses
- a cumulative GPA of 3.0 or better in all courses taken as a graduate student
- an acceptable formal thesis consistent with the guidelines of the Graduate School
- successful oral defense of the master’s thesis before a committee of at least three graduate faculty members, two of whom must be tenure track faculty members in the chemistry department
- compliance with all Graduate School Rules
- all work must be completed within five years of completion of the first graduate class in the department

Plan I thesis research must be conducted under the direct supervision of a tenure-track faculty member of the Downtown Campus Department of Chemistry. Plan I students must take a minimum of 15 semester hours of formal course work in chemistry at the 5000 level or above. Students may petition the graduate program director in advance for
permission to take one or two courses at the graduate level outside of chemistry that would count toward the requirements for an MS in chemistry.

Plan II. Course Work Emphasis Option

Plan II is a course work-oriented program involving a minimum of 33 semester hours with the following requirements:

- 27-30 semester hours of formal course work, including all four graduate core courses
- at least 3 (but not more than 6) semester hours of CHEM 6960, Master’s Report, research
- a grade of B- (2.7 or better) in all courses completed; B- (2.7) or better in all core courses
- a cumulative GPA of 3.0 or better in all courses taken as a graduate student
- a final research report
- presentation of the research project in a final seminar
- successful defense of the project before a committee of at least three graduate faculty members, one of whom must be a tenure-track faculty member in the chemistry department
- compliance with all Graduate School Rules
- all work must be completed within five years of completion of the first graduate class in the department

A Plan II student may petition the graduate program director to substitute up to 3 semester hours of master's report (CHEM 6960) research, beyond the required minimum, for an equivalent number of semester hours of formal course work. Approval will be perfunctory for research performed with the support and under the direct supervision of a faculty member in the Department of Chemistry on the Downtown Campus. Plan II students must take a minimum of 24 semester hours of formal course work in chemistry at the 5000 level or above. Students may petition the graduate program director in advance for permission to take up to two courses at the graduate level outside of chemistry that would count toward the requirements for an MS in chemistry.

Return to the Department of Chemistry

Civil Engineering MS and MEng

Graduate

Degree Programs
The civil engineering graduate program is designed for both full-time and part-time students who want to advance their academic and professional skills in civil engineering and related areas. Many students are full time, while many also work full-time jobs and complete evening classes. Depending on a student's pace, the master's program takes 2-4 years to complete (on average). All graduate courses are offered in the afternoons, evenings or on Saturdays. Some courses, including all GIS classes, are offered online.

Specialty Areas:

Master of Science (MS)

- Environmental and Sustainability Engineering
- Geographic Information Systems (GIS)
- Geotechnical Engineering
- Hydrologic and Hydraulic Engineering
- Structural Engineering
- Transportation Engineering

Master of Engineering (MEng)

- Geographic Information Systems (GIS)
- Sustainable Infrastructure
- Transportation Systems

Degree Requirements

Two MS degree programs are available.

Plan I - Master's Thesis: This plan requires 24 credit hours of graduate-level course work and 6 semester hours of master's thesis credit.

Plan II - Master's Report: This plan requires 27 credit hours of graduate-level course work and 3 semester hours master's report credits.

Master of engineering students must follow Plan 2 above. Additionally, of those 30 semester hours, at least 15 hours must be completed with CE classes, including the master's report. The remaining hours may be completed in related disciplines that supplement the chosen area of study. Both the MS and MEng degrees require satisfactory completion of a written comprehensive exam and an oral defense of the master's thesis or master's report to a committee of at least three graduate faculty. Every graduate student must also satisfy the degree requirements of the Graduate School on the Downtown Campus, specified in the Information for Graduate Students.
chapter of this catalog. Both the MS and the MEng degree programs must be completed within seven years of the date the student begins the degree program.

Courses for both the MS and MEng degree programs are selected by mutual agreement of the student and his/her faculty advisor after admission to the degree program. The advisor may also specify undergraduate courses that must be completed before starting graduate course work, but these will not count toward the semester hour requirements for the degree. The student’s thesis or report topic must also be approved by the faculty advisor.

**Requirements for Admission**

**GPA and GRE**

Students with GPA's between 3.0 and 2.75 may be admitted provisionally, but are encouraged to submit official GRE scores to support their applications. Non-international applicants not wishing to take the GRE may gain admittance by registering as a nondegree student and completing three classes with a GPA of 3.25.

**Transfer Credit:**

Master's students may transfer up to 9 semester hours from another institution towards their master's degree, if approved by their advisor.

**Program Prerequisites:**

Prerequisite classes are in addition to the 30 semester hours needed to complete a master's degree, as they are necessary background information that is usually included in an engineering bachelor's program.

Students may complete prerequisite classes either before or after being admitted to a degree program. However, applicants with too many prerequisites may not gain admission. For applicants completing prerequisites after admission, all prerequisite courses must be completed before 12 of the 30 master's semester hours are complete.

Requests for applications for graduate study in civil engineering should be addressed to

UC Denver Department of Civil Engineering
Campus Box 113
P.O. Box 173364
Denver, CO 80217-3364.
Applicants who are not citizens or permanent residents of the United States must apply through the Office of International Admissions, Campus Box 185, P.O. Box 173364, Denver, CO 80217-3364. All applicants for admission must submit complete credentials as outlined in the instructions that accompany the application materials.

Communication MA

The master of arts in communication is a generalist degree designed to enhance students’ intellectual and professional growth through the understanding and practice of effective communication.

Degree Requirements

Students have two options for completing the MA degree in communication: the professional track and the academic track.

Professional Track

The professional track requires the completion of 36 hours of graduate course work (5000 level or above). As explained below, students have the option of taking 6 hours of 4000-level courses. In this situation, a student will take 30 hours of graduate credit and 6 hours of 4000-level (undergraduate) course work. The requirements for course work are as follows:

Required Course

COMM 6013 - Introduction to Graduate Work in Communication

*Summer 2010 Registration CMMU 6013*

Designed to familiarize students with the philosophical, ideological, and methodological bases of study in communication. Note: Required of all graduate students in M.A. program in communication. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdnver.edu/registration.

(recommended to be taken the first semester of graduate course work; offered only in the fall semester)

Methods Courses
Most methods courses are offered every other year. The second methods course may be taken outside of the communication department with the approval of the student’s advisor.

Choose two:

**COMM 5011** - Research Methods: Quantitative

*Summer 2010 Registration CMMU 5011*

Examines quantitative techniques used by researchers in communication, including laboratory research, field and survey research, content analysis, and interaction analysis. Objective of the course is to give students enough background to read critically in the social sciences. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4011. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**COMM 5022** - Critical Analysis of Communication

*Summer 2010 Registration CMMU 5022*

Surveys research methods used to analyze messages from rhetorical and critical perspectives. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4022. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**COMM 5221** - Research Methods: Qualitative

*Summer 2010 Registration CMMU 5221*

Applies qualitative research methods to human communication practices, including the processes of designing qualitative studies, collecting data, analyzing and interpreting data, and reporting results. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4221. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**COMM 6205** - Empirical Research Methods for Communication and Technical Communication

*Summer 2010 Registration CMMU 6205*

Provides exposure to empirical research methods involved in communication and technical communication research: surveys, experimental design, meta-analysis, case study, ethnography, textual analysis, and process tracing. Basic quantitative data analysis methods (correlation, chi-square, t-tests, and analysis of variance) are introduced. Prereq: COMM 5405 and 5505 or permission of instructor. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
Total: 9 Hours

Graduate Seminars

In addition to the above core requirements, students must take four graduate seminars from the Department of Communication. Graduate seminars are 5000- or 6000-level courses.

Total: 12 Hours

Electives

Students must complete five electives. A minimum of three of these electives must be at the 5000 or 6000 level; the remaining two may be at the 4000 level. At least three of the five electives must be communication courses; the remaining two electives may be taken from outside of the Department of Communication.

[Students whose bachelor’s degrees are not in communication are required to take one additional course (CMMU 4031). This course does not count toward the semester hours required for the degree; it is taken in addition to those 36 hours.]

COMM 4031 - Perspectives on Communication

Summer 2010 Registration CMMU 4031
Overview of major theories and literature in the communication field that serve as the foundation for the study of communication. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 15 Hours

Students must receive a grade of B or higher in all courses that are applied to the MA degree.

Track Total: 36 Hours

Academic Track

The academic track is distinguished from the professional track in that it requires the completion of a substantial academic writing project or projects. The academic track requires the completion of 36-37 hours of graduate course work. At least 30 of these hours must be at the 5000 or 6000 level; 6 hours (two courses) may be at the 4000 level. The requirements for course work are as follows:
COMM 6013 - Introduction to Graduate Work in Communication

Summer 2010 Registration CMMU 6013
Designed to familiarize students with the philosophical, ideological, and methodological bases of study in communication. Note: Required of all graduate students in M.A. program in communication. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
(recommended to be taken the first semester of graduate course work; offered only in the fall semester)

Methods Courses

Most methods courses are offered every other year.

Choose two:

COMM 5011 - Research Methods: Quantitative

Summer 2010 Registration CMMU 5011
Examines quantitative techniques used by researchers in communication, including laboratory research, field and survey research, content analysis, and interaction analysis. Objective of the course is to give students enough background to read critically in the social sciences. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4011. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5022 - Critical Analysis of Communication

Summer 2010 Registration CMMU 5022
Surveys research methods used to analyze messages from rhetorical and critical perspectives. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4022. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5221 - Research Methods: Qualitative

Summer 2010 Registration CMMU 5221
Applies qualitative research methods to human communication practices, including the processes of designing qualitative studies, collecting data, analyzing and interpreting data, and reporting results. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4221. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
COMM 6205 - Empirical Research Methods for Communication and Technical Communication

Summer 2010 Registration CMMU 6205
Provides exposure to empirical research methods involved in communication and technical communication research: surveys, experimental design, meta-analysis, case study, ethnography, textual analysis, and process tracing. Basic quantitative data analysis methods (correlation, chi-square, t-tests, and analysis of variance) are introduced. Prereq: COMM 5405 and 5505 or permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 9 Hours

Graduate Seminars

In addition to the above core requirements, students must take four graduate seminars from the communication department. Graduate seminars are 5000- or 6000-level courses. The four courses must be approved by the student's advisor.

Total: 12 Hours

Electives

Students must complete five electives. A minimum of two of these electives must be at the 5000 or 6000 level; the remaining two may be at the 4000 level. At least two of the electives must be communication courses; the remaining two may be taken from outside of the communication department. If a thesis is presented, the thesis credits will substitute for one elective course requirement.

[Students whose bachelor's degrees are not in communication are required to take one additional course (CMMU 4031). This course does not count toward the semester hours required for the degree; it is taken in addition to those 36-37 hours.]

COMM 4031 - Perspectives on Communication

Summer 2010 Registration CMMU 4031
Overview of major theories and literature in the communication field that serve as the foundation for the study of communication. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 12-15 Hours
(12 hours for thesis students; 15 for non-thesis)

Thesis

Students either must present a major paper for publication (no additional course credit) or complete a thesis for 4 semester hours. Credit for a thesis may substitute for one elective course requirement.

Total: 4 Hours

Students must receive a grade of B or higher in all courses that are applied to the MA degree.

Track Total: 36-37 Hours

Options for Specialization

The communication department has developed two options for students who wish to create an area of focus or specialization within the MA degree—communication management and doctoral preparation. Students may choose to develop one of these options as they select their electives, or they may earn a general degree by selecting electives across the two areas of specialization. Either option may be pursued by students in the professional track; the doctoral preparation specialization is recommended for students in the academic track.

Communication Management

Communication management is an area of knowledge and skills concerned with the processes involved in managing communication—creating, accessing and delivering communication services within organizational contexts. The area of communication management provides opportunities for the development of communication skills and knowledge by professionals in public, corporate and not-for-profit organizations. Anyone who must manage communication resources for an organization—including account executives, multimedia professionals, human resource specialists and trainers—can advance their career through a specialty in communication management.

Doctoral Preparation

The specialty in doctoral preparation is for students who plan to pursue a PhD after completion of their MA degree. Individuals who earn a PhD typically engage in teaching and research as university professors, but the degree also may be pursued to increase marketability in the corporate world in areas such as consulting and training.
Computer Science MS

► Graduate School Rules apply to this program

General MS Degree Requirements

In addition to the basic requirements of the university, the Department of Computer Science and Engineering requires master’s degree candidates to complete an approved program of study consisting of at least 30 semester hours of graduate-level computer science courses and a thesis or project while maintaining a GPA of at least 3.0. With prior approval of the graduate committee, a student may substitute up to 9 semester hours of graduate-level mathematics or other engineering courses. All courses must be taught by University of Colorado graduate faculty.

A student must submit an approved plan of study to the department during the first semester of his/her admission. An academic advisor will consult with each student to develop a plan of study.

Adequate Progress toward MS in Computer Science Degree

Students are expected to finish the MS degree program within five years. Candidates for the MS degree may not get credit for a course taken longer than five years before the date on which the degree is to be granted.

Students who do not enroll for any course work relevant to computer science in a given semester (summer semesters excluded) must supply the Department of Computer Science and Engineering with a written statement describing the reason for the inactivity. Students who are inactive for three consecutive semesters (summer semesters excluded) will be removed from the program, and must re-apply for admission.

Students may choose either Plan I (thesis) or Plan II (MS project).

Plan I—Thesis

Students choosing Plan I take 24 semester hours of graduate course work and conclude their program with 6 semester hours of thesis work. A minimum of three courses must be chosen from among five “core” courses and must be passed with a grade of B or better. Three additional courses must be chosen from among more than a dozen “breadth” courses. Plan I students must also write a thesis and defend it before a thesis
committee. The students in Plan I may take one independent study course for a maximum of 3 hours.

**Plan II—MS Project**

Students choosing Plan II take 27 semester hours of graduate course work and conclude their program with 3 semester hours of MS project work. A minimum of three courses must be chosen from among five “core” courses and must be passed with a grade of B or better. Three additional courses must be chosen from among more than a dozen “breadth” courses. Plan II students must also write an MS project report and defend it before an MS project committee. The students in Plan II may take one independent study course for a maximum of 3 semester hours.

*Note:* Students can take only graduate engineering (21 semester hours must be CS courses) and graduate mathematics courses. No more than 6 semester hours can be taken in the form of online courses.

**Counseling Psychology and Counselor Education MA**

- **Degree**
- **Admission Requirements**
- **Matriculation Requirements**

**Program Leader:** Marsha Wiggins

**Office:** Lawrence Street Center, 701
**Telephone:** 303-315-6300
**Fax:** 303-315-6311
**E-mail:** education@ucdenver.edu
**Web site:** www.ucdenver.edu/education/cpce

**Faculty**

Information about faculty in the counseling psychology and counselor education program is available online at www.ucdenver.edu/education.

**Degree**

The master of arts degree in counseling psychology and counselor education prepares professionals for community/mental health agencies, private practice and public schools. Students should obtain faculty advising regarding requirements.
Programs consist of 63 semester hours (66 for the multicultural/diversity strand). Core requirements that are common to all areas of study are followed by courses specific to each program. All programs require a practicum (150 clock hours) and an internship (600 clock hours). For most students, the master’s degree is a three-year program with course work for two years followed by a year of practicum and internship. All beginning students enroll in CPCE 5010 - Counseling Theories. The clinical mental health counseling, school counseling and couple and family therapy programs are nationally accredited by CACREP, the Council for the Accreditation of Counseling and Related Educational Programs.

All students are expected to have online computer capability for communication and instructional purposes. For students in off-campus programs, some courses may be offered via computer technology.

**Admission Requirements**

Successful applicants to the counseling psychology and counselor education (CPCE) program will have obtained a minimum 2.75 undergraduate GPA and will score at least 900 on the verbal and quantitative sections of the GRE or at least 396 on the Miller Analogy Test. Also, applicants will submit a current resume, a statement of goals and four letters of recommendation (academic letters strongly advised). Applicants meeting these minimum standards will be invited to a half-day group interview that involves program orientation, small group interviews, a writing assignment and a group exercise.

Application materials are available by calling the Student Services Center at 303-315-6300 or coming to Lawrence Street Center, Suite 701. All materials must be submitted to the Student Services Center in one complete packet by the appropriate deadline: September 15 for spring semester; January 15 for summer and fall semesters.

Application materials include the following:

- part I of the application for admission
- tuition classification form
- $50 application fee (make checks payable to the University of Colorado Denver)
- written statement
- four letters of recommendation - academic letters strongly advised (in sealed and signed envelopes)
- two official transcripts from each higher education institution attended (in original sealed envelope)
- official GRE or MAT scores sent directly to the University of Colorado Denver (if you do not already hold a graduate degree; see CPCE application checklist)
- oath and consent
- fingerprint card
- online written response

**Matriculation Requirements**
CPCE students must earn at least a B in skills-oriented courses (CPCE 5100, 5160, 6140, 7100, 5910, 5930) or must repeat these courses until they do so. In addition, all students must make a formal case presentation in CPCE 5930 (internship) to demonstrate their clinical knowledge. Students must also take a national comprehensive examination (after 30 semester hours). Students may opt to write a research-based thesis instead of taking the national written examination.

Program Areas

Students accepted into the CPCE program follow one of three programs offering counseling psychology and counselor education. The couple and family therapy program follows licensure requirements designated by the state of Colorado for licensure as a marriage and family therapist. The clinical mental health counseling program follows state licensure requirements for licensed professional counselor, and the school counseling program follows state department of education licensure requirements.

Program Areas

Counseling Psychology and Counselor Education Core

(required in all program areas)

CPCE 5010 - Counseling Theories

Summer 2010 Registration CPCE 5010
Focuses on counseling theories: Psychodynamic, Adlerian, Person-Centered, Existential, Behavioral, including DBT, Cognitive Behavioral, Gestalt, & Reality Therapy. Also includes an overview of the history of the counseling profession and the role and function of counselors in various settings. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 5100 - Techniques of Counseling

Summer 2010 Registration CPCE 5100
Students practice basic counseling skills, develop therapeutic intervention strategies, and improve the effectiveness of their communication by practicing listening and responding. Videotaped role-plays are utilized. Prereq: CPCE 5010. Semester Hours:
CPCE 5110 - Group Counseling

*Summer 2010 Registration CPCE 5110*
Learn group theory and dynamics. Practice facilitating a group. Learn about screening, group membership and styles, roles and behavior, termination of groups. Extensive practice in laboratory setting. Prereq: CPCE 5010 and CPCE 5100. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 5150 - Family Therapy Theory

*Summer 2010 Registration CPCE 5150*
Introduces couple and family theories and intervention strategies. Emphasis on historical development of systems theory. Prereq: CPCE 5010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 5330 - Counseling Issues and Ethics

*Summer 2010 Registration CPCE 5330*
An in-depth examination of ethical and legal issues in the field. Topics include working with individuals and family systems, licensure, professional associations, record keeping and statutory requirements. Prereq: CPCE 5010 and CPCE 5100. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 5400 - Career Development

*Summer 2010 Registration CPCE 5400*
Development of competencies in career development counseling. Theories of work systems, psychological dynamics, information systems, and decision making models are covered. Interacting with work or family systems and other subsystems is emphasized. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 5810 - Multicultural Counseling Issues for Individuals and Families

*Summer 2010 Registration CPCE 5810*
Students engage in an in-depth racism, White privilege and other "isms," and assumptions as applied to ethnic-racial populations. Students learn alternative approaches to counseling African Americans, Asian Americans, Latino(a)s, American
Indians, women, gays and lesbians. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 5910 - Practicum in CPCE**

**Summer 2010 Registration CPCE 5910**
Supervised counseling practice in the counseling lab and appropriate settings (150 clock hours). Emphasis on individual and group counseling techniques and therapeutic intervention strategies. Prereq: all counseling course work must be completed. **Semester Hours:** 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 5930 - Internship in Counseling**

**Summer 2010 Registration CPCE 5930**
Psychology and Counselor Education. Supervised internship of 600 clock hours. Intern performs activities of a regularly employed professional in an approved community site. Prereq: Satisfactory completion of CPCE 5910. **Semester Hours:** 1 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**EPSY 6200 - Human Development Over the Life Span**

**Summer 2010 Registration EPSY 6200**
An inquiry into the experience and meaning of human development over the full span of life. Both analytical and reflective modes of exploration are utilized to approach the study of personhood and the courses and themes of life. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RSEM 5200 - Introduction to Research Methods**

**Summer 2010 Registration REM 5200**
Examines the purposes of research, the methods and designs of quantitative and qualitative research, and the processes involved in research studies. The methods of research examined include experimental designs, quasi-experimental designs, descriptive surveys, case studies, ethnographies and correlational designs. Designing a research study is a part of the course activities. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**RSEM 5300 - Introduction to Measurement**

**Summer 2010 Registration REM 5300**
A first-level course that examines the nature and purpose of psychological measurement. Particular attention is paid to the concepts of reliability, validity, norms, interpretation of scores, response sets, fairness in testing, and norm-referenced vs.
criterion-referenced interpretation of scores. A variety of instruments that are used to measure human attributes and behaviors are studied. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 42 Hours**

**Additional Requirements for Program Area One: Clinical Mental Health Counseling (MA)**

**CPCE 5160 - Techniques in Family Therapy**

*Summer 2010 Registration CPCE 5160*
Intervention strategies with families. Emphasis on application of techniques evolving from treatment models. Video-taped role plays are utilized. Prereq: CPCE 5150. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 5280 - Addictions Counseling**

*Summer 2010 Registration CPCE 5280*
Includes treatment strategies for clinicians in addressing varieties of addictive behaviors including substance, abuse, eating disorders, gambling and sexual addiction. Cultural dimensions of addictions are also considered. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 5820 - Strategies of Agency Counseling**

*Summer 2010 Registration CPCE 5820*
Students learn the role and function of the counselor in community agency settings. Intervention strategies, consultation, administration of community mental health agencies. Prereq: CPCE 5010. **Semester Hours:** 3 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 6250 - Mental Health Diagnosis**

*Summer 2010 Registration CPCE 6250*
Students develop a professional level of understanding of the major disorders commonly subsumed under the term "psychopathology." Classification of disorders in the DSM IV is utilized. Treatment alternatives are discussed. Prereq: CPCE 5010 and CPCE 5100 or permission of instructor. Cross-listed with EPSY 6250. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
CPCE 7100 - Advanced Theories and Techniques in Psychotherapy

Summer 2010 Registration CPCE 7100
Learn and practice advanced techniques for addressing adult and adolescent clinical problems. Examine efficacy research on specific counseling techniques as associated with particular approaches in counseling. Prereq: CPCE 5010, 5100, 5820 and 6250. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 21 Hours

Additional Requirements for Multicultural/Diversity Strand in Clinical Mental Health Counseling

CPCE 5160 - Techniques in Family Therapy

Summer 2010 Registration CPCE 5160
Intervention strategies with families. Emphasis on application of techniques evolving from treatment models. Video-taped role plays are utilized. Prereq: CPCE 5150. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 5280 - Addictions Counseling

Summer 2010 Registration CPCE 5280
Includes treatment strategies for clinicians in addressing varieties of addictive behaviors including substance, abuse, eating disorders, gambling and sexual addiction. Cultural dimensions of addictions are also considered. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 5820 - Strategies of Agency Counseling

Summer 2010 Registration CPCE 5820
Students learn the role and function of the counselor in community agency settings. Intervention strategies, consultation, administration of community mental health agencies. Prereq: CPCE 5010. Semester Hours: 3 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 5830 - Special Topics: 5830-5839

Summer 2010 Registration CPCE 5830
Specific topics vary from semester to semester. Intervention strategies with children,
issues in abuse, violence, incest, legal issues, adult counseling, grief, death and dying, private practice. **Semester Hours:** 1 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 6250 - Mental Health Diagnosis**

*Summer 2010 Registration CPCE 6250*

Students develop a professional level of understanding of the major disorders commonly subsumed under the term "psychopathology." Classification of disorders in the DSM IV is utilized. Treatment alternatives are discussed. Prereq: CPCE 5010 and CPCE 5100 or permission of instructor. Cross-listed with EPSY 6250. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 7100 - Advanced Theories and Techniques in Psychotherapy**

*Summer 2010 Registration CPCE 7100*

Learn and practice advanced techniques for addressing adult and adolescent clinical problems. Examine efficacy research on specific counseling techniques as associated with particular approaches in counseling. Prereq: CPCE 5010, 5100, 5820 and 6250. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 6100 - Spiritual Dimensions of Counseling**

*Summer 2010 Registration CPCE 6100*

A didactic and experiential course involving the following content areas: theories of spiritual development, a survey of religious traditions, assessment, ethical issues, self-of-the-therapist issues, and treatment interventions and strategies in working with clients' values. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 6810 - Advanced Multicultural Counseling**

*Summer 2010 Registration CPCE 6810*

Offers essential preparation for competent multicultural counseling practice with racially diverse clients in an urban setting. Students learn, build and practice effective multicultural counseling skills. Explores the impact of race and ethnicity on individual behavior, interpersonal relationships and learn techniques for addressing these issues in counseling. Prereq: CPCE 5810. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 24 Hours**
Additional Requirements for Program Area Two: Public School Counseling Certificate (MA)*

**CPCE 5280 - Addictions Counseling**

*Summer 2010 Registration CPCE 5280*
Includes treatment strategies for clinicians in addressing varieties of addictive behaviors including substance, abuse, eating disorders, gambling and sexual addiction. Cultural dimensions of addictions are also considered. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 5420 - Organizational Development**

*Summer 2010 Registration CPCE 5420*
Organizational development and theory. The development and implementation of counseling programs in school settings, program development, implementation, consultation, and evaluation. Individual program evaluation projects required for course completion. Prereq: CPCE 5010 or permission of instructor. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 5815 - Introduction to School Counseling**

*Summer 2010 Registration CPCE 5815*
This course emphasizes the unique and varied role of the school counselor and school counseling programs in diverse public schools. The course focus will be on learning the various skills necessary to meet the needs of school age students and others in the school community. In addition, the course will cover The ASCA model of comprehensive developmental school counseling activities, and focus on practical resources for counseling students in diverse school settings. Prereq: CPCE 5010. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 5915 - Practicum in School Counseling**

*Summer 2010 Registration CPCE 5915*
This class will provide school track students with 3 credits of fieldwork at a developmental level of their choice. The course will require students to work with a school counselor activities that the counselor is assigned under supervision. Students will develop skills in needs assessment, developing classroom guidance activities and running the activities; they will sit in on IEP conferences, help conduct college fairs, administer career assessment inventories and standardized assessments, learn to place students in appropriate classes, and provide responsive counseling services on an as needed basis. Prereq: CPCE 5010, CPCE 5110, CPCE 5400, CPCE 5420, CPCE 5810,
CPCE 5815, CPCE 6220. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 6140 - Counseling Children, Adolescents and Their Parents**

*Summer 2010 Registration CPCE 6140*
A didactic and experiential course addressing child, adolescent, and parental/family issues. Counseling techniques, including play therapy, and parent education are taught and practiced. Assessment tools and specific strategies are used to increase positive family relationships. Prereq: CPCE 5010, CPCE 5100, CPCE 5150 and EPSY 6200. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 6220 - Youth Challenges and Resiliency**

*Summer 2010 Registration CPCE 6220*
Provides the student with theory and practical exposure to contemporary youth at risk. Focuses on prevention and intervention with youth at risk from a counseling perspective. Prereq: CPCE 5010 and 5100. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 6250 - Mental Health Diagnosis**

*Summer 2010 Registration CPCE 6250*
Students develop a professional level of understanding of the major disorders commonly subsumed under the term "psychopathology." Classification of disorders in the DSM IV is utilized. Treatment alternatives are discussed. Prereq: CPCE 5010 and CPCE 5100 or permission of instructor. Cross-listed with EPSY 6250. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 21 Hours**

* Students without teaching experience must accumulate 10 hours of observation time in a school setting. Three hundred of the 600 hours of internship must be in a concentrated environment. Full time experience consisting of at least a four-hour block of time each day is required. Students may not do their concentrated experience in their teaching building. Three hundred (300) hours of concentrated experience are needed at both the middle and secondary level for a K–12 program. CPCE 5150, 6140 and 7100 are necessary for students to work with school-related family issues, individual counseling and children’s counseling in practicum and internship. CPCE 5160 is necessary prior to couple and family therapy. Ten hours of laboratory experiences working with youth are required as part of this course.
Additional Requirements for Program Area Three: Couple and Family Therapy (MA)

CPCE 5160 - Techniques in Family Therapy

Summer 2010 Registration CPCE 5160
Intervention strategies with families. Emphasis on application of techniques evolving from treatment models. Video-taped role plays are utilized. Prereq: CPCE 5150. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 5170 - Issues In Family Studies

Summer 2010 Registration CPCE 5170
A systemic overview of current family configurations and issues families face in today's society, including gender, intimate partner violence, step-families, grief, loss, divorce, homelessness and others. The course includes life cycle approaches and normal family processes. Prereq: CPCE 5010 and CPCE 5150. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 5180 - Counseling Couples

Summer 2010 Registration CPCE 5180
A didactic and experiential course dealing with techniques of couples counseling. Emphasis is on assessment, diagnosis and treatment of couples' problems. Special topics include gay and lesbian couples, cross-cultural couples, remarried couples, cohabiting couples and the effectiveness of couple therapy. Prereq: CPCE 5010, 5100, 5150 and 5160. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 6000 - Introduction to Sex Therapy

Summer 2010 Registration CPCE 6000
Provides an overview of human sexuality over the life cycle, addressing social, psychological, and physiological aspects of human sexuality. Etiology of human sexuality diagnoses and treatment of problems related to human sexuality are addressed. Note: This course is a component in the couple and family program and required for MFT licensure. Prereq: CPCE 5010, CPCE 5100, CPCE 5150 and CPCE 5160 may be taken concurrently. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CPCE 6140 - Counseling Children, Adolescents and Their Parents
Summer 2010 Registration **CPCE 6140**
A didactic and experiential course addressing child, adolescent, and parental/family issues. Counseling techniques, including play therapy, and parent education are taught and practiced. Assessment tools and specific strategies are used to increase positive family relationships. Prereq: CPCE 5010, CPCE 5100, CPCE 5150 and EPSY 6200. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 6160 - Advanced Assessment: Theory and Treatment in Family Systems**

Summer 2010 Registration **CPCE 6160**
Emphasis is on family diagnosis or assessment and treatment and psychological processes. Major family therapy assessment methods and instruments are covered, as well as experiential application of advanced intervention strategies. Prereq: CPCE 5010, 5100, 5150, 5160 and RSEM 5300. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CPCE 6250 - Mental Health Diagnosis**

Summer 2010 Registration **CPCE 6250**
Students develop a professional level of understanding of the major disorders commonly subsumed under the term "psychopathology." Classification of disorders in the DSM IV is utilized. Treatment alternatives are discussed. Prereq: CPCE 5010 and CPCE 5100 or permission of instructor. Cross-listed with EPSY 6250. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 21 Hours**

**Criminal Justice MCJ**

**Program Director:** Mary Dodge, PhD

**Faculty**

**Professors:**
Mark Pogrebin, PhD, University of Iowa
Eric Poole, PhD, Washington State University

**Associate Professors:**
The master of criminal justice (MCJ) program is designed for students interested in comprehensive professional graduate education in the field of criminal justice. It is intended to develop in the student an in-depth understanding of the fields within criminal justice and of background material from supporting disciplines, which enables the student to adapt to many operational specializations.

As an academic and professional field of study, this program is dedicated to preparing men and women not only to administer the system as it presently exists—but also to evaluate, to analyze and to change—to become pioneers in accelerating the shaping of a rational and responsive criminal justice system.

To deal with this system effectively, research design capability must be developed along with the skills required for the ordering and analysis of empirical data. This course of study prepares the student to be an innovator in crime control and prevention through course work dealing with strategies and skills for promoting individual, organizational and social change.

**MPA AND MCJ—General Information**

**Admission Requirements**

1. A baccalaureate degree from a college or university of accredited standing, with a minimum GPA of 3.0. Two sets of official transcripts are required from all higher education institutions attended.
2. Three recommendations from qualified references. Recommendations may be from professors, employers and/or others acquainted with the prospective student’s professional and/or academic work.
3. Applicants are required to take the GRE, the GMAT or the LSAT unless they meet the requirements for waiver. Standard graduate admission test scores are normally waived when the candidate already has a graduate degree in another
field from an accredited institution. Other applicants may have test scores waived if they have an undergraduate GPA of 3.0 or better and they have significant professional employment in management or policymaking positions for a minimum of 10 years or the equivalent.

4. A current resume highlighting professional accomplishments and community involvement.

5. International students whose first language is not English are required to take the TOEFL or IELTS. A score of 550 or higher on the paper-based exam or 213 or higher on the computer-based exam is required for the MPA or 525/197 for the MCJ.

All application material and test scores should be sent to SPA, University of Colorado Denver, Campus Box 142, P.O. Box 173364, Denver, CO 80217-3364.

SPA will process applications as they come in. Master-level applicants generally receive notification of their admission status three weeks after all materials have been received in the office. The preferred deadlines listed below allow students to receive best consideration for scholarships, financial aid and course selection. Students who do not meet the preferred deadline may still submit application materials until approximately one month before the start of classes and will be considered on a space-available basis.

*Final deadline does not apply to international students who should contact the Office of International Admissions for deadline information.

**Provisional Admission**

Under special circumstances, a student may be admitted on provisional status for one semester. Students admitted on a provisional basis take two courses in their first semester. MPA students may select two of the following: PUAD 5001, 5003 or 5004. They may take no other courses during that semester. Based on their performance in these courses, a decision will be made concerning their admission into the program.

**Nondegree Admissions**

Students may register as nondegree students while developing their application packet. However, students are discouraged from taking many courses as a nondegree student if
they hope to pursue a degree. **Nine semester hours taken in the program as a nondegree student may be applied to the master's degree programs with approval of an advisor.** Nondegree student application forms are available in the Office of Admissions or online.

**Transfer of Credit to SPA**

Up to 9 semester hours of appropriate graduate work from an accredited college or university may transfer, if such credit was not applied to a completed degree.

**Limitation of Course Load**

The normal course load for a full-time student is 9 semester hours. A student who is employed full time may not carry more than 9 hours unless an excess load has been approved in advance by the faculty advisor.

**Financial Assistance**

Students in the master’s degree programs are eligible for several types of financial assistance. Educational loans require application to the Office of Financial Aid on the Downtown Campus and completion of the FAFSA. A number of students secure internships or other part-time positions with local, state and federal agencies in the Denver metropolitan area. Scholarship assistance is available on a limited basis.

The school receives announcements for fellowships from various government organizations and actively seeks additional funding for student support in the form of internship positions and research assistantships.

Persons interested in applying for financial assistance should inquire in the SPA office. The deadline for current students is March 15 for the fall term. Prospective students seeking scholarship funds should have complete scholarship applications on file at the SPA office by the preferred application deadline for the semester they are requesting funds.

**The Internship Program**

An internship for the MPA and MCJ programs is required for students who have not had significant public, nonprofit or private-sector experience. The purpose of the internship is to continue the linkage between theory and practice that is the philosophical basis of SPA. The internships generally involve part-time work. A maximum of three semester hours will be awarded for internship service. Great care is taken by the SPA to ensure that the internship experience meets the intellectual needs of the student. Placements have included the Governor’s Office, Colorado General Assembly, Denver Mayor’s
Office, City of Denver, Denver Police Department, Boulder Crime Lab, Western Governor’s Association, the National Conference of State Legislatures, the Colorado Department of Public Health and Environment and the Denver Center for the Performing Arts.

Time Limit for Master’s Degree

Master’s degree students must complete all course work and degree requirements within six years of registration in their first course.

Degree Requirements

1. Graduate Study

The program leading to the MCJ degree requires a minimum of 36 semester hours of appropriate graduate study with an average of B or better. No grade below C will be accepted for graduate credit. No more than 6 semester hours of independent study can be applied toward the degree.

2. Core Courses

The completion of the following core courses is required with a grade of B- or better:

CRJU 5000 - Law and Social Control

*Summer 2010 Registration C J 5000*

Provides an overview of the theory and application of criminal law in the context of social control. The course reviews various theoretical perspectives on law and society, focusing on the relationship between law and the structure and function of other social institutions. The course also examines aspects of the criminal law in action, assessing how legal definitions and sanctions are differentially interpreted and applied. Cross-listed with CRJU 7000. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5100 - Administration of Criminal Justice

*Summer 2010 Registration C J 5100*

Analyzes the policies and practices of agencies involved in the criminal justice process, from the detection of crime and arrest of suspects through prosecution, adjudication, sentencing and imprisonment, to release. The patterns of decisions and practices are reviewed in the context of a systems approach. Cross-listed with CRJU 7100. **Semester**
CRJU 5120 - Nature and Causes of Crime

Summer 2010 Registration C J 5120
Analyzes the social origins of criminal behavior and the impact of crime on society. Various categories of deviant, delinquent, and criminal behaviors are examined, and attempts to control such behavior are assessed. Connections between social institutions, social problems, and illegal activities, and the response of the public to the threat of crime are examined. Cross-listed with CRJU 7120. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5321 - Research Methods

Summer 2010 Registration C J 5321
Provides an assessment of research strategies in criminal justice through an examination of applied research designs and analytical models. The logic and rationale of these various strategies are contrasted, and their relative merits are critiqued. Selected research problems in the criminal justice system are utilized to illustrate the application and interpretation of alternative strategies. Cross-listed with CRJU 7321. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 12 Hours

3. Course Work

Students must complete a minimum of 27 semester hours of course work in criminal justice.

4. Criminal Justice Experience

Students who have not had criminal justice experience are required to complete CRJU 6910 (field study). A minimum of 240 hours of supervised work is required to earn 3 hours of credit. All required core courses must be completed before taking CRJU 6910.

5. Advanced Seminar

All MCJ students, except those pursing the thesis option, must complete the advanced seminar during the last semester of their degree program. All core classes must be
completed before taking the advanced seminar. Students admitted before spring 2009 may opt to take a written comprehensive exam in lieu of CRJU 5561.

**CRJU 5561 - Advanced Seminar in Criminal Justice**

*Summer 2010 Registration C J 5561*

In this seminar, students demonstrate their mastery of the knowledge and skills acquired in core courses, as applied to either their chosen program concentration or individualized program, by conducting a Program Integration Project. The PIP may be either an independent research project or client-oriented project. Students also make a juried oral presentation of the professional paper which reports project findings. This is the cumulative opportunity for students to apply concepts and theory to professional practice, and thus should be taken at or near the end of a student's program of study. Prereq: CRJU 5000, CRJU 5100, CRJU 5120, CRJU 5321. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Students must receive the approval of both a faculty advisor and the director of the criminal justice program to complete a thesis for 3–6 semester hours in lieu of the advanced seminar.

**Elective Courses**

The courses listed below may be taken as electives for the MCJ degree:

**CRJU 5200 - Wrongful Convictions**

*Summer 2010 Registration C J 5200*

This seminar examines the dark figure of the criminal justice system; wrongful convictions of innocent people. This course explores the continuum of justice-system errors ranging from persons who are falsely accused (arrested, prosecuted, and tried) to those who are wrongly convicted and imprisoned, to death row inmates who are erroneously executed. Cross-listed with CRJU 7200. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**CRJU 5210 - Prisoner Reentry**

*Summer 2010 Registration C J 5210*

This seminar examines the harsh realities of prisoner reentry and offers solutions to prepare inmates for release, reduce recidivism, and restore them to adjustment once back in the community, while simultaneously meeting the demands of public safety. Cross-listed with CRJU 7210. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**CRJU 5220 - The American Jury System**
Summer 2010 Registration C J 5220
This seminar examines historical and current issues in jury decision making and dynamics. The course explores issues such as jury size, eyewitness testimony, and jury reform. Court decisions are examined as a comprehensive understanding of jurors and their role. Cross-listed with CRJU 7220. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5250 - Criminal Offenders

Summer 2010 Registration C J 5250
Crime can have a devastating effect on the lives of victims, families and communities with extraordinary costs to society as a whole. Documented evidence suggests that community safety is best achieved through promoting rehabilitation of offenders rather than relying solely on prisons and containment. This course introduces the core principles and tools of motivational interviewing as it is used currently with the offender population. Students learn how to utilize these skills working with specific offender populations and how to motivate these often resistive clients to change their thinking patterns and behaviors. Cross-listed with CRJU 7250. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5260 - Crime and Literature

Summer 2010 Registration C J 5260
This seminar focuses on non-fiction literature as it relates to criminality and the Criminal Justice System. A substantial number of people in the United States form impressions and evaluate the effectiveness of the Criminal Justice System based on accounts presented within various types of nonfiction literature, either as social commentary or in biographical/autobiographical form. This course explores samples of these types of commentary, in order to more fully understand and appreciate their impact on shaping public opinion of the Criminal Justice System. Cross-listed with CRJU 7260. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5325 - Qualitative Methods for Criminal Justice

Summer 2010 Registration C J 5325
Focuses on qualitative methods applicable to research in the field of criminal justice. The primary focus is on ethnographic approaches employing such fieldwork techniques as observation, participant observation, interviews, content analysis, life histories and case studies. Cross-listed with CRJU 7325. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Summer 2010 Registration C J 7325
Focuses on qualitative methods applicable to research in the field of criminal justice. The primary focus is on ethnographic approaches employing such fieldwork techniques as observation, participant observation, interviews, content analysis, life histories and case studies. Cross-listed with CRJU 5325. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5410 - Victimology

Summer 2010 Registration C J 5410
This course examines victim-offender relationships, the interactions between victims and the criminal justice system and the connections between victims and other social groups and institutions among various populations. This course addresses the theory, history, research, legislation and policy implications related to the social construction of "The Victim." Cross-listed with CRJU 7410. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5430 - Drugs, Alcohol and Crime

Summer 2010 Registration C J 5430
This course provides an interdisciplinary overview of theory, research and policy issues surrounding the relationship between drugs, alcohol and crime; and the criminal justice system response. The course explores the socially constructed nature of illegal substances and connections to U.S. drug policy. Cross-listed with CRJU 7430. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5510 - Contemporary Issues in Law Enforcement

Summer 2010 Registration C J 5510
Examines current thinking and experience with respect to changing and reforming police programs and practices. The course focuses primarily on the American police experience, reviewing major innovations, exploring their rationale, and examining organizational impediments to their implementation. Cross-listed with CRJU 7510. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 7510 - Seminar: Contemporary Issues in Law Enforcement

Summer 2010 Registration C J 7510
Examines current thinking and experience with respect to changing and reforming police programs and practices. The course focuses primarily on the American police experience, reviewing major innovations, exploring their rationale, and examining organizational impediments to their implementation. Cross-listed with CRJU
CRJU 5520 - Corrections

Summer 2010 Registration C J 5520
Provides a critical examination of the development and implementation of correctional systems in America. The course presents the origins of correctional efforts and the evolution of the prison; reviews punishment and rehabilitation rationales in the context of sentencing models; examines the social organization of the prison, including inmate subcultures and staff work strategies; and assesses the inmates' rights movement and the impact of judicial intervention in correctional settings. Cross-listed with CRJU 7520.

CRJU 7520 - Seminar: Corrections

Summer 2010 Registration C J 7520
Provides a critical examination of the development and implementation of correctional systems in America. The course presents the origins of correctional efforts and the evolution of the prison; reviews punishment and rehabilitation rationales in the context of sentencing models; examines the social organization of the prison, including inmate subcultures and staff work strategies; and assesses the inmates' rights movement and the impact of judicial intervention in correctional settings. Cross-listed with CRJU 5520.

CRJU 5530 - Community Corrections

Summer 2010 Registration C J 5530
Analyzes the theories and practices of probation and parole, responses of paroling authorities to public pressures and court controls, and their implications for rehabilitation. Efforts to bridge institutional settings and community life, as well as the feasibility and effectiveness of treating individuals under sentence in the community, are reviewed. Cross-listed with CRJU 7530.

CRJU 7530 - Seminar: Community Corrections

Summer 2010 Registration C J 7530
Analyzes the theories and practices of probation and parole, responses of paroling authorities to public pressures and court controls, and their implications for rehabilitation. Efforts to bridge institutional settings and community life, as well as the feasibility and effectiveness of treating individuals under sentence in the community, are reviewed.
Cross-listed with CRJU 5530. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CRJU 5540 - Juvenile Justice Administration**

*Summer 2010 Registration C J 5540*
Examines the policies and practices of agencies in processing youthful offenders through the juvenile court system, reviews trends in juvenile justice policymaking, and assesses changes in response to juvenile crime by both the juvenile justice and criminal justice systems. Cross-listed with CRJU 7540. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CRJU 7540 - Seminar: Juvenile Justice Administration**

*Summer 2010 Registration C J 7540*
Examines the policies and practices of agencies in processing youthful offenders through the juvenile court system, reviews trends in juvenile justice policy making, and assesses changes in response to juvenile crime by both the juvenile justice and criminal justice systems. Cross-listed with CRJU 5540. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CRJU 5552 - Criminal Justice Ethics**

*Summer 2010 Registration C J 5552*
Offers a normative framework within which to explore ways to increase sensitivity to the demands of ethical behavior among criminal justice personnel. The application of a normative perspective enhances the possibility that moral problems are better understood, more carefully analyzed, and rendered more tractable. Applied ethics forces a reflection not just on ethics, but also on the nature and operation of the criminal justice system itself. Cross-listed with CRJU 7552. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CRJU 7552 - Seminar: Criminal Justice Ethics**

*Summer 2010 Registration C J 7552*
Offers a normative framework within which to explore ways to increase sensitivity to the demands of ethical behavior among criminal justice personnel. The application of a normative perspective enhances the possibility that moral problems are better understood, more carefully analyzed, and rendered more tractable. Applied ethics forces a reflection not just on ethics, but also on the nature and operation of the criminal justice system itself. Cross-listed with CRJU 5552. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
CRJU 5553 - Women and Crime

Summer 2010 Registration C J 5553
Explores issues surrounding women as offenders, victims, and criminal justice professionals. Investigates explanations for the involvement of women in illegal activities. Analyzes the plight of battered women, rape victims, and other female victims. Examines the participation of women in law enforcement judicial processes, corrections and lawmaking. Cross-listed with CRJU 7553. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 7553 - Seminar: Women and Criminal Justice

Summer 2010 Registration C J 7553
Explores issues surrounding women as offenders, victims, and criminal justice professionals. Investigates explanations for the involvement of women in illegal activities. Analyzes the plight of battered women, rape victims, and other female victims. Examines the participation of women in law enforcement judicial processes, corrections and lawmaking. Cross-listed with CRJU 5553. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5554 - Criminal Justice Reform

Summer 2010 Registration C J 5554
Provides an overview of reform efforts in the criminal justice system. Selected theoretical approaches and policies are examined and assessed in light of their assumptions and programmatic applications. The rational and process underlying selected reform strategies are explored. The implications of the effects of reform in criminal justice policy making and decision making are analyzed. Cross-listed with CRJU 7554. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 7554 - Seminar: Criminal Justice Reform

Summer 2010 Registration C J 7554
Provides an overview of reform efforts in the criminal justice system. Selected theoretical approaches and policies are examined and assessed in light of their assumptions and programmatic applications. The rational and process underlying selected reform strategies are explored. The implications of the effects of reform in criminal justice policy making and decision making are analyzed. Cross-listed with CRJU 5554. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5571 - The Social Organization of Crime
Summer 2010 Registration  C J 5571
Explores the relationship of neighborhood social disorganization to the dynamics of crime from a social ecology perspective. The course examines the underlying social causes of phenomena such as criminal victimization, violent and property crime, neighborhood fear, neighborhood deterioration, and recidivism. The course examines social, structural, and ecological characteristics of neighborhoods and communities in affecting crime. Cross-listed with CRJU 7571. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 7571 - Advanced Seminar: The Social Organization of Crime

Summer 2010 Registration  C J 7571
Explores the relationship of neighborhood social disorganization to the dynamics of crime from a social ecology perspective. The course examines the underlying social causes of phenomena such as criminal victimization, violent and property crime, neighborhood fear, neighborhood deterioration and recidivism. The course examines social, structural, and ecological characteristics of neighborhoods and communities in affecting crime. Cross-listed with CRJU 5571. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5572 - Race, Crime and Justice

Summer 2010 Registration  C J 5572
Examines the role of race in criminal justice processing. This course examines the research findings, interpretations, issues, and implications in assessing the impact of race in the administration of criminal justice. Explores the policy implications concerning the nature and extent of racial disparities in the criminal justice system and lays out a research agenda to more strategically address these issues within criminal justice policy making. Cross-listed with CRJU 7572. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 7572 - Advanced Seminar: Race, Crime and Justice

Summer 2010 Registration  C J 7572
Examines the role of race in criminal justice processing. This course examines the research findings, interpretations, issues, and implications in assessing the impact of race in the administration of criminal justice. Explores the policy implications concerning the nature and extent of racial disparities in the criminal justice system and lays out a research agenda to more strategically address these issues within criminal justice policy making. Cross-listed with CRJU 5572. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5574 - White Collar Crime
Summer 2010 Registration C J 5574
Employs both the social science and legal approaches to examine crime committed by corporations as well as by individuals in white collar occupations. The course covers how such crimes are socially defined, who commits them, who is victimized by them, which social contexts promote them, and how society and the criminal justice system respond to them. Cross-listed with CRJU 7574. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 7574 - Advanced Seminar: White Collar Crime

Summer 2010 Registration C J 7574
Employs both the social science and legal approaches to examine crime committed by corporations as well as by individuals in white collar occupations. The course covers how such crimes are socially defined, who commits them, who is victimized by them, which social contexts promote them, and how society and the criminal justice system respond to them. Cross-listed with CRJU 5574. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 5575 - The Mentally Disordered Offender

Summer 2010 Registration C J 5575
Examines the offender who may be mentally disordered. A survey is made of the various phases of the criminal justice system where psychiatrists are involved, e.g., diversion, fitness, insanity and sentencing. Dangerous sex offender legislation, "Not guilty by reason of insanity" and "Guilty but mentally ill" statutes, and issues concerning confidentiality, informed consent, and treatment are addressed. Cross-listed with CRJU 7575. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CRJU 7575 - Advanced Seminar: The Mentally Disordered Offender

Summer 2010 Registration C J 7575
Examines the offender who may be mentally disordered. A survey is made of the various phases of the criminal justice system where psychiatrists are involved, e.g., diversion, fitness, insanity and sentencing. Dangerous sex offender legislation, "Not guilty by reason of insanity" and "Guilty but mentally ill" statutes, and issues concerning confidentiality, informed consent, and treatment are addressed. Cross-listed with CRJU 5575. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MCJ Options
Concentration in Domestic Violence

A student may choose to complete a concentration in domestic violence as part of the MCJ degree. The concentration provides an interdisciplinary perspective on crime, the formulation of laws and codes, the criminal legal system and its intersection with women and violence. Students seeking a domestic violence concentration must complete 15 semester hours related to domestic violence, which are completed via intensive workshops that meet periodically throughout a two-year period.

PUAD 5910 - Women and Violence: A Sociological Perspective

_Summer 2010 Registration P AD 5910_

This course is a sociological, feminist analysis of violence against women and girls that addresses the intersection of sexism and other forms of oppression such as racism, classism and heterosexism within historical, cultural, social and institutional contexts. Topics covered focus on overt and covert forms of sexual coercion, harassment and assault, battering and stalking. Cross-listed with PUAD 7910, CRJU 5910 and 7910. _Semester Hours:_ 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5920 - Psychology of Violence Against Women

_Summer 2010 Registration P AD 5920_

This class addresses the contributions and the limitations of current empirical and clinical psychological literatures about domestic violence. Topics covered include: distinguishing among mental health professionals regarding work with DV clients; the psychological impacts of domestic violence; services useful for responding to the needs of women and children; and an introduction to the psychology and treatment of batterers. Cross-listed with PUAD 7920, CRJU 5920 and 7920. _Semester Hours:_ 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5930 - Battered Women and the Legal System

_Summer 2010 Registration P AD 5930_

This course provides a practical understanding of how the following relate to battered women and their children: (a) major developments in federal, state, tribal, administrative, statutory and case law; (b) the role and responses of law enforcement, judges, attorneys, victim assistance providers and other legal system agents; and (c) the role and process of victim advocacy. Cross-listed with PUAD 5930, CRJU 5930 and 7930. _Semester Hours:_ 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5940 - Domestic Violence Social Change and Advocacy
**Summer 2010 Registration**  
PAD 5940

This course provides students information on the theories and strategies behind contemporary social change movements and the skills necessary to organize and implement actions to influence public awareness and policy. The values of American society are complex and require advocates/activists to develop a heighten sense of self, community and an ethical framework while confronting sexism, racism and other forms of oppression. Cross-listed with PUAD 7940, CRJU 5940 and 7940. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Elective (1) (3 semester hours)

Total: 15 Hours

**Online Option**

SPA is launching an online option for the master of criminal justice degree in 2010.

Designed to serve students who are looking for a high-quality education, but who need an alternative to traditional classroom instruction, students may elect to do one or all of their courses online. This option allows students to complete the entire degree at a distance or to choose to come to campus for some courses while using an interactive online format for others. For both in-state and out-of-state online students, tuition is comparable to the rate charged to in-state students for courses that meet in the classroom.

**Curriculum and Pedagogy MA**

**Office:** Lawrence Street Center, 701  
**Telephone:** 303-315-6300  
**Fax:** 303-315-6311  
**E-mail:** education@ucdenver.edu  
**Web site:** www.ucdenver.edu/education

**Faculty**

Information about faculty is available online at www.ucdenver.edu/education/c&p.

**Areas of Study**
Curriculum and Pedagogy
Master of Arts for Practicing Teachers
Science-Math-Social Studies

The curriculum and pedagogy (C&P) studies lead to an advanced master’s degree in curriculum and instruction. All programs require 36 semester hours, including the C&P core or its equivalent. The core courses provide a sound basis in curriculum theory, teacher inquiry, appreciation of diversity and philosophical foundations. The various specializations allow teachers to focus in an area of interest.

Elementary teachers take the math and science concentration. Secondary teachers may choose mathematics, science or social studies.

Each of these programs is designed to prepare teachers to qualify for master certification from the National Board of Professional Teaching Standards, as well as prepare for licensure renewal with the Colorado Department of Education.

Core (Required in Elementary Math and Science, Secondary Science, Secondary Math and Secondary Social Studies)

ELED 6110 - Curriculum Development and School Improvement

Summer 2010 Registration ELED 6110
Placements curriculum development in the historical, social, and political context of educational change, considering underlying concepts and assumptions, and examining the implications of implementation theory and practice for school restructuring and professional development. Prereq: Graduate student status. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SECE 6110 - Curriculum in Urban Studies

Summer 2010 Registration SECE 6110
Placements curriculum development in the historical, social, and political context of educational change. Considers underlying concepts and assumptions, examines the implications of implementation theory and practice for school restructuring, and professional development. Prereq: graduate student status. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FNDS 5050 - Critical Issues in American Education

Summer 2010 Registration FNDS 5050
Examines the social values and forces in American society which shape or influence the aims, philosophies, methods, content, and problems of the American educational
Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RSEM 5XXX - One 5000-level course in research and evaluation methodology.

Semester Hours: 3

Total: 9 Hours

**Elementary Math and Science**

24 semester hours of electives, chosen with advisor’s approval (24 semester hours)

Elementary emphasis required course

**SECE 5500 - The Nature of Science**

*Summer 2010 Registration SECE 5500*

This course is a critical exploration of science and scientific knowledge using an epistemological approach to ask (and possibly answer) questions about sociological issues in science and implications for science research, teaching and learning. Cross-listed with ENVS 5500. **Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 36 Hours

**Science (Secondary)**

**SECE 5340 - Multicultural Science Education**

*Summer 2010 Registration SECE 5340*

This course examines literature in science education related to multicultural issues, topics will be framed by an understanding of equity in diverse, urban classrooms and how it informs curriculum and instruction. Cross-listed with ENVS 5340. **Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

**SECE 5350 - Issues and Problems in Science Education**

*Summer 2010 Registration SECE 5350*

Recent developments in theory, curriculum, methods, and materials in secondary
science, examined for their contribution to the objectives of science education. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SECE 5500 - The Nature of Science**

**Summer 2010 Registration SECE 5500**
This course is a critical exploration of science and scientific knowledge using an epistemological approach to ask (and possibly answer) questions about sociological issues in science and implications for science research, teaching and learning. Cross-listed with ENVS 5500. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SECE 5650 - Environmental Education**

**Summer 2010 Registration SECE 5650**
Theory and practice of conservation education, which include use of resource personnel and the study of curricular and instructional development. Field experiences are incorporated. Primarily oriented to elementary and junior high school. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

15 hours of electives in science or education chosen with advisor’s approval

**Total: 36 Hours**

**Mathematics (Secondary)**

**SECE 5400 - Curriculum in Secondary Mathematics**

**Summer 2010 Registration SECE 5400**
Investigates curriculum in middle and high school mathematics, development, history and trends, and pertinent research. Participants construct and share curriculum relevant to their interest. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SECE 5410 - Advanced Methods and Strategies in Secondary Mathematics**

**Summer 2010 Registration SECE 5410**
An in-depth investigation of specific methods and strategies suitable for teaching mathematics for middle and senior high schools. Participants model and share various strategies, including the expository, collaborative discovery, laboratory, and Socratic methods. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
SECE 5401 - Assessment in Mathematics Education

Summer 2010 Registration SECE 5401
Curriculum-based assessment covering nature of assessment and its relation to evaluation and grading; teacher-made assessments; validity and authentic assessment; techniques for assessing learning of mathematical concepts, procedures, and problem solving. Emphasis on assessment practices of mathematics teachers. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose three:

ELED 5416 - Math-Science Connections: Outdoor
Summer 2010 Registration ELED 5416
(Primarily for pre-secondary teachers.) Explores science concepts through outdoor activities appropriate for middle-grade students. Topics include how the nature of science and mathematics informs pedagogy, national and state standards, earth science and paleontology, orienteering and map usage, water analysis, astronomy and entomology. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SECE 5417 - Structure of Rational Numbers
Summer 2010 Registration SECE 5417
Emphasizes the use of multiple solution strategies to examine the structure of rational numbers. The assigned problems allow elementary and secondary teachers to investigate the mathematical notions of equivalence, properties, unitization, partitioning, ratios and proportionality. Prereq: Teaching license or permission of instructor. Cross-listed with ELED 5417. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SECE 5418 - Mathematical Modeling
Summer 2010 Registration SECE 5418
Elementary and secondary teachers explore settings where mathematics is utilized in everyday activities. Teachers create mathematical models to describe events or situations in the world and use a variety of modeling strategies to solve problems. Prereq: Teacher licensure or permission of instructor. Cross-listed with ELED 5418. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SECE 5419 - Exploring the Structure of Geometry Using Technology
Summer 2010 Registration SECE 5419
Develops elementary and secondary teachers' conceptual understanding of geometric properties and theorems through investigations on dynamic computer software. The software enhances and extends teachers' ability to solve complex problems by manipulating abstract ideas on the computer. Prereq: teaching license or permission of instructor. Cross-listed with ELED 5419. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SECE 5420 - Teaching Mathematics to Low Achievers

Summer 2010 Registration SECE 5420
Problems and characteristics of low achievers, motivation, attitudes, scaffolding with available materials, programs for low achievers, self-esteem, mathematics laboratory and activity approach to teaching mathematics. Appropriate for all grades. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SECE 5440 - Topics in Mathematics Education

Summer 2010 Registration SECE 5440
An in-depth study of topics such as computers, testing, learning theory and mathematics laboratories. (May be repeated as topics vary.) **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

12 hours of electives from the School of Education & Human Development or the mathematics department, chosen with an advisor's approval

Total: 36 Hours

Social Studies (Secondary)

Below is a sample plan, please refer to the School of Education & Human Development Web site for the advising plan at www.ucdenver.edu/education/c&p.

HIST 5464 - Problems and Methods in Teaching History and Social Studies I

Summer 2010 Registration HIST 5464
Introduces students to problems and methods in secondary education history and social studies teaching. This course focuses primarily on the teaching of history. Note: Open to students in the Initial Professional Teacher Education program or a relevant graduate program, and to practicing teachers. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
HIST 5465 - Problems and Methods in Teaching History and Social Studies II

Summer 2010 Registration HIST 5465
Introduces students to problems and methods in secondary education history and social studies teaching. This course focuses broadly on the teaching of all the social studies fields, including history, economics, government, and geography. Note: Open to students in the Initial Professional Teacher Education program or a relevant graduate program, and to practicing teachers. Prereq: HIST 5464. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 5466 - Teaching About Ethnicity, Race, and Prejudice

Summer 2010 Registration HIST 5466
Examines the history of ethnic identity and race relations in North America and applies that knowledge to teaching practices. Questions how teachers should approach the topics of race, ethnicity, and discrimination in our collective history and society. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 6951 - Masters Project: Advanced History Curriculum Development

Summer 2010 Registration HIST 6951
Students develop curricula for secondary-level history courses; must demonstrate thorough knowledge of subjects; understanding of historiographic and methodological problems; command of primary sources and their uses in teaching; and describe teaching strategies, methods, and assessments to be used in the curricula. Prereq: Permission of instructor. Semester Hours: 1 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

EPSY 5XXX - Educational Psychology Elective. Semester Hours: 3
INTE 5XXX - Instructional Technology elective. Semester Hours: 3
9 semester hours of electives, chosen with advisor's approval: history, sociology, economics, education courses strongly recommended.

Total: 36 Hours

Comprehensive Exam

C&P programs requires a master's comprehensive exam that consists of a project or a comprehensive portfolio for the program completion requirement. Details may be obtained from your faculty advisor and from the “C&P Handbook” available at www.ucdenver.edu/education/c&p.
Decision Sciences MS

Program Director: Marlene A. Smith
Telephone: 303-315-8421
E-mail: Marlene.Smith@ucdenver.edu

The MS in decision sciences focuses on modeling and applications which prepares you for a career as a decision science specialist in industry or government. Today, companies in every conceivable industry are reaping the benefits of using formal mathematical models to assist them in addressing complex business problems. Decision science graduates hold positions that bridge the gap between operations research/statistics specialists and management.

Learn to apply quantitative methods to real-world problems using modern methodologies adopted from statistics, operations research, and management science. Although the MS in decision sciences is founded in operations research methods, it focuses on applications of these methods in the workplace rather than the development of new operations research techniques. The managerial emphasis of our degree is accomplished through a comprehensive set of elective and required course work such as data analysis, operations management, forecasting, project management, simulation and supply chain management. A required practicum course provides students with the opportunity (under the direction of faculty) to solve a real, complex workplace problem for a local Denver organization.

Requirements for the MS degree in decision sciences are met by the following courses and options:

**Prerequisite course work:**

Accounting: completion of BUSN 6550 or two undergraduate accounting courses with a grade of B- or better along with useable knowledge of spreadsheets.

**Required Courses**

**BUSN 6530 - Data Analysis for Managers**

*Summer 2010 Registration BUSN 6530*

Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530
and FNCE 6290. **Semester Hours:** 3 to 3  
**When Offered:** FASP, PR, SUM  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSB 6630 - Management of Operations**

**Summer 2010 Registration BUSN 6630**

This course is concerned with the production and delivery of goods and services. It provides an overview of a variety of key Operation Management issues including scheduling, capacity determination, facility location and layout, distribution and related topics. The use of model-assisted decision making is emphasized. **Semester Hours:** 3 to 3  
**When Offered:** FASP, PR, SUM  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**DSCI 6820 - Project Management**

**Summer 2010 Registration DSCI 6820**

Introduces the knowledge and skills of Project Management (PM) in a business environment. Emphasis will be on the entire project life cycle, the project management process groups and the knowledge areas as presented in the Project Management Body of Knowledge (PMBOK) from the Project Management Institute (PMI). Managerial aspects, quantitative tools and traditional techniques of Project Management will be covered. Application to various industries will be included. Note: cannot receive credit for both DSCI 6820 and BUSN 6820. Cross-listed with BUSN 6820 and URPL 6686. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**DSCI 6230 - Business Forecasting**

**Summer 2010 Registration DSCI 6230**

Modern businesses use forecasts in marketing, finance, accounting, human resources management and supply chain and production management decision-making. This course focuses on practical application of forecasting techniques, choosing and comparing appropriate methods and applying the results to the business application. Note: Can only receive credit for either DSCI 6230, BUSN 6824, or FNCE 6372. Prereq: BUSN 6530 or FNCE 6290. Cross-listed with BUSN 6824 and FNCE 6372. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**DSCI 6460 - Decision Analysis**

**Summer 2010 Registration DSCI 6460**

Examines business decision making under conditions of risk and uncertainty using quantitative decision analysis methods such as utility theory, value of information, decisions with conflicting objectives and hierarchical structured models. Applications
include decisions commonly encountered in capital acquisitions, financial investments, quality control, project selection, strategic planning, production control and human resource management. Student computer-assisted projects are conducted. Note: Cannot receive credit for both DSCI 6460 and BUSN 6836. Cross-listed with BUSN 6836. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**DSCI 6910 - Decision Sciences Practicum**

_Summer 2010 Registration DSCI 6910_

Students apply decision science methodologies to a real-life business problem in cooperation with a local Denver organization. Under the supervision of faculty, students engage in problem definition, analysis and solution. Results are presented in oral and written form to the sponsoring organization. Prereq: Permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**DSCI Electives (12 semester hours)**

**Total: 30 Hours**

**Notes and Restrictions**

Decision sciences electives must include at least two DSCI courses numbered 6000 or higher. Remaining decision sciences electives may be any of the following courses: DSCI 6000 or higher; MKTG 6050, Marketing Research; or FNCE 6480, Financial Modeling.

Students are not required to take a comprehensive examination or complete a thesis in the major field.

**Early Childhood Education MA**

**Early Childhood Education**

**Office:** Lawrence Street Center, 701
**Telephone:** 303-315-6300
**Fax:** 303-315-6311
**E-mail:** education@ucdenver.edu
**Web site:** www.ucdenver.edu/education

**Faculty**
Early Childhood Education Program

The early childhood education (ECE) program leads to a master’s degree in early childhood education (early childhood accomplished teacher focus) and/or licensure in early childhood special education (early childhood special education specialist). The program prepares leaders who will enrich the life experience of young children (birth to 8) and their families through a variety of professional roles.

ECE Program students may select from three program options:

1. MA in early childhood education
2. ECSE specialist license (initial or added endorsement)
3. MA plus ECSE specialist license (initial or added endorsement)

The ECE program is interdisciplinary in focus, drawing on university resources and the clinical expertise of various community professionals. There is a strong emphasis on fieldwork and practicum experiences in both regular and special education concentrations. Field experiences are a part of each course and provide an opportunity for each student to gain knowledge, abilities and dispositions while interacting with children, families, program staff and community agencies. Practicum experiences are designed to allow students to apply knowledge and practice skills in a closely supervised environment.

The early childhood accomplished teacher focus and the early childhood special education focus share course content in:

- literacy development and disorders
- child growth and development, differences and disorders
- learning approaches with young children
- measurement and evaluation
- basic statistics/research methods
- multicultural education
- research and current issues
- early childhood curriculum and program development for inclusive classrooms
- working collaboratively with parents and families
- program administration/leadership

The early childhood special education program provides specialized preparation in:

- screening and assessment of young children
- intervention strategies with infants and preschoolers
- behavior management
- working as a member of the transdisciplinary team
- cognitive and socio-emotional development and disorders
• treatment of children who have neurological impairment and chronic illness
• challenging behaviors and autism

Program Requirements

Semester Hour Requirements

Master's degree in ECE: 40 semester hours
ECSE specialist license: 40 semester hours
Master's degree plus ECSE specialist license: 49 semester hours
Master's degree plus ECSE specialist added endorsement: 40 semester hours
ECSE specialist added endorsement: 25 semester hours

Fieldwork and Practicum Requirements

The master's degree in early childhood education includes a total of 425 hours of required fieldwork/practica. Approximately 200 hours of fieldwork are associated with course assignments; 225 hours of intense, culminating practica occur toward the end of the second year of study. Students completing the MA program take a written comprehensive exam (take home) during the final semester of their program (concurrently with courses at the end of the program sequence).

For the master's degree in early childhood education plus the ECSE specialist initial license, a total of 800 hours of fieldwork/practica is required. Approximately 290 hours of fieldwork are associated with course assignments; 510 hours of intense, culminating practica occur toward the end of the second year of study. Students seeking an added endorsement in ECSE specialist also complete 510 hours of practicum experiences.

Nine semester hours can be transferred for the master's degree; 15 semester hours can be transferred for the ECSE specialist license. These credits include courses taken through continuing education, from other institutions or as a nondegree student at the University of Colorado Denver before the term officially admitted.

Plans of Study

The following table delineates course work and program completion requirements for the MA degree and ECSE specialist license through various program options.

**Economics MA**

- Graduate School Rules apply to this program
Requirements for Admission

- general requirements of the Graduate School (including a 3.0 undergraduate cumulative GPA)
- three letters of recommendation
- 15 semester hours of undergraduate economics (including theory and quantitative methods); variations to be discussed with graduate advisor
- acceptable GRE scores
- two official transcripts from all colleges attended
- international students must submit TOEFL scores

Degree Requirements

The MA degree requires the completion of 30 semester hours of course work, of which 21 hours are core requirements. Each student’s plan will be worked out in conjunction with the graduate advisor.

Core Courses

All courses must be completed with a grade of B- or better.

ECON 5073 - Microeconomic Theory

Summer 2010 Registration ECON 5073
Fundamental features of partial equilibrium theory of the firm, consumer and market. General equilibrium and welfare economic topics are examined. Features of the models that have empirical applications are accented. Prereq: ECON 5803. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 5083 - Macroeconomic Theory

Summer 2010 Registration ECON 5083
Examines the major macroeconomic models within a common framework. Differences in the foundations, structure, and policy implications of the competing models are analyzed. Prereq: ECON 5803 or permission of the instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 5803 - Mathematical Economics

Summer 2010 Registration ECON 5803
Introduces the use of mathematics in advanced micro- and macro-economic analysis. Emphasis on model-building techniques, solution methods, and economic
interpretations. Prereq: ECON 4071 and 4081. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 5813 - Econometrics I**

*Summer 2010 Registration ECON 5813*
Theory and application of statistical techniques used to analyze economic problems. Topics include simple and multiple regression models, simultaneous equation models, and the problems encountered in their application. Students formulate models, obtain data, estimate models, interpret results and, forecast. Prereq: ECON 4811 or equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 5823 - Econometrics II**

*Summer 2010 Registration ECON 5823*
Second course in the econometrics sequence, covering intermediate topics in cross-section and time series analysis. Topics include limited dependent variables, autoregressive and distributed lag models, longitudinal data analysis and unit roots, cointegration and other time-series topics. Prereq: ECON 5083 and 5813. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 6053 - Seminar In Applied Economics**

*Summer 2010 Registration ECON 6053*
Familiarizes students with applied research in economics. Students read, discuss, and critique articles in economic journals. Emphasis is placed on research design and methods employed in these articles to prepare students for development of their own research projects in subsequent courses. Topics vary with instructor, and may include international economics, labor economics, monetary theory, public or finance and development economics. Prereq: ECON 5813, 5073, 5083 at the instructor's discretion. **Semester Hours:** 1.5 to 1.5
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 6073 - Research Seminar**

*Summer 2010 Registration ECON 6073*
Focuses on training students to do rigorous research in economics. Topics include the analysis of large data sets, further development of econometric skills, and writing a research paper. Note: Students attend lectures and also meet regularly with the instructor in the process of doing a sophisticated research project. Prereq: ECON 5823 and 6053. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Total: 21 Hours

Electives

Three elective courses

Total: 9 Hours

Degree Total: 30 Hours

Educational Psychology MA

Office: Lawrence Street Center, 701
Telephone: 303-315-6300
Fax: 303-315-6311
E-mail: education@ucdenver.edu
Web site: www.ucdenver.edu/education

Faculty

Information about educational psychology faculty is available online at www.ucdenver.edu/education.

Master’s Degree

The MA program in educational psychology prepares students to facilitate the teaching/learning process. Thus, many students pursue the degree to enhance their skills as professional classroom teachers. The degree also provides skills necessary for a variety of roles where knowledge of learning, development, motivation, and research is essential; examples would include teaching at the community college level, teaching adults and conducting program evaluation. Other students seek the MA as preparation for advanced study in educational psychology.

Note, too, that many students in the school’s initial professional teacher education program—as well as interns in the alternative teacher licensure programs conducted by the Stanley British Primary School, the Boulder Journey School and Friends’ School—also seek the MA degree in the Division of Educational Psychology.

Areas of Study
Four major areas of concentration are available—human learning, child growth and development, research and evaluation and individualized programs (such as adult learning). Regardless of the concentration area selected, all students must:

- take 9 semester hours of core courses required by the School of Education & Human Development
- demonstrate competence in educational psychology by successfully completing a minimum of 36 semester hours of relevant course work (9 of which are the core)
- complete either a master’s thesis (4 semester hours, MA Plan I) or an independent study project (3 to 4 semester hours, MA Plan II), the latter involving the collection of data bearing on a given problem and its analysis and interpretation in writing
- perform satisfactorily on a written comprehensive examination (typically during the last term enrolled in regular courses)
- complete the degree on a timely basis, usually within three years

To stay current with the needs of a changing industry, faculty in the educational psychology program may choose to change curriculum requirements at semester for incoming students to the program. For the 2010-2011 term, please refer to the most current version of the handbook for academic requirements for this program.

EPSY Handbook 2010-11

**Research and Evaluation Methodology**

**Office:** Lawrence Street Center, 701  
**Telephone:** 303-315-6300  
**Fax:** 303-315-6311  
**E-mail:** education@ucdenver.edu  
**Web site:** www.ucdenver.edu/education

**Faculty**

To find information about faculty in this program visit www.ucdenver.edu/education.

**Emphasis Track**

There is a REM emphasis track within the educational psychology master’s degree program; students can select either an evaluation/data analysis focus or an assessment focus. This area also provides classes to all education graduate programs, offering courses in research methods, evaluation, statistics, analysis, assessment and measurement.

To stay current with the needs of a changing industry, faculty in the educational psychology program may choose to change curriculum requirements at semester for
incoming students to the program. For the 2010-2011 term, please refer to the most current version of the handbook for academic requirements for this program.

EPSY Handbook 2010-11

**Electrical Engineering MEng**

- Graduate School Rules apply to this program

The master of engineering (MEng) degree program is broad based and is designed especially for that person who wants to further his/her education in more than just electrical engineering. A minimum of 30 semester hours of academic work is required for the MEng degree. At least 15 of these hours must be in electrical engineering courses at the 5000-level or above. At least 15 semester hours must be taken in the Department of Electrical Engineering at UC Denver. As many as 15 semester hours may be taken outside of engineering. The student who wishes to enter the master of engineering program should apply to the electrical engineering department in the same manner as a master of science applicant.

**Electrical Engineering MS**

- Graduate School Rules apply to this program

The master of science (MS) program offers two plans, thesis (Plan I) and master's project (Plan II). In each, the student must complete 30 graduate semester hours. To satisfy the breadth requirement, two courses outside the area of specialization are required and two mathematics courses are recommended. Plan I requires a minimum of 24 semester hours of graduate course work and 6 semester hours of MS thesis work. Plan II requires a minimum of 27 semester hours of graduate course work and 3 semester hours of MS project. A minimum of 21 graduate semester hours must be earned through the electrical engineering department at UC Denver. Candidates with a BS degree from UC Denver can count 6 electrical engineering UC Denver graduate credits toward both undergraduate and graduate degrees if their undergraduate GPA is at least 3.0. Double counting applies only to credits earned with a B or better grade.
English MA

- Graduate School Rules apply to this program

Program Director: Michelle Comstock
Telephone: 303-556-8479
E-mail: Michelle.Comstock@ucdenver.edu

The department offers three programs in the English MA degree: 1) the literature program increases students’ knowledge of English and American literature and also their familiarity with a variety of critical methodologies; 2) the rhetoric and teaching of writing program introduces students to the theory, research and pedagogy underlying contemporary instruction in secondary and college composition; 3) the applied linguistics program introduces students to the principles, practices and concerns of teaching English to adults whose first language is not English.

Students concurrently pursuing a master’s in education can count up to 6 hours of education courses toward their MA in English with their English advisor’s permission.

Contact the graduate program director for more information on these programs.

Requirements for Admission

Applicants for any of the programs described above must submit all application materials by either the spring, summer or fall deadline. The deadline for fall enrollment is April 1; the deadline for spring and summer enrollment is October 1. Complete applications for all three programs must include the following:

- a completed University of Colorado graduate application
- two copies of all graduate and undergraduate transcripts, and for any nondegree courses previously taken
- three letters of recommendation in which the recommender specifically addresses the candidate’s ability to pursue successfully the program chosen
- recent scores on the GRE, including the analytical, verbal and quantitative portions. GRE score average should be 600 or higher. Analytical writing score should be 4 or higher.
- evidence of a 3.0 GPA in previous courses
- statement of purpose
- 10-page critical writing sample
In addition to these requirements, applicants for the MA in literature must have successfully completed 24 semester hours in English courses (graduate or undergraduate), excluding courses in composition, creative writing or speech. At least 15 of these semester hours must be at the upper-division level.

Transfer of Credits from Other CU Campuses

Students admitted to graduate study in English may complete all of their course requirements for the MA degree at UC Denver. Up to 12 semester hours (total) may be transferred from the University of Colorado-Boulder, University of Colorado-Colorado Springs or other graduate program; however, such transfer requires the written approval of the specific program coordinator. Only 12 semester hours of courses taken at UC Denver before acceptance into the program can be counted toward the degree. Further, work already applied toward a graduate degree received at the University of Colorado or at another institution cannot be transferred toward another graduate degree of the same level at UC Denver. (For other rules concerning transfer of graduate credits, see the Graduate School Rules.) For more information, contact the graduate program director at 303-556-4648.

Degree Requirements

The literature program requires 33 semester hours; the rhetoric and teaching of writing program requires 30 hours; the applied linguistics program requires 30 hours. Students must receive a B- or above in all courses counted toward the MA degree.

Literature Program

This program provides a general knowledge of English and American literature, a familiarity with the range of theoretical approaches and critical methodologies, and an opportunity to take courses in film studies, creative writing, and ethnic and world literature.

GENERAL REQUIREMENTS

- Satisfactory completion of all required course work
- Satisfactory completion of the MA comprehensive exam OR thesis submission and defense
- Demonstrated fourth-semester proficiency in a foreign language. Old English or Latin will also satisfy this requirement
- Compliance with all graduate school policies and requirements
COURSE REQUIREMENTS (33 SEMESTER HOURS MINIMUM)

All courses are 3 credit hours unless otherwise noted. A minimum of 9 semester hours must be taken at the 6000 level.

REQUIRED COURSES

ENGL 5100 - Literary Research and Writing

Summer 2010 Registration ENGL 5100  
Designed to prepare students for graduate scholarship and writing in literature; should be taken soon after entering the program. Introduction to the research methodologies of literary scholarship as well as the practical strategies and the formal and stylistic standards for writing graduate-level analytical-interpretive essays. Prereq: Must be enrolled or accepted into the MA in English, Literature Option program. Semester Hours: 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 6001 - Critical Theory in Literature and Film

Summer 2010 Registration ENGL 6001  
Designed to enrich students' understanding of a variety of modes of theoretical discourse that have influenced modern critical practice in literary and film studies. While the course explores the evolution of criticism, it gives primary emphasis to recent developments. Prereq: ENGL 5100 or permission of instructor. Semester Hours: 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6 Hours

AREA REQUIREMENTS

Choose seven courses at the 5000/6000 level which fulfill seven different areas from the following 9 areas:

1. Classics
2. Medieval literature
3. Renaissance literature
4. Restoration and 18th-century literature
5. Romanticism
6. American literature, pre-1900
7. Victorian literature
8. American literature or film, post-1900
9. British modernism/ 20th century British literature or film

Any graduate literature/film course will fulfill at least one of these areas. Each area can be satisfied by several different courses periodically offered. Historical surveys count
within the most appropriate area based on the syllabus. Courses in film, world literature, ethnic literature and women's literature generally fulfill one of the 20th-century areas.

Total: 21 Hours

ELECTIVES

Choose one of the following:

**ENGL 5093 - Teaching of Writing**

*Summer 2010 Registration ENGL 5093*

Deals with the analysis of rhetorical theory with an emphasis on practical applications in the classroom, with attention to alternative pedagogies in teaching. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 5913 - Practicum in Language and Rhetoric**

*Summer 2010 Registration ENGL 5913*

Supervised work in applied language or rhetoric and the teaching of writing. **Semester Hours:** 1 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

An ENGL 5000- or 6000-level literature or film course

Total: 3 Hours

**THESIS OR NON-THESIS OPTIONS**

**Non-Thesis Option**

Students not writing a thesis must take the MA comprehensive exam. Prior to the exam, students may take ENGL 6920. Directed Readings for 1-3 semester hours to help them prepare for the exam, but this is not required. However, the 33-hour course requirement must be met through electives if directed readings or project/independent study credits are not taken.

Students must be registered during the semester in which they take the MA comprehensive exam, which can be met by signing up for candidate for degree (CAND 5940-900) if all course work is completed.

**Thesis Option**
Students must submit a proposal for a thesis to the graduate program director for permission to proceed to the thesis.

**ENGL 6950 - Master’s Thesis**

*Summer 2010 Registration ENGL 6950*

**Semester Hours:** 1 to 6

Registration is changing. Visit our website for details ucdenver.edu/registration.

For details about writing, submitting and defending a thesis, see the current thesis guidelines.

**Total:** 3-6 Hours

**LANGUAGE REQUIREMENT**

Students must demonstrate fourth-semester proficiency in a foreign language. Old English or Latin also satisfies this requirement.

**Total Literature Program: 33 Hours**

^Top

**Rhetoric and Teaching of Writing Program**

In this program, you'll study rhetorical and language traditions and apply that knowledge to the teaching of writing. Knowledge of multicultural dimensions of literacy will help you understand the rich cultural complexity of the modern classroom. This program also focuses on developing your own writing and editing skills to fulfill your professional role as a teacher-writer.

**COURSE REQUIREMENTS (30 SEMESTER HOURS MINIMUM)**

All courses are 3 credit hours unless otherwise noted.

**REQUIRED COURSES**

**ENGL 5080 - History of the English Language**

*Summer 2010 Registration ENGL 5080*

Examines how English has changed since A.D. 800 through examples of writing from different periods, with attention to the way various groups have enriched our vocabulary and altered our syntax. Prereq: ENGL 2070 or one year of a college foreign language.
Cross-listed with ENGL 4080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 5171 - Language Theory**

*Summer 2010 Registration ENGL 5171*
Introduces linguistic theory to the beginning graduate student. Builds upon the material included in the undergraduate class, by adding materials pertaining to the teaching of writing and graduate language studies. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 5093 - Teaching of Writing**

*Summer 2010 Registration ENGL 5093*
Deals with the analysis of rhetorical theory with an emphasis on practical applications in the classroom, with attention to alternative pedagogies in teaching. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 5150 - Research Methods**

*Summer 2010 Registration ENGL 5150*
Designed to prepare students for graduate scholarship in language, literacy, and the teaching of writing; should be taken soon after entering the program. Introduction to the research methods and stylistic standards for graduate-level writing. Prereq: graduate student standing **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 5190 - Special Topics in Rhetoric and Writing**

*Summer 2010 Registration ENGL 5190*
Focuses on particular issues in rhetoric and writing as they pertain to reading and writing, including language and gender, language and culture, and language of political action. Cross-listed with Engl 4190. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 5651 - Second Language Writing**

*Summer 2010 Registration ENGL 5651*
Topics include the similarities between first and second language writing, the processes of composition and revision, teacher response to student writing, student processing of feedback, writing assessment, and the reading or writing connection. Cross-listed with
ENGL 4651. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 6002 - Rhetorical Theory

Summer 2010 Registration ENGL 6002
Examines the principles and applications of rhetorical theory and its relationship to writing. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 18 Hours

AREA OF CONCENTRATION

Chosen by the student and approved by the student's advisor, the area of concentration may be in virtually any field that complements the required core and that meets the student's goals in the program. Representative areas include but are not limited to literature, technical communication, reading, English as a second language and communication. ENGL 5913. Practicum in Language and Rhetoric may be included among these nine hours.

Total: 9 Hours

THESIS OR PROJECT OPTIONS

Thesis
ENGL 6950. Master's Thesis
For details about writing, submitting and defending a thesis, see the current thesis guidelines.

Total: 4-6 Hours

Project
ENGL 6960. Master's Project

Total: 3-6 Hours

Rhetoric and Teaching of Writing Total: 30 Hours

Applied Linguistics Program
If you want a thorough grounding in the principles and practice of teaching English to non-native adult users of English with a special focus on the discourses of the classroom and on teaching second-language writers, this program is a good choice.

GENERAL REQUIREMENTS

Students must demonstrate fourth semester proficiency in a foreign language prior to graduation; assessment of proficiency depends on the language to be demonstrated.

Those students who are not teaching adult ESL students at the time of their course work will be required to take a 3–6 credit internship in an area language school, workplace or high school/college ESL program, either through the Experiential Learning Center or by arrangement with the program coordinator.

COURSE REQUIREMENTS (30 SEMESTER HOURS MINIMUM)

All courses are 3 credit hours unless otherwise noted.

REQUIRED CORE COURSES

ENGL 5093 - Teaching of Writing

Summer 2010 Registration ENGL 5093
Deals with the analysis of rhetorical theory with an emphasis on practical applications in the classroom, with attention to alternative pedagogies in teaching. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 5150 - Research Methods

Summer 2010 Registration ENGL 5150
Designed to prepare students for graduate scholarship in language, literacy, and the teaching of writing; should be taken soon after entering the program. Introduction to the research methods and stylistic standards for graduate-level writing. Prereq: graduate student standing **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 5171 - Language Theory

Summer 2010 Registration ENGL 5171
Introduces linguistic theory to the beginning graduate student. Builds upon the material included in the undergraduate class, by adding materials pertaining to the teaching of writing and graduate language studies. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
ENGL 5601 - Principles and Practices of Second Language Acquisition

Summer 2010 Registration ENGL 5601
Overview of basic principles and practices in the learning and teaching of English as a second language. Cross-listed with ENGL 4601. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 5651 - Second Language Writing

Summer 2010 Registration ENGL 5651
Topics include the similarities between first and second language writing, the processes of composition and revision, teacher response to student writing, student processing of feedback, writing assessment, and the reading or writing connection. Cross-listed with ENGL 4651. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 5913 - Practicum in Language and Rhetoric

Summer 2010 Registration ENGL 5913
Supervised work in applied language or rhetoric and the teaching of writing. Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
-OR- an ENGL elective approved by the student's advisor

Total: 18 Hours

ELECTIVE LANGUAGE OR RHETORIC COURSES

ENGL 5080 - History of the English Language

Summer 2010 Registration ENGL 5080
Examines how English has changed since A.D. 800 through examples of writing from different periods, with attention to the way various groups have enriched our vocabulary and altered our syntax. Prereq: ENGL 2070 or one year of a college foreign language. Cross-listed with ENGL 4080. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 5190 - Special Topics in Rhetoric and Writing

Summer 2010 Registration ENGL 5190
Focuses on particular issues in rhetoric and writing as they pertain to reading and writing, including language and gender, language and culture, and language of political
action. Cross-listed with Engl 4190. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**SYNTHESIS OPTIONS**

Students may choose from the following three options:

**Comprehensive Exam or Portfolio Exam**

Students will take a comprehensive exam or portfolio exam in their last semester. Students selecting this option must take two elective courses (6 hours) approved by their advisor.

**Thesis**

ENGL 5840. Independent Study (3 hours)

ENGL 6950. Master's Thesis (4-6 hours)

For details about writing, submitting and defending a thesis, see the current thesis guidelines.

**Project:**

ENGL 5840. Independent Study (3 hours) or an internship* (3 hours) — with advisor's approval

ENGL 6960. Master's Project

*** INTERNSHIPS**

Those students who are not teaching adult ESL students at the time of their course work will be required to take a 3-6 credit hour internship in a local area language school, workplace or high school/college ESL program, either through the Experiential Learning Center or by arrangement with the program coordinator.

**Total: 6 Hours**

**Applied Linguistics Total: 30 Hours**

**Additional Information**
Candidate for Degree: Graduate students must be registered for at least one credit hour during the semester in which they graduate. Those who have completed all required courses and requirements may register for candidate for degree: CAND 5940, section 900. CAND 5940 carries no course credit, but you are billed for one credit of tuition and $10 in fees.

Teaching Assistantships: Graduate students who receive a teaching assistantship must take the following course in the fall during their first semester as a teaching assistant.

ENGL 5913. Practicum in Language and Rhetoric

Dual Degrees: Students concurrently pursuing a MA in education can count up to six hours of education courses toward their MA in English, with their English graduate advisor's permission.

Faculty (Concurrently Appointed)

Professors:  
Larry Anderson, chemistry  
Lloyd Burton, School of Public Affairs  
Anne Chin, geography and environmental science  
Lynn Johnson, civil engineering  
John Lanning, chemistry  
Diana Tomback, biology

Associate Professors:  
Leo Bruederle, biology  
Frederick Chambers, geography and environmental science  
Greg Cronin, biology  
Brian Page, geography and environmental science  
Anu Ramaswami, civil engineering
Environmental sciences is a multidisciplinary study of the environment, housed in the Department of Geography and Environmental Sciences. Academic fields involved in environmental sciences include chemistry, biology and ecology, physics, geology, geography, anthropology, engineering, political science, law, economics and the health sciences. Students planning to pursue the MS in environmental sciences must either have earned a bachelor's degree or have taken significant course work in the natural/physical sciences or engineering and completed several other prerequisites (see the following graduate information). Graduate-level certificates in environmental sciences are also offered. The certificates may be earned stand-alone or as options in the MS in environmental sciences.

Environmental careers encompass a broad range of professions, from those with a strong foundation in the natural/physical sciences or engineering to those based in the social sciences and/or humanities. Students interested in environmental issues and careers should investigate the whole field before deciding which course to follow. At the Downtown Campus, the MS in environmental sciences emphasizes the natural/physical sciences and engineering with the addition of the social sciences and humanities.

The MS in environmental sciences degree is designed to provide training in engineering, natural/physical sciences and socioeconomic analysis. The goals of the program are to (1) enhance the interdisciplinary communication and analytical skills of the student, and (2) provide a multidisciplinary approach for more intensive study of a particular environmental issue. Students will receive instruction in the physical and biological dynamics of various ecosystems, environmental engineering and socioeconomic issues associated with environmental analysis.

Graduates of the environmental sciences program are involved in many different areas, such as reviewing environmental impact statements, monitoring groundwater quality and communicating with the public. Many students have found employment in various agencies (U.S. Environmental Protection Agency, U.S. Geological Survey, Colorado...
State Department of Public Health and Environment) and private-sector environmental and engineering firms.

**Requirements for Admission**

The program is for students who either have baccalaureate degrees or significant background in one of the natural/physical sciences or engineering. In addition, minimum undergraduate science and math requirements are:

- one semester of calculus and one semester of upper-division statistics *(if applicant is missing the statistics course, he/she can be admitted but must take ENVS 5600, Applied Statistics, or an approved statistics course as an elective before receiving the MS in environmental sciences degree)*
- two semesters general chemistry with lab
- one semester physics
- two semesters general biology with lab

If only two semesters of the six prerequisite courses are lacking, students may be admitted, but must take them in the first year in the program. Applicants who have fulfilled all prerequisites have a better chance of acceptance. Applicants may be required to take additional prerequisite courses (necessary for completing particular core or elective courses). The prerequisite courses will not count toward the MS environmental sciences degree. As part of the admission review process, applicants are required to submit a graduate application, a minimum of three letters of recommendation and transcripts from all institutions previously attended. UC Denver has a minimum requirement of a 3.0 undergraduate GPA for applicants to the Graduate School. The program admits new students for the fall semester and the number of students admitted to the program depends, in part, on space availability. **Applicants must submit all materials by the March 1 deadline.**

**Financial Aid**

There are three types of financial aid available: tuition assistance; research assistantship positions funded by grants to specific program faculty; and the regular package of financial aid (primarily loans) available through the financial aid office on the Downtown Campus. Incoming students will be automatically considered for program-distributed tuition assistance at the time of admission to the program. Continuing students will be regularly apprised of available aid and positions. Students interested in research assistantships should consult individual faculty with whom they wish to work regarding potential assistantship positions. All other aid should be requested through the UC Denver Financial Aid Office, North Classroom, 1030, Campus Box 125, P.O. Box 173364, Denver, CO 80217-3364. Telephone: 303-556-2886.
Internships

Students in the MS in environmental sciences program are strongly encouraged to contact the Experiential Learning Center for internships and paid positions related to environmental sciences. The Experiential Learning Center is located in the Tivoli Student Union, Suite 260. Telephone: 303-556-2250. Many students have had internships in federal agencies, such as the U.S. Environmental Protection Agency and the U.S. Geological Survey.

Program Requirements

The MS in environmental sciences is a 39-hour program that provides students with two alternate plans: Plan I requires a thesis, while Plan II is a nonthesis program. General requirements for the program include: a set of core courses (15 semester hours), the MS in environmental sciences seminar course (ENVS 6002, 3 semester hours), an environmental policy course (3 semester hours), and elective courses (12 semester hours minimum). Students choosing Plan I must also complete 6 hours of thesis, while those choosing Plan II must complete 6 hours of additional elective course work. Students opting for Plan II are encouraged to enroll in 3 hours of independent study (ENVS 6840) as one of their electives.

The degree is offered through the College of Liberal Arts and Sciences with the cooperation of the College of Engineering and Applied Science. In addition, some courses offered by the College of Architecture and Planning, the School of Public Affairs and the Business School are relevant and applicable to the program.

Required Core Courses

Fall

CVEN 5401 - Introduction to Environmental Engineering

Summer 2010 Registration C E 5401

Provides a broad overview of the environmental engineering and pollution control system. Offers a unique systems approach to environmental engineering, examining the source-to-receptor feedback loop system of pollution control. Process principles underlying pollutant, transport, abatement, and control are presented in a unified manner, cross-cutting atmospheric, wastewater and sub-surface systems. Prereq: Graduate standing in MSCE or MSES programs or permission of instructor. Cross-listed with CVEN 3401. Semester Hours: 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
ENVS 5030 - Environmental Geology

Summer 2010 Registration ENVS 5030
Applies geological information to interactions between people and the physical environment. Increasing awareness of its importance in our society means that this is an expanding field as companies are required to address the environmental consequences of their actions. Prereq: Entry into MSES program, senior standing in sciences or geography, or permission of instructor. Cross-listed with GEOL 4030 and 5030. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENVS 6200 - Risk Assessment

Summer 2010 Registration ENVS 6200
The process of determining the likelihood and extent of harm that may result from an activity or event. Topics covered are: hazard identification, dose-response evaluation, exposure assessment, and risk characterization. The subjects of risk management, risk perception, and risk communication are also discussed. Prereq: Graduate standing or permission of instructor. Cross-listed with CVEN 5494, HBSC 7340. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Spring

BIOL 5445 - Applied Environmental Biology

Summer 2010 Registration BIOL 5445
Examines the reciprocal relationships of organisms and the environment at scales from microbes to ecosystems. Explores the impact of human-caused perturbations on organisms as well as the impact of living systems on the flow of energy and materials (natural and man-made) through the environment. Prereq: Graduate standing or permission of instructor; one year of general biology and one year of general chemistry; introductory ecology recommended. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CHEM 5700 - Environmental Chemistry

Summer 2010 Registration CHEM 5700
A discussion of the sources, reactions, transport, effects, and fates of chemical species in the water, soil and air environments. Prereq: CHEM 3111, 3411, and graduate standing. Cross-listed with CHEM 4700. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Total: 18 Hours

The core courses are to be taken first upon entry into the program. They are the foundation for other courses in environmental sciences.

Seminar Course

Students are required to register for ENVS 6002, Environmental Sciences Seminar, in the first fall semester they are enrolled in the MS in environmental sciences program. The seminar serves as an introduction to the program and helps students to develop research skills and further their professional development.

ENVS 6002 - Environmental Sciences Seminar

Summer 2010 Registration ENVS 6002

Introduces research and professional development in the environmental sciences, focusing on current issues and trends in the field, methods of developing research and project proposals, and defense of a proposal written during the semester. Students are introduced to the environmental sciences faculty and their research programs. Prereq: Must be an MS Environmental Science student or permission of instructor. Semester Hours: 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Elective Courses

(See the MS in Environmental Sciences Web site for a complete list of elective courses for the MS in environmental sciences program.)

Students, with the coordinator and/or an advisor, will complete a program plan that will include 12-21 semester hours of elective requirements that will meet their interests. Students may choose to use four of the electives to fulfill one of the following options offered in environmental sciences: air quality, ecosystems, environmental health, geospatial analysis, hazardous waste and water quality. Students must have the prerequisites for each course and must meet the requirements listed in the notes below. Contact the option advisor for the particular option of interest before starting. Upon graduation, the option will be noted on the student’s transcript.

Following are the requirements for each environmental sciences option:

AIR QUALITY OPTION
Option Advisor: Larry Anderson  
Telephone: 303-556-2963  
E-mail: Larry.Anderson@ucdenver.edu

Required Courses

CHEM 5710 - Air Pollution Chemistry

Summer 2010 Registration CHEM 5710  
Chemical processes occurring in the atmosphere are discussed. Includes application to air pollution problems, including urban air pollution, air quality standards, non-urban air pollution, acid deposition, and stratospheric pollution. Prereq: CHEM 4521 or 4700. 
Semester Hours: 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENVS 5730 - Air Quality Modeling and Analysis

Summer 2010 Registration ENVS 5730  
Emphasizes the use of air dispersion modeling tools. Topics include: sources and effects of air pollution, use of the WWW, and analysis of modeling results. Note: For graduate students in environmental sciences or engineering, and for those working in the environmental field. Prereq: Graduate standing. 
Semester Hours: 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6 Hours

Electives

Choose two:

CHEM 5720 - Atmospheric Sampling and Analysis

Summer 2010 Registration CHEM 5720  
Fundamentals of environmental sampling specifically applied to the atmosphere are discussed. Includes a variety of techniques for the measurement of monitoring gaseous, semi-volatile and particulate air pollutants, techniques for the measurement of criteria pollutants, chemical and physical measurements of particulate and air toxins. Prereq: CHEM 4700 or CHEM 5710 or permission of instructor. 
Semester Hours: 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

URPL 6686 - Special Topics: Urban and Regional Planning

Summer 2010 Registration URP 6686  
Various topical concerns are offered in urban and regional planning, theory, concepts,
methods, case studies and practice. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
(when Air Quality Planning and Policy is the topic)

**Total: 6 Hours**

**Option Total: 12 Hours**

**ECOSYSTEMS OPTION**

**Option Advisor:** Gregory Cronin  
**Telephone:** 303-556-6036  
**E-mail:** Gregory.Cronin@ucdenver.edu

**Required Courses**

**BIOL 5415 - Microbial Ecology**

*Summer 2010 Registration BIOL 5415*
An in-depth study of ecology as it relates to microorganisms; abiotic and biotic interactions within microbial populations in macro- and microhabitats; and the role of microorganisms in maintaining steady state conditions in natural ecosystems. Emphasis is placed on how the ecology of microorganisms affects the human condition. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4415. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**Electives**

Choose two:

**BIOL 5050 - Advanced Biology Topics**

*Summer 2010 Registration BIOL 5050*
Examines current topics in the field of biology. Topics vary from term to term. See Schedule Planner for current topics. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4050. **Semester Hours:** 1 to 8
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 5154 - Conservation Biology**
Summer 2010 Registration  **BIOL 5154**
Basic concepts and theories in population biology and genetics as they apply to issues relating to the preservation of biodiversity, such as the genetics of small populations, captive propagation, restoration ecology and the design of nature reserves. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4154. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENVS 6220 - Toxicology**

Summer 2010 Registration  **ENVS 6220**
Introduces the field of toxicology. Emphasizes the mechanisms by which chemicals produce toxic effects and the methods for assessing toxicity. Note: Designed for students in the environmental sciences and occupational health fields. Prereq: One year college chemistry and one year college biology. Cross-listed with HBSC 7360. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

(see Note 2)

**GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing**

Summer 2010 Registration  **GEOG 5060**
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or permission of instructor. Cross-listed with GEOG 4060, GEOL 4060, 5060. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 6 Hours

**Option Total:** 12 Hours

* BIOL 5445, Applied Environmental Biology, required as a prerequisite for the ecosystems option.

**ENVIRONMENTAL HEALTH OPTION**

**Option Advisor:** Deborah Thomas
**Telephone:** 303-556-5292
**E-mail:** Deborah.Thomas@ucdenver.edu

**Required Courses**

**ENVS 6220 - Toxicology**
Summer 2010 Registration ENVS 6220
Introduces the field of toxicology. Emphasizes the mechanisms by which chemicals produce toxic effects and the methods for assessing toxicity. Note: Designed for students in the environmental sciences and occupational health fields. Prereq: One year college chemistry and one year college biology. Cross-listed with HBSC 7360. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration. (see Note 2) (fall, even years)

ENVS 6230 - Environmental Epidemiology

Summer 2010 Registration ENVS 6230
Provides a basic understanding of the methods used to study the effects on human health of exposures to physical, chemical, or biological factors in the external environment. The course explains the use of epidemiologic methods through a problem solving approach to investigating environmental health case studies. Prereq: A basic statistics course and graduate standing or permission of instructor. Cross-listed with HBSC 7310. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration. (spring, even years)

Total: 6 Hours

Electives

Choose two:

ANTH 4010 - Global Health Studies I: The Biocultural Basis of Health

Summer 2010 Registration ANTH 4010
This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health studies; the second is ANTH 4020. Prereq: Upper division and/or graduate standing. Cross-listed with ANTH 5014, HBSC 4010 and 5010. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENVS 6210 - Human Health and Environmental Pollution

Summer 2010 Registration ENVS 6210
Examines the roles of technology and society in the etiology and control/prevention of adverse health outcomes associated with releases of toxic substances. Examples come from experience and the literature on occupational cancer and reproductive hazards, occupational and environmental regulation of hazardous wastes, air, and water pollution.
Cross-listed with HBSC 7210. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
(spring, odd years)

**PUAD 5633 - Seminar in Natural Resource and Environmental Health Law**

*Summer 2010 Registration* **PUAD 5633**
Administrative law aspects of environmental policy implementation and enforcement, the role of courts in both stimulating and limiting statutory reform, and regulatory innovation. Focus on the legal aspects of both natural resource allocation and management, and environmental protection. Alternatives to traditional processes for environmental dispute resolution. Cross-listed with PUAD 7633. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 6 Hours

**Option Total:** 12 Hours

* ENVS 6200, Risk Assessment, required as a prerequisite for the environmental health option.

**ENVIRONMENTAL SCIENCE EDUCATION OPTION**

**Option Advisor:** Bryan Wee  
**Telephone:** 303-315-4992  
**E-mail:** bryan.wee@ucdenver.edu

**Required Courses**

**ELED 5340 - Multicultural Science Education**

*Summer 2010 Registration* **ELED 5340**
This course examines literature in science education related to multicultural issues, topics will be framed by an understanding of equity in diverse, urban classrooms and how it informs curriculum and instruction. Cross-listed with ENVS 5340. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENVS 5340 - Multicultural Science Education**

*Summer 2010 Registration* **ENVS 5340**
This course examines literature in science education related to multicultural issues. Topics will be framed by an understanding of equity in diverse, urban classrooms and how it informs curriculum and instruction. Cross-listed with ELED/SECE 5340. **Semester**
*Hours: 3to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**SECE 5340 - Multicultural Science Education**

*Summer 2010 Registration SECE 5340*
This course examines literature in science education related to multicultural issues, topics will be framed by an understanding of equity in diverse, urban classrooms and how it informs curriculum and instruction. Cross-listed with ENVS 5340. **Semester Hours: 3to 3**
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENVS 5500 - Topics in Environmental Sciences**

*Summer 2010 Registration ENVS 5500*
Topics may vary from one offering to the next. **Semester Hours: 1to 6**
Registration is changing. Visit our website for details ucdenver.edu/registration.

(Taken as Survey of Field Methods topic)

**Total: 6 Hours**

**Electives:**

Choose two:

**ANTH 5170 - Culture and the Environment**

*Summer 2010 Registration ANTH 5170*
Examines the historical origins of Western and non-Western ideas of the environment and the place of people within it. The imposition of Western ideas on non-Western groups regarding environmental policy is also examined, with special attention given to practices of conservation, development and transnational monetary policy. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 4170. **Semester Hours: 3to 3**
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BIOL 5154 - Conservation Biology**

*Summer 2010 Registration BIOL 5154*
Basic concepts and theories in population biology and genetics as they apply to issues relating to the preservation of biodiversity, such as the genetics of small populations, captive propagation, restoration ecology and the design of nature reserves. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4154. **Semester**
**Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**COMM 5282 - Environmental Communication**

*Summer 2010 Registration CMMU 5282*
Studies the communication processes involved in policies and practices affecting natural and human environments. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4282. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 5335 - Contemporary Environmental Issues**

*Summer 2010 Registration GEOG 5335*
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 4335. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEOG 5350 - Environment and Society in the American Past**

*Summer 2010 Registration GEOG 5350*
Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 4350. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Or another elective approved by the option advisor

**Total:** 6 Hours

**Option Total:** 12 Hours

**GEOSPATIAL ANALYSIS OPTION***

**Option Advisor:** Rafael Moreno
**Telephone:** 303-556-3762
**E-mail:** Rafael.Moreno@ucdenver.edu

**Required Courses**

**GEOG 5080 - Introduction to GIS**
Summer 2010 Registration GEOG 5080
Introduces various aspects of geographic information systems (GIS), including justification, definition of hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data on facilities and land. Includes hands-on use of a geographic information system workstation. Cross-listed with GEOG 4080. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

GEOG 5090 - Environmental Modeling with Geographic Information Systems

Summer 2010 Registration GEOG 5090
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4090. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6 Hours

Electives

Choose two:

CVEN 5382 - GIS Spatial Database Development

Summer 2010 Registration C E 5382
This second GIS course builds on the introductory course and addresses principles and technologies for development and conversion of spatial databases, including photogrammetry, surveying and geodesy, coordinate systems and transformations, and remote sensing. Prereq: Graduate and/or upper division standing; completion of CVEN 5381 (or equivalent) and MEng-GIS program prerequisites (especially surveying, mapping and computing); background in algebra, calculus fundamentals and facility to compute DOS/UNIX, spreadsheet, and FORTRAN; familiarity with various CAD (e.g. AutoCAD) and GIS (e.g. Arc Info, GRASS) software is also required. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CVEN 5385 - GIS Relational Database Systems

Summer 2010 Registration C E 5385
Introduces relational database management system concepts with emphasis on GIS. Includes examination of relational database systems from conceptual design through relational schema design and physical implementation. Topics include SQL, database design and implementation for large database systems, transaction management,
concurrency control, distributed database management systems and the interaction and progressive integration of GIS technologies and RBDMS technologies. Prereq: Graduate and/or upper division standing; completion of CVEN 5381 or equivalent and completion of MEng-GIS program prerequisites. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CVEN 5386 - GIS Laboratory**

*Summer 2010 Registration* **C E 5386**
Provides in-depth experience with use and programming of a particular GIS software, including Arc GIS and related object-oriented programming languages. Advanced functionality for user authoring of software interface, data management and analysis functions and output generation. Exact content will vary by semester. Prereq: Computing and Introduction to GIS or their equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

**Option Total: 12 Hours**

* GEOG 3080, Introduction to Mapping and Map Analysis, is required as a prerequisite of the geospatial analysis option.

For more information, contact the option advisor or Jon Barbour at 303-556-4520, Jon.Barbour@ucdenver.edu.

**HAZARDOUS WASTE OPTION***

**Option Advisor:** Anu Ramaswami
**Telephone:** 303-556-4734
**E-mail:** Anu.Ramaswami@ucdenver.edu

**Required Courses**

**CVEN 5480 - Hazardous Wastes and Site Remediation**

*Summer 2010 Registration* **C E 5480**
Students learn to: (1) define and classify hazardous wastes encountered at hazardous waste-contaminated sites, (2) learn basic principles underlying currently available technologies for site remediation, (3) use EPA's technology screening matrix for technology selection, and (4) provide engineering design for selected remediation systems, e.g. ground-water pump-and-treat, soil vapor extraction, soil washing, and bioremediation. Prereq: CVEN 5402. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Total: 6 Hours

Electives

Choose two:

**BIOL 5051 - Advanced Topics In Microbiology**

*Summer 2010 Registration BIOL 5051*

An in-depth study of microbial concepts, including prokaryotic and eukaryotic structure and function; properties of biological macromolecules; microbial growth kinetics; and microbial diversity. Emphasis is on one of the following: virology, microbial physiology, environmental microbiology, microbial biotechnology and nucleic acids. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4051. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**CVEN 5402 - Environmental and Water Quality Modeling**

*Summer 2010 Registration C E 5402*

Provides unified understanding of fundamental physical, chemical and biological processes that govern the transport and fate of pollutants in environmental systems - water, air and subsurface. Includes hands-on experience in modeling surface and ground water systems. Prereq: CVEN 5401. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENVS 5403 - Unsaturated Zone Hydrology**

*Summer 2010 Registration ENVS 5403*

Focuses on water and contaminant transport through the unsaturated zone, infiltration and drainage, and heat and gas transport. Students learn to design, perform field installation, and collect data in order to model and predict contaminant movement on/off site. Prereq: Chemistry, physics, calculus or permission of instructor. Cross-listed with GEOL 4402. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6 Hours

Option Total: 12 Hours

*C E 5401, Introduction to Environmental Engineering, required as a prerequisite for the hazardous waste option.*
WATER QUALITY OPTION*

Option Advisor: John Wyckoff  
Telephone: 303-556-2590  
E-mail: John.Wyckoff@ucdenver.edu

Required Courses

BIOL 5416 - Aquatic Ecology

Summer 2010 Registration BIOL 5416  
This advanced ecology course examines the inter-relations of biological (including humans), physical and chemical components of wetlands, streams, rivers, lakes, reservoirs and groundwater. Learning is facilitated through lectures, discussions, student presentations, laboratory and field exercises. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4416.**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENVS 5410 - Aquatic Chemistry

Summer 2010 Registration ENVS 5410  
Course objectives are to: (1) identify and understand chemical and physical principles and processes that control the composition of natural water, (2) prepare students to critically evaluate scientific literature and experimental design related to water quality and environmental remediation, and (3) examine the validity of environmental water data. Prereq: Graduate status and general chemistry and/or CHEM 4700.**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6 Hours

Electives

Choose two:

CVEN 5333 - Applied Hydrology

Summer 2010 Registration C E 5333  
Engineering application of principles of hydrology. Subject matter includes precipitation measurement and data analysis, stream flow measurement and water budget analysis, evaporation and evapotranspiration, infiltration and rainfall-runoff relationships, hydrograph properties and unit hydrograph analysis, flood frequency, analysis and flood
CVEN 5393 - Water Resources Development and Management

Summer 2010 Registration C E 5393
A multidisciplinary exploration of the principles governing water resources planning and development. Emphasis is on the sciences of water (physical, engineering, chemical, biological and social) and their interrelationships. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENVS 5403 - Unsaturated Zone Hydrology

Summer 2010 Registration ENVS 5403
Focuses on water and contaminant transport through the unsaturated zone, infiltration and drainage, and heat and gas transport. Students learn to design, perform field installation, and collect data in order to model and predict contaminant movement on/off site. Prereq: Chemistry, physics, calculus or permission of instructor. Cross-listed with GEOL 4402. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 6 Hours

Option Total: 12 Hours

*CHEM 5700, Environmental Chemistry, is required as a prerequisite of the water quality option.

Notes:

1. Many of the courses have prerequisites; student must check the catalog for prerequisite requirements for these courses. Some options have a prerequisite course requirement.
2. One course may not be used for more than one option, even if it is listed in several options. Other courses may be offered that will be acceptable as electives with approval of the option advisor and the director of the program.
3. No more than three courses may be from any one discipline (excluding ENVS); i.e., chemistry, biology, civil engineering.
4. Courses used by the student to fulfill a core requirement may not be used to fulfill the options.
5. All work submitted for the environmental sciences options must have a grade of B (3.0) or better.
6. All courses for the environmental sciences options must be completed at the Downtown Campus.
7. Courses applied to either a certificate* or an MS degree may later be applied toward the other if all pertinent course work is completed within a five-year time period.

* The above options of the program may be taken to earn a corresponding environmental sciences certificate. However, certificates may be earned without entrance into the MS in environmental sciences program. (See the Environmental Sciences Graduate Certificate description).

Executive MBA in Health Administration

Distinctive Features of the Executive Program in Health Administration

1. Drawing on the expertise represented by the faculties of a consortium of western universities, the program offers high-quality courses taught by instructors that are typically not available from a single university.

2. The executive program facilitates learning for professionals who have continuing career and family responsibilities. The program is especially tailored for working individuals, allowing students to remain on their jobs while completing their educational program.

3. The program employs innovation in the technology of educational delivery. Learning methods include:
   - computer-assisted instruction and self-paced learning packages
   - computer conferencing and electronic case analyses
   - on-campus sessions

The master of science in finance provides the necessary depth and specialized expertise to meet the need of businesses for financial managers, investment analysts and other finance specialists.

The program emphasizes a familiarity with the institutions in our financial system, an understanding of financial markets and instruments, and the analytical skills and tools necessary to make informed decisions about investment and financing.

The program is suited to students from a wide variety of undergraduate backgrounds and is particularly appropriate to students with strong technical and analytical backgrounds.

The MS in finance offers flexibility with on-campus and online courses. The MS finance degree requirements are met by the following courses and options:

**Required Courses**

**BUSN 6620 - Applied Economics for Managers**
Summer 2010 Registration  BUSN 6620

After taking this course, students should be able to apply economic principles to make optimal decisions given firm cost, demand and market circumstances. Also, they should be able to analyze the firms interactions with its competitive market environment. Students will learn basic aspects of federal macroeconomic policy designed to achieve stable prices and economic growth. Also, they will learn to understand the measurement of output (GDP), employment and prices; the conduct of monetary and fiscal policy; and the balance of trade. Prereq: BUSN 6530 or FNCE 6290 and BUSN 6550, both may be taken concurrently. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6640 - Financial Management**

Summer 2010 Registration  BUSN 6640

This course is concerned with the business firm's decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students will learn to evaluate a firm's financial position through the examination of its financial statements and to prepare pro forma statements for the firm. Prereq: BUSN 6530 or FNCE 6290, BUSN 6620 (both may be taken concurrently) and BUSN 6550 completed prior and strictly enforced. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FNCE 6290 - Quantitative Methods for Finance**

Summer 2010 Registration  FNCE 6290

This course provides a statistical foundation for subsequent courses in the Master of Science in Finance program. Major topics include descriptive statistics, probability theory, statistical estimation and inference and regression analysis. The emphasis is on finance applications, such as risk measurement, for portfolio diversification and the "market model". In addition, students develop competence in the use of statistical software packages. This course provides preparation for the statistical portions of the Certified Financial Analyst professional examinations. Note: Students cannot receive credit for both FNCE 6290 and BUSN 6530. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**FNCE 6300 - Macroeconomics and Financial Markets**

Summer 2010 Registration  FNCE 6300

Covers the U.S. financial system in the global economy. Specific topics include financial institutions, money creation and monetary policy; the Federal Reserve System and its operation; the international financial system; interest rate determination, yield curves, and their relation to fiscal policy; the role of households and business in financial markets; stock markets; and money markets and instruments. (Required for the M.S. in
FNCE 6330 - Investment Management Analysis

Summer 2010 Registration FNCE 6330
In this course students will learn investment theories and how to apply them to portfolio management. Topics covered include asset allocation, security markets, the analysis and use of investment information, risk analysis and security valuation. This course is required for the M.S. in Finance degree. Prereq: BUSN 6620 and BUSN 6640. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FNCE 6380 - Futures and Options

Summer 2010 Registration FNCE 6380
Covers both speculation and hedging using futures and options. The student learns about futures pricing, how futures are related to the underlying commodities and how to hedge risks. Stock index futures and interest rates futures get particular attention. The course covers the theory and application of option pricing, focusing on the binomial and Black-Scholes models. Option trading strategies such as bull and bear spreads, straddles, strangles, and other popular strategies are discussed. Prereq: BUSN 6640 and FNCE 6330. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FNCE 6382 - Survey of Financial Derivatives: Futures, Options and Swaps

Summer 2010 Registration FNCE 6382
This course provides an overview of financial derivatives and their markets. It covers futures, options, interest rate and currency swaps, convertible bonds, asset-backed securities and mortgage derivatives. Diagrams and simple mathematics are used to show how these instruments work and how they are used in corporate financing. This course is a less technical presentation of the topics covered in both FNCE 6350, Financial Innovations and FNCE 6380, Futures and Options. The course is suitable for both MBA and MS-Finance students. However, MS-Finance students who are interested in the deeper knowledge necessary for trading derivatives are advised to take either or both FNCE 6350 and FNCE 6380. Prereq: BUSN 6640. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

FNCE Electives (3) (9 semester hours)
Free Elective (1) (3 semester hours)

Total: 30 Hours
Prerequisites: BUSN 6550, Analyzing and Interpreting Accounting Information, or the equivalent accounting background. Students are also expected to be knowledgeable in spreadsheet software.

Notes and Restrictions

Finance Electives. Choose three courses in finance from the list of regularly scheduled graduate classes in consultation with an advisor.

Free Elective. Students complete 3 semester hours of graduate business course work (excluding BUSN courses numbered below 6800). Modern finance is heavily mathematical and draws extensively on economics and accounting. Courses in these areas are especially useful. Petitions may be submitted to the program director for special courses that fit a student’s individual needs.

Global Energy Management MS

Program Advisor: Sarah Dushame
Telephone: 303-605-6212
E-mail: Sarah.Dushame@ucdenver.edu

Faculty

Professors/Instructors

Timothy Antoniuk, MDes, University of Alberta
William Ascher, PhD, Yale University
Stephen Brown, PhD, University of Maryland
Matthew Clarke, PhD, University of Calgary
William Fox, JD, Catholic University of America
Mean Husein, PhD, McGill University
Merrily Kaut, PhD, University of Colorado Denver
L. Ann Martin, PhD, University of Minnesota

The master of science in global energy management (GEM) prepares individuals for leadership careers in the energy industry. This degree is particularly appropriate for individuals seeking to advance their existing careers in the energy field. Prior work experience within the field is preferred, but not required. The program consists of two components: the core curriculum and the more advanced and specialized elective courses. The MS GEM program requires the completion of the following core classes as well as four elective courses from the selection listed below.
Required Courses

**GEMM 6000 - 21st Century Global Energy Issues and Realities**

*Summer 2010 Registration GEMM 6000*
Introduction to the global energy industry's past, present and future. Current and historical issues in regions such as: Atlantic Basin, former Soviet Union, East of Suez, North and South America will be covered. World production centers and markets are discussed to include relevant energy security, scenario planning, risk management and regulation, deregulation, and environmental concerns. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6100 - Global Energy Economics and Geography**

*Summer 2010 Registration GEMM 6100*
Introduction to managerial tools of trade including energy geo-economic. Topics discussed are: world energy markets, demand, supply, refining, marketing, forecasting, national v. international oil companies, transportation. An introduction to environmental economics will help connect energy industry to sustainable work practices, which include geographic distribution and political and governmental systems associated with the resources. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6200 - Environmental, Regulatory, Legal & Political Environment in the Energy Industry**

*Summer 2010 Registration GEMM 6200*
Exploration of current political situations regarding the energy industry, its environmental impact in the short and long term. Topics include climate change, pollution, solid wastes and conversions to natural resources. Students will become familiar with national and international energy laws and regulations, financial arrangements, confidentiality, and bidding agreements. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6300 - Renewable and Alternative Energy: Opportunities & Challenges**

*Summer 2010 Registration GEMM 6300*
This course will familiarize students with the newest renewable and alternative energy sources. The course does not focus on hydrocarbon sources but examines challenges and opportunities that exist for the establishment of the new energy sources to become
viable in the industry. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6400 - Leadership and Decision Making in the Global Energy Environment**

*Summer 2010 Registration GEMM 6400*
Students will examine leadership from an energy executive perspective. Topics include: how execs lead, change, innovation, interacting with top management teams, the board, leadership issues involved with governance of the firm, strategies for enhancing executive influence and ethics and responsibilities associated with exec. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6500 - Energy Accounting in Global Markets**

*Summer 2010 Registration GEMM 6500*
The course builds a basic understanding of how to convey to decision makers, in and out of the firm, information about its resources. Emphasis on; analysis of income statements, balance sheet, statement and cash flows (historical financial accounting information) with specific coverage of cost-volume-profit, variance, forecasting, joint interest accounting and measurement of divisional performance. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6600 - Financial Management and Hedging in the Global Energy Markets**

*Summer 2010 Registration GEMM 6600*
Introduction to fundamental principal of asset valuation and financing in competitive global markets. Providing the tools necessary to analyze day-to-day financial issues in the energy industry (time value of money, valuation of income streams, risk weighted investment returns.) Topics such as: risk management, arbitrage, hedging and foreign exchange will be covered. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6410 - People Management in the Global Energy Environment**

*Summer 2010 Registration GEMM 6410*
Explains that people are energy's most important asset. Students will learn the latest research in human resource theories, study models, and learn how to develop organizational effectiveness from the firm's human capital. Concepts on: effective teamwork, attracting and retaining talent and using HR processes such as performance management and development to drive engagement will be discussed. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Choose four

Choose four of the following courses. These courses are taken during the last two terms of the program and are offered based on enrollment.

**GEMM 6210 - Land Management and Energy Contracts**

*Summer 2010 Registration GEMM 6210*

The elective will focus on the process of managing the use and development of land resources in a sustainable way. Topics such as; public controls, powers used for land regulation, and an intro to real estate will be covered to enhance students understanding of land management and its application to the energy industry. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6430 - Organizational Behavior in the Energy Industry**

*Summer 2010 Registration GEMM 6430*

Students will learn how to lead and manage human assets inside energy industries. Students will be exposed to fundamental principles of human behavior and increase their competence of working in diverse settings. Proper management can lead to a sustainable competitive advantage, because of management of employees and developing them into enthusiasts of your firm. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6450 - Strategic Management of the Energy Industry**

*Summer 2010 Registration GEMM 6450*

The course focuses on how to improve an organization's competitiveness in a changing global environment. Emphasis on sustainable strategies, students develop skills to formulate, implement and evaluate organizational strategies in the rapidly changing environment. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6460 - Integrated Information Management for Energy Firms**

*Summer 2010 Registration GEMM 6460*

This course covers issues associated with developing an integrated information managing strategy to identify major information categories used with an energy firm. It covers relationships to business processes to guide applications development and
facilitate the integration and sharing of data. Using case studies from energy firms operational, administrative and strategic systems will be discussed. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6470 - Energy Marketing**

*Summer 2010 Registration GEMM 6470*
This course covers the challenges faced by energy industries in developing branding, and developing new markets. Marketing both products and the company to its stakeholders, in the face of competitive pressures, students learn practical marketing tools and how they can be used to effect corporate strategy. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6610 - Advanced Financial Management in the Energy Industry**

*Summer 2010 Registration GEMM 6610*
This course is focused on understanding the costs and benefits of various forms of capital. By examining internal and external managers, students will be able to assess alternative capital sources to achieve their strategic objectives. The course will introduce effective investor communication techniques. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6620 - Energy Asset Management**

*Summer 2010 Registration GEMM 6620*
The course covers management of an organization's energy resources and facilities as well as broader coverage of project management. Portfolio strategy, planning, scope, time, cost, quality and organizational effectiveness will be addressed. Also when budget, material, vendor relations or other factors disrupt a project, students will be prepared on how to react. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**GEMM 6630 - Production and Supply Chain Management for the Energy Industry**

*Summer 2010 Registration GEMM 6630*
This course will focus on the business aspects running a renewable energy entity either as a separate company or sector within an established company. Students taking this course have completed a previous course on the basic science of renewable energy. This course is intended to focus on leadership issues and decision making regarding renewable energy. As a significant part of the course, students will learn how to review information and data supplied to them by engineers, accountants, finance, marketing, scientists, and other stakeholders within and outside their company including federal, state, and local governments and regulatory agencies to make sound business
decisions. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Prerequisites**

Applicants that do not have a science- or energy-related field undergraduate degree or three-plus years experience in the industry are required to take two prerequisite courses as well as the GMAT.

The prerequisite courses include physical geology and introduction to physical engineering. These courses can be taken at any accredited university, but must be approved by a GEM team staff member before registering. Also the prerequisites may be taken prior or concurrently with GEMM 6000 and GEMM 6100.

**Notes and Restrictions**

The program is a cohort group, hybrid online, 18-month master of science degree program. As a cohort program, all students start together, progress together and graduate together. Students cannot take time out from the program once it starts and need to plan on remaining in the program for the full 18 months. If it becomes necessary to take a term off, students may not re-enroll until the next cohort group catches up to the point where the student originally dropped out, which is 6 months later. As a hybrid online program, professors and students meet in class face to face for four days (Fridays through Mondays) at the start of each 3-month term with the rest of the term completed online. Please note that the GEM degree program runs on a completely separate schedule from the normal semester terms of the Business School. Please check the Business School Web site for deadlines and dates of each GEM term. All GEM courses are restricted to those students who have been admitted to the MS GEM program.

**Dual Degrees**

In order to participate in the dual degree options offered by the Business School, students in the GEM program must first complete their entire GEM degree before they can begin their second degree.

**Health Administration MS**
Program Director: Errol L. Biggs

Stephen Ross, MD, University of North Carolina

Instructor:

Errol Biggs, PhD, Pennsylvania State University

The goal of the master of science in health administration degree is to prepare men and women who, after appropriate practical experience in responsible managerial positions, are capable of assuming positions as chief executive officers or senior administrators in complex, multiservice health care organizations or in organizations’ purchasing and health services.

The curriculum is a synthesis of management concepts and techniques that are applicable to any economic organization and tools that can be specifically applied to health and health services systems. The program emphasizes skills that heighten basic analytical and decision-making processes used by top-level managers in selecting broad strategies for the institutions and by junior managers in administering subunits of health care organizations. The faculty guide the students in their mastery of theoretical, conceptual and quantitative topics.
The program has enjoyed continuous accreditation by the Commission on Accreditation of Healthcare Management Education since 1970.

A. Common Body of Knowledge (CBK)

BUSN 6521 - Managing Individuals and Teams (Health Section)

*Summer 2010 Registration BUSN 6521*

Students learn the strengths and weaknesses of their management style and how to work effectively with individual differences. Students also learn how to form teams around purpose/task, diagnose problems and identify and implement solutions by utilizing leadership skills such as setting goals, processes and measures, interpersonal communication, motivation and conflict management. Students develop an understanding of the effect of the organizational and social context on the behavior of individuals and teams. The emphasis is on health care issues and is intended for health care students. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6530 - Data Analysis for Managers

*Summer 2010 Registration BUSN 6530*

Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530 and FNCE 6290. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6550 - Analyzing and Interpreting Accounting Information

*Summer 2010 Registration BUSN 6550*

Emphasizes the use of accounting statements and data in making business decisions. External financial accounting information and concepts are used for investment and credit decisions. Internal managerial accounting information and concepts are used for product costing, cost analysis and management control. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6560 - Marketing Management

*Summer 2010 Registration BUSN 6560*

Focuses on the formulation and implementation of a marketing plan in the context of the firm's strengths, overall strategy and competitive environment. Emphasis is on
understanding the marketing environment and on decision making skills regarding market selection, pricing, promotion, product configuration and management of distribution channels. **Semester Hours:** 3 to 3  
**When Offered:** FASPRSUM  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6630 - Management of Operations**

*Summer 2010 Registration BUSN 6630*  
This course is concerned with the production and delivery of goods and services. It provides an overview of a variety of key Operation Management issues including scheduling, capacity determination, facility location and layout, distribution and related topics. The use of model-assisted decision making is emphasized. **Semester Hours:** 3 to 3  
**When Offered:** FASPRSUM  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6640 - Financial Management**

*Summer 2010 Registration BUSN 6640*  
This course is concerned with the business firm’s decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students will learn to evaluate a firm’s financial position through the examination of its financial statements and to prepare pro forma statements for the firm. Prereq: BUSN 6530 or FNCE 6290, BUSN 6620 (both may be taken concurrently) and BUSN 6550 completed prior and strictly enforced. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 18 Hours**

Waivers of CBK courses are possible. The entire CBK may be waived if the student has completed an undergraduate business degree from an AACSB-accredited college or university within the last 10 years. Specific courses may be waived based on a case-by-case evaluation of undergraduate or graduate course work in business completed at a regionally accredited college or university within the last 10 years.

**B. Graduate Core in Health Administration**

**HLTH 6010 - Health Care Systems**

*Summer 2010 Registration HLTH 6010*  
Introduces the structure and function of the medical care delivery system. Includes basic concepts and measures of health, disease, quality, values, needs and utilization; issues in health care manpower, institutions and system organization; general issues in policy,
reimbursement and regulation; broad community, and organizational considerations in medical care organizations. The student is introduced to the principles of epidemiology and environmental health and demonstrates the application of epidemiology concepts to planning for the healthcare service needs of a population. **Semester Hours:** 3 to 3  
**When Offered:** FALL  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HLTH 6040 - Health Care Financial Management**

**Summer 2010 Registration HLTH 6040**  
Theory of insurance applied to healthcare, including benefits design and co-payments. Existing and proposed competition in insurance markets, including rating methodologies and selection issues. Managed care and medical spending accounts as responses to problems with traditional insurance. Managerial accounting methods useful for analyzing contracts and managing profitability are presented. Prereq: BUSN 6550 and 6621 or permission of instructor. **Semester Hours:** 3 to 3  
**When Offered:** FALL  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HLTH 6911 - Health Field Studies**

**Summer 2010 Registration HLTH 6911**  
The objective of this course is to expose students to health care organizations with which they are not familiar. Each student is assigned to a health care organization and given a specific problem or project to complete. Prereq: HLTH 6010 or permission of instructor. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6541 - Legal and Ethical Environment of Business (Health Section)**

**Summer 2010 Registration BUSN 6541**  
Students develop a working knowledge of legal and ethical parameters for business decision making. Addresses the legal system and mechanisms for resolving disputes. Topics include business entities, torts, contracts, employment relationships, litigation and alternative dispute resolution. It stresses the influence of legal issues on organization and decision making. The emphasis is on health care issues and is intended for health care students. **Semester Hours:** 3 to 3  
**When Offered:** SPRING  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6621 - Applied Economics for Managers (Health Section)**

**Summer 2010 Registration BUSN 6621**  
After taking this course, students should be able to apply economic principles to make optimal decisions given firm cost, demand and market circumstances. Also, they should be able to analyze the firm's interactions with its competitive market environment.
Students should understand basic aspects of federal macroeconomics policy designed to achieve stable prices and economic growth. Also, they should understand basic aspects of government regulation of business. The emphasis is on healthcare issues and is intended for healthcare students. Prereq: BUSN 6530 and BUSN 6550, both may be taken may concurrently.

**Semester Hours:** 3 to 3  
**When Offered:** SPRING  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**DSCI 6440 - Quality and Process Improvement**

*Summer 2010 Registration DSCI 6440*  
Studies the identification, measurement and improvement of quality and the practical management issues related to implementing quality systems within organizations. Topics include historic and contemporary views of quality, statistical quality control tools including Six SigmaSM, work design and measurement and process flow and design. Note: Cannot receive credit for both DSCI 6440 and BUSN 6832. Prereq: BUSN 6530 or permission of instructor. Cross-listed with BUSN 6832.

**Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6711 - Strategic Management (Health Section)**

*Summer 2010 Registration BUSN 6711*  
Concerned with the development of a general management perspective in establishing the strategic direction for a health delivery organization. Students gain an understanding of strategy formulation and implementation within the context of the managed care environment. Emphasis is on the integration of knowledge acquired in the previous functional area courses. Note: This course is intended as a final semester course. Required of Health Administration majors; open to others. Prereq: BUSN 6560 and 6640 - strictly enforced; BUSN 6630 strongly recommended and may be taken concurrently.

**Semester Hours:** 3 to 3  
**When Offered:** SPRING  
Registration is changing. Visit our website for details ucdenver.edu/registration.

- HLTH Electives (3) (9 semester hours)  
- Free Elective (1) (3 semester hours)

**Total: 33 Hours**

**Notes and Restrictions**

*Free Elective.* The free elective course can be chosen from the areas of accounting, finance, health administration, information systems, international business, management and marketing. A course with the BUSN prefix can be used as a free elective if the course number is 6800 or higher.

*Management Residency.* A management residency is optional, but recommended for all students, especially those with limited health care experience. The faculty of the
program provide assistance to students in securing the residency, as well as regular consultation during the residency period. Information on the full range of local, regional and national residencies is available in the program office.

Length of Program. The didactic portion of the degree will take at least two academic years, since most HA courses are offered only once each year and many have prerequisites. Part-time study is facilitated by courses being scheduled for late afternoon and evening hours.

Specialized Tracks in MS Health Administration

Each track carries its own specific course requirements. To provide a variety of perspectives and experiences within a specific area of health administration, each track includes courses that span various departments within the Business School, other schools on the Downtown Campus and other University of Colorado campuses.

- International health management and policy track
- Financial management track
- Health information technology management track

Institute for International Business

The international health track is affiliated with the Institute for International Business at UC Denver. The Institute for International Business is one of a few university programs to have received the prestigious CIBER grant from U.S. Department of Education. The grant is being used by the institute to provide effective internationally oriented education, research and outreach activities. Also, the institute is a participant in an international consortium of universities for faculty and student program and course exchanges. Students in the international health management and policy track will have access to the institute’s exchange networks.

International Health Travel/Study Course

Program Director: Blair Gifford
Telephone: 303-315-8400
E-mail: Global-Health@ucdenver.edu

A unique feature of our international health management and policy track is its emphasis on making sure students gain international experience during their education. The travel study course requirement can be met by taking a University of Colorado health travel/study course, or a student can take a course at a partnering university. An example of a health travel/study was a three-week trip to Thailand and Vietnam to visit numerous cultural- and health-related facilities.
History MA

► Graduate School Rules apply to this program

The master of arts in history requires 36 semester hours (12 courses). Students applying for admission to the program should have some background in history, though not necessarily a BA in the subject. The department encourages applications from individuals of any age interested in resuming their education. Graduate students in history develop skills in critical thinking, writing and independent research. Our program prepares students for a wide variety of professions, including teaching, government service, museum and archive management and historic preservation, as well as further degree work in history, law, librarianship and business. The department expects that students graduating with an MA in history will master the following general skills for their degrees:

- The ability to pursue independent historical research projects
- The ability to analyze historiographical arguments
- The ability to analyze primary documents and develop arguments from them
- The ability to create bibliographies using archival, library and Internet resources
- The ability to write in a variety of formats, including historiographical essays, book reviews and research papers

Students will also master knowledge of the basic historical content of both their major and minor fields, and an understanding of the historiographies and historical methods in their major and minor fields.

Admission Requirements

- In addition to the general admission requirements of the Graduate School, the Department of History requires an undergraduate GPA of at least 3.25.
- All applicants to the history program must take the GRE. GRE scores form a part of the department’s consideration of students’ qualifications.
- Applicants are required to submit a sample of written work, usually a term paper or project of similar length.
- Applicants should address any gaps, weaknesses or special circumstances in their academic records in the statement of purpose portion of the application. In special circumstances, the department may modify its admission standards.

APPLICATION DEADLINES

<td>Spring admission</td>
</tr>
</tbody>
</table>

Admission decisions are made by a graduate committee comprising the graduate advisor and faculty representing fields in U.S., European, global and public history.
Graduate School Policies

All history MA students are subject to Graduate School policies related to graduate study, as well as to all relevant university policies. These policies cover such topics as time limits on degree completion, changing degree programs, incomplete grades, and more. Further information on these policies can be found in the Graduate School section of this online catalog.

Transfer Credits

With approval from the graduate advisor and the appropriate faculty, students may transfer nine graduate-level credits accrued before enrollment in the UC Denver MA history degree program, provided that they earned a grade of $B+$ or better in these courses. Students must submit a syllabus for each course they wish to transfer, and faculty may require students to complete additional assignments to meet the expectations of the department. The department will not accept transfer of courses comparable to HIST 6013. Introduction to the Professional Study of History.

Grade Requirements

A minimum grade of $B-$ (2.7) is required in all UC Denver history courses applied toward the degree. Students who earn less than a $B-$ in HIST 6013 must retake the class.

Residency Requirements

The history department requires a residency of at least one academic year for the degree.

Graduate Advising

Upon admission, students will sign a check list indicating their understanding and acceptance of the department’s expectations. Early in their first semester students should contact the history department graduate advisor to discuss their path through the program and to receive advice regarding the selection of major and minor fields.

Degree Tracking Responsibility

Although faculty will provide reasonable guidance, it is up to students to monitor their own progress through the program in consultation with the graduate advisor and their major advisor; this includes knowledge and understanding of application and graduate deadlines, degree requirements, thesis guidelines, etc.
Choosing Advisors and Fields of Study

All history MA candidates choose a major and minor field. Students will take courses in these fields (see Degree Requirements below) and will be tested in these fields (see Comprehensive Examinations). As soon as possible after consulting with the graduate advisor, students are responsible for contacting two field advisors, one to oversee their progress in the major field, the other to oversee their minor field. All students should have chosen a major field and major advisor by the beginning of their second semester.

Major Fields, Minor Fields and Concentrations

The MA in history seeks to provide students with a balance of breadth and depth in the study of history. Major fields are broad areas of study within which students gain a general picture of historical processes. Concentrations provide focus for developing expertise within the major, either regionally or thematically. Minor fields provide a complementary or comparative area and must be from outside the major field.

Advisors and students together will work out Plans of Study, which indicate the courses students intend to take to meet their requirements, based on their selection of major and minor fields. *Students should make every effort to enroll in courses which best fit their major field, major concentration and minor field.*

Students can choose to major in one of the following four fields:

- European History
- Global History
- Public History
- U.S. History

The department has compiled a core readings list for each of these major fields. Students will draw on the core lists for their comprehensive exams. Core lists contain a number of themes with bibliographies for each theme. In consultation with their major advisor, students choose at least two books from each theme; for some themes, students will read more than two books.

Major Field Concentrations

Students work with advisors to select one of the major field concentrations listed above. Concentrations provide thematic or regional focus to a broad geographical major (e.g. for the global history major, students could concentrate on trade, borders, imperialism, etc. or any of the areas of regional expertise of our faculty). Readings for the major field concentration are in addition to the core reading list.

Minor Fields
Students choose minor fields from the list of major fields or the list of major field concentrations. They choose their minor field list in consultation with the minor field advisor.

**Degree Requirements**

All history MA students must have a major field and a minor field, and they must complete half of their course work at the 6000 level.

**Required Introductory Course**

**HIST 6013 - Introduction to the Professional Study of History**

*Summer 2010 Registration* **HIST 6013**

**Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 3 Hours

**Major Field**

**Core course in Major Field (3 semester hours)**

Each major field has a core course covering major approaches and themes. The core course familiarizes students with the field in a broad sense.

**Research Seminars (3-6 semester hours)**

Research seminars focus on students' development of an original, primary research paper. One 3-semester-hour research seminar is required of all students. A second research seminar is required for students not pursuing an extended research option; the second 3 semester hours can be taken within the major or minor field.

**Major electives (9-12 semester hours)**

Electives are made up of courses in the major and concentration, including readings courses, which address specific field historiographies, and optional extended research credits. Students who choose to do a thesis may apply 6 thesis semester hours (HIST 6950) toward the major electives requirement.

**Total:** 18 Hours

**Minor Field**
Minor Electives

Electives are made up of courses in the minor field, including readings courses, which address specific field historiographies, or research seminars.

Total: 12 Semester Hours

Open Elective

Students may use the open elective to explore a course outside their major or minor or to do extra course work in one of their fields.

Total: 3 Hours

Degree Total: 36 Hours

PUBLIC HISTORY MA MAJOR PROGRAM

INDEPENDENT STUDY AND/OR INTERNSHIP

Candidates may register for up to 6 hours of internships or independent study, only one of which may be at the 6000-level. Students will not be allowed to fulfill the research requirement with an independent study. Any independent study at the 6000-level needs the permission of the graduate advisor. Students interested in pursuing an independent study must find a faculty member willing to oversee their work, and they should expect the workload for an independent study to equal or exceed that required for other courses at the same level.

HIST 5840 - Independent Study: History

Summer 2010 Registration HIST 5840
Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 6840 - Independent Study: HIST

Summer 2010 Registration HIST 6840
Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 6939 - Cooperative Education
COMPREHENSIVE EXAMINATIONS

All history MA candidates must pass a comprehensive examination in the major and minor fields after the completion of course work and before embarking on a thesis, curriculum project or public history project. The comprehensive exam evaluates students’ knowledge of their course work and their reading lists for their major, minor and concentration. The exam consists of a take-home written section, with broad essay questions in both the major and minor fields; this is followed by an oral exam with the student’s faculty committee. In answering their exam questions, students are expected to construct arguments and to show mastery of the historiographies, narratives and historical content in their fields. The comprehensive exam is administered and evaluated by a committee of the major advisor, the minor advisor and an outside reader from the history faculty.

Master’s Degree Extended Research Options

The MA program in history offers a set of courses in which students can develop extended research interests. Students must select an advisor and develop a proposal for a specific research agenda in the semester before beginning work on a project.

REQUIRED PUBLIC HISTORY THESIS (HIST 6950) OR PROJECT (HIST 6952)
Students majoring in public history must complete either a thesis (6 semester hours) or a project (3 semester hours).

OPTIONAL THESIS FOR STUDENTS IN U.S., GLOBAL AND EUROPEAN HISTORY (HIST 6950)
Students majoring in U.S., global or European history can choose to write a thesis (6 semester hours in their major field).

OPTIONAL ADVANCED HISTORY CURRICULUM DEVELOPMENT (HIST 6951)
Students who undertake their master’s program when they are already teachers can choose to construct curriculum projects relevant to their teaching practice. See the separate section below on “Opportunities for Teachers and Teachers-in-Training.”

HIST 6950 - Master’s Thesis

Summer 2010 Registration HIST 6950
Semester Hours: 1 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 6951 - Masters Project: Advanced History Curriculum Development
**Summer 2010 Registration HIST 6951**

Students develop curricula for secondary-level history courses; must demonstrate thorough knowledge of subjects; understanding of historiographic and methodological problems; command of primary sources and their uses in teaching; and describe teaching strategies, methods, and assessments to be used in the curricula. Prereq: Permission of instructor. **Semester Hours:** 1 to 6

Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 6952 - Master’s Project: Public History**

**Summer 2010 Registration HIST 6952**

Public history majors may use three credits to complete a public history project. Projects can entail creating an exhibit, organizing a museum or archival collection, conducting a preservation survey, or similar activities. Students are required to prepare a paper describing the process and results of their project. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Thesis Requirements**

Students writing theses are expected to develop an original research agenda resulting in an extended paper. Students work with their major field advisor, who will help guide them through the process of research and writing. Students are expected to take no less than two semesters (enrolled in HIST 6950) to complete their theses. Before registering for HIST 6950, students must have a thesis proposal and initial bibliography approved by their advisor. The first semester of the thesis course is organized as a seminar in which students meet regularly with a department member and other thesis writers.

A thesis is evaluated by a committee of three, including the major advisor and two other faculty members chosen by the student in consultation with the major advisor. Upon completion of the thesis, the student meets with the committee members, who ask questions about the research and conclusions which the student must defend. In many instances, the committee will require further revisions, sometimes major in scope, before the thesis is accepted and cleared for submission to the Graduate School in fulfillment of degree requirements.

**Project Requirements**

In lieu of a thesis, public history majors may choose to enroll in one semester of HIST 6952 to complete a public history project. Projects, which are usually conducted in collaboration with a public history organization, can entail creating an exhibit, organizing a museum or archival collection, conducting a preservation survey or similar activities. Students are required to prepare a paper describing the process and results of their project.
Opportunities for Teachers and Teachers-in-Training

Curriculum Projects

Licensed teachers enrolled in the history graduate program may choose to complete a curriculum development project. Students arrange curriculum development projects with a sponsoring faculty member. Generally, students are expected to develop and submit a complete course curriculum plan for each 3-semester-hour project. Projects need to show evidence of familiarity with the relevant historiographies and primary sources. Students may apply the hours from HIST 6951 to either the major field or the minor field, depending on the project subjects. Curriculum plans must meet minimum criteria established by the history department in the document Advanced History Curriculum Development Projects.

HIST 6951 - Masters Project: Advanced History Curriculum Development

Summer 2010 Registration HIST 6951

Students develop curricula for secondary-level history courses; must demonstrate thorough knowledge of subjects; understanding of historiographic and methodological problems; command of primary sources and their uses in teaching; and describe teaching strategies, methods, and assessments to be used in the curricula. Prereq: Permission of instructor. **Semester Hours:** 1 to 6

Registration is changing. Visit our website for details ucdenver.edu/registration.

(3 or 6 semester hours in their major field, or 3 semester hours in their major and 3 semester hours in their minor)

Secondary Teacher Licensure

Students interested in becoming secondary history and social studies teachers may choose to earn both the MA in history and secondary teacher licensure.

We strongly encourage students to complete the School of Education & Human Development’s teacher licensure program before enrolling in the history MA program; the history graduate program and the teacher licensure program require separate admission. Students complete 36 semester hours in history and 37 semester hours in the teacher licensure program. For the history degree, students take 18 semester hours in their major field, 12 semester hours in their minor field and 6 semester hours in curriculum and methods course work, which apply both to the teacher licensure program and the MA in history:

HIST 5464 - Problems and Methods in Teaching History and Social Studies I
Summer 2010 Registration HIST 5464
Introduces students to problems and methods in secondary education history and social studies teaching. This course focuses primarily on the teaching of history. Note: Open to students in the Initial Professional Teacher Education program or a relevant graduate program, and to practicing teachers. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-and-

HIST 5465 - Problems and Methods in Teaching History and Social Studies II

Summer 2010 Registration HIST 5465
Introduces students to problems and methods in secondary education history and social studies teaching. This course focuses broadly on the teaching of all the social studies fields, including history, economics, government, and geography. Note: Open to students in the Initial Professional Teacher Education program or a relevant graduate program, and to practicing teachers. Prereq: HIST 5464. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Humanities MH

► Graduate School Rules apply to this program

Requirements for Admission

In addition to the general requirements of the Graduate School governing acceptance to a master’s degree program, applicants must submit the following:

- a bachelor's degree
- two official copies of all transcripts, with an overall GPA of at least 3.0 out of 4.0
- a writing sample
- three letters of recommendation (at least two from academic sources)
- appropriate undergraduate training or professional background, or indicators that supply evidence of ability to pursue the MH degree
- a typed statement specifying the goal of advanced study in the humanities expressed in clear, correct and effective English
- standardized test scores are not required, but will be considered if submitted

After meeting all other requirements for admission, applicants may be required to have an interview to discuss their interest in the program and their plans for study. For out-of-state applicants, an appropriate substitute for the interview may be determined by the director.

Provisional admission:
Applicants may be admitted as provisional-status graduate students if their complete record indicates a high probability of success.

Nondegree students:

Potential applicants may take graduate-level courses as nondegree students (unclassified student with a bachelor’s degree) if they:

1. Wish to strengthen their record in order to demonstrate that they can successfully complete courses in the program

2. Wish to start courses in the program prior to completing their application.

Up to 12 semester hours taken as a nondegree student may be accepted by the program once a student has been admitted to the program (the 12-hour limit also includes graduate work from another university).

International Students:

International students must also meet UC Denver requirements for international admission. See the Information for International Students section of this catalog or call 303-315-2230 for further information.

Degree Requirements

The master of humanities offers two general plans of study: Track I (individualized program) and Track II (cultural studies in interdisciplinary cluster areas).

Thirty-six semester hours are required for Track I and 39 semester hours are required for Track II. All courses credited toward the MH degree must be taken at UC Denver over a period not exceeding five years (a maximum of 12 graduate semester hours may be transferred from other institutions). At least a B average (3.0) must be maintained. A grade of B- or below will not be counted toward the degree. Each student’s program is supervised by a faculty advisor. All independent study contracts must be approved in advance by one of the program directors. A total of two independent study courses and two 4000-level undergraduate courses may count toward the degree. The rest must be 5000/6000-level courses offered through various departments. All students must pass an oral comprehensive exam in order to graduate.

TRACK I (Individualized Program) Requirements—Thesis or Project Option

Students in Track I have the opportunity to fashion a course of study based on their individual interests and goals. In consultation with a faculty advisor, students choose two
or three academic disciplines as areas of concentration. Students who select a thesis (6 semester hours) will submit a thesis proposal after completing 30 hours of course work. In the case of a project (3 semester hours), students will submit a project proposal after 33 hours.

**TRACK I REQUIREMENTS:**

**Three interdisciplinary seminars**

**HUMN 5025 - Methods and Texts of the Humanities**

*Summer 2010 Registration HUM 5025*

Exposes the beginning graduate student to exemplary works and methodologies of select humanistically oriented disciplines, such as philosophy, fine arts, literature, history, communication, music, and theatre. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

(Must be taken during the first year of entrance into the program. Offered fall only.)

**Mid-Program Seminar**, an interdisciplinary seminar with a HUM prefix, which is approved for the student’s program by one of the program directors (note that a Mid-Program Seminar must have a HUM prefix).

**HUMN 5924 - Directed Research and Reading in Interdisciplinary Humanities**

*Summer 2010 Registration HUM 5924*

Provides background reading, theory and research approaches for students to develop a thesis, project, or an individualized theme for the oral exam based on their interdisciplinary focus. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

(A final seminar that provides background reading, theory and research approaches for students to develop a thesis or project. Offered spring only; student must have completed 24 hours of course work and must register for the course via a schedule adjustment form with instructor approval.)

**Total: 9 Hours**

**Electives**

Additionally, students must complete a total of 21-24 semester hours comprising a coherent selection of courses from a variety of disciplines. All courses for the self-
structured portion of the program must be selected with the approval of one of the MSS program directors.

A total of two independent study courses and two 4000-level undergraduate courses taken when enrolled in the program may count toward the degree. All independent study contracts must be approved by one of the program directors. The remaining course work must be 5000/6000-level courses offered through various departments.

Students completing a project take 24 hours of electives, while thesis students complete 21 hours of electives.

Total: 21-24 Hours

Thesis or Project

A thesis (6 semester hours) or a final project (3 semester hours), which must include a substantial scholarly paper and may include a creative exercise involving at least two disciplines. In order to proceed with a thesis or project, all students must submit a proposal approved by three faculty members (and approved by one of the program directors in cases where one of the directors is not serving on the committee).

HUMN 5950 - Master's Thesis

Summer 2010 Registration HUM 5950
Semester Hours: 1 to 8
Registration is changing. Visit our website for details ucdenver.edu/registration.

HUMN 5960 - Master's Project

Summer 2010 Registration HUM 5960
Semester Hours: 1 to 8
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 3-6 Hours

Oral Exam

An oral exam before a committee of three faculty members in order to graduate.

Track I Total: 36 Hours

TRACK II (Cultural Studies)—Non-thesis or Project Option
This track is somewhat more structured than Track I, but does not require a thesis or a project. In consultation with a faculty advisor, students choose from courses organized into eight interdisciplinary clusters:

- classics
- identity and gender
- meaning and values
- philosophy and theory
- self, society and community
- social and political thought
- technology and culture
- understanding America/understanding the world

**TRACK II REQUIREMENTS:**

**Core cluster courses**

Complete 15 semester hours in one of the above clusters.

**Total: 15 Hours**

**Three required interdisciplinary seminars**

**HUMN 5025 - Methods and Texts of the Humanities**

*Summer 2010 Registration HUM 5025*

Exposes the beginning graduate student to exemplary works and methodologies of select humanistically oriented disciplines, such as philosophy, fine arts, literature, history, communication, music, and theatre. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

(Must be taken during the first year of entrance into the program.)

**Mid-Program Seminar,** an interdisciplinary seminar with a HUM prefix, which is approved for the student’s program by one of the program directors (note that a Mid-Program Seminar **must** have a HUM prefix).

**HUMN 5924 - Directed Research and Reading in Interdisciplinary Humanities**

*Summer 2010 Registration HUM 5924*

Provides background reading, theory and research approaches for students to develop a thesis, project, or an individualized theme for the oral exam based on their interdisciplinary focus. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

(A final seminar that provides background reading, theory and research approaches for students to develop a theme for the oral exam. Offered spring
only; student must have completed 24 hours of course work and must register for
the course via a schedule adjustment form with instructor approval.)

**Total: 9 Hours**

**Electives**

15 additional elective semester hours (students retain considerable flexibility in selecting
these hours).

**Total: 15 Hours**

**Comprehensive Exam**

A comprehensive oral exam and a brief paper (15-20 pages) presented before a
committee of three faculty members in order to graduate.

**Track II Total: 39 Hours**

**Information and Learning
Technologies MA**

Lawrence Street Center, 701
**Telephone:** 303-315-6300
**Fax:** 303-315-6311
**E-mail:** education@ucdenver.edu
**Web site:** www.ucdenver.edu/education

**Faculty**

Information about Information ILT faculty is available online at
www.ucdenver.edu/education

**Master’s Degree**

The ILT master’s program helps people design and use various resources and
technologies for learning. Applying sound principles of instructional design, graduates
can integrate a variety of learning technologies into their teaching including multimedia
presentations, social-networking tools and tools for authoring, production, assessment
and participation. Program graduates learn to implement learning technologies in
specific professional settings—either K–12 schools or adult learning settings such as business or higher education.

Students are assigned to tracks according to their professional goals:

- The instructional design track prepares students to work in adult learning settings such as business, higher education, health care, nonprofits or government.
- The eLearning track prepares educators to develop online courses and learning materials and to teach and facilitate learning in those eLearning environments.
- The K–12 teaching track helps teachers integrate technologies into schools and classrooms with a focus on improving teaching practices. Teachers may earn a state endorsement in instructional technology.

Once admitted, students begin a plan of study that typically takes about 1-1/2 years to complete. Some students are organized into a cohort to complete courses together at a fixed sequence. Other students select courses at a more flexible pace. Consult the ILT Web site for more information about specific plans of study, course offerings and expectations of cohort groups.

ILT faculty members also participate in the school’s doctoral program. Students interested in a PhD may participate in a technology-focused doctoral lab with a number of ILT faculty members. The program also delivers an online certificate on eLearning design.

**Admission Requirements**

Admission decisions are based on undergraduate and graduate grades, external letters of recommendation, writing samples and fit with the program as reflected in a letter of intent. In some cases, results of a test (GRE) are also required. Prospective students should consult the ILT program Web site for complete admission procedures and requirements.

**Professional Expectations**

All students in the ILT program are expected to show a strong commitment to the program and to maintain high academic, professional and ethical standards. Inappropriate or unprofessional conduct is cause for discipline or dismissal from the program.

**Technology Expectations**

The ILT program uses computers and related technologies either as a focus or a tool for learning. Students are expected to obtain an e-mail account and check it frequently. In addition to on-campus facilities, ILT students need convenient access to Internet-
connected computers off campus, either at their place of work or at home. In addition to textbooks, software purchases may be required or recommended for specific classes.

**Program Requirements**

**Instructional Design**

Students complete at least 30 graduate semester hours of course work from a set of core courses and approved electives within and outside the ILT program. The plan of study is nationally accredited by NCATE and AECT and is consistent with standards for instructional designers.

The master of science in information systems (MSIS) program at the Business School meets industry needs by providing specializations. The program prepares students for career paths in systems development and management services, enterprise application services, business intelligence, health information technology, information security audit and control, business consulting and development and consumer products and services. Whether students aim to be systems analysts or designers, software engineers, applications programmers, database administrators, Web developers, systems integrators, project managers, LAN administrators or application and technology consultants, the MSIS program provides the necessary knowledge and skills. This entire MS in information systems can be completed online.

The MSIS program offers a wide choice of courses. The course work consists of a common body of knowledge courses plus 30 semester hours, which includes a choice of a specialization. Those specialization include two required courses, 6 courses from a list specific to your chosen specialization and two elective courses. Candidates for the MS degree are not required to take a comprehensive examination or to complete a thesis in the major field.

A. Common Body of Knowledge (CBK)

Waivers of CBK courses are possible. The entire CBK may be waived if the student has completed an undergraduate business degree from an AACSB-accredited college or university within the last 10 years. Specific courses may be waived based on a case-by-case evaluation of undergraduate or graduate course work in business completed at a regionally accredited college or university within the last 10 years.

Four of the following courses are required if you do not meet the above waiver policy.

BUSN 6530 - Data Analysis for Managers

Summer 2010 Registration BUSN 6530
Provides an overview of techniques for data analysis, including multiple regression,
sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530 and FNCE 6290.

Semester Hours: 3 to 3
When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6550 - Analyzing and Interpreting Accounting Information

Summer 2010 Registration BUSN 6550
Emphasizes the use of accounting statements and data in making business decisions. External financial accounting information and concepts are used for investment and credit decisions. Internal managerial accounting information and concepts are used for product costing, cost analysis and management control.

Semester Hours: 3 to 3
When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6560 - Marketing Management

Summer 2010 Registration BUSN 6560
Focuses on the formulation and implementation of a marketing plan in the context of the firm's strengths, overall strategy and competitive environment. Emphasis is on understanding the marketing environment and on decision making skills regarding market selection, pricing, promotion, product configuration and management of distribution channels.

Semester Hours: 3 to 3
When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6630 - Management of Operations

Summer 2010 Registration BUSN 6630
This course is concerned with the production and delivery of goods and services. It provides an overview of a variety of key Operation Management issues including scheduling, capacity determination, facility location and layout, distribution and related topics. The use of model-assisted decision making is emphasized.

Semester Hours: 3 to 3
When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6640 - Financial Management

Summer 2010 Registration BUSN 6640
This course is concerned with the business firm's decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students will learn to evaluate a firm's financial position through the examination of its financial statements.
and to prepare pro forma statements for the firm. Prereq: BUSN 6530 or FNCE 6290, BUSN 6620 (both may be taken concurrently) and BUSN 6550 completed prior and strictly enforced. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 12 Hours for Common Body of Knowledge (CBK)**

**B. Information Systems Specializations**

This set of courses consists of selected areas of specialization designed to provide the fundamental knowledge necessary for a career as an IS professional. Up to 9 semester hours may be transferred from an AACSB international accredited graduate school and applied to the information systems specializations upon approval. Students should take the required courses in each specialization before taking the chosen electives in each specialization.

The IS specializations provide students with a set of related courses necessary to acquire skills and expertise within a specific area in the development, management and use of information technology applications. Students are required to choose one specialization and complete the 6 hours of required coursework, 18 hours of selected electives, 3 hours of any other ISMG course or an internship in IS, and 3 hours of any Business School graduate course.

**Accounting and Information Systems Audit and Control (AISAAC) Specialization**

Recently, new regulatory environments have required companies to provide better documentation of their accounting and IT systems to improve the management and disclosure of their business processes for better financial and regulatory controls. Accounting and IT professionals have significant roles in audit and control activities, since they control the systems that monitor and report on finance, planning and operations. The courses within this specialization cover business-process management and financial controls; the emerging trends and practices in privacy and security; the strategies for integrating governance and compliance; and the IT organization's financial and business intelligence services. These courses will focus on how to leverage the existing IT infrastructure to establish quality in financial and internal audit processes and address the regulatory issues associated with reporting, consolidation and document/content management more effectively and completely.

**Prerequisite**

**ACCT 6030 - Financial Accounting**
**Summer 2010 Registration** ACCT 6030
Accelerated analysis of financial accounting concepts, the development of accounting thought and principles and critical review of generally accepted accounting principles. Prereq: BUSN 6550 or equivalent. Note: students who have taken ACCT 3220 or ACCT 3230 (or equivalent) may not take this course. **Semester Hours:** 3to 3 **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Required Courses**

ACCT 6020 - Auditing

**Summer 2010 Registration** ACCT 6020
Generally accepted auditing techniques and the philosophy supporting them; auditing techniques available to the independent public accountant. Pertinent publications of the AICPA reviewed. Prereq: ACCT 3230 with a grade of 'C' or better and ACCT 3054, strictly enforced. Cross-listed with ACCT 4620. **Semester Hours:** 3to 3 **When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6040 - Business Process Management

**Summer 2010 Registration** ISMG 6040
Designing effective information systems for business requires an awareness of the organization(s) business processes and how to manage and streamline them. The objectives of the course are for students to understand the importance of business processes; the main types of business processes; and the evolution of business process management; business process outsourcing; business process re-engineering; business process redesign; technology enabled business processes; and automated workflow. An important activity is graphically mapping business processes, which are transformed into an application or set of applications. The organization needs to manage the electronic workflow to monitor that the work gets done and allow changes to the workflow. Case studies of organizations are studied for most topics to enhance understanding. The group projects let students apply their knowledge of the course to a specific organization. By the end of this course students should have an appreciation of the important process-centric issues in business systems design. **Semester Hours:** 3to 3 **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6060 - Analysis, Modeling and Design

**Summer 2010 Registration** ISMG 6060
Spring. Provides an understanding and application of systems analysis and design processes. Students are exposed to system development life cycle (SDLC), structured
systems analysis and design methods, object-oriented analysis and design methods, prototyping and commercial off-the-shelf package software approaches, and joint and rapid application development. Emphasizes the skills required for system analysts such as analytical, interpersonal, technical, fact-finding, and project management skills. Topics include data, process and object modeling, input-output and user interface design, and systems implementation and support. To provide an opportunity to develop these skills, an information system project is completed by a group of students. Students use a Case tool for their group project. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6080 - Database Management Systems**

*Summer 2010 Registration ISMG 6080*
The success of today's business often hinges on the ability to utilize critical information to make the right decisions quickly and efficiently. Transforming mountains of data into critical information to improve decision making is a skill every business decision maker must posses. This focus course covers the database design topics with a focus on enabling business decision making. Detailed topics include collecting, capturing, querying and manipulating data (using SQL and QBE) for simple to medium complex business applications. Commercial database products (e.g. ORACLE and ACCESS) are utilized to demonstrate the design of database applications in management, marketing, finance, accounting, and other business areas. Students will be able to design and implement simple to medium complex database applications after successful completion of this course. Semester Hours: 3 to 3 When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6180 - Information Systems Management and Strategy**

*Summer 2010 Registration ISMG 6180*
The effective use of information technology requires the alignment of competitive strategies, business processes, and IT applications. In this course, we take a top management perspective to the development of policies and plans that maximize the contribution of IT to organizational goals. We begin by examining the systems that support the operational, administrative, and strategic needs of organizations. We then investigate the approaches used to manage the IT function, taking into account legacy and emerging technologies. The vital role of the CIO and project champions are explored. Note: Students cannot receive credit for both ISMG 6180 and BUSN 6610. Cross-listed with BUSN 6610. Semester Hours: 3 to 3 When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6220 - Business Intelligence Systems**

*Summer 2010 Registration ISMG 6220*
This course covers technical and managerial issues associated with the development
and use of decision support systems, expert systems, executive information systems, and advanced intelligent systems. The DSS component covers decision theory, model management, and business intelligence with an emphasis on how decision-making can be supported using data warehouses, OLAP, and data mining and visualization tools. The ES component focuses on knowledge acquisition, representation, reasoning, and using advanced intelligent systems, over the web. In addition, collaboration, communication, enterprise decision support system integration, impacts, and the future of MSS are discussed. The use of DSS and online analytical processing (OLAP) and the selection of decision support applications and tools are important learning objectives for this course. Critical to the success of DSS is the use of data warehouses. The basics of data warehousing are covered through a variety of companies' experiences. The course also covers Business Performance Management (BPM) and the use of digital dashboards and balanced scorecards as evolution of EIS. Hands-on experience is provided through the use of leading-edge technologies including MicroStrategy business intelligence tool. Prereqs: ISMG 6080. Semester Hours: 3 to 3 When Offered: SPR SUM

Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6420 - Global Enterprise Systems

Summer 2010 Registration ISMG 6420
Examines the evolution of global enterprise systems - from internally focused enterprise resource planning (ERP) client or server systems to externally focused eBusiness. Studies the types of issues managers need to consider in implementing cross-functional integrated enterprise systems. Examines the general nature of global enterprise computing, re-engineering principles and the technical foundations of client or server systems and enterprise information architectures. Students learn about the global enterprise systems marketplace. Topics include the tools and methodology, modules, processes and industry initiatives. Finally, the course looks into the future and predicts enterprise system trends. The objective of the course is to make students aware of the potential and limitations of global enterprise systems. The objective will be reached through case studies, lectures, guest speakers and a group project. Prereq: ISMG 6180 or BUSN 6610 (6810). Semester Hours: 3 to 3 When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

Either

ACCT 6510 - Accounting and Information Systems Processes and Controls

Summer 2010 Registration ACCT 6510
The course is designed to develop knowledge and skills used to understand and evaluate corporating accounting processes and systems. Focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: ACCT 3054 or ISMG 3000 or equivalent professional experience.
ISMG 6510 - Accounting and Information Systems Processes and Controls

Summer 2010 Registration ISMG 6510
Designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. Focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach issued to present concepts and techniques for evaluating the adequacy of system processes and controls. Cross-listed with ACCT 6510, 4780 and ISMG 4780. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose two:

ACCT 6340 - Financial Statement Analysis

Summer 2010 Registration ACCT 6340
Financial statements are used as an information source on which to base investment, lending potential or even employment. Designed to develop skills in using, understanding, analyzing, and interpreting financial statements and to make students aware of the value and limitations of financial statement information. Note: Should take in the third semester of the graduate program. Prereq: BUSN 6550 or equivalent. Semester Hours: 3to 3
When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

ACCT 6360 - Fraud Examination

Summer 2010 Registration ACCT 6360
This course examines the theories and methods of fraud examination in the context of auditing both for-profit and not-for-profit entities. Topics include identification of weaknesses in accounting controls, analytical review, and forensic accounting methods. Prereq: ACCT 4620 or ACCT 6020. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6430 - Information Systems Security and Privacy

Summer 2010 Registration ISMG 6430
Designed to develop knowledge and skills for security of information and information systems within organizations. Focuses on concepts and methods associated with planning, designing, implementing, managing, and auditing security at all levels and on
all systems platforms, including enterprise systems. This course presents techniques for assessing risk associated with accidental and intentional breaches of security as well as disaster recovery planning. Prereq: ISMG 6180 or BUSN 6610 (6810).**Semester Hours:** 3 to 3
**When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6450 - IT Project Management**

*Summer 2010 Registration ISMG 6450*
Focuses on how firms successfully manage the adoption of IT. Projects and program management principles are the primary focus of this course. Topics covered include approaches to prioritizing projects, estimating cost and time-to-market, build vs. buy decision, planning, monitoring and controlling implementation, measurement, total cost of ownership, effective management of both behavioral and technical aspects of the project and change management. Prereq: ISMG 6180 or BUSN 6610 (6810).**Semester Hours:** 3 to 3
**When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 6470 - Internal Auditing**

*Summer 2010 Registration ACCT 6470*
Intro course for business students and CIA candidates. Topics include: IA fundamentals; IA standards; internal controls; managing the IA department; IA working papers, procedures and evidences; fraud detection and prevention; ethics; evaluation of the IA function, and Sarbanes-Oxley Act of 2002. Prereq: BUSN 6550 or equivalent.**Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 6620 - Advanced Auditing**

*Summer 2010 Registration ACCT 6620*
Development of auditing as a profession, including evolution of standards and audit reports. Historical and contemporary literature in the field reviewed. Prereq: ACCT 4620 or ACCT 6020 or equivalent.**Semester Hours:** 3 to 3
**When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Business Intelligence Specialization**

Business intelligence (BI) systems combine operational data with analytical tools to present complex and competitive information to planners and decision makers. The objective is to improve the timeliness and quality of inputs to the decision process. BI is used to understand the capabilities available in the firm; the state-of-the-art, trends, and future directions in the markets, the technologies, and the regulatory environment in which the firm compete; and the actions of competitors and the implications of these
actions. With this specialization, you get the necessary skills and knowledge in real-time data warehousing, data visualization, data mining, online analytical processing, customer relationships management, dashboards and scorecards, corporate performance management, expert and advanced intelligent systems, and hands-on experience with leading BI tools.

**Required Courses**

**ISMG 6080 - Database Management Systems**

*Summer 2010 Registration ISMG 6080*

The success of today's business often hinges on the ability to utilize critical information to make the right decisions quickly and efficiently. Transforming mountains of data into critical information to improve decision making is a skill every business decision maker must posses. This focus course covers the database design topics with a focus on enabling business decision making. Detailed topics include collecting, capturing, querying and manipulating data (using SQL and QBE) for simple to medium complex business applications. Commercial database products (e.g. ORACLE and ACCESS) are utilized to demonstrate the design of database applications in management, marketing, finance, accounting, and other business areas. Students will be able to design and implement simple to medium complex database applications after successful completion of this course. **Semester Hours: 3 to 3**

*When Offered: FALL*

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Choose six:**

**DSCI 6828 - Business Applications of Data Mining**

*Summer 2010 Registration DSCI 6828*

Addresses statistical approaches to the very large data sets increasingly common in business applications such as internet-based business, fraud detection, credit scoring and market segmentation. Topics include limitations of classical statistical when applied to large data sets, alternative approaches and applications of key data mining algorithms such as logistic regression, decision trees and cluster analysis. Emphasis is placed on proper choice of method, interpretation of the results and understanding of the strengths and limitations of the methods. Students are expected to analyze and report on a variety of data sets drawn from business application areas. Note: Cannot receive credit for both BUSN 6828 and DSCI 6828. **Prereq: BUSN 6530 or permission of instructor. Cross-listed with BUSN 6828. Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6180 - Information Systems Management and Strategy**
Summer 2010 Registration ISMG 6180
The effective use of information technology requires the alignment of competitive strategies, business processes, and IT applications. In this course, we take a top management perspective to the development of policies and plans that maximize the contribution of IT to organizational goals. We begin by examining the systems that support the operational, administrative, and strategic needs of organizations. We then investigate the approaches used to manage the IT function, taking into account legacy and emerging technologies. The vital role of the CIO and project champions are explored. Note: Students cannot receive credit for both ISMG 6180 and BUSN 6610. Cross-listed with BUSN 6610. Semester Hours: 3 to 3 When Offered: FASPRSUM Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6420 - Global Enterprise Systems

Summer 2010 Registration ISMG 6420
Examines the evolution of global enterprise systems - from internally focused enterprise resource planning (ERP) client or server systems to externally focused eBusiness. Studies the types of issues managers need to consider in implementing cross-functional integrated enterprise systems. Examines the general nature of global enterprise computing, re-engineering principles and the technical foundations of client or server systems and enterprise information architectures. Students learn about the global enterprise systems marketplace. Topics include the tools and methodology, modules, processes and industry initiatives. Finally, the course looks into the future and predicts enterprise system trends. The objective of the course is to make students aware of the potential and limitations of global enterprise systems. The objective will be reached through case studies, lectures, guest speakers and a group project. Prereq: ISMG 6180 or BUSN 6610 (6810). Semester Hours: 3 to 3 When Offered: FALL Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6430 - Information Systems Security and Privacy

Summer 2010 Registration ISMG 6430
Designed to develop knowledge and skills for security of information and information systems within organizations. Focuses on concepts and methods associated with planning, designing, implementing, managing, and auditing security at all levels and on all systems platforms, including enterprise systems. This course presents techniques for assessing risk associated with accidental and intentional breaches of security as well as disaster recovery planning. Prereq: ISMG 6180 or BUSN 6610 (6810). Semester Hours: 3 to 3 When Offered: SPRING Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6480 - Data Warehouse and Administration
Summer 2010 Registration ISMG 6480
Management of large, complex data warehouses and operational databases involves technical skills and background needed by information systems professionals as well as tactical and strategic issues faced by information technology managers. This course provides conceptual knowledge, practical skills, and policy background for prospective information systems professionals and information technology managers. The course covers business aspects, conceptual background, and product material about management of data warehouses and operational databases. Assignments and projects involve Oracle skills for database administration and tactical or strategic issues faced by information technology management. Prereq: ISMG 6080. Semester Hours: 3 to 3 When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6810 - Business Intelligence in Healthcare

Summer 2010 Registration ISMG 6810
Provides students with an overview of how business intelligence is used in the healthcare industry. Students study the evolution of IT in healthcare including enterprise systems and systems integration. Next the course looks at the evolution of business intelligence in general. Using case studies and hands on exercises, students learn about different aspects of business intelligence in various subsets of the healthcare industry. Semester Hours: 3 to 3 When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6820 - Business Intelligence and Financial Modeling

Summer 2010 Registration ISMG 6820
This course will introduce students to the application of business intelligence in a corporate finance setting. Financial data intelligence is essential for effective decision making throughout the firm, in finance directly and in other functions supported by the finance department. Strategy setting, budgeting, and new product development are just a few decision areas where finance personnel play an active role. In this course, we learn how to apply Oracle e-Business Suite, a finance and business intelligence software tool that provides modules for financial reporting, analysis, budgeting, and planning. These tools enable finance personnel to access and analyze corporate data in support of critical decision making across the enterprise. Students will also analyze data through the use of financial models built in Microsoft Excel. The development of complex financial models will provide students with valuable hands-on experience with a software tool used widely incorporate finance departments. Semester Hours: 3 to 3 When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

MKTG 6090 - Customer Relationship Management
**Summer 2010 Registration MKTG 6090**

Involves the management of customer relationships to maximize customer service and its associated benefits at minimal cost. Includes services marketing concepts and techniques, IT applications, and software. Designed to acquaint students with practices and issues in state-of-the-art customer relationship management systems in an array of different types of organizations. The course initially focuses on the nature of customer relationship management (CRM) the interaction between strategic management planning, corporate culture and CRM. Other topics examined include successful models of CRM, managing the employee or CRM interface, marketing research, and CRM, and customer trust, loyalty, CRM customer service levels, customer service levels, customer profitability or metrics, selecting and integrating CRM software, CRM integration and timing of CRM roll-out. Prereq: BUSN 6560. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

---

**Enterprise Technology Management (ETM) Specialization**

This specialization focuses on information technology as the prime driver of business strategy. It focuses on the strategic, technological, financial and organizational issues involved with the effective management of information technology within an enterprise. The courses in this specialization cover the emerging technologies and the evolving roles and importance of IT in modern organizations; IT-enabled organizational processes and knowledge management; methods to develop, acquire and implement information systems; implementing and managing complex IT projects; security and privacy issues associated with IT.

**Required Courses**

**ISMG 6040 - Business Process Management**

**Summer 2010 Registration IMSG 6040**

Designing effective information systems for business requires an awareness of the organization(s) business processes and how to manage and streamline them. The objectives of the course are for students to understand the importance of business processes; the main types of business processes; and the evolution of business process management; business process outsourcing; business process re-engineering; business process redesign; technology enabled business processes; and automated workflow. An important activity is graphically mapping business processes, which are transformed into an application or set of applications. The organization needs to manage the electronic workflow to monitor that the work gets done and allow changes to the workflow. Case studies of organizations are studied for most topics to enhance understanding. The group projects let students apply their knowledge of the course to a specific organization. By the end of this course students should have an appreciation of the
important process-centric issues in business systems design. **Semester Hours:** 3 to 3  
**When Offered:** SPRING  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6180 - Information Systems Management and Strategy**

*Summer 2010 Registration ISMG 6180*  
The effective use of information technology requires the alignment of competitive strategies, business processes, and IT applications. In this course, we take a top management perspective to the development of policies and plans that maximize the contribution of IT to organizational goals. We begin by examining the systems that support the operational, administrative, and strategic needs of organizations. We then investigate the approaches used to manage the IT function, taking into account legacy and emerging technologies. The vital role of the CIO and project champions are explored. **ISMG 6120 - Internet and Mobile Technologies**

*Summer 2010 Registration ISMG 6120*  
Communication, knowledge sharing, and information acquisition within and between businesses are critical for long term strategic business success. Technological advancements are radically changing the way business communication and knowledge sharing is performed. This course will briefly examine traditional concepts of wired local area networks for reference purposes, but then will focus on how newer mobile
technologies are changing the way business communication and knowledge transfer are conducted. Mobile technologies that will be examined in this course include: WiFi wide area networks, wireless local area networks, cellular telephones, smart phones, and other portable computing devices. **Semester Hours:** 3 to 3  **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6420 - Global Enterprise Systems**

*Summer 2010 Registration ISMG 6420*
Examines the evolution of global enterprise systems - from internally focused enterprise resource planning (ERP) client or server systems to externally focused eBusiness. Studies the types of issues managers need to consider in implementing cross-functional integrated enterprise systems. Examines the general nature of global enterprise computing, re-engineering principles and the technical foundations of client or server systems and enterprise information architectures. Students learn about the global enterprise systems marketplace. Topics include the tools and methodology, modules, processes and industry initiatives. Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6430 - Information Systems Security and Privacy**

*Summer 2010 Registration ISMG 6430*
Designed to develop knowledge and skills for security of information and information systems within organizations. Focuses on concepts and methods associated with planning, designing, implementing, managing, and auditing security at all levels and on all systems platforms, including enterprise systems. This course presents techniques for assessing risk associated with accidental and intentional breaches of security as well as disaster recovery planning. Prereq: ISMG 6180 or BUSN 6610 (6810). **Semester Hours:** 3 to 3  **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6450 - IT Project Management**

*Summer 2010 Registration ISMG 6450*
Focuses on how firms successfully manage the adoption of IT. Projects and program management principles are the primary focus of this course. Topics covered include approaches to prioritizing projects, estimating cost and time-to-market, build vs. buy decision, planning, monitoring and controlling implementation, measurement, total cost of ownership, effective management of both behavioral and technical aspects of the project and change management. Prereq: ISMG 6180 or BUSN 6610 (6810). **Semester
ISMG 6460 - Emerging Technologies

Summer 2010 Registration ISMG 6460
Provides an introduction to the expansive array of information technologies that form the infrastructure of a modern business enterprise. Emphasis is placed on learning conceptual technological foundations and understanding the business value of the various technologies. The purpose of the course is to develop the student's ability to discuss recent technological advancements with other IT professionals and management. Technology assessment is emphasized. Prereq: ISMG 6180 or BUSN 6610 (6810). Cross-listed with BUSN 6800. Semester Hours: 3t0 3 When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

Health Information Technology Management Specialization

Recently, the health care industry has shifted its focus from using proprietary and expensive IT solutions to more innovative IT applications in electronic health records (EHR) and other health information technology (HIT) innovations for sharing information effectively to help manage health care crisis. The courses within this specialization cover the evolving roles and importance of IT in health care industry; the innovative IT applications for delivering health care with reduced cost and increased quality; the management of health care using effective IT systems; and the security and privacy issues associated with health information. These courses will focus on how IT-enabled health care organizations can integrate information from various resources in order to deliver innovative IT solutions to meet unique requirements of health care industry.

Required Courses

ISMG 6060 - Analysis, Modeling and Design

Summer 2010 Registration ISMG 6060
Spring. Provides an understanding and application of systems analysis and design processes. Students are exposed to system development life cycle (SDLC), structured systems analysis and design methods, object-oriented analysis and design methods, prototyping and commercial off-the-shelf package software approaches, and joint and rapid application development. Emphasizes the skills required for system analysts such as analytical, interpersonal, technical, fact-finding, and project management skills. Topics include data, process and object modeling, input-output and user interface design, and systems implementation and support. To provide an opportunity to develop these skills, an information system project is completed by a group of students. Students
use a Case tool for their group project. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HLTH 6071 - Introduction To Health Information Technology**

*Summer 2010 Registration HLTH 6071*

Examines what needs transforming in healthcare to improve value, safety, and appropriateness of care, and what the role of IT is in that transformation. IT also examines the challenges of cultural change and IT strategy in succeeding with clinical information projects. Differences between installation, implementation, transition and actual transformation are suggested, and methods for managing subcultures in healthcare (IT, clinical, administrative) are reviewed. Cross-listed with ISMG 6071. **Semester Hours:** 3 to 3 **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HLTH 6072 - Fundamentals of Health Information Technology Management**

*Summer 2010 Registration HLTH 6072*

Provides an introduction to the management of information technology in healthcare. A description of information processing, the origin, content, evolution of healthcare information systems, and the methodologies deployed to acquire and manage information requirements are discussed. Cross-listed with ISMG 6072. **Semester Hours:** 3 to 3 **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.
ISMG 6220 - Business Intelligence Systems

Summer 2010 Registration ISMG 6220
This course covers technical and managerial issues associated with the development and use of decision support systems, expert systems, executive information systems, and advanced intelligent systems. The DSS component covers decision theory, model management, and business intelligence with an emphasis on how decision-making can be supported using data warehouses, OLAP, and data mining and visualization tools. The ES component focuses on knowledge acquisition, representation, reasoning, and using advanced intelligent systems, over the web. In addition, collaboration, communication, enterprise decision support system integration, impacts, and the future of MSS are discussed. The use of DSS and online analytical processing (OLAP) and the selection of decision support applications and tools are important learning objectives for this course. Critical to the success of DSS is the use of data warehouses. The basics of data warehousing are covered through a variety of companies’ experiences. The course also covers Business Performance Management (BPM) and the use of digital dashboards and balanced scorecards as evolution of EIS. Hands-on experience is provided through the use of leading-edge technologies including MicroStrategy business intelligence tool. Prereqs: ISMG 6080. Semester Hours: 3 to 3
When Offered: SPR SUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6280 - Service Oriented Architecture

Summer 2010 Registration ISMG 6280
Explores "Service Oriented Architecture" (SOA), which refers to a design pattern made up of components and interconnections that stress interoperability and location transparency. Covers the latest heterogeneous models for carrying out large scale distributed computing using Web services. The fundamentals of defining, designing, building, testing and rolling-out a SOA system are explored using tools from major Web service vendors. Also, looks at the impact of SOA on software quality, efficiency, performance and flexibility. Prerpq: ISMG 6060. Semester Hours: 3 to 3
When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6430 - Information Systems Security and Privacy

Summer 2010 Registration ISMG 6430
Designed to develop knowledge and skills for security of information and information systems within organizations. Focuses on concepts and methods associated with planning, designing, implementing, managing, and auditing security at all levels and on all systems platforms, including enterprise systems. This course presents techniques for assessing risk associated with accidental and intentional breaches of security as well as disaster recovery planning. Prereq: ISMG 6180 or BUSN 6610 (6810). Semester Hours:
3 to 3

When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6460 - Emerging Technologies

Summer 2010 Registration ISMG 6460
Provides an introduction to the expansive array of information technologies that form the infrastructure of a modern business enterprise. Emphasis is placed on learning conceptual technological foundations and understanding the business value of the various technologies. The purpose of the course is to develop the student's ability to discuss recent technological advancements with other IT professionals and management. Technology assessment is emphasized. Prereq: ISMG 6180 or BUSN 6610 (6810). Cross-listed with BUSN 6800. Semester Hours: 3 to 3

When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6810 - Business Intelligence in Healthcare

Summer 2010 Registration ISMG 6810
Provides students with an overview of how business intelligence is used in the healthcare industry. Students study the evolution of IT in healthcare including enterprise systems and systems integration. Next the course looks at the evolution of business intelligence in general. Using case studies and hands on exercises, students learn about different aspects of business intelligence in various subsets of the healthcare industry. Semester Hours: 3 to 3

When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

Web and Mobile Computing Specialization

This specialization focuses on building and managing large systems using platforms for Web site development, mobile and wireless applications, and Web services and service oriented architectures. The courses provide expertise in .Net programming, business process management, Internet and mobile technologies, Web site development technologies, data warehousing and administration, and service oriented architecture. Project management course work enables graduates to successfully handle highly complex systems development projects in the business world.

Required Courses

ISMG 6060 - Analysis, Modeling and Design
Summer 2010 Registration **ISMG 6060**
Spring. Provides an understanding and application of systems analysis and design processes. Students are exposed to system development life cycle (SDLC), structured systems analysis and design methods, object-oriented analysis and design methods, prototyping and commercial off-the-shelf package software approaches, and joint and rapid application development. Emphasizes the skills required for system analysts such as analytical, interpersonal, technical, fact-finding, and project management skills. Topics include data, process and object modeling, input-output and user interface design, and systems implementation and support. To provide an opportunity to develop these skills, an information system project is completed by a group of students. Students use a Case tool for their group project. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6080 - Database Management Systems**

Summer 2010 Registration **ISMG 6080**
The success of today's business often hinges on the ability to utilize critical information to make the right decisions quickly and efficiently. Transforming mountains of data into critical information to improve decision making is a skill every business decision maker must possess. This focus course covers the database design topics with a focus on enabling business decision making. Detailed topics include collecting, capturing, querying and manipulating data (using SQL and QBE) for simple to medium complex business applications. Commercial database products (e.g. ORACLE and ACCESS) are utilized to demonstrate the design of database applications in management, marketing, finance, accounting, and other business areas. Students will be able to design and implement simple to medium complex database applications after successful completion of this course. **Semester Hours:** 3 to 3 **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose six:

**ISMG 6020 - .Net Programming Fundamentals**

Summer 2010 Registration **ISMG 6020**
This course is designed to provide a thorough introduction to the .Net programming environment. C# is studied as the target object-oriented programming language. Principles of object-oriented programming are demonstrated using programming constructs taken from the business domain. Students are required to apply this knowledge through a series of C# programming exercises, which includes developing Windows Forms applications for the desktop and mobile platforms. Prereq: Basic knowledge of a programming language such as JAVA, C, or Basic. **Semester Hours:** 3 to 3 **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.
ISMG 6040 - Business Process Management

*Summer 2010 Registration* **ISMG 6040**
Designing effective information systems for business requires an awareness of the organization(s) business processes and how to manage and streamline them. The objectives of the course are for students to understand the importance of business processes; the main types of business processes; and the evolution of business process management; business process outsourcing; business process re-engineering; business process redesign; technology enabled business processes; and automated workflow. An important activity is graphically mapping business processes, which are transformed into an application or set of applications. The organization needs to manage the electronic workflow to monitor that the work gets done and allow changes to the workflow. Case studies of organizations are studied for most topics to enhance understanding. The group projects let students apply their knowledge of the course to a specific organization. By the end of this course students should have an appreciation of the important process-centric issues in business systems design. **Semester Hours: 3**

*When Offered: SPRING*
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6120 - Internet and Mobile Technologies

*Summer 2010 Registration* **ISMG 6120**
Communication, knowledge sharing, and information acquisition within and between businesses are critical for long term strategic business success. Technological advancements are radically changing the way business communication and knowledge sharing is performed. This course will briefly examine traditional concepts of wired local area networks for reference purposes, but then will focus on how newer mobile technologies are changing the way business communication and knowledge transfer are conducted. Mobile technologies that will be examined in this course include: WiFi wide area networks, wireless local area networks, cellular telephones, smart phones, and other portable computing devices. **Semester Hours: 3**

*When Offered: FALL*
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6240 - Website Development Practice and Technologies

*Summer 2010 Registration* **ISMG 6240**
Presents a broad coverage of design principles and techniques to develop effective web sites. The course emphasizes: (1) understanding the principles of web page and web site design and the process of publishing web pages, (2) developing client-side scripts for use in web sites, (3) using server-side programs or scripts to develop dynamic web sites using databases, and (4) understanding technologies for managing large web sites including XML schemas, content management systems and web services. Prereq: ISMG
6080. **Semester Hours:** 3 to 3  **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6280 - Service Oriented Architecture**

*Summer 2010 Registration ISMG 6280*
Explores "Service Oriented Architecture" (SOA), which refers to a design pattern made up of components and interconnections that stress interoperability and location transparency. Covers the latest heterogeneous models for carrying out large scale distributed computing using Web services. The fundamentals of defining, designing, building, testing and rolling-out a SOA system are explored using tools from major Web service vendors. Also, looks at the impact of SOA on software quality, efficiency, performance and flexibility. Prereq: ISMG 6060. **Semester Hours:** 3 to 3  **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6450 - IT Project Management**

*Summer 2010 Registration ISMG 6450*
Focuses on how firms successfully manage the adoption of It. Projects and program management principles are the primary focus of this course. Topics covered include approaches to prioritizing projects, estimating cost and time-to-market, build vs. buy decision, planning, monitoring and controlling implementation, measurement, total cost of ownership, effective management of both behavioral and technical aspects of the project and change management. Prereq: ISMG 6180 or BUSN 6610 (6810). **Semester Hours:** 3 to 3  **When Offered:** FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 6480 - Data Warehouse and Administration**

*Summer 2010 Registration ISMG 6480*
Management of large, complex data warehouses and operational databases involves technical skills and background needed by information systems professionals as well as tactical and strategic issues faced by information technology managers. This course provides conceptual knowledge, practical skills, and policy background for prospective information systems professionals and information technology managers. The course covers business aspects, conceptual background, and product material about management of data warehouses and operational databases. Assignments and projects involve Oracle skills for database administration and tactical or strategic issues faced by information technology management. Prereq: ISMG 6080. **Semester Hours:** 3 to 3  **When Offered:** SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.
Electives

Students fulfill an additional 6 semester hours by completing the following:

Note: If you are pursuing the accounting and information systems audit and control specialization, you do not complete these electives. All other students will complete the following electives.

- an elective course from any of the ISMG graduate courses OR an internship AND
- a free elective selected from any graduate course offered by the Business School, except BUSN courses numbered below 6800.

Candidates for the MS degree are not required to take a comprehensive examination or to complete a thesis in the major field.

Total: 30 hours for MS in Information Systems

Geographic Information Systems (GIS) Option

The geographic information systems option expands upon system development skills through the understanding geographic information systems work flows, analysis processes and data models. This option for the mobile and Internet computing specialization and business intelligence specialization addresses how map representations can be abstracted in geo-databases to develop intelligent GIS systems. Learn how GIS can improve efficiencies, decision making, planning, geographic accountability, science-based plans and communication. The GIS option is offered in conjunction with the College of Engineering and Applied Science and a certificate in GIS is awarded by the College of Engineering and Applied Science.

Students must complete all requirements for the MS in information systems, as well as the requirements below.

CVEN 5381 - Introduction to Geographic Information Systems

Summer 2010 Registration C E 5381
Provides an over-view exposure and experience with various aspects of GIS technology and its uses for natural resource and infrastructure, planning, design and management. This course involves a survey of GIS software and hardware, review of cartographic mapping principles, hands-on applications to environmental impact assessment, municipal facilities management, transportation, water resources and demographics. GIS project management factors are addressed. Prereq: Graduate and/or upper division standing. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
Choose three:

CVEN 5382 - GIS Spatial Database Development

*Summer 2010 Registration C E 5382*
This second GIS course builds on the introductory course and addresses principles and technologies for development and conversion of spatial databases, including photogrammetry, surveying and geodesy, coordinate systems and transformations, and remote sensing. Prereq: Graduate and/or upper division standing; completion of CVEN 5381 (or equivalent) and MEng-GIS program prerequisites (especially surveying, mapping and computing); background in algebra, calculus fundamentals and facility to compute DOS/UNIX, spreadsheet, and FORTRAN; familiarity with various CAD (e.g. AutoCAD) and GIS (e.g. Arc Info, GRASS) software is also required. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CVEN 5383 - GIS Analysis -- Theory and Practice

*Summer 2010 Registration C E 5383*
This third course reviews GIS software functions and terminology, including data entry (input, editing), manipulation (projection, merge, window, aggregate), analysis (map algebra, overlay, Boolean, interpolation network, measurements, distance, terrain modeling, statistical analysis), query (spatial, attribute), and display/reporting. Integration of various domain-specific systems analysis models with GIS databases is also addressed. Laboratory activities involve programming applications using available GIS. Prereq: graduate and/or upper division standing; completion of CVEN 5381 (or equivalent) and completion of MEng-GIS prerequisites (especially applied Statistics); background in algebra, calculus fundamentals, facility to compute DOS/UNIX, OS/UNIX, spreadsheet, and FORTRAN; familiarity with various CAD (e.g., AutoCAD) and GIS (e.g., Arc Info, GRASS), software is also required. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CVEN 5384 - GIS Management and Policies

*Summer 2010 Registration C E 5384*
This fourth course addresses aspects of GIS planning and development. These include topics of benefit-cost and financial analysis, scheduling, project management, internal and external marketing. Also, addressed are issues of GIS institutional acceptance, the role of computerized spatial data systems in decision making, application of planning techniques for accomplishing resource goals, administrative structure which enhances efficiency of use, and legal considerations involved with development and use of such databases. Prereq: Graduate and/or upper division standing; completion of CVEN 5381 (or equivalent); familiarity with various CAD (e.g. AutoCAD) and GIS (e.g. Arc Info,
GRASS) software is also required. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CVEN 5385 - GIS Relational Database Systems**

*Summer 2010 Registration C E 5385*
Introduces relational database management system concepts with emphasis on GIS. Includes examination of relational database systems from conceptual design through relational schema design and physical implementation. Topics include SQL, database design and implementation for large database systems, transaction management, concurrency control, distributed database management systems and the interaction and progressive integration of GIS technologies and RDBMS technologies. Prereq: Graduate and/or upper division standing; completion of CVEN 5381 or equivalent and completion of MEng-GIS program prerequisites. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**CVEN 5386 - GIS Laboratory**

*Summer 2010 Registration C E 5386*
Provides in-depth experience with use and programming of a particular GIS software, including Arc GIS and related object-oriented programming languages. Advanced functionality for user authoring of software interface, data management and analysis functions and output generation. Exact content will vary by semester. Prereq: Computing and Introduction to GIS or their equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 12 Hours**

- GIS courses are offered online and can be completed concurrently with the information systems courses.
- Students will be able to register for the classes on the Web. There are not any special registration requirements.
- Students need to notify the graduate advising office at the Business School, 303-315-8200, prior to graduation if they are planning to complete the GIS option. Students also need to indicate the completion of the course work when they submit their application for diploma card.

**Integrated Sciences MIS**

► Graduate School Rules apply to this program
Degree Requirements

Minimum Hours

Students must complete a minimum of 30 semester hours at the 4000+ level, of which 1-4 must be project hours or 4-6 must be thesis hours. In accordance with Graduate School rules, a minimum of 18 hours must be at the 5000+ level.

Breadth Requirement

Students are required to take classes in a minimum of two (2) areas and maximum of three (3) areas within the disciplines of computer science, math, chemistry, biology, physics or geology. With approval, students may take a maximum of three (3) hours at the 4000+ level in one other school or college. All classes counted toward the degree must be related to the student’s stated program goal and be approved as part of a program of study by the program director. The student is responsible for insuring that all prerequisite requirements for the classes they take have been met.

Depth Requirement

The student must designate a primary area (either within a department or as an interdisciplinary concentration including, but not limited to, biophysics, biochemistry and computational biology). The student must take a minimum of nine (9) semester hours in the chosen area of concentration.

Project or Thesis

All students must conduct independent research that results in either a thesis or project, which is presented to their committee in written form and is subject to an oral defense.

Graduate Advisor and Project Committee

All candidates for the master of integrated sciences degree must select a faculty advisor and two other faculty members to serve with the advisor as the candidate’s graduate committee. The committee members must be part of the graduate faculty and approved by the program director. The name of the faculty advisor must be submitted to the MIS director no later than two semesters following full admission to the program.

DEGREE TOTAL: 30 HOURS
International Business MS

Advisor: Manuel G. Serapio, Jr.  
Telephone: 303-315-8436  
E-mail: Manuel.Serapio@ucdenver.edu

Faculty

Professors:  
Wayne Cascio, PhD, University of Rochester  
Lawrence Cunningham, DBA, University of Tennessee  
John Ruhnka, JD/LLM, Yale School of Law/Cambridge University

Associate Professors:  
L. Ann Martin, PhD, University of Minnesota  
Kang RaeCho, PhD, University of Washington  
Manuel Serapio, PhD, University of Illinois

Senior Instructors:  
John Byrd, PhD, University of Oregon  
John Turner, PhD, St. Louis University

Instructors:  
Chen Ji, MS, University of Colorado  
Mary Lee Stansifer, PhD, Northwestern University

The master of science in international business prepares individuals for the careers in international business or with international organizations.

The MS program in international business requires the completion of the following:

A. Common Body of Knowledge (CBK)

Required CBK

BUSN 6520 - Managing Individuals and Teams

Summer 2010 Registration BUSN 6520  
Students learn the strengths and weaknesses of their management style and how to work effectively with individual differences. Students also learn how to form teams around purpose/task, diagnose problems and identify and implement solutions by utilizing leadership skills such as setting goals, processes and measures, interpersonal
communication, motivation and conflict management. Students develop an understanding of the effect of the organizational and social context on the behavior of individuals and teams. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6530 - Data Analysis for Managers**

*Summer 2010 Registration* **BUSN 6530**
Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530 and FNCE 6290. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6540 - Legal and Ethical Environment of Business**

*Summer 2010 Registration* **BUSN 6540**
Students develop a working knowledge of legal and ethical parameters for business decision making. The course addresses the legal system and mechanisms for resolving disputes. Topics include constitutional law, torts, product liability, contracts, property law, consumer protection, intellectual property, business entities and employment law. It stresses the influence of legal issues on organizational decision making. Note: Students can substitute ENTP 6822 but credit cannot be received for both. Health Administration students must take BUSN 6541. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6550 - Analyzing and Interpreting Accounting Information**

*Summer 2010 Registration* **BUSN 6550**
Emphasizes the use of accounting statements and data in making business decisions. External financial accounting information and concepts are used for investment and credit decisions. Internal managerial accounting information and concepts are used for product costing, cost analysis and management control. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6560 - Marketing Management**

*Summer 2010 Registration* **BUSN 6560**
Focuses on the formulation and implementation of a marketing plan in the context of the firm's strengths, overall strategy and competitive environment. Emphasis is on understanding the marketing environment and on decision making skills regarding
market selection, pricing, promotion, product configuration and management of distribution channels. **Semester Hours:** 3 to 3  
**When Offered:** FASPRSUM  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6620 - Applied Economics for Managers**

*Summer 2010 Registration BUSN 6620*  
After taking this course, students should be able to apply economic principles to make optimal decisions given firm cost, demand and market circumstances. Also, they should be able to analyze the firms interactions with its competitive market environment. Students will learn basic aspects of federal macroeconomic policy designed to achieve stable prices and economic growth. Also, they will learn to understand the measurement of output (GDP), employment and prices; the conduct of monetary and fiscal policy; and the balance of trade. Prereq: BUSN 6530 or FNCE 6290 and BUSN 6550, both may be taken concurrently. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6640 - Financial Management**

*Summer 2010 Registration BUSN 6640*  
This course is concerned with the business firm's decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students will learn to evaluate a firm's financial position through the examination of its financial statements and to prepare pro forma statements for the firm. Prereq: BUSN 6530 or FNCE 6290, BUSN 6620 (both may be taken concurrently) and BUSN 6550 completed prior and strictly enforced. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 21 Hours**

Waivers of CBK courses are possible. Specific courses may be waived based on a case-by-case evaluation of undergraduate or graduate course work in business completed at a regionally accredited college or university within the last 10 years.

**B. Foreign Language Competency**

Prior to graduation, students must demonstrate proficiency in a foreign language (other than English). This is accomplished through completion of three semesters of college-level course work in a single foreign language with a grade of C or better in all three terms or by passing a proficiency exam.
C. Graduate Core in International Business

Required Courses

INTB 6000 - Introduction to International Business

*Summer 2010 Registration INTB 6000*
An overview of the international business environment, the impact of environmental factors on international business operations, and the identification of current and complex managerial issues facing organizations engaged in international business. Prereq: Completion or waiver of CBK or completion of nine graduate credit hours. *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

INTB 6020 - Cross-Cultural Management

*Summer 2010 Registration INTB 6020*
Focuses on the management of diverse socio-cultural and political norms and values in the global marketplace. The goal of this course is to develop skills in managing impacts of such values and norms on the effectiveness of international business operations and managerial activities. Prereq: INTB 6000 or permission of instructor. *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

INTB 6200 - International Business Policy

*Summer 2010 Registration INTB 6200*
The objective of this course is to develop competence relevant to strategy formulation and implementation in a multi-national enterprise, and in an international context. Provides theoretical knowledge, skills, and sensitivities that help deal effectively with the strategic and managerial problems of managing in a global environment. Prereq: INTB 6000 and 18 graduate credit hours. *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

International Electives (4) (12 semester hours)
Free Elective (1) (3 semester hours)
Advanced Study Requirements in International Business (2) (6 semester hours)

Total: 30 Hours
Notes and Restrictions

*International Topics Electives.* Choose four courses (12 semester hours) from any INTB 6000-level course or higher or any approved international course.

*Free Elective.* One graduate-level class may be selected from any functional area of business, including international business topics classes, except BUSN courses numbered below 6800. International business majors can petition for transfer of 3 semester hours of relevant nonbusiness graduate courses offered at UC Denver’s Downtown Campus.

*Advanced Study Requirements.* This 6-semester-hour requirement may be fulfilled by a master’s thesis, research internship, international field study/study abroad or advanced courses in international business.

Landscape Architecture MLA

Prerequisites

Students are expected to have achieved a basic level of computer literacy and are required to have their own computer.

Program Requirements

The landscape architecture program offers professional and advanced professional graduate degree curricula leading to the degree master of landscape architecture (MLA).

- The first-professional degree program, requiring a six-semester sequence of course work totaling 90 semester hours, is fully accredited by the Landscape Architecture Accreditation Board (LAAB) and recognized by the Council of Educators in Landscape Architecture (CELA).
- Students completing the college’s bachelor of environmental design on the Boulder campus—or completing an undergraduate design degree at another institution—may be given advanced standing in the three-year program. Advanced standing will be based on prior academic accomplishment.
- The advanced professional degree program for qualified students having already earned a first professional degree in landscape architecture (BLA) or related discipline requires 48 semester hours. Advanced standing will be based on prior academic accomplishment.

Course Sequence
The curriculum consists of core and elective course work. Core courses are grouped into five components:

<table>

Typical 90-semester-hour program of study in required courses for the first professional MLA degree

**First Year**

**Fall**

**LDAR 5501 - Landscape Architecture Design Studio 1**

*Summer 2010 Registration L A 5501*

Introduction to basic strategies, methods and techniques of landscape architectural design with emphasis in theory, history, analysis and criticism. First in a three studio course sequence. **Semester Hours: 6 to 6**

Registration is changing. Visit our website for details ucdenver.edu/registration.

**LDAR 5510 - Graphic Media in Landscape Architecture**
Summer 2010 Registration L A 5510
Introduces basic principles and methods associated with analog and digital drawing-plans, sections, perspectives, color, shading, composition and projection. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**LDAR 5521 - History of Landscape Architecture**

Summer 2010 Registration L A 5521
Investigates architectural thought from antiquity to the present. Begins with a review of Greek ideals and proceeds -- through an appreciation of landscape and nature as essential cultural constituents -- with a survey of major themes such as Renaissance Humanism, Enlightenment, Rationalism, Romantic Historicism, Neo-Medievalism, the varieties of Modernism, Neo-Eclecticism and the most recent directions in landscape and garden design. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**LDAR 5572 - Landscape Ecology**

Summer 2010 Registration L A 5572
Focuses on the study of physiography, cultural factors, and aesthetic criteria in relation to landscape, spatial organization, and urban and regional structure. Emphasizes continuity and change in an ecology of both natural and man-made landscape. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 15 Hours**

**Spring**

**LDAR 5502 - Landscape Architecture Design Studio 2**

Summer 2010 Registration L A 5502
Strategies, methods and techniques of landscape architectural design with emphasis in more complex issues, design processes and development and the application of theory and research. Second in a three studio course sequence. Prereq: LDAR 5501 or permission of department chair. **Semester Hours:** 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**LDAR 5532 - Landform Manipulation**

Summer 2010 Registration L A 5532
Focuses on the fundamental technical aspects of landscape architectural design and implementation of related topography, grading and drainage design, landform
manipulation, earthwork calculations, and road alignment. Note: course is to be taken with LDAR 6641, Computer Applications in Landscape Architecture. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**LDAR 6632 - Site Planning**

*Summer 2010 Registration L A 6632*
Focuses on the site planning process, including research and data gathering, data analysis and synthesis, design analysis and its relationship to building program and concept, and design synthesis of site and preparation of site plan. Design through grading, representation, manipulation and calculation of road work, utilities, and other site features. Vertical and horizontal alignment, earthwork and cost computation, and integration with existing and proposed features or systems are covered. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**LDAR 6641 - Computer Applications in Landscape Architecture**

*Summer 2010 Registration L A 6641*
Introduces digital technologies and methods commonly used in Landscape Architecture including primarily CADD, visualization, simulation, graphic design, GIS and other emerging applications. Includes hands-on exercises. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 15 Hours**

**Second Year**

**Fall**

**LDAR 5503 - Landscape Architecture Design Studio 3**

*Summer 2010 Registration L A 5503*
Problem-based studio covering the approaches, technologies and means for planning and designing sites to accommodate an intensive development program on a particular site within a regional context. Covers issues definition, site analysis, programming, development of design strategies, evaluation site planning, placemaking, regionalism and communication. Prereq: LDAR 5501 and LDAR 5502 or permission of department chair. **Semester Hours:** 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**LDAR 6631 - Landscape Construction Materials and Methods**
Summer 2010 Registration L A 6631
Develops understanding of detailed design processes, construction materials and selection of construction methods and documents. Typically taken with LDAR 6605 and 6606 (LDAR Design Studios 5 and 6). Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

LDAR 6670 - Plants in Design

Summer 2010 Registration L A 6670
Focuses on the study of design methods used in landscape architecture. Formal design principles, spatial sequencing, and plant functions are applied in design studies, based on botanical aesthetic traits and physical requirements of a wide variety of plant material. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

One Elective. Semester hours: 3

Total: 15 Hours

Spring

LDAR 6604 - Landscape Architecture Design Studio 4

Summer 2010 Registration L A 6604
Advanced landscape architecture design studio covering situations of urbanization and change of various scales and complexities. This is the first in a two studio course sequence. Prereq: LDAR 5501, 5502, 5503 or permission of department chair. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

LDAR 6605 - Landscape Architecture Design Studio 5

Summer 2010 Registration L A 6605
Advanced landscape architecture design studio covering situations of urbanization and change of various scales and complexities. This is the second in a two studio course sequence. Prereq: LDAR 5501, 5502, 5503, 6604 or permission of department chair. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

LDAR 6620 - Landscape Architecture Theory and Criticism

Summer 2010 Registration L A 6620
Focuses on exploring and assessing current state of theory in landscape architecture and related design disciplines and the ideas undergoing contemporary design approaches. Narrative and explanatory theories are the objects of study. Emphasis is
placed on history and pedagogic theories and their theories and relationships to other disciplines such as art, ecology, geography, architecture and anthropology. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**LDAR 6721 - Regionalism**

*Summer 2010 Registration L A 6721*
Explores environmental and cultural factors that shape regionally responsive design. Prereq: LDAR 5521 and 6620 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

One Elective. **Semester hours:** 3

**Total: 15 Hours**

**Third Year**

**Fall**

**LDAR 6606 - Landscape Architecture Design Studio 6**

*Summer 2010 Registration L A 6606*
Advanced landscape architecture design studio covering situations of urbanization and change of various scales and complexities. This is the first in a two studio course sequence. Prereq: LDAR 5501, 5502, 5503, 6604, 6605 or permission of department chair. **Semester Hours:** 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

Three Electives. **Semester hours:** 9

**Total: 15 Hours**

**Spring**

**LDAR 6607 - Landscape Architecture Design Studio 7**

*Summer 2010 Registration L A 6607*
Advanced landscape architecture design studio covering situations of urbanization and change of various scales and complexities. This is the second in a two studio course sequence. Prereq: LDAR 5501, 5502, 5503, 6604, 6605, 6606 or permission of department chair. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
LDAR 6608 - Landscape Architecture Design Studio 8

Summer 2010 Registration L A 6608
Advanced design studio that reflects topical situations in landscape architectural practice and/or applied research interests of instructor. This is the first in a two studio sequence. Prereq: LDAR 5501, 5502, 5503, 6604, 6605, 6606, 6607 or permission of department chair. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

LDAR 6750 - Professional Practice

Summer 2010 Registration L A 6750
Focuses on studies in the professional practice of landscape architecture and related professions and case problems in initiating and managing a professional practice. Explores the essential elements of professional practice and equips students with the fundamental knowledge and skills requisite to an understanding of and participation in the conduct of practice in landscape architecture. Covers organization of the landscape office, professional services of landscape architects, fee structures and fee management, contracts, legal rights and responsibilities, management, marketing, and delivery of professional services. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Two Electives. **Semester hours:** 6

Total: 15 Hours

Course Sequence

(48-semester-hour MLA for students with a professional degree in landscape architecture or related disciplines)

This route requires 48 semester hours and typically two years of full-time study. The core curriculum consists of two groups:

<table>
<thead>
<tr>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Design</td>
</tr>
<tr>
<td>History and Theory</td>
</tr>
<tr>
<td><strong>Total core courses</strong></td>
</tr>
</tbody>
</table>
Electives 12

Total courses 48

The department chair will advise each student engaged in this program of study.

**Thesis**

The graduate thesis in landscape architecture provides an opportunity for students to conduct independent research and design investigations that demonstrate their capacity for rigorous original thinking. The thesis is not required for graduation and not all students are approved to write a thesis. Choosing to pursue a thesis project constitutes a significant commitment to the endeavor; the topic must be chosen with care and thoughtfully and critically developed. Topics can explore material that has been previously unstudied, reinterpret existing material in a new light, or engage research and design practices in ways that strengthen and define the final project. For all theses, the research and products must meet the highest standards of academic excellence and contribute significantly to the discipline and/or profession.

Pursuing a thesis requires students to enroll in a three-course sequence for a maximum total of 12 semester hours. Students are required to formulate their research proposals two full semesters prior to their enrollment for the 6-semester-hour thesis, typically taken in lieu of the final studio. To proceed through the sequence, students must have completed and passed the research tools and methods class (LA6940) and have secured departmental approval of the thesis proposal. The completion of the thesis is dependent on acceptance of the student's work by the faculty member acting as the thesis chair and by the committee. For work to be accepted it must meet the standards established by the University of Colorado Denver for graduate thesis projects.

**Dual Degree Options**

Students may enroll in a dual degree program with architecture (MArch), with urban design (MUD) or with urban and regional planning (MURP).

**Linguistically Diverse Education, MA Curriculum and Instruction**

**Linguistically Diverse Education**

**Requirements for LDE Program**
Faculty

Information about faculty in this program is available at www.ucdenver.edu/education/lde. The faculty of linguistically diverse education (LDE) believe that effective teaching requires an awareness of and the ability to respond to individual differences. LDE faculty also emphasize the importance of teachers as scholars and reflective practitioners. In particular, teachers must understand how linguistic and cultural diversity affect their teaching. Two themes run throughout all program offerings. The first concerns the importance of recognizing a variety of literacies—“home” literacies, school literacy, “mainstream” literacy, first and second language literacies—and to develop teaching practices that utilize an understanding of the complexity of literacy development across language contexts. The second theme involves the meaningful use of language and literacy to improve the quality of one’s life. As an approach to teaching, this theme emphasizes the creation of diverse, rich environments in which learners experience oral and written language as part of authentic tasks, and where concern for the cultural and linguistic heritage of the students is evident.

Program Options

The LDE program offers options leading to the following:

- a Master of Arts in Curriculum and Instruction
- the Colorado Endorsement for Linguistically Diverse Education
- a Teaching English to Speakers of Other Languages (TESOL) certificate
- a Content Instruction for English Learners (CIEL) certificate
- a Culturally Responsive Urban Education (CRUE) certificate

The program is intended for:

- novice teachers who have completed their Colorado teaching credentials in UC Denver’s graduate teacher education licensure program and are enrolled in the MA in curriculum and instruction with an emphasis in LDE (see 27 semester-hour option)
• veteran elementary and secondary teachers returning to graduate studies for the master’s degree (36 semester hours)
• veteran elementary and secondary teachers returning to acquire Colorado endorsement credentials (24 semester hours)
• individuals interested in teaching English abroad (TESOL: 15 semester hours)
• veteran elementary and secondary teachers returning to graduate studies for a certificate to aid them in helping their English language learners succeed (CIEL: 9 semester hours)
• elementary and secondary teachers who desire preparation in better meeting the needs of culturally diverse learners (CRUE: 9 semester hours)
• individuals interested in teaching adults (MA: 36 semester hours)

The MA is a field-based professional development program involving university faculty and practicing LDE instructors in public school and intensive English settings. Courses, laboratories and practica emphasize scholarly approaches to complex problems of practice and feature interactive, collaborative and practical approaches to working with English language learners.

We advocate a sociocultural approach to issues of language and learning, acknowledging the legitimacy of linguistic and cultural differences and recognizing that academic settings represent important socializing forces in students’ lives. Because of this, we emphasize the “whole learner” in our teaching and in teacher education and teacher development, understanding that individuals do not merely add a language to their repertoire of communication but make fundamental identity adjustments as they progress in their studies. For this reason, all our course work, laboratories and practica experiences are field-based, putting our program participants in contact with veteran teachers and English language learners. We draw heavily on recent scholarship in collaborative approaches to school-university partnerships and systemic school change in developing classroom methods and materials, curricula and teacher development experiences.

The MA program also provides a foundation in teaching English in a variety of contexts in the United States and abroad. Teachers who work in LDE programs or in other content areas (such as art, language arts, math, music, science, social studies or technology), but who wish to integrate LDE principles and strategies into their instruction for their English language learners, will find the MA program relevant to their interests and goals.

Course work includes language teaching methodology, language acquisition, linguistic analysis of English, multicultural foundations, assessment, literacy and other areas. This program has been developed as an advanced course of study for practicing teachers or individuals with some teaching experience.

Applicants who are new to teaching, and who wish to teach in U.S. K–12 public school settings, should inquire about the teacher education licensure program. Applicants who are new to teaching, but who do not need a teaching license (certification) because they
do not wish to teach in U.S. public schools, may consider the TESOL certificate to gain initial teaching experiences before applying for the MA.

**Program Requirements and Courses**

To complete the LDE program and earn a master's degree and/or endorsement, or to earn a TESOL certificate, students must complete the appropriate course work as outlined in the table below.

### Content Instruction for English Learners (CIEL) Certificate Requirements

Students interested in the CIEL certificate must complete the following:

LALC 5030 - Language/Literacy Acquisition Part I Semester Hours: 3

-OR-

LALC 5070 - Linguistic Analysis of English: Implications for Teaching Semester Hours: 3

LALC 5050 - Linguistic and Cultural Issues in Linking Assessment and Instruction Semester Hours: 3

-OR-

LALC 5820 - Techniques in Teaching English as a Second Language Semester Hours: 3

-OR-

LALC 5825 - Methods and Materials of Language Teaching Semester Hours: 3

-OR-

LALC 5826 - Language Teaching Lab Semester Hours: 3

LALC 6912 - Seminar and Practicum in Literacy and Language, ESL and Bilingual Education Semester Hours: 3

**Total: 9 Hours**
Culturally Responsive Urban Education (CRUE)
Certificate Requirements

Those considering the CRUE certificate must complete the following:

LALC 5170 - Race, Class and Culture in Public Schools Semester Hours: 3
LALC 5180 - Working with Communities and Families Semester Hours: 3
LALC 5190 - Culturally Responsive Pedagogy and Practices Semester Hours: 3

Total: 9 Hours

Additional information about the CRUE certificate can be found at www.cruecenter.org/certificate.php.

Cumulative Portfolio of Performance Based Assessments (PBAS)

The portfolio is required for the CDE endorsement, counts as the comprehensive exam for the master's degree and permits you to document your development over the course of your program. Portfolios are reviewed by LDE faculty members. At least two faculty members must agree that the portfolio is acceptable in order to pass. The portfolio process is reviewed in every class as each of the PBAs is completed in the classes, helping students to update their portfolios throughout the program. For more portfolio guidelines, visit the Web site at www.ucdenver.edu/education/lde.

PLACE Exam for Linguistically Diverse Education Endorsement

To add the endorsement to their teaching license, students must pass the PLACE (Program for Licensing Assessments for Colorado Educators) exam for linguistically diverse education, secure and submit the appropriate paperwork from the Colorado Department of Education, and pay fees required for the PLACE and for the endorsement paperwork. Information about PLACE is online at www.place.nesinc.com.

Course Scheduling

During the fall and spring semesters, most university courses are offered in the late afternoon and evening and meet for three hours once a week over a 16-week semester. Some alternative course schedules are available, such as meeting on five Friday-
evening/all-day Saturday combinations. In the summer semester, three-to eight-week sessions are offered, and courses may be in the morning, afternoon or evening.

Planning

For practicing full-time teachers, we recommend taking one course each fall and spring semester and up to two courses each summer. Students may simultaneously complete requirements for the MA and the endorsement for linguistically diverse education. Support for course planning is available in LDE advising sessions—usually held once in fall and once in spring. These sessions help students build their programs around course sequences and availability (some courses are offered only once per year).

Active Status in the Graduate School

Students must complete their programs within seven years, maintaining a GPA of 3.0. Students typically take four courses each calendar year. Failure to enroll over three contiguous semesters will result in a requirement to resubmit part I of the application for admission and a letter of intent.

Management and Organization MS

Program Director: Kenneth L. Bettenhausen
Telephone: 303-315-8425
E-mail: Kenneth.Bettenhausen@ucdenver.edu

Faculty

Professors:
Heidi Boerstler, PhD/JD, Yale University/University of Denver
Wayne Cascio, PhD, University of Rochester
C. Marlena Fiol, PhD, University of Illinois-Urbana-Champaign
Edward O'Connor, PhD, University of Akron
John Ruhnka, JD/LLM, Yale School of Law/Cambridge University

Associate Professors:
Kenneth Bettenhausen, PhD, University of Illinois-Urbana-Champaign
Blair Gifford, PhD, University of Chicago
Sarah Koovor-Misra, PhD, University of Southern California

Assistant Professors:
Vinit Desai, PhD, University of California at Berkeley
Stephanie Johnson, PhD, Rice University
Instructors:
Linda Fried, JD/LLM, University of Miami
Barry McConnell, MBA, University of Colorado
Jeffrey Nystrom, MS, University of Colorado
Ira Selkowitz, JD, University of Denver

The MS management program prepares students for significant managerial responsibilities in the private and public sectors. Core course requirements provide students with advanced understanding of how to manage interpersonal dynamics, effectively design organizations, implement planned change and organizational transformations and develop human resources. Students build on this foundation with any four electives in MGMT, ENTP or INTB, or with the courses that comprise one of 12 career-focused specializations.

The specializations include: business strategy, change and innovation, communications management, enterprise technology management, entrepreneurship and innovation, human resources management, global management, leadership, strategic management, managing for sustainability, quantitative decision methods and sports and entertainment management. These specializations will help students master the tools and knowledge to be successful in each focused competency.

The MS management and organization degree requirements are met by the following:

Management MS Core

Required Management Courses

BUSN 6520 - Managing Individuals and Teams

Summer 2010 Registration BUSN 6520
Students learn the strengths and weaknesses of their management style and how to work effectively with individual differences. Students also learn how to form teams around purpose/task, diagnose problems and identify and implement solutions by utilizing leadership skills such as setting goals, processes and measures, interpersonal communication, motivation and conflict management. Students develop an understanding of the effect of the organizational and social context on the behavior of individuals and teams.

Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MGMT 6320 - Organizational Development

Summer 2010 Registration MGMT 6320
Instruction in the analysis, diagnosis, and resolution of problems in organizing people at
work. Models of organizational change are examined. Group experiences, analysis of cases and readings are stressed. Prereq: BUSN 6520, may be taken concurrently. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6360 - Designing Effective Organizations**

*Summer 2010 Registration MGMT 6360*
Examines how to design organizations within the context of environmental, technological, and task constraints. The emphasis is on learning how to recognize and correct structural problems through the analysis of existing organizations in which the students are involved. Prereq: BUSN 6520, may be taken concurrently. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6380 - Managing People for Competitive Advantage**

*Summer 2010 Registration MGMT 6380*
Focuses on the management of human resources in organizations. Oriented toward the practical application of human resources management principles in areas such as: equal employment opportunity, affirmative action, human resources planning, recruitment, staffing, benefits and compensation, labor relations, training, career management, performance management, and occupational health and safety. Prereq: BUSN 6520, may be taken concurrently. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 12 Hours**

**Management Emphasis (or elective) courses (12-18 semester hours)**

A student may choose to complete the program by taking any four MGMT, INTB or ENTP elective courses.

**Choose from one of the following emphasis areas:**

- communications management
- enterprise technology management
- entrepreneurship and innovation
- global management
- human resources management
- leadership
- quantitative decision methods
- sports and entertainment management
- strategic management
- sustainability management

Communications Management

For the communications management specialization you must complete six courses from the Business School, five of which must be within the MGMT course curriculum. You are allowed no more than four communications courses (three required and one free elective).

Required Courses

COMM 5240 - Organizational Communication

Summer 2010 Registration  CMMU 5240
Relationships among such communication factors as flow, media, channel, diversity, information delivery and organization functioning, morale, and productivity. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4240. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5250 - Difference Matters and Organizational Communication

Summer 2010 Registration  CMMU 5250
Explores theoretical and practical issues regarding relationships between communication processes in contemporary U.S. organizations and socially constructed aspects of individuals' identity (e.g., race, gender, sexual orientation, class, ability and age). Prereq: Undergraduates with senior standing may enroll with permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5405 - Technical Communication: Writing

Summer 2010 Registration  CMMU 5405
Provides intensive practice in technical writing using simulations of professional writing situations. Students analyze diverse audience and communication problems, including those with challenging technical content. Special emphasis is placed on the document-design process and techniques of self-editing. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose one:
MGMT 6800 - Special Topics in Management

Summer 2010 Registration MGMT 6800
Current topics in management will be occasionally offered. Consult the 'Schedule Planner' for specific offerings or contact an advisor for information. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MGMT 6803 - Visionary Leadership

Summer 2010 Registration MGMT 6803
Examines the challenges faced by visionary leaders and the approaches used by these individuals (creation, articulation, and implementation of vision) to transform organizations. Participants utilize these approaches employed by effective leaders to develop plans for their own organizational success. Group experiences, applied readings, and videos are used to clarify the opportunities available. Prereq: BUSN 6520, may be taken concurrently. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MGMT 6804 - Bargaining and Negotiation

Summer 2010 Registration MGMT 6804
Designed as a seminar in bargaining, negotiation and interpersonal conflict management. Through simulations, role plays and personal experience, students practice and develop their negotiation skills and see how negotiations differ depending on the type of situation encountered. Specific topics covered include: the nature of negotiation, the role of the negotiation context, interdependence and power, strategies and tactics of distributive and integrative bargaining, negotiation ethics and interpersonal conflicting resolution. Prereq: BUSN 6520, may be taken concurrently. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 12 Hours

Approved COMM Elective Courses

Choose one:

The following is a list of communication courses that may be used to fulfill a free elective on your degree plan.
For the communications specialization you must complete six courses from the Business School, of which five must be within the MGMT course curriculum. You are allowed no more than four communications courses.
COMM 5151 - Group Communication

Summer 2010 Registration CMMU 5151
Analysis of the impact of small groups on individual behavior in social and task settings. Focuses on the dynamics of small groups, including leadership, roles, norms, goals and cohesion. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Semester Hours: 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5222 - Professional Communication

Summer 2010 Registration CMMU 5222
Provides strategies for analyzing workplace situations, constructing clear and persuasive arguments and narratives to bring about positive change in organizations, and assessing the effectiveness of communication. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4222. Semester Hours: 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5245 - Advanced Organizational Communication

Summer 2010 Registration CMMU 5245
Explores critical theoretical perspectives on communication in complex organizations, including issues and standpoints that have not been included in mainstream theory and research. Analyzes assumptions and pragmatic solutions associated with these theories. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4245. Semester Hours: 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5260 - Communication and Conflict

Summer 2010 Registration CMMU 5260
Studies the influence of communication on intrapersonal, interpersonal, intragroup and intergroup conflict situations. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Semester Hours: 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5262 - Mediation

Summer 2010 Registration CMMU 5262
Explores theoretical and practical aspects of mediation in a variety of contexts ranging from divorce mediation to labor-management disputes. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM
COMM 5270 - Intercultural Communication

*Summer 2010 Registration CMMU 5270*
Examines the philosophy, process, problems, and potentials unique to communication across cultural boundaries. Prereq: Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5280 - Communication and Change

*Summer 2010 Registration CMMU 5280*
Examines the role of communication in change processes of various kinds, including social change and diffusion of innovations. Prereq: Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5500 - Health Communication

*Summer 2010 Registration CMMU 5500*
Examines the role of communication in a wide range of health contexts. Topics include cultural constructions of health and illness, public health communication campaigns, client-provider interactions, telemedicine, community-based health programs and medical journalism. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4500. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5505 - Technical Communication: Editing

*Summer 2010 Registration CMMU 5505*
Provides intensive practice in editing technical documents. Emphasis is on contextual editing (i.e., editing parts of a document as they relate to the whole document and the communication purpose). Students discuss the editor's role, review editing strategies, and examine methods of increasing document usability and readability. Prereq: COMM 5405. Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMM 5640 - Advanced Public Relations

*Summer 2010 Registration CMMU 5640*
Examines key public relations practices in private, not-for-profit and public sectors.
Strategic planning processes, research methods, evaluation, reports, and collateral development are addressed, with an emphasis on the intersection of theory and practice. Prereq: COMM 4635 or COMM 5635. Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4640. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**COMM 5760 - Computer-Mediated Communication**

*Summer 2010 Registration CMMU 5760*
Analysis and discussion of the nature, use, and effects of computer-mediated communication in interpersonal, work, educational, societal and international contexts. Focus is on the social aspects of computer-mediated communication rather than on specific software or hardware technologies. Prereq: Undergraduates with senior standing may enroll by permission of instructor. Cross-listed with COMM 4760. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**COMM 5830 - Visual Principles in Technical Communication**

*Summer 2010 Registration CMMU 5830*
Explores the rhetoric and usability of typography and text displays, tables and charts, data graphics, technical pictorials, page and screen layout, and other visual elements of technical communication. The course focuses on principles and research, not software training. Prereq: COMM 5405. Undergraduates with senior standing may enroll by permission of instructor. Cross-listed with COMM 4830. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Enterprise Technology Management**

*Required Courses*
Choose four:

**ISMG 6430 - Information Systems Security and Privacy**

*Summer 2010 Registration ISMG 6430*
Designed to develop knowledge and skills for security of information and information systems within organizations. Focuses on concepts and methods associated with planning, designing, implementing, managing, and auditing security at all levels and on all systems platforms, including enterprise systems. This course presents techniques for assessing risk associated with accidental and intentional breaches of security as well as disaster recovery planning. Prereq: ISMG 6180 or BUSN 6610 (6810). **Semester Hours:**
ISMG 6450 - IT Project Management

Summer 2010 Registration ISMG 6450
Focuses on how firms successfully manage the adoption of IT. Projects and program management principles are the primary focus of this course. Topics covered include approaches to prioritizing projects, estimating cost and time-to-market, build vs. buy decision, planning, monitoring and controlling implementation, measurement, total cost of ownership, effective management of both behavioral and technical aspects of the project and change management. Prereq: ISMG 6180 or BUSN 6610 (6810). Semester Hours: 3 to 3

When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6460 - Emerging Technologies

Summer 2010 Registration ISMG 6460
Provides an introduction to the expansive array of information technologies that form the infrastructure of a modern business enterprise. Emphasis is placed on learning conceptual technological foundations and understanding the business value of the various technologies. The purpose of the course is to develop the student's ability to discuss recent technological advancements with other IT professionals and management. Technology assessment is emphasized. Prereq: ISMG 6180 or BUSN 6610 (6810). Cross-listed with BUSN 6800. Semester Hours: 3 to 3

When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6420 - Global Enterprise Systems

Summer 2010 Registration ISMG 6420
Examines the evolution of global enterprise systems - from internally focused enterprise resource planning (ERP) client or server systems to externally focused eBusiness. Studies the types of issues managers need to consider in implementing cross-functional integrated enterprise systems. Examines the general nature of global enterprise computing, re-engineering principles and the technical foundations of client or server systems and enterprise information architectures. Students learn about the global enterprise systems marketplace. Topics include the tools and methodology, modules, processes and industry initiatives. Finally, the course looks into the future and predicts enterprise system trends. The objective of the course is to make students aware of the potential and limitations of global enterprise systems. The objective will be reached through case studies, lectures, guest speakers and a group project. Prereq: ISMG 6180 or BUSN 6610 (6810). Semester Hours: 3 to 3

When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.
Total: 12 Hours

Entrepreneurship and Innovation

ENTP 6000 - Fundamentals of Entrepreneurship

_Summer 2010 Registration ENTP 6000_
Focuses on the concepts, skills, know-how, attitudes, information, and alternatives that are relevant for start-up and early-stage entrepreneurs, entrepreneurial managers, and their stakeholders. Speakers, exercises, and lectures focus on the critical role of opportunity creation and recognition, and the entrepreneur as the principal success factor in new entrepreneurial formation and building. _Semester Hours:_ 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENTP 6020 - The Business Plan

_Summer 2010 Registration ENTP 6020_
Business plan development which incorporates all key ingredients necessary for various users. Includes the ins and outs of business plans for new ventures through environmental scans of new business opportunities, case studies, by sharing the experience of entrepreneurs and investors that have been through the process and by writing a business plan, either individually or with a team of other students. _Semester Hours:_ 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

6000-level ENTP courses (2) or
6000-level ENTP course (1) and 6000-level MGMT course (1) (6 semester hours)

Total: 12 Hours

Global Management

_required Courses_

INTB 6000 - Introduction to International Business

_Summer 2010 Registration INTB 6000_
An overview of the international business environment, the impact of environmental factors on international business operations, and the identification of current and complex managerial issues facing organizations engaged in international business. _Prereq:_ Completion or waiver of CBK or completion of nine graduate credit hours. _Semester Hours:_ 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
INTB 6020 - Cross-Cultural Management

*Summer 2010 Registration INTB 6020*

Focuses on the management of diverse socio-cultural and political norms and values in the global marketplace. The goal of this course is to develop skills in managing impacts of such values and norms on the effectiveness of international business operations and managerial activities. Prereq: INTB 6000 or permission of instructor. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

MGMT 6040 - International Human Resources Management

*Summer 2010 Registration MGMT 6040*

This course has two objectives: (1) to understand the impact of cultural differences in the management of people in multinational firms; and (2) to compare and contrast critical human resource issues in the contexts of domestic and international operations. Topics include recruitment, staffing, training, performance appraisal, compensation, and labor and management relations in markets around the world. (This course qualifies as an international elective for the MS in International Business program.) Prereq: MGMT 6380 or BUSN 6520 (or equivalent). Cross-listed with INTB 6040. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Any travel-study program or
6000-level INTB course (3 semester hours)

Total: 12 Hours

Leadership

Prerequisite

BUSN 6530 - Data Analysis for Managers
Summer 2010 Registration  
**BUSN 6530**
Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530 and FNCE 6290. **Semester Hours:** 3 to 3  **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

Required Courses

**INTB 6000 - Introduction to International Business**

**Summer 2010 Registration**  
**INTB 6000**
An overview of the international business environment, the impact of environmental factors on international business operations, and the identification of current and complex managerial issues facing organizations engaged in international business. Prereq: Completion or waiver of CBK or completion of nine graduate credit hours. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENTP 6000 - Fundamentals of Entrepreneurship**

**Summer 2010 Registration**  
**ENTP 6000**
Focuses on the concepts, skills, know-how, attitudes, information, and alternatives that are relevant for start-up and early-stage entrepreneurs, entrepreneurial managers, and their stakeholders. Speakers, exercises, and lectures focus on the critical role of opportunity creation and recognition, and the entrepreneur as the principal success factor in new entrepreneurial formation and building. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6803 - Visionary Leadership**

**Summer 2010 Registration**  
**MGMT 6803**
Examines the challenges faced by visionary leaders and the approaches used by these individuals (creation, articulation, and implementation of vision) to transform organizations. Participants utilize these approaches employed by effective leaders to develop plans for their own organizational success. Group experiences, applied readings, and videos are used to clarify the opportunities available. Prereq: BUSN 6520, may be taken concurrently. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6804 - Bargaining and Negotiation**
Summer 2010 Registration MGMT 6804
Designed as a seminar in bargaining, negotiation and interpersonal conflict management. Through simulations, role plays and personal experience, students practice and develop their negotiation skills and see how negotiations differ depending on the type of situation encountered. Specific topics covered include: the nature of negotiation, the role of the negotiation context, interdependence and power, strategies and tactics of distributive and integrative bargaining, negotiation ethics and interpersonal conflicting resolution. Prereq: BUSN 6520, may be taken concurrently. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MGMT 6800 - Special Topics in Management

Summer 2010 Registration MGMT 6800
Current topics in management will be occasionally offered. Consult the 'Schedule Planner' for specific offerings or contact an advisor for information. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 12 Hours

Management of Change

Required Courses

Choose four:

BUSN 6811 - IT and New Business Paradigms

Summer 2010 Registration BUSN 6811
Introduces graduate students to the relationship between information technology and the other functional areas of the business. During the course, students have an opportunity to listen and learn from guest speakers who have been involved with either guiding or interpreting the impact of information technology among functional areas of existing or new business. Through the use of current readings, guest lectures and case analysis, students examine various models of IT and new business paradigms to determine the decisions and success criteria for integrating IT in ongoing business. a unique feature of the class will be the opportunity for students to present proposals and projects to be critiqued by individuals with IT or business experience. Those individuals provide feedback and perspectives regarding potential IT or new business paradigm activities. Prereq: Permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6830 - Business and the Natural Environment
Summer 2010 Registration **BUSN 6830**

Class considers the impact of economic activity on the natural environment and the regulatory, market and corporate voluntary responses to reducing this impact. Topics include externalities, life cycle assessment, environmental accounting, corporate environmental reporting, ISP 14000 certification and sustainability. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENTP 6820 - Business Consulting**

Summer 2010 Registration **ENTP 6820**

Assists to understand how to successfully grow experience and current knowledge so that any future business consulting goals are realized, regardless of whether the student is an "inside" consultant to the organization or an "Outside" consultant to many organizations. Students are expected to identify experiences, current knowledge, and future goals. The course includes "Practice" of 32 topics within 16 classes. Students learn how to identify root problems instead of treating the symptoms. Most importantly, student deliver recommendations and implement the optimum solution. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6730 - Human Resources Management: Performance Management**

Summer 2010 Registration **MGMT 6730**

Focuses on the design and implementation of human resources management systems to assess and enhance employee performance. Areas of study include performance measurement, rater training, goal setting and feedback. Prereq: MGMT 6380. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6803 - Visionary Leadership**

Summer 2010 Registration **MGMT 6803**

Examines the challenges faced by visionary leaders and the approaches used by these individuals (creation, articulation, and implementation of vision) to transform organizations. Participants utilize these approaches employed by effective leaders to develop plans for their own organizational success. Group experiences, applied readings, and videos are used to clarify the opportunities available. Prereq: BUSN 6520, may be taken concurrently. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6804 - Bargaining and Negotiation**
Summer 2010 Registration  
**MGMT 6804**
Designed as a seminar in bargaining, negotiation and interpersonal conflict management. Through simulations, role plays and personal experience, students practice and develop their negotiation skills and see how negotiations differ depending on the type of situation encountered. Specific topics covered include: the nature of negotiation, the role of the negotiation context, interdependence and power, strategies and tactics of distributive and integrative bargaining, negotiation ethics and interpersonal conflicting resolution. Prereq: BUSN 6520, may be taken concurrently. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6821 - Managing for Sustainability**

Summer 2010 Registration  
**MGMT 6821**
This course will consider how companies are using social responsibility as a competitive advantage. The so-called green revolution is calling for organizations to take on increasing responsibility for environmental conservation, employee well being, and community development. This course considers how organizations can work with various stockholders (employees, customers, communities, society-at-large) to develop and promote mutually beneficial products and solutions to key social needs and concerns. **Semester Hours:** 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 12 Hours

**Managing Human Resources**

**Prerequisites**

**BUSN 6530 - Data Analysis for Managers**

Summer 2010 Registration  
**BUSN 6530**
Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530 and FNCE 6290. **Semester Hours:** 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6380 - Managing People for Competitive Advantage**
**Summer 2010 Registration MGMT 6380**
Focuses on the management of human resources in organizations. Oriented toward the practical application of human resources management principles in areas such as: equal employment opportunity, affirmative action, human resources planning, recruitment, staffing, benefits and compensation, labor relations, training, career management, performance management, and occupational health and safety. Prereq: BUSN 6520, may be taken concurrently. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Required Courses**

Choose four:

**BUSN 6540 - Legal and Ethical Environment of Business**

*Summer 2010 Registration BUSN 6540*
Students develop a working knowledge of legal and ethical parameters for business decision making. The course addresses the legal system and mechanisms for resolving disputes. Topics include constitutional law, torts, product liability, contracts, property law, consumer protection, intellectual property, business entities and employment law. It stresses the influence of legal issues on organizational decision making. Note: Students can substitute ENTP 6822 but credit cannot be received for both. Health Administration students must take BUSN 6541. **Semester Hours:** 3to 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6040 - International Human Resources Management**

*Summer 2010 Registration MGMT 6040*
This course has two objectives: (1) to understand the impact of cultural differences in the management of people in multinational firms; and (2) to compare and contrast critical human resource issues in the contexts of domestic and international operations. Topics include recruitment, staffing, training, performance appraisal, compensation, and labor and management relations in markets around the world. (This course qualifies as an international elective for the MS in International Business program.) Prereq: MGMT 6380 or BUSN 6520 (or equivalent). Cross-listed with INTB 6040. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**INTB 6040 - International Human Resources Management**

*Summer 2010 Registration INTB 6040*
This course has two objectives: (1) to understand the impact of cultural differences in the management of people in multinational firms; and (2) to compare and contrast critical human resource issues in the contexts of domestic and international operations. Topics
include recruitment, staffing, training, performance appraisal, compensation, and labor and management relations in markets around the world. (This course qualifies as an international elective for the MS in International Business program.) Prereq: MGMT 6380 or BUSN 6520 (or equivalent). Cross-listed with MGMT 6040. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6710 - Human Resources Management: Staffing**

**Summer 2010 Registration MGMT 6710**
Focuses on the design and implementation of human resources management systems to recruit and select employees. Areas of study include planning, job analysis, external and internal recruitment and selection, and decision making. Prereq: MGMT 6380 and BUSN 6530. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6720 - Human Resources Management: Training**

**Summer 2010 Registration MGMT 6720**
Methods, theories, research findings, and issues in training. Topics include how to design, deliver, and evaluate training programs. Prereq: MGMT 6380. Cross-listed with MGMT 4430. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6730 - Human Resources Management: Performance Management**

**Summer 2010 Registration MGMT 6730**
Focuses on the design and implementation of human resources management systems to assess and enhance employee performance. Areas of study include performance measurement, rater training, goal setting and feedback. Prereq: MGMT 6380. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6740 - Human Resources Management: Compensation**

**Summer 2010 Registration MGMT 6740**
Develop and administer pay systems considering economic and social pressures, traditional approaches and strategic choices in managing compensation. Current theory research and practice. Students design a compensation strategy and a system that translates that strategy into reality. Prereq: MGMT 6380 and BUSN 6530. Cross-listed with MGMT 4450. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 12 Hours**
Managing for Sustainability

Courses and course numbers in this emphasis were still being finalized when this catalog went to print. See a graduate advisor for details.

Quantitative Decision Methods

Prerequisite

(completion of prerequisite is in addition to the 30-hour MS in management and organization)

BUSN 6530 - Data Analysis for Managers

Summer 2010 Registration BUSN 6530
Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530 and FNCE 6290. Semester Hours: 3 to 3 When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

Required Courses

Choose four:

BUSN 6630 - Management of Operations

Summer 2010 Registration BUSN 6630
This course is concerned with the production and delivery of goods and services. It provides an overview of a variety of key Operation Management issues including scheduling, capacity determination, facility location and layout, distribution and related topics. The use of model-assisted decision making is emphasized. Semester Hours: 3 to 3 When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6820 - Project Management

Summer 2010 Registration BUSN 6820
Introduces the knowledge and skills of Project Management (PM) in a business environment. Emphasis will be on the entire project life cycle, the project management process groups and the knowledge areas as presented in the Project Management Body of Knowledge (PMBOK) from the Project Management Institute (PMI). Managerial
aspects, quantitative tools and traditional techniques of Project Management will be covered. Application to various industries will be included. Note: cannot receive credit for both BUSN 6820 and DSCI 6820. Cross-listed with DSCI 6820 and URPL 6686. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**DSCI 6820 - Project Management**

*Summer 2010 Registration* **DSCI 6820**  
Introduces the knowledge and skills of Project Management (PM) in a business environment. Emphasis will be on the entire project life cycle, the project management process groups and the knowledge areas as presented in the Project Management Body of Knowledge (PMBOK) from the Project Management Institute (PMI). Managerial aspects, quantitative tools and traditional techniques of Project Management will be covered. Application to various industries will be included. Note: cannot receive credit for both DSCI 6820 and BUSN 6820. Cross-listed with BUSN 6820 and URPL 6686. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6822 - Services Operations**

*Summer 2010 Registration* **BUSN 6822**  
Examines the unique issues involved in the management of service operations. Operations Management principles specific to service industries are given in depth coverage. In addition, simulation is introduced as a technique for studying service industries. Note: cannot receive credit for both BUSN 6822 and DSCI 6822. Prereq: BUSN 6530 or permission of instructor. Cross-listed with DSCI 6822. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**DSCI 6822 - Services Operations**

*Summer 2010 Registration* **DSCI 6822**  
Examines the unique issues involved in the management of service operations. Operations management principles specific to service industries are given in-depth. In addition, simulation is introduced as a technique for studying service industries. Note: Cannot receive credit for both BUSN 6822 and DSCI 6822. Prereq: BUSN 6530 or permission of instructor. Cross-listed with BUSN 6822. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6824 - Business Forecasting**
Summer 2010 Registration BUSN 6824
Modern businesses use forecasts in marketing, finance, accounting, human resources management and supply chain and production management decision making. This course focuses on practical application of forecasting techniques, choosing and comparing appropriate methods and applying the results to the business application. Note: Can only receive credit for one of the cross listed courses. Prereq: BUSN 6530 or FNCE 6290. Cross-listed with DSCI 6230 and FNCE 6372. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

DSCI 6230 - Business Forecasting

Summer 2010 Registration DSCI 6230
Modern businesses use forecasts in marketing, finance, accounting, human resources management and supply chain and production management decision-making. This course focuses on practical application of forecasting techniques, choosing and comparing appropriate methods and applying the results to the business application. Note: Can only receive credit for either DSCI 6230, BUSN 6824, or FNCE 6372. Prereq: BUSN 6530 or FNCE 6290. Cross-listed with BUSN 6824 and FNCE 6372. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6826 - Supply Chain Management

Summer 2010 Registration BUSN 6826
Introduces the application of purchasing, operations, and logistics to the entire supply chain of an organization. Because of globalization and the rapid advancement of information technology, emphasis is placed on integration management of processes and systems, relationship management of upstream and downstream players and strategies that incorporate current and future trends. Note: Cannot receive credit for both BUSN 6826 and DSCI 6826. Cross-listed with DSCI 6826. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6828 - Business Applications of Data Mining

Summer 2010 Registration BUSN 6828
Addresses statistical approaches to the very large data sets increasingly common in business applications such as internet-based business, fraud detection, credit scoring and market segmentation. Topics include limitations of classical statistical when applied to large data sets, alternative approaches and applications of key data mining algorithms such as logistic regression, decision trees and cluster analysis. Emphasis is placed on proper choice of method, interpretation of the results and understanding of the strengths and limitations of the methods. Students are expected to analyze and report on a variety of data sets drawn from business applications areas. Note: cannot receive credit for both
BUSN 6828 and DSCI 6828. Prereq: BUSN 6530 or permission of instructor. Cross-listed with DSCI 6828.

**Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

or

**DSCI 6828 - Business Applications of Data Mining**

*Summer 2010 Registration DSCI 6828*

Addresses statistical approaches to the very large data sets increasingly common in business applications such as internet-based business, fraud detection, credit scoring and market segmentation. Topics include limitations of classical statistical when applied to large data sets, alternative approaches and applications of key data mining algorithms such as logistic regression, decision trees and cluster analysis. Emphasis is placed on proper choice of method, interpretation of the results and understanding of the strengths and limitations of the methods. Students are expected to analyze and report on a variety of data sets drawn from business application areas. Note: Cannot receive credit for both BUSN 6828 and DSCI 6828. This course focuses on techniques for formulating marketing plans for various types of sports organizations. The course deals with marketing issues particularly germane to sports organizations such as: fans as consumers, fan loyalty, sports pricing, servicescapes, player development and sports sponsorships. This course includes lectures, guest speakers, cases, examinations and student group projects. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 12 Hours

Courses and course numbers in this emphasis were still being finalized when this catalog went to print. See a graduate advisor for details.

Strategic Management
Students pursuing a dual MBA/MS in organization and management are not eligible for this emphasis.

**Prerequisites**

**BUSN 6530 - Data Analysis for Managers**

*Summer 2010 Registration BUSN 6530*

Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530 and FNCE 6290. **Semester Hours: 3** **When Offered: FASPRSUM**

Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6550 - Analyzing and Interpreting Accounting Information**

*Summer 2010 Registration BUSN 6550*

Emphasizes the use of accounting statements and data in making business decisions. External financial accounting information and concepts are used for investment and credit decisions. Internal managerial accounting information and concepts are used for product costing, cost analysis and management control. **Semester Hours: 3** **When Offered: FASPRSUM**

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Required Courses**

**BUSN 6560 - Marketing Management**

*Summer 2010 Registration BUSN 6560*

Focuses on the formulation and implementation of a marketing plan in the context of the firm's strengths, overall strategy and competitive environment. Emphasis is on understanding the marketing environment and on decision making skills regarding market selection, pricing, promotion, product configuration and management of distribution channels. **Semester Hours: 3** **When Offered: FASPRSUM**

Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6640 - Financial Management**

*Summer 2010 Registration BUSN 6640*

This course is concerned with the business firm's decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students will learn to
evaluate a firm’s financial position through the examination of its financial statements and to prepare pro forma statements for the firm. Prereq: BUSN 6530 or FNCE 6290, BUSN 6620 (both may be taken concurrently) and BUSN 6550 completed prior and strictly enforced. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6710 - Strategic Management**

*Summer 2010 Registration* BUSN 6710

Concerned with the development of a general management perspective in establishing the strategic direction for an enterprise. Students gain an understanding of strategy formulation and implementation within the context of the global environment. Emphasis is on the integration of knowledge acquired in the previous functional area courses. Note: This course is intended as a final semester Capstone course. Prereq: BUSN 6560 and BUSN 6640 - strictly enforced; BUSN 6630 strongly recommended and may be taken concurrently. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6803 - Visionary Leadership**

*Summer 2010 Registration* MGMT 6803

Examines the challenges faced by visionary leaders and the approaches used by these individuals (creation, articulation, and implementation of vision) to transform organizations. Participants utilize these approaches employed by effective leaders to develop plans for their own organizational success. Group experiences, applied readings, and videos are used to clarify the opportunities available. Prereq: BUSN 6520, may be taken concurrently. **Semester Hours:** 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 12 Hours**

**Free Electives (6 semester hours)**

Free electives can be anything in the Business School (graduate level), except BUSN prefix courses below 6800. Any 6000-level or higher ACCT, FNCE, ENTP, MKTG, MGMT, ISMG, INTB or HLTH course can count as your free elective requirement.

*For the communications emphasis, the student is allowed to use an approved COMM course as the free elective.*

**Marketing MS**
Program Director: David Forlani  
Telephone: 303-315-8420  
E-mail: David.Forlani@ucdenver.edu

Faculty

Professors:
Lawrence Cunningham, DBA, University of Tennessee  
Susan Keaveney, PhD, University of Colorado  
Clifford Young, PhD, University of Utah

Assistant Professors:
David Forlani, PhD, University of Minnesota  
Vick Lane, PhD, University of Washington  
Madhavan Parthasarathy, PhD, University of Nebraska

Senior Instructor:
Mary Lee Stansifer, PhD, Northwestern University

Instructors:
Peter Miller, MA, Farleigh Dickenson University

The MS in marketing degree is designed to provide the skill sets necessary for you to succeed in middle (e.g., brand manager, advertising account executive) and upper level (e.g., CMO) positions in marketing and for those who interface with an organization's markets (e.g., customer service or operations).

Your MS in marketing degree from the University of Colorado Denver consists of 30 hours:

- 18 semester hours of marketing core courses  
- 12 semester hours of graduate electives

We highly recommend that one of the electives include a marketing-related internship, especially for those making a career change or without prior experience in marketing. Further, as has been our policy, if you feel that you would benefit by substituting a one or two graduate electives for a marketing elective, the marketing program director will help to work out a plan designed to meet your specific career needs. You must complete the following 18 hours of marketing core courses and then you can choose from two paths to complete the remaining 12 hours. You can select the “build your own MS marketing degree” option or one of the nine specializations.

Graduate Core in Marketing
Required Courses

BUSN 6560 - Marketing Management

Summer 2010 Registration BUSN 6560
Focuses on the formulation and implementation of a marketing plan in the context of the firm's strengths, overall strategy and competitive environment. Emphasis is on understanding the marketing environment and on decision making skills regarding market selection, pricing, promotion, product configuration and management of distribution channels. Semester Hours: 3 to 3 When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

MKTG 6010 - Marketing Strategy, Evaluation and Development

Summer 2010 Registration MKTG 6010
Focuses on marketing strategy and marketing planning. Addresses the formulation and implementation of marketing plans within the context of the overall strategies and objectives of both profit and not-for-profit organizations. There is heavy emphasis on group projects and presentations. Note: This course is intended to be taken near the end of your program. Prereq: BUSN 6560. Semester Hours: 3 to 3 When Offered: FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

MKTG 6020 - International Marketing

Summer 2010 Registration MKTG 6020
Explores problems, practices, and strategies involved in marketing goods and services internationally. Emphasized analysis of uncontrollable environmental forces, including cultures, governments, legal systems, and economic conditions, as they affect international marketing planning. Prereq: BUSN 6560. Note: students cannot receive credit for both MKTG 6020 and INTB 6026. Cross-listed with INTB 6026. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MKTG 6050 - Marketing Research

Summer 2010 Registration MKTG 6050
The objectives relate to effective marketing information management. Objectives include: (1) developing an understanding of the techniques and procedures that can be used to generate timely and relevant marketing information; (2) gaining experience in developing and analyzing information that is decision oriented; and (3) gaining experience in making recommendations and decisions based on relevant and timely information. Computer analysis and projects are employed. Semester Hours: 3 to
When Offered: FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

MKTG 6060 - Buyer Behavior

Summer 2010 Registration MKTG 6060
Why do consumers buy? How can marketing activities influence buyer behavior? Answers to these questions are key to marketing success & business fortune. In this course, we explore how to understand the heart & soul of consumers & examine the strategic implications of consumer psychology. Course participants conduct a market segmentation project that identifies & dissects various buyer groups within a chosen market.

Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MKTG 6200 - Marketing Dashboards & Scorecards

Summer 2010 Registration MKTG 6200
Performance measurement systems help companies monitor their progress and stay on track toward their stated goals and objectives. Some performance measures, such as financial or operations data, can be readily provided by internal information systems. In contrast, marketing performance measures depend upon the activities of skilled marketing researchers to gather external market-based information about the market, customers, and competitors. This hands-on course provides students with a tool-kit for gathering market performance metrics for companies of all sizes, for-profit and not-for-profit, manufacturers or service providers. The course also teaches students how to use tools such as dashboards and scorecards to apply market-performance measures to the firm's strategies and objectives.

Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Marketing Electives

Build Your Own MS Marketing Degree with 12 semester hours of MKTG electives

Choose any four MKTG electives, such as:

MKTG 5939 - Internship/Cooperative Education

Summer 2010 Registration MKTG 5939
Supervised experiences involving the applications of concepts and skills in an employment situation. Prereq: 21 semester hours and 3.5 GPA.

Semester Hours: 1to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 6091 - Strategic Product Marketing**

*Summer 2010 Registration MKTG 6091*

Familiarizes students with key theories and practices regarding products. Successful development of a new product, or extending the life cycle of an existing product. Outlines and necessitates the understanding of product development, key concepts related to successful product management over the course of its life cycle including the way the product function adds synergy to other marketing activities and, in turn, benefits from them. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 6092 - Internet Marketing**

*Summer 2010 Registration MKTG 6092*

Explores how the marketing function has irreversibly changed as a result of the internet and to lay out basic marketing strategies for successful online marketing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 6094 - Marketing Issues in the Chinese Environment**

*Summer 2010 Registration MKTG 6094*

This course assesses numerous marketing and marketing related topics in the Chinese environment with the objective of helping the graduate student develop managerial and marketing expertise. In specific, the course pinpoints key developments in the Chinese
business environment, develops expertise in conducting market opportunity analysis, assesses market entry conditions and strategies and applies marketing mix strategies in the context of the Chinese environment. Note: It is recommended for students to take BUSN 6560 or INTB 6000 prior to this course. Cross-listed with INTB 6094. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 6120 - Non-Profit and Social Marketing**

*Summer 2010 Registration MKTG 6120*

In this course, students will examine the role and application of marketing processes in non-profit organizations, such as those addressing social issues and causes. Using case studies and projects, students will consider the non-profit sector's multiple marketing objectives, which include aiming to change behavior, developing donor relationships, and creating partnerships with for-profit organizations. Students will consider these perspectives while applying marketing concepts such as segmentation, positioning, branding, and the marketing mix. Prereq: BUSN 6560. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 6700 - Marketing Travel Study**

*Summer 2010 Registration MKTG 6700*

This is a 2-week travel course, designed to focus on the marketing of the specific country we visit. In the past the travel course has been to Spain and Costa Rica, but the country of destination may be different every time (usually offered every other year). While in the country, students will visit companies (such as advertising agencies, marketing research firms, local grocery stores, marketing departments of multinational corporations, etc.), have lectures/discussions on marketing in that country and work on a marketing plan for a local company or not-for-profit organization. Prereq: BUSN 6560. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 30 Hours**

...or complete one of the following marketing specializations (listed alphabetically).

**Marketing Specializations**

The specializations are areas of focus that will appeal to those who have specific interests or are looking to apply their marketing acumen in particular contexts (e.g., interface with engineering or work in a multinational or nonprofit environment). A 3-
A semester-hour internship can be substituted for an elective in any area of specialization with the approval of the marketing program director.

**Brand Management and Marketing Communications**

Are you interested in a career in advertising, promotions or public relations? How about furthering your career in marketing management? Advertising, promotion and public relations managers are creative, highly-motivated individuals who are flexible yet can meet a deadline. They need good verbal and written communication skills and the ability to work well with people. Similar talents are needed by those involved with brand management. This task is central to all marketers, especially those involved with perceptual positioning and the deliverance of positions in a target market (e.g., those working in any phase of market communication and R&D). The U.S. Bureau of Labor Statistics reports that, because of the high visibility of these positions, these managers are often prime candidates for top C-level positions. The job outlook remains promising but competition will be keen, and the best opportunities will go to those with an MS in marketing or an MS marketing/MBA dual degree. (Don’t take our word for it, see [http://www.bls.gov/oco/ocos020.htm](http://www.bls.gov/oco/ocos020.htm)).

**Required:**

**MKTG 6070 - Integrated Marketing Communications and Brand Identity**

**High-Tech/Entrepreneurial Marketing**

The American economy was built on a spirit of innovation, hard work and entrepreneurship, and this is surely going to be the path that assures continued American dominance in the technology and business development fields. Most smart innovators know that, in addition to the financial and managerial aspects of a business, it is the marketing function that often makes the difference between success and failure. Whether your interest is in corporate intrapreneurship and the development of high-technology oriented innovations or individual entrepreneurship and the development of a small business with minimal funds, knowing how to create and implement appropriate marketing strategies is fundamental to achieving your goals. This specialization allows you to focus on the type of new business creation path that best suits your aspirations while greatly enhancing your endeavor’s probability of success. If you aspire to be the next Bill Gates, this is a “must take” degree path for you.

**Required:**

**MKTG 6091 - Strategic Product Marketing**

*Summer 2010 Registration MKTG 6091*
Familiarizes students with key theories and practices regarding products. Successful development of a new product, or extending the life cycle of an existing product. Summer 2010 Registration MKTG 6092
Explores how the marketing function has irreversibly changed as a result of the internet and to lay out basic marketing strategies for successful online marketing. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
COMM 5285 - Communication Processes in Technology Transfer

Summer 2010 Registration CMMU 5285
Surveys research addressing technology transfer processes. Students examine and critique models of technology transfers and the role of individuals, artifacts, and small teams in technology transfers. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4285. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENTP 6000 - Fundamentals of Entrepreneurship

Summer 2010 Registration ENTP 6000
Focuses on the concepts, skills, know-how, attitudes, information, and alternatives that are relevant for start-up and early-stage entrepreneurs, entrepreneurial managers, and their stakeholders. Speakers, exercises, and lectures focus on the critical role of opportunity creation and recognition, and the entrepreneur as the principal success factor in new entrepreneurial formation and building. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENTP 6020 - The Business Plan

Summer 2010 Registration ENTP 6020
Business plan development which incorporates all key ingredients necessary for various users. Includes the ins and outs of business plans for new ventures through environmental scans of new business opportunities, case studies, by sharing the experience of entrepreneurs and investors that have been through the process and by writing a business plan, either individually or with a team of other students. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENTP 6826 - International Entrepreneurship

Summer 2010 Registration ENTP 6826
Provides the student with an overview of key trends and developments in international business. Familiarize the student with selected theories and concepts of international business and how it affects entrepreneurial functions, including finance, marketing, accounting, organization design and management. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENTP 6860 - Business Planning for Social Entrepreneurs

Summer 2010 Registration ENTP 6860
Strategic planning is a key process both in new and existing organizations. The plan is a road map for achieving your organizational goals and is a vehicle for thinking about,
discussing, researching and analyzing your strategies for sustainability. It is a living
document that helps you plan for the future, measure your achievements, manage your
risk and stay focused. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Internet Marketing**

Are you interested in a degree that blends Web development and application strategies
with marketing? This, then, is the specialization for you. This specialization covers all
aspects of Internet marketing including the functions associated with Web sites for
marketing communication and customer support, one-to-one communication to many
different receiving devices, marketing via social networks, consumer behavior insights
based on offline and online data combination, inventory optimization through CRM-SCM
integration, and a focus on ROI and associated performance metrics. With Internet
marketing poised to take off globally, especially in developing countries where
consumers may not have access to the latest products in local stores, this is indeed the
wave of the future.

**Required:**

**MKTG 6040 - Services Marketing**

*Summer 2010 Registration* **MKTG 6040**

Service industries such as health care, finance, information, entertainment, retailing,
government, and professional services comprise 80% of the total employment and GDP
of the US. Manufacturing firms are increasing look to value-added services to improve
their bottom lines. Yet customer satisfaction with services has been consistently lower
than with goods. This course teaches students how to design and deliver high quality
services, improve customer satisfaction, and thereby increase revenues and profitability.
It also addresses how small, medium, and large firms can develop marketing plans and
strategies in the new service environment. A variety of teaching methods may be used to
demonstrate these concepts, such as cases, projects, field experiences, and/or guest
speakers. **Semester Hours:** 3 to 3  **When Offered:** FALL SPR

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 6092 - Internet Marketing**

*Summer 2010 Registration* **MKTG 6092**

Explores how the marketing function has irreversibly changed as a result of the internet
and to lay out basic marketing strategies for successful online marketing. **Semester
Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
Choose two of the following courses:

MKTG 6070 - Integrated Marketing Communications and Brand Identity

*Summer 2010 Registration MKTG 6070*

A brand’s identity has a substantial influence on an organization's financial wealth. But brand identity is not simply the result of a great product or a creative ad. Utilizing many real examples, historic approaches, and current trends, this course explores how integrated marketing communications help build a brand identity that reverberates with consumers. Participants create an integrated marketing communications campaign. Prereq: BUSN 6560. *Semester Hours: 3 to 3*

Registration is changing. Visit our website for details ucdenver.edu/registration.

MKTG 6090 - Customer Relationship Management

*Summer 2010 Registration MKTG 6090*

Involves the management of customer relationships to maximize customer service and its associated benefits at minimal cost. Includes services marketing concepts and techniques, IT applications, and software. Designed to acquaint students with practices and issues in state-of-the-art customer relationship management systems in an array of different types of organizations. The course initially focuses on the nature of customer relationship management (CRM) the interaction between strategic management planning, corporate culture and CRM. Other topics examined include successful models of CRM, managing the employee or CRM interface, marketing research, and CRM, and customer trust, loyalty, CRM customer service levels, customer service levels, customer profitability or metrics, selecting and integrating CRM software, CRM integration and timing of CRM roll-out. Prereq: BUSN 6560. *Semester Hours: 3 to 3*

Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6828 - Business Applications of Data Mining

*Summer 2010 Registration BUSN 6828*

Addresses statistical approaches to the very large data sets increasingly common in business applications such as internet-based business, fraud detection, credit scoring and market segmentation. Topics include limitations of classical statistical when applied to large data sets, alternative approaches and applications of key data mining algorithms such as logistic regression, decision trees and cluster analysis. Emphasis is placed on proper choice of method, interpretation of the results and understanding of the strengths and limitations of the methods. Students are expected to analyze and report on a variety of data sets drawn from business applications areas. Note: cannot receive credit for both BUSN 6828 and DSCI 6828. Prereq: BUSN 6530 or permission of instructor. Cross-listed with DSCI 6828. *Semester Hours: 3 to 3*

Registration is changing. Visit our website for details ucdenver.edu/registration.

or
DSCI 6828 - Business Applications of Data Mining

Summer 2010 Registration DSCI 6828
Addresses statistical approaches to the very large data sets increasingly common in business applications such as internet-based business, fraud detection, credit scoring and market segmentation. Topics include limitations of classical statistical when applied to large data sets, alternative approaches and applications of key data mining algorithms such as logistic regression, decision trees and cluster analysis. Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6080 - Database Management Systems

Summer 2010 Registration IMSG 6080
The success of today’s business often hinges on the ability to utilize critical information to make the right decisions quickly and efficiently. Transforming mountains of data into critical information to improve decision making is a skill every business decision maker must possess. This focus course covers the database design topics with a focus on enabling business decision making. Detailed topics include collecting, capturing, querying and manipulating data (using SQL and QBE) for simple to medium complex business applications. Commercial database products (e.g. ORACLE and ACCESS) are utilized to demonstrate the design of database applications in management, marketing, finance, accounting, and other business areas. Students will be able to design and implement simple to medium complex database applications after successful completion of this course. Semester Hours: 3 to 3
When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 6240 - Website Development Practice and Technologies

Summer 2010 Registration IMSG 6240
Presents a broad coverage of design principles and techniques to develop effective web sites. The course emphasizes: (1) understanding the principles of web page and web site design and the process of publishing web pages, (2) developing client-side scripts for use in web sites, (3) using server-side programs or scripts to develop dynamic web sites using databases, and (4) understanding technologies for managing large web sites including XML schemas, content management systems and web services. Prereq: IMSG 6080. Semester Hours: 3 to 3
When Offered: FALL
Registration is changing. Visit our website for details ucdenver.edu/registration.
ISMG 6430 - Information Systems Security and Privacy

Summer 2010 Registration ISMG 6430
Designed to develop knowledge and skills for security of information and information systems within organizations. Focuses on concepts and methods associated with planning, designing, implementing, managing, and auditing security at all levels and on all systems platforms, including enterprise systems. This course presents techniques for assessing risk associated with accidental and intentional breaches of security as well as disaster recovery planning. Prereq: ISMG 6180 or BUSN 6610 (6810). Semester Hours: 3 to 3
When Offered: SPRING
Registration is changing. Visit our website for details ucdenver.edu/registration.

Marketing and Business Intelligence

A great increase in ERP, CRM, HRMS and SCM applications over the last decade has created a need for specialists who can manage the many sources of information critical for business growth. Further, increased competition due to globalization has made it critical to have effective and faster decision making across all functions, especially the marketing function, where smart analysis and interpretation of enterprise data is often paramount in the formulation of competitive marketing strategy. If you are seeking a fast-growing and fast-paced area of specialization, this may well be the degree path for you.

Required:

MKTG 6090 - Customer Relationship Management

Marketing for Sustainability

The world has changed. More than ever, companies around the globe need to introduce smart, sustainable brands to lead the way into the future. The strong core of MS marketing courses will give you the skills to become an effective marketing manager, while the specialized set of sustainability courses will give you the knowledge to work toward a better tomorrow. The sustainability courses will focus on the triad of economic, environmental and social sustainable development.

Required:

**MKTG 6040 - Services Marketing**

*Summer 2010 Registration* **MKTG 6040**  
Service industries such as health care, finance, information, entertainment, retailing, government, and professional services comprise 80% of the total employment and GDP of the US. Manufacturing firms are increasing look to value-added services to improve their bottom lines. Yet customer satisfaction with services has been consistently lower than with goods. MKTG 6120 - Non-Profit and Social Marketing

*Summer 2010 Registration MKTG 6120*

In this course, students will examine the role and application of marketing processes in non-profit organizations, such as those addressing social issues and causes. Using case studies and projects, students will consider the non-profit sector's multiple marketing objectives, which include aiming to change behavior, developing donor relationships, and creating partnerships with for-profit organizations. Students will consider these perspectives while applying marketing concepts such as segmentation, positioning, branding, and the marketing mix. Prereq: BUSN 6560. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose two of the following courses:

**BUSN 6830 - Business and the Natural Environment**

*Summer 2010 Registration BUSN 6830*

Class considers the impact of economic activity on the natural environment and the regulatory, market and corporate voluntary responses to reducing this impact. Topics include externalities, life cycle assessment, environmental accounting, corporate environmental reporting, ISP 14000 certification and sustainability. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**BUSN 6850 - Accounting and Finance for Sustainability**

*Summer 2010 Registration BUSN 6850*

Helping companies and communities become more socially and environmentally sustainable requires information and investment. This class introduces internal accounting techniques that aid companies in becoming more eco-efficient and external reporting to help investors value a company along social and environmental dimensions. How and when to report potential environmental liabilities and different models of sustainability reporting are also discussed. At the national level we examine alternative measures of GDP that better represent social and environmental aspects of the country. Markets can be powerful tools for change. We look at emissions trading, microfinance and socially responsible investing. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENTP 6858 - Innovation in the Social Sector**
Summer 2010 Registration ENTP 6858
This course will introduce you to the context, models, trends, opportunities and challenges in social entrepreneurship. Provide you with the framework and tools to develop an opportunity analysis for a social venture of your choice. Engage you in learning community and collaboratively develop a deeper understanding of this emerging field. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MGMT 6821 - Managing for Sustainability

**Summer 2010 Registration MGMT 6821**
This course will consider how companies are using social responsibility as a competitive advantage. The so-called green revolution is calling for organizations to take on increasing responsibility for environmental conservation, employee well being, and community development. This course considers how organizations can work with various stockholders (employees, customers, communities, society-at-large) to develop and promote mutually beneficial products and solutions to key social needs and concerns. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MGMT 6822 - Business Ethics and Corporate Social Responsibility

**Summer 2010 Registration MGMT 6822**
Covers business ethics and corporate social responsibility in the global contexts of employment, marketing, product liability, the environment and other areas. Students compare ethical theories, including utilitarianism, Kantian, Rawlsian, stockholder, stakeholder and social contract and apply some or all of these theories to actual and hypothetical case studies. The doctrine of corporate social responsibility is defined and explored and diverging views of corporate social responsibility are discussed. Examples of how corporate social responsibility can increase a company’s goodwill and net income are analyzed. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Marketing in Nonprofit Organizations

Are you someone who would rather help people, communities and the environment rather than focus on turning a profit? Many of our alumni have followed career paths with nonprofit organizations. They tell us that a strong core in marketing combined with specialized knowledge of the unique needs of not-for-profit organizations helped them to succeed.

**Required:**
MKTG 6040 - Services Marketing

*Summer 2010 Registration MKTG 6030*

Focuses on issues in personal selling and managing the field sales force. Deals with organization sales analysis, forecasting, budgeting and operating, with particular emphasis on the selling task, recruiting, selection, training, compensation, supervision and motivation. Prereq: BUSN 6560. **Semester Hours:** 3 to 3  
**When Offered:** SPRING

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 6070 - Integrated Marketing Communications and Brand Identity**

*Summer 2010 Registration MKTG 6070*

A brand's identity has a substantial influence on an organization's financial wealth. But brand identity is not simply the result of a great product or a creative ad. Utilizing many real examples, historic approaches, and current trends, this course explores how integrated marketing communications help build a brand identity that reverberates with consumers. Participants create an integrated marketing communications campaign. Prereq: BUSN 6560. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Marketing Research**

Marketing and survey researchers gather information about what people think, measure customer satisfaction and repurchase intentions, help companies decide what goods and services to offer and at what price, and detect up-and-coming trends. Marketing researchers need good quantitative skills, strong analytical skills and a good understanding of marketing and buyer behavior. Many of our alumni got their starts in marketing research positions. According to the U.S. Bureau of Labor Statistics, employment is expected to grow faster than average with the best job opportunities for those with an MS marketing degree (Don’t just take our word for it; check out http://www.bls.gov/oco/ocos013.htm).

**Required:**

**MKTG 6040 - Services Marketing**

Choose two of the following courses:

BUSN 6530 - Data Analysis for Managers

Summer 2010 Registration BUSN 6530
Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Note: Students cannot receive credit for both BUSN 6530 and FNCE 6290. Semester Hours: 3 to 3 When Offered: FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

DSCI 6480 - Simulation Modeling
Summer 2010 Registration DSCI 6480
Students learn to model and analyze complex dynamic systems using state-of-the-art software such as Arena. Illustrative application areas include production systems, service systems, distribution systems and health care systems. Topics include creating reliable simulation models, analyzing the input and output from the model and managing simulation projects. A substantial part of the course will be devoted to projects where students define, model and analyze a significant system of their choosing. Note: Cannot receive credit for both DSCI 6480 and BUSN 6834. Prereq: Permission of instructor. Cross-listed with BUSN 6834. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Sports and Entertainment Marketing

The sports business industry is one of the largest and fastest growing in the United States. Add to that the burgeoning music, film, theater, television, cable and other entertainment industries and you've got virtually limitless choices. Every one of those industries needs good marketers. The strong core of marketing courses in the MS marketing program will give you the skills you need to hit the ground running with the specialized courses to teach you how to tailor your skills to the unique needs of the sports and entertainment industries.

Required:

MKTG 6040 - Services Marketing

Service industries such as health care, finance, information, entertainment, retailing, government, and professional services comprise 80% of the total employment and GDP of the US. Manufacturing firms are increasing look to value-added services to improve their bottom lines. Yet customer satisfaction with services has been consistently lower than with goods. This course teaches students how to design and deliver high quality services, improve customer satisfaction, and thereby increase revenues and profitability. It also addresses how small, medium, and large firms can develop marketing plans and strategies in the new service environment. A variety of teaching methods may be used to demonstrate these concepts, such as cases, projects, field experiences, and/or guest speakers. Semester Hours: 3 to 3 When Offered: FALL SPR

Registration is changing. Visit our website for details ucdenver.edu/registration.

MKTG 6820 - Sports & Entertainment Marketing

This course focuses on techniques for formulating marketing plans for various types of sports organizations. The course deals with marketing issues particularly germane to sports organizations such as: fans as consumers, fan loyalty, sports pricing, servicescapes, player development and sports sponsorships. This course includes lectures, guest speakers, cases, examinations and student group projects. Semester
Choose two of the following courses:

**BUSN 6860 - Finance in the Sports Entertainment Industries**

*Summer 2010 Registration BUSN 6860*
This course explores the problems and solutions of financing in sports and entertainment business. It focuses on stadium/venue financing, sports team valuation, entertainment event guarantee estimation, player/artist salary issues and managing disparate revenue streams. The course utilizes speakers, articles, problem sets and cases. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6832 - Law and Negotiation in the Sports/Entertainment Industries**

*Summer 2010 Registration MGMT 6832*
Provides an overview of major legal issues in the sports and entertainment industries. Students develop the skills required to negotiate contracts in these industries. Topics include contracts with athletes (agency, player and sponsorship), stadium financing and sports franchises, labor law and collective bargaining agreements, entertainment contracts in the music, film and live theater fields and copyright, trademark and tort law principles in the sports and entertainment industries. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MGMT 6830 - Sports and Entertainment Management**

*Summer 2010 Registration MGMT 6830*
This course is designed as a speaker series of sports and entertainment industry elite focusing on: industry trends, strategic planning, managing revenue streams, managing media, managing for effectiveness, managing post-merger integration, leadership and leading change. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MKTG 6070 - Integrated Marketing Communications and Brand Identity**

*Summer 2010 Registration MKTG 6070*
A brand's identity has a substantial influence on an organization's financial wealth. But brand identity is not simply the result of a great product or a creative ad. Utilizing many real examples, historic approaches, and current trends, this course explores how integrated marketing communications help build a brand identity that reverberates with consumers. Participants create an integrated marketing communications campaign.
Master in Business Administration for Executives, MBA

Program Director: W. Scott Guthrie
Telephone: 303-623-1888 or 1-800-228-5778

The executive MBA program provides executive-level students with a broad, rigorous 21-month academic experience leading to the master of business administration degree. The program is designed for persons who hold managerial positions in the private and public sectors. It builds upon the knowledge and experience of these executives with a sophisticated, challenging curriculum that can be pursued simultaneously without career interruption.

The executive MBA program emphasizes strategic leadership; the organization in a complex, international environment; and the applied tools of management. Courses are taught through a variety of methods. Case studies, lectures and computer simulation are combined with research projects and other teaching methods to provide students with tools useful in their present positions and applicable to more advanced responsibilities as they progress in their management careers.

Each new session of the executive MBA program begins the last week of August. Classes meet for a full day, once a week, on alternating Fridays and Saturdays, making it possible for those who live outside the Denver area to participate.

Two courses are taken simultaneously throughout the program. The program is supplemented by an intensive orientation at the beginning and a two-day seminar at the conclusion of the first academic year. A second-year seminar is held at an international business center outside of North America.

Mechanical Engineering MEng

► Graduate School Rules apply to this program

The master's of engineering (MEng) is an interdisciplinary degree program designed to meet the needs of those practicing engineers who wish to follow an integrated program of studies in engineering and allied subjects related to the individual student's professional work. Students can combine advanced engineering course work with graduate-level non-engineering courses such as business administration, environmental sciences, social sciences, biological sciences or public administration.
Prospective students are required to present a well-defined objective in order to be admitted to the program. In consultation with faculty advisors, an academic program is developed to meet this objective.

An advisory committee will be appointed for each student by the department. The advisory committee that guides the student is responsible for approving the individual’s degree program and admission to candidacy, and approves the student’s written report and the awarding of the degree.

The requirements for admission are the same as those for the MS degree awarded through the College of Engineering and Applied Science. A minimum of 30 semester hours of academic work are required for the MEng degree. At least 15 of these hours must be at the 5000 level or above in mechanical engineering. A maximum of 12 semester hours may be taken outside of engineering. In addition to course work, a written report is required in the MEng program as a final project (3 semester hours). The report may be related to the student’s professional work. The report will be of the same general quality as that required for the master of science thesis and must be defended orally. It may be based on work done for credit under independent study.

**Mechanical Engineering MS**

> Graduate School Rules apply to this program

For the master of science (MS) degree in mechanical engineering, students may choose between two plans with each plan totaling 30 semester hours. Students following Plan I (thesis option) take 24 semester hours of formal course work plus 6 semester hours of thesis work. Students following Plan II (project option) take 27 semester hours of formal course work plus a 3 semester hour final project requiring a report. Students following Plan I or Plan II must submit a proposal to their examination committee prior to the semester in which they register for their thesis or project semester hours, and the examination committee must approve the proposal for the thesis or project.

Students in either plan may choose one of three options. In the first two options, the student may choose to specialize in either thermal science or mechanics. The third option is the general mechanical engineering option.

The **thermal science option** requires 12 semester hours of course work in analytical methods, numerical methods, fluid mechanics and thermodynamics. The student then selects 9 semester hours of course work in approved electives from a selection of thermal science electives.

The **mechanics option** requires 12 semester hours of course work in analytical methods, numerical methods, elasticity and dynamics. The student then selects 9 semester hours of course work in approved electives from a selection of mechanics electives. For students following Plan I, both the thermal science and mechanics options
allow the student to pick one approved 3-semester-hour elective not necessarily in the chosen specialty. For students following Plan II, both the thermal science and mechanics options allow the student to pick two approved 3-semester hour electives not necessarily in the chosen specialty.

The **general mechanical engineering option** requires the student to take 18 semester hours of required course work in analytical methods, numerical methods, fluid mechanics, thermodynamics, elasticity and dynamics. For students following Plan I, the general mechanical engineering option allows the student to pick two approved 3-semester hour electives. For students following Plan II, the general mechanical engineering option allows the student to pick three approved 3-semester hour electives.

**Media Forensics Emphasis, Recording Arts MS**

- Graduate School Rules apply to this program

**Program Overview**

This unique degree program prepares students from various backgrounds for work in the field of forensic audio and video analysis utilizing the state-of-the-art methods and technology necessary to fight crime in the digital age. Housed within the National Center for Media Forensics (NCMF), this program is unique in that it represents the **only graduate level education in audio and video forensics in the country**.

Students from all disciplines (media production, electrical engineering, general forensics, etc.) are encouraged to apply, as this program enhances scientific inquiry while guiding students through a three-semester cohort curriculum. Classes feature faculty from around the country and emerging avenues of exploration and related legal topics needed in report preparation for expert witness testimony. Digital media evidence acquisition through computer forensics applications will be emphasized in an environment that fosters creativity and individual skills. The capstone of this program will be a research thesis of the student’s choosing under the advisement of the director and associate director of the center as well as an advisory board of forensic professionals from around the world. The thesis will be a topic of exploration throughout the program and will serve to enhance a graduate’s specialty as they enter the work force in private forensic practice, corporate research and development, academic research and teaching, or crime labs on the local, state or federal levels.

**Note:** the application process, requirements and deadlines for the master of science in recording arts emphasis in media forensics will differ from those listed for the traditional
MSRA program. Please refer to the National Center for Media Forensics Web site for up-to-date information regarding application process, requirements and deadlines.

**Curriculum**

The master of science in recording arts emphasis in media forensics comprises 34 semester hours of credit: 30 hours are required courses and 4 hours are thesis. Courses must be completed with a B/3.0 or higher to count toward degree progress. Students are admitted to the program in the fall as a cohort and must follow the curriculum in sequence. Students who do not complete the program in sequence must reapply.

Curriculum and application requirements for the MSRA-MF program are under development and subject to change. Please refer to the National Center for Media Forensics Web site for up-to-date information regarding curriculum and application requirements for the emphasis in media forensics.

**New Directions, Political Science MA**

**Director:** Kathryn Cheever  
**Telephone:** 303-556-5950  
**E-mail:** kathryn.cheever@ucdenver.edu

An alternative track of the political science MA program (Plan II) is offered off-campus through the Center for New Directions in Politics and Public Policy at Chaparral in Douglas County and on the Fort Lewis College campus in Durango. This politics and public policy track presents courses in an intensive weekend format. The emphasis on politics and the policy-making process relates to the ability of leaders to mobilize resources and achieve constituent goals consistent with the public interest. In this context, politics entails communication, and effective politics requires communication. In short, this emphasis on political awareness seeks to help participants utilize the political process as the “art of making what appears to be impossible, possible.”

**Degree Requirements**

Students must complete a total of 33 graduate credit hours to complete the MA degree. All classes are offered in a weekend format which consists of two or three weekend sessions for a given course spread out over a two month period. In most cases, a student will complete all of the weekend sessions of one course before starting the weekend sessions for the next course.

**Core Courses**
PSCI 5014 - Seminar: American Politics

*Summer 2010 Registration P SC 5014*
Foundations of U.S. politics and contemporary political issues. Federal/state/community relations. Relationship among the three branches of the Federal government. Colorado controversies arising under the U.S. Constitution. Cross-listed with PSCI 4094. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 5085 - Comparative Public Policy

*Summer 2010 Registration P SC 5085*
Comparison of public policy making in such areas as health care, environment, family assistance, and employment in the United States and at least two other countries. Prereq: Graduate standing or permission of instructor. Cross-listed with PSCI 4085. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 5324 - Politics, Public Policy and Leadership

*Summer 2010 Registration P SC 5324*
Role of politics in public and nonprofit sectors. Theories of administration and policy-making, emphasizing the role of leadership in public outcomes. Hands-on approach to case studies and use of students' policy experiences in practical application of theories. Cross-listed with PSCI 4324. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 5457 - Seminar: American Political Thought

*Summer 2010 Registration P SC 5457*
An intensive research in and presentation of competing ideas in the development of American political thought and practice, beginning with those of the Iroquois Confederacy and the founders of the United States Constitution. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 5468 - Research Methods in Political Science

*Summer 2010 Registration P SC 5468*
Analysis and evaluation of research methods, techniques, and empirical materials in political science application to Internet research. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 15 Hours**
Electives

In addition to the required core courses, students must take 15 credit hours of political science electives.

[NOTE: Previously earned graduate credit may be submitted for approval to satisfy up to nine hours of the supportive elective requirement. The elective courses offered may change from time to time based on needs, interests and other factors.]

Below are examples of electives taken by New Directions students:

PSCI 5007 - Beyond Political Correctness

*Summer 2010 Registration P SC 5007*
Expects and critiques "political correctness" defined as "ideological narrowing, intolerance and silencing of dissent." Analysis of origins, dynamics and consequences of PC with emphasis on its advantages and disadvantages for practitioners. Foundational works, illustrative cases and contemporary voices. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 5009 - Politics of the Budgetary Process

*Summer 2010 Registration P SC 5009*
Explores budgeting and financial management in the public and nonprofit sectors. An overview of public sector and nonprofit fiscal management is provided, along with thorough exploration of the political influences that affect financial decision-making. Note: Offered as a special topics course in an intensive three-weekend format, which is reflected in the syllabus. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 5024 - State Politics: Focus on Colorado

*Summer 2010 Registration P SC 5024*
Analysis of unique aspects of Colorado government and politics. Political comparison of Colorado with other states. Preparation and discussion of research papers. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PSCI 5084 - Local Government and Administration

*Summer 2010 Registration P SC 5084*
Policy and administrative challenges faced by local government in the 21st Century. Emphasis on cities under federalism, alternative forms of city governance, and new challenges from increasingly diverse constituents. Issues of poverty, public safety, health, transportation, environment, corruption and accountability. Cross-listed with PSCI
4084. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 5274 - Conflict Resolution and Public Consent Building**

*Summer 2010 Registration* P SC 5274
Alternative strategies for resolving or mediating conflicts facing public or nonprofit organizations and for building public consent, with emphasis on personal, interpersonal, organizational, interest-group, cross-cultural, and roots of conflict and bases for consent. Cross-listed with PSCI 4274. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 5354 - Seminar: Environmental Politics and Policy**

*Summer 2010 Registration* P SC 5354
Consideration of competing models of the policy process in natural-resources decision making. Focus on selected case studies. Impact of environmental and pro-growth forces on the political process. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 5374 - Public Priorities for the 21st Century**

*Summer 2010 Registration* P SC 5374
Identification of and planning for social, political, and economic trends in American society likely to transform governmental, nonprofit and private entities. Rigorous examination of and debate on competing priorities such as liberty, security, welfare, equality, diversity, growth and ecology. Cross-listed with PSCI 4374. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 5414 - Organizational Change Agents**

*Summer 2010 Registration* P SC 5414
Explores of strategies for changing public and nonprofit organizations and of ways leadership abilities can be used for this purpose. Analysis of obstacles to organizational change and of methods for overcoming them. Principles of change applied to real-life contexts. Cross-listed with PSCI 4414. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PSCI 5644 - Ethical Responsibilities of Leaders**

*Summer 2010 Registration* P SC 5644
Explores concepts of ethical decision making within the context of public leadership in both the public and non-profit sectors. Universal and individual ethical standards are
examined. Cross-listed with PSCI 4644. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 15 Hours**

**Project Requirement**

All students are required to complete a 3-credit master's project under the direction of a faculty advisor. Registration is done using the Special Processing form, rather than online.

PSCI 5960 - Master's Project

*Summer 2010 Registration* **PSCI 5960**
**Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3 Hours**

**Major Total: 33 Hours**

**Common Course Outcomes**

In addition to clearly stated subject outcomes, all courses will have a common set of outcomes related to the following areas which are considered critical in developing leadership capacities necessary to address the changing public priorities for the 21st century:

- Creativity and innovation
- Changing public priorities
- Political and social diversity
- Ethical accountability
- Deductive and inductive reasoning
- Applied use of appropriate technology
- Strategic planning and decision making
- Resolution of conflicts and public consent building
- Individual, organizational and cultural communication effectiveness

**Course Format**

All courses will be offered in a weekend format that consists of two or three weekend sessions for a given course spread out over a two-month period. Three-weekend
classes are held from 9:00 am to 4:00 pm on both Saturday and Sunday of each weekend session. Two-weekend classes meet from 5:00 until 9:00 p.m. on Friday evening and from 8:30 a.m. until 4:30 p.m. on Saturday and Sunday. In most cases, a student will complete all of the two or three weekend sessions of one course before starting the weekend sessions for the next course. There is typically a 2-3 week break between semesters.

Location

All of the courses for the Denver-based programs are currently offered at the University Center at Chaparral, 20 miles south of downtown Denver. The University Center is located next to the Chaparral High School, just north of Lincoln Avenue at Chambers Road in Douglas County (15653 Brookstone Drive).

Courses for the Durango-based program are currently offered on the campus of Fort Lewis College.

Political Science MA

- Graduate School Rules apply to this program

The political science department offers a master of arts (MA) degree in political science with an emphasis on building academic and practical skills in key areas of the discipline. Research and teaching in the department centers on the major fields of American politics, comparative politics, international relations, political theory and public policy; however, the department also offers more specialized training in human rights, legal studies, gender politics, race and ethnic politics, European studies, indigenous politics and urban politics. Students pursuing the MA have the option of completing the traditional track or an alternative track centered on the study on politics, public policy and leadership. Students completing the program have gone on to PhD programs across the country and work in a variety of areas, including: state and local elected office, government service, directors of community-based organizations and nongovernmental organizations, legislative analysts, UN affiliates, lobbyists, teachers, media analysis and political consulting.

Requirements for Admission

Students applying for admission to the MA program in political science should present at least 18 semester hours of previous academic work in political science, at least 9 hours of which should be at the upper-division or graduate level. The department may make exceptions to these requirements in unusual cases (for instance, if course work in related fields such as psychology, economics and history compensates for the deficiencies in political science). Applicants should present an undergraduate GPA of at
least 3.0 to be considered; however, the department typically admits students with a GPA of 3.2 or higher. In their applications, students must submit transcripts and letters of recommendation (from academic sources) as specified by the Graduate School. In addition, applicants must submit a statement of academic objectives and an academic writing sample. Standardized test scores are not required of applicants, but will be considered if submitted.

In order to take graduate courses in political science, students must either be admitted to the MA program or secure permission as a nondegree student. Nondegree students may take up to 12 semester hours of graduate course work; however, they must first secure permission from the department graduate advisor to enroll in all graduate course work.

**Degree Requirements**

In addition to the requirements for admission and details of the program spelled out here, graduate students in political science must also abide by department rules and procedures specified in the Graduate Student Handbook. Failure to meet these policies may result in a student being dropped from the program.

Under the MA program in political science, two degree plans are available:

- Plan I requires the completion of nine graduate courses (27 semester hours) and a 6-credit thesis
- Plan II requires the completion of ten graduate courses (30 semester hours) and a 3-credit project.

Course work in both plans completed under the traditional track offered on the Downtown Campus must include:

P SC 5000. The State of the Discipline

Additionally, at least one graduate seminar is required in each of the following areas: American politics, comparative politics or international relations, political theory and research methods.

Students will complete between 12 and 15 elective semester hours, depending on whether they are working under Plan I or II, which may be fulfilled through graduate course work in political science, related disciplines, independent study or internships. Ultimately, the total combination of independent study, graduate course work in related disciplines and internship cannot exceed 9 semester hours. With either plan, students are required to complete a minimum of 16 semester hours with the political science department at the University of Colorado Denver, and maintain a minimum B (3.0) overall GPA or better. Students who are on probation must meet regularly with the
graduate advisor and must secure approval from the advisor for all course work while on probation.

Plan II is available both under the traditional MA track offered on the Denver campus, as well as through an alternative track offered off-campus through the Center for New Directions in Politics and Public Policy. For details about this off-campus track in politics and public policy, see New Directions, MA in Political Science.

Psychology MA

- Graduate School Rules apply to this program

Objectives and Requirements

The two major objectives of the MA program are to prepare graduates for doctoral-level study in both PhD and PsyD programs and to train graduates to provide direct service, under supervision, in mental health agencies. Assessment training includes theory, diagnostic interviewing, intelligence testing and some personality testing with both children and adults. We introduce students to the theory and application of major models of psychotherapy and to psychopathology theory and research. We also emphasize the ethical principles that permeate clinical psychology and the application of these principles to problems in mental health practice, teaching and research. Finally, students become well versed in statistical methods. Students take the required courses during their first year in the program. During the second year, they choose to specialize by opting for a research-based thesis and/or an applied internship at a mental health agency. Students also demonstrate competency by defending a thesis or an internship competency project. Students can complete the program in slightly less than two years, and have up to five years to complete the program according to Graduate School Rules.

Admissions

The application deadline is February 1 for the following fall. You are responsible for making sure all materials are in on time. We do not consider late applications. International students should be sure to submit all materials at least two weeks before this deadline (by January 15) so that they arrive at our department on time. Below is condensed information; see the psychology department website for complete information.

Admission Requirements:
• BA or BS from an accredited college or university, with a minimum GPA of 3.5 based on all college course work. However, successful applicants over the past several years have typically held GPAs above 3.5, with an average GPA of 3.7.

• Undergraduate courses in: introductory psychology, psychological statistics and abnormal psychology. Additional courses in psychology are highly desirable; our admissions committee will also look favorably upon courses in the biological and physical sciences.

• Two official transcripts from each college and university attended.

• Graduate Record Exam (GRE) General Test (verbal, quantitative, analytical writing) is required for all applicants. The subject test in psychology is not required, but is strongly recommended for applicants who do not hold an undergraduate degree in psychology. Successful applicants in recent years have typically had GRE verbal plus quantitative scores above 1100. Take both exams at least six weeks before the February 1 deadline so that the scores arrive on time.

• Three letters of recommendation, at least two of which must be academic references, accompanied by the Request for Recommendation form. Recommendations and supplemental application materials are sent directly to the department. Each recommendation should be in a sealed envelope, signed along the back by the recommender.

• Application Forms I and II, with answers to Part II as informative as possible.

• Application fee of $50 ($75 for International Students). Specify “PSY M.A. CLN” on the memo line in the lower left corner of your check.

Financial Information

The University of Colorado Denver administers various forms of financial aid for graduate students: fellowships, scholarships and a number of awards from outside agencies. See the Office of Financial Aid for further information. Additionally, the psychology department offers teaching assistantships each year in such courses as introductory psychology, statistics, research methods and human development. Although we do not guarantee TA positions, we generally have been able to offer positions to most of our interested students.

Contingent upon the availability of grant money, faculty may also offer part-time research assistantships to qualified students. The typical RA position involves data collection and analysis, library research, etc. Some computer and statistical skills are usually required. RA positions are less available than TA positions, and they may arise on very short notice.
In-state tuition waivers and additional stipend monies may be available for doctoral students.

*Please note:* Neither teaching nor research assistantships confer in-state tuition status or include tuition waivers.

**Degree Requirements**

A total of 31 (for thesis students) or 33 (for internship students) semester hours are required for graduation: 25 for required courses and either six thesis hours or eight internship hours. Students must maintain a 3.0 grade point average.

**Demonstration of competence**

Upon completion of the 25 hours of course work (nine courses), students must demonstrate competence in several core areas (e.g., statistics and methods, ethics, assessment, psychotherapy, psychopathology) by completing a thesis or an internship competency project (ICP).

**Internship or Thesis**

Students have the option of completing a master's thesis and/or pursuing an internship. The thesis involves a research project that makes a significant contribution to the field. Topics pursued by students in our master's program have included body image in eating disorders, HIV infection and childhood abuse, humor as a moderator between social conflict and psychological distress, and ethical issues regarding informed consent for psychotherapy.

Students who are particularly interested in going on to PhD programs should strongly consider the thesis option, since most PhD programs prefer individuals who have prior research experience. Applicants who are interested in the thesis option and whose research interests/experience overlap with those of a faculty member should contact that faculty member directly.

Alternatively, students may begin work on an 800-hour internship following successful completion of their courses. Students select internships (subject to program approval) based on personal interests. The greater Denver area offers a rich variety of internship possibilities, and our students have worked at a variety of agencies, including community mental health centers, inpatient and residential treatment facilities, social services, hospitals, probation and diversion programs and university counseling centers.

At minimum, students must complete either an 800-hour internship or a thesis. Students also have the option to complete both or to do a thesis and a 400-hour internship.
Public Administration MPA

The master of public administration (MPA) is designed to provide graduate professional education for students who wish to prepare themselves for careers in public management or policy, in nonprofit organizations or in private corporations that interface with the other sectors. The program also offers to those already in public service an opportunity to pursue additional education as a means of furthering their careers.

MPA AND MCJ—General Information

Admission Requirements

1. A baccalaureate degree from a college or university of accredited standing, with a minimum GPA of 3.0. Two sets of official transcripts are required from all higher education institutions attended.

2. Three recommendations from qualified references. Recommendations may be from professors, employers and/or others acquainted with the prospective student’s professional and/or academic work.

3. Applicants are required to take the GRE, the GMAT or the LSAT unless they meet the requirements for waiver. Standard graduate admission test scores are normally waived when the candidate already has a graduate degree in another
field from an accredited institution. Other applicants may have test scores waived if they have an undergraduate GPA of 3.0 or better and they have significant professional employment in management or policymaking positions for a minimum of 10 years or the equivalent.

4. A current resume highlighting professional accomplishments and community involvement.

5. International students whose first language is not English are required to take the TOEFL or IELTS. A score of 550 or higher on the paper-based exam or 213 or higher on the computer-based exam is required for the MPA or 525/197 for the MCJ.

All application material and test scores should be sent to SPA, University of Colorado Denver, Campus Box 142, P.O. Box 173364, Denver, CO 80217-3364.

SPA will process applications as they come in. Master-level applicants generally receive notification of their admission status three weeks after all materials have been received in the office. The preferred deadlines listed below allow students to receive best consideration for scholarships, financial aid and course selection. Students who do not meet the preferred deadline may still submit application materials until approximately one month before the start of classes and will be considered on a space-available basis.

*Final deadline does not apply to international students who should contact the Office of International Admissions for deadline information.

**Provisional Admission**

Under special circumstances, a student may be admitted on provisional status for one semester. Students admitted on a provisional basis take two courses in their first semester. MPA students may select two of the following: PUAD 5001, 5003 or 5004. They may take no other courses during that semester. Based on their performance in these courses, a decision will be made concerning their admission into the program.

**Nondegree Admissions**
Students may register as nondegree students while developing their application packet. However, students are discouraged from taking many courses as a nondegree student if they hope to pursue a degree. **Nine semester hours taken in the program as a nondegree student may be applied to the master's degree programs with approval of an advisor.** Nondegree student application forms are available in the Office of Admissions or online.

**Transfer of Credit to SPA**

Up to 9 semester hours of appropriate graduate work from an accredited college or university may transfer, if such credit was not applied to a completed degree.

**Limitation of Course Load**

The normal course load for a full-time student is 9 semester hours. A student who is employed full time may not carry more than 9 hours unless an excess load has been approved in advance by the faculty advisor.

**Financial Assistance**

Students in the master's degree programs are eligible for several types of financial assistance. Educational loans require application to the Office of Financial Aid on the Downtown Campus and completion of the FAFSA. A number of students secure internships or other part-time positions with local, state and federal agencies in the Denver metropolitan area. Scholarship assistance is available on a limited basis.

The school receives announcements for fellowships from various government organizations and actively seeks additional funding for student support in the form of internship positions and research assistantships.

Persons interested in applying for financial assistance should inquire in the SPA office. The deadline for current students is March 15 for the fall term. Prospective students seeking scholarship funds should have complete scholarship applications on file at the SPA office by the preferred application deadline for the semester they are requesting funds.

**The Internship Program**

An internship for the MPA and MCJ programs is required for students who have not had significant public, nonprofit or private-sector experience. The purpose of the internship is to continue the linkage between theory and practice that is the philosophical basis of SPA. The internships generally involve part-time work. A maximum of three semester hours will be awarded for internship service. Great care is taken by the SPA to ensure
that the internship experience meets the intellectual needs of the student. Placements have included the Governor’s Office, Colorado General Assembly, Denver Mayor’s Office, City of Denver, Denver Police Department, Boulder Crime Lab, Western Governor’s Association, the National Conference of State Legislatures, the Colorado Department of Public Health and Environment and the Denver Center for the Performing Arts.

**Time Limit for Master’s Degree**

Master’s degree students must complete all course work and degree requirements within six years of registration in their first course.

**Degree Requirements**

The minimum requirements for the basic MPA degree are outlined below. Occasionally, changes are made; students may graduate under the requirements that were in effect when they were admitted.

**1. Graduate Course Work**

All students must complete a minimum of 36 semester hours of graduate course work, with an average of B or better. No more than 6 semester hours of independent study can be applied toward the degree. Students who have not had professional work experience in the public or nonprofit sectors must complete an internship through an additional 3-semester-hour course described in No. 6 below, bringing their total semester-hour requirements to 39.

**2. Complete the Following Core Courses**

All MPA students (with the exception of those in the executive MPA option) must complete the following core courses or approved equivalents:

**PUAD 5001 - Introduction to Public Administration and Public Service**

*Summer 2010 Registration P AD 5001*

Examines the fundamental theories, structures, and processes of governance in the United States. Explores the constitutional foundations and functions of legislative, administrative, and legal institutions. Covers topics such as federalism, public-private relations, and comparative public administration. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5002 - Organizational Management and Change**
Summer 2010 Registration PUAD 5002
This course provides coverage of those elements which, when combined, create a resilient learning organization. Topics include, but are not limited to, organization theory and design, managing human capital, group development and performance, inter- and intra-group communication, information management, and ethical decision making. These topics are presented within the framework of how to organize people to enhance the delivery of public services. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5003 - Research and Analytic Methods

Summer 2010 Registration PUAD 5003
Examines quantitative research methods used to answer questions and test hypotheses in public and non-profit settings. Methods covered include identifying and reviewing scholarly literature; formulating research questions; selecting appropriate design, data collection and sampling strategies; and analyzing data. Topics include causal and descriptive designs, interview and survey methods, and descriptive and inferential statistics such as chi square and regression. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5004 - Economics and Public Finance

Summer 2010 Registration PUAD 5004
Uses economics to explore public and private sector roles, and the allocation of resources in the public sector. Introduces the concepts of public goods, market failure and externalities. The effects of taxation and subsidies on consumer and firm behavior are analyzed. Also covers cost benefit analysis and national, state, and local budgeting methods. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5005 - The Policy Process and Democracy

Summer 2010 Registration PUAD 5005
Provides an introduction to theoretical and applied studies of the policy process. The policy process includes the manner in which (I) issues are conceptualized and brought to the government as problems needing action; (II) policies are designed and selected; and (III) the enacted policies are implemented, monitored, evaluated, and revised. The policy process also includes the study of politics, especially how government and non-government actors interact and exercise power in allocating societal benefits and burdens. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5006 - Leadership and Professional Ethics
Examines theories of leadership applied to the public and non-profit sectors and the skills and processes employed by effective leaders. The course also considers ethical theories as applied to problems in the public and non-profit sectors; emphasizes critical thinking to address value conflicts, notably in the context of a pluralistic society; and teaches moral reasoning as a practical professional skill. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 18 Hours**

Students must receive a grade of B- or better in each core course. Students who earn a lower grade may repeat the course once to attempt to earn a B- or better.

**3. Electives**

All MPA students must complete 15 hours of electives. Courses in which a student earns a grade of less than a C will not be counted toward a degree.

**4. Advanced Seminar Class**

All MPA students, except those pursuing the thesis option, must complete the advanced seminar class during the last semester of their degree program. All core courses must be completed before beginning the advanced seminar.

**PUAD 5361 - Advanced Seminar in Public Policy and Management**

In this seminar, students demonstrate their mastery of the knowledge and skills acquired in core courses, through the conduct of a client-based project. Students in a concentration must undertake a project related to that concentration. Students also make a juried oral presentation of the professional paper which reports project findings. This is the cumulative opportunity for students to apply concepts, theories, and research skills gained in the program to professional practice. (Successful completion of this course is an M.P.A. degree program requirement.) Cross-listed with PUAD 7361. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**5. Thesis Option**

The thesis option is available in lieu of PAD 5361 for MPA students who have an interest in pursuing a topic in-depth or who are planning to pursue a career in research or academia. Students must receive approval from their faculty advisor or the MPA director.
to pursue the thesis option. The thesis is a six credit course that normally spans two semesters.

6. Internships

Students who have limited experience (generally defined as less than one year of experience) in public, nonprofit or relevant private-sector service must enroll in P AD 6910, Field Study in Public Administration. The decision to require P AD 6910 for a particular student is made by the faculty admissions committee or the student’s faculty advisor upon the student’s acceptance to the MPA program. A minimum of 300 hours of supervised work and study is required to earn 3 semester hours of credit. This requirement raises the total semester hours needed to earn the MPA degree to 39.

MPA Options

Concentrations and Graduate Certificates

All SPA concentrations are a total of 15 semester hours and may either be taken as part of the MPA program or as a stand-alone graduate certificate.

A student may choose to select one of the concentrations described below or may complete the MPA without a specified concentration. Students completing a concentration take their electives in the area of their concentration, complete the advanced seminar project in the area of their concentration and are advised by faculty from the concentration. The concentrations and their particular required courses are:

Environmental Policy, Management and Law Concentration

Students take at least two of the three courses listed below:

PUAD 5631 - Seminar in Environmental Politics and Policy

*Summer 2010 Registration* P AD 5631
Examines the fundamental principles of politics and policy that shape strategies of environmental protection. Focuses on the role of institutional processes, government organizations and nongovernmental organizations in environmental politics and policy. Cross-listed with PUAD 7631. *Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5632 - Seminar in Environmental Management

*Summer 2010 Registration* P AD 5632
Examines the practical challenges facing environmental managers today, using a series
of case studies. Focuses on the role of institutional processes, government organizations and nongovernmental organizations in the practice of environmental management. Cross-listed with PUAD 7632. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5633 - Seminar in Natural Resource and Environmental Health Law**

*Summer 2010 Registration P AD 5633*
Administrative law aspects of environmental policy implementation and enforcement, the role of courts in both stimulating and limiting statutory reform, and regulatory innovation. Focus on the legal aspects of both natural resource allocation and management, and environmental protection. Alternatives to traditional processes for environmental dispute resolution. Cross-listed with PUAD 7633. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Electives approved by advisor (3) (6-9 semester hours)

**Total: 15 Hours**

**Local Government Concentration**

Students take at least two of the three courses listed below:

**PUAD 5625 - Local Government Management**

*Summer 2010 Registration P AD 5625*
Relates the systems, processes, and principles of public management to the local government environment. Public management concepts such as strategic planning, bureaucracy, formal and informal organizational structures, human resource planning, management control, systems theory, and administrative behavior are explored within the context of local government. Cross-listed with PUAD 7625. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5626 - Local Government Politics and Policy**

*Summer 2010 Registration P AD 5626*
Examines local government from the perspective of politics and public policy making. The course focuses on local government political structures, policy analysis and formulation, political forces in administrative decision making, and the relationships between professional administrators and elected officials. Cross-listed with PUAD 7626. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5628 - Urban Social Problems**
**Summer 2010 Registration**  
**P AD 5628**  
Examines local government from the perspective of sociology and group dynamics. Course could include some or all of the following subjects: neighborhoods and community groups, class and race relations, community crime, social service issues, immigration, the underclass in American society, and related urban social problems. Cross-listed with PUAD 7628. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.  
Electives approved by advisor (3) (6-9 semester hours)

**Total: 15 Hours**

**Domestic Violence Concentration**

Students take four specified courses and one elective.

**PUAD 5110 - Seminar in Nonprofit Management**

**Summer 2010 Registration**  
**P AD 5110**  
This course provides an overview of the principles and concepts that are unique to nonprofit management. Topics include executive management, funding diversity, human resource management, marketing, volunteer management and ethics. Students are also given an introduction to the history and the importance of the nonprofit sector. Cross-listed with PUAD 7110. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5910 - Women and Violence: A Sociological Perspective**

**Summer 2010 Registration**  
**P AD 5910**  
This course is a sociological, feminist analysis of violence against women and girls that addresses the intersection of sexism and other forms of oppression such as racism, classism and heterosexism within historical, cultural, social and institutional contexts. Topics covered focus on overt and covert forms of sexual coercion, harassment and assault, battering and stalking. Cross-listed with PUAD 7910, CRJU 5910 and 7910. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5920 - Psychology of Violence Against Women**

**Summer 2010 Registration**  
**P AD 5920**  
This class addresses the contributions and the limitations of current empirical and clinical psychological literatures about domestic violence. Topics covered include: distinguishing among mental health professionals regarding work with DV clients; the psychological impacts of domestic violence; services useful for responding to the needs of women and children; and an introduction to the psychology and treatment of
batterers. Cross-listed with PUAD 7920, CRJU 5920 and 7920. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5930 - Battered Women and the Legal System**

*Summer 2010 Registration* PUAD 5930
This course provides a practical understanding of how the following relate to battered women and their children: (a) major developments in federal, state, tribal, administrative, statutory and case law; (b) the role and responses of law enforcement, judges, attorneys, victim assistance providers and other legal system agents; and (c) the role and process of victim advocacy. Cross-listed with PUAD 5930, CRJU 5930 and 7930. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Elective approved by advisor (1) (3 semester hours)

**Total: 15 Hours**

**Emergency Management and Homeland Security Concentration**

Students take two required courses as well as electives approved by advisor.

**GEOG 5230 - Hazard Mitigation and Vulnerability Assessment**

*Summer 2010 Registration* GEOG 5230
Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 4230. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5650 - Disaster and Emergency Management Policies**

*Summer 2010 Registration* PUAD 5650
Examines policies for the management of hazards, emergencies and disasters. Focuses on a series of case studies concerning major disasters and on management principles drawn from those cases. Examines the role of institutional processes, government organizations and nongovernmental organizations in emergency management. Cross-listed with PUAD 7650. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Electives approved by advisor (3) (6-9 semester hours)

**Total: 15 Hours**
The emergency management and homeland security concentration requires the completion of three electives chosen from a preapproved, multidisciplinary list of courses relevant to emergency management. Students may choose electives in one of three tracks: policy and management; spatial analysis, planning and quantitative assessment; or public safety, homeland security and justice.

**Nonprofit Organizations Concentration**

Students take two required courses as well as nonprofit electives approved by advisor.

**PUAD 5110 - Seminar in Nonprofit Management**

*Summer 2010 Registration*  
**PUAD 5110**  
This course provides an overview of the principles and concepts that are unique to nonprofit management. Topics include executive management, funding diversity, human resource management, marketing, volunteer management and ethics. Students are also given an introduction to the history and the importance of the nonprofit sector. Cross-listed with PUAD 7110. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5140 - Nonprofit Financial Management**

*Summer 2010 Registration*  
**PUAD 5140**  
Financial management is one of the core competencies of effective nonprofit managers. Every nonprofit organization needs money to sustain or advance its mission. This course provides a grounding in financial management for the "non-accountant" by focusing on an array of knowledge and management skill areas necessary for allocating and controlling resources and for analyzing, reporting and protecting the fiscal health of the organization. Topics include key accounting principles, understanding and using financial statements, the budget development process, cash flow analysis, banking relationships, using the audit report, maximizing investment policy and strategy, and understanding the boundaries of tax exemption. Cross-listed with PUAD 7140. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

Other nonprofit courses (9 semester hours)

**Total:** 15 Hours

**The Accelerated Cohort**

The accelerated MPA is a fast-paced, full-time option that brings academically superior students together with a dedicated research and teaching faculty in the midst of the vibrant downtown Denver environment.
The accelerated option enables students to focus their energies in a concentrated program of study and earn a nationally accredited, 36-hour MPA in 12 months. (It is preferred that applicants have some knowledge of economics, statistics and political science.)

The cost for the accelerated option is the same for both in-state and out-of-state students, providing out-of-state students with substantial savings.

The students in the cohort enjoy a unique experience as they go through all classes in the MPA together, fostering a community of scholar-practitioners.

Students are admitted to the program in cohorts of approximately 20 participants. A new cohort starts each fall. The cohort format helps to increase the opportunity to become acquainted with other graduate students and increases the opportunities for interaction between program participants and faculty.

The Executive Option

The School of Public Affairs and the management development centers of the federal Office of Personnel Management have formed a partnership to offer an innovative course of study for selected senior level professionals in the public and nonprofit sectors.

The executive MPA option provides students with an opportunity to earn a master’s degree targeted at improving their leadership competencies, while also offering significant flexibility in customizing coursework to fit students’ individual needs and career objectives. In addition, the course formats—online courses and weekend or week-long intensive meetings—enable students to fit their study into the framework of busy lives.

The executive MPA option is intended to serve high-level managers and policy experts from public agencies—federal, state and local—as well as those from the nonprofit sector.

Program Design

The executive MPA option requires 30 semester hours of credit plus two required seminars at one of the management development centers of the federal Office of Personnel Management. One is in Aurora, Colorado; the other is outside Washington, D.C. The first required seminar is an assessment seminar. Students explore their own managerial and leadership styles, their personality types and their levels of competence in a variety of executive skills. A group of highly-skilled trainers and psychologists administers and interprets test results, and participants use this self-knowledge to plan their MPA degree.
Near the end of the program, students also participate in one of the management development centers’ core leadership seminars. These seminars focus on developing competencies identified by the federal government as necessary for its highest-level managers, the senior executive service. The required Western Management Development Center courses should total six semester hours of graduate credit. More information is available online at www.leadership.opm.gov or by e-mail from WMDC Program Manager Bruce Kirschner at bhkirsch@opm.gov.

Executive students must take PUAD 5001, Introduction to Public Administration and Public Service, as one of their first courses. They then must select a minimum of three of the core courses listed below. Their advisor will assist in this selection. They must be able to demonstrate that they have gained competencies in the core courses they do not take through job experience and/or past course work.

Three of five are required:

**PUAD 5002 - Organizational Management and Change**

*Summer 2010 Registration P AD 5002*

This course provides coverage of those elements which, when combined, create a resilient learning organization. Topics include, but are not limited to, organization theory and design, managing human capital, group development and performance, inter- and intra-group communication, information management, and ethical decision making. These topics are presented within the framework of how to organize people to enhance the delivery of public services. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5003 - Research and Analytic Methods**

*Summer 2010 Registration P AD 5003*

Examines quantitative research methods used to answer questions and test hypotheses in public and non-profit settings. Methods covered include identifying and reviewing scholarly literature; formulating research questions; selecting appropriate design, data collection and sampling strategies; and analyzing data. Topics include causal and descriptive designs, interview and survey methods, and descriptive and inferential statistics such as chi square and regression. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5004 - Economics and Public Finance**

*Summer 2010 Registration P AD 5004*

Uses economics to explore public and private sector roles, and the allocation of resources in the public sector. Introduces the concepts of public goods, market failure and externalities. The effects of taxation and subsidies on consumer and firm behavior are analyzed. Also covers cost benefit analysis and national, state, and local budgeting
methods. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5005 - The Policy Process and Democracy**

*Summer 2010 Registration P AD 5005*
Provides an introduction to theoretical and applied studies of the policy process. The policy process includes the manner in which (I) issues are conceptualized and brought to the government as problems needing action; (II) policies are designed and selected; and (III) the enacted policies are implemented, monitored, evaluated, and revised. The policy process also includes the study of politics, especially how government and non-government actors interact and exercise power in allocating societal benefits and burdens. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5006 - Leadership and Professional Ethics**

*Summer 2010 Registration P AD 5006*
Examines theories of leadership applied to the public and non-profit sectors and the skills and processes employed by effective leaders. The course also considers ethical theories as applied to problems in the public and non-profit sectors; emphasizes critical thinking to address value conflicts, notably in the context of a pluralistic society; and teaches moral reasoning as a practical professional skill. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 9 Hours**

These courses may be taken at one of SPA’s sites in Denver, Colorado Springs or Grand Junction, or, for students who live outside of Colorado, online.

Students also take five elective courses (15 semester hours), which may be selected either from the offerings at the management development centers or from SPA. Both partners provide a wide variety of courses. At least 18 semester hours must be SPA course work.

At or very near the end of their program, students participate in PUAD 5361, Advanced Seminar. In this course, students engage in a self-designed professional project that integrates their new skills and knowledge. In addition, they reassess their professional competencies, charting the progress they have made during the program and designing a plan for future developmental experiences.

**Online Option**
SPA provides a unique opportunity for students who live at a distance from the university to obtain a MPA degree.

Designed to serve students who are looking for a high-quality education, but who need an alternative to traditional classroom instruction, students may elect to do one or all of their courses online. This option allows students to complete the entire degree at a distance or to choose to come to campus for some courses while using an interactive online format for others. For both in-state and out-of-state online students, tuition is comparable to the rate charged to in-state students for courses that meet in the classroom. The nonprofit organization concentration is available online, as well as a variety of other electives leading to a general MPA degree. Students in the executive option may also choose to do all SPA course work online.

**Domestic Violence Cohort**

The first graduate program of its kind in the nation, the University of Colorado Denver’s MPA concentration in domestic violence focuses on the management and policies surrounding domestic violence, as well as grass-roots social justice work and best practices in this emerging field. Each fall, 10 to 20 students are accepted into the cohort program, allowing the participants to build a strong community of advocates and learners.

The program invites students from around the world to participate in a unique cohort program, which combines online courses with five intensive campus seminars spaced throughout the two-year program. Students may choose to take all courses in the classroom if they wish.

The cost of the domestic violence concentration courses is the same for in-state and out-of-state students. Nonresident students pursuing the MPA with a concentration in domestic violence may also qualify for reduced tuition through the Western Regional Graduate Program which covers 14 western states.

**Western Slope Cohort**

Public and nonprofit sector professionals living in Colorado’s Western Slope have the opportunity to earn a MPA without traveling to the Front Range. SPA offers one MPA course each semester in Grand Junction at Mesa State College and supplements these offerings with online courses. Courses are designed to integrate the academic and applied experiences necessary to be an effective modern manager. The courses are offered in an intensive weekend format and emphasize the needs of small and rural communities.
Public History, MA in History

The MA program in history offers graduate-level major and minor fields in public history. Public history is a field of study that applies historical methods to the public sphere. This graduate major does not require a concentration, but students can choose to concentrate in museum studies or historic preservation. Public history majors can minor in any subspecialty the department currently offers. Students majoring in U.S., European or global history can also minor in public history.

Admission Requirements—See History MA

Degree Requirements

Required Introductory Course

HIST 6013 - Introduction to the Professional Study of History

Summer 2010 Registration HIST 6013
Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 3 Hours

Major Courses

HIST 5234 - Introduction to Public History

Summer 2010 Registration HIST 5234
An overview of history outside the academic setting. Students have the opportunity to learn about jobs through on-site visits and presentations made by people engaged in a wide variety of occupations in history other than teaching. Cross-listed with HIST 4234. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Concentration Requirement (optional)
Students who choose to concentrate in museum studies or historic preservation must take either

HIST 5231 - History in Museums

Summer 2010 Registration HIST 5231
This core course for the museum studies area of public history introduces students to
the theory and practice of museum operations. It covers the basics of museum administration, museum collection and preservation, and museum interpretation from both theoretical and practical points of view. Cross-listed with HIST 4231. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

**HIST 5232 - Historic Preservation**

*Summer 2010 Registration HIST 5232*
Introduces the history, methodology, and goals of historic preservation. Guest speakers, field trips, research projects, and book reports. Cross-listed with HIST 4232. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Research Seminar (3 hours)**
Research seminars focus on students’ development of an original, primary research paper.

**Major Electives (9-12 hours)**
Electives are made up of courses in public history, which focus on methodology and practice and thesis or project credits. These courses include:

**HIST 5133 - Management of Material Culture and Museum Collections**

*Summer 2010 Registration HIST 5133*
This course provides in-depth knowledge of the rudiments of material culture documentation, preservation and management. While we have designed this class for those interested in working in history museums, this is also appropriate for those students who want to learn the place of artifacts in studying history. Cross-listed with HIST 4133. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 5228 - Western Art and Architecture**

*Summer 2010 Registration HIST 5228*
Introduces Western art and architecture, emphasizing their historical context. Students are required to do book reports and a major research paper. Course includes walking tours and museum visits. Cross-listed with HIST 4228. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 5229 - Colorado Historic Places**
Summer 2010 Registration HIST 5229
Introduces community architecture, folklore, and history for all students. Students learn how to survey, describe, and designate significant historical structures and districts. Cross-listed with HIST 4229. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 5240 - National Parks History

Summer 2010 Registration HIST 5240
Introduces how the National Park Service uses history to identify, designate, preserve, and interpret America's most outstanding historic and natural history sites. After tours of NPS sites, students select from a wide range of projects. Note: Open to all students. Cross-listed with HIST 4240. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 5242 - Oral History

Summer 2010 Registration HIST 5242
Trains public history students in the collection of oral history interviews. Students master core readings on the theory, practice, and ethics of oral history. Cross-listed with HIST 4242. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 5243 - Public History Administration

Summer 2010 Registration HIST 5243
Introduces students to the skills, practice, and ethics of public history administration. Cross-listed with HIST 4243. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 5244 - Interpretation of History in Museums: Exhibits and Education

Summer 2010 Registration HIST 5244
This course allows students to gain in-depth knowledge of historical interpretation through exhibits and education in a museum setting. This class is designed for those preparing to work in history museums but is also appropriate for teachers and others who want to learn how museum programs interpret history with artifacts and other historical materials. Cross-listed with HIST 4244. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 5245 - Heritage Tourism

Summer 2010 Registration HIST 5245
History and historic sites have become big business in 21st century tourism. The
heritage tourism industry is explored in this introductory course for all interested students focusing on how academic history and historians can partner with tourism and recreation interests. Cross-listed with HIST 4245. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HIST 6992 - Seminar: Colorado Studies**

**Summer 2010 Registration HIST 6992**
This advanced interdisciplinary seminar on Colorado starts with a survey of the published literature. Students then select a research topic of their own and complete a publishable paper using primary sources. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Additionally, special topics courses may be offered in such areas as historic reenactments, monuments and memory and recreating historic house interiors. Students who didn't take HIST 5231 or HIST 5232 as their concentration requirement may use these courses toward their elective requirements.

**Total: 18 Hours**

**Minor Electives**

Electives are made up of courses in the minor field, including readings courses, which address specific field historiographies, or research seminars.

**Total: 12 Hours**

**Open Elective**

Students may use the open elective to explore a course outside their major or minor or to do extra course work in one of their fields.

**Total: 3 Hours**

**Total: 36 Hours**

**INDEPENDENT STUDIES AND/OR INTERNSHIPS**

Candidates may register for up to 6 hours of internships or independent study, only one of which may be at the 6000-level. Only in exceptional circumstances will students be allowed to satisfy the research seminar requirement via independent study. Any
independent study at the 6000-level needs the permission of the graduate advisor.
Students interested in pursuing an independent study must find a faculty member willing
to oversee their work, and they should expect the workload for an independent study to
equal or exceed that required for other courses at the same level.

HIST 5840 - Independent Study: History

Summer 2010 Registration HIST 5840
Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 6840 - Independent Study: HIST

Summer 2010 Registration HIST 6840
Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 6939 - Cooperative Education

Summer 2010 Registration HIST 6939
Semester Hours: 1 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

COMPREHENSIVE EXAMINATIONS

All history MA candidates must pass a comprehensive examination in the major and
minor fields after the completion of course work and before embarking on a thesis,
curriculum project or public history project. The comprehensive exam evaluates
students’ knowledge of their course work and their reading lists for their major, minor
and concentration. In answering their exam questions, students are expected to
construct arguments and to show mastery of the historiographies, narratives and
historical content in their fields. The comprehensive exam is administered and evaluated
by a committee of the major advisor, the minor advisor and an outside reader from the
history faculty.

Master’s Degree Extended Research Options

The MA program in history offers a set of courses in which students can develop
extended research interests. Students must select an advisor and develop a proposal for
a specific research agenda in the semester before beginning work on a project.

REQUIRED PUBLIC HISTORY THESIS (HIST 6950) OR PROJECT (HIST 6952)
Students majoring in public history must complete either a thesis (6 semester hours) or a
project (3 semester hours).
OPTIONAL ADVANCED HISTORY CURRICULUM DEVELOPMENT (HIST 6951)
Students who undertake their master’s program when they are already teachers can choose to construct curriculum projects relevant to their teaching practice. See the separate section below on “Opportunities for Teachers and Teachers-in-Training.”

HIST 6950 - Master’s Thesis

Summer 2010 Registration HIST 6950
Semester Hours: 1 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 6951 - Masters Project: Advanced History Curriculum Development

Summer 2010 Registration HIST 6951
Students develop curricula for secondary-level history courses; must demonstrate thorough knowledge of subjects; understanding of historiographic and methodological problems; command of primary sources and their uses in teaching; and describe teaching strategies, methods, and assessments to be used in the curricula. Prereq: Permission of instructor. Semester Hours: 1 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

HIST 6952 - Master’s Project: Public History

Summer 2010 Registration HIST 6952
Public history majors may use three credits to complete a public history project. Projects can entail creating an exhibit, organizing a museum or archival collection, conducting a preservation survey, or similar activities. Students are required to prepare a paper describing the process and results of their project. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Thesis Requirements

Students writing theses are expected to develop an original research agenda resulting in an extended paper. Students work with their major field advisor, who will help guide them through the process of research and writing. Students are expected to take no less than two semesters (enrolled in HIST 6950) to complete their theses. Before registering for HIST 6950, students must have a thesis proposal and initial bibliography approved by their advisor. The first semester of the thesis course is organized as a seminar in which students meet regularly with a department member and other thesis writers.

A thesis is evaluated by a committee of three, including the major advisor and two other faculty members chosen by the student in consultation with the major advisor. Upon completion of the thesis, the student meets with the committee members, who ask questions about the research and conclusions which the student must defend. In many
instances, the committee will require further revisions, sometimes major in scope, before the thesis is accepted and cleared for submission to the Graduate School in fulfillment of degree requirements.

**Project Requirements**

In lieu of a thesis, public history majors may choose to enroll in one semester of HIST 6952 to complete a public history project. Projects, which are usually conducted in collaboration with a public history organization, can entail creating an exhibit, organizing a museum or archival collection, conducting a preservation survey, or similar activities. Students are required to prepare a paper describing the process and results of their project.

**HIST 6952 - Master’s Project: Public History**

*Summer 2010 Registration* HIST 6952

Public history majors may use three credits to complete a public history project. Projects can entail creating an exhibit, organizing a museum or archival collection, conducting a preservation survey, or similar activities. Students are required to prepare a paper describing the process and results of their project. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Opportunities for Teachers and Teachers-in-Training**

**Curriculum Projects**

Licensed teachers enrolled in the history graduate program may choose to complete a curriculum development project. Students arrange curriculum development projects with a sponsoring faculty member. Generally, students are expected to develop and submit a complete course curriculum plan for each 3-semester-hour project. Projects need to show evidence of familiarity with the relevant historiographies and primary sources. Students may apply the credits from HIST 6951 to either the major field or the minor field, depending on the project subjects. Curriculum plans must meet minimum criteria established by the history department in the document Advanced History Curriculum Development Projects.

**HIST 6951 - Masters Project: Advanced History Curriculum Development**

*Summer 2010 Registration* HIST 6951

Students develop curricula for secondary-level history courses; must demonstrate thorough knowledge of subjects; understanding of historiographic and methodological
problems; command of primary sources and their uses in teaching; and describe
teaching strategies, methods, and assessments to be used in the curricula. Prereq:
Permission of instructor. **Semester Hours:** 1 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

(3 or 6 semester hours in their major field, or 3 semester hours in their major and
3 semester hours in their minor)

## Secondary Teacher Licensure

Students interested in becoming secondary history and social studies teachers may
choose to earn both the MA in history and secondary teacher licensure.

We strongly encourage students to complete the School of Education & Human
Development's teacher licensure program before enrolling in the history MA program;
the history graduate program and the teacher licensure program require separate
admission. Students complete 36 semester hours in history and 37 semester hours in
the teacher licensure program. For the history degree, students take 18 semester hours
in their major field, 12 semester hours in their minor field and 6 semester hours in
curriculum and methods course work, which apply both to the teacher licensure program
and the MA in history:

### HIST 5464 - Problems and Methods in Teaching History and Social Studies I

*Summer 2010 Registration HIST 5464*

Introduces students to problems and methods in secondary education history and social
studies teaching. This course focuses primarily on the teaching of history. Note: Open to
students in the Initial Professional Teacher Education program or a relevant graduate
program, and to practicing teachers. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

- - -

### HIST 5465 - Problems and Methods in Teaching History and Social Studies II

*Summer 2010 Registration HIST 5465*

Introduces students to problems and methods in secondary education history and social
studies teaching. This course focuses broadly on the teaching of all the social studies
fields, including history, economics, government, and geography. Note: Open to
students in the Initial Professional Teacher Education program or a relevant graduate
program, and to practicing teachers. Prereq: HIST 5464. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

## Certificate in Historic Preservation
The history department also offers a certificate in historic preservation in conjunction with the College of Architecture and Planning. History students pursuing the certificate should consult the historic preservation Web site for this program as well as their history advisor to determine appropriate course work.

Reading and Writing Option, MA
Curriculum and Instruction

Literacy, Language and Culturally Responsive Teaching

MA Requirements for the Reading and Writing Option and Secondary English Education Option, plus Reading Teacher Endorsement and Certificate Programs

Office: Lawrence Street Center, 701
Telephone: 303-315-6300
Fax: 303-315-6311
E-mail: education@ucdenver.edu
Web sites: www.ucdenver.edu/education/literacy and www.ucdenver.edu/education/englished

Reading and Writing

Secondary English

Early and Adolescent Literacy Certificates

Faculty

Information about faculty in this program is available online at www.ucdenver.edu/education/literacy.

The faculty of literacy, language and culturally responsive teaching (L2CRT) believe that effective teaching requires an awareness of and the ability to respond to individual differences. L2CRT faculty also emphasize the importance of teachers as scholars and reflective practitioners. In particular, teachers must understand how linguistic and cultural diversity affect their teaching. Two themes run throughout all program offerings. The first concerns the importance of recognizing a variety of literacies—“home” literacies, school literacy, “mainstream” literacy, first and second language literacies—
and to develop teaching practices that utilize an understanding of the complexity of literacy development across language contexts. The second theme involves the meaningful use of language and literacy to improve the quality of one’s life. As an approach to teaching, this theme emphasizes the creation of diverse, rich environments in which learners experience oral and written language as part of authentic tasks, and where concern for the cultural and linguistic heritage of the students is evident.

**Reading and Writing Option and Reading Teacher Endorsement**

This master's program is designed for K-6 and 7-12 teachers. Those interested in elementary reading and writing should communicate with Professors Espinoza, Nathenson-Mejia or Taylor. Those interested in secondary and adult reading and writing should communicate with Professor Shanklin (see Web site for faculty contact information).

Reading is a credentialed program meeting the Colorado Department of Education requirements for reading teacher endorsement. Therefore, students who obtain a master’s degree emphasizing reading education from UC Denver are certified to hold positions in public and private schools as special developmental and remedial reading teachers in K–6 or 7–12. This program is also valuable for elementary and secondary teachers who wish to enhance reading and writing instruction in their classrooms.

By placing emphasis on the reading, writing and oral and visual language development of culturally, linguistically and academically diverse student populations, this master’s program is at the forefront of the field. Language is approached from a socio-psycholinguistic perspective that emphasizes the learner’s construction of meaning rather than the learning of isolated skills. Importance is placed on using theory, inquiry and personal reflection to inform classroom practice. The program prepares teachers to become decision makers capable of developing learner-centered curricula where each student's reading and writing abilities are assessed to address developmental or special needs.

**Curriculum**

Course offerings lead to an MA degree in curriculum and instruction with an emphasis in reading and writing, as well as a reading teacher endorsement, at one of two levels: K–6 or 7–12.

Those who have completed UC Denver’s graduate teacher education licensure program must earn an additional 27 semester hours to obtain the MA and endorsement. Those who completed licensure through other means must earn an additional 36 semester hours to obtain the MA and endorsement.
Teachers may add a reading teacher endorsement to an already-earned master’s degree in education by taking those courses listed under the chosen endorsement level. (In the state of Colorado, the reading teacher endorsement cannot simply be added to a bachelor’s degree.) Electives and core courses are not required. Two additional courses must be taken in other areas specified by the Colorado Department of Education. In many cases, previous master's degree courses will satisfy this requirement.

Secondary English Education Option

The master’s program in secondary English education is designed to enhance the preparation of middle and high school English/language arts teachers. Students complete course work in language development, assessment and field experiences. With the help of their advisor, they also select specific courses from the English Department or within the School of Education and Human Development that provide a well-rounded repertoire of knowledge and skills to fulfill the needs of an English educator. Special consideration is given to working with diverse ethnic populations. Students interested in English education should see Professor Shanklin (see Web site for faculty contact information).

Program Requirements

To earn a master of arts degree in curriculum and instruction with an emphasis in secondary English education, students must complete the following:

- 30 graduate semester hours in English education
- 6 graduate semester hours of core courses
- performance-based assessments that culminate in a portfolio finalized in the last semester of the program as fulfillment of the MA comprehensive exam requirement

Each student’s course plan is developed in conjunction with his/her advisor. Please review www.ucdenver.edu/education/englisched for recommended course sequence.
LALC 5055 - Linking Assessment and Instruction in Language and Literacy, Part I
Semester Hours: 3
LALC 5740 - Adolescent Literature Semester Hours: 3

LALC 5760 - Theory and Methods of English Education Semester Hours: 3
-OR-
LALC 5835 - Special Topics: Literacy and Language Semester Hours: 3

LALC 5810 - Workshop in Language Acquisition and Development Semester Hours: 3
LALC 5910 - Foundations of Language, Literacy and Culture Semester Hours: 3
LALC 6911 - Seminar and Practicum in Literacy and Language, 7-12+ Semester Hours: 3

Research and Evaluation Methodology core course (see list below).
Interdisciplinary core course (see list below).
Four electives, per advisor approval, from the English department and/or the School of Education & Human Development. The following are recommended:
   LALC 5720 - Writing: Process, Development, and Teaching Grades 3-12 Semester Hours: 3
   -OR-
   ENGL 5110 - Denver Writing Project Semester Hours: 3

Courses in working with English language learners and in instructional technology may also be helpful. For a technology course, please contact the professor about prerequisite knowledge.

Total: 36 semester hours

Program Requirements--When Added to UC Denver's Graduate Teacher Education Licensure Program

MA in curriculum and instruction with emphasis in secondary content leadership (English), when added to UC Denver's graduate teacher education licensure program:

- 18 graduate semester hours
- performance-based assessments that culminate in a portfolio finalized in the last semester of the program as fulfillment of the MA comprehensive exam requirement

Each student’s course plan is developed in conjunction with his/her advisor. Please review www.ucdenver.edu/education/englished for recommended course sequence.

FNDS 5050 - Critical Issues in American Education Semester Hours: 3
-OR-
IPTE 5080 - Principles and Practice of Change Semester Hours: 3
-OR-
SPED 5300 - Collaborating In Schools and Communities Semester Hours: 3
RSEM 5080 - Research for Teachers Semester Hours: 3
Four electives, per advisor approval, from the English Department and/or the School of Education and Human Development. The following are recommended:
  LALC 5720 - Writing: Process, Development, and Teaching Grades 3-12 Semester Hours: 3
  -OR-
  ENGL 5110 - Denver Writing Project Semester Hours: 3
  Courses in working with English language learners and in instructional technology may also be helpful. For a technology course, please contact the professor about prerequisite knowledge.

Total: 18 semester hours

Core Courses

Research and Evaluation Methodology

RSEM 5000 - Orientation to Research and Measurement in Education Semester Hours: 3
RSEM 5050 - Assessment for Teachers Semester Hours: 3
RSEM 5080 - Research for Teachers Semester Hours: 3
RSEM 5100 - Basic Statistics Semester Hours: 3
RSEM 5200 - Introduction to Research Methods Semester Hours: 3
RSEM 5300 - Introduction to Measurement Semester Hours: 3

Interdisciplinary

EPSY 5100 - Advanced Child Growth and Development Semester Hours: 3
EPSY 5140 - Advanced Adolescent Growth and Development Semester Hours: 3
EPSY 5220 - Adult Learning and Education Semester Hours: 3
EPSY 6200 - Human Development Over the Life Span Semester Hours: 3
FNDS 5050 - Critical Issues in American Education Semester Hours: 3
FNDS 5420 - History and Philosophy of Education: Twentieth Century America Semester Hours: 3
LALC 5140 - Multicultural Education Semester Hours: 3
LALC 5150 - Culture of the Classroom Semester Hours: 3
LALC 5160 - Historical and Legal Foundations of Bilingual Education Semester Hours: 3
LALC 5820 - Techniques in Teaching English as a Second Language Semester Hours: 3

Cumulative Portfolio
The MA portfolio counts as the comprehensive exam for the master’s degree. The portfolio is an accumulation of the performance based assessments completed during program courses and reflects on the student’s development over the course of the degree program. Reading and writing students must include confirmation of Reading Teacher PLACE exam registration in their portfolios. Information about the PLACE is online at www.place.nesinc.com.

**Course Scheduling**

During the fall and spring semesters, most university courses are offered in the late afternoon and evening and meet for three hours once a week over a 16-week semester. Some alternative course schedules are available, such as meeting on five Friday-evening/all-day Saturday combinations. In the summer semester, three- to eight-week sessions are offered, and courses may be in the morning, afternoon or evening. A current schedule of courses is available online at http://courses.cudenver.edu.

**Planning**

For practicing full-time teachers, we recommend taking one course each fall and spring semester, and up to two courses each summer. Plan carefully because courses are intended to build upon each other, and some courses are only offered once a year.

**Active Status in the Graduate School**

Students must complete their programs within seven years, maintaining a GPA of 3.0. Students typically take four courses each calendar year. Failure to enroll over three contiguous semesters will result in a requirement to resubmit part I of the application for admission and a letter of intent.

**Early and Adolescent Literacy Certificates**

The early literacy certificate and adolescent literacy certificate each include three graduate-level courses (for a total of 9 semester hours) and are conveniently offered entirely online. They are specifically designed to help licensed teachers develop the skills necessary to reach student readers. To find out more, please visit www.ucdenver.edu/education or email cpe@ucdenver.edu.

To learn about how these certificate credits may apply toward one of the above programs in reading and writing, contact education@ucdenver.edu.

**Recording Arts MS**
Graduate School Rules apply to this program

Master of Science in Recording Arts (MSRA)

Program Overview

Recording Arts is a field that deals with all aspects of recorded music and sound including mixing, mastering, sequencing, calibration, reinforcement, media forensics and post-production. Our program refines student skills in sound recording, aesthetics, multitrack recording, digital signal processing, automated mixing, synchronization, stereo imaging and monitoring, media forensics and post-production.

In addition, our program recognizes and includes:

**Study in the rapidly growing field of media forensics**, which is audio and video for the legal field. The program includes study in tape authentication, audio and video enhancement, voice prints, analysis and witness testimony. See section below for MSRA emphasis in media forensics (MSRA-MF) program information.

**The need for pedagogy degrees.** Pedagogy is synonymous with teaching, and this program includes a survey of available resources for audio education. We offer an interdisciplinary approach by including physics, acoustics, engineering, music, broadcast, medicine, psychology, multimedia, theatre and film/video. The program emphasizes design and development of new methods and materials.

UC Denver’s Master of Science in Recording Arts (MSRA) has the only pedagogy track in the nation, as well as the only college-level course in audio forensics. This graduate degree is designed to:

- prepare students for careers in audio application for the fields of mass communications, education, arts and the entertainment industries
- help professionals advance their careers
- help prepare the music educators of the future

Students may choose between a thesis (research) or non-thesis (portfolio) option.

Graduate courses constituting the core of this study will advance the artistic, pedagogical, technical and problem-solving abilities of the enrolled students. Elective courses will allow each student to develop an additional skills and knowledge in related areas including film, broadcasting, education, music business and the performing arts.

We encourage students from allied disciplines (music, physics, engineering, etc.) to apply. Students are not required to have their bachelor’s in recording arts—the student’s bachelor’s degree can be from any discipline. They can qualify for the MSRA by having
the equivalent level preparation (e.g., work experience). Candidates without sufficient experience/training in recording arts may be required to take preparatory courses at the undergraduate level.

**Emphasis in Media Forensics**

Students can also earn a master of science in recording arts with an emphasis in media forensics. See the media forensics program page for specific requirements, as they differ from the general MSRA degree.

**Application Components**

The following is required of all students applying to the MSRA program, with the exception of International students. International students should consult the Office of International Affairs for specific information on application and admission requirements. Contact the Office of International Affairs for specific application forms, www.internationaladmissions.ucdenver.edu.

1. **Graduate Admissions Application—Parts I and II**

   Students may request an application packet by calling 303-556-2279. Please be sure to provide your mailing address.

   Students are required to complete the application for graduate admissions form.

   Program of study—on the application, the code for all Master of Science in Recording Arts candidates is GR-RAMS. The degree is MS.

   International students must complete additional paperwork in addition to the components below. International student applications must be received six months prior to the term for which the student is applying. Contact the Office of International Affairs for specific application forms, www.internationaladmissions.ucdenver.edu.

2. **In-State Tuition Classification Application**

   Students who feel they may qualify for Colorado in-state tuition (i.e., residency) should fill out the in-state tuition form. The Office of Admissions will make the determination of residency. For information on residency criteria contact the Office of Admissions, 303-556-2704 or admissions@ucdenver.edu.

3. **Entrance Examinations(s)**

   Official GRE scores (www.gre.com)—All applicants to the MSRA degree program must submit scores from the GRE. The “General Test” offered by Educational Testing Service will assist in evaluating applicants to the degree program. It evaluates verbal, quantitative and analytical writing skills for the candidates. This examination is offered
internationally by Educational Testing Service on a continuous schedule. The minimum required score for entrance in the program is the 50th percentile, although each student’s score will be evaluated as part of complete application process. This examination is not intended to exclude any applicant from the degree program, but rather to assist in academic advising.

Scores must be received by the application deadline; therefore, students should plan accordingly when scheduling their testing dates. Late GRE scores are not accepted, and these applications will not be reviewed.

Test of English as a Foreign Language (TOEFL) (www.ets.org/toefl)—This examination is required for international students for whom English is not their primary language. These students are required to have a minimum TOEFL score of 500 (173 electronic).

4. Transcripts

The most recent official academic transcripts must be sent from the registrar of all previous institutions. Official transcripts should be mailed to:

MSRA Graduate Admissions Committee
Campus Box 162, P.O. Box 173364
Denver, CO 80217-3364

5. Letters of Recommendation

Three (3) letters of recommendation are required from responsible persons who can attest to your academic and professional accomplishment. The names those who are providing your letters of recommended should be included in your Part II of the application.

Letters of recommendation must be accompanied by the letter of recommendation form, available on the MSRA Web site.

Incomplete letters of recommendation will not be considered, and the application will not be reviewed.

6. Application Essay

This essay should summarize the educational and professional history of the applicant relative to a career in the audio/music industry, and should include:

- complete name and contact information
- educational background
- career objective
• anticipated dates of attendance

The essay must be typed, double-spaced and in English; the preferred length is three to five pages.

7. Resume

Students are required to submit a one- to two-page typed resume, including educational background, work experience and relevant skills. Students are welcome to include any published works, exhibitions, performances, awards or other relevant achievements. The resume should be chronological, beginning with your educational background and progressing to your employment history. Please refrain from functional resumes or those that simply summarize qualities or competencies. This professional vita complements the essay you will author by providing a chronology of all your educational and work experiences and of scholarly/creative work.

8. Portfolio

All applicants will submit a portfolio of recordings that represent their best accomplishments in audio production. Presentation, breadth of experience, technical and artistic quality will be evaluated.

The required submission format is Compact Disc (CD) or Digital Video Disc (DVD), with an annotated discography (index) to the portfolio material and a clear and accurate labeling of all material. Discography must include the applicant’s function on each track (e.g. artist/performer, engineer, producer, arranger, etc.).

A DVD portfolio may be submitted if the student’s primary experience is in visual media (film, TV, etc.). DVD portfolios must also contain an annotated discography.

Helpful tips for a good portfolio are available on the MSRA Web site. Portfolio submissions that do not follow these guidelines will not be evaluated, and the application will not be processed.

9. Application Fee

$50 nonrefundable for domestic (within the USA) applicants
$75 nonrefundable for international applicants

The application fee must be paid with a check, money order or by credit card. Cash will not be accepted. The fee must be paid in U.S. dollars.

Applications that do not include all of the requirements listed above or that include partial components are considered incomplete and will not be reviewed.

Required Courses
MSRA 5000 - Introduction to Graduate Studies

Summer 2010 Registration MSRA 5000
Surveys existing literature and research in science, technology, and pedagogy of recording arts. Extensive use of available resources in library, electronic and print, trade and scientific publications are explored. Use of computer applications for research and publication are developed. Prereq: Admission to the MSRA degree program. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MSRA 5580 - Graduate Audio Seminar

Summer 2010 Registration MSRA 5580
Faculty and majors of the music engineering program assemble to discuss and demonstrate issues of artistic and technical applications of recording technology. Student projects, faculty, and guest lectures provide topical focus. Prereq: MUSC 2560 or permission of instructor. Cross-listed with MUSC 4580. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MSRA 5590 - Graduate Audio Production

Summer 2010 Registration MSRA 5590
Deals with advanced audio skills for music recording, including technical and artistic considerations. This is a required course for the MSRA degree. Prereq: Acceptance into MSRA Degree Program. Semester Hours: 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

MSRA 6510 - Graduate Audio Studies Pedagogy

Summer 2010 Registration MSRA 6510
Surveys available resources for audio education. Interdisciplinary materials in physics, acoustics, engineering, music, broadcast, medicine, psychology, multi-media, theater, and film or video are reviewed. Emphasis on design and development of new methods and materials are pursued. (MSRA graduate students only.) Prereq: MUSC 5000. Semester Hours: 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

MSRA 6950 - Thesis in Professional Audio

Summer 2010 Registration MSRA 6950
With the guidance of a thesis advisor, each candidate for the MSRA degree select an approved topic for scholarly review, research and publication. The approved materials are evaluated for written and oral defense. Prereq: MUSC 5000, 5590, 6510, 6580,
MSRA 6951 - Professional Audio Portfolio Thesis

*Summer 2010 Registration MSRA 6951*

With the guidance of a portfolio advisor, each candidate for the Msra degree produces specified documentation and audio materials that reflect the career intentions of the candidate. A completed "Show kit" or professional "Demo" of the candidate's specialty are produced. The approved materials are evaluated for written, audio and oral defense. Prereq: MUSC 5000, 5590, 6510, 6530. *Semester Hours: 4 to 4*

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 18 Hours**

**Electives**

Students may take courses not listed here, per approval of the faculty or academic advisor.

**MSRA 5500 - Topics in Professional Audio**

*Summer 2010 Registration MSRA 5500*

Selected topical subjects to include live or studio sound recording, sound reinforcement, new technologies or practices in the audio industry. Cross-listed with MSRA 4500. *Semester Hours: 1 to 4*

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MSRA 5505 - Audio Post Production I**

*Summer 2010 Registration MSRA 5505*

Reviews all aspects of audio synchronized with picture, including music, sound effects, narration, and dialog replacement. Topics studied with respect to film, video and multimedia. Cross-listed with MUSC 4505. *Semester Hours: 4 to 4*

Registration is changing. Visit our website for details ucdenver.edu/registration.

**MSRA 5575 - Graduate Surround Sound**

*Summer 2010 Registration MSRA 5575*

This lecture-lab course deals with surround sound in film, digital TV and DVD's. Topics include monitoring, microphone techniques, recording, mixing, mastering, delivery formats and psychoacoustics. Students work on two lab projects in the semester.
Prereq: MSRA 5550. Cross-listed with MUSC 4575. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MSRA 6530 - Graduate Audio Forensics**

*Summer 2010 Registration MSRA 6530*
Deals with audio for the legal profession. Topics covered include tape authentication, audio enhancement, voice prints and analysis, consultation and expert witness testimony. The labs work with practice and real-life situations and prepare students for further research in this area. Prereq: MSRA graduate students only or permission of instructor. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

or other courses as approved by MSRA advisor or program director.

**Total: 34 Hours**

Students may take courses not listed here, per approval of the faculty or academic advisor. Below is the suggested semester-by-semester sequencing of courses and semester hours.

**Fall**

**MSRA 5000 - Introduction to Graduate Studies**

*Summer 2010 Registration MSRA 5000*
Surveys existing literature and research in science, technology, and pedagogy of recording arts. Extensive use of available resources in library, electronic and print, trade and scientific publications are explored. Use of computer applications for research and publication are developed. Prereq: Admission to the MSRA degree program. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**MSRA 5590 - Graduate Audio Production**

*Summer 2010 Registration MSRA 5590*
Deals with advanced audio skills for music recording, including technical and artistic considerations. This is a required course for the MSRA degree. Prereq: Acceptance into MSRA Degree Program. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

Topics course (1 semester hour)
Two MSRA electives (8 semester hours)

**Total: 16 Hours**
Spring

MSRA 5580 - Graduate Audio Seminar

*Summer 2010 Registration MSRA 5580*
Faculty and majors of the music engineering program assemble to discuss and demonstrate issues of artistic and technical applications of recording technology. Student projects, faculty, and guest lectures provide topical focus. Prereq: MUSC 2560 or permission of instructor. Cross-listed with MUSC 4580. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

MSRA 6510 - Graduate Audio Studies Pedagogy

*Summer 2010 Registration MSRA 6510*
Surveys available resources for audio education. Interdisciplinary materials in physics, acoustics, engineering, music, broadcast, medicine, psychology, multi-media, theater, and film or video are reviewed. Emphasis on design and development of new methods and materials are pursued. (MSRA graduate students only.) Prereq: MUSC 5000. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.
- MSRA elective (4 semester hours)
- Topics courses (3 semester hours)

Total: 14 Hours

Summer

MSRA 6950 - Thesis in Professional Audio

*Summer 2010 Registration MSRA 6950*
With the guidance of a thesis advisor, each candidate for the MSRA degree select an approved topic for scholarly review, research and publication. The approved materials are evaluated for written and oral defense. Prereq: MUSC 5000, 5590, 6510, 6580, 6530. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

MSRA 6951 - Professional Audio Portfolio Thesis

*Summer 2010 Registration MSRA 6951*
With the guidance of a portfolio advisor, each candidate for the Msra degree produce specified documentation and audio materials that reflect the career intentions of the candidate. a completed "Show kit" or professional "Demo" of the candidate's specialty are produced. The approved materials are evaluated for written, audio and oral defense.
Prereq: MUSC 5000, 5590, 6510, 6530. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 4 Hours**

**Program Total: 34 Hours**

The above progression is merely suggested and shows the quickest possible schedule for graduation (three semesters). Students may elect to enroll for less than the suggested semester hour total, and/or enroll in additional semesters as needed. Students can apply for graduation in any semester (fall, spring or summer) provided they have completed the required course work. All course work must be completed with a satisfactory grade of “B” (3.0) or higher. Students should not register for thesis/portfolio, unless approved by the faculty advisor.

Please refer to the master of science in recording arts Web site for additional information: http://cam.ucdenver.edu/meis/recordingarts.htm.

**School Library and Instructional Leadership MA**

**Office:** Lawrence Street Center, 701
**Telephone:** 303-315-6300
**Fax:** 303-315-6311
**E-mail:** education@ucdenver.edu
**Web site:** www.ucdenver.edu/education/schoollibrary

**Faculty**

Information about SLIL faculty is available online at www.ucdenver.edu/education/schoollibrary.

**Program Overview**

The school library and instructional leadership program within the ILT master’s degree program is a nationally recognized NCATE-AASL revised and approved school library media education program that leads to the Colorado Department of Education endorsement for school libraries. The program integrates information literacy standards through the use of collaborative planning, as approved by the American Association of School Libraries. Technology and library resources are seen as tools to increase student achievement by integrating the information literacy standards with the content standards.
of the classroom teacher. The program adheres to the constructivist theory of resource-based learning and promotes an appreciation of children’s and adolescent literature. The program believes that school librarians require education as a teacher as well as a librarian, as advocated by the American Library Association and the International Association of School Libraries. As a school librarian, you will provide collaborative instruction, information access and leadership through the management of your library program and the library resources. Courses are offered in a completely online program, or a monthly Saturday cohort scheduled in communities across Colorado.

Once admitted, students begin a plan of study that typically takes about two years to complete. Consult the SLIL Web site for more information about specific plans of study, course offerings and expectations of cohort groups.

Admission Requirements

Admission decisions are based on undergraduate and graduate grades, external letters of recommendation and fit with the program as reflected in a letter of intent. In some cases, results of a test (GRE) are also required. Prospective students should consult the SLIL program Web site for complete admission procedures and requirements.

Professional Expectations

All students in the SLIL program are expected to show a strong commitment to the program and to maintain high academic, professional and ethical standards. Inappropriate or unprofessional conduct is cause for discipline or dismissal from the program.

Technology Expectations

The SLIL program uses computers and related technologies either as a focus or a tool for learning. Students are expected to obtain an e-mail account and check it frequently. In addition to on-campus facilities, SLIL students need convenient access to Internet-connected computers off campus, either at their place of work or at home. In addition to textbooks, software purchases may be required or recommended for specific classes.

Program Requirements

School library students also have a choice between endorsement-only and full master’s programs. The master’s program requires a minimum of 36 graduate semester hours. Students complete a plan of study consisting of courses and professional field experience. To receive Colorado teacher endorsement, students are required to pass
the PLACE test in school library. This is a Colorado Department of Education requirement.

An Example of Two-Year Plan for School Library Program

Courses are offered only in certain semesters and courses should be taken in a particular sequence based on when you start the program. Advising is required prior to enrolling in a course, even as a non-degree student, in order to ensure the most effective course sequencing and availability of courses.

Typical First Year

<table>

</tbody>
</table>

* SCHL 5530 Foundations in School Librarianship should be taken as the first course in your program.

** 80 hours of field experience hours are required. Field experience may be completed over the course of a year; online seminar hours will be completed during the field experience timeframe. Field experiences are completed within a pre-approved school library. See Field Experience Policy for more information.
*** LALC 5740; LALC 5790; and RSEM 5080 are offered on-campus in other semesters as well.

****Electives are usually attendance at Colorado Association of Libraries (CAL) conference in the fall; CASL in the spring; or TIE in the summer.

**Comprehensive Examination for All SLIL Students**

The comprehensive exam consists of a professional portfolio where in students demonstrate program competencies through work products and related accomplishments. The portfolio is created throughout the student’s program and submitted for faculty review the final semester. For more information, see the ILT Web site. For complete details about the SLIL program and endorsement requirements, see the ILT Web site at www.ucdenver.edu/education/schoollibrary.

**School Psychology EdS/Licensure**

**Program Leader:** Franci Crepeau-Hobson  
**Office:** Lawrence Street Center, 1113  
**Phone:** 303-315-6315  
**Fax:** 303-315-6349  
**E-mail:** education@ucdenver.edu  
**Web site:** www.ucdenver.edu/education/spsy

**Faculty**

Information about faculty in the school psychology program is available online at www.ucdenver.edu/education.

**Degree**

The educational specialist degree in school psychology is a 74 graduate semester-hour program that leads to licensure in school psychology by the Colorado Department of Education, national certification in school psychology by the National School Psychology Certification Board and the educational specialist degree (EdS) in school psychology.
This NASP-approved program allows students to create individual plans for meeting program requirements on a full- or part-time basis, during summer and academic year terms and during evening and weekend hours.

The school psychology faculty have adopted a preventative model of school mental health services. Upon completion of the program, students will be able to:

- screen for and recognize the early warning signs of social, emotional or academic risk, distinguishing between these and the typical development of infants, children and adolescents (birth–age 21)
- communicate effectively and consult collaboratively with students, parents, school professionals and community leaders to enhance the academic and mental health skills of students
- incorporate data-based decision making through formal and informal assessment procedures and planning interventions that enhance students’ cognitive, social-emotional and behavioral competencies
- plan, implement and evaluate the effectiveness of preventative and remedial therapeutic interventions that strengthen students’ mental health and academic skills
- advocate for children and families through the application of legal, ethical and professional standards for practice

Admission Requirements
Successful applicants to the school psychology (SPSY) program will have obtained a minimum 3.0 undergraduate GPA and will score at least 1000 on the verbal and quantitative sections of the GRE. Also, applicants will submit a current resume, a statement of goals and three letters of recommendations. Applicants meeting these minimum standards will be invited to a half-day group interview that involves program orientation, a writing assignment and a group dynamics exercise.

Application materials are available by calling the Student Services Center at 303-315-6300 or coming to Lawrence Street Center, Suite 701. All materials must be submitted to the Student Services Center in one complete packet by the appropriate deadline — February 15 for fall semester. Application materials include the following:

- part I of the application for admissions
- tuition classification form
- $50 application fee (make checks payable to the University of Colorado Denver)
- written statement
• three letters of recommendations (in sealed and signed envelopes)
• two official transcripts from each higher education institution attended (in the original, sealed envelope)
• official GRE scores sent directly to the University of Colorado Denver
• oath and consent
• fingerprint card
• online written response

Requirements for the Educational Specialist Degree in School Psychology and Licensure

Students will complete course work in child development, learning and cognition, educational methods, professional issues, assessment, counseling, intervention and consultation. Specific course requirements include one prerequisite course, 20 graduate courses and 14 graduate semester hours (1700 clock hours) of supervised experiences. Prerequisites include an undergraduate or graduate course in exceptional children or child psychology and an undergraduate or graduate course in tests and measurement (i.e., RSEM 5100 or RSEM 7110).

Students will complete the following core course work:

**CPCE 5010 - Counseling Theories**

*Summer 2010 Registration CPCE 5010*

Focuses on counseling theories: Psychodynamic, Adlerian, Person-Centered, Existential, Behavioral, including DBT, Cognitive Behavioral, Gestalt, & Reality Therapy. Also includes an overview of the history of the counseling profession and the role and function of counselors in various settings. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**EPSY 5100 - Advanced Child Growth and Development**

*Summer 2010 Registration EPSY 5100*

Systematic study of the major theories of child growth and development. Focuses on current research regarding infants and children and the implication of such research for education. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

or
EPSY 5140 - Advanced Adolescent Growth and Development

Summer 2010 Registration EPSY 5140
Systematic study of the major theories of adolescent growth and development. Focuses on current research regarding adolescents and the implications of the research for education. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

EPSY 5240 - Cognition and Instruction

Summer 2010 Registration EPSY 5240
Explores recent developments in cognition and their implications for instructional practices. Includes theory and research in cognitive psychology and resultant educational practices. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RSEM 5400 - Introduction to Evaluation of Programs and Persons

Summer 2010 Registration REM 5400
Models and methods of evaluating programs and persons in education and related fields, such as business and nursing, are examined. Emphasis is given to the topics of formative and summative evaluation, frameworks for program evaluation, teacher evaluation, merit pay, and the measurement and design problems associated with each topic. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

RSEM 7110 - Intermediate Statistics

Summer 2010 Registration REM 7110
Continuation of RSEM 5100, covering more advanced methods of analyzing data, with an emphasis on the use and interpretation of descriptive and inferential techniques. Topics covered are one-way and two-way analysis of variance; power; multiple comparisons; factorial designs and factorial ANOVA; partial correlation, multiple correlation and regression; analysis of covariance; and selected use of packaged statistical programs (SPSS). Prereq: RSEM 5100 or equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPED 5780 - Literacy Intervention for Students with Disabilities

Summer 2010 Registration SPED 5780
Provides the practitioner with an understanding of research-validated approaches, strategies, assessment tools and issues related to effective literacy instruction for students performing significantly below grade level. Practitioners can expect to be able to conduct thorough literacy assessments as well as be able to develop, implement, and
evaluate individual reading and writing programs for individual students with the most challenging literacy needs. Prereq: IPTE 4000 or IPTE 5000 and IPTE 4001 or IPTE 5001 or previous literacy course work with permission of instructor. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPSY 5600 - Functional Behavior Assessment and Planning**

*Summer 2010 Registration* SPSY 5600
Prepares educational professionals in functional behavior assessment as it applies to the development of behavioral support plans. Students gain knowledge and experience in working collaboratively with others to design strategies that help students with challenging behaviors to be more successful in school. These strategies include the implementation of environmental supports and skills training, as well as behavioral interventions. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPSY 5900 - School-Based Multicultural Interventions**

*Summer 2010 Registration* SPSY 5900
The course will foster student's understanding and appreciation of diversity and its applications for school psychology practice, educational contexts, and mental health policy. Students will learn to evaluate and implement school-based mental health and educational interventions with a multicultural lens. Prereq: SPSY 6410. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPSY 6100 - School Psychology: Professional & Legal Foundations**

*Summer 2010 Registration* SPSY 6100
This course covers topics related to the practice of school psychology, both past and present, including legal/ethical obligations/issues, accreditation, certification/licensure, culturally competent practice, roles/responsibilities, and evaluation and accountability. Observation in schools and related settings is required. Prereq: Admission to School Psychology Program. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPSY 6150 - Psychoeducational Assessment I**

*Summer 2010 Registration* SPSY 6150
Focuses on assessment of cognitive ability, cognitive processes, and achievement in children and adolescents. Topics include selection, administration, and interpretation of ability and achievement tests; psychological report writing, and psychometric, historical, theoretical, and cultural issues in assessment. Test administration required. Prereq:
RSEM 5300. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPSY 6160 - Psychoeducational Assessment II**

*Summer 2010 Registration SPSY 6160*
Focuses on the assessment of adaptive behavior, personality, and social-emotional functioning in children and adolescents. Topics include selection, administration, and interpretation of these types of measures; cultural considerations in psychological assessment, psychological report writing, and developing interventions. Test administration required. Prereq: SPSY 6150. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPSY 6170 - Assessment and Intervention: Birth to 3**

*Summer 2010 Registration SPSY 6170*
Course familiarizes students with the provision of psychological services to children birth to 3 years. The course includes coverage of relevant federal/state mandates, typical and atypical development, multicultural issues, and family-centered and consultative psychological intervention services. Test administration required. Prereq: SPSY 6150. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPSY 6200 - Risk, Resilience, and Prevention in School Mental Health**

*Summer 2010 Registration SPSY 6200*
Examines sources of biological and social risk that prevent children from infancy through adolescence from reaching their full adult potential, the prevalence of these risk factors in North American communities, and the wellness models of intervention that ameliorate the effects of risk factors before problems manifest themselves and become disabling. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**SPSY 6350 - School-Based Interventions: Children, Youth and Families**

*Summer 2010 Registration SPSY 6350*
Provides theoretical and practice-oriented introduction to child therapy in schools. Weaves together skills and techniques essential to theory and implementation of psychotherapeutic techniques. Course activities compliment the systemic and group-based interventions examined in SPSY 6400. Prereq: EPSY 5100 or EPSY 5140. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.
SPSY 6400 - School-Based Interventions: Groups, Classrooms and Systems

Summer 2010 Registration SPSY 6400
Provides students with advanced study of research on and techniques of classroom and small group interventions. Includes instruction on the evaluation of intervention effectiveness. Systemic, school-wide interventions are addressed. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPSY 6410 - Psychoeducational Services for Linguistically Diverse Students

Summer 2010 Registration SPSY 6410
Prepares students to provide current 'best practices' in cognitive assessment and psychotherapeutic services for students who are linguistically diverse. Attention will be paid to differentiating between students with language disorders and students in the process of acquiring English as a second language. Service recommendations will be grounded in an understanding of the unique psychological and educational needs of linguistically diverse students and the legal and ethical standards governing their education. Prereq: 30 graduate semester hours in the School Psychology program. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPSY 6420 - Crisis Prevention, Planning and Intervention

Summer 2010 Registration SPSY 6420
Introduces students to crisis theory, prevention research, and intervention strategies. The course is designed for school mental health professionals interested in developing advanced crisis counseling and intervention skills sufficient for use in school settings. The course emphasizes the importance of practical hands-on opportunities for skills development. Prereq: SPSY 6350 and CPCE 5100 (or equivalent) and experience required. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPSY 6450 - School-Based Consultation for Mental Health Professionals

Summer 2010 Registration SPSY 6450
A wide range of traditional or emerging consultation models emphasizing practical application of empirically-based approaches to advance the social or academic competence of students, classrooms, schools and districts. Hands-on experience supplement course content as students develop, refine, and practice their own eclectic consultation approach. Prereq: RSEM 5100, RSEM 5300 and SPSY 6350. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
SPSY 6500 - Identifying and Planning for the Mental Health Needs of Children and Adolescents

Summer 2010 Registration SPSY 6500
Provides students with advanced concentrated study of the etiology, diagnostic criteria, recommend intervention strategies, and diagnostic procedures appropriate for the identification of children's mental health needs. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPSY 6550 - Academic Interventions in School Psychology

Summer 2010 Registration SPSY 6550
Provides training in knowledge and skills for the use of educational intervention practices in school psychology, including the development, implementation, and evaluation of academic interventions in the areas of reading, math, and written language; curriculum based measurement and progress monitoring. Prereq: SPSY 6150. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Supervised Experiences

SPSY 6911 - School Psychology Practicum

Summer 2010 Registration SPSY 6911
This 500 hour practicum allows students to integrate theory with school psychology practice under supervision of a licensed school psychologist. Consultation, psycho-educational assessment, and other school psychological services are stressed. Prereq: SPSY 5600, SPSY 6100, SPSY 6150, and SPSY 6160. **Semester Hours:** 1to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

SPSY 6930 - School Psychology Internship

Summer 2010 Registration SPSY 6930
The internship stresses the professional practice of school psychology in a psychoeducational facility. Field experiences will encompass an array of psychological services. Prereq: CPCE 5100, SPSY 6911 and permission of instructor. **Semester Hours:** 1to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 74 Hours

The education specialist in school psychology degree also requires satisfactory completion of two professional portfolios (pre-internship and EdS) demonstrating
mastery of the program objectives and passing scores (≥ 165) on the PRAXIS specialty exam in school psychology.

Professional Expectations

All students in the SPSY program are expected to show a strong commitment to the program and to maintain a high academic, professional, ethical standards and sensitivity to diversity. Inappropriate or unprofessional conduct is cause for discipline or dismissal from the program.

Secondary English Education Option, MA Curriculum and Instruction

Literacy, Language and Culturally Responsive Teaching

MA Requirements for the Reading and Writing Option and Secondary English Education Option, plus Reading Teacher Endorsement and Certificate Programs

Office: Lawrence Street Center, 701
Telephone: 303-315-6300
Fax: 303-315-6311
E-mail: education@ucdenver.edu
Web sites: www.ucdenver.edu/education/literacy and www.ucdenver.edu/education/englished

Reading and Writing
Secondary English
Early and Adolescent Literacy Certificates

Faculty

Information about faculty in this program is available online at www.ucdenver.edu/education/literacy.

The faculty of literacy, language and culturally responsive teaching (L2CRT) believe that effective teaching requires an awareness of and the ability to respond to individual
differences. L2CRT faculty also emphasize the importance of teachers as scholars and reflective practitioners. In particular, teachers must understand how linguistic and cultural diversity affect their teaching. Two themes run throughout all program offerings. The first concerns the importance of recognizing a variety of literacies—“home” literacies, school literacy, “mainstream” literacy, first and second language literacies—and to develop teaching practices that utilize an understanding of the complexity of literacy development across language contexts. The second theme involves the meaningful use of language and literacy to improve the quality of one’s life. As an approach to teaching, this theme emphasizes the creation of diverse, rich environments in which learners experience oral and written language as part of authentic tasks, and where concern for the cultural and linguistic heritage of the students is evident.

**Reading and Writing Option and Reading Teacher Endorsement**

This master's program is designed for K-6 and 7-12 teachers. Those interested in elementary reading and writing should communicate with Professors Espinoza, Nathenson-Mejia or Taylor. Those interested in secondary and adult reading and writing should communicate with Professor Shanklin (see Web site for faculty contact information).

Reading is a credentialed program meeting the Colorado Department of Education requirements for reading teacher endorsement. Therefore, students who obtain a master’s degree emphasizing reading education from UC Denver are certified to hold positions in public and private schools as special developmental and remedial reading teachers in K–6 or 7–12. This program is also valuable for elementary and secondary teachers who wish to enhance reading and writing instruction in their classrooms.

By placing emphasis on the reading, writing and oral and visual language development of culturally, linguistically and academically diverse student populations, this master's program is at the forefront of the field. Language is approached from a socio-psycholinguistic perspective that emphasizes the learner's construction of meaning rather than the learning of isolated skills. Importance is placed on using theory, inquiry and personal reflection to inform classroom practice. The program prepares teachers to become decision makers capable of developing learner-centered curricula where each student’s reading and writing abilities are assessed to address developmental or special needs.

**Curriculum**

Course offerings lead to an MA degree in curriculum and instruction with an emphasis in reading and writing, as well as a reading teacher endorsement, at one of two levels: K–6 or 7–12.
Those who have completed UC Denver’s graduate teacher education licensure program must earn an additional 27 semester hours to obtain the MA and endorsement. Those who completed licensure through other means must earn an additional 36 semester hours to obtain the MA and endorsement.

Teachers may add a reading teacher endorsement to an already-earned master’s degree in education by taking those courses listed under the chosen endorsement level. (In the state of Colorado, the reading teacher endorsement cannot simply be added to a bachelor’s degree.) Electives and core courses are not required. Two additional courses must be taken in other areas specified by the Colorado Department of Education. In many cases, previous master’s degree courses will satisfy this requirement.

| Requirements for Reading and Writing Program (Degree/Endorsement Options) |

Secondary English Education Option

The master’s program in secondary English education is designed to enhance the preparation of middle and high school English/language arts teachers. Students complete course work in language development, assessment and field experiences. With the help of their advisor, they also select specific courses from the English Department or within the School of Education and Human Development that provide a well-rounded repertoire of knowledge and skills to fulfill the needs of an English educator. Special consideration is given to working with diverse ethnic populations. Students interested in English education should see Professor Shanklin (see Web site for faculty contact information).

Program Requirements

To earn a master of arts degree in curriculum and instruction with an emphasis in secondary English education, students must complete the following:

- 30 graduate semester hours in English education
- 6 graduate semester hours of core courses
- performance-based assessments that culminate in a portfolio finalized in the last semester of the program as fulfillment of the MA comprehensive exam requirement
Each student’s course plan is developed in conjunction with his/her advisor. Please review www.ucdenver.edu/education/englished for recommended course sequence.

LALC 5055 - Linking Assessment and Instruction in Language and Literacy, Part I
Semester Hours: 3
LALC 5740 - Adolescent Literature Semester Hours: 3

LALC 5760 - Theory and Methods of English Education Semester Hours: 3
-OR-
LALC 5835 - Special Topics: Literacy and Language Semester Hours: 3

LALC 5810 - Workshop in Language Acquisition and Development Semester Hours: 3
LALC 5910 - Foundations of Language, Literacy and Culture Semester Hours: 3
LALC 6911 - Seminar and Practicum in Literacy and Language, 7-12+ Semester Hours: 3

Research and Evaluation Methodology core course (see list below).
Interdisciplinary core course (see list below).
Four electives, per advisor approval, from the English department and/or the School of Education & Human Development. The following are recommended:
   LALC 5720 - Writing: Process, Development, and Teaching Grades 3-12 Semester Hours: 3
   -OR-
   ENGL 5110 - Denver Writing Project Semester Hours: 3

Courses in working with English language learners and in instructional technology may also be helpful. For a technology course, please contact the professor about prerequisite knowledge.

Total: 36 semester hours

Program Requirements--When Added to UC Denver’s Graduate Teacher Education Licensure Program

MA in curriculum and instruction with emphasis in secondary content leadership (English), when added to UC Denver’s graduate teacher education licensure program:

- 18 graduate semester hours
- performance-based assessments that culminate in a portfolio finalized in the last semester of the program as fulfillment of the MA comprehensive exam requirement

Each student’s course plan is developed in conjunction with his/her advisor. Please review www.ucdenver.edu/education/englished for recommended course sequence.

FNDS 5050 - Critical Issues in American Education Semester Hours: 3
-OR-
IPTE 5080 - Principles and Practice of Change Semester Hours: 3
-OR-
SPED 5300 - Collaborating In Schools and Communities Semester Hours: 3
RSEM 5080 - Research for Teachers Semester Hours: 3
Four electives, per advisor approval, from the English Department and/or the School of Education and Human Development. The following are recommended:
  LALC 5720 - Writing: Process, Development, and Teaching Grades 3-12 Semester Hours: 3
  -OR-
  ENGL 5110 - Denver Writing Project Semester Hours: 3
Courses in working with English language learners and in instructional technology may also be helpful. For a technology course, please contact the professor about prerequisite knowledge.
Total: 18 semester hours

Core Courses

Research and Evaluation Methodology

RSEM 5000 - Orientation to Research and Measurement in Education Semester Hours: 3
RSEM 5050 - Assessment for Teachers Semester Hours: 3
RSEM 5080 - Research for Teachers Semester Hours: 3
RSEM 5100 - Basic Statistics Semester Hours: 3
RSEM 5200 - Introduction to Research Methods Semester Hours: 3
RSEM 5300 - Introduction to Measurement Semester Hours: 3

Interdisciplinary

EPSY 5100 - Advanced Child Growth and Development Semester Hours: 3
EPSY 5140 - Advanced Adolescent Growth and Development Semester Hours: 3
EPSY 5220 - Adult Learning and Education Semester Hours: 3
EPSY 6200 - Human Development Over the Life Span Semester Hours: 3
FNDS 5050 - Critical Issues in American Education Semester Hours: 3
FNDS 5420 - History and Philosophy of Education: Twentieth Century America Semester Hours: 3
LALC 5140 - Multicultural Education Semester Hours: 3
LALC 5150 - Culture of the Classroom Semester Hours: 3
LALC 5160 - Historical and Legal Foundations of Bilingual Education Semester Hours: 3
LALC 5820 - Techniques in Teaching English as a Second Language Semester Hours: 3
Cumulative Portfolio

The MA portfolio counts as the comprehensive exam for the master's degree. The portfolio is an accumulation of the performance based assessments completed during program courses and reflects on the student's development over the course of the degree program. Reading and writing students must include confirmation of Reading Teacher PLACE exam registration in their portfolios. Information about the PLACE is online at www.place.nesinc.com.

Course Scheduling

During the fall and spring semesters, most university courses are offered in the late afternoon and evening and meet for three hours once a week over a 16-week semester. Some alternative course schedules are available, such as meeting on five Friday-evening/all-day Saturday combinations. In the summer semester, three- to eight-week sessions are offered, and courses may be in the morning, afternoon or evening. A current schedule of courses is available online at http://courses.cudenver.edu.

Planning

For practicing full-time teachers, we recommend taking one course each fall and spring semester, and up to two courses each summer. Plan carefully because courses are intended to build upon each other, and some courses are only offered once a year.

Active Status in the Graduate School

Students must complete their programs within seven years, maintaining a GPA of 3.0. Students typically take four courses each calendar year. Failure to enroll over three contiguous semesters will result in a requirement to resubmit part I of the application for admission and a letter of intent.

Early and Adolescent Literacy Certificates

The early literacy certificate and adolescent literacy certificate each include three graduate-level courses (for a total of 9 semester hours) and are conveniently offered entirely online. They are specifically designed to help licensed teachers develop the skills necessary to reach student readers. To find out more, please visit www.ucdenver.edu/education or email cpe@ucdenver.edu.

To learn about how these certificate credits may apply toward one of the above programs in reading and writing, contact education@ucdenver.edu.
Social Science MSS

► Graduate School Rules apply to this program

Requirements for Admission

General rules for admission into the Graduate School apply to admission into the MSS program.

For admission as a regular graduate student, applicants must:

• have earned a bachelor's degree
• submit two official copies of all transcripts, with an overall GPA of at least 3.0 out of 4.0
• have appropriate undergraduate training or professional background or indicators that supply evidence of ability to pursue the MSS degree
• include a writing sample
• submit three letters of recommendation (at least two from academic sources)
• submit a written statement specifying the goal of advanced study in the social sciences, expressed in clear, correct and effective English
• standardized test scores are not required, but will be considered if submitted

After meeting all other requirements for admission, applicants may be required to have an interview to discuss their interest in the program and their plans for study. For out-of-state applicants, an appropriate substitute for the interview may be determined by the director.

Provisional Admission:

Applicants may be admitted as provisional-status graduate students if their complete record indicates a high probability of success.

Non-degree Students:

Potential applicants may take graduate-level courses as nondegree students (unclassified student with a bachelor’s degree) if they:

1. Wish to strengthen their record in order to demonstrate that they can successfully complete courses in the program
   —or—
2. Wish to start courses in the program prior to completing their application. Up to 12 semester hours taken as a nondegree student may be accepted by the program once a student has been admitted into the program (the 12-hour limit also includes graduate work from another university).

*International Students:*

International students must also meet UC Denver requirements for international admission. See the Information for International Students section of this catalog or call 303-315-2230 for further information.

**Degree Requirements**

The MSS is a 36-semester-hour program, of which 30 hours must meet all specifications of the Graduate School. Throughout their work toward the MSS degree, students must maintain at least a B (3.0) average in all courses. A grade of B- or below will not be counted toward the degree.

Students may pursue courses around any coherent theme with the approval of MSS program directors and advisors. In addition to the unlimited self-structured options, there are four tracks in place from which students can select: women’s and gender studies, international studies, society and environment and community health science.

**Three Required Core Seminars**

The following two courses must be taken during the first year following entrance to the program:

**SSCI 5013 - Philosophical Problems in the Social Sciences and Humanities**

*Summer 2010 Registration S SC 5013*

Presents an overview of key theoretical issues currently emerging across academic disciplines. Examines questions about reality, knowledge, ethics that affect social research and writing in the humanities. Readings explore how contemporary philosophical and cultural discourses have altered theory and method. Assignments include influential theoretical pieces by key historical and contemporary thinkers, examples of application in social research, and interpretations of thought and affect in cultural contexts. Cross-listed with HUMN/PHIL 5013.*Semester Hours:* 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration. (Offered spring only)

**SSCI 5020 - Elements of Social Thought**
**Summer 2010 Registration S SC 5020**
Introduces students to the disciplines that comprise the social sciences (classical anthropology, sociology, sociology of religion, philosophy of history, political theory, classical psychology, etc.). Provides necessary tools for interdisciplinary students to understand the social infrastructure of contemporary society. Cross-listed with HUMN 5020 and PHIL 5020. \textbf{Semester Hours:} 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

(Offered fall only)

The third required course should be taken later in the program when students are ready to write a proposal for the thesis or project:

**SSCI 5023 - Research Perspectives in Social Science**

**Summer 2010 Registration S SC 5023**
Introduces interdisciplinary social research through a critical examination of various methodological approaches. Each student formulates a research proposal which includes a research question, a review of the literature, and methods of study. \textbf{Semester Hours:} 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

(Offered spring only)

**Total: 9 Hours**

**Electives**

Additionally, students must complete a total of 21-24 semester hours comprising a coherent selection of courses from a variety of disciplines. All courses for the self-structured portion of the program must be selected with the approval of one of the MSS program directors.

A total of two independent study courses and two 4000-level undergraduate courses taken while enrolled in the program may count toward the degree. All independent study contracts must be approved by one of the program directors. The remaining course work must be 5000/6000-level courses offered through various departments.

Students completing a project take 24 hours of electives, while thesis students complete 21 hours of electives.

**Total: 21-24 Hours**

**Thesis or Project**

In order to proceed with a thesis or project, all students must submit a proposal approved by three faculty members (and approved by one of the program directors in
cases where one of the directors is not serving on the committee). Students must also pass an oral comprehensive exam to graduate. Total hours required are: 3 hours of project and 6 hours of thesis.

**SSCI 6950 - Master’s Thesis**

*Summer 2010 Registration S SC 6950*

**Semester Hours:** 1to 8

Registration is changing. Visit our website for details ucdenver.edu/registration.

**SSCI 6960 - Master’s Project or Report**

*Summer 2010 Registration S SC 6960*

Research which may be based on field work. **Semester Hours:** 1to 6

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3-6 Hours**

**Degree Total: 36 Hours**

**Sociology MA**

► Graduate School Rules apply to this program

**Program Requirements**

Two plans of study are available for students. Both options require a minimum of 36 hours. A thesis is required for the thesis option, and a project and internship are required for the nonthesis option. Before beginning the required course work, attendance at an orientation is required for incoming cohorts as well as the completion of mandatory diagnostic exams.

**Required Courses**

Core courses are required for all graduate students, regardless of plan. Students who are officially admitted to the program are required to follow a sequential plan. SOC 5000 must be taken in the first fall semester. Students must take SOC 5014 before taking SOC 5015. Similarly, SOC 5024 must be taken before SOC 5183.

**SOCY 5000 - Professional Seminar: Sociological Inquiry**
Summer 2010 Registration SOC 5000
Orients new graduate students to key elements of graduate and professional levels of sociological inquiry. Topics include analyses of basic theoretical and epistemological issues, the history and contemporary development of the discipline, essential research programs and an introduction to faculty research. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SOCY 5014 - Classical Sociological Theory

Summer 2010 Registration SOC 5014
Examines the emergence and development of sociological ideas, concepts, and principles. Introduces students to the historical and social contexts in which theories of society are instituted. Particular attention is paid to the importance of and implication to contemporary sociology made by classical sociologists such as Durkheim, Marx, and Weber. Prereq: SOCY 4150. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SOCY 5015 - Contemporary Sociological Theory

Summer 2010 Registration SOC 5015
The explication of various conceptual approaches to the problem of social order, societal functioning and integration, social conflict, and social structural change by the examination of the work of contemporary theorists. Note: Required for M.A. students in sociology. Prereq: Must have successfully completed an undergraduate course in contemporary sociological theory and SOCY 5014. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SOCY 5024 - Seminar: Research Methods I

Summer 2010 Registration SOC 5024
Problems and procedures in research design, data collection and processing. Note: Required for M.A. graduate students in sociology. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

SOCY 5183 - Seminar: Quantitative Data Analysis

Summer 2010 Registration SOC 5183
A research-oriented seminar stressing the utilization of social data already collected in the test or generation of sociological theory. Note: Required for M.A. graduate students in sociology. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 15 Hours**
PLANS OF STUDY

Students must also choose one of the following options:

**Thesis Option Requirements**

- Core course requirements: 15 Hours
- Five elective courses: 15 Hours
- Master’s thesis: 6 Hours total required

**SOCY 5955 - Master’s Thesis**

*Summer 2010 Registration SOC 5955*

**Semester Hours:** 1 to 4

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Thesis Option Total: 36 Hours**

**Nonthesis Option Requirements**

- Core course requirements: 15 Hours
- Five elective courses: 15 Hours
- Internship: 3 Hours
- Master’s project: 3 Hours

**SOCY 5964 - Master’s Report**

*Summer 2010 Registration SOC 5964*

**Semester Hours:** 1 to 4

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Nonthesis Option Total: 36 Hours**

**Elective Credit Requirements (15 semester hours for both options)**
Students can take an unlimited number of sociology graduate seminars (i.e., 5000-level, stacked or not) to fulfill their 15 elective semester hours, or a combination of the following:

- Independent study: maximum 6 semester hours
- Courses in other departments: maximum 6 semester hours
- Internship: maximum 3 semester hours

For further information about the Department of Sociology or the MA program, visit the Sociology Web Site.

**Spanish MA**

▶ Graduate School Rules apply to this program

The UC Denver modern languages faculty offers a Spanish master’s degree program that is an alternative to the exclusively literary studies that traditionally lead to doctoral programs. By integrating language, literature and cultural studies with ancillary work in other disciplines, the degree provides a broader expertise that will lead to or enhance careers in teaching, government, social services, business and international trade. Students will tailor the program to their specific interests and needs by developing a topical focus and including courses from outside the Department of Modern Languages, through which they may develop a secondary emphasis that can be incorporated in a thesis project.

**Requirements for Admission**

In addition to the general admission requirements of the Graduate School, the Spanish MA program requires:

- an undergraduate GPA of at least 2.5, with a GPA of at least 3.0 in Spanish courses
- a bachelor’s degree in Spanish is not required, although all candidates must demonstrate Spanish oral and written proficiency at the advanced level, as defined by the American Council on the Teaching of Foreign Languages
- two copies of all college transcripts
- three letters of recommendation
- a statement of the applicant’s purpose in pursuing the degree, in Spanish; any gaps, weaknesses or special circumstances affecting an applicant’s academic record should be addressed in the statement of purpose portion of the application

- a TOEFL score higher than 550 for students whose previous academic degree was completed in a non-English-speaking country

In special circumstances, the department may modify its admission standards.

**Program Requirements**

Candidates in Spanish must satisfy the general requirements of the Graduate School as outlined in this catalog and will be required to complete 33 hours of course work distributed with respect to one of the following two options:

**Thesis option (course work + thesis):**

**SPAN 5000 - Introduction to Graduate Studies in Spanish**

*Summer 2010 Registration SPAN 5000*

Introduces critical methodologies and critical perspectives of practices of signification such as literature and film, among others, in the context of culture and history. Prereq: Graduate standing. *Semester Hours: 3 to 3*

Registration is changing. Visit our website for details ucdenver.edu/registration.

- Literature/culture and linguistics, including at least 6 hours in literature/culture and 6 hours in linguistics: **15 semester hours**
- Courses outside the Department of Modern Languages, as approved by advisor: **6 semester hours**
- Elective, as approved by advisor: **3 semester hours**
- Thesis preparation and writing: **6 semester hours**

**Thesis Option Total: 33 Hours**

**Nonthesis option (course work):**

**SPAN 5000 - Introduction to Graduate Studies in Spanish**

*Summer 2010 Registration SPAN 5000*

Introduces critical methodologies and critical perspectives of practices of signification
such as literature and film, among others, in the context of culture and history. Prereq: Graduate standing. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

Literature/culture and linguistics, including at least 6 hours in literature/culture and 6 hours in linguistics: **18 semester hours**

Courses outside the Department of Modern Languages, as approved by advisor: **6 semester hours**

Electives as approved by advisor (may include another course outside the Department of Modern Languages): **6 semester hours**

**Nonthesis Option Total: 33 Hours**

**Notes:**

1. No more than one undergraduate course (3 semester hours) may be applied toward the MA degree and then only in an ancillary field outside the Department of Modern Languages.

2. Students choosing the nonthesis option may elect to take three courses (9 semester hours) outside the department.

**Financial Aid**

The department offers a limited number of teaching assistantships for graduate students on a semester-by-semester basis. Appointment is competitive and is typically based on a student's academic credentials. Contact the department for details. For information on grants, federal work-study programs, scholarships and loans, contact the Office of Financial Aid (303-556-2886).

For further information concerning the master's degree in Spanish at UC Denver, direct inquiries to the graduate advisor.

**Special Education MA**

**Special Education**

**Office:** Lawrence Street Center, 701  
**Telephone:** 303-315-6300
Special Education Program Overview

The special education program within the initial professional teacher education division offers a special education generalist license and a special education endorsement as well as a master of arts degree in special education. All special education program options foster the development of critical reflection, inquiry about teaching and learning, as well as the breadth and depth in content knowledge necessary to work effectively in elementary and secondary classrooms. The program faculty promote the ability of teacher candidates to meet the needs of an increasingly diverse population of K–12 learners, as well as to participate productively in and lead school renewal.

The faculty in the program in special education value collaborative relationships between general and special educators, so we offer our teacher candidates the option of pursuing a dual endorsement in both general and special education to offer our teacher candidates the option of pursuing a dual endorsement in both general and special education.

Special Education Program Distinctions

Special Education Licensing Pathways

To be a licensed as a special education generalist for grades ages 5-21, a teacher candidate must hold a bachelor’s degree from a four-year accepted institution of higher education, have completed the plan of study from one of the program options for the preparation of special education generalist, have passed the approved elementary content and special education assessments and have demonstrated all required state and national standards.

Program options for the special education generalist include: 1) initial licensure as a special education generalist; 2) dual licensure in either elementary or secondary education and as a special education generalist; and, 3) for those who already hold a Colorado teaching license, an added endorsement, which is also fully online. There is also an option to count these courses towards a masters in special education which will require an additional 9 semester hours of course work.

The time needed to complete the various special education generalist program options varies based on the needs of teacher candidates. In addition to traditional on-campus offerings, a wide selection of courses are available in online formats. During the
academic year, core special education courses are scheduled in late afternoons, evenings and on Saturdays to avoid conflict with teaching responsibilities.

**Professional Development Schools**

While in the licensure portion of the program, teacher candidates work in a partner school one to four days per week, depending on the internship. University courses are closely interrelated with the four internship experiences in which teacher candidates gradually assume responsibility for teaching. Special education teacher candidates engage in a series of four internships from the beginning of the program to the end of the program. Dual teacher candidates engage in five internships that result in a general education license at the elementary or secondary level and then complete a fifth internship and additional course work; this can be done during an additional full time semester or can be worked out flexibly as the student assumes their first teaching position to complete their special education license. The partner schools are located in several Denver metropolitan districts with most serving large populations of low-income and/or minority students, as well as a sizeable number of students for whom English is a second language and students with special needs. Each partner school is supported by a site professor from the university one day per week and by a master teacher, called a site coordinator.

**Assessment**

In 2000, Senate Bill 154 required all Colorado teacher education institutions to become performance based. PBA stands for performance based assessment. PBAs are created that correspond to many of the teacher education courses and concurrent practice in the series of internships. In doing so, knowledge can be evaluated as a result of coursework and performance in schools simultaneously. As teacher candidates progress through the program, they will be introduced to Performance Based Assessments (PBAs) and will be guided and supported in both course work and internships. Students seeking dual licensure are responsible for four additional PBAs associated with their second endorsement in special education.

The PBAs are:

1. Literacy Instruction & Assessment (elementary and secondary versions)
2. Mathematics Instruction & Assessment (elementary)
3. Subject Matter Content (secondary)
4. Student Profile
5. Classroom Management
The four additional PBAs that all teacher candidates in the special education program are expected to proficiently complete include:

1. Assessment
2. Collaboration & Positive Behavior Supports
3. Literacy Instruction for Students with Identified Special Needs
4. The Individualized Education Program (I.E.P.) Process

Passing the PLACE or PRAXIS II Content examinations prior to the final internship is also required before a candidate is eligible for a provisional teaching license in Colorado.

Programs of Study

Due to the complex nature of state mandated influences of teacher preparation courses and constantly evaluated the program to meet student's needs, for the 2010-2011 term, please refer to the most current version of the Special Education Handbook for academic requirements for this program.

Requirements for Admission

The program conducts rolling admissions each semester. Summer and fall admission deadlines are January 15 & February 15; Fall Admission March 15. Spring admission deadlines are August 15, September 15 and October 15.

Teacher Education Information Sessions

All prospective teacher candidates are strongly encouraged to attend an information session before applying to the program. Information sessions are held twice a month lasting approximately 60-90 minutes. Advisors will be available to provide prospective students transcript reviews and pre-admission advising. To more effectively facilitate this process, please bring copies of all transcripts with you. A calendar of upcoming information sessions can be viewed on the Downtown Campus Web site. Go to www.ucdenver.edu/education to reserve a space or call the school's Student Services Center at 303-315-6300.

Teacher Education Program Requirements
Applicants to the IPTE program must hold at least a bachelor’s degree with a minimum undergraduate cumulative GPA of 2.75 for admission.

Graduate candidates with a GPA less than 2.75 are required to take the GRE, with a combined score of 1000 on the verbal and quantitative sections; or the Miller Analogies Test, with an average score of 400–600, before consideration for admittance.

All elementary education candidates must have a liberal arts major or equivalent content courses that provide a broad background of knowledge. *

All secondary education candidates must have a major or major equivalent of at least 30 semester hours in their desired teaching field. *

Registration verification of scheduled content knowledge exam or copy of official scores for PLACE or PRAXIS II.

A complete application on file that can be obtained at information sessions, online or through the Student Services Center.

*This is determined through transcript evaluations at information sessions.

**Urban and Regional Planning MURP**

**Overview of the Curriculum**

The requirements for the master of urban and regional planning degree fall into three categories:

1. core courses required of all students (27 semester hours)
2. concentration courses (15 semester hours)
3. planning related elective courses (9 semester hours)

Completion of at least 51 semester hours is required for graduation, less transfers and other waivers approved during the first semester of study. Students are encouraged to focus primarily on core courses during their first year of study, except Studio II, which would normally be taken in the second year. Studio II serves as a capstone experience. It is offered every semester.

Beyond the core, the graduate planning program offers three 15-semester-hour concentrations around which students normally organize course selections: economic and community development planning, land use and environmental planning and urban place making. These have been carefully constructed to cover the broad terrain of the profession. Students may also, with an advisor’s approval, craft their own unique
concentrations. The remaining 9 semester hours of the 51-semester-hour MURP requirement are generally used either to deepen expertise within the concentration field or to enable lateral coverage of allied or distinct fields. Those in the MURP-MPA, MURP-MBA, MURP-JD, MURP-MLA and MURP-MArch dual degree programs will find that the core of each serves as the elective base of the other, leaving few free electives. In no instances may remedial study needed to secure course or program prerequisites apply to the basic degree requirement.

The concentration is meant to insure synergy among courses elected and to lay the foundation for a satisfying and productive career and extended learning on the job. Students should bear in mind that planning is a diverse and evolving profession and that personal interests and career options often change after graduation. Moreover, the mix of courses elected normally allows some breadth in the subsequent definition of one’s expertise as new graduates attempt to match their qualifications with employer requirements. Highly focused studies sometimes elevate the marketability of expertise in certain niches in the market for entry level planners, but may limit access to others. Excessive breadth may limit claims of specialized expertise; however, many positions do indeed require competent generalists.

**Prerequisites**

Students are expected to have achieved a basic level of computer literacy prior to enrollment, and should be familiar with PC or Apple operating systems. Acquiring some prior familiarity with digital visualization techniques is recommended for students who do not have a background in graphic communication. A higher level of proficiency is desirable for those seeking to emphasize the design elements of professional practice, most in evidence in our urban place-making concentration. Some assistance in attaining these skills may be provided in advance of the fall semester. Applicants are annually welcomed from virtually every field of prior study.

**Advanced Standing**

- Entering students who earned the college’s bachelor of environmental design (BEnvd) degree offered on the CU Boulder campus, within five years prior to enrollment, and who have maintained a GPA of at least 3.0, will be admitted to the MURP with advanced standing. Those who graduated still earlier may receive advanced standing at the discretion of the department chair, in consultation with the program faculty.

- These students can earn the MURP degree after completing a minimum of 42 semester hours, which will include the core courses (less any waived due to prior study), an approved concentration and additional electives required to meet the overall credit requirement of 42.
Students holding the college’s BEnvd degree who also have completed, in this study, the undergraduate planning option with a GPA of at least 3.0 (and with a grade of at least 3.0 in ENVD 4320, Planning Studio III) will, in addition, receive a waiver with credit for URPL 6630, Planning Studio I. These students will earn the MURP degree upon completion of a minimum of 36 semester hours, including 21 semester hours of core courses and an additional 15 semester hours in an approved concentration.

Program Requirements

The master of urban and regional planning is the college’s accredited degree for students intending to pursue careers in planning and in related fields across a wide spectrum of employment niches both within and outside government.

With no advanced standing, candidates for the MURP degree must complete a minimum of 51 semester hours of graduate work, including all core courses (27 semester hours), a concentration (15 semester hours minimum) and additional electives (9 semester hours). Concentrations currently include: land use and environmental planning, economic and community development planning and urban place making. Students may also devise their own individual concentrations with an advisor’s approval.

Entering students who have engaged in the study or practice of planning elsewhere may petition the faculty prior or during their initial semester to determine whether any credit will be awarded or degree requirements relaxed as a result of these prior activities. A maximum of 9 semester hours of course work can be applied for advanced standing when such work was pursued at other institutions and meets prescribed level, content and quality thresholds. Graduates of the college’s own BEnvd program are eligible for up to 15 semester hours of advanced standing.

Advising

Students should, early in their course of study, secure a program advisor. When that advisor also happens to serve as the concentration coordinator for the specific official concentration that the student wishes to pursue, then the faculty member should continue in both capacities. If the student wishes to pursue an official or self-devised concentration that is outside the program advisor's prime field of expertise, the student may either consult with the concentration coordinator while retaining the original program advisor, or switch all advising duties to the concentration coordinator. It will be important for the concentration coordinator to know of and approve course work in the context of the concentration itself. Monitoring student involvement in each concentration will also help the faculty to gauge demand, adjust offerings and facilitate activities outside the classroom such as visiting speakers and field trips, and to provide related services such
as databases, software libraries and job placement information. Maintaining an active roster of interested students will also help to sustain contacts among students and with graduates in order to build career networks and engage area professionals.

**Internships**

Internships are encouraged though they are generally not accepted in meeting concentration requirements. Exceptions must be approved in writing by the concentration coordinator prior to commencement of the internship. No more than three credits of internship work may be applied to the 51-semester-hour degree requirement. Any student wishing to undertake an internship must comply with the procedures established in the internship materials available in the program office.

**Independent Study, Thesis and Special Topic Courses**

To engage in an independent study course, the student must provide the instructor with an outline of the topic, and a time schedule for its completion. The instructor may require additional supporting materials before agreeing to work with the student. Independent study courses (URPL 6840) and thesis work (URPL 6950 and URPL 6951) may meet concentration requirements, depending on the topic, upon the program advisor's approval. Special topics courses (URPL 6686) will be acceptable in at least one of the categories in the three official concentrations. A completed thesis may substitute for Studio II. Students considering thesis work must secure a thesis advisor drawn from our regular faculty, assemble a committee, secure approval of the thesis proposal before work commences, comply with the official campus form guidelines, make a final presentation, win the approval of the committee and file a bound copy in the Auraria Library.

**MURP Program Planning Form (PPF)**

Each student should have a copy of the Program Planning Form and use it to keep an up-to-date record of his/her program plan and progress. In addition, a copy of this form should be submitted to the program office and retained in the student's file. If you have any questions about how to use the form, contact your program advisor. No student will be certified for graduation by the department chair until a fully updated Program Planning Form is placed in the student's official file.

**Core Curriculum**

The core curriculum is composed of the courses listed below. Students are encouraged to focus primarily on core courses during the first year of study, except Studio II, which would normally be taken in the second year. Studio II serves as a capstone experience
and is offered every semester. We aspire to offer a diversity of Studio II options befitting the three official concentrations.

**URPL 5501 - Planning Issues and Processes**

*Summer 2010 Registration URPL 5501*
Provides an overview of planning history and theory. The philosophical, political, and economic roots of the various theories are discussed. Ideas are placed in the context of the planning profession's history and its present aims, interests, and ethics. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URPL 5510 - Planning Methods I**

*Summer 2010 Registration URPL 5510*
Focuses on application of methodological techniques commonly used in planning practice. Course covers data collection, management, analysis, communication and presentation. Major topics include primary/secondary data analysis, database construction, descriptive and inferential statistics, sampling, probability distributions, hypothesis testing, and correlation. Cross-listed with GEOG 4000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URPL 5511 - Planning Methods II**

*Summer 2010 Registration URPL 5511*
Addresses advanced models associated with the estimation, prediction, and prescription of conditions and trends in population, employment, land use and transportation. Examines orchestrating analytic studies that inform all phases of a project, including effective methods for engaging the public, presentation techniques, etc. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URPL 5520 - Urban Spatial Analysis**

*Summer 2010 Registration URPL 5520*
Examines urban spatial patterns and processes. Considers city as system. Major topics: defining urban/spatial/analysis; economic theory of city origin; urban land value; social space; industrial and retail structure; economic base/urban growth, sustainable development; city of mind. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URPL 5530 - Planning Law**
Summer 2010 Registration URP 5530
Focuses on the legal setting for urban and regional planning in the United States and major constitutional issues in the effectuation of planning policy. Contemporary controversies are put into the larger context of attempts by the judicial system to redefine the balance between individual rights and governmental power in an increasingly weakened society. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URPL 6630 - Planning Studio I**

Summer 2010 Registration URP 6630
Focuses on plan design in urban and regional planning and explores basic concepts, techniques, and issues related to urban planning, urban design, site planning, and environmental awareness. **Semester Hours:** 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URPL 6631 - Planning Studio II**

Summer 2010 Registration URP 6631
Focuses on plan-making related to urban and regional planning. An understanding of the plan-making process is emphasized. Students have direct experience with the various steps in planning, including data-gathering, goal-setting, identification of alternatives, analysis, synthesis, and presentation of the plan. The plan may be for a city sector, a neighborhood, an entire community, a region, or it may be a policy plan. Where possible, students work with an actual client. Prereq: URPL 6630. **Semester Hours:** 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Areas of Concentration**

The concentration is meant to insure synergy among courses elected, and to lay the foundation for a satisfying and productive career and extended learning on the job. Students should bear in mind that planning is a diverse and evolving profession and that personal interests and career options often change after graduation. Moreover, the mix of courses elected normally allows some breadth in the subsequent definition of one’s expertise as students attempt to match qualifications with employer requirements.

Highly focused studies will sometimes elevate marketability in certain niches for an entry level planner, but may limit access to others. Excessive breadth may limit claims of specialized expertise, however, many positions do indeed require competent generalists.

The program supports three official concentrations:

**Economic and Community Development Planning**
This concentration focuses on:

- The marriage of community development and urban economic development. Communities, regions and nations suffering economic insufficiency, stagnation or decline—evidenced in under or unemployment, poverty, diminished opportunity, environmental decline or fiscal decay—often seek remedies for these shortcomings through strategic economic development planning.

- In this concentration, considerable attention will be given to means for assessing economic impact and apportioning growth's gains across people, places and sectors.

**Land Use and Environmental Planning**

This concentration focuses on:

- Practices and innovations in land use regulation and public investment
- Analytical methods including transportation modeling, land market evaluation, environmental impact analysis and use of decision support systems
- Administration of policies and plans
- Management of collaborative processes across diverse interest groups
- Planning politics and governance

**Urban Place Making**

This concentration focuses on responding effectively to the following recent trends and demands on the profession:

- Stronger residential real estate markets in urban centers, especially in the Front Range communities
- Planning for mixed-use and high density neighborhoods
- Necessity for understanding of urban form and the interactions between uses, facilities and services within complex urban contexts
- Higher levels of public participation
- Wider scope of in design review and increased level of discretion that necessitates design creativity in review processes.

A set of foundation courses is identified in each concentration, plus additional supporting electives.
Course Sequence

Applicants may be admitted for both the fall and spring semesters. The schedule below posits a fall onset. If study is commenced in the spring the student may not encounter Planning Methods I until the following fall, so Planning Methods would be deferred to the third semester of study since we now encourage students to take these in the numeric sequence. Planning Issues and Processes is currently offered only in the fall and is the usual “door of entry” to the program. It is possible however that we will move to offer sections of this course during both semesters. Students may take more than 12 semester hours of study and so may progress faster than the template below would indicate. Generally taking more than 15 hours is ill-advised. Under some circumstances—and on a space-available basis—Studio I may be taken during the first semester of study. Both Studio I and II are offered every semester, and additional sections will be added as demand warrants to preserve an acceptable class size. We offer numerous courses beyond the core, and also designate additional options in other departments, elsewhere within our college and across the campus.

First Year

Fall

URPL 5501 - Planning Issues and Processes

Summer 2010 Registration URPL 5501
Provides an overview of planning history and theory. The philosophical, political, and economic roots of the various theories are discussed. Ideas are placed in the context of the planning profession’s history and its present aims, interests, and ethics. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

URPL 5510 - Planning Methods I

Summer 2010 Registration URPL 5510
Focuses on application of methodological techniques commonly used in planning practice. Course covers data collection, management, analysis, communication and presentation. Major topics include primary/secondary data analysis, database construction, descriptive and inferential statistics, sampling, probability distributions, hypothesis testing, and correlation. Cross-listed with GEOG 4000. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

URPL 5530 - Planning Law
Summer 2010 Registration URP 5530
Focuses on the legal setting for urban and regional planning in the United States and major constitutional issues in the effectuation of planning policy. Contemporary controversies are put into the larger context of attempts by the judicial system to redefine the balance between individual rights and governmental power in an increasingly weakened society. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
   Elective course (3 semester hours)

Total: 12 Hours

Spring

URPL 5511 - Planning Methods II

Summer 2010 Registration URP 5511
Addresses advanced models associated with the estimation, prediction, and prescription of conditions and trends in population, employment, land use and transportation. Examines orchestrating analytic studies that inform all phases of a project, including effective methods for engaging the public, presentation techniques, etc. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

URPL 5520 - Urban Spatial Analysis

Summer 2010 Registration URP 5520
Examines urban spatial patterns and processes. Considers city as system. Major topics: defining urban/spatial/analysis; economic theory of city origin; urban land value; social space; industrial and retail structure; economic base/urban growth, sustainable development; city of mind. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

URPL 6630 - Planning Studio I

Summer 2010 Registration URP 6630
Focuses on plan design in urban and regional planning and explores basic concepts, techniques, and issues related to urban planning, urban design, site planning, and environmental awareness. **Semester Hours:** 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 12 Hours

Second Year
Fall

Concentration Courses (9 semester hours)
Electives (6 semester hours)

Total: 12 Hours

Spring

URPL 6631 - Planning Studio II

Summer 2010 Registration URPL 6631
Focuses on plan-making related to urban and regional planning. An understanding of the plan-making process is emphasized. Students have direct experience with the various steps in planning, including data-gathering, goal-setting, identification of alternatives, analysis, synthesis, and presentation of the plan. The plan may be for a city sector, a neighborhood, an entire community, a region, or it may be a policy plan. Where possible, students work with an actual client. Prereq: URPL 6630. Semester Hours: 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

Concentration Courses (6 semester hours)

Total: 12 Hours

* Both studios are offered in the fall and spring semesters.

Dual Degree Options

Students may enroll in dual degree programs with public administration (MURP+MPA), law (MURP+JD) and business (MURP+MBA). In addition, dual degree options are also available combining the MURP with landscape architecture (MLA) and architecture (MArch). A new dual degree combining planning and public health (MURP+MPH) is under development combining strengths on both the Denver and Anschutz Medical Campuses of UC Denver. The dual degree with law combines study on the Denver Campus and in the CU Boulder Law School. Interested students should consult the college Web site for additional information regarding these options. Overall, applicants to any dual option must apply to and gain separate admission to each degree program. Once admitted the student can graduate from neither until the work is completed for both degrees. Synergies enable a significant reduction in both the time and credit required to complete these pairings than would be needed if each were separately pursued. If the student should opt to drop either member of the dual set, he/she must then fulfill the stand-alone requirements of the remaining degree.
Certificate Programs

The college offers official certificate programs in design build, geospatial information science and historic preservation. Consult our Web site for details on each of these. The first is more attuned to the requirements of architectural students, whereas the latter two could suffice—with the approval of the department chair—as a basis for a concentration satisfying the MURP concentration requirement. Some students may wish to augment their 51-semester-hour MURP with additional course work in order to complete any one of these certificate programs.

Urban Design MUD

► Graduate School Rules apply to this program

Program Information: Jeremy Németh
Telephone: 303-556-3688

The master of urban design (MUD) is an intensive, one-year, interdisciplinary postprofessional degree program intended for talented persons already holding a professional degree in architecture, landscape architecture or urban and regional planning (e.g. BArch, BLA, MArch, MLA, MURP/MUP or equivalents).

Urban design is an integrative activity focused on creating beautiful, vital, functional, environmentally sustainable and socially just public places. By contextualizing architecture while providing a means of implementation for planners and landscape architects, urban design occupies a realm supportive of these fields while simultaneously generating its own responses to the most pressing urban issues. Although urban designers often intervene on the neighborhood scale, the program fosters mastery of inclusive and participatory community design processes and the attendant means for effectively implementing physical plans at the metropolitan, neighborhood, district, corridor, street and block scale.

The MUD program focuses on creating sustainable urban infrastructure and interprets the city as a set of overlaid and integrated systems. The program views urban designers playing a vital role in the production of the built environment because of their dual responsibility to illustrate preferable design solutions and shape the regulatory patterns governing future development. The inherent interdisciplinarity of this approach brings students into frequent contact with professors, practitioners and experts in urban planning, architecture and landscape architecture, and encourages students to forge their own tailored degree by pursuing an independent study and a variety of electives in the college. Students relate their independent study projects to one of the college’s fields
of expertise, such as participatory design in distressed communities, postindustrial landscapes, “green streets,” vernacular design or historic preservation.

Denver and the American West provide an exciting urban laboratory as we face a number of complex and difficult challenges (e.g. water scarcity, urban sprawl). Students undertake at least one studio in the Denver metropolitan region while remaining cognizant that similar systems and challenges exist in a variety of domestic and international contexts. As a capstone project during their final term, students enroll in an international studio course, preparing for this studio by taking a mandatory seminar in global design history and practice.

The MUD program is informed by innovations in practice. Tested techniques and methods are brought into classroom and studio settings to be evaluated, refined and disseminated in ways that prepare graduates for highly innovative work as critical, reflective urban designers employed in both the public and private sectors. In addition, each spring semester brings a visiting urban design fellow to the college. This practitioner-in-residence is selected from a highly competitive pool of designers from around the world. The selected practitioner teaches an advanced urban design studio and supervises independent study projects.

Prerequisites

Students are required to hold a first professional degree in architecture, landscape architecture or urban and regional planning (e.g. BArch, BLA, MArch, MLA, MURP/MUP or equivalents).

Admissions

The Master of Urban Design Admissions Committee accepts applications for Fall semester entry. Right now, the program does not allow entry to the program in any Spring semester. The general requirements the Admissions Committee considers are:

- Evidence of a professional degree (BArch, BLA, MArch, MLA, MURP/MUP) or equivalent
- At least a 3.0 undergraduate or graduate cumulative GPA
- A portfolio (8.5 × 11-inch bound document) that includes:
  - Your statement of purpose (which should include your educational and professional goals and objectives)
  - Résumé (which describes your educational and professional background)
  - Examples of student or professional projects
Program Requirements

The requirements for the postprofessional master of urban design (MUD) degree depend on your current standing and educational background. The basic study plan is a 36-semester-hour plan that includes two elective courses. Students obtaining a first professional degree in University of Colorado Denver College of Architecture and Planning may receive up to 12 semester hours of advanced standing.

Core Requirements

URBN 6610 - Infrastructure Studio

*Summer 2010 Registration U D 6610*
Introduces urban structure and morphology, presenting city as complex, ecological organism comprised of interrelated systems. Working on urban/metropolitan scale, students deconstruct city into series of infrastructural layers, then recompose and restructure it in a more integrated fashion. **Semester Hours:** 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

URBN 6611 - Regulatory Studio

*Summer 2010 Registration U D 6611*
Advances understanding of tools, methods and practice of urban design. Operating on neighborhood scale, studio emphasizes proactive role designers play in shaping regulations. Students consider real estate development economics, aesthetic criteria, historic preservation, and methods of effective community participation. **Semester Hours:** 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

URBN 6612 - Urban Synthesis Studio

*Summer 2010 Registration U D 6612*
Synthesizes learning from previous studios, emphasizing exploration and experimentation on variety of scales. Civic engagement is paramount component, with the studio taking place in a variety of challenging contexts, including metropolitan
regions in China, India and the Middle East. **Semester Hours:** 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URBN 6640 - History of the City**

*Summer 2010 Registration U D 6640*
Introduces students to the history of global cities through selected typologies. Explores similarities and differences among cities considered against the larger cultural, political and socio-economic envelope of which they are part. Provides awareness of origins, growth and evolution of urban form. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URBN 6641 - Design Process/Practice**

*Summer 2010 Registration U D 6641*
Advances current practice by exploring innovative methods of design analysis, production, representation, and communication. Community participation and civic engagement are integral components of seminar, and students are introduced to business of urban design through contact with prominent urban design professionals. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URBN 6642 - Design Policy/Regulation**

*Summer 2010 Registration U D 6642*
Argues that a role of urban designers is to shape built environment through combination of physical intervention and policy development. Students review urban economic and real estate trends and assess zoning/land use regulations to understand impacts on built environment quality. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URBN 6840 - Independent Study: URBN**

*Summer 2010 Registration U D 6840*
Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to urban design. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

or

**URBN 6930 - Urban Design Internship**

*Summer 2010 Registration U D 6930*
Designed to provide professional practice experience in urban design. Emphasis on actual work experience in settings with client groups as students assist them in
determining solutions. Program directors approval required. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 30 hours**

**Course Sequence**

**Fall**

**URBN 6610 - Infrastructure Studio**

*Summer 2010 Registration U D 6610*
Introduces urban structure and morphology, presenting city as complex, ecological organism comprised of interrelated systems. Working on urban/metropolitan scale, students deconstruct city into series of infrastructural layers, then recompose and restructure it in a more integrated fashion. **Semester Hours:** 6to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URBN 6640 - History of the City**

*Summer 2010 Registration U D 6640*
Introduces students to the history of global cities through selected typologies. Explores similarities and differences among cities considered against the larger cultural, political and socio-economic envelope of which they are part. Provides awareness of origins, growth and evolution of urban form. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URBN 6641 - Design Process/Practice**

*Summer 2010 Registration U D 6641*
Advances current practice by exploring innovative methods of design analysis, production, representation, and communication. Community participation and civic engagement are integral components of seminar, and students are introduced to business of urban design through contact with prominent urban design professionals. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Spring**

**URBN 6611 - Regulatory Studio**

*Summer 2010 Registration U D 6611*
Advances understanding of tools, methods and practice of urban design. Operating on
neighborhood scale, studio emphasizes proactive role designers play in shaping regulations. Students consider real estate development economics, aesthetic criteria, historic preservation, and methods of effective community participation. **Semester Hours:** 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URBN 6642 - Design Policy/Regulation**

Summer 2010 Registration U D 6642

Argues that a role of urban designers is to shape built environment through combination of physical intervention and policy development. Students review urban economic and real estate trends and assess zoning/land use regulations to understand impacts on built environment quality. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URBN 6840 - Independent Study: URBN**

Summer 2010 Registration U D 6840

Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to urban design. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

* or *

**URBN 6930 - Urban Design Internship**

Summer 2010 Registration U D 6930

Designed to provide professional practice experience in urban design. Emphasis on actual work experience in settings with client groups as students assist them in determining solutions. Program directors approval required. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Summer**

**URBN 6612 - Urban Synthesis Studio**

Summer 2010 Registration U D 6612

Synthesizes learning from previous studios, emphasizing exploration and experimentation on variety of scales. Civic engagement is paramount component, with the studio taking place in a variety of challenging contexts, including metropolitan regions in China, India and the Middle East. **Semester Hours:** 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Dual Degree Programs**
Business Administration/Business MBA/MS

The Business School also offers MBA/MS dual degree programs for each function of business. The program consists of a minimum of 66 semester hours of graduate work and leads to both an MBA degree and an MS degree, which must be completed within seven years and one semester. See MS program pages for a list of functional areas. Contact a graduate academic advisor for details, 303.315.8200

Business Administration/International Management MBA/MIM

This unique combined degree is offered in cooperation with the American Graduate School of International Management (the Thunderbird School) located in Glendale, Arizona, a suburb of Phoenix. Thunderbird has established eight dual programs with universities in the United States. The student applies independently to both schools and, if admitted, earns the MBA from UC Denver and a master of international management degree from Thunderbird. The student begins the program at UC Denver and, after completing 36 semester hours (12 courses) required for the MBA, transfers to the Thunderbird campus and takes a minimum of 30 semester hours (10 courses) for the MIM. When all dual degree requirements are finished, the student is awarded a diploma from each school. For more information about admission to the MBA on the Downtown Campus, refer to the appropriate section of this chapter. For specifics about the dual MIM application process, call Thunderbird’s associate dean of admissions, Stephen R. Beaver, 1-800-848-9084.

Business Administration/ Medicine MBA/MD

The MBA/MD is for medical students at the University of Colorado School of Medicine who wish to pursue a career in administrative medicine or who seek additional training in administration or business. The program is designed to be completed in five years, at which time both the MD and MBA degrees would be awarded. Candidates for the
MBA/MD complete 36 semester hours of course work in the business school and all requirements for the MD.

**Business Administration/Urban and Regional Planning MBA/MURP**

This dual degree enables students to obtain both the master of urban and regional planning offered by the College of Architecture and Planning and the master of business administration offered by the Business School upon completion of 78 semester hours. The dual degree program is composed of the core curricula in each program plus a set of electives jointly approved by the student's advisors.

**Business/Business MS/MS**

Students may concurrently pursue dual MS degrees in any two fields of business. The program consists of a minimum of 51 semester hours of core course work, which must be completed within a period of seven years. In addition, candidates for the dual degree must satisfy all the common body of knowledge (CBK) and background requirements prescribed for each degree. Waivers may be approved for some of the CBK or background upon transcript evidence of equivalent previous undergraduate or graduate course work. For more information contact a graduate staff advisor, 303-315-8200.

**Chemistry BS/MS**

While students are completing a BS degree in chemistry, they may also complete some of the requirements for an MS degree in chemistry under the following guidelines:

- The student must apply and be accepted for participation in the BS/MS program prior to completion of the BS degree and be advised by both the undergraduate and graduate advisors.

- Up to 9 semester hours of graduate-level course work may be taken as an undergraduate and applied toward the MS degree. This course work may not be applied toward the BS degree or ACS certification requirements for the BS degree.

- Up to 3 semester hours of independent study (research) may be applied toward the graduate degree if that research is expanded and continued for a portion of the master’s thesis research. This requires approval of the student’s graduate
research advisor in chemistry, the chemistry graduate program director and the CLAS associate dean for graduate studies.

- The chemistry department will waive the requirement for qualifying examinations in each area of chemistry for which the student has completed the undergraduate sequence of courses and laboratories at the Downtown Campus with grades of B or better for each course.

- The student must apply for and be admitted to the graduate program in chemistry beginning the semester immediately following completion of the BS degree in chemistry at the Downtown Campus.

This program allows undergraduate students who have begun their research as undergraduates to complete up to 12 semester hours (with approval of the graduate dean) toward the 30 semester hours required for a Plan I MS degree in chemistry while they are still completing their BS degree. This makes it possible for students to complete an MS degree in chemistry in only one year beyond the BS degree in chemistry. Students entering the program through the BS/MS program option must fulfill all of the requirements of the Plan I or Plan II graduate programs.

Criminal Justice BA/MCJ

The dual BA/MCJ program is designed to allow students to work concurrently toward the BA in criminal justice and the master in criminal justice (MCJ). Graduate credit hours earned while enrolled in the BA/MCJ program can be counted toward both the bachelor of arts and master of criminal justice. This program offers high-achieving students the opportunity to complete their undergraduate and graduate degrees in criminal justice in five years.

Admissions Requirements and Process

Interested students should contact their BA academic advisor as early as possible to ensure proper planning for the five year degree.

Eligibility Requirements

Both current UC Denver students and new transfer students are eligible to apply after meeting the following:

- Currently enrolled in the School of Public Affairs as a criminal justice major
- Completed the University of Colorado Denver’s core curriculum
- Completed 60 semester credit hours
Completed the following 12 semester credit hours in criminal justice: CRJU 1001 Introduction to Criminal Justice, CRJU 2041 Crime Theory and Causes, CRJU 3100 Criminal Justice Research Methods, and CRJU 3150 Statistics for Criminal Justice (transfer criminal justice courses must have been approved and accepted toward the major).

- Minimum 3.0 cumulative GPA
- Minimum 3.5 cumulative GPA in criminal justice courses
- Completed or Scheduled official GRE or LSAT exam

**Application Process**

Students can apply for the joint program anytime from their second year forward, but students will most likely apply during the second semester of their junior year. We require students submit all application materials by Oct. 15 for admission to the spring semester and by March 15 for admission to the fall semester for full consideration. The following steps should help in the application process:

1. Plan ahead when scheduling courses through the junior year. All four of the required criminal justice courses and all of the student's core education requirements must be completed by the end of the student's junior year.

2. At the beginning of the semester in which the student is applying to the program, the student should approach a criminal justice faculty member about writing a letter of recommendation. The student should also begin working on a personal statement of purpose. The following guidelines should help with writing the statement.
   - Length 1 to 2 pages
   - The statement should describe:
     - Applicant's reasons for undertaking graduate study in criminal justice
     - Applicant's future career plans
     - Planned area of concentration within criminal justice

3. By Oct 15 of the fall semester or March 15 of the spring semester the student must submit the following items to the undergraduate coordinator:
   - Personal statement of purpose
   - One letter of recommendation from a faculty member
Admission Criteria

Admission to the BA/MCJ program is competitive. Applicants will be evaluated on the following:

1. Grade point average (overall and in criminal justice course work)
2. Grade trend (improving, consistent, or declining)
3. Total number of credit hours completed
4. Likelihood of success and persistence based from the Statement of Intent and Reference Letter
5. Official GRE or LSAT scores

Students who are not admitted to the BA/MCJ program are eligible to reapply after completing an additional 12 semester credit hours. Students can apply and be considered for admission to the dual BACJ/MCJ program a maximum of two times.

BA/MCJ Program Matriculation

Students must successfully complete (B, or better) a minimum of 6 semester credit hours of graduate criminal justice course work each academic year following admission to the BA/MCJ program. A maximum of 15 graduate semester credits can be completed as a BA/MCJ student, for dual credit.

Students must maintain a minimum 3.0 cumulative grade point average for all course work and a 3.0 grade point average for courses in criminal justice.

The School of Public Affairs reserves the right to rescind a BA/MCJ student’s admittance to the dual program if at any point the students’ grade point average falls below the requirements lists above.

Tuition and Fees

Students will be assessed tuition and fees at the undergraduate rate until the bachelor of arts in criminal justice degree is conferred.

Students will assess tuition and fees at the graduate level upon formal acceptance to the master of criminal justice program.

Program Requirements
General BA/MCJ Degree Program Requirements

- 144 total semester credit hours passed
- 34-36 semester credit hours in UC Denver general education core curriculum
- 46-48 semester credit hours in general electives
- 21 semester hours of undergraduate criminal justice course work
- 18 upper-level (3000 or higher) semester credit hours in criminal justice
- 45 total semester hours of upper-division course work (3000 and above)
- Minimum 3.0 CU cumulative grade point average in undergraduate criminal justice courses
- Full acceptance to the Graduate School and the master in criminal justice program
- Minimum 36 semester hours of graduate-level course work (5000 and above)
- Minimum of 30 hours of resident credit; 21 out of the last 30 hours in resident course work
- Minimum of a B (3.0) in each required core MCJ course
- Minimum of 3.0 CU cumulative grade point average in all graduate level courses
- Successful completion of master of criminal justice capstone/advanced seminar or thesis
- Fulfillment of all college and major requirements

Degree Confirmation

Students are eligible to receive the BA in criminal justice degree once they have successfully completed 120 semester hours and all UC Denver undergraduate degree requirements. The MCJ will be conferred once the student has completed all requirements of the master of criminal justice degree.

Economics/Finance MA/MS Dual Degree

- Graduate School Rules apply to this program
For students interested in combining the quantitative skills of an economics degree with the specific applications of a business degree, we offer an MA economics/MS finance dual degree. This 42-semester-hour program is offered jointly with the Business School. It is a "dual" degree, meaning that students who complete the program earn two master's degrees: MA in economics and MS in finance. Students must be admitted separately to both the MA program in economics and MS program in finance; they may apply to both programs at the same time or apply to the economics program first, and then to the finance program at the end of their first semester, or vice versa. Both programs must be completed in the same semester to take advantage of the dual degree program. Further information about this program can be obtained from either the Department of Economics or the Business School. Click here for admissions information for economics.

The dual degree program is intended to create highly-skilled research professionals with considerable econometric skill as well as familiarity with their chosen financial institutions. Given the similarity in course work within the two programs, there can be considerable time savings for the student. Essentially, the program allows students to complete the two programs that separately would require 60 hours of course work with 42 hours of combined course work.

**Degree Requirements**

**Core Courses**

**ECON 5073 - Microeconomic Theory**

*Summer 2010 Registration ECON 5073*
Fundamental features of partial equilibrium theory of the firm, consumer and market. General equilibrium and welfare economic topics are examined. Features of the models that have empirical applications are accented. Prereq: ECON 5803. *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 5083 - Macroeconomic Theory**

*Summer 2010 Registration ECON 5083*
Examines the major macroeconomic models within a common framework. Differences in the foundations, structure, and policy implications of the competing models are analyzed. Prereq: ECON 5803 or permission of the instructor. *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 5803 - Mathematical Economics**
Summer 2010 Registration  ECON 5803
Introduces the use of mathematics in advanced micro- and macro-economic analysis. Emphasis on model-building techniques, solution methods, and economic interpretations. Prereq: ECON 4071 and 4081. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 5813 - Econometrics I

Summer 2010 Registration  ECON 5813
Theory and application of statistical techniques used to analyze economic problems. Topics include simple and multiple regression models, simultaneous equation models, and the problems encountered in their application. Students formulate models, obtain data, estimate models, interpret results and, forecast. Prereq: ECON 4811 or equivalent. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 5823 - Econometrics II

Summer 2010 Registration  ECON 5823
Second course in the econometrics sequence, covering intermediate topics in cross-section and time series analysis. Topics include limited dependent variables, autoregressive and distributed lag models, longitudinal data analysis and unit roots, co-integration and other time-series topics. Prereq: ECON 5083 and 5813. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 6073 - Research Seminar

Summer 2010 Registration  ECON 6073
Focuses on training students to do rigorous research in economics. Topics include the analysis of large data sets, further development of econometric skills, and writing a research paper. Note: Students attend lectures and also meet regularly with the instructor in the process of doing a sophisticated research project. Prereq: ECON 5823 and 6053. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

BUSN 6640 - Financial Management

Summer 2010 Registration  BUSN 6640
This course is concerned with the business firm's decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students will learn to evaluate a firm's financial position through the examination of its financial statements and to prepare pro forma statements for the firm. Prereq: BUSN 6530 or FNCE 6290,
BUSN 6620 (both may be taken concurrently) and BUSN 6550 completed prior and strictly enforced. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FNCE 6300 - Macroeconomics and Financial Markets**

*Summer 2010 Registration FNCE 6300*
Covers the U.S. financial system in the global economy. Specific topics include financial institutions, money creation and monetary policy; the Federal Reserve System and its operation; the international financial system; interest rate determination, yield curves, and their relation to fiscal policy; the role of households and business in financial markets; stock markets; and money markets and instruments. (Required for the M.S. in Finance degree.) Prereq: BUSN 6620 (may be taken concurrently if student has previous economics coursework). **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FNCE 6330 - Investment Management Analysis**

*Summer 2010 Registration FNCE 6330*
In this course students will learn investment theories and how to apply them to portfolio management. Topics covered include asset allocation, security markets, the analysis and use of investment information, risk analysis and security valuation. This course is required for the M.S. in Finance degree. Prereq: BUSN 6620 and BUSN 6640. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 27 Hours**

**Electives**

Four 6000-level finance elective courses: **12 semester hours**

One 5000-level or above economics elective course: **3 semester hours**

**Total: 15 Hours**

**Dual Degree Total: 42 Hours**

**Economics/Public Administration MA/MPA Dual Degree**
The fields of public administration and economics are inextricably linked. Economists provide much of the theory and analytic foundation that administrators use to evaluate and implement policy. Given that the capital of the state of Colorado is in Denver, there is great need for administrators that fully understand methods of program evaluation and have the theoretical background needed to forecast how individuals and institutions will respond to new proposals. Similarly, good theory and practice must take into account how the proposals will be implemented and results interpreted. Both administrators and economists need to be engaged in constructive dialogue for either to be fully effective.

Students interested in completing the dual degree in economics and public administration must apply separately to each program, meet the admission requirements of each program, and be accepted by each program. If one program accepts a student for the dual degree but the other program does not, then the student may not graduate under the dual degree program. It is possible for students currently admitted to one program to learn about the dual degree and choose to apply after admission to either economics or the School of Public Affairs (SPA).

Admission Requirements

<table>

</thead>
<tbody>
<tr>
<td></td>
<td>Spring</td>
<td>December</td>
</tr>
<tr>
<td></td>
<td></td>
<td>1</td>
</tr>
</tbody>
</table>

Applicants must:

- Meet all general requirements of the Graduate School (including a 2.50 undergraduate grade-point average).
- Submit three letters of recommendation (at least two of your letters of recommendation should come from individuals who are familiar with your scholarly record)
- Submit two copies of official transcripts from all colleges attended
- Have completed 15 credit hours of undergraduate economics (including intermediate microeconomic theory and intermediate macroeconomic theory)
• Have completed courses in calculus and statistics

• All applicants, international and domestic, must submit GRE scores regardless of prior degrees, course work, or work experience. The institution code for UCD is 4875. Most students admitted to the MA program score 690 or above on the quantitative section of the GRE, but there is not a minimum GRE cutoff score.

• International students must submit TOEFL scores. The required minimum score is 197 (computer-based TOEFL), 71 (IBT-based TOEFL), 525 (paper-based TOEFL), or 6.0 (IELTS). The institution code for UCD is 4875.

The Department of Economics accepts late applications after these official deadlines. However, there is no guarantee that a late application will be processed in time for the start of the semester. Students are encouraged to apply well before the application deadline.

International students who apply after the June 1 or November 1 deadline may not have time to obtain a student visa. Being admitted to the MA program in economics does not guarantee that a student will receive a student visa in time for the start of the semester. International students who are admitted to the MA program, but fail to obtain a visa in time, may defer admission for up to one year. All questions about student visas should be directed to the Office of International Education.

Course Requirements

The requirements for the dual degree in economics and public administration include completing 21 credit hours in ECON and 27 credit hours in SPA (48 total credit hours).

Core Courses

ECON 5073 - Microeconomic Theory

*Summer 2010 Registration ECON 5073*
Fundamental features of partial equilibrium theory of the firm, consumer and market. General equilibrium and welfare economic topics are examined. Features of the models that have empirical applications are accented. Prereq: ECON 5803. *Semester Hours:* 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 5083 - Macroeconomic Theory

*Summer 2010 Registration ECON 5083*
Examines the major macroeconomic models within a common framework. Differences in the foundations, structure, and policy implications of the competing models are
analyzed. Prereq: ECON 5803 or permission of the instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 5803 - Mathematical Economics**

*Summer 2010 Registration ECON 5803*
Introduces the use of mathematics in advanced micro- and macro-economic analysis. Emphasis on model-building techniques, solution methods, and economic interpretations. Prereq: ECON 4071 and 4081. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 5813 - Econometrics I**

*Summer 2010 Registration ECON 5813*
Theory and application of statistical techniques used to analyze economic problems. Topics include simple and multiple regression models, simultaneous equation models, and the problems encountered in their application. Students formulate models, obtain data, estimate models, interpret results and, forecast. Prereq: ECON 4811 or equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 5823 - Econometrics II**

*Summer 2010 Registration ECON 5823*
Second course in the econometrics sequence, covering intermediate topics in cross-section and time series analysis. Topics include limited dependent variables, autoregressive and distributed lag models, longitudinal data analysis and unit roots, cointegration and other time-series topics. Prereq: ECON 5083 and 5813. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5001 - Introduction to Public Administration and Public Service**

*Summer 2010 Registration P AD 5001*
Examines the fundamental theories, structures, and processes of governance in the United States. Explores the constitutional foundations and functions of legislative, administrative, and legal institutions. Covers topics such as federalism, public-private relations, and comparative public administration. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5002 - Organizational Management and Change**

*Summer 2010 Registration P AD 5002*
This course provides coverage of those elements which, when combined, create a
resilient learning organization. Topics include, but are not limited to, organization theory and design, managing human capital, group development and performance, inter- and intra-group communication, information management, and ethical decision making. These topics are presented within the framework of how to organize people to enhance the delivery of public services.

Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5003 - Research and Analytic Methods

Summer 2010 Registration

P AD 5003
Examines quantitative research methods used to answer questions and test hypotheses in public and non-profit settings. Methods covered include identifying and reviewing scholarly literature; formulating research questions; selecting appropriate design, data collection and sampling strategies; and analyzing data. Topics include causal and descriptive designs, interview and survey methods, and descriptive and inferential statistics such as chi square and regression.

Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

PUAD 5004 - Economics and Public Finance

Summer 2010 Registration

P AD 5004
Uses economics to explore public and private sector roles, and the allocation of resources in the public sector. Introduces the concepts of public goods, market failure and externalities. The effects of taxation and subsidies on consumer and firm behavior are analyzed. Also covers cost benefit analysis and national, state, and local budgeting methods.

Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5005 - The Policy Process and Democracy

Summer 2010 Registration

P AD 5005
Provides an introduction to theoretical and applied studies of the policy process. The policy process includes the manner in which (I) issues are conceptualized and brought to the government as problems needing action; (II) policies are designed and selected; and (III) the enacted policies are implemented, monitored, evaluated, and revised. The policy process also includes the study of politics, especially how government and non-government actors interact and exercise power in allocating societal benefits and burdens.

Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5006 - Leadership and Professional Ethics
Summer 2010 Registration P AD 5006
Examines theories of leadership applied to the public and non-profit sectors and the skills and processes employed by effective leaders. The course also considers ethical theories as applied to problems in the public and non-profit sectors; emphasizes critical thinking to address value conflicts, notably in the context of a pluralistic society; and teaches moral reasoning as a practical professional skill. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 6073 - Research Seminar

Summer 2010 Registration ECON 6073
Focuses on training students to do rigorous research in economics. Topics include the analysis of large data sets, further development of econometric skills, and writing a research paper. Note: Students attend lectures and also meet regularly with the instructor in the process of doing a sophisticated research project. **Prereq:** ECON 5823 and 6053. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

PUAD 5361 - Advanced Seminar in Public Policy and Management

Summer 2010 Registration P AD 5361
In this seminar, students demonstrate their mastery of the knowledge and skills acquired in core courses, through the conduct of a client-based project. Students in a concentration must undertake a project related to that concentration. Students also make a juried oral presentation of the professional paper which reports project findings. This is the cumulative opportunity for students to apply concepts, theories, and research skills gained in the program to professional practice. (Successful completion of this course is an M.P.A. degree program requirement.) Cross-listed with PUAD 7361. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Core Total: 33 Hours

Electives

If the student takes ECON 6073, then 3 hours of elective credits must come from economics and 12 hours from public administration.

If the student takes PUAD 5361, then 6 hours of elective credits must come from economics and 9 hours from public administration.

All elective courses must be at the 5000 level and above.
**Electives Total: 15 Hours**

**Dual Degree Total: 48 Hours**

**Finance/Economics MS/MA**

Students may concurrently pursue an MA in economics offered by the College of Liberal Arts and Sciences and the MS in finance offered by the Business School. Students must complete 27 semester hours of a combination core, 15 semester hours of combination electives and 3 semester hours of a 5000- or 6000-level economics elective.

**Public Administration MPA/JD**

The School of Public Affairs and the University of Colorado at Boulder School of Law jointly sponsor a dual degree program leading to the simultaneous granting of the master of public administration (MPA) and juris doctor (JD) degrees. The program may be of particular interest to students who wish to practice law within the public sector, obtain a senior administrative post, represent public-sector clients, represent private-sector clients in transactions with government agencies and institutions and/or develop scholarly expertise in the relationship between law and public administration.

Interested persons must separately apply to and be admitted by both SPA and the School of Law. Upon admission, students may begin full-time study at either SPA or the School of Law; however, law study must be initiated no later than the beginning of the second year of enrollment in the program, and the first year of law study must be taken in its entirety and exclusive of nonlaw course work.

Through the choice of electives, students may develop a limited substantive specialization within the study of law and public administration. The dual degree program is structured to allow for 12 semester hours from the law school to be accepted as electives in the 36-semester-hour MPA program, and 12 semester hours from SPA to be accepted into the law school's 89-semester-hour JD program. Students are thus simultaneously awarded both degrees with a cumulative total of 101 semester hours; the program therefore allows students to complete all dual degree requirements in approximately four years of full-time study. Students without prior public-sector work experience will be required to complete an internship in an appropriate governmental institution or closely related nonprofit organization.
Public Administration/Economics
MPA/MA

The fields of public administration and economics are inextricably linked. Economists provide much of the theory and analytic foundation that administrators use to evaluate and implement policy. Given that the capitol of Colorado is in Denver, there is great need for administrators that fully understand methods of program evaluation and have the theoretical background needed to forecast how individuals and institutions will respond to new proposals. Similarly, good theory and practice must take into account how the proposals will be implemented and results interpreted. Both administrators and economists need to be engaged in constructive dialogue for either to be fully effective.

Therefore the Department of Economics of the College of Liberal Arts and Sciences and the School of Public Affairs jointly sponsor a dual degree program. This program enables students to simultaneously earn an MA degree in economics with a master of public administration (MPA).

The dual degree program provides students to opportunity to take the core of both programs and choose electives that suit their career and personal goals best. Electives in one program are allowed to count as an elective in the other. The net result is that while both degrees separately require 66 hours, the dual degree program provides a more comprehensive and effective education in 48 hours or 73 percent of the dual degree total.

Degree Requirements

Admission into both programs

Students must apply separately to each program, meet the admission requirements of each program and be accepted by each program. If one program accepts a student for the dual degree but the other program does not, then the student will not be accepted for the dual degree. It is possible for students currently admitted to one program to learn about the dual degree and choose to apply after admission to either economics or SPA.

Other policies

Minimum Grade for Graduation

Students must maintain a GPA of 3.0 or higher across all courses that are applied to the dual degree. Students who fail to maintain a GPA of 3.00 will be placed on probation for a semester, after which they may be dropped from the dual degree program if the GPA
is not increased to 3.0 or above. Additionally, any core course in which a student receives a final grade lower than B- cannot be counted toward the total credits required for the dual degree; in such a case, the student must retake the course.

**Capstone Advising**

All students are required to complete a capstone paper and obtain the signatures of three graduate faculty. Every dual degree student, regardless of the capstone course they choose (ECON 6073 or PUAD 5361) must select a committee composed of faculty from both programs.

**Course Credit Transfers from Other Universities**

No more than 6 hours may be transferred, and both SPA and economics program directors must approve any transfers.

**Sample Plan of Study for the MPA/MA Economics**

Total: 48 semester hours with 21 in economics and 27 in public administration

**Core**

(33 semester hours)

A grade of B- or better is required in all core courses, with a B average overall. No public administration course may be taken a third time.

**ECON 5073 - Microeconomic Theory**

_Summer 2010 Registration ECON 5073_

Fundamental features of partial equilibrium theory of the firm, consumer and market. General equilibrium and welfare economic topics are examined. Features of the models that have empirical applications are accented. Prereq: ECON 5803. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 5083 - Macroeconomic Theory**

_Summer 2010 Registration ECON 5083_

Examines the major macroeconomic models within a common framework. Differences in the foundations, structure, and policy implications of the competing models are analyzed. Prereq: ECON 5803 or permission of the instructor. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
ECON 5803 - Mathematical Economics

Summer 2010 Registration ECON 5803
Introduces the use of mathematics in advanced micro- and macro-economic analysis. Emphasis on model-building techniques, solution methods, and economic interpretations. Prereq: ECON 4071 and 4081. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 5813 - Econometrics I

Summer 2010 Registration ECON 5813
Theory and application of statistical techniques used to analyze economic problems. Topics include simple and multiple regression models, simultaneous equation models, and the problems encountered in their application. Students formulate models, obtain data, estimate models, interpret results and, forecast. Prereq: ECON 4811 or equivalent. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ECON 5823 - Econometrics II

Summer 2010 Registration ECON 5823
Second course in the econometrics sequence, covering intermediate topics in cross-section and time series analysis. Topics include limited dependent variables, autoregressive and distributed lag models, longitudinal data analysis and unit roots, co-integration and other time-series topics. Prereq: ECON 5083 and 5813. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5001 - Introduction to Public Administration and Public Service

Summer 2010 Registration P AD 5001
Examines the fundamental theories, structures, and processes of governance in the United States. Explores the constitutional foundations and functions of legislative, administrative, and legal institutions. Covers topics such as federalism, public-private relations, and comparative public administration. Semester Hours: 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 5002 - Organizational Management and Change

Summer 2010 Registration P AD 5002
This course provides coverage of those elements which, when combined, create a resilient learning organization. Topics include, but are not limited to, organization theory and design, managing human capital, group development and performance, inter- and intra-group communication, information management, and ethical decision making.
These topics are presented within the framework of how to organize people to enhance the delivery of public services. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdnver.edu/registration.

**PUAD 5003 - Research and Analytic Methods**

*Summer 2010 Registration* [PUAD 5003]
Examines quantitative research methods used to answer questions and test hypotheses in public and non-profit settings. Methods covered include identifying and reviewing scholarly literature; formulating research questions; selecting appropriate design, data collection and sampling strategies; and analyzing data. Topics include causal and descriptive designs, interview and survey methods, and descriptive and inferential statistics such as chi square and regression. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdnver.edu/registration.

or

**PUAD 5004 - Economics and Public Finance**

*Summer 2010 Registration* [PUAD 5004]
Uses economics to explore public and private sector roles, and the allocation of resources in the public sector. Introduces the concepts of public goods, market failure and externalities. The effects of taxation and subsidies on consumer and firm behavior are analyzed. Also covers cost benefit analysis and national, state, and local budgeting methods. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdnver.edu/registration.

**PUAD 5005 - The Policy Process and Democracy**

*Summer 2010 Registration* [PUAD 5005]
Provides an introduction to theoretical and applied studies of the policy process. The policy process includes the manner in which (I) issues are conceptualized and brought to the government as problems needing action; (II) policies are designed and selected; and (III) the enacted policies are implemented, monitored, evaluated, and revised. The policy process also includes the study of politics, especially how government and non-government actors interact and exercise power in allocating societal benefits and burdens. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdnver.edu/registration.

**PUAD 5006 - Leadership and Professional Ethics**

*Summer 2010 Registration* [PUAD 5006]
Examines theories of leadership applied to the public and non-profit sectors and the skills and processes employed by effective leaders. The course also considers ethical theories as applied to problems in the public and non-profit sectors; emphasizes critical
thinking to address value conflicts, notably in the context of a pluralistic society; and teaches moral reasoning as a practical professional skill. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ECON 6073 - Research Seminar**

**Summer 2010 Registration**

**ECON 6073**

Focuses on training students to do rigorous research in economics. Topics include the analysis of large data sets, further development of econometric skills, and writing a research paper. Note: Students attend lectures and also meet regularly with the instructor in the process of doing a sophisticated research project. Prereq: ECON 5823 and 6053. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

or

**PUAD 5361 - Advanced Seminar in Public Policy and Management**

**Summer 2010 Registration**

**PUAD 5361**

In this seminar, students demonstrate their mastery of the knowledge and skills acquired in core courses, through the conduct of a client-based project. Students in a concentration must undertake a project related to that concentration. Students also make a juried oral presentation of the professional paper which reports project findings. This is the cumulative opportunity for students to apply concepts, theories, and research skills gained in the program to professional practice. (Successful completion of this course is an M.P.A. degree program requirement.) Cross-listed with PUAD 7361. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

To be completed after all other core courses or with instructor and advisor consent.

**Electives**

(15 semester hours)

If the student takes PUAD 5361, then they are required to take 6 semester hours of economics electives and 9 semester hours of electives from SPA labeled 5000 or above.

If the student takes ECON 6073, then they are required to take 3 semester hours of economics electives and 12 semester hours of electives from SPA labeled 5000 or above.

**Public Affairs BA/MPA**
The College of Liberal Arts and Sciences and the School of Public Affairs, offer students the opportunity to complete both a bachelor’s degree and master’s degree in five years rather than the usual six years. The program combines undergraduate general education and major studies with a specialized curriculum in public affairs and strives to develop intellectual and professional skills in a coordinated manner. The five year BA/MPA program decreases the time and number of semester hours required to earn both degrees by allowing students to count graduate level courses in the School of Public Affairs toward the bachelor’s degree requirements. The program is designed to give students an opportunity to prepare for professional positions and advancement with federal, state or local governments, nonprofits or private sector firms concerned or involved with public affairs.

**Admissions Requirements and Recommendations**

Interested students should contact their CLAS advisor as early as possible to ensure proper planning for the five year degree.

Interested students should contact the MPA Director as early as possible for advising (Dr. Mary Guy, 303-315-2007 or mary.guy@ucdenver.edu).

Students may apply to the program during the semester in which they will successfully complete 90 semester hours.

To apply, students must have a 3.5 or higher GPA in CLAS.

Students who wish to apply should have most of their general education and major requirements completed by the time they have earned 90 semester hours.

Students must complete all the required application materials for the School of Public Affairs:

- The UC Denver graduate application, parts 1 and 2
- A declaration of program form
- A resume highlighting work and volunteer experience, extra-curricular activities and any special skills, achievements and awards
- Scores from the GRE, GMAT or LSAT (GRE preferred)

**Program Requirements**

Students must fulfill all the requirements for graduation for CLAS:
• Total of 120 hours (includes hours in public affairs)
• 30 hours in the core curriculum
• 30-48 hours to satisfy major requirements
• Writing proficiency (1 – 7 hours)
• Mathematics proficiency (0 – 3 hours)
• Level III foreign language (0 – 13 hours)

It is highly recommended that students complete a course in American government, statistics and economics before applying to the MPA program.

Students must maintain a 3.5 GPA in CLAS course work.

Students may complete a maximum of 18 semester hours of SPA course work while classified as an undergraduate student.

Students must fulfill all the requirements for graduation from SPA:

• Total of 36–39 semester hours in public affairs
• Six core courses (PUAD 5001 – PUAD 5006)
• Five elective courses at the graduate level (5000 and 6000 level courses)
• Nine of the 15 elective semester hours must be PUAD courses
• An internship (3 hours) is required from those who do not have significant work experience in the field
• Successful completion of the advanced seminar (capstone) course taken in a semester AFTER all core courses are completed. A thesis option is available. Interested students should contact their SPA faculty advisor.

Students must maintain a 3.0 or higher GPA in public affairs course work.

Program Options

BA/MPA students may choose from any CLAS major.
BA/MPA students may choose to do a general MPA or select a MPA concentration in local government, nonprofit management, environmental policy, emergency management and homeland security or domestic violence.

Degree Confirmation
Students are eligible to receive a bachelor’s degree once they have successfully completed 120 semester hours and all CLAS requirements. The BA/MPA will be conferred once the student has completed all requirements of the master of public administration degree, including at least 36 hours of graduate level course work.

**Public Affairs/Urb an and Regional Planning MPA/MURP**

**Background and Purpose**

Public administration and urban and regional planning have many aspects in common. To provide students with an excellent education through understanding of both professions, the School of Public Affairs and the College of Architecture and Planning have developed a dual degree program. Students can obtain both master of public administration (MPA) and master of urban and regional planning (MURP) degrees with a minimum of 63 semester hours, as compared to a total of 87 semester hours to complete both degrees independently.

To be eligible for the dual MPA/MURP degree program, students must be admitted to each of the two schools under their respective admission procedures and standards and indicate an intention to pursue the dual degree. Students will take all the core courses and the advanced seminar in public policy and management required for an MPA, plus the core and concentration requirements necessary for the MURP.

Students in each school must apply to the other school before completing 18 hours in their respective programs. Upon admission to both schools, students will be assigned an advisor in each school to work out a specific degree plan.

**Core and Elective Requirements**

**Core Courses (42 semester hours)**

**MURP**

**URPL 5501 - Planning Issues and Processes**

*Summer 2010 Registration URP 5501*

Provides an overview of planning history and theory. The philosophical, political, and economic roots of the various theories are discussed. Ideas are placed in the context of the planning profession’s history and its present aims, interests, and ethics. Semester
URPL 5511 - Planning Methods II

Summer 2010 Registration URP 5511
Addresses advanced models associated with the estimation, prediction, and prescription of conditions and trends in population, employment, land use and transportation. Examines orchestrating analytic studies that inform all phases of a project, including effective methods for engaging the public, presentation techniques, etc. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

URPL 5520 - Urban Spatial Analysis

Summer 2010 Registration URP 5520
Examines urban spatial patterns and processes. Considers city as system. Major topics: defining urban/spatial/analysis; economic theory of city origin; urban land value; social space; industrial and retail structure; economic base/urban growth, sustainable development; city of mind. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

URPL 5530 - Planning Law

Summer 2010 Registration URP 5530
Focuses on the legal setting for urban and regional planning in the United States and major constitutional issues in the effectuation of planning policy. Contemporary controversies are put into the larger context of attempts by the judicial system to redefine the balance between individual rights and governmental power in an increasingly weakened society. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

URPL 6630 - Planning Studio I

Summer 2010 Registration URP 6630
Focuses on plan design in urban and regional planning and explores basic concepts, techniques, and issues related to urban planning, urban design, site planning, and environmental awareness. Semester Hours: 6 to 6
Registration is changing. Visit our website for details ucdenver.edu/registration.

URPL 6631 - Planning Studio II

Summer 2010 Registration URP 6631
Focuses on plan-making related to urban and regional planning. An understanding of the
plan-making process is emphasized. Students have direct experience with the various steps in planning, including data-gathering, goal-setting, identification of alternatives, analysis, synthesis, and presentation of the plan. The plan may be for a city sector, a neighborhood, an entire community, a region, or it may be a policy plan. Where possible, students work with an actual client. Prereq: URPL 6630. **Semester Hours:** 6to 6

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 18 Hours**

**MPA**

**PUAD 5001 - Introduction to Public Administration and Public Service**

*Summer 2010 Registration* **P AD 5001**

Examines the fundamental theories, structures, and processes of governance in the United States. Explores the constitutional foundations and functions of legislative, administrative, and legal institutions. Covers topics such as federalism, public-private relations, and comparative public administration. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5002 - Organizational Management and Change**

*Summer 2010 Registration* **P AD 5002**

This course provides coverage of those elements which, when combined, create a resilient learning organization. Topics include, but are not limited to, organization theory and design, managing human capital, group development and performance, inter- and intra-group communication, information management, and ethical decision making. These topics are presented within the framework of how to organize people to enhance the delivery of public services. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5004 - Economics and Public Finance**

*Summer 2010 Registration* **P AD 5004**

Uses economics to explore public and private sector roles, and the allocation of resources in the public sector. Introduces the concepts of public goods, market failure and externalities. The effects of taxation and subsidies on consumer and firm behavior are analyzed. Also covers cost benefit analysis and national, state, and local budgeting methods. **Semester Hours:** 3to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5005 - The Policy Process and Democracy**
Summer 2010 Registration **PUAD 5005**
Provides an introduction to theoretical and applied studies of the policy process. The policy process includes the manner in which (I) issues are conceptualized and brought to the government as problems needing action; (II) policies are designed and selected; and (III) the enacted policies are implemented, monitored, evaluated, and revised. The policy process also includes the study of politics, especially how government and non-government actors interact and exercise power in allocating societal benefits and burdens. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5006 - Leadership and Professional Ethics**

Summer 2010 Registration **PUAD 5006**
Examines theories of leadership applied to the public and non-profit sectors and the skills and processes employed by effective leaders. The course also considers ethical theories as applied to problems in the public and non-profit sectors; emphasizes critical thinking to address value conflicts, notably in the context of a pluralistic society; and teaches moral reasoning as a practical professional skill. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 15 Hours

Take one of two

**PUAD 5003 - Research and Analytic Methods**

Summer 2010 Registration **PUAD 5003**
Examines quantitative research methods used to answer questions and test hypotheses in public and non-profit settings. Methods covered include identifying and reviewing scholarly literature; formulating research questions; selecting appropriate design, data collection and sampling strategies; and analyzing data. Topics include causal and descriptive designs, interview and survey methods, and descriptive and inferential statistics such as chi square and regression. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URPL 5510 - Planning Methods I**

Summer 2010 Registration **URP 5510**
Focuses on application of methodological techniques commonly used in planning practice. Course covers data collection, management, analysis, communication and presentation. Major topics include primary/secondary data analysis, database construction, descriptive and inferential statistics, sampling, probability distributions, hypothesis testing, and correlation. Cross-listed with GEOG 4000. **Semester Hours:** 3 to
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3 Hours**

**Additional Course Work (21 semester hours)**

**MURP**

12 hours if URPL 5510 elected, or 15 hours if PUAD 5003 elected. Courses are to be selected with MURP advisor's approval.

**URPL 5510 - Planning Methods I**

*Summer 2010 Registration URP 5510*

Focuses on application of methodological techniques commonly used in planning practice. Course covers data collection, management, analysis, communication and presentation. Major topics include primary/secondary data analysis, database construction, descriptive and inferential statistics, sampling, probability distributions, hypothesis testing, and correlation. Cross-listed with GEOG 4000. **Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5003 - Research and Analytic Methods**

*Summer 2010 Registration P AD 5003*

Examines quantitative research methods used to answer questions and test hypotheses in public and non-profit settings. Methods covered include identifying and reviewing scholarly literature; formulating research questions; selecting appropriate design, data collection and sampling strategies; and analyzing data. Topics include causal and descriptive designs, interview and survey methods, and descriptive and inferential statistics such as chi square and regression. **Semester Hours: 3 to 3**

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 12-15 Hours**

**MPA**

6 hours if PUAD 5003 elected, or 9 hours if URPL 5510 elected.

**PUAD 5003 - Research and Analytic Methods**

*Summer 2010 Registration P AD 5003*

Examines quantitative research methods used to answer questions and test hypotheses
in public and non-profit settings. Methods covered include identifying and reviewing scholarly literature; formulating research questions; selecting appropriate design, data collection and sampling strategies; and analyzing data. Topics include causal and descriptive designs, interview and survey methods, and descriptive and inferential statistics such as chi square and regression. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**URPL 5510 - Planning Methods I**

*Summer 2010 Registration URP 5510*
Focuses on application of methodological techniques commonly used in planning practice. Course covers data collection, management, analysis, communication and presentation. Major topics include primary/secondary data analysis, database construction, descriptive and inferential statistics, sampling, probability distributions, hypothesis testing, and correlation. Cross-listed with GEOG 4000. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6-9 Hours**

**Practicum**

**PUAD 5361 - Advanced Seminar in Public Policy and Management**

*Summer 2010 Registration P AD 5361*
In this seminar, students demonstrate their mastery of the knowledge and skills acquired in core courses, through the conduct of a client-based project. Students in a concentration must undertake a project related to that concentration. Students also make a juried oral presentation of the professional paper which reports project findings. This is the cumulative opportunity for students to apply concepts, theories, and research skills gained in the program to professional practice. (Successful completion of this course is an M.P.A. degree program requirement.) Cross-listed with PUAD 7361. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3 Hours (required)**

**Electives**

Take one of the following or another option with MPA advisor’s approval (3 hours):

**PUAD 5250 - Intergovernmental Management**
**Summer 2010 Registration**

**PUAD 5250**
Surveys the basic literature of intergovernmental management and examines the interactive role of managers at federal, state, and local levels of government. Emphasis is placed on current intergovernmental issues. Cross-listed with PUAD 7250. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5410 - Administrative Law**

**Summer 2010 Registration**
Examines legal aspects of policy implementation particularly the relationship between courts and administrative agencies. Covers standards of judicial review and agency action; administrative procedure and due process; selected special topics such as rights, liabilities, and immunities of public employees; and administrative discretion and scientific uncertainty. Cross-listed with PUAD 7410. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5440 - Negotiation and Conflict Resolution**

**Summer 2010 Registration**
Focuses on concepts and skills necessary to negotiate policy and management decisions and manage internal and external conflicts. Designed to help students understand the dynamics that affect negotiations and to apply the principles and strategies of negotiation in a variety of decision making and dispute resolution contexts. Cross-listed with PUAD 7440. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5502 - Public Financial Management and Policy**

**Summer 2010 Registration**
Includes topics on investment and spending policy, public borrowing and advancing credit to the public sector; specialties of budgeting and anticipated revenues and costs, accounting for the receipt and disbursement of funds once the budget is enacted, and purchased goods and services; investing idle funds; issuing short-term and long-term debt. Cross-listed with PUAD 7502. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5503 - Governmental Budgeting**

**Summer 2010 Registration**
Focuses on theory and practices of government budgeting, including cycles, formats, political considerations, costing and analytical tasks. Covers both operating and capital budgeting, plus fiscal management issues. Cross-listed with PUAD 7503. **Semester**
**PUAD 5540 - Organization Development**

*Summer 2010 Registration P AD 5540*
Studies the dynamics involved in managing and facilitating change in organizations by application of behavioral science knowledge. Emphasis is placed on both cognitive and experiential learning. A background in organization theory and administrative behavior is required. Cross-listed with PUAD 7540. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5625 - Local Government Management**

*Summer 2010 Registration P AD 5625*
Relates the systems, processes, and principles of public management to the local government environment. Public management concepts such as strategic planning, bureaucracy, formal and informal organizational structures, human resource planning, management control, systems theory, and administrative behavior are explored within the context of local government. Cross-listed with PUAD 7625. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5626 - Local Government Politics and Policy**

*Summer 2010 Registration P AD 5626*
Examines local government from the perspective of politics and public policy making. The course focuses on local government political structures, policy analysis and formulation, political forces in administrative decision making, and the relationships between professional administrators and elected officials. Cross-listed with PUAD 7626. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5631 - Seminar in Environmental Politics and Policy**

*Summer 2010 Registration P AD 5631*
Examines the fundamental principles of politics and policy that shape strategies of environmental protection. Focuses on the role of institutional processes, government organizations and nongovernmental organizations in environmental politics and policy. Cross-listed with PUAD 7631. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 5632 - Seminar in Environmental Management**
Summer 2010 Registration  

**P AD 5632**

Examines the practical challenges facing environmental managers today, using a series of case studies. Focuses on the role of institutional processes, government organizations and nongovernmental organizations in the practice of environmental management. Cross-listed with PUAD 7632. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3 Hours**

**Doctoral Programs**

**Applied Mathematics, PhD**

- Graduate School Rules apply to this program.

**Program Requirements**

The Department of Mathematical and Statistical Sciences also offers a PhD in applied mathematics. The degree is designed to give candidates a contemporary, comprehensive education in applied mathematics and to provide research opportunities in the special fields of discrete mathematics, optimization, operations research, applied probability, computer science, computational mathematics, applied statistics and the mathematics of science and engineering.

There are six phases of the PhD program. A candidate must fulfill course requirements, pass the preliminary examinations, establish a PhD committee, meet the academic residency requirement, pass the comprehensive examination and write and defend a dissertation.

- Students must complete 42 semester hours of nonthesis course work at the graduate level (up to 30 hours of this course work may be transferred in, including courses taken as part of the MS master's degree). In addition, 30 hours of dissertation credit must be taken. The following courses are required as part of the formal course work: four PhD-level courses (3 hours each), math clinic and three readings courses (1 semester hour each). Students must also satisfy a **breadth requirement** by completing a total of six graduate math courses from among several areas of mathematics, with no more than three of these courses from any one area. A 3.25 GPA must be maintained throughout all course work.

- The preliminary examinations are designed to determine that students who intend to pursue the PhD program are qualified to do so. These four-hour written examinations are in the areas of applied analysis and applied linear algebra. Students must pass these exams within two years of entering the program.
Exception: students admitted with prerequisite deficiencies must pass these exams within three years.

- Six semesters of residence are required, as specified in the rules of the Graduate School. All students are strongly advised to spend at least one year doing full-time course work or research with no outside employment.

- Application for candidacy is made after completion of the preliminary examinations and after at least three semesters of residency. The application must be submitted at least two weeks before taking the comprehensive examination. The comprehensive examination is designed to determine mastery of graduate-level mathematics and the ability to embark on dissertation research. It consists of a six-hour written examination and an oral follow-up examination. Students must pass the comprehensive exam within 4 years of admission. Within six months after passing the comprehensive examination, the candidate must present a dissertation proposal to the dissertation committee.

- Each student must write and defend a dissertation containing original contributions and evidence of significant scholarship. The dissertation defense is public and must be given before an examining committee approved by the Graduate School.

For more detailed information about the applied mathematics PhD, see the Math Graduate Handbook.

Civil Engineering PhD

- Graduate School Rules apply to this program

The PhD degree in civil engineering is offered through a coordinated program with University of Colorado at Boulder.

Specialty Areas for Degrees:

- Environmental and Sustainability Engineering
- Geotechnical Engineering
- Hydrologic and Hydraulic Engineering
- Structural Engineering
- Transportation Engineering
- Civil Engineering Systems
What is civil engineering systems?

The doctoral program in civil engineering systems has different rules than the five other traditional doctoral tracks in order to facilitate more interdisciplinary research. This doctoral track can be the degree that would follow a master's of engineering.

Additional Doctoral Admissions Requirements

In addition to the admissions requirements listed for master's students, doctoral applicants need to have the support of a faculty advisor before they are admitted. Once doctoral students are approved by the graduate admissions committee, their application must be reviewed again by the Department of Civil, Environmental and Architectural Engineering at CU Boulder as the programs are jointly administered. Prospective PhD students should contact the Department of Civil Engineering on the Downtown Campus to inquire about application requirements and to obtain the "Rules and Policies for the Coordinated PhD Program."

Requests for applications for graduate study in civil engineering should be addressed to UC Denver Department of Civil Engineering Campus Box 113 P.O. Box 173364 Denver, CO 80217-3364

Clinical Health Psychology PhD

► Graduate School Rules apply to this program

Objectives of the Program

A primary focus of clinical health psychology is the development of effective disease prevention interventions for populations at high risk for medical problems. A second focus of clinical health psychology is the development of strategies to help individuals who are already ill to manage their disease, increase their ability to collaborate with medical professionals and improve their coping skills. Students in this program will be trained to work within the community to use psychological tools and techniques to promote health, prevent and treat illness and improve the health care system. In addition to course work, students acquire expertise in research by completing a second-year project and doctoral dissertation, and demonstrate competence in clinical assessment and intervention through several applied practicum experiences, a clinical competency project and a pre-doctoral internship. Students can complete the program in five years and have up to eight years to complete the program according to Graduate School Rules.
Admissions

The application deadline is December 15 for the following fall. You are responsible for making sure all materials are in on time. We do not consider late applications. International students should be sure to submit all materials at least two weeks before this deadline (by December 1) so that they arrive at our department on time. Below is condensed information; see the department website for complete information.

Admission Requirements:

- BA or BS from an accredited college or university, with a minimum GPA of 3.5 based on all college course work.

- Undergraduate courses in: introductory psychology, psychological statistics, research methods and abnormal psychology. Additional courses in psychology are highly desirable; our admissions committee will also look favorably upon courses in the biological and physical sciences.

- Two official transcripts from each college and university attended.

- Graduate Record Exam (GRE): The GRE General Test (verbal, quantitative, analytical writing) AND the Psychology Subject Test are required. General test: minimum score of 1100 for the combined verbal and quantitative sections is required. 600 is the minimum required score for the psychology subject test. Take both exams at least six weeks before the December 15 deadline so that the scores arrive on time.

- Three letters of recommendation, at least two of which must be academic references, accompanied by the Request for Recommendation form. Recommendations and supplemental application materials are sent directly to the department. Each recommendation should be in a sealed envelope, signed along the back by the recommender.

- Application Forms I and II, with answers to Part II as informative as possible.

- Application fee of $50 ($75 for International Students). Specify "CHP PhD" on the memo line in the lower left corner of your check.

Financial Information

The University of Colorado Denver administers various forms of financial aid for graduate students: fellowships, scholarships and a number of awards from outside agencies. See the Office of Financial Aid for further information. Additionally, the psychology department offers teaching assistantships each year in such courses as introductory psychology, statistics, research methods and human development. Although
we do not guarantee TA positions, we generally have been able to offer positions to most of our interested students.

Contingent upon the availability of grant money, faculty may also offer part-time research assistantships to qualified students. The typical RA position involves data collection and analysis, library research, etc. Some computer and statistical skills are usually required. RA positions are less available than TA positions, and they may arise on very short notice.

In-state tuition waivers and additional stipend monies may be available for doctoral students.

*Please note:* Neither teaching nor research assistantships confer in-state tuition status or include tuition waivers.

**Degree Requirements**

**Course Work:**
Approximately 69 credits of course work are required for graduation. Typically, students will take 4 courses each semester of their first year, 3 courses each semester of their second and third years, 2 courses in the first semester of their fourth year and at least 1 course in the second semester of their fourth year in the program. Students must maintain a 3.0 grade point average, and no grade below a *B* will count toward the requirements.

In addition to the minimum required 69 credits of course work, students must also register for a minimum of 12 clinical practicum hours and 30 dissertation hours. Students must also register for 3 credits of pre-doctoral internship each of the three semesters of their internship year, for a total of 120 credits. Students can complete the program in five years and have up to eight years to complete the program according to Graduate School Rules.

**Second Year Project:**
All students must complete a second year research project. This thesis involves a research project that makes a significant contribution to the field. Although the question must be the student’s own original question, use of archival data and pilot studies are encouraged for this project.

**Clinical Practica:**
A minimum of 500 face-to-face intervention and assessment hours and 1200 total practicum hours [face-to-face intervention and assessment hours, plus supervision, plus support hours as defined by the Association of Psychology Postdoctoral and Internship Centers (APPIC)] will be required in preparation for applications to pre-doctoral internships. A minimum of 50% of required practica will be conducted in medical settings. Beyond the minimum requirements, students select practica based on personal
interests. All field placements must be approved by the Director of Clinical Training (DCT) in advance.

**Demonstration of competence:**
Upon completion of the first two years of course work (42 credits), in the third year of training, students must demonstrate competence in several core areas (e.g., statistical methods, ethics, assessment, psychotherapy, psychopathology) by completing a clinical competency project (CCP). The primary goal of this project is to encourage integration of empirical research and applied clinical work. Following completion of the written portion of the exam, students must orally defend the project to a committee of three faculty members.

**Dissertation:**
Students must complete a dissertation that involves original empirical work and is distinct from other research projects and publications. The dissertation proposal must be completed and defended prior to making application for the pre-doctoral internship. Students must have a dissertation committee composed of four members. When the dissertation is completed to the satisfaction of the primary advisor, the student must orally defend the dissertation to the committee.

**Internship:**
Students must complete a 12-month, full-time pre-doctoral clinical internship, preferably at an APA-accredited site. This internship is required of all clinical psychologists and is the capstone of clinical training in the doctoral program.

**Computer Science and Information Systems PhD**

► Graduate School Rules apply to this program

**Program co-directors:** Gita Alaghband (CSE) and Mike Mannino (Business School)

**Web site:** business.ucdenver.edu/Disciplines/InfoSystems/PhD/index.htm

The Department of Computer Science and Engineering (CSE) and the Business School offer a joint doctor of philosophy degree program in computer science and information systems (CSIS). The program targets students with a master’s-level education in either computer science or information systems who seek research training that combines CS and IS along with strong industry interaction. The joint PhD program provides training for academic positions, industrial research positions and senior consulting positions. The specific goals of the program complement these general goals:
• create a pool of graduates with CSIS research training who are qualified for academic and nonacademic careers

• meet student demand for advanced training in CSIS with accommodations for full-time and part-time students

• promote interdisciplinary research between CSE and the Business School

• enhance technology transfer between CSIS academic units and Front Range technology businesses through joint research, student internships, faculty externships and committee participation

Advisor

Upon entering the program, each chooses an advisor to provide mentoring and guidance throughout the program and work with the student to prepare a program of study. Requests to change advisors must be approved by the program co-directors, and this happens in very rare circumstances.

Doctoral Committee

The advisor and four other members form a doctoral committee. To foster interdisciplinary work, you may have your doctoral research co-supervised by two faculty members. At least one co-supervisor must be a full-time current graduate faculty member in the CSE department or Business School. The committee must contain at least one faculty member from the CSE department and at least one from the Business School. At least one committee member is from outside of the CSE department and the information systems faculty.

Program Components

Plan of Study

A list of course work and other requirements for the degree should be prepared with the advisor and then submitted to the co-directors for approval. The successful completion of all work indicated on the plan of study is an important prerequisite for the conferring of the degree. A plan of study should be submitted for approval by the end of the first semester of the program. The current plan of study should be updated before the beginning of the second year of the program and submitted for reapproval by the co-directors.

Preliminary Exam
According to Graduate School rules, students are required to demonstrate their basic knowledge and preparation toward more advanced doctoral level work. For more information visit the PhD CSIS Web site.

**Comprehensive Exam**

Students will submit a paper to fulfill the graduate school's comprehensive exam requirement. The paper should describe an area of research including literature review, problem definition, and possible methodologies/models to study a significant problem in computer science or information systems. The paper will be evaluated by a committee of three faculty members. An oral presentation of the paper will be open to the entire CSIS faculty. The committee may adopt additional guidelines to evaluate the paper and presentation. According to graduate school rules, the comprehensive exam must be completed by the end of the fourth year in the program. In addition to these requirements, the comprehensive exam must meet the other graduate school requirements.

**Dissertation Proposal**

Each student should prepare a proposal that will be evaluated by the doctoral committee. A proposal should be ready for review at least one semester before the expected completion date of the degree. The proposal is submitted for review and approval by the doctoral committee. An oral presentation of the dissertation proposal before the doctoral committee is required for approval. An approved proposal is then submitted to the co-directors of the program for final approval.

**Dissertation Completion**

Once the dissertation proposal is approved, each student prepares and submits a dissertation. The dissertation is defended before the doctoral committee in a public meeting. Final approval for the dissertation is given by a vote of the dissertation committee after the public defense.

**Graduation**

Upon completion of all degree requirements including the dissertation defense, the student receives the degree of doctor of philosophy. Students applying through CSE receive the PhD from the College of Engineering and Applied Science, while students applying through information systems receive the PhD from the Business School.
CSIS-Business PhD

Program Components

Plan of Study

A list of course work and other requirements for the degree should be prepared with the advisor and submitted to the program co-directors for approval. The successful completion of all work indicated on the plan of study is an important prerequisite for the conferring of the degree. A plan of study should be submitted for approval by the end of the first semester of the program. The current plan of study should be updated before the beginning of the second year of the program and submitted for reapproval to the co-directors.

Preliminary Exam

According to Graduate School rules, students are required to demonstrate their basic knowledge and preparation toward more advanced doctoral level work. For more information visit the CSIS program Web site.

Comprehensive Exam

Students will submit a paper to fulfill the graduate school's comprehensive exam requirement. The paper should describe an area of research including literature review, problem definition and possible methodologies/models to study a significant problem in computer science or information systems. The paper will be evaluated by a committee of three faculty members. An oral presentation of the paper will be open to the entire CSIS faculty. The committee may adopt additional guidelines to evaluate the paper and presentation. According to graduate school rules, the comprehensive exam must be completed by the end of the fourth year in the program. In addition to these requirements, the comprehensive exam must meet the other graduate school requirements.

Dissertation Proposal

As the first phase of the dissertation, each student should prepare a proposal that will be evaluated by the doctoral committee. A proposal should be ready for review at least one semester before the expected completion date of the degree. The proposal is submitted for review and approval by the doctoral committee. An oral presentation of the dissertation proposal before the doctoral committee is required for approval. An approved proposal is then submitted to the co-directors of the program for final approval.
University-Level Instructional Training

During the program, each student will obtain training for university-level instruction. This requirement can be fulfilled by working with a faculty member as a teaching assistant, attending university-level teacher training or teaching a university-level class. Students who plan a university career will be encouraged to teach one or more courses and participate in training. When teaching or working as a teaching assistant, a student will be compensated according to standard university salaries.

Dissertation Completion

Following completion of the approval of the dissertation proposal, each student prepares and then submits a dissertation. The dissertation is defended before the doctoral committee in a public meeting. Final approval for the dissertation is given by a vote of the dissertation committee after the public defense of the dissertation.

Graduation

Upon completion of all degree requirements, including the dissertation defense, the student receives the degree of doctor of philosophy. Students applying through the CSE receive the PhD from the College of Engineering and Applied Science, while students applying through the information systems program receive the PhD from the Business School.

Design and Planning PhD

► Graduate School Rules apply to this program

Program Director: Kevin J. Krizek
Telephone: 303-315-2422

The PhD in design and planning from University of Colorado Denver trains scholars for careers in higher education, research and high-level policy positions. It is a research-oriented doctoral degree with a flexible, interdisciplinary focus. Students actively draw from the rich intellectual resources of the University of Colorado campuses in both Denver and Boulder for classes, personalized instruction, teaching opportunities and research appointments. Graduates of the program work in universities, government, nonprofits and the private sector, both in the U.S. and around the world.

Planning and design form a well-established and expanding field of knowledge and practice regarding the relationships of natural, behavioral, technological, political, economic and cultural factors to the organization of physical space, and their combined
influence on the quality of life in general. Housed within the college, the departments of architecture, landscape architecture, and planning and design share the idea that the complex problems of the built environment are best addressed through collaboration among the various design and planning disciplines. As a result of this collaboration, the departments jointly offer the advanced research degree, a PhD in design and planning.

Areas of Specialization

The PhD program serves as the intellectual driver of the College of Architecture and Planning; its mission is to provide a scientific foundation for planning and design. Unique and distinguishing characteristics include the physical environment as the domain of interest, the interdisciplinary and integrative orientation of study and the applied nature of prescriptions. Being broad in its offerings, available study covers issues ranging from highly technical urban modeling to the history of architecture. Students in the program are encouraged to embrace tenets embodied in one of the following areas of specialization. Each broad specialization area is represented by its own core curriculum specific to the domains of expertise and faculty interests; in exceptional circumstances, advanced study on a related topic (e.g., historic preservation, green buildings) is available to bridge the two specialty areas.

Sustainable and Healthy Environments (SHE)

Studies in SHE are concerned with the design making by public agencies to guide the pattern and timing of land development that advance goals of sustainable and healthy environments. Subfields include land use planning, growth management, transportation, urban design, housing and community development, environmental planning and management of urban, rural and natural areas. Primary work in this area focuses on land use controls, design review processes and the development of models and tools to understand and support decision processes and design practices.

History of Architecture, Landscape and Urbanism (HALU)

Studies in HALU include the history and theory of architecture, landscape and urbanism considered within socioeconomic and political contexts, intellectual history and cultural studies, as well as questions concerning the evolution of technology, technique and materiality. Interdisciplinary and cross-cultural collaboration is encouraged. In this manner, the disparate range of ideologies and methodologies within the discipline itself are introduced. It is critical for the contemporary scholar and teacher to be aware of the tradition of strategies and perspectives in order to operate in an intellectually responsible manner in the present. A background in a professional design field is desirable for all applicants.
As part of studies in either specialty area, students work on diverse topics, advancing the intellectual environment of the college by participating in a common colloquium, organizing workshops, presenting at conferences and writing publications.

**Admission Requirements**

As a candidate for admission to the PhD program, you must meet the requirements of the Office of Vice Chancellor of Academic and Student Affairs of UC Denver. These include but are not limited to:

- Matters of provisional admission
- Transfer credit restrictions
- Residency requirements
- Eligibility of courses for graduate-level credit
- Foreign language requirements
- Examination schedules

**Residency**

To be accepted, you will have to meet the academic residency requirement, which requires six semesters of scholarly work beyond the attainment of an acceptable bachelor’s degree.

Two semesters of residence credit may be allowed for a master’s degree from another institution of approved standing.

At least four semesters of resident credit, two of which must be consecutive in one academic year, must be earned from this university.

**Specific Requirements**

The specific admission requirements for the PhD program in design and planning are as follows:

1. **Degree**

   Minimally, to be a successful applicant, you must have a bachelor's degree, however, it is strongly advised that students entering the program will have completed both a bachelor's and a master's degree. Field specialization and background are open.
However, you will preferably have completed a professional (master’s or bachelor’s) program in planning or a design-related field, such as:

- Architecture
- Landscape Architecture
- Architectural Engineering
- Urban Design

In combination with a degree in an area, such as:

- Geography
- Urban Economics
- Environmental Law
- Urban Sociology
- Real Estate
- Management Science
- Computer Science
- Public Administration
- Environmental Psychology

2. Knowledge from Prior Course Work

The applicability of your prior course work will be decided by the program committee upon review of your transcript and additional materials. If you do not have the requisite educational background, grade point average or GRE scores, you may be admitted on a conditional or provisional basis and additional course work may be required in accordance with Graduate School Rules.

A. Design and Planning: You can satisfy this requirement by virtue of having completed either a professional or a pre-professional degree program in these areas.

If you do not have such prior qualifications, you must complete 12 hours of upper level undergraduate course work in the College of Architecture and Planning, while obtaining in each of these courses a grade of ‘B’ or higher. These courses are to be chosen from a selected list, in consultation with your faculty advisor, and are to be completed within two years after admission to the Program, and may count.
towards fulfilling the degree requirements.

**B. Undergraduate Work:** You must have completed 12 semester hours of undergraduate work in one of the following areas:

Social and Behavioral Sciences  
Environmental and Natural Sciences  
Engineering  
Humanities

**C. Prerequisites:** You must also have completed one of the following prerequisites with a grade of "B-" or above (the choice depends on your area of specialization):

**Statistics.** Including probability theory, parametric and nonparametric methods, and acquaintance with basic multivariate techniques. A minimum of 3 hours.

**Mathematics.** Including differential equations, finite mathematics, algorithms, data structures or other appropriate courses. A minimum of 3 hours.

**Language.** Ability to read at least one foreign language relevant to the area of specialization.

**Computer Applications.** Background in computer aided Design (CAD) or Geographic Information Systems (GIS). A minimum of 3 hours.

### 3. Demonstrated Academic Achievement

- Academic achievement as evidenced by an undergraduate grade point average of 3.0 (on a 4.0 scale) or better, and a graduate grade point average of 3.5 or better.
- A 575 TOEFL (Test of English as a Foreign Language) score is required if you are a foreign applicant whose native language is not English.

### Curriculum

Degree requirements are set both by the Graduate School at the University of Colorado Denver and the PhD program within the college. Degree requirements are divided into two parts: pre-candidacy and candidacy/dissertation research. The former involves course work, qualifying examinations and a dissertation prospectus. Candidacy is certification that all requirements have been met except the dissertation. The doctor of philosophy (PhD) degree in design and planning is granted upon the successful completion and defense of the dissertation.
Students meet these requirements through course work and exams over a two year period. During this time, a student’s cumulative grade point average may not fall below a 'B' without academic discipline or probation.

Degree Completion

Students in the PhD program in design and planning have up to eight years to complete all requirements for the degree. It is possible to take a leave of absence (referred to as a ‘time out,’ however, such circumstances should be pursued in tandem with your advisor and/or your committee). A leave of absence form, obtained from PhD program administrative coordinator, must be completed to ensure your place in the program.

Three Components

The PhD curriculum consists of three components:

- Core curriculum
- Additional course work
- Dissertation

1. Core Curriculum (12 semester hours)

Students in the program are encouraged to embrace tenets embodied in one of the following areas of specialization. Each broad specialization area is represented by its own core curriculum that is specific to the domains of expertise and faculty interests. The core curriculum includes 12 semester hours of course work and consists of a series of theory and methods and application courses, which all students must complete during their first two years of residence, plus an additional three hours of programwide colloquia.

The core curriculum for the specialization in SHE includes:

DSPL 7011 - Research Design: the Logic of Inquiry. **Semester Hours:** 3
DSPL 7013 - Environment and Behavior. **Semester Hours:** 3
DSPL 7012 - Theories of Planning, Government Intervention and Implementation: Means and Ends. **Semester Hours:** 3

The core curriculum for the specialization in HALU includes:

DSPL 7686 - Special Topics. Historiography: History of the Scholarly Discipline. **Semester Hours:** 3
Semester Hours: 3
DSPL 7686 - Special Topics. Pro-Seminar: Advanced Seminar on Faculty Research Interests. Semester Hours: 3

Advanced study on related topics (e.g., historic preservation, green buildings) is available to bridge the two specialty areas, in which case a core curriculum would consist of one of the above tracks complemented by select offerings from the other track. Such circumstances are addressed in close consultation with your initial advisors and/or your committee.

All students are also required to complete three sessions of the colloquium (DSPL 7014 - Colloquium in Design) during their first two years in the program (1 semester hour, pass/fail credits only). You also have the option of taking more than the three required credits. The colloquium includes presentations by speakers (internal to the program, external to the program/university, students), workshops on research/scholarship skills, and perhaps even more social-type activities.

The year-long colloquium has three primary objectives:

1. It exposes students to various approaches to research related to design and planning.
2. It enables students to formulate and test out researchable topics among faculty and student peers.
3. Finally, it serves as a bridge between the two specializations offered within the program, HALU and SHE.

2. Additional Course Work (total 34 semester hours)

In addition to the core curriculum, each student must take at least 12 semester hours of course work in classes broadly conceptualized as "methods" indicative to your field of research. The type of research methods courses varies considerably depending on your chosen area of study. Students must also have 12 semester hours of course work in their minor field of study and will typically take 10 semester hours of support electives. Courses outside the core curriculum may be chosen from outside the college on either the Denver or Boulder campus. Up to 18 semester hours of graduate-level course work can be transferred into the program to qualify for advanced standing.

3. Dissertation (30 semester hours)

It is most important that you continue to work closely with your advisor while you are doing your dissertation research. Meet at least once a month to discuss your progress and be sure to communicate with your other committee members as well. It is a
continual process that should be a joint effort to assure that your committee will be well informed and prepared at your defense.

**Required Semester Hours**

The required semester hours are as follows:

<table>
<thead>
<tr>
<th>Component</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Core Curriculum</td>
<td>12 hours</td>
</tr>
<tr>
<td>Specialization</td>
<td>12 hours</td>
</tr>
<tr>
<td>Minor</td>
<td>12 hours</td>
</tr>
<tr>
<td>Electives</td>
<td>10 hours</td>
</tr>
<tr>
<td>Dissertation</td>
<td>30 hours</td>
</tr>
<tr>
<td>Total</td>
<td>76 hours</td>
</tr>
</tbody>
</table>

The average course load is 15 semester hours per academic year, especially for the first two years.

**Suggested Timing of the Program**

(for full-time students without advanced standing):

**Year One**

- Develop your degree plan
- Complete any prerequisite courses
- Enroll in 11 semester hours of the required core curriculum and additional courses in your specialty area
- Finish the preliminary examination

**Year Two**

- Enroll in one semester of Colloquium
- Continue or begin to take electives in your minor and specialty areas as described in your degree plan
- Begin literature review papers
• Prepare for your comprehensive exam

Years Three and Beyond

• Complete your literature review papers
• Prepare a dissertation proposal
• Take the comprehensive exam
• Establish your dissertation committee

The remainder of the third and fourth years you will spend researching and writing the dissertation, under the supervision of the dissertation committee.

Educational Studies and Research
PhD

► Graduate School Rules apply to this program

Office: Lawrence Street Center, 701
Telephone: 303-315-6300
Fax: 303-315-6311
E-mail: education@ucdenver.edu
Web site: www.ucdenver.edu/education/doctorate

The PhD in educational studies and research links an intensive research-based course of study with a content area in order to prepare candidates to assume positions in institutions of higher education or research-based organizations. Successful applicants will be paired with a faculty mentor with whom the student will engage in research and developing content expertise over time. The preparation model will require students to be available for about 20 hours per week in research and to enroll in 2-3 courses per semester.

Students complete a plan of study that includes at least 45 semester hours of course work (including all required core courses) and 30 semester hours of dissertation and labs. PhD students are expected to be full-time, typically working (research assistantships, teaching assignments, internships, grants, etc.) at the university while completing their course work. This allows for induction to the university research and teaching culture.

Overview of Course Work:
Foundations: Equity and Diversity, Learning, Epistemology, and Teaching in Higher Education - 4 Courses; 12 Semester Hours

Research Methods – 6 Courses; 18 Semester Hours

Concentration Area – 5 Courses; 15 Semester Hours**

Dissertation: 30 semester hours total (6-9 research lab credits and 21-24 dissertation credits)

**Doctoral students will complete a series of courses/experiences in a specified concentration area. Content domains that align to prospective positions in institutions of higher education will be the basis for concentration areas. We define a concentration area as a line of courses that leads to increasing subject matter expertise. Concentration areas are designed to help students focus on a defined discipline or content area in preparation for professional roles as researchers and faculty members. Following, we list the current areas of concentration in which students can be admitted. These areas may change over time as they are tied to faculty research and externally funded grant projects; prospective students will find updated information regarding current availability on the School of Education & Human Development Web site.

- **Math Education.** Students and faculty in this concentration area focus on teacher learning and professional development experiences. Specifically, projects investigate the ways that particular interventions used in professional development for mathematics teachers impacts their content knowledge and pedagogical practices in their classrooms. Work in this area is framed by a situative perspective of learning and incorporates mixed methods to answer questions around the ways particular interventions support teacher and student learning. Video data is prominent in both the design of professional development interventions as well as a major data source for analyses. Analytic methods vary based on the research question and grain size. Faculty: Karen Koellner, Ron Tzur

- **Science Education.** The goal of this area is to prepare students to explore, understand, and think critically about the nature of science and science education from a largely research-oriented perspective. Students may elect to focus on environmental science education as an area of specialization within this concentration area through electives and discipline- specific research agendas.

- **Urban Ecologies.** This concentration area brings together several faculty members in interdisciplinary study of education in urban ecologies. Participating faculty members are aligned with the interdisciplinary concentration area as a whole, rather than specific threads or foci. The philosophical assumptions underlying work in this concentration area are: 1) Cultural groups are not monolithic, 2) Urban life and learning, including Pre-K-20 education, complex phenomena that benefit from the multiple lenses offered by multi-disciplinarity,
and 3) Trans-nationalism characterizes the cultural experiences and political/economic realities of many communities in cities and contributes to the hybrid identities of residents. These assumptions contribute to a conceptual frame for investigating diversity within the city that is not focused on specific groups and is concerned with the influence of globalization on communities in general within the city. Experiences of and issues confronting different cultural and ethno-linguistic groups will be the key content of this concentration area.

- **Assessment.** The goal of this concentration area is to introduce students to the theory, methods, practices and problems in the development and technical evaluation of assessments in education at both large-scale and classroom assessment levels, considering issues of diverse learners, including English Language Learners and students with special educational needs. The arena of assessment is playing an increasingly important part in P-20 education. This ranges from issues of accountability, student achievement, growth-models, common/benchmark assessments to classroom assessment. In addition to the need for researchers in this area, there are needs for individuals with advanced skills in developing and evaluating the technical quality of instruments in education for different purposes, from developing and implementing surveys to collecting information about teachers to implementing and analyzing achievement assessments to make decisions about the efficacy of educational programs. These individuals need to know how to analyze the information gathered from these instruments and make appropriate decisions based on the information collected. They need to understand the limitations of assessment instruments based on the evaluation on their technical quality.

### Health and Behavioral Sciences PhD

► **Graduate School Rules apply to this program**

#### Requirements for Admission

A master’s or equivalent graduate degree is required for admission to the PhD program. In addition, we encourage prior graduate training in the areas noted below. Students applying without prerequisites may be admitted, but will be required to complete appropriate courses before being permitted to complete the core curriculum. The program currently works with two master’s-level programs to provide articulated master’s-PhD training, as described below.

In addition to the general admission requirements of the Graduate School, the specific admission requirements for the PhD in health and behavioral sciences are as follows:
1. Knowledge from prior course work or vocational experience at the equivalent of college senior or graduate level in each of the following areas.

*Social or behavioral sciences (15 semester hours minimum)*: knowledge of essential facts and concepts concerning the relationship among individuals and society, social organization, individual psychology and the relationship among culture, belief and behavior. This could be satisfied by course work in psychology, sociology and anthropology.

*Human biology or physiology (6 semester hours minimum)*: familiarity with the functioning of the human body in health and disease states, including an understanding of cellular and organ system processes; an appreciation of evolutionary theory and the mechanisms by which evolution operates on both cellular and population levels; and an understanding of the interplay between the evolution of disease and host response. This could be satisfied by course work in human biology, physiology, pathophysiology or biological anthropology.

*Statistics (3 semester hours minimum)*: prior course work and current familiarity with statistics including probability theory, parametric and nonparametric methods and acquaintance with basic multivariate techniques.

*Epidemiology (3 semester hours minimum)*: prior course work at the advanced undergraduate or graduate level with the basic concepts and methods of epidemiology including measures of risk, mortality, distribution of disease, role of bias and confounders and study design.

2. Demonstrated academic excellence as evidenced by an undergraduate GPA of 3.25 (out of a possible 4.0 points) or better, a graduate GPA of 3.5 or better, and scores in the top 30th percentile (averaged) of the GRE. Admission to the program is highly competitive; minimum GPAs and GRE scores for acceptance in any given year may be higher than the minimum levels indicated here.

The applicability of a student’s prior course work will be decided by the program executive committee after reviewing the student’s transcript and additional materials. If the student does not have the requisite educational background or GPA, the student may be admitted on a conditional or provisional basis and additional course work required in accordance with Graduate School Rules.

Prospective students should not be dissuaded from applying to the program if they do not meet all of the requirements for admission. In some cases, employment experience may be counted toward meeting a requirement. In other cases, students may be admitted conditionally upon their completion of a list of prerequisite courses that will be established at the time of admission. Students should be sure to address this issue in completing the graduate application by specifying the academic and vocational experience they possess that meets, in part or full, the admission requirements described above.
MASTER'S LEVEL PREPARATION FOR THE DOCTORAL PROGRAM IN HEALTH AND BEHAVIORAL SCIENCES

The program does not currently offer master’s-level training in HBSC. Instead, we urge interested applicants to pursue relevant master’s degree training in one of the social, behavioral or health sciences disciplines. In addition, we work closely with two master’s programs at UC Denver. These are the concentrations in medical anthropology within the anthropology MA program offered by the anthropology department and the master of public health offered by the Colorado School of Public Health. Contact the respective programs for more information on these degree options and our program for how their requirements articulate with those for the health and behavioral sciences PhD.

TO APPLY FOR ADMISSION

At the UC Denver Downtown Campus, all graduate applications are now submitted electronically. To begin the application process, go to the online admissions Web site. If you have any difficulties, call the program assistant at 303-556-4300. The program admits students only for the fall semester, which typically begins in mid- to late August. The deadline for the receipt of all application materials is February 15 for admission the following August.

Applicants should invest considerable thought and effort in preparing their application. For instance, in the essay (Part II, question six) applicants should provide information on: (a) their academic training and any employment related to public health or health care; (b) their experiences with inter- and multidisciplinary perspectives, and (c) how they envision using their doctoral degree to improve the health status of human populations and individuals. Students should also indicate the kinds of research foci that interest them the most.

In addition to the required recommendation form, letters of recommendation are required from at least three individuals in a position to judge the applicant’s ability to complete the program. Recommenders may be employers, colleagues or professors; however, the applicant should be sure that the letters address the quality of and aptitude for academic work as well as personal characteristics and qualities.

Financial Aid

There are four kinds of financial aid available: graduate student stipends/fellowships; tuition assistance; research assistantship positions funded by grants to specific program faculty; and the regular package of financial aid (primarily loans) available through the financial aid office.
Newly admitted, out-of-state and students demonstrating outstanding scholastic achievement receive priority when assigning departmental sources of funding. Students interested in research assistantships should contact the individual faculty member with whom they wish to work regarding potential assistantship positions.

All other aid should be requested through the UC Denver Financial Aid Office, North Classroom, 1030, Campus Box 125, P.O. Box 173364, Denver, CO 80217-3364. Telephone: 303-556-2886.

Program Requirements

There are three dimensions to the required curriculum:

a. A core curriculum that focuses on problem-oriented, interdisciplinary approaches to theory and method

b. Elective course work intended to provide the student with a solid base from which to launch the dissertation research

c. Dissertation research and writing

The core curriculum is subject to change. What appears below is intended to give students a general idea of the extent, shape and content of the core curriculum. Students should check with the program office for up-to-date information on specific course requirements and scheduling.

The Core Curriculum

The core curriculum should be completed by students by the end of their second year of full-time study. It consists of the following series of courses which, together, constitute 26 semester hours:

I. Health and Behavioral Sciences Colloquium

Each fall, the HBSC program will organize a series of presentations by scholars working in the health and behavioral sciences. The presentations provide students with the most current science and theory in the field. Required of all first- and second-year students, who must take at least two times.

HBSC 7001 - Colloquium Series in the Health and Behavioral Sciences

*Summer 2010 Registration HBSC 7001*

Bi-weekly lectures given by Health and Behavioral Sciences faculty, advanced graduate students and alums, on selected and current topics in the health and behavioral sciences. Required of all first and second year students in HBSC; may be taken up to
three times for credit. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total:** 2 Hours

**II. Theoretical Perspectives in the Health and Behavioral Sciences**

This series is designed to give students a thorough background in how the principles of the social and behavioral sciences have been applied to health issues. Topics include: the interplay between structure and agency in creating and maintaining health; social epidemiology; critical theory and social determinants of health; issues affecting Western biomedicine and public health systems; diffusion of healthy behavioral change among populations; social construction of health and illness; health policy and bioethics; social networks; and stress.

**HBSC 7011 - Theoretical Perspectives in Health and Behavioral Science I**

*Summer 2010 Registration* **HBSC 7011**
Covers the following subject areas: philosophy and epistemology of the social and behavioral sciences as they are applied in public health and health care contexts; historical perspectives of Western biomedicine and public health; cross-cultural perspectives on health systems; class, ethnic, and gender correlates of health and sickness; critical perspectives on Western health and health care models; and the structure and organization of health care systems. Note: Part I of a required, two-semester, interdisciplinary, team-taught, seminar-format course that meets three hours a week for the academic year. Prereq: Admission to the Health and Behavioral Sciences program. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HBSC 7021 - Theoretical Perspectives in Health and Behavioral Science II**

*Summer 2010 Registration* **HBSC 7021**
Reviews multiple approaches and strategies for understanding and changing the health of systems, organizations, communities and individuals. Course is intended to give students content knowledge and practical skills for assessing, planning, and implementing change processes. Note: Part II of two-semester seminar course that meets three hours a week for the academic year. Prereq: HBSC 7011 and admission to the Health and Behavioral Sciences program. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**HBSC 7071 - Social and Behavioral Determinants of Health and Disease**

*Summer 2010 Registration* **HBSC 7071**
Surveys the distribution, determinants, and psychological and behavioral aspects of
health and disease. Social, economic, environmental, and cultural variations in and determinants of health, disease, and quality of life, as well as barriers to access and utilization, geopolitical influences, environmental and social injustice, historical trends, and future directions are addressed. Prereq: HBSC 5001 or equivalent. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 9 Hours**

**III. Human Ecology and Environmental Adaptation**

This course will emphasize the biological/physiological dimensions of human health and disease.

**HBSC 7031 - Human Ecology and Environmental Adaptation**

*Summer 2010 Registration for HBSC 7031*
Focuses on the interplay of biology, environment, culture, and behavior in the causes and exacerbation of disease. The course includes the following topics: health in environmental and evolutionary contexts; models of causation in biomedicine and other medical systems; individual, community, and population manifestations of health and disease; and biocultural interaction in disease process. Specific case studies drawn from contemporary health problems are used to illustrate in detail the nature of these processes. Prereq: Admission to the Health and Behavioral Sciences program. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3 Hours**

**IV. Research Design and Methods in the Health and Behavioral Sciences**

Two HBSC core research design and methods courses, plus one additional advanced methods course of student's choosing. This series covers the philosophy of science and the structure of scientific inquiry, procedures for hypothesis-testing, quantitative and qualitative methodological strategies commonly employed in the field, epidemiology and program evaluation. Students must further develop specialized methodological skills by completing an independent study (HBSC 6840) or taking one additional course in advanced epidemiology, advanced biostatistics, health economics, survey research design or qualitative methods and data analysis. This requirement will be tailored specifically to the student's particular interests by his/her advisor.
HBSC 7041 - Research Design and Methods in the Health and Behavioral Sciences

Summer 2010 Registration HBSC 7041
This course has four principal aims: (1) to provide students a working knowledge of research methodology as applied to field research efforts; (2) to enable students to apply research methodologies to areas of particular interest in the health and behavioral sciences; (3) to expose students to data manipulation techniques common to social science quantitative research; and (4) to teach basic research proposal development techniques. Prereq: Admission to the Health and Behavioral Sciences program. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

HBSC 7051 - Qualitative Research Design and Methods

Summer 2010 Registration HBSC 7051
Much of the data collected in the social sciences is interview- and text-based. This course explores methods for collecting and analyzing these data and theoretical paradigms that underlie these methods. Cross-listed with ANTH 6063. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

One elective course in advanced methods: 3 semester hours

Total: 9 Hours

V. Applications of the Health and Behavioral Sciences

This course offers students the opportunity to focus on individual research interests with guidance from faculty and input from peers.

HBSC 7111 - Applications of the Health and Behavioral Sciences

Summer 2010 Registration HBSC 7111
Students focus on eight or nine specific health problems, applying multiple social and behavioral science perspectives in pursuit of a truly interdisciplinary understanding of the most significant dimensions of each problem. Guest experts provide "grand rounds" type presentations on each selected topic. Prereq: HBSC 7041. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 3 Hours

TOTAL CORE: 26 Hours
Elective Courses

Elective course work together constitutes 26 semester hours, of which a minimum of 6 hours can be drawn from the large number of offerings in the health and behavioral sciences at UC Denver. A full listing of elective courses is available in the program office and online on the HBSC Web site. Students will be expected to fulfill the necessary prerequisites for taking these courses, and final authority as to whether a student may enroll in the course will rest with the department in which the course is offered.

TOTAL ELECTIVES: 26 Hours

Doctoral Dissertation Research

The doctoral dissertation research topic is chosen by the student. The student is expected to define a research question in health and behavioral science, identify the research strategy to be used for answering the question, conduct the research required and document the project in the form of a doctoral dissertation. The student will be guided in this process by a doctoral dissertation advisor and the additional members who comprise the student’s doctoral dissertation committee (see below). A minimum of 30 semester hours of dissertation work is required. Students must register for a minimum of 5 dissertation credits each semester of their dissertation work. Students may not take more than a year’s leave of absence or fail to enroll for semester hours more than three semesters before they are dropped from the program.

Advisors

Upon admission to the program, each student will be assigned a first-year advisor. The student or the faculty will then choose the faculty advisor who will guide the student through the core and elective course work. The faculty advisor may or may not be the chair of the student’s dissertation committee. The student selects his or her chair and three additional committee members who oversee the student’s comprehensive examination and dissertation research.

Formal Review

A formal review of each student’s first-year progress will be undertaken at the end of the first year of study. A student may not take any additional courses in the program until this review is completed. Students who are deemed not to be making satisfactory progress will be informed in writing as to the nature and final result of the review before the end of June in the first year of study.
The Dissertation Prospectus and the Comprehensive Examination

Before a student advances to candidacy, she/he must complete a dissertation prospectus and defend it successfully in the context of an oral comprehensive examination. The dissertation prospectus is a complete description of the question or hypothesis that the student wishes to research for the dissertation project, the research design and study techniques and an assessment of the proposed project’s contribution to the field. It will include a comprehensive review of the relevant literature. If the student chooses to undertake research in a particular ethnic or cultural community, she/he must also demonstrate sufficient understanding of that setting including adequate knowledge of the language. This prospectus must be approved by the student’s advisor prior to scheduling the comprehensive examination.

The comprehensive examination will be an oral format based in part on, but not restricted to, the material presented in the dissertation prospectus. This exam _must_ take place before the student’s advancement to candidacy and will typically occur by the end of the third year of study. A committee comprising the chair and three faculty members will supervise the completion of the dissertation prospectus. This committee will conduct the oral examination and will recommend to the executive committee by a majority vote whether or not the student should be advanced to candidacy.

The Doctoral Dissertation and Final Exam

After advancement to candidacy, the student in consultation with his or her advisor will appoint a dissertation committee comprising the chair and three faculty members. The chair and composition of the committee will be subject to approval by the program executive committee. The chair and two other members must have been present at the student’s comprehensive examination and will be responsible for overseeing the research and writing of the doctoral dissertation. The committee will review drafts of the dissertation and, when the dissertation is completed to its satisfaction, will conduct the final exam, which will be based on the doctoral dissertation and related materials. The final examination will be open to the public.

Dissertation Total: 30 Hours minimum

Leadership for Educational Equity
EdD
Program Overview

The goal of the doctor of education (EdD) leadership for educational equity program is to prepare future leaders for social justice and equity in P-20 and community-based education contexts who can effectively translate research into practice, influence policy, use data effectively in decision making and organize individuals and groups to address challenges collaboratively and successfully.

The EdD is a practice-based, doctoral level program for professional leadership in P-20 or community-based educational contexts. The EdD will prepare leaders within the profession to address complex educational challenges by combining decision-focused analytic and research skills with a broad-based understanding of systems anchored in principles of social justice and equity and access to public education.

This program reflects a cohort model. Courses will generally be offered in weekend, hybrid (part face-to-face, part online), online and/or summer intensive formats. Students follow their cohort in taking the prescribed course work and experiences for three consecutive years.

Course Work – 69 Semester Hours

Equity and Diversity Core (9 hours)

Leadership Core (12 hours)

Research Methods Core (12 hours)

Concentration Area Core (9 hours)

Culminating Experiences:

Concentration Area Internship (one, 6 credit experience)

Dissertation Courses and Independent Hours (21 credits)

Concentration Areas
Executive Leadership: designed to deepen individuals’ skills in policy analysis, development and research; personnel management; finance; accountability systems and evaluation; and community relations. Support individuals who hold or seek to move into senior management positions inside school districts, community colleges, higher education policy or community-based education organizations. Roles may include that of a director, deputy, superintendent or president.

Instructional Leadership: designed for individuals who want to hone their skills through inquiry in the areas of adult learning, professional development, teaching, assessment and accountability, technology and policy analysis and application. This concentration area targets professionals who hold or seek to move into positions such as teacher leaders, coaches/mentors, program coordinators, curriculum directors or instructors at teaching colleges or community colleges.

Public Affairs PhD

► Graduate School Rules apply to this program

Program Director: Peter deLeon, PhD

Faculty

Professors:

Kathleen Beatty, PhD, Washington State University
Lloyd Burton, PhD, University of California, Berkeley
Peter deLeon, PhD, Pardee RAND Graduate School
Robert Gage, PhD, Indiana University
Mary Guy, PhD, University of South Carolina
Richard Stillman, PhD, Syracuse University
Paul Teske, PhD, Princeton University

Associate Professors:

Linda deLeon, PhD, University of California, Los Angeles
Angela Gover, PhD, University of Maryland
Jody Fitzpatrick, PhD, University of Texas, Austin
Allan Wallis, PhD, City University Graduate Center
Christine Martell, PhD, Indiana University

Assistant Professors:
The School of Public Affairs offers a program of advanced graduate study leading to the doctor of philosophy in public affairs. The program, based on the Downtown Campus, permits elective work to be taken on any campus of the university if it is part of the approved program of study or degree plan.

The doctoral program was developed to meet the need for people with mastery in the scholarly theory, concepts and research skills of public administration, public policy and public management, and who are able to use such skills in careers of research, teaching
and analysis of public-sector challenges. The PhD is designed to prepare students for leadership responsibilities in academia, research and public policy analysis. Accordingly, the PhD stresses the development of theoretical, conceptual and methodological knowledge in public administration, policy and management.

Participants

The doctoral program is primarily designed to serve (1) people who desire to further the field of public policy and public and nonprofit management through teaching and research; (2) scholar-practitioners working in government, private-sector organizations concerned with government and nonprofit organizations; and (3) policy analysts in government, private-sector organizations concerned with government and nonprofit organizations.

Time Required for PhD Degree

The PhD program requires an intense commitment. Most courses and seminars are offered during the late afternoon, in the evenings or on an intensive basis. (Some electives are offered online, but core courses are not.) Anyone starting the PhD program with a master’s degree in public administration can expect to take at least three but no more than eight years to complete all of the requirements for the PhD.

Students are required to enroll for a minimum of 6 semester hours of course work each fall and spring semester. All requirements for the PhD degree should be completed within eight years of admittance. Any student entering the program with no prior graduate work in public administration, public policy or management should expect additional course requirements.

PhD Admission Requirements

Admission to the program is based on the personal and professional qualifications of the applicant. It is desirable that an applicant have a master’s degree in public administration or a closely related field before undertaking doctoral work. Applicants should have a 3.5 GPA or above in master-level course work, as well as a combined score of 1,000 or better on the quantitative and verbal sections of the GRE. Successful applicants will also show the potential for productive careers of scholarship, research and analysis.

Meeting the minimum thresholds listed above does not assure admission. In unusual cases, students who fail to meet the thresholds may be admitted if high academic skills are demonstrated in other ways.

PhD Application Process
Applicants must submit the following items to the SPA office before they can be formally considered for admission. The application deadline is February 1; admitted students will begin in the fall semester.

- application forms
- official transcripts (two copies) from all degree granting institutions
- GRE scores (no more than three years old)
- a resume or vita
- three letters of recommendation from colleagues and previous professors, focusing on the potential for deriving benefit from the PhD program
- a 500–1,000 word statement of educational and career goals, focusing on research interests

In addition, students may also submit samples of research reports or publications. All application materials will be retained by SPA and will not be returned. A personal meeting with the PhD director or other faculty member is recommended.

Financial Assistance

For excellent candidates, SPA will fund a small number of doctoral research assistantships each year based on financial availability. Students selected will receive a full-tuition waiver as well as a stipend of $15,000 for the academic year. Our goal is to provide such funding for students for at least three years.

Degree Requirements

Course Work

A total of 36 semester hours of course work is required past a master’s degree in public administration or a related degree. In some cases, additional prerequisite courses may be required to assure adequate preparation for doctoral studies. All PhD students are required to take a minimum of 6 semester hours of course work in both the fall and spring semesters, until their course work requirements are met, if they wish to maintain their full-time student status.

During their first year of study, all PhD students are required to take the following four doctoral seminars:

PUAD 8010 - Historical and Comparative Foundations of Public Administration
Summer 2010 Registration P AD 8010
A doctoral seminar on developments and changes in public administration as a field of study. It examines how public administration and bureaucracy has evolved and is defined, practiced, studied and taught. It must normally be taken during the first full semester of the doctoral program. Prereq: PUAD 7001 or PUAD 5001 (or equivalent). Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 8020 - Seminar in Public Management

Summer 2010 Registration P AD 8020
An in-depth examination of contemporary literature, concepts, and theories of public management. Current issues and research problems are emphasized to prepare students for their advanced research. Prereq: PUAD 7003/5003, 7004/5004 or equivalent. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 8030 - Seminar in Public Policy

Summer 2010 Registration P AD 8030
Offers an in-depth examination of contemporary literature, concepts, and theories of public policy, with an emphasis on policy process. Current issues and research problems are emphasized to prepare students for their advanced research. Prereq: PUAD 7004/5004, 7005/5005 or equivalent. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PUAD 8040 - Critical Issues in Public Affairs

Summer 2010 Registration P AD 8040
Identifies and examines emerging topics of public administration, policy, and management in which additional research and theory are required with a focus on economic and related approaches. The intent is to help students identify advanced conceptual and methodological issues for dissertation research. Prereq: PUAD 8010, 8020, 8030 and 8060. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 12 Hours

During the next year, doctoral students are required to take

PUAD 8040 - Critical Issues in Public Affairs

Summer 2010 Registration P AD 8040
Identifies and examines emerging topics of public administration, policy, and
management in which additional research and theory are required with a focus on economic and related approaches. The intent is to help students identify advanced conceptual and methodological issues for dissertation research. Prereq: PUAD 8010, 8020, 8030 and 8060. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 8070 - Advanced Seminar in Research Methods**

*Summer 2010 Registration*  
**AD 8070**
Provides in-depth knowledge about designing and conducting dissertation research. The course follows a basic sequence of problem definition, theoretical and propositional formulation, sample selection, data collection and observational methods, data analysis and presentation, and writing skills. This course represents the final class in the PhD sequence of seminars. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**PUAD 8060 - Seminar on Conduct of Empirical Inquiry**

*Summer 2010 Registration*  
**AD 8060**
Examines a range of empirical approaches used in the study of public policy and management. Introduces some of the major concepts and problems of scientific inquiry; explores relevant aspects of the philosophy of science; and further develops skills in the design, conduct, and use of research. Prereq: PUAD 5003 or PUAD 7003. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 6 Hours**

Prerequisites for PUAD 8070 include PUAD 7330, Intermediate Statistical Analysis, PUAD 8010, 8020, 8030, 8040 and 8060. These prerequisites may be waived with the permission of the doctoral director.

In addition, all PhD students must complete a second methodology course (as well as four elective courses) relevant to the student’s dissertation plans.

**Comprehensive Exam and Dissertation**

In addition to course work, PhD students must pass a comprehensive exam no later than the beginning of their third year of study. Students are also required to complete and defend, before a faculty committee, a dissertation that makes a significant contribution to the literature and theory of public administration, management or policy.

Students are advanced to candidacy for the PhD once they have completed all required course work and examinations, have successfully presented their research colloquium and have been certified for candidacy by his/her doctoral committee. After students are
formally advanced to candidacy, they must register for a total of 30 hours of dissertation
research credit to complete the PhD. Each fall and spring semester, students are
expected to register for 5 semester hours of dissertation research; if unable to
register for at least 5 semester hours, students must request a leave of absence from
the PhD program until able to complete the minimum dissertation requirement. Students
may take up to two semesters’ leave of absence before they are disenrolled from the
program. Students then would need to reapply to the program.

Further details on the program can be found in the Handbook for the Doctor of
Philosophy in Public Affairs Program, available from the SPA office online at

Licensure

Administrator License - Executive
Leadership Program

Administrative Leadership and Policy Studies

Requirements for Principal Licensure, the MA and EdS
degrees, and Executive Leadership Administrator
Licensure Program

Office: Lawrence Street Center, 701
Telephone: 303-315-6300
Fax: 303-315-6311
E-mail: education@ucdenver.edu
Web site: www.ucdenver.edu/education/alps

Principal Licensure

Master of Arts Degree

Education Specialist Degree

Executive Leadership Administrator Licensure Program
Faculty

For information about faculty in this area, visit www.ucdenver.edu/education/alps.

The primary responsibility of the administrative leadership and policy studies (ALPS) faculty is to prepare leaders for public education in Colorado and the nation. Currently, the principal license is required for people seeking building-level administrative positions in Colorado.

Principal Licensure Program

ALPS offers course work that leads to the initial license for principal. Having earned an initial license, those who have obtained a master's degree and who go on to complete a district sponsored induction program may then be awarded a professional license by the Colorado Department of Education.

ALPS’s 32 semester-hour principal licensure program is project-based, requiring students to present evidence of meeting both state and national standards through performance based assessments. A 400-hour clinical-practice experience is integrated throughout the four-semester program.

Students develop a portfolio during the principal licensure program. Portfolios not finalized by the end of the fourth semester must be completed within the two subsequent semesters (not including summer).

Note: Those already holding a principal license and master's degree should see the Executive Leadership Program (below) for pursuing administrator licensure.

Denver Metro-Area Cohorts

Denver metro-area cohorts are delivered in four 8-semester-hour courses over four consecutive semesters. Cohorts start at one or more locations each semester and involve a combination of regular in-person meetings (up to 15 times per semester) and online work.

EDUC 5751 - Principal/Administrator Licensing I Semester Hours: 5 to 9
EDUC 5752 - Principal Administrator Licensing II. Semester Hours: 5 to 9
EDUC 5753 - Principal/Administrator Licensing III. Semester Hours: 5 to 9
EDUC 5754 - Principal or Administrator Licensing IV. Semester Hours: 5 to 9

Total: 32 Hours

Distance-Learning Cohorts
Distance-learning cohorts start each summer in June with a weeklong boot camp in Denver, meet over several intensive weekends during the subsequent fall and spring semesters and end with a weekend the following summer. Online work is completed in between the in-person sessions. Distance-learning cohorts are delivered in **three 9-semester-hour courses and one 5-semester-hour course:**

- EDUC 5751 - Principal/Administrator Licensing I. Semester Hours: 5 to 9
- EDUC 5752 - Principal Administrator Licensing II. Semester Hours: 5 to 9
- EDUC 5753 - Principal/Administrator Licensing III. Semester Hours: 5 to 9
- EDUC 5754 - Principal or Administrator Licensing IV. Semester Hours: 5 to 9

**Total: 32 Hours**

### MA Program

The MA is designed for those who do not already hold a graduate degree. Usually master’s students will complete 9 semester hours beyond the 32 required in the licensure program, for a total of 41 semester hours of course work after the bachelor’s degree.

For the MA degree, students must select at least one course in each of the following three areas:

#### Section A: Educational Research

- RSEM 5100 - Basic Statistics Semester Hours: 3
- RSEM 5200 - Introduction to Research Methods Semester Hours: 3
- RSEM 5300 - Introduction to Measurement Semester Hours: 3

#### Section B: Educational Foundations/Multicultural Education

- FNDS 5050 - Critical Issues in American Education. Semester Hours: 3
- FNDS 5500 - Contemporary Philosophies of Education. Semester Hours: 3
- FNDS 5410 - History and Philosophy of Modern Education. Semester Hours: 3
- LALC 5140 - Multicultural Education Semester Hours: 3
- LALC 5150 - Culture of the Classroom Semester Hours: 3
- LALC 5160 - Historical and Legal Foundations of Bilingual Education Semester Hours: 3

#### Section C: Educational Psychology/Special Education

- EDUC 5400 - Special Education Seminar for Principals. Semester Hours: 3
- EPSY 5100 - Advanced Child Growth and Development. Semester Hours: 3
- EPSY 5110 - Human Learning. Semester Hours: 3
EPSY 5140 - Advanced Adolescent Growth and Development. Semester Hours: 3
EPSY 5160 - Behavior Disorders in Exceptional Children. Semester Hours: 3
EPSY 5200 - Social Psychology of Learning. Semester Hours: 3
SPED 5140 - Advanced Assessment in Special Education. Semester Hours: 3
SPED 5180 - Curriculum Planning for Students with Special Needs. Semester Hours: 3
SPED 5400 - Advanced Seminar in Special Education. Semester Hours: 3
SPED 5600 - Special Education for School Professionals. Semester Hours: 3

Candidates must also successfully complete a comprehensive exam paper, reflecting on how the three MA classes will help them in the role of principal or administrator.

EdS Program

The EdS degree program affords the opportunity for advanced graduate study and is available to those who already hold a master's degree. Generally for the specialist degree students will complete 9 semester hours that constitute an area of focus, in addition to the 32 required in the licensure program. Candidates must also successfully complete a comprehensive exam paper, reflecting on how the three EdS classes will help them in the role of principal or administrator.

Administrator Licensure - Executive Leadership Program

Designed for the professional educator who, already holding a principal license and master's degree, wishes to obtain an initial administrator license in Colorado and prepare for a career as a superintendent or other district leader. This one-year, 12-semester-hour certificate program combines weekend meetings with online work and hands-on clinical practice—usually completed in participants' home districts. Learn more at www.ucdenver.edu/education/elp.

Additional Program Information

Individuals interested in any of these programs are encouraged to contact ALPS faculty. Conferences prior to application are encouraged and welcomed. Following admission, students are expected to maintain frequent contact with assigned advisors to plan, develop and complete their programs of study.

Early Childhood Special Education Specialist Licensure

Early Childhood Education Program

The early childhood education (ECE) program leads to a master’s degree in early childhood education (early childhood accomplished teacher focus) and/or licensure in early childhood special education (early childhood special education specialist). The program prepares leaders who will enrich the life experience of young children (birth to 8) and their families through a variety of professional roles.

ECE Program students may select from three program options:

1. MA in early childhood education
2. ECSE specialist license (initial or added endorsement)
3. MA plus ECSE specialist license (initial or added endorsement)

The ECE program is interdisciplinary in focus, drawing on university resources and the clinical expertise of various community professionals. There is a strong emphasis on fieldwork and practicum experiences in both regular and special education concentrations. Field experiences are a part of each course and provide an opportunity for each student to gain knowledge, abilities and dispositions while interacting with children, families, program staff and community agencies. Practicum experiences are designed to allow students to apply knowledge and practice skills in a closely supervised environment.

The early childhood accomplished teacher focus and the early childhood special education focus share course content in:

- literacy development and disorders
- child growth and development, differences and disorders
• learning approaches with young children
• measurement and evaluation
• basic statistics/research methods
• multicultural education
• research and current issues
• early childhood curriculum and program development for inclusive classrooms
• working collaboratively with parents and families
• program administration/leadership

The early childhood special education program provides specialized preparation in:
• screening and assessment of young children
• intervention strategies with infants and preschoolers
• behavior management
• working as a member of the transdisciplinary team
• cognitive and socio-emotional development and disorders
• treatment of children who have neurological impairment and chronic illness
• challenging behaviors and autism

Program Requirements

Semester Hour Requirements

Master's degree in ECE: 40 semester hours
ECSE specialist license: 40 semester hours
Master's degree plus ECSE specialist license: 49 semester hours
Master's degree plus ECSE specialist added endorsement: 40 semester hours
ECSE specialist added endorsement: 25 semester hours

Fieldwork and Practicum Requirements

The master's degree in early childhood education includes a total of 425 hours of required fieldwork/practica. Approximately 200 hours of fieldwork are associated with course assignments; 225 hours of intense, culminating practica occur toward the end of the second year of study. Students completing the MA program take a written
comprehensive exam (take home) during the final semester of their program (concurrently with courses at the end of the program sequence).

For the master's degree in early childhood education plus the ECSE specialist initial license, a total of 800 hours of fieldwork/practica is required. Approximately 290 hours of fieldwork are associated with course assignments; 510 hours of intense, culminating practica occur toward the end of the second year of study. Students seeking an added endorsement in ECSE specialist also complete 510 hours of practicum experiences.

Nine semester hours can be transferred for the master's degree; 15 semester hours can be transferred for the ECSE specialist license. These credits include courses taken through continuing education, from other institutions or as a nondegree student at the University of Colorado Denver before the term officially admitted.

**Plans of Study**

The following table delineates course work and program completion requirements for the MA degree and ECSE specialist license through various program options.

Teacher Education Licensure Program Overview

The teacher education program is both an undergraduate and graduate level program for general education licensure. (Special education is currently only an option at the graduate level, but undergraduates who want to obtain a special education license are encouraged to consider pursuing their endorsement plus an MA in special
