The 2010-2011 Denver Campus Catalog is considered the source for academic and programmatic requirements for students entering programs during the summer 2010, fall 2010 and spring 2011 semesters. Although this catalog was prepared using the best information available at the time, all information is subject to change without notice or obligation. The university claims no responsibility for errors that may have occurred during the typesetting or production of this catalog. For current calendars, tuition rates, requirements, deadlines, etc., students should refer to the bursar’s office and registrar’s office websites, www.ucdenver.edu/bursar and www.ucdenver.edu/registrar, for the semester in which they intend to enroll.

The courses listed in this catalog are intended as a general indication of the University of Colorado Denver curricula on the Denver Campus. Courses and programs are subject to modification at any time. Not all courses are offered every semester, and faculty teaching particular courses or programs may vary from time to time. The content of a course or program may be altered to meet particular class needs.

Previous editions of this catalog are available online.

The University of Colorado Denver is an affirmative action/equal opportunity employer and educator committed to excellence through inclusiveness.
Welcome

Welcome to a university for the 21st century.

The University of Colorado Denver plays a critical role in the development and well-being of the state and its citizens. With a core business of education and health, UC Denver is the region’s premier research university.

By combining the excellence of our academic programs at the Denver campus with the extensive research and teaching of the Anschutz Medical Campus in Aurora, we provide a unique option in the University of Colorado system. Here you will benefit from:

Academic choices—more than 119 degree programs in 13 schools and colleges

A spirit of collaboration—the synergy of combining disciplines to create courses of study like public health administration, computational bioscience or health and behavioral sciences

Outstanding location—the Denver Campus gives access to a vibrant, safe urban lifestyle, alongside opportunities to gain experience in projects and internships at businesses and corporations

New facilities—the initial development phase of the 227-acre Anschutz Medical Campus is now complete, providing students with state-of-the-art educational and research facilities in Aurora

Each fall, we serve more than 14,000 students on our Denver Campus plus more than 3,000 students in health sciences programs.

This institution is committed to providing you the opportunities you need to achieve your educational goals. You will meet faculty who are dedicated to excellence in the classroom and research laboratory and fellow students who are diverse, goal-oriented and energetic. Whether you engage in undergraduate or graduate studies, you are assured that the University of Colorado Denver degree has global respect and that you will have been well-prepared for the next stage of your work or academic life.

It’s a privilege to have you join us.

The University

The University of Colorado Denver was formed July 1, 2004 by the consolidation of two established universities in the University of Colorado System. UC Denver joins the strengths of a comprehensive campus in downtown Denver with the research and advanced health care programs on the Anschutz Medical Campus in Aurora. Educating more than 14,000 students on our Denver Campus plus more than 3,000 students in health sciences programs from 50 states and 128 nations, the consolidated university is one of the nation’s top public urban research universities.

The University of Colorado Denver offers a unique experience for students. Its Denver Campus is in the heart of the city—the business, cultural and political capital of the West. Its Anschutz Medical Campus in nearby Aurora is the nation’s newest health sciences campus, where discoveries in the lab and in the clinic transform medical treatments into cures.

More and more undergraduates are discovering the value of classes in the city taught by professors who are connected with top companies—often advising the same CEOs who are hiring our graduates. New on-campus housing, easy commuting by light rail and discounts to cultural and sporting events give students many options for immersion in vibrant city life. In addition, affiliations with research labs and hospitals at Anschutz Medical Campus make UC Denver an excellent place to start a health care career.

UC Denver awards more graduate degrees than any other university in Colorado. It is known for its programs in urban sustainability, criminal justice, business, education, applied science and engineering, film and music industry as well as a full array of health professional programs at the Anschutz Medical Campus. The graduate student population is a diverse mix of ages and ethnicities, creating a rich environment for learning and networking.

Other reasons why students choose the University of Colorado Denver:

- **Small class sizes**: average undergraduate student-to-teacher ratio is 15:1.
- **The Denver vibe**: Colorado has always attracted the adventurous. It is one of the healthiest in the country, with an extensive network of bike trails and quick access to mountain sports. The Denver Campus is adjacent to a thriving arts district.
- **Collaborative culture**: Cross-disciplinary learning and research is a core value at UC Denver. Programs blend technology with health care, business with public policy, behavioral health with architecture and public health with health providers.
- **Choices**: With 13 schools and colleges offering more than 119 degree programs, UC Denver is a major university for the coming century.

Denver Campus
With a solid academic reputation and award-winning faculty, the Denver Campus offers bachelor’s, master’s and doctoral programs through seven distinct academic units:

- College of Architecture and Planning
- College of Arts & Media
- Business School
- School of Education & Human Development
- College of Engineering and Applied Science
- College of Liberal Arts and Sciences
- School of Public Affairs

**Anschutz Medical Campus—Aurora**

In achieving its mission of education, research, patient care and community service, the Anschutz Medical Campus offers degree programs through six schools and colleges:

- School of Dental Medicine
- Graduate School
- School of Medicine
- College of Nursing
- School of Pharmacy
- Colorado School of Public Health

An overview of programs offered on the Anschutz Medical Campus is located in the Health Professions chapter of this catalog. Contact the individual school or program coordinator for details.

**Mission, Vision and Values**

In 2007-2008, the University of Colorado Denver completed a strategic planning process which resulted in the following guiding statements:

**Mission**

UC Denver is a diverse teaching and learning community that creates, discovers and applies knowledge to improve the health and well-being of Colorado and the world.

**Vision**

By 2020, UC Denver will be a leading public university with a global reputation for excellence in learning, research and creativity, community engagement and clinical care.

**Values**

To be a university greater than the sum of its parts, UC Denver embraces excellence in:
Learning and Scholarship
UC Denver respects academic freedom and the rigorous quest for knowledge and understanding. We share knowledge and foster student success through a continuous process of inquiry, critical thinking, reflection, collaboration and application.

Discovery and Innovation
UC Denver fosters an energetic, collaborative and creative environment where we develop and employ new ideas and technologies. Our entrepreneurial culture enables us to expand the frontiers of knowledge and human experience.

Health and Care of Mind, Body and Community
UC Denver enriches the well-being and sustainability of communities and our cultural, living and natural environments. We promote healthy lifestyles, prevent, diagnose and treat disease and deliver high-quality and compassionate health care.

Diversity, Respect and Inclusiveness
UC Denver seeks the richness that an increasing diversity of our communities brings to our learning, research and service endeavors. Our common humanity leads us to create an inclusive and respectful ethos characterized by caring, empathy, compassion, nurturing, collegiality and mentoring.

Citizenship and Leadership
UC Denver serves Colorado and the world as a recognized source of talent, knowledge, informed judgment, exemplary health care and professional practice. We are responsible stewards of the resources entrusted to us and utilize them with integrity for the betterment of our community.

Details about the mission, vision, values and strategic plan for the university is available online at www.ucdenver.edu/admin/upac.

University of Colorado System
The University of Colorado is system of three universities located in Boulder, Colorado Springs and Denver/Aurora. With combined total enrollments of more than 52,000 students, the University of Colorado system consistently ranks in the top 15 among public universities and colleges in overall research expenditures and seventh among public universities in federally funded research. Awards for research within the system total more than $660 million, with funding provided by federal agencies, appropriations from the state of Colorado and private foundations and donors.

Board of Regents
History and Evolution of UC Denver

1876 Legislature founds the University of Colorado
1883 Medical department opens with two students
1898 CU establishes School of Nursing
1912 CU organizes the Department of Correspondence and Extension in Denver
1913 CU establishes School of Pharmacy
1925 CU dedicates 9th and Colorado Blvd. medical center
1956 Regents purchase Tramway Building for Extension Division
1965 Regents change extension name to University of Colorado-Denver Center
1972 CU-Denver Center changes name to University of Colorado at Denver
1973 School of Dentistry enrolls its first class; state begins building Auraria Campus
1974 CU reorganizes as a four-campus system
1988 CU-Denver moves into the 257,000 square-foot North Classroom Building on the Auraria Campus
1992 School of Pharmacy moves from Boulder to Health Sciences Center
1995 Government conveys 217 acres at Fitzsimons to CU for modern health sciences facility
2000 First new and remodeled facilities open at Fitzsimons
2004 Regents consolidate CU-Denver and Health Sciences Center to form the University of Colorado at Denver and Health Sciences Center
2006 Fitzsimons campus renamed Anschutz Medical Campus
2007 Regents approve shortened version of the name: University of Colorado Denver
2008 Medical, dental, pharmacy and nursing students start classes, Colorado School of Public Health enrolls first students on the Anschutz Medical Campus

**Accreditation**
The Denver Campus of the University of Colorado Denver is institutionally accredited by the Higher Learning Commission of North Central Association of Colleges and Schools.

The commission can be contacted at:

30 N. LaSalle Street, Suite 2400
Chicago, IL 60602-2504
**Telephone:** 1-800-621-7440
**Web site:** www.ncacihc.org
Many professional organizations have also granted accreditation to programs, colleges and schools at the Denver Campus, including:

- Accreditation Board for Engineering and Technology
- Association for the Advancement of Collegiate Schools of Business—International
- American Chemical Society
- Colorado State Board of Education
- Commission on Accreditation of Healthcare Management Education
- Council for Accreditation of Counseling and Related Educational Programs
- Landscape Architecture Accreditation Board
- National Architectural Accrediting Board
- National Association of Schools of Music
- National Association of School Psychologists
- National Association of Schools of Public Affairs and Administration
- National Council for the Accreditation of Teacher Education
- Planning Accreditation Board

**Academic Programs**

The Denver Campus of UC Denver is devoted to the needs of the residents of the city and the region. A solid foundation of academic and general education is assured through a comprehensive core curriculum. Students may pursue graduate education through all of the campus’ colleges and schools. Pre-professional training in the fields of education, law, journalism and health careers is also available. Complete listings of areas of study available on the Denver Campus are available in the Programs section of the catalog.

The colleges and schools sections of this catalog provide information on bachelor’s, master’s and doctoral degree programs, policies on requirements for graduation, course requirements, course-load policies, course descriptions and similar information.

**Continuing and Professional Education**

The Division of Continuing and Professional Education at the Denver Campus offers complete degree programs, certificate/certification courses, professional development programs, precollegiate outreach programs and personal enrichment courses across the state of Colorado. Courses are offered in a variety of formats, including traditional on-campus, off-campus, online, hybrid, weekend, evening, short and condensed courses and many others.

Registration and tuition varies by school or college. Contact the specific school or college to learn about current program and course offerings, or contact the Academic Technology and Extended Learning office at 303-556-2040 or visit our Web site at www.ucdenver.edu/academics/continuing-education/Pages/index.aspx.
About Our Students

The diversity of our student body is a source of deep pride. Ethnic minority students make up 23 percent of the student population. Classes include traditional students who have elected to pursue college degrees immediately after high school, transfer students, students who have delayed college entry and professionals who seek to strengthen their base of skills or broaden their appreciation of the world.

With students’ ages ranging between 16 and 74, the average undergraduate student age on the Denver Campus is 24, while our graduate students average 33. They represent a distinctive mix of ages and backgrounds. Around 80 percent of our students are employed, and 44 percent attend part-time. 38 percent are enrolled in graduate-level courses. All take advantage of the convenience of course offerings at times that meet their schedules, enjoying an enviable student-to-faculty ratio of 15:1.

Related Organizations

Alumni Association

Mailing Address: Campus Box 189, P.O. Box 173364, Denver, CO 80217
Telephone: 303-556-2549
Fax: 303-556-6545
E-mail: ucdalumni@ucdenver.edu

The University of Colorado Denver Alumni Association provides programs and services of mutual benefit to graduates and the university. Founded in 1976, the Denver Campus association is governed by a board of alumni representing all schools and colleges. Students automatically become Alumni Association members upon graduation and receive the UC Denver on the Horizon newsletter, published twice a year. Alumni are invited to volunteer on committees, which include recognizing 4.0 students through the Academic Athlete program, providing financial assistance to students through a scholarship fund and bestowing Alumni Association awards to worthy graduates and community leaders. The association also invites alumni to attend periodic seminars and events.

University of Colorado Foundation

Mailing Address: 1380 Lawrence Street, Suite 1325, Denver, CO 80204
Telephone: 303-315-3601
Fax: 303-315-2096
Web site: www.cufund.org

Established in 1967, the University of Colorado Foundation is a privately governed nonprofit corporation whose mission is to support the University of Colorado. The
Denver office of the CU Foundation was established to advance the campus goal to become one of the nation's premier urban research institutions.

The CU Foundation raises and manages private funds that endow scholarships and professorships, further research, enrich academic programs, upgrade and construct facilities and support projects that benefit students, faculty and the community.

The university's academic leadership establishes priorities for private support, and gifts are directed to the specific schools, program or purpose that the donor designates. Professional fundraisers identify and/or generate interest in the university, assist donors in gift planning and solicit gifts in collaboration with academic partners and leaders.

Information for Undergraduate Students

At UC Denver, five undergraduate schools and colleges (College of Arts & Media, Business School, College of Engineering and Applied Science, College of Liberal Arts and Sciences and School of Public Affairs) provide a diverse array of baccalaureate majors, minors, certificates and teacher licensure to meet the ever-challenging demands of a global society. Your undergraduate education consists of a core curriculum (general education), a major and elective courses (most areas of study). The campuswide core curriculum develops proficiency in writing and mathematics, cultivates a breadth of knowledge, promotes critical thinking, allows you the flexibility to meet your career goals and helps you develop sensitivity to cultural diversity and international perspectives.

A list of all our undergraduate programs, including minors and online programs, is available in the academics section of the UC Denver Web site.

Undergraduate Admissions
Assistant Vice Chancellor for Enrollment Management: Barbara Edwards
Office: 1250 West 14th Street—Annex
Telephone: 303-556-2704
Fax: 303-556-4838
E-mail: admissions@ucdenver.edu
Web site: www.ucdenver.edu/admissions

The Denver Campus of the University of Colorado Denver seeks to identify applicants who are likely to be successful in a rigorous academic program of study. Admission decisions are based on many factors, the most important being:

- level of previous academic performance
- evidence of academic ability and accomplishment as indicated by scores on national aptitude tests
- evidence of maturity, motivation and potential for academic success
UC Denver may deny admission to new applicants or readmission to former students whose credentials indicate an inability to assume obligations of performance and behavior deemed essential by the university.

After completing the application process, official notification of one’s admission status as an undergraduate, graduate or nondegree student is provided by the Office of Admissions. Letters from various schools and colleges indicating acceptance into a particular program are pending, subject to official notification of admission to the institution by the admissions office.

Students who are admitted pending receipt of additional documents or with unofficial documents will be permitted one term to submit the documents. If temporarily waived official documents are not received by the end of the initial term of attendance, registration for subsequent terms will be denied. If at any time additional credentials are received that affect the student’s qualifications, the university reserves the right to change the admission decision.

Applicants who have not decided upon a major field of study will be considered for admission to the College of Liberal Arts and Sciences as undetermined majors. Students admitted as undetermined majors should declare a major as quickly as possible and no later than the end of their sophomore year.

All questions about admission to the Denver Campus and requests for application forms should be directed to 303-556-2704 or admissions@ucdenver.edu. Send correspondence to:

Office of Admissions
University of Colorado Denver
Campus Box 167, P.O. Box 173364
Denver, CO 80217-3364

**Application Deadlines**

The university may change document/credential deadlines in accordance with enrollment demands. For the best scholarship and registration time considerations, applicants should apply and be admitted as early as possible. Admission to the university does not assure availability of specific courses. For an applicant to be considered for a specific term, all documents required for admission must be received in the Office of Admissions by the deadline for that term. Applicants who are unable to meet the deadline may elect to be considered for a later term. Transfer students are reminded that they should allow sufficient time to have transcripts sent from institutions they have previously attended.

Advanced planning and early application are necessary for the timely admission of international students. International students are advised that it usually takes 60 days for
credentials to reach admissions in the Office of International Affairs from international locations. See the Information for International Students section for more information.

**Application Deadline for Priority Consideration (excluding BA/BS-MD and music applicants)**

*Fall: July 22  
Spring: December 1  
Summer: May 3*

Early application is strongly encouraged. Admission to the university does not assure specific course availability.

**Minimum Academic Preparation Standards (MAPS)**
Students entering the University of Colorado who graduated from high school in 1988 or later are required to meet the following minimum academic preparation standards:

Students with MAPS deficiencies may be admitted to the university provided they meet the other admission standards (e.g., test scores, rank in high school class, GPA) and provided they make up any deficiencies prior to graduation from the university. Students may make up MAPS deficiencies by successful completion of:

1. courses taken at CU
2. courses taken at other institutions of higher education
3. additional high school credits
4. credit-by-examination programs
5. other requirements as approved by each school or college on the Denver Campus

**Admission Requirements for Freshman Students**

Freshman admission standards define the level of success and achievement necessary to be admitted to UC Denver and include factors that predict academic success such as scores on the ACT or SAT, high school course work and GPA. Both the subjects the student has studied and how the student has performed will be factors that determine admission to the university.
New freshmen may apply for admission to the Colleges of Arts & Media, Engineering and Applied Science, Liberal Arts and Sciences, the School of Public Affairs and the Business School.

Applicants must be high school graduates or have been awarded a High School Equivalency Certificate by completing the General Education Development (GED) test.

Freshman applicants who graduated from high school in spring of 2008 or later must meet the state of Colorado Higher Education Admission Requirements (HEAR).

For students who graduated in 2008 or 2009, the following minimum high school courses (units) are required:

- English: 4 years (units)
- Mathematics: 3 years (units)
- Natural Science: 3 years (units), 2 of which must be lab-based
- Social Studies: 3 years (units), 1 of which must be United States or world history
- Academic Electives: 2 years (units)

For students who graduate in 2010 or later, the following minimum high school courses (units) are required:

- English: 4 years (units)
- Mathematics: 4 years (units)
- Natural Science: 3 years (units), 2 of which must be lab-based
- Social Studies: 3 years (units), 1 of which must be United States or world history
- Foreign Language: 1 year (unit), must be in a single language
- Academic Electives: 2 years (units)

**Admission Consideration**

Priority consideration for general admission is given to applicants who have fulfilled all HEAR requirements if applicable, rank in the top 30 percent of their high school graduating class and present a composite score of 21 or higher on the ACT or a combined score of 950 or higher on the SAT. Applicants must have an admission index score of at least 93.
Bachelor of Arts or Science to Medical Doctor (BA/BS-MD) applicants must apply for freshman admission as outlined below AND complete a supplemental application form and submit all required fees, documents and credentials by the published deadline date. Intended for highly qualified students from diverse backgrounds, the BA/BS-MD program offers a limited number of "reserved" positions at the University of Colorado School of Medicine. For additional information, visit http://babsmd.ucdenver.edu.

Business applicants will receive priority consideration if they graduated in the top 25 percent of their high school class and achieved a composite score of at least 26 on the ACT or 1100 on the SAT. Applicants who do not meet the admission requirements for direct admission to the Business School will be automatically considered for admission as prebusiness majors in the College of Liberal Arts and Sciences. For business admission, applicants must have an admission index score of 103.

Engineering applicants will receive priority consideration if they graduated in the top 25 percent of their high school class and achieved a composite score of at least 26 on the ACT with 28 on the mathematics section, or 1100 total on the SAT with 600 on the mathematics section. Applicants who do not meet the admissions requirements for direct admission to the College of Engineering will be automatically considered for admission as preengineering majors in the College of Liberal Arts and Sciences. For engineering admission, applicants must have an admission index score of 103.

Music applicants in the College of Arts & Media (except music industry studies) are expected to have had previous experience in an applied music area. An audition is required, but can be deferred for students in the MIS track. In addition, students may apply only for fall semester and other application requirements as outlined on the music department Web site should be completed as quickly as possible and no later than the published deadline date. Admission to the music major is selective, and qualified applicants are pooled and reviewed by an admissions committee. Interested students should contact the Department of Music at 303-556-3480 for audition and other application information.

Applicants for all departments who do not satisfy the requirements for priority consideration are reviewed on an individual basis.

How to Apply

1. Students are encouraged to apply online at www.ucdenver.edu/admissions or obtain an application for undergraduate admission from a Colorado high school counselor, from the Denver Campus Office of Admissions in-person or by calling 303-556-2704, or at www.ucdenver.edu/admissions.
2. The application must be completed and sent to the Office of Admissions with a $50 (subject to change) nonrefundable fee (check or money order only). For applicants who are granted admission but are unable to enroll for that term, the $50 application fee will remain valid for 12 months, provided the Office of
Admissions is informed of the intent to enroll for a later term and the student does not enroll at another college or university.

3. Students are required to have their high school send an official transcript of their high school grades, including class rank if available, to the Office of Admissions. Official transcripts are those sent by the issuing institution directly to: Office of Admissions, University of Colorado Denver, Campus Box 167, P.O. Box 173364, Denver, CO 80217-3364. Hand-carried or faxed copies are not official.

4. Students who did not graduate from high school are required to have a copy of their GED test scores and GED certificate sent directly from the certifying agency to the Denver Campus Office of Admissions. Official high school transcripts must also be submitted but are not the basis of an admission decision.

5. Students are required to take either the ACT or the SAT and request that test scores be sent to the Denver Campus (ACT code 0533, SAT code 4875). High school students may obtain ACT and SAT test dates and locations from their counselors. Students who took one of these tests while in high school may use the test scores reported on their official high school transcripts as an official test score report. Applicants who took one of these tests and did not designate UC Denver as the recipient of the scores must notify the testing agency to send scores to the Denver Campus. A request for additional score reports may be requested from any of the offices listed below.

American College Testing Program (ACT)
P.O. Box 168
Iowa City, Iowa 52243
319-337-1270
www.ACT.org school code: 0533

The College Board (SAT)
P.O. Box 025505
Miami, FL 331022
866-756-7346
www.collegeboard.com school code: 4875

6. Students who completed college course work while in high school must submit an official transcript from each college or university attended.

7. International students must submit an international student application for admission, $75.00 application fee, and provide additional documentation (see the Information for International Students section of this catalog for more information).

**Freshmen Housing Requirement**
First-time freshmen under age 20 not living at home with parents or otherwise receiving a housing exemption are required to live in Campus Village Apartments. See Student Housing in the Campus Life section of this catalog for additional information.

After Admission - Advising and Enrollment

Several months before the start of each semester, freshmen accepted for admission to the university will receive information about activating their official University of Colorado Denver e-mail accounts, receiving required academic advising, attending freshmen orientation and timelines and procedures for course registration. For best course availability, students should attend orientation/and or advising sessions to receive required advisor approval and register for courses as early as possible.

Applicants Not Granted Admission

An applicant who is not granted admission as an entering freshman may wish to consider transferring to the university after successful study elsewhere. To be considered for transfer student admission, such students must complete from one full semester (13 minimum semester hours) to one year (30 minimum semester hours) of college-level course work at another college or university. Students should select courses that will provide sound academic preparation for future transfer.

Freshman students who are not admissible will be encouraged to participate in a partners program that UC Denver has established with Colorado community colleges.

All credentials presented for admission become the property of the University of Colorado and must remain on file.

*Students who knowingly falsify transcripts or test scores or who fail to indicate all previously attended institutions will be denied admission to, or will be disenrolled from, the university.*

Admission Requirements for Transfer Students

Applicants are considered as transfer students for admission purposes if they have completed any number of college courses since graduating from high school or earning a GED. Applicants with any number of college courses taken only prior to high school graduation are considered as freshmen for admission purposes and should consult the Admission Requirements for Freshmen section. College courses taken before high school graduation can be considered for transfer to the Denver Campus.

Students with 12 or fewer semester hours of completed college-level course work* at the time of application are considered for admission based on high school GPA, high school courses/units completed, rank in class, ACT or SAT scores and college or university GPA.
Students with 13 to 29 semester hours of completed college-level course work* at the time of application are considered for admission based primarily upon performance in college courses, but high school transcripts are still required. ACT or SAT scores are desirable, but not required. Students who graduated from high school in 2008 are later are subject to HEAR requirements as outlined in the Admission Requirements for Freshmen section. HEAR unit deficiencies may be made up with certain college courses.

Students with 30 or more semester hours of completed college-level course work* at the time of application are considered for admission based upon college course work alone and are not subject to HEAR requirements. High school records and ACT or SAT scores are not required.

*Includes only semester credit hours completed after graduation from high school or completion of a GED.

Admission Criteria by Academic Program

College of Arts & Media, College of Liberal Arts and Sciences and School of Public Affairs (Criminal Justice). A minimum 2.4 cumulative GPA is required, but anyone with at least a 2.0 cumulative GPA may be considered. Music majors are considered for fall semester only, have a required audition (applicants for music industry studies may request a deferment), and additional application requirements which must be completed by the Department of Music deadline. (Visit http://cam.ucdenver.edu/meis.) Admission to the music major is selective and qualified applicants are pooled and reviewed by an admissions committee.

Business School. Students must have a 3.0 cumulative GPA on at least 24 semester hours that apply to the business degree program, or a 3.0 in the 24 most recent semester hours that apply to the business degree program. Students with at least a 2.6 cumulative GPA are considered on an individual basis. Students with fewer than 80 college credits who are not offered admission to the Business School will be automatically considered for prebusiness admission in the College of Liberal Arts and Sciences.

College of Engineering and Applied Sciences. A full year of college calculus and calculus-based physics or calculus-based physics I and general college chemistry I must be completed with B or better grades. Grades of B are required in all other math and science courses and the cumulative GPA must be at least 2.75. Students meeting most, but not all of these standards are fully considered. Students with fewer than 80 college credits who are not offered admission to the College of Engineering and Applied Science will be automatically considered for preengineering admission in the College of Liberal Arts and Sciences.
All Students. The cumulative GPA is calculated as or converted to a 4.0 scale and will include all college or university course work attempted at any regionally accredited institution of higher education or comparable foreign institution.

How to Apply

1. Submit the online application for undergraduate admission, available at www.ucdenver.edu/admissions (preferred), or obtain a paper application for admission form from the Office of Admissions at 303-556-2704 or admissions@ucdenver.edu.

2. Complete and return the application along with the required nonrefundable $50 application fee (check or money order only). If applying online, mail the application fee directly to the Office of Admissions according to Web instructions.

3. Request that one official transcript be sent directly from each college or university attended, including foreign institutions, directly to the Denver Campus Office of Admissions. Transcripts are considered official only if received in this manner. If not in English, a certified English translation must accompany each official transcript. Official transcripts should be sent to:

   Office of Admissions
   University of Colorado Denver
   Campus Box 167
   P.O. Box 173364
   Denver, CO 80217-3364

4. If you have completed fewer than 13 college-level semester hours at the time of application, also submit official high school transcripts, GED scores if applicable and ACT or SAT scores. ACT or SAT scores recorded on the high school transcript are considered official.

5. If you have completed between 13 and 29 college-level semester hours at the time of application, also submit official high school transcripts and GED scores if applicable.

If a student is enrolled at a college or university at the time of application, official transcripts showing course work completed to date should be sent as indicated above. One official final transcript must also be requested by the student and sent directly to the Office of Admissions when grades are recorded after the student's final semester.

All credentials presented for admission consideration become the property of the University of Colorado and will not be copied for or returned to the student.

The University of Colorado Denver reserves the right to deny admission to transfer students not deemed to have completed college-level course work at the sending institution and/or those who are not eligible to return to their previous college or university campuses.
Students who knowingly falsify transcripts or test scores or who fail to indicate all previously attended institutions will be denied admission to, or will be disenrolled from, the university.

After Admission - Advising and Enrollment

Accepted transfer students who have submitted official transcripts will receive a credit evaluation which will include advising office contact information. Students should schedule an advising appointment or contact their advisor for assistance with applying transfer credits to degree requirements. Advisor approval is required for new students prior to registering for UC Denver courses.

Several months before classes begin, additional enrollment information will be provided. For best course availability, students are encouraged to register for courses as early as possible. If admitted for fall or spring semester, students will receive an invitation for the new student welcome program from the orientation office.

Transfer of College-Level Credit

Courses are considered for transfer on the basis of having similar content to those offered by UC Denver. State of Colorado guaranteed transfer courses (gtPATHWAYS) are always accepted and apply to requirements. Developmental, remedial, vocational, technical, religious doctrinal, orientation, independent study, special topics and cooperative education courses are not accepted. Only courses in which a grade of C- or better (1.7) was earned are considered for transfer. Courses in which a grade of Pass (P) was earned are considered for transfer only if a grade of Pass at the sending institution is defined as a C- or better. Students wishing to appeal transfer credit decisions should contact their academic department.

After all official transcripts have been received and the student is admitted as a degree-seeking student, the Office of Admissions will prepare a transfer credit report indicating which courses have been accepted in transfer by UC Denver. A copy of this report is provided to the student as well as to the student’s academic department on the Denver Campus. Upon receipt of this transfer credit report, students should contact their academic department to meet with an advisor, who will determine how transferred credit applies to specific degree requirements. Transfer credit evaluations are valid only for programs offered entirely at the Denver Campus.

The Office of Admissions considers course work for transfer regardless of the age of the academic credit. State guaranteed general education courses will be accepted in transfer and applied to graduation requirements for a period of at least 10 years after course completion. Individual departments, however, may have specific guidelines and policies about age of credit for courses not listed as “state guaranteed” and make the final decision about application of credit toward a degree program. Students are expected to have current working knowledge of prerequisite courses, regardless of when prerequisite courses were taken.
The Business School generally limits its transfer of business course credits to those that are offered as lower-division courses at the Denver Campus. Students who have taken upper-division business courses from an American Assembly of Collegiate Schools of Business accredited business program may request review of these courses for possible transfer by contacting the Business School advising office. All courses taken in the business area of emphasis must be completed at the Denver Campus.

The College of Engineering and Applied Science, in general, requires that engineering course transfer credit must come from an Accreditation Board for Engineering and Technology accredited engineering program to be acceptable for degree purposes. Engineering technology courses are not considered equivalent to engineering courses.

A maximum of 60 semester hours is acceptable in transfer from community or junior colleges. A maximum of 90 semester hours is acceptable from four-year institutions or a combination of two- and four-year institutions.

**Colorado Community College Transfer**

In compliance with Colorado’s Statewide Transfer Policy, students may transfer credit from a Colorado community college on a course-by-course basis or by completing an associate of arts (AA) or associate of science (AS) degree. Students who complete an AA/AS degree may be guaranteed full transfer of the associate degree (60 credits maximum).

The guaranteed transfer program applies only to students who began Colorado community college studies in fall 2003 or later and who meet the following requirements:

- complete an AA/AS degree, which includes 31 credits of state-guaranteed general education courses
- earn credit only at Colorado community colleges within the last 10 years
- earn a grade of C- or better in each course

Statewide articulation agreements are in place governing transfer of students from Colorado community colleges into programs in the Business School, the College of Engineering and Applied Science and the elementary education teacher licensure program.

Transfer advising plans for Colorado Community College students are available from the Office of Admissions and at [www.ucdenver.edu/admissions](http://www.ucdenver.edu/admissions). In addition, an admissions representative can assist students with planning a transfer program. Representatives regularly visit Colorado community colleges. Call the Office of Admissions at 303-556-2704 or e-mail admissions@ucdenver.edu for additional information.

**Advanced Placement Program**

The Advanced Placement Program of the College Entrance Examination Board (CEEB) allows students to take advanced work while in high school and then be examined for credit at the college level. Students who take advanced placement courses and
subsequently receive scores of 4 or 5 on the CEEB Advanced Placement Examination are generally given college credit for lower-level courses in which they have demonstrated proficiency. Credit is also granted for scores of 3 plus a course grade of A or A- in the corresponding subject. For more information, contact your academic advisor and click on the following chart. Original, official score reports are required for credit award consideration.

**Advanced Placement Program Requirements (AP) chart**

### Advanced Placement (AP)

Credit award and course equivalency information listed in this table applies only to degree programs completed entirely at the Downtown Campus. Health programs at the Anschutz Medical Campus have different credit award policies; visit [www.ucdenver.edu](http://www.ucdenver.edu) and/or contact the program office directly for additional information.

Note 1: An AP exam score of 3 requires a minimum grade of A in the second semester of the high school AP course for credit to be awarded.

Note 2: Students may take the corresponding UC Denver laboratory course to meet a lab science core curriculum or major requirement. See the academic department for additional information.

Note 3: Students must meet the major department’s laboratory proficiency standards before enrolling in additional laboratory courses. See the academic department for additional information.

Note 4: Computer science majors who demonstrate proficiency in C++ programming will receive credit that substitutes for C SC 1410. Business majors will receive credit that substitutes for ISMG 2200.
Note 5: Computer science majors who demonstrate proficiency in C++ programming will receive credit that substitutes for CS 1410 and CS 2421. Business majors will receive credit that substitutes for ISMG 2200 and three elective credits.

Note 6: Students must pass a proficiency exam before enrolling in PMUS 1200. Contact CAMadvising@ucdenver.edu for information.

*Duplicate credit for exams and/or college courses with similar content is not awarded.

**College-Level Examination Program**

Incoming students may earn university credit by examination in some subject areas in which they have demonstrated college-level proficiency. Interested students may take approved examinations through the College-Level Examination Program (CLEP) of the College Entrance Examination Board (CEEB) testing service.

Acceptable CLEP examinations and credit awards are outlined in the following chart. Original, official CLEP score reports are required for credit award consideration.

International Baccalaureate Diploma Program

The International Baccalaureate Diploma Program (IB), available at select high schools, is a rigorous, pre-university course of study emphasizing liberal arts from an international perspective.

In accordance with HB 03-1108, the University of Colorado Denver will grant at minimum 24 semester hours of credit for any student who has graduated from high school having successfully completed an International Baccalaureate diploma program with a minimum score of 4 on each exam. Credit may be granted for most individual IB courses where examinations are completed with at least a score of 4 for students who do not complete an IB diploma program. For additional information, students should contact their academic advisors and refer to the following chart. Original, official IB transcripts with exam scores are required for credit award consideration.

International Baccalaureate (IB) chart

### International Baccalaureate (IB)

(minimum of 24 credit hours awarded with IB diploma and a score of 4 on each exam)

Credit award and course equivalency information listed in this table applies only to degree programs completed entirely at the Downtown Campus. Health programs at the Anschutz Medical Campus have different credit award policies; visit [www.ucdenver.edu/academics](http://www.ucdenver.edu/academics) and/or contact the program office directly for additional information.

**Military Service and Schooling**

To have credit for educational experience evaluated, applicants with military experience should submit the Smart Transcript. Credit will be awarded as recommended by the Commission on the Accreditation of Service Experiences of the American Council on Education, to the extent that the credit is applicable to the degree the student is seeking at UC Denver.

Credit for courses completed through the U.S. Armed Forces Institute will be evaluated on the same basis as transfer credit from collegiate institutions.

**Reserve Officers’ Training Corps (ROTC)**

Students enrolled in Army, Air Force or Navy ROTC programs should consult with their college or school regarding the application of ROTC course credit toward graduation requirements. For information about ROTC programs, click on the links below.

NASA astronaut alumni

**Aerospace Studies**

U.S. Air Force ROTC offers several programs leading to a commission in the U.S. Air Force upon receipt of at least a baccalaureate degree.

**Standard Four-Year Program**

This standard program is designed for incoming freshmen, or any student with four years remaining until degree completion. It consists of three parts: the general military course for lower-division students (normally freshmen and sophomores); the professional officer course for upper-division students (normally juniors and seniors); and leadership laboratory (attended by all cadets). Completion of a four-week summer training course is required prior to commissioning.

**Modified Two-Year Program**

All undergraduate and graduate students are eligible for these programs. They are offered to full-time, regularly enrolled degree students and require at least two years of full-time college (undergraduate or graduate level, or a combination). Those selected for this program must complete a six-week field training program during the summer months as a prerequisite for entry into the professional officer course the following fall semester.
Leadership Laboratory

All AFROTC cadets must attend leadership laboratory (two hours per week). The laboratory involves a study of Air Force customs and courtesies, drill and ceremonies, career opportunities and the life and work of an Air Force junior officer.

Other AFROTC Programs

Other programs are frequently available based on current Air Force needs. Any AFROTC staff member in Boulder (303-492-8351) can discuss best alternatives. Interested students should make initial contact as early as possible, as selection is on a competitive basis. There is no obligation until a formal contract is entered.

Air Force College Scholarship Program

A scholarship board is held at the end of each semester for students who have at least one semester of full-time college credit and a 2.5 GPA. Students selected for this program are placed on scholarships that pay tuition, book allowance, nonrefundable educational fees, and subsistence of $300–$500 per month, tax-free. These scholarships are available in all academic disciplines and are two to three years in length. All cadets enrolled in the professional officer course receive $450–$500 per month subsistence during the regular academic year.

Flight Opportunities

Prior to entering the fourth year of the AFROTC program, qualified AFROTC students can compete for pilot and navigator allocations. Cadets receiving a pilot or navigator allocation will begin flight training after completion of their degree and commissioning as a second lieutenant. All cadets are eligible to fly with the Civil Air Patrol while enrolled in AFROTC.

USAF Nursing Programs

Qualified nursing students can compete for nursing scholarships. This scholarship can lead to a rewarding career as an Air Force officer, serving as a doctor or nurse. The prehealth scholarship pays for an undergraduate degree and medical school.

AFROTC Course Credit

AFROTC credit for graduation varies with each college. Students should contact the appropriate college for determination of credit.

Registration

The AFROTC program is offered through the University of Colorado-Boulder. Students at the UC Denver Downtown Campus may register for AFROTC classes through the
concurrent registration process. Contact your dean’s office for the appropriate forms. AFROTC classes begin with the AIRR prefix.

Military Science

Army ROTC is an elective program that can lead to a commission as an officer in the active Army, the Army Reserve or the Army National Guard. All Army ROTC classes are offered at UC Denver for freshmen, sophomores and juniors, at the University of Colorado at Boulder (UCB) and at Colorado School of Mines (CSM). Students interested in Army ROTC classes should contact the Department of Military Science at UC Denver. The Department of Military Science offers two programs for students.

Standard Four-Year Program

The four-year program consists of two phases: the basic course (freshman and sophomore years) and the advanced course (junior and senior years).

Basic

The basic course offers a 2- or 3-semester-hour class each semester covering Army history and organization as well as military leadership and management. Laboratory sessions provide the
opportunity to apply leadership skills while learning basic military skills. Enrollment in the basic course incurs no military obligation except for Army scholarship recipients.

Advanced

The advanced course covers leadership, tactics and unit operations, training techniques, military law and professional ethics, and includes a leadership practicum each semester. A 35-day summer advanced camp at Fort Lewis, Washington, provides challenging leadership training and is a prerequisite for commissioning. The advanced course students must have completed the basic course and obtain permission from the professor of military science.

Two-Year Program

The two-year program for academic juniors and graduate students consists of the advanced course, preceded by a four-week summer ROTC basic course at Fort Knox, Kentucky. Veterans or students who have participated in three years of Junior ROTC or Civil Air Patrol may be eligible to enroll in the advanced course without attendance at basic camp or completion of the basic course. Inquiries on advanced placement should be directed to the Department of Military Science. The advanced course students must obtain permission from the professor of military science.

Scholarship Programs

Four-year college scholarships are available to high school seniors, who should apply before December 1 of their senior year. Competition for two- and three-year scholarships is open to all University of Colorado students whether or not they are currently enrolled in ROTC. Scholarship students receive full tuition and laboratory fees, a $1,200 per-year book allowance and an allowance of $350-$500 per month during the academic year. Students interested in the scholarship program should contact the enrollment officer no later than the beginning of the spring semester to apply for the following academic year. Contact the enrollment and scholarship officer at 303-492-3549 or armyrotc@colorado.edu.

Activities and Leadership Laboratories

Students may participate in activities with the Buffalo Battalion’s Charlie Company located on the Auraria Campus, to include color guard, intramural sports, running club and ranger challenge. Weekly or Saturday leadership labs provide cadets with practical leadership experience and performance-oriented, hands-on instruction outside the classroom. Leadership labs are compulsory for enrolled cadets. PT is conducted three times a week with the purpose of developing muscular strength, endurance and cardio-respiratory endurance.

Army Nursing Program

Qualified nursing students can compete for nursing scholarships. This scholarship can lead to a rewarding career as an Army Nurse Corps officer. Contact the Army ROTC enrollment officer at 303-492-3549 for information and benefits.
Registration

Students who wish to register for Army ROTC classes sign up for them through the normal course registration process. AROTC classes begin with the MILR prefix. For more information about Army ROTC, contact the Department of Military Science office, which is conveniently located in the CCD Administration Building at South Classroom Building, Room 213 A/B, Auraria Campus, 303-352-7079.

Courses

- **MILR 1011 - Adventures in Leadership**  
  *Summer 2010 Registration: MILR 1011*

  **MILR 1011 - Adventures in Leadership**

  *Summer 2010 Registration MILR 1011*

  Introduces fundamentals of leadership and the U.S. Army. Examines Army organization, customs and history as well as its current relevance and purpose. Students also investigate basic leadership and management skills necessary to be successful in both military and civilian settings. Includes fundamentals of Army leadership doctrine, team-building concepts, cartography, marksmanship and basic military tactics. Note: lab fee, 3 hour lecture, 2 hour lab, 3 hours of PT per week and 80 hours of field training. **Semester Hours:** 2 to 2

  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **MILR 1021 - Adventures in Leadership II**  
  *Summer 2010 Registration: MILR 1021*

  **MILR 1021 - Adventures in Leadership II**

  *Summer 2010 Registration MILR 1021*

  Covers selected leadership topics in small military organizations such as troop leading procedures, military first aid and casualty evacuation concepts, ethical work climates, Army organizations and installations, and basic military tactics. Introduces students to effective military writing styles. Note: Lab fee. 2 hour lecture, 2 hours lab, and 3 hours PT per week. 80 hours field training. Prereq: Milr 1011. **Semester Hours:** 2 to 2

  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **MILR 2031 - Leadership and Management I**  
  *Summer 2010 Registration: MILR 2031*

  **MILR 2031 - Leadership and Management I**

  *Summer 2010 Registration MILR 2031*
Comprehensively reviews advanced leadership and management concepts including motivation, attitudes, communication skills, problem solving, human needs and behavior and leadership self development. Students continue to refine effective written and oral communication skills and to explore topics such as unit light infantry tactics and are prepared to perform as midlevel leaders in the cadet organization. Note: lab fee, 3 hour lecture, 2 hour lab, 3 hours of PT per week and 80 hours of field training. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

- **MILR 2041 - Leadership and Management II**  
  **Summer 2010 Registration:** MILR 2041

  Focuses on leadership and management functions in military and corporate environments. Covers various components of Army leadership, risk management and planning theory, and leadership evaluation. Continues to refine written and oral communication skills. Note: Lab fee. 3 hour lecture, 2 hours lab, and 3 hours PT per week. 80 hours field training. Prereq: MILR 2031. **Semester Hours:** 3 to 3

  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **MILR 3052 - Operations and Training I**  
  **Summer 2010 Registration:** MILR 3052

  Further explores the theory of managing and leading small military units at the squad platoon levels. Students examine leadership styles and techniques related to advanced small unit tactics. Familiarizes students cartography, land navigation, field craft and weapons systems. Involves multiple, evaluated leadership opportunities in field settings and hands-on experience with actual military equipment. Students are given maximum leadership opportunities in weekly labs. Note: lab fee, 3 hour lecture, 2 hour lab, 3 hours of PT per week and 80 hours of field training. Prereq: permission of professor of Military Science. **Semester Hours:** 3 to 3

  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **MILR 3062 - Leadership and Development II**  
  **Summer 2010 Registration:** MILR 3062
Focuses on managing personnel and resources, military decision making, operations order, and oral communication. Exposes students to tactical unit leadership in preparation for the summer advance camp experience. Note: Lab fee. 3 hour lecture, 2 hours lab, and 3 hours PT per week. 80 hours field training. Prereq: Consent of the Professor of Military Science, MILR 3052. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

- **MILR 4072 - Officer Leadership I**  
  *Summer 2010 Registration: MILR 4072*

  **MILR 4072 - Officer Leadership I**

  *Summer 2010 Registration MILR 4072*

  Examine management and leadership concepts and techniques at company and higher echelons. Includes analyses of professional ethics, effective training procedures, subordinate counseling and staff officer briefing techniques. Also investigates counter-terrorism, modern peacekeeping missions and the impact of the information revolution on the art of land warfare. Conducted with multiple practical leadership opportunities to organize cadet training and activities. Note: lab fee, 3 hour lecture, 2 hour lab, 3 hours of PT per week and 80 hours of field training. Prereq: permission of professor of Military Science. **Semester Hours:** 3 to 3

  Registration is changing. Visit our website for details ucdenver.edu/registration.

Additional Information
Four- to nine-semester full-tuition scholarships are available for incoming and current freshmen and sophomores who wish to commission as officers within the United States Navy or Marine Corps. More information available at www.nrotc.navy.mil

**Naval Studies**

U.S. Naval ROTC provides several programs all leading to a commission in the U.S. Navy or U.S. Marine Corps upon receipt of a baccalaureate degree.

**Standard Four-Year Program**

Incoming freshmen can receive full tuition funding (8 semesters) for their undergraduate education. This is the “normal” pathway by which students enter the program. Applications need to be completed online via the national NROTC Web site (www.nrotc.navy.mil) well before the student matriculates, typically the January prior to fall admission. Students are highly encouraged to apply early. Scholarships are awarded based on high school GPA, ACT/SAT scores and extracurricular activity levels. Students interested in engineering or nursing degrees may be eligible for up to nine semesters of funding. If interested in nursing, please contact the recruiting officer for more detail.

**Two-Year Program**

Students can apply for a four-semester scholarship in the spring semester of their sophomore year. Scholarships are awarded based on college GPA, personal interview and recommendation by the NROTC unit. Please contact the recruiting officer for more information.

**College Program**

The main prerequisite for joining the NROTC unit is that the student is currently admitted to UC Denver. Anyone in this status has a very good chance of being allowed to participate with the NROTC unit in a nonscholarship (a.k.a. college program) status, and to eventually commission as an officer in the U.S. Navy or Marine Corps. After participating in the NROTC unit in a nonscholarship status for at least one semester, the NROTC unit may recommend that students be considered for a full-tuition scholarship. A scholarship board is held at the end of each semester for these students. Chances for being awarded a full-tuition scholarship for as many as seven semesters are very good if the student has a cumulative college GPA of 3.0 or higher. High school GPA and ACT/SAT scores are not considered in the scholarship selection process. This is a great opportunity for students who either missed the deadline for applying to NROTC, who are already in college or who perhaps didn’t perform well enough in high school to earn a scholarship through the standard four-year program.

**NROTC Course Credit**
NROTC credit for graduation varies with each college. Students should contact the appropriate college for determination of credit.

Registration

The NROTC program is offered through the University of Colorado-Boulder. Students at the UC Denver Downtown Campus may register for NROTC classes through the concurrent registration process. Contact your dean’s office for the appropriate forms. NROTC classes begin with the NAVR prefix.

Intra-University Transfer

Students on the Denver Campus may change colleges or schools within the university provided they are accepted by the college or school to which they wish to transfer. Intra-university transfer forms may be obtained from the student’s school or college or from the Office of the Registrar. Decisions on intra-university transfers are made by the college or school to which the student wishes to transfer.

Students in continuing and professional studies programs wishing to enroll in regular courses or degree programs on the Denver Campus should contact the Office of Admissions for a degree application.

Readmission Requirements for Former Students

UC Denver students who have not registered and attended classes on the Denver Campus for one year or longer and who have not attended another institution since the University of Colorado are considered returning students and must formally apply for readmission. An additional application fee is only required if changing from undergraduate to graduate or nondegree to degree status, or if a degree was earned and the student is applying for a second degree. Application forms are available at the Office of Admissions and at www.ucdenver.edu/admissions.

Students who have attended another college or university since last attending the University of Colorado must apply as transfer students and meet the admission criteria and transfer student deadlines for receipt of documents. This requires payment of the $50 (subject to change) nonrefundable application fee and submission of one official transcript from each college or university attended since last enrollment at UC Denver. Transcripts must be sent directly from the issuing institution to:

Office of Admissions
University of Colorado Denver
Campus Box 167
P. O. Box 173364
Denver, CO 80217-3364

Students who last attended another University of Colorado campus must formally apply for admission and meet the admission criteria of the Denver Campus. An application fee is not required unless going from undergraduate to graduate status, from nondegree to
degree status or if a degree was earned. Students may apply online or request an
application from the Office of Admissions at www.ucdenver.edu/admissions. University
of Colorado transcripts are not required, but official transcripts from each college or
university attended prior to enrollment at the University of Colorado must be submitted.

Admission of Nondegree Students
Persons who have reached the age of 20 and who want to take university courses, but
do not plan to work toward a University of Colorado degree, may be admitted as
nondegree students provided they are eligible to return to all collegiate institutions
previously attended. A 2.0 cumulative GPA for all institutions attended is required to be a
nondegree student. Questions regarding admission as a nondegree student should be
directed to the Office of Admissions. Each school/college limits the number of semester
hours taken as a nondegree student that may be transferred to a degree program.

Students considering changing from nondegree to degree status will need to apply as an
undergraduate or graduate degree seeking student and meet the admission
requirements of the intended program of study. Students under age 22 will be required
to submit high school transcripts and ACT/SAT scores in addition to official college
transcripts from each institution attended, regardless of the number of credit hours
completed.

Note: International students are not admitted as nondegree students.

Financial Implications for Nondegree students
Students with a baccalaureate degree who are admitted as nondegree students will be
classified as nondegree graduate students and assessed graduate tuition regardless of
the level of courses taken. If enrolling only in undergraduate courses, an adjustment may
be requested through the Office of the Registrar to pay the undergraduate tuition rate.
However, the Colorado Opportunity Fund (COF) is not available to in-state nondegree
graduate students. To utilize COF and pay the lowest tuition rate, students must apply
as undergraduate degree-seeking students, even if a degree is not desired.

Nondegree students are not eligible to receive federal or state financial aid, student
loans and most UC Denver scholarships.

How to Apply
To apply for admission as a nondegree student, obtain a nondegree student application
form from the Office of Admissions or submit one via the Web. Return the completed
application by the deadline for the term desired. A $25 (subject to change)
nonrefundable application fee is required. No additional credentials are required.
Nondegree students are advised that registration for courses is on a space-available
basis, and that admission as a nondegree student does not assure availability of specific
courses.
Continuation as a nondegree student with no prior undergraduate degree is contingent upon maintaining an overall GPA of 2.0 upon completion of 12 or more semester hours.

**Admission of Students Seeking a Second Undergraduate Degree**

Students who already hold a bachelor’s degree may apply for admission to a program in which they can earn a second undergraduate degree. Applicants for a second undergraduate degree must meet UC Denver admissions standards. These students may apply to the College of Arts & Media, College of Engineering and Applied Science, College of Liberal Arts and Sciences or the School of Public Affairs. Persons who already hold an undergraduate degree in any discipline generally may not apply for a second undergraduate degree in business. Rather, they should apply to a graduate MBA or MS business program. Contact the Business School at 303-556-5900 for additional information.

**How to Apply**

1. Apply online or request an application for undergraduate admission from the Office of Admissions at [www.ucdenver.edu/admissions](http://www.ucdenver.edu/admissions).
2. Complete the application and send it to the Office of Admissions with a $50 (subject to change) nonrefundable application fee.
3. Have one official transcript sent to the Office of Admissions from each collegiate institution attended. Official transcripts for enrollment at any campus of the University of Colorado are not required. Official transcripts are those sent by the issuing institution directly to:
   Office of Admissions
   University of Colorado Denver
   Campus Box 167
   P.O. Box 173364
   Denver, CO 80217-3364
   *Hand-carried or faxed copies are not official.*

Transcripts from the institution where the first undergraduate degree was earned must have final grades posted for the semester that the student graduated and have the official notation of the degree awarded.

All credentials presented for admission become the property of the University of Colorado and must remain on file. Students who do not declare all previously attended institutions are subject to disciplinary action and/or dismissal.

*Students who knowingly falsify transcripts or test scores will be denied admission to, or will be disenrolled from, the university.*

**High School Postsecondary and Concurrent Enrollment**
High school juniors and seniors with demonstrated academic abilities may be admitted to UC Denver with special approval for one term only. This approval may be renewed. Credit for courses taken may subsequently be applied toward a university degree program. For more information and application instructions, contact the Office of Admissions, 303-556-6745 or admissions@ucdenver.edu.

Admission Requirements for International Students
The University of Colorado Denver is proud to have a diverse population of international students coming from more than 100 countries. Instructions for international student admissions are available in the Information for International Students section of this catalog. International application forms are accessible on the international admissions Web site at www.internationaladmissions.ucdenver.edu.

New Student Orientation
A welcome and general information program open to all new students is held at the beginning of the fall and spring semesters. The program provides an introduction to the campus, information about student services and student activities available through UC Denver and services provided to all students on the Auraria Campus, including information on getting an ID and parking.

New freshmen will also receive information regarding academic advising and specific orientation sessions for students and parents, which are held at various times during the year. Transfer and graduate students should contact their schools and colleges for additional information on academic advising, as well as special orientation sessions that may be held for a particular program.

Orientation information is sent to admitted students from the orientation office. For more information, call 303-352-3520 or visit North Classroom, 2024.

Four-Year Graduation Guarantee
The University of Colorado Denver has adopted a set of guidelines to define the conditions under which an undergraduate student will be guaranteed to graduate in four years. More information is available through the undergraduate advising offices for each college and the major program offices. The Denver Campus has five undergraduate colleges in which this guarantee applies: College of Arts & Media, Business School, College of Engineering and Applied Science, College of Liberal Arts and Sciences and School of Public Affairs.

UC Denver’s Denver Campus guarantees that if a student begins studies in a fall semester and lack of scheduling of essential courses is found to have prevented a student from completing all course work necessary for a BA, BFA or BS degree from the university by the end of the student’s eighth consecutive fall and spring semester, the college/school shall provide tuition plus any course fees for all courses required for completion of the degree requirements. This applies only when needed courses are not offered by the college/school and does not apply to scheduling conflicts for individual
students. **Students must satisfy all the requirements described below to be eligible for this guarantee.**

This guarantee applies to all students who enroll beginning in a fall term as first-semester, full-time freshmen without admission deficiencies, who do not need remedial course work and who satisfy all the requirements described below. This guarantee does not include completion of all options within the major, a second major, a double degree, a minor or a certificate program. The four-year graduation guarantee does not apply to programs in which the degree has been discontinued or is in the process of being phased out. In these cases, every effort will be made to allow students to fulfill requirements by taking courses at other universities and colleges to facilitate timely completion of the degree.

Some study abroad programs may not provide a sufficient range of courses to allow students to meet the requirements, thus, students who participate in study abroad programs during the fall or spring semesters may not be eligible for this guarantee. A student may be able to participate in a study abroad program during the summer semester and still meet all the requirements of this guarantee. It is essential that a student work closely with an advisor to determine if the student can participate in a study abroad program and still meet all the requirements of this guarantee.

**Requirements**

**Students must satisfy all of the following requirements to be eligible for this guarantee.**

1. **Students must begin studies in a fall semester and enroll in UC Denver course work as specified on the student plan of study for eight consecutive fall and spring semesters.**
2. **Students must complete all required course work by the end of the eighth semester.**
3. **No fewer than 60 semester hours of applicable course work must be completed successfully by the end of the second year (24 calendar months); 90 semester hours by the end of the third year (36 calendar months); and 120 semester hours by the end of the fourth year (48 calendar months). Students must successfully complete an average of 15 semester hours each semester.**
4. **Students must meet with their college advisor and their major advisor for academic advising during the first, third, fifth and seventh semesters of study.**
5. **The major must be declared no later than the end of the first semester of study and students must not change their major or any options within the major.**
6. **A required plan of study toward the major must be agreed upon and signed by the student and advisor at the end of the first semester. Thereafter students must make satisfactory progress toward completing the major, as defined by each major, and the general education requirements. Courses with certain grades may not meet the satisfactory progress requirement of this guarantee. A statement of**
what constitutes satisfactory progress and what grades are acceptable is available from the major or departmental office at the time the major is declared.

7. A minimum of 30 semester hours of college general education courses should be completed by the end of the second year, including core curriculum courses that also meet major requirements and foreign language proficiency.

8. All lower-division graduation requirements must be successfully completed by the 90-semester-hour mark.

9. Students must remain in good academic standing according to their school/college academic policies.

10. Grades of C-, C or C+, as defined by the college/school, must be earned in all course work required for the major, and students must have a cumulative GPA of 2.0 in all major course work attempted.

11. Students must register each semester within one week of the student’s specified eligibility to register.

12. Students must take courses that are specified in the student plan of study approved by their advisor.

13. Elective courses must be avoided if they conflict with required major or general education courses. Elective courses must not be given a higher priority than required courses.

14. Students must meet all departmental, school or college and university policies regarding graduation requirements.

15. The college/school must be notified in writing of the student’s intent to graduate no later than the beginning of the seventh semester of study. A graduation application must be filed no later than the deadline for the appropriate graduation date. The student must complete a graduation checkout/senior audit with their advisor.

16. The student is responsible for and must keep documentation proving that these requirements were satisfied (e.g., records of advising meetings attended, advising records and instructions, etc.).

Undergraduate Experiences

Assistant Vice Chancellor for Undergraduate Experiences: John Lanning, john.lanning@ucdenver.edu

Assistant to the AVC for Undergraduate Experiences: Nadine Montoya-Donoho, nadine.montoya@ucdenver.edu

Office: Lawrence Street Center, 300
Telephone: 303-315-2133
Fax: 303-315-5829
Web site: www.ucdenver.edu/ue

The Office of Undergraduate Experiences coordinates and implements undergraduate education programs to promote access for all undergraduate students to high-quality and innovative UC Denver programs, improve the recruitment and retention of
undergraduate students and coordinate programs between academic and student affairs to better serve and engage undergraduate students.

This includes coordination of programs that aim to improve the quality of undergraduate experiences.

- The core curriculum is an academic program of required general education courses that gives UC Denver students a quality educational foundation for a lifetime of success.
  - UC Denver Undergraduate Core and gtPATHWAYS Curriculum
- The Colorado Commission on Higher Education initiated the gtPATHWAYS program to ensure that students could transfer credit for core courses to any other higher education institution in the state.
- The University Honors and Leadership program combines leadership and scholar components to prepare students for the new challenges of the 21st century.
- The Experiential Learning Center coordinates internships and supports undergraduate research, interdisciplinary learning, e-portfolio support, civic engagement, etc. on the Downtown Campus.
- Early Alert assists students early in the semester who are having trouble adjusting personally or academically to their new environment.
- First-year seminars teach academic and study skills and ease the transition both socially and academically for incoming students.
- Living/learning communities involve combinations of courses, some of which take place in the residence halls, that focus around a single academic theme.
- Supplemental instruction is a peer-facilitated academic support program that targets historically difficult courses so as to improve student performance and retention.

Other responsibilities of this office include ensuring the quality of new undergraduate degree programs, promoting cross-college academic programs, training faculty and working in many other capacities to ensure that students have a positive and productive academic career at UC Denver.

University Honors and Leadership Program (UHL)

**Director:** Steven G. Medema  
**Assistant to the Director:** Susi Tattershall  
**Office:** 1047 Ninth Street Park  
**Telephone:** 303-556-5297  
**Fax:** 303-556-6744  
**E-mail:** UHL@ucdenver.edu  
**Web site:** www.ucdenver.edu/uhl

University Honors and Leadership (UHL) is a program of excellence designed for outstanding students who have demonstrated superior achievement in academic performance and/or outstanding leadership qualities. The program is founded on the
premise that the integration of rigorous programs of academic excellence and leadership education provides the ideal environment in which to develop the gifts of the next generation of leaders in academia, business, policymaking and service to communities local, national and global.

The UHL program is unique in integrating academic honors and leadership education within a highly selective learning community of outstanding students and faculty. The UHL program allows students to complement their major field of study with a traditional honors experience in the academic honors track or program of leadership education in the leadership studies track. Students move through the UHL program in cohorts that simultaneously promote community, teamwork and individual initiative. All of the UHL courses are multidisciplinary, reflecting our view that the ability to effectively analyze the challenges faced in all sectors of society can be enhanced by the integration of appropriate pieces drawn from a broad base of perspectives and problem-solving skills. The UHL program complements this with an emphasis on the development of exceptional oral and written communication skills, projects that steep the students in sophisticated research methods and the opportunity to work in teams to solve practical problems in the community.

The Academic Program

UHL is a multidisciplinary cohort program consisting of 27 semester hours of course work to be completed over four years. The UHL courses will substitute for most of the UC Denver general core curriculum requirements.

UHL students are given the opportunity to pursue a traditional honors experience through the academic honors track of the UHL program or to focus on leadership education through the UHL leadership studies track. UHL students have a common first-year experience, taking a core of course work common to both tracks. The second and third years of the UHL program offer programs designed specifically for the academic honors and leadership studies tracks. The UHL students come together for a two-semester capstone research seminar in the fourth year.

Students who successfully complete the academic honors track will receive a university honors designation on their diploma and on their university transcript. Students who successfully complete the leadership studies track will graduate with a minor in leadership studies.

Admission

Admission to the UHL program is competitive. In addition to meeting published requirements for admission to UC Denver, students must have a high school GPA, class ranking and SAT/ACT scores commensurate with an honors educational experience. For
example, we would expect that applicants would rank in the top ten percent of their high school class and/or have scored in the 90th percentile or above on the SAT/ACT.

Students who wish to be considered for admission to the UHL program must submit the following application materials:

- A completed UHL application form
- A written essay
- Three letters of recommendation
- High school transcripts and transcripts for all college-level work completed to date
- SAT and/or ACT scores

We require a personal interview with all students who are selected as finalists for admission.

Applicants for admission to the UHL program should show evidence of ability and desire to:

- take responsibility for their own learning, for self-discovery and for personal and intellectual growth.
- learn about and understand diverse, competing perspectives, viewpoints and values.
- profit from varied modes of learning.
- become responsible and contributing members of the UHL program, the university and society.

Application information can be found on the UHL Web site at www.ucdenver.edu/UHL.

**First-Year Seminars**

**Assistant Vice Chancellor for Undergraduate Experiences:** John Lanning, john.lanning@ucdenver.edu  
**Assistant to the AVC for Undergraduate Experiences:** Nadine Montoya-Donoho, nadine.montoya@ucdenver.edu  
**Office:** Lawrence Street Center, 300  
**Telephone:** 303-315-2133  
**Fax:** 303-315-5829  
**Web site:** www.ucdenver.edu/fye

UC Denver offers an optional program of First-Year Seminars (FYS) designed to assist students to successfully make the transition from high school to college, improve student retention and boost new student confidence. The FYS courses integrate rigorous academic content with academic skills such as library usage, campus resources, information literacy, time management, communication skills and career counseling. Class size is capped at 24 students to facilitate interaction between student and
instructor and to allow the instructor to serve as a mentor in the student's first semester of college.

An important objective of the FYS program is to both challenge and support so students can excel academically and socially at UC Denver. FYS classes engage students in active learning beyond the traditional classroom, laboratory or studio classes. In the FYS courses, students learn about themselves and their abilities. The experiences obtained from the FYS program aim to promote academic exploration and interdisciplinary learning, civic engagement, cultural awareness, leadership, problem solving and other professional skills.

Why should entering high school students participate in a First-Year Seminar course?

- higher first semester grades
- higher student satisfaction facilitated by small class size and a faculty mentor
- better utilization of campus resources paid for through student fees
- early exploration of career paths and a suitable major

The strong academic component of the UC Denver FYS courses allows the course to count toward graduation requirements in the UC Denver Core Curriculum, or general education program, required of all undergraduate students. Students are encouraged to use the FYS program to explore areas either within or outside their major. Students should work with their academic advisor during orientation to select an appropriate FYS course.

**Experiential Learning Center**

**Director:** Lissa Gallagher  
**Location:** Tivoli Student Union, Suite 260  
**Telephone:** 303-556-6656  
**Web site:** [www.ucdenver.edu/elc](http://www.ucdenver.edu/elc)

Experiential learning, broadly defined as hands-on learning, engages students in active learning beyond traditional lectures, discussions and laboratory exercises. Well-planned, supervised and evaluated learning experiences outside the classroom can stimulate academic inquiry while promoting interdisciplinary learning, civic engagement, career development, cultural awareness, leadership, problem solving and other professional and intellectual skills.

The Experiential Learning Center is committed to developing, expanding and promoting applied learning options for students. They support students, faculty and community partners by facilitating quality learning experiences that enhance the undergraduate experience.

**Early Alert Program**
The UC Denver Downtown Campus participates in a campuswide Early Alert program to identify undergraduate students needing assistance from academic and student service offices. Providing assistance early in the semester is very important to student success in their baccalaureate program.

The Early Alert program is designed for faculty to identify students in the fifth and sixth weeks of the semester who need assistance because of academic performance, class participation and/or behavior issues. Students who are identified by faculty for an alert are contacted by the advising office in the student's home college, and it is important for students to respond to Early Alert communication with their advisors. Assistance is then provided to students through academic advising and through referrals to appropriate UC Denver student service offices.

Goals of the early alert program are to:

- increase student academic success
- improve student persistence and graduation rates
- increase communication between students and faculty
- increase communication between students and academic advisors
- increase student utilization of student service offices

Further information about the UC Denver Early Alert program is available from the Office of Undergraduate Experiences, 303-315-2133, www.ucdenver.edu/earlyalert.

**UC Denver Undergraduate Core and gtPATHWAYS Curriculum**

View the UC Denver Undergraduate Core and gtPATHWAYS Curriculum table

**Core Curriculum**

All undergraduate students at UC Denver's Downtown Campus must complete a 34-to-38-semester-hour core curriculum of general education course work. The UC Denver core curriculum is specifically designed as the foundation for academic success for the baccalaureate degree as well as for a lifetime of success.

The undergraduate core curriculum is based on a philosophy of a liberal arts education. The phrase “liberal arts” originates from Latin roots *liber, “to be free,”* and *ars, “skill or ability to do something. “* Thus, a liberal arts education develops a set of skills to set one free. Course work in a traditional liberal arts education is designed to provide an understanding of ourselves, ours and other cultures and our environment.¹

The undergraduate core curriculum emphasizes intellectual competencies and provides optional choices to develop a skill base in the broad knowledge areas that make up the undergraduate curriculum. A detailed chart of faculty-approved core courses and college
core requirements is available at the following link: [UC Denver Undergraduate Core and gIPATHWAYS Curriculum Table](#).

The Core Curriculum Oversight Committee, composed of faculty in each undergraduate school and college, monitors the curriculum.

**Intellectual Competencies**

**English Composition (two courses)**

- English composition courses develop critical thinking, reading, writing, information literacy and research-based writing skills.

**Mathematics (one course)**

- Mathematics courses develop critical thinking, logic, quantitative reasoning and numerical relationships/patterns in behavioral/social and physical phenomena.

**Knowledge Areas**

**Arts and Humanities (two courses)**

- Arts courses develop creativity, self-expression, aesthetics and stimulation of thought. Topic areas include arts, fine arts, music, professional music and theatre.
- Humanities courses develop ethics and priorities, human experience and development, contemporary life issues and responsibilities and impacts of social actions. Topic areas include English literature, modern languages, history, philosophy and religious studies.

**Behavioral and Social Sciences (two courses)**

- Behavioral science courses develop an understanding of human behavior, communication and an analysis of human experience and development. Topic areas include anthropology, communication and psychology.
- Social science courses develop an understanding of human society and the interrelationship of social phenomena. Topic areas include economics, geography, political science, sociology and ethnic studies.
Biological and Physical Sciences, Mathematics (two courses)

- Biological and physical science courses develop knowledge through the scientific method, scientific reasoning and solutions to complex phenomena in nature. Topic areas include biology, chemistry, geology, physics and environmental science.
- Mathematics courses are typically not classified as a science but provide the tools and models to investigate science and to formulate hypotheses and laws.

International Perspectives (One Course)

- International perspectives courses develop insight into globalization impacts and the influence of an expanding multicultural society.

Cultural Diversity (One Course)

- Cultural diversity courses provide insight and analysis of race and gender issues within the United States.

The value of a liberal arts-oriented core curriculum greatly exceeds its basic economic value, providing personal life and workforce skills necessary for a dynamic 21st century. Students should work closely with academic advisors to choose courses from the core curriculum that compliment their majors and future careers.

Guaranteed Transfer: gtPATHWAYS Program

The Colorado Commission on Higher Education (CCHE) has charged each Colorado public institution of higher education with providing undergraduate students a set of general education courses guaranteed to transfer as core credit to any other Colorado public institution. This program is called gtPATHWAYS, with “gt” referring to guaranteed transfer.

Transferring students are able to apply up to 31 semester hours of gtPATHWAYS approved courses with grades of C- (1.7) or higher toward their general education program at the receiving institution. Students may also apply gtPathways-approved courses to courses in their major, depending on policies at UC Denver.

Students transferring to UC Denver with an associate’s degree from a Colorado community/junior college in the gtPATHWAYS program are guaranteed fulfillment of all lower-division core curriculum requirements. Students planning to transfer in/out of UC Denver under the gtPATHWAYS program should work with their academic advisor to obtain details of transfer credit.

General education courses approved for the gtPATHWAYS program are identified in the UC Denver Undergraduate Core and gtPATHWAYS Curriculum Table. gtPATHWAYS-
approved courses are also identified in the Courses chapter of this catalog. For example, the suffix GT-SC1 in "BIOL 1550-4. Basic Biology: Ecology and the Diversity of Life: GT-SC1" identifies the course as a gtPATHWAYS approved science course with a laboratory.

Further information about the statewide transfer program, including the list of approved courses and distribution requirements, is available at http://highered.colorado.gov/Academics/Transfers/gtPathways/default.html.

**Information for Graduate Students**

_Welcome to the Graduate School on the Denver Campus. Almost half of our students on the Denver Campus are enrolled in graduate programs. We have a higher ratio of graduate to undergraduate students than most other universities in the country. This special emphasis on graduate education provides a strong culture of graduate studies on the campus and has engendered a number of innovative programs and teaching methods, such as dual master's degrees or classes that are entirely online. Graduate programs on the Denver Campus also benefit from UC Denver's immediate proximity to the city, which provides rich opportunities for internships and employment, collaborations between the university and the city and a wealth of real world problems that can test and elaborate ideas gained in the classroom._

A list of all graduate programs is available in the Academic Programs section of the UC Denver Web site.

The Denver Campus Graduate School offers 25 master's programs and nine PhD programs. In addition, schools and colleges offer other master's programs that are independently accredited and are not housed in the Graduate School. For students in those programs, most of your needs will be met by the department in which your program resides. Information about these graduate programs is available under the specific school or college in this catalog. However some programs, those having a diamond designation, are programs within the Graduate School and follow the rules outlined in this section.

The colleges and schools offering graduate opportunities on the Denver Campus include:

- College of Architecture and Planning
- College of Arts & Media
- Business School
- School of Education & Human Development
- College of Engineering and Applied Science
- College of Liberal Arts and Sciences
- School of Public Affairs
Individual graduate programs are described within the school/college sections of the catalog.

**Graduate School**

**Dean:** Robert Damrauer, PhD  
**Administrative Assistant:** Carie Carroll  
**Apply Yourself Manager:** Krystal Allen  
**Office:** 1380 Lawrence Street, Suite 300  
**Telephone:** 303-315-5826  
**Fax:** 303-315-5829  
**Web site:** [www.ucdenver.edu/academics/colleges/Graduate-School/Pages/default.aspx](http://www.ucdenver.edu/academics/colleges/Graduate-School/Pages/default.aspx)

**Mailing Address:** P.O. Box 173364, Campus Box 163, Denver, CO 80217

Graduate education is a critical component of the Mission of the University of Colorado Denver (UC Denver). The Graduate School is one of several schools within UC Denver and its mission is to facilitate and enhance the educational experiences and opportunities for all graduate students and to encourage excellence in research, creative and scholarly work.

In accordance with its mission, the Graduate School leadership and the graduate faculty, plan, develop, approve, evaluate and administer graduate programs (PhD and master’s degree programs). The Graduate School also ensures that graduate programs comply with the standards of excellence and sound academic administration established by the rules and policies of the Graduate School and adopted by the University Board of Regents and the Colorado Commission on Higher Education. In particular, the Graduate School is charged with maintaining high standards and quality of both the graduate programs and the faculty of the Graduate School. Other functions of the Graduate School include:

a) Fostering multidisciplinary, interdisciplinary and innovative programs and promoting collaboration that creates unique opportunities for student learning, research and discovery;

b) Formulating and maintaining uniform standards for academic excellence in graduate-level courses and research experiences offered for credit;

c) Promoting a supportive environment for the graduate student community;

d) Providing a voice for graduate education in the planning processes of the university; and

e) Publishing a current Graduate School Student Handbook on the Graduate School Web site.

**Graduate School Rules**

**Requirements for Admission**
Note that the following are minimum requirements. College and school regulations, if more stringent, take precedence over the minimum guidelines as set forth by the Graduate School.

**Regular Degree Students**

Students are admitted by the Graduate School as regular degree students provided they meet the following criteria:

- Hold a baccalaureate or master’s degree from an accredited college or university or demonstrate completion of work equivalent to the baccalaureate or master’s degree given at UC Denver. Applicants whose credentials include studies or course work at an institution outside the U.S. must include a validated English translation and an evaluation of the transcript by a professional accrediting service (such as World Education Services).
- Usually have an undergraduate grade point average of 3.00 or better (“A” is equal to 4.0) and/or a 3.00 or better GPA in a completed or partially completed (at least 1/3) master’s degree program. Applications from individuals who attended a college or university that does not issue grades or a GPA will be evaluated by the Graduate School on a case-by-case basis.
- Have adequate preparation to enter graduate study in the chosen program as demonstrated by their performance in the GRE or an appropriate substitute, or an earned MS/MA or PhD from a school in the U.S.A., or completion of at least 12 credit hours of transferable graduate-level course work. Although the Graduate School recommends that applicants take the GRE or other standardized test, it is not a requirement for admission as a regular degree student if one of the other two indicators of preparedness is present. Some graduate programs, however, may require that all applicants take the GRE or an equivalent.
- Meet any additional requirements (such as particular undergraduate course work) for admission as established by the program.

International students must meet ALL of these requirements and also must provide:

- Documentation in English (or a certified English translation) of the completion of a bachelor’s degree, master’s degree or the equivalent at the time of matriculation as evaluated by the International Admissions Office.
- Applicants whose native language is not English must take either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) exam and must score above 525 (paper) or 192 (computer) or 71 (Internet based) on the TOEFL or 6.0 on the IETLS. Schools or colleges or individual graduate programs may require higher standards on these tests.
- Applicants whose native language is not English are not required to take the TOEFL test if they have completed a baccalaureate or graduate-level degree
program at an English-speaking college or university or have completed at least two semesters at a college or university in the United States as a full-time student and obtained a “B” average (3.0 GPA) or higher.

- Financial and other documents required by the International Scholars and Students Office to process immigration documents.
- A certified English translation of all records and references not in English.

Additional requirements and documentation may also be required.

**Provisional Degree Students**

A graduate program that wishes to admit an applicant who does not meet the criteria for admission as a regular degree student can petition the Graduate School to admit the applicant as either a regular or provisional degree student. The petition must include a letter from the graduate program director to the dean that outlines the rationale to support such an admission. If the student is to be admitted as a provisional student, then the petition must include a description of the conditions that the student must meet in order to become a regular degree student. The admission of the applicant as a provisional degree student requires the approval of the dean.

Based on the requirements of the graduate program and the recommendations of the graduate program director, the dean will determine and advise the program director and the student of the conditions that the student must satisfy to be transferred from provisional to regular status. The dean, in consultation with the program director, will also determine the time period (one or two semesters for full-time students and a maximum of four semesters for part-time students) in which these conditions be met.

Provisional students are subject to the same standards of performance required of regular degree students, plus any other requirements imposed by program faculty as conditions of admission. At the end of the specified probationary period, the dean, in consultation with the program director will review the performance of the provisional student. The student must either have satisfied the requirements for conversion and be admitted to regular degree status or be dismissed from the graduate program to which they were provisionally admitted. The Graduate School will notify both the program director and the student whether the provisional student has satisfied the requirements and that their status has been transferred to that of a regular student, or has failed to meet the requirements and has been dismissed.

**Application Procedures**

Applicants seeking admission to UC Denver's graduate programs should apply directly to the appropriate department rather than the Graduate School or the Office of Admissions. See specific departments/programs for more information. Read all application instructions carefully before completing the online application. Online applications are submitted electronically to the department. Supplementary application
materials (if applicable) should be mailed to the department to which you are applying. Make sure to clearly mark the materials indicating your full name, social security number, the department in which you are applying and contents of the supplementary material. In addition, sufficient postage must be included if the materials are to be returned to the applicant. If applying to more than one department, you must submit a complete application and separate fee to each department. Students will receive offers of admission or rejection from the graduate department.

An applicant for admission must present:

- Parts I and II of the Denver Campus Graduate School application form, including the tuition classification form, which may be obtained from the departmental program coordinator.
- Two official transcripts for all academic work in colleges and universities completed to date.
- Three letters of reference. Have the nominators include the applicant’s name and social security number in their letters of reference.
- A nonrefundable application fee (check or money order) of $50 for domestic students or $75 for international students. No application will be processed until this fee is paid.
- Any other material required specifically by the program faculty. This may include scores from the GRE or other examination. Check with program coordinators in the departments for additional information that may be required.

Again, the student must check with the program to determine the deadline for submitting the application and application fee to the program of interest.

When a prospective degree student applies for admission, the chairperson or a student admissions committee of the department will decide whether the applicant shall be admitted and make that decision known to the Office of Admissions.

Students who wish to apply for a graduate student award (e.g., fellowship, scholarship, assistantship) should contact their department before the application deadline for information, since deadlines are usually earlier for aid requests than for admission.

Readmission/Changing Programs

Former and current students who wish to be re-admitted or change from one degree program to another must meet the requirements of the new degree program and provide all items required of students applying to the Graduate School on the Downtown Campus for the first time. These applicants, however, may petition the program to which they were initially admitted to secure a release of transcripts and letters of recommendation supplied at the time of their initial application.

Transferring
Students transferring from another University of Colorado campus to the Denver Campus must apply and be accepted by the program on this campus.

A student who has completed a master’s program at UC Denver must resubmit parts I and II of the graduate application for acceptance into the doctoral program.

**Nondegree Students**

A student who wishes to take graduate courses, but is not interested in earning a specific advanced degree, may apply as a nondegree student. Contact the Office of Admissions at 303-556-2704 for further information. Nondegree students will be allowed to register only on the campus to which they have been admitted.

Nondegree students who later desire to pursue a graduate degree program at this university are encouraged to submit the complete graduate application and supporting credentials to their department as soon as possible. Note that the GPA for courses taken as a nondegree student is calculated separately and is not incorporated in the official graduate GPA.

A department may recommend the transfer of as many as 9 semester hours toward the requirements of a master’s degree for courses taken either as a student at another accredited graduate school, as a nondegree student at the University of Colorado or a combination.

A grade of B- or better must be earned. A 10-year time limit is in effect.

**New Student Orientation**

An orientation program for new students is held at the beginning of the fall and spring semesters, during the week prior to the first day of classes. The orientation program provides information to new students about activities and services available on the Denver Campus. Information on the expectations, opportunities, registration process, parking and securing ID cards is also provided. Academic advising sessions are held before registration for the term. Students should contact their schools and colleges for additional information on advising, as well as special orientation sessions that may be scheduled for their programs.

**Registration**

On the regular registration days of each semester, students who have been admitted to a graduate program are required to follow appropriate registration procedures.
Students should register for classes the semester they are accepted as graduate students. If unable to attend that semester, they must notify the Office of Admissions in addition to the department that has accepted them.

**Withdrawal**

A graduate student who desires to withdraw from the university must apply to the dean of his/her school or college for permission to withdraw in good standing. *A student who discontinues attendance in a course without official withdrawal will be marked as having failed the course. After the 10th week of the class, the student must have the associate dean’s signature to drop a course.*

**Assistantships and Fellowships**

**Graduate Student Teaching Appointments**

Many departments employ graduate students as part-time instructors or teaching assistants. The instructorship is reserved for those advanced graduate students already possessing appropriate degrees who may be independently responsible for the conduct of a section or course. Contact the department for further information.

**Research Assistantships**

Research activities provide opportunities for graduate students to obtain part-time work as research assistants in many departments. Such funds are from external grants obtained by faculty members. Contact the department for further information.

Additional information about registration and financial aid are available in separate sections of this catalog. For information about tuition and fees, please visit the Bursar’s office Web site.

**Requirements for Advanced Degrees**

**Graduate Student Handbooks**

Each graduate program is expected to provide students with a handbook—electronic, paper or both—indicating in some detail the curricular requirements, the expectations for satisfactory progress toward the degree completion, a timeline for the steps needed to meet these expectations and other features unique to each program, such as the composition and formation of student committees to guide and review the student’s progress.
GPA Requirements and Quality of Graduate Work

A student is expected to maintain at least an overall 3.0 GPA in all work attempted while enrolled in a graduate program and to make satisfactory progress toward a degree in other respects as determined by his or her department.

For all graduate degrees, a grade below C is unsatisfactory and will not be counted toward the minimum requirements for these degrees.

Credit by Transfer

A limited amount of high-quality resident graduate work done in a recognized graduate school elsewhere within the time allowed may be accepted, provided it is recommended by the department concerned and approved by the school or college dean. The maximum amount of work that may be transferred to this university is 12 semester hours or 40 percent of the number of credits required for the master’s degree, whichever is higher, and 30 hours for PhD degrees.

The school or college shall determine if graduate classes taken by an undergraduate can be transferred to a graduate program. They shall also determine if courses taken in the University of Colorado System are considered resident or transfer courses.

Courses taken as pass/fail or satisfactory/unsatisfactory will not be transferred. In addition, a grade of B- or above must be earned for a course to be transferred. Courses taken some time ago will need to be validated by the program director.

Use of English

A student who is noticeably deficient in the use of standard English in all oral and written work may not obtain an advanced degree from the University of Colorado. Ability to use the language with precision and distinction should be cultivated as an attainment of major importance.

The university reserves the right to test English proficiency for nonnative speakers of English to confirm and validate sufficiency for credit-bearing course work and degree programs.

Each department will judge the qualifications of its advanced students in the use of English. Reports, examinations and speech will be considered in estimating the candidate’s proficiency.

Graduate Appeals
Details may be found in the Graduate School Rules, which can also be accessed online.

**Master’s Degree**

A student regularly admitted to a graduate program and later accepted as a candidate for the master of arts, master of science or other master’s degrees will be recommended for the degree only after certain requirements have been met.

The requirements stated below are minimum requirements; additional conditions may be set by the individual programs.

Students planning to graduate should ascertain current deadlines with their graduate programs. It is the graduate student's and the department’s responsibility to see that all requirements and deadlines are met (e.g., changing of IW grades, notification of final examinations, etc.).

Departments or program committees may have deadlines that must be met by the graduate students in that department or program. It is the student's responsibility to ascertain and meet these requirements.

**Minimum Requirements**

The minimum requirement is 30 (semester) credits. While it is expected that most of this course work will be at the graduate (5000 and above) level, some graduate programs may allow particular undergraduate courses that are outside the discipline of their program to count toward the graduate degree. The proportion of undergraduate credit hours cannot exceed 20% of the course requirement of the graduate program and must be approved by the program director on a case-by-case basis. Undergraduate courses within the same discipline as the graduate program cannot be credited toward a graduate degree. If the program has a thesis option, the thesis must count for 3-6 credits. Independent study course work cannot exceed 25 percent (7.5 credits) of the 30 credits of course work required for the master’s degree.

**Admission to Candidacy**

Details may be found in the Graduate School Rules, which can also be accessed online.

**Master’s Thesis Credit**

Details may be found in the Graduate School Rules, which can also be accessed online.

**Thesis Requirements**

Details may be found in the Graduate School Rules, which can also be accessed online.
Time Limit

Master’s degree students have five years from the date of the start of course work to complete all degree requirements.

Doctor of Philosophy
The doctor of philosophy (PhD) degree is the highest academic degree conferred by the university. To state the requirements for the degree in terms of semester hours would be misleading, because the degree is not conferred merely upon the satisfactory completion of a course of study, however faithfully pursued.

Students who receive this degree must demonstrate that they are proficient in some broad subject of learning and that they can critically evaluate work in this field. Furthermore, they must have shown the ability to work independently in their chosen field and must have made an original contribution of significance to the advancement of knowledge. The technical requirements stated below are minimal requirements for all candidates for the degree; additional conditions set by the departments or schools will be found in the announcements. Any department may make additional regulations consistent with these general rules.

Studies leading to the PhD degree must be chosen so as to contribute to special competence and a high order of scholarship in a broad field of knowledge. A field of study chosen by the student may be in one department or it may include two or more closely related departments. The criterion as to what constitutes an acceptable field of study shall be that the student’s work must contribute to an organized program of study and research without regard to the organization of academic departments within the university.

Minimum Course Dissertation Requirements
Details may be found in the Graduate School Rules (PDF).

Examinations

Each PhD program will require at least comprehensive and final examinations. Notice of all examinations must be filed with the dean of the Graduate School at least two weeks prior to administration.

Comprehensive Examination
Details may be found in the Graduate School Rules (PDF).
Continuous Registration Requirements for Doctoral Candidates

Details may be found in the Graduate School Rules (PDF).

Dissertation Requirements

Details may be found in the Graduate School Rules (PDF).

Final Examination/Defense

Details may be found in the Graduate School Rules (PDF).

Time Limit

Doctoral degree students have eight years from the date of start of the doctoral program.

Graduate Faculty

The graduate programs at the Denver Campus Graduate School are delivered by faculty who are especially qualified by education and experience for graduate teaching and scholarship.

The university and college/school qualifications are published in the “Graduate Faculty” section of the Graduate School Rules. These rules distinguish between regular faculty, who are typically full-time members of the UC Denver faculty, and special faculty who may not be full-time, but who have special skills that enhance a college/school’s graduate course offerings. Faculty who meet these qualifications are admitted to membership in the graduate faculty of UC Denver. These are the only faculty members permitted to teach graduate courses or to serve on thesis, dissertation or graduate student committees at either campus of UC Denver.

Research Opportunities

UC Denver is strongly committed to discovering new knowledge and novel creative expressions through the research and creative efforts of its faculty. Such activities not only advance knowledge and enhance the quality of life, but strengthen teaching by grounding instruction in scholarship and professional practice. These activities constitute an important component of UC Denver’s service to the community at large. Externally funded projects are a major priority at the Denver Campus.

Research projects, training and public service programs encompass both traditional and nontraditional fields of study, focusing on issues important at all levels—city, state,
national and international. The benefits to campus are substantial. Externally funded activities

- assist in sustaining scholarly discourse and creative work
- enable faculty members to engage in the advancement of knowledge,
- provide the foundation for solving pressing practical problems of vital concern to society
- enhance the educational opportunities of students both at undergraduate and graduate levels

In addition, a great deal of research at the university is conducted without substantial external support. This research also yields important insights that are conveyed to a national audience through faculty publications, presentations, exhibits, performances and professional activities. Many members of the faculty are leaders within the national scholarly community. All these pursuits bring recognition to the university, establish the credibility of its faculty and enhance the value of the degree it confers.

The active engagement of graduate students in these scholarly and creative activities is the centerpiece of a vibrant program in graduate education. The mentorship of graduate students by the graduate faculty is a major objective of the educational process. In addition, the consolidation of the Downtown Campus with the Anschutz Medical Campus is opening new opportunities for collaborative, interdisciplinary work.

### Information for International Students

*The University of Colorado Denver provides a variety of international programs and educational opportunities and services for international and domestic students, scholars, faculty, staff and the greater Denver community. The goals of the Office of International Affairs are to raise international awareness on the campus, to provide opportunities for students to gain global competency needed in today’s interdependent world and to create a campus community that is welcoming to international students and scholars.*

### International Admissions

**Director:** Derrick Alex  
**Telephone:** +1-303-315-2230  
**Fax:** +1-303-315-2246  
**Web site:** [www.internationaladmissions.ucdenver.edu](http://www.internationaladmissions.ucdenver.edu)

The Department of International Admissions at the University of Colorado Denver assists all international students with the international application process from first contact through issuance of initial immigration documents. The conversion of foreign grades into the United States system is done in-house. At the request of academic departments,
International Admissions also evaluates course work completed at foreign institutions by domestic applicants.

International Admissions representatives travel overseas to recruit qualified international students. The department also advises staff and faculty traveling overseas on possible networking with prospective international students, visiting Fulbright offices and foreign universities with UC Denver brochures and information.

**English Language Requirement**

Both Test of English as a Foreign Language (TOEFL) scores and the International English Language Testing System (IELTS) scores are accepted at UC Denver as proof of English language proficiency.

The UC Denver institutional code for TOEFL is 4875. Test information and registration materials for TOEFL may be obtained from the Ministry of Education, American Culture Center or educational institutions in the applicant’s country. Information may also be obtained directly from:
Live-In Residence Requirement

The Denver Campus at UC Denver requires that all first-time international undergraduate students live in the Campus Village at Auraria apartments. Additional information about the facilities, policies and programming at Campus Village are available in the Campus Life section of this catalog.

Exemptions to the campus residency policy will be evaluated and made on a case-by-case basis. Exemption forms are available through the Office of Student Life, Tivoli room 303, or online. It is not mandatory for international graduate students to live on campus. For further information, please contact the Office of Student Life at 303-556-3399 or at housing@ucdenver.edu.

Minimum TOEFL and IELTS scores vary by academic department. English language requirement may be waived for admission in some programs for international students that have graduated with a bachelor's degree from foreign institutions where the language of instruction was English. Please contact International Admissions for more information.

On-Campus Employment

On-campus employment is permissible for F-1 and J-1 students provided they maintain immigration status, a minimum GPA and full-time enrollment. Students must request work authorization prior to commencing employment. Qualified students can apply for on-campus employment depending on availability.

Student Life

Office: Tivoli Student Union, 303
Telephone: 303-556-3399
Web site: www.ucdenver.edu/life/services/studentlife/Pages/home.aspx

It is the mission of the Office of Student Life to complement the academic program of studies at UC Denver and enhance the overall educational experience of students through the development of, exposure to and participation in social, cultural, intellectual, recreational, leadership and governance programs. The Office of Student Life is the advising, coordinating, resource and general information center for student organizations, student government, student programs and the academic honor societies. The office is responsible for the administration of the student fee budget and monitors all student fee expenditures to assure compliance with UC Denver and state of Colorado regulations and procedures. The director of student life represents the assistant vice chancellor for university life on selected UC Denver, tri-institutional and Auraria
committees and maintains effective lines of communication with Metropolitan State
College of Denver, Community College of Denver and Auraria Higher Education Center.

Health Insurance

**Office:** Tivoli Student Union, 303  
**Telephone:** 303-556-6273

All F-1 and J-1 students enrolled at the Downtown Campus are required to have health insurance. Students are automatically enrolled in the policy when they register for classes. J-2 dependents are encouraged to enroll in the policy but are eligible to submit comparable insurance coverage with another company in order to meet the Department of State insurance requirement. The Insurance Office welcomes F-2 dependents as well as other international students in other visa categories to enroll in the policy because the cost of health care in the USA is expensive. For further information about the mandatory policy or information about the waiver process, please contact the Student Health Insurance office at 303-556-6273.

Applying to Undergraduate Programs

1. Submit a complete International Application form along with a $75 nonrefundable application fee, payable to the University of Colorado Denver. DO NOT SEND CASH. The application fee must be in U.S. funds only. (Use an international money order or your personal check payable in U.S. currency). Please send it to the following address:

   **By Air Mail:**  
   University of Colorado Denver  
   International Admissions  
   P.O. Box 173364, Campus Box 185  
   Denver, CO 80217-3364  
   USA

   **By Courier (FedEx, DHL, UPS, etc.):**  
   University of Colorado Denver  
   International Admissions  
   1380 Lawrence Street, 9th Floor, Suite 932  
   Denver, CO 80204-2029  
   USA  
   Telephone: 303-315-2230

2. Applicants must submit complete and “official” academic records of all course work from secondary schools and any universities attended. Official academic
records are records that are directly sent by the issuing institution to the university or are issued to the student in a sealed envelope to be delivered by the student to the university. If the documents are not written in English, they must be translated by a certified translator. The translation must be literal and no conversion of grades should be attempted by the translator. Undergraduate applicants who have more than one year full-time course work in a post secondary institution are not required to submit high school transcripts.

3. Both Test of English as a Foreign Language (TOEFL) scores and the International English Language Testing System (IELTS) scores are accepted at UC Denver as proof of English language proficiency. Applicants must submit an official TOEFL or IELTS score report that is no more than two years old. The UC Denver institutional code for TOEFL is 4875. The English language requirement may be waived if the applicant has completed six hours of college-level English composition with a B average (3.0 GPA or higher) from an accredited U.S. institution.

4. A financial statement and a bank statement from the sponsor showing the amount of funds available for support must be submitted to the university. If the student has been awarded a scholarship from a private source or government agency, enclose the award letter. All financial support documents and documentation from banks must be original and should not be more than six months old.

5. The Scholastic Aptitude Test (SAT) or American College Test (ACT) score is required for undergraduate freshman engineering applicants. Please be advised that all documents submitted along with the application become the property of the university and will NOT be returned to the applicant.

The student’s file will not be considered complete, nor will it be submitted to the admissions committee, until all requested materials are received. To expedite processing, all the information should be sent at least five months before the semester in which you wish to enroll.

Applying to Graduate Programs

1. Submit a complete international application form along with a $75 nonrefundable application fee, payable to the University of Colorado Denver. DO NOT SEND CASH. The application fee must be in U.S. funds only. (Use an international money order or your personal check payable in U.S. currency.) Please send it to the address on the application form.

2. Certified copies of “official” academic records from each college or university, and/or professional schools attended, should be submitted to the university. These official academic records should include courses completed, grades or
marks obtained and certificates or degrees awarded. Official academic records are records which are directly sent by the issuing institution to the university or are issued to the student in a sealed envelope to be delivered by the student to the university. If documents are not in English, they must be translated by a certified translator. The translation must be literal and no conversion of grades should be attempted by the translator.

3. Both Test of English as a Foreign Language (TOEFL) scores and the International English Language Testing System (IELTS) scores are accepted at UC Denver as proof of English language proficiency. (Applicants must submit an official TOEFL or IELTS score report which is no more than two years old.) The UC Denver institutional code for TOEFL is 4875. The English language requirement may be waived if the applicant has attended a college or university in the United States as a full-time student and has completed two semesters of academic work with a B average (3.0 GPA or higher). Some departments may also waive the English language requirement if the language of instruction for the students bachelor degree was English. An official letter from the academic institution may be requested to grant this waiver.

4. A financial statement and a bank statement from the sponsor showing the amount of funds available for support must be submitted to the university. If you have been awarded a scholarship from a private source or government agency, enclose the award letter. All financial support documents and documentation from banks must be original and should not be more than six months old.

5. Three letters of recommendation* (two letters for the Business School) from college or university professors must accompany the international application form. If you have been out of school for several years, we will also accept recommendations from your employer or supervisor. The admissions committee prefers academic recommendations over employer/supervisor recommendations. *The Department of Electrical Engineering requires that at least two of the letters be from university faculty.

6. The Graduate Management Admission Test (GMAT) is required if you are applying to the Business School. For more information, please visit www.mba.com. The GMAT institutional codes for Business School programs are:

<table>
<thead>
<tr>
<th>Program</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>MBA</td>
<td>MPB-0G-78</td>
</tr>
<tr>
<td>11-Month MBA</td>
<td>MPB-0G-65</td>
</tr>
<tr>
<td>MS Programs</td>
<td>MPB-0G-75</td>
</tr>
</tbody>
</table>
The Graduate Record Examination (GRE) is a requirement for admission consideration in many graduate departments and considered valuable for other programs. For more information, visit [www.gre.org](http://www.gre.org). You can also e-mail [gre-info@ets.org](mailto:gre-info@ets.org) or call +1.609.771.7670. The UC Denver institutional code for the GRE is 4875.

If you are applying for a master’s degree in public administration or the criminal justice program, you must take the GMAT or GRE.

**Departmental Requirements**

Graduate applications are reviewed by a faculty committee in the department in which the student wishes to enroll. Only those students who have completed an undergraduate program that is equal to a U.S. bachelor’s degree are considered for admission. Please check with academic departments for specific program requirements.

To access department Web sites, go to [www.ucdenver.edu](http://www.ucdenver.edu) and click on Schools and Colleges.

Please be advised that all the documents submitted along with the application become the property of the university and will NOT be returned to the applicant.

The student’s file will not be considered complete, nor will it be submitted to the admissions committee, until all requested materials are received. All students applying to any graduate program should contact their academic department for specific departmental requirements.

**Department of Biology**

Please visit the [department Web site](http://www.ucdenver.edu) for admissions information.

**Business School**

The Business School also requires that you answer the following essay questions as part of your application. The essays should be limited to 200 words per question and included on a separate sheet of paper. Sign and date the pages and include them with your application:

1. How will the MBA/MS degree enhance your career plans? Project the kinds of positions you anticipate having five years after earning the degree. What experiences have you had that form the foundation of your goals?
2. Give a candid appraisal of yourself. Include some discussion of your strengths and weaknesses.

3. Discuss three of your achievements or accomplishments.

4. Describe your level of commitment to education and the ways in which you might make a special contribution to the learning experience of others.

**School of Education & Human Development**

Please visit the [school Web site](#) for additional application requirements.

**Department of Electrical Engineering**

Students applying for the MS in electrical engineering are required to chose an area of specialization from the following:

- Systems and Controls
- Signal Processing
- Communication Systems
- Microelectronic and VLSI
- Computer Engineering
- Photonics
- Power Systems

**Expenses**

The estimated tuition, living expenses which include room, board, books and insurance, for the fall 2009, spring 2010 and summer 2010 (9 months) semesters for international students are listed below. Expenses are subject to change without notice. Personal expenses and travel costs are not included. The tuition costs may change yearly, and fees, books and supplies vary according to program. Taking more credits may also increase the cost of the program. If summer is your first term on the Downtown Campus, you are required to be registered as a full-time student to maintain immigration status.

**Estimated Undergraduate Costs* (12 credits)**

<table>
<thead>
<tr>
<th>Category</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition and Fees</td>
<td>$19,610</td>
</tr>
<tr>
<td>Room and Board</td>
<td>$9,464</td>
</tr>
</tbody>
</table>
Books and Insurance $2,080

Total Shown on Immigration Document $31,154

For each dependent, estimate an additional $4,250

Estimated Graduate Costs* (6 credits)

Tuition and Fees $14,718
Room and Board $7,904
Books and Insurance $2,080

Total Shown on Immigration Document $24,702

For each dependent, estimate an additional $4,250

*Estimated costs are for fall 2009 and spring and summer 2010. These figures are for budgeting purposes only. Expenses are subject to change at any time without notice. Personal expenses and travel costs are not included.

International Student and Scholar Services

Director: Laura Welch
Telephone: +1-303-315-2230

The International Student Services unit provides a variety of services and programs to international students with a special emphasis on F-1 and J-1 students. The unit provides check-in sessions, orientations, work clinics and immigration advising, and we often partner with other UC Denver departments to offer programs and events to our international student population. For more information related to immigration matters, programs, and advising services for international students, please visit our Web site at www.ucdenver.edu/international.

Pre-nursing, pre-pharmacy and dental hygiene advising

Unlike most chapters in this catalog that focus on all programs for a particular school, this chapter provides information about programs within the schools and colleges that prepare students for a career in the health professions. On the Denver Campus, two colleges offer health-related undergraduate programs. Students who complete their prerequisites or undergraduate degrees on this campus may choose to apply to graduate and health professional programs on the Anschutz Medical Campus. Three schools on the Denver Campus offer health-related graduate programs. Denver Campus students may choose to stay and complete a master’s or PhD degree on this campus or apply to programs on the Anschutz Medical Campus. The new state-of-the-art clinical and research facilities on the Anschutz Medical Campus offer students unparalleled training in the health professions. Admission to these programs is very selective, and admission to the Denver Campus does not assure admission to Anschutz Medical Campus programs. All programs on the Anschutz Medical Campus require incoming students to have either a bachelor’s degree or minimum of 60 semester hours of undergraduate work completed before applying.
Undergraduate Programs on the Denver Campus

Two colleges on the Denver Campus offer health-related programs for undergraduate students seeking careers in the health sciences. Admission to the Denver Campus, however, does not assure admission to any professional health career program. Admission to those programs is a separate, competitive process open to qualified applicants from any accredited college or university.

College of Liberal Arts and Sciences

Department of Biology

Contact: Kimberly F. Regier  
Telephone: 303-556-8309  
E-mail: Kimberly.Regier@ucdenver.edu  
Web site: clas.ucdenver.edu/biology/

To serve the needs of students who wish to obtain recognition for the acquisition of specialized skills in biology and to better prepare students for graduate school, health careers and jobs in industry, the Department of Biology offers a certificate program in biotechnology.

Web site: clas.ucdenver.edu/healthcareers/

Health career advisors on the Downtown Campus assist in planning a course of study designed to improve your chances of success in the health career of your choice, including: dentistry and dental hygiene, medicine, medical technology, nursing, optometry, osteopathy, pharmacy, physical therapy, physician assistant, podiatry or veterinary medicine. A comprehensive list of health career options and additional information to help you mold your academic experience to your specific goals is available on the health careers Web site.
BA/BS-MD Program

The BA/BS-MD degree program is a partnership between University of Colorado Denver’s College of Liberal Arts and Sciences and the University of Colorado School of Medicine. The purpose of the program is to assemble 8-10 outstanding students from broadly diverse backgrounds who are committed to serving the health care needs of Colorado. Acceptance into the program and successful completion of all requirements gives students a reserved seat in a top-ranked medical school and the freedom to explore other interests during their exciting college years at UC Denver. For more information, visit [http://babsmd.ucdenver.edu](http://babsmd.ucdenver.edu) or contact one of the health career advisors listed above.

Health and Behavioral Sciences

**Contact for minor:** Sharry Erzinger  
**Telephone:** 303-556-6793  
**Web site:** [clas.ucdenver.edu/hbsc/](http://clas.ucdenver.edu/hbsc/)

The health and behavioral sciences department offers a minor in community health science that is designed to provide undergraduates with the basic intellectual and methodological tools needed for public health. The minor in community health science supplements graduate degrees in a broad range of fields, including the biomedical sciences, social and behavioral sciences, public health, law, medicine, dentistry, pharmacy, business administration and health services research. The program is especially appropriate for students intending to pursue careers in public health, as well as the primary care specialties in medicine, nursing or health policy and administration.

While a major is not currently available, students may develop an individually structured major (ISM) that combines course work in community health sciences with that of related fields such as anthropology, biology and psychology. For details see the Individually Structured Major BA section in the College of Liberal Arts and Sciences chapter of the catalog.

College of Engineering and Applied Science

**Contact:** Engineering Student Services (advising)  
**Telephone:** 303-556-4768  
**Web site:** [ucdenver.edu/engineering](http://ucdenver.edu/engineering)

The desirability of obtaining an engineering education prior to undertaking a study of medicine is increasing continually as medicine itself is evolving. A great deal of new equipment, most of it electronic, is being developed to assist the medical practitioner in treatment of patients. Bioengineering, engineering systems analysis, probability and
communication theory are highly applicable to medical problems. The College of Engineering and Applied Science offers students a pre-medicine option.

**Graduate Programs on the Denver Campus**

**Business School**

**Director:** Errol L. Biggs  
**Telephone:** 303-556-5845  
**E-mail:** Errol.Biggs@ucdenver.edu  
**Web site:** ucdenver.edu/ACADEMICS/COLLEGES/BUSINESS/DEGREES/

The Business School offers three degree options for those interested in health administration—MBA, MS and an executive MBA. These three degree options are outlined in the *Business School* chapter of this catalog.

**College of Engineering and Applied Science**

**Contact:** Lynn E. Johnson  
**Telephone:** 303-556-2372  
**E-mail:** MEngGIS@ucdenver.edu

There are numerous ways in which geographic information systems (GIS) are used throughout health care and public health, including environmental health and epidemiology, disease surveillance and health services research. The College of Engineering and Applied Science offers a master of engineering degree with a GIS option, which emphasizes quantitative methods in the development and application of GIS technologies to a spectrum of discipline-specific settings having significant spatial dimensions.

**College of Liberal Arts and Sciences**

**Department of Anthropology**

**Graduate Director:** Christopher Beekman

**Fax:** 303-556-8501  
**E-mail:** Christopher.Beekman@ucdenver.edu  
**Web site:** clas.ucdenver.edu/anthropology/

Students may earn an MA with a research concentration in medical anthropology or pursue an integrated MA/PhD in health and behavioral sciences. Details of these
Health and Behavioral Sciences

Program Director: Richard Miech
Telephone: 303-556-8422
E-mail: Richard.Miech@ucdenver.edu
Web site: clas.ucdenver.edu/hbsc/

The interdisciplinary PhD program in health and behavioral sciences provides an overarching framework integrating social and behavioral science perspectives on health and health care, while allowing the student to select and fully develop a particular research interest and professional career. This program has become a leader regionally in the application of GIS to health-related research.

Depending upon a student’s chosen area of concentration, the successful graduate will gain expert knowledge of:

- research design and methods
- the determinants of health and disease
- the structure and organization of health care systems
- behavioral choices and how to use them to enhance wellness
- the contribution of individual, social and cultural factors to health behavior
- how guided change in health care systems may enhance quality, efficacy and access

The significance of these skills in addressing our current health care crisis will insure that graduates will be in demand in a number of employment sectors, ranging from community and public health organizations to nonprofit research organizations and private health care settings.

Programs on the Anschutz Medical Campus

Information about Anschutz Medical Campus programs are in this chapter is for reference only. Contact individual schools and program directors for details.

Graduate School

Contact: Office of the Dean
Telephone: 303-724-2915
Web site: www.ucdenver.edu/graduateschool

Degree Programs: Master of science programs in: biostatistics; genetic counseling; clinical science; nursing—nurse midwifery, nurse practitioner (adult, family, family
psychiatric/mental health, pediatric, women’s health care), adult clinical nurse specialist, health care informatics, pediatric special needs

Doctor of philosophy in: biochemistry and molecular genetics; biomedical sciences program; biostatistics; cancer biology; cell biology, stem cells and development; clinical science; computational bioscience; epidemiology; health services research; human medical genetics; immunology; microbiology; molecular biology; neuroscience; nursing; pharmacology; pharmaceutical sciences; physiology and biophysics; reproductive sciences; structural biology and biophysics; toxicology

At the University of Colorado Denver Anschutz Medical Campus Graduate School, students learn to push the frontiers of human health and disease in more than a dozen basic science, clinical and nursing disciplines. In conjunction with the UC Denver School of Medicine, the Graduate School offers a joint MD/PhD in the medical scientist training program which develops investigators with a broadly-based knowledge of both basic and clinical biomedical sciences. The school’s personal mentor-student emphasis provides a distinctive learning experience.

Health Sciences Programs

School of Dental Medicine

Contact: Office of Admissions and Student Affairs
Telephone: 303-724-7120
Web site: www.ucdenver.edu/sdm
Degree Programs: doctor of dental surgery, international student program, orthodontics, periodontics and general practice residency programs

The University of Colorado Denver School of Dental Medicine currently enrolls 52 dental students annually. As a graduation requirement, the 202 dental students also provide dental clinical care to underserved populations throughout the state of Colorado. In addition to our nationally recognized DDS program, our post-doctoral in orthodontics, periodontics, general practice residency programs are thriving. Consistent with our mission to increase access to education and care, the International Dental Student Program began in January 2005, which offers qualified graduates of foreign dental programs the opportunity to earn a doctor of dental surgery degree. The University of Colorado Denver School of Dental Medicine is the only regional university-based dental implant center. In addition, the school pioneers research in oral cancer, salivary gland disease, neurobiology and pain control.

School of Medicine

Contact: Office of Admissions
Telephone: 303-724-8025
The University of Colorado Denver School of Medicine is nationally and internationally respected for its education, research, patient care and community service programs. Faculty members teach and care for patients at University of Colorado Hospital, The Children’s Hospital, Denver Health, National Jewish Health and the Denver V.A. Medical Center, working side by side with nearly 1,000 graduate doctors training in medical specialties and generalist care at the university. In addition to providing exceptional patient care and education, the medical school’s greatest achievement has been the ability to attract gifted faculty and students. The school’s physicians and research scientists have pioneered medical breakthroughs that have become national and world models.

**Child Health Associate/Physician Assistant**

**Contact:** Office of Admissions  
**Telephone:** 303-724-7963  
**E-mail:** chapa-info@ucdenver.edu  
**Web site:** [www.ucdenver.edu/academics/colleges/medicalschool/education/degree_programs/PAProgram/Pages/Home.aspx](http://www.ucdenver.edu/academics/colleges/medicalschool/education/degree_programs/PAProgram/Pages/Home.aspx)  
**Degree Program:** Master of physician assistant studies (MPAS)

Ranked eighth in the nation, the child health associate/physician assistant (CHA/PA) is a primary care PA with specialized training in the care of infants, children and adolescents as well as training in the care of adult patients. Program graduates are prepared to provide comprehensive medical care to patients of all ages and practice under state and national guidelines established for all PAs. Graduates are employed in many settings including managed care organizations, community health centers, physician’s offices, public health agencies, hospitals, school-based adolescent clinics, emergency departments and rural and inner city health care delivery sites.

**Physical Therapy**

**Contact:** Physical Therapy Program  
**Telephone:** 303-724-9144  
**E-Mail:** susan.halloran@ucdenver.edu  
**Web site:** [www.ucdenver.edu/academics/colleges/medicalschool/education/degree_programs/pt/Pages/PT.aspx](http://www.ucdenver.edu/academics/colleges/medicalschool/education/degree_programs/pt/Pages/PT.aspx)  
**Degree Program:** Doctor of physical therapy (DPT)
The University of Colorado Denver physical therapy program offers a three-year, post-baccalaureate professional education program of didactic learning and extensive clinical experiences culminating in a doctor of physical therapy degree. Graduates are prepared to excel in the physical therapy profession and adapt to the ever-evolving health care environment. As part of the School of Medicine, our entry-level program has been continuously accredited for more than 60 years. Foundational elements of our curriculum include movement science, evidence-based practice, patient-centered care and the delivery of interprofessional health care services as doctors of physical therapy.

Graduate Medical Education (Residency and Fellowship Programs)

Telephone: 303-724-6031  
Web site: www.ucdenver.edu/ACADEMICS/COLLEGES/MEDICALSCHOOL/EDUCATION/GRADUATEMEDICALEDUCATION/Pages/graduatemedicaleducation.aspx

The University of Colorado Denver School of Medicine and affiliated hospitals provide graduate medical education (training of residents and fellows) in more than 60 specialties and subspecialties. The Graduate Medical Education Manual provides details about these opportunities on the Anschutz Medical Campus.

Continuing Medical Education

Telephone: 303-724-3552  
Web site: ucdenver.edu/academics/colleges/medicalschool/education/continuingmedicaleducation

The School of Medicine provides continuing education opportunities for physicians and other health care professionals worldwide. The mission is to enhance the knowledge, skills and performance of physicians and other health care professionals and, in the process, to improve the health care of the populations they serve.

College of Nursing

Contact: Office of Student Affairs and Diversity  
Telephone: 303-724-1812  
Web site: www.nursing.ucdenver.edu  
Degree Programs: BS in nursing, MS in nursing, doctor of nursing practice (DNP), PhD in nursing

In 2008, the College of Nursing celebrated 110 years of contributions to nursing education, practice and research. The college offers four degrees: BS, MS, DNP and
PhD, and is one of 15 selected U.S. nursing schools piloting a program advancing quality and safety education in nursing (QSEN). The college’s BS graduates consistently place well above the state and national average on the nursing licensure examination. The college annually ranks in the top schools of nursing in the country for the quality of its graduate programs. The College of Nursing is a leading educator of doctorally prepared nurses, internationally recognized for the quality of its graduates as nurse scientists, educators and clinical leaders.

**School of Pharmacy**

**Contact:** Office of Student Services  
**Director:** Beverly Brunson  
**PharmD Telephone:** 303-724-2882  
**PhD Telephone:** 303-724-7263  
**Fax:** 303-724-7330  
**Web site:** [www.ucdenver.edu/pharmacy](http://www.ucdenver.edu/pharmacy)  
**Degree Programs:** Doctor of pharmacy (PharmD), PhD in toxicology, PhD in pharmaceutical sciences

As drug products become more potent, more complex and more numerous, the need for pharmacists to assume a more active role in consultation and patient counseling has increased remarkably. The University of Colorado Denver School of Pharmacy is one of the nation’s top-ranked pharmacy schools and is committed to pharmaceutical education, research and patient care. The school’s more than 500 professional and graduate students learn about the chemical and physical properties of medicinal agents, the biology of disease and the actions of drugs on the human body, while pursuing either a doctor of pharmacy or PhD degree. The school also provides continuing education programs to pharmacists and other health practitioners throughout the state.

**Colorado School of Public Health**

**Contact:** Colorado School of Public Health  
**Telephone:** 303-724-4613  
**Web site:** [http://publichealth.ucdenver.edu](http://publichealth.ucdenver.edu)  
**Degree Programs:** Master of public health (MPH) professional degree; master of science (MS) in biostatistics or epidemiology; doctor of philosophy (PhD) in analytical health sciences—biostatistics, epidemiology, health services research; doctor of public health (DrPH) professional degree

The Colorado School of Public Health is the first and only school of public health in the Rocky Mountain region. Collaboratively formed by University of Colorado Denver, Colorado State University and University of Northern Colorado, the school supports
students, practitioners and communities, with access to educational programs, innovative research and community services.

The school offers professional, graduate, residency and certificate programs. Each program provides the training that students need to succeed in general and specialized public health careers. Programs of study focus on a variety of professional interests including animals, people and the environment; biostatistics and informatics; community and behavioral health; community health education; environmental and occupational health; epidemiology; global health and health disparities; health and exercise science; health communication; health services research; health systems, management and policy; occupational medicine; preventive medicine; and public health nutrition. Students entering the public health programs have access to the collective resources and expertise offered by the collaborating universities and multiple community and government partnerships.

**At A Glance: CU Online**

**Frequently Asked Questions**

**Computer Requirements**

You have a life filled with family and friends. A life filled with work and responsibilities. A life—filled... which makes a rigid school schedule seem even more impractical and unrealistic. That’s why, in 1996, the University of Colorado Denver developed CU Online for its Downtown Campus, making a sought-after education not only convenient, but conceivable. And since becoming one of the first fully accredited online programs in the country, CU Online has continued to grow and evolve into the respected and renowned institution it is today.

Essentially, CU Online allows you the opportunity to attend the University of Colorado Denver on your time, at your convenience, while also providing the recognition and respect that only a brick and mortar university can offer. So besides the safety net of an actual campus, once you graduate you can proudly display your diploma with a level of honor and admiration that sometimes isn’t found with virtual institutions.
But it’s not only one or two electives or random courses; you can actually complete an entire degree (or 16) all online, without stepping a foot on campus. CU Online allows you to enjoy the same stimulating courses, top-notch faculty and dedicated resources as the on-campus students…but with the freedom and convenience that online courses naturally provide.

However, CU Online didn’t always have the number of degree programs (16), certificates (10) or courses (350+) that are currently available. In that first semester in 1996, you could choose from up to three courses. Slightly less than the 216 courses that were available fall 2009. And that’s only the beginning. CU Online is well on its way to achieving its initial goal of providing students like you with the most comprehensive set of online courses, services and resources of any institution of higher education in the world.

So whether you’re looking to start a degree, finish one or just take the occasional course or two, CU Online provides the opportunity to tailor courses around your life…rather than tailor life around your courses.

**Delivery Media**

CU Online courses run on a traditional semester schedule and, although courses are not self-paced, they are flexible. As a student, you’re able to log into your courses on a regular basis, at your convenience. You will be assigned a home page to access courses, find lectures and assignments and participate in class discussions and real-time course chat rooms.

Each course is developed to offer everything you would expect from UC Denver. But online, instead of on-campus. So instructors deliver course content and lectures through cutting edge technology, such as streaming audio, video and multimedia slide shows.

Some professors offer weekly assignments to help ensure you are right on track with the materials being taught. Quizzes and tests can be timed to help affirm your mastery of the material. In addition, assignments may be uploaded to the site, which is like creating an attachment in e-mail.

Exams are taken and administered in a variety of ways. They can be administered online by using your course software with an Internet browser, as a take-home exam where you print out a hard copy and hand it in, or proctored by an outside party, an instructor or the teacher's assistant (TA).

As a bonus, if you are registered for only online courses, you are simply responsible for the information technology fee and the student information system fee. **All other traditional fees are waived**, along with the incidental fees associated with commuting to campus, parking, child care, etc. There is also a special tuition discount if you are an out-of-state student enrolled only in online courses.

**Programs**
CU Online offers courses in liberal arts and sciences, arts and media, business, education, engineering, public affairs and architecture and planning. Below are the complete degree programs and certificates that can be completed exclusively through online courses:

**Degree Programs**

- Bachelor of arts in English writing (BA)
- Bachelor of arts in nursing, RN to BS
- Bachelor of arts in sociology (BA)
- Doctor of nursing practice (DNP)
- Doctor of pharmacy, nontraditional pharmD (NTPD) - Extended studies
- Doctor of philosophy (PhD) in nursing
- Master of arts in early childhood education (MA)
- Master of arts in information and learning technologies (MA), eLearning design and implementation
- Master of arts in information and learning technologies (MA), school library
- Master of business administration (MBA)
- Master of criminal justice (MCJ)
- Master of engineering (MEng), geographic information systems
- Master of public administration (MPA)
- Master of science in information systems (MS), enterprise technology management
- Master of science in management and organization (MS), managing for sustainability
- Master of science in nursing (MS), informatics option

**Certificates, Modules and Other Online Programs**

- Certificate in palliative care
- Clinical educator certificate
- Designing eLearning environments (DeE) certificate
- Early childhood special education, specialist license
- Early literacy certificate
- Health care informatics certificate
- Nonprofit management certificate
- Special education generalist endorsement
- Teaching English to speakers of other languages (TESOL) certificate

The semester hours you earn through online courses are **identical to those earned through traditional on-campus courses**. UC Denver is a fully accredited institution, making semester hours easily transferable to other universities. And if you graduate solely by taking online courses, the degree is the same.
Business School

Master of Business Administration (MBA)

The professional MBA program at the UC Denver Business School is outstanding in its ability to integrate leading-edge research with practical business applications in an intellectually challenging environment. Business courses are accredited through the Association to Advance Collegiate Schools of Business International (AACSB).

The professional MBA program emphasizes active learning through case studies, computer simulations, real-world group projects, class discussions and involvement with Colorado businesses. A master's in business administration degree from UC Denver prepares you with the management and leadership skills required to achieve your personal career goals.

The professional MBA can be individualized and tailored to your specific interests and career goals. Below are the four MBA specializations that you can complete entirely online.

- Enterprise technology management (ETM)
- Finance (FNC)
- Information systems (IFS)
- Managing for sustainability (MNS)

The professional MBA program requires the completion of 48 semester hours, including 30 semester hours of required MBA core courses, 3 semester hours in international business and 15 semester hours of electives, which you'll choose from other graduate business courses. The following are examples of Business School courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Analysis, Modeling and Design
- Analyzing and Interpreting Accounting Information
- Applied Economics for Managers
- Business Forecasting
- Business Intelligence Systems
- Business Process Management
- Data Analysis for Managers
- Data Base Management Systems
- Emerging Technologies
- Enterprise Knowledge Management
- Entrepreneurial Financial Management
- Financial Decisions and Policies
- Financial Management
Program contact: Shelly Townley, Shelly.Townley@ucdenver.edu.

Master of Science in Information Systems — Enterprise Technology Management (ETM)

The information systems (IS) program in the Business School has established UC Denver as a leader and innovator in the field. As part of that innovation, the online master of science (MS) program has been developed to help keep you one step ahead of your collegiate peers when pursuing your information based field of choice. You can now complete two distinct specializations completely online.

The enterprise technology management specialization focuses on information technology as the prime driver and enabler of business strategy. Courses cover the emerging technologies and the evolving role and importance of IT in modern organizations while concentrating on the strategic, technological, financial and organizational issues involved with the effective management of information technology within an enterprise.

The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses. All courses are 3 semester hours.
Master of Science in Management and Organization - 
Managing for Sustainability

The MS in management focuses on group and organizational effectiveness, organizational design and organizational change. The MS in management and organization program prepares you for upper-level managerial positions in the public and private sectors. Upon completion of this program you will:

- Create effective strategies for success in today’s complex and constantly changing business environment
- Effectively design organizations
- Learn how to manage interpersonal dynamics
- Implement planned change and organizational transformations

The course work for the MS in management degree consists of 10 courses (30 semester hours). The four required courses will provide you with a broad perspective and solid foundation in management. The following are examples of courses available from spring 2007 through spring 2009 along with proposed courses. Visit [www.cuonline.edu/catalog](http://www.cuonline.edu/catalog) for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Accounting and Finance for Sustainability
- Business and the Natural Environment
- Designing Effective Organizations
- Managing for Sustainability
Managing Individuals and Teams
Managing People for Competitive Advantage
Organizational Development
Social Marketing

Program contact: Shelly Townley, Shelly.Townley@ucdenver.edu.

College of Engineering and Applied Science

Engineering - Geographic Information Systems

The master of engineering degree—geographic information systems (MEng-GIS) option is directed to engineers and other environmental and urban infrastructure professionals seeking skills in using and managing these rapidly developing spatial data technologies.

The MEng-GIS degree at UC Denver is multidisciplinary involving civil engineering (environmental, geodesy and remote sensing, water resources, geotechnical and transportation), geography and environmental sciences (remote sensing, ecology, air quality, environmental impact assessment), urban and regional planning (spatial analysis, community development), information systems (data structures, database systems and software engineering), applied mathematics (probability and statistics, networks, simulation and optimization) and engineering management strategic planning, project management, policies).

The MEng-GIS degree program consists of 30 graduate semester hours - 9 courses, plus one course of and advanced applications project. The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Advanced Remote Sensing
- GIS Analyses—Theory and Practice
- GIS Laboratory (two or more versions may be available)
- GIS Management and Policies
- GIS Relational Database Systems
- GIS Spatial Database Development
- Introduction to Geographic Information Systems
- Master’s Report Multiple Factor GIS Analysis

Program contact: Lynn Johnson, MEngGIS@ucdenver.edu.

College of Liberal Arts and Sciences

Bachelor of Arts in English Writing (BA)
The Department of English writing major offers you the knowledge and skills necessary to write well in a number of contexts including nonprofit organizations, industry and academia. This is accomplished through a combination of traditional and new media courses and through the service learning and internship opportunities provided for you. The flexible and interdisciplinary nature of this degree is designed to prepare students wishing to enter graduate school or pursue jobs in education, law, editing, professional writing and other areas.

If you're majoring in writing, you must present a total of 39 hours for the major, of which 27 hours must be earned in upper division courses. The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Advanced Composition
- Argumentation and Logic
- Business Writing
- Grammar, Rhetoric and Style
- Introduction to Creative Writing
- Language Theory
- Senior Seminar in Writing
- Special Topics in Rhetoric and Writing
- Technical Writing

Program contact: Joanne Addison, Joanne.Addison@ucdenver.edu.

**Bachelor of Arts in Sociology (BA)**

Sociology is the study of group life: its characteristics, changes, causes and consequences. It combines scientific and humanistic perspectives in the study of urban and rural life, family patterns and relationships, social change, intergroup relationships, social class, environment, technology and communications, health seeking behavior and social movements.

A major in sociology is accomplished by completing a general core of 19 hours, plus a minimum of 15 electives in sociology, for a total of 34 hours with an average grade of C (2.0) in all courses. The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Contemporary Sociological Theory
- History of Sociological Theory
- Introduction to Research Methods
- Introduction to Sociology
- Introduction to Statistics
Teaching English to Speakers of Other Languages (TESOL) Certificate

If you’re a nondegree-seeking student, this certificate program allows you the opportunity to receive a credentialed certificate in teaching English to speakers of other languages (TESOL). The certificate courses can also be applied to the graduate degree program in Applied Linguistics without increasing the minimum number of semester hours required to graduate.

This certificate is 12 semester hours and is geared toward either native English speakers who want to teach overseas or international students who want to teach English in their home country or other countries. The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Cross Cultural Communication
- Language Theory
- Principles and Practices of Second Language Acquisition
- Teaching Second Language and Second Dialect

Program contact: Ian Ying, hongguang.ying@ucdenver.edu.

College of Nursing (Anschutz Medical Campus)

Bachelor of Science in Nursing - RN to BS

The RN-bachelor of science degree program, based on the Colorado Nursing Articulation Model, is an educational pathway available for registered nurses who desire career mobility and professional development.

The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses.

- Health Assessment for RN’s (Available in Summer)
- Nursing Care/ Case Management (Available in Spring)
- Nursing Research (Available in Spring)
- Professional Nursing: Environmental Context for Practice: Bioethical and Legal Foundations (Available in Spring)
- Professional Nursing: Reflective Practice, Social Justice, Issues & Trends (Available in Fall)
Certificate in Palliative Care

Palliative care refers to the comprehensive management of the physical, psychological, social, spiritual, and existential needs of patients with progressive illness and their families. This program integrates palliative care principles into the practice of health care professionals for those working in acute and long-term care in both rural and urban settings in Colorado and beyond, and to provide theory review for the HPNA Palliative Care Nursing Credentialing Examination.

The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses.

- Advanced Concepts in Palliative Care
- Complex Symptoms Management in Palliative Care

Program contact: Judy Campbell: Judy.Campbell@ucdenver.edu.

Clinical Educator Certificate

The clinical educator certificate is a comprehensive program that provides the knowledge and skills needed to successfully develop clinical education programs for nurses in your facility. Graduates with this certificate assume professional roles in clinical education, including:

- Clinical/nursing education director/manager
- Community and public health educator
- Perioperative educator clinical nurse specialist educator/manager
- Clinical instructor

The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses.

- Clinical Teaching Theory
- Planning and Evaluation
- Writing a Business Plan

Program contact: Judy Campbell: Judy.Campbell@ucdenver.edu.

Doctor of Nursing Practice (DNP)
As a DNP graduate, you will be prepared to be a clinical leader who designs models of health care delivery, evaluates clinical outcomes, identifies and manages health care needs of populations, and uses technology and information to transform health care systems.

In fall 2005, the University of Colorado Denver College of Nursing became the first school in the Rocky Mountain region to initiate the doctor of nursing practice (DNP) degree. The University of Colorado’s DNP program has approval from the Board of Regents and the Colorado Commission on Higher Education (CCHE).

The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses.

- Applied Evidence-based Practice
- Context of Practice, Population and Patient Management
- Cultural Competence for Advanced Practice
- Designing Theory-guided Models of Care
- DNP Capstone Clinical Evaluation Project
- DNP Capstone Clinical Evaluation Proposal Development
- DNP Leadership Role Residency
- Emerging Therapies for Advanced Nursing Practice
- Epidemiology and Environmental Health
- Inferential Statistics
- Leadership, Management, Innovation and Entrepreneurship
- Management Information for Decision Support
- Practice Epistemology: Expanding Ways of Knowing for Reflective Practice

Contact: nursing.admissions@ucdenver.edu

**Doctor of Philosophy (PhD) in Nursing**

As a nurse scholar, this PhD program prepares you to advance the art, science and practice of the discipline. PhD preparation in nursing promotes knowledge development for reflective, theory-based and research-guided nursing practice. The PhD program equips you to conduct knowledge development and scholarly inquiry and to be actively engaged in many roles including:

- Administrator
- Clinician-scholar
- Educator
- Health care policy analyst
- Researcher
The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit [www.cuonline.edu/catalog](http://www.cuonline.edu/catalog) for up-to-date information about online degrees and available courses.

- Experimental Design and Analysis
- Methods of Disciplined Inquiry in Nursing
- Multivariant Design and Analysis
- Philosophy of Human Science
- Qualitative Empirical Research
- Quality and Cost Effective Outcomes: Macro-level
- Quality and Cost Effective Outcomes: Micro-level
- Quantitative Interpretive Research
- Research Practicum & Ethics of Inquiry
- Selected Topics in HEHIH
- Seminar in HEHIH
- The Discipline of Nursing
- Theory and Knowledge Development

Contact: [nursing.admissions@ucdenver.edu](mailto:nursing.admissions@ucdenver.edu)

**Health Care Informatics Certificate**

As a health care professional, this health care informatics program provides an opportunity for health care professionals to acquire knowledge and skills in the rapidly progressing field of informatics. With recent movements toward the adoption of the electronic health record and the need for IT infrastructure to increase patient safety and facilitate evidence-based practice, there is a growing need for more informatics specialists. This certificate provides opportunities for those new to the field and those who may be practicing in the field and need a professional update.

The certificate is a 9 semester hour program. The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit [www.cuonline.edu/catalog](http://www.cuonline.edu/catalog) for up-to-date information about online degrees and available courses.

- Database Management Systems
- Decision Support
- e-Health
- Foundations of Healthcare Informatics
- HCI Design Principles
- IT Systems Life Cycle
- Knowledge Management
- Semantic Representation

Program contact: Judy Campbell: [Judy.Campbell@ucdenver.edu](mailto:Judy.Campbell@ucdenver.edu).
Master of Science (MS) in Nursing - Informatics Option

The College of Nursing's master of science program in nursing is designed to prepare you for advanced nurse practice roles. You're taught to formulate clinical, administrative or policy decisions to promote health with clients experiencing wellness, acute or chronic illness, and to develop, manage, and evaluate the care within communities and health care systems.

The program is structured to provide a foundation for career paths for future leaders in advanced nursing practice and to prepare lifelong learners who demonstrate knowledge, skill, critical thinking and flexibility. The master of science program also provides the foundation for doctoral study in nursing.

The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses.

- Advanced Practicum: Healthcare Informatics
- Database Management Systems
- Decision Support
- E-Health
- Foundations of Health Care Informatics
- Health Systems, Policy & Social Justice
- Human Computer Interaction Design
- Human Technology Interface
- Information Systems Life Cycle
- Knowledge Management
- Philosophic, Theoretic & Ethical Foundations of APN
- Research Methods for Advanced Practice
- Semantic Representation

School of Education & Human Development

Designing eLearning Environments Certificate

This is an exciting time if you're an instructional design and technology professional. There is a growing demand for your eLearning expertise, knowledge and skills, and you will find limited competition in this growing field. The designing eLearning environments (DeE) certificate program focuses specifically on the skills needed to design and facilitate online learning opportunities for learners in K–12, higher education and corporate settings. This program is perfect if you're not interested in a graduate degree.
The DeE certificate program is a sequence of three online courses. The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Designing and Teaching in eLearning Environments
- Developing eLearning Instruction
- Integrating Media in eLearning Environments

Program contact: Jannette Noonan, education@ucdenver.edu.

**Early Childhood Special Education, Specialist License**

As a graduate earning the early childhood special education specialist license you’ll have the theoretical background and skills in assessment, teaching and collaboration necessary to work with young children with disabilities. As a graduate with this license you can assume professional roles like lead teacher, early interventionist, service coordinator, Child Find team member, special education consultant and behavior specialist.

The ECSE specialist course sequence consists of 40 semester hours. A total 800 hours of fieldwork/practica is required for the license. Approximately 290 hours of fieldwork are associated with course assignments; 510 hours of intense, culminating practica occur toward the end of the second year of study. The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Administrative Seminar
- Advanced Child Growth and Development
- Approaches to Young Children’s Learning
- Basic Statistics
- Curriculum and Program Development in ECE
- Early Childhood Profession
- Early Intervention Strategies
- Infant/Toddler Practicum (170 clock hours—online option not possible)
- Language and Literacy in Young Children
- Literacy and Mathematics K–12
- Measurement and Evaluation in ECE
- Medical/Physiological Aspects of Developmental Disabilities
- Preschool Practicum (170 clock hours—online option not possible)
- Primary Practicum (170 clock hours—online option not possible)
- Screening and Assessment in Young Children
- Seminar: Research and Current Issues in ECE
- Social and Cognitive Development and Disorders
- Working with Parents and Families
Program contact: education@ucdenver.edu.

**Early Literacy Certificate**

This certificate program allows you to take courses in the specialty area of early literacy and apply these courses directly toward the full master's degree. The MA programs (K–6 and 7–12) in the School of Education & Human Development provide you with a means for completing a master's degree in curriculum and instruction with an emphasis in reading/writing while simultaneously fulfilling the requirements toward a Colorado reading teacher endorsement. In light of federal NCLB and state CBLA initiatives, this supplementary certificate offers primary grade teachers, preschool teachers and para-educators greater background in the development, assessment and instruction of literacy for young children.

The certificate program allows teachers to take 9 semester hours in the specialty area of early literacy and apply them directly toward the full master's degree. The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Early Literacy Instruction
- Early Literacy Routines and Assessment
- Literacy Development PreK–3rd Grade

Program contact: Jennifer Ream, Jenna.Ream@ucdenver.edu.

**Master of Arts in Early Childhood Education**

The mission of the early childhood education online program is to provide substantive support if you're preparing to become a leader in professional practice as an early childhood accomplished teacher, with the master’s degree in ECE. This degree prepares you to work in settings which include public schools, child care programs, private preschools and kindergartens, early intervention programs including Head Start and Early Head Start, family support and home-based programs.

The ECE program is composed of 40 semester hours. A total of 425 hours of fieldwork/practica is required. The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Administrative Seminar
- Advanced Child Growth and Development
- Approaches to Young Children’s Learning
- Basic Statistics
- Curriculum and Program Development in ECE
- Early Childhood Profession
- Early Intervention Strategies
- Language and Literacy in Young Children
- Literacy and Mathematics K-2
- Measurement and Evaluation in ECE
- Medical/Physiological Aspects of Dev. Disabilities
- Screening and Assessment in Young Children
- Seminar: Research and Current Issues in ECE
- Social and Cognitive Development and Disorders
- Working with Parents and Families

Program contact: education@ucdenver.edu.

**Master of Arts in Information and Learning Technologies**

- **eLearning Design and Implementation**

The eLearning design and implementation (eDI) program offers an ILT MA degree that is specifically designed to meet your needs as a practicing professional educator as you confront the increasingly important role electronic and online technologies play within post-secondary, K–12 and corporate education. The eDI MA program is for K–12 teachers, higher education instructors, trainers, content experts and corporate instructional developers.

The eLearning program is composed of 36 semester hours. The following are examples of courses available online from spring 2007 through spring 2009 along with proposed courses. Visit [www.cuonline.edu/catalog](http://www.cuonline.edu/catalog) for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Developing Educational Web Sites
- Instructional Message Design
- Learning Processes in Instructional Technology
- Managing Instructional Development
- Media for Web-based Learning Environments
- Policies and Planning for eLearning Programs
- Research in Information and Learning Technologies
- Strategies for Online Learning

Program contact: education@ucdenver.edu.

**Master of Arts in Information and Learning Technologies**

- **School Library**

This MA prepares you with the knowledge-management skills and information access points for school library resources. Courses will integrate information and learning
technology strategies, along with courses on school library management, instructional
design and instructional leadership.

All topics covered will be close to your heart as a school librarian as you collaborate with
teachers on instructional units and create user-friendly school library programs that
support the love for reading and information literacy. Finally, for this nationally
recognized NCATE-AASL-approved school library media education program, you will
complete field experience in both elementary and secondary schools for the K–12
school library endorsement.

The program is comprised of 36 semester hours and can be completed in 14 months on
an intensive track (summer term to the next summer term) or a standard two-year
schedule taking one course each semester. The following are examples of courses
available online from spring 2007 through spring 2009 along with proposed courses.
Visit www.cuonline.edu/catalog for up-to-date information about online degrees and
available courses. All courses are 3 semester hours.

- Adolescent Literature
- Children’s Literature Through the Ages
- Collection Development
- Field Experience-Elementary
- Field Experience-Secondary
- Foundations of School Librarianship
- Information Literacy and Reference
- Information Storage and Utilization
- Instructional Development and Production
- Leadership and Practice in ILT
- Management in ILT
- Research in Information and Learning Technology

Program contact: education@ucdenver.edu.

Special Education Generalist K–12 Endorsement

This program is designed for teachers already licensed in elementary or secondary
general education. Specifically, this program is geared toward teachers without the
formal credentials required to serve students with disabilities, as well as teachers who
want to improve their ability to meet the needs of all learners.

A 10-course (26 semester hours) sequence represents the program plan of study. The
following are examples of courses available online from spring 2007 through spring 2009
along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information
about online degrees and available courses. All courses are 3 semester hours.

- Advanced Assessment in Special Education
- Collaboration and Consultation
• Instructional Strategies for Students with Special Needs
• Literacy Intervention for Students with Special Needs
• Positive Behavior Supports
• Special Education for the School Professional
• Special Education Generalist Internship and Site (Online option not possible)
• Special Education Generalist Internship and Site Seminar (Online option not possible)
• The Use of Technology in Special Education
• Transition/Secondary Planning

Program contacts: Meredith Lopez, Meredith.Lopez@ucdenver.edu.

School of Pharmacy

Doctor of Pharmacy, Nontraditional PharmD (NTPD) – Extended Studies

As a working and licensed pharmacists in the United States or Canada, this nontraditional pharmD (NTPD) program is a part-time and flexible program that meets clerkship requirements through a combination of challenge credit for professional practice experiences and through clerkships performed in traditional or nontraditional formats. The NTPD program is fully accredited by the Accreditation Council for Pharmacy Education. No visits to campus are currently required.

School of Public Affairs

Master of Criminal Justice

The master's degree in criminal justice helps you develop your critical thinking skills and provides an interdisciplinary perspective on crime and the criminal justice system. Specifically, the program focuses on law enforcement, correctional systems, juvenile justice and the formulation of laws and codes. Besides the classic criminal justice curriculum, you will learn about the most pressing current issues through special interest seminars. Past topics have included gang behavior, white-collar crime and hate crimes. Research projects provide another channel for you to become familiar with the issues.

You must complete 36 graduate semester hours, which include a core sequence of four core courses providing a firm foundation in theory, practice and research methods associated with U.S. criminal law and justice. A wide variety of electives gives you the chance to develop special expertise in your unique area of interest (e.g., corrections, mental illness and crime, federal law enforcement, victim assistance and criminal justice administration).
If you do not have previous criminal justice experience, you will be required to complete an internship with a local, state or federal criminal justice or juvenile justice agency. The Internship/Field Study will count as 3 of the 21 elective semester hours. The program culminates with either a traditional 3-6-semester-hour thesis, or a 3-semester-hour field-based final capstone project. The following are examples of courses available online from spring 2007 through spring 2009, along with proposed courses. Visit [www.cuonline.edu/catalog](http://www.cuonline.edu/catalog) for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Law and Social Control
- Administration of Criminal Justice
- Nature and Causes of Crime
- Research Methods in Criminal Justice
- Advanced Seminar/Capstone

Program contact: Brendan Hardy, Brendan.Hardy@ucdenver.edu

**Public Administration (MPA)**

This master of public administration (MPA) degree will help you manage government and nonprofit organizations as well as nourish the related skills needed to thrive in this growing field. The curriculum is built upon core courses that develop essential problem-solving and decision-making skills. The required curriculum will help hone skills in management and analysis, but you may gain specific insights into an area of interest by pursuing one of three concentrations available. Each is designed to equip you with the management and analysis skills demanded of managers in challenging public affairs positions.

You must complete a minimum of 36 semester hours of graduate course work, excluding preparatory workshops, with a grade point average of 3.0 or better. The following are examples of courses available online from spring 2007 through spring 2009, along with proposed courses. Visit [www.cuonline.edu/catalog](http://www.cuonline.edu/catalog) for up-to-date information about online degrees and available courses. All courses are 3 semester hours.

- Advanced Seminar in Public Policy and Management
- Economics and Public Finance
- Introduction to Public Administration and Public Service
- Leadership and Professional Ethics
- Organizational Management and Change
- Research and Analytic Methods
- The Policy Process and Democracy

Program contact: Annie Davies, Annie.Davies@ucdenver.edu

**Nonprofit Management Certificate**
The nonprofit management certificate prepares you to become an innovative and critical thinker in the areas of nonprofit organizational management and public policy. The nonprofit certificate’s unique design bridges theoretical knowledge with real-world experience. As you prepare to start your career (or advance in your current position), you’ll gain insight into the interdependence between the nonprofit, public and for-profit sectors.

You must complete 15 semester hours from courses offered and approved by the faculty in the nonprofit program. The following are examples of courses available from spring 2007 through spring 2009 along with proposed courses. Visit www.cuonline.edu/catalog for up-to-date information about online degrees and available courses.

All courses are 3 semester hours.

- Collaboration Across Sectors
- Nonprofit Boards and Executive Leadership
- Nonprofit Financial Management
- Nonprofits and Public Policy
- Seminar in Nonprofit Management
- Social Entrepreneurship
- Strategic Management for Nonprofit and Public Managers
- Understanding and Achieving Funding Diversity

Program contact: Annie Davies, Annie.Davies@ucdenver.edu

**Hybrid Courses**

A hybrid course is just like it sounds. It is half on-campus and half online. The best of both worlds. So if you’re taking online courses and enjoy the scheduling flexibility but feel that you’re missing out on some of the intangibles of being in a classroom, then the hybrid courses are for you. Hybrid courses meet approximately 50 percent of the normal classroom hours on campus, and the remainder of the course work is completed online.

**Supplemental Courses**

An online technology supplemented campus course uses technology delivered instruction and materials (e.g. Web, CD ROM, etc.) to supplement classroom or laboratory instruction. CU Online also supports faculty using Web-based courseware to augment their traditional classes. Many faculty use instructional technology to post their syllabi, lecture notes, hold online quizzes and practice exams, and to coordinate Web resources and library media. But these materials do not substitute for or reduce the amount of traditional on-campus instructional contact time.

Contact CU Online at 303-315-3700, visit the Web site at www.cuonline.edu or send an e-mail to helpdesk@cuonline.edu.
Faculty
The professors and faculty of traditional classes are the same ones teaching online courses. That might not immediately evoke your applause and admiration, but it’s actually great news. Four out of five full-time faculty hold doctoral degrees with many years of teaching experience, and many are actively engaged in their fields outside the classroom. Not only do they have real-world experience, but many of our faculty are consultants, advisors and partners to the leading organizations that frequently hire UC Denver graduates.

Tuition, Fees and Financial Aid
At UC Denver, we have a longstanding belief that finances should never stand in the way of motivated, talented individuals who want to better themselves and make a positive impact on the world around them. Through a tradition providing strong financial assistance and aid programs, we enforce this belief every day.

Tuition and Fees
Bursar: Evan Icolari
Office: North Classroom, 1003
Telephone: 303-556-2710
E-mail: bursar@ucdenver.edu
Web site: www.ucdenver.edu/bursar/
Student Service Center: North Classroom, 1001
Telephone: 303-556-2710

All tuition and fee rates are established by the Board of Regents, the governing body of the University of Colorado, in accordance with legislation enacted annually by the Colorado General Assembly. The regents set tuition rates and fees at a budget retreat in June for the coming fall, spring and summer terms, but reserve the right to change rates at any time. Rates for the current year are available online to assist prospective students in anticipating costs. Please refer to the Web site at www.ucdenver.edu/bursar in July for new rates.

Registration Advance Payment
All students will be required to pay a nonrefundable $200 registration advance payment each term prior to registering. Students may register for a term once that term’s registration advance payment is made. This advance payment will be applied to that term’s tuition and fees cost.

To note disadvantage students who have significant financial need, a waiver of the term’s registration advance payment will be allowed if the student has applied for financial aid and has met other financial aid eligibility criteria for that term. If the student
pays the registration advance payment and later applies for and receives full tuition and fees from financial aid, the excess paid will be refunded to the student.

For more information, please visit www.ucdenver.edu/bursar.

**Drop Charge**

Beginning the second Tuesday of the fall and spring terms until census date (the sixth day of summer term), a $100 drop transaction charge will be assessed each time a student drops a course. This includes student initiated drops done in order to change sections within a course. Section changes done for an administrative purpose through the deans’ offices will be exempted from drop charges. If a student withdraws (therefore dropping all classes), a drop charge will be assessed for each course.

For more information, please visit www.ucdenver.edu/bursar.

Special tuition rates are available for nondegree graduate students taking undergraduate courses only. Contact the Office of the Registrar at 303-556-2389 to request this special tuition rate.

**Payment of Tuition and Fees**

All tuition and fees (except the application fee) are due on the day indicated on your billing statement. Students may choose the payment plan that is available on the Downtown Campus. Specific information on the deferred payment plan is included on the Web site, published before each semester.

Students who register for courses are liable for payment of tuition and fees if they withdraw from school after census date. Refund policies for students who withdraw from the university both before and after census date are included in the academic calendar. A student with financial obligations to the university will not be permitted to register for any subsequent term, to graduate, to be issued transcripts or to be listed among those receiving a degree or special certificate. The only exception to this regulation involves loans and other types of indebtedness that are due after graduation. Personal checks are accepted for any university obligation. Any student who pays with a check that is not acceptable to the bank will be assessed an additional service charge. Students may also pay tuition and fees by credit card, or through the student portal by credit card or an electronic withdrawal directly from a checking or savings account.

Students who register in a nondegree status, and who later apply and are admitted to a degree status for that term, are responsible for the difference in tuition between the nondegree program and their applicable degree program and will be billed accordingly.
Undergraduate tuition for resident students is based on the total number of completed semester hours. The rate increases once a student has completed 60 hours.

Tuition Appeals

Students are responsible for abiding by the published deadlines. Tuition is not refundable when students drop or withdraw from courses after the published deadlines. If circumstances beyond the student’s control have made the late drop or withdraw necessary, the student may file a tuition appeal.

Instructions and forms for submitting a tuition appeal are available on the registrar’s Web site, www.ucdenver.edu/registrar, or in the Office of the Registrar in the CU Building Annex. Completed tuition appeals packets must be submitted to the tuition appeals coordinator in the registrar’s office within three months following the end of the term being appealed.

Past Due Tuition and Fees

Past due student accounts are referred to the Office of Student Debt Management (SDM) for collection. If accounts are not paid in full, a 20 percent internal collection cost will be assessed on the unpaid balance. This is in addition to the 1.75 percent service charge per month that all past due accounts are subject to. If your account is referred to a third-party agency, you must pay any collection costs and attorney fees allowed by the Uniform Consumer Credit Code.

College Opportunity Fund (Vouchers)

An act of the Colorado state legislature in May 2004 established a new way for the state to provide state tax dollar support for higher education at the undergraduate level. The state is no longer appropriating monies to institutions for undergraduate education, but is providing direct funding to undergraduate students through the College Opportunity Fund (COF). This program is also known as “vouchers” or “stipends.” If an undergraduate in-state student applies for and authorizes use of the voucher, COF vouchers will be applied to the student’s university bill.

For details, see www.CollegeinColorado.org.

Residency Classification for Tuition Purposes

Tuition classification is governed by Colorado statutes that apply to all state-funded institutions in Colorado. Institutions are bound by the provisions of this statute and are not free to make exceptions to the rules set forth.
Students are initially classified as in-state or out-of-state for tuition purposes at the time of application. The classification is based upon information furnished by the student and from other relevant sources. After the student’s status is determined, it remains unchanged in the absence of satisfactory evidence to the contrary.

Once a student is classified as a nonresident for tuition purposes, the student must petition for a change in classification. Petitions must be submitted NO LATER THAN THE FIRST OFFICIAL DAY OF CLASSES of the term for which the student wishes to be classified as a resident. It is preferred that petitions be received 30 days prior to the beginning of the term. Late petitions will not be considered until the next semester. Specific information may be obtained from the Office of Admissions.

The final decision regarding tuition status rests with the university. Questions regarding residence (tuition) status should be referred only to the tuition classification officer. Opinions of other persons are not official or binding upon the university. Additional information is available in the brochure Classification of Students for Tuition Purposes, which may be obtained from the admissions office.

**Basic Requirements**

The statute provides that an in-state student is one who has been a legal domiciliary of Colorado for one year or more immediately preceding the beginning of the term for which the in-state classification is being sought. Persons over 23 years of age or who are emancipated establish their own legal domicile. Those who are under 23 years of age and unemancipated assume the domicile of their parent or court-appointed legal guardian. An unemancipated minor’s parent must, therefore, have a legal domicile in Colorado for one year or more before the minor may be classified as an in-state student for tuition purposes.

**Establishing Domicile**

Domicile is established when one has a permanent place of habitation in Colorado and the intention of making Colorado one’s true, fixed and permanent home and place of habitation. The tuition statute places the burden of establishing a Colorado domicile on the person seeking to establish the domicile. The question of intent is one of documentable fact and needs to be shown by substantial connections with the state sufficient to evidence such intent. Legal domicile in Colorado for tuition purposes begins the day after connections with Colorado are made sufficient to evidence one’s intent. The most common ties with the state are (1) change of driver’s license to Colorado, (2) change of automobile registration to Colorado, (3) Colorado voter registration, (4) permanent employment in Colorado and most important, (5) payment of state income taxes as a resident by one whose income is sufficient to be taxed. Caution: payment or filing of back taxes in no way serves to establish legal domicile retroactive to the time filed. In order to qualify for in-state tuition for a given term, the 12-month waiting period
(which begins when the legal domicile is established) must be over by the first day of classes for the term in question. If one's 12-month waiting period expires during the semester, in-state tuition cannot be granted until the next semester.

**Resident Tuition for Active Duty Military Personnel**

The Colorado legislature approved resident tuition for active duty military personnel on permanent duty assignment in Colorado and for their dependents. **ELIGIBLE STUDENTS MUST BE CERTIFIED EACH TERM.** Students obtain a completed verification form from the base education officer and submit the form with their military ID to the registrar's office after they have registered but before the end of the drop/add period. At the time the verification form is certified in the registrar's office, the student's bill will be adjusted to reflect the resident tuition rate. Students who have been certified remain classified as nonresidents for tuition purposes and must petition to change their status once they establish permanent ties to Colorado.

**Financial Aid**

**Director of Financial Aid:** Patrick McTee  
**Office:** North Classroom, 1030  
**Telephone:** 303-556-2886  
**E-mail:** finaid@ucdenver.edu  
**Web site:** [www.ucdenver.edu/finaid](http://www.ucdenver.edu/finaid)

The Financial Aid Office offers more than $70 million in financial aid awards to qualified students at the Denver Campus each year. If the student’s financial aid application materials are received before the April 1 priority date, then the student is considered for a package of need-based grant, work-study (part-time employment), and/or student loan funds. If the financial aid application materials are received after the April 1 priority date, then the student is usually considered only for a Federal Pell Grant and student loans.

**Eligibility**

Each student must qualify for financial aid as follows:

1. Be a U.S. citizen or be admitted to the United States by the INS on a permanent basis.
2. Be classified as a degree-seeking student by the Denver Campus Office of Admissions (Teacher certification students are eligible to apply for financial aid and are considered undergraduate students according to federal guidelines).
3. Be enrolled for a minimum number of credits as specified on the financial aid award letter.
4. Meet the minimum requirements of Financial Aid Academic Standards.
5. Apply for financial aid by submitting all of the required documentation. The Free Application for Federal Student Aid (FAFSA) is required for all programs.
6. Not be in default on any student loan or owe a refund on any educational grant.
7. Male applicants must be registered with the Selective Service.

Applying

Each applicant must complete the financial aid application materials for submission to the Financial Aid Office. Complete information must be available to the office before eligibility can be determined.

Limited Funds—The majority of general financial aid funds are awarded on a first-come, first-served basis to eligible students who document significant financial need and who submit a valid FAFSA application to the Financial Aid Office by the April 1 priority date. Application completion is defined as having the results of the FAFSA (Free Application for Federal Student Aid) and all other required documents into the Financial Aid Office. The FAFSA is available at www.fafsa.ed.gov. Financial aid is awarded to needy students who meet the priority date until all of the funds are committed for the year. If the file is completed after April 1, then awards will limited to Federal Pell Grant (for needy undergraduate students only) and/or student loans. Application for financial aid must be made each year; application materials are available in January of each year.

It is the student’s responsibility to be sure application materials are complete. Please contact the Financial Aid Office for application forms and complete details. You may also obtain this information online at www.ucdenver.edu/finaid. All financial aid policies and procedures are subject to change due to revisions in federal and state laws, regulations, guidelines and applicable institution policies.

Qualifying

Financial Need

Most financial aid awards are based on the concept of financial need. Financial need is calculated as cost of attendance (tuition, fees, books, living expenses) minus family contribution (student/spouse contribution and parents’ contribution for dependent students).

The cost of attendance is the estimated total cost to attend UC Denver, including tuition and fees, room and board, books and supplies, transportation and personal expenses. The Financial Aid Office determines standard budgets based upon average tuition and fees charged and other budget items established by the Colorado Commission on Higher Education. Current cost-of-attendance figures are available on our Web site at www.ucdenver.edu/finaid.

The contributions from the student/spouse and from the parents are calculated by a standardized formula that is required by federal law. The formula considers income,
savings and other assets, family size, number of children in postsecondary school and other factors.

If the student/spouse contribution plus the parents’ contribution is equal to or greater than the cost of attendance, then the student will not qualify for need-based financial aid. Students may appeal for special consideration if they are experiencing unusual circumstances. Financial aid is intended to supplement and not replace financial contributions from the student and parents.

Determining Dependency Status

The federal government provides specific guidelines that define dependency status for financial aid purposes. Dependency status is determined by a series of questions on the FAFSA that can be reviewed at www.fafsa.ed.gov. Students classified as dependent are required to provide student and parent household and financial information from their parents when applying for financial aid. If a student is classified independent, then the student’s parental information is not considered when the calculation of family contribution is made. Current law defines an independent student as one who meets at least one of the following conditions:

1. Age 24 or older (born after January 1, 1986)
2. Graduate student
3. Married student
4. Student with legal dependents other than a spouse
5. Student has children who receive more than half their support
6. Veteran of the U.S. armed forces or currently on active duty
7. At age 13 or older was an orphan, ward of the court or in foster care
8. Student is an emancipated minor or in a legal guardianship in their state of legal residence
9. On or after July 1, 2008, was a unaccompanied homeless youth or considered an unaccompanied, self-supporting youth at risk of becoming homeless

A dependency status may be appealed to the Financial Aid Office if unusual circumstances exist. Contact the office for appeal guidelines.

Course Loads

Most undergraduate financial aid programs require at least 12 credits per semester, and graduate programs require at least 5 credits per semester. Federal Stafford Loan recipients must carry at least a half-time credit load (6 semester hours for undergraduates per semester and 3 semester hours for graduates per semester). Higher or lower minimums may be required for individual awards (check your award letter for the exact number of credits required).
Satisfactory Academic Progress (SAP)

Students must make satisfactory academic progress as defined by the Financial Aid Office to be eligible for financial aid. For more information, students should review the Financial Aid Academic Standards policy, available on our Web site or in the Financial Aid office.

Appeals

Students may appeal all decisions by contacting the Financial Aid Office in person or by written request. Appeals will be reviewed and considered within three weeks of receipt and a written response will be mailed to the student. The decision of the appeals committee is final.

Refunds and Repayments

If a recipient of federal financial aid withdraws from all classes on or before the 60 percent point of the term, that student may be required to repay a portion of his/her financial aid. The federal government has defined that the recipient has only earned a portion of their financial aid, and the earned aid is directly proportional to the percentage of time the student attended classes up to and including the 60 percent point of the term. The rest of the financial aid is defined as unearned financial aid and must be returned to the federal financial aid programs. Unearned aid includes both the amount allocated to tuition and fees and the amount allocated to the student for other educational expenses. For a complete description of these requirements, request a copy of the financial aid repayment policy from the Financial Aid Office.

Reapply Each Year

Financial aid awards are not automatically renewed each year. Students must reapply and meet priority dates each year. Application materials for the next academic year are available beginning January 1.

Awards

Students are notified in writing of their financial aid eligibility approximately four to six weeks after all application materials have been received in the Financial Aid Office. If
awarded, an award notice is e-mailed to the student; it includes the types and amounts of aid awarded and the minimum number of semester hours required each term.

Grants, Loans and Work-Study

The following aid programs are funded by the federal government:

1. Federal Pell Grant—Eligibility for the Federal Pell Grant is determined before any other aid is awarded. Awards are defined by a strict need-based formula provided by the federal government, and award amounts vary depending on the amount of financial need and enrollment status. Only undergraduate students seeking a first time bachelors degree are eligible.

2. ACG and SMART Grants—Academic Competitiveness Grants (ACG) are awarded to freshman and sophomore Pell Grant recipients who are U.S. citizens and who have graduated from high school programs designated as a rigorous program. National Science and Mathematics Access to Retain Talent Grants (SMART) are awarded to junior and senior Pell Grant recipients who are U.S. citizens and who are majoring in specific areas of physical, life or computer sciences; mathematics, technology, engineering or a critical foreign language.

3. Federal Teach Grant—This Teach Grant program is available to students who intend to teach in a public or private service school that serves students from low-income families. Students can be considered for up to $4000 per academic year, if eligible. More information can be found on the Financial Aid Office Web site.

4. Federal Direct Stafford Loan (2 types)—The subsidized Federal Direct Stafford Loan program requires that students show financial need in order to qualify. Interest on the subsidized loan is paid for the student by the federal government as long as the student remains enrolled at least half-time and for a six-month grace period after graduation or dropping below half-time enrollment. The unsubsidized Federal Direct Stafford Loan program does not require the student to document financial need, but a valid FAFSA application is required. Eligibility is calculated as the cost of attendance minus other financial aid awarded. Interest is not paid by the federal government for the unsubsidized program, and the student may elect to pay the interest now or to allow the interest to be added to the total principal loan amount.

5. Federal Direct PLUS Loan—Graduate students and parents of dependent students are eligible to borrow under the Federal Direct PLUS program. The PLUS program is unsubsidized, and interest payments become the responsibility of the borrower at the time of disbursement.

6. Federal Supplemental Educational Opportunity Grant (SEOG)—This is a need-based grant program for students who have not yet obtained a bachelor’s degree. Students must be eligible for a Federal Pell Grant to be considered for SEOG. This funding is very limited.
7. *Federal Perkins Loan*—This is a need-based loan program, with an fixed interest rate currently at 5 percent. No repayment of interest or principal is due until nine months after the student ceases to be enrolled at least half-time or graduates.

8. *Federal College Work-Study*—Work-study is a need-based program that allows students to work on a part-time basis (on campus, off campus or at nonprofit agencies) to help meet their educational costs.

The state of Colorado funds the following programs:

1. *Colorado Student Grant*—A need-based grant for resident undergraduate students.
2. *Colorado Leveraging Educational Assistance Partnership Grant*—A need-based grant for resident undergraduates who have not yet obtained a bachelor's degree. This grant is funded 50 percent by the federal government and 50 percent by the state of Colorado.
3. *Colorado Graduate Grant*—A need-based grant for resident graduate students.
4. *Colorado Work-Study*—A program similar to the College Work-Study program but limited to resident undergraduate students. Limited amounts of Colorado Work-Study funds are available to students regardless of financial need. In addition, there are some grant programs funded by the institution.
5. *Colorado Teach Grant Program*—This scholarship to students in an approved teacher preparation program who excel in high-need content areas and who demonstrates an interest or commitment to teaching as a career.

**DRUG CONVICTIONS AND FINANCIAL AID ELIGIBILITY**

A student who has been convicted of any offense under any federal or state law involving the possession or sale of a controlled substance shall not be eligible to receive any grant, loan or work assistance during the period beginning on the date of such conviction and ending after the interval specified in the following table:

**If convicted of an offense involving:**

**The possession of a controlled substance: Ineligibility period is:**
First offense ......................... 1 year
Second offense ...................... 2 years
Third offense ........................ Indefinite

**The sale of a controlled substance: Ineligibility period is:**
First offense .......................... 2 years
Second offense ...................... Indefinite

**Scholarships**
For a complete listing of the many scholarships offered at the Denver Campus, go to www.ucdenver.edu/admissions. In addition, many Internet search programs are available to help students identify scholarships for which they may be eligible. One of the largest is www.FastWeb.com.

**Other Sources**

There are several other sources of funds for students. Employment opportunities are listed in the Student Employment Office and the Career Center. Graduate students should inquire about additional types of financial aid through their academic departments. American Indian students should request information about Bureau of Indian Affairs and tribal scholarships from their tribe.

**Short-Term Loans**

Short-term loans are available to enrolled students to cover unexpected financial needs. Loans are generally limited to $500 and are due within 30 days. There is a $10 per loan administrative charge.

**Find it Here**

Office of the Registrar

*UC Denver offers students a completely online system of planning their schedules and registering for classes. As a student, you are responsible for knowing the deadlines, rules, regulations, course loads, prerequisites and policies of the university, as well as those of the college or school in which you are enrolled, all of which is provided within this online catalog.*
Office of the Registrar

Registrar: Teri Burleson
Office: CU-Denver Building Annex, 100
Telephone: 303-556-2734
E-mail: Teri.Burleson@ucdenver.edu
Web site: www.ucdenver.edu/Registrar

Academic Calendar*

Summer 2010

Registration Begins early March
May 31 Memorial Day holiday (campus closed, no classes)
May 18–June 4 Maymester
June 7–July 31 Summer
July 5 Independence Day holiday observation (campus closed, no classes)
July 31 End of Term

Fall 2010

Registration Begins late April
August 23 First day of classes
September 6 Labor Day holiday (campus closed, no classes)
November 22–28 Fall break for students (campus open, no classes)
November 25 Thanksgiving holiday (campus closed, no classes)
December 13–18 Finals week
December 18 Commencement
Spring 2011

Registration Begins early November
January 17 Martin Luther King Jr. holiday (campus open, no classes)
January 18 First day of classes
March 21–27 Spring break (campus open, no classes)
May 9–14 Finals week
May 14 Commencement

Maymester - Summer 2011

Registration Begins mid-March
May 30 Memorial Day holiday (campus closed, no classes)
May 17–June 3 Maymester
June 6–July 30 Summer
July 4 Independence Day holiday (campus closed, no classes)
July 30 End of Term

*The university reserves the right to alter the academic calendar at any time. Consult the Web site at www.ucdenver.edu/registrar for application deadline dates, deadlines for changing programs and registration dates and procedures.

Registration
Students should review the sections of this catalog that describe in detail the academic programs available at the Denver Campus.

New and transfer undeclared undergraduate students, as well as prebusiness and preengineering students, should contact the Academic Advising Center at 303-352-3520 to arrange for an advising appointment prior to registration. Other freshmen and transfer students should contact their school or college to arrange for an advising appointment prior to registration.
The registrar’s office will send an e-mail message to the student’s university-assigned e-mail address, inviting the student to register, including registration information and a registration time assignment. Registration is by time assignment only. Students may register via the Web on or after their assigned time.

Web Registration and Student Information

Denver Campus students can register and obtain information regarding their academic and financial records by accessing a secure web site that requires an assigned student ID and personal identification number (PIN) to access their registration or student record options.

Online registration allows the student to check the availability of specific courses prior to their registration time and to search for available courses by department, course level or meeting time. If registration in a course is denied, the Web registration system will specify the reason.

Student information available online currently includes mailing address verification (or change), admission application status, financial aid information, schedule by semester, grades by semester, unofficial transcript, account balance, online payment and degree audit (for some programs). For security reasons, none of the student information screens will display a student’s name or student number.

Additional information regarding programs, faculty, courses and policies are available through the home page: www.ucdenver.edu.

Definition of Full-Time and Part-Time Status

Individual students receiving financial aid may be required to complete hours in addition to those listed below. The exact requirements for financial aid will be listed in the student’s financial aid award letter.

Undergraduates and nondegree graduate students:

- Full-time 12 or more semester hours
- Part-time 6 or more semester hours

Graduate degree students:

Full-time:
5 or more semester hours
0 semester hours as candidate for degree
1 or more semester hours of thesis (not master’s reports or thesis preparation)

Half-time:

3 or more semester hours

Notes

Enrollment verification including full-time/part-time attendance can be certified beginning the first day of class.

Hours for calculating full-time/part-time attendance do not include interinstitutional hours, nor do they include hours on another CU campus, unless the student is enrolled through concurrent registration.

Students receiving veteran benefits should contact the Veteran Student Services Manager for the definition of full-time status for summer sessions. Contact information: 303-556-2745 or vaoffice@ucdenver.edu.

Individual exceptions to the minimum graduate course-load levels are considered for financial aid purposes by the financial aid committee. Students must file a written appeal with the Office of Financial Aid.

Add/Drop

Please review the current term’s academic calendar for the most recent add/drop deadlines by visiting the registrar’s Web site at www.ucdenver.edu/registrar.

Administrative Drop

An administrative drop is implemented by university officials in the registrar’s office or the dean’s office. A student may be administratively dropped from one or more classes or withdrawn from all classes for any of the following reasons:

- failure to meet certain prerequisites, including but not limited to:
  - class cancellations
  - failure to meet course prerequisites
- whenever the safety of the student, faculty member or other students in a course would be jeopardized
- academic suspension, including but not limited to failure to attain or maintain a required GPA
- disciplinary suspension for having been found to have violated the Student Code of Conduct
disruptive behavior determined by the chair and/or associate dean to be detrimental to the progress of the course and the education of other students

Auditing Courses

To qualify as an auditor for fall or spring semester, a student must be 21 years of age or older or approved by the registrar. Auditors may not be registered for any other University of Colorado courses during the time they are auditing and are not eligible to audit courses if they are under suspension from the university or have outstanding financial obligations to the university. The registrar’s office does not keep any record of courses audited; therefore, credit for these courses cannot be established. Auditors may attend as many courses as they wish (except those courses with laboratories or where special equipment is used), provided they have received permission from each instructor.

An auditor’s card is issued after classes begin. This card should be presented to the instructor. Auditors, whether resident or nonresident, pay 3 semester hours of resident tuition for all audited courses during the fall or spring semester for class instruction and library privileges only. Auditors do not receive student parking privileges and are not eligible for other student services. For more information, contact the bursar’s office.

Senior citizens (aged 60 and over) may audit classes at no charge. Contact the Division of Enrollment and Student Affairs at 1250 14th Street, 303-556-8427.

Candidate for Degree

During the semester in which you take the comprehensive exam, defend your dissertation or thesis or present your final project, you must be registered. If you will NOT be registered for any other courses, you MUST register for CAND 5940, Candidate for Degree. You may only register for this course once.

To register for CAND 5940, Candidate for Degree, (you may NOT be registered for any other courses) obtain the call number from your department or program director. You will be billed at one credit hour of resident tuition plus the SIS fee and the information technology fee. Students registered for CAND 5940 will be considered full-time for financial aid and enrollment verification purposes.

Course Load/Restrictions

In most cases, students wishing to take more than 18 semester hours (12 in the summer session) must have the overload approved by the dean of their college or school. Consult the individual college or school for specific guidelines as to course-load restrictions.
Credit by Examination

Degree students may take examinations for credit. To qualify for an examination, the student must be formally working toward a degree at UC Denver, have a GPA of at least 2.0 and be currently registered. Contact the registrar’s office for instructions. A nonrefundable fee is charged. Students should contact their degree advising office to determine whether the credit will apply to their degree.

No Credit

Students may register for a course on a no-credit basis with the consent of their instructor and the dean of their school or college. No grade or credit is awarded. The transcript reflects the name of the course taken and an N/C notation.

Pass/Fail Procedure

1. Students who wish to register for a course on a pass/fail basis (or to revert from pass/fail to graded status) may do so only during the drop/add period.
2. Up to 16 semester hours of course work may be taken on a pass/fail basis and credited toward the bachelor’s degree. Only 6 hours of course work may be taken pass/fail in any given semester. (Note: Individual schools and colleges may have additional restrictions as to pass/fail credits. See the accompanying chart for an overview.)
3. Instructors will not be informed of pass/fail registration. All students who register for a pass/fail appear on the regular class roster, and a normal letter grade is assigned by the professor. When grades are received in the registrar’s office, those registrations with a pass/fail designation are automatically converted by the grade application system. Grades of D– and above convert to grades of P. Courses taken pass/fail will be included in hours toward graduation. Pass grades are not included in a student’s GPA. An F grade in a course taken pass/fail will be included in the GPA.
4. Pass/fail registration records are maintained by the registrar’s office.
5. Exceptions to the pass/fail regulations are permitted for specified courses offered by the School of Education & Human Development, the extended studies programs and study abroad programs.
6. Graduate degree students can exercise the P/F option for undergraduate courses only. A grade of P will not be acceptable for graduate credit to satisfy any Graduate School requirement.
7. Students who register for a course on a pass/fail basis may not later (after the drop/add period) decide to receive a letter grade.

Note: many other institutions will not accept a P grade for transfer credit.
PASS/FAIL OPTION RESTRICTIONS

Core Curriculum courses used to satisfy Intellectual Competencies cannot be taken on pass/fail basis.

<table>
<thead>
<tr>
<th>College/School</th>
<th>General</th>
<th>Maximum</th>
</tr>
</thead>
<tbody>
<tr>
<td>Business</td>
<td>Only nonbusiness electives may be taken pass/fail.</td>
<td>Only 6 semester hours may be taken pass/fail.</td>
</tr>
<tr>
<td>Engineering and Applied Science</td>
<td>Required courses may not be taken pass/fail. Upper division humanities and social sciences electives are acceptable; otherwise, major department approval is required.</td>
<td>A maximum of 16 semester hours may be taken pass/fail, including courses taken in the honors program.</td>
</tr>
<tr>
<td>Liberal Arts and Sciences</td>
<td>College requires a minimum of 30 semester hours of courses with letter grades. Courses used to satisfy major, minor or foreign language cannot be taken on a pass/fail basis.</td>
<td>No more than 6 hours pass/fail any semester. A maximum of 16 semester hours may be taken pass/fail.</td>
</tr>
</tbody>
</table>

Module/Intensive Courses

Courses are also offered in five-week modules, in special weekend courses and in seminars. Students should contact the college/school for information on short-term courses offered each semester.

Withdrawal from the University

To withdraw from the University of Colorado Denver, students must drop all courses for the semester. Prior to census (see current academic calendar for census date), students must use the web registration system to drop courses. Courses dropped during this period are not recorded on the student’s permanent record.

After the census date (see current academic calendar for census date), through the 10th week (fourth week for summer) students must submit a withdrawal form with the
approval of the dean and the Office of Financial Aid. Courses dropped during this period will be recorded on the student’s permanent record with a grade of W.

Students seeking to withdraw after the 10th week (fourth week for summer) must petition the associate dean of their school or college. A student who stops attending classes without officially withdrawing from the university will receive grades of F for all course work during that term.

Deadlines for dropping module and intensive courses appear in the student portal.

Other Registrations

Concurrent Enrollment

Degree-seeking students who wish to attend two University of Colorado campuses concurrently must obtain permission from their school or college on their home campus. A student in a degree program registered on the Downtown Campus may take up to two courses or 6 semester hours (whichever is greater) on another CU campus if:

- the student obtains a concurrent registration form from the office of the academic dean or the registrar’s office
- the course is not offered at the Denver Campus
- the student obtains approval from the academic dean
- there is space available at the other (host) campus
- the student pays tuition at the Denver Campus (home campus) at Denver Campus rates
- the home campus school or college arranges for space in the host campus classes
- the concurrent request is processed before the end of the drop/add period on both the host and home campuses

To drop a concurrent course during the host campus drop/add period, arrange the drop at the home campus registrar’s office. To drop a concurrent course after the end of the host campus drop/add deadline, drop the course at the host campus registrar’s office.

Interinstitutional Registration

UC Denver degree students may enroll in courses offered by the Community College of Denver. Students must be enrolled at UC Denver for at least one course during the term to be eligible to register interinstitutionally. Registration is on a space available basis. Interinstitutional courses are evaluated for transfer credit and are not included in a UC Denver student’s GPA.
Pooled Courses at Metropolitan State College of Denver

Certain courses in the College of Liberal Arts and Sciences have been pooled with similar courses at Metropolitan State College of Denver (Metro State). Undergraduate students at the Denver Campus may register for any of the pooled courses listed in the UC Denver Web registration system. Restrictions apply to the pooled courses:

1. UC Denver, Denver Campus graduate students are not eligible to register for Metro State pooled courses.
2. Metro State pooled courses will not be included in the University of Colorado GPA. Metro State courses will appear on the University of Colorado transcript and will count in hours toward graduation. See an academic advisor for approval.
3. Metro State courses cannot be used to meet specific course requirements toward the major without prior written approval of the student’s dean.
4. UC Denver, Denver Campus students who wish to take nonpooled Metro State courses must apply directly as a nondegree student to Metro State and pay tuition and fees to Metro State. Nonpooled classes will not appear on the University of Colorado transcript and will not be used in determining course loads for financial aid eligibility. Students may request an Metro State transcript to be sent to the Denver Campus at the end of the term to determine if credit can be transferred.
5. Metro State common pool courses will not satisfy residency requirements at the Denver Campus. The last 30 semester hours applied toward the baccalaureate degree must be taken in residence at the Denver Campus.
6. UC Denver, Denver Campus students taking Metro State common pool courses are subject to the Metro State grading policy and student code of conduct.

Academic Records

Student Classification

Students are classified according to the number of semester hours passed:

Freshman 0–29 hours
Sophomore 30–59 hours
Junior 60–89 hours
Senior 90+ hours

All transfer students will be classified on the same basis according to their hours of credit accepted by the University of Colorado.
Grading System and Policies

The following grading system and policies have been standardized for all academic units of the university. Other academic policies are listed in the University Policies chapter of this catalog.

Grade Symbols

The instructor is responsible for whatever grade symbol (A, B, C, D, F, I or IP) is to be assigned. Special symbols (NC and W) are indications of registration or grade status and are not assigned by the instructor. Pass/fail designations are not assigned by the instructor but are automatically converted by the grade application system, as explained under “Pass/Fail Procedure.”

<table>
<thead>
<tr>
<th>Standard Grades</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>( A = \text{superior/excellent} )</td>
<td>4</td>
</tr>
<tr>
<td>( A(-) = )</td>

<td>0.7</td>
</tr>
<tr>
<td>( F = \text{failing} )</td>
<td>0</td>
</tr>
</tbody>
</table>

Instructors may, at their discretion, use the PLUS/MINUS system but are not required to do so.

I— incomplete— converted to an F if not completed within one year.
IP— in progress— thesis at the graduate level only.
P/F—pass/fail—P grade is not included in the GPA; the F grade is included; up to 16 hours of pass/fail course work may be credited toward a bachelor’s degree.
H/P/F—honors/pass/fail—intended for honors courses; semester hours count toward the degree but are not included in the GPA.
NC indicates registration on a no-credit basis.
W indicates withdrawal without credit.

**Explanation of I**

An I is an incomplete grade. Policies with respect to I grades are available in the individual college and school dean’s offices.

An I is given only when students, for reasons beyond their control, have been unable to complete course requirements. A substantial amount of work must have been satisfactorily completed before approval for such a grade is given.

The instructor who assigns an I sets the conditions under which the course work can be completed and the time limit for its completion. The student is expected to complete the requirements by the established deadline and not retake the entire course.

It is the instructor’s and/or the student’s decision whether a course should be retaken. If a course is retaken, it must be completed on the Denver Campus or in extended studies classes. The student must re-register for the course and pay the appropriate tuition.

The final grade (earned by completing the course requirements or by retaking the course) does not result in deletion of the I from the transcript. A second entry is posted on the transcript to show the final grade for the course.

At the end of one year, I grades for courses that are not completed or repeated are changed to an F.

**Grade Point Average (GPA)**

GPA is computed by multiplying the credit points per hour (for example, B = 3) by the number of semester hours for each course. Total the hours, total the credit points and divide the total points by the total hours. Grades of P, NC, W, IP, and I are not included in the GPA. Grades that are not completed within one year are calculated as F in the GPA.

If a course is repeated, all grades earned are used in determining the GPA. Grades received at another institution are not included in the University of Colorado GPA.

Undergraduate, graduate and nondegree graduate GPAs are calculated separately. Enrollment in a second undergraduate or graduate program will not generate a second undergraduate or graduate GPA.
Students should refer to their academic dean’s office for individual GPA calculations as they relate to academic progress and graduation from their college or school.

**Good Academic Standing**

Good academic standing requires a minimum GPA that is determined by the student’s school or college. Grades earned at another institution are not used in calculating the GPA at the University of Colorado.

Degree students should consult the academic standards section of their school or college for degree program requirements.

Continuation as a nondegree student is contingent upon maintaining an overall GPA of 2.0 upon completion of 12 or more semester hours.

Failure to maintain the required average will result in a nondegree student being suspended. The suspension is for an indefinite period of time and becomes part of the student’s permanent record at the university. While under suspension, enrollment at the university is restricted; for more information contact the dean’s office of the school /college you are enrolled in.

Nondegree students are not placed on academic probation prior to being suspended.

**Automated Degree Progress**

A degree progress report is an automated record reflecting a student’s academic progress toward completing degree requirements in a declared major. Each degree progress report draws its information from the university’s student information system. Each time a new report is run, the most up-to-date course information and grades are used. A report can be requested by logging on to the student portal. Students should contact their schools and colleges for additional information on the availability of a specific degree progress report.

**Grade Reports**

Grades are normally available within two weeks after the end of the semester and can be accessed through the registrar’s Web page at [www.ucdenver.edu/registrar](http://www.ucdenver.edu/registrar).

**Graduation**

**Undergraduates**
Students should make an appointment with the advising office of their school or college to determine what requirements remain for graduation. Students intending to graduate must complete an intent to graduate application found on the Office of the Registrar’s Web page under Degree Planning between the first day of registration for the term and the last day of drop/add (noted on the academic calendar - census). Students will not be officially certified to graduate until a final audit of the student’s record has been completed approximately six weeks after the end of the term. After students have been certified to graduate, they must reapply to return to the Denver Campus.

Graduates

Students on the Denver Campus must file an application for candidacy with their graduate school office and complete an intent to graduate application found on the Office of the Registrar’s Web page under Degree Planning between the first day of registration for the term and the last day of drop/add. Check with your school for more information. Students will not be officially certified to graduate until a final audit of the student’s record has been completed, approximately six weeks after the end of the term. After students have been certified to graduate, they must reapply to return to UC Denver.

Commencement

In early March, informational brochures will be mailed to students eligible to participate in the May spring-semester commencement. In early October, information regarding the December commencement will be mailed to students who graduated in summer term or expect to graduate in fall term. Information will be provided about ordering special display diplomas, fittings for caps and gowns and obtaining diplomas and transcripts with the degree recorded. This information is also available at www.ucdenver.edu/student-services/graduation/Pages/Graduation.aspx.

Class Rank

Class rank will be calculated by undergraduate degree program within a school or college. It is possible for more than one student to have the same class rank, if more than one student has equivalent class ranking it will be reported as such. The option for a letter indicating the student’s class rank will be provided to any graduating undergraduate, but there will be no designation on the University of Colorado transcript for Denver Campus students receiving bachelor’s degrees. There will be one class rank per student per degree. Students can obtain class rank letters through the student portal. Late postings and grade changes after degrees are posted will not recalculate rankings. Rankings will be a snapshot calculation conducted once per term for each graduating undergraduate student after degrees are posted.
Official Transcripts

The official transcript includes the complete undergraduate and graduate academic record of courses taken at all campus locations or divisions of the University of Colorado. It contains the signature of the registrar and the official seal of the university.

Official transcripts for any given semester are available approximately three weeks after final exams. A transcript on which a degree is to be recorded is available approximately eight weeks after final exams.

On the Denver Campus, transcripts may be ordered through the student portal or requested by fax at 303-556-4829. Transcript request forms are available at www.ucdenver.edu/registrar; click on Forms.

Requests include the following:

- student's full name (include given or other name if applicable)
- student number
- birth date
- the last term and campus the student attended
- whether the current semester grades are to be included when a transcript is ordered near the end of a term
- whether the request should be held until a degree is recorded
- agency, college or individuals to whom transcripts are to be sent (Complete mailing addresses should be included; transcripts sent to students are labeled “issued to student”)
- student’s signature (This is the student’s authorization to release the records)

There is no charge for individual official transcripts (however fees are assessed for rush service). Transcripts are prepared only at the student’s request in writing or through online student PIN authentication. A student with financial obligations to the university that are due and unpaid will not be granted a transcript. Official transcripts require five to seven working days. Rush service is available and fees are assessed based on the service requested.

Notification of Rights Under FERPA at University of Colorado Denver

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records:

1. The right to inspect and review the student’s educational records within 45 days of the day that the university receives a request for access. Students should submit to the registrar, dean, head of the academic department or other appropriate official written requests that identify the record(s) they wish to
inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s educational records that the student believes are inaccurate or misleading. Students may ask the university to amend a record that they believe is inaccurate or misleading. They should write the university official responsible for the record, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosure of personally identifiable information contained in the student’s educational records, except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the university in an administrative, supervisory, academic or research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the university has contracted (such as an attorney, auditor or collection agent); a person serving on the board of trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility. Upon request, the university discloses educational records without consent to officials of another school in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University of Colorado to comply with the requirements of FERPA.

   Family Policy Compliance Office
   U.S. Department of Education
   400 Maryland Avenue, SW
   Washington, DC 20202-4605

The following items are designated “Directory Information” and may be released at the discretion of the University of Colorado Denver unless a student files a request to prevent their disclosure:

- name
- address
- e-mail address
• telephone number
• dates of attendance
• registration status
• class
• major
• awards
• honors
• degrees conferred
• photos
• past and present participation in officially recognized sports and non-curricular activities
• physical factors (height, weight) of athletes

Forms to prevent the disclosure of directory information can be obtained at the Student Service Center in North Classroom, 1003, or via the registrar’s Web site at www.ucdenver.edu/registrar. Questions regarding student rights under FERPA should be directed to the registrar’s office, 303-556-2389.

**Campus Life**

**At A Glance: Downtown Denver and Auraria**

*The University of Colorado Denver, Denver Campus is physically located on the 136-acre Auraria Campus, which is shared with two other institutions—Metropolitan State College of Denver and Community College of Denver. Because we share facilities, our students have access to the level of resources found at much larger public universities. Since fall 2006, the university has also been able to offer student housing adjacent to this traditionally commuter campus. Details about the campus and Campus Village are explained in this chapter.*

**Auraria Campus**

Since opening in 1976, Auraria has become the largest campus in Colorado, enrolling approximately 43,000 students—20 percent of all the students in public higher education in the state. This is the most efficiently utilized campus in the state. Classrooms on the Auraria Campus are used an average of 50+ hours per week. Classes are held from 7 a.m. to 10 p.m. Monday through Thursday and from 8 a.m. to 6 p.m. on Friday, Saturday and Sunday. Some courses and programs are offered cooperatively by the Auraria educational institutions. Those pertaining to UC Denver students are outlined in this catalog.

The Auraria Campus offers numerous amenities to students, faculty and staff, from the largest bookstore in the Rocky Mountain region to a state-of-the-art fitness facility. Details of these amenities are outlined in this chapter.
In addition to its proximity to the thriving business and industry of downtown Denver, the Auraria Campus has a distinct historic flavor. The Tivoli Student Union is housed in a renovated brewery originally built in the 1860s. Historic Ninth Street Park, St. Cajetan’s Church/Performing Arts Center, St. Elizabeth’s Church, the Emmanuel-Sherith Chapel/Synagogue/Art Gallery and the Golda Meir Museum are also located on campus.

Auraria Higher Education Center

The Auraria Higher Education Center (AHEC) is the administrative body that coordinates the facilities, services and activities for the three educational institutions on campus. AHEC provides common services for the campus including: classroom scheduling, facilities management and construction, campus police, telecommunications infrastructure, student union, media services, book store, early learning center, parking and transportation, mail services and facilities master planning. Visit their Web site for additional information.

Campus Amenities

Auraria Campus Bookstore

Location: Tivoli Student Union, 900 Auraria Parkway
Hours: Mon.–Thurs., 8 a.m.–6 p.m.; Fri. 8 a.m.–5 p.m.; Sat. 10 a.m.–3 p.m.; call during vacation and interim periods
Telephone: 303-556-4286
Web site: www.aurariabooks.com

The Auraria Campus Bookstore, a department of Student and Auxiliary Services—your campus store—is located in the historic Tivoli Student Union. The bookstore provides textbooks for the Auraria schools, plus a complete general book department that is especially strong in technical and reference areas. Best sellers, new releases and gift book selections change frequently and are often accompanied by displays of special value books on many subjects.

Students need to bring course printouts to locate textbooks. Books are located by school; subjects are arranged alphabetically—departmental abbreviations, with course and section numbers—and prices are printed on the shelf tag below. Each title has the designation of Required, Preferred, Optional or Available. You can also buy books online at www.aurariabooks.com.

The Auraria Campus Bookstore carries more used textbooks than any other bookstore in Colorado, but shop early as used books are the first to go. A full refund is given for new and used books accompanied by the receipt and returned within the first two weeks of class for regular semesters and two days from the first day of class for short terms.
Please read the refund policy on the back of the receipt.

When a course ends, the textbook may still have value and may be bought back by the bookstore. The buy-back policy on used texts is to pay half of the new price on books that will be used again next semester on this campus. Other texts are purchased at lower percentages. The Auraria Campus Bookstore’s buy-back services are dedicated to its student customers. A validated Auraria student ID is required to complete a buy-back transaction. Books are bought for this campus throughout the semester; however, buyers from national textbook companies are on hand at the end of each semester to purchase used books that may be required at other schools.

**Campus Computers**, 303-556-3726, offers the latest in hardware and software technology. An educational discount is offered to Auraria Campus students; a current, validated Auraria ID must be presented at the time of purchase. A full line of computer reference books and accessories are also available, as well as calculators and other small electronics. Campus Computers’ is located on the second floor of the Auraria Campus Bookstore.

A current photo ID is required for purchases paid for by check. The bookstore also accepts MasterCard, VISA, American Express and Discover.

*The Auraria Campus Bookstore is owned by the State of Colorado and supports the Student Bond Fund.*

**Auraria Early Learning Center (Child Care Center)**

**Location:** West Colfax and Ninth Street Park  
**Hours:** Mon.–Fri. 7 a.m.–6 p.m.  
**Telephone:** 303-556-3188  
**Web site:** [www.tivoli.org/earlylearning](http://www.tivoli.org/earlylearning)

The Auraria Early Learning Center serves the child care needs of Auraria’s students, staff and faculty by providing high-quality early childhood education and care programs. The Auraria Early Learning Center is located on the southwest corner of the campus. Its programs are consistently recognized by the educational community for their high-quality early childhood care and education. Developmentally appropriate practices for young children guide the educational programs that are provided. Curriculum planning is flexible and based on children’s interests.

Supervising teachers in the Auraria Early Learning Center are all degreed teachers meeting the certification guidelines of the State of Colorado and of the National Academy of Early Childhood programs. Children aged 12 months to 5 years are served at the center. The center also has a fully accredited kindergarten program.
Auraria Event Center/Student Recreation Center

Location: 1255 Tenth Street Mall
Telephone: 303-352-4371 (fitness center); 303-556-3210 (recreation); 303-556-2755 (events)
Web site: www.mscd.edu/~cra

The Auraria Campus PE/Event Center is a 2,800-seat facility for team and individual sport activities, academic programs, events and conferences. Funds from student recreation fees support the use by students of the many health and recreation facilities found within the building. Adjacent to the building are softball fields, tennis courts and a track.

Auraria Library

University Librarian/Director: Mary M. Somerville
Associate University Librarians/Directors: Meg Brown-Sica, Marical Farner, Ellen Greenblatt, Cynthia Hashert, Denise Pan
Office: 1100 Lawrence Street, Denver, CO 80204-2041

Beck, MLS, Emporia State University; Gayle Bradbeer, MLS, Emporia State University; Lorraine Evans, MLS, University of Maryland; Vera Gao, MLS, University of South Carolina; Cynthia Hashert, MLS, North Texas State University; Elaine Jurries, MA, University of Minnesota; Nikki McCaslin, MA, University of Denver; Ellen Metter, MS, Drexel University; Marit S. Taylor, MLS, Vanderbilt University; Linda Tietjen, MA, University of Denver; Louise Treff-Gangler, MA, University of Denver; Diane Turner, MLS, University of Pittsburgh; Judith Valdez, MLS, Emporia State University
Instructors: Eric Baker, MLS, Indiana University at Bloomington; Rosemary Evetts, MLS, Indiana University

About the Auraria Library. The Auraria Library provides a wide range of learning resources, research services and study environments to support academic programs.
Whether you’re looking for a quiet place to read and reflect, a source of authoritative academic information or a computer-enabled collaborative work space, the library offers a variety of spaces to meet your needs.

**Learning Materials Collection.** The Auraria Library collection contains nearly a million volumes of print books and ebooks, subscribes or links to more than 130,000 journals and offers in-house and online films. The library is also a selective depository for U.S. government publications and a depository for Colorado state documents. This collection is supplemented by access to other libraries within the state and across the nation through interlibrary loan services.

**Access and Discover Library Resources.** The library provides on- and off-campus access to a wide variety of electronic and print materials via the library’s home page ([http://library.auraria.edu](http://library.auraria.edu)). Nearly 400 databases provide access to full text articles, journal citations, statistics, laws and business data in a multitude of disciplines. Locally available items can be found with the Skyline catalog, while the WorldCat @ Auraria Library catalog facilitates finding print and electronic book, article and media holdings at the Auraria Library, regional and United States libraries, and beyond. You can customize WorldCat @ Auraria Library by adding keywords to records, submitting comments and creating lists of resources for quick access later.

**Information and Research Services.** When in doubt, visit the Ask Us desk for assistance with basic research questions, borrow items for your class (Course Reserves) or from the Library’s collection, request materials from regional libraries (Prospector) or national libraries (Interlibrary Loan). For more in-depth research inquiries, you may be referred from the Ask Us desk to the Research Help desk. Librarians are also available for walk-in, appointment, telephone and online help.

**Library Research Instruction.** Throughout the semester, students can learn essential skills needed to conduct scholarly research through classroom sessions, online tutorials, specialized workshops and personal consultations. During individual and classroom learning experiences, find out about powerful library search tools and Web-based resources that inform research papers, support class projects and provide career information.

**Learning Spaces and Computer Resources.** The Computer Commons and Learning Commons offer computer resources and scanning and printing capabilities. The Tech Help desk assists with troubleshooting hardware and software computer problems. In general, the first floor of the library is dedicated to collaborative learning and research, and the second floor is devoted to quiet study and collections. Photocopiers, microform reader/printers, a copy center and study rooms are also available.

**Services for Persons with Disabilities.** The library is committed to making its resources and services available to all students. Library services to assist persons with disabilities include orientation to the physical layout of the library building and assistance with the retrieval of materials.

**Auraria Media Center and Classroom Support Services**
The Auraria Media Center and Classroom Support Services offers a full range of media services and classroom support:

- distance learning technologies including video conferencing, webinars, audio conferencing, video over IP and ISDN and videotaping of course delivery
- circulation of a wide range of audio, video and data (AVD) presentation equipment for one-time use
- long-term classroom equipment check-out
- production of content on digital tape, DVD, CD and videotape by an award-winning staff using state-of-the-art digital editing, graphics and animation systems
- quantity duplication of DVD, CD, audio and videotape media
- equipment maintenance and repair
- equipment/systems consultation and installation

The Auraria Media Center’s 34-channel closed-circuit campus cable system can be used in the classroom to broadcast channels such as CNN, MSNBC, History, Discovery, A&E, PBS, CSPAN, NASA and local television networks. One channel is dedicated to and managed by each institution for distribution of programming of their choice.

Auraria Media Center staff are available to train faculty in the use of equipment in “smart” classrooms on campus and offer consulting services to faculty and other clients in such areas as media design and production, effective use of media types and effective use of distance learning technologies, effective use of those technologies and equipment selection to best meet instructional needs.

Auraria Media Center and Classroom Support Services will handle all of your classroom needs regarding furniture, projector screens, whiteboards, smart classroom equipment and ADA furniture placement.

**Clicks! Copy and Printing Services**

**Locations:**
- Tivoli Student Union, 211, 303-556-3702
- North Classroom, 1811, 303-556-2291
- South Classroom, 119A, 303-556-2679
- Auraria Library, 303-556-2751

**Hours:** Vary by location
Clicks! is an on-campus copying, printing and graphic design department. Four full-service copy centers around campus provide high-speed copying, color copies, laminating, binding and school supplies. Services vary by location.

**Emmanuel Gallery**

**Curator:** Shannon K. Corrigan  
**Location:** 1205 Tenth Street Mall  
**Hours:** Tues.–Fri. 10 a.m.–6 p.m.; Sat. 11 a.m.–5 p.m.  
**Telephone:** 303-556-8337  
**Web site:** [www.emmanuelgallery.org](http://www.emmanuelgallery.org)

Emmanuel Gallery is a tri-institutional, nonprofit art facility committed to enhancing the understanding of the visual arts. Through the presentation of high-quality art exhibits, lectures and events our purpose is to encourage critical thinking, creative research and training in gallery practices. Programs at Emmanuel Gallery promote excellence, education and enrichment to the diverse cultural community of the Auraria Campus and the Denver metropolitan area.

**Health Center of Auraria**

**Location:** Plaza Building, 150 (lower level)  
**Hours:** Vary (see below)  
**Telephone:** 303-556-2525  
**Web site:** [www.mscd.edu/healthcenter](http://www.mscd.edu/healthcenter)

All Denver Campus students are entitled to medical services at the Health Center at Auraria, and student health insurance is NOT required to use this facility. The Health Center is approved to provide emergency triage care to persons covered by Medicare and/or Medicaid. Other medical conditions will be referred to approved Medicare/Medicaid providers. Physicians, physician assistants, nurse practitioners, radiological technologists and medical assistants staff the facility. Students will be asked to complete a sign-in sheet and show a current semester ID card each time they check in.

Services include:

- treatment of illness and injuries
- lab testing
- medications
- physicals
- annual GYN exams
- sexually transmitted disease information/testing
- birth control information/services
- minor surgery
- immunizations
- HIV testing
- blood pressure checks
- casting
- suturing
- X-ray

All services listed above are low cost. The Health Center is an “in-network” medical provider for Blue Cross/Blue Shield (BC/BS) insurance plans (including out-of-state plans) and for all college-sponsored student health insurance plans. Patients participating in any of these plans simply pay their applicable co-payments at the time of service. Charges will be submitted by the Health Center directly to the insurance company. Patients not enrolled in one of the above plans are also eligible for services, but are required to pay at time of service. Classes regarding health-related topics are taught each semester and are offered free to all students. Scheduled and walk-in appointments are available. Walk-in services begin at 8 a.m., Monday – Friday. Access is on a first-come, first-served basis. Walk-in varies daily, contingent upon when all patient slots have been filled; thus, the daily closure time for walk-in care is variable. Patients are encouraged to check in as early as possible. Brochures with additional information are available at the Health Center.

**King Academic and Performing Arts Center**

**Location:** 855 Lawrence Way  
**Telephone:** 303-556-2179  
**Web site:** [www.ahec.edu/kingcenter](http://www.ahec.edu/kingcenter)

The King Center houses six performing spaces: three permanently assigned production studios, a 197-seat recital hall; 520-seat concert hall; and the 168-297 seat (depending on stage configuration) Eugenia Rawls Courtyard Theatre. There are dressing rooms, green room, recording studio, lighting lab, music electronics lab, classroom space, box office, scene shop, paint shop and costume shop. All spaces are fully equipped with state-of-the-art equipment and a variety of spaces for exhibiting fine art. The entire facility has more than 180,000 square feet dedicated to the education of the student and development of the student who wishes to study performance/arts. The center can support many forms of entertainment, anywhere from legit theatre to large choral ensembles and other forms of performances.

**Tivoli Student Union**

**Location:** 900 Auraria Parkway (Ninth and Auraria Parkway)  
**Telephone:** 303-556-6330  
**Web site:** [www.tivoli.org/tivoli/](http://www.tivoli.org/tivoli/)

The Tivoli Student Union, managed by Student and Auxiliary Services, provides a wide variety of services for the Auraria community. The student union houses student government and student life offices, two credit unions and tri-institutional services such as the GLBT student services.

If you want a break or a quiet place to study, the Tivoli Student Union is just the place. With a food court, coffeehouse, deli and convenience store, you'll find a place to suit your appetite, schedule and budget. If you’d rather retreat than eat, you can watch TV in the Roger Braun Student Lounge, play a game of pool at Sigi’s Pool Hall and Arcade, meet a study group in the multicultural lounge or study in total silence in the Garage Quiet Study Lounge.

Additional student services at the Tivoli Student Union include the Auraria Campus Bookstore, the Club Hub, Click's! Copy Center, event services and the ID program and Commuter Resource Center.

**Club Hub**  
Suite 346, 303-556-8094

This uniquely designed club space on the third floor of the Tivoli features work space for more than 60 clubs, mailboxes for campus clubs, a limited number of lockers, club bulletin boards and a lounge area for group meetings. This office works closely with the Student Advisory Committee to the Auraria Board (SACAB) and the student activities/life offices.

**Auraria Campus Event Services**  
Suite 325, 303-556-2755

Through the event services office, meeting and conference space at the Tivoli Event Center, St. Francis and St. Cajetan’s can be reserved for nonacademic purposes, including meetings, weddings and receptions. Events services has five caterers to choose from for all off-campus catering needs.

**ID Program/Commuter and Housing Services**  
Suite 269, 303-556-8385

Auraria staff, faculty and students go here to get their ID cards, which are necessary for parking in some campus lots and for checking out library books. Student IDs also serve as an RTD bus and light rail pass with a semester validation sticker. The center provides off-campus housing resources, RTD bus information, campus and Tivoli information, lost and found and a microwave oven.

**Sigi’s Pool Hall and Arcade**  
Suite 145, 303-556-3645

Sigi’s, named after Tivoli Brewery founder Moritz Sigi, houses 15 video game machines and six billiard tables. Sigi’s is open to the entire Auraria Campus population as well as
the public. The student-friendly atmosphere encourages community socialization and relaxation.

**Student Housing**

**University Policy and Support:** Tivoli Student Union, 260

**Telephone:** 303-556-3682

**E-mail:** housing@ucdenver.edu

**Web site:** [www.ucdenver.edu/life/Pages/Housing.aspx](http://www.ucdenver.edu/life/Pages/Housing.aspx)

**Leasing and Payment Options:** Campus Village Apartments, 318 Walnut Street

**Telephone:** 303-573-5272

**E-mail:** mgrdenver@edrtrust.com

**Web site:** [www.campusvillageliving.com](http://www.campusvillageliving.com)

The University of Colorado Denver, Denver Campus, has a live-in requirement for first-time undergraduate students.

**Benefits of living on-campus**

Research has shown that living in student housing during the first year has numerous benefits for students both academically and socially. Students who live on-campus their first year experience:

- Higher graduation rates than students who live off campus.
- A higher level of satisfaction with their college experience.
- A higher level of involvement in clubs and activities on campus.
- More frequent interaction with faculty members and peers.

**Live-in Policy**

The University of Colorado Denver is a residential campus, and all first-year students live in the Campus Village Apartments at Auraria. No other apartments or buildings meet the live-in policy requirement. First-year students live together in a dedicated wing of Campus Village. This wing includes the following additional amenities:

- Additional Staff – This wing of the complex will have a higher ratio of staff to students to help provide additional support, guidance and resources for first-time students.
- Special Programming – Many of the programming efforts sponsored by the university will be taking place in the first-year student wing of Campus Village. Programs will focus on study skills, navigating the university and community, living with a roommate and a variety of other topics.
- Connections with other first-year students - First-year students share many of the same challenges and anxieties as they begin their college careers. Living in a
community of students going through the same types of experiences provides a built-in support network and can lead to lasting friendships.

Exemptions

First-time freshmen students wishing to live with their parent(s) or legal guardian(s) or who qualify under at least one of the exemptions listed below must submit the "Exemption Form" to be considered for exception from the live-in policy. Exemptions to this policy will be evaluated and made on a case-by-case basis. For further information, please contact the Office of Student Life at 303.556.3399 or via e-mail at housing@ucdenver.edu.

Exemptions to the first-time freshmen live-in requirement:

1. You will be living at home with parent(s) or legal guardian(s).
2. You are a veteran of the armed forces.
3. You are married or a parent with dependent(s).
4. You are a part-time undergraduate student enrolled for less than 10 credit hours per semester.
5. You are deemed medically excusable by the Office of Community Standards and Wellness (must be supported in writing by a doctor and with appropriate medical documentation).
6. You are over 21 years of age.
7. All other requests will be evaluated on a case-by-case basis.

Exemptions be evaluated and made on a case-by case basis. Exemption forms are available through the Office of Community Standards and Wellness, Tivoli Student Union, 259, or online at www.ucdenver.edu/housingexemption. For further information, please contact the Office of Community Standards and Wellness at 303-556-2444 or via e-mail at housing@ucdenver.edu.

Campus Village Frequently Asked Questions

Amenities

At Campus Village at Auraria, students will find a community to support their academic and personal interests. It’s convenient, comfortable and affordable. Features include:

- apartment-style living with kitchenettes or full kitchens for all students
- lease rates that include heating, cooling, electricity, water, cable and high-speed Internet service
- on-site tutoring and academic support
- a variety of floor plans (from individual studios to four bedroom apartments) to meet the needs of all students
- individual lease agreements for shared units
- fully furnished apartments
- various affordable meal plans

Diagrams of floor plans, details about meal plans, pricing, applications and exemption forms are available on the Web site at www.campusvillageliving.com.

**Important Dates and Information**

**June 1, 2010:** UC Denver First-Year Student Priority Deadline

Freshman students are required to live in Campus Village for two academic-year semesters but this policy is subject to availability of space. Most residence hall assignments are made on a first-come, first-served basis, so you are encouraged to apply for housing as soon as possible after you confirm your enrollment.

**Payment and Billing**

Campus Village housing and dining fees will be billed to your UC Denver student account. If you receive financial aid, your award(s) will be credited directly to your student account. Financial aid awards are used to pay your tuition and fees first; any remaining award(s) are then used to pay your housing charges. You are responsible for any and all charges not covered by financial aid and scholarships. You must provide Campus Village with proof/verification of funds by September 15, 2010.

**Campus Safety**

The University of Colorado Denver places a priority on the safety and security of its faculty, staff, students, and visitors. Please visit the University Policies chapter of this catalog for additional information related to campus safety.

**Emergency Notification System**

The Emergency Notification System allows students, faculty, and staff to register to receive alerts about threats of imminent danger at or near any UC Denver location. This service is used in conjunction with other communication channels including: public address systems, broadcast e-mail and voice-mail messages to campus telephone extensions, electronic signage, a coordinated use of public media outlets and 24-hour recorded emergency and information hotlines (Denver/Auraria Campus 303-556-2401; Anschutz Medical Campus in Aurora 303-724-4636). Participants can receive various notifications including text messaging, e-mail, and phone calls. Visit the UC Denver Web site for details.

**Auraria Campus Police Department**
On the Denver Campus, UC Denver works with the Auraria Campus Police Department to ensure campus safety. The Auraria Campus Police Department provides campus services 24 hours a day, seven days a week including:

- security patrols, bicycle patrols and foot patrols
- crime prevention programs
- night escorts to a vehicle
- vehicle unlocks
- informational services

Auraria Police fulfill the campus responsibilities for reporting crime as required by the Clery Act. Clery statistics are available online at www.ahec.edu/campuspolice/ucd-clery.pdf.

**Student Right To Know and Disclosure Information**

**Crime Statistics**

In compliance with the federal Student Right-to-Know and Campus Security Act, the Auraria Campus publishes crime statistics on campus in the Auraria Campus Clery Report. In an emergency, please contact Auraria Campus Police at 303-556-5000 or dial 911 from a campus phone.

**Persistence and Completion Data**

Section 103 of Title 1 of Public Law 101-542 as amended by Public Law 102-26 (the Federal “Student Right-to-Know” Act) requires that institutions produce and make available to current and prospective students the completion rate of first-time, full-time, degree-seeking undergraduate students entering the institution. Six years after entering, 36.6 percent of the fall 2002 cohort graduated, another 12.2 percent transferred to other public higher education institutions in Colorado and 12.8 percent were still enrolled at the Downtown Campus for a total six-year combined persistence and completion rate of 61.6 percent.

UC Denver’s Denver Campus’ one-year fall-to-fall retention rate is 70 percent for the fall 2008 cohort. That is, of the first-time, full-time, degree-seeking undergraduate students who entered the university in fall 2008, 70 percent were enrolled at the Denver Campus in fall 2009.
Riot Law (Student Riot Bill)

Student enrollment-prohibition-public peace and order convictions: 1) No person who is convicted of a riot offense shall be enrolled in a state-supported institution of higher education for a period of twelve months following the date of conviction; 2) a student who is enrolled in a state-supported institution of higher education and who is convicted of a riot offense shall be immediately suspended from the institution upon the institution’s notification of such conviction for a period of twelve months following the date of conviction, except that if a student has been suspended prior to the date of conviction by the state-supported institution of higher education for the same riot activity, the twelve month suspension shall run from the start of the suspension imposed by the institution; 3) nothing in this section shall be construed to prohibit a state-supported institution of higher education from implementing its own policies and procedures or disciplinary actions in addition to the suspension under (2) of this section, regarding students involved in riot.

Sex Offender Information (Campus Sex Crimes Prevention Act)

Sex offenders are required to list the locations of all institutions of post-secondary education where he or she volunteers or is enrolled or employed. The Colorado Bureau of Investigation maintains a database identifying all such persons and makes it available to all law enforcement agencies in which jurisdiction the institution of postsecondary education is located. The campus community can obtain this information by contacting the Auraria Campus Police Department at 303-556-5000.

Voter Registration (National Voter Registration Act)

In compliance with the National Voter Registration Act, the state of Colorado voter registration application form and information is available online at www.sos.state.co.us/pubs/elections/ or www.fec.gov/votregis/vr.shtml.

Student Services

Academic Success and Advising Center

Office: North Classroom, 2024
Telephone: 303-352-3520
Web site: http://www.ucdenver.edu/life/services/asac/advising/Pages/default.aspx
Academic advising is the foundation of a successful college experience and an important component in both choosing a major and career planning. The Academic Success and Advising Center (ASAC) assists students in the development of meaningful educational plans that will be compatible with their aspirations. This office serves as the first point of contact and provides academic advising for students who are prebusiness, preengineering, nondegree and undecided in the College of Liberal Arts and Sciences and all freshmen and undecided in the College of Arts & Media. Students assigned to the ASAC meet with an advisor every semester to plan a schedule, discuss academic support services and assist with referrals to other on-campus resources. In addition, the center provides general information and resource referrals to all students.

**New student orientation** for freshmen/first year students is coordinated through the ASAC. Fall and spring welcomes for transfer, nondegree and graduate students are also coordinated through the center.

### American Indian Student Services

**Office:** North Classroom, 2013  
**Telephone:** 303-556-2860  
**Web site:** [www.ucdenver.edu/life/services/studentlife/Pages/StudentLife.aspx](http://www.ucdenver.edu/life/services/studentlife/Pages/StudentLife.aspx)

The American Indian Student Services program provides access and educational opportunities to American Indian students through specialized recruitment and retention efforts. The program provides academic advising, scholarship information, cultural programs, advocacy, student organization sponsorship and other supportive services tailored to the specific needs of the students. American Indian student services also serves as a resource to the campus, providing current information on issues and concerns of the American Indian community.

### Asian American Student Services

**Office:** North Classroom, 2014  
**Telephone:** 303-556-2578  
**Web site:** [www.ucdenver.edu/life/services/studentlife/Pages/StudentLife.aspx](http://www.ucdenver.edu/life/services/studentlife/Pages/StudentLife.aspx)

Asian American Student Services serves as a resource to the campus and community. The office seeks to support student success by providing services in an welcoming environment, which include:

- academic advising
- scholarship information
- cultural programming
- advocacy
- resource information
- student leadership development opportunities
Black Student Services

**Office:** North Classroom, 2010  
**Telephone:** 303-556-2701  
**Web site:** [www.ucdenver.edu/life/services/studentlife/Pages/StudentLife.aspx](http://www.ucdenver.edu/life/services/studentlife/Pages/StudentLife.aspx)

The Black Student Services program provides access, educational opportunities and information to students through specialized recruitment and retention efforts. The program provides academic advising, scholarship information, cultural programs, advocacy, student organization sponsorship and other supportive services tailored to the specific needs of the students. Black student services also serves as a resource to the campus, providing current information on issues and concerns affecting the community.

The Career Center

**Office:** Tivoli Student Union, 267  
**Telephone:** 303-556-2250  
**Web site:** [www.ucdenver.edu/careercenter](http://www.ucdenver.edu/careercenter)

The Career Center offers a full array of services that prepare students for the transition from college to career. Students are encouraged to participate in career-related programs and services as early as their freshman year to begin to consider career options and gain the skills and experience necessary to be successful upon graduation.

The Career Center's brand is **Just ASK!** Access-Search-Knock!

- **ASSESS:** Understand and leverage student’s abilities, skills, personality, values, and interests for an excellent choice of an academic major or to determine a career direction.
- **SEARCH:** Preparation for job search, including development of career collaterals such as resumes, interviewing and negotiating skills, and developing job search strategies.
- **KNOCK:** Connects students with employers through services including: online job posting, resume referrals, on-campus interviewing, career fairs, employer presentations, and networking events.

**Just ASK!** is designed to compliment a student’s educational program and help student’s achieve their career goals.

Community Standards and Wellness

**Location:** Tivoli Student Union, Suite 259  
**Telephone:** 303-556-2444
The Office of Student Conduct and Community Standards serves as a resource to the entire university community through its efforts to meet the developmental and educational needs of students related to community expectations, civility and respect for self and others. We function to support community members with conflict management and resolution and by responding to inappropriate and threatening behaviors. We provide student-centered educational services, which promote personal development and individual responsibility. We strive to create a dynamic, open and just environment where civility, cultural competence and learning are expected and celebrated.

Overall Office Goals

- To develop, disseminate, interpret campus policies and procedures related to community standards and expectations
- Protect the rights of students in the administration of the student conduct program
- Respond to student behavioral concerns in a fair, reasonable and efficient manner
- To promote a campus environment that encourages dialogue, mutual respect and cultural sensitivity
- Initiate and encourage educational activities that serve to reduce violation of campus regulations and increase the health and wellness of the campus community
- To foster collaborative partnership that allow for a holistic approach to supporting and developing healthy, engaged and productive students and citizens

Disability Resources and Services Office

Location: North Classroom, 2514
Telephone: 303-556-3450
TTY: 303-556-4766
E-mail: DisabilityResources@ucdenver.edu

The Office of Disability Resources and Services (DRS) is committed to providing equal opportunities and fostering the personal growth and development of students with disabilities. The DRS staff strive to meet the needs of a large and diverse community of students with disabilities. We are available to provide assistance and to arrange for reasonable accommodations that will address specific educational needs.

Accommodations may include but are not limited to the following:

- priority registration for classes
- assistance in identifying volunteer notetakers
- alternative testing (private room, additional time, reader/scribe)
- alternate textbook formats (scanned, enlarged print, Braille)
- interpreter services or captioning services

**Gay, Lesbian, Bisexual, Trans (GLBT) Student Services at Auraria**

**Office:** Tivoli Student Union, 213  
**Telephone:** 303-556-6333  
**Web site:** [www.glbtss.org](http://www.glbtss.org)

Gay, Lesbian, Bisexual, Transgender Student Services is open to all Auraria Campus students as a resource for exploring sexual orientation or gender identity issues. This program offers a variety of support, education and advocacy services for the entire campus community:

- support for those who may have questions about their own sexual orientation/gender identity or that of a friend or family member
- advocacy for students experiencing discrimination or harassment based on a real or perceived GLBT identity
- speakers for events, workshops and classes on various aspects of sexual orientation and gender identity
- programs and workshops about working with the gay, lesbian, bisexual and transgender communities
- resource library of 500 books and 90 videos (documentary and cinema) available for research and leisure, as well as a multitude of free literature regarding other organizations and services throughout Denver and Colorado that provide outreach, services and advocacy
- programs such as Speakers Bureau and other forums providing information and dialogue about GLBT issues

The GLBT Student Services office is staffed by a director with the support of student employees and volunteers. Input and involvement from the entire campus community are welcomed.

**Global Education, Study Abroad**

**Director:** John Sunnygard  
**Telephone:** +1-303-315-2230  
**Web site:** [ucdenver.edu/academics/InternationalPrograms/OIA/StudyAbroad/Pages/StudyAbroad_GlobalEducation.aspx](http://ucdenver.edu/academics/InternationalPrograms/OIA/StudyAbroad/Pages/StudyAbroad_GlobalEducation.aspx)

Global Education is the university’s central office that supports all students seeking to internationalize their education and gain professional preparation to more effectively serve and compete in a global world. The office advises and prepares students, faculty
and staff to safely navigate the full range of global academic and learning opportunities. Global Education has a network of study abroad programs, international internship, volunteer and service learning opportunities in more than 80 countries. Graduate, professional and undergraduate students from both campuses also conduct international research also benefit from Global Education’s support services. Study abroad programs are offered in a variety of terms, costs and disciplines to suit the full spectrum of UC Denver students. Students may choose to immerse themselves in a more traditional academic year or semester program abroad; or to conduct research on field studies sites. Many students chose to study with UC Denver faculty on one of the many affordable, focused travel-study programs over winter break, Maymester or summer. The International College Beijing semester program is of particular interest to communication and economics students. While many students study abroad to learn or perfect language skills, most students participate in English-taught programs in non-English and English-speaking countries. Either UC Denver or transfer credit may be earned on approved programs abroad, giving students the opportunity to fulfill degree requirements while living, learning and growing in another culture. Considerable effort is made to keep global educational opportunities affordable for all UC Denver students. Additionally, scholarships and financial aid may be available depending upon the program and location. Information and advice on scholarships such as Fulbright, NSEP, Gilman and others is also available. For the most current information on programs, policies and the benefits of global education, please visit the Global Education Web site at ucdenver.edu/academics/InternationalPrograms/OIA/StudyAbroad/Pages/StudyAbroad_GlobalEducation.aspx.

**Hispanic Student Services**

**Office:** North Classroom, 2012  
**Telephone:** 303-556-6209

The Hispanic Student Services program provides access and educational opportunities to Hispanic students through specialized recruitment and retention efforts. The program provides academic advising, scholarship information, cultural programs, advocacy, student organization sponsorship and other supportive services tailored to the specific needs of the students. Hispanic student services also serves as a resource to the campus, providing current information on issues and concerns of the Hispanic community.

**Information Technology Services**

**Office:** Lawrence Street Center, 1350  
**Telephone:** 303-724-4357  
**Web site:** http://ucdenver.edu/admin/its/
Information Technology Services (IT Services) provides central support of the telecommunications, computing and network infrastructure for the Denver Campus and the Anschutz Medical Campus. IT Services also provides computing resources such as computer accounts, e-mail, file storage, server hosting, Internet, Internet2 and National Lambda Rail.

The IT Services Help Desk is a single point-of-contact for reporting computer-related problems or requesting services. Faculty and staff are encouraged to contact the Help Desk for general questions about computing at UC Denver.

IT Services also provides student computing services to currently enrolled students within the computer labs located in the North Classroom 1206, St. Cajetans 101 and the Tivoli 241. The computer labs have Macintosh and Windows-based computers with Internet access available for student use on a first-come first-served basis.

For more information, call the IT Services Help Desk at 303-724-HELP.

International Affairs

Assistant Vice Chancellor: Carolyn North
Courier Address: International Affairs, 1380 Lawrence Street, 9th floor, Denver, CO 80204-2029, USA
Mailing Address: International Affairs, Campus Box 185, P.O. Box 173364, Denver, CO 80217-3364, USA
Telephone: +1-303-315-2230
Fax: +1-303-315-2246

The Office of International Affairs (OIA) serves the university by providing administrative support, expert advice, technical services, educational programs and related services that contribute to the strategic international goals of UC Denver. The Office of International Affairs addresses international policy issues, has oversight of international risk management protocols, serves as a resource for best practices in the internationalization of higher education, maintains central data bases pertaining to international activities of the university, advises on the development of international affiliations and agreements, assists departments/programs and schools/colleges with the development of comprehensive international strategic planning and seeks to promote and support initiatives that advance international research, education and global cooperation.

OIA serves as a resource for faculty seeking international research opportunities, provides a comprehensive list of international scholarship/fellowship information and serves as the institutional liaison for the CIES Fulbright Scholars Program. OIA provides visa and orientation services to international students and scholars, provides expertise in the development and maintenance of undergraduate, graduate and professional global
education, assists with brokering and designing bilateral international educational programs and offers comprehensive international recruitment and admissions services.

The four divisions of OIA include International Admissions, International Student and Scholar Services, Global Education and International Colleges.

**Graduate Student and Faculty Fulbright Information**

OIA maintains listings of opportunities and other information on various scholarships and fellowships for study and research abroad, including Fulbright graduate student and faculty visiting lectureships at foreign universities.

**Community Outreach Services**

During the year, OIA sponsors periodic guest lectures and special seminars focused on topics of current international interest. Many of these activities are open to the public as well as the UC Denver community. OIA is also an active participant in a number of Denver community international programs and events. For more information about these and other programs, contact OIA at 303-315-2230.

**International Colleges**

**Telephone:** +1-303-315-2240

The International Colleges Unit in the Office of International Affairs is designed to assist UC Denver schools/colleges, departments and faculty design and implement unique educational partnerships abroad. We have the expertise to assist with both educational and financial modeling, program marketing and in-country support of students and faculty.

**International College at Beijing**

Currently the International Colleges Unit supports an International College in Beijing, China, in partnership with the College of Liberal Arts and Sciences. This program is maintained by a formal agreement between the University of Colorado Denver and China Agricultural University. The International College at Beijing (ICB) provides a rich, cultural learning experience in an English-speaking environment for Chinese students and UC Denver faculty.

The ICB mission is to educate and empower future leaders of China. This mission is accomplished by promoting knowledge and understanding of human culture and its diversity, teaching essential global work force skills such as English language, critical thinking, communication and decision making and enhancing student’s capacity to make informed and responsible choices.
ICB offers a carefully designed program leading to a baccalaureate degree from UC Denver in either economics or communication. The courses cover the same subject matter as the courses taught on the UC Denver Denver Campus. In addition, ICB students have the option to study at UC Denver for one to two years. This unique degree program was accredited by the North Central Association (NCA) of the United States in fall 1995.

International Student and Scholar Services

**Director:** Laura Welch  
**Telephone:** +1-303-315-2230

The International Student Services unit provides a variety of services and programs to international students with a special emphasis on F-1 and J-1 students. The unit provides check-in sessions, orientations, work clinics and immigration advising, and we often partner with other UC Denver departments to offer programs and events to our international student population. For more information related to immigration matters, programs and advising services for international students, please visit our Web site at [www.ucdenver.edu/international](http://www.ucdenver.edu/international).

Internships & Experiential Learning

**Director:** Lissa Gallagher  
**Office:** Tivoli Student Union, 260  
**Telephone:** 303-556-6656  
**Web site:** [http://www.ucdenver.edu/life/services/ExperientialLearning](http://www.ucdenver.edu/life/services/ExperientialLearning)

Live your learning at UC Denver! Students have many opportunities to explore academic fields through direct experience including internships, service in the community, undergraduate research and international experiences. Link your studies to the real world and put your knowledge into practice. You will develop new skills, grow personally and professionally and enrich your academic experience.

**INTERNERSHIPS AND COOPERATIVE EDUCATION**

Hundreds of UC Denver students engage in degree-related work experiences with corporations, government and nonprofit agencies in the Denver-metro area and around the world. Students can earn academic credit, pay or both while gaining relevant experience related to their career interests.

**SERVICE LEARNING**
Students gain a better understanding of community issues, develop practical skills and make a difference in the world around them when they engage in service activities. From the first-year experience course to senior capstone classes, faculty weave service projects into their courses, giving students a wider view of the world. Many volunteer opportunities are also available through the center. Students can also earn AmeriCorps education awards for service.

UNDERGRADUATE RESEARCH

Whether assisting faculty with research or pursuing their own research under faculty supervision, UC Denver students can experience what it means to be involved in the creation of knowledge. Students may apply for research grants through the Undergraduate Research Opportunities Program (UROP) and showcase their research projects at the annual Research and Creative Activities Symposium.

Learning Resource Center

Office: North Classroom, 2006
Telephone: 303-556-2802

The Learning Resource Center is designed to promote student success in the academic setting. Available to undergraduate and graduate students, services include:

- individual and open lab (group) tutoring
- study skills courses
- study strategies seminars
- a resource library
- supplemental instruction (SI) for courses in physics, chemistry and biology
- ESL (English as a second language) support through workshops, conversation and pronunciation groups

Ombuds Office

Office: CU-Denver Building, 107P
Telephone: 303-556-4493
E-mail: Mary.ChavezRudolph@ucdenver.edu
Web site: www.ucdenver.edu/about/departments/OmbudsOffice/Pages/OmbudsOffice.aspx

The Ombuds Office is a designated neutral and independent resource available to all members of the university community to provide informal and confidential assistance in
resolving conflicts, complaints and disputes. An ombuds person does not advocate for any party but is an advocate for fair process.

The ombuds person can provide information about policies, procedures, practices or decisions at UC Denver and can assist individuals and groups in resolving their concerns by listening; probing for understanding; and helping to understand options. The ombuds person will make referrals as necessary and can serve as an informal mediator or shuttle diplomat.

The Ombuds Office works toward positive change within the university, serving as a consultant in the preparation and review of policies and procedures and assisting in the solution of problems. While keeping names and cases confidential, the ombuds person reports trends and pervasive problems to the appropriate resolution channels.

The Ombuds Office can also assist with large group issues by providing group facilitation, conflict management training and personality profile assessments. In addition, the office has a lending library comprised of books and videos available for check-out.

Due to its informal, confidential and independent role outside the administrative structure of the university, notice to the ombuds about a problem does not result in the generation of records, nor does it constitute legal notice to the university about the existence of a problem. For those interested in making official complaints to the university about a problem, the Ombuds Office can assist by making appropriate referrals.

**Center for Pre-Collegiate and Academic Outreach Programs**

**Office:** Administration Building, 360  
**Telephone:** 303-556-2322  
**E-mail:** pcdp@ucdenver.edu  
**Web site:** [www.ucdenver.edu/academics/degrees/pre-collegiate/Pages/default.aspx](http://www.ucdenver.edu/academics/degrees/pre-collegiate/Pages/default.aspx)

The programs offered by the Center for Pre-Collegiate and Academic Outreach Center serve to motivate middle- and high-school students to pursue post-secondary education and provide them the academic skills necessary to be successful in their college endeavors.

**Pre-Collegiate Development High School Program**

The Pre-Collegiate Development High School Program is a systemwide, institutionally funded academic enhancement program for high school students. The primary focus of the program is to prepare youth (grades 9–12) who are first-generation and from an underrepresented group in higher education to successfully complete high school on a
timely basis and possess the necessary skills to successfully enter and graduate from their choice post-secondary institution. During the academic year, students will take part in relevant Saturday Academies in basic study skills, interpersonal skills development and college entrance exam preparation designed to acclimate them to the university and prepare them for college study. In addition, students are provided with either a two-week (sophomores) or five-week (juniors) intense summer academic program. During this experience, students are exposed to various academic courses, which are designed to enhance and augment their college entry requirements (e.g., mathematics, sciences, writing and seminar) once they return to their host high school for either their junior or senior year. For further information you may contact us at 303-556-2322.

Pre-Collegiate Middle School Academic Program

The Pre-Collegiate Middle School Academic Program is an academic enhancement program. The program is designed to adequately prepare potential first-generation college students in grades seven to eight to successfully complete their pre-secondary school career, enroll in a college preparatory high school curriculum and ultimately enroll to their choice college/university with the necessary skills and academic preparation to succeed at and graduate from that institution. The Pre-Collegiate Middle School Academic Program serves as a precursor to the Pre-Collegiate Development High School Program. Students who successfully complete the Pre-Collegiate Middle School Academic Program with a cumulative GPA of 2.75 or better will then be admitted to the Pre-Collegiate Development Program at the end of their 8th grade year.

During the academic year, the students are provided relevant Saturday Academies in areas such as basic study skills, academic skills enhancement, leadership and interpersonal skills development. Parents of the participating students will also be offered relevant workshops during the Saturday Academy sessions, which include effective parenting strategies, as well as strategies on how to prepare financially for their student’s college education. Tutoring services will also be provided on an ongoing basis during the academic year at their middle school. The academic year Saturday Academies are designed to augment middle school curriculums (e.g., mathematics, writing, sciences, computer skills, etc.) and enhance parenting skills and strategies designed to more fully support their student. For further information you may contact the program coordinator, Junior Reina, at 303-556-2322.

Upward Bound Program Power-Up Project

The Upward Bound program, a federally funded TRIO program, is an educational pre-collegiate program for selected students from Sheridan and Jefferson High Schools. Upward Bound’s mission is to prepare and help motivate students with potential for success in postsecondary education. Participants are selected based on their academic
performance, motivation for success, recommendations from teachers and counselors and additional criteria.

Upward Bound aims to provide program participants with the necessary skills needed to successfully graduate from high school and complete a four-year college degree. Students participate in after-school and weekend programs that include supplemental education, academic themed workshops, field trips and college campus tours. Every student also participates in a six-week summer program designed to prepare them for their high school classes and the college application process. Additionally, all students participate in a shadowing program with current college students and working professionals in the Denver metro area. The program is 100 percent funded by the U.S. Department of Education.

**CU Succeed**

The CU Succeed program enables juniors and seniors to earn fully transferable college credit while still in high school. There are two programs for students to choose from: CU Succeed Gold and CU Succeed Silver.

**CU Succeed Gold**: Courses are taught during regular school periods by specially qualified high school teachers who hold honorarium faculty appointments at UC Denver.

**CU Succeed Silver**: Courses may be taught during school periods and after school hours and are taught by UC Denver full-time or part-time faculty.

Courses taken through the CU Succeed programs are eligible for transfer to University of Colorado campuses, as well as to many other universities and colleges. More information about the CU Succeed programs is available at [ucdenver.edu/academics/continuing-education/CUSucceed/Pages/default.aspx](ucdenver.edu/academics/continuing-education/CUSucceed/Pages/default.aspx).

**Scholars Program**

The Scholars Program is an early college enrollment program for college-bound, high-achieving students who are potential first-generation who are current graduating high school seniors. The program allows students to begin their college studies by taking one course on the University of Colorado Denver Downtown Campus during the fall and spring semester of their senior year. The credit earned in the course can be applied toward a bachelor’s degree at UC Denver or at another institution.

Prior to and during their fall and spring enrollment, scholars engage in orientation, admissions and financial aid seminars and other workshops, along with their parents, designed to acclimate them to the university and prepare them for full-time college study. Assistance with course selection, educational planning and tutoring is provided.
Who may participate in the program? Students who are potential first-generation college students, and/or underrepresented in higher education may apply to the program. Applicants must be current juniors who are graduating from their respective high schools at the end of the following spring semester.

Applicants must meet the following criteria:

- A minimum GPA of 3.0 at the time of application
- Completion of at least two years of math (two years of algebra or one year of algebra and one year of geometry) with an average grade of B or better
- Completion of two years of English (one year must be composition) with an average grade of B or better
- A commitment to participate in all of the program’s orientations and workshops prior to and during enrollment

NOTE: Interested students are cautioned that college work requires considerable time and discipline. Therefore, only students who have completed the majority of their high school requirements, who do not work after school and who are not heavily involved in extra-curricular activities are encouraged to apply. Since UC Denver courses are available throughout the day and into the early evening, students will have many options in choosing a course that best fits their schedule.

What are the student’s responsibilities?

The UC Denver Scholars Program is committed to providing students with every opportunity to enhance their academic skills and to succeed in the college courses they take at UC Denver. However, students will gain the most benefit from their experience at UC Denver if they commit themselves to the goals of the program and actively participate in its activities. Therefore students will be expected to:

- Commit themselves to actively participating in the program for the semester
- Attend their college class faithfully, completing assignments and participating fully (tutors or teaching assistants will be made available)
- Attend all tutorial sessions as required by instructors and staff

The program involves a serious commitment by students because college is a serious commitment. If a student earns a failing or a low grade in a college class, a prospective college or university may be reluctant to grant admission to that student. Students who are already involved in extra-curricular activities should apply to the program only if they are sure that these activities will not interfere with their full participation in the program.

How much does the program cost?

UC Denver covers most of the direct educational expenses, which includes tuition and matriculation fees. Students will be responsible for the following:
- Books (ranging from $50 - $100)
- A student identification card ($10), available in the Tivoli Student Union upon acceptance into the program
- Parking ($3.75 to $10 per day)

NOTE: Students must arrange their own transportation to and from the Auraria Campus. Those who choose to drive may park in the student lots for an hourly or daily fee.

How do students apply?

Application to the UC Denver Scholars Program must be made through a high school counselor. Applicants should ensure that their counselor submits the following materials/credentials to the Scholars Program.

- A University of Colorado Denver nondegree application form; Non-USA citizens must attach photocopy of VISA or permanent resident card
- A completed application packet, including student general information form, counselor recommendation form and two teacher recommendation forms
- An unofficial copy of the student’s high school transcript

Students should be advised that no application will be considered if it is incomplete.

Completed applications should be turned in to your high school college counselor. For additional information contact:

Abenicio D. Rael, Assistant Director
University of Colorado Denver Scholars Programs
Campus Box 147
P.O. Box 173364
Administration Bldg., Suite #360
Denver, CO 80217-3364

abenicio.rael@ucdenver.edu

Student Activities Office

Office: Tivoli Student Union, 303
Telephone: 303-556-3399
Web site: www.ucdenver.edu/events

The Office of Student Activities offers a comprehensive student activities program that helps bring about a positive college experience for every student. Our goal is to integrate what students learn from the full range of their experiences and to engage them in active learning both inside and outside the classroom. We are committed to bringing new and exciting activities, events and workshops that provide innovative opportunities for student learning, especially in the areas of self-knowledge, leadership, diversity, communication, service, civic engagement and social responsibility. Through
participation in co-curricular activities, we help students enhance interpersonal, leadership and critical thinking skills and help prepare them for active citizenship beyond college.

**Student Advocacy Center**

**Office:** North Classroom, 2012  
**Telephone:** 303-556-2546

The Student Advocacy Center provides support services to UC Denver students, particularly during their first year on campus. Services are designed to help students make a smooth transition to life at UC Denver and to succeed in their college studies. Professional staff and student peer advocates provide information about campus resources and assist students with class scheduling, academic policies and procedures and problem solving. The center also houses an extensive scholarship library.

**Student and Community Counseling Center**

**Director:** Dr. Patricia Larsen  
**Office:** North Classroom, 4036  
**Telephone:** 303-556-4372  
**Web site:** [www.ucdenver.edu/counselingcenter](http://www.ucdenver.edu/counselingcenter)

The Student and Community Counseling Center provides 10 counseling sessions per fiscal year at no charge to students attending the Denver Campus. We serve individuals, couples, families and groups for mental health concerns including but not limited to:

- stress management  
- substance abuse  
- relationships  
- depression  
- anxiety  
- crisis intervention  
- learning disabilities and Attention Deficit Hyperactivity Disorder testing

If appropriate, we refer students to additional on-campus and/or community resources. Also, by request, staff provide consultations, lectures and workshops to student, faculty and staff groups on mental health topics, diversity, center services and organizational and student development.

**Student Government Association**
The Student Government Association serves as a voice for students. Similar to the structure of the U.S. government, SGA has executive, legislative and judicial branches. Executives are elected each year in the spring. SGA assists students with information concerning student clubs and organizations, campus events, issues concerning student status and other information of general interest to students. SGA also provides students assistance with grievances and the opportunity to become more closely involved with the university community through active participation in student government itself or through service on university, tri-institutional and Auraria committees.

Student Health Insurance Office

Office: Tivoli Student Union, 303
Telephone: 303-556-3399
Web site: www.ucdenver.edu/studenthealthinsurance

The Student Health Insurance Office strongly encourages all students to have adequate health insurance coverage. The university health plan is designed to coordinate services with the Health Center at Auraria to provide quality health care at the lowest possible cost. For domestic students, the university health plan is voluntary. International students with F-1 and J-1 student visas are required to carry the health insurance plan provided by the university.

Student Life

Office: Tivoli Student Union, 303
Telephone: 303-556-3399
Web site: www.ucdenver.edu/studentlife

It is the mission of the Office of Student life to complement the academic programs of study at UC Denver and enhance the overall educational experience of students through the development of, exposure to and participation in social, cultural, intellectual, recreational, leadership and governance programs. The Office of Student Life is the
advising, coordinating, resource and general information center for student organizations, the academic honor societies student government and the student newspaper.

The office is responsible for the administration of the student fee budget and monitors all student fee expenditures to assure compliance with UC Denver and state of Colorado regulations and procedures. The director of student life represents the assistant vice chancellor for university life on selected UC Denver, tri-institutional and Auraria committees and maintains effective lines of communication with Metropolitan State College of Denver, Community College of Denver and Auraria Higher Education Center.

Student Newspaper: The Advocate

Office: Tivoli Student Union, 345
Telephone: 303-556-2535
Web site: www.ucdadvocate.com

The purpose of the The Advocate is to provide students with information about campus issues and events. The newspaper strives to include good investigative reporting, feature articles and items of general interest to its campus readership. In addition, the newspaper is a tool to encourage and develop writers, journalists, artists and other student members of its general management and production staff.

Transfer Initiative, Denver

Office: 1027 Ninth Street Park
Telephone: 303-352-3309

The Denver Transfer Initiative (DTI) is a cooperative project between the Community College of Denver (CCD) and the University of Colorado Denver (UC Denver) aimed at increasing the graduation rate and completion of bachelor’s degrees for traditionally underserved populations, specifically first-generation, low-income and Hispanic. The project is designed to provide assistance and support to students throughout their course work and educational careers. Students attend their first two years at Community College of Denver then transfer to UC Denver for their last two years of course work.

DTI students receive continuous assistance in the form of:

- support, guidance and advocacy
- financial aid and scholarship application assistance
- two-year to four-year transfer degree planning
- career assessment, exploration and counseling
- peer mentoring and tutoring services
- connection to campus and community resources
- attendance to informational workshops
the opportunity to attend student events and multicultural activities

DTI is a Title V grant project funded by the Department of Education's Developing Hispanic-Serving Institutions Program, which helps eligible institutions of higher education enhance and expand their capacity to serve Hispanic and low-income students by providing funds to improve and strengthen the academic quality, institutional stability, management and fiscal capabilities of eligible institutions (www.ed.gov/programs/idueshsi/index.html).

TRIO Program: Student Support Services

Office: North Classroom, 2506
Telephone: 303-556-3420

TRIO/Student Support Services is a federally funded by the Department of Education. The program for first-generation, low-income, and disabled students provide services which include:

- academic support
- preparation for graduate school
- career planning, workshops
- scholarship information
- tutoring
- book scholarships
- peer mentoring

Veteran Student Services

Office: CU-Denver Building, 107A/B
Telephone: 303-556-2630, 303-556-2745
E-mail: vaoffice@ucdenver.edu
Web site: http://ucdenver.edu/life/services/Veteran

The University of Colorado Denver Office of Veteran Student Services (OVSS) has been charged with representing veteran and veteran-dependent students on campus and in the Denver metropolitan area. Our mission is to improve and enrich the educational experience of our servicemen, servicewomen and their dependents through advocacy, as well as appropriate and responsive services.

The Office of Veterans Student Services is the initial contact point for eligible veterans and dependent students wishing to seek a postsecondary education or UC Denver students who wish to utilize Veterans Administration educational benefits. This office services include:

- assistance in filling out VA paperwork
• assistance in solving problems associated with the receipt of VA-related educational benefits
• maintaining proper certification for eligible students to ensure that each student meets Veterans Administration requirements for attendance, course load and content, and other regulations necessary to receive educational benefits payments
• providing VA vocational rehabilitation referrals,
• serving as a campus resource
• providing information on VA tutorial assistance
• offering VA work/study positions for qualified veterans.

Writing Center

Director: Justin J. Bain
Office: North Classroom, 4014
Telephone: 303-556-4845
Web site: clas.ucdenver.edu/writing/

The UC Denver Writing Center equips our community of writers (students, staff, faculty, alumni) with the necessary skills of composition to expand their academic opportunities and further their careers. We view writing as a process and all texts as works in progress. We build confident and accomplished writers through the development of strong cognitive and writing abilities. Our mission is to empower writers through collaborative work.

Services include one-on-one and small-group writing consultations in areas such as:

• Generating, organizing and developing ideas
• Establishing effective proofreading skills
• Analysis, synthesis and argument
• Summary, paraphrase and documentation
• Error pattern analysis
• Information literacy and research strategies

Computers are provided for writers’ use, and online consultations are available. All consultations are by appointment; to schedule an appointment, please visit our Web site.

University Policies

Every organization, large and small, runs more smoothly when policies and procedures are in place. This chapter touches briefly on policies that are most important to students and their academic pursuits. The University of Colorado Denver’s Policies and Guidelines Web site, www.ucdenver.edu/admin/policies/, provides a complete list of policies for every facet of the organization, including those from other organizations that
affect the Downtown Campus, such as the Laws of the Regents and policies of the Auraria Higher Education Center.

**Academic Honor Code and Discipline Policies**

Policies related to academic credit and grades are explained in the Registration and Records chapter of this catalog.

**Academic Honesty**

A university's reputation is built on a standing tradition of excellence and scholastic integrity. As members of the UC Denver academic community, faculty and students accept the responsibility to maintain the highest standards of intellectual honesty and ethical conduct in completing all forms of academic work at the university.

**Forms of Academic Dishonesty**

Students are expected to know, understand and comply with the ethical standards of the university. In addition, students have an obligation to inform the appropriate official of any acts of academic dishonesty by other students of the university. Academic dishonesty is defined as a student’s use of unauthorized assistance with intent to deceive an instructor or other such person who may be assigned to evaluate the student’s work in meeting course and degree requirements. Examples of academic dishonesty include, but are not limited to the following:

**A. Plagiarism**

Plagiarism is the use of another person’s distinctive ideas or words without acknowledgment. The incorporation of another person’s work into one’s own requires appropriate identification and acknowledgment, regardless of the means of appropriation. The following are considered to be forms of plagiarism when the source is not noted:

- word-for-word copying of another person’s ideas or words
- the mosaic (the interspersing of one’s own words here and there while, in essence, copying another’s work)
- the paraphrase (the rewriting of another’s work, yet still using their fundamental idea or theory)
- fabrication (inventing or counterfeiting sources)
- submission of another’s work as one’s own
- neglecting quotation marks on material that is otherwise acknowledged

Acknowledgement is not necessary when the material used is common knowledge.
B. Cheating

Cheating involves the possession, communication or use of information, materials, notes, study aids or other devices not authorized by the instructor in any academic exercise or communication with another person during such an exercise. Examples of cheating are:

- copying from another’s paper or receiving unauthorized assistance from another during an academic exercise or in the submission of academic material
- using a calculator when its use has been disallowed
- collaborating with another student or students during an academic exercise without the consent of the instructor

C. Fabrication and Falsification

Fabrication involves inventing or counterfeiting information, i.e., creating results not obtained in a study or laboratory experiment. Falsification, on the other hand, involves the deliberate alteration or changing of results to suit one’s needs in an experiment or other academic exercise.

D. Multiple Submission

This is the submission of academic work for which academic credit has already been earned, when such submission is made without instructor authorization.

E. Misuse of Academic Materials

The misuse of academic materials includes but is not limited to the following:

- stealing or destroying library or reference materials or computer programs
- stealing or destroying another student’s notes or materials or having such materials in one’s possession without the owner’s permission
- receiving assistance in locating or using sources of information in an assignment when such assistance has been forbidden by the instructor
- illegitimate possession, disposition or use of examinations or answer keys to examinations
- unauthorized alteration, forgery or falsification of academic records
- unauthorized sale or purchase of examinations, papers or assignments
F. Complicity in Academic Dishonesty

Complicity involves knowingly contributing to another's acts of academic dishonesty.

Procedures in Cases of Suspected Academic Dishonesty

All matters of academic policy, including academic dishonesty, are under the jurisdiction of each of the university’s schools and colleges pursuant to Article 4.A.2 and Article 5.E.5 of the Laws of the Regents. Accordingly, each school and college has established procedures for addressing matters of academic dishonesty and for determining the severity and consequences of each infraction. Students should contact their school or college dean's office for procedures specific to their school or college.

Academic Probation and Suspension Policies

Students at the University are expected to maintain progress in their degree program, as defined by being in “good academic standing.” Good academic standing requires minimally a cumulative grade point average (GPA) of 2.0 on all University of Colorado course work.

Academic Probation

- Academic probation is a warning to students that they are not progressing toward completion of their degree in a satisfactory manner.
- Students are placed on academic probation when their cumulative CU GPA falls below a 2.0 at the end of any academic term.
- Students are informed in writing (via University-assigned email and postal letter) of their academic probation status.
- Students on Academic Probation will be required to complete the Academic Success Plan during their first semester on Academic Probation.
- Students will be required to schedule an appointment and meet with their academic advisor to discuss the completed Academic Success Plan before they will be allowed to register for the subsequent term.
- Students on Academic Probation will be required to schedule an appointment and meet with their academic advisor every semester that they are on Academic Probation before they will be allowed to register.
- Academic Probation requires that students achieve a minimum 2.3 semester GPA each subsequent term until their cumulative CU GPA is at least a 2.0 to
return to good academic standing. Students must achieve a minimum 2.0 cumulative CU GPA to meet graduation requirements.

- Students who fail to earn the 2.3 semester GPA during any semester of Academic Probation will be placed on Restricted Academic Probation.

- Students have five semesters or 30 credits (whichever happens sooner) to raise their cumulative GPA to above a 2.0, or they will be placed on Academic Suspension.

- Once a student has raised his/her cumulative CU GPA to at least a 2.0, s/he will be removed from Academic Probation and notified via University-assigned email that s/he is in Academic Good Standing.

**Restricted Academic Probation**

- Students who fail to earn the 2.3 semester GPA during any semester of Academic Probation will be placed on Restricted Academic Probation.

- Students are informed in writing (via University-assigned email and postal letter) of Restricted Academic Probation status.

- Students on Restricted Academic Probation will be allowed to enroll for a maximum of 6 credits/2 classes per semester (whichever is more). A course and its attached lab are considered to be one course in this case.

- Students on Restricted Academic Probation will be required to schedule an appointment and meet with their academic advisor in order to register for courses.

- Students on Restricted Academic Probation will not be able to register online; they will need to register for courses using a Schedule Adjustment Form, which must be submitted to the Service Center (North Classroom #1003) for processing.

- Restricted Academic Probation requires that students achieve a minimum 2.3 semester GPA each subsequent term until their cumulative CU GPA is at least a 2.0. Students must achieve a minimum 2.0 cumulative CU GPA to return to good academic standing and to meet graduation requirements.

- Students on Restricted Academic Probation who do not meet the 2.3 minimum semester GPA will be placed on Academic Suspension.

- Students who fail to raise their cumulative GPA to 2.0 or above in five semesters or 30 credit hours on Academic Probation and Restricted Academic Probation will be placed on Academic Suspension.
Academic Suspension

- Students on Restricted Academic Probation who do not meet the 2.3 minimum semester GPA will be placed on Academic Suspension.

- Students are informed in writing via certified/registered letter of their Academic Suspension status.

- The minimum duration of Academic Suspension is for a period of one year (three semesters, including summer term). Students placed on Academic Suspension will be unable to take courses from any CU campus during this time.

- Should a student be placed on Academic Suspension while registered for the next semester, s/he will be administratively dropped from their courses by the University.

- A student’s Academic Suspension status is permanently indicated on his/her official University of Colorado transcript.

- During the one-year Academic Suspension period, students who wish to return to the University should consider one (or both) of the following actions:
  
  o Attend another regionally-accredited college/university.
    
    ▪ Students who choose to attend another institution while on Academic Suspension can take as many or as few credits as they choose, but must earn a 2.75 cumulative GPA in all transferable course work.
    
    ▪ Students should consult their academic advisor to discuss appropriate course work.
  
  o Use the time off to directly address and resolve the factors that contributed to the academic difficulty.

- After the one-year suspension period has elapsed, students must petition the appellate committee (of the school or college they wish to enter) for readmission and meet and document at least one of the following criteria:
  
  o Attendance at another regionally accredited college/university where they earned a minimum cumulative GPA of 2.75 in transferable credit.
  
  o Explanation of their previous academic difficulty, demonstration of what has changed, and how this will allow them to now achieve and maintain Good Academic Standing (including a semester GPA of at least 2.3 and a cumulative GPA of at least a 2.0).

- Students who choose to petition their college’s appellate committee for readmission must submit their petitions by the following deadlines:
  
  o For fall admission: June 1
  
  o For spring admission: December 1
  
  o For Maymester/summer admission: April 1
If a student is granted readmission and his/her CU GPA is below a 2.0, s/he will be readmitted on Restricted Academic Probation. These students must meet the condition of Restricted Academic Probation every semester until their cumulative CU GPA is at least a 2.0.

Second Suspension

- Students who are readmitted after their first Academic Suspension and fail to meet the conditions of Restricted Academic Probation for a second time are placed on a second suspension for an indefinite period of time.
- Students on a second suspension may be readmitted to the University only by petition to the college’s appellate committee.
- Students will not be considered for readmission unless they have demonstrated significant improvement in academic performance at the college/university level, and/or considerable and positive change in personal circumstances.

Code of Student Conduct - Community Standards and Wellness

Director: Larry Loften
Office: Tivoli Student Union, 260
Telephone: 303-556-3682

Preamble

As members of the University community, students are expected to uphold university standards, which include abiding by state civil and criminal laws and all University policies and standards of conduct. These standards assist in promoting a safe and welcoming community.

The university strives to make the campus community a place of study, work and residence where people are treated, and treat one another, with respect and courtesy. The university views the student conduct process as a learning experience that can result in growth and personal understanding of one’s responsibilities and privileges within both the university community and the greater community. All students must follow these standards. Students who violate these standards will be subject to the actions described below. These procedures are designed to provide fairness to all who are involved in the conduct process.

Philosophy of Student Conduct

The Office of Community Standards and Wellness views the conduct process as a learning experience that helps students to understand their responsibility to both
themselves and their living and learning community. We strive to learn from one another in an educational environment that holds mutual respect for individuals and community in high regard and self-responsibility for behaviors. Behavior that conflicts with established standards, policies and guidelines may be referred for conduct proceedings.

Every member of the student community must assume responsibility for becoming educated about the various university and housing standards, policies and guidelines. It is against the basic nature of this community for anyone to demean or discriminate against another human being. A caring, educational community does not tolerate physical or psychological threats, harassment, intimidation, or violence directed against a person. Such behavior is subject to the university conduct processes.

**Diversity**

We are committed to a campus community where diversity is appreciated and valued, and where all individuals are treated fairly and with respect. We encourage curiosity, open communication, continuous learning, and community service as ways to create a socially just environment. We support the right of everyone to respectfully disagree with ideas and philosophies different from their own. However, we do not permit any form of behavior that places anyone in dangerous, discriminatory, or harassing environments. As a community, we expect all to work towards these same goals.

**Article I – Authority**

Article 7, Part B, of the Laws of the Regents requires each campus to develop a student code of conduct. The Office of Student Life is authorized to establish and administer this policy. Any questions regarding interpretation of this code or any of its provisions should be directed to the Vice Chancellor for Student Affairs or his/her designee for final determination.

1. The Chief Student Conduct Administrator shall develop policies for the administration of the student conduct system and procedural rules for the Student Conduct Process that are not inconsistent with provisions of the Student Code.
2. Decisions made shall be final, pending the normal appeal process.

**Article II – Jurisdiction**

1. The University of Colorado Denver (UC Denver) Student Conduct Code shall apply to conduct that occurs on University premises, University-sponsored programs or activities, Campus Village Apartments, and to off-campus conduct that adversely affects the University community, poses a threat to safety of persons or property, or damages the institution’s reputation or relationship with
the greater community. In addition, UCDenver, in collaboration with the Denver and Aurora communities, may respond to student violations of community-based laws and ordinances designed to protect civility and quality of life. The Chief Student Conduct Administrator shall decide whether the Student Conduct Code shall be applied to conduct occurring off campus on a case-by-case basis.

2. Each student shall be responsible for his/her conduct from the time of application for admission through the actual awarding of a degree, even though conduct may occur before classes begin or after classes end, as well as during the academic year and during periods between terms of actual enrollment. The disciplinary process may proceed even if the student withdraws from school while a disciplinary matter is pending.

3. It is the duty of all students who are potential parties or witnesses to an alleged violation of the code to participate conscientiously. Students have a duty to cooperate and discuss the incident with an investigator and conduct officer over the telephone or in person, adhere to stated deadlines, attend scheduled meetings, and participate in all proceedings. Failure to meet these duties may result in a decision being made without the benefit of the student’s participation or may result in a student being charged with failing to comply with the direction of a university official. It is the responsibility of a charged student to seek modification to any criminal or civil restraining orders to allow for the completion of any conduct process defined in the Student Conduct Code.

4. Proceedings initiated under this policy are separate from civil or criminal proceedings that may relate to the same incident. Investigations or conduct proceedings by the university are not postponed while criminal or civil proceedings are pending unless otherwise determined by the conduct officer.

5. The unexcused failure of a student to appear and/or respond to the conduct process does not prevent the university from proceeding with the conduct process.

**Article III – Definitions**

1. **Acceptance of Responsibility.** The charged student agrees that their behavior constitutes a violation of the code of conduct, as outlined in the conference letter.

2. **Aggravating Factor.** Any circumstances accompanying the commission of misconduct that add to its seriousness. Examples may include the use of violence or force, violation of a trust or duty, premeditation of an incident, the existence of a previous conduct violation, and elements of hate and bias.

3. **Complainant.** Any person who submits a charge alleging that a student violated this Student Code.

5. **Designation.** A student’s classification; i.e., graduate, undergraduate, continuing education, degree seeking or non-degree-seeking.
6. **Faculty Member.** Any person hired by the University to conduct classroom or teaching activities or who is otherwise considered by the University to be a member of its faculty.

7. **Member of the University and Campus community.** Includes any person who is a student, faculty member, University official or any other person employed by the University. This term also applies to students, faculty members, and University officials of the other institutions on the Auraria Campus, including but not limited to; the Metropolitan State College of Denver (MSCD), the Community College of Denver (CCD), and the Auraria Higher Education Center (AHEC). A person’s status in a particular situation shall be determined by the Chief Student Conduct Administrator.

8. **Mitigating Factor.** Extenuating circumstances that may be taken into account to reduce a sanction. They do not constitute a justification or excuse for the offense in question.

9. **Parent.** A student’s parent or legal guardian.

10. **Peace Officer.** A person designated by the University of Colorado or the state or federal government with the responsibility of enforcing laws or policies.

11. **Policy.** The written regulations of the University as found in, but not limited to, the Student Code of Conduct, Resident Handbook, the University web page and computer use policy, and Graduate/Undergraduate Catalogs.

12. **Preponderance of Evidence.** What happened more likely than not, or “50% plus a feather.” This shall be the standard of proof used in all conduct proceedings under this code.

13. **Respondent.** Any student accused of violating this Student Code.

14. **Student.** The term student includes all persons taking courses at the university, either full time or part time, pursuing undergraduate, graduate, or professional studies, as well as non-degree students. This also includes individuals admitted, those attending orientation sessions, and those that were enrolled at the date of an alleged incident. Persons who withdraw after allegedly violating the student conduct code are also considered “students.” This Student Code applies at all locations of the University, including the Downtown Denver, Anschutz and 9th and Colorado Boulevard campuses.

15. **University.** The University of Colorado Denver.

16. **University Official.** A university employee working in the performance of his or her duly authorized duties. University officials may be full or part time, or may be student staff members.

17. **University Premises.** Includes all land, buildings, facilities, and other property in the possession of or owned, used, or controlled by the University (including adjacent streets and sidewalks and all AHEC facilities).

18. **Witness.** Any individual who may have information relating to a conduct case.

19. **Working Day.** Monday through Friday, except for official university holidays.
Article IV – Rules, Regulations and Statement of Community Expectations

The conduct listed below is prohibited, as are attempts to commit and aiding, abetting, or inciting others to commit conduct prohibited by this code. Engaging in retaliatory acts against a person who reports an alleged violation of the code or testifies, assists, or participates in a conduct proceeding or investigation is a violation of this code.

1. Assaulting or physically abusing another person or being involved in brawling.
2. Intimate partner violence. Intimate partner violence is conduct between people who are or were involved in a sexual or romantic relationship when one person in the relationship causes harm or significant alarm or distress to the other person. This includes but is not limited to threats, assault, or other action against the person or their property when used as a method of coercion, control, punishment, intimidation, or revenge.
3. Threatening or endangering the health or safety of a person (one’s self or others).
4. Sexual Misconduct: Sexual Misconduct includes Non-consensual sexual intercourse, Non-consensual sexual contact and Sexual exploitation or exposure.
   o Non-consensual sexual intercourse: Non-consensual sexual intercourse is any sexual intercourse (anal, oral or vaginal), including sexual intercourse with an object, however slight, by one person upon another without consent.
   o Non-consensual sexual contact: Non-consensual sexual contact is any sexual touching (including touching with an object) however slight, by one person on another without consent.
   o Sexual exploitation and/or exposure: Sexual Exploitation is when a student takes non-consensual, unjust or abusive sexual advantage of another for his/her own pleasure, advantage or benefit, or to pleasure, benefit or advantage anyone other than the one being exploited. Sexual Exposure occurs when a student engages in lewd exposure of the body done with the intent to arouse or satisfy the sexual desire of any person.
5. Indecently exposing one’s body.
6. Stalking. Repeated conduct which reasonably and subjectively causes another person to fear for his/her safety or repeated conduct which causes a person to alter his/her activities in response to the repeated conduct. Such repeated conduct may include but is not limited to any of the following: following or approaching a person or a member of that person’s family or household; contacting a person or a member of that person’s family or household whether or not conversation ensues; and placing a person or a member of that person’s family or household under surveillance.
7. **Hazing.** Any action or situation that recklessly or intentionally endangers the health, safety, or welfare of an individual for the purpose of initiation, participation, admission into or affiliation with any organization at the university. Hazing includes, but is not limited to, any abuse of a mental or physical nature, forced consumption of any food, liquor, drugs, or substances, or any forced physical activity that could adversely affect the health or safety of an individual. Hazing also includes any activity that would subject the individual to embarrassment or humiliation, the willingness of the participant in such activity notwithstanding. (See Appendix 2)

8. **Abusive Conduct.** Unwelcome conduct by an individual(s) that is sufficiently severe or pervasive that it alters the conditions of education or employment and creates an environment that a reasonable person would find intimidating, hostile or offensive. The determination of whether an environment is “hostile” must be based on all of the circumstances. These circumstances could include the frequency of the conduct, its severity, and whether it is threatening or humiliating. Simple teasing, offhand comments and isolated incidents (unless extremely serious) will not amount to abusive conduct.
   - This policy should not be construed, and will not be enacted, to deny any student the right of free speech and expression.

9. **Violating any federal, state, or local law or university regulation or policy, which includes but is not limited to:**
   - Violating the University’s Administrative Policy Statement entitled, “Sexual Harassment Policy Campus Appendix.” (See http://ucdhsc.edu/admin/policies/hr/Sexual Harassment Policy Campus Appendix.pdf.)
   - Violating the University of Colorado Denver policy entitled, “Non Discrimination Policy.” (See http://www.uchsc.edu/diversity/nondiscrimpolicies.htm)
   - Violating the University of Colorado Denver policy entitled, “Computing Policy Statement” (See http://www.cudenver.edu/Resources/ITS/policiesAndProcedures.htm)

10. **Interfering with, obstructing or disrupting a university activity.**
    - University activities include, but are not limited to, all normal university activities, such as teaching, research, recreation, meetings, public events, and disciplinary proceedings.
    - This prohibition includes, but is not limited to, interference, obstruction or disruption of the freedom of expression or movement of students or other members of the university community and their guests.

11. **Interfering with, obstructing or disrupting police or fire responses.** This prohibition includes, but is not limited to:
    - Resisting arrest.
    - Failing to abide by the directions of a peace officer.
    - Tampering with, impairing, disabling, or misusing fire protection systems such as smoke detectors, fire extinguishers, sprinklers, or alarms.
Failing to evacuate during a fire alarm.

Arson/setting fires.

12. Failing to comply with the direction of university or housing officials who are performing their duties. Students are required to comply with instructions or directions given by university or housing officials, including, but not limited to, an instruction to present identification and an instruction to appear at conduct proceedings or other mandatory meetings.

13. Failing to abide by or complete a university sanction in a satisfactory manner, including violating the Student Conduct Code while on university probation or suspension in abeyance.

14. Providing false information to university officials, student conduct administrators, the Conduct Review Board (CRB), or peace officers in performance of their duties or forging, altering, falsifying or misusing documents or records, or knowingly using/possessing forged, altered or false documents or records.

15. Retaliating against or discouraging an individual from participating in a university process, acting to improperly influence a university conduct body, or the unauthorized release of confidential student or university information/records.

- Direct contact with an individual or conduct body or contact through a third party may constitute a violation of this provision.

17. Unauthorized entry into or exit from a university facility or property.

18. Damaging university property or property belonging to another.

19. Engaging in, inciting, or arming someone for a riot or public disturbance.

20. Use of electronic or other devices to make an audio or video record of another person without that person’s express consent and/or knowledge when such a recording is likely to cause injury or distress to the individual being recorded.

21. Possessing firearms, explosives, fireworks, incendiary devices, ammunition, or other weapons on campus.

- Possession of a harmless instrument designed to look like a firearm, explosive, or dangerous weapon is also prohibited by this policy (including but not limited to BB guns, pellet guns, martial arts equipment, and knives with a blade over 3” in length).

- As mandated by Regent’s Policy, in the case of a student who is found responsible via the Student Conduct Code process to have intentionally or recklessly used or possessed a weapon in a way that would intimidate, harass, injure, or otherwise interfere with the learning and working environment of the university, the minimum disciplinary sanction shall be expulsion. (See http://www.cu.edu/regents/Policies/Policy14.html#14-I)
In the case of a harmless instrument as described in section 21a., the minimum sanction shall be expulsion if the student used the item with the intent to cause fear in or assault to another person.

- Mere possession of firearms, explosives, fireworks, incendiary devices, ammunition, other weapons, or instruments designed to look like any of the above will result in suspension unless mitigating factors are present.

22. Theft, including but not limited to, possessing property known to be stolen, or taking property of another without consent, even with an intent to return the property.

23. Possessing, using, providing, manufacturing, distributing, or selling drugs or drug paraphernalia in violation of law or university policies.

- If the violation occurs in Student Housing, this prohibition includes a student who knew, or reasonably should have known, s/he was in the presence of illegal drugs or drug paraphernalia.

- In the case of a student who is found responsible via the student conduct code process to have endangered the health, safety, or welfare of an individual through the provision of drugs, the minimum disciplinary sanction shall be suspension.

- Although possession and use of marijuana for certain medical conditions consistent with the requirements of the Colorado Constitution is no longer a crime in the State of Colorado, the possession and use of marijuana remains illegal under federal law. Consistent with federal law, including the Controlled Substances Act and the Drug-Free Schools and Communities Act, the use and/or possession of marijuana continues to be prohibited while a student is on campus, including while in campus housing.

24. Possessing, using, providing, manufacturing, distributing, or selling alcoholic beverages in violation of law or university policies.

- If an underage student is in Student Housing, this prohibition includes a student who knew, or reasonably should have known, s/he was in the presence of alcoholic beverages, or possessed, displayed, or was in the presence of alcohol containers. In the case of a student who is found responsible via the student conduct code process to have endangered the health, safety, or welfare of an individual through the provision of alcohol, the minimum disciplinary sanction shall be suspension.

NOTICE TO STUDENTS CONCERNING PENALTIES FOR DRUG VIOLATIONS.

(1) NOTICE UPON ENROLLMENT.—Each institution of higher education shall provide to each student, upon enrollment, a separate, clear, and conspicuous written notice that advises the student of the penalties under section 484(r).

(r) SUSPENSION OF ELIGIBILITY FOR DRUG-RELATED OFFENSES.—

(1) IN GENERAL.—A student who has been convicted of any offense under
any federal or state law involving the possession or sale of a controlled substance shall not be eligible to receive any grant, loan, or work assistance under this title during the period beginning on the date of such conviction and ending after the interval specified in the following table:

If convicted of an offense involving:
The possession of a controlled substance: Ineligibility period is:
First offense ................................... 1 year
Second offense ............................... 2 years
Third offense .................................. Indefinite
The sale of a controlled substance: Ineligibility period is:
First offense ................................... 2 years
Second offense ............................... Indefinite

Article V – Student Conduct Code Procedures – Individual Students

A. Charges

1. The discipline process can be initiated by police reports, student housing incident reports, or a report from any faculty, administrative staff, student, or other member of the University/Campus community. This process is initiated through the submission of a written account of the incident to the Office of Community Standards and Wellness.

2. Upon the receipt of a written report, the Conduct Officer may determine that there is sufficient reason to charge the student with a violation of the Student Conduct Code and a University disciplinary hearing is warranted. The Conduct Officer may also seek or conduct an additional investigation.

3. In some cases, alternative dispute resolution such as Restorative Justice or mediation may be offered by mutual consent of the parties involved and on a basis acceptable to the Conduct Officer. A written summary of these agreements are provided to all parties. These agreements are binding and once entered are not subject to appeal. Failure to abide by the agreements could result in the situation being returned through the conduct process for possible disciplinary action.

B. Hearing Notification

1. All charges shall be presented to the Respondent in written form via electronic mail to the Respondent's official University email account. This letter of notice will provide the Respondent a copy of the initiating report(s) or information on
how to obtain them, and set a time for the hearing. Hearings are scheduled not less than three (3) business days (less than the three day minimum would require mutual agreement between the student and Conduct Officer) nor typically more than fifteen (15) business days after the student has been notified of the charges (maximum time may be extended at the discretion of the Conduct Officer taking into consideration scheduled breaks, etc.).

2. The letter of notice may contain specific requirements or restrictions, pending the resolution of the matter through the hearing process as needed to protect the interests of involved students or the University. These requirements could include but are not limited to, temporary relocation in student housing, restriction from specific campus locations, or orders prohibiting contact with complainants or witnesses. The notice letter will be sent to the student’s University e-mail address.

C. Options for Resolution of Disciplinary Charges

After review of the information contained with the letter of notice, the Respondent has the following options:

1. Accept responsibility for the charges: When the Respondent substantially agrees with the contents of the complaint and accepts responsibility for the infraction, the hearing will involve an administrative meeting with the Conduct Officer to determine the appropriate level of discipline and other sanctions or restorative resolution outcomes.

2. Dispute the charges: In the event that the student does not accept responsibility for the charges or substantially disagrees with information contained within the report, a University discipline hearing will be conducted. The student must notify the Office of Student Life by the date indicated in the letter of notice of his/her intent to accept or dispute the charges. Since cases involving disputed charges may require additional investigation or preparation time, either the student or the Conduct Officer may ask for limited additional time to prepare for the hearing and an appropriate hearing date and time may be re-scheduled typically within one additional week.

D. Hearings

Student conduct conferences shall be conducted by University Conduct Officers according to the following guidelines:
1. The Complainant and the Respondent may be accompanied by an advisor or support person they choose, at their own expense. Such advisor may be an attorney. Since the direct interaction with the students involved is essential to the educational relationship with the University, the advisor is limited to counseling the student and may not act as a representative of the student, speak on the student's behalf, or participate directly in any hearing. Advisors may not serve in a dual role as a witness in the hearing. University Conduct Officers may also consult with or choose to have University Counsel, in an advisory capacity, present at a hearing.

2. University student conduct conferences and administrative meetings are considered private educational interactions between the student(s) and the University. The Complainant, Respondent and their advisors, if any, shall be allowed to attend the entire hearing at which information is received (excluding deliberations). Admission of any other person to the hearing shall be at the discretion of the Conduct Officer.

3. Pertinent records, exhibits, and written statements, including student impact statements, may be accepted as information for consideration. The Complainant and the Respondent shall be allowed to review and respond to any reports or statements the Hearing Officer will consider as the basis for the charges or determination of evidence related to the hearing.

4. The Complainant and the Respondent will have the opportunity to present his/her own version of the incident or events by personal statements, as well as through written statements and witnesses.

5. If a Respondent, with notice, does not appear for the hearing, a decision may be reached taking into consideration the totality of the information related to the charges available at the time of the hearing.

6. There shall be a single verbatim record, such as a tape recording, made only in hearings in which the charges are disputed. This recording shall be the property of the University. In cases in which the charges are not disputed, the Conduct Officer will provide a brief summary and a listing of sanctions which resulted from the hearing. It is the student's responsibility to notify the Hearing Officer of his/her intent to dispute the charges in advance of the hearing.

7. In disputed cases, the Complainant, the Respondent, and the Conduct Officer may bring witnesses and/or ask for relevant witnesses to be called. The University Conduct Officer will try to arrange upon reasonable request (at least two (2) business days prior to the hearing) witnesses who were identified by or contributed to the report. Witnesses shall be present only during the time they are presenting information in the hearing. Witnesses will provide information to and answer questions directed from the Conduct Officer. Questions may be suggested by the Respondent and/or Complainant to be answered by each other or by witnesses. In order to preserve the educational tone of the hearing and to appropriately manage the proceedings, the Conduct Officer may ask that all questioning be directed through him/her and use discretion related to limiting
repetitive information/statements. All procedural questions are subject to the final decision of the Conduct Officer.

8. If information presented in the hearing creates additional need for clarification or investigation, or to accommodate irresolvable scheduling conflicts with key witnesses, the Conduct Officer may reschedule the hearing.

9. If the hearing involves more than one Respondent, the Conduct Officer, in his or her discretion, may permit the hearings concerning each student to be conducted either jointly or separately.

10. The Conduct Officer may accommodate availability and/or remote location of witnesses through conference phone calls or other alternate means. Accommodations may also be made related to concerns for the personal safety, well-being, and/or fears of confrontation of the Complainant, Respondent, and/or other witness during the hearing by providing separate facilities, by using a visual screen, and/or by permitting participation by telephone, videophone, closed circuit television, video conferencing, videotape, audio tape, written statement, or other means, where and as determined in the sole judgment of the Conduct Officer to be appropriate.

11. Formal rules of process, procedure, or evidence as established and applied in the civil or criminal justice system do not apply to this process.

E. Decisions

1. After the hearing concludes, the Conduct Officer will review all pertinent information and make a determination related to each of the charges specified from the Student Conduct Code. The determination is based on the preponderance of evidence standard - whether it is more likely than not that the Respondent violated the Student Conduct Code.

2. Conduct Officers have the authority to determine the appropriate level of discipline action taking into consideration the severity of the infraction, impact on individuals or the community, and the past record of discipline. In addition to the sanctions listed below, the Conduct Officer may place limits or conditions, require relocation in or removal from student housing, restitution, community service, and/or specify participation in educational programs and interventions including but not limited to those related to alcohol or drug use, ethical decision making, personal counseling, community issues, and restorative justice.

3. Written notice of the Conduct Officer’s decision will generally be sent to the student within ten (10) business days of the hearing. The notification shall consist of the determination of responsibility, level of discipline imposed, and a complete description of any sanctions or requirements. In disputed cases, when the Respondent is found responsible for the charges, the notification will also include a summary of the basis for the determination. A copy of the decision may also be sent to other appropriate University offices.
4. Decision letters that include information identifying persons listed as victims may not be released by the Respondent to unauthorized third parties. Failure to comply with this requirement could result in additional disciplinary charges.

F. Sanctions

The following sanctions may be applied when appropriate to individual students. More than one of the sanctions listed below may be imposed for any single violation. Failure to complete disciplinary sanctions within required deadlines will result in a “hold” on the student’s registration status.

1. No Action: The Conduct Officer finds that the charges are unsubstantiated or exonerates the student. The decision letter specifies that the charges are cleared and no disciplinary action is taken.

2. Warning or Written Reprimand: A student may be given a warning or written reprimand for minor infractions.

3. General Disciplinary Probation: Probation is for a designated period of time during which the student is required to show appropriate changes in attitude and behavior. Specific sanctions or restrictions may be imposed as a part of this sanction but do not result in loss of good standing with the University. A violation of the terms of General Disciplinary Probation, or subsequent misconduct after discipline, is grounds for further disciplinary action, including loss of good standing, suspension, or expulsion.

4. Disciplinary Probation/Loss of Good Standing: Probation is for a designated period of time in which appropriate changes in attitude and behavior are expected to occur. Specific sanctions or restrictions may be imposed as a part of this probation. A student on this disciplinary probation is not in good standing with the University. Good standing shall include but not be limited to a requirement for eligibility to represent the University, to serve on a University committee, to participate in intercollegiate or Sports Club athletics, and for recognition by the University including any office held in a student organization. A violation of the terms of disciplinary probation, or subsequent misconduct, is grounds for further disciplinary action, including suspension, or expulsion.

5. Discretionary/Educational Sanctions: Educational programs or assignments, Restorative Justice, mediation, community service, individual assessment, counseling, substance abuse education, intervention or treatment, or other related discretionary sanctions may be offered or required.

6. Restitution: Compensation for loss, damage, or injury. This may take the form of appropriate service or monetary or material replacement.

7. Residential Reassignment: A student may be reassigned to another student housing room when disruption has occurred in the residential community or in order to appropriately separate persons. The student will be responsible for all costs and fees associated with relocation as a result of this sanction.
8. **Residential Expulsion/Eviction:** Permanent separation of the student from student housing as a result of a University discipline hearing. The University expects first-year students to live in student housing and manage their behavior to comply with community standards. If a first-year student is expelled from the student housing, the Chief Conduct Officer will determine if the student may be allowed to continue as a student without complying with the University's live-in regulations.

9. **Disciplinary Suspension:** Suspension for a distinct period of time and/or the specification that a student must fulfill certain requirements before re-admission or re-instatement will be considered. While suspended, the student is not entitled to attend classes, use University facilities, participate in University activities, or be employed by the University. Special conditions may be stipulated for reinstatement at the conclusion of the period of suspension.

10. **Deferred Suspension:** A suspension may be deferred under special conditions in which the student participates in a designated program as a condition to remain in school under a strict probationary status.

11. **Disciplinary Expulsion:** Expulsion is permanent removal from the University with no opportunity to return.

12. **Revocation of Admission or Degree:** Admission to or a degree awarded from the University may be revoked for fraud, misrepresentation, or for other serious violations committed by a student prior to matriculation or graduation.

13. **Withholding Degree:** The University may withhold awarding a degree otherwise earned until the completion of the process set forth in this Student Conduct Code, including the completion of sanctions imposed.

14. **Parental Notification:** Parents may be notified of disciplinary decisions when a student under the age of 21 is found responsible for engaging in an infraction(s) involving alcohol, drugs, or the threat or use of violence and the disciplinary decision involves disciplinary probation, suspension, or expulsion and/or student housing relocation or expulsion. Letters are sent to the primary parent address provided to the University.

15. **Interim Suspension:** The Chancellor, Provost and the Associate Vice Chancellor for Student Affairs, and their designee(s) have the authority to suspend summarily, pending final disposition of the case, any student when, in the opinion of these officials, such a suspension is necessary to:
   a. Maintain order on the campus;
   b. Preserve the orderly functioning of the university;
   c. Stop interference in any manner with the public or private rights of others on university premises;
   d. Stop actions or potential actions that threaten the health or safety of any person;
   e. Stop actions or potential actions that destroy or damage property of the university, its students, faculty, staff, or guests.

Interim suspension will also include excluding the student from campus. Interim suspension begins immediately upon notice from the appropriate university official,
without a conference with a conduct officer. A conference with a conduct officer is then scheduled as soon as possible (usually within 10 calendar days) to determine how the case will continue and to begin the conduct process. In extreme matters, a summary suspension may be put in place until a student receives a final disposition in a court process after having been charged with a serious crime.

G. Appeal of a Disciplinary Decision

1. A decision reached by a Conduct Officer may be appealed to the University Appellate Board by either the Respondent(s) or Complainant(s). The appellant shall submit a written request for an appeal to the Dean of Students. The letter requesting an appeal must be very specific and clearly state the reasons for the request. Administrative support for the Appellate Board is provided through the Office of Student Life. The appeal request shall be delivered to that office within seven (7) business days of the date the appellant is notified of the decision rendered by the Hearing Officer. Failure to submit a request for appeal in writing within the specified time will render the decision of the Conduct Officer final and conclusive.

Except as necessary to explain the basis of new information, an appeal shall be limited to a review of the record of the hearing and supporting documents for one or more of the following reasons:

a. To determine whether the hearing was conducted fairly in light of the charges and information presented, and in conformity with prescribed procedures giving both the Respondent and complaining parties the opportunity to prepare and present relevant information to be considered in the determination of an appropriate outcome. Minor deviations from designated procedures will not be a basis for sustaining an appeal unless there is an adverse effect on the outcome of the hearing.
b. To determine whether the decision reached regarding the Respondent was based on substantial information. That is, whether there was information presented in the case that, if believed by the Conduct Officer, was sufficient to establish that a violation of the Student Conduct Code occurred.
c. To determine whether the sanctions(s) imposed were appropriate for the violation of the Student Conduct Code which the student was found to have committed.
d. To review the decision, which involves separation of the student from the University, through disciplinary suspension or expulsion.
e. To consider new information, sufficient to alter the decision or other relevant facts not brought out in the original hearing, because such information and/or facts were not known to the person appealing at the time of the original hearing.
f. To petition for removal of a disciplinary transcript notation or for eligibility for re-admission to the University following completion of the terms of a disciplinary suspension. Appeals are directed to the panel only in those cases where the
University Conduct Officer determines the original terms were not satisfactorily completed.

2. The Dean of Students, or his/her designee, will review the written request for appeal to determine if the acceptable grounds for the appeal are met. After review of the appellant’s request, which may include but is not limited to review of the record and/or meeting with the parties involved and/or the Conduct Officer, shall take one of the following actions:

   a. Deny the appeal.
   b. Return the case to the Conduct Officer or Chief Conduct Officer for further consideration; while the case is being re-considered, the student must continue to abide by any stated conditions.
   c. Convene an Appeals Committee to review the record of the original case.
   d. Grant a hearing with an Appeals Committee to consider new information.

3. If an appeal is granted, the Dean of Students will review the record or arrange for a hearing if one is necessary to hear new information. While the decision of the Dean of Students is pending, the Respondent must comply with all conditions of the decision of the University hearing related to University owned or operated housing, no contact orders, restrictions from particular facilities, interim suspensions, or other conditions deemed necessary for the safety or orderly functioning of the campus as determined by the Chief Conduct Officer. Unless otherwise specified, a student may continue to attend classes while the appeal is pending.

4. When questions of law arise, the Chair may consult with University Legal Counsel.

5. If a hearing is granted to consider new information, the general process outlined under hearing procedures will be used.

6. The Dean of Students may make one of the following decisions:

   a. Reverse the decision: the committee does not agree with the Conduct Officer’s evaluation of evidence in support of the charges. In the case of the Respondent, the disciplinary decision would be changed to “No Action”. In the case of the Complainant, the case would be referred back to the Conduct Officer or Chief Conduct Officer for appropriate sanctioning.
   b. Affirm the decision: the committee agrees that the information before the committee supports the decision reached by the Conduct Officer.
   c. Return the case to the Conduct Officer or Chief Conduct Officer for further consideration: the committee believes that additional considerations should be made which could include increasing or decreasing the penalty or addressing additional issues raised through the appeals process. While the case is being re-considered, the student must continue to abide by any stated conditions.
7. The Dean of Students will communicate its decision in writing in a timely manner. Except where the matter is returned to the Conduct Officer for further consideration, the matter shall be considered final and binding upon all involved.

**Article VI – Student Records**

**A. Student Records**

1. Student disciplinary records will be maintained in keeping with the Federal Family Educational Rights and Privacy Act of 1974 (FERPA) and subsequent amendments and the guidelines for implementation. The record of disciplinary actions will be kept in the Office of Community Standards and Wellness. Disciplinary records are maintained for a period of five years from the date of the last disciplinary decision if the student is no longer enrolled at the University and then destroyed except in cases of expulsion. Information regarding a student's disciplinary record is available to persons or offices internal to the University who have a "demonstrated educational need to know". Disclosure of disciplinary records to entities outside of the University generally requires a written release from the student.

2. Notations of disciplinary action on the student's transcript will be made only by the Office of Community Standards and Wellness. Disciplinary expulsion will be permanently noted on the academic transcript. Disciplinary suspension is noted on the student record during the period of suspension and/or until the conditions for re-admission have been met. In the case of suspension, when the conditions for re-admission have been met, the student may petition for admissions clearance and/or removal of the notation whether or not the student intends to return to UC Denver. If the petition is denied the student may appeal the decision to the University Appellate Board in accordance with the established procedure for appeal as set forth in this policy.

**Article VII – Victims**

**A. Records**

In situations involving both a Respondent Student(s) (or group or organization) and a student claiming to be the victim of another student’s conduct, the records of the process and of the sanctions imposed, if any, shall be considered to be the education records of both parties because the educational career and chances of success in the University of each may be impacted. This provision allows for alleged victims/complainants to participate in the hearing process and be informed of the determination and sanctions imposed, if any. In addition, at the victim's request, be informed (to the extent permitted
by law) of the impending return of the respondent student to campus, if the conditions of the suspension were met prior to the victim's departure/graduation from campus.

B. Support for Victims:

1. The University is committed to providing appropriate support and referrals to persons who have been the victims of crimes or violations of the Student Conduct Code. A student who has experienced being the victim of another person's unlawful or prohibited actions may choose to seek personal support, explore options, and report the incident.

2. Strictly confidential services are available through the University Counseling Center, and Student Health Center. Other University agencies may be required by law and University policy to take appropriate action when notified.

3. Victims also have the option to receive assistance from other appropriate University resources. This could include assistance in relocation within or to campus housing if desired; referral for academic support services; notification of appropriate persons/agencies; and at the victim's request, to receive University cooperation in using University procedures to deter harassment or retribution.

4. Students are encouraged to report complaints of:
   - sexual harassment or discrimination to the Office of Equal Opportunity and Diversity
   - crimes to the Auraria Campus Police or Denver Police
   - violations of the University Conduct Code to Housing Staff and/or the Office of Student Life
   - interpersonal and sexual violence to the Office of Student Life and Auraria Campus police
   - violations of their right to free speech in the classroom directly to the faculty member involved or his/her department chair or the Office of Student Life

Article VIII: Interpretation and Revision

Under the authority of the Board of Regents, any question of interpretation or application of the Student Conduct Code shall be referred to the Associate Vice Chancellor for Student Affairs or his or her designee for final determination.

The Student Conduct Code shall be reviewed every five years under the direction of the Chief Conduct Officer, in consultation with Legal Counsel.

Use of University/Auraria Property or Facilities

Nothing in this code of conduct shall be construed to prevent peaceful and orderly assembly for the voicing of concerns or grievances. The university is dedicated to the
pursuit of knowledge through a free exchange of ideas, and this shall be a cardinal principle in the determination of whether or not a proposed use of university facilities is appropriate.

The Auraria Higher Education Center has established campus regulations and procedures governing the use of UC Denver/Auraria grounds, buildings and other facilities. Such regulations are designed to prevent interference with university functions and activities. Except where otherwise specifically authorized, or when members of the public are invited, the use of UC Denver/Auraria facilities shall be limited to faculty, staff and students of the UC Denver/Auraria Campus and to organizations having chapters, local groups or other recognized university-connected representation among faculty, staff or students of the three academic institutions on the Auraria Campus.

**Classroom Conduct**

Students are expected to conduct themselves appropriately in classroom situations. If disruptive behavior occurs in a classroom, an instructor has the authority to ask the disruptive student to leave the classroom. Should such disorderly or disruptive conduct persist, the instructor should report the matter to the Auraria Campus Police Department and/or the appropriate dean’s office. The appropriate dean or his/her representative may dismiss a student from a particular class for disruptive behavior, while the Student Discipline Committee may recommend to the Director of Community Standards and Wellness to withdraw, suspend, permanently expel and/or permanently exclude the student from the campus. Appeal questions concerning disruptive behavior should be directed to the academic dean’s office when withdrawal from a class is involved and to the Director of Community Standards and Wellness when suspension or expulsion from the university is involved.

**Tri-Institutional Violations**

Procedures in deciding violations of the code of student conduct involving students from other academic institutions on the Auraria campus have been developed by the Downtown Campus and the institution(s) involved. In such cases, the assistant director of student life should be contacted.

**Amorous Relationships**

Amorous relationships exist when two individuals mutually and consensually understand a relationship to be romantic and/or sexual in nature. The policy requires only that direct evaluative authority not be exercised in cases where amorous relationships exist or existed within the last seven years between two individuals whether the same or opposite sex.

The policy is intended to establish a reporting structure to protect participants in these relationships from violations of university conflict-of-interest guidelines (when a direct
evaluative relationship exists between two employees or between an employee and a student). The relationship must be disclosed to the unit head, department chair, dean or head of the primary unit with all parties present. The person to whom disclosure is made must take action to resolve the conflict and must keep the information confidential. The individual in the evaluative position shall recuse her or himself from all future evaluative actions. The parties may choose to have this disclosure in written form placed in their own personnel files. (This information is removed and destroyed seven years after the time of disclosure if requested and if the relationship has ended.) The responsibility to disclose rests with the person in the evaluative position. A report of the action taken to resolve the conflict must be made to the chancellor or designee who may require other action.

When a relationship exists, either current or within the last seven years, between an individual and an employee who, although not his/her direct supervisor but is in a direct line of report (e.g., dean involved with a faculty member in his/her college or a second or higher level supervisor who in involved with a staff member in the unit), the higher-level employee may not act in an evaluative capacity. When these individuals are parties to a personnel action (appointments/hiring, firing/layoff, promotions/demotions, tenure decisions, salary setting, performance appraisals, grievance and disciplinary procedures), the evaluative authority must recuse himself/herself from participating in the action. The action taken to resolve the conflict must be reported to the chancellor or designee.

**Antiviolence**

The University of Colorado Denver strives to maintain a campus free of and prohibits violent behavior, including but not limited to verbal and/or physical aggression, attack, threats, harassment, intimidation or other disruptive behavior in any form or by any media, which causes or could cause a reasonable person to fear physical harm by any individual(s) or group(s) against any person(s) and/or property. This policy applies to academic, administrative, research and service departments, programs activities and/or services wherever university business is conducted, including extended studies and international locations.

Employees, students and visitors who engage in prohibited behavior shall be held accountable under university policy, as well as local, state and federal law. Any employee or student who commits or threatens to commit violent behavior shall be subject to disciplinary action, up to and including dismissal or expulsion, as well as arrest and prosecution. Any visitor who commits or threatens to commit violent behavior shall be subject to exclusion from the campus, termination of business relationships and/or arrest and prosecution.

**Prohibited Behaviors**
Examples of prohibited behaviors may include but are not limited to: (1) disturbing the peace by violent, tumultuous, offensive or obstreperous conduct; (2) engaging in intimidating, threatening or hostile statements or actions; (3) making gestures that convey threats; (4) raising one’s voice in anger or using fighting words; (5) uttering ethnic, racial or sexual epithets; (6) using unseemly, profane, offensive or obscene language or making obscene gestures; (7) making bizarre comments about or references to violent events and/or behaviors; (8) waving fists, pushing, stalking, bullying, hazing; (9) engaging in the abusive exercise of legitimate authority; (10) destroying personal property in the workplace; (11) destroying university property; (12) throwing objects at persons or property; (13) physically assaulting or attacking persons or property; (14) engaging in vandalism, arson or sabotage.

**Weapons**

The possession, display or use of any weapon, including any firearm, or the display or use of any object as a weapon, by any person other than a law enforcement officer in the course of his/her duty, in any location where university business is conducted, is in violation of Regental Policy (14-I) and is strictly prohibited. Possession of a firearm or weapon on University of Colorado Denver-owned property or the Auraria Campus is cause for immediate termination of employees or expulsion of students.

**Reporting Procedures**

**Emergency or Life-Threatening Situations**

In the case of an emergency or life-threatening situation, immediately call 911. A call to 911 will go to the appropriate campus, city or county law enforcement agency. A call to 911 from any campus telephone automatically registers the location of the telephone on which 911 a call was placed, even if no words are spoken.

**Nonemergency Situations**

In all other situations, notify the Office of Human Resources, 303-315-2700. Before or after normal business hours or if human resources is otherwise unavailable, notify the Anschutz Medical Campus Police at 303-724-4444 or Auraria Campus Police at 303-556-3271.
Responsibility to Report

Anyone witnessing or receiving a report of prohibited behavior, or possession, display or use of any weapon shall immediately notify the appropriate authority as listed above.

Emergency Notification System

The Emergency Notification System allows students, faculty and staff to register to receive alerts about threats of imminent danger at or near any UC Denver location. This service is used in conjunction with other communication channels including: public address systems, broadcast e-mail, voice-mail messages to campus telephone extensions, electronic signage, a coordinated use of public media outlets, and 24-hour recorded emergency and information hotlines (Anschutz Medical Campus in Aurora 303-724-4636; Downtown/Auraria Campus 303-556-2401). Participants choose from various notification options including text messaging, e-mail, phone, instant messaging, pager, fax and BlackBerry devices. Visit the UC Denver Web site for details, www.ucdenver.edu.

Drugs and Alcohol

UC Denver recognizes the health risks associated with the use of illicit drugs and the abuse of alcohol and is committed to providing a drug-free educational and drug-free workplace that supports the research, teaching and service mission of the university. The university is concerned about substance abuse and needs to ensure that the university community complies with the Federal Drug-Free Workplace Act of 1988 (the “Drug-Free Workplace Act”) and the Drug-Free Schools and Communities Act Amendments of 1989 (the “Drug-Free Schools Act”). These acts require the university as a recipient of federal funds to take measures to combat the abuse of drugs and alcohol. The continuation of federal financial support for our students, as well as our academic programs and academic support service programs is based upon compliance with these statutes and their regulations.

As a result, the unlawful manufacture, distribution, dispensation, possession or use of any controlled substance (illicit drugs of any kind or amount) and the abuse of alcohol by students and employees on university property or as part of any of its activities is prohibited. This prohibition covers any individual's actions that are part of any university activities, including those occurring while on university property or in the conduct of university business away from the campus.

Any member of the faculty, staff or student body may not jeopardize the operation or interest of the university through the use of alcohol or drugs. Those individuals found to do so are engaged in serious misconduct and are subject to legal sanctions under local, state or federal law and are also subject to disciplinary action consistent with the Code of Student Conduct, the Faculty Handbook and applicable rules of the State Personnel
System. Sanctions that will be imposed by the university for employees who are found to not adhere to these federal requirements may include requiring satisfactory participation in a substance abuse treatment, counseling or education program as a condition of continued employment, suspension or termination of employment and referral for prosecution.

The Web address for the Colorado Department of Human Services’ director of licensed treatments programs is [www.cdhs.state.co.us/adad/](http://www.cdhs.state.co.us/adad/).

Health risks associated with the use of illicit drugs and the abuse of alcohol include but are not limited to the following:

- **Violence**—Fights, vandalism, sexual assaults, homicide and suicide are far more likely to occur when drinking is involved.
- **Unprotected Sex**—Individuals are less likely to use safer sex practices when drinking, which can result in unplanned pregnancy and infection with a sexually transmitted disease.
- **Serious Injury**—More than 53 percent of all fatal automobile accidents in the U.S. involve alcohol use.
- **Death from overdose.**
- **Addiction**—Although anyone can become addicted, those with a family history of alcohol or other drug addiction are at least four times more likely to develop alcoholism.
- **Lowered Resistance to Disease/Illness**—Increased risk of ulcers, heart disease and cancers of the liver, mouth, throat and stomach.
- **Fetal Alcohol Syndrome/Fetal Alcohol Effects (FAS/FAE)**—Women who drink during pregnancy may give birth to infants with physical deformities, brain damage and/or mental retardation. If a woman is pregnant, trying to become pregnant or suspects she is pregnant, she should abstain from alcohol and other drug use.

All university faculty and staff members, as well as any students employed at the university, acknowledge that they will as a condition of their employment abide by these federal requirements. In addition, any employee who is convicted of a violation of any criminal drug law occurring in the workplace must report that conviction to his or her immediate supervisor within five days. The Drug-Free Workplace Act makes a strict compliance with this policy statement a condition of employment on all federal grants and contracts. Within 10 days of learning of a drug conviction resulting from workplace activities of any individual engaged in work under grants or contracts funded by a federal agency, the university is required to notify the relevant funding agency that a violation of this policy statement has occurred.

University employees may contact the Office of Human Resources at 303-315-2700 (Lawrence Street Center, 1050) for more information regarding resources, programs and services available. Students may contact the Student and Community Counseling Center at 303-556-4372 (North Classroom, 4036) or the Student Health Center at 303-
556-2525 (Plaza Building, 150) for confidential information and/or referrals. Information may also be obtained by calling the U.S. Department of Health and Human Services national drug and alcohol treatment referral service at 1-800-662-HELP.

This statement will be issued each year as part of the university's continuing effort to increase awareness about the dangers of substance abuse. These actions are based on the belief that well-informed members of the university community will choose wellness over illness and effectiveness over impairment. We ask your support in this important campus effort.

**NOTICE TO STUDENTS CONCERNING PENALTIES FOR DRUG VIOLATIONS.**

(1) NOTICE UPON ENROLLMENT.—Each institution of higher education shall provide to each student, upon enrollment, a separate, clear, and conspicuous written notice that advises the student of the penalties under section 484(r).

(r) SUSPENSION OF ELIGIBILITY FOR DRUG-RELATED OFFENSES.—(1) IN GENERAL.—A student who has been convicted of any offense under any federal or state law involving the possession or sale of a controlled substance shall not be eligible to receive any grant, loan, or work assistance under this title during the period beginning on the date of such conviction and ending after the interval specified in the following table:

If convicted of an offense involving:

**The possession of a controlled substance: Ineligibility period is:**
First offense ................................... 1 year
Second offense ............................... 2 years
Third offense ................................. Indefinite

**The sale of a controlled substance: Ineligibility period is:**
First offense ................................... 2 years
Second offense ................................. Indefinite

---

**Inclusiveness and Nondiscrimination**

The University of Colorado Denver is committed to enhancing the inclusiveness of its work force and its student body. Inclusiveness among students, faculty, staff and administrators is essential to educational excellence and to accomplishing UC Denver’s urban mission. Inclusiveness among faculty, staff and administrators provides role models and mentors for students, who will become leaders in academe and in the larger
society, and ensures that a broad array of experiences and world views informs and shapes teaching, research, service and decision making at UC Denver.

Pursuant to Article 10, Laws of the University of Colorado Board of Regents, the university does not discriminate on the basis of race, color, national origin, sex, age, disability, creed, religion, sexual orientation or veteran status in admission and access to, and treatment and employment in, its educational programs and activities. The university takes action to increase ethnic, cultural and gender diversity, to employ qualified disabled individuals and to provide equal opportunity to all students and employees.

All students shall have the same fundamental rights to equal respect, due process and judgment of them based solely on factors demonstrably related to performance and expectations as students. All students share equally the obligations to perform their duties and exercise judgments of others in accordance with the basic standards of fairness, equity and inquiry that should always guide education.

A statement of Article 10 may be found online at www.cu.edu/regents/Laws/Article10.html. UC Denver procedures for investigating complaints of discrimination may be found online at ucdenver.edu/faculty_staff/employees/policies/Policies%20Library/HR/Nondiscrimination.pdf.

To report a violation of Article 10 or for additional information, contact the UC Denver Equal Opportunity/Affirmative Action Compliance Officer at 303-315-2700; mailing address: EO/AA Compliance Office, UC Denver, P.O. Box 173364, Campus Box 130, Denver, CO 80217-3364.

Disability Accommodation

The Americans with Disabilities Act (ADA) provides that individuals who are otherwise qualified for jobs or educational programs will not be denied access simply because they have a disability. Its goal is to guarantee that individuals with disabilities are not discriminated against or denied equal access to the same programs, services and facilities available to others. The ADA prohibits employers, including UC Denver, from discriminating against applicants and workers with disabilities in all aspects of employment. The act also prohibits the university from discriminating on the basis of disability in access to its programs and services.

The ADA requires that UC Denver provide reasonable accommodations to qualified individuals with disabilities who are employees or applicants for employment, and for persons who participate in or apply for participation in the university’s programs and activities. Exceptions to the obligation for providing accommodation may be made if doing so would cause undue financial or administrative burdens, fundamental alteration to a program or activity, or significant risk to health or safety to self and/or others.
Additional information regarding the ADA may be obtained online at www.usdoj.gov/crt/ada/adahom1.htm.

If you are a student at UC Denver and need assistance with access to or participation in the academic curriculum, contact the Office of Disability Resources/Services at: 303-556-3450; TTY 303-556-4766; mailing address P.O. Box 173364, Campus Box 118, Denver, CO 80217-3364.

**Reporting Disability Discrimination**

Article 10 of the laws of the University of Colorado Board of Regents prohibits discrimination on the basis of disability (or on the basis of membership in other protected classes) in admission and access to, and treatment and employment in, University of Colorado educational programs and activities. To report discrimination or to obtain additional information, contact the UC Denver ADA coordinator, 303-315-2724; mailing address: P.O. Box 173364, Campus Box 130, Denver, CO 80217-3364. Complaints of discrimination based upon disability will be processed according to the provisions of the UC Denver nondiscrimination procedures, which may be found online at: ucdenver.edu/faculty_staff/employees/policies/Policies%20Library/HR/Nondiscrimination.pdf.

**Sexual Harassment**

The University of Colorado is committed to maintaining a positive learning, working and living environment. In pursuit of these goals, the university will not tolerate acts of sexual harassment or related retaliation against or by any employee or student.

*Sexual harassment:* consists of interaction between individuals of the same or opposite sex that is characterized by unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature when: (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment, living conditions and/or educational evaluation; (2) submission to or rejection of such conduct by an individual is used as the basis for tangible employment or educational decisions affecting such individual; or (3) such conduct has the purpose or effect of unreasonably interfering with an individual’s work or academic performance or creating an intimidating, hostile or offensive working or educational environment.

*Hostile environment sexual harassment:* (described in subpart (3) above) is unwelcome sexual conduct that is sufficiently severe or pervasive that it alters the conditions of education or employment and creates an environment that a reasonable person would find intimidating, hostile or offensive. The determination of whether an environment is “hostile” must be based on all of the circumstances. These circumstances could include the frequency of the conduct, its severity and whether it is threatening or humiliating.

*Retaliatory acts:* It is a violation of this policy to engage in retaliatory acts against any employee or student who reports an incident of alleged sexual harassment or any
employee or student who testifies, assists or participates in a proceeding, investigation or hearing relating to such allegation of sexual harassment.

The University of Colorado System Administrative Policy Statement (APS) on sexual harassment policy and procedures may be obtained from the UC Denver sexual harassment officer (see “Reporting Sexual Harassment”) or found online at: ucdenver.edu/faculty_staff/employees/policies/Policies%20Library/HR/SexualHarassment.pdf.

Reporting Sexual Harassment

If you need to report sexual harassment or if you have any questions regarding sexual harassment or policy above, please contact the UC Denver sexual harassment officer at 303-315-2724; send correspondence to Human Resources, P.O. Box 173364, Campus Box 130, Denver, CO 80217-3364.

Who to Call When You Need Help

ADA Coordinator

Contact: Human Resources
Office: Lawrence Street Center, 1050
Telephone: 303-315-2700

Contact the ADA coordinator to report disability discrimination.

Auraria Police Department

Office: Administration Building, 110 (1201 5th Street)
Telephone: 303-556-5000
Emergency: 911

Contact the Auraria Police Department to report on-campus criminal conduct, including sexual assault or other serious allegations of sexual harassment in which the complainant believes that his or her safety is threatened. Allegations of serious sexual harassment should be reported to the Auraria Police Department if they occur after hours or on weekends.

Disability Resources and Services

Director: Lisa McGill
Office: Arts Building, 177
Telephone: 303-556-3450
TTY: 303-556-4766

The Office of Disability Resources and Services provides equal opportunities and fosters the personal growth and development of students with disabilities. Contact DRS for priority registration for classes, assistance in identifying volunteer note takers, alternative testing, oral/sign language interpreters, real-time captioning and textbooks in alternative formats.

**Disruptive/Threatening Behavior**

Chair: Larry Loften
Office: Tivoli Student Union, 259
Telephone: 303-817-2813
Web site: [www.ucdenver.edu/beta](http://www.ucdenver.edu/beta)

The Behavioral Evaluation and Threat Assessment Team (BETA) is a resource on the University of Colorado Denver campus that can provide support and information to faculty, staff or student community members who are confronted with individuals who may be threatening, disruptive, or otherwise problematic. The Team provides guidance and consultation and may make referrals to appropriate campus or community resources.

**Equal Opportunity/Affirmative Action**

Contact: Human Resources
Office: Lawrence Street Center, 1050
Telephone: 303-315-2700

Contact the compliance officer to report discrimination on the basis of race, color, national origin, sex, age, disability, creed, religion, sexual orientation or veteran status.

**Human Resources**

Office: Lawrence Street Center, 1050
Telephone: 303-315-2700

Contact the Office of Human Resources for a referral and to speak to someone immediately about your problem.

**Ombuds Office**
The Ombuds Office is a confidential and impartial resource for students, faculty and staff. Contact the Ombuds Office: as a first step if you don’t know where to turn, as a last resort, or anywhere along the way; when you are confused about university policy or procedure and would like clarification; to explore your options, share your concerns, evaluate your situation, and plan your next step; when you feel as if you have been treated unfairly; and for information and identification of resources to resolve issues.

**Sexual Harassment**

**Contact:** Human Resources  
**Office:** Lawrence Street Center, 1050  
**Telephone:** 303-315-2724  

Contact the sexual harassment officer with questions about or to report sexual harassment.

**Student and Community Counseling Center**

**Contact:** Patricia Larsen  
**Office:** North Classroom, 4036  
**Telephone:** 303-556-4372  
**Web site:** [www.ucdenver.edu/life/services/counseling-center/Pages/default.aspx](http://www.ucdenver.edu/life/services/counseling-center/Pages/default.aspx)

The Student and Community Counseling Center provides mental health counseling services to the student body as well as the metropolitan community. UC Denver students receive 10 counseling sessions at no cost per fiscal year as part of their student fees.

**College of Architecture and Planning**

**Dean:** Mark Gelernter  

**Associate Deans of Academic Affairs:**  
  - Denver: Yuk Lee  
  - Boulder: Hans Morgenthaler

Application Deadlines

Fall Semester
PhD in design and planning—February 1
All professional programs—February 15

Spring Semester
All programs—October 1
(In architecture and landscape architecture, students starting in the spring will only be able to select from a reduced set of courses and will get on track starting the next fall.)
Applications received after these dates will be considered only if space is still available.

If you're interested in a career in architecture, urban and regional planning, landscape architecture or urban design, you’ll want to get acquainted with the College of Architecture and Planning on the Downtown Campus of UC Denver. We offer the only undergraduate and graduate education in these fields in the state of Colorado. Many students intending to enter the design and planning professions complete the college’s undergraduate degree as preparation for our graduate-level professional programs. Our graduate programs also are available for those who already hold an undergraduate
degree in an unrelated field. Our graduate programs in architecture, landscape architecture, urban and regional planning and urban design, and our graduate certificates in preservation, design build and GIS, are taught on the Downtown Campus, in the heart of a vital downtown. Our undergraduate program is offered in Boulder, an environment ideally suited to the needs of undergraduates (see the University of Colorado at Boulder catalog for details). We offer a multidisciplinary PhD in design and planning based in Denver. With a diverse faculty committed to excellence in teaching, research, scholarship and creative work, the college provides students with a broad range of learning opportunities.

The College’s Vision

To help students prepare for an engaging, productive career in the design and planning professions, the College of Architecture and Planning has developed a bold vision called Integrative Design. This vision directs the college to:

- Engage design and planning challenges that are significant for our society. We are not an ivory tower. Learning experiences address real issues facing designers and planners as they create healthier, more sustainable, more meaningful environments for the 21st century. In recent years, among many other socially important projects, our students have: designed alternatives to suburbia; built award-winning solar-powered homes; written new codes to encourage livelier, safer cities; discovered ecological design principles in Colorado ranches; proposed ways for neighborhoods to recover from natural disasters; and invented new ideas for affordable housing.
- Engage these challenges in partnerships among the disciplines and with our external communities. No one discipline can address these issues alone. Architects, landscape architects, planners, urban designers and developers must work together to create holistic, healthy, sustainable environments.

In our college, students have opportunities to:

- Participate in multi-disciplinary teams, modeling the practices of today’s successful design and planning firms.
- Interact with outstanding practicing designers and planners in the Denver metro area through internships, mentorships, design juries, lectures and student professional organizations.

Communities of Interest

To implement this vision, the college has organized many of its activities around “communities of interest.” These bring together faculty, students and practitioners across
the disciplines who share an interest and expertise in a particular theme, building synergistic relationships as they explore new design and planning ideas.

The college’s communities of interest currently include:

- **Emerging Practices in Design**
  Exploring how the digital design revolution and sustainable design practices are reshaping the professions. These include sustainable design and design/build practices as well as digital visualization and building information modeling (BIM) technologies.

- **Sustainable Urbanism**
  Exploring new ideas about creating livable cities in the midst of intense pressures for growth and fragile ecosystems.

- **Healthy Environments**
  Exploring how to build healthier buildings, cities and landscapes.

- **Cultural Heritage**
  Understanding, interpreting and preserving our cultural heritage in design and planning, including historic buildings, landscapes and intellectual and cultural ideas.

**Special Activities and Programs**

The college provides a diverse range of opportunities that enrich and enhance the education of its students. Through activities and functions—including a lecture series, a visiting critic series, exhibits, publications and active student organizations—the college encourages contact among students, faculty and members of the design professions. Each summer, the college offers foreign study travel programs, which in recent years have traveled to Prague, Rome, Helsinki, Paris, Beijing and Madrid. In addition, for the past seven summers the college has offered an integrated urban design studio in Turkey. The college makes available a range of scholarships and fellowships, some of which are based on need, others on performance and still others of which are specifically intended to provide enrichment opportunities. The college supports an active and focused internship program for its students, giving them access to elective internship opportunities in the Denver metropolitan area and beyond. Finally, the college encourages students to take control of their own education and supports, within its ability, any reasonable proposals from students that would enrich their own educational experiences.

**College Facilities**

The college’s administrative headquarters and graduate programs are located at 1250 14th Street in downtown Denver, on the northeastern edge of the Auraria Campus. This favorable location gives easy access both to the extensive campus facilities and to the urban amenities of Denver’s lively lower downtown. Most of the major professional
design offices in Denver and many planning firms and agencies are within easy reach of the college. These provide many opportunities for contact between students and practitioners. College facilities include studio spaces for students, lecture and seminar rooms, design jury spaces, exhibition spaces and faculty offices. The college also provides a portfolio photography studio room, a model and furniture-making woodshop with laser cutters and a 3-D printer, and an extensive computer laboratory whose focus is computer aided design (CAD), computer 2-D and 3-D imaging and analytic tools for planning. The computer lab includes Windows PCs and G4 Macintoshes, small and large format scanners, large format plotters, laser printers and computer data projection devices. All systems are 100base T Ethernet / Internet savvy and accessible 24 hours a day in a secure room. Also associated with the college is a geographic information system (GIS) computer laboratory, which is open to all UC Denver students.

**Scholarships/Financial Aid**

Students in the college have access to a number of scholarships and other financial assistance funds. Some of these funds are provided by the institution itself, while others are provided by external sources like the American Institute of Architects Education Fund, the American Planning Association, the American Society of Landscape Architects and the Rocky Mountain Masonry Institute. For further information on these scholarships and graduate tuition awards, visit the college’s Web site or request a list via e-mail at patricia.mckissock@ucdenver.edu. For information on federal and state financial aid, contact the Office of Financial Aid, University of Colorado Denver, Campus Box 125, P.O. Box 173364, Denver, CO 80217-3364, 303-556-2886 or visit their Web site.

**Admissions**

**General Requirements**

Applicants to the College of Architecture and Planning are required to submit the following credentials:

- University of Colorado application for graduate admission form
- Two official transcripts from each institution the applicant has attended. Transcripts must be mailed by the institution directly to the college. A certified literal English translation also must be submitted for documents that are not in English.
- Letters of recommendation: U.S. residents, three letters; international applicants, four letters.
- Statement of purpose: Applicants to all programs must submit a statement summarizing career objectives and reasons for pursuing the intended program of study. Applicants to the MURP program should indicate their area of concentration. Applicants to the PhD program should discuss the intellectual and
policy challenges they hope to address, methodological skills they plan to pursue, and briefly note any tentative dissertation research topics and, if possible, overlap of research interests with program faculty.

- Supporting materials for architecture and landscape architecture: Applicants to the graduate architecture and landscape architecture programs are required to submit a portfolio (6-12 bound pages, 8.5 × 11 inches). Slides are not accepted. A portfolio is an orderly presentation of one’s work. This includes examples of creative and analytical work including but not limited to essays, papers, photographs and photographic reproductions of artistic work such as sculptures, drawings, paintings, musical compositions and other fine arts. A stamped, self-addressed envelope must be included for return of the portfolio. Applicants to architecture and landscape architecture are encouraged to submit GRE scores if their GPAs are below 3.0.

- Supporting materials for urban and regional planning: Applicants to the urban and regional planning program should submit, in an 8.5 × 11-inch bound document, their statement of purpose, a resume and a copy of a student or professional paper or project. Applicants to the urban and regional planning program are encouraged to submit GRE (general) scores; those whose undergraduate GPA is below 3.0 are required to submit GRE scores.

- Supporting materials for the PhD: Applicants to the PhD program must submit a sample of written work and any other evidence relevant to admission to the program, in accordance with submission guidelines that can be obtained from the college. Applicants to the PhD program are required to submit GRE scores.

- Application fee. Nonrefundable ($50, U.S. residents; $75, international applicants).

Confirmation Deposit

A nonrefundable confirmation deposit of $200 is required to secure an applicant’s place in the architecture, landscape architecture and PhD programs. The deposit is due at the time the applicant accepts the program’s offer of admission. The deposit will be applied to the first semester’s tuition when the student registers for classes.

Computing in the College

The College of Architecture and Planning requires all incoming graduate students to acquire and use their own computers and software applications in their studies. To assist students with procurement of their personal computers, the IT committee formulated performance-based computing specifications. These are listed online here. Please note that UC Denver neither endorses nor requires students to procure a machine from a particular vendor. While desktop configurations are listed, students are urged to procure laptops mainly for reasons of security and mobility in studios and classrooms. Software application (program) requirements relate to specific course curricula. In general, students widely use products such as Microsoft Office for word processing, e-mail, presentations and spreadsheet applications. Consult with instructors or refer to course
syllabi regarding applications for imaging, CAD, GIS, modeling or rendering before buying them. In addition, not all programs are needed during the first semester; certain release versions may be preferable over others. The college intends to provide computer IT orientation sessions at the beginning of each semester.

**Academic Policies**

**Academic Standing**

Students must maintain a minimum overall GPA of 3.0 in the graduate programs to remain in good standing and to graduate. If a student’s GPA falls below a 3.0, then he or she will be placed on academic probation beginning the following semester. If the GPA remains below a 3.0 after the probationary semester, then he or she may be dismissed from the college.

**Appeals**

Any student may appeal the grade he or she receives in a class within 30 days from the issuance of the grade. The student should first discuss the issue and adjustment sought with the relevant course instructor. If the course instructor does not reply within 30 days, the student submits a written appeal to the department chair. Within 30 days, the department chair shall process the appeal and prepare a written report explaining the reason(s) for the department recommendation. If the grade appeal still remains unresolved at the department level, the student submits a written request to the associate dean of academic affairs, who will direct the Academic Affairs Committee to review the appeal. If the grade appeal remains unresolved at the college level, the student may appeal to the dean.

**Attendance and Timeliness of Work**

Students are expected to attend all meetings of classes. Excessive unexcused absences may result in a grade reduction at the discretion of the instructor. Absence from a class will be excused for verified medical reasons, religious obligations or for extreme personal emergencies. The student may be required to furnish evidence.

Students’ assignments are to be completed in a timely manner. Any assignment turned in late may have its grade reduced by an amount set at the discretion of the instructor. An assignment may be turned in late without penalty for verified medical reasons, religious obligations or for extreme personal emergencies. Students must have their instructor’s written permission to turn an assignment in late. Students with excused late work may turn in the assignment by the end of finals week without penalty. Otherwise, the grade “I” will be assigned at the discretion of the faculty.
Course Sequencing and Advancement

Programs in the college are structured so that certain courses must be taken concurrently, others sequentially. Students will not be allowed to enroll in a course if its co-requisites or prerequisites have not been satisfied.

Originality of Work

Students must submit their own work. Where other sources are used in a student submission, they are to be clearly identified and referenced. The university considers plagiarism and similar acts of falsification to be a serious matter that may result in suspension or expulsion. Information on codes of conduct and grievance procedures are available from the Office of Enrollment and Engagement on the Downtown Campus.

Retention of Student Work

The College of Architecture and Planning may, with a student’s written permission, retain student work submitted in fulfillment of class requirements for a period of time. This retained work is normally used to provide accrediting agencies with tangible evidence of performance, to serve as additional visual aid material in presentations to other students and to contribute to possible educational exhibits requested by the university community and the general public.

Certificate

Design Build Graduate Certificate

Contact: Erik (Rick) Sommerfeld
Telephone: 303-556-6160
E-mail: sommere@colorado.edu

The College of Architecture and Planning offers a graduate certificate in the emerging area of design build as an extension of the MArch program. It requires a total of 18 semester hours, some of which also count toward the MArch program, some of which do not. Course work in this extension emphasizes the designer’s point of view.

Certificate Requirements
Five courses totaling 18 semester hours can be applied to the MArch graduation requirements:

- ARCH 6370 - Introduction To Design Build  Summer 2010 Registration: ARCH 6370
- ARCH 6371 - Maintaining Quality and Managing Risks: Design Build  Summer 2010 Registration: ARCH 6371
- ARCH 6372 - Architecture in a Single Source Project Delivery  Summer 2010 Registration: ARCH 6372
- ARCH 6373 - Construction in Design Build  Summer 2010 Registration: ARCH 6373
- ARCH 6170 - Advanced Design Studio  Summer 2010 Registration: ARCH 6170 taken with
- ARCH 6171 - Advanced Design Seminar  Summer 2010 Registration: ARCH 6171

**Total: 18 Hours**

**Geospatial Information Science Graduate Certificate**

**Contact:** Brian Muller  
**Telephone:** 303-556-5967  
**E-mail:** brian.muller@ucdenver.edu

The College of Architecture and Planning offers a certificate in geospatial information science through participating departments. The emphasis of this certificate is on applications of GIS in urban and environmental planning and design fields. The certificate is available to any student earning one of our graduate degrees; to students earning cognate degrees, for example in the School of Public Affairs, College of Engineering and Applied Science or from the Department of Geography; and to nondegree students who have already earned such a degree.

**Certificate Requirements**

1. A minimum of 18 semester hours (with at least 12 related planning and design hours to be earned in residence at UC Denver or University of Colorado at Boulder);

2. A minimum B (3.0) average and a minimum grade of B- (2.7) in any course, as outlined in the certificate curriculum:
   - *One required introductory class:* Introduction to GIS (both theory and methods) (3 semester hours)
At least three additional courses in GIS or remote sensing methods to be approved in advance by the GIS committee (9 semester hours). Such courses may include:
  o Cartography (Boulder and Denver, geography)
  o GIS Analysis (Denver, civil engineering)
  o GIS II (Boulder, geography)
  o Advanced GIS Workshops (Boulder and Denver, multiple departments)
  o GIS Management (Denver, civil engineering)
  o Quantitative Methods in Geography (Boulder, geography)
  o Remote Sensing (Boulder and Denver, multiple departments)

Applications Option 1: Studio or thesis project involving application of planning and design GIS-based methods to be approved by the faculty GIS committee (6 semester hours)

Applications Option 2: Internship or other work experience is strongly encouraged for all students and may at the discretion of the committee be substituted for other courses (6 semester hours)

It is not possible or desirable to specify every course that should count toward a certificate. CAP and other participating programs will continue to generate new GIS-related courses as the curriculum evolves, and CAP delivers much of its instruction through studio courses that vary in content each semester. A certificate program must include an ongoing structure for managing course requirements and determining when individual students have met them.

Historic Preservation Graduate Certificate

Contact: Christopher Koziol
Telephone: 303-556-6516
E-mail: christopher.koziol@ucdenver.edu

The College of Architecture and Planning together with the Department of History in the College of Liberal Arts and Sciences offers a graduate certificate in historic preservation. The goal is to instill a culture of interdisciplinary collaboration through course work (and beyond the classroom), through engagement with the community. This certificate builds upon the extraordinary preservation community and opportunities in Colorado. It requires a total of 18 semester hours.

Certificate Requirements

The historic preservation certificate can be earned as part of any of the following degrees:

  • Master in History (Public History)
  • Master of Architecture
• Master of Landscape Architecture  
• Master of Urban Design  
• Master of Urban and Regional Planning  
• PhD in Design and Planning  

The certificate requires a total of 18 semester hours, including:

• Two required core courses (3 semester hours each) on preservation theory and practice from the architect's and planner's perspective of intervening through design and regulation and from the historian's perspective of how the past might guide the future:
  o HIST 5232 HIST 5232 - Historic Preservation  
  o URPL 6634 URPL 6634 - Preservation Theory and Practice

• At least three credits in history of architecture, landscape architecture or historic places. Among recent and current offerings:
  o ARCH 5220, 5230: History of Architecture I, II  
  o LDAR 5521: History of Landscape Architecture  
  o HIST 5229: Colorado Historic Places

• At least three credits in preservation methods, including preservation technology, documentation of sites and structures, visual research methods, and other subjects. Among recent and current offerings:
  o HIST 5240: National Parks History  
  o ARCH 6490: Historic Ranch Documentation & Preservation  
  o ARCH 6290: Chautauqua Historic Preservation  
  o DSPL 7686: International Preservation Practice  
  o ARCH 6490: Vernacular Stuff  
  o ARCH 6520: Documentation (summer program in Rome)  
  o ARCH 6520: Historic Materials (summer program in Rome)

• A thesis or preservation studio (6 semester hours) is required. Preservation studio rotates among architecture, landscape architecture and planning and Urban Design. Students are encouraged to take an internship in preservation. New offerings and special topics courses are added each semester. Students may work with an advisor in their specialized field to develop a program appropriate to individual interests (which must be approved by the Faculty Preservation Committee).

**Required Core Courses**

• HIST 5232 - Historic Preservation  
  *Summer 2010 Registration: HIST 5232*  
• URPL 6634 - Preservation Theory and Practice  
  *Summer 2010 Registration: URPL 6634*
Total: 6 Hours

Master of Urban Design

Urban Design MUD

► Graduate School Rules apply to this program

Program Information: Jeremy Németh
Telephone: 303-556-3688

The master of urban design (MUD) is an intensive, one-year, interdisciplinary postprofessional degree program intended for talented persons already holding a professional degree in architecture, landscape architecture or urban and regional planning (e.g. BArch, BLA, MArch, MLA, MURP/MUP or equivalents).

Urban design is an integrative activity focused on creating beautiful, vital, functional, environmentally sustainable and socially just public places. By contextualizing architecture while providing a means of implementation for planners and landscape architects, urban design occupies a realm supportive of these fields while simultaneously generating its own responses to the most pressing urban issues. Although urban designers often intervene on the neighborhood scale, the program fosters mastery of inclusive and participatory community design processes and the attendant means for effectively implementing physical plans at the metropolitan, neighborhood, district, corridor, street and block scale.

The MUD program focuses on creating sustainable urban infrastructure and interprets the city as a set of overlaid and integrated systems. The program views urban designers playing a vital role in the production of the built environment because of their dual responsibility to illustrate preferable design solutions and shape the regulatory patterns governing future development. The inherent interdisciplinarity of this approach brings students into frequent contact with professors, practitioners and experts in urban planning, architecture and landscape architecture, and encourages students to forge their own tailored degree by pursuing an independent study and a variety of electives in the college. Students relate their independent study projects to one of the college’s fields of expertise, such as participatory design in distressed communities, postindustrial landscapes, “green streets,” vernacular design or historic preservation.

Denver and the American West provide an exciting urban laboratory as we face a number of complex and difficult challenges (e.g. water scarcity, urban sprawl). Students undertake at least one studio in the Denver metropolitan region while remaining cognizant that similar systems and challenges exist in a variety of domestic and international contexts. As a capstone project during their final term, students enroll in an
international studio course, preparing for this studio by taking a mandatory seminar in global design history and practice.

The MUD program is informed by innovations in practice. Tested techniques and methods are brought into classroom and studio settings to be evaluated, refined and disseminated in ways that prepare graduates for highly innovative work as critical, reflective urban designers employed in both the public and private sectors. In addition, each spring semester brings a visiting urban design fellow to the college. This practitioner-in-residence is selected from a highly competitive pool of designers from around the world. The selected practitioner teaches an advanced urban design studio and supervises independent study projects.

Prerequisites

Students are required to hold a first professional degree in architecture, landscape architecture or urban and regional planning (e.g. BArch, BLA, MArch, MLA, MURP/MUP or equivalents).

Admissions

The Master of Urban Design Admissions Committee accepts applications for Fall semester entry. Right now, the program does not allow entry to the program in any Spring semester. The general requirements the Admissions Committee considers are:

- Evidence of a professional degree (BArch, BLA, MArch, MLA, MURP/MUP) or equivalent
- At least a 3.0 undergraduate or graduate cumulative GPA
- A portfolio (8.5 × 11-inch bound document) that includes:
  - Your statement of purpose (which should include your educational and professional goals and objectives)
  - Résumé (which describes your educational and professional background)
  - Examples of student or professional projects
  - A list of courses that you have taken that relate to design and planning
- A writing sample from previous professional or academic work

Program Requirements

The requirements for the postprofessional master of urban design (MUD) degree depend on your current standing and educational background. The basic study plan is a 36-semester-hour plan that includes two elective courses. Students obtaining a first professional degree in University of Colorado Denver College of Architecture and
Planning may receive up to 12 semester hours of advanced standing.

**Core Requirements**

- URBN 6610 - Infrastructure Studio  *Summer 2010 Registration: U D 6610*
- URBN 6611 - Regulatory Studio  *Summer 2010 Registration: U D 6611*
- URBN 6612 - Urban Synthesis Studio  *Summer 2010 Registration: U D 6612*
- URBN 6640 - History of the City  *Summer 2010 Registration: U D 6640*
- URBN 6641 - Design Process/Practice  *Summer 2010 Registration: U D 6641*
- URBN 6642 - Design Policy/Regulation  *Summer 2010 Registration: U D 6642*
- URBN 6840 - Independent Study: URBN  *Summer 2010 Registration: U D 6840*
  or
- URBN 6930 - Urban Design Internship  *Summer 2010 Registration: U D 6930*

**Total: 30 hours**

**Course Sequence**

**Fall**

- URBN 6610 - Infrastructure Studio  *Summer 2010 Registration: U D 6610*
- URBN 6640 - History of the City  *Summer 2010 Registration: U D 6640*
- URBN 6641 - Design Process/Practice  *Summer 2010 Registration: U D 6641*

**Spring**

- URBN 6611 - Regulatory Studio  *Summer 2010 Registration: U D 6611*
- URBN 6642 - Design Policy/Regulation  *Summer 2010 Registration: U D 6642*
- URBN 6840 - Independent Study: URBN  *Summer 2010 Registration: U D 6840*
  or
- URBN 6930 - Urban Design Internship  *Summer 2010 Registration: U D 6930*

**Summer**

- URBN 6612 - Urban Synthesis Studio  *Summer 2010 Registration: U D 6612*

**Doctor of Philosophy**

**Design and Planning PhD**
The PhD in design and planning from University of Colorado Denver trains scholars for careers in higher education, research and high-level policy positions. It is a research-oriented doctoral degree with a flexible, interdisciplinary focus. Students actively draw from the rich intellectual resources of the University of Colorado campuses in both Denver and Boulder for classes, personalized instruction, teaching opportunities and research appointments. Graduates of the program work in universities, government, nonprofits and the private sector, both in the U.S. and around the world.

Planning and design form a well-established and expanding field of knowledge and practice regarding the relationships of natural, behavioral, technological, political, economic and cultural factors to the organization of physical space, and their combined influence on the quality of life in general. Housed within the college, the departments of architecture, landscape architecture, and planning and design share the idea that the complex problems of the built environment are best addressed through collaboration among the various design and planning disciplines. As a result of this collaboration, the departments jointly offer the advanced research degree, a PhD in design and planning.

Areas of Specialization

The PhD program serves as the intellectual driver of the College of Architecture and Planning; its mission is to provide a scientific foundation for planning and design. Unique and distinguishing characteristics include the physical environment as the domain of interest, the interdisciplinary and integrative orientation of study and the applied nature of prescriptions. Being broad in its offerings, available study covers issues ranging from highly technical urban modeling to the history of architecture. Students in the program are encouraged to embrace tenets embodied in one of the following areas of specialization. Each broad specialization area is represented by its own core curriculum specific to the domains of expertise and faculty interests; in exceptional circumstances, advanced study on a related topic (e.g., historic preservation, green buildings) is available to bridge the two specialty areas.

Sustainable and Healthy Environments (SHE)

Studies in SHE are concerned with the design making by public agencies to guide the pattern and timing of land development that advance goals of sustainable and healthy environments. Subfields include land use planning, growth management, transportation, urban design, housing and community development, environmental planning and management of urban, rural and natural areas. Primary work in this area focuses on land use controls, design
review processes and the development of models and tools to understand and support decision processes and design practices.

**History of Architecture, Landscape and Urbanism (HALU)**

Studies in HALU include the history and theory of architecture, landscape and urbanism considered within socioeconomic and political contexts, intellectual history and cultural studies, as well as questions concerning the evolution of technology, technique and materiality. Interdisciplinary and cross-cultural collaboration is encouraged. In this manner, the disparate range of ideologies and methodologies within the discipline itself are introduced. It is critical for the contemporary scholar and teacher to be aware of the tradition of strategies and perspectives in order to operate in an intellectually responsible manner in the present. A background in a professional design field is desirable for all applicants.

As part of studies in either specialty area, students work on diverse topics, advancing the intellectual environment of the college by participating in a common colloquium, organizing workshops, presenting at conferences and writing publications.

**Admission Requirements**

As a candidate for admission to the PhD program, you must meet the requirements of the Office of Vice Chancellor of Academic and Student Affairs of UC Denver. These include but are not limited to:

- Matters of provisional admission
- Transfer credit restrictions
- Residency requirements
- Eligibility of courses for graduate-level credit
- Foreign language requirements
- Examination schedules

**Residency**

To be accepted, you will have to meet the academic residency requirement, which requires six semesters of scholarly work beyond the attainment of an acceptable bachelor’s degree.

Two semesters of residence credit may be allowed for a master’s degree from another institution of approved standing.
At least four semesters of resident credit, two of which must be consecutive in one academic year, must be earned from this university.

**Specific Requirements**

The specific admission requirements for the PhD program in design and planning are as follows:

1. **Degree**

Minimally, to be a successful applicant, you must have a bachelor's degree, however, it is strongly advised that students entering the program will have completed both a bachelor's and a master's degree. Field specialization and background are open. However, you will preferably have completed a professional (master's or bachelor's) program in planning or a design-related field, such as:

- Architecture
- Landscape Architecture
- Architectural Engineering
- Urban Design

In combination with a degree in an area, such as:

- Geography
- Urban Economics
- Environmental Law
- Urban Sociology
- Real Estate
- Management Science
- Computer Science
- Public Administration
- Environmental Psychology

2. **Knowledge from Prior Course Work**

The applicability of your prior course work will be decided by the program committee upon review of your transcript and additional materials. If you do not have the requisite educational background, grade point average or GRE scores, you may be admitted on a conditional or provisional basis and additional course work may be required in accordance with Graduate School Rules.

**A. Design and Planning:** You can satisfy this requirement by virtue of having completed either a professional or a pre-professional degree program in these areas.
If you do not have such prior qualifications, you must complete 12 hours of upper level undergraduate course work in the College of Architecture and Planning, while obtaining in each of these courses a grade of ‘B’ or higher. These courses are to be chosen from a selected list, in consultation with your faculty advisor, and are to be completed within two years after admission to the Program, and may count towards fulfilling the degree requirements.

B. Undergraduate Work: You must have completed 12 semester hours of undergraduate work in one of the following areas:

- Social and Behavioral Sciences
- Environmental and Natural Sciences
- Engineering
- Humanities

C. Prerequisites: You must also have completed one of the following prerequisites with a grade of "B-" or above (the choice depends on your area of specialization):

- **Statistics.** Including probability theory, parametric and nonparametric methods, and acquaintance with basic multivariate techniques. A minimum of 3 hours.

- **Mathematics.** Including differential equations, finite mathematics, algorithms, data structures or other appropriate courses. A minimum of 3 hours.

- **Language.** Ability to read at least one foreign language relevant to the area of specialization.

- **Computer Applications.** Background in computer aided Design (CAD) or Geographic Information Systems (GIS). A minimum of 3 hours.

3. Demonstrated Academic Achievement

- Academic achievement as evidenced by an undergraduate grade point average of 3.0 (on a 4.0 scale) or better, and a graduate grade point average of 3.5 or better.
- A 575 TOEFL (Test of English as a Foreign Language) score is required if you are a foreign applicant whose native language is not English.

Curriculum

Degree requirements are set both by the Graduate School at the University of Colorado Denver and the PhD program within the college. Degree requirements are divided into two parts: pre-candidacy and candidacy/dissertation research. The former involves
course work, qualifying examinations and a dissertation prospectus. Candidacy is certification that all requirements have been met except the dissertation. The doctor of philosophy (PhD) degree in design and planning is granted upon the successful completion and defense of the dissertation.

Students meet these requirements through course work and exams over a two year period. During this time, a student's cumulative grade point average may not fall below a 'B' without academic discipline or probation.

**Degree Completion**

Students in the PhD program in design and planning have up to eight years to complete all requirements for the degree. It is possible to take a leave of absence (referred to as a 'time out,' however, such circumstances should be pursued in tandem with your advisor and/or your committee). A leave of absence form, obtained from PhD program administrative coordinator, must be completed to ensure your place in the program.

**Three Components**

The PhD curriculum consists of three components:

- Core curriculum
- Additional course work
- Dissertation

1. **Core Curriculum (12 semester hours)**

Students in the program are encouraged to embrace tenets embodied in one of the following areas of specialization. Each broad specialization area is represented by its own core curriculum that is specific to the domains of expertise and faculty interests. The core curriculum includes 12 semester hours of course work and consists of a series of theory and methods and application courses, which all students must complete during their first two years of residence, plus an additional three hours of programwide colloquia.

The core curriculum for the specialization in SHE includes:

- **DSPL 7011 - Research Design: the Logic of Inquiry, Semester Hours: 3**
- **DSPL 7013 - Environment and Behavior, Semester Hours: 3**
- **DSPL 7012 - Theories of Planning, Government Intervention and Implementation: Means and Ends, Semester Hours: 3**
The core curriculum for the specialization in HALU includes:

DSPL 7686 - Special Topics. Historiography: History of the Scholarly Discipline. 
**Semester Hours:** 3

**Semester Hours:** 3

DSPL 7686 - Special Topics. Pro-Seminar: Advanced Seminar on Faculty Research Interests. 
**Semester Hours:** 3

Advanced study on related topics (e.g., historic preservation, green buildings) is available to bridge the two specialty areas, in which case a core curriculum would consist of one of the above tracks complemented by select offerings from the other track. Such circumstances are addressed in close consultation with your initial advisors and/or your committee.

All students are also required to complete three sessions of the colloquium (DSPL 7014 - Colloquium in Design) during their first two years in the program (1 semester hour, pass/fail credits only). You also have the option of taking more than the three required credits. The colloquium includes presentations by speakers (internal to the program, external to the program/university, students), workshops on research/scholarship skills, and perhaps even more social-type activities. The year-long colloquium has three primary objectives:

1. It exposes students to various approaches to research related to design and planning.
2. It enables students to formulate and test out researchable topics among faculty and student peers.
3. Finally, it serves as a bridge between the two specializations offered within the program, HALU and SHE.

### 2. Additional Course Work (total 34 semester hours)

In addition to the core curriculum, each student must take at least 12 semester hours of course work in classes broadly conceptualized as “methods” indicative to your field of research. The type of research methods courses varies considerably depending on your chosen area of study. Students must also have 12 semester hours of course work in their minor field of study and will typically take 10 semester hours of support electives. Courses outside the core curriculum may be chosen from outside the college on either the Denver or Boulder campus. Up to 18 semester hours of graduate-level course work can be transferred into the program to qualify for advanced standing.

### 3. Dissertation (30 semester hours)
It is most important that you continue to work closely with your advisor while you are doing your dissertation research. Meet at least once a month to discuss your progress and be sure to communicate with your other committee members as well. It is a continual process that should be a joint effort to assure that your committee will be well informed and prepared at your defense.

**Required Semester Hours**

The required semester hours are as follows:

<table>
<thead>
<tr>
<th>Category</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Core Curriculum</td>
<td>12</td>
</tr>
<tr>
<td>Specialization</td>
<td>12</td>
</tr>
<tr>
<td>Minor</td>
<td>12</td>
</tr>
<tr>
<td>Electives</td>
<td>10</td>
</tr>
<tr>
<td>Dissertation</td>
<td>30</td>
</tr>
<tr>
<td>Total</td>
<td>76</td>
</tr>
</tbody>
</table>

The average course load is 15 semester hours per academic year, especially for the first two years.

**Suggested Timing of the Program**

(for full-time students without advanced standing):

**Year One**

- Develop your degree plan
- Complete any prerequisite courses
- Enroll in 11 semester hours of the required core curriculum and additional courses in your specialty area
- Finish the preliminary examination

**Year Two**

- Enroll in one semester of Colloquium
- Continue or begin to take electives in your minor and specialty areas as described in your degree plan
- Begin literature review papers
- Prepare for your comprehensive exam
Years Three and Beyond

- Complete your literature review papers
- Prepare a dissertation proposal
- Take the comprehensive exam
- Establish your dissertation committee

The remainder of the third and fourth years you will spend researching and writing the dissertation, under the supervision of the dissertation committee.

Architecture

**Chair:** Taisto Mäkelä, 303-556-3382  
**Assistant Chair:** Erik Sommerfeld, 303-556-6160  
**Office:** UC Denver Building, 330  
**Telephone:** 303-556-3382  
**Fax:** 303-556-3687

Faculty

**Professors:**

*Mark Gelernter, PhD, Bartlett School of Architecture, University of London  
*Julee Herdt, MArch, Southern California Institute of Architecture  
*George Hoover, BArch, Cornell University  
*Patricia O'Leary, MArch, Arizona State University  
*Peter Schneider, BArch, University of Cape Town  
*Ping Xu, DDesign, Harvard University

**Associate Professors:**

*Amir Ameri, PhD, Cornell University  
*Osman Attmann, PhD, Georgia Institute of Technology  
*Robert H. Flanagan, MArch, University of Colorado  
*Phillip Gallegos, DArch, University of Hawaii  
*Michael K. Jenson, PhD, University of Edinburgh  
*Christopher Koziol, PhD, University of Colorado Denver  
*Laurence K. Loftin III, MArch, University of Virginia  
*Taisto H. Mäkelä, PhD, Princeton University  
*Hans R. Morgenthaler, PhD, Stanford University  
*Ekaterini Vlahos, MArch, University of Colorado

**Associate Professor (Clinical Teaching Track):**

*Barbara Ambach, MArch, Southern California Institute of Architecture
Assistant Professor:
Matthew Jelacic, MArch, Harvard University

Senior Instructors:
*Joseph Colistra, MArch, University of Colorado
Allen Harlow, MArch, University of Colorado
*Charles MacBride, MS, Columbia University
*Eric Morris, MArch, University of Houston
*Jason Rebillot, MArch, University of Illinois at Chicago
*Ranko Ruzic, MArch, University of Colorado
*Melanie Shellenbarger, PhD, University of Colorado Denver
*Erik Sommerfeld, MArch, University of Colorado

Instructors:
*Kenneth Andrews, MArch, Rice University
Meredith Banasiak, MArch, Arizona State University
Marcel de Lange, MArch, Delft University of Technology
Tamarah Long, MArch, University of Florida
Rob Pyatt, MArch, University of Colorado
Additional information about faculty in this department is available online here.

*Also teach graduate courses.

The architecture department’s mission is to lead in the discovery, communication and application of knowledge in the discipline of architecture. The department aims to excel in the education of its students, in the research and creative endeavors of its faculty and in service to the community. To respond to this mission, the department has developed a unique intellectual, educational and architectural culture.

- First, the department celebrates its place in a special environment—urbanized Denver with the Front Range and the spectacular natural landscape of the high plains and the Rocky Mountains. The architecture department focuses not only on the design of buildings, but also on the interactions between buildings and their urban and natural settings.
- Second, the department examines the interplay between architectural form and the complex cultural and technological context in which architects operate. As a result of these dominant concerns, the department has created an academic environment that is intellectually stimulating and educationally challenging and that aims to educate students who will become leaders in the discipline and profession of architecture.
- Third, the Department of Architecture follows the College of Architecture and Planning’s mission of integrative design. The faculty research, teach and practice
ways to design environments that are meaningful and beautiful. We plan, shape and interpret those environments in ways that are collaborative, responsible, sustainable, enabling and integrative. Promoting and acknowledging diversity in subject matter, method and orientation are essential to this integrative approach. The faculty teach by integrating different design theories and practices into a curriculum that emphasizes their connectedness, crossdisciplinary interdependence, research orientation and real-world relevance. The department collaborates to produce new knowledge while adding to the understanding of the role and identity of design and research in each architectural project. In this collaborative process, each project asks a critical question, then answers it using an appropriate method. These questions stress environmental, economic, social, cultural, aesthetic and ethical concerns. In this knowledge-based matrix, our understanding of how integrative design shapes environments and settings constantly evolves and changes.

Degrees

The College of Architecture and Planning offers a preprofessional bachelor of environmental design (BEnvd) on the Boulder campus. The Department of Architecture offers a graduate degree on the Downtown Campus: the master of architecture (MArch). The following statement from the National Architectural Accrediting Board (NAAB), which is responsible for accrediting all architecture programs in the United States, should help a student choose the appropriate degree program:

“In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the bachelor of architecture, the master of architecture and the doctor of architecture. A program may be granted a 6-year, 3-year or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

“Master’s degree programs may consist of a preprofessional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the preprofessional degree is not, by itself, recognized as an accredited degree.”

- The preprofessional degree offered by the College of Architecture and Planning is the bachelor of environmental design (BEnvd). The professional degree offered by the college is the master of architecture (MArch), which is fully accredited by the NAAB.
- The master of architecture, the college’s accredited professional degree for students intending to seek licensure as architects, is offered to students who have completed the college’s BEnvd or any other preprofessional design degree from any NAAB-accredited institution, as well as to students who have completed an unrelated
undergraduate or graduate degree or to students who hold professional architecture degrees from other countries but who seek to obtain an NAAB-accredited architecture degree. Students holding a preprofessional degree from a NAAB-accredited program or professional architecture degree from a foreign institution will be evaluated individually for advanced standing in the MArch program, commensurate with their previous educational experiences.

Master of Architecture

Architecture MArch

The MArch is the college’s accredited professional degree for students intending to seek licensure as architects. It is a three-and-one-half-year plan of study on the Denver Campus that has been fully accredited by the National Architectural Accrediting Board (NAAB).

Prerequisites

- Students must complete the prerequisites of college-level trigonometry and physics before enrolling in ARCH 5310, Introduction to Building Technology. Since this class should be taken in the first semester in order to stay on track for graduation, students are strongly encouraged to complete the trigonometry and physics requirements before beginning the MArch program.
- ARCH 5000, Math and Physics for Architects, is offered in the summer on a pass/fail basis. This class meets the prerequisite requirements. This class does not count toward the number of credits required for the MArch degree.
- A graphics workshop is recommended for students who do not have a background in architectural drawing and model building. This class is offered each year before the beginning of the fall semester.
- Students are also expected to have achieved a basic level of computer literacy and should be familiar with PC or Mac operating systems.

Program Requirements

Students with a bachelor’s or master’s degree unrelated to architecture must complete a seven- or eight-semester sequence of course work and accumulate a minimum of 114 semester hours of credit. Students who have completed the college’s BEnvd or any other preprofessional architecture degree from any NAAB-accredited institution and students who have completed a non-NAAB-accredited professional architecture degree in another country, and who wish to obtain the NAAB-accredited degree from this college, will be evaluated individually for advanced standing. These students will work
with the associate chair of the department to develop an individualized plan of study commensurate with their previous degrees and experience, and will have to complete at least 60 semester hours of credit in residence within the College of Architecture and Planning.

Course Sequence

The MArch program is divided into five major components:

- studio design studies, 45 semester hours
- cultural studies, 12 semester hours
- technology studies, 18 semester hours
- professional studies, 6 semester hours
- electives, 33 semester hours

A wide array of electives in these areas allows students to tailor their graduate studies to their own interests.

First Year

Fall

- ARCH 5110 - Design Studio I  Summer 2010 Registration: ARCH 5110
- ARCH 5111 - Introduction to Drawing  Summer 2010 Registration: ARCH 5111
- ARCH 5210 - Introduction to Architecture  Summer 2010 Registration: ARCH 5210
- ARCH 5310 - Introduction to Building Technology  Summer 2010 Registration: ARCH 5310

Total: 15 Hours

Spring

- ARCH 5120 - Design Studio II  Summer 2010 Registration: ARCH 5120
- ARCH 5121 - Design Seminar II  Summer 2010 Registration: ARCH 5121
- ARCH 5220 - History of Architecture I  Summer 2010 Registration: ARCH 5220
- ARCH 5320 - Building Construction and Methods  Summer 2010 Registration: ARCH 5320
- LDAR 6632 - Site Planning  Summer 2010 Registration: L A 6632

Elective* (3 semester hours)

Total: 18 Hours
Second Year

Fall

- ARCH 5130 - Design Studio III  Summer 2010 Registration: ARCH 5130
- ARCH 5131 - Design Seminar III  Summer 2010 Registration: ARCH 5131
- ARCH 5230 - History of Architecture II  Summer 2010 Registration: ARCH 5230
- ARCH 5240 - Human Factors in Design  Summer 2010 Registration: ARCH 5240
- ARCH 5330 - Environmental Control Systems I  Summer 2010 Registration: ARCH 5330

Elective* (3 semester hours)

Total: 18 Hours

Spring

- ARCH 5140 - Design Studio IV  Summer 2010 Registration: ARCH 5140
- ARCH 5141 - Design Seminar IV  Summer 2010 Registration: ARCH 5141
- ARCH 5340 - Environmental Control Systems II  Summer 2010 Registration: ARCH 5340
- ARCH 5350 - Structures I  Summer 2010 Registration: ARCH 5350

Electives* (6 semester hours)

Total: 18 Hours

Summer

- ARCH 6150 - Comprehensive Design Studio  Summer 2010 Registration: ARCH 6150
- ARCH 6151 - Comprehensive Design Seminar  Summer 2010 Registration: ARCH 6151

Electives* (6 semester hours)

Total: 12 Hours

Third Year
Fall

- ARCH 5360 - Structures II  Summer 2010 Registration: ARCH 5360
- ARCH 5410 - Professional Practice  Summer 2010 Registration: ARCH 5410
- ARCH 6170 - Advanced Design Studio  Summer 2010 Registration: ARCH 6170
- ARCH 6171 - Advanced Design Seminar  Summer 2010 Registration: ARCH 6171
  Electives* (9 semester hours) or
- ARCH 6950 - Thesis Preparation  Summer 2010 Registration: ARCH 6950 and Electives (3 semester hours)

Total: 18 Hours

Spring

- ARCH 6170 - Advanced Design Studio  Summer 2010 Registration: ARCH 6170
- ARCH 6171 - Advanced Design Seminar  Summer 2010 Registration: ARCH 6171
  Electives* (9 semester hours) or
- ARCH 6951 - Architecture Thesis  Summer 2010 Registration: ARCH 6951
  Electives* (9 semester hours)

Total: 15 Hours

* Students must take 9 elective semester hours in cultural studies, 9 elective semester hours in professional studies (3 semester hours of which must emphasize the computer), 6 elective semester hours in technology studies and 9 elective semester hours in any architecturally related electives on campus.

Landscape Architecture

Chair: Ann Komara, 303-315-2428
Associate Chair: Lori Catalano, 303-352-3613
Office: UC Denver Building 330
Telephone: 303-556-3382
Fax: 303-556-3687

Faculty

Professor:
The master of landscape architecture (MLA) program examines relationships among the landscape, people and culture, and promotes integrated responses to the design challenges presented through this inquiry. In developing design responses, students not only acknowledge the current practice of landscape architecture, they question, invent, create, test and advance their knowledge to engage the profession and address new challenges. The goal of this program is superior education, scholarly research and meaningful service in the discipline and practice of landscape architecture in a rapidly evolving global context.

The program's "laboratories" are diverse. The "local laboratory," found in the urban, suburban, rural and wilderness landscapes mainly associated with the Mountain, Front Range, High Prairie and Western Slope regions of Colorado is partnered with "site-based laboratories" in urban and rural centers outside of the state. Both contexts present diverse cultural and environmental situations and opportunities, which shape regionally responsive landscape design and planning. Imperatives within the public and private realms of these landscapes fuel the academic and research agenda. The knowledge and experience derived in these settings apply globally to multiple scales and cultures.
Sample topics include explorations of:

- Planning and design leading to the making of healthy, sustainable cities and regenerative communities
- Challenges associated with urban and suburban growth and development
- The role and production of civic infrastructure
- The use and conservation of land and water resources
- Reclamation and reinvention of disturbed or marginalized sites and communities
- The preservation of historic landscapes and their role in cultural identity
- The recognition of cultural values of the region and their expression in built form

Within this context, UC Denver’s Department of Landscape Architecture links theory with practice, history with change, technology with invention and designers with their constituents.

Program Objectives

The department has developed four broad program objectives in support of our mission. These objectives describe what students should know and be able to do by the time they graduate and are linked to a series of measurable student learning outcomes. The four specific educational objectives are:

- **Design:** Students will be able to formulate questions and arguments about landscape and its role as a significant cultural medium, and determine processes and practices that lead to transformative actions based on ethical, communicative and content knowledge criteria.
- **Communication and Representation:** Students will be able to speak, write, create and employ appropriate representational media to effectively convey ideas on subject matter contained in the professional curriculum to a variety of audiences.
- **Professional Ethics:** Students will be able to critically evaluate local and global ramifications of social issues, diverse cultures, economic and ecological systems and professional practice as guiding principles for design thinking and implementation.
- **Content Knowledge:** Students will be able to develop a critical understanding, and application, of the histories, theories and practices of landscape architecture and its role in reflecting and shaping culture and environments.

Master of Landscape Architecture
Landscape Architecture MLA

Prerequisites

Students are expected to have achieved a basic level of computer literacy and are required to have their own computer.

Program Requirements

The landscape architecture program offers professional and advanced professional graduate degree curricula leading to the degree master of landscape architecture (MLA).

- The first-professional degree program, requiring a six-semester sequence of course work totaling 90 semester hours, is fully accredited by the Landscape Architecture Accreditation Board (LAAB) and recognized by the Council of Educators in Landscape Architecture (CELA).
- Students completing the college’s bachelor of environmental design on the Boulder campus—or completing an undergraduate design degree at another institution—may be given advanced standing in the three-year program. Advanced standing will be based on prior academic accomplishment.
- The advanced professional degree program for qualified students having already earned a first professional degree in landscape architecture (BLA) or related discipline requires 48 semester hours. Advanced standing will be based on prior academic accomplishment.

Course Sequence

(90-semester-hour MLA for students without a professional degree in landscape architecture or related profession)

The curriculum consists of core and elective course work. Core courses are grouped into five components:

<table>
<thead>
<tr>
<th>Course</th>

</tr>
<tr>
<td>Media</td>
<td>6</td>
</tr>
</tbody>
</table>
Ethics 3

Total core courses 72

Electives 18

Total courses 90

Typical 90-semester-hour program of study in required courses for the first professional MLA degree

First Year

Fall

- LDAR 5501 - Landscape Architecture Design Studio 1  Summer 2010
  Registration: L A 5501
- LDAR 5510 - Graphic Media in Landscape Architecture  Summer 2010
  Registration: L A 5510
- LDAR 5521 - History of Landscape Architecture  Summer 2010 Registration: L A 5521
- LDAR 5572 - Landscape Ecology  Summer 2010 Registration: L A 5572

Total: 15 Hours

Spring

- LDAR 5502 - Landscape Architecture Design Studio 2  Summer 2010
  Registration: L A 5502
- LDAR 5532 - Landform Manipulation  Summer 2010 Registration: L A 5532
- LDAR 6632 - Site Planning  Summer 2010 Registration: L A 6632
- LDAR 6641 - Computer Applications in Landscape Architecture  Summer 2010
  Registration: L A 6641

Total: 15 Hours

Second Year
Fall

- LDAR 5503 - Landscape Architecture Design Studio 3  Summer 2010  
  Registration: L A 5503
- LDAR 6631 - Landscape Construction Materials and Methods  Summer 2010  
  Registration: L A 6631
- LDAR 6670 - Plants in Design  Summer 2010 Registration: L A 6670
  One Elective.  Semester hours: 3

Total: 15 Hours

Spring

- LDAR 6604 - Landscape Architecture Design Studio 4  Summer 2010  
  Registration: L A 6604
- LDAR 6605 - Landscape Architecture Design Studio 5  Summer 2010  
  Registration: L A 6605
- LDAR 6620 - Landscape Architecture Theory and Criticism  Summer 2010  
  Registration: L A 6620
- LDAR 6721 - Regionalism  Summer 2010 Registration: L A 6721 or alternative 
  approved by chair
  One Elective.  Semester hours: 3

Total: 15 Hours

Third Year

Fall

- LDAR 6606 - Landscape Architecture Design Studio 6  Summer 2010  
  Registration: L A 6606
  Three Electives.  Semester hours: 9

Total: 15 Hours

Spring

- LDAR 6607 - Landscape Architecture Design Studio 7  Summer 2010  
  Registration: L A 6607
- LDAR 6608 - Landscape Architecture Design Studio 8  Summer 2010  
  Registration: L A 6608
- LDAR 6750 - Professional Practice  Summer 2010 Registration: L A 6750
Two Electives. **Semester hours**: 6

**Total: 15 Hours**

**Course Sequence**

(48-semester-hour MLA for students with a professional degree in landscape architecture or related disciplines)

This route requires 48 semester hours and typically two years of full-time study. The core curriculum consists of two groups:

<table>
<thead>
<tr>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Design</td>
</tr>
<tr>
<td>History and Theory</td>
</tr>
<tr>
<td><strong>Total core courses</strong></td>
</tr>
<tr>
<td>Electives</td>
</tr>
<tr>
<td><strong>Total courses</strong></td>
</tr>
</tbody>
</table>

The department chair will advise each student engaged in this program of study.

**Thesis**

The graduate thesis in landscape architecture provides an opportunity for students to conduct independent research and design investigations that demonstrate their capacity for rigorous original thinking. The thesis is not required for graduation and not all students are approved to write a thesis. Choosing to pursue a thesis project constitutes a significant commitment to the endeavor; the topic must be chosen with care and thoughtfully and critically developed. Topics can explore material that has been previously unstudied, reinterpret existing material in a new light, or engage research and design practices in ways that strengthen and define the final project. For all theses, the research and products must meet the highest standards of academic excellence and contribute significantly to the discipline and/or profession.

Pursuing a thesis requires students to enroll in a three-course sequence for a maximum
total of 12 semester hours. Students are required to formulate their research proposals two full semesters prior to their enrollment for the 6-semester-hour thesis, typically taken in lieu of the final studio. To proceed through the sequence, students must have completed and passed the research tools and methods class (LA6940) and have secured departmental approval of the thesis proposal. The completion of the thesis is dependent on acceptance of the student's work by the faculty member acting as the thesis chair and by the committee. For work to be accepted it must meet the standards established by the University of Colorado Denver for graduate thesis projects.

**Dual Degree Options**

Students may enroll in a dual degree program with architecture (MArch), with urban design (MUD) or with urban and regional planning (MURP).

**Urban and Regional Planning**

**Chair:** Thomas A. Clark, 303-566-3296  
**Associate Chair:** Pamela Wridt, 303-556-3472  
**Office:** UC Denver Building 330  
**Telephone:** 303-556-3382  
**Fax:** 303-556-3687

**Faculty**

**Professors:**

*Louise Chawla, PhD, City University of New York  
*Thomas A. Clark, PhD, University of Iowa  
*Yuk Lee, PhD, Ohio State University  
*Fahriye Hazer Sancar, PhD, Pennsylvania State University  
*Willem K.T. Van Vliet, PhD, University of Toronto

**Associate Professors:**

*Bruce Goldstein, PhD, University of California, Berkeley  
*Kevin Krizek, PhD, University of Washington  
Raymond McCall Jr., PhD, University of California, Berkeley  
*Brian Muller, PhD, University of California, Berkeley

**Assistant Professor:**
Urban and regional planners in the United States and other countries seek to identify social needs and environmental capacities, anticipate change and its impact on communities and shape the pattern of human settlements. Studies in planning focus on making a positive and lasting impact on the lives of people, both in Colorado and around the globe. Every society throughout history has addressed the same fundamental questions, which urban and regional planners have the ability to help answer:

- Where should settlements be located?
- What economic, social and political activities fit what places and spaces?
- How do urban places and rural regions connect with the wider spaces and more expansive networks that compose the global space-economy?

The Department of Planning and Design, along with the college's other departments — architecture and landscape architecture — offers a four-year bachelor of environmental design (BEnvd) degree on the CU-Boulder campus. The Department of Planning and Design offers the master of urban and regional planning (MURP) graduate degree on UC Denver's Denver Campus. The MURP program is a fully accredited two-year graduate professional degree program that has maintained this standing over many periodic reviews conducted by the Planning Accreditation Board (PAB). It is a "national" program, drawing students from many states and abroad, and sending its graduates on to serve an equally vast geography.

Objectives
Planning's mission is to identify the root causes of urban and regional problems; to fashion strategies that deploy policies, plans, resources and regulatory approaches to create urban and regional environments suited to human and ecological needs; and to develop methods for evaluating the human and environmental consequences of urban problems, programs, policies and plans.

Through research our faculty members have emerged as national, even global, leaders in addressing some of the most vexing problems of the field, regionally, nationally and internationally. Through study students will gain firsthand experience with real-world challenges while addressing essential theories and state-of-the-art methodologies of the field.

Graduates have the ability to advance to positions of great responsibility in Colorado, across the nation and abroad, in both the public and private sectors, in planning per se, and in related fields. University of Colorado Denver graduates continue to maintain a very high pass rate on the national examination administered for entry into the American Institute of Certified Planners (AICP).

The essential tasks of planning require a high order of ability to:

- Amass and manipulate information
- Represent and model essential phenomena and processes
- Stimulate alternative futures and judge outcomes having diverse dimensions
- Portray and communicate key concepts
- Harness knowledge about all the key actors on the scene in order to elicit their input and to understand their needs

Succinctly put, the education of planners can only begin in the university. It must be a life-long pursuit, and planning programs are becoming increasingly supportive of the continuing education needs of professionals. It is the intellectual excitement of this ongoing pursuit of knowledge that draws many to the field — this, and the opportunity to change the world.

Master of Urban and Regional Planning

Urban and Regional Planning MURP

Overview of the Curriculum

The requirements for the master of urban and regional planning degree fall into three categories:

1. core courses required of all students (27 semester hours)
2. concentration courses (15 semester hours)
3. planning related elective courses (9 semester hours)

Completion of at least 51 semester hours is required for graduation, less transfers and other waivers approved during the first semester of study. Students are encouraged to focus primarily on core courses during their first year of study, except Studio II, which would normally be taken in the second year. Studio II serves as a capstone experience. It is offered every semester.

Beyond the core, the graduate planning program offers three 15-semester-hour concentrations around which students normally organize course selections: economic and community development planning, land use and environmental planning and urban place making. These have been carefully constructed to cover the broad terrain of the profession. Students may also, with an advisor’s approval, craft their own unique concentrations. The remaining 9 semester hours of the 51-semester-hour MURP requirement are generally used either to deepen expertise within the concentration field or to enable lateral coverage of allied or distinct fields. Those in the MURP-MPA, MURP-MBA, MURP-JD, MURP-MLA and MURP-MArch dual degree programs will find that the core of each serves as the elective base of the other, leaving few free electives. In no instances may remedial study needed to secure course or program prerequisites apply to the basic degree requirement.

The concentration is meant to insure synergy among courses elected and to lay the foundation for a satisfying and productive career and extended learning on the job. Students should bear in mind that planning is a diverse and evolving profession and that personal interests and career options often change after graduation. Moreover, the mix of courses elected normally allows some breadth in the subsequent definition of one’s expertise as new graduates attempt to match their qualifications with employer requirements. Highly focused studies sometimes elevate the marketability of expertise in certain niches in the market for entry level planners, but may limit access to others. Excessive breadth may limit claims of specialized expertise; however, many positions do indeed require competent generalists.

Prerequisites

Students are expected to have achieved a basic level of computer literacy prior to enrollment, and should be familiar with PC or Apple operating systems. Acquiring some prior familiarity with digital visualization techniques is recommended for students who do not have a background in graphic communication. A higher level of proficiency is desirable for those seeking to emphasize the design elements of professional practice, most in evidence in our urban place-making concentration. Some assistance in attaining these skills may be provided in advance of the fall semester. Applicants are annually welcomed from virtually every field of prior study.

Advanced Standing
• Entering students who earned the college’s bachelor of environmental design (BEnvd) degree offered on the CU Boulder campus, within five years prior to enrollment, and who have maintained a GPA of at least 3.0, will be admitted to the MURP with advanced standing. Those who graduated still earlier may receive advanced standing at the discretion of the department chair, in consultation with the program faculty.

• These students can earn the MURP degree after completing a minimum of 42 semester hours, which will include the core courses (less any waived due to prior study), an approved concentration and additional electives required to meet the overall credit requirement of 42.

• Students holding the college’s BEnvd degree who also have completed, in this study, the undergraduate planning option with a GPA of at least 3.0 (and with a grade of at least 3.0 in ENVD 4320, Planning Studio III) will, in addition, receive a waiver with credit for URPL 6630, Planning Studio I. These students will earn the MURP degree upon completion of a minimum of 36 semester hours, including 21 semester hours of core courses and an additional 15 semester hours in an approved concentration.

Program Requirements

The master of urban and regional planning is the college’s accredited degree for students intending to pursue careers in planning and in related fields across a wide spectrum of employment niches both within and outside government.

• With no advanced standing, candidates for the MURP degree must complete a minimum of 51 semester hours of graduate work, including all core courses (27 semester hours), a concentration (15 semester hours minimum) and additional electives (9 semester hours). Concentrations currently include: land use and environmental planning, economic and community development planning and urban place making. Students may also devise their own individual concentrations with an advisor’s approval.

• Entering students who have engaged in the study or practice of planning elsewhere may petition the faculty prior or during their initial semester to determine whether any credit will be awarded or degree requirements relaxed as a result of these prior activities. A maximum of 9 semester hours of course work can be applied for advanced standing when such work was pursued at other institutions and meets prescribed level, content and quality thresholds. Graduates of the college’s own BEnvd program are eligible for up to 15 semester hours of advanced standing.

Advising

Students should, early in their course of study, secure a program advisor. When that advisor also happens to serve as the concentration coordinator for the specific official
concentration that the student wishes to pursue, then the faculty member should continue in both capacities. If the student wishes to pursue an official or self-devised concentration that is outside the program advisor's prime field of expertise, the student may either consult with the concentration coordinator while retaining the original program advisor, or switch all advising duties to the concentration coordinator. It will be important for the concentration coordinator to know of and approve course work in the context of the concentration itself. Monitoring student involvement in each concentration will also help the faculty to gauge demand, adjust offerings and facilitate activities outside the classroom such as visiting speakers and field trips, and to provide related services such as data bases, software libraries and job placement information. Maintaining an active roster of interested students will also help to sustain contacts among students and with graduates in order to build career networks and engage area professionals.

**Internships**

Internships are encouraged though they are generally not accepted in meeting concentration requirements. Exceptions must be approved in writing by the concentration coordinator prior to commencement of the internship. No more than three credits of internship work may be applied to the 51-semester-hour degree requirement. Any student wishing to undertake an internship must comply with the procedures established in the internship materials available in the program office.

**Independent Study, Thesis and Special Topic Courses**

To engage in an independent study course, the student must provide the instructor with an outline of the topic, and a time schedule for its completion. The instructor may require additional supporting materials before agreeing to work with the student. Independent study courses (URPL 6840) and thesis work (URPL 6950 and URPL 6951) may meet concentration requirements, depending on the topic, upon the program advisor's approval. Special topics courses (URPL 6686) will be acceptable in at least one of the categories in the three official concentrations. A completed thesis may substitute for Studio II. Students considering thesis work must secure a thesis advisor drawn from our regular faculty, assemble a committee, secure approval of the thesis proposal before work commences, comply with the official campus form guidelines, make a final presentation, win the approval of the committee and file a bound copy in the Auraria Library.

**MURP Program Planning Form (PPF)**

Each student should have a copy of the Program Planning Form and use it to keep an up-to-date record of his/her program plan and progress. In addition, a copy of this form should be submitted to the program office and retained in the student's file. If you have any questions about how to use the form, contact your program advisor. No student will
be certified for graduation by the department chair until a fully updated Program Planning Form is placed in the student's official file.

**Core Curriculum**

The core curriculum is composed of the courses listed below. Students are encouraged to focus primarily on core courses during the first year of study, except Studio II, which would normally be taken in the second year. Studio II serves as a capstone experience and is offered every semester. We aspire to offer a diversity of Studio II options befitting the three official concentrations.

- **URPL 5501 - Planning Issues and Processes** *Summer 2010 Registration: URP 5501*
- **URPL 5510 - Planning Methods I** *Summer 2010 Registration: URP 5510*
- **URPL 5511 - Planning Methods II** *Summer 2010 Registration: URP 5511*
- **URPL 5520 - Urban Spatial Analysis** *Summer 2010 Registration: URP 5520*
- **URPL 5530 - Planning Law** *Summer 2010 Registration: URP 5530*
- **URPL 6630 - Planning Studio I** *Summer 2010 Registration: URP 6630*
- **URPL 6631 - Planning Studio II** *Summer 2010 Registration: URP 6631*

**Areas of Concentration**

The concentration is meant to insure synergy among courses elected, and to lay the foundation for a satisfying and productive career and extended learning on the job. Students should bear in mind that planning is a diverse and evolving profession and that personal interests and career options often change after graduation. Moreover, the mix of courses elected normally allows some breadth in the subsequent definition of one's expertise as students attempt to match qualifications with employer requirements.

Highly focused studies will sometimes elevate marketability in certain niches for an entry level planner, but may limit access to others. Excessive breadth may limit claims of specialized expertise, however, many positions do indeed require competent generalists.

The program supports three official concentrations:

**Economic and Community Development Planning**

This concentration focuses on:

- The marriage of community development and urban economic development. Communities, regions and nations suffering economic insufficiency, stagnation or decline—evidenced in under or unemployment, poverty, diminished opportunity,
environmental decline or fiscal decay—often seek remedies for these shortcomings through strategic economic development planning.

- In this concentration, considerable attention will be given to means for assessing economic impact and apportioning growth's gains across people, places and sectors.

**Land Use and Environmental Planning**

This concentration focuses on:

- Practices and innovations in land use regulation and public investment
- Analytical methods including transportation modeling, land market evaluation, environmental impact analysis and use of decision support systems
- Administration of policies and plans
- Management of collaborative processes across diverse interest groups
- Planning politics and governance

**Urban Place Making**

This concentration focuses on responding effectively to the following recent trends and demands on the profession:

- Stronger residential real estate markets in urban centers, especially in the Front Range communities
- Planning for mixed-use and high density neighborhoods
- Necessity for understanding of urban form and the interactions between uses, facilities and services within complex urban contexts
- Higher levels of public participation
- Wider scope of design review and increased level of discretion that necessitates design creativity in review processes.

A set of foundation courses is identified in each concentration, plus additional supporting electives.

**Course Sequence**

Applicants may be admitted for both the fall and spring semesters. The schedule below posits a fall onset. If study is commenced in the spring the student may not encounter Planning Methods I until the following fall, so Planning Methods would be deferred to the third semester of study since we now encourage students to take these in the numeric sequence. Planning Issues and Processes is currently offered only in the fall and is the usual “door of entry” to the program. It is possible however that we will move to offer sections of this course during both semesters. Students may take more than 12 semester hours of study and so may progress faster than the template below would indicate. Generally taking more than 15 hours is ill-advised. Under some
circumstances—and on a space-available basis—Studio I may be taken during the first semester of study. Both Studio I and II are offered every semester, and additional sections will be added as demand warrants to preserve an acceptable class size. We offer numerous courses beyond the core, and also designate additional options in other departments, elsewhere within our college and across the campus.

First Year

Fall

- URPL 5501 - Planning Issues and Processes *Summer 2010 Registration: URP 5501*
- URPL 5510 - Planning Methods I *Summer 2010 Registration: URP 5510*
- URPL 5530 - Planning Law *Summer 2010 Registration: URP 5530*
  Elective course (3 semester hours)

Total: 12 Hours

Spring

- URPL 5511 - Planning Methods II *Summer 2010 Registration: URP 5511*
- URPL 5520 - Urban Spatial Analysis *Summer 2010 Registration: URP 5520*
- URPL 6630 - Planning Studio I *Summer 2010 Registration: URP 6630*

Total: 12 Hours

Second Year

Fall

Concentration Courses (9 semester hours)
Electives (6 semester hours)

Total: 12 Hours

Spring

- URPL 6631 - Planning Studio II *Summer 2010 Registration: URP 6631*
  Concentration Courses (6 semester hours)
Total: 12 Hours

* Both studios are offered in the fall and spring semesters.

**Dual Degree Options**

Students may enroll in dual degree programs with public administration (MURP+MPA), law (MURP+JD) and business (MURP+MBA). In addition, dual degree options are also available combining the MURP with landscape architecture (MLA) and architecture (MArch). A new dual degree combining planning and public health (MURP+MPH) is under development combining strengths on both the Denver and Anschutz Medical Campuses of UC Denver. The dual degree with law combines study on the Denver Campus and in the CU Boulder Law School. Interested students should consult the college Web site for additional information regarding these options. Overall, applicants to any dual option must apply to and gain separate admission to each degree program. Once admitted the student can graduate from neither until the work is completed for both degrees. Synergies enable a significant reduction in both the time and credit required to complete these pairings than would be needed if each were separately pursued. If the student should opt to drop either member of the dual set, he/she must then fulfill the stand-alone requirements of the remaining degree.

**Certificate Programs**

The college offers official certificate programs in design build, geospatial information science and historic preservation. Consult our Web site for details on each of these. The first is more attuned to the requirements of architectural students, whereas the latter two could suffice—with the approval of the department chair—as a basis for a concentration satisfying the MURP concentration requirement. Some students may wish to augment their 51-semester-hour MURP with additional course work in order to complete any one of these certificate programs.

"Art Changing Lives"

Mission: The College of Arts & Media (CAM) exists at the intersection of art, technology and commerce, and as such, faculty and students use powerful art making, expansive teaching/learning and strategic service to connect deeply with the arts disciplines and the culture industry —as these currently exist and as they might become.

At the College of Arts & Media, we view the arts as central in enabling people to express and know themselves and understand the world around them. We attract students from the Denver area as well as from across the country and around the world. Our students pursue individualized goals, such as seeking a first degree, making a career change or enriching personal growth. Our faculty bring real-world professional experience and artistic excellence to the classroom. Through connections and workshops with arts professionals and internships, CAM students are able to explore their chosen professions. CAM develops and maintains cooperative relationships with civic groups, regional arts agencies, museums, galleries, performance venues, public schools, community colleges, professional societies and the business community. The College of Arts & Media is developing an international presence.

College Goals
1. The College of Arts & Media instills, inspires and models creativity founded upon the accumulated knowledge of human civilization.
2. The college operates at the intersection of art, technology and commerce.
3. The college develops artists committed to social responsibility and citizens who will advocate for the role of the artist in society.
4. The college is a center of cross-cultural exchange and understanding.
5. The college enriches the quality of life in the larger community, fosters community partnerships and encourages mentorship.
6. The college integrates interdisciplinary modes of learning and creating.
7. The college adapts to meet future needs of diverse student constituencies.

**College Values**
- Experimentation and Innovation
- Excellence and Professionalism
- Community
- Creative Research and Scholarship
- Leadership
- Entrepreneurship
- Technological Innovation
- Critical Thinking
- Diversity, Accessibility and Equity
- Intellectual Freedom and Artistic Integrity
- Sustainability
- Civic Engagement
- Experiential Learning
- Social Responsibility

**Programs**

The College of Arts & Media (CAM) offers MS, BS, BFA and BA degrees in a wide range of arts disciplines in three departments: Theatre, Film and Video Production (TFVP), Visual Arts (VA) and Music and Entertainment Industry Studies (MEIS). Our vision, mission and values guide our teaching and learning, creative research and scholarly discovery, as well as our engagement with the university, the creative industries and professional fields.

Faculty in CAM design their courses with explicit learning outcomes that define knowledge (what students will know), skills (what students will be able to do) and dispositions (how students will change). Sequentially-designed courses enable CAM graduates to engage in art-making of consequence, creative innovations, integration of new technologies and building connections to creative industries. We infuse real-world knowledge in the classroom and create opportunities for students to develop an understanding of how their own art-making and scholarly pursuits impact others. Working sessions with arts professionals, lectures and workshops by visiting artists, internships with entertainment companies and other challenging opportunities let students connect their learning to careers in the creative industries. CAM has also established cooperative relationships with civic groups, regional arts agencies,
museums, galleries, performance venues, public schools and community colleges, professional societies, and the business community.

**Application Deadlines**

**Music and Entertainment Industry Studies Department:**

- **Undergraduate:** April 1 (fall admittance only)
- **Graduate:** (Master of Science in Recording Arts): February 15th (Fall admittance only)

**Visual Arts Department, Digital Design Program only:**

- Fall: April 1
- Spring: November 1

**Visual Arts Department, Digital Animation Program only:**

- Spring- application deadline to be announced in early spring

**Theatre, Film and Video Production Department, as well as other programs in Visual Arts:**

- Priority Deadlines
  - Fall—April 1
  - Spring—October 1
  - Summer—March 1

**Facilities**

CAM is committed to both traditional and new technology areas and celebrates the dynamic synergy between the two. CAM students can take advantage of superb studios, laboratories, equipment, galleries and performance spaces on campus. Students across all three CAM departments create work in computer labs where equipment and software are upgraded regularly. Most CAM studios are open for use by enrolled CAM majors, minors and graduate students when classes are not scheduled.

**Music Facilities**

- Five recording studios with analog, digital and hybrid technology
- Pro Tools in every studio
- Computer lab for music composition and recording arts
• Three sound reinforcement systems
• Mastering studio
• Audio forensics station
• National Center for Media Forensics
• Teaching and practice studios for solo and ensemble performers

**Visual Arts Facilities**

• Photography labs with black-and-white, non-silver, digital imaging and color capabilities, and large-format color and black and white printing
• Sculpture lab with wood shop and metal shops and a foundry
• Drawing and painting studios with natural light
• Digital animation center computer labs and motion capture studio
• Printmaking and visual arts foundations studios
• Auraria Visual Resources Center digital collection of contemporary and historical images, music and video
• Emmanuel Gallery, a tri-institutional arts space for student and faculty exhibitions and special exhibition events
• Partnership Gallery in the Downtown Denver Courtyard by Marriott for rotating exhibitions of faculty and student work

**Theatre and Film Facilities**

• Two "black box" production studios
• Scene shop and paint frame
• Costume shop
• Full cage of video production equipment, including cameras, lighting, sound and grip
• Computer labs equipped with digital editing facilities
• Starz Denver FilmCenter, a multi-screen complex on campus with year-round screenings and programs and location of the annual Starz Denver Film Festival

**King Academic and Performing Arts Center**

• 520-seat Concert Hall
• 350-seat Eugenia Rawls Courtyard Theatre
• 200-seat Recital Hall
• Fully wheelchair accessible production facilities, including catwalks

**Scholarship Opportunities**
The university and CAM provide access to a variety of scholarships, studio and lab work opportunities and other financial support for students. Students are encouraged to review scholarship opportunities provided by CAM and the university on the CAM Web site and through the university's Scholarship/Resource Office (303-352-3608; www.ucdenver.edu/scholarships).

Undergraduate Programs

Theatre, Film and Video Production

**Bachelor of Arts (BA) in Theatre, Film and Television**

**Bachelor of Fine Arts (BFA) in Theatre, Film and Television**

with emphases in:

- Writing/Directing
- Film & Theatre Production

**Minor**

Theatre, Film and Television minor

Music and Entertainment Industry Studies

**Bachelor of Science (BS) in Music**

- Performance Emphasis
- Recording Arts emphasis
- Music Business emphasis

**Music Industry Studies emphasis, with focus areas in Music Technology and Music Business**

**Minors**

- General Musicianship
- Music Industry Studies

Visual Arts

**Bachelor of Arts (BA) in Fine Arts**
Art History emphasis
Drawing emphasis
Painting emphasis
Photography emphasis
Sculpture emphasis

**Bachelor of Fine Arts (BFA) in Fine Arts**

3D Graphics and Animation emphasis
Digital Design emphasis
Drawing emphasis
Painting emphasis
Photography emphasis
Sculpture emphasis
Transmedia emphasis

**Minors**

Art History Minor
Digital Design Minor
Studio Photography Minor
Sculpture Minor
Studio Arts

**Declaring a Major/Minor**

All undergraduate degrees offered through the College of Arts & Media comprise 120 semester hours. Students must choose a major in order to graduate. Minors are optional.

Some majors require students to select a degree plan (BA, BS or BFA) and/or an emphasis (see above links). More about specific majors and emphases are also available on the CAM Web site, under "departments."
Students may choose to pursue a double degree, double major, double emphasis or minor. Each of these options may require in the more than 120 semester hours to graduate. Please consult a CAM advisor for additional information.

**Minors**

Departments in the college have developed a variety of minors. A minimum of 12 semester hours in residence is required for each. Please click the above links for specific minor requirements.

Students are not required to have a minor to graduate. Students may choose to declare a minor in CAM or through another college/school in the university. Students wishing to declare a minor in CAM should consult with a CAM advisor for details. More than 120 semester hours may be required to complete both a major and minor.

**Double Emphases**

Students may graduate with more than one emphasis in their degrees and majors by completing all requirements for each emphasis (e.g., BFA in fine arts with emphases in sculpture and photography). Completing these requirements will likely require more than 120 semester hours. Double emphases apply only to students completing two program requirements, both in the same CAM department.

**Double Majors**

Students may graduate with more than one major in CAM by completing all requirements for each major (e.g., a BA with a major in fine arts, art history emphasis AND a second major in theatre, film and television). Completing these requirements will likely require more than 120 semester hours. Double majors apply to students completing two program areas in two different CAM departments.

**Double Degrees**

Students may earn two degrees in the College of Arts & Media (e.g., BFA in fine arts and BA in theatre, film and television) or from two different schools or colleges in the university (e.g., BS in music and a BS in physics) simultaneously by fulfilling all requirements for both degrees. Students must complete a minimum of 150 semester hours applied toward the two degrees.

**Second Degrees**
Students who have been awarded a bachelor’s degree may be granted a second bachelor’s degree provided that (a) all general requirements for that degree have been met; (b) the degree plan for the second bachelor’s degree is different from the major for the first; and (c) the college and major department residence requirements are satisfied. A second degree from the college requires a minimum of 30 additional semester hours of credit.

General Degree Requirements

The following requirements apply to all undergraduates earning a degree in CAM. Please refer to the specific department and emphasis pages in this catalog for additional information.

- Minimum of 120 semester hours passed
- Fulfillment of major degree requirements
- Fulfillment of both intellectual competencies and knowledge areas in the Core (general education)
- For BA and BFA degrees: a minimum of 45 semester hours of upper division (3000/4000 level) course work passed
- A cumulative GPA of 2.0 in all University of Colorado course work
- A minimum of C/2.0 for each course applied towards the major
- A minimum of 30 semester hours of resident credit

Requirements for Undergraduate Admission to the College of Arts & Media

A student wishing to matriculate in the College of Arts & Media (CAM) must be admitted at three levels: (1) as a student of UC Denver, (2) as a student in CAM and (3) as a student in a CAM major, degree and emphasis. Acceptance to majors, degrees and emphases within CAM is highly selective based upon a variety of factors, which may include:

- Careful evaluation of secondary school records, which may include recommendations from guidance counselors, advisors, teachers and professionals
- Scores on standardized tests
- Creative review in the form of an audition, portfolio review or other evaluation

Formal acceptance into specific degree programs may be contingent on successful academic and creative work, assessed following completion of foundation courses in the major.

Overview

- Students may enter the college as an undecided CAM student or may indicate an intended area of study.
CAM recommends that undeclared students seeking entry into areas that do not identify a review process for entry into the major identify their areas of study quickly, as programs are designed sequentially and many courses are offered fall or spring only. Fall starts in the major are recommended.

Students may be accepted on a provisional basis for specific programs, with full acceptance pending satisfactory completion of foundation course work and successful review by departmental faculty.

The application is based on two parts: academic and creative/artistic.

1. The UC Denver Office of Admissions evaluates the academic component.
2. In addition, undergraduate programs at CAM may require an incoming artistic/creative assessment such as an audition, portfolio review or an entrance interview.

Artistic/creative review is conducted by the appropriate department or program (see specific programs for details). Both the academic application and the artistic/creative review are evaluated as a whole to determine admission and must be completed before an admissions decision can be made. Creative material, if required, should be mailed directly to the specific department or program. No admissions decision will be made until the candidate’s file is complete and the department has forwarded artistic/creative review results to the Office of Admissions.

Some departments/emphases require sophomore reviews prior to students declaring specific emphases. Please read through this page of the catalog for additional information.

New freshmen and new transfers must meet the university entrance requirements as outlined in the Information for Undergraduate Students section of the catalog, in addition to appropriate artistic reviews/assessments, outlined in the CAM pages of this catalog.

**Admission to the MEIS Department**

Acceptance into the UC Denver Department of Music and Entertainment Industry Studies (MEIS) is on a competitive basis with specific entrance evaluation requirements. Admission to the music major is competitive for both freshmen and transfer students. All applicants will be placed in an enrollment pool, and admissions decisions will be based upon several factors, including an indexed composite score of cumulative GPA, music aptitude exam score and an audition (if applicable). Application materials must be received by the deadline—no late applications will be considered.

Prospective students should refer to the MEIS Web site for current requirements, deadlines and procedures.

**Notes:**

- Please be aware that neither the university nor CAM returns creative materials and will not assume any liability or responsibility for original materials submitted by an applicant that are lost or damaged while in its possession.
- Candidates are urged to complete and file their applications as soon as possible. Applicants will be notified promptly if additional information is required. No admission decision will be made without complete information.
- Courses reach maximum enrollment quickly; students are encouraged to apply early.

### Admission into the Visual Arts Department Digital Design Emphasis

Admission into the BFA digital design emphasis or the digital design minor is competitive. Students complete initial required courses and submit a portfolio for faculty review, either as UC Denver students or as transfer students prior to enrolling at the university. This review process occurs April 1 or November 1 (or on the following business day if the deadline falls on a weekend or holiday) during a student's sophomore year after a student has met the following eligibility criteria:

- **Current University of Colorado Denver students:**
  - You are seeking admission to the digital design program
  - You have completed, or are in the process of completing, the following visual arts foundation courses: FINE 1100, FINE 1400, FINE 2015, FINE 2405 and FINE 2415 (FINE 2405 and FINE 2415 should be taken after a student's freshman year and are offered only in fall semester). A cumulative fine arts GPA of 2.75

- **Transfer students:**
  - You are a transfer student (not yet enrolled at UC Denver) seeking admission to the digital design program
  - You have completed, and are transferring, a minimum of 24 transferable credit hours from a previous, accredited institution.
  - You have completed, or are in the process of completing, the equivalents of the following visual arts foundation courses: FINE 1100, FINE 1400, FINE 2015, FINE 2405 and FINE 2415.
  - You have a cumulative Fine Arts GPA of 2.75

Students who are applying for entrance into the digital design emphasis, or minor, are required to submit a portfolio that consists of (1) a written statement; (2) a designed portfolio on CD-ROM or DVD; and (3) unofficial transcript(s) from all previous post-secondary education institutions with the understanding that digital design is a fall start program. Upon acceptance you will earn access to upper division (3000/4000 level) digital design classes.

Those applying to the minor (and not the major) are not required to complete FINE 1100, FINE 1400 or FINE 2015 (or their college-level equivalents), but they must show equivalent studio work in their application portfolios.
Please see [http://cam.ucdenver.edu/va/digitaldesign.htm](http://cam.ucdenver.edu/va/digitaldesign.htm) for program and portfolio information, or contact the Digital Design Area Head Brian Delevie at brian.delevie@ucdenver.edu.

**Admission into the Visual Arts Department 3D Graphics and Animation Emphasis**

Admission into the 3D graphics and animation emphasis ("Digital Animation Center" or "DAC") is competitive. Students must first enroll at UC Denver and complete

**FINE 1810** in the fall semester and **FINE 1820** in the spring semester. After completing **FINE 1820**, applicants submit a visual arts portfolio for faculty review. An application essay and a 2.8 cumulative GPA are also required.

Selection for entrance into the BFA program with an emphasis in 3D animation occurs at the end of year one of the program and is a competitive process (by faculty review). Requirements include:

1. Submission by the candidate of a "demo reel" on DVD or CD. The reel must include original works from either **FINE 1810** or **FINE 1820** (preferably both), as well as representative works created in other visual arts courses completed during year one of the program.
2. A "breakdown sheet" which describes the work included on the submission reel, and, if collaborative in nature, what aspect of the work shown was created by the applicant.
3. A one page, single-spaced, written statement regarding your aspirations as a member of the DAC Core Cadre and the Computer Graphics (CG) community as a whole.
4. Cumulative visual arts GPA of 2.75.

The demo reel may be a DVD or it can be submitted as a movie file (.mov) on DVD or CD (Quicktime, H.264, 720 x 404 minimum frame size, 16:9 aspect ratio). Still work should be a component of the reel and should be on screen for at least 3 seconds but not more than 10 seconds. Name and contact information must appear at the beginning and end of the reel.

The students' submission package must be turned in to the DAC faculty member, Howard Cook, no later than the first Friday after the spring semester has ended. You will be notified by e-mail and letter on or before the first Monday of June of the application year. Upon acceptance, you will earn access to upper-division DAC classes.

Please see the CAM Web site for program and portfolio information, or contact faculty member Howard Cook in the Digital Animation Center.
Admission to the Visual Arts Department Transmedia Emphasis

Students must apply for admission to the transmedia emphasis. For more information, please contact College of Arts & Media Advising at CAMadvising@ucdenver.edu.

Additional Program-Specific Admission Requirements

Music Major Entrance and Sophomore Review Requirements

All entering freshmen and transfer students applying for admission to the BS in music must submit additional materials. Students wishing to pursue an audition-based program (i.e., performance, music business or recording arts) must successfully complete a music audition at the time of application to the university. Students applying for the music industry studies program must complete an audition deferment form, which allows students to postpone their auditions until completing foundation course work in performance and musicianship. Audition information and the audition deferment form are available on the music department Web site.

The BS in Music with an emphasis in recording arts or music industry studies (technology focus) permits provisional program acceptance only, pending completion of sophomore-level review, including foundation course work, entrance examination, formal application and acceptance by departmental faculty. Students will not be allowed to take upper-division audio production courses unless they have been formally accepted into the program/focus. Please visit the music department Web site or contact CAMadvising@ucdenver.edu for more information.

Students who wish to pursue the BS in music with an emphasis in performance must pass a sophomore proficiency recital on their primary instruments prior to being able to continue the program and taking advanced level music courses.

Theatre, Film and Television BFA

All entering freshmen and transfer students planning to pursue the BFA in theatre, film and television are initially admitted under the BA program. Those desiring to pursue the BFA may then apply in the spring semester for admission the following fall, providing they have completed at least one year of college course work (including 12 semester hours at UC Denver and specific major requirements). Please see the Theatre, Film and Television BFA page in this catalog for more information.

Intra-University Transfer

Students who want to transfer to the College of Arts & Media from another college or school within the university must formally apply to the College of Arts & Media and pass
appropriate reviews/assessments as outlined on this page of the catalog. To be considered for admission, students must have a minimum 2.0 cumulative University of Colorado GPA.

Transfer of Major within the College of Arts & Media

Undergraduate students who wish to transfer from one department to another within the college must currently be in good academic standing, pass appropriate reviews/assessments as outlined on this page of the catalog and notify the CAM Advising Office by submitting a change of major form.

Undergraduate Academic Advising

Office of Advising and Student Services

Location: Arts Building, Suite 177
Telephone: 303-556-2279
Fax: 303-556-2335
E-mail: CAMadvising@ucdenver.edu
Web site: http://cam.ucdenver.edu/advising

The college’s Office of Advising and Student Services is the main information center for CAM. Advisors assist students in tracking their academic progress, discussing remaining requirements and course sequencing, and it offers appropriate referrals to faculty and other university programs (e.g., Career Center). The office also coordinates student notifications (e.g., Dean’s List, probation/suspension, scholarship opportunities) and college academic events (e.g., Open House, commencement, orientation) as well as maintaining advising-related materials. Academic advising is a service provided to students; students are ultimately responsible for their academic progress.

Academic advising may be mandated or suggested prior to registration depending on the student’s status. All new freshmen and transfer students are required to meet with an academic advisor prior to registering for their first semesters of courses. Continuing students are encouraged to meet with an advisor annually and may be periodically required to meet with an advisor prior to registration. Continuing students who have a registration block placed on their accounts by the advising office will be notified in advance (via e-mail to the university-issued e-mail address, per university policy). Advising-related information can be found at the CAM Web site.

New Freshmen

All new freshmen are encouraged to attend new student orientation where they will:

- Learn about the university
- Attend the CAM session to discuss academic programs and services and career opportunities in the creative industries.

Information about new student orientation will be mailed to students and is available by calling 303-352-3520. Students are encouraged to register for the earliest orientation they are able to attend.

**Second-Semester Freshmen and Undecided Students**

CAM freshmen with declared majors and undeclared arts and media students are assigned to the Academic Success and Advising Center. ASAC introduces students to university and college policies and explains core and basic degree requirements. These students are required to meet with an advisor prior to registering each semester. Students are encouraged to bring sample schedules to their advising appointments.

**Academic Success and Advising Center**

Location: North Classroom, Suite 2024
Telephone: 303-352-3520
E-mail: ASAC@ucdenver.edu
Web site: www.ucdenver.edu/life/services/asac/Pages/default.aspx

**New Transfers**

New transfers need to follow a two-step process:

1. The Office of Admissions will evaluate the student’s prior transcript(s) and determine an initial set of courses to be transferred. Admissions will mail a copy of this transfer evaluation to the student.
2. CAM advisors and faculty determine how these courses fit into the student’s degree plan, course by course. Students should set up an appointment with a CAM advisor to complete this process by calling 303-556-2279. Students may be referred to the faculty for review of courses in the major.

If certain courses are not initially accepted by the Office of Admissions, the student and advisor can discuss the petition process for accepting these courses. If the student’s petition is approved, the advising office will request that the Office of Admissions accept the course(s) in transfer.

New transfers are required to receive individual academic advising to become eligible to register for courses their first semester.

**Continuing Students**

Students with a declared major who have completed at least 30 semester hours are assigned to the college’s Office of Advising and Student Services. Please see above for contact information and location. Students are encouraged to meet with an advisor at
least once per year. We recommend bringing a sample schedule to their advising appointment.

Periodically, students may have a block placed on their registration by the Office of Advising and Student Services, requiring them to meet with a CAM advisor prior to registering. Students will be notified via e-mail to their university-issued e-mail addresses, per university policy, if a registration block has been placed by the advising office. As other offices may also place a block on a student’s registration, students are encouraged to resolve any registration blocks through the appropriate office prior to their registration date/time.

Students approaching their junior and senior years are encouraged to meet with a faculty mentor in their area of study to discuss internships, career/employment opportunities, graduate school, professional organizations and other post graduation information. Faculty contact information is available on the CAM Web site. Students also may contact the Office of Advising and Student Services for suggested faculty referrals by interest.

**CAM Undergraduate Academic Policies**

Please see the Registration and Records and the University Policies pages of this catalog for academic policies that apply to all undergraduate students at the university. The policies that follow apply specifically to undergraduates in the College of Arts & Media.

**Dean’s List**

UC Denver will use a fixed criterion across all colleges for determining eligibility for the Dean's List. This policy applies to undergraduate students.

For fall and spring semesters, students must successfully complete nine (9) hours in the semester upon which to determine grade point. These courses can be both within and outside of the college. Pooled courses will not be included in the calculation nor will they count toward the 9 hours required for consideration. The GPA set for inclusion in the Dean's List is 3.75.

In the summer semester, students must complete six (6) hours as a basis for inclusion in the Dean's List. Course inclusion will be the same as in fall and spring semesters. The GPA for Dean's List in summer is also 3.75.

Colleges will collect data each semester on the number of students making the Dean’s List and report the number and percentages of total students in the college.
Scholarships tied to Dean's Lists in individual colleges may have additional requirements.

The Registrar's Office will calculate the semester GPAs for all students two weeks prior to the due date for semester grades. Those GPAs will be the basis for determining the Dean's List. Incompletes will not be considered in the calculation of minimum number of hours. The Dean's List will not be recalculated to include completed incompletes.

Graduating with Academic Honors

Academic honors are awarded at the time of graduation, based upon cumulative University of Colorado undergraduate GPA. To be eligible for honors, a student must have completed a minimum of 30 semester hours at the University of Colorado (on any CU campus). A cumulative CU GPA of 3.65-3.749 earns *cum laude*, a 3.75-3.849 earns *magna cum laude* and 3.85 earns the *summa cum laude* honors designations on a degree.

Good Academic Standing

Students at the university are expected to maintain progress in their degree program, as defined by being in "good academic standing." Good academic standing requires a minimal cumulative GPA of 2.0 on all University of Colorado course work.

Academic Probation and Academic Suspension

Academic Probation

- Academic probation is a warning to students that they are not progressing toward completion of their degree in a satisfactory manner.
- Students are placed on academic probation when their cumulative CU GPA falls below a 2.0 at the end of any academic term.
- Students are informed in writing (via university-assigned e-mail and postal letter) of their academic probation status.
- Students on Academic Probation will be required to complete the Academic Success Plan during their first semester on Academic Probation.
- Students will be required to schedule an appointment and meet with their academic advisor to discuss the completed Academic Success Plan before they will be allowed to register for the subsequent term.
- Students on Academic Probation will be required to schedule an appointment and meet with their academic advisor every semester that they are on Academic Probation before they will be allowed to register.
- Academic Probation requires that students achieve a minimum 2.3 semester GPA each subsequent term until their cumulative CU GPA is at least a 2.0 to return to good academic standing.
• Students must achieve a minimum 2.0 cumulative CU GPA to meet graduation requirements.
• Students who fail to earn the 2.3 semester GPA during any semester of Academic Probation will be placed on Restricted Academic Probation.
• Students have five semesters or 30 credits (whichever happens sooner) to raise their cumulative GPA to above a 2.0, or they will be placed on Academic Suspension.
• Once a student has raised his/her cumulative CU GPA to at least a 2.0, s/he will be removed from Academic Probation and notified via university-assigned e-mail that s/he is in Academic Good Standing.

Restricted Academic Probation

• Students who fail to earn the 2.3 semester GPA during any semester of Academic Probation will be placed on Restricted Academic Probation.
• Students are informed in writing (via university-assigned e-mail and postal letter) of Restricted Academic Probation status.
• Students on Restricted Academic Probation will be allowed to enroll for a maximum of 6 credits/2 classes per semester (whichever is more). A course and its attached lab are considered to be one course in this case.
• Students on Restricted Academic Probation will be required to schedule an appointment and meet with their academic advisor in order to register for courses.
• Students on Restricted Academic Probation will not be able to register online; they will need to register for courses using a Schedule Adjustment Form, which must be submitted to the Service Center (North Classroom, Room 1003) for processing.
• Restricted Academic Probation requires that students achieve a minimum 2.3 semester GPA each subsequent term until their cumulative CU GPA is at least a 2.0. Students must achieve a minimum 2.0 cumulative CU GPA to return to good academic standing and to meet graduation requirements.
• Students on Restricted Academic Probation who do not meet the 2.3 minimum semester GPA will be placed on Academic Suspension.
• Students who fail to raise their cumulative GPA to 2.0 or above in five semesters or 30 credit hours on Academic Probation and Restricted Academic Probation will be placed on Academic Suspension.

Academic Suspension

• Students on Restricted Academic Probation who do not meet the 2.3 minimum semester GPA will be placed on Academic Suspension.
• Students are informed in writing via certified/registered letter of their Academic Suspension status.
The minimum duration of Academic Suspension is for a period of one year (three semesters, including summer term). Students placed on Academic Suspension will be unable to take courses from any CU campus during this time.

Should a student be placed on Academic Suspension while registered for the next semester, s/he will be administratively dropped from their courses by the university.

A student’s Academic Suspension status is permanently indicated on his/her official University of Colorado transcript.

During the one-year Academic Suspension period, students who wish to return to the University should consider one (or both) of the following actions:

- Attend another regionally accredited college/university.
  - Students who choose to attend another institution while on Academic Suspension can take as many or as few credits as they choose, but must earn a 2.75 cumulative GPA in all transferable course work.
  - Students should consult their academic advisor to discuss appropriate course work.
- Use the time off to directly address and resolve the factors that contributed to the academic difficulty.

After the one-year suspension period has elapsed, students must petition the appellate committee (of the school or college they wish to enter) for readmission and meet and document at least one of the following criteria:

- Attendance at another regionally accredited college/university where they earned a minimum cumulative GPA of 2.75 in transferable credit.
- Explanation of their previous academic difficulty, demonstration of what has changed, and how this will allow them to now achieve and maintain Good Academic Standing (including a semester GPA of at least 2.3 and a cumulative GPA of at least a 2.0). Students who choose to petition their college’s appellate committee for readmission must submit their petitions by the following deadlines:
  - For fall admission: June 1
  - For spring admission: December 1
  - For Maymester/summer admission: April 1

If a student is granted readmission and his/her CU GPA is below a 2.0, s/he will be readmitted on Restricted Academic Probation. These students must meet the condition of Restricted Academic Probation every semester until their cumulative CU GPA is at least a 2.0.

Second Academic Suspension

- Students who are readmitted after their first Academic Suspension and fail to meet the conditions of Restricted Academic Probation for a second time are placed on a second suspension for an indefinite period of time.
- Students on a second suspension may be readmitted to the University only by petition to the college’s appellate committee.
• Students will not be considered for readmission unless they have demonstrated significant improvement in academic performance at the college/university level, and/or considerable and positive change in personal circumstances.

Leaves of Absence/Returning Students

Students who have not attended the university for more than one calendar year should refer to the "Readmission Requirements for Former Students" in the Information for Undergraduate Students chapter of this catalog. Due to the dynamic nature of the CAM programs, returning students who have not attended in more than five years must complete their programs based on the current curriculum and policies. For assistance with your specific situation, please consult a CAM advisor.

Independent Study

The College of Arts & Media has very specific policies concerning eligibility and registration for independent studies. Students should consult the CAM advisor or their faculty mentors for specific eligibility criteria and registration procedures. The number of credits to be earned for an independent study project shall be determined at the time of registration. The college and academic programs have specific policies on how independent study credits may apply to the bachelor’s degree. A maximum of 12 semester hours of independent study may apply toward the bachelor’s degree and cannot be used to replace a required course. Please see the CAM Web site for additional information and appropriate paperwork. Independent study should be added by Census Date (add/drop deadline) as noted on the academic calendar.

Internships

Internships provide important educational and professional experience. A maximum of 3 hours of internship credit per semester and 9 hours overall is allowed. Internship credit may not be awarded retroactively nor after the student begins internship hours. Students should consult with an academic advisor about the placement of internship credit in their degree plans.

The college requires that students have the following to qualify for an internship:

• 60 semester hours
• Minimum of a 2.75 cumulative University of Colorado GPA

Specific academic programs may have additional eligibility requirements for an internship. Students seeking an internship should consult with the CAM Office of Advising and Student Services, the Experiential Learning Center and their faculty
mentors. Additional information is available at the CAM Web site. Internships should be added by Census Date (add/drop deadline) as noted on the academic calendar. Occasionally opportunities arise mid-semester; students may be required to petition the advising office and/or the associate dean for approval to add an internship after the add/drop deadline.

Graduate Programs

The Department of Music and Entertainment Industry Studies (MEIS) offers a master of science in recording arts (MSRA) with emphases in media forensics and recording arts. For details on program requirements, admissions and policies, please see the MSRA page in this catalog.

CAM General Academic Policies

Please see the Registration and Records and the University Policies pages of this catalog for academic policies that apply to all students at the university. The policies that follow apply specifically to both undergraduate and graduate students in the College of Arts & Media.

Incompletes

The College of Arts & Media has very strict guidelines on granting incomplete grades. They include but are not limited to the following:

- Reason for incomplete must be a verified, compelling and extraordinary circumstance beyond student's control that made completion of the course impossible
- The majority of course requirements (75 percent) must have been completed with a passing grade to be eligible for incomplete (C/2.0 for major/minor courses and select courses in the core; D-/0.7 for most core and general elective courses)
- CAM course completion agreement must be signed by both the instructor and student, with final approval by the associate dean
- All course work must be completed within one calendar year of the end of the original course: NO EXCEPTIONS
- Requests for a retroactive change from a letter grade to an incomplete will not be considered

The student is responsible for requesting an incomplete grade and submitting all of the appropriate paperwork and obtaining approvals. Please visit the CAM Web site for additional information.
Curricular Changes and Course Substitutions

Undergraduate students are required to complete the core and major requirements as outlined when they declared their degrees, majors and emphases and are admitted to the program. Similarly, graduate students fall under the degree requirements that were in place when they first enrolled in their programs. If a program revises its curriculum, students have the option of following their original degree requirements. Occasionally, courses under the original requirements may no longer be taught or may not be available for a set duration. In this case, the department will approve course substitutions.

Course substitutions in the major must be approved by the designated faculty member in the specific program area, the department chair and possibly by the associate dean. Course substitutions in the core must be approved by the Academic Policies Committee through the petition process (see the CAM Web site for additional information).

Students who switch majors (e.g., BS in music to BA in theatre, film and television) are required to complete the curriculum in place when they declare their new degree or major. Students who switch degrees within the same major (e.g., BFA in fine arts to BA in fine arts) will be required to complete the curriculum that is in place when they declare their new degree. Students who switch emphases within a degree and major may use either the curriculum that was in place when they were accepted into the major or the current requirements.

Applying to Graduate

Students expecting to graduate are required to fill out the online intent to graduate form (www.ucdenver.edu > Degree Planning > Planning for Graduation > Intent to Graduate Form) by the published deadlines. Late applications will not be accepted, and the student will need to apply for the following semester.

Applications will be accepted from the first day of the student's registration for the semester in which the student plans to graduate through Census Date (the drop/add deadline) of the semester. Applications are due by 5 p.m. on census date of the semester in which the student is applying to graduate as noted in the academic calendar. Students are encouraged to meet with the CAM advisor the semester before they intend to graduate to review graduation procedures and degree requirements.

Students who have not attended the university in more than one calendar year must gain readmission to the university prior to applying for graduation. It is the student's responsibility to apply with enough time for the readmission process to be finalized by the Census Date.
Academic Policies Committee

The CAM Academic Policies Committee is the appellate committee for all student-related academic petitions, issues and appeals. The committee is responsible for the evaluation and interpretation of the approved academic policies of the college. Questions about interpretation of policies may be directed to the Office of Advising and Student Services. Procedures and petition guidelines are available at the CAM Web site.

Theatre, Film and Video Production

Chair: Dan Koetting  
Office: Administration Building, 210  
Telephone: 303-556-6352

Faculty

Instructors:
Jessica Lance  
Howie Movshovitz  
Janetta Turner
Department Overview

The Department of Theatre, Film and Video Production prepares students for advanced degree programs in graduate schools as well as for careers in theatre, film, television and/or video, within the context of a strategically designed liberal arts education. The department offers courses in the disciplines of theatre and film/video through an innovative curriculum built on a shared foundation of integrative courses, as well as specialized advanced courses.

Students have the opportunity to work directly with faculty, guest artists and fellow students in the creation of live and recorded performance works through participation in the department’s production program of plays, films, television and video projects, and through co-requisite laboratory experiences. Denver-area theatre productions, artist residencies, film screenings, lectures, concerts, exhibits and other cultural resources of the metropolitan area are regularly utilized throughout each student’s course of study.

BA/BFA Program Options

Bachelor of Arts in Theatre, Film and Television

The BA is designed for students who are interested in multiple aspects of theatre, film and television, and for students who are transferring with advanced standing. The BA degree involves an integrated sequence of courses in both theatre and film. After completion of the foundation sequence, students choose from a wide range of electives.

See detailed degree requirements for the BA.

Bachelor of Fine Arts in Theatre, Film and Television

Film and Theatre Production Emphasis
or
Writing/Directing Emphasis

For a limited number of students with exceptional abilities, desire and qualifications, the department offers a rigorous and structured BFA. The BFA program goal is to provide training at a professional skill level while implementing overall departmental goals. This program prepares students to begin their careers with entry-level positions in their areas of study, start their personal creative work or continue their studies in a graduate program. Majors will take a series of courses in the foundation sequence. Upon
successful completion of the foundation courses and demonstration of competence and potential through an interview/audition process in their desired area of focus, students then specialize with more intensive course work and production activities in the BFA program. This intensive work culminates in a comprehensive review that requires the successful completion of a portfolio and/or thesis project.

See detailed admission and degree requirements for the BFA.

Student Handbook

All students in the theatre, film and video production program are required to know and abide by the policies and procedures outlined in the TFVP Student Handbook, available by contacting CAMadvising@ucdenver.edu.

Programs

Bachelor of Arts

Theatre, Film and Television BA

All students pursuing a bachelor of arts (BA) in theatre, film and television complete a total of at least 53 semester hours for the major: 38 semester hours of foundation courses and 15 semester hours of approved electives. Each course must be completed with a C/2.0 or better. At least 24 of the major semester hours must be earned at UC Denver. Students must also follow the College of Arts and Media's general degree requirements.

Students in the theatre, film and video production program are required to know and abide by the policies and procedures outlined in the TFVP Student Handbook, available by contacting CAMadvising@ucdenver.edu.

Required Foundation Courses

- TFVP 1050 - Video Production/Post-Production | Summer 2010 Registration: TFVP 1050
- TFVP 1100 - Introduction to Theatre, Film, and Television | Summer 2010 Registration: TFVP 1100
- TFVP 1110 - Production Design: Theatre, Film and Video | Summer 2010 Registration: TFVP 1110
- TFVP 1550 - Scriptwriting | Summer 2010 Registration: TFVP 1550
- TFVP 1611 - Acting Lab | Summer 2010 Registration: TFVP 1611
- TFVP 2090 - Production Management Techniques | Summer 2010 Registration: TFVP 2090
• TFVP 2100 - Visual Culture  Summer 2010 Registration: TFVP 2100
• TFVP 2800 - Elements of Directing  Summer 2010 Registration: TFVP 2800
• TFVP 3810 - Introduction to Production Process  Summer 2010 Registration: TFVP 3810
• TFVP 3820 - Production Process  Summer 2010 Registration: TFVP 3820
• TFVP 3910 - BA Junior Project  Summer 2010 Registration: TFVP 3910
• TFVP 4910 - BA Senior Project  Summer 2010 Registration: TFVP 4910

Select two courses from the following:
• FILM 3070 - History of Silent Film Production  Summer 2010 Registration: FILM 3070
• FILM 3080 - History of Sound Film Production  Summer 2010 Registration: FILM 3080
• THTR 3610 - Performance: Theory/History/Criticism I  Summer 2010 Registration: THTR 3610
• THTR 4610 - Performance: Theory/History/Criticism II  Summer 2010 Registration: THTR 4610

Approved Elective Courses

Select 15 semester hours from the following:

• FILM 2050 - Film/Video Prod/Post II  Summer 2010 Registration: FILM 2050
• FILM 2500 - Introduction to Screenwriting for Film and Television  Summer 2010 Registration: FILM 2500
• FILM 3111 - Shooting Action and Physical Effects  Summer 2010 Registration: FILM 3111
• FILM 3264 - Advanced Digital Effects  Summer 2010 Registration: FILM 3264
• FILM 3270 - Film/Video Production III  Summer 2010 Registration: FILM 3270
• FILM 3275 - Film and Video Postproduction III  Summer 2010 Registration: FILM 3275
• FILM 3300 - Advanced Lighting for Film and Video  Summer 2010 Registration: FILM 3300
• FILM 3350 - Editing Aesthetics  Summer 2010 Registration: FILM 3350
• FILM 3400 - Intermediate Screenwriting  Summer 2010 Registration: FILM 3400
• FILM 4270 - Film and Video Production IV  Summer 2010 Registration: FILM 4270
• FILM 4280 - Film and Video Postproduction IV  Summer 2010 Registration: FILM 4280
• FILM 4350 - Analysis of Contemporary Motion Picture Editing Techniques  Summer 2010 Registration: FILM 4350
• FILM 4400 - Advanced Screenwriting  Summer 2010 Registration: FILM 4400
• FILM 4500 - Writing for Episodic Television  Summer 2010 Registration: FILM 4500
• FILM 4600 - Topics in Film Summer 2010 Registration: FILM 4600
• FILM 4840 - Independent Study: FILM Summer 2010 Registration: FILM 4840
• TFVP 3840 - Applications Seminar Summer 2010 Registration: TFVP 3840
• THTR 2530 - Acting: Character and Staging Summer 2010 Registration: THTR 2530
• THTR 2560 - Topics in Theatre Summer 2010 Registration: THTR 2560
• THTR 2700 - Art for the Theatre Summer 2010 Registration: THTR 2700
• THTR 2840 - Independent Study: THTR Summer 2010 Registration: THTR 2840
• THTR 3010 - Stage and Production Management Summer 2010 Registration: THTR 3010
• THTR 3530 - Acting: Character and Text Summer 2010 Registration: THTR 3530
• THTR 3560 - Topics in Theatre Summer 2010 Registration: THTR 3560
• THTR 3720 - Lighting Design Summer 2010 Registration: THTR 3720
• THTR 3730 - Scene Design Summer 2010 Registration: THTR 3730
• THTR 3740 - Costume Design Summer 2010 Registration: THTR 3740
• THTR 3760 - Sound Design for the Theater Summer 2010 Registration: THTR 3760
• THTR 3840 - Independent Study: THTR Summer 2010 Registration: THTR 3840
• THTR 4530 - Acting: Character and Media Summer 2010 Registration: THTR 4530

• THTR 4840 - Independent Study: THTR Summer 2010 Registration: THTR 4840

Total for Program: 53 Hours

Bachelor of Fine Arts

Theatre, Film and Television BFA

The Department of Theatre, Film and Video Production offers a rigorous and structured bachelor of fine arts (BFA) program to a limited number of students with exceptional abilities and qualifications who aspire to work specifically in film/theatre production or writing/directing. The BFA’s goal is to provide training at a professional skill level while implementing overall departmental goals, culminating in a comprehensive review that requires successful completion of a portfolio and/or thesis project. The program prepares
students to begin their careers with entry-level positions in their areas of study, start their personal creative work or continue their studies in a graduate program.

**Emphases and Degree Requirements**

All students pursuing a BFA in theatre, film and television complete a total of at least 78 semester hours for the major: 36 semester hours of foundation courses and 42 semester hours in an emphasis area. Students choose between emphases in film/theatre production and writing/directing; see detailed course requirements below. Each course must be completed with a C/2.0 or better. At least 24 of the major semester hours must be earned at UC Denver. **Students must also follow the College of Arts and Media's general degree requirements.**

**Admission Procedures and Incoming Assessment Criteria for BFA**

The first step for students seeking a BFA is to apply to the university and be accepted under the theatre, film and television bachelor of arts (BA) program. Typically then, after at least three semesters and satisfactory completion of foundation sequence courses in theatre, video/television and film, the qualified student is able to audition/interview during spring semester for admittance into the BFA program the following fall.

**Assessment for admission to the BFA program includes the following:**

- **Grade Point Average** of 2.75 or better.
- **Department Interview.** Each student is interviewed by members of the Theatre, Film and Video Production faculty to ascertain whether the student’s aspirations and expectations are related to those of the BFA program.
- **Diagnostic Exam and Essay.** Students are required to take an objective examination and write an essay on material covered in the foundation sequence courses. This examination is offered during the spring semester.
- **Résumé.** The résumé should include theatre/film/video work experience and education to date.
- **Successful completion of foundation courses** (see below) with a grade of C or better in each course. Students should have at least 24 foundation semester hours completed or in progress at the time of application in spring semester. Note that the BFA foundation courses may also apply toward the Theatre, Film and Television BA degree requirements (for those who end up pursuing the BA instead of the BFA).
- **Development and successful presentation of a portfolio of the student’s work to date.** Faculty will review each student’s classroom, studio and production work.
For further information, including annual spring semester application deadlines, please contact CAMadvising@ucdenver.edu.

Transfer Students

Transfer students are considered on a case-by-case basis. However, a minimum of at least one semester (12 semester hours) “residency” in the BA program is required before students can participate in a spring audition/interview for possible admittance into the BFA program. Students are only admitted to the BFA for fall semester.

Admission Deferment

Students admitted to the BFA program may defer their admission for one year, to the fall semester of the academic year following their original admission to the program. Students must contact the Theatre, Film and Video Department (303-556-6352) to formally request their deferment. If more than one year elapses after a student's semester of admission and that student has not begun BFA emphasis course requirements, full reapplication is required to attempt to pursue the BFA.

Student Handbook

All students in the theatre, film and video production program are required to know and abide by the policies and procedures outlined in the TFVP Student Handbook, available by contacting CAMadvising@ucdenver.edu.

Required Foundation Courses for Both Film/Theatre Production and Writing/Directing Emphases

- **TFVP 1050 - Video Production/Post-Production | Summer 2010 Registration:** TFVP 1050
- **TFVP 1100 - Introduction to Theatre, Film, and Television | Summer 2010 Registration:** TFVP 1100
- **TFVP 1110 - Production Design: Theatre, Film and Video | Summer 2010 Registration:** TFVP 1110
- **TFVP 1550 - Scriptwriting | Summer 2010 Registration:** TFVP 1550
- **TFVP 1611 - Acting Lab | Summer 2010 Registration:** TFVP 1611
- **TFVP 2090 - Production Management Techniques | Summer 2010 Registration:** TFVP 2090
- **TFVP 2100 - Visual Culture | Summer 2010 Registration:** TFVP 2100
- **TFVP 2800 - Elements of Directing | Summer 2010 Registration:** TFVP 2800
- **TFVP 3810 - Introduction to Production Process | Summer 2010 Registration:** TFVP 3810
• TFVP 3820 - Production Process Summer 2010 Registration: TFVP 3820

Select two courses from the following:
• FILM 3070 - History of Silent Film Production Summer 2010 Registration: FILM 3070
• FILM 3080 - History of Sound Film Production Summer 2010 Registration: FILM 3080
• THTR 3610 - Performance: Theory/History/Criticism I Summer 2010 Registration: THTR 3610
• THTR 4610 - Performance: Theory/History/Criticism II Summer 2010 Registration: THTR 4610

Total for Foundation: 36 Hours

Film and Theatre Production Emphasis Courses

Required Courses

• FILM 2050 - Film/Video Prod/Post II Summer 2010 Registration: FILM 2050
• FILM 2060 - Film and Video Lighting and Grip Summer 2010 Registration: FILM 2060
• FILM 2640 - Introduction to Digital Effects Summer 2010 Registration: FILM 2640
• TFVP 3222 - Theatre, Film & Video Business Summer 2010 Registration: TFVP 3222
• TFVP 3550 - Directing Process Summer 2010 Registration: TFVP 3550
• TFVP 4090 - Senior Seminar & Project Summer 2010 Registration: TFVP 4090
• TFVP 4095 - Senior Thesis Project Summer 2010 Registration: TFVP 4095 (pass/fail)
  ____ - Internship (3 semester hours)

Approved Elective Courses

Select 18 semester hours from the following:

• FILM 2500 - Introduction to Screenwriting for Film and Television Summer 2010 Registration: FILM 2500
• FILM 3111 - Shooting Action and Physical Effects Summer 2010 Registration: FILM 3111
• FILM 3264 - Advanced Digital Effects Summer 2010 Registration: FILM 3264
• FILM 3270 - Film/Video Production III Summer 2010 Registration: FILM 3270
• FILM 3275 - Film and Video Postproduction III Summer 2010 Registration: FILM 3275
- FILM 3300 - Advanced Lighting for Film and Video Summer 2010 Registration: FILM 3300
- FILM 3350 - Editing Aesthetics Summer 2010 Registration: FILM 3350
- FILM 3400 - Intermediate Screenwriting Summer 2010 Registration: FILM 3400
- FILM 4270 - Film and Video Production IV Summer 2010 Registration: FILM 4270
- FILM 4280 - Film and Video Postproduction IV Summer 2010 Registration: FILM 4280
- FILM 4350 - Analysis of Contemporary Motion Picture Editing Techniques Summer 2010 Registration: FILM 4350
- FILM 4400 - Advanced Screenwriting Summer 2010 Registration: FILM 4400
- FILM 4500 - Writing for Episodic Television Summer 2010 Registration: FILM 4500
- FILM 4600 - Topics in Film Summer 2010 Registration: FILM 4600
- FILM 4840 - Independent Study: FILM Summer 2010 Registration: FILM 4840
- TFVP 3840 - Applications Seminar Summer 2010 Registration: TFVP 3840
- THTR 2530 - Acting: Character and Staging Summer 2010 Registration: THTR 2530
- THTR 2560 - Topics in Theatre Summer 2010 Registration: THTR 2560
- THTR 2700 - Art for the Theatre Summer 2010 Registration: THTR 2700
- THTR 2840 - Independent Study: THTR Summer 2010 Registration: THTR 2840

• THTR 3760 - Sound Design for the Theater. Summer 2010 Registration: THTR 3760
• THTR 3840 - Independent Study: THTR. Summer 2010 Registration: THTR 3840
• THTR 4530 - Acting: Character and Media. Summer 2010 Registration: THTR 4530
• THTR 4540 - Directing: Staging and Process. Summer 2010 Registration: THTR 4540
• THTR 4550 - Playwriting: The Short Form. Summer 2010 Registration: THTR 4550
• THTR 4560 - Topics in Theatre. Summer 2010 Registration: THTR 4560
• THTR 4730 - Advanced Scenic Design. Summer 2010 Registration: THTR 4730
• THTR 4760 - Topics in Design. Summer 2010 Registration: THTR 4760
• THTR 4840 - Independent Study: THTR. Summer 2010 Registration: THTR 4840

- Upper-division Film Studies Courses from the English Department (maximum of 6 semester hours)
- Audio Production and Postproduction Music Courses Related to Theatre, Film or Video (maximum of 6 semester hours)
Total for Writing/Directing Emphasis: 42 Hours

Non Degree

Theatre, Film and Television Minor

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177.

Students may transfer up to 6 semester hours of non-UC Denver courses toward a minor. All other courses must be taken at UC Denver. Each course must be completed with a C/2.0 or better. Students pursuing a BA or BFA in the Department of Theatre, Film and Video Production may not declare a minor in theatre, film and television. Consult a CAM advisor for further details.

Program Requirements

- TFVP 1050 - Video Production/Post-Production | Summer 2010 Registration: TFVP 1050
- TFVP 1100 - Introduction to Theatre, Film, and Television | Summer 2010 Registration: TFVP 1100

- Theatre, Film and Video Production Electives (12 semester hours) Chosen in consultation with department advisor

Select two courses from the following (in consultation with department advisor):

- FILM 3070 - History of Silent Film Production | Summer 2010 Registration: FILM 3070
- FILM 3080 - History of Sound Film Production | Summer 2010 Registration: FILM 3080
- THTR 3610 - Performance: Theory/History/Criticism I | Summer 2010 Registration: THTR 3610
- THTR 4610 - Performance: Theory/History/Criticism II | Summer 2010 Registration: THTR 4610

Total: 24 Hours
Music and Entertainment Industry Studies

Leslie Soich, MM, University of Colorado
Undergraduate Program

Bachelor of Science in Music

The music program at the University of Colorado Denver is intended for students seeking preparation for professional careers in music related to commercial performance, recording, music business and the entertainment and creative industries. The four-year music program is accredited by the National Association of Schools of Music. There are four emphasis areas available to students: recording arts, music business, performance and music industry studies (MIS).

The specialized curricula offered by the program prepares graduates for sustainable careers in the entertainment and creative industries and the new media section—including positions in recording arts, audio engineering and media forensics, commercial music performance and music business, as well as graduate studies at leading universities and conservatories.

Please note: Acceptance into the UC Denver Department of Music and Entertainment Industry Studies (MEIS) is on a competitive basis with specific entrance evaluation requirements. Admission to the music major is competitive for freshmen, transfer students and minors.

All applicants will be placed in an enrollment pool and admission decisions will be based upon several factors, which include an indexed composite score of GPA, Music Aptitude Exam scores and an audition (if applicable). Application materials must be received by the deadline—no late applications will be considered.

Prospective students should refer to the MEIS Web site for current entrance requirements, deadlines and procedures.

All music applicants, except those entering the music industry studies program, must pass an entrance audition on their primary instrument or voice before being accepted into the College of Arts & Media and the MEIS department. Call 303-556-2279 for information on scheduling an audition.
Students entering the music industry studies program must submit an audition deferment form.

All students in the MEIS department are required to abide by the policies and procedures outlined in the MEIS Student Handbook.

The emphases in recording arts, music business and performance are audition-based programs, requiring an entrance audition on a primary instrument or voice. These students will be expected to demonstrate a high level of musicianship as part of their curricular requirements. All three have an identical 51-semester-hour foundation requirement in musicianship and a separate 22-26 semester hour emphasis area.

Recording Arts

This program studies contemporary analaog and digital technology as it is used in studio recording, sound reinforcement and new media applications. While mastering technology skills and formats, students also study the artistic and aesthetic applications of technology to recording, reinforcement, composition and performance. Due to the immense popularity of the recording arts program and the limited facility space, the recording arts emphasis is a competitive emphasis. Students will be required to apply to the department (known as “applying to the tech focus”) to be eligible to take the intermediate- and advanced-level recording courses. This application includes completion of a series of music courses, transcript review, exam and cumulative GPA.

Music Business

This program prepares musicians for careers in such fields as artist management, music publishing, concert promotion, record production, venue management, label promotion, distribution, entertainment law and the development of skills relative to the rapidly expanding entertainment and creative industries.

Performance

Students gain performance skills in classical, jazz, commercial and experimental music styles. The program includes specialized courses in small performance ensembles, applied study, contemporary improvisation, analysis and history, culminating in the presentation of a junior and senior recital. Students will be required to pass a sophomore proficiency at the end of the sophomore year in order to progress into the advanced performance and musicianship courses.
Music Industry Studies (MIS)

- This non audition-based degree requires a placement audition and passing a basic musicianship proficiency.
- This program is designed for students who may or may not be practicing musicians, but who intend to work behind the scenes after graduation, whether on the tech side, the business side or both.
- MIS requires credits in musicianship and performance as part of the curriculum.
- All MIS students, regardless of emphasis or previous musical experience, will be required to complete the musicianship and performance requirements. For students with no musical experience, these requirements will begin at the introductory level.
- For students interested in pursuing MIS/Tech focus, this emphasis is competitive*, due to the immense popularity of the MIS/Tech program and the limited facility space. Students will be required to apply to the department (known as “applying to the Tech emphasis”) to be eligible to take the intermediate and advanced level recording courses. This application includes completion of a series of music courses, an essay, exam and cumulative GPA.

### Primary Differences Between Recording Arts/Music Business and MIS/Tech or MIS Business Focus

**Recording Arts/Music Business**

- Recording arts and music business are audition-based degrees, requiring an entrance audition and a focused level of musicianship and performance as part of the curriculum.
- Recording arts and music business focuses are designed for students who intend to be practicing musicians after graduation, with a very strong knowledge of the tech or business side of the industry.
- Recording arts and music business students are required to complete more musicianship and performance-area credits than MIS/tech or MIS/business students.

**Music Industry Studies/Tech and MIS/Business**

- MIS/tech and MIS/business focuses are non audition-based degrees and therefore do not require an entrance audition, but a placement audition will be required.
- MIS/tech and MIS/business focuses are designed for students who may or may not be musicians when they enter, but who don’t intend to be practicing musicians after graduation. Rather, they intend to focus solely on the tech or business side. These students are more interested in working behind the scenes.
- MIS/tech and MIS/business students will not be required to
They will not be required to complete as many tech- or business-based electives as MIS/tech or MIS/business students (but can choose additional tech or business electives).

complete as many musicianship and performance-area credits as recording arts or music business students. They will be required to complete more tech- or business-based electives than recording arts or music business students.

Students are encouraged to consult a faculty member or CAM advisor to talk about the differences in curriculum to determine which major is best suited to them.

Competitive Emphases

Recording arts and/or MIS/tech students entering the College of Arts & Media will be required to complete or be completing the following courses before applying to the tech focus:

- **MUSC 2470**
- **MUSC 2540**
- **MUSC 2560**
- **MUSC 2700**
- **PMUS 1023 1024 Piano Class (two semesters)**
  (Piano placement is available)
- **PMUS 1100**
- **PMUS 1110**
- **PMUS 3830 or PMUS 3831**

These courses also satisfy the requirements for the music industry studies minor. Students who have completed the above named courses, but who are denied acceptance to the recording arts or MIS/tech emphasis, will automatically be eligible for the MIS minor if they choose to pursue a major outside of the MEIS department.

*Please note that satisfactory completion of the above named courses will not automatically guarantee a student’s acceptance into the recording arts or MIS/tech focus.*

Students interested in the tech focus will need to submit an application form, and this application will include the above named courses, unofficial transcripts from all previous institutions attended. Students must also take an exam covering material in audio production—test dates are announced at the beginning of the spring semester. Further, the student’s cumulative GPA from all institutions will be part of the evaluation criteria. Complete information on applying to the tech focus is available online: [http://cam.ucdenver.edu/meis](http://cam.ucdenver.edu/meis).
Graduate Programs

CAM offers two master of science degree programs:

Master of Science in Recording Arts (MSRA)

Master of Science in Recording Arts, Media Forensics Emphasis (MSRA-MF)

Program Overview

Recording arts is a field that deals with all aspects of recorded music and sound including mixing, mastering, sequencing, calibration, reinforcement, media forensics and post-production. Our program refines student skills in sound recording, aesthetics, multitrack recording, digital signal processing, automated mixing, synchronization, stereo imaging and monitoring, media forensics and post-production.

In addition, our program recognizes and includes:

Study in the rapidly growing field of audio forensics, which is audio for the legal field. The program includes study in tape authentication, audio enhancement, voice prints, analysis and witness testimony.

The need for pedagogy degrees. Pedagogy is synonymous with teaching, and this program includes a survey of available resources for audio education. We offer an interdisciplinary approach by including physics, acoustics, engineering, music, broadcast, medicine, psychology, multimedia, theatre and film/video. The program emphasizes design and development of new methods and materials.

UC Denver’s master of science in recording arts (MSRA) has the only pedagogy track in the nation, as well as the only college-level course in audio forensics. This graduate degree is designed to:

- prepare students for careers in audio application for the fields of mass communications, education, arts and the entertainment industries.
- help professionals advance their careers.
- help prepare the music educators of the future.

Students may choose between a thesis (research) or nonthesis (portfolio) option.

Graduate courses constituting the core of this study will advance the artistic, pedagogical, technical and problem-solving abilities of the enrolled students. Elective courses will allow each student to develop additional skills and knowledge in related areas including film, broadcasting, education, music business and the performing arts.

We encourage students from allied disciplines (music, physics, engineering, etc.) to apply. Students are not required to have their bachelor’s in recording arts—the student’s
bachelor’s degree can be from any discipline. They can qualify for the MSRA by having the equivalent level preparation (e.g., work experience). Candidates without sufficient experience/training in recording arts may be required to take preparatory courses at the undergraduate level.

Note: the application process, requirements and deadlines for the Master of Science in Recording Arts emphasis in Media Forensics (MSRA-MF) will differ from those listed for the traditional MSRA program. Please refer to the National Center for Media Forensics Web site for up-to-date information regarding application process, requirements and deadlines.

Application Components

See the Recording Arts MS page of this catalog for further information. For detailed information, please refer to the MSRA Web site at www.cam.ucdenver.edu/meis > Master of Science

1. Graduate Admissions Application - Parts I and II
2. In-State Tuition Classification Application (if applicable)
3. Entrance Examinations: GRE (TOEFL, if applicable)
4. Official Transcripts
5. Three Letters of Recommendations
6. Application Essay
7. Resume
8. Portfolio
9. Application Fee

Applications that do not include all of the requirements listed above or that include partial components are considered incomplete and will not be reviewed.

Bachelor of Science in Music

Music BS

CAM General Course Requirements

General Music Information

Undergraduate Degree Requirements

The BS in music has a competitive application process. Please refer to the MEIS Web site at http://cam.ucdenver.edu/meis for additional guidelines and information. To be
eligible for an audition-based BS in music, students must complete 54 semester hours of music foundation courses and then select one of the three emphasis areas: recording arts, music business or performance. Students must pass a music audition as part of the application process and pass varying levels of performance proficiency as part of their curricula. Students must complete all major courses with a C/2.0 or higher.

Music Foundation Courses

- MUSC 2470 - Music Applications on the Computer Summer 2010 Registration: MUS 2470
- MUSC 2540 - Audio Production I Summer 2010 Registration: MUS 2540
- MUSC 2700 - Introduction to Music Business Summer 2010 Registration: MUS 2700
- MUSC 3210 - Music and Entertainment Marketing Summer 2010 Registration: MUS 3210
  or
- MUSC 3220 - Artist Management Summer 2010 Registration: MUS 3220
- PMUS 1023 - Piano Class I Summer 2010 Registration: PMUS 1023 Level I
- PMUS 1024 - Piano Class II Summer 2010 Registration: PMUS 1024
- PMUS 1025 - Piano Class III Summer 2010 Registration: PMUS 1025
- PMUS 1026 - Piano Class IV Summer 2010 Registration: PMUS 1026
- PMUS 1100 - Music Theory I Summer 2010 Registration: PMUS 1100

**Music Industry Studies Emphasis—BS in Music**

**CAM General Course Requirements**

**General Music Information**

**Undergraduate Degree Requirements**

The music program has a competitive entrance process. Please refer to the CAM Web site for details and information. To be eligible for a BS in music, emphasis in music industry studies (MIS), students must complete the 14 semester hours of music performance courses, 20 semester hours of musicianship courses, 13 semester hours of music industry studies core courses and 26 semester hours of music business or music technology courses. While no audition is required as part of the application process, students are required to complete performance and musicianship courses. Students must pass their major courses with a C (2.0) or better.

**Music Performance, Musicianship and MIS Core Courses**

- MUSC 2300 - Introduction to Songwriting  
  *Summer 2010 Registration:* MUS 2300
- MUSC 2470 - Music Applications on the Computer  
  *Summer 2010 Registration:* MUS 2470
- MUSC 2540 - Audio Production I  
  *Summer 2010 Registration:* MUS 2540
• MUSC 2560 - Audio Production II  Summer 2010 Registration:  MUS 2560
• MUSC 2700 - Introduction to Music Business  Summer 2010 Registration:  MUS 2700
• PMUS 1023 - Piano Class I  Summer 2010 Registration:  PMUS 1023 Level I
• PMUS 1024 - Piano Class II  Summer 2010 Registration:  PMUS 1024
• PMUS 1025 - Piano Class III  Summer 2010 Registration:  PMUS 1025
  or
• PMUS 1040 - Class Guitar  Summer 2010 Registration:  PMUS 1040
  or
• PMUS 1050 - Voice Class I  Summer 2010 Registration:  PMUS 1050
• PMUS 1026 - Piano Class IV  Summer 2010 Registration:  PMUS 1026
  or
• PMUS 1041 - Class Guitar II  Summer 2010 Registration:  PMUS 1041
  or
• PMUS 1060 - Voice Class II  Summer 2010 Registration:  PMUS 1060
• PMUS 1100 - Music Theory I  Summer 2010 Registration:  PMUS 1100
• PMUS 1110 - Ear Training and Sight Singing I  Summer 2010 Registration:  PMUS 1110
• PMUS 1200 - Music Theory II  Summer 2010 Registration:  PMUS 1200
• PMUS 1210 - Ear Training and Sight Singing II  Summer 2010 Registration:  PMUS 1210
• PMUS 1310 - Sight Reading and Improvisation  Summer 2010 Registration:  PMUS 1310
• PMUS 1500 - General Recital  Summer 2010 Registration:  PMUS 1500
  PMUS 1500 - General Recital
  PMUS 1801 through PMUS 1823 MIS Applied Lessons (23 instruments)
  PMUS 1410 through PMUS 4430 (15 ensembles)
• PMUS 2200 - Contemporary Styles  Summer 2010 Registration:  PMUS 2200
  or
• MUSC 2220 - Commercial Electronic Music Composition  Summer 2010 Registration:  MUS 2220
  or
• MUSC 3310 - Songwriting II  Summer 2010 Registration:  MUS 3310
• PMUS 3830 - History and Literature of Music I  Summer 2010 Registration:  PMUS 3830
• PMUS 3831 - History and Literature of Music II  Summer 2010 Registration:  PMUS 3831
  ________ - Electives in Performance (2 semester hours)

Total: 50 Hours
Students select either music business or music technology and complete all listed courses and elective credits.

**Music Business Focus Courses**

- MUSC 3720 - Law and the Music Industry  *Summer 2010 Registration: MUS 3720*
- MUSC 4740 - Music Business Analysis  *Summer 2010 Registration: MUS 4740*

**Total: 26 Hours**

**Music Technology Focus Courses**

Students must be accepted into the MIS/tech focus before being able to take any of the upper-division courses in this area. Please consult CAM advisor for more details.

- MUSC 3540 - Recording Studio Maintenance and Calibration  *Summer 2010 Registration: MUS 3540*
- MUSC 3550 - Critical Listening for Recording Arts  *Summer 2010 Registration: MUS 3550*
- MUSC 4505 - Audio Post Production I  *Summer 2010 Registration: MUS 4505*
- MUSC 4575 - Surround Sound  *Summer 2010 Registration: MUS 4575*
- MUSC 4550 - Audio Production III  *Summer 2010 Registration: MUS 4550*
- MUSC 4580 - Audio Production Seminar  *Summer 2010 Registration: MUS 4580*
  (Junior Project)
- MUSC 4580 - Audio Production Seminar  (Senior Project)
- PHYS 3620 - Sound and Music  *Summer 2010 Registration: PHYS 3620*

**Total: 26 Hours**

**Non Degree**

**General Musicianship Minor**

See the beginning of the Music and Entertainment Industry Studies section in this catalog for specific admission information to the UC Denver Department of Music and Entertainment Industry (MEIS). This competitive process is also for students interested in either music minor.
To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177. All courses must be taken at UC Denver unless approved by an MEIS faculty member. All other courses must be taken at UC Denver. Students pursuing a BS in music may not declare a minor in music. Consult a CAM advisor for details. All minor courses must be passed with a C (2.0) or better.

Students must successfully audition before declaring a general musicianship minor.

Program Requirements

- PMUS 1100 - Music Theory I  
  *Summer 2010 Registration: PMUS 1100*
- PMUS 1110 - Ear Training and Sight Singing I  
  *Summer 2010 Registration: PMUS 1110*
- PMUS 1200 - Music Theory II  
  *Summer 2010 Registration: PMUS 1200*
- PMUS 1210 - Ear Training and Sight Singing II  
  *Summer 2010 Registration: PMUS 1210*
- PMUS 3830 - History and Literature of Music I  
  *Summer 2010 Registration: PMUS 3830*
- PMUS 3831 - History and Literature of Music II  
  *Summer 2010 Registration: PMUS 3831*
- PMUS 1502 through PMUS 1762 Applied Music (2 semester hours) (24 instruments)
- PMUS 1500 - General Recital  
  *Summer 2010 Registration: PMUS 1500*
  PMUS 1500 - General Recital
  PMUS 1410 through PMUS 4430 Ensembles. Students must take a minimum of 2 ensembles.
- PMUS 1023 - Piano Class I  
  *Summer 2010 Registration: PMUS 1023*
  PMUS 1023 Piano Class I, PMUS 1024 Piano Class II, PMUS 1025 Piano Class III and/or PMUS 1026 Piano Class IV. Students must complete 2 semesters of Piano. Piano placement is available - consult a CAM advisor.
  P/MUS ____ - Music Elective (1 semester hour)

Total: 23 Hours

Music Industry Studies Minor

See the beginning of the Music and Entertainment Industry Studies section in this catalog for specific admission information to the UC Denver Department of Music and Entertainment Industry (MEIS). This competitive process is also for students interested in either music minor.

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177. All courses must be taken at UC Denver unless approved by an MEIS faculty member. All other courses must be taken at UC Denver.
Denver. Students pursuing a BS in Music may not declare a minor in Music. Consult a CAM advisor for details. All minor courses must be passed with a C (2.0) or better.

**Program Requirements**

- **MUSC 2450 - Introduction to Performing Arts and Events Management** *Summer 2010 Registration: MUS 2450*
- **MUSC 2470 - Music Applications on the Computer** *Summer 2010 Registration: MUS 2470*
- **MUSC 2700 - Introduction to Music Business** *Summer 2010 Registration: MUS 2700*

- **PMUS 1110 - Ear Training and Sight Singing I** *Summer 2010 Registration: PMUS 1110*
- **PMUS 3830 - History and Literature of Music I** *Summer 2010 Registration: PMUS 3830* or
- **PMUS 3831 - History and Literature of Music II** *Summer 2010 Registration: PMUS 3831*

**Total: 21-22 Hours**

* Must be MUSC 2560, Audio Production II (4 semester hours), if student plans to apply for the MIS/tech or recording arts emphasis as a music major.

**Master of Science**

**Media Forensics Emphasis, Recording Arts MS**

► Graduate School Rules apply to this program

**Program Overview**
This unique degree program prepares students from various backgrounds for work in the field of forensic audio and video analysis utilizing the state-of-the-art methods and technology necessary to fight crime in the digital age. Housed within the National Center for Media Forensics (NCMF), this program is unique in that it represents the only graduate level education in audio and video forensics in the country.

Students from all disciplines (media production, electrical engineering, general forensics, etc.) are encouraged to apply, as this program enhances scientific inquiry while guiding students through a three-semester cohort curriculum. Classes feature faculty from around the country and emerging avenues of exploration and related legal topics needed in report preparation for expert witness testimony. Digital media evidence acquisition through computer forensics applications will be emphasized in an environment that fosters creativity and individual skills. The capstone of this program will be a research thesis of the student’s choosing under the advisement of the director and associate director of the center as well as an advisory board of forensic professionals from around the world. The thesis will be a topic of exploration throughout the program and will serve to enhance a graduate’s specialty as they enter the work force in private forensic practice, corporate research and development, academic research and teaching, or crime labs on the local, state or federal levels.

Note: the application process, requirements and deadlines for the master of science in recording arts emphasis in media forensics will differ from those listed for the traditional MSRA program. Please refer to the National Center for Media Forensics Web site for up-to-date information regarding application process, requirements and deadlines.

Curriculum

The master of science in recording arts emphasis in media forensics comprises 34 semester hours of credit: 30 hours are required courses and 4 hours are thesis. Courses must be completed with a B/3.0 or higher to count toward degree progress. Students are admitted to the program in the fall as a cohort and must follow the curriculum in sequence. Students who do not complete the program in sequence must reapply.

Curriculum and application requirements for the MSRA-MF program are under development and subject to change. Please refer to the National Center for Media Forensics Web site for up-to-date information regarding curriculum and application requirements for the emphasis in media forensics.

Recording Arts MS

► Graduate School Rules apply to this program
Master of Science in Recording Arts (MSRA)

Program Overview

Recording Arts is a field that deals with all aspects of recorded music and sound including mixing, mastering, sequencing, calibration, reinforcement, media forensics and post-production. Our program refines student skills in sound recording, aesthetics, multitrack recording, digital signal processing, automated mixing, synchronization, stereo imaging and monitoring, media forensics and post-production.

In addition, our program recognizes and includes:

**Study in the rapidly growing field of media forensics**, which is audio and video for the legal field. The program includes study in tape authentication, audio and video enhancement, voice prints, analysis and witness testimony. See section below for MSRA emphasis in media forensics (MSRA-MF) program information.

**The need for pedagogy degrees.** Pedagogy is synonymous with teaching, and this program includes a survey of available resources for audio education. We offer an interdisciplinary approach by including physics, acoustics, engineering, music, broadcast, medicine, psychology, multimedia, theatre and film/video. The program emphasizes design and development of new methods and materials.

UC Denver's Master of Science in Recording Arts (MSRA) has the only pedagogy track in the nation, as well as the only college-level course in audio forensics. This graduate degree is designed to:

- prepare students for careers in audio application for the fields of mass communications, education, arts and the entertainment industries
- help professionals advance their careers
- help prepare the music educators of the future

Students may choose between a thesis (research) or non-thesis (portfolio) option.

Graduate courses constituting the core of this study will advance the artistic, pedagogical, technical and problem-solving abilities of the enrolled students. Elective courses will allow each student to develop an additional skills and knowledge in related areas including film, broadcasting, education, music business and the performing arts.

We encourage students from allied disciplines (music, physics, engineering, etc.) to apply. Students are not required to have their bachelor’s in recording arts—the student’s bachelor’s degree can be from any discipline. They can qualify for the MSRA by having the equivalent level preparation (e.g., work experience). Candidates without sufficient experience/training in recording arts may be required to take preparatory courses at the undergraduate level.
Emphasis in Media Forensics

Students can also earn a master of science in recording arts with an emphasis in media forensics. See the media forensics program page for specific requirements, as they differ from the general MSRA degree.

Application Components

The following is required of all students applying to the MSRA program, with the exception of International students. International students should consult the Office of International Affairs for specific information on application and admission requirements. Contact the Office of International Affairs for specific application forms, www.internationaladmissions.ucdenver.edu.

1. Graduate Admissions Application—Parts I and II

   Students may request an application packet by calling 303-556-2279. Please be sure to provide your mailing address.

   Students are required to complete the application for graduate admissions form.

   Program of study—on the application, the code for all Master of Science in Recording Arts candidates is GR-RAMS. The degree is MS.

   International students must complete additional paperwork in addition to the components below. International student applications must be received six months prior to the term for which the student is applying. Contact the Office of International Affairs for specific application forms, www.internationaladmissions.ucdenver.edu.

2. In-State Tuition Classification Application

   Students who feel they may qualify for Colorado in-state tuition (i.e., residency) should fill out the in-state tuition form. The Office of Admissions will make the determination of residency. For information on residency criteria contact the Office of Admissions, 303-556-2704 or admissions@ucdenver.edu.

3. Entrance Examinations(s)

   Official GRE scores (www.gre.com)—All applicants to the MSRA degree program must submit scores from the GRE. The “General Test” offered by Educational Testing Service will assist in evaluating applicants to the degree program. It evaluates verbal, quantitative and analytical writing skills for the candidates. This examination is offered internationally by Educational Testing Service on a continuous schedule. The minimum required score for entrance in the program is the 50th percentile, although each student’s score will be evaluated as part of
complete application process. This examination is not intended to exclude any applicant from the degree program, but rather to assist in academic advising.

Scores must be received by the application deadline; therefore, students should plan accordingly when scheduling their testing dates. Late GRE scores are not accepted, and these applications will not be reviewed.

**Test of English as a Foreign Language (TOEFL)** ([www.ets.org/toefl](http://www.ets.org/toefl))—This examination is required for international students for whom English is not their primary language. These students are required to have a minimum TOEFL score of 500 (173 electronic).

4. **Transcripts**
   The most recent official academic transcripts must be sent from the registrar of all previous institutions. Official transcripts should be mailed to:

   MSRA Graduate Admissions Committee  
   Campus Box 162, P.O. Box 173364  
   Denver, CO 80217-3364

5. **Letters of Recommendation**
   Three (3) letters of recommendation are required from responsible persons who can attest to your academic and professional accomplishment. The names those who are providing your letters of recommended should be included in your Part II of the application.

   Letters of recommendation must be accompanied by the letter of recommendation form, available on the MSRA Web site.

   Incomplete letters of recommendation will not be considered, and the application will not be reviewed.

6. **Application Essay**
   This essay should summarize the educational and professional history of the applicant relative to a career in the audio/music industry, and should include:

   - complete name and contact information
   - educational background
   - career objective
   - anticipated dates of attendance

   The essay must be typed, double-spaced and in English; the preferred length is three to five pages.

7. **Resume**
   Students are required to submit a one- to two-page typed resume, including educational background, work experience and relevant skills. Students are
welcome to include any published works, exhibitions, performances, awards or other relevant achievements. The resume should be chronological, beginning with your educational background and progressing to your employment history. Please refrain from functional resumes or those that simply summarize qualities or competencies. This professional vita complements the essay you will author by providing a chronology of all your educational and work experiences and of scholarly/creative work.

8. **Portfolio**

All applicants will submit a portfolio of recordings that represent their best accomplishments in audio production. Presentation, breadth of experience, technical and artistic quality will be evaluated.

The required submission format is Compact Disc (CD) or Digital Video Disc (DVD), with an annotated discography (index) to the portfolio material and a clear and accurate labeling of all material. Discography must include the applicant’s function on each track (e.g. artist/performer, engineer, producer, arranger, etc.).

A DVD portfolio may be submitted if the student’s primary experience is in visual media (film, TV, etc.). DVD portfolios must also contain an annotated discography.

Helpful tips for a good portfolio are available on the MSRA Web site. Portfolio submissions that do not follow these guidelines will not be evaluated, and the application will not be processed.

9. **Application Fee**

- $50 nonrefundable for domestic (within the USA) applicants
- $75 nonrefundable for international applicants

The application fee must be paid with a check, money order or by credit card. Cash will not be accepted. The fee must be paid in U.S. dollars.

Applications that do not include all of the requirements listed above or that include partial components are considered incomplete and will not be reviewed.

**Required Courses**

- **MSRA 5000 - Introduction to Graduate Studies**  *Summer 2010 Registration: MSRA 5000*
- **MSRA 5580 - Graduate Audio Seminar**  *Summer 2010 Registration: MSRA 5580*
- **MSRA 5590 - Graduate Audio Production**  *Summer 2010 Registration: MSRA 5590*
- MSRA 6510 - Graduate Audio Studies Pedagogy Summer 2010 Registration: MSRA 6510
- MSRA 6950 - Thesis in Professional Audio Summer 2010 Registration: MSRA 6950
- MSRA 6951 - Professional Audio Portfolio Thesis Summer 2010 Registration: MSRA 6951

Total: 18 Hours

Electives

Students may take courses not listed here, per approval of the faculty or academic advisor.

- MSRA 5500 - Topics in Professional Audio Summer 2010 Registration: MSRA 5500 (fall and spring)
- MSRA 5505 - Audio Post Production I Summer 2010 Registration: MSRA 5505 (fall and spring)
- MSRA 5575 - Graduate Surround Sound Summer 2010 Registration: MSRA 5575 (fall and spring)
- MSRA 6530 - Graduate Audio Forensics Summer 2010 Registration: MSRA 6530 (spring only)
  or other courses as approved by MSRA advisor or program director.

Total: 34 Hours

Students may take courses not listed here, per approval of the faculty or academic advisor. Below is the suggested semester-by-semester sequencing of courses and semester hours.

Fall

- MSRA 5000 - Introduction to Graduate Studies Summer 2010 Registration: MSRA 5000
- MSRA 5590 - Graduate Audio Production Summer 2010 Registration: MSRA 5590
  Topics course (1 semester hour)
  Two MSRA electives (8 semester hours)
Total: 16 Hours

Spring

- **MSRA 5580** - Graduate Audio Seminar  
  *Summer 2010 Registration: MSRA 5580*
- **MSRA 6510** - Graduate Audio Studies Pedagogy  
  *Summer 2010 Registration: MSRA 6510*
  MSRA elective (4 semester hours)
  Topics courses (3 semester hours)

Total: 14 Hours

Summer

- **MSRA 6950** - Thesis in Professional Audio  
  *Summer 2010 Registration: MSRA 6950 or MSRA 6951*
- **MSRA 6951** - Professional Audio Portfolio Thesis  
  *Summer 2010 Registration: MSRA 6951*

Total: 4 Hours

Program Total: 34 Hours

The above progression is merely suggested and shows the quickest possible schedule for graduation (three semesters). Students may elect to enroll for less than the suggested semester hour total, and/or enroll in additional semesters as needed. Students can apply for graduation in any semester (fall, spring or summer) provided they have completed the required course work. All course work must be completed with a satisfactory grade of “B” (3.0) or higher. Students should not register for thesis/portfolio, unless approved by the faculty advisor.

Please refer to the master of science in recording arts Web site for additional information: [http://cam.ucdenver.edu/meis/recordingarts.htm](http://cam.ucdenver.edu/meis/recordingarts.htm).

Visual Arts

Office: CU-Denver Building, 815D  
Telephone: 303-556-2781

Faculty

Associate Professors:

Joann Brennan, MFA, Massachusetts College of Art  
Mary Connelly, MFA, Indiana University  
Brian DeLevie, MFA, University of Houston  
Lanny F. DeVuono, MFA, Mills College  
Carol Golemboski, MFA, Virginia Commonwealth University  
Quintin Gonzalez, MFA, Yale University  
Rian Kerrane, MFA, University of New Orleans

Assistant Professors:

Melissa Furness, MFA, University of Iowa  
Bryan Leister, MFA, George Mason University  
Jeffrey Schrader, PhD, New York University, MA, Oberlin College

Senior Instructors:

Michael Brohman, MA, UC Denver  
Vivian George, MFA, Yale University

Department Overview

The Department of Visual Arts offers professional instruction in eight interrelated areas of study: art history, digital design, drawing, painting, photography, sculpture, transmedia and 3D graphics and animation. The Department of Visual Arts provides a vital educational environment where future artists and art historians explore the horizons of their own talent in the midst of critical dialogue, rigorous artmaking and multiple media. Art, art history, design and animation majors will take programs focused on the acquisition of skills specific to their chosen profession within the context of the rich academic offerings of the entire university. Each student’s scholarly and creative work will be infused with innovative technology, contemporary theory and professionalism. Education in the visual arts encompasses a comprehensive knowledge of and direct experience with the various media of digital design, drawing, painting, photography and sculpture. Supporting this enterprise is the development of an understanding of art and media theory, knowledge of methods and materials used in making art and design, and an appreciation for diverse approaches to visual culture, both contemporary and historical. Central to the practice of art history are critical writing and analysis.
Graduating seniors receiving the BFA degree are required to participate in the BFA thesis exhibition during their last semester of study. These exhibitions are scheduled in the fall and spring terms only.

Fine Arts BA — Art History

All students pursuing a BA in fine arts with an emphasis in art history must complete the 12 semester hours of visual arts foundation courses, the 18 semester hours of required art history emphasis courses and 15 semester hours of upper-division art history electives.

General Requirements

- All major courses within the major must be completed with a C (2.0) or better.
- All upper-division visual arts courses must be taken at UC Denver unless approved otherwise by visual arts faculty.
- 21 semester hours of all visual arts credits (at any level) must be taken at UC Denver.
- 18 semester hours of total visual arts courses must be upper-division.

Students must also follow the College of Arts and Media's general degree requirements.

Visual Arts Foundation Courses

- FINE 1100 - Drawing I Summer 2010 Registration: F A 1100
- FINE 1150 - Introduction to Photography Summer 2010 Registration: F A 1150
- FINE 1400 - Two Dimensional Design Summer 2010 Registration: F A 1400

or

- FINE 2155 - Introduction to Digital Photography Summer 2010 Registration: F A 2155

Total: 12 Hours

Art History Required Emphasis Courses

- FINE 2600 - History of Art I (Survey) Summer 2010 Registration: F A 2600
- FINE 2610 - History of Art II (Survey) Summer 2010 Registration: F A 2610
- FINE 3600 - Art History Survey III: Non-Western Art Summer 2010 Registration: F A 3600
- FINE 4790 - Methods in Art History Summer 2010 Registration: F A 4790
- FINE 4951 - Bachelor of Art Thesis Summer 2010 Registration: F A 4951

Nonwestern Cultural Experience (select one of the six options listed below*)
Total: 18 Hours

*Nonwestern Cultural Experience Options:*

1. Study abroad course that focuses on the art history or the language of host culture (consult art history faculty).
2. Any upper-division art history course in African, Latin American, Asian or African-American art. This cannot be used to fulfill any other degree requirement.
3. Third-semester study of a foreign language (consult the Department of Modern Languages if placement is needed).
4. Visual arts internship for credit in the College of Arts and Media. Project must focus on cultures outside of mainstream United States; e.g., Native American, Latin American, women studies, gay/lesbian studies, etc. Consult art history faculty.
5. FINE 4840 - Independent Study: FINE. Project/research must focus on cultures outside of mainstream United States; e.g., Native American, Latin American, women studies, gay/lesbian studies, etc. Consult art history faculty.
6. Cultural course: CNST 1000 - China and the Chinese or FREN 1000 - Introduction to Cultures of the French-Speaking World or GRMN 1000 - Germany and the Germans or SPAN 1000 - Introduction to Cultures of the Spanish Speaking World

**Upper-Division Art History Electives**

Students must complete five upper-division (3000/4000 level) art history courses. (Contact an advisor in the College of Arts and Media at CAMadvising@ucdenver.edu for a complete list.)

Total: 15 Hours

**Bachelor of Arts in Fine Arts**

**Fine Arts BA — Drawing, Painting, Photography, Sculpture**

All students pursuing a BA in studio fine arts must complete 27 semester hours of visual arts courses and also select a emphasis area, consisting of 21 additional semester hours. Students interested in pursuing a double emphases (e.g., emphases in drawing
and painting) are encouraged to consult a College of Arts and Media advisor to discuss required courses.

**General Requirements**

- All major courses in the major must be completed with a C (2.0) or better.
- All upper-division visual arts courses must be taken at UC Denver unless approved otherwise by visual arts faculty.
- 21 semester hours of visual arts credits (at any level) must be taken at UC Denver.
- 18 semester hours of total visual arts courses must be upper-division.

**Students must also follow the College of Arts and Media’s general degree requirements.**

**Required Visual Arts Courses**

To be completed by all BA-seeking students:

- **FINE 1015 - Interdisciplinary Foundations** Summer 2010 Registration: F A 1015
- **FINE 1100 - Drawing I** Summer 2010 Registration: F A 1100
- **FINE 1400 - Two Dimensional Design** Summer 2010 Registration: F A 1400
- **FINE 1500 - Three-Dimensional Design** Summer 2010 Registration: F A 1500
- **FINE 2015 - Intermedia Foundations** Summer 2010 Registration: F A 2015
- **FINE 2600 - History of Art I (Survey)** Summer 2010 Registration: F A 2600
- **FINE 2610 - History of Art II (Survey)** Summer 2010 Registration: F A 2610
- **FINE 4990 - Contemporary Art - 1945 To the Present** Summer 2010 Registration: F A 4990
- **FINE 4800 - Senior Art Seminar** Summer 2010 Registration: F A 4800

**Total: 27 Hours**

**Drawing Emphasis Courses**

- **FINE 2000 - Life Drawing** Summer 2010 Registration: F A 2000
- **FINE 3000 - Intermediate Drawing** Summer 2010 Registration: F A 3000

- **FINE 3310 - Drawing and the Printed Image** Summer 2010 Registration: F A 3310
  or
- **FINE 4020 - Anatomy for the Artist** Summer 2010 Registration: F A 4020

- **FINE 4000 - Advanced Drawing I** Summer 2010 Registration: F A 4000
  _____ - Upper-division Art History Elective (3 semester hours)
Visual Arts Electives (6 semester hours) May include studio, lecture, internship or art history

Total: 21 Hours

Painting Emphasis Courses

- FINE 2200 - Painting I Summer 2010 Registration: F A 2200
- FINE 2210 - Painting II: Figure Painting Summer 2010 Registration: F A 2210
- FINE 3200 - Intermediate Painting I Summer 2010 Registration: F A 3200
- FINE 3210 - Intermediate Painting II Summer 2010 Registration: F A 3210
- FINE 4200 - Advanced Painting I Summer 2010 Registration: F A 4200

Upper-division Art History Elective (3 semester hours)

Total: 21 Hours

Photography Emphasis Courses

- FINE 1150 - Introduction to Photography Summer 2010 Registration: F A 1150
- FINE 2155 - Introduction to Digital Photography Summer 2010 Registration: F A 2155
- FINE 3160 - Color and Studio Lighting Summer 2010 Registration: F A 3160
- FINE 3161 - The Silver Fine Print Summer 2010 Registration: F A 3161
  Note: must be completed before 3171
- FINE 3162 - The Digital Fine Print Summer 2010 Registration: F A 3162
- FINE 3171 - Concepts and Processes in Photography Summer 2010 Registration: F A 3171
- FINE 3630 - History of Photography Summer 2010 Registration: F A 3630

Total: 21 Hours

Sculpture Emphasis Courses

- FINE 2500 - Bronze Casting and Metal Sculpture Summer 2010 Registration: F A 2500
- FINE 3500 - Modeling and Casting the Figure Summer 2010 Registration: F A 3500
- FINE 3510 - Installation Art Summer 2010 Registration: F A 3510
- FINE 4500 - Kinetic Sculpture Summer 2010 Registration: F A 4500

Upper-division Art History Elective (3 semester hours)
Visual Arts Electives (6 semester hours) *May include studio, lecture, internship or art history*

Total: 21 Hours

Bachelor of Fine Arts in Fine Arts

Fine Arts BFA — 3D Graphics and Animation, Digital Design, Drawing, Painting, Photography, Sculpture, Transmedia

All students pursuing a BFA in fine arts must complete 28 semester hours of visual arts courses and also select an emphasis area, consisting of 54 additional semester hours. Students interested in pursuing a double emphases (e.g., emphases in drawing and painting) are encouraged to consult a College of Arts & Media advisor to discuss required courses.

General Requirements

- All major courses within the major must be completed with a C (2.0) or better.
- All upper-division visual arts courses must be taken at UC Denver unless approved otherwise by visual arts faculty.
- 27 semester hours of visual arts credits (at any level) must be taken at UC Denver.
- 25 semester hours of total visual arts courses must be upper-division.

Students must also follow the College of Arts and Media’s general degree requirements.

Required Visual Arts Courses

To be completed by all BFA-seeking students:

- **FINE 1015 - Interdisciplinary Foundations** Summer 2010 Registration: F A 1015
- **FINE 1100 - Drawing I** Summer 2010 Registration: F A 1100
- **FINE 1400 - Two Dimensional Design** Summer 2010 Registration: F A 1400
- **FINE 1500 - Three-Dimensional Design** Summer 2010 Registration: F A 1500
- **FINE 2015 - Intermedia Foundations** Summer 2010 Registration: F A 2015
- **FINE 2600 - History of Art I (Survey)** Summer 2010 Registration: F A 2600
- **FINE 2610 - History of Art II (Survey)** Summer 2010 Registration: F A 2610
- **FINE 3600 - Art History Survey III: Non-Western Art** Summer 2010 Registration: F A 3600
3D Graphics and Animation Emphasis Courses

The digital animation center (DAC) program at the University of Colorado Denver is a competitive and rigorous four-year curriculum focused on preparing students to work in a wide variety of fields that use animated digital computer graphics (CG), including entertainment, film and television, gaming, medicine and science. Tuition rates in the 13 DAC classes are set higher than most undergraduate UC Denver courses due to the nature of the equipment, computing and software requirements of the program. At the time of this publication, tuition for FINE 1810 and FINE 1820 is $1533.00 per course. Tuition for the other eleven courses is $4050.00 per course. Students should refer to the course information listed on the University of Colorado Denver Web site for any changes in the current tuition rate for all DAC courses.

In order to maintain the highest standards of excellence for the UC Denver DAC, acceptance into the DAC core cadre comes at the end of the first year and is competitive by portfolio review. To be considered, students are required to take the first two courses in the DAC curriculum, FINE 1810 and FINE 1820. These two courses are open to all College of Arts & Media and UC Denver students with permission of the DAC. Students wishing to enroll in the DAC’s entry level courses must contact DAC faculty member Howard Cook at howard.cook@ucdenver.edu or the College of Arts & Media Advising office at CAMadvising@ucdenver.edu to be able to register.

DAC Entry Courses (open enrollment):

- FINE 1810 - Digital Animation Foundations: Producing Animation  
  Summer 2010 Registration: F A 1810
- FINE 1820 - Digital Animation Foundations: Introduction to Digital 3D  
  Summer 2010 Registration: F A 1820

DAC Core Cadre Course Work (acceptance into the DAC Core Cadre is competitive through portfolio review):

- FINE 2810 - Digital Animation Techniques: Surface Modeling  
  Summer 2010 Registration: F A 2810
- FINE 2820 - Digital Animation Techniques: Surface Properties  
  Summer 2010 Registration: F A 2820
• FINE 2830 - Digital Animation Techniques: Lighting, Summer 2010 Registration: F A 2830
• FINE 2850 - Digital Animation Techniques: 3D Character Creation, Summer 2010 Registration: F A 2850
• FINE 3810 - Digital Animation Studio: Set/Environment Design, Summer 2010 Registration: F A 3810
• FINE 3820 - Digital Animation Techniques: Rigging and Animation, Summer 2010 Registration: F A 3820
• FINE 3830 - Digital Animation Technique: Character Animation, Summer 2010 Registration: F A 3830
• FINE 3845 - Digital Animation Discovery and Preproduction Seminar, Summer 2010 Registration: F A 3845
• FINE 3850 - Digital Animation Techniques: Dynamic Simulation, Summer 2010 Registration: F A 3850
• FINE 4810 - Digital Animation Studio: Animation Production I, Summer 2010 Registration: F A 4810
• FINE 4820 - Digital Animation Studio: Animation Production II, Summer 2010 Registration: F A 4820

The following courses are required for 3D animation majors, but are offered at the standard UC Denver tuition rates:

• ENGL 2250 - Introduction to Film, Summer 2010 Registration: ENGL 2250
• FINE 4632 - Media History and Aesthetics, Summer 2010 Registration: F A 4632
  _____ - Visual Arts Electives (9 semester hours) May include studio, lecture, internship or art history

Total: 54 Hours

Digital Design Emphasis Courses

Admission into the BFA digital design program or the digital design minor is by portfolio review. This review process occurs April 1 or November 1 (or on the following business day if the deadline falls on a weekend or holiday) during a student’s sophomore year after a student has met the following eligibility criteria:

University of Colorado Denver Students

• You have completed, or are in the process of completing, the following Foundation Studio classes: FINE 1100, FINE 1400, FINE 2015, FINE 2405 and FINE 2415 (FINE 2405 and FINE 2415 should be taken after a student’s freshman year and are offered only in fall semester).
- A cumulative fine arts GPA of 2.75.

**Transfer Students**

- You have completed, and are transferring, a minimum of 24 semester hours from a previous institution.
- You have completed, or are in the process of completing, the equivalents of the following foundation studio classes: FINE 1100, FINE 1400, FINE 2405 and FINE 2415.
- A cumulative fine arts GPA of 2.75.

Students who are applying for entrance into the digital design program or minor are required to submit a portfolio that consists of (1) a written statement, (2) a designed portfolio on CD-ROM or DVD and (3) unofficial transcript(s) from all previous post-secondary education institutions with the understanding that digital design is a fall start program. Upon acceptance into the digital design program, students may register for upper-division digital design classes.

Please contact CAMadvising@ucdenver.edu for program and portfolio information, or contact the Digital Design Area Head Brian DeLevie at brian.delevie@ucdenver.edu.

Note that Digital Design offers FINE 3438, FINE 3441 and FINE 4434 to all majors.

**Emphasis Course Requirements:**

- FINE 2405 - Introduction to Digital Design Summer 2010 Registration: F A 2405
- FINE 2415 - Typography Studio Summer 2010 Registration: F A 2415
- FINE 3414 - Motion Design I Summer 2010 Registration: F A 3414
- FINE 3415 - Design Studio I Summer 2010 Registration: F A 3415
- FINE 3424 - Interactive Media Summer 2010 Registration: F A 3424
- FINE 3428 - Design Studio II Summer 2010 Registration: F A 3428
- FINE 3434 - 3D Motion Design Summer 2010 Registration: F A 3434
- FINE 3444 - Interactive Media II Summer 2010 Registration: F A 3444
- FINE 3454 - Motion Design II Summer 2010 Registration: F A 3454
- FINE 4400 - Design Studio III Summer 2010 Registration: F A 4400
- FINE 4480 - The Practice of Design Summer 2010 Registration: F A 4480
- FINE 4495 - Design Studio IV Summer 2010 Registration: F A 4495
- FINE 4632 - Media History and Aesthetics Summer 2010 Registration: F A 4632

- Studio Arts/Visual Arts Electives (15 semester hours) *Consult advisor about course selection*

**Total:** 54 Hours

**Drawing Emphasis Courses**
- FINE 1600 - Painting Methods and Materials  
  Summer 2010 Registration: F A 1600
- FINE 2000 - Life Drawing  
  Summer 2010 Registration: F A 2000
- FINE 2020 - Drawing II: Spatial Thinking and Visualization  
  Summer 2010 Registration: F A 2020
- FINE 2100 - The Media of Drawing  
  Summer 2010 Registration: F A 2100
- FINE 3000 - Intermediate Drawing  
  Summer 2010 Registration: F A 3000
- FINE 3310 - Drawing and the Printed Image  
  Summer 2010 Registration: F A 3310
- FINE 3230 - Abstract Drawing  
  Summer 2010 Registration: F A 3230
- FINE 4000 - Advanced Drawing I  
  Summer 2010 Registration: F A 4000
- FINE 4010 - Advanced Drawing II  
  Summer 2010 Registration: F A 4010
- FINE 4020 - Anatomy for the Artist  
  Summer 2010 Registration: F A 4020
- FINE 4100 - Painting & Drawing Theory & Practice  
  Summer 2010 Registration: F A 4100
- FINE 4800 - Senior Art Seminar  
  Summer 2010 Registration: F A 4800
  _____ - Upper-division Art History Elective (3 semester hours)
  _____ - Studio Arts Electives (9 semester hours)
  _____ - Visual Arts Electives (6 semester hours)  
  May include studio, lecture, internship or art history

**Total: 54 Hours**

**Painting Emphasis Courses**

- FINE 1600 - Painting Methods and Materials  
  Summer 2010 Registration: F A 1600
- FINE 2000 - Life Drawing  
  Summer 2010 Registration: F A 2000
- FINE 2200 - Painting I  
  Summer 2010 Registration: F A 2200
- FINE 2210 - Painting II: Figure Painting  
  Summer 2010 Registration: F A 2210
- FINE 3200 - Intermediate Painting I  
  Summer 2010 Registration: F A 3200
- FINE 3210 - Intermediate Painting II  
  Summer 2010 Registration: F A 3210
- FINE 3240 - Abstract Painting  
  Summer 2010 Registration: F A 3240
- FINE 3300 - Painting and the Printed Image  
  Summer 2010 Registration: F A 3300
- FINE 4100 - Painting & Drawing Theory & Practice  
  Summer 2010 Registration: F A 4100
- FINE 4200 - Advanced Painting I  
  Summer 2010 Registration: F A 4200
- FINE 4210 - Advanced Painting II  
  Summer 2010 Registration: F A 4210
- FINE 4800 - Senior Art Seminar  
  Summer 2010 Registration: F A 4800
  _____ - Upper-division Art History Elective (3 semester hours)
  _____ - Studio Arts Electives (9 semester hours)
  _____ - Visual Arts Electives (6 semester hours)  
  May include studio, lecture, internship or art history
Total: 54 Hours

Photography Emphasis Courses

Students must complete the first seven courses listed in the “Required Visual Arts Courses” section and FINE 1150 and FINE 2155 before going on to the upper-division photography courses. FINE 3160, FINE 3161 and FINE 3162 may be completed in any order after having completed FINE 2155. FINE 3161 must be completed before FINE 3171. FINE 3162 must be completed before FINE 3172. FINE 3630 and all 3000-level studio courses must be completed prior to beginning the advanced photography sequence (FINE 4195 and FINE 4196).

- FINE 1150 - Introduction to Photography Summer 2010 Registration: F A 1150
- FINE 2155 - Introduction to Digital Photography Summer 2010 Registration: F A 2155
- FINE 3160 - Color and Studio Lighting Summer 2010 Registration: F A 3160
- FINE 3161 - The Silver Fine Print Summer 2010 Registration: F A 3161  
  Note: must be completed before 3171
- FINE 3162 - The Digital Fine Print Summer 2010 Registration: F A 3162  
  Note: must be completed before 3172
- FINE 3171 - Concepts and Processes in Photography Summer 2010 Registration: F A 3171
- FINE 3172 - Digital Bookmaking Summer 2010 Registration: F A 3172
- FINE 3630 - History of Photography Summer 2010 Registration: F A 3630
- FINE 3631 - Photography: Theory and Criticism Summer 2010 Registration: F A 3631
- FINE 3635 - Photography Now Summer 2010 Registration: F A 3635
- FINE 4195 - Advanced Photography I Summer 2010 Registration: F A 4195
- FINE 4196 - Advanced Photography II Summer 2010 Registration: F A 4196
- FINE 4800 - Senior Art Seminar Summer 2010 Registration: F A 4800  
  - Studio Arts Electives (9 semester hours)  
  - Visual Arts Electives (6 semester hours) May include studio, lecture, internship or art history

Total: 54 Hours

Sculpture Emphasis Courses

- FINE 2500 - Bronze Casting and Metal Sculpture Summer 2010 Registration: F A 2500
- FINE 2510 - Wood and Metal Sculpture  Summer 2010 Registration: F A 2510
- FINE 3500 - Modeling and Casting the Figure  Summer 2010 Registration: F A 3500
- FINE 3510 - Installation Art  Summer 2010 Registration: F A 3510
- FINE 3515 - Public Art  Summer 2010 Registration: F A 3515
- FINE 3525 - Environmental Sculpture  Summer 2010 Registration: F A 3525
- FINE 3530 - Iron Casting  Summer 2010 Registration: F A 3530
- FINE 3535 - Sculpture Rendering  Summer 2010 Registration: F A 3535
- FINE 4500 - Kinetic Sculpture  Summer 2010 Registration: F A 4500
- FINE 4505 - Performance Art  Summer 2010 Registration: F A 4505
- FINE 4510 - Advanced Sculpture  Summer 2010 Registration: F A 4510
- FINE 4800 - Senior Art Seminar  Summer 2010 Registration: F A 4800
  — Upper-division Art History Elective (3 semester hours)
  — Studio Arts Electives (9 semester hours)
  — Visual Arts Electives (6 semester hours)  May include studio, lecture, internship or art history

Total: 54 Hours

**Transmedia Emphasis Courses**

Student must apply for admission to the Transmedia emphasis. For more information, please contact College of Arts and Media advising at CAMAdvising@ucdenver.edu.

- FINE 2405 - Introduction to Digital Design  Summer 2010 Registration: F A 2405
- FINE 2510 - Wood and Metal Sculpture  Summer 2010 Registration: F A 2510
- FINE 3414 - Motion Design I  Summer 2010 Registration: F A 3414
- FINE 3424 - Interactive Media  Summer 2010 Registration: F A 3424
- FINE 3434 - 3D Motion Design  Summer 2010 Registration: F A 3434
- FINE 3438 - Text, Image and Electronic Art  Summer 2010 Registration: F A 3438
- FINE 3441 - Narrative and Experience  Summer 2010 Registration: F A 3441
- FINE 3510 - Installation Art  Summer 2010 Registration: F A 3510
- FINE 3520 - Sculpture: Contemporary Artists and Concepts  Summer 2010 Registration: F A 3520
- FINE 3535 - Sculpture Rendering  Summer 2010 Registration: F A 3535
- FINE 4434 - Virtual Landscapes  Summer 2010 Registration: F A 4434
- FINE 4500 - Kinetic Sculpture  Summer 2010 Registration: F A 4500
- FINE 4510 - Advanced Sculpture  Summer 2010 Registration: F A 4510
- FINE 4632 - Media History and Aesthetics  Summer 2010 Registration: F A 4632
  — Studio Arts Electives (9 semester hours)
  — Visual Arts Elective (3 semester hours)  May include studio, lecture, internship or art history
Total: 54 Hours

Non Degree

Art History Minor

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177.

Students may transfer up to 6 semester hours of non-UC Denver courses toward a minor. All other courses must be taken at UC Denver. Each course must be completed with a C/2.0 or better. Students pursuing a BA or BFA in fine arts may use up to 6 semester hours to fulfill major and minor requirements; the remaining semester hours must be taken in addition to the major requirements. Students pursuing a major in art history may not pursue a minor in art history. Consult a CAM advisor for further details.

Program Requirements

- **FINE 2600 - History of Art I (Survey) Summer 2010 Registration: F A 2600**
- **FINE 2610 - History of Art II (Survey) Summer 2010 Registration: F A 2610**
  - Upper-division Art History Electives (9 semester hours)
  - Studio Arts Elective (3 semester hours)

Total: 18 Hours

Digital Design Minor

Admission into the BFA digital design program or the digital design minor is by portfolio review. This review process occurs April 1 or November 1 (or on the following business day if the deadline falls on a weekend or holiday) during a student’s sophomore year after a student has met the following eligibility criteria:

**University of Colorado Denver Students**

- You have completed, or are in the process of completing, the following Foundation Studio classes: **FINE 1100, FINE 1400, FINE 2015, FINE 2405** and **FINE 2415**. (FINE 2405 and FINE 2415 should be taken after a student’s freshman year and are offered only in fall.)
- A cumulative fine arts GPA of 2.75.

**Transfer Students**

- You have completed, and are transferring, a minimum of 24 credit hours from a previous institution.
You have completed, or are in the process of completing, the equivalents of the following Foundation Studio classes: FINE 1100, FINE 1400, FINE 2405 and FINE 2415.

A cumulative fine arts GPA of 2.75.

Students who are applying for entrance into the digital design program or minor are required to submit a portfolio that consists of (1) a written statement, (2) a designed portfolio on CD-ROM or DVD and (3) official or unofficial transcript(s) from all previous post-secondary education institutions with the understanding that digital design is a fall start program. Upon acceptance into the digital design program, students may register for upper-division digital design classes.

Those applying to the minor (and not the major) are not required to complete FINE 1100, FINE 1400 or FINE 2015 (or their college-level equivalents), but they must show equivalent studio work in their application portfolios.

Contact CAMadvising@ucdenver.edu for program and portfolio information, or contact the Digital Design Area Head Brian DeLevie at brian.delevie@ucdenver.edu.

Additional Information about the Minor

All courses for the minor must be taken at UC Denver unless approved otherwise by the digital design faculty advisor. Each course must be completed with a C/2.0 or better. Students pursuing a BA in fine arts (art history emphasis) may use up to 9 semester hours to fulfill major and minor requirements; the remaining semester hours must be taken in addition to the major requirements. Students pursuing a major in any of the studio arts may not pursue this minor. Consult a CAM advisor for further details.

Minor Course Requirements

- FINE 2405 - Introduction to Digital Design Summer 2010 Registration: F A 2405
- FINE 2415 - Typography Studio Summer 2010 Registration: F A 2415
- FINE 3414 - Motion Design I Summer 2010 Registration: F A 3414
- FINE 3415 - Design Studio I Summer 2010 Registration: F A 3415
- FINE 3424 - Interactive Media Summer 2010 Registration: F A 3424
- FINE 3434 - 3D Motion Design Summer 2010 Registration: F A 3434
- FINE 4632 - Media History and Aesthetics Summer 2010 Registration: F A 4632

Total: 21 Hours

Sculpture Minor

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177.
Students may transfer up to 6 semester hours of non-UC Denver courses toward a minor. All other courses must be taken at UC Denver. Each course must be completed with a C/2.0 or better. Students pursuing a BA in fine arts (art history emphasis) may use up to 9 semester hours to fulfill major and minor requirements; the remaining semester hours must be taken in addition to the major requirements. Students pursuing a major in any of the studio arts may not pursue this minor. Consult a CAM advisor for further details.

**Program Requirements**

- **FINE 1500 - Three-Dimensional Design** *Summer 2010 Registration: F A 1500*
- **FINE 2500 - Bronze Casting and Metal Sculpture** *Summer 2010 Registration: F A 2500*
- **FINE 2510 - Wood and Metal Sculpture** *Summer 2010 Registration: F A 2510*
- Art History Elective (3 semester hours)

Select three courses from the following:

- **FINE 3500 - Modeling and Casting the Figure** *Summer 2010 Registration: F A 3500*
- **FINE 3510 - Installation Art** *Summer 2010 Registration: F A 3510*
- **FINE 4500 - Kinetic Sculpture** *Summer 2010 Registration: F A 4500*
- **FINE 4510 - Advanced Sculpture** *Summer 2010 Registration: F A 4510*

**Total: 21 Hours**

**Studio Art Minor**

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177.

Students may transfer up to 6 semester hours of non-UC Denver courses toward a minor. All other courses must be taken at UC Denver. Each course must be completed with a C/2.0 or better. Students pursuing a BA in fine arts (art history emphasis) may use up to 6 semester hours to fulfill major and minor requirements; the remaining semester hours must be taken in addition to the major requirements. Students pursuing a major in any of the studio arts may not pursue this minor. Consult a CAM advisor for further details.

**Program Requirements**

Select two courses from the following:
- FINE 1015 - Interdisciplinary Foundations  
  Summer 2010 Registration: F A 1015
- FINE 1100 - Drawing I  
  Summer 2010 Registration: F A 1100
- FINE 1150 - Introduction to Photography  
  Summer 2010 Registration: F A 1150
- FINE 1400 - Two Dimensional Design  
  Summer 2010 Registration: F A 1400
- FINE 1500 - Three-Dimensional Design  
  Summer 2010 Registration: F A 1500
- FINE 2015 - Intermedia Foundations  
  Summer 2010 Registration: F A 2015
- FINE 2200 - Painting I  
  Summer 2010 Registration: F A 2200 (Students must have completed 1015, 1100, 1400 and 1600 prior to taking Painting I)

- Art History Elective (3 semester hours)
- Studio Arts Electives (6 semester hours)
- Upper-division Studio Arts Elective (3 semester hours)

Total: 18 Hours

Studio Photography Minor

To declare a CAM minor, please see the College of Arts & Media’s Office of Advising and Student Services in Arts Building, 177.

Students may transfer up to 6 semester hours of non-UC Denver courses toward a minor. All other courses must be taken at UC Denver. Each course must be completed with a C/2.0 or better. Students pursuing a BA in fine arts (art history emphasis) may use up to 6 semester hours to fulfill major and minor requirements; the remaining semester hours must be taken in addition to the major requirements. Students pursuing a major in any of the studio arts may not pursue this minor. Consult a CAM advisor for further details.

Program Requirements

- FINE 1150 - Introduction to Photography  
  Summer 2010 Registration: F A 1150
- FINE 2155 - Introduction to Digital Photography  
  Summer 2010 Registration: F A 2155
- FINE 3630 - History of Photography  
  Summer 2010 Registration: F A 3630

Select three courses from the following:

- FINE 3160 - Color and Studio Lighting  
  Summer 2010 Registration: F A 3160
- FINE 3161 - The Silver Fine Print  
  Summer 2010 Registration: F A 3161
  *Note:* must be completed before 3171
- FINE 3162 - The Digital Fine Print  
  Summer 2010 Registration: F A 3162
  *Note:* must be completed before 3172
- FINE 3171 - Concepts and Processes in Photography  
  Summer 2010 Registration: F A 3171
- FINE 3172 - Digital Bookmaking Summer 2010 Registration: F A 3172
- FINE 3175 - Creative Commercial Applications Summer 2010 Registration: F A 3175

Total: 18 Hours

Located in the heart of the Rocky Mountain business community, the Business School at the University of Colorado Denver prepares students with the knowledge and skills necessary to become effective, responsible business professionals. We’re able to achieve a standard of excellence by bringing together nationally recognized faculty and highly motivated, mature students in an intellectually challenging academic environment. UC Denver’s Business School is a research institution. Because our faculty are nationally recognized for scholarly research as well as for their teaching skills, our students have the opportunity to be on the leading edge of business management theory and practice. Our class schedules and curriculum offer flexibility to meet your needs whether you plan to attend full or part time, day or evening. Whether you’re an experienced working professional seeking an advanced degree or preparing for a new career in the business world, you’ll gain the knowledge and perspective necessary to succeed in today’s challenging business environment.

Educational Goals

The Business School is committed to superb teaching, connecting theory to practice that focuses on:

- current and relevant knowledge and skills necessary for success in the highly competitive global business environment
- experience in cooperative and team-based work skills
- integrated professional and functional expertise
- Sensitivity to cultural and ethnic diversity

Our graduate programs serve both traditional and nontraditional students who have extensive work experience. The MBA serves the needs of students who desire a general business education. The professionally oriented MS degrees serve the needs of students who desire greater specialization, particularly students who have already obtained an undergraduate business degree. Large numbers of our graduate students will be drawn from national and international locales.

Our undergraduate program, which serves both traditional and nontraditional students, leads to a baccalaureate degree in business with a substantial liberal arts component. The program is closely linked, through articulation agreements, to lower-division programs offered by Colorado’s four-year and community colleges.
Key elements of our academic programs are the provision of top-quality career advising and placement services, as well as flexible schedules and programs to meet a wide range of student needs. We are committed to assisting our students' efforts to pursue rewarding careers.

Facult

Our nationally recognized faculty is vigorous and enthusiastic about its teaching and research. Faculty members hold degrees from the nation’s leading business schools, including Berkeley, Harvard, Stanford, University of Chicago, University of Pennsylvania, UCLA and Yale. Many of them also bring years of valuable experience in private industry. Their interdisciplinary expertise, academic achievements, scholarly research and business experience provide students with a dynamic learning environment.

Scholarships and Financial Aid

Many programs for financial aid are administered by the Office of Financial Aid. Call 303-556-2886 for detailed information.

Thanks to the generous support of the Colorado business community and others, the Business School has a significant number of scholarships to offer its students. Scholarships are awarded on the basis of merit and/or financial need. The amount of the award and the number of awards available vary.

Thirty different scholarships are available to eligible Business School students, with multiple awards from most scholarships. Go to www.business.ucdenver.edu for more details.

- Undergraduate scholarships include the Board of Advisors, the Business School Undergraduate Excellence, the Carolyn Lee Henderson, the Robert E. Moore Memorial, the Business School Sustaining Student, the Dean’s Community Scholarships, the Scholarship for International Study and the Dean’s Scholarship for Continuing Undergraduate Business Students.
- The MBA Outstanding Scholar Award, the MBA Opportunity Scholarship and the MBA Faculty’s Scholarship are given to qualifying MBA students.
- Accounting scholarships for both graduate and undergraduate accounting students include the Deloitte & Touche and Accounting Program Scholarship, as well as the Price water house Coopers Scholarship for undergraduate junior accounting majors only.
- MS finance scholarships are the MS Finance Fellows, open to graduate students in the finance program, and the Carolyn Lee Henderson Scholarship, designated for students in the finance program.
- MS health administration scholarships include the Abbott Fellows, AUPHA/McGaw, UC Denver MS Health Administration, Eugenie D. Sontag,
Leland R. Kaiser, Medical Group Management and the MS Health Administration Alumni Scholarships.

- **MS information systems** students may apply for the Dean’s Scholarship in Information Systems.
- The **MS international business** Merit Scholarship is open to students in the UC Denver MS international business program.
- **MS management or human resources management** students may apply for the Excellence in Management or the Excellence in Human Resource Management Scholarship.
- **MS marketing** students may apply for the MS Marketing Sustaining Student, MS in Marketing Fellows and Robert E. Moore Memorial Scholarships (also open to undergraduate marketing students).
- Four scholarships are available to students who take courses in entrepreneurial studies at the Richard H. and Pamela S. Bard Center for Entrepreneurship Development. These are the Coulter Foundation Scholarships in Entrepreneurial Studies and Business, and the Dean’s Pursuit of Excellence, Mehalchin and Trueblood Scholarships.

Further information about these scholarships, including eligibility criteria and application forms, may be obtained by visiting the Business School Web site at [www.business.ucdenver.edu](http://www.business.ucdenver.edu) (click on scholarships) or by calling 303-315-8000.

### Study Abroad

Transfer credit from study abroad programs requires prior written approval from the undergraduate or graduate program director. Students must meet with a business staff advisor to determine course acceptability prior to the semester in which they intend to study abroad. Information on the various programs is available at the [Office of International Affairs](http://www.business.ucdenver.edu).

### Institute for International Business

The Institute for International Business (IIB) was created in 1988 by the Board of Regents of the University of Colorado to serve as a center for the advanced study and teaching of international business. In 1993, the institute was designated a Center for International Business Education and Research by the U.S. Department of Education, one of only 25 such centers of excellence in the United States. Through the CIBER and other funding sources, the institute strives to help the faculties of the Business School and other university departments to internationalize curriculum, programs, certificates or other student-oriented endeavors. The IIB works in other ways to support faculty in their teaching, research and development activities. In addition, the institute designs and facilitates customized international programs and training for business, cooperates with other organizations to offer seminars and conferences and publishes a quarterly newsletter to familiarize the Denver and regional communities with international
business issues. Such initiatives help faculty, students and the business community to acquire the skills and expertise needed to be successful in our increasingly global economy. The institute also conducts and promotes research on the global economic aspects of competitiveness. Call 303-315-8436 for information.

**Internships**

Internships are included in the experiential learning requirement of the undergraduate business program. To be eligible to enroll in an internship for experiential learning credit, the undergraduate student must meet the following grade and course work requirements:

- the student must be in good standing with a cumulative GPA of at least 2.0, and a GPA in the area of emphasis of at least 2.0
- the student must have completed (a) all required lower-division course work and (b) at least 21 semester hours of the business core courses

Graduate students must be admitted to the Business School, be in good standing with at least a 3.0 GPA and have completed 15 semester hours of graduate work at the Downtown Campus.

Interested students should contact the Experiential Learning Center (303-556-6656) for further details about the program.

**General Academic Policies**

Academic policies that apply to all students on the UC Denver Downtown Campus are described in “Registration and Records” and University Policies. The policies outlined on the following pages are relevant for both undergraduate and graduate students in the Business School. Individual policies appropriate only to undergraduate or graduate students are described under separate headings. Each student is responsible for knowing and complying with the academic policies and regulations established for the school. The school cannot assume responsibility for problems resulting from a student’s failure to follow the policies stated in this catalog. Similarly, students are responsible for all deadlines, rules and regulations stated in the online schedule planner.

**Academic Ethics**

Students are expected to conduct themselves in accordance with the highest standards of honesty and integrity. Cheating, plagiarism, illegitimate possession and disposition of examinations, alteration, forgery, falsification of official records and similar acts or any attempt to engage in such acts are grounds for suspension or expulsion from the university. In particular, students are advised that plagiarism consists of any act involving the offering of the work of someone else as the student’s own. It is recommended that students consult with the instructors as to the proper preparation of reports, papers, etc., to avoid this and similar offenses. Also, actions that disrupt the administrative process,
such as misrepresentation of credentials or academic status, other forms of deception or verbal abuse of university staff are grounds for suspension or probation. All reported acts of dishonesty must be referred to the Business School's Internal Affairs Committee.

**Admission to Business Classes**

Enrollment in business classes is limited to students who have been admitted to business degree programs and to other students as described in the separate undergraduate and graduate policy sections. The course registration criteria are designed to meet a number of objectives:

- to assure access to business courses for students seeking a business degree
- to serve students in other colleges who have business-related education objectives or requirements
- to serve nondegree students who have specific career or education goals

Refer to the online schedule planner each term for course availability and prerequisites.

**Attendance Regulations**

Students are required to attend classes, including online classes, on a regular basis. Absences must be arranged with the instructor and must conform with university and instructor policies on attendance.

**Prerequisites**

Students are expected to know and fulfill all prerequisites when registering. See course listings for relevant prerequisites as they are strictly enforced. The Business School reserves the right to administratively drop students who enroll without the correct prerequisites. This action may result in the loss of tuition.

**Course Numbering**

The course numbering system used at the Downtown Campus of UC Denver identifies the class standing required for enrollment. Students are expected to take 1000-level courses in their freshman year, 2000-level courses in their sophomore year, 3000-level courses in their junior year and 4000-level courses in their senior year. Courses at the 5000 and 6000 level are restricted to master's-level business students, and courses at the 7000 level are restricted to PhD students.
Adding Courses

Students may add courses to their original schedule through the census date (first 12 days of the fall or spring semester, first eight days of summer session). Instructor approval may be required to add a course after the first week of classes.

Dropping Courses

Students may drop a course through the census date and it will not appear on the transcript. After census, a student who wishes to drop must obtain written approval from both the instructor and academic dean or designate. The course and a grade of $W$ will appear on the transcript. In order to drop beyond the 10th week, it will also be necessary to document circumstances beyond a student’s control. Any student who is failing a class will not be allowed to drop, and an $F$ will be recorded on the transcript. See the academic calendar for deadlines and costs involved.

Withdrawal

See Registration and Records for universitywide withdrawal policies. Note that the Business School normally requires instructors’ signatures on withdrawal forms before the academic dean’s approval is granted.

Administrative Drop

The school reserves the right to administratively drop students who are incorrectly enrolled in business courses. Instructors also may recommend that students who fail to meet expected course attendance or course prerequisites be dropped from the course. Generally, students who are administratively dropped will not receive tuition refunds.

Note that students who never attend class are not automatically dropped from the course. The student is responsible for payment and for the grade in each course.

Appeal Procedure

Students should contact a staff advisor in the Business School’s programs office for appeal and petition procedures pertaining to rules and regulations of the school. For grade appeals, contact the Business School dean’s office.
General Grading Policies

Plus/Minus Grading. Faculty have the option to use plus/minus grading.

Incomplete Grades. The only incomplete grade given in the school is I. An I grade is assigned only when documented circumstances clearly beyond the student’s control prevent completion of course requirements (exams, papers, etc.). Students must sign a contract outlining how they will make up the missing work with the instructor giving the I. Students may not register for the course a second time. All I grades must be made up within the contract period (which may not exceed one year), or the I will automatically be changed to the grade of F.

Also, I grades must be completed and recorded at the Office of the Registrar no later than four weeks prior to graduation. The student is responsible for contacting the instructor concerning the removal of incomplete grades.

Grade Changes. Grades as reported by instructors are final. Grade changes will be considered only in cases of documented clerical errors or when a student is making up an incomplete grade (I). All changes must be made within one year after the course has been taken, unless highly unusual circumstances can be documented and the change has been approved by the school. Normally, grade changes will not be considered under any circumstances after three years.

Pass-Fail or No Credit (Audit). With the exception of internships, experiential learning and travel study courses, the Business School does not permit election of pass-fail grading for any business course required for the degree. Students are not allowed to audit business courses.

Academic Programs

A carefully designed curriculum to prepare students for success in business administration is available for the student seeking either an undergraduate or graduate degree. The school offers courses leading to the bachelor of science, master of business administration (MBA), the master of science (MS) and doctor of philosophy (PhD) degrees. www.business.ucdenver.edu

It is possible to pursue two degrees simultaneously, such as an MBA and an MS, or two MS degrees, through our dual degree programs. In addition to the programs in the Business School itself, we partner with other university departments to offer dual programs in MS finance/economics and the MBA in combination with graduate programs in architecture, economics, urban planning and the MD. We also have a joint MBA/MS in international management degree through Thunderbird in Glendale, Arizona.

Undergraduate Degree Programs
The undergraduate curriculum leading to the bachelor of science (business administration) degree is intended to help the student achieve the following general objectives:

- an understanding of the activities that constitute a business enterprise and the principles underlying administration of those activities
- the ability to think logically and analytically about the kind of complex problems encountered by management
- facility in the arts of communication
- a comprehension of human relationships involved in an organization
- awareness of the social and ethical responsibilities of those in administrative positions
- skill in the art of learning that will help the student continue self-education after leaving the campus

Undergraduate Admissions

Telephone: 303-315-8100
Fax: 303-315-8199

Admission of Freshman Students

Freshman applicants must have completed the college preparatory curriculum in high school, graduated in the top 25 percent of their high school class and achieved a score of at least 26 on the ACT or 1100 on the SAT. See Information for Undergraduate Students for further information on freshman admission.

Admission of Transfer Students

Applicants who have completed work at other collegiate institutions should review the information for transfer students in Information for Undergraduate Students. In addition to general university transfer policies, the Business School evaluates course work to determine its appropriateness for the degree bachelor of science (business administration). Students who have completed more than 24 semester hours of transferable course work are evaluated for admission on the basis of their college GPA without regard to their high school performance. Transfer applicants with fewer than 24 transferable hours will be evaluated on the basis of both high school and college work.

Applicants are evaluated only on course work that applies to the business degree program. Generally, this will exclude course work of a technical or vocational nature and
courses in activity PE and remedial subjects. For information about specific policies on transfer of credit, consult the undergraduate business program coordinator.

For admission to the Business School, a transfer applicant must have a minimum 3.0 GPA for all work applicable to the bachelor of science (business administration) degree and a 2.0 GPA in business courses. Applicants with less than an overall 3.0 GPA may be evaluated and admitted on a space available basis.

**Intra-University Transfer**

Students who want to transfer to the Business School from another college or school of the University of Colorado Denver must formally apply to the Business School. To apply for an intra-university transfer, students must submit an intra-university transfer (IUT) form and transcripts from University of Colorado to the business program coordinator. Transfer forms are available at the Office of Admissions or the Business School Advising Office; transcript request forms are available at the Office of the Registrar. The transcript must include the student’s most recent semester at the university. Students with previous course work from other institutions are also required to submit a copy of their transfer credit evaluations (advanced standings). Transfer deadlines are August 1 for fall semester, December 1 for spring semester and May 1 for the summer session. In general, the admission standards for intra-university transfer are the same as for transfer from other institutions as listed above.

**Former Students**

A University of Colorado student from another campus, or a Downtown Campus student who has not registered for three consecutive semesters (summers included), is considered a former student and must reapply for admission. Former Downtown Campus business degree students will be automatically readmitted to the school for up to three years from the semester they last attended if they are in good standing (not on probation or suspension) in the school. Students who have not attended for more than three years, or who have completed the equivalent of 12 or more semester hours at another institution of higher education, must meet the admission and degree requirements applicable at the time they reapply.

**Old Work Policy**

For students newly admitted to the Business School and former business students readmitted to the school after an absence of three semesters, applicable credits up to five years old will be counted toward business degree requirements. Courses more than five years old will be evaluated individually for their current relevance to the degree program. Students may be required to update their knowledge by taking additional courses when past courses are outdated; in such cases, credit will be given for both
courses. Generally, business courses more than 10 years old will not apply toward degree credit.

**Second Undergraduate Degree**

Students may apply to the Business School to earn a second undergraduate degree, provided the first undergraduate degree is in a field other than business. Persons who have already earned an undergraduate degree in business may not apply for a second undergraduate degree in business. Applications are available through the Office of Admissions.

If a student has an academic record that justifies consideration for a graduate program, that student is encouraged to apply for one of the Business School’s master’s degree programs. Call 303-315-8200 for information or refer to the graduate business section of the catalog.

Students who are accepted for the second undergraduate degree will be required to pursue courses in the sequence normally required for a business degree. For example, if a student registered for a second degree has not had the required mathematics or general education courses, these must be taken before the student will be eligible to register for business courses. Further, the basic business courses (core courses) must be taken before a student begins to pursue the major field.

**Double Degree Programs**

Numerous career opportunities exist for persons trained in both a specialized field and management. For this reason, students may be interested in combined programs of study leading to completion of degree requirements concurrently in two fields. For additional information, contact an undergraduate business staff advisor at 303-315-8100.

**Undergraduate Advising and Academic Planning**

**Admissions Advising**

Persons not yet admitted to the Business School can receive advising on course selection, admission requirements and other matters from an undergraduate staff advisor. To make an appointment, call 303-315-8100.
Admitted Students

Upon admission to the school, students execute a degree plan that identifies the courses required to graduate. This plan contains all the information needed to select courses and monitor progress toward completion of requirements for the bachelor of science (business administration). Business students are expected to assume responsibility for their own advising. This includes scheduling courses each term, meeting prerequisite requirements, being familiar with all the policies and procedures of the college and otherwise managing their own academic careers. Staff advisors are available to answer questions about unusual situations.

Career advising is available from the Career Center, 303-556-2250.

Undergraduate Core Curriculum—University of Colorado Denver

The faculty of the Business School, College of Engineering and Applied Science and the College of Liberal Arts and Sciences have established a core curriculum for undergraduate students. All undergraduate students are required to complete the undergraduate core curriculum in dependent of their college or major.

The undergraduate core curriculum for the Downtown Campus is outlined here; the core requirements for business students are specified in the section labeled "Business Program Requirements."

The undergraduate core curriculum seeks to provide all baccalaureate students with basic intellectual competencies in English, mathematics, biological and physical sciences, behavioral sciences, social sciences, humanities and arts. Furthermore, the core curriculum promotes an awareness of cultural diversity and international perspective. The majority of the core curriculum is designed to be completed during a student’s freshman and sophomore years in order to provide the foundation for specific training in a student’s major discipline.

Graduation Requirements

The bachelor of science (business administration) degree requires the following:

Total Credits. A total of 120 semester hours.

A minimal level of proficiency must be demonstrated in one foreign language or in regional expertise. Students may satisfy the proficiency requirement by taking courses as described below.
Area of Emphasis. Completion of at least 9–21 semester hours of approved courses in the area of emphasis.

Residence. At least 30 semester hours of business courses (including the business area of emphasis) must be completed after a student’s admission to the Business School. The 30 hours for residence must include MGMT 4500 and 27 hours in other 4000-level business courses (including area of emphasis courses).

GPA Requirement. To graduate, a student must maintain a minimum cumulative scholastic GPA of 2.0 for all courses attempted at the university acceptable toward the BS (business administration) degree, 2.0 for all business courses and 2.0 for courses in the student’s area of emphasis.

Undergraduate Honors. Upon recommendation of the faculty, students who demonstrate superior scholarship are given special recognition at graduation. Students must achieve an overall University of Colorado GPA of 3.3 and a GPA of 3.5 in all business courses taken at the University of Colorado to be considered for cum laude. Those who achieve an overall University of Colorado GPA of 3.5 and a GPA of 3.7 in all business courses taken at the University of Colorado will be considered for magna cum laude. Those who achieve a 3.7 overall GPA and a 3.85 GPA in all business courses will be considered for summa cum laude.

Filing for Graduation. A senior audit is completed on all students who have completed 90 or more semester hours. Students must file an undergraduate candidacy form and diploma card and request a graduation evaluation prior to registering for their final semester. Failure to do so will delay graduation. Also, students desiring to change their area of emphasis after filing for graduation must have the change approved by the graduation coordinator prior to registering for their final semester. Changes after that time will delay graduation.

Undergraduate Core Curriculum for BS in Business

Intellectual Competencies

   English, 6 semester hours
   Mathematics, 3 semester hours

Knowledge Areas, 6-7 semester hours total

   Biological and Physical Sciences, 3 semester hours
   Humanities, 3 semester hours
   Arts, 3 semester hours
Behavioral Sciences, 3 semester hours
Social Sciences, 3 semester hours

Cultural Diversity, 3 semester hours total
International Perspectives, 3 semester hours total

34 semester hours total

**Business Program Requirements**

Satisfaction of all the following:

*Program Requirements*

- School proficiencies or other courses, 0-10 semester hours
- UC Denver Downtown Campus core, 34 semester hours
- Business School specific graduation requirements - see Business School policy, 12 semester hours
- Business core, 33 semester hours
- International studies, 3 semester hours
- Experiential learning, 3 semester hours
- Area of emphasis and other courses, 21 semester hours
- Other business and nonbusiness courses, 4 semester hours

120 semester hours total

Detailed descriptions of degree course plans that satisfy program requirements follow:

**Business School Foreign Language Hours Proficiency**

The Business School’s foreign language requirement or regional expertise for the 2008-2009 academic year requires that students demonstrate a minimum level of proficiency in one foreign language.

This requirement is met through completion of one of the following:

- a second-year (Level II) high school course with a minimum grade of C (2.0)*
- a second-semester-level college course (1020) with a minimum grade of C (2.0)
- satisfactory proficiency testing, including taking and passing a proficiency exam

*High school courses will not apply toward degree credit; however, they will waive the specific requirement from having to be done at the college level.

Student’s choosing the regional expertise requirement with one year of high school foreign language or one semester of college level work can satisfy the requirement by completing a minimum of 6 semester hours of course work from an approved list that
relates to the politics, arts, history, culture or economy of any region of the world other than North America.

Courses used in the expertise area must meet the Business School guidelines and can be chosen from the list specified by the Business School. Students should contact their business advisor to outline their program, 303-556-5800.

Students who must meet all the proficiency requirements through course work at UC Denver may find it necessary to complete more than 120 semester hours to earn the BS in business administration. The proficiency requirement must be completed during the first three terms in attendance at the Downtown Campus.

**Academic Policies for Selecting Courses**

**Registration**

For registration, go online to www.ucdenver.edu/registrar.

**Maximum Units per Term**

The normal scholastic load of an undergraduate business student is 15 semester hours, with a maximum of 18 hours allowed during the fall/spring semesters and 12 hours allowed during the summer session. Hours carried concurrently in the Division of Continuing Education, University of Colorado-Boulder, or the Downtown Campus Extended Studies Programs, whether in classes or through correspondence, are included in the student’s term load.

**Repeating Courses**

A failed course (grade of F) may be repeated; however, the F will be included in the GPA and will appear on the transcript. Students must earn at least a C grade in required business core courses. Core business courses must be repeated if the student earns less than a C grade.

**Courses from Other Institutions**

Business students must have the written approval of the business program director to register for courses (excluding MSCD pooled courses) offered by other institutions, including other University of Colorado locations. Credit will not be given for courses taken without approval. Grades of C or better must be earned to receive business degree credit. Generally, only nonbusiness electives or lower-division, nonbusiness requirements are acceptable for transfer from other institutions once a student has been admitted to the Business School. Students who, after admission to the college, take
more than 12 semester hours from another institution, must reapply for admission to the
college as transfer students and must meet the current admission requirements.

**Metropolitan State College of Denver Courses**

Business students may select their nonbusiness required and elective courses from
those offered by MSCD. Grades of \(C\) or better must be earned to receive business
degree credit; however, the grade is not computed in the University of Colorado GPA
and is treated like other transfer credits. MSCD business courses may not be taken for
Downtown Campus business degree credit.

**Graduate-Level Courses**

With prior written approval of the business program coordinator, students may take a
maximum of 6 semester hours of graduate-level nonbusiness elective credits. Students
must earn grades of \(B\) or better in graduate courses to apply the credits toward business
degree requirements.

**Pass/Fail**

Only internships, independent studies and nonbusiness elective courses may be taken
pass/fail. Required business and nonbusiness courses (including the campus core) may
\textit{not} be taken pass/fail. A maximum of 6 hours pass/fail credit may be applied toward the
business degree. Courses taken in excess of the maximum will not be applied toward
degree credit. Pass/fail determination must be made within the posted deadlines (at
census dates) and may not be rescinded (unless approved by the undergraduate
committee).

**Correspondence Courses**

Only 6 semester hours of credit taken through correspondence study (from regionally
accredited institutions) will be applied toward the business degree. Business courses
may not be taken by correspondence. All correspondence courses must be evaluated by
the business program coordinator to determine their acceptability toward degree
requirements, and the program coordinator’s written approval is required \textit{prior to} the
student’s registering for courses. Students may contact the Division of Continuing
Education, University of Colorado-Boulder, for correspondence course offerings and
registration procedures.

**Independent Study**
Junior or senior business students desiring to work beyond regular course coverage may take variable credit courses (1–3 semester hours) as nonbusiness electives under the direction of an instructor who approves the project, but the student must have the appropriate approval before registering. A maximum of 3 semester hours of independent study course work may be taken in any one semester; a maximum of 6 semester hours may be applied toward degree requirements. An independent study request form must be signed by the student, the instructor, the program director and the director of advising and admissions.

**Academic Policies for Suspension and Probation**

To be in good standing, students must maintain an overall University of Colorado GPA of 2.0 (C = 2.0) or better for all course work attempted and a 2.0 GPA or better for all business courses attempted. PE activity courses, remedial course work, MSCD courses and repeated courses not approved by a business advisor are not included in this average. When semester grades become available, students falling below the 2.0 GPA will be notified of (1) probationary status or (2) suspension. Students are responsible for being aware of their academic status at all times; late grades and/or late grade notification does not waive this responsibility. School rules governing probation and suspension are as follows:

1. Any student whose overall GPA or business course GPA is less than 2.0 will be placed on probation immediately. A student may be removed from probation when the overall GPA and business GPA have been raised to 2.0.
2. A student may remain on probation as long as he/she maintains normal degree progress each semester as determined by the school and each term, while on probation, obtains an overall term GPA of 2.5 and term business course GPA of 2.5, with no grade below a C. Failure to meet probationary provisions will result in suspension. Probationary status may continue only until the student has completed a maximum of 12 semester hours or four terms, whichever comes first; summer is considered a term. The student will be suspended if the GPA deficiency is not cleared within this time.
3. Suspended students may not attend any campus of the University of Colorado or any division of the university (including continuing education or extended studies credit classes).
4. Students on suspension may petition for readmission to the school after waiting a minimum of one year from the term in which they were suspended. Generally, petitions are granted only in unusual circumstances. Any suspended student re-admitted to the school will be under contract and placed on a continued probation status until the GPA deficiency has been cleared. Such students will be automatically suspended if, at any time, their overall GPA or business GPA again falls below 2.0.
5. Students earning all failing grades for a semester will have a dean’s stop placed on their record and will not be permitted to register without a business advisor’s approval.

6. Combined degree students are required to maintain the same standards of performance as Business School students in order to be continued in a combined program.

Areas of Emphasis
Business students must choose an area of emphasis and complete the requirements for the area. The area of emphasis provides specialization beyond the general background that is provided by the undergraduate core and the business core, both of which are required to be fulfilled prior to completing the area of emphasis courses. Areas of emphasis within the BS in business administration program include:

- Accounting (financial, managerial, accounting/information systems)
- Financial Management (financial management/information systems)
- Human Resources Management
- Information Systems
- International Business
- Management (management/information systems)
- Marketing (marketing/information systems)

Graduate Business Programs (MBA/MS/PhD)

Associate Dean: Clifford E. Young
Assistant Dean: Linda J. Brooker
Telephone: 303-315-8200
Fax: 303-315-8199
E-mail: grad.business@ucdenver.edu

The Business School offers programs leading to a doctor of philosophy, the master of business administration and the master of science in specific fields of business and health administration. In addition, the master of business administration for executives (executive MBA) is offered as a multi campus program of the University of Colorado business schools, and the executive program in health administration (executive MBA/HA) is offered through the executive health network.

The PhD, MBA, the executive MBA and the MS degree in business are accredited by AACSB International, the Association to Advance Collegiate Schools of Business. The health administration MBA and MS degrees are also accredited by the Commission on Accreditation of Healthcare Management Education (CAHME).

For a list of graduate business programs, see Program Curricula below.

Requirements for Admission to the MBA and MS Programs
Admissions Advising

Persons contemplating graduate study are encouraged to learn about admission and program requirements by scheduling an appointment with a graduate advisor or attending one of the regularly scheduled prospective student information meetings. Call 303-315-8200.

Admission to the graduate programs in business is granted only to students showing high promise of success in graduate business study. Admission is based on the following indicators of the candidate’s likelihood to succeed in the program.

Academic Record

The bachelor's degree must be earned from a regionally accredited university. The total academic record is considered, including the GPA, the course of study and the quality of the program.

Required Testing

The GMAT is required for admission consideration for any applicant who does not have a post-baccalaureate degree. The GMAT is administered at numerous centers throughout the world. For information and to make application for the test, write to: GMAT, Educational Testing Service, CN 6103, Princeton, NJ 08541; or phone 1-800-GMATNOW; or visit www.mba.com. The code numbers for UC Denver's graduate business programs are as follows:

MBA: MPB-OG-78
MS: MPB-OG-75
PhD: MPB-OG-29

Work Experience

A record of appropriate employment at increasing levels of responsibility is considered a positive indicator of the likelihood of successful completion of graduate work. A resume must be submitted with the application materials.

Background Requirements

Students applying for graduate programs in business do not need to have taken their undergraduate degrees in business. The MBA program is specifically designed so that the required courses cover the material needed for completion of the degree. There are no prerequisites needed to start the MBA program. Applicants for the MS degree,
however, may be required to take background or common body of knowledge courses, depending on the individual’s academic background. Students with nonbusiness backgrounds have completed the program successfully. For more detailed information, phone a graduate academic advisor, 303-315-8200.

It is expected that students have an adequate level of personal computer proficiency in a word processing and spreadsheet software, as well as a good working knowledge of basic algebra and proper English.

The Admission Process

Mailing address for applications:

Graduate Admissions
The Business School
University of Colorado Denver
Campus Box 165, P.O. Box 173364
Denver, CO 80217-3364

Students seeking admission to the 11-month MBA, MBA with an emphasis in health administration, MS in health administration or executive programs should consult with the relevant catalog sections for additional application criteria or requirements.

Domestic Application Requirements

- Complete parts I and II of the application for graduate admission and the four essay questions.
- Have required GMAT scores sent directly to the graduate business admissions office from the Educational Testing Service. The code for UC Denver’s graduate business programs are as follows:
  MBA: MPB-OG-78
  MS: MPB-OG-75
  PhD: MPB-OG-29
- Have two official transcripts (not student copies) mailed directly from each school, college and university ever attended past high school. Transcripts must be sent even if credit course work completed was not part of a degree program or was taken after an undergraduate degree was earned.
- Resumé
- Enclose a check for $50 for the MBA, MS or PhD programs, or $80 for the dual MBA/MS or dual MS/MS, made payable to the University of Colorado. Personal interviews are not required, except for the 11-month MBA, the MBA and MS in health administration, or when meeting a petition requirement.
- If you are denied admission because of our GMAT requirements and can meet three of the following requirements, you can petition for a special admission.
  - have seven to ten years of progressive business work experience
- have an undergraduate GPA of 3.5 or higher
- proven success in previous graduate work to demonstrate acceptable quantitative and verbal skills from an AACSB accredited university
- demonstrated success in passing BUSN 6530 and BUSN 6540 with a grade of B+ or better
- complete a successful personal interview

**Deadlines.** To be considered for admission, applicants for graduate programs must submit all materials prior to the following dates:

- April 1 for summer session admission
- June 1 for fall semester admission
- November 1 for spring semester admission

The 11-month MBA option only admits students each fall.

Early applications are encouraged because, if admitted, the student receives priority for registration time assignment. Applications received after published deadlines with complete supporting documentation, scores, fees and transcripts will be considered, but do not receive priority handling.

**International Application Requirements**

See Information for International Students.

**Academic Policies for Graduate Students**

**Advising**

As soon as possible after being admitted, students should schedule an appointment with a graduate advisor to discuss general degree requirements, plus determine if any background course work may be required and/or what common body of knowledge courses might be waived for the MS degrees.

**Degree Plan**

All students are encouraged to meet with a graduate advisor during their first semester to review their degree plan. Students are encouraged to meet with a graduate advisor throughout their program to ensure the correct sequencing of courses. An advising hold will be placed on students beginning an MS in accounting, an MS in health administration and an MBA in health administration. Students must petition before receiving degree credit for any course changes.

**Course Load**
The normal course load for full-time graduate students is 9–15 semester hours. However, because many students also are pursuing a career, it is possible to attend classes on a part-time basis by enrolling for 3–6 semester hours. For financial aid purposes, 6 semester hours of graduate study is considered full time. Graduate courses are scheduled primarily in the evening or online to accommodate work schedules.

**Transfer of Credit**

Upon approval of the program director, a maximum of 12 semester hours of graduate business course work may be transferred to the MBA and 9 semester hours for the MS degrees (9 semester hours for each the MBA and MS degree if under a dual program) from another AACSB accredited graduate school of business, if they have been completed within the last five years with a grade of at least B (not B-). No transfer courses will be accepted if they have been used to satisfy degree requirements of a previously awarded degree. Graduate business courses taken at other University of Colorado campuses are considered transfer hours and are included in the transfer limit. Transfer of quarter hours of graduate business credit may satisfy a course requirement, but may not satisfy the total number of hours requirement. One quarter hour equals .667 semester hours.

**Time Limits**

Master’s students are required to complete all degree requirements within five years and one semester (seven years and one semester to earn dual MBA/MS or MS/MS degrees, or a PhD). Courses completed outside of these time limits will not be accepted toward the degree without petition. Time-limit extensions are given only for external situations that restrict a student’s ability to complete the program in a timely manner. If you do not take graduate business courses for more than three semesters, you will need to reapply for admission.

**Former Students**

Any Downtown Campus student who has not been enrolled in his or her admitted program of study for three consecutive semesters (summers included) is considered a former student and must reapply for admission to the program by submitting part I of the application for graduate admission, in-state tuition classification form, along with the applicable fee. Readmitted students must conform to degree requirements in effect during the term in which they are readmitted. If the new requirements differ significantly from the former degree plan, a petition may be submitted requesting exceptions.

**Graduation**
Students must complete the online intent to graduate form on the registrar’s Web site (www.ucdenver.edu/registrar) when they register for their last semester. Contact the graduate advising office to confirm receipt at grad.advising@ucdenver.edu.

**Grade Point Average Requirements**

A minimum cumulative GPA of 3.0 must be achieved and maintained for courses taken toward a graduate business degree. All Downtown Campus graduate business courses are computed in the graduate business GPA. Transfer hours and grades from other institutions, including University of Colorado courses taken at the Boulder, Anschutz Medical and Colorado Springs Campuses are not computed in the business GPA, although degree credit may be awarded through a petition process.

**Probation and Suspension**

If after completing 6 semester hours a student’s cumulative graduate business GPA falls below 3.0, the student will be placed on academic probation and given three semesters (one calendar year) or 9 semester hours of graduate business course work (whichever occurs first) in which to achieve the required 3.0 cumulative average. Failure to achieve the required GPA within the allotted time period will result in suspension for one year. Suspended students may not attend any campus of the University of Colorado including continuing education/extended studies. Students on suspension may petition for readmission to the school after waiting a minimum of one year from the term in which they were suspended. If a student cannot achieve the required 3.0 cumulative GPA with the remaining required courses, the petition to return will not be approved. A petition form plus a new graduate application part I and in-state tuition classification form must be submitted along with the appropriate fee. Generally, petitions are granted only on rare occasions. Any suspended student readmitted to the school will be placed on a continued probation status until the GPA deficiency has been cleared. They will again have three semesters or 9 semester hours to reach the required 3.0 GPA. Failure to do so will result in a permanent suspension.

**Passing Grades**

Any grade below a C (2.0) is a failing grade for graduate students. Graduate students must repeat a required course for which they have received a grade below a C. Both the original grade and the grade for the repeated course count in the computation of the business GPA.

**Repeating Graduate Business Courses**

A failed course (any grade below a C) must be repeated if it is a required course. Both the original and the repeated grade will be included in the GPA and will appear on the
transcript. A course in which a grade of \( C \) or better is obtained may not be repeated without written approval from the assistant dean. Those petitions are granted only on rare occasions. Both grades will remain on the student's transcript and both grades will be calculated into the student's cumulative GPA. Graduate business courses repeated without approval may not be used in the graduate business GPA calculation.

**Drop/Withdrawal**

Classes dropped prior to census date will not appear on the transcript. Thereafter, to drop with a grade of \( W \), a student must be earning a grade of \( C \) or better; otherwise, an \( F \) will appear on the transcript. Students will not be permitted to drop a course or withdraw from all courses after the 10th week of the semester, unless circumstances outside the student's control are documented. The petition to drop or withdraw must be approved by the assistant dean and the course instructor(s).

**Registration for Graduate Business Courses**

Students admitted to graduate degree programs have priority for graduate business courses. Nondegree students and graduate students from other University of Colorado schools or colleges may be permitted to attend on a space-available basis by meeting the qualifications and submitting a nondegree application form (available online at www.business.ucdenver.edu).

Some graduate-level (6000-level) courses may be offered simultaneously with undergraduate 4000-level courses. However most 6000-level courses are reserved exclusively for graduate students.

**Master of Business Administration Programs**

The master of business administration (MBA) program provides a general background in management and administration. This background enables the student to have the breadth of exposure and depth of knowledge required for an advanced-level management career. The program is devoted to developing the concepts, analytical tools and communication skills required for competent and responsible administration of an enterprise viewed in its entirety, within its social, political and economic environment.

The professional MBA program allows the scheduling of classes with maximum flexibility so students can progress through the program at their own pace, by taking as little as one class per semester or as many as five classes per semester, at times that are convenient to their work schedule. The program can be completed in as little as 16 months or as long as five years plus one semester.

Online courses add additional flexibility. Students may complete all degree requirements online, or combine online and campus courses to broaden your choice of electives or to
fit a business travel schedule or personal learning style. Choice of online electives is limited.

The MBA program is also available in different configurations: 11-month (full time, see relevant section), health administration and the executive MBA (see relevant section). All MBAs have the same curriculum requirements; they differ only in their focus, the flexibility of course scheduling and the time required to complete the program. The 11-month and executive MBAs are lockstep programs (no open electives, no specialized tracks), where all the students complete all program requirements together. No course transfers, waivers or substitutions are permitted.

For a list of MBA programs, see Program Curricula below.

**Master of Science Programs**

Master of science degrees (MS) are offered in the fields of accounting, decision sciences, finance, global energy management, health administration, information systems, international business, management and marketing.

The MS degree affords the opportunity for specialization and depth of training within a particular field. The specialization and expertise developed within the MS program prepares the student for more specialized staff positions in industry, the nonprofit sector and government.

The course requirements for the MS degree in each of the fields are divided into two components—common body of knowledge (CBK) and graduate core requirements. The common background requires business courses to develop general breadth and competence in the fields of business administration. These requirements differ among degree programs. Some common background requirements may be waived if evidence of equivalent undergraduate or graduate-level course work is shown and the course work is no more than 10 years old. An undergraduate degree in business administration earned from an AACSB or regionally accredited university will meet most of the CBK requirements. The graduate core requires at least 30 semester hours of graduate-level courses. BUSN courses lower than 6800 may not be used as free electives in the MS programs. Contact a graduate staff advisor for any exceptions.

No comprehensive exams are required.

For a list of graduate MS programs, see Program Curricula below.

**Dual Degree Programs**

Dual degree program options within the Business School include:

- MBA/MS
- MS/MS
- MBA/MIM
- MBA/MD
MBA/MURP (Urban and Regional Planning)

**PhD CSIS Program**

**Program co-directors:** Gita Alaghband and Mike Mannino  
**Telephone:** 303-556-4314 (Alaghband), 303-315-8427 (Mannino)

The computer science department and the Business School offer a joint doctor of philosophy degree program in **computer science and information systems (CSIS)**. The program targets students who have a master’s-level education in either computer science or information systems and who seek research training that combines CS and IS along with strong industry interaction. The joint PhD program provides training for academic positions, industrial research positions and senior consulting positions. The specific goals of the program complement these general goals:

- create a pool of graduates with CSIS research training who are qualified for academic and nonacademic careers
- meet student demand for advanced training in CSIS with accommodations for full-time and part-time students
- promote interdisciplinary research between the CSE department and the Business School
- enhance technology transfer between CSIS academic units and front range technology businesses through joint research, student internships, faculty externships and committee participation

**Admission**

Prospective students apply to either the computer science and engineering department or the Business School. Applicants who pass the initial screening are reviewed by a joint committee consisting of the two co-directors of the program for the final admittance decision.

Admission criteria include GPA (undergraduate and graduate), standardized test scores (GMAT or GRE), letters of recommendation, prior achievements in academia and industry and the application portfolio essay describing an applicant’s motivation and an initial plan for doctoral study. The application portfolio is important to gauge an applicant’s motivation for research training.

Due to the program’s goals, preference is given to students with a master’s degree in either computer science or information systems. Students without a master’s degree in either area will need to take additional course work depending on the student’s background.

**Program Organization**
Supervision of the PhD Program

The PhD program is supervised by co-directors from the Business School and the CSE department. The duties of the co-directors include scheduling of doctoral courses, setting program policies subject to approval of the Business School and the CSE faculty, working with advisors and doctoral committee chairs to ensure compliance with the program guidelines, resolving disputes, measuring performance of the program over time and providing the final decision on admittance of students.

Advisor

Upon entering the program, each student chooses an advisor who will provide mentoring and guidance in the course of the entire program. The advisor will work with the student to prepare a program of study in the course work part of the program. The advisor will also work with the student in the preparation of the first- and second-year papers. Requests to change the advisor must be approved by the co-directors of the PhD program.

Dissertation Committee

The advisor and four other members form a dissertation committee. To foster interdisciplinary work, you may have your dissertation research co-advised by two faculty members. At least one co-advisor must be a full-time current graduate faculty member in the CSE department or the Business School. The committee must contain at least one faculty member from the CSE department and at least one from the Business School. At least one committee member is from outside of the CSE Department and the Information Systems faculty.

Executive Programs

Executive MBA

Faculty and Resources

The faculty are senior faculty of the business schools from three of the university’s campuses. The executive MBA program is offered jointly by the Graduate Schools of Business Administration in Boulder and Colorado Springs and the Business School in Denver. Faculty are nationally recognized, and all possess both practical managerial experience and a demonstrated ability to work effectively with executive-level students.

Admission Requirements
The executive MBA program is designed for men and women who have eight to 10 years experience in a decision-making position. In the selection process, significant attention will be given to the depth and breadth of the candidate's experience, progression in job responsibility, total work experience and the ability to benefit from this integrative classroom/work environment. The admissions committee will base its decision on the application, former academic record, relevant test scores, the employer's nominating letter, other letters of recommendation and a personal interview.

For application and additional information, write to:

Executive MBA Program
University of Colorado Denver
P.O. Box 480006
Denver, CO 80248-0006

Executive MBA in Health Administration

Program Manager: Pete Taffe
Telephone: 303-623-1888 or 1-800-228-5778

Program Sponsors

The executive program in health administration is a cooperative program of UC Denver and the Network for Healthcare Management.

The University of Colorado Denver serves as the degree-granting institution for the executive program. The graduate program in health administration is located in the Business School.

The Network for Healthcare Management is an educational consortium representing healthcare executives and academic faculty from major health administration graduate programs in the United States and Canada, including Arizona State University, Northwestern University, Ohio State University, San Diego State University, the University of California at Berkeley, the University of California at Los Angeles, the University of Colorado Denver, the University of Michigan, the University of Missouri, the University of North Carolina, the University of Southern California, the University of Toronto, the University of Washington and Virginia Commonwealth University.

Program Curricula

Programs
Bachelor of Science in Business Administration

Accounting Emphasis BS in Business Administration

Program Director: Michael Roberts
Telephone: 303-556-5884
E-mail: Michael.Roberts@ucdenver.edu

Accounting courses are offered in several fields of professional accountancy at the intermediate, advanced and graduate levels. They provide preparation for practice in one or more of the following fields:

- Auditing
- Financial Accounting
- Financial Management
- Management Control Systems
- Managerial Accounting
- Tax Accounting
- Teaching and Research

In all of these fields a thorough knowledge of the social, legal, economic and political environment is needed. A high degree of analytical ability and communication skill is indispensable. A grade of C must be earned in all accounting courses to qualify for graduation.

Courses in English composition, speech, ethics and logic are desirable. Courses in statistics and information systems, beyond the required business core courses, are highly recommended.

Required Courses

- ACCT 3054 - Accounting Systems and Data Processing Summer 2010 Registration: ACCT 3054
- ACCT 3230 - Intermediate Financial Accounting II Summer 2010 Registration: ACCT 3230
- ACCT 3320 - Intermediate Cost Accounting Summer 2010 Registration: ACCT 3320
- ACCT 4410 - Income Tax Accounting Summer 2010 Registration: ACCT 4410
- ACCT 4620 - Auditing Summer 2010 Registration: ACCT 4620
ACCT free elective (4000 level) (3 semester hours) choose one course from the following:

- **ACCT 4240** - Advanced Financial Accounting  *Summer 2010 Registration: ACCT 4240*
- **ACCT 4070** - Management Accounting  *Summer 2010 Registration: ACCT 4070*
- **ACCT 4330** - Managerial Accounting Problems and Cases  *Summer 2010 Registration: ACCT 4330*
- **ACCT 4370** - International Accounting  *Summer 2010 Registration: ACCT 4370*
- **ACCT 4520** - Oil and Gas Accounting  *Summer 2010 Registration: ACCT 4520*
- **ACCT 4780** - Accounting and Information Systems Processes and Controls  *Summer 2010 Registration: ACCT 4780*
- **ACCT 4800** - Accounting for Government and Nonprofit Organizations  *Summer 2010 Registration: ACCT 4800*
- **ACCT 4840** - Independent Study  *Summer 2010 Registration: ACCT 4840*
- **ACCT 4915** - Accounting for the Public Interest  *Summer 2010 Registration: ACCT 4915*
- **ACCT 4950** - Special Topics  *Summer 2010 Registration: ACCT 4950*

**Total: 21 Hours**

Students planning to pursue accounting as a career may take more than the above required hours. Many students complete a total of 30 hours of accounting, often taking two accounting courses each semester in their junior and senior years. Students should work closely with the accounting faculty and business advisors in planning their accounting programs.

The accounting program offers several 4000/6000-level courses. Students with credit for a 4000-level course cannot receive credit for the corresponding 6000-level course. Graduate students should take 6000-level courses.

Accounting students often specialize in a particular topical area of accounting.

**Financial Accounting**

*Recommended Electives*

- **ACCT 4240** - Advanced Financial Accounting  *Summer 2010 Registration: ACCT 4240*
- **ACCT 4800** - Accounting for Government and Nonprofit Organizations  *Summer 2010 Registration: ACCT 4800*

**Managerial Accounting**
Recommended Electives

- ACCT 4330 - Managerial Accounting Problems and Cases  Summer 2010  
  Registration: ACCT 4330
- ACCT 4800 - Accounting for Government and Nonprofit Organizations  Summer 2010  
  Registration: ACCT 4800

Accounting and Information Systems (ACIS)

Within the accounting curriculum students can choose to add courses in information systems to complement their individual interests as well as prior education and work experiences.

Required Courses

- ACCT 3054 - Accounting Systems and Data Processing  Summer 2010  
  Registration: ACCT 3054
- ACCT 3220 - Intermediate Financial Accounting I  Summer 2010  
  Registration: ACCT 3220
- ACCT 3230 - Intermediate Financial Accounting II  Summer 2010  
  Registration: ACCT 3230
- ACCT 3320 - Intermediate Cost Accounting  Summer 2010  
  Registration: ACCT 3320
- ACCT 4410 - Income Tax Accounting  Summer 2010  
  Registration: ACCT 4410
- ACCT 4620 - Auditing  Summer 2010  
  Registration: ACCT 4620
- ACCT 4780 - Accounting and Information Systems Processes and Controls  Summer 2010  
  Registration: ACCT 4780  or
- IMSG 4780 - Accounting and Information Systems Processes and Controls  Summer 2010  
  Registration: IMSG 4780

ISMG Electives

Choose two:

- IMSG 4500 - Database Management and Applications  Summer 2010  
  Registration: IMSG 4500
- IMSG 4600 - Systems Analysis and Design  Summer 2010  
  Registration: IMSG 4600
- IMSG 4900 - Project Management and Practice  Summer 2010  
  Registration: IMSG 4900

Total: 27 Hours
To further specialize, consider a graduate accounting program. Graduate study in accounting is receiving increasing emphasis by professional organizations and employers. Students meeting admission requirements should consider continuing their education at the graduate level. Qualified undergraduates may petition for permission to take one or two graduate accounting courses as electives (e.g. ACCT 6800, Special Topics).

Financial Management and Information Systems Emphasis—BS in Business Administration

The financial management and information systems emphasis provides students with skills that they need to succeed in careers that bridge the fields of finance and information systems.

The financial management and information systems specialty incorporates knowledge of financial management and markets, accounting and information systems and technology. This specialization provides the manager with knowledge of financial information systems, databases, risk management and accounting systems.

Job opportunities include positions that require knowledge of both financial management and business information systems and databases. The specialization provides a solid accounting/finance and information systems background for other finance specialist and business analyst positions as well.

Required Courses

Finance

- FNCE 3500 - Management of Business Capital Summer 2010 Registration: FNCE 3500
- FNCE 4330 - Investment and Portfolio Management Summer 2010 Registration: FNCE 4330
- FNCE 4350 - Financial Markets and Institutions Summer 2010 Registration: FNCE 4350
- FNCE 4500 - Corporate Financial Decisions Summer 2010 Registration: FNCE 4500

Accounting

- ACCT 3054 - Accounting Systems and Data Processing Summer 2010 Registration: ACCT 3054
- ACCT 3220 - Intermediate Financial Accounting | Summer 2010 Registration: ACCT 3220
- ACCT 3320 - Intermediate Cost Accounting | Summer 2010 Registration: ACCT 3320
- ACCT 4780 - Accounting and Information Systems Processes and Controls | Summer 2010 Registration: ACCT 4780 or ISMG 4780
- ISMG 4780 - Accounting and Information Systems Processes and Controls | Summer 2010 Registration: ISMG 4780

**ISMG**

- ISMG 4500 - Database Management and Applications | Summer 2010 Registration: ISMG 4500
- ISMG 4600 - Systems Analysis and Design | Summer 2010 Registration: ISMG 4600
- ISMG 4900 - Project Management and Practice | Summer 2010 Registration: ISMG 4900

**Total: 33 Hours**

In addition, students must complete FNCE 4370, International Finance, to fulfill the international studies requirement.

**Financial Management Emphasis—BS in Business Administration**

The financial management emphasis provides students with the skills needed to succeed in careers in financial management. The business community has affirmed that students need skills in both the accounting and finance areas. The financial management specialty incorporates knowledge of corporate financial management, financial institutions and markets, investments, financial accounting and managerial accounting, accounting information systems and information technology. Career opportunities include corporate financial management, finance/accounting positions with financial institutions and accounting positions that are not CPA-track. The specialization provides a solid finance and accounting background for other business positions as well.

**Required Courses**

- FNCE 3500 - Management of Business Capital | Summer 2010 Registration: FNCE 3500
- FNCE 4330 - Investment and Portfolio Management | Summer 2010 Registration: FNCE 4330
• FNCE 4350 - Financial Markets and Institutions  Summer 2010 Registration: FNCE 4350
• FNCE 4500 - Corporate Financial Decisions  Summer 2010 Registration: FNCE 4500
• ACCT 3054 - Accounting Systems and Data Processing  Summer 2010 Registration: ACCT 3054
• ACCT 3220 - Intermediate Financial Accounting I  Summer 2010 Registration: ACCT 3220
• ACCT 3320 - Intermediate Cost Accounting  Summer 2010 Registration: ACCT 3320

Total: 24 Hours

In addition, financial management students must complete FNCE 4370, International Finance, to fulfill the international studies requirement.

* Students should note that all finance and accounting courses are not offered every semester. Students should take the ACCT 2200 and ACCT 2220 courses as soon as possible to avoid future problems in their schedules, since these are prerequisites for all courses in the specialization.

Human Resources Management Emphasis—BS in Business Administration

Human resources management offers opportunities for students to develop professional competence in the areas of personnel administration and development. Students acquire an understanding of, and skills in, developing and implementing human resources systems, including recruitment, selection, evaluation, training, motivation and compensation.

Required Course

• MGMT 3010 - Managing People for a Competitive Advantage  Summer 2010 Registration: MGMT 3010

Electives

Choose two:

• MGMT 4420 - Human Resources Management: Staffing  Summer 2010 Registration: MGMT 4420
• MGMT 4430 - Human Resources Management: Training  Summer 2010 Registration: MGMT 4430
Management Electives

Choose three:

- Any MGMT Course (3 semester hours)
- BLAW 4120 - Legal Issues for Entrepreneurs Summer 2010 Registration: BLAW 4120
- ENTP 3000 - Principles of Entrepreneurship Summer 2010 Registration: ENTP 3000

Total: 18 Hours

Information Systems Emphasis—BS in Business Administration

The information systems program at the University of Colorado Denver is a nationally accredited program for students who want to design and implement effective solutions to meet organizational and management needs for information, control and decision making.

An information systems (ISMG) emphasis draws on a diverse set of skills and strengths requiring creative and innovative thinking at the intersections of disciplinary knowledge and practice. Information systems students learn how information technology, effective teamwork and leadership and sound project management combine to enable innovation and change, to improve organizational agility and to add competitive value. Courses require extensive hands-on projects, teamwork and use of high-end technology. A combination of technical skills gained in class work with broad based business process knowledge enables our graduates to be ideally situated to take leading roles in shaping the technology-based future of employers in the Rocky Mountain region and the nation.
Undergraduate options

The Business School at the University of Colorado Denver offers a bachelor of science in business administration where you may choose information systems as your primary core specialty:

- Information Systems, Bachelor of Science in Business Administration degree
Or you may choose to add an information systems speciality to another business discipline.

- Accounting and Information Systems emphasis
- Financial Management Systems emphasis
- Management and Information Systems emphasis
- Marketing and Information Systems emphasis

Career Opportunities

Careers in information systems continue to be one of the highest growth markets in the business world. A student completing the information systems program curriculum will be prepared for challenging careers as business analyst, database analyst, Web content manager, project manager, IT consultant and information auditing and compliance specialist. Employment possibilities include financial operations, health care, management consulting, service operations, transportation and logistics and government.

Information systems is becoming the foundation of all business activities, and a solid understanding of the role of information systems in business and in the national and global economy is now critical for every business student. The information systems emphasis focuses on effective use of information technology in business. You are equipped with logical and analytical thinking in all areas of business and a strong basis for continued career growth in a variety of growing professions. You will develop the technical skills, business know-how and administrative insights required for acquisition, deployment and management of IT resources and services development, operation and evolution of IS infrastructure for use in accounting, finance, marketing, management and other business processes.

Curriculum

The courses emphasize both team and individual work, allowing students to gain critical thinking skills, knowledge and experience to analyze, design, program, implement and use information.
Requirements for the Information Systems emphasis

Lower Division

- ISMG 2050 - Introduction to Business Problem Solving  Summer 2010  
  Registration: ISMG 2050  (fall or spring)
- ISMG 2800 - Designing for the Web  Summer 2010  Registration: ISMG 2800  
  (spring)

Upper Division: Junior Year

- ISMG 3000 - Principles of Information Systems  Summer 2010  Registration: 
  ISMG 3000
- ISMG 3500 - Enterprise Data and Content Management  Summer 2010  
  Registration: ISMG 3500  (fall)
- ISMG 3600 - System Strategy, Architecture and Design  Summer 2010  
  Registration: ISMG 3600  (spring)

Upper Division: Senior Year

- ISMG 4200 - Building Business Applications  Summer 2010  Registration: ISMG 
  4200  (fall)
- ISMG 4700 - Business Data Communications and Networking  Summer 2010  
  Registration: ISMG 4700  (spring)
- ISMG 4900 - Project Management and Practice  Summer 2010  Registration: ISMG 
  4900  (fall or spring)

Important note

It is particularly important to take the required courses in the proper sequence to fulfill the prerequisites and ensure you can complete your degree within four years. Please refer to the sample degree plan for the recommended course sequence.

Information Systems Electives

- ACCT 3054 - Accounting Systems and Data Processing  Summer 2010  
  Registration: ACCT 3054
- CSCI 2312 - Intermediate Programming  Summer 2010  Registration: C SC 2312
- CSCI 2421 - Data Structures and Program Design  Summer 2010  Registration: C 
  SC 2421
- ISMG 4300 - Information Security and Compliance  Summer 2010  Registration: ISMG 4300
Specialization in a minor area

You may also choose a secondary business minor area to support your career objectives.

Accounting

Choose two from the following:

- ACCT 3054 - Accounting Systems and Data Processing  Summer 2010 Registration: ACCT 3054
- ACCT 3230 - Intermediate Financial Accounting II  Summer 2010 Registration: ACCT 3230
- ACCT 4780 - Accounting and Information Systems Processes and Controls  Summer 2010 Registration: ACCT 4780

Finance

Choose two from the following:

- FNCE 3500 - Management of Business Capital  Summer 2010 Registration: FNCE 3500
- FNCE 4330 - Investment and Portfolio Management  Summer 2010 Registration: FNCE 4330
- FNCE 4350 - Financial Markets and Institutions  Summer 2010 Registration: FNCE 4350
- FNCE 4750 - Business Intelligence and Financial Modeling  Summer 2010 Registration: FNCE 4750

Human Resource Management

Choose two from the following:

- MGMT 3010 - Managing People for a Competitive Advantage  Summer 2010 Registration: MGMT 3010
• MGMT 4420 - Human Resources Management: Staffing Summer 2010  
  Registration: MGMT 4420
• MGMT 4430 - Human Resources Management: Training Summer 2010  
  Registration: MGMT 4430
• MGMT 4450 - Human Resources Management: Compensation Summer 2010  
  Registration: MGMT 4450
• MGMT 4770 - Human Resource Information Systems Summer 2010  
  Registration: MGMT 4770

Management

Choose two from the following:

• MGMT 4350 - Leading Organizational Change Summer 2010  
  Registration: MGMT 4350
• MGMT 4370 - Organization Design Summer 2010  
  Registration: MGMT 4370
• MGMT 4400 - Environments of International Business Summer 2010  
  Registration: MGMT 4400

Marketing

Choose two from the following:

• MKTG 3100 - Marketing Research Summer 2010  
  Registration: MKTG 3100
• MKTG 3200 - Buyer Behavior Summer 2010  
  Registration: MKTG 3200
• MKTG 4050 - Applied Marketing Management Summer 2010  
  Registration: MKTG 4050
• MKTG 4760 - Customer Relationship Management Summer 2010  
  Registration: MKTG 4760

NOTE:

All information systems courses are not offered every semester.

International Business Emphasis—BS in Business Administration

Increasingly, businesses are reorienting their thinking, planning and operations to capitalize on opportunities that exist in the world marketplace. Every phase of business
is affected by this reorientation. For individuals with the appropriate skills, training and interest, international business provides excellent career opportunities.

The international business curriculum is designed to enhance and build on thorough training in basic business skills and to provide students with additional skills and knowledge appropriate to international business.

**Required Foundation Courses**

- MGMT 4370 - Organization Design  *Summer 2010 Registration: MGMT 4370*
- MKTG 4050 - Applied Marketing Management  *Summer 2010 Registration: MKTG 4050*

**Required Emphasis Courses**

- FNCE 4370 - International Financial Management  *Summer 2010 Registration: FNCE 4370*
- MGMT 4400 - Environments of International Business  *Summer 2010 Registration: MGMT 4400*
- MGMT 4410 - Operations of International Business  *Summer 2010 Registration: MGMT 4410*
- MKTG 4200 - International Marketing  *Summer 2010 Registration: MKTG 4200*

**Total: 18 Hours**

A second area of emphasis in business is highly recommended. In addition, serious consideration should be given to advanced study of a foreign language and to either a minor or a certificate in international affairs, offered by the College of Liberal Arts and Sciences.

**Elective Business Emphasis Courses (9 credit Hours)**

- Three business courses (3000 or 4000 level), 3 semester hours each
  Students are strongly recommended to take courses within the same business discipline, including internationally-oriented courses within the discipline such as MKTG 4220 (Asian Business Development and Marketing) and ACCT 4370 (Internationally Accounting)

**Management Emphasis—BS in Business Administration**
The management curriculum provides the foundation for careers in supervision and general management in a wide variety of organizations. It develops skills in management practice through an understanding of general management principles, individual and group behavior, organizational change and design and human resources management.

**Required Foundation Courses**

- MKTG 4050 - Applied Marketing Management  
  *Summer 2010 Registration:* MKTG 4050

**Required Emphasis Courses**

- MGMT 3010 - Managing People for a Competitive Advantage  
  *Summer 2010 Registration:* MGMT 3010
- MGMT 4350 - Leading Organizational Change  
  *Summer 2010 Registration:* MGMT 4350
- MGMT 4370 - Organization Design  
  *Summer 2010 Registration:* MGMT 4370

Choose two:

- Any upper-division MGMT course (3 semester hours)
- BLAW 4120 - Legal Issues for Entrepreneurs  
  *Summer 2010 Registration:* BLAW 4120
- ENTP 3000 - Principles of Entrepreneurship  
  *Summer 2010 Registration:* ENTP 3000

**Total: 18 Hours**

These 6 hours must be in addition to MGMT courses that were used to satisfy the international business or diversity requirements.

**Management/Information Systems (MGIS)**

Within the management curriculum students can choose to add additional courses in information systems to complement their individual interests as well as prior education and work experiences.

**Required Information System courses**

- ISMG 4500 - Database Management and Applications  
  *Summer 2010 Registration:* ISMG 4500
Marketing Emphasis—BS in Business Administration

Marketing is concerned with directing the activities of the organization toward the satisfaction of customer wants and needs. This involves understanding customers, identifying those wants and needs that the organization can best serve, guiding the development of specific products or services, planning and implementing ways to take products or services to the market, securing the customer’s order and finally, monitoring customer response in order to guide future activities.

In most organizations, marketing is a major functional area that provides a wide variety of career opportunities in such fields as personal selling and sales management, advertising and sales promotion, public relations, marketing research, physical distribution, product management, market management, marketing information systems and retail management. Increasingly, career opportunities exist in service businesses and nonprofit organizations.

Required Foundation Courses

- **BLAW 4120 - Legal Issues for Entrepreneurs** Summer 2010 Registration: BLAW 4120
- **MGMT 4370 - Organization Design** Summer 2010 Registration: MGMT 4370

Required Emphasis Courses

- **MKTG 3100 - Marketing Research** Summer 2010 Registration: MKTG 3100
- **MKTG 4050 - Applied Marketing Management** Summer 2010 Registration: MKTG 4050
  MKTG required 3 courses (9 semester hours): CHOOSE FROM:

Electives

Choose three:

- **MKTG 3200 - Buyer Behavior** Summer 2010 Registration: MKTG 3200
- **MKTG 4000 - Advertising** Summer 2010 Registration: MKTG 4000
- MKTG 4200 - International Marketing Summer 2010 Registration: MKTG 4200
- MKTG 4220 - Asian Business Development and Marketing Summer 2010 Registration: MKTG 4220
- MKTG 4580 - International Transportation Summer 2010 Registration: MKTG 4580
- MKTG 4700 - Personal Selling and Sales Management Summer 2010 Registration: MKTG 4700
- MKTG 4950 - Special Topics Summer 2010 Registration: MKTG 4950

Total: 21 Hours

In addition to the three required courses beyond the core, students may select marketing electives, business electives and nonbusiness electives that support their particular career orientations. The marketing faculty advisor can assist the student in choosing an appropriate set of electives to fit career objectives.

Marketing courses that were used to satisfy the international business requirement cannot be applied to the marketing area of emphasis.

Marketing/Information Systems (MKIS)

Within the marketing curriculum students can choose to add courses in information systems to complement their individual interests as well as prior education and work experiences.

Required Information System Courses

- ISMG 4500 - Database Management and Applications Summer 2010 Registration: ISMG 4500
- ISMG 4600 - Systems Analysis and Design Summer 2010 Registration: ISMG 4600
- ISMG 4900 - Project Management and Practice Summer 2010 Registration: ISMG 4900

Required Emphasis Courses

- MKTG 3100 - Marketing Research Summer 2010 Registration: MKTG 3100
- MKTG 4050 - Applied Marketing Management Summer 2010 Registration: MKTG 4050
- ISMG 4760 - Customer Relationship Management Summer 2010 Registration: ISMG 4760 or
- MKTG 4760 - Customer Relationship Management Summer 2010 Registration: MKTG 4760
Choose two:

- MKTG 3200 - Buyer Behavior
- MKTG 4000 - Advertising
- MKTG 4220 - Asian Business Development and Marketing
- MKTG 4700 - Personal Selling and Sales Management
- MKTG 4720 - Internet Marketing
- MKTG 4950 - Special Topics

Summer 2010 Registration:

- MKTG 3200
- MKTG 4000
- MKTG 4220
- MKTG 4700
- MKTG 4720
- MKTG 4950

Total: 24 Hours

Marketing courses that were used to satisfy the international business requirement cannot be applied to the marketing area of emphasis.

Non Degree

Business Administration Minor

Students in other undergraduate schools and colleges at the Downtown Campus wishing to take a minor in business administration must have a 2.0 GPA to enter as a business minor plus a 2.0 GPA in business courses.

Prerequisites

- ISMG 2050 - Introduction to Business Problem Solving
- MATH 1070 - Algebra for Social Sciences and Business
- MATH 1110 - College Algebra
- MATH 1080 - Polynomial Calculus
- DSCI 2010 - Business Statistics
- ECON 2022 - Principles of Economics: Microeconomics

Summer 2010 Registration:

- ISMG 2050
- MATH 1070 or MATH 1110
- MATH 1080
- DSCI 2010 or a statistics class approved by the Business School
- ECON 2022

Required Courses
• MGMT 1000 - Introduction to Business  
  Summer 2010 Registration: MGMT 1000
• ACCT 2200 - Financial Accounting and Financial Statement Analysis  
  Summer 2010 Registration: ACCT 2200
• BLAW 3000 - Legal and Ethical Environments of Business  
  Summer 2010 Registration: BLAW 3000
• MKTG 3000 - Principles of Marketing  
  Summer 2010 Registration: MKTG 3000
• FNCE 3000 - Principles of Finance  
  Summer 2010 Registration: FNCE 3000
• MGMT 3000 - Managing Individuals and Teams  
  Summer 2010 Registration: MGMT 3000

Twelve of these 18 hours must be taken while in residence at the Downtown Campus. If the student has already taken the equivalent of one or more of these courses, other higher-level business courses may be substituted with Business School approval. Up to 6 hours of the 18 required business courses may be taken at another institution. Transfer credit will be granted on the same basis that transfer credit is granted for courses taken by business majors.

Zhiping Walter, PhD, University of Rochester

**Senior Instructors:**
The master of business administration (MBA) program provides a general background in management and administration. This background enables the student to have the breadth of exposure and depth of knowledge required for an advanced-level management career. The program is devoted to developing the concepts, analytical tools and communication skills required for competent and responsible administration of an enterprise viewed in its entirety, within its social, political and economic environment.

The professional MBA program allows the scheduling of classes with maximum flexibility so students can progress through the program at their own pace, by taking as little as one class per semester or as many as five classes per semester, at times that are
convenient to their work schedule. The program can be completed in as little as 16 months or as long as five years plus one semester.

Online courses add additional flexibility. Students may complete all degree requirements online, or combine online and campus courses to broaden your choice of electives or to fit a business travel schedule or personal learning style. Choice of online electives is limited.

The MBA program is also available in different configurations: 11-month (full time, see relevant section), health administration and the executive MBA (see relevant section). All MBAs have the same curriculum requirements; they differ only in their focus, the flexibility of course scheduling and the time required to complete the program. The 11-month and executive MBAs are lockstep programs (no open electives, no specialized tracks), where all the students complete all program requirements together. No course transfers, waivers or substitutions are permitted.

Program Requirements

Core Requirements

- BUSN 6520 - Managing Individuals and Teams Summer 2010 Registration: BUSN 6520
- BUSN 6530 - Data Analysis for Managers Summer 2010 Registration: BUSN 6530
- BUSN 6540 - Legal and Ethical Environment of Business Summer 2010 Registration: BUSN 6540
- BUSN 6550 - Analyzing and Interpreting Accounting Information Summer 2010 Registration: BUSN 6550
- BUSN 6560 - Marketing Management Summer 2010 Registration: BUSN 6560
- BUSN 6610 - Information Systems Management and Strategy Summer 2010 Registration: BUSN 6610
- BUSN 6620 - Applied Economics for Managers Summer 2010 Registration: BUSN 6620
- BUSN 6630 - Management of Operations Summer 2010 Registration: BUSN 6630
- BUSN 6640 - Financial Management Summer 2010 Registration: BUSN 6640
- BUSN 6710 - Strategic Management Summer 2010 Registration: BUSN 6710

Electives

International business elective (1) (3 semester hours)
Free electives (5) (15 semester hours)
Total: 48 Hours

Notes and Restrictions:

*Core Substitution.* Students with extensive and comparable course work in a particular core subject area may petition to substitute a higher-level graduate core course on the basis of prior undergraduate or graduate course work taken at a regionally accredited college or university for the corresponding core class. This does not waive the 48-hour requirement. If a core course is substituted, another graduate level course in the same functional area must be used as a substitute so that the student completes a total of 48 semester hours.

*International Elective.* One 3-hour course with an international focus must be completed. Contact a graduate advisor or refer to a current MBA degree plan for a complete list of options.

*Electives.* The professional MBA curriculum allows for 15 semester hours of elective credit, which can be chosen from graduate-level courses offered by the Business School, except BUSN courses numbered below 6800. Additional graduate-level course work completed at the Downtown Campus outside the Business School may be applied to the MBA degree, but only with prior written approval of the MBA program director.

*Note:* Electives for the 11-month and executive MBA programs are preselected for all students.

**MBA Specializations**

Graduate students will have an opportunity to take specialized tracks within the professional MBA program by completing a prespecified program of elective courses. The following 15 tracks are available:

- Business-to-Business Marketing
- Business Intelligence
- Business-to-Consumer Marketing
- Business Strategy
- Change Management
- Corporate Financial Management
- Decision Sciences
- Enterprise Technology Management
- Entrepreneurship
- Finance
- Financial Analysis
For additional information about the professional MBA program, contact a graduate advisor at 303-315-8201.

**Business Administration—11–Month MBA**

**Program Director:** Gary Colbert  
**Administrative Director:** Debbie Follenweider  
**E-mail:** 11-monthMBA@ucdenver.edu  
**Telephone:** 303-315.8800  
**Web site:** www.busniess.ucdenver.edu/11month

The 11-month MBA is an accelerated full-time program that brings academically superior students together with select research and teaching faculty. The program enables students to focus their energies in a concentrated, total-immersion program of study earning a nationally accredited, 48-semester-hour MBA degree in just under a year.

The 11-month MBA consists of five eight-week terms, three courses per term, plus a two-week international business course abroad. In addition to a minimum of 18 hours of class time each week, the 11-month MBA students spend an average of 30 hours a week on homework. Students should expect a minimum time commitment of 48 hours per week to successfully complete this program.

**Admission and Application Process**

The admissions committee considers each candidate’s entire record of achievement demonstrated through academic transcripts, GMAT scores, essays, letters of recommendation, personal interviews (optional at the candidate’s discretion), work experience and extracurricular and community activities.

**Previous Education**

Applicants’ complete academic records, including GPAs and previous course work are considered. Undergraduate degrees do not have to be in business, but they must be from regionally accredited colleges or universities.
Testing

The GMAT is a requirement for application to the 11-month MBA program and cannot be substituted with other standardized examinations. If you take the GMAT more than once, we will evaluate your application using the highest GMAT score. The GMAT score for students admitted into the 11-month MBA program has averaged around 600. Students must score a minimum 500 to be considered for admission to the 11-month MBA program. The GMAT Web site is www.mba.com.

The 11-month MBA also requires a highly developed proficiency in written and oral English. International applicants whose first language is not English must take the TOEFL or IELTS exam and earn a minimum score of 575/232TOEFL or 7 IELTS to be considered for admission to the 11-month MBA program. Information on taking the TOEFL or IELTS can be obtained by visiting www.ets.org and www.ielts.org.

Work Experience

Students in the 11-month MBA program have an average of six years of work experience. However, experience ranges from the recently graduated to more than 30 years in business. Professional experience strengthens the application, since it adds relevance and depth to the learning process and enables candidates to contribute to and benefit from the knowledge of fellow classmates in the accelerated time frame of the program.

Applications

The following are required for consideration of admission to the program.

- completed application for graduate admission, parts I and II, submitted by published deadlines and fee (domestic or international as appropriate)
- two (2) letters of recommendation from professional or academic acquaintances who are familiar with the applicant’s academic/professional competence
- GMAT scores taken in the last five years sent directly to the graduate admissions office from the Educational Testing Service. When registering for the GMAT, use code MPB-OG-65
- two (2) official transcripts from each school, college or university previously attended past high school, sent directly to the graduate admissions office. A minimum baccalaureate degree is required
• include answers to the four essay questions demonstrating commitment to an accelerated MBA program
• a résumé outlining work experience
• for international students, a minimum official score of 575/232 TOEFL or 7 IELTS is required to apply

The priority date for domestic applications is June 15 (May 1 for international students). Applications (for domestic students) and current fee information are available at www.ucdenver.edu/business/11month.

All of the required admission materials should be sent to:

University of Colorado Denver  
The Business School  
Graduate Admissions  
Campus Box 165, P.O. Box 173364  
Denver, CO 80127-3364

For further information, brochures and application materials, contact the 11-month MBA program at 303-315-8800 or 11-monthMBA@ucdenver.edu.

The 11-month MBA uses a rolling admission system. The committee reviews applications when they are complete in all respects, including transcripts, GMAT scores and letters of recommendation. Candidates are encouraged to submit their application as early in the process as possible. Completed applications are reviewed until early August; applications received after June 15 will be reviewed on a space-available basis. International applicants should have their completed applications in by May 1, to leave them sufficient time for visa and travel arrangements if they are admitted.

A personal interview may also be required for admission to the 11-month MBA.

11-Month MBA Scholarships/Loans

General financial assistance is available for qualified students. Students should apply directly to the Downtown Campus Office of Financial Aid. Call 303-556-2886 for information and forms. In addition, 11-month MBA merit-based scholarships are available only to students in the 11-month MBA. Other Business School scholarships are also available to all MBA students.

Degree Requirements

Students in the 11-month MBA complete 10 MBA core courses, one international business course (conducted abroad) and five special topics courses. All courses require
that students work in teams. Due to the program’s cohort structure, individual elective options are not available to 11-month MBA students. No courses may be waived, substituted or transferred into the program. If a student finds it necessary to leave the accelerated program, credits already earned may be transferred to the professional MBA program on campus.

**MBA Core Courses**

- **BUSN 6520 - Managing Individuals and Teams Summer 2010 Registration:** BUSN 6520
- **BUSN 6530 - Data Analysis for Managers Summer 2010 Registration:** BUSN 6530
- **BUSN 6540 - Legal and Ethical Environment of Business Summer 2010 Registration:** BUSN 6540
- **BUSN 6550 - Analyzing and Interpreting Accounting Information Summer 2010 Registration:** BUSN 6550
- **BUSN 6560 - Marketing Management Summer 2010 Registration:** BUSN 6560
- **BUSN 6610 - Information Systems Management and Strategy Summer 2010 Registration:** BUSN 6610
- **BUSN 6620 - Applied Economics for Managers Summer 2010 Registration:** BUSN 6620
- **BUSN 6630 - Management of Operations Summer 2010 Registration:** BUSN 6630
- **BUSN 6640 - Financial Management Summer 2010 Registration:** BUSN 6640
- **BUSN 6710 - Strategic Management Summer 2010 Registration:** BUSN 6710

Total: 30 Hours

**International Course Abroad**

The international course, which involves travel abroad, is completed as an all-day, two-week intensive course.

**Special Topics Courses**

The special topics courses, revised each year, are selected to create a broad understanding of the most current business issues. These requirements are subject to change.

**Business Administration—Health Administration MBA**
Program Director: Errol L. Biggs

Stephen Ross, MD, University of North Carolina

Instructors:
Errol Biggs, PhD, Pennsylvania State University

Admission Process

Requirements for Admission

Selection of students is a multistep process. When making application to the program for the MBA-HA, candidates should send their applications to:

Graduate Admissions  
Graduate School of Business Administration  
University of Colorado Denver  
Campus Box 165, P.O. Box 173364  
Denver, CO 80217-3364

Application Requirements

- complete the application for graduate admission, parts I and II, and submit by published deadlines
- send two (2) letters of recommendation from professional or academic acquaintances who are familiar with the applicant's academic/professional competence
- end required GMAT scores directly to the graduate office from the Educational Testing Service. When registering for the GMAT, use code MPB-OG-78. GRE scores will also be considered.
- pay the appropriate application fee
- send two (2) official transcripts directly from each school, college or university previously attended past high school. A minimum baccalaureate degree is required.
- include answers to the four essay questions
- document any experience in the field of health services administration (preferred but not required)
- complete a personal interview with the health administration committee

Admission to the MBA-HA degree program is on a competitive basis. Therefore, these admission criteria represent minimum entrance qualifications expected of all students.

For further information, brochures and application materials, contact the Business School's Graduate Program in Health Administration, University of Colorado Denver, 303-315-8200.

**Health Administration Scholarships/Loans**

Financial assistance is available for qualified students. Students should apply directly to the Downtown Campus Office of Financial Aid. Call 303-556-2886 for information and forms.

In addition, some funds are available only to students in the graduate program in health administration:

- Foster G. McGaw Scholarship
- UC Denver MS and MBA Health Administration Scholarship
- Colorado Health Administration Alumni Association Scholarship

Enrollment in the program also makes students eligible to apply for some nationally competitive scholarships from professional organizations.

Call 303-315.8200 for applications or visit [www.business.ucdenver.edu](http://www.business.ucdenver.edu).

**Graduate Program in Health Administration**

The graduate program in health administration is consistently ranked as a top program in the United States and attracts students with a variety of backgrounds and experience levels, which further enriches the classroom experience. The HA program is accredited by the Commission on Accreditation of Healthcare Management Education. The program is the only such program in the Rocky Mountain region and was started in 1968. Full-time faculty with distinguished research records and a select group of
practicing managers provide students with the latest thinking on the most important health issues.

**Degree Requirements**

The curriculum of the MBA with an emphasis in health administration is a synthesis of management concepts and techniques that are applicable to any economic organization, and tools that can be specifically applied to health services systems. The program emphasizes skills that strengthen basic analytic and decision-making processes used by top level managers in selecting broad strategies and by junior managers in administering subunits in health care organizations.

Students enrolled in the master of business administration with an emphasis in health administration must complete a minimum of 48 semester hours of graduate-level course work to receive their degree. The curriculum is based on a series of structured learning sequences. Most of the courses are available in the evening to enable working students to pursue the degree on a part-time basis. The specific course requirements are as follows (recommended sequence):

**Year One**

- **BUSB 6521 - Managing Individuals and Teams (Health Section) Summer 2010 Registration: BUSN 6521**
- **BUSB 6530 - Data Analysis for Managers Summer 2010 Registration: BUSN 6530**
- **BUSB 6550 - Analyzing and Interpreting Accounting Information Summer 2010 Registration: BUSN 6550**
- **HLTH 6010 - Health Care Systems Summer 2010 Registration: HLTH 6010**
- **BUSB 6541 - Legal and Ethical Environment of Business (Health Section) Summer 2010 Registration: BUSN 6541**
- **HLTH 6071 - Introduction To Health Information Technology Summer 2010 Registration: HLTH 6071**
- **BUSB 6621 - Applied Economics for Managers (Health Section) Summer 2010 Registration: BUSB 6621**
- **HLTH____ - Health Elective (3 semester hours)**

Total: 24 Hours

**Year Two**

- **HLTH 6040 - Health Care Financial Management Summer 2010 Registration: HLTH 6040**
- **BUSB 6640 - Financial Management Summer 2010 Registration: BUSN 6640**
- **BUSB 6560 - Marketing Management Summer 2010 Registration: BUSN 6560**
HLTH_____ - International Elective (Health) (3 semester hours)
- BUSN 6631 - Management of Operations (Health Section) Summer 2010
  Registration: BUSN 6631
- DSCI 6440 - Quality and Process Improvement Summer 2010 Registration: DSCI
  6440
- BUSN 6711 - Strategic Management (Health Section) Summer 2010
  Registration: BUSN 6711
- HLTH 6911 - Health Field Studies Summer 2010 Registration: HLTH 6911

Total: 27 Hours

Notes and Restrictions

Students admitted into the MBA with an emphasis in health administration must meet
with a graduate advisor before they register for their first semester. Call 303-315-8200 to
schedule an appointment.

Administrative Residency. An administrative residency is optional but recommended for
students with limited health care experience. The program faculty provide assistance to
students in securing the residency, as well as regular consultation during the residency
period. The program has been very successful in placing graduates in administrative
residencies.

Length of program. A maximum of five years and one semester is allowed to complete
the health administration program.

Specialized Tracks in the MBA with an Emphasis in Health Administration

Each track carries its own specific course requirements. To provide a variety of
perspectives and experiences within a specific area of health administration, each track
includes courses that span various departments within the Business School, other
schools at the Downtown Campus and other University of Colorado campuses.

- International Health Management and Policy Track
- Financial Management Track
- Health Information Technology Management Track

Executive MBA in Health Administration
Distinctive Features of the Executive Program in Health Administration

1. Drawing on the expertise represented by the faculties of a consortium of western universities, the program offers high-quality courses taught by instructors that are typically not available from a single university.

2. The executive program facilitates learning for professionals who have continuing career and family responsibilities. The program is especially tailored for working individuals, allowing students to remain on their jobs while completing their educational program.

3. The program employs innovation in the technology of educational delivery. Learning methods include:
   - computer-assisted instruction and self-paced learning packages
   - computer conferencing and electronic case analyses
   - on-campus sessions

For application and additional information, write to:

Executive Program in Health Administration
The Business School
University of Colorado Denver
P.O. Box 480006
Denver, CO 80248-0006
www.colorado.edu/execed

Master in Business Administration for Executives, MBA

Program Director: W. Scott Guthrie
Telephone: 303-623-1888 or 1-800-228-5778

The executive MBA program provides executive-level students with a broad, rigorous 21-month academic experience leading to the master of business administration degree. The program is designed for persons who hold managerial positions in the private and public sectors. It builds upon the knowledge and experience of these executives with a sophisticated, challenging curriculum that can be pursued simultaneously without career interruption.

The executive MBA program emphasizes strategic leadership; the organization in a complex, international environment; and the applied tools of management. Courses are taught through a variety of methods. Case studies, lectures and computer simulation are combined with research projects and other teaching methods to provide students with
tools useful in their present positions and applicable to more advanced responsibilities as they progress in their management careers.

Each new session of the executive MBA program begins the last week of August. Classes meet for a full day, once a week, on alternating Fridays and Saturdays, making it possible for those who live outside the Denver area to participate.

Two courses are taken simultaneously throughout the program. The program is supplemented by an intensive orientation at the beginning and a two-day seminar at the conclusion of the first academic year. A second-year seminar is held at an international business center outside of North America.

**Master of Business Administration/Master of Science**

**Business Administration/Business MBA/MS**

The Business School also offers MBA/MS dual degree programs for each function of business. The program consists of a minimum of 66 semester hours of graduate work and leads to both an MBA degree and an MS degree, which must be completed within seven years and one semester. See MS program pages for a list of functional areas. Contact a graduate academic advisor for details, 303.315.8200

**Master of Business Administration/Master of International Management**

**Business Administration/International Management MBA/MIM**

This unique combined degree is offered in cooperation with the American Graduate School of International Management (the Thunderbird School) located in Glendale, Arizona, a suburb of Phoenix. Thunderbird has established eight dual programs with universities in the United States. The student applies independently to both schools and, if admitted, earns the MBA from UC Denver and a master of international management degree from Thunderbird. The student begins the program at UC Denver and, after completing 36 semester hours (12 courses) required for the MBA, transfers to the Thunderbird campus and takes a minimum of 30 semester hours (10 courses) for the MIM. When all dual degree requirements are finished, the student is awarded a diploma from each school. For more information about admission to the MBA on the Downtown Campus, refer to the appropriate section of this chapter. For specifics about the dual
MIM application process, call Thunderbird’s associate dean of admissions, Stephen R. Beaver, 1-800-848-9084.

**Master of Business Administration/Doctor of Medicine**

**Business Administration/Medicine MBA/MD**

The MBA/MD is for medical students at the University of Colorado School of Medicine who wish to pursue a career in administrative medicine or who seek additional training in administration or business. The program is designed to be completed in five years, at which time both the MD and MBA degrees would be awarded. Candidates for the MBA/MD complete 36 semester hours of course work in the business school and all requirements for the MD.

**Master of Business Administration/Master of Urban and Regional Planning**

**Business Administration/Urban and Regional Planning MBA/MURP**

This dual degree enables students to obtain both the master of urban and regional planning offered by the College of Architecture and Planning and the master of business administration offered by the Business School upon completion of 78 semester hours. The dual degree program is composed of the core curricula in each program plus a set of electives jointly approved by the student's advisors.

**Master of Science**

**Accounting MS**

**Program Director:** Michael Roberts  
**Telephone:** 303-315-8460  
**E-mail:** Michael.Roberts@ucdenver.edu

**Faculty**
Professors:
Bruce Neumann, PhD, University of Illinois

Associate Professors:
Gary Colbert, PhD, University of Oregon
Carol Dee, PhD, Louisiana State University
L. Ann Martin, PhD, University of Minnesota
Michael Roberts, PhD, Georgia State University

Assistant Professors:
George F. Klersey, PhD, University of Southern California
Mary Malina, PhD, University of Colorado Boulder
Robert Nieschwietz, PhD, Arizona State University

Senior Instructors:
Elizabeth Connor, MS, Colorado State University
Robert Hockenbury, MS, University of Houston

Instructors:
Cindy Fischer, MA, University of Colorado Boulder
Emily Vera, MS, University of Colorado Denver

The master of science in accounting offers three specializations plus a flexible program which allows students to design individualized courses of study. The program provides students the opportunity to acquire a thorough understanding of financial and managerial accounting, auditing and taxation in preparation for successful careers in public or private accounting, as well as government or nonprofit accounting.

Students completing the MS in accounting will complete:

- 6 semester hours of required accounting course work
- 12 semester hours of elective accounting course work*
- 9 semester hours of a secondary business area
- 3 semester hours of a free accounting elective.

*The elective course work can be selected from graduate accounting courses or by selecting one of the three specializations offered within the program. Students who select the accounting and information systems audit and control (AISAAC) specialization
have completely different requirements which are listed under that specialization.

A. Background Accounting Courses*

The MS in accounting also requires completion of the following undergraduate accounting prerequisites.

Must be completed with a grade of B- or higher plus a cumulative GPA of 3.0. Students with grades below a B may be subject to probation.

Required Courses:

- **ACCT 2200 - Financial Accounting and Financial Statement Analysis**  *Summer 2010 Registration: ACCT 2200*
- **ACCT 2220 - Managerial Accounting and Professional Issues**  *Summer 2010 Registration: ACCT 2220*
- **ACCT 3054 - Accounting Systems and Data Processing**  *Summer 2010 Registration: ACCT 3054*
- **ACCT 3220 - Intermediate Financial Accounting I**  *Summer 2010 Registration: ACCT 3220*
- **ACCT 3230 - Intermediate Financial Accounting II**  *Summer 2010 Registration: ACCT 3230*
- **ACCT 3320 - Intermediate Cost Accounting**  *Summer 2010 Registration: ACCT 3320*
- **ACCT 4620 - Auditing**  *Summer 2010 Registration: ACCT 4620*

**Total: 15-21 Hours**

*Waived for students with appropriate background. BUSN 6550, Analyzing and Interpreting Accounting Information, may be substituted for ACCT 2200 and ACCT 2220. International course work waivers are by petition only.

Accounting courses may be taken by nondegree or non-matriculated students.

B. Common Body of Knowledge (CBK)

Based on prior course work, students may be required to take up to three background courses. The following are suggested:

- **BUSN 6540 - Legal and Ethical Environment of Business**  *Summer 2010 Registration: BUSN 6540*
- **BUSN 6620 - Applied Economics for Managers**  *Summer 2010 Registration: BUSN 6620*
- **BUSN 6640 - Financial Management**  *Summer 2010 Registration: BUSN 6640*
C. MS Accounting Core

Required Courses (all students)

(6 semester hours)

- ACCT 6250 - Seminar: Financial Accounting Summer 2010 Registration: ACCT 6250
- ACCT 6260 - Seminar: Managerial Accounting Summer 2010 Registration: ACCT 6260

Accounting Electives

(12 semester hours)

To design an individualized course of study, choose four accounting courses with three of those accounting courses numbered 6260 or higher.

Or, you may select one of the three following specializations to meet this elective requirement.

D. Accounting Specializations

If you select one of the three following specializations, you will complete the required courses, complete four of the choices within your selection of specialization, complete the secondary area and complete a free elective.

Auditing and Forensic Accounting Specialization

Complete the required courses and choose four of the following courses:

- ACCT 6280 - Professional Judgment and Decision Making in Accounting Summer 2010 Registration: ACCT 6280
- ACCT 6340 - Financial Statement Analysis Summer 2010 Registration: ACCT 6340
- ACCT 6350 - Current Issues in Professional Accounting Summer 2010 Registration: ACCT 6350
- ACCT 6380 - Forensic Accounting Summer 2010 Registration: ACCT 6380
- ACCT 6470 - Internal Auditing Summer 2010 Registration: ACCT 6470
- ACCT 6510 - Accounting and Information Systems Processes and Controls Summer 2010 Registration: ACCT 6510
- ACCT 6620 - Advanced Auditing Summer 2010 Registration: ACCT 6620
**Financial Accounting Specialization**

Complete the required courses and choose four of the following courses:

- ACCT 6024 - Advanced Financial Accounting  
  *Summer 2010 Registration: ACCT 6024*
- ACCT 6080 - Accounting for Government and Nonprofit Organizations  
  *Summer 2010 Registration: ACCT 6080*
- ACCT 6280 - Professional Judgment and Decision Making in Accounting  
  *Summer 2010 Registration: ACCT 6280*
- ACCT 6340 - Financial Statement Analysis  
  *Summer 2010 Registration: ACCT 6340*
- ACCT 6350 - Current Issues in Professional Accounting  
  *Summer 2010 Registration: ACCT 6350*
- ACCT 6370 - International Accounting  
  *Summer 2010 Registration: ACCT 6370*

Three of the courses must be selected with course numbers above ACCT 6260.

**Taxation Specialization**

Complete the required courses and choose four of the following courses:

- ACCT 6140 - Tax Planning for Managers  
  *Summer 2010 Registration: ACCT 6140*
- ACCT 6410 - Advanced Tax For Individuals  
  *Summer 2010 Registration: ACCT 6410*
- ACCT 6420 - Advanced Tax for Businesses  
  *Summer 2010 Registration: ACCT 6420*
- ACCT 6430 - International Taxation  
  *Summer 2010 Registration: ACCT 6430*
- ACCT 6450 - Research Problems in Income Tax Accounting  
  *Summer 2010 Registration: ACCT 6450*
- ACCT 6460 - Advance Topics in Taxation  
  *Summer 2010 Registration: ACCT 6460*

Three of the courses must be selected with course numbers above ACCT 6260.

**E. Secondary Area**

*(9 semester hours)*

Accounting is increasingly diverse and linked to many business decisions. Accountants may eventually work as systems designers, chief financial officers, cost analysts, budget officers or chief executive officers. Students will be better prepared for their careers if they develop competencies in a related field, which may be chosen from a single discipline such as finance, information systems, entrepreneurship, health administration,
marketing or management. The accounting faculty strongly encourage students to gain additional expertise in finance and/or information systems.

Alternatively, a self-designed secondary area might best achieve a student's individual objectives (must be approved by the program director). A self-designed secondary field must have a common theme or objective if it crosses several disciplines. For example, a secondary area in information systems might include an accounting technology course, a data base management course and a finance technology course. On the other hand, a finance secondary area might include two finance courses and a cost management (accounting) course or a strategic management course. When a BUSN course is a prerequisite for a secondary area, it can be included in the secondary area by petition only. Consult a schedule planner for information about current course offerings and a current catalog for course descriptions.

F. Free Accounting Elective

(3 semester hours)

Select one graduate accounting course numbered above ACCT 6000.

G. Total: 30 Hours

Accounting and Information Systems Audit and Control (AISAAC) Specialization

Recently, new regulatory environments have required companies to provide better documentation of their accounting and IT systems to improve the management and disclosure of their business processes for better financial and regulatory controls. Accounting and IT professionals have significant roles in audit and control activities, since they control the systems that monitor and report on finance, planning and operations. The courses within this specialization cover business-process management and financial controls; the emerging trends and practices in privacy and security; the strategies for integrating governance and compliance; and the IT organization's financial and business intelligence services. These courses will focus on how to leverage the existing IT infrastructure to establish quality in financial and internal audit processes and address the regulatory issues associated with reporting, consolidation and document/content management more effectively and completely.

As you will notice the complete 30 semester hour requirements for this specialization are listed below.

Accounting Core
(9 semester hours)

- ACCT 6250 - Seminar: Financial Accounting Summer 2010 Registration: ACCT 6250
- ACCT 6260 - Seminar: Managerial Accounting Summer 2010 Registration: ACCT 6260
- ACCT 6620 - Advanced Auditing Summer 2010 Registration: ACCT 6620

AISAAC Common Courses

(12 semester hours)

Choose four of the following courses:

- ACCT 6020 - Auditing Summer 2010 Registration: ACCT 6020
- ACCT 6510 - Accounting and Information Systems Processes and Controls Summer 2010 Registration: ACCT 6510 or
- ISMG 6510 - Accounting and Information Systems Processes and Controls Summer 2010 Registration: ISMG 6510
- ISMG 6040 - Business Process Management Summer 2010 Registration: ISMG 6040
- ISMG 6420 - Global Enterprise Systems Summer 2010 Registration: ISMG 6420

Choose three of the following courses:

(9 semester hours)

- ACCT 6340 - Financial Statement Analysis Summer 2010 Registration: ACCT 6340
- ACCT 6800 - Special Topics Summer 2010 Registration: ACCT 6800
- ISMG 6080 - Database Management Systems Summer 2010 Registration: ISMG 6080
- ISMG 6180 - Information Systems Management and Strategy Summer 2010 Registration: ISMG 6180
- ISMG 6430 - Information Systems Security and Privacy Summer 2010 Registration: ISMG 6430

Total 30 hours

Decision Sciences MS
Program Director: Marlene A. Smith  
Telephone: 303-315-8421  
E-mail: Marlene.Smith@ucdenver.edu

The MS in decision sciences focuses on modeling and applications which prepares you for a career as a decision science specialist in industry or government. Today, companies in every conceivable industry are reaping the benefits of using formal mathematical models to assist them in addressing complex business problems. Decision science graduates hold positions that bridge the gap between operations research/statistics specialists and management.

Learn to apply quantitative methods to real-world problems using modern methodologies adopted from statistics, operations research, and management science. Although the MS in decision sciences is founded in operations research methods, it focuses on applications of these methods in the workplace rather than the development of new operations research techniques. The managerial emphasis of our degree is accomplished through a comprehensive set of elective and required course work such as data analysis, operations management, forecasting, project management, simulation and supply chain management. A required practicum course provides students with the opportunity (under the direction of faculty) to solve a real, complex workplace problem for a local Denver organization.

Requirements for the MS degree in decision sciences are met by the following courses and options:

**Prerequisite course work:**

Accounting: completion of BUSN 6550 or two undergraduate accounting courses with a grade of B- or better along with useable knowledge of spreadsheets.

**Required Courses**

- **BUSN 6530 - Data Analysis for Managers**  
  *Summer 2010 Registration: BUSN 6530*
- **BUSN 6630 - Management of Operations**  
  *Summer 2010 Registration: BUSN 6630*
- **DSCI 6820 - Project Management**  
  *Summer 2010 Registration: DSCI 6820*
- **DSCI 6230 - Business Forecasting**  
  *Summer 2010 Registration: DSCI 6230*
- **DSCI 6460 - Decision Analysis**  
  *Summer 2010 Registration: DSCI 6460*
- **DSCI 6910 - Decision Sciences Practicum**  
  *Summer 2010 Registration: DSCI 6910*

DSCI Electives (12 semester hours)
Total: 30 Hours

Notes and Restrictions

Decision sciences electives must include at least two DSCI courses numbered 6000 or higher. Remaining decision sciences electives may be any of the following courses: DSCI 6000 or higher; MKTG 6050, Marketing Research; or FNCE 6480, Financial Modeling.

Students are not required to take a comprehensive examination or complete a thesis in the major field.

Finance MS

Program Director: Ajeyo Banerjee
Telephone: 303.315.8456

Faculty

Professors:
Marcelle Arak, PhD, Massachusetts Institute of Technology
Jean-Claude Bosch, PhD, University of Washington
E. Woodrow Eckard, PhD, University of California-Los Angeles
Richard Foster, PhD, University of Chicago
James Morris, PhD, University of California-Berkeley
Dean Taylor, PhD, University of Chicago

Associate Professors:
Ajeyo Banerjee, PhD, University of Massachusetts-Amherst
Elizabeth Cooperman, PhD, University of Georgia
Jian Yang, PhD, Texas A&M University

Senior Instructors:
John Byrd, PhD, University of Oregon
Chen Ji, MS, University of Colorado
Barbara Pelter, PhD, University of California-Davis
John Turner, PhD, St. Louis University

Instructors:
John Daley, PhD, University of Washington
Cindy Sutfin, MS, University of Colorado
The master of science in finance provides the necessary depth and specialized expertise to meet the need of businesses for financial managers, investment analysts and other finance specialists.

The program emphasizes a familiarity with the institutions in our financial system, an understanding of financial markets and instruments, and the analytical skills and tools necessary to make informed decisions about investment and financing.

The program is suited to students from a wide variety of undergraduate backgrounds and is particularly appropriate to students with strong technical and analytical backgrounds.

The MS in finance offers flexibility with on-campus and online courses. The MS finance degree requirements are met by the following courses and options:

**Required Courses**

- **BUSN 6620** - Applied Economics for Managers  *Summer 2010 Registration: BUSN 6620*
- **BUSN 6640** - Financial Management  *Summer 2010 Registration: BUSN 6640*
- **FNCE 6290** - Quantitative Methods for Finance  *Summer 2010 Registration: FNCE 6290*
- **FNCE 6300** - Macroeconomics and Financial Markets  *Summer 2010 Registration: FNCE 6300*
- **FNCE 6330** - Investment Management Analysis  *Summer 2010 Registration: FNCE 6330*
- **FNCE 6380** - Futures and Options  *Summer 2010 Registration: FNCE 6380*
- **FNCE 6382** - Survey of Financial Derivatives: Futures, Options and Swaps  *Summer 2010 Registration: FNCE 6382*

**FNCE Electives (3) (9 semester hours)**

Free Elective (1) (3 semester hours)

**Total: 30 Hours**

Prerequisites: BUSN 6550, Analyzing and Interpreting Accounting Information, or the equivalent accounting background. Students are also expected to be knowledgeable in spreadsheet software.

**Notes and Restrictions**

*Finance Electives.* Choose three courses in finance from the list of regularly scheduled graduate classes in consultation with an advisor.
Free Elective. Students complete 3 semester hours of graduate business course work (excluding BUSN courses numbered below 6800). Modern finance is heavily mathematical and draws extensively on economics and accounting. Courses in these areas are especially useful. Petitions may be submitted to the program director for special courses that fit a student’s individual needs.

Global Energy Management MS

Program Advisor: Sarah Dushame
Telephone: 303-605-6212
E-mail: Sarah.Dushame@ucdenver.edu

Faculty

Professors/Instructors

Timothy Antoniuk, MDes, University of Alberta
William Ascher, PhD, Yale University
Stephen Brown, PhD, University of Maryland
Matthew Clarke, PhD, University of Calgary
William Fox, JD, Catholic University of America
Mean Husein, PhD, McGill University
Merrily Kaut, PhD, University of Colorado Denver
L. Ann Martin, PhD, University of Minnesota

The master of science in global energy management (GEM) prepares individuals for leadership careers in the energy industry. This degree is particularly appropriate for individuals seeking to advance their existing careers in the energy field. Prior work experience within the field is preferred, but not required. The program consists of two components: the core curriculum and the more advanced and specialized elective courses. The MS GEM program requires the completion of the following core classes as well as four elective courses from the selection listed below.

Required Courses

- **GEMM 6000 - 21st Century Global Energy Issues and Realities** Summer 2010
  Registration: GEMM 6000
- **GEMM 6100 - Global Energy Economics and Geography** Summer 2010
  Registration: GEMM 6100
• GEMM 6200 - Environmental, Regulatory, Legal & Political Environment in the Energy Industry  Summer 2010 Registration: GEMM 6200
• GEMM 6300 - Renewable and Alternative Energy: Opportunities & Challenges  Summer 2010 Registration: GEMM 6300
• GEMM 6400 - Leadership and Decision Making in the Global Energy Environment  Summer 2010 Registration: GEMM 6400
• GEMM 6500 - Energy Accounting in Global Markets  Summer 2010 Registration: GEMM 6500
• GEMM 6600 - Financial Management and Hedging in the Global Energy Markets  Summer 2010 Registration: GEMM 6600
• GEMM 6410 - People Management in the Global Energy Environment  Summer 2010 Registration: GEMM 6410

Choose four

Choose four of the following courses. These courses are taken during the last two terms of the program and are offered based on enrollment.

• GEMM 6210 - Land Management and Energy Contracts  Summer 2010 Registration: GEMM 6210
• GEMM 6430 - Organizational Behavior in the Energy Industry  Summer 2010 Registration: GEMM 6430
• GEMM 6450 - Strategic Management of the Energy Industry  Summer 2010 Registration: GEMM 6450
• GEMM 6460 - Integrated Information Management for Energy Firms  Summer 2010 Registration: GEMM 6460
• GEMM 6470 - Energy Marketing  Summer 2010 Registration: GEMM 6470
• GEMM 6610 - Advanced Financial Management in the Energy Industry  Summer 2010 Registration: GEMM 6610
• GEMM 6620 - Energy Asset Management  Summer 2010 Registration: GEMM 6620
• GEMM 6630 - Production and Supply Chain Management for the Energy Industry  Summer 2010 Registration: GEMM 6630

Prerequisites

Applicants that do not have a science- or energy-related field undergraduate degree or three-plus years experience in the industry are required to take two prerequisite courses as well as the GMAT.

The prerequisite courses include physical geology and introduction to physical engineering. These courses can be taken at any accredited university, but must be approved by a GEM team staff member before registering. Also the prerequisites may be taken prior or concurrently with GEMM 6000 and GEMM 6100.
Notes and Restrictions

The program is a cohort group, hybrid online, 18-month master of science degree program. As a cohort program, all students start together, progress together and graduate together. Students cannot take time out from the program once it starts and need to plan on remaining in the program for the full 18 months. If it becomes necessary to take a term off, students may not re-enroll until the next cohort group catches up to the point where the student originally dropped out, which is 6 months later. As a hybrid online program, professors and students meet in class face to face for four days (Fridays through Mondays) at the start of each 3-month term with the rest of the term completed online. Please note that the GEM degree program runs on a completely separate schedule from the normal semester terms of the Business School. Please check the Business School Web site for deadlines and dates of each GEM term. All GEMM courses are restricted to those students who have been admitted to the MS GEM program.

Dual Degrees

In order to participate in the dual degree options offered by the Business School, students in the GEM program must first complete their entire GEM degree before they can begin their second degree.

Health Administration MS

Program Director: Errol L. Biggs
Telephone: 303-315-8851
E-mail: errol.biggs@ucdenver.edu

Faculty

Professors:

Heidi Boerstler, PhD/JD, Yale University/University of Denver
Peter Bryant, PhD, Stanford University
C. Marlena Fiol, PhD, University of Illinois-Urbana-Champaign
Richard Foster, PhD, University of Chicago
Bruce Neumann, PhD, University of Illinois
Edward O’Connor, PhD, University of Akron

Associate Professors:
The goal of the master of science in health administration degree is to prepare men and women who, after appropriate practical experience in responsible managerial positions, are capable of assuming positions as chief executive officers or senior administrators in complex, multiservice health care organizations or in organizations' purchasing and health services.

The curriculum is a synthesis of management concepts and techniques that are applicable to any economic organization and tools that can be specifically applied to health and health services systems. The program emphasizes skills that heighten basic analytical and decision-making processes used by top-level managers in selecting broad strategies for the institutions and by junior managers in administering subunits of health care organizations. The faculty guide the students in their mastery of theoretical, conceptual and quantitative topics.

The program has enjoyed continuous accreditation by the Commission on Accreditation of Healthcare Management Education since 1970.

A. Common Body of Knowledge (CBK)

- BUSN 6521 - Managing Individuals and Teams (Health Section) Summer 2010 Registration: BUSN 6521
- BUSN 6530 - Data Analysis for Managers Summer 2010 Registration: BUSN 6530
- BUSN 6550 - Analyzing and Interpreting Accounting Information Summer 2010 Registration: BUSN 6550
- BUSN 6560 - Marketing Management Summer 2010 Registration: BUSN 6560
- BUSN 6630 - Management of Operations Summer 2010 Registration: BUSN 6630
- BUSN 6640 - Financial Management Summer 2010 Registration: BUSN 6640

Total: 18 Hours

Waivers of CBK courses are possible. The entire CBK may be waived if the student has completed an undergraduate business degree from an AACSB-
accredited college or university within the last 10 years. Specific courses may be waived based on a case-by-case evaluation of undergraduate or graduate course work in business completed at a regionally accredited college or university within the last 10 years.

**B. Graduate Core in Health Administration**

- HLTH 6010 - Health Care Systems  *Summer 2010 Registration: HLTH 6010*
- HLTH 6040 - Health Care Financial Management  *Summer 2010 Registration: HLTH 6040*
- HLTH 6911 - Health Field Studies  *Summer 2010 Registration: HLTH 6911*
- BUSN 6541 - Legal and Ethical Environment of Business (Health Section)  *Summer 2010 Registration: BUSN 6541*
- BUSN 6621 - Applied Economics for Managers (Health Section)  *Summer 2010 Registration: BUSN 6621*
- DSCI 6440 - Quality and Process Improvement  *Summer 2010 Registration: DSCI 6440*
- BUSN 6711 - Strategic Management (Health Section)  *Summer 2010 Registration: BUSN 6711*

HLTH Electives (3) (9 semester hours)
Free Elective (1) (3 semester hours)

**Total: 33 Hours**

**Notes and Restrictions**

*Free Elective.* The free elective course can be chosen from the areas of accounting, finance, health administration, information systems, international business, management and marketing. A course with the BUSN prefix can be used as a free elective if the course number is 6800 or higher.

*Management Residency.* A management residency is optional, but recommended for all students, especially those with limited health care experience. The faculty of the program provide assistance to students in securing the residency, as well as regular consultation during the residency period. Information on the full range of local, regional and national residencies is available in the program office.

*Length of Program.* The didactic portion of the degree will take at least two academic years, since most HA courses are offered only once each year and many have prerequisites. Part-time study is facilitated by courses being scheduled for late afternoon and evening hours.
Specialized Tracks in MS Health Administration

Each track carries its own specific course requirements. To provide a variety of perspectives and experiences within a specific area of health administration, each track includes courses that span various departments within the Business School, other schools on the Downtown Campus and other University of Colorado campuses.

- International health management and policy track
- Financial management track
- Health information technology management track

Institute for International Business

The international health track is affiliated with the Institute for International Business at UC Denver. The Institute for International Business is one of a few university programs to have received the prestigious CIBER grant from U.S. Department of Education. The grant is being used by the institute to provide effective internationally oriented education, research and outreach activities. Also, the institute is a participant in an international consortium of universities for faculty and student program and course exchanges.

Students in the international health management and policy track will have access to the institute’s exchange networks.

International Health Travel/Study Course

Program Director: Blair Gifford
Telephone: 303-315-8400
E-mail: Global-Health@ucdenver.edu

A unique feature of our international health management and policy track is its emphasis on making sure students gain international experience during their education. The travel study course requirement can be met by taking a University of Colorado health travel/study course, or a student can take a course at a partnering university. An example of a health travel/study was a three-week trip to Thailand and Vietnam to visit numerous cultural- and health-related facilities.

Information Systems MS

Program Director: Jahangir Karimi
Telephone: 303-315-8430
E-mail: Jahangir.Karimi@ucdenver.edu
Faculty

Professors:
James Gerlach, PhD, Purdue University
Jahangir Karimi, PhD, University of Arizona

Associate Professors:
Dawn Gregg, PhD, Arizona State University
Michael Mannino, PhD, University of Arizona
Judy Scott, PhD, University of California-Irvine
Steven Walczak, PhD, University of Florida

Assistant Professors:
Ronald Ramirez, PhD, University of California-Irvine
Zhiping Walter, PhD, University of Rochester

Senior Instructors:
Eric Thompson, MS, University of Colorado

Instructor:
Linda Fried, JD/LLM, University of Miami

The master of science in information systems (MSIS) program at the Business School meets industry needs by providing specializations. The program prepares students for career paths in systems development and management services, enterprise application services, business intelligence, health information technology, information security audit and control, business consulting and development and consumer products and services. Whether students aim to be systems analysts or designers, software engineers, applications programmers, database administrators, Web developers, systems integrators, project managers, LAN administrators or application and technology consultants, the MSIS program provides the necessary knowledge and skills. This entire MS in information systems can be completed online.

The MSIS program offers a wide choice of courses. The course work consists of a common body of knowledge courses plus 30 semester hours, which includes a choice of a specialization. Those specialization include two required courses, 6 courses from a list specific to your chosen specialization and two elective courses. Candidates for the MS degree are not required to take a comprehensive examination or to complete a thesis in the major field.

A. Common Body of Knowledge (CBK)
Waivers of CBK courses are possible. The entire CBK may be waived if the student has completed an undergraduate business degree from an AACSB-accredited college or university within the last 10 years. Specific courses may be waived based on a case-by-case evaluation of undergraduate or graduate course work in business completed at a regionally accredited college or university within the last 10 years.

Four of the following courses are required if you do not meet the above waiver policy.

- BUSN 6530 - Data Analysis for Managers  Summer 2010 Registration: BUSN 6530
- BUSN 6550 - Analyzing and Interpreting Accounting Information  Summer 2010 Registration: BUSN 6550
- BUSN 6560 - Marketing Management  Summer 2010 Registration: BUSN 6560
- BUSN 6630 - Management of Operations  Summer 2010 Registration: BUSN 6630
- BUSN 6640 - Financial Management  Summer 2010 Registration: BUSN 6640

Total: 12 Hours for Common Body of Knowledge (CBK)

B. Information Systems Specializations

This set of courses consists of selected areas of specialization designed to provide the fundamental knowledge necessary for a career as an IS professional. Up to 9 semester hours may be transferred from an AACSB international accredited graduate school and applied to the information systems specializations upon approval. Students should take the required courses in each specialization before taking the chosen electives in each specialization.

The IS specializations provide students with a set of related courses necessary to acquire skills and expertise within a specific area in the development, management and use of information technology applications. Students are required to choose one specialization and complete the 6 hours of required coursework, 18 hours of selected electives, 3 hours of any other ISMG course or an internship in IS, and 3 hours of any Business School graduate course.

Accounting and Information Systems Audit and Control (AISAAC) Specialization

Recently, new regulatory environments have required companies to provide better documentation of their accounting and IT systems to improve the management and disclosure of their business processes for better financial and regulatory controls. Accounting and IT professionals have significant roles in audit and control activities, since they control the systems that monitor and report on finance, planning and
operations. The courses within this specialization cover business-process management and financial controls; the emerging trends and practices in privacy and security; the strategies for integrating governance and compliance; and the IT organization’s financial and business intelligence services. These courses will focus on how to leverage the existing IT infrastructure to establish quality in financial and internal audit processes and address the regulatory issues associated with reporting, consolidation and document/content management more effectively and completely.

Prerequisite

- ACCT 6030 - Financial Accounting  Summer 2010 Registration: ACCT 6030

Required Courses

- ACCT 6020 - Auditing  Summer 2010 Registration: ACCT 6020
- ISMG 6040 - Business Process Management  Summer 2010 Registration: ISMG 6040
- ISMG 6060 - Analysis, Modeling and Design  Summer 2010 Registration: ISMG 6060
- ISMG 6080 - Database Management Systems  Summer 2010 Registration: ISMG 6080
- ISMG 6180 - Information Systems Management and Strategy  Summer 2010 Registration: ISMG 6180
- ISMG 6220 - Business Intelligence Systems  Summer 2010 Registration: ISMG 6220
- ISMG 6420 - Global Enterprise Systems  Summer 2010 Registration: ISMG 6420
  Either
- ACCT 6510 - Accounting and Information Systems Processes and Controls  Summer 2010 Registration: ACCT 6510
  OR
- ISMG 6510 - Accounting and Information Systems Processes and Controls  Summer 2010 Registration: ISMG 6510

Choose two:

- ACCT 6340 - Financial Statement Analysis  Summer 2010 Registration: ACCT 6340
- ACCT 6360 - Fraud Examination  Summer 2010 Registration: ACCT 6360
- ISMG 6430 - Information Systems Security and Privacy  Summer 2010 Registration: ISMG 6430
- ISMG 6450 - IT Project Management  Summer 2010 Registration: ISMG 6450
- ACCT 6470 - Internal Auditing  Summer 2010 Registration: ACCT 6470
Business Intelligence Specialization

Business intelligence (BI) systems combine operational data with analytical tools to present complex and competitive information to planners and decision makers. The objective is to improve the timeliness and quality of inputs to the decision process. BI is used to understand the capabilities available in the firm; the state-of-the-art, trends, and future directions in the markets, the technologies, and the regulatory environment in which the firm compete; and the actions of competitors and the implications of these actions. With this specialization, you get the necessary skills and knowledge in real-time data warehousing, data visualization, data mining, online analytical processing, customer relationships management, dashboards and scorecards, corporate performance management, expert and advanced intelligent systems, and hands-on experience with leading BI tools.

Required Courses

- ISMG 6080 - Database Management Systems Summer 2010 Registration: ISMG 6080

Choose six:

- DSCI 6828 - Business Applications of Data Mining Summer 2010 Registration: DSCI 6828
- ISMG 6180 - Information Systems Management and Strategy Summer 2010 Registration: ISMG 6180
- ISMG 6420 - Global Enterprise Systems Summer 2010 Registration: ISMG 6420
- ISMG 6430 - Information Systems Security and Privacy Summer 2010 Registration: ISMG 6430
- ISMG 6480 - Data Warehouse and Administration Summer 2010 Registration: ISMG 6480
- ISMG 6810 - Business Intelligence in Healthcare Summer 2010 Registration: ISMG 6810 OR
- ISMG 6820 - Business Intelligence and Financial Modeling Summer 2010 Registration: ISMG 6820
- MKTG 6090 - Customer Relationship Management Summer 2010 Registration: MKTG 6090

Enterprise Technology Management (ETM) Specialization

This specialization focuses on information technology as the prime driver of business strategy. It focuses on the strategic, technological, financial and organizational issues
involved with the effective management of information technology within an enterprise. The courses in this specialization cover the emerging technologies and the evolving roles and importance of IT in modern organizations; IT-enabled organizational processes and knowledge management; methods to develop, acquire and implement information systems; implementing and managing complex IT projects; security and privacy issues associated with IT.

Required Courses

- ISMG 6040 - Business Process Management
  Summer 2010 Registration: ISMG 6040
- ISMG 6180 - Information Systems Management and Strategy
  Summer 2010 Registration: ISMG 6180

Choose six:

- ISMG 6080 - Database Management Systems
  Summer 2010 Registration: ISMG 6080
- ISMG 6120 - Internet and Mobile Technologies
  Summer 2010 Registration: ISMG 6120
- ISMG 6420 - Global Enterprise Systems
  Summer 2010 Registration: ISMG 6420
- ISMG 6430 - Information Systems Security and Privacy
  Summer 2010 Registration: ISMG 6430
- ISMG 6450 - IT Project Management
  Summer 2010 Registration: ISMG 6450
- ISMG 6460 - Emerging Technologies
  Summer 2010 Registration: ISMG 6460

Health Information Technology Management Specialization

Recently, the health care industry has shifted its focus from using proprietary and expensive IT solutions to more innovative IT applications in electronic health records (EHR) and other health information technology (HIT) innovations for sharing information effectively to help manage health care crisis. The courses within this specialization cover the evolving roles and importance of IT in health care industry; the innovative IT applications for delivering health care with reduced cost and increased quality; the management of health care using effective IT systems; and the security and privacy issues associated with health information. These courses will focus on how IT-enabled health care organizations can integrate information from various resources in order to deliver innovative IT solutions to meet unique requirements of health care industry.
Required Courses

- ISMG 6060 - Analysis, Modeling and Design  
  *Summer 2010 Registration: ISMG 6060*
- ISMG 6080 - Database Management Systems  
  *Summer 2010 Registration: ISMG 6080*

Choose six:

- HLTH 6071 - Introduction To Health Information Technology  
  *Summer 2010 Registration: HLTH 6071*
- HLTH 6072 - Fundamentals of Health Information Technology Management  
  *Summer 2010 Registration: HLTH 6072*
- ISMG 6220 - Business Intelligence Systems  
  *Summer 2010 Registration: ISMG 6220*
- ISMG 6280 - Service Oriented Architecture  
  *Summer 2010 Registration: ISMG 6280*
- ISMG 6430 - Information Systems Security and Privacy  
  *Summer 2010 Registration: ISMG 6430*
- ISMG 6460 - Emerging Technologies  
  *Summer 2010 Registration: ISMG 6460*
- ISMG 6810 - Business Intelligence in Healthcare  
  *Summer 2010 Registration: ISMG 6810*

Web and Mobile Computing Specialization

This specialization focuses on building and managing large systems using platforms for Web site development, mobile and wireless applications, and Web services and service oriented architectures. The courses provide expertise in .Net programming, business process management, Internet and mobile technologies, Web site development technologies, data warehousing and administration, and service oriented architecture. Project management course work enables graduates to successfully handle highly complex systems development projects in the business world.

Required Courses

- ISMG 6060 - Analysis, Modeling and Design  
  *Summer 2010 Registration: ISMG 6060*
- ISMG 6080 - Database Management Systems  
  *Summer 2010 Registration: ISMG 6080*

Choose six:
- ISMG 6020 - .Net Programming Fundamentals  Summer 2010 Registration: ISMG 6020
- ISMG 6040 - Business Process Management  Summer 2010 Registration: ISMG 6040
- ISMG 6120 - Internet and Mobile Technologies  Summer 2010 Registration: ISMG 6120
- ISMG 6240 - Website Development Practice and Technologies  Summer 2010 Registration: ISMG 6240
- ISMG 6280 - Service Oriented Architecture  Summer 2010 Registration: ISMG 6280
- ISMG 6450 - IT Project Management  Summer 2010 Registration: ISMG 6450
- ISMG 6480 - Data Warehouse and Administration  Summer 2010 Registration: ISMG 6480

Electives

Students fulfill an additional 6 semester hours by completing the following:

Note: If you are pursuing the accounting and information systems audit and control specialization, you do not complete these electives. All other students will complete the following electives.

- an elective course from any of the ISMG graduate courses OR an internship AND
- a free elective selected from any graduate course offered by the Business School, except BUSN courses numbered below 6800.

Candidates for the MS degree are not required to take a comprehensive examination or to complete a thesis in the major field.

Total: 30 hours for MS in Information Systems

Geographic Information Systems (GIS) Option

The geographic information systems option expands upon system development skills through the understanding geographic information systems work flows, analysis processes and data models. This option for the mobile and Internet computing specialization and business intelligence specialization addresses how map representations can be abstracted in geo-databases to develop intelligent GIS systems. Learn how GIS can improve efficiencies, decision making, planning, geographic accountability, science-based plans and communication. The GIS option is offered in conjunction with the College of Engineering and Applied Science and a certificate in GIS is awarded by the College of Engineering and Applied Science.
Students must complete all requirements for the MS in information systems, as well as the requirements below.

- **CVEN 5381** - Introduction to Geographic Information Systems  
  *Summer 2010 Registration: C E 5381*

**Choose three:**

- **CVEN 5382** - GIS Spatial Database Development  
  *Summer 2010 Registration: C E 5382*
- **CVEN 5383** - GIS Analysis -- Theory and Practice  
  *Summer 2010 Registration: C E 5383*
- **CVEN 5384** - GIS Management and Policies  
  *Summer 2010 Registration: C E 5384*
- **CVEN 5385** - GIS Relational Database Systems  
  *Summer 2010 Registration: C E 5385*
- **CVEN 5386** - GIS Laboratory  
  *Summer 2010 Registration: C E 5386*

**Total: 12 Hours**

- GIS courses are offered online and can be completed concurrently with the information systems courses.
- Students will be able to register for the classes on the Web. There are not any special registration requirements.
- Students need to notify the graduate advising office at the Business School, 303-315-8200, prior to graduation if they are planning to complete the GIS option. Students also need to indicate the completion of the course work when they submit their application for diploma card.

**International Business MS**

- **Advisor**: Manuel G. Serapio, Jr.
- **Telephone**: 303-315-8436
- **E-mail**: Manuel.Serapio@ucdenver.edu

**Faculty**

**Professors:**
- Wayne Cascio, PhD, University of Rochester
- Lawrence Cunningham, DBA, University of Tennessee
- John Ruhnka, JD/LLM, Yale School of Law/Cambridge University

**Associate Professors:**
- L. Ann Martin, PhD, University of Minnesota
The master of science in international business prepares individuals for the careers in international business or with international organizations.

The MS program in international business requires the completion of the following:

**A. Common Body of Knowledge (CBK)**

*Required CBK*

- **BUSN 6520 - Managing Individuals and Teams**  *Summer 2010 Registration: BUSN 6520*
- **BUSN 6530 - Data Analysis for Managers**  *Summer 2010 Registration: BUSN 6530*
- **BUSN 6540 - Legal and Ethical Environment of Business**  *Summer 2010 Registration: BUSN 6540*
- **BUSN 6550 - Analyzing and Interpreting Accounting Information**  *Summer 2010 Registration: BUSN 6550*
- **BUSN 6560 - Marketing Management**  *Summer 2010 Registration: BUSN 6560*
- **BUSN 6620 - Applied Economics for Managers**  *Summer 2010 Registration: BUSN 6620*
- **BUSN 6640 - Financial Management**  *Summer 2010 Registration: BUSN 6640*

**Total: 21 Hours**

Waivers of CBK courses are possible. Specific courses may be waived based on a case-by-case evaluation of undergraduate or graduate course work in business completed at a regionally accredited college or university within the last 10 years.

**B. Foreign Language Competency**
Prior to graduation, students must demonstrate proficiency in a foreign language (other than English). This is accomplished through completion of three semesters of college-level course work in a single foreign language with a grade of C or better in all three terms or by passing a proficiency exam.

C. Graduate Core in International Business

Required Courses

- INTB 6000 - Introduction to International Business Summer 2010 Registration: INTB 6000
- INTB 6020 - Cross-Cultural Management Summer 2010 Registration: INTB 6020
- INTB 6200 - International Business Policy Summer 2010 Registration: INTB 6200

International Electives (4) (12 semester hours)
Free Elective (1) (3 semester hours)
Advanced Study Requirements in International Business (2) (6 semester hours)

Total: 30 Hours

Notes and Restrictions

International Topics Electives. Choose four courses (12 semester hours) from any INTB 6000-level course or higher or any approved international course.

Free Elective. One graduate-level class may be selected from any functional area of business, including international business topics classes, except BUSN courses numbered below 6800. International business majors can petition for transfer of 3 semester hours of relevant nonbusiness graduate courses offered at UC Denver’s Downtown Campus.

Advanced Study Requirements. This 6-semester-hour requirement may be fulfilled by a master’s thesis, research internship, international field study/study abroad or advanced courses in international business.

Management and Organization MS

Program Director: Kenneth L. Bettenhausen
Telephone: 303-315-8425
E-mail: Kenneth.Bettenhausen@ucdenver.edu
Faculty

Professors:
Heidi Boerstler, PhD/JD, Yale University/University of Denver
Wayne Cascio, PhD, University of Rochester

Instructors:
Linda Fried, JD/LLM, University of Miami
Barry McConnell, MBA, University of Colorado
Jeffrey Nystrom, MS, University of Colorado
Ira Selkowitz, JD, University of Denver

The MS management program prepares students for significant managerial responsibilities in the private and public sectors. Core course requirements provide students with advanced understanding of how to manage interpersonal dynamics, effectively design organizations, implement planned change and organizational transformations and develop human resources. Students build on this foundation with any four electives in MGMT, ENTP or INTB, or with the courses that comprise one of 12 career-focused specializations.

The specializations include: business strategy, change and innovation, communications management, enterprise technology management, entrepreneurship and innovation, human resources management, global management, leadership, strategic management, managing for sustainability, quantitative decision methods and sports and entertainment management. These specializations will help students master the tools and knowledge to be successful in each focused competency.

The MS management and organization degree requirements are met by the following:
Management MS Core

Required Management Courses

- BUSN 6520 - Managing Individuals and Teams  
  Summer 2010 Registration: BUSN 6520

- MGMT 6320 - Organizational Development  
  Summer 2010 Registration: MGMT 6320

- MGMT 6360 - Designing Effective Organizations  
  Summer 2010 Registration: MGMT 6360

- MGMT 6380 - Managing People for Competitive Advantage  
  Summer 2010 Registration: MGMT 6380

Total: 12 Hours

Management Emphasis (or elective) courses (12-18 semester hours)

A student may choose to complete the program by taking any four MGMT, INTB or ENTP elective courses.

Choose from one of the following emphasis areas:

- communications management
- enterprise technology management
- entrepreneurship and innovation
- global management
- human resources management
- leadership
- quantitative decision methods
- sports and entertainment management
- strategic management
- sustainability management

Communications Management

For the communications management specialization you must complete six courses from the Business School, five of which must be within the MGMT course curriculum. You are allowed no more than four communications courses (three required and one free elective).
Required Courses

- COMM 5240 - Organizational Communication  Summer 2010 Registration: CMMU 5240
- COMM 5250 - Difference Matters and Organizational Communication  Summer 2010 Registration: CMMU 5250
- COMM 5405 - Technical Communication: Writing  Summer 2010 Registration: CMMU 5405

Choose one:

- MGMT 6800 - Special Topics in Management  Summer 2010 Registration: MGMT 6800
- MGMT 6803 - Visionary Leadership  Summer 2010 Registration: MGMT 6803
- MGMT 6804 - Bargaining and Negotiation  Summer 2010 Registration: MGMT 6804

Total: 12 Hours

Approved COMM Elective Courses

Choose one:

The following is a list of communication courses that my be used to fulfill a free elective on your degree plan. For the communications specialization you must complete six courses from the Business School, of which five must be within the MGMT course curriculum. You are allowed no more than four communications courses.

- COMM 5151 - Group Communication  Summer 2010 Registration: CMMU 5151
- COMM 5222 - Professional Communication  Summer 2010 Registration: CMMU 5222
- COMM 5245 - Advanced Organizational Communication  Summer 2010 Registration: CMMU 5245
- COMM 5260 - Communication and Conflict  Summer 2010 Registration: CMMU 5260
- COMM 5262 - Mediation  Summer 2010 Registration: CMMU 5262
- COMM 5270 - Intercultural Communication  Summer 2010 Registration: CMMU 5270
- COMM 5280 - Communication and Change  Summer 2010 Registration: CMMU 5280
- COMM 5500 - Health Communication  Summer 2010 Registration: CMMU 5500
- COMM 5505 - Technical Communication: Editing  Summer 2010 Registration: CMMU 5505
• COMM 5640 - Advanced Public Relations, Summer 2010 Registration: CMMU 5640
• COMM 5760 - Computer-Mediated Communication, Summer 2010 Registration: CMMU 5760
• COMM 5830 - Visual Principles in Technical Communication, Summer 2010 Registration: CMMU 5830

Enterprise Technology Management

Required Courses

Choose four:

• ISMG 6430 - Information Systems Security and Privacy, Summer 2010 Registration: ISMG 6430
• ISMG 6450 - IT Project Management, Summer 2010 Registration: ISMG 6450
• ISMG 6460 - Emerging Technologies, Summer 2010 Registration: ISMG 6460
• ISMG 6420 - Global Enterprise Systems, Summer 2010 Registration: ISMG 6420

Total: 12 Hours

Entrepreneurship and Innovation

• ENTP 6000 - Fundamentals of Entrepreneurship, Summer 2010 Registration: ENTP 6000
• ENTP 6020 - The Business Plan, Summer 2010 Registration: ENTP 6020 and 6000-level ENTP courses (2) or 6000-level ENTP course (1) and 6000-level MGMT course (1) (6 semester hours)

Total: 12 Hours

Global Management

Required Courses

• INTB 6000 - Introduction to International Business, Summer 2010 Registration: INTB 6000
• INTB 6020 - Cross-Cultural Management, Summer 2010 Registration: INTB 6020
• MGMT 6040 - International Human Resources Management, Summer 2010 Registration: MGMT 6040 or INTB 6040
• INTB 6040 - International Human Resources Management, Summer 2010 Registration: INTB 6040
  Any travel-study program or 6000-level INTB course (3 semester hours)
Total: 12 Hours

Leadership

Prerequisite

- BUSN 6530 - Data Analysis for Managers Summer 2010 Registration: BUSN 6530

Required Courses

- INTB 6000 - Introduction to International Business Summer 2010 Registration: INTB 6000
- ENTP 6000 - Fundamentals of Entrepreneurship Summer 2010 Registration: ENTP 6000
- MGMT 6803 - Visionary Leadership Summer 2010 Registration: MGMT 6803
- MGMT 6804 - Bargaining and Negotiation Summer 2010 Registration: MGMT 6804

  Summer 2010 Registration: MGMT 6720
- MGMT 6730 - Human Resources Management: Performance Management  
  Summer 2010 Registration: MGMT 6730
- MGMT 6740 - Human Resources Management: Compensation  
  Summer 2010 Registration: MGMT 6740

Total: 12 Hours

Managing for Sustainability

Courses and course numbers in this emphasis were still being finalized when this catalog went to print. See a graduate advisor for details.

Quantitative Decision Methods

Prerequisite
(completion of prerequisite is in addition to the 30-hour MS in management and organization)

- BUSN 6530 - Data Analysis for Managers  
  *Summer 2010 Registration: BUSN 6530*

### Required Courses

Choose four:

- BUSN 6630 - Management of Operations  
  *Summer 2010 Registration: BUSN 6630*
- BUSN 6820 - Project Management  
  *Summer 2010 Registration: BUSN 6820*  
  or
- DSCI 6820 - Project Management  
  *Summer 2010 Registration: DSCI 6820*
- BUSN 6822 - Services Operations  
  *Summer 2010 Registration: BUSN 6822*  
  or
- DSCI 6822 - Services Operations  
  *Summer 2010 Registration: DSCI 6822*
- BUSN 6824 - Business Forecasting  
  *Summer 2010 Registration: BUSN 6824*  
  or
- DSCI 6230 - Business Forecasting  
  *Summer 2010 Registration: DSCI 6230*
- BUSN 6826 - Supply Chain Management  
  *Summer 2010 Registration: BUSN 6826*
- BUSN 6828 - Business Applications of Data Mining  
  *Summer 2010 Registration: BUSN 6828*  
  or
- DSCI 6828 - Business Applications of Data Mining  
  *Summer 2010 Registration: DSCI 6828*
- DSCI 6440 - Quality and Process Improvement  
  *Summer 2010 Registration: DSCI 6440*

**Total: 12 Hours**

*Note: One of two free electives must be a MGMT, ENTP or INTB course.*

### Sports and Entertainment Management

#### Required Courses

Choose four:

- FNCE 6 ___ - Sports and Entertainment Finance (3 semester hours)
- MGMT 5939 - Internship or Cooperative Education  
  *Summer 2010 Registration: MGMT 5939*
• MGMT 6830 - Sports and Entertainment Management  Summer 2010
  Registration: MGMT 6830
• MGMT 6832 - Law and Negotiation in the Sports/Entertainment Industries  Summer 2010 Registration: MGMT 6832
• MKTG 6820 - Sports & Entertainment Marketing  Summer 2010 Registration: MKTG 6820

Total: 12 Hours

Courses and course numbers in this emphasis were still being finalized when this catalog went to print. See a graduate advisor for details.

Strategic Management

Students pursuing a dual MBA/MS in organization and management are not eligible for this emphasis.

Prerequisites

• BUSN 6530 - Data Analysis for Managers  Summer 2010 Registration: BUSN 6530
• BUSN 6550 - Analyzing and Interpreting Accounting Information  Summer 2010 Registration: BUSN 6550

Required Courses

• BUSN 6560 - Marketing Management  Summer 2010 Registration: BUSN 6560
• BUSN 6640 - Financial Management  Summer 2010 Registration: BUSN 6640
• BUSN 6710 - Strategic Management  Summer 2010 Registration: BUSN 6710
• MGMT 6803 - Visionary Leadership  Summer 2010 Registration: MGMT 6803

Total: 12 Hours

Free Electives (6 semester hours)

Free electives can be anything in the Business School (graduate level), except BUSN prefix courses below 6800. Any 6000-level or higher ACCT, FNCE, ENTP, MKTG, MGMT, ISMG, INTB or HLTH course can count as your free elective requirement.
*For the **communications emphasis**, the student is allowed to use an approved COMM course as the free elective.

**Marketing MS**

**Program Director:** David Forlani  
**Telephone:** 303-315-8420  
**E-mail:** David.Forlani@ucdenver.edu

**Faculty**

**Professors:**  
Lawrence Cunningham, DBA, University of Tennessee  
Susan Keaveney, PhD, University of Colorado  
Clifford Young, PhD, University of Utah

**Assistant Professors:**  
David Forlani, PhD, University of Minnesota  
Vick Lane, PhD, University of Washington  
Madhavan Parthasarathy, PhD, University of Nebraska

**Senior Instructor:**  
Mary Lee Stansifer, PhD, Northwestern University

**Instructors:**  
Peter Miller, MA, Farleigh Dickenson University

The MS in marketing degree is designed to provide the skill sets necessary for you to succeed in middle (e.g., brand manager, advertising account executive) and upper level (e.g., CMO) positions in marketing and for those who interface with an organization’s markets (e.g., customer service or operations).

Your MS in marketing degree from the University of Colorado Denver consists of 30 hours:

- 18 semester hours of marketing core courses
- 12 semester hours of graduate electives

We highly recommend that one of the electives include a marketing-related internship, especially for those making a career change or without prior experience in marketing. Further, as has been our policy, if you feel that you would benefit by
substituting a one or two graduate electives for a marketing elective, the marketing program director will help to work out a plan designed to meet your specific career needs. You must complete the following 18 hours of marketing core courses and then you can choose from two paths to complete the remaining 12 hours. You can select the “build your own MS marketing degree” option or one of the nine specializations.

Graduate Core in Marketing

Required Courses

- BUSN 6560 - Marketing Management  
  Summer 2010 Registration: BUSN 6560
- MKTG 6010 - Marketing Strategy, Evaluation and Development  
  Summer 2010 Registration: MKTG 6010
- MKTG 6020 - International Marketing  
  Summer 2010 Registration: MKTG 6020
- MKTG 6050 - Marketing Research  
  Summer 2010 Registration: MKTG 6050
- MKTG 6060 - Buyer Behavior  
  Summer 2010 Registration: MKTG 6060
- MKTG 6200 - Marketing Dashboards & Scorecards  
  Summer 2010 Registration: MKTG 6200

Marketing Electives

Build Your Own MS Marketing Degree with 12 semester hours of MKTG electives

Choose any four MKTG electives, such as:

- MKTG 5939 - Internship/Cooperative Education  
  Summer 2010 Registration: MKTG 5939
- MKTG 6030 - Sales and Sales Force Management  
  Summer 2010 Registration: MKTG 6030
- MKTG 6040 - Services Marketing  
  Summer 2010 Registration: MKTG 6040
- MKTG 6070 - Integrated Marketing Communications and Brand Identity  
  Summer 2010 Registration: MKTG 6070
- MKTG 6080 - Marketing in Emerging Markets  
  Summer 2010 Registration: MKTG 6080
- MKTG 6090 - Customer Relationship Management  
  Summer 2010 Registration: MKTG 6090
- MKTG 6091 - Strategic Product Marketing  
  Summer 2010 Registration: MKTG 6091
- MKTG 6092 - Internet Marketing  
  Summer 2010 Registration: MKTG 6092
- MKTG 6094 - Marketing Issues in the Chinese Environment  
  Summer 2010 Registration: MKTG 6094
MKTG 6120 - Non-Profit and Social Marketing  Summer 2010 Registration: MKTG 6120
MKTG 6700 - Marketing Travel Study  Summer 2010 Registration: MKTG 6700

Total: 30 Hours

...or complete one of the following marketing specializations (listed alphabetically).

Marketing Specializations

The specializations are areas of focus that will appeal to those who have specific interests or are looking to apply their marketing acumen in particular contexts (e.g., interface with engineering or work in a multinational or nonprofit environment). A 3-semester-hour internship can be substituted for an elective in any area of specialization with the approval of the marketing program director.

Brand Management and Marketing Communications

Are you interested in a career in advertising, promotions or public relations? How about furthering your career in marketing management? Advertising, promotion and public relations managers are creative, highly-motivated individuals who are flexible yet can meet a deadline. They need good verbal and written communication skills and the ability to work well with people. Similar talents are needed by those involved with brand management. This task is central to all marketers, especially those involved with perceptual positioning and the deliverance of positions in a target market (e.g., those working in any phase of market communication and R&D) The U.S. Bureau of Labor Statistics reports that, because of the high visibility of these positions, these managers are often prime candidates for top C-level positions. The job outlook remains promising but competition will be keen, and the best opportunities will go to those with an MS in marketing or an MS marketing /MBA dual degree. (Don't take our word for it, see http://www.bls.gov/oco/ocos020.htm).

Required:
- MKTG 6070 - Integrated Marketing Communications and Brand Identity  Summer 2010 Registration: MKTG 6070

Choose three of the following courses:
- MKTG 6030 - Sales and Sales Force Management  Summer 2010 Registration: MKTG 6030
- MKTG 6040 - Services Marketing  Summer 2010 Registration: MKTG 6040
- MKTG 6091 - Strategic Product Marketing  Summer 2010 Registration: MKTG 6091
Global Marketing

One of the growing themes of the 21st century economy is the growth of world trade. There is continuing demand for individuals who understand the how to conduct marketing across many different international environments as well as rapidly growing areas such as China and the emerging markets. This specialization prepares you to effectively compete and succeed in this environment.

Required (select one of the following courses):
- MKTG 6080 - Marketing in Emerging Markets Summer 2010 Registration: MKTG 6080
- MKTG 6094 - Marketing Issues in the Chinese Environment Summer 2010 Registration: MKTG 6094

Choose three of the following courses:
- ENTP 6826 - International Entrepreneurship Summer 2010 Registration: ENTP 6826
- INTB 6020 - Cross-Cultural Management Summer 2010 Registration: INTB 6020
- INTB 6022 - International Business Negotiations Summer 2010 Registration: INTB 6022
- INTB 6080 - Global Competition Summer 2010 Registration: INTB 6080
- INTB 6200 - International Business Policy Summer 2010 Registration: INTB 6200
- MKTG 6700 - Marketing Travel Study Summer 2010 Registration: MKTG 6700

High-Tech/Entrepreneurial Marketing

The American economy was built on a spirit of innovation, hard work and entrepreneurship, and this is surely going to be the path that assures continued
American dominance in the technology and business development fields. Most smart innovators know that, in addition to the financial and managerial aspects of a business, it is the marketing function that often makes the difference between success and failure. Whether your interest is in corporate intrapreneurship and the development of high-technology oriented innovations or individual entrepreneurship and the development of a small business with minimal funds, knowing how to create and implement appropriate marketing strategies is fundamental to achieving your goals. This specialization allows you to focus on the type of new business creation path that best suits your aspirations while greatly enhancing your endeavor's probability of success. If you aspire to be the next Bill Gates, this is a “must take” degree path for you.

**Required:**
- MKTG 6091 - Strategic Product Marketing  *Summer 2010 Registration: MKTG 6091*
- ENTP 6842 - New Concept Development  *Summer 2010 Registration: ENTP 6842*

Choose two of the following courses:
- MKTG 6030 - Sales and Sales Force Management  *Summer 2010 Registration: MKTG 6030*
- MKTG 6040 - Services Marketing  *Summer 2010 Registration: MKTG 6040*
- MKTG 6070 - Integrated Marketing Communications and Brand Identity  *Summer 2010 Registration: MKTG 6070*
- MKTG 6092 - Internet Marketing  *Summer 2010 Registration: MKTG 6092*
- COMM 5285 - Communication Processes in Technology Transfer  *Summer 2010 Registration: CMMU 5285*
- ENTP 6000 - Fundamentals of Entrepreneurship  *Summer 2010 Registration: ENTP 6000*
- ENTP 6020 - The Business Plan  *Summer 2010 Registration: ENTP 6020*
- ENTP 6826 - International Entrepreneurship  *Summer 2010 Registration: ENTP 6826*
- ENTP 6860 - Business Planning for Social Entrepreneurs  *Summer 2010 Registration: ENTP 6860*

**Internet Marketing**

Are you interested in a degree that blends Web development and application strategies with marketing? This, then, is the specialization for you. This specialization covers all
aspects of Internet marketing including the functions associated with Web sites for marketing communication and customer support, one-to-one communication to many different receiving devices, marketing via social networks, consumer behavior insights based on offline and online data combination, inventory optimization through CRM-SCM integration, and a focus on ROI and associated performance metrics. With Internet marketing poised to take off globally, especially in developing countries where consumers may not have access to the latest products in local stores, this is indeed the wave of the future.

Required:
- MKTG 6040 - Services Marketing  Summer 2010 Registration: MKTG 6040
- MKTG 6092 - Internet Marketing  Summer 2010 Registration: MKTG 6092

Choose two of the following courses:
- MKTG 6070 - Integrated Marketing Communications and Brand Identity  Summer 2010 Registration: MKTG 6070
- MKTG 6090 - Customer Relationship Management  Summer 2010 Registration: MKTG 6090
- BUSN 6828 - Business Applications of Data Mining  Summer 2010 Registration: BUSN 6828
  or
- DSCI 6828 - Business Applications of Data Mining  Summer 2010 Registration: DSCI 6828
- ISMG 6080 - Database Management Systems  Summer 2010 Registration: IISM 6080
- ISMG 6240 - Website Development Practice and Technologies  Summer 2010 Registration: IISM 6240
- ISMG 6430 - Information Systems Security and Privacy  Summer 2010 Registration: IISM 6430

Marketing and Business Intelligence

A great increase in ERP, CRM, HRMS and SCM applications over the last decade has created a need for specialists who can manage the many sources of information critical for business growth. Further, increased competition due to globalization has made it critical to have effective and faster decision making across all functions, especially the marketing function, where smart analysis and interpretation of enterprise data is often paramount in the formulation of competitive marketing strategy. If you are seeking a
fast-growing and fast-paced area of specialization, this may well be the degree path for you.

**Required:**
- MKTG 6090 - Customer Relationship Management  *Summer 2010 Registration: MKTG 6090*
- ISMG 6080 - Database Management Systems  *Summer 2010 Registration: ISMG 6080*

Choose one of the following courses:
- ISMG 6480 - Data Warehouse and Administration  *Summer 2010 Registration: ISMG 6480*
- BUSN 6828 - Business Applications of Data Mining  *Summer 2010 Registration: BUSN 6828*
  
or
- DSCI 6828 - Business Applications of Data Mining  *Summer 2010 Registration: DSCI 6828*

**Marketing for Sustainability**

The world has changed. More than ever, companies around the globe need to introduce smart, sustainable brands to lead the way into the future. The strong core of MS marketing courses will give you the skills to become an effective marketing manager, while the specialized set of sustainability courses will give you the knowledge to work toward a better tomorrow. The sustainability courses will focus on the triad of economic, environmental and social sustainable development.

**Required:**
- MKTG 6040 - Services Marketing  *Summer 2010 Registration: MKTG 6040*
- MKTG 6120 - Non-Profit and Social Marketing  *Summer 2010 Registration: MKTG 6120*

Choose two of the following courses:
- BUSN 6830 - Business and the Natural Environment  *Summer 2010 Registration: BUSN 6830*
- BUSN 6850 - Accounting and Finance for Sustainability  *Summer 2010 Registration: BUSN 6850*
- ENTP 6858 - Innovation in the Social Sector  *Summer 2010 Registration: ENTP 6858*
Marketing in Nonprofit Organizations

Are you someone who would rather help people, communities and the environment rather than focus on turning a profit? Many of our alumni have followed career paths with nonprofit organizations. They tell us that a strong core in marketing combined with specialized knowledge of the unique needs of not-for-profit organizations helped them to succeed.

**Required:**
- MKTG 6040 - Services Marketing  Summer 2010 Registration: MKTG 6040
- MKTG 6120 - Non-Profit and Social Marketing  Summer 2010 Registration: MKTG 6120

Choose two of the following courses:
- BUSN 6550 - Analyzing and Interpreting Accounting Information  Summer 2010 Registration: BUSN 6550
- BUSN 6822 - Services Operations  Summer 2010 Registration: BUSN 6822
  
  or
- DSCI 6822 - Services Operations  Summer 2010 Registration: DSCI 6822
- ENTP 6858 - Innovation in the Social Sector  Summer 2010 Registration: ENTP 6858
- ENTP 6860 - Business Planning for Social Entrepreneurs  Summer 2010 Registration: ENTP 6860
- MGMT 6822 - Business Ethics and Corporate Social Responsibility  Summer 2010 Registration: MGMT 6822
- MKTG 6030 - Sales and Sales Force Management  Summer 2010 Registration: MKTG 6030
- MKTG 6070 - Integrated Marketing Communications and Brand Identity  Summer 2010 Registration: MKTG 6070

Marketing Research
Marketing and survey researchers gather information about what people think, measure customer satisfaction and repurchase intentions, help companies decide what goods and services to offer and at what price, and detect up-and-coming trends. Marketing researchers need good quantitative skills, strong analytical skills and a good understanding of marketing and buyer behavior. Many of our alumni got their starts in marketing research positions. According to the U.S. Bureau of Labor Statistics, employment is expected to grow faster than average with the best job opportunities for those with an MS marketing degree (Don’t just take our word for it; check out http://www.bls.gov/oco/ocos013.htm).

**Required:**
- MKTG 6040 - Services Marketing  
  *Summer 2010 Registration: MKTG 6040*
- MKTG 6090 - Customer Relationship Management  
  *Summer 2010 Registration: MKTG 6090*

Choose two of the following courses:
- BUSN 6530 - Data Analysis for Managers  
  *Summer 2010 Registration: BUSN 6530*
- DSCI 6480 - Simulation Modeling  
  *Summer 2010 Registration: DSCI 6480*
- BUSN 6828 - Business Applications of Data Mining  
  *Summer 2010 Registration: BUSN 6828*
  
  or
- DSCI 6828 - Business Applications of Data Mining  
  *Summer 2010 Registration: DSCI 6828*
- MKTG 6070 - Integrated Marketing Communications and Brand Identity  
  *Summer 2010 Registration: MKTG 6070*

**Sports and Entertainment Marketing**

The sports business industry is one of the largest and fastest growing in the United States. Add to that the burgeoning music, film, theater, television, cable and other entertainment industries and you’ve got virtually limitless choices. Every one of those industries needs good marketers. The strong core of marketing courses in the MS marketing program will give you the skills you need to hit the ground running with the specialized courses to teach you how to tailor your skills to the unique needs of the sports and entertainment industries.

**Required:**
- MKTG 6040 - Services Marketing  
  *Summer 2010 Registration: MKTG 6040*
• **MKTG 6820 - Sports & Entertainment Marketing** *Summer 2010 Registration: MKTG 6820*

Choose two of the following courses:

• **BUSN 6860 - Finance in the Sports Entertainment Industries** *Summer 2010 Registration: BUSN 6860*

• **MGMT 6832 - Law and Negotiation in the Sports/Entertainment Industries** *Summer 2010 Registration: MGMT 6832*

• **MGMT 6830 - Sports and Entertainment Management** *Summer 2010 Registration: MGMT 6830*

• **MKTG 6070 - Integrated Marketing Communications and Brand Identity** *Summer 2010 Registration: MKTG 6070*

**Master of Science/Master of Arts**

**Finance/Economics MS/MA**

Students may concurrently pursue an MA in economics offered by the College of Liberal Arts and Sciences and the MS in finance offered by the Business School. Students must complete 27 semester hours of a combination core, 15 semester hours of combination electives and 3 semester hours of a 5000- or 6000-level economics elective.

**Master of Science/Master of Science**

**Business/Business MS/MS**

Students may concurrently pursue dual MS degrees in any two fields of business. The program consists of a minimum of 51 semester hours of core course work, which must be completed within a period of seven years. In addition, candidates for the dual degree must satisfy all the common body of knowledge (CBK) and background requirements prescribed for each degree. Waivers may be approved for some of the CBK or background upon transcript evidence of equivalent previous undergraduate or graduate course work. For more information contact a graduate staff advisor, 303-315-8200.

**Doctor of Philosophy**

**CSIS-Business PhD**
Program Components

Plan of Study

A list of course work and other requirements for the degree should be prepared with the advisor and submitted to the program co-directors for approval. The successful completion of all work indicated on the plan of study is an important prerequisite for the conferring of the degree. A plan of study should be submitted for approval by the end of the first semester of the program. The current plan of study should be updated before the beginning of the second year of the program and submitted for reapproval to the co-directors.

Preliminary Exam

According to Graduate School rules, students are required to demonstrate their basic knowledge and preparation toward more advanced doctoral level work. For more information visit the CSIS program Web site.

Comprehensive Exam

Students will submit a paper to fulfill the graduate school's comprehensive exam requirement. The paper should describe an area of research including literature review, problem definition and possible methodologies/models to study a significant problem in computer science or information systems. The paper will be evaluated by a committee of three faculty members. An oral presentation of the paper will be open to the entire CSIS faculty. The committee may adopt additional guidelines to evaluate the paper and presentation. According to graduate school rules, the comprehensive exam must be completed by the end of the fourth year in the program. In addition to these requirements, the comprehensive exam must meet the other graduate school requirements.

Dissertation Proposal

As the first phase of the dissertation, each student should prepare a proposal that will be evaluated by the doctoral committee. A proposal should be ready for review at least one semester before the expected completion date of the degree. The proposal is submitted for review and approval by the doctoral committee. An oral presentation of the dissertation proposal before the doctoral committee is required for approval. An approved proposal is then submitted to the co-directors of the program for final approval.

University-Level Instructional Training

During the program, each student will obtain training for university-level instruction. This requirement can be fulfilled by working with a faculty member as a teaching assistant,
attending university-level teacher training or teaching a university-level class. Students who plan a university career will be encouraged to teach one or more courses and participate in training. When teaching or working as a teaching assistant, a student will be compensated according to standard university salaries.

Dissertation Completion

Following completion of the approval of the dissertation proposal, each student prepares and then submits a dissertation. The dissertation is defended before the doctoral committee in a public meeting. Final approval for the dissertation is given by a vote of the dissertation committee after the public defense of the dissertation.

Graduation

Upon completion of all degree requirements, including the dissertation defense, the student receives the degree of doctor of philosophy. Students applying through the CSE receive the PhD from the College of Engineering and Applied Science, while students applying through the information systems program receive the PhD from the Business School.

Overview

Continuing an 85-year tradition, the College of Engineering and Applied Science on the Denver Campus of the University of Colorado Denver (UC Denver) meets the needs of the Denver metropolitan area by providing nationally accredited engineering education in a flexible format that suits both students and employers. Recognizing the importance for students to pursue professional studies and related employment simultaneously, the college offers undergraduate and graduate degree programs in civil engineering, mechanical engineering, electrical engineering and computer science and engineering through evening studies or through a more traditional schedule of day classes. As a practicing engineer, you can improve and update your professional capabilities and earn a graduate degree. Or, through our interdisciplinary master of engineering degree, you can obtain graduate education in management, computer science, behavioral science or other areas together with new engineering skills in your field. We also participate in an interdisciplinary master of science in environmental science.

A listing of the fields in which engineers work would have hundreds of entries. The following list gives only a brief summary of the fields available at UC Denver.

Civil engineering offers an interesting and challenging career in the design and construction of buildings, bridges, dams, aqueducts and other structures; in transportation systems including highways, canals, pipelines, airports, rapid transit lines,
railroads and harbor facilities; in the distribution of water and the regulation of rivers; in the development of water resources for urban use, industry and land reclamation; in the control of water quality through water purification and proper waste treatment; in the construction and contracting industry; and in the problems concerned with our physical environment and the growth of cities.

**Computer science and engineering** offers graduates the solid foundation needed for jobs in computing and information technologies. Career paths in computer science involve designing and implementing software, devising new applications of computers and developing effective ways to solve computing problems. Computer engineers design and develop computer hardware and supervise its manufacture and installation.

**Electrical engineering** offers professional careers that include research in development of new electrical or electronic devices, instruments or products; design of equipment or systems; production and quality control of electrical products; and sales or management for private industry or government. There are numerous specialties within electrical engineering. Among them are the design and application of computer systems and digital engineering; electromagnetic fields and microwave devices; control systems; communication theory and signal processing; electrical integrated circuits and electron devices; and energy and power systems.

**Mechanical engineering** offers a wide range of interesting and challenging career opportunities in research, design, development, manufacturing, testing and marketing for either private industry or government. Mechanical engineers help develop a wide range of products such as engines, transmissions, compressors, pumps, computer disk drives, oil field drilling rigs, missiles, space satellites, earth-moving equipment, container-manufacturing machines, medical equipment and many other products encountered in daily life.

**College of Engineering and Applied Science Educational Goals**

The College of Engineering and Applied Science has established the following goals and objectives for undergraduate education:

- successful completion of the fundamental core courses, primarily lower division, in mathematics and the physical sciences
- successful completion of the required upper-division courses in engineering science, analysis and design
- successful completion of real-world engineering design projects that require integration of engineering, economic and social skills
- successful completion of a series of humanities and social science courses that introduce the student to societal problems and historical perspectives
• evidence, through close student/faculty contact, of development of professionalism, ethics and concern for the multifaceted human element of engineering
• evidence, from successful completion of a full engineering curriculum, of the ability to maintain professional competency through lifelong learning
• evidence, through successful completion of a series of communications oriented courses and project presentations, of an ability to communicate effectively with professionals and lay persons alike

Accreditation

The undergraduate degree programs in civil, computer science and engineering, electrical and mechanical engineering programs are accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET).

Availability of Degree Programs

UC Denver will accept for matriculation only those prospective engineering students who designate a degree program awarded by the UC Denver College of Engineering and Applied Science. Students desiring degree programs other than those named above must apply to the campus awarding the degree. In some cases, the university campus accepting the student may grant permission to take courses on another University of Colorado campus, subject to enrollment limitations. In such cases, the engineering department of the admitting campus will counsel the student in the preparation of course schedules.

Nondegree Students

Nondegree students may apply 12 semester hours of course work (or up to 18 if taken in one semester) toward a bachelor’s degree in engineering from UC Denver. Nondegree graduate students may apply 9 semester hours of graduate-level course work toward a master’s degree in engineering from UC Denver.

Summer Courses

Summer session courses are offered for regular students and those who have academic deficiencies. Courses are also offered for high school graduates who wish to enter as freshmen and need some additional preparatory work. For some students, there are advantages in starting their college careers during the summer session. Some required
freshman and sophomore courses and many elective courses are offered at UC Denver during the summer. The summer session gives students a head start and enables them to take a lighter load during the fall semester or take additional courses to enrich their programs.

**Computing**

The College of Engineering and Applied Science encourages all students to develop their skills in using the computer as a tool, not only for solving technical problems but for use in all other facets of their careers. Students are encouraged to explore computer courses other than the fundamental programming course required in their curriculum.

**Internships and Cooperative Education**

Internships and cooperative education are a way for students to gain professional experience while studying at UC Denver. Many internship and co-op positions lead to permanent employment opportunities upon graduation. Please see the “Career Center” section of the Campus Life chapter in this catalog or contact the Career Center at 303-556-2250 for information on the specific eligibility requirements. Information can also be obtained by contacting Engineering Student Services (ESS) in the Office of the Dean at 303-556-4768.

**Scholarships**

The college receives an annual allocation of state funds for Dean’s Scholarships; these funds are awarded to students who apply and meet scholarship and community service criteria. Additional funds for scholarships and loans are obtained through contributions from alumni and friends. Enrollment in the College of Engineering and Applied Science makes the student eligible for these scholarships. Scholarship application forms are available in the college. Students must apply by April 1 for summer or fall semester and by October 1 for spring semester of each year for consideration. Students can apply for all industry scholarships and Dean’s Scholarships using the general application form. Scholarship application forms require information about the applicant’s participation in school related activities, community activities and work. Dean’s Scholarship applicants must qualify for in-state tuition and have at least a 3.0 GPA, but do not need to show unmet financial need. All recipients must be registered for six or more hours in the semester for which the awards are made.

The College of Engineering and Applied Science also offers scholarships to new, financially eligible students who are enrolled full time as an engineering major through its Recruiting Engineers to ACHieve (REACH) program. Through this National Science Foundation program, scholarship recipients can receive up to $7,600 their first year (depending on need) and up to $3,800 the second year. Detailed program information is
online at www.cudenver.edu/REACH. For more scholarship information, go to www.ucdenver.edu/academics/colleges/Engineering/Pages/EngineeringAppliedScience.aspx under "Scholarships."

For additional information on other types of financial aid, consult the Tuition, Fees and Financial Aid chapter of this catalog.

Research Centers

Transportation Research Center

**Director:** Bruce Janson  
**Telephone:** 303-556-2831

The Transportation Research Center (TRC) involves both students and faculty on the Downtown Campus in a range of education and research activities. The TRC works on projects in collaboration with other departments and colleges such as business, urban planning and public affairs. TRC projects address local, state, national and international concerns with funding from federal, state, local or private sources.

Some focuses of the Transportation Research Center are transportation modeling; traffic monitoring technologies and data analysis techniques; transportation planning and travel demand forecasting for both person and freight movements; traffic engineering and control; facility design and management; use of geographic information systems in transportation; environmental impact assessment; transportation investment decision analysis, including cost-benefit analyses and cross-subsidization issues; and accident studies. Several studies on advanced system development involve partnerships with Colorado’s high-tech industry.

Facility for Advanced Spatial Technology

**GIS Lab Coordinator:** M. Sue Hawkins  
**Affiliated Faculty:** Deborah Thomas, College of Liberal Arts and Sciences; Lynn E. Johnson, College of Engineering and Applied Science; Brian Muller, College of Architecture and Planning  
**Telephone:** 303-556-4172  
**Web site:** ucdenver.edu/academics/colleges/Engineering/Programs/Civil-Engineering/Laboratories/Pages/FacilityforAdvancedSpatialTechnologyLab.aspx

The Facility for Advanced Spatial Technology (FAST) is a coordinated facility of the Colleges of Architecture and Planning, Engineering and Applied Science and Liberal Arts and Sciences. The FAST is comprised of computer clients and servers, GIS and related software and classroom and research space. It is the campus interdisciplinary center of GIS related activities that is used by students, faculty and outside community
groups seeking to develop GIS techniques for various applications. The FAST provides support for GIS courses and degree programs for students of varying backgrounds, learning styles and locations. The programs give students modern proficiencies in applying GIS techniques to analyze, plan and design natural and built environments. Students can complete the engineering GIS program entirely online.

**Colorado Advanced Photonics Technology Laboratory**

**Director:** Larry Scherrer  
**Telephone:** 303-556-4175  
**Web site:** [www.captcenter.org](http://www.captcenter.org)

The Colorado Advanced Photonics Technology (CAPT) Laboratory is a state-of-the-art measurement and fabrication research center. The four major areas of concentration are optical characterization and metrology, photonics, prototype packaging and photolithography and environmental testing and evaluation.

The CAPT Laboratory provides cutting-edge technical services to corporate and educational partners. It is the only photonics resource in Colorado that can deliver surface roughness measurements, optical testing, contract measurement services, prototyping, precision metrology, environmental testing, use of photonics equipment and facilities and training. The CAPT Laboratory provides access to advanced facilities and equipment, including $5 million in equipment for material characterization, prototype packaging, measuring, inspection and environmental testing.

**Center for Geotechnical Engineering Science**

**Director:** N. Y. Chang  
**Associate Director:** Brian Brady  
**Telephone:** 303-556-2362

The Center for Geotechnical Engineering Science was formed to advance the understanding of the safety, reliability, performance and environmental impact of engineered geostructures. Resolution of geostructural and environmental remediation problems are addressed through research that is sponsored by public funding agencies and private industry, both national and international. The center serves as a vehicle for technology transfer. Cooperative research with other universities in Colorado, the United States and around the world is welcomed. The center includes research on geostructural stability, rock engineering, geoenvironmental engineering and expansive soils.

The Expansive Soil Research Laboratory provides leadership in the advancement of technology needed to mitigate damage from expansive soils in Colorado. Studies cover national and international problems, as expansive soils underlie more than one-third of the earth’s land surface. In the United States, these materials are prevalent in the
southern, western and Rocky Mountain states. As development takes place in these areas, structures may experience damaging effects of expansive soil resulting in the loss of millions of dollars annually. The current frequency and severity of damage clearly demonstrate that important deficiencies persist in our understanding and application of the current technology in engineering designs. The Expansive Soil Research Laboratory identifies and conducts research aimed at better understanding of the mechanisms and processes that characterize expansive soil; promotes education and training for engineering students and professionals, the construction industry and the public; assists consulting industries and governments with realistic guidelines on design, construction and operation of facilities built on expansive soils; and provides a database and clearinghouse for information and technology transfer.

Continuing Engineering Education Program

Program Manager: Heidi Utt
Telephone: 303-556-4907
Web site: www.ucdenver.edu/academics/colleges/Engineering/discover/ContinuingEngineeringEducationProgram/Pages/CEEP.aspx

Continuing Engineering Education Program (CEEP) courses are offered at convenient times and locations, are taught by academic and industry professionals, and are responsive to changing technologies. By addressing topics for both engineers and non-engineers, the curriculum supplies the knowledge, skills, and competitive edge required in many professional fields. Moreover, CEEP students finish with ready-to-apply expertise. Program disciplines encompass civil, electrical, mechanical, environmental, systems, information technology, project management and more, with a focus on key industry certifications, such as the FE, PE, CAPM, PMP, CCNA, SCJP and others. Most CEEP offerings are non-credit Continuing Education Unit earning courses, although some courses are available for graduate credit.

Other University Campuses

University of Colorado at Boulder

Six engineering departments are located on the campus of the University of Colorado at Boulder. Complete BS, MS and PhD degree programs are offered by the Department of Aerospace Engineering Sciences; the Department of Chemical Engineering; the Department of Civil, Environmental and Architectural Engineering; the Department of Computer Science; the Department of Electrical and Computer Engineering; and the Department of Mechanical Engineering. Undergraduate and graduate degrees also are offered in applied mathematics and engineering physics. The programs at the Boulder campus are primarily oriented to the full-time student who can attend day classes.
University of Colorado at Colorado Springs

Three engineering departments—computer science; electrical and computer engineering; and mechanical and computer engineering—are located on the campus of the University of Colorado at Colorado Springs (UCCS). Complete BS degree programs are offered in computer engineering, computer science, electrical engineering and mechanical engineering; bachelor of innovation programs are offered in computer science, computer science security, electrical engineering and game design and development. Master of engineering programs are offered in information assurance, software engineering and space operations; and MS and PhD programs are awarded in computer science, electrical engineering and mechanical engineering.

General Requirements for Undergraduate Admission

The student must meet the admission requirements described in the Information for Undergraduate Students and Information for Graduate Students chapters of this catalog and of the College of Engineering and Applied Science in which the degree program selected by the student is offered.

Beginning undergraduate students in engineering should be prepared to start analytic geometry-calculus. No credit toward any degree in engineering will be given for algebra, trigonometry or precalculus mathematics (MATH 1110, 1120 and 1130). (These courses are offered to allow a student to make up deficiencies.) Students who question the adequacy of their precollege background in mathematics should contact the Department of Mathematics office in the College of Liberal Arts and Sciences. Placement tests covering precalculus mathematics are required of new freshmen to select the appropriate beginning mathematics course.

To be prepared for the type of mathematics courses that will be taught, the student must be competent in the basic ideas and skills of ordinary algebra, geometry and plane trigonometry. These include such topics as the fundamental operations with algebraic expressions, exponents and radicals, fractions, simple factoring, solution of linear and quadratic equations, graphical representation, simple systems of equations, complex numbers, the binomial theorem, arithmetic and geometric progressions, logarithms, the trigonometric functions and their use in triangle solving and simple applications, and the standard theorems of geometry, including some solid geometry. It usually takes eight semesters to cover this material adequately in high school.

Refer to the “Minimum Academic Preparation Standards (MAPS)” and “Admission Requirements for Freshmen” sections in the Information for Undergraduate Students chapter of this catalog for a list of high school subjects required for admission to the College of Engineering and Applied Science.
Former Students

Former students must meet the readmission requirements outlined in the Information for Undergraduate Students and Information for Graduate Students chapters of this catalog. Students who interrupt their degree program for more than one academic year will be required to follow the degree program in effect at the time of their readmission to the college. Repetition of course work may be necessary because of the interruption; readmitted applicants will be evaluated on an individual basis. Repeated courses must be taken for no credit (NC). See the “Repetition of Courses” policy under “Academic Policies” in this chapter of the catalog.

Intercampus Transfer

Transfers between campuses of the University of Colorado should be carefully planned to avoid loss of academic credit. Courses and credits required for engineering degrees vary from campus to campus; therefore, students should plan as far ahead as possible. The campus advisor can help choose the right courses. Such planning should also include contacting the engineering department to which the student plans to transfer at least one semester before the transfer is planned. The transfer student must have at least a 2.0 GPA for 30 hours of credit toward an engineering degree to be eligible to transfer. A higher GPA may be required to transfer directly into the College of Engineering and Applied Science. In general, calculus, physics and chemistry courses will transfer for full credit. In addition, 12 semester hours of humanities and social sciences electives will usually transfer for full credit. Fundamental computing courses may be unique by campus and should be checked with the campus to which the student is transferring. Any minimum academic preparation standards (MAPS) deficiencies should be eliminated before transferring.

Transfer Agreements

The College of Engineering and Applied Science has formal transfer agreements with the following Denver metro-area community colleges:

- Arapahoe Community College (Littleton)—303-794-1550
- Community College of Aurora—303-360-4790
- Community College of Denver—303-556-2600
- Front Range Community College (Westminster)—303-466-8811
- Red Rocks Community College (Lakewood)—303-988-6160

These transfer agreements provide an opportunity for potential engineering students to complete courses applicable to an engineering program offered at UC Denver. Students interested in a transfer should contact Engineering Student Services at 303-556-4768
Transfer Students

Students applying for transfer from other accredited collegiate institutions will be considered for admission on an individual basis if they meet the requirements outlined in the Information for Undergraduate Students chapter of this catalog and have successfully completed a year each of calculus and physics (calculus-based).

Applications to transfer from another college on the Downtown Campus to the College of Engineering and Applied Science will be considered on an individual basis by the Office of the Dean, if the student’s prior academic record includes successful completion of a year each of calculus and calculus-based physics and the student's cumulative GPA is 2.75 or higher.

Transfer Credit

Refer to the Information for Undergraduate Students and Information for Graduate Students chapters of this catalog for descriptions of universitywide policies on transfer credit.

After a prospective transfer student has made application and submitted official transcripts to the University of Colorado Office of Admissions, that office issues an applicant transfer credit evaluation listing those courses that are acceptable by university standards for transfer. A copy of this evaluation is sent to the student and to Engineering Student Services in the Office of the Dean by Office of Admissions processing and is made a part of the permanent record. An advisor will use this form to indicate which courses and credit hours listed are acceptable toward the graduation requirements for the student's degree program. The decisions will be recorded on both the applicant transfer credit evaluation form and the department's study program for BS form, and signed and dated. Both forms are reviewed by Engineering Student Services in the Office of the Dean, and signed and dated. Any modification to the initial evaluation must be by petition, have the recommendation of the transfer advisor and department chair and have approval of the Office of the Dean. All documents will become a part of the student’s master file in the Office of the Dean. All transfer credit must be validated by satisfactory achievement in subsequent courses.

Note: All requests for consideration of transfer credit and its application toward a degree in engineering must be submitted prior to the student’s last two semesters at the Downtown Campus of UC Denver.
Nontransferable Credits

Courses on basic subjects such as mathematics or physics may be acceptable for direct transfer of credit if they were taught as part of an accredited program for all students and were not specifically designated for engineering technology students. Engineering technology courses (courses with technology designations) will not be considered for transfer into an engineering degree program.

Students may seek credit for coursework by examination (see “Transfer of College-Level Credit” section of the Information for Undergraduate Students chapter of this catalog).

Undergraduate Core Curriculum in Engineering

The faculty of the College of Arts & Media, the Business School, the College of Engineering and Applied Science and the College of Liberal Arts and Sciences have established a core curriculum for undergraduate students. See the General Information section of this catalog for an overview of the common core concept.

Students graduating from the College of Engineering and Applied Science are required to satisfy the humanities and social sciences and writing portions of their engineering program by taking courses from the UC Denver Core Curriculum.

The intent of the humanities and social sciences component of an engineering program is to provide the student with a coherent and well-structured exploration of a substantive issue or theme appropriate to the engineering profession and/or of interest to the student. The required humanities and social sciences electives must include both breadth and depth, must include advanced-level course work and should be planned in consultation with the advisor. A random selection of lower-division courses will not satisfy the humanities and social sciences elective requirement.

Courses such as accounting, contracts, management, elementary foreign languages, public speaking and technical writing are not acceptable as humanities and social sciences electives.

Program Requirements

Social Sciences
(3 semester hours) Choose one course from any of the following courses: ECON, ENVS, ETST, GEOG, HBSC, P SC, SOC.

- **ECON 2012 - Principles of Economics: Macroeconomics** *Summer 2010*  
  **Registration:** ECON 2012
- **ECON 2022 - Principles of Economics: Microeconomics** *Summer 2010*  
  **Registration:** ECON 2022
- **ENVS 1342 - Introduction to Environment and Society** *Summer 2010*  
  **Registration:** ENVS 1342
- **ETST 2000 - Introduction to Ethnic Studies** *Summer 2010*  
  **Registration:** ETST 2000
- **GEOG 1102 - World Regional Geography** *Summer 2010*  
  **Registration:** GEOG 1102
- **GEOG 1602 - Introduction to Urban Studies** *Summer 2010*  
  **Registration:** GEOG 1602
- **GEOG 2202 - Natural Hazards** *Summer 2010*  
  **Registration:** GEOG 2202
- **HBSC 2001 - Introduction to Community and Population Health Science** *Summer 2010*  
  **Registration:** HBSC 2001
- **PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice** *Summer 2010*  
  **Registration:** P SC 1001
- **PSCI 1101 - American Political System** *Summer 2010*  
  **Registration:** P SC 1101
- **SOCY 1001 - Introduction to Sociology** *Summer 2010*  
  **Registration:** SOC 1001
- **SOCY 2462 - Introduction to Social Psychology** *Summer 2010*  
  **Registration:** SOC 2462

**Humanities**

(3 semester hours) Choose one course from any of the following courses: ENGL, ETST, FR, GER, HIST, PHIL, RLST.

- **CNST 1000 - China and the Chinese** *Summer 2010*  
  **Registration:** CNST 1000
- **ENGL 1601 - Telling Tales: Narrative Art in Literature and Film** *Summer 2010*  
  **Registration:** ENGL 1601
- **ENGL 2600 - Great Works in British and American Literature** *Summer 2010*  
  **Registration:** ENGL 2600
- **ETST 2155 - African American History** *Summer 2010*  
  **Registration:** ETST 2155
- **FREN 1000 - Introduction to Cultures of the French-Speaking World** *Summer 2010*  
  **Registration:** FR 1000
- **GRMN 1000 - Germany and the Germans** *Summer 2010*  
  **Registration:** GER 1000
- **HIST 1361 - U.S. History to 1876** *Summer 2010*  
  **Registration:** HIST 1361
- **HIST 1362 - U.S. History Since 1876** *Summer 2010*  
  **Registration:** HIST 1362
- **HIST 1381 - Paths to the Present I** *Summer 2010*  
  **Registration:** HIST 1381
- **HIST 1382 - Getting Here: Paths to the Present II** *Summer 2010*  
  **Registration:** HIST 1382
• PHIL 1012 - Introduction to Philosophy: Relationship of the Individual to the World  
  Summer 2010 Registration: PHIL 1012
• PHIL 1020 - Introduction to Ethics and Society: The Person and the Community  
  Summer 2010 Registration: PHIL 1020
• PHIL 2441 - Logic and Language  
  Summer 2010 Registration: PHIL 2441
• RLST 1610 - Introduction to Religious Studies  
  Summer 2010 Registration: RLST 1610
• RLST 2660 - World Religions  
  Summer 2010 Registration: RLST 2660
• SPAN 1000 - Introduction to Cultures of the Spanish Speaking World  
  Summer 2010 Registration: SPAN 1000

Arts

(3 semester hours) Choose one course from any of the following courses: FA, PMUS, THTR.

• FINE 1001 - Introduction to Art  
  Summer 2010 Registration: F A 1001
• PMUS 1001 - Music Appreciation  
  Summer 2010 Registration: PMUS 1001
• THTR 1001 - Introduction to Theatre  
  Summer 2010 Registration: THTR 1001

International Perspectives

(3 semester hours) Choose one course from any of the following courses: ENGR, HIST, P SC.

• ENGL 3798 - International Perspectives in Literature and Film  
  Summer 2010 Registration: ENGL 3798
• ENGR 3600 - International Dimensions of Technology and Culture  
  Summer 2010 Registration: ENGR 3600
• FREN 3200 - The Francophone World in the Post-Colonial Era  
  Summer 2010 Registration: FR 3200
• HIST 3121 - The World at War, 1914-1945  
  Summer 2010 Registration: HIST 3121
• HIST 4032 - Globalization in World History Since 1945  
  Summer 2010 Registration: HIST 4032
• INTB 3000 - Global Perspectives  
  Summer 2010 Registration: INTB 3000
• PSCI 3022 - Introduction to Comparative Politics  
  Summer 2010 Registration: P SC 3022
• PSCI 3042 - Introduction to International Relations  
  Summer 2010 Registration: P SC 3042

Cultural Diversity
(3 semester hours) Choose one course from any of the following courses: ANTH, CMMU, ECON, ENGR, ETST, PHIL, PSY, SOC, THTR, HIST, MGMT, P SC, RLST.

- **ANTH 3142** - Cultural Diversity in the Modern World  *Summer 2010 Registration: ANTH 3142*
- **COMM 3271** - Communication and Diversity  *Summer 2010 Registration: CMMU 3271*
- **ECON 3100** - Economics of Race and Gender  *Summer 2010 Registration: ECON 3100*
- **ENGL 3795** - Race and Ethnicity in American Literature  *Summer 2010 Registration: ENGL 3795*
- **ENGR 3400** - Technology and Culture  *Summer 2010 Registration: ENGR 3400*
- **ETST 3704** - Culture, Racism and Alienation  *Summer 2010 Registration: ETST 3704*
- **ETST 3794** - Ethnic Diversity in American Literature  *Summer 2010 Registration: ETST 3794*
- **HIST 3345** - Immigration and Ethnicity in American History  *Summer 2010 Registration: HIST 3345*
- **HIST 3349** - Social Movements in 20th Century America  *Summer 2010 Registration: HIST 3349*
- **MGMT 4100** - Managing Cultural Diversity  *Summer 2010 Registration: MGMT 4100*
- **PHIL 3500** - Ideology and Culture: Racism and Sexism  *Summer 2010 Registration: PHIL 3500*
- **PSCI 3034** - Race, Gender, Law and Public Policy  *Summer 2010 Registration: P SC 3034*
- **PSCI 3035** - Political Movements: Race and Gender  *Summer 2010 Registration: P SC 3035*
- **PSYC 4485** - Psychology of Cultural Diversity  *Summer 2010 Registration: PSY 4485*
- **RLST 4000** - Religion and Cultural Diversity  *Summer 2010 Registration: RLST 4000*
- **SOCY 3020** - Race and Ethnicity in the U.S.  *Summer 2010 Registration: SOC 3020*
- **THTR 3611** - Drama of Diversity  *Summer 2010 Registration: THTR 3611*

**Behavioral Sciences**

(3 semester hours) Choose one course from any of the following courses: ANTH, CMMU, PSY.

- **ANTH 1302** - Introduction to Archaeology  *Summer 2010 Registration: ANTH 1302*
• ANTH 2102 - Culture and the Human Experience  Summer 2010 Registration: ANTH 2102
• COMM 1011 - Fundamentals of Communication  Summer 2010 Registration: CMMU 1011
• COMM 1021 - Fundamentals of Mass Communication  Summer 2010 Registration: CMMU 1021
• PSYC 1000 - Introduction to Psychology I  Summer 2010 Registration: PSY 1000
• PSYC 1005 - Introduction to Psychology II  Summer 2010 Registration: PSY 1005

Intellectual Competencies*

(6 semester hours)

• ENGL 1020 - Core Composition I  Summer 2010 Registration: ENGL 1020 **
• ENGL 2030 - Core Composition II  Summer 2010 Registration: ENGL 2030

Total: 24-25 Hours

Please note the above core list does not include mathematics or biological and physical sciences due to the extensive math and physics curricula required by the College of Engineering and Applied Science. Please see the Engineering Student Services advisor for questions.

*English 1020 and English 2030 are the only approved composition courses for the UC Denver Core Curriculum.

**English 1020 should be taken the first semester a student is enrolled at UC Denver.

Academic Policies

Refer to the Information for Undergraduate Students and University Policies chapters of this catalog for descriptions of universitywide policies. The following policies apply specifically to students in the College of Engineering and Applied Science.

Advanced Placement

Advanced placement credit may be granted by special examination or by College Entrance Examination Board (CEEB) tests. If the applicant has scored four or five on the
CEEB Advanced Placement Examination, credit toward graduation may be awarded. Students who have scored three may be considered for advanced placement by the department concerned. All advanced placement and transfer credit must be validated by satisfactory achievement in subsequent courses in accordance with standard transfer policies of the college.

**College-Level Examination (CLEP) Credit**

Prospective students may earn college-level credit through the College-Level Examination Program (CLEP) subject examinations, provided that they score at the 50th percentile or above. The Engineering Student Services advisor will advise students of the credits accepted for such courses toward a degree program. CLEP general examinations are not acceptable. (See also “College-Level Examination Program” in the Information for Undergraduate Students chapter of this catalog.)

**Attendance Regulations**

Successful work in the College of Engineering and Applied Science is dependent upon regular attendance in all classes. Students who are absent should make arrangements with instructors to make up the work missed. Students who for illness or other good reason miss a final examination must notify the instructor or Engineering Student Services in the Office of the Dean no later than the end of the day on which the examination is given. Failure to do so may result in an F in the course.

**Changing Departments**

Students who wish to change to another department within the College of Engineering and Applied Science must apply for transfer by submitting a change of major for undergraduate degree student's form, which must have the approval of the new department. (See also discussion of interdepartmental transfer requirements under “Transfer Students” in this chapter of the catalog.)

**Advising**

Freshman students are advised by Engineering Student Services and by representatives from each academic department. These representatives are readily available to assist students with academic or vocational concerns. Contact Engineering Student Services at 303-556-4768. Students are assigned specific departmental advisors for academic planning and should contact the departmental office for advising appointments.
Counseling

Personal counseling is available through the UC Denver Student and Community Counseling Center. Contact 303-556-4372 for questions or an appointment.

Course Load Policy

Full-time Students. Undergraduate students employed less than 10 hours per week should consider registering for courses as outlined in the departmental curricula. Additional courses may be allowed when there is satisfactory evidence that the student has the capability to handle the added load. Permission to take more than 19 hours may be granted by written petition and approval of the department chair and the dean’s office.

Freshman Year

Fundamentals taught in the freshman year are of critical importance in the more advanced classes. Special attention should be given to taking courses in the proper sequence. (Course requirements for freshmen are detailed within the typical curriculum given under each department.) All students are urged to consult their instructors whenever they are experiencing difficulties with course materials or for questions related to the class.

Repetition of Courses

Undergraduate students may not register for credit in a course in which they already have received a grade of C- or higher. An F grade in a required course necessitates subsequent satisfactory completion of the course. Students must repeat a prerequisite course in which a grade of D+ or lower was earned before moving on to the subsequent course, if that course is a prerequisite to another required course. If students do not successfully complete (C- or higher) an engineering class on the second attempt, they must obtain written approval from their major department to enroll for the course for the third time. When a course is retaken because of a D or F grade, both grades will appear on the transcript and both will be averaged into the GPA. Any exceptions to these policies must be made by written petition through Engineering Student Services in the Office of the Dean.

No Credit
An engineering student must request approval before enrolling for no credit (NC) for any course. Required courses must be taken for credit. Once a course has been taken NC, the course cannot be repeated for credit.

**Work Experience**

The College of Engineering and Applied Science does not award academic credit for work experience.

**College Policy on Academic Progress**

All undergraduate students must declare a major by the time they have accumulated 60 semester hours. An undergraduate engineering student must maintain a cumulative GPA of 2.0 or better in all hours attempted at the University of Colorado, in those courses applied toward graduation requirements and in all courses taken from the student’s major department in order to remain in good standing in the College of Engineering and Applied Science. Grades earned at another institution are not used in calculating the GPA at the University of Colorado. However, grades earned in another school or college of the University of Colorado will be used in determining the student’s scholastic standing and progress or lack of progress toward the bachelor of science degree in the College of Engineering and Applied Science.

Read about academic probation and suspension in the [University Policies](#) section.

**Dean's List Criteria**

UC Denver will use a fixed criterion across all colleges for determining eligibility for the Dean's List. This policy applies to undergraduate students.

For fall and spring semesters, students must successfully complete 9 hours in the semester upon which to determine the grade point. These courses can be both within and outside of the college. Pooled courses will not be included in the calculation nor will they count toward the 9 hours required for consideration. The GPA set for inclusion in the Dean's List is 3.75. In the summer semesters, students must complete 6 hours as a basis for inclusion in the Dean's List. Course inclusion will be the same as in fall and spring semesters. The GPA for Dean's List in summer is also 3.75.

Colleges will collect data each semester on the number of students making the Dean's List and report the numbers and percentage of total students in the college.

Scholarships tied to Dean's Lists in individual college may have additional requirements.

The Registrar's Office will calculate the semester GPAs for all students two weeks prior to the due date for semester grades. Those GPAs will be the basis for determining the
Dean's List. Incompletes will not be considered in the calculation of minimum number of hours. The Dean's List will not be recalculated to include completed incompletes.

**Academic Ethics (Dishonesty, Cheating)**

Students are expected to conduct themselves in accordance with the highest standards of honesty and integrity. Cheating, plagiarism, illegitimate possession and disposition of examinations, alteration, forgery or falsification of official records and similar acts or attempts to engage in such acts are grounds for suspension or expulsion from the university.

In particular, students are advised that plagiarism consists of any act involving the offering of the work of someone else as the student's own.

At the Denver Campus of UC Denver, there is a student Academic Honor Code. The code is published in a brochure available from the Office of Student Life. Information regarding all student grievance procedures may be obtained in that office.

In addition, the college has a committee on discipline that hears cases of alleged violations of academic ethics and recommends disciplinary action. In a case of proven academic dishonesty/misconduct, the committee may invoke penalties that may include probation, suspension or expulsion. In a case of suspension or expulsion, a distinction may be placed on a student's academic record indicating the action was due to academic dishonesty/misconduct. Students who suspect or observe violations of academic ethics should report them to their instructor, the department chair or the Office of the Dean.

**Grading System, Incompletes, Pass/Fail and Drop/Add Procedures**

See the Registration and Records chapter of this catalog for the University of Colorado uniform grading system and for additional pass/fail information and drop/add procedures.

Final grades, as reported by instructors, are to be considered permanent and final. Grade changes will be considered only in cases of documented clerical error and must be approved by the dean.

**Incompletes**

An incomplete may be given by the instructor for circumstances beyond the student's control, such as a documented medical or personal emergency. When it is given, the student, Engineering Student Services and the departmental office must be informed in writing by the instructor, who states what the student is to do in order to remove the incomplete and the date the tasks are to be completed. The instructor will assign an "I"
distinction. The student is expected to complete the course requirements (e.g., the final examination or term paper), within the established deadline and not to retake the entire course. The majority of course requirements (75%) must have been completed with a passing grade to be eligible for an incomplete. An "I" distinction will be converted automatically to a grade of "F" after one year if the specified work is not completed.

**Pass/Fail**

The primary purpose for offering courses on a pass/fail grade basis is to encourage students, especially juniors and seniors, to broaden their educational experience by electing challenging upper-division humanities and social sciences elective courses without serious risk to their academic records. In general, pass/fail should be limited to 3000- or 4000-level humanities and social sciences courses. Students must process the pass/fail form during the first two weeks of the semester. Engineering students cannot take required courses pass/fail.

**Dropping a Course**

After the tenth week of the semester, dropping a course requires a petition signed by the department chair and Engineering Student Services. Only under very extenuating circumstances, such as a documented medical or personal emergency, will petitions for dropping courses be approved after the tenth week of the semester.

**Sequence of Courses**

Full-time students must generally complete the courses in the department in which they are registered, according to the typical curriculum shown under their major department in this catalog. Part-time students may modify the order of courses with their advisor’s approval.

**Graduate-Level Courses Taken at Undergraduate Level**

With faculty advisor approval, an undergraduate engineering student may be granted the opportunity to take graduate courses to be counted toward an undergraduate degree. A maximum of 6 semester hours of graduate-level course work taken as an undergraduate can be considered for credit toward a graduate degree. Only a grade of B (3.0) or above will be considered for graduate-level credit. All consideration of graduate work to be counted toward both an undergraduate and a graduate degree must be approved by a faculty advisor and Engineering Student Services.

**Graduation with Honors**
In recognition of high scholarship and professional attainments, Honors, Special Honors or With Distinction may be awarded at graduation at the discretion of the student’s major department. These honors are recorded on the diploma of the graduate and indicated in the commencement program. Grades earned during the semester of graduation will not be considered.

For Special Honors, a student must have a cumulative GPA of at least 3.80, and for Honors, a GPA between 3.60 and 3.79. With Distinction is awarded at the discretion of the College Executive Council.

Transfer students, to be considered for honors, will be expected to complete a minimum of one-half of their work within the University of Colorado System. Grades earned at other institutions will not be considered. Transfer students must have completed at least 54 semester hours at University of Colorado before their last semester and must have a minimum of 64 semester hours completed at graduation.

Planning an Engineering Program

*It is the responsibility of all students to do the following:*

- meet with department academic advisor at least once each year
- meet with department transfer credit advisor as necessary
- meet with the assistant dean of engineering student services as necessary
- meet with department senior check-out advisor prior to their last 30 semester hours of course work to finalize a graduation program that will be reviewed by the assistant dean of engineering student services
- complete a graduation contract and an application for diploma card before or during the first two weeks of their last semester
- keep the assistant dean of student services informed of any changes in the student’s plans throughout their last year

Graduation Requirements

In order to become eligible for one of the bachelor’s degrees in the College of Engineering and Applied Science, a student, in addition to being in good standing in the university, must meet the following minimum requirements:

**Courses**—The prescribed and elective work in any curriculum as determined by the appropriate department must be completed satisfactorily.

**Hours**—A minimum of 130 semester hours is required for students seeking a civil engineering degree; a minimum of 128 semester hours for computer science and engineering, electrical engineering or mechanical engineering degrees.

**Hours in Residence**—At least 30 semester hours of course work applicable to a bachelor of science degree in engineering must be taken at the Downtown Campus
while a declared student in good standing at the College of Engineering and Applied Science. Students must be enrolled in the college for at least the final two semesters prior to graduation.

Transfer Credit—All requests for consideration of transfer credit and its application toward a degree in Engineering and Applied Science must be submitted prior to the student’s last two semesters at the Downtown Campus.

Grade Point Average (GPA)—A minimum GPA of 2.0 (C) is required for all courses attempted, for all required courses and for all courses taken from the student’s major department.

Faculty Recommendation—The recommendation of the faculty of the department offering the degree and the approval of the faculty of the College of Engineering and Applied Science is required.

Incompletes and Correspondence Courses—It is the student’s responsibility to ensure that all incompletes and correspondence courses are officially completed before the tenth week of the student’s final semester in school.

Simultaneous Conferring of Degrees—For any double degree program, both bachelor’s degrees must be conferred at the same commencement.

Commencement Exercises—Commencement exercises are held in December and May. A student finishing in August is encouraged to attend commencement the following December, but may request that the diploma be mailed.

Undergraduate Degrees
In addition to the standard four-year degree programs previously listed, the college is involved in double degree programs.

Business and Engineering

Undergraduates in the College of Engineering and Applied Science with career interests in management may complete all of the requirements for both a BS degree in engineering and a BS degree in business administration by extending their study programs to five years, including one or two summer terms. The business courses required by the Business School may be started in the second, third or fourth year, depending upon the curriculum plan for the particular field of engineering in which the student is enrolled.

Students interested in this undergraduate program are required to submit an application to the Business School. Students should contact a business advisor to obtain the application form and determine an acceptable degree program.
Requirements for the undergraduate business degree and engineering degree must be completed concurrently. At least a 2.0 GPA must be earned in all business courses undertaken in the Business School. No fewer than 30 semester credits in business courses from UC Denver must be earned after admission to business to establish residency credit. Courses offered or required by the Business School may be used in lieu of electives required for undergraduate engineering degrees, subject to the approval of the individual department.

Joint Engineering Degrees

A student may obtain two engineering majors by meeting the requirements of both programs; however, the approval of both departments and the dean is required. Thirty hours of elective or required subjects must be completed in addition to the largest minimum number required by either of the two departments. A course taken for one completed master’s degree may not be counted toward a second master’s degree.

Premedicine Option

A professional school in a field such as medicine requires a student to have a college education prior to pursuing its professional courses. In practically all cases, medical students are university graduates, although occasionally a student may enter medical school after three years of university training.

The desirability of obtaining an engineering education prior to undertaking a study of medicine is increasing continually as medicine itself is evolving. A great deal of new equipment, most of it electronic, is being developed to assist the medical practitioner in treatment of patients. Bioengineering, engineering systems analysis, probability and communication theory are highly applicable to medical problems. Improved communication techniques also are allowing the storage and retrieval of information not previously available to the medical doctor. An advanced knowledge of basic mathematics and computing techniques, along with increased understanding of physical chemistry, improves the scientific base upon which medical knowledge rests. It is therefore desirable that the future medical practitioner and researcher be well equipped with the tools engineering can offer.

To provide a minimum of the necessary knowledge, the additional courses listed below must be completed with superior grades. Students can meet these requirements by careful substitution of electives in the engineering curriculum. In some cases where additional hours may be required, interested students should consult with the engineering department chair.

General Chemistry (two semesters) (CHEM 2031, 2038, 2061, 2068), 9 semester hours
Organic Chemistry (two semesters) (CHEM 3411, 3421, 3418, 3428), 10
semester hours
General Biology (two semesters) (BIOL 2051, 2061, 2071, 2081), 8 semester hours
English Composition (one semester), 3 semester hours
Literature (two semesters), 6 semester hours
**Total**: 36 semester hours

Students desiring to enter a premedical program should consult the representative of the department involved. On the Downtown Campus, premedical advising is available through the health careers advisor, North Classroom, 3014B, 303-556-4350.

**Graduate Study in Engineering**
The College of Engineering and Applied Science at UC Denver offers graduate programs in civil engineering, computer science, electrical engineering, and mechanical engineering.

For information regarding courses and requirements leading to the master of science, master of engineering or the PhD degree, see the appropriate discipline heading in this section. For graduate admission information and policies, see the Information for Graduate Students chapter of this catalog.

**TOEFL/Language Requirements**
International graduate students who take the TOEFL English proficiency exam must score at least 525 on the paper-based exam or 71 on the Internet-based exam (IBT). International students must score a 6.0 on the IELTS exam. International students who successfully complete study at Spring International with a grade of B or better are not required to submit TOEFL scores. Students must successfully complete studies through Level Six to be eligible for the waiver consideration. Contact Spring International for more information at [www.spring.edu](http://www.spring.edu).

**Education for Employed Professional Engineers**
Continuing education for employed engineers grows more important each year. Therefore, the college puts great emphasis upon making graduate courses available through late afternoon and evening courses. The master of engineering degree permits graduate students more flexibility in defining specialized interdisciplinary fields that meet their professional needs. This degree has standards equivalent to those of the master of science degree.
In addition to credit course work, the college also offers courses of interest to practicing engineers through its Continuing Engineering Education Program, 303-556-4907. (See also information under “Continuing Engineering Education Program” in this chapter.)

**Concurrent BS and MS Degree Program in Engineering**

A student who plans to continue on to graduate study after completing the requirements for the BS degree may be admitted to a graduate program through his/her major department in the senior year (after completion of at least 110 semester hours). Requirements are the same as for the two degrees taken separately: 128 or 130 semester hours, depending on the major, for the BS degree; and 30 semester hours for the MS degree. Humanities and social sciences requirements must be completed within the first 128 or 130 semester hours. A 3.0 GPA for all work attempted through the first six semesters (at least 96 semester hours) and written recommendations from at least two major-field faculty members are required.

The purpose of the concurrent degree program is to allow students who qualify for graduate study and expect to continue for an advanced degree to plan their graduate program from the beginning of the senior year rather than from the first year of graduate study. The student can then reach the degree of proficiency required to begin research at an earlier time and can make better and fuller use of courses offered only in alternate years.

Students will be assigned faculty advisors to help them develop the program best suited to their particular interests. The program selected must be planned so that the student may qualify for a BS degree after completing the semester-hour requirements for the degree, if the student so elects, or if the student's GPA falls below the 3.0 required to remain in the program. In this case, all hours completed with a passing grade while in the program will count toward fulfilling the normal requirements for the BS degree.

**Graduate Work in Business**

Undergraduates in engineering who intend to pursue graduate study in business may complete some of the business background requirements as electives in their undergraduate programs. Seniors in engineering who have such intentions and appear likely to qualify for admission to graduate study in business may be permitted to register for graduate fundamentals courses, which are designed to provide qualified students with needed background preparation in business. Students must see an advisor from the Business School for approval.

**Programs of Study**

Courses listed in the following curricula are typical illustrations. Changes in specific courses may be necessary to accommodate students’ needs and/or changes in
institution requirements; however, students should take courses in logical sequence, i.e.,
complete all freshman courses before taking sophomore courses.

Civil Engineering

Chair: Kevin L. Rens
Program Administrator: Maria Rase
Office: North Classroom, 3027
Telephone: 303-556-2871
Fax: 303-556-2368

Faculty

Professors:
Nien-Yin Chang, PhD, Ohio State University, Professional Engineer (PE)—Ohio and Colorado
James C.-Y. Guo, PhD, University of Illinois at Urbana-Champaign, PE—Colorado
Bruce N. Janson, PhD, University of Illinois at Urbana-Champaign
Lynn E. Johnson, PhD, Cornell University, PE—Connecticut
Anu Ramaswami, PhD, Carnegie Mellon University
Kevin L. Rens, PhD, Iowa State University, PE—Colorado
Jonathan T.H. Wu, PhD, Purdue University

Assistant Professors:
Stephan A. Durham, PhD, University of Arkansas
Arunprakash Karunanithi, PhD, University of Connecticut
Chengyu Li, PhD, Arizona State University; PE—Colorado, North Carolina, New Mexico, Washington; SE—Utah, Arizona, Washington
Wesley Marshall, PhD, University of Connecticut, PE—Connecticut
David C. Mays, PhD, University of California at Berkeley
Zhiyong (Jason) Ren, PhD, Pennsylvania State University
Frederick R. Rutz, PhD, University of Colorado

Assistant Research Professor:
Saeed Baraghi, PhD, University of Colorado, PE—Colorado

Senior Instructors:
Michael Tang, PhD, University of Wisconsin at Madison
Brian T. Brady, PhD, Colorado School of Mines

Professors Emeriti:
Paul E. Bartlett, MS, University of Colorado, PE—Colorado
Mission Statement
The mission of the Department of Civil Engineering is to:

- deliver high-quality comprehensive degree programs (BS, MS, MEng, PhD) to all of our students at both the undergraduate and graduate levels
- matriculate students who excel in professional practice and leadership and who possess compassion and respect for people of all cultural backgrounds
- teach our classes with excellence, whether in a traditional classroom setting or online
- offer our students state-of-the-art laboratories, equipment and classrooms with the latest technology needed for a complete learning experience
- develop ambitious and innovative research programs involving both faculty and students through funding from federal, state and local sources
- provide supportive mentoring and guidance to our students through teaching, research and advising
- produce students who can work as leading professionals in civil engineering and in many other fields for which civil engineering knowledge can be a foundation

Undergraduate
The UC Denver undergraduate civil engineering curriculum places balanced emphasis on five principal areas of civil engineering practice: structures, transportation, environmental, water resources and geotechnical engineering. In each of these areas, the student receives instruction in planning, design and analysis methods. Microcomputer skills are taught early in the program of study and used frequently in subsequent courses.

A minimum of 130 semester hours is required to earn the BS degree. The faculty provide advising to help students develop an efficient study plan. The student must satisfactorily complete all the course work in the curriculum, satisfy all university graduation requirements and maintain at least a 2.0 GPA in the civil engineering courses.

Graduate

Requirements for Admission
Applicants to the master of science in civil engineering (MS) program must satisfy all requirements specified in the Information for Graduate Students chapter of this catalog. Most applicants have an ABET accredited undergraduate degree in civil
An undergraduate GPA of 3.0 (on a 4-point scale) or better is required for regular admission. Students with lower GPAs may qualify for provisional admission and are strongly encouraged to submit GRE scores. International applicants are required to submit GRE scores to support their applications. Applicants whose undergraduate degree is in a field other than civil engineering may also be admitted into the MS in civil engineering degree program, if they have or will complete undergraduate prerequisite courses as required by the Department of Civil Engineering and the student’s graduate advisor.

Applicants to the master of engineering (MEng) program must have a baccalaureate degree in engineering, math, science, economics or planning from an accredited college or university and satisfy all requirements specified by the Graduate School.

Prospective PhD students should contact the Department of Civil Engineering on the Denver Campus to inquire about application requirements and to obtain the "Rules and Policies for the Coordinated PhD Program."

Requests for applications for graduate study in civil engineering should be addressed to UC Denver Department of Civil Engineering, Campus Box 113, P.O. Box 173364, Denver, CO 80217-3364.

Applicants who are not citizens or permanent residents of the United States should apply through the Office of International Admissions, Campus Box 185, P.O. Box 173364, Denver, CO 80217-3364. All applicants for admission must submit complete credentials as outlined in the instructions that accompany the application materials.

Programs

Bachelor of Science

Civil Engineering BS

Program Objectives

The objectives of the bachelor of science in civil engineering program are to produce graduates who:

- are able to perform the technical analyses and design tasks of entry-level civil engineers
- can successfully work toward professional engineering licensure
- communicate effectively, both orally and in writing
- understand the importance of leadership skills, team building and ethical practice
• value lifelong learning and improvement through graduate degrees or professional study
• appreciate the importance of community involvement and social contribution civil engineers are dedicated to improving our living environment

Civil engineering offers an interesting and challenging career in the design, construction, and maintenance of buildings and urban infrastructure; in transportation systems, including highways, airports, rapid transit lines, railroads, and harbor facilities; in the development of water resources, including reservoirs for storage, canals for irrigation, dams for power generation, stormwater management for drainage, groundwater recharge for contamination prevention, wastewater treatment for environmental protection, and water purification for drinking purposes; in the construction industry; including foundations, bridges, concrete and steel structures, in problems concerned with environmental preservation; and in the sustainable development of cities. In preparing for work in such a broad field, the civil engineering student studies mathematics, basic science, communication, social science and humanities, engineering science and civil engineering design. UC Denver’s civil engineering graduates usually find their first professional employment with consulting engineering firms, government agencies and various industries.

Typical Curriculum for BS (Civil Engineering)

Freshman Year

First Semester

• CHEM 1130 - Engineering General Chemistry  Summer 2010 Registration: CHEM 1130 (see note 1)
• ENGL 1020 - Core Composition I  Summer 2010 Registration: ENGL 1020
• MATH 1401 - Calculus I  Summer 2010 Registration: MATH 1401
  Core Curriculum Elective (see note 2) (3 semester hours)

Total: 15 Hours

Second Semester

• CVEN 1025 - Civil Engineering Graphics & Computer Aided Design  Summer 2010 Registration: C E 1025
• CVEN 2212 - Plane Surveying  Summer 2010 Registration: C E 2212
• ENGL 2030 - Core Composition II  Summer 2010 Registration: ENGL 2030
• MATH 2411 - Calculus II  Summer 2010 Registration: MATH 2411
• PHYS 2311 - General Physics I: Calculus-Based  Summer 2010 Registration: PHYS 2311
• PHYS 2321 - General Physics Lab I  Summer 2010 Registration: PHYS 2321
Total: 18 Hours

Sophomore Year

First Semester

- CVEN 2121 - Analytical Mechanics I \textit{Summer 2010 Registration: C E 2121}
- CVEN 2200 - Computing Methods in Civil Engineering \textit{Summer 2010 Registration: C E 2200}
- MATH 2421 - Calculus III \textit{Summer 2010 Registration: MATH 2421}
- PHYS 2331 - General Physics II: Calculus-Based \textit{Summer 2010 Registration: PHYS 2331}
  Core Curriculum Elective (see note 2) (3 semester hours)

Total: 17 Hours

Second Semester

- CVEN 3121 - Mechanics of Materials \textit{Summer 2010 Registration: C E 3121}
- CVEN 3141 - Introduction to Structural Materials \textit{Summer 2010 Registration: C E 3141}
- CVEN 3401 - Introduction to Environmental Engineering \textit{Summer 2010 Registration: C E 3401}
- CVEN 4780 - Engineering Geology \textit{Summer 2010 Registration: C E 4780 or GEOL 1072 - Physical Geology: Surface Processes
  \textit{Summer 2010 Registration: GEOL 1072 or MATH 3800 - Probability and Statistics for Engineers
  \textit{Summer 2010 Registration: MATH 3800}
- MATH 3195 - Linear Algebra and Differential Equations \textit{Summer 2010 Registration: MATH 3195}

Total: 15 Hours

Junior Year

First Semester

- CVEN 3111 - Analytical Mechanics II \textit{Summer 2010 Registration: C E 3111}
- CVEN 3313 - Theoretical Fluid Mechanics \textit{Summer 2010 Registration: C E 3313}
- CVEN 3505 - Structural Analysis \textit{Summer 2010 Registration: C E 3505}
- CVEN 3602 - Transportation Engineering \textit{Summer 2010 Registration: C E 3602}
  Core Curriculum Elective (see note 2) (3 semester hours)
Total: 15 Hours

Second Semester

- CVEN 3323 - Applied Fluid Mechanics  Summer 2010  Registration: C E 3323
- CVEN 3414 - Design of Water and Wastewater Systems  Summer 2010  Registration: C E 3414
- CVEN 3708 - Introduction to Geotechnical Engineering  Summer 2010  Registration: C E 3708
- CVEN 4718 - Intermediate Soils Engineering  Summer 2010  Registration: C E 4718
- ENGR 3012 - Thermodynamics  Summer 2010  Registration: ENGR 3012

Core Curriculum Elective (see note 2) (3 semester hours)

Total: 17 Hours

Senior Year

First Semester

- CVEN 4000 - Senior Seminar  Summer 2010  Registration: C E 4000
- ELEC 3030 - Electric Circuits and Systems  Summer 2010  Registration: E E 3030
  Civil Engineering Design Electives (see note 3) (6 semester hours)
  Upper-level Science, Math or Engineering Electives (see note 4) (6 semester hours)
  Core Curriculum Elective (see note 2) (3 semester hours)

Total: 18 Hours

Second Semester

Civil Engineering Design Electives (see note 3) (6 semester hours)
- CVEN 4067 - Senior Design Projects  Summer 2010  Registration: C E 4067
  Core Curriculum Elective (see note 2) (3 semester hours)
  Science, Math or Engineering Electives (see note 4) (3 semester hours)
Total: 15 Hours

Program Total: 130 Hours

1. Or CHEM 2031 and CHEM 2038, which are required for students wishing to take CHEM 2061 and CHEM 2068 as general electives.
2. The communication, humanities and social science electives selected by the student and approved by his/her advisor must satisfy the college core curriculum.
3. Students must satisfactorily complete four of the six civil engineering design courses listed below:
   - CVEN 4427 Storm Water System Design
   - CVEN 4565 Timber Structure Design
   - CVEN 4575 Structural Steel Design
   - CVEN 4585 Reinforced Concrete Design
   - CVEN 4602 Highway Engineering
   - CVEN 4738 Intermediate Foundation Engineering
4. Science, math or engineering electives. The purpose of the electives is to extend the student’s knowledge beyond the basic civil engineering requirements. Electives chosen should come from the areas of engineering, mathematics, chemistry, biology, physics or geology. In the case of mathematics, chemistry, physics or geology, the elective must be of higher level than courses in this field required by the civil engineering program. Suggested courses are CVEN 4077, CVEN 4087, CVEN design courses or any 5000-level CVEN course.

Certificate

Geographic Information Systems Graduate Certificate
This certificate is for students who want to get a taste of the geographic information systems (GIS) specialty area before applying for a graduate degree and for professionals who need a working knowledge of GIS. To earn the certificate in GIS, students must complete four of the core GIS classes, equaling 12 semester hours of work. Students can complete this certificate as a master’s student or as a nondegree student. Students must already have a baccalaureate degree and must complete any course-specific prerequisites.

**Sustainable Urban Infrastructure Graduate Certificate**

This certificate is for students and working professionals who seek an interdisciplinary curriculum in the broad field of sustainable infrastructure to address complex water, energy, built environment and transportation challenges using engineering and social science strategies. Students must already have a baccalaureate degree.

**Water Resources Graduate Certificate**

This certificate is for graduate students who seek an interdisciplinary curriculum in the field of hydrologic and hydraulic engineering to analyze water-related problems and obtain knowledge pertaining to watershed hydrology, groundwater modeling, urban storm water management, flood mitigation and river mechanics. Students must already have a baccalaureate degree

**Master of Science**

**Civil Engineering MS and MEng**

- [Graduate School Rules](#) apply to these programs
Graduate

Degree Programs

The civil engineering graduate program is designed for both full-time and part-time students who want to advance their academic and professional skills in civil engineering and related areas. Many students are full time, while many also work full-time jobs and complete evening classes. Depending on a student's pace, the master's program takes 2-4 years to complete (on average). All graduate courses are offered in the afternoons, evenings or on Saturdays. Some courses, including all GIS classes, are offered online.

Specialty Areas:

Master of Science (MS)

- Environmental and Sustainability Engineering
- Geographic Information Systems (GIS)
- Geotechnical Engineering
- Hydrologic and Hydraulic Engineering
- Structural Engineering
- Transportation Engineering

Master of Engineering (MEng)

- Geographic Information Systems (GIS)
- Sustainable Infrastructure
- Transportation Systems

Degree Requirements

Two MS degree programs are available.

Plan I - Master's Thesis: This plan requires 24 credit hours of graduate-level course work and 6 semester hours of master's thesis credit.

Plan II - Master's Report: This plan requires 27 credit hours of graduate-level course work and 3 semester hours master's report credits.

Master of engineering students must follow Plan 2 above. Additionally, of those 30 semester hours, at least 15 hours must be completed with CE classes, including the master's report. The remaining hours may be completed in related disciplines that supplement the chosen area of study. Both the MS and MEng degrees require satisfactory completion of a written comprehensive exam and an oral defense of the master's thesis or master's report to a committee of at least three graduate faculty. Every graduate student must also satisfy the degree requirements of the Graduate
School on the Downtown Campus, specified in the Information for Graduate Students chapter of this catalog. Both the MS and the MEng degree programs must be completed within seven years of the date the student begins the degree program.

Courses for both the MS and MEng degree programs are selected by mutual agreement of the student and his/her faculty advisor after admission to the degree program. The advisor may also specify undergraduate courses that must be completed before starting graduate course work, but these will not count toward the semester hour requirements for the degree. The student's thesis or report topic must also be approved by the faculty advisor.

Requirements for Admission

GPA and GRE

Students with GPA's between 3.0 and 2.75 may be admitted provisionally, but are encouraged to submit official GRE scores to support their applications. Non-international applicants not wishing to take the GRE may gain admittance by registering as a nondegree student and completing three classes with a GPA of 3.25.

Transfer Credit:

Master's students may transfer up to 9 semester hours from another institution towards their master's degree, if approved by their advisor.

Program Prerequisites:

Prerequisite classes are in addition to the 30 semester hours needed to complete a master's degree, as they are necessary background information that is usually included in an engineering bachelor's program.

Students may complete prerequisite classes either before or after being admitted to a degree program. However, applicants with too many prerequisites may not gain admission. For applicants completing prerequisites after admission, all prerequisite courses must be completed before 12 of the 30 master's semester hours are complete.

Requests for applications for graduate study in civil engineering should be addressed to

UC Denver Department of Civil Engineering
Campus Box 113
P.O. Box 173364
Denver, CO 80217-3364.

Applicants who are not citizens or permanent residents of the United States must apply through the Office of International Admissions, Campus Box 185, P.O. Box 173364,
Denver, CO 80217-3364. All applicants for admission must submit complete credentials as outlined in the instructions that accompany the application materials.

**Doctor of Philosophy**

**Civil Engineering PhD**

- Graduate School Rules apply to this program

The PhD degree in civil engineering is offered through a coordinated program with University of Colorado at Boulder.

Specialty Areas for Degrees:

- Environmental and Sustainability Engineering
- Geotechnical Engineering
- Hydrologic and Hydraulic Engineering
- Structural Engineering
- Transportation Engineering
- Civil Engineering Systems

**What is civil engineering systems?**

The doctoral program in civil engineering systems has different rules than the five other traditional doctoral tracks in order to facilitate more interdisciplinary research. This doctoral track can be the degree that would follow a master's of engineering.

**Additional Doctoral Admissions Requirements**

In addition to the admissions requirements listed for master's students, doctoral applicants need to have the support of a faculty advisor before they are admitted. Once doctoral students are approved by the graduate admissions committee, their application must be reviewed again by the Department of Civil, Environmental and Architectural Engineering at CU Boulder as the programs are jointly administered. Prospective PhD students should contact the Department of Civil Engineering on the Downtown Campus to inquire about application requirements and to obtain the “Rules and Policies for the Coordinated PhD Program.”

Requests for applications for graduate study in civil engineering should be addressed to

UC Denver Department of Civil Engineering  
Campus Box 113  
P.O. Box 173364  
Denver, CO 80217-3364

Professors:

Gita Alaghband, PhD, University of Colorado
Tom Altman, PhD, University of Pittsburgh
Boris Stilman, PhD, National Research Institute for Electrical Engineering, Moscow, Russia

Associate Professors:

Bogdan Chlebus, PhD, Warsaw University, Poland
Min-Hyung Choi, PhD, University of Iowa
Ellen Gethner, PhD, University of British Columbia
Ilkyeun Ra, PhD, Syracuse University

Assistant Professor Clinical Teaching Track:

Richard Osborne, PhD, University of Colorado

Senior Instructor and Undergraduate Advisor:

Will Trobaugh, MS, University of Colorado

Mission and Vision Statement

With the advances in technology and the rapid and prevalent growth of the information-based economy, the computer science has become an enabling science for nearly all disciplines that impact engineering, science, business, health and government. The
future of the discipline promises even more innovative advances. We in the Department of Computer Science and Engineering at the University of Colorado Denver are committed to providing outstanding education and research training to our diverse undergraduate and graduate students for productive careers in industry, academia and government in the Denver metropolitan area, state and beyond. Our faculty strive for excellence in teaching, research and service by covering a broad spectrum of the core fundamentals of the discipline as well as applied aspects including those of interdisciplinary nature. We will actively engage our students in classroom and out-of-classroom research and help them develop the skills needed to solve complex real-world technological problems of our modern society.

The Department of Computer Science and Engineering offers BS, MS and PhD degrees:

- The undergraduate BS degree is awarded in computer science and engineering (CSE). This curriculum is a rigorous study covering theoretical, software, hardware and their interfaces providing students with a coherent and in-depth education of key components of the field.
- The MS degree is awarded in computer science (CS) to those students who wish to pursue graduate studies to further develop their education. The MS in CS graduate program covers the core knowledge of key concepts of the computer science as well as offers flexibility to pursue specializing in various fields of interests.
- The PhD in computer science and information systems (CSIS) program is an interdisciplinary, joint program between the Department of Computer Science and Engineering in the College of Engineering and the Applied Science and Information Systems program in the Business School. The program offers a CS track with PhD degree awarded in CSIS from College of Engineering and an IS track where the degree is awarded in CSIS from the Business School.

**Undergraduate**

**Computer Science and Engineering Program**

Computers as a combination of software and hardware have become significant to the whole of society. They affect the way in which business is conducted and the way people study and learn. Very important is the use of computers to develop new avenues of human communication, interaction and cooperation. Communication networks and the combination of text with audio and video are providing more people with fingertip access to a vast array of information and knowledge.

The computer scientist and engineer is a professional who must be prepared to apply his or her skills, knowledge and creativity in a rapidly changing field. The bachelor of science in computer science and engineering at UC Denver prepares students for such creative work. The emphasis is on fundamental concepts and basic principles with a
long useful life. The program is composed of five major study areas: mathematics, basic or engineering science, required computer science and engineering courses, technical electives and the Denver Campus core curriculum.

The computer science and engineering program has dual accreditation from the Computing Accreditation Commission (CAC) and the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET).

**Computer Science and Engineering Curriculum**

The mathematics, basic science and computer science and engineering core requirements give the student a broad exposure to the concepts, methods and practice of computer science and engineering; the student learns the fundamentals of producing solutions to problems.

Technical electives are chosen to add depth to a student’s knowledge in an area of special interest.

The Denver Campus core curriculum is designed to give the student an exposure to knowledge outside his or her major. For students in the College of Engineering and Applied Science, courses in the humanities, social sciences and human communications are required.

To be awarded the bachelor of science in computer science and engineering, a student must satisfactorily complete all course work shown in the curriculum below, satisfy all university graduation requirements and maintain at least a 2.0 GPA in all computer science courses attempted (see “Policy on Academic Progress” in the introductory section of this chapter). Students must meet with an undergraduate advisor each semester to assure that they are on track within the degree program and are aware of the current requirements of the program. An additional source of information is the “C SE Undergraduate Advising Handbook” or the department’s Web site, [www.ucdenver.edu/cse](http://www.ucdenver.edu/cse). Students are required to set up an appointment with the senior check-out advisor before registering for the last 30 semester hours of their program. Upon completion of the 30-hour checkout, all students are required to schedule an appointment with the CSE undergraduate advisor to complete the graduation agreement. Prerequisites will be strictly enforced. *Note:* Prerequisites must be taken before a course that requires them; co-requisites may be taken before or concurrent with a course that requires them.

**Graduate**

The Department of Computer Science and Engineering (CSE) offers a master of science in computer science (MSCS). The CSE department, together with the Business School,
also offers a joint program leading to a doctoral degree in computer science and information systems (CSIS).

Expertise expand several areas of research in algorithms, artificial intelligence, computer architectures, computer graphics, computational geometry, communication networks, computer security, database systems, distributed computing, high-performance computing, Internet, operating systems, parallel and distributed systems, simulation, software engineering and virtual reality.

Requests for applications for graduate study in computer science and engineering should be addressed to:

UC Denver Department of Computer Science and Engineering
Campus Box 109
P.O. Box 173364
Denver, CO 80217-3364

Applicants who are not citizens or permanent residents of the United States should make application through the Office of International Admissions, Campus Box 185, P.O. Box 173364, Denver, CO 80217-3364. All applicants for admission must submit complete credentials as outlined in the instructions that accompany the application materials.

**Admission Requirements**

Applicants should hold a bachelor's degree from an institution comparable to the University of Colorado. They need to have sufficient programming experience and mathematical maturity to understand advanced courses. Qualified applicants holding a degree outside computer science, computer engineering or equivalent fields may need to take additional undergraduate courses before starting the graduate program.

Admission decisions are based on prior academic performance, letters of recommendation, English proficiency, if applicable, as well as the applicant's written statement of purpose.

Additional requirements include:
(1) 10 credit hours, on the semester basis, of university-level calculus
(2) at least one math course beyond calculus, such as advanced calculus, differential equations, linear algebra, probability, statistics or combinatorial analysis.

Students lacking some of these requirements, whose background is otherwise satisfactory, may be admitted with the understanding that the certain undergraduate courses have to be completed after admission.
Required GPA

Regular admission: Applicants should have an undergraduate GPA of at least 3.0.

Provisional admission: Applicants may be accepted as “provisional degree students.” This status is indicated in the acceptance letter along with the conditions that need to be satisfied by a specific deadline for the student to obtain regular status.

Transfer Credit
A maximum of 9 semester hours of graduate course work may be transferred into the program based on department approval. In principle, core courses must be taken from the CSE department at UC Denver. Note: Candidates applying for the MS study will be individually evaluated by the department’s graduate committee. A letter with a decision will be sent to the applicant by the CSE chair.

Computer Science and Information Systems PhD

Admission

Prospective students apply to either the Department of Computer Science and Engineering (CSE) or the Business School. Applicants who pass the initial screening are then reviewed by a joint committee (consisting of the two co-directors of the program) for the final admittance decision.

Admission criteria include GPA (undergraduate and graduate), standardized test scores (GMAT or GRE), letters of recommendation, prior achievements in academia and industry and an application portfolio essay describing an applicant’s motivation and an initial plan for doctoral study. The application portfolio is important to gauge an applicant’s motivation for research training.

Students without a master’s degree in either computer science or information systems will need to take additional course work sufficient to complete the requirements of a master’s degree in one of the two areas.

Supervision of the PhD Program

The PhD program is supervised by the two program co-directors. The duties of the co-directors include scheduling of doctoral courses, setting program policies subject to approval of business and CSE faculty, working with advisors to ensure compliance with the program guidelines, resolving disputes, measuring performance of the program over time and providing the final decision on admittance of students.

Advisor
Upon entering the program, each chooses an advisor to provide mentoring and guidance throughout the program and work with the student to prepare a program of study. Requests to change advisors must be approved by the program co-directors, and this happens in very rare circumstances.

**Doctoral Committee**

The advisor and four other members form a doctoral committee. To foster interdisciplinary work, you may have your doctoral research co-supervised by two faculty members. At least one co-supervisor must be a full-time current graduate faculty member in the CSE department or Business School. The committee must contain at least one faculty member from the CSE department and at least one from the Business School. At least one committee member is from outside of the CSE department and the information systems faculty.

**Programs**

**Bachelor of Science**

**Computer Science and Engineering BS**

**Program Objectives**

The objectives of the bachelor of science degree in the computer science and engineering program are to:

1. Produce graduates who are successful professionals in computer science and engineering
2. Prepare students for graduate or professional study
3. Develop team building
4. Involve students in software design and projects
5. Support and enhance leadership skills
6. Produce students who can communicate effectively

**Measurable Outcomes**
To attain the educational objectives of the BS CSE program, the CSE department intends to produce the following measurable outcomes at the time of graduation. Graduates of the BS CSE program will have the following skills:

- an ability to apply knowledge of mathematics, science and engineering
- an ability to analyze a problem and identify and define the computing requirements appropriate to its solution
- an ability to design and conduct software and/or hardware experiments, as well as to analyze and interpret data
- an ability to design software and/or hardware to meet desired needs
- an ability to function on multidisciplinary teams
- an ability to identify, formulate and solve computer science and engineering problems
- an understanding of professional and ethical responsibility
- an ability to communicate effectively
- the broad education necessary to understand the impact of engineering and computer science solutions in a global and societal context
- a recognition of the need for, and an ability to engage in, lifelong learning
- a knowledge of contemporary issues
- an ability to use the techniques, skills and modern tools necessary for computer science and engineering practice
- an ability to display leadership

**Typical Curriculum for BS in Computer Science and Engineering**

**Freshman Year**

**First Semester**

- **CSCI 1410 - Fundamentals of Computing**夏季2010注册: C SC 1410
- **CSCI 1411 - Fundamentals of Computing Laboratory**夏季2010注册: C SC 1411
- **CSCI 1510 - Logic Design**夏季2010注册: C SC 1510
- **ENGL 1020 - Core Composition I**夏季2010注册: ENGL 1020 (见注1)
- **MATH 1401 - Calculus I**夏季2010注册: MATH 1401
  
  核心课程学分。学分: 3 (见注1)

**Total: 17 Hours**
Second Semester

- CSCI 2312 - Intermediate Programming  
  Summer 2010 Registration: C SC 2312
- MATH 2411 - Calculus II  
  Summer 2010 Registration: MATH 2411
- PHYS 2311 - General Physics I: Calculus-Based  
  Summer 2010 Registration: PHYS 2311
- PHYS 2321 - General Physics Lab I  
  Summer 2010 Registration: PHYS 2321
- ENGL 2030 - Core Composition II  
  Summer 2010 Registration: ENGL 2030

Total: 15 Hours

Sophomore Year

First Semester

- CSCI 2421 - Data Structures and Program Design  
  Summer 2010 Registration: C SC 2421
- CSCI 2511 - Discrete Structures  
  Summer 2010 Registration: C SC 2511
- CSCI 2525 - Assembly Language and Computer Organization  
  Summer 2010 Registration: C SC 2525
- PHYS 2331 - General Physics II: Calculus-Based  
  Summer 2010 Registration: PHYS 2331
- PHYS 2341 - General Physics Lab II  
  Summer 2010 Registration: PHYS 2341

Core Curriculum Elective Semester Hours: 3 (see note1)

Total: 17 Hours

Second Semester

- CSCI 2132 - Circuit Analysis I  
  Summer 2010 Registration: C SC 2132
- CSCI 3320 - Advanced Programming  
  Summer 2010 Registration: C SC 3320
- CSCI 3412 - Algorithms  
  Summer 2010 Registration: C SC 3412

Core Curriculum Elective Semester Hours: 3 (see note1)

- CSCI 3287 - Database System Concepts  
  Summer 2010 Registration: C SC 3287

Total: 15 Hours

Junior Year

First Semester

- CSCI 3415 - Principles of Programming Languages  
  Summer 2010 Registration: C SC 3415
• CSCI 3453 - Operating System Concepts  Summer 2010 Registration: C SC 3453
• CSCI 3511 - Hardware-Software Interface  Summer 2010 Registration: C SC 3511
• CSCI 3560 - Probability and Computing  Summer 2010 Registration: C SC 3560
CSE Tech Elective. Semester Hours: 3
Core Curriculum Elective Semester Hours: 3 (see note 1)

Total: 18 Hours

Second Semester

• CSCI 3508 - Introduction to Software Engineering  Summer 2010 Registration: C SC 3508
• MATH 3195 - Linear Algebra and Differential Equations  Summer 2010 Registration: MATH 3195
CSE Tech Elective. Semester Hours: 3
CSE Tech Elective. Semester Hours: 3
Core Curriculum Elective. Semester Hours: 3 (see note 1)

Total: 16 Hours

Senior Year

First Semester

• CSCI 3287 - Database System Concepts  Summer 2010 Registration: C SC 3287
• CSCI 4034 - Theoretical Foundations of Computer Science  Summer 2010 Registration: C SC 4034
• CSCI 4650 - Numerical Analysis I  Summer 2010 Registration: C SC 4650
• CSCI 4738 - Senior Design I  Summer 2010 Registration: C SC 4738
CSE Tech Elective. Semester Hours: 3

Total: 15 Hours

Second Semester
Total: 15 Hours

Program Total: 128 Hours

In addition to planning for sequences of courses based on prerequisites, students should plan to complete sophomore-level courses before taking junior-level courses.

1. Downtown Campus core curriculum: core requirements of the College of Engineering and Applied Science are outlined in the section titled “Undergraduate Core Curriculum in Engineering” or at www.ucdenver.edu/cse. In the communication area, students must pass ENGL 1020-3, Core Composition I, with a C- or better prior to taking either CSCI 2421 or CSCI 4739.

2. Computer science and engineering technical electives: The student must take five courses (15 semester hours) chosen from any CSCI 3000 or 4000-level courses that are not part of the required bachelor of science in computer science and engineering curriculum. The 2000-level CSCI "Practical Systems Administration" course will be counted as one CSCI elective. ELEC 4000-level computer engineering courses may be taken to satisfy a CSE tech elective with prior approval of a CSE academic advisor.

Non Degree

Computer Science Minor

The Department of Computer Science and Engineering offers a minor in computer science. The requirements for the minor are listed below.

Program Requirements

1. Any undergraduate student currently enrolled in a UC Denver degree program with a major other than computer science and engineering may earn a minor in
computer science. This includes students from the College of Engineering and Applied Science, the College of Liberal Arts and Sciences, the Business School, the College of Arts & Media and the School of Public Affairs.

2. The student must complete the following classes with a grade of \( C \) or better:
   - CSCI 1410 - Fundamentals of Computing \( \text{Summer 2010 Registration: C SC 1410} \)
   - CSCI 2421 - Data Structures and Program Design \( \text{Summer 2010 Registration: C SC 2421} \)
   - CSCI 2511 - Discrete Structures \( \text{Summer 2010 Registration: C SC 2511} \)
   - MATH 1401 - Calculus I \( \text{Summer 2010 Registration: MATH 1401} \)
   - MATH 2411 - Calculus II \( \text{Summer 2010 Registration: MATH 2411} \)

3. The student must complete (with a \( C \) or better) three additional computer science courses at the 3000 level or higher with the approval of an undergraduate advisor.
   Note: Some courses at the 3000 level and above require additional prerequisites. A student must fulfill all prerequisites for the courses he/she selects. See the catalog course descriptions for prerequisite information for each course.

4. All computer science courses 3000 level and above must be taken at the Downtown Campus of UC Denver.

5. At the time of graduation, the student must have a UC Denver cumulative GPA of 2.0 and must have a 2.0 GPA for the eight classes taken for the minor.

6. The student must file a minor declaration form with an undergraduate advisor or with the Engineering Student Services office in North Classroom, 3024. For more information or an advising appointment, contact the Department of Computer Science and Engineering in North Classroom, 2605, or by phone at 303-556-4314.

**Master of Science**

**Computer Science MS**

- Graduate School Rules apply to this program

**General MS Degree Requirements**

In addition to the basic requirements of the university, the Department of Computer Science and Engineering requires master’s degree candidates to complete an approved program of study consisting of at least 30 semester hours of graduate-level computer science courses and a thesis or project while maintaining a GPA of at least 3.0. With prior approval of the graduate committee, a student may substitute up to 9 semester hours of graduate-level mathematics or other engineering courses. All courses must be taught by University of Colorado graduate faculty.
A student must submit an approved plan of study to the department during the first semester of his/her admission. An academic advisor will consult with each student to develop a plan of study.

**Adequate Progress toward MS in Computer Science Degree**

Students are expected to finish the MS degree program within five years. Candidates for the MS degree may not get credit for a course taken longer than five years before the date on which the degree is to be granted.

Students who do not enroll for any course work relevant to computer science in a given semester (summer semesters excluded) must supply the Department of Computer Science and Engineering with a written statement describing the reason for the inactivity. Students who are inactive for three consecutive semesters (summer semesters excluded) will be removed from the program, and must re-apply for admission.

Students may choose either Plan I (thesis) or Plan II (MS project).

**Plan I—Thesis**

Students choosing Plan I take 24 semester hours of graduate course work and conclude their program with 6 semester hours of thesis work. A minimum of three courses must be chosen from among five “core” courses and must be passed with a grade of B or better. Three additional courses must be chosen from among more than a dozen “breadth” courses. Plan I students must also write a thesis and defend it before a thesis committee. The students in Plan I may take one independent study course for a maximum of 3 hours.

**Plan II—MS Project**

Students choosing Plan II take 27 semester hours of graduate course work and conclude their program with 3 semester hours of MS project work. A minimum of three courses must be chosen from among five “core” courses and must be passed with a grade of B or better. Three additional courses must be chosen from among more than a dozen “breadth” courses. Plan II students must also write an MS project report and defend it before an MS project committee. The students in Plan II may take one independent study course for a maximum of 3 semester hours.

*Note:* Students can take only graduate engineering (21 semester hours must be CS courses) and graduate mathematics courses. No more than 6 semester hours can be taken in the form of online courses.
Doctor of Philosophy

Computer Science and Information Systems PhD

► Graduate School Rules apply to this program

Program co-directors: Gita Alaghband (CSE) and Mike Mannino (Business School)

Web site: business.ucdenver.edu/Disciplines/InfoSystems/PhD/index.htm

The Department of Computer Science and Engineering (CSE) and the Business School offer a joint doctor of philosophy degree program in computer science and information systems (CSIS). The program targets students with a master’s-level education in either computer science or information systems who seek research training that combines CS and IS along with strong industry interaction. The joint PhD program provides training for academic positions, industrial research positions and senior consulting positions. The specific goals of the program complement these general goals:

- create a pool of graduates with CSIS research training who are qualified for academic and nonacademic careers
- meet student demand for advanced training in CSIS with accommodations for full-time and part-time students
- promote interdisciplinary research between CSE and the Business School
- enhance technology transfer between CSIS academic units and Front Range technology businesses through joint research, student internships, faculty externships and committee participation

Advisor

Upon entering the program, each chooses an advisor to provide mentoring and guidance throughout the program and work with the student to prepare a program of study. Requests to change advisors must be approved by the program co-directors, and this happens in very rare circumstances.

Doctoral Committee

The advisor and four other members form a doctoral committee. To foster interdisciplinary work, you may have your doctoral research co-supervised by two faculty members. At least one co-supervisor must be a full-time current graduate faculty member in the CSE department or Business School. The committee must contain at least one faculty member from the CSE department and at least one from the Business
School. At least one committee member is from outside of the CSE department and the information systems faculty.

**Program Components**

**Plan of Study**

A list of course work and other requirements for the degree should be prepared with the advisor and then submitted to the co-directors for approval. The successful completion of all work indicated on the plan of study is an important prerequisite for the conferring of the degree. A plan of study should be submitted for approval by the end of the first semester of the program. The current plan of study should be updated before the beginning of the second year of the program and submitted for reapproval by the co-directors.

**Preliminary Exam**

According to Graduate School rules, students are required to demonstrate their basic knowledge and preparation toward more advanced doctoral level work. For more information visit the PhD CSIS Web site.

**Comprehensive Exam**

Students will submit a paper to fulfill the graduate school's comprehensive exam requirement. The paper should describe an area of research including literature review, problem definition, and possible methodologies/models to study a significant problem in computer science or information systems. The paper will be evaluated by a committee of three faculty members. An oral presentation of the paper will be open to the entire CSIS faculty. The committee may adopt additional guidelines to evaluate the paper and presentation. According to graduate school rules, the comprehensive exam must be completed by the end of the fourth year in the program. In addition to these requirements, the comprehensive exam must meet the other graduate school requirements.

**Dissertation Proposal**

Each student should prepare a proposal that will be evaluated by the doctoral committee. A proposal should be ready for review at least one semester before the expected completion date of the degree. The proposal is submitted for review and approval by the doctoral committee. An oral presentation of the dissertation proposal
before the doctoral committee is required for approval. An approved proposal is then submitted to the co-directors of the program for final approval.

**Dissertation Completion**

Once the dissertation proposal is approved, each student prepares and submits a dissertation. The dissertation is defended before the doctoral committee in a public meeting. Final approval for the dissertation is given by a vote of the dissertation committee after the public defense.

**Graduation**

Upon completion of all degree requirements including the dissertation defense, the student receives the degree of doctor of philosophy. Students applying through CSE receive the PhD from the College of Engineering and Applied Science, while students applying through information systems receive the PhD from the Business School.

**Electrical Engineering**

**Acting Chair:** Miloje (Mike) Radenkovic  
**Administrative Assistant:** Janiece Hockaday

**Telephone:** 303-556-2872  
**Fax:** 303-556-2383  
**Web site:** [www.ucdenver.edu/electrical](http://www.ucdenver.edu/electrical)

**Faculty**

**Professor:**

Titso Papantoni, PhD, University of Southern California, Professional Engineer (PE)—Greek Chamber of Professional Engineers and Texas

**Associate Professors:**

Jan Bialasiewicz, PhD, DSc, Silesian Technical University, Poland, PE—Colorado  
Hamid Fardi, PhD, University of Colorado Boulder  
Miloje Radenkovic, PhD, University of Belgrade, Yugoslavia

**Assistant Professors:**

Yiming (Jerry) Deng, PhD, Michigan State University
Modern electrical engineering is a very broad and diverse field. Never before has there been such a challenge and opportunity for electrical engineering to serve mankind. Today’s electrical engineers are involved in the development of technology, materials and products to improve the quality of life. They are concerned with the generation and transmission of power, the control and utilization of natural and synthetic resources, the communication of data and information and the intelligent use of computers in consumer as well as industrial products and processes. Systems in electrical engineering range in size from microprocessors through megawatt energy conversion systems to global audio and video communication networks.

At UC Denver, the electrical engineering curriculum prepares students for careers in product design, manufacturing, research, development, operation and plant engineering, technical sales and application engineering. The goal is to educate and inspire students to achieve their maximum career potential.

**Mission Statement**

We provide graduate programs and an ABET-accredited undergraduate program that are accessible to a diverse group of students—students of different racial and cultural backgrounds, full-time students as well as those who have considerable work and family commitments outside their academic learning and students with a wide variety of work experiences.

**Undergraduate**

Entering students begin their program with a solid foundation in mathematics, physics, chemistry and computers. Social science, humanities and communication courses provide a diverse background. Intensive courses follow in the theory and laboratory application of digital logic and electrical circuits, electromagnetic fields, electronics, computer engineering and digital hardware design, linear systems, controls, electrical machines and power systems and microprocessors. Throughout the entire course of study, students reinforce their understanding of theory through laboratory experience.
and extensive design projects. A strong background is provided in all of the major fields of electrical engineering: circuits and electronics, microcomputers, signal and image processing, communications, autonomous and robotic systems, power and energy conversion, and automatic control systems and instrumentation. Ethics is an integral part of the curriculum. During the senior year, advanced undergraduate-level courses in different specialty areas, design projects and professional electives allow the student to explore areas of special interest.

Students should supplement this information about the curriculum by consulting a copy of the “E E Advisement Guide,” which may be obtained in the Department of Electrical Engineering office located in North Classroom, 2615. The “E E Advisement Guide” contains the latest information concerning the curriculum as well as guidelines and procedures with which each student should be familiar. To be awarded the bachelor of science in electrical engineering, a student must satisfactorily complete 128 semester hours, satisfy all university graduation requirements and maintain at least a 2.0 GPA in all electrical engineering and computer science courses attempted. Appointments to see any of the departmental advisors may be made by calling 303-556-2872.

Graduate
The Department of Electrical Engineering offers graduate programs with the following areas of emphasis: communications and signal processing; controls and signal processing; microelectronics and VLSI; fields, waves and optics; computer engineering and embedded systems design; and energy and power systems. The department offers graduate programs leading to the degrees of master of science in electrical engineering and master of engineering.

Requirements for Admission

Applicants, who are U.S. citizens or permanent residents, should request an application through:

Department of Electrical Engineering
University of Colorado Denver
110 UCD
P.O. Box 173364
Denver, CO 80217-3364
Telephone: 303-556-2872
Facsimile: 303-556-2383

Applicants, who are not U.S. citizens or permanent residents of the United States, should make application through the University of Colorado Denver, Office of International Education, 185UCD, P.O. Box 173364, Denver, CO 80217-3364, U.S.A.; telephone 303-315-2231; facsimile 303-315-2246. All applicants for admission need to
submit complete credentials as outlined in the instruction sheet which accompanies the application materials. Three recommendations are required.

The minimum requirements for “regular” admission to the master's program are: BS in electrical engineering, or equivalent degree in math, physics or other engineering disciplines, from a reputable institution, with a GPA of at least 3.0, on a 4.0 scale. Satisfaction of minimum requirements does not guarantee admission: The grades obtained in the student’s area of concentration are important factors in the consideration, and so are possible multiple repetitions of fundamental courses. Students who do not meet the requirements for direct admission to the program may be admitted “conditionally”: that is, they may be required to take or repeat certain undergraduate courses before their admission to the program is official.

For those undergraduate students with degrees in science and non-electrical engineering wishing to pursue graduate study in the Electrical Engineering Department there is no restriction or constraint in being admitted into the master of science in electrical engineering graduate program. However, they must fulfill any prerequisite course requirements assigned to any graduate course in the department. Students with an undergraduate degree in areas other than electrical engineering must also see their graduate instructor to receive approval before registering for a class in electrical engineering.

Students must plan a program of study in consultation with their departmental advisor(s), during the first semester of study, and submit for approval to the department.

Programs

Bachelor of Science

Electrical Engineering BS

Undergraduate Program Objectives

Objectives of the bachelor of science in electrical engineering are to develop graduates:

- who are immediately productive engineers and can advance their careers on different professional tracks in the engineering industry
- who can pursue graduate education in engineering or other fields such as business, medicine and law

These objectives are consistent with the mission of the University of Colorado Denver, congruent with the goals of the College of Engineering and Applied Science and reflective of the mission of the Department of Electrical Engineering.
Typical Curriculum for BS (Electrical Engineering)

Freshman Year

First Semester

- CHEM 1130 - Engineering General Chemistry  
  Summer 2010 Registration: CHEM 1130
- ELEC 1201 - Introduction to Electrical Engineering  
  Summer 2010 Registration: E E 1201
- ELEC 1510 - Logic Design  
  Summer 2010 Registration: E E 1510
- ENGL 1020 - Core Composition I  
  Summer 2010 Registration: ENGL 1020 (see note 1)
- MATH 1401 - Calculus I  
  Summer 2010 Registration: MATH 1401

Total: 16 Hours

Second Semester

- ELEC 1520 - Embedded Systems Engineering I  
  Summer 2010 Registration: E E 1520
- ELEC 2531 - Logic Laboratory  
  Summer 2010 Registration: E E 2531
- MATH 2411 - Calculus II  
  Summer 2010 Registration: MATH 2411
- PHYS 2311 - General Physics I: Calculus-Based  
  Summer 2010 Registration: PHYS 2311
- PHYS 2321 - General Physics Lab I  
  Summer 2010 Registration: PHYS 2321
  Core Curriculum Elective (see note 1) (3 semester hours)

Total: 16 Hours

Sophomore Year

First Semester

- ELEC 2132 - Circuit Analysis I  
  Summer 2010 Registration: E E 2132
- ENGL 2030 - Core Composition II  
  Summer 2010 Registration: ENGL 2030
- MATH 2421 - Calculus III  
  Summer 2010 Registration: MATH 2421
- MATH 3195 - Linear Algebra and Differential Equations  
  Summer 2010 Registration: MATH 3195

Note 1: See course descriptions for further details.
• PHYS 2331 - General Physics II: Calculus-Based  Summer 2010 Registration: PHYS 2331

Total: 18 Hours

Second Semester

• ELEC 2142 - Circuit Analysis II  Summer 2010 Registration: E E 2142
• ELEC 2552 - Sophomore Circuits Laboratory  Summer 2010 Registration: E E 2552
• ELEC 2520 - Embedded Systems Engineering 2  Summer 2010 Registration: E E 2520

Total: 13 Hours

Junior Year

First Semester

• ELEC 3133 - Electromagnetic Fields  Summer 2010 Registration: E E 3133
• ELEC 3215 - Electronics I  Summer 2010 Registration: E E 3215
• ELEC 3316 - Linear Systems Theory  Summer 2010 Registration: E E 3316
• ELEC 3651 - Digital Hardware Design  Summer 2010 Registration: E E 3651
• ELEC 3715 - Electronics Laboratory  Summer 2010 Registration: E E 3715
  Core Curriculum Elective (see note 1) (3 semester hours)

Total: 16 Hours

Second Semester

• ELEC 3164 - Energy Conversion  Summer 2010 Registration: E E 3164
• ELEC 3225 - Electronics II  Summer 2010 Registration: E E 3225
• ELEC 3724 - Energy Conversion Laboratory  Summer 2010 Registration: E E 3724
• ELEC 3735 - Junior Laboratory  Summer 2010 Registration: E E 3735
• ELEC 3817 - Engineering Probability and Statistics  Summer 2010 Registration: E E 3817
  Core Curriculum Elective (see note 1) (3 semester hours)
Total: 17 Hours

Senior Year

First Semester

- ELEC 4309 - Senior Design Project I Summer 2010 Registration: E E 4309
  Engineering Science Elective (see note 4) (3 semester hours)
  ELEC Specialty and Laboratory (see note 5) (4 semester hours)
  ELEC Specialty Course (3 semester hours)

Total: 16 Hours

Second Semester

- ELEC 4319 - Senior Design Project II Summer 2010 Registration: E E 4319 (see note 3)
  Professional Elective (see note 3) (3 semester hours)
  ELEC Specialty and Laboratory (see note 6) (4 semester hours)
  ELEC Specialty (see note 6) (3 semester hours)
  Core Curriculum Elective (see note 1) (3 semester hours)

Total: 16 Hours

Program Total: 128 Hours

The particular curriculum to be satisfied by each student is the one published in the catalog current at the time of his/her 30-hour senior checkout. A graduation agreement should be requested by each student after completing registration for his/her last semester. Additional information is contained in the “E E Advisement Guide.” Students should also refer to the section in this catalog on “Academic Policies of the College of Engineering and Applied Science.”

1. Common core requirements of the College of Engineering and Applied Science are outlined in the section titled “Undergraduate Core Curriculum in Engineering” in this catalog or in the “E E Advisement Guide.”
2. All electrical engineering students must satisfactorily complete ELEC 4309, Senior Design Project I, and ELEC 4319, Senior Design Project II, in consecutive semesters.
3. Professional electives may be selected from an approved list of upper-division or graduate-level courses or cooperative education. The electrical engineering advisor must be consulted prior to the selection of these electives.

4. The engineering science elective may be satisfied by taking ENGR 3012, Thermodynamics.

5. Seventeen semester hours of electrical engineering elective and specialty courses in association with the laboratories are required.

**Laboratory Requirements**

Students are required to take at least two laboratories out of the following six groups. Theory components are either prerequisites or corequisites to the laboratory components. The theory component may be taken as a specialty course.

- **ELEC 4136** - Control Systems Analysis  
  *Summer 2010 Registration: E E 4136*
- **ELEC 4276** - Digital Control Systems  
  *Summer 2010 Registration: E E 4276*
- **ELEC 4406** - Control Systems Laboratory  
  *Summer 2010 Registration: E E 4406*

- **ELEC 4225** - Advanced Electronics  
  *Summer 2010 Registration: E E 4225*
- **ELEC 4435** - Advanced Electronics Laboratory  
  *Summer 2010 Registration: E E 4435*

- **ELEC 4247** - Communication Theory  
  *Summer 2010 Registration: E E 4247*
- **ELEC 4248** - Digital Communication Systems  
  *Summer 2010 Registration: E E 4248*
- **ELEC 4467** - Communications Laboratory  
  *Summer 2010 Registration: E E 4467*

- **ELEC 4133** - Advanced Electromagnetic Fields  
  *Summer 2010 Registration: E E 4133*
- **ELEC 4423** - Microwave Laboratory  
  *Summer 2010 Registration: E E 4423*

- **ELEC 4501** - Microprocessor Based Design  
  *Summer 2010 Registration: E E 4501*
- **ELEC 4521** - Microprocessor Laboratory  
  *Summer 2010 Registration: E E 4521*

- **ELEC 4511** - Hardware-Software Interface  
  *Summer 2010 Registration: E E 4511*
- **ELEC 4561** - Hardware-Software Lab  
  *Summer 2010 Registration: E E 4561*

**Other courses available (without any laboratory component) as electrical engineering specialty courses include the following:**

- **ELEC 4174** - Power Electronic Systems  
  *Summer 2010 Registration: E E 4174*
- **ELEC 4184** - Power Systems Analysis  
  *Summer 2010 Registration: E E 4184*
Computer Engineering Option

Students can add a computer engineering emphasis to their electrical engineering degree program by making the following changes in the curriculum described above:

Junior Year

First Semester

Substitute ELEC 3651, Digital Hardware Design, for ELEC 3817, Engineering Probability and Statistics.

- **ELEC 3651 - Digital Hardware Design Summer 2010 Registration: E E 3651**

Second Semester

Substitute ELEC 3817, Engineering Probability and Statistics, ELEC 3701, Professional Elective, for ELEC 3651, Digital Hardware Design, ELEC 3724, Power Laboratory, and a humanities and social sciences course.

- **ELEC 3817 - Engineering Probability and Statistics Summer 2010 Registration: E E 3817**

Senior Year

First Semester

Choose ELEC 4501, Microprocessor-based Design, and ELEC 4521, Microprocessor Laboratory, as one electrical engineering specialty and laboratory selection.

- **ELEC 4501 - Microprocessor Based Design Summer 2010 Registration: E E 4501**
- **ELEC 4521 - Microprocessor Laboratory Summer 2010 Registration: E E 4521**

Second Semester

Choose ELEC 4511, Hardware-Software Interface Design, ELEC 4561, Hardware-Software Laboratory, and a humanities and social sciences elective as professional elective and electrical engineering specialty and laboratory selections.

- **ELEC 4511 - Hardware-Software Interface Summer 2010 Registration: E E 4511**
Master of Engineering

Electrical Engineering MEng

► Graduate School Rules apply to this program

The master of engineering (MEng) degree program is broad based and is designed especially for that person who wants to further his/her education in more than just electrical engineering. A minimum of 30 semester hours of academic work is required for the MEng degree. At least 15 of these hours must be in electrical engineering courses at the 5000-level or above. At least 15 semester hours must be taken in the Department of Electrical Engineering at UC Denver. As many as 15 semester hours may be taken outside of engineering. The student who wishes to enter the master of engineering program should apply to the electrical engineering department in the same manner as a master of science applicant.

Master of Science

Electrical Engineering MS

► Graduate School Rules apply to this program

The master of science (MS) program offers two plans, thesis (Plan I) and master’s project (Plan II). In each, the student must complete 30 graduate semester hours. To satisfy the breadth requirement, two courses outside the area of specialization are required and two mathematics courses are recommended. Plan I requires a minimum of 24 semester hours of graduate course work and 6 semester hours of MS thesis work. Plan II requires a minimum of 27 semester hours of graduate course work and 3 semester hours of MS project. A minimum of 21 graduate semester hours must be earned through the electrical engineering department at UC Denver. Candidates with a BS degree from UC Denver can count 6 electrical engineering UC Denver graduate credits toward both undergraduate and graduate degrees if their undergraduate GPA is at least 3.0. Double counting applies only to credits earned with a B or better grade.

Faculty

Professors:
Peter E. Jenkins, PhD, Purdue, MBA, Pepperdine, Professional Engineer, PE—Texas  
J. Kenneth Ortega, PhD, University of Colorado  
John A. Trapp, PhD, University of California at Berkeley

Associate Professors:
Ronald A. L. Rorrer, PhD, Virginia Polytechnic Institute and State University, PE—Colorado  
L. Rafael Sanchez, PhD, Michigan Technological University, PE—Colorado  
Mohsen Tadi, PhD, Virginia Polytechnic Institute and State University  
Samuel W. J. Welch, PhD, University of Colorado  
Sean E. Wright, PhD, University of Victoria

Assistant Research Professor:
Atousa Plaseied, PhD, University of Toledo

Senior Instructor:
Joseph F. Cullen Jr., MS, University of Colorado

Professor Emeritus:
James Gerdeen, PhD, Stanford University

Associate Professor Emeritus:
B. Thomas Arnberg, MS, University of Colorado
Mission Statement
The mission of the Department of Mechanical Engineering is to contribute to the economic development of the state of Colorado and the Denver metropolitan area by providing high-quality bachelor’s and master’s programs (BS, MS and MEng) in mechanical engineering for a diverse group of working students.

Program Objectives
The programs offered by the Department of Mechanical Engineering of the University of Colorado Denver can be completed in the afternoon and evening hours to accommodate both working and traditional students. The department seeks to graduate a diverse population of students with bachelor’s and master’s degrees, enabling them to:

- be employed by a diverse group of industries, research laboratories and educational institutions
- pursue careers in traditional engineering, interdisciplinary areas, research and education
- pursue postgraduate education and advanced degrees

Undergraduate
The mechanical engineer is concerned with satisfying the needs of society using a combination of material, human and economic resources. Mechanical engineering covers a wide spectrum of activities in the engineering profession. These activities include the conversion and transmission of energy and associated power processes; the kinematic, dynamic, strength and wear considerations, as well as economic aspects of the development, design and use of materials, machines and processes; and the analysis, synthesis and control of entire engineering systems.

The mechanical engineering curriculum begins with a strong emphasis on mathematics, physics and chemistry. It continues with a concentration in engineering sciences, including solid and fluid mechanics; thermodynamics, heat and mass transport; materials; and systems analysis and control. It concludes with laboratory and design courses that demonstrate the ways in which scientific knowledge is applied in the design and development of useful devices and manufacturing processes.

The mechanical engineering program may be roughly subdivided into two-year groupings. In the first two years, the program emphasizes the fundamentals of mathematics and basic science that are essential for an understanding of most branches of engineering. In the last two years of the program, the curriculum emphasizes engineering science and design and provides technical electives in the following areas:

- thermodynamics
- heat transfer
• fluid mechanics
• solid mechanics
• power
• bioengineering
• dynamics and controls
• computer-aided design and manufacturing
• thermomechanical systems
• composite materials

To be awarded the BS in mechanical engineering, a student must complete a minimum of 128 semester hours of course work, must satisfy all university graduation requirements and maintain at least a 2.0 GPA in all mechanical engineering courses. All students are required to set up an appointment with the senior check-out advisor before registering for the last 30 hours of their degree program. The last 30 hours must be earned as a degree-seeking student in the College of Engineering and Applied Science at UC Denver.

Graduate
The Department of Mechanical Engineering offers graduate courses, a master of science (MS) degree program and a master of engineering (MEng) program. The PhD in mechanical engineering is offered through the Department of Mechanical Engineering, University of Colorado at Boulder. The areas of research interest in which a student may undertake studies at the Denver Campus include manufacturing processes, fluid mechanics, solid mechanics, bioengineering, energy thermodynamics and composite materials.

As a student in the MS or MEng program, you must meet with your graduate advisor before or during your first semester and design a sequence of elective courses that form a coherent program plan.

Requests for applications for graduate study in mechanical engineering should be addressed to:

   UC Denver Department of Mechanical Engineering
   Campus Box 112
   P.O. Box 173364
   Denver, CO 80217-3364

Applicants who are not citizens or permanent residents of the United States should make application through the Office of International Admissions, Campus Box 185, P.O. Box 173364, Denver, CO 80217-3364. All applicants for admission must submit complete credentials as outlined in the instructions that accompany the application materials.

Concurrent Bachelor’s/Master’s Degrees
Students wishing to obtain a BS degree with a major in mechanical engineering and either the MS or the MEng degree in mechanical engineering may do so with up to 6 semester hours of 5000-level or above courses applying to both degrees. The 5000-level courses must meet the degree requirements for the graduate degree sought and must be suitable technical electives for the undergraduate degree. This option is open only for students seeking both degrees at UC Denver. Students must meet admission requirements to be accepted into the graduate program. Completion of two 5000-level courses does not guarantee admission into the graduate program. Please see an Engineering Student Services advisor for restrictions and guidelines.

PhD Program

The PhD in mechanical engineering is available through the Department of Mechanical Engineering at University of Colorado at Boulder. Denver Campus faculty may serve as research advisors by individual arrangement.

Programs

Bachelor of Science

Mechanical Engineering BS

Typical Curriculum for BS (Mechanical Engineering—see note 1)

Freshman Year

First Semester

- CHEM 1130 - Engineering General Chemistry Summer 2010 Registration: CHEM 1130
- ENGL 1020 - Core Composition I Summer 2010 Registration: ENGL 1020 (see note 2)
- MECH 1025 - CAD and Graphics for Mechanical Engineering Summer 2010 Registration: M E 1025
- MATH 1401 - Calculus I Summer 2010 Registration: MATH 1401

Total: 15 Hours

Second Semester
• MATH 2411 - Calculus II *Summer 2010 Registration: MATH 2411*
• PHYS 2311 - General Physics I: Calculus-Based *Summer 2010 Registration: PHYS 2311*
• PHYS 2321 - General Physics Lab I *Summer 2010 Registration: PHYS 2321*
  Core Curriculum Electives *(see note 3)* (6 semester hours)

Total: 15 Hours

**Sophomore Year**

**First Semester**

• MATH 2421 - Calculus III *Summer 2010 Registration: MATH 2421*
• MECH 2023 - Statics *Summer 2010 Registration: ME 2023 (see note 4)*
• PHYS 2331 - General Physics II: Calculus-Based *Summer 2010 Registration: PHYS 2331*
• PHYS 2341 - General Physics Lab II *Summer 2010 Registration: PHYS 2341*
  Core Curriculum Electives *(see note 3)* (6 semester hours)

Total: 18 Hours

**Second Semester**

• ENGL 2030 - Core Composition II *Summer 2010 Registration: ENGL 2030*
• ENGR 3012 - Thermodynamics *Summer 2010 Registration: ENGR 3012*
• MATH 3195 - Linear Algebra and Differential Equations *Summer 2010 Registration: MATH 3195*
• MECH 2033 - Dynamics *Summer 2010 Registration: ME 2033 (see note 4)*
• MECH 3030 - Electric Circuits and Systems *Summer 2010 Registration: ME 3030*
• MECH 3032 - Electric Circuits and Systems Lab *Summer 2010 Registration: ME 3032*

Total: 17 Hours

**Junior Year**

**First Semester**

• MECH 3010 - Elementary Numerical Methods and Programming *Summer 2010 Registration: ME 3010*
• MECH 3021 - Introduction to Fluid Mechanics  Summer 2010 Registration: ME 3021
• MECH 3022 - Thermodynamics II  Summer 2010 Registration: ME 3022
• MECH 3027 - Measurements  Summer 2010 Registration: ME 3027
• MECH 3028 - Laboratory of Mechanical Measurements  Summer 2010 Registration: ME 3028
• MECH 3043 - Strength of Materials  Summer 2010 Registration: ME 3043

Total: 16 Hours

Second Semester

• MECH 3023 - System Dynamics I: Vibrations  Summer 2010 Registration: ME 3023
• MECH 3024 - Introduction to Materials Science  Summer 2010 Registration: ME 3024
• MECH 3031 - Fluids/Thermal Laboratory  Summer 2010 Registration: ME 3031
• MECH 3034 - Properties of Engineering Materials  Summer 2010 Registration: ME 3034
• MECH 3035 - Design of Mechanical Elements  Summer 2010 Registration: ME 3035
• MECH 3042 - Heat Transfer  Summer 2010 Registration: ME 3042
• MECH 3065 - Intermediate Dynamics  Summer 2010 Registration: ME 3065

Total: 17 Hours

Senior Year

First Semester

• MECH 3145 - Manufacturing Processes Design  Summer 2010 Registration: ME 3145
• MECH 4023 - System Dynamics II: Controls  Summer 2010 Registration: ME 4023
• MECH 4035 - Senior Design I  Summer 2010 Registration: ME 4035

MECH Technical Electives (see note 5) (6 semester hours)

Total: 15 Hours

Second Semester

• MECH 4045 - Senior Design II  Summer 2010 Registration: ME 4045

MECH Technical Electives (6 semester hours)
Core Curriculum Electives *(see note 3)* (6 semester hours)

**Total: 15 Hours**

**Notes**

1. Students enrolled prior to fall 2006 may choose either the new core curriculum or the old core curriculum.
2. The communication requirements include ENGL 1020 and ENGL 2030.
3. Common core requirements of the College of Engineering and Applied Science. Refer to the “Undergraduate Core Curriculum in Engineering” in this catalog or to the “Common Core Requirements” guide available from your advisor for further information.
4. CVEN 2121 and CVEN 3111 may be substituted for MECH 2023 and MECH 2033 respectively.
5. Not all courses may be offered every semester. Students should check the current *Schedule Planner*.

**Program Total: 128 Hours**

Students should check with departmental advisors to determine their degree requirements. The particular curriculum to be satisfied by each student is the one published in the catalog *current* at the time of their matriculation. For additional information, see the departmental advisor.

Students should refer to the section in this chapter on “Academic Policies” of the College of Engineering and Applied Science. In addition to planning for sequences of courses based on prerequisites, students should plan to complete sophomore-level courses before taking junior level courses and should have completed their junior-level mechanical engineering courses before starting their senior-level mechanical engineering electives. All students should see their advisors at least once each semester.

**Master of Engineering**

**Mechanical Engineering MEng**

- Graduate School Rules apply to this program

The master's of engineering (MEng) is an interdisciplinary degree program designed to meet the needs of those practicing engineers who wish to follow an integrated program of studies in engineering and allied subjects related to the individual student's
professional work. Students can combine advanced engineering course work with graduate-level non-engineering courses such as business administration, environmental sciences, social sciences, biological sciences or public administration.

Prospective students are required to present a well-defined objective in order to be admitted to the program. In consultation with faculty advisors, an academic program is developed to meet this objective.

An advisory committee will be appointed for each student by the department. The advisory committee that guides the student is responsible for approving the individual’s degree program and admission to candidacy, and approves the student’s written report and the awarding of the degree.

The requirements for admission are the same as those for the MS degree awarded through the College of Engineering and Applied Science. A minimum of 30 semester hours of academic work are required for the MEng degree. At least 15 of these hours must be at the 5000 level or above in mechanical engineering. A maximum of 12 semester hours may be taken outside of engineering. In addition to course work, a written report is required in the MEng program as a final project (3 semester hours). The report may be related to the student’s professional work. The report will be of the same general quality as that required for the master of science thesis and must be defended orally. It may be based on work done for credit under independent study.

**Master of Science**

**Mechanical Engineering MS**

► Graduate School Rules apply to this program

For the master of science (MS) degree in mechanical engineering, students may choose between two plans with each plan totaling 30 semester hours. Students following Plan I (thesis option) take 24 semester hours of formal course work plus 6 semester hours of thesis work. Students following Plan II (project option) take 27 semester hours of formal course work plus a 3 semester hour final project requiring a report. Students following Plan I or Plan II must submit a proposal to their examination committee prior to the semester in which they register for their thesis or project semester hours, and the examination committee must approve the proposal for the thesis or project.

Students in either plan may choose one of three options. In the first two options, the student may choose to specialize in either thermal science or mechanics. The third option is the general mechanical engineering option.

The thermal science option requires 12 semester hours of course work in analytical methods, numerical methods, fluid mechanics and thermodynamics. The student then
selects 9 semester hours of course work in approved electives from a selection of thermal science electives.

The mechanics option requires 12 semester hours of course work in analytical methods, numerical methods, elasticity and dynamics. The student then selects 9 semester hours of course work in approved electives from a selection of mechanics electives. For students following Plan I, both the thermal science and mechanics options allow the student to pick one approved 3-semester-hour elective not necessarily in the chosen specialty. For students following Plan II, both the thermal science and mechanics options allow the student to pick two approved 3-semester hour electives not necessarily in the chosen specialty.

The general mechanical engineering option requires the student to take 18 semester hours of required course work in analytical methods, numerical methods, fluid mechanics, thermodynamics, elasticity and dynamics. For students following Plan I, the general mechanical engineering option allows the student to pick two approved 3-semester hour electives. For students following Plan II, the general mechanical engineering option allows the student to pick three approved 3-semester hour electives.

The beauty of an education in the liberal arts is its simultaneous diversity and specialization, its combination of breadth and depth. Students in the College of Liberal Arts and Sciences at UC Denver specialize in a major such as chemistry, English or psychology while creating a foundation of knowledge through general education requirements. Having a broad background in the arts and sciences prepares you to begin your career or to change careers later, to pursue advanced study in a discipline or to study for a professional career such as law or medicine. We believe it also sets the stage for a rewarding and productive life overall. Pursuing a liberal arts curriculum not only increases your knowledge, it enables you to develop such skills as logical argumentation and clear expression, gain insights about relationships in nature and society, develop critical thinking and interpretive ability, solve complex problems rationally and heighten your aesthetic appreciation.

At the College of Liberal Arts and Sciences (CLAS), we coordinate undergraduate programs with our own graduate programs as well as UC Denver's professional schools, through which you can combine technical expertise with the broad critical and analytical skills essential to complex decision making. While our dedicated faculty have outstanding academic credentials, their greatest strength is their commitment to highly motivated students representing a broad range of age and experience. Their goal is not
only to teach, but to instill in our students a lifelong love for learning and respect for free and independent thinking.

Our curriculum maintains traditionally high university academic standards while providing numerous flexible learning opportunities to meet our students' varied objectives. We offer opportunities to study urban programs, confront contemporary issues, participate in off-campus internships and make use of the city's resources. Advisory committees from the community work with CLAS departments and programs, allowing cultural, historical and environmental efforts in Denver to be supported and enhanced by our academic programs.

Liberal arts and sciences undergraduates receive either a BA or BS degree. Many go on to further study in some of the best graduate and professional schools around the country, while others begin their careers in a variety of positions in industry, commerce and government. Each area of study offers a wide variety of curricula, including traditional undergraduate major programs, interdisciplinary studies and pre-professional programs.

**College of Liberal Arts and Sciences Educational Goals**

The College of Liberal Arts and Sciences defines liberal education as including four major components:

1. Central elements of knowledge including:
   a. knowledge of the diversity and significant dimensions of human culture and a specific understanding of American culture, including its political and ethnic diversity
   b. aesthetic awareness and appreciation of the cultural contributions made to the human experience by the social sciences and humanities
   c. an understanding of the methods of inquiry and development of theory that form the basis of knowledge in the natural and physical sciences

2. Essential skills for analysis, writing, computation, communication and decision making

3. The development of a constructive orientation toward society through the enhancement of the individual's capacity to make informed and responsible choices based on reflective consideration of the democratic principles of due process, civil liberties and the balance between individualism and the common good

4. The ability to apply knowledge of the arts and sciences to society's specific needs

The college works to instill in students an understanding of these components through required skills and core courses and through the knowledge and skills required by each major program in the college.
Undergraduate Programs

A complete list of major and minor programs appears in At A Glance: College of Liberal Arts and Sciences.

Major Degree Programs

Students can earn baccalaureate degrees (including areas of emphasis indented below the major areas) in the majors listed in the college At A Glance.

Minor Programs

A college minor represents a concentration of content knowledge, but not to the extent afforded in a major. Minors are optional for liberal arts students, but are encouraged to broaden educational experience and enhance occupational skills.

Students interested in a minor should contact the CLAS Advising Office, North Classroom, 4002, 303-556-2555, for information. Students may also contact the department directly.

Double Majors

Students may graduate with more than one major by completing all requirements for each major.

Double Degrees

Students may earn two undergraduate degrees in liberal arts or from two different schools or colleges of the University of Colorado simultaneously by fulfilling all requirements for both degrees. For example, the Business School and the College of Liberal Arts and Sciences have a double-degree program leading to a BS in business administration and a BA in the student’s chosen major.

The College of Liberal Arts and Sciences requires that a student complete at least 90 liberal arts semester hours to be granted two bachelor’s degrees. Students must complete a minimum of 150 semester hours applied toward the two degrees.

Students planning one of these multiple programs should consult with the CLAS Advising Office at the earliest possible date to get approval for a double-degree program.
Second Degrees

Students who have been awarded a bachelor’s degree (either from the college or elsewhere) may be granted a second bachelor’s degree provided that (a) all general requirements for that degree have been met; (b) the major for the second bachelor’s degree is different from the major for the first; and (c) the college and major department residence requirements are satisfied. A second degree from the college requires a minimum of 30 additional semester hours of credit.

Graduate Programs

Graduate degree programs offered by the faculty of the college through the Graduate School are listed in At A Glance: College of Liberal Arts and Sciences. Many degrees provide the opportunity for students to specialize in concentrations within the discipline; these are listed below the degree title.

Certificate Programs

The college offers undergraduate and graduate certificate programs that demonstrate proficiency in a specialized field of study. These programs differ from minor programs in that certificates may cross traditional disciplinary boundaries and are awarded independently of formal graduation.

Certificate programs are open to degree-seeking students as well as those who aren’t seeking a degree but want to enhance their professional expertise, and require the completion of three to six related courses (9-19 semester hours). The list of certificate programs in At A Glance has been approved by the college and will appear on the student’s official University of Colorado transcript upon completion of all certificate requirements.

Information about certificate programs can be found in the coordinating department section of this catalog and the departmental Web sites, or by contacting the department directly.

Continuing and Professional Education (CPE)

Managing Director: Laurel Dodds
Telephone: 303-352-3728
E-mail: Laurel.Dodds@ucdenver.edu

The College of Liberal Arts and Sciences (CLAS) participates in the University’s Continuing and Professional Education (CPE) programs, which include credit courses offered through extended studies during evenings, weekends and at off-campus sites.
CPE also includes non-credit courses offered for continuing education units (C.E.U.s) or for professional development and personal enrichment. Information about the CLAS CPE program can be found at: http://thunder1.cudenver.edu/clas/extendedstudies.html

A full degree program, the MA in political science (politics and public policy option), is available as part of the CLAS CPE. This weekend program is offered by the Center for New Directions in Politics and Public Policy at two off-campus locations: Durango, CO and the University Center at Chaparral in Douglas County. See the New Directions Program page for further information.

Signature Areas

CLAS has developed a 12-year strategic plan (2008-2020) that includes five signature areas. Based on proposals prepared by faculty from across the college and university, these areas encompass interdisciplinary themes related to diverse contemporary issues, as their titles demonstrate:

- Colorado Center for Public Humanities
- Math and Science Learning and Education
- Social Justice
- Sustainability
- Women’s and Gender Studies

Each signature area group has developed and begun to implement its vision. A managing director works with faculty and administrators from CLAS and other academic units to coordinate the development of interdisciplinary curricula, research projects, community outreach and academic programs. There are three minors which have been developed through the signature areas: social justice, sustainability and women’s and gender studies. The CLAS Web site will announce activities and post updates about the signature areas at: http://thunder1.cudenver.edu/clas/signatureAreas.html

Undergraduate Policies and Procedures

Requirements for Admission

CLAS Advising Office: North Classroom, 4002
Telephone: 303-556-2555
Fax: 303-556-6277
Web site: http://thunder1.cudenver.edu/clas/advising/index.htm

New Freshmen
Students planning to enter the College of Liberal Arts and Sciences must meet the requirements described in the Information for Undergraduate Students chapter of this catalog.

**Transfer Students**

Students who have attended another college or university are expected to meet general requirements for admission of transfer students as described in the Information for Undergraduate Students chapter.

Transfer students with at least 30 semester hours of transferrable credit who have been denied admission to the college by the Downtown Campus Office of Admissions, and who have special circumstances not covered by the regular admission policies, may petition the CLAS Academic Standards Committee for provisional admission. The Academic Standards Committee requires evidence of academic performance before provisional admission is granted. Policies and procedures for the CLAS Academic Standards Committee are available through the CLAS Advising Office.

**Grading Policies**

The College of Liberal Arts and Sciences adheres to the University of Colorado grading policies found in the Registration and Records chapter of this catalog. The college also maintains specific grading policies for liberal arts students.

**Incomplete Grades**

When a student has special circumstances that make it impossible to complete course assignments, faculty members have discretion to award an incomplete grade. Effective January 1, 2009, all incomplete courses are now assigned a grade of Incomplete (I). Incomplete grades are *not* awarded for poor academic performance or as a way of extending assignment deadlines. While not required, a CLAS course completion agreement form (available from the CLAS Advising Office) is strongly suggested when faculty and student agree on an incomplete grade.

To be eligible for an incomplete grade, students must:

- have successfully completed 75 percent of the course
- have special circumstances (verification may be required) that preclude the student from attending class and completing graded assignments
- make arrangements to complete missing assignments with the original instructor within one academic year

Students are allowed up to three semesters (one year) to complete the requirements for the incomplete, after which the I reverts to an F grade on the student’s transcript. Any
request to allow a grade change after the one-year period must be petitioned to the CLAS Academic Standards Committee.

**Pass/Fail Grading Option**

Students may select the pass/fail grading option for most courses. In addition to Downtown Campus policies covering the pass/fail grading option (see the Registration and Records chapter of this catalog), CLAS students must adhere to the following college pass/fail grading policies:

1. Courses in a student’s major, minor and certificate may not be taken on a pass/fail basis.
2. Courses required to show proficiency may not be taken on a pass/fail basis: ENGL (core curriculum), MATH (core curriculum) and first two semesters of foreign language.
3. Courses used to satisfy the intellectual competencies section of the UC Denver core curriculum may not be taken on a pass/fail basis.
4. Courses in the knowledge area section of the Downtown Campus core curriculum may be taken on a pass/fail basis.
5. Courses used to satisfy CLAS graduation requirements may be taken on a pass/fail basis. (Exception: communicative skills, major/minor courses.)
6. Students must sign up by the drop/add deadline for the semester.

**Repeated Courses**

Students may re-register for any course. Both (all) courses remain on the transcript and both (all) grades are used to calculate the student’s GPA. Course credit toward graduation is counted only once for a given course no matter how many times the course is repeated.

**Academic Policies**

Students are referred to the Registration and Records and University Policies chapters of this catalog for a description of academic policies that apply to all undergraduate students at UC Denver’s Downtown campus. [Graduate students are referred to the Graduate School Rules and the Graduate Policies and Procedures section below.] The policies that follow apply specifically to College of Liberal Arts and Sciences undergraduate students.

**ACADEMIC ADVICE AND INFORMATION**

Students in the college are expected to assume responsibility for planning their academic programs in accordance with college policies and major requirements. To
assist students, the college maintains the CLAS Advising Office, North Classroom, 4002, 303-556-2555. Students are assigned to a college advisor in this office according to the students’ last names and must meet with this advisor upon matriculation into the college. The CLAS Advising Office also has specialty college advisors in teacher education and health careers. The college advisor is responsible for advising students of college policies and requirements, and the certification of college requirements at graduation.

As soon as students have determined a major, they should meet with a major department advisor. The major department advisor will be responsible for the student’s major advising and for certification of the completion of the major program at graduation.

Students planning to ultimately earn a degree from one of the professional schools should also see an advisor in that school or college.

**EARLY ALERT**

The University of Colorado Denver Downtown Campus participates in a campuswide early alert program to identify undergraduate students needing assistance from academic and student service offices. Providing assistance early in the semester is very important to student success in their baccalaureate program. The College of Liberal Arts and Sciences is committed to actively participate in the program through a collaborative working relationship between faculty and academic advisors in the college.

The early alert program is designed for faculty to identify students in weeks five and six of the semester who need assistance because of academic performance, class participation and/or behavior issues. Assistance is provided to students identified by faculty through academic advising and through referrals to appropriate UC Denver student service offices.

Goals of the early alert program are to:

- increase student academic success
- improve student persistence and graduation rates
- increase communication between students and faculty
- increase communication between students and academic advisors
- increase student utilization of student service offices

Further information about the UC Denver early alert program is available from the Undergraduate Experiences Office at 303-556-6506.

**ACADEMIC PROBATION AND SUSPENSION**

Students at the University are expected to maintain progress in their degree program, as defined by being in “good academic standing.” Good academic standing requires
minimally a cumulative grade point average (GPA) of 2.0 on all University of Colorado course work.

**Academic Probation**

- Academic probation is a warning to students that they are not progressing toward completion of their degree in a satisfactory manner.
- Students are placed on academic probation when their cumulative CU GPA falls below a 2.0 at the end of any academic term.
- Students are informed in writing (via University-assigned email and postal letter) of their academic probation status.
- Students on academic probation will be required to complete the Academic Success Plan during their first semester on academic probation.
- Students will be required to schedule an appointment and meet with their academic advisor to discuss the completed Academic Success Plan before they will be allowed to register for the subsequent term.
- Students on academic probation will be required to schedule an appointment and meet with their academic advisor every semester that they are on academic probation before they will be allowed to register.
- Academic probation requires that students achieve a minimum 2.3 semester GPA each subsequent term until their cumulative CU GPA is at least a 2.0 to return to good academic standing. Students must achieve a minimum 2.0 cumulative CU GPA to meet graduation requirements.
- Students who fail to earn the 2.3 semester GPA during any semester of academic probation will be placed on restricted academic probation.
- Students have five semesters or 30 credits (whichever happens sooner) to raise their cumulative GPA to above a 2.0, or they will be placed on academic suspension.
- Once a student has raised his/her cumulative CU GPA to at least a 2.0, s/he will be removed from academic probation and notified via University-assigned email that s/he is in academic good standing.

**Restricted Academic Probation**

- Students who fail to earn the 2.3 semester GPA during any semester of academic probation will be placed on restricted academic probation.
- Students are informed in writing (via University-assigned email and postal letter) of restricted academic probation status.
- Students on restricted academic probation will be allowed to enroll for a maximum of 6 credits/2 classes per semester (whichever is more). A course and its attached lab are considered to be one course in this case.
- Students on restricted academic probation will be required to schedule an appointment and meet with their academic advisor in order to register for courses.
Students on restricted academic probation will not be able to register online; they will need to register for courses using a Schedule Adjustment Form, which must be submitted to the Service Center (North Classroom #1003) for processing.

Restricted academic probation requires that students achieve a minimum 2.3 semester GPA each subsequent term until their cumulative CU GPA is at least a 2.0. Students must achieve a minimum 2.0 cumulative CU GPA to return to good academic standing and to meet graduation requirements.

Students on restricted academic probation who do not meet the 2.3 minimum semester GPA will be placed on academic suspension.

Students who fail to raise their cumulative GPA to 2.0 or above in five semesters or 30 credit hours on academic probation and restricted academic probation will be placed on academic suspension.

**Academic Suspension**

- Students on restricted academic probation who do not meet the 2.3 minimum semester GPA will be placed on academic suspension.
- Students are informed in writing via certified/registered letter of their academic suspension status.
- The minimum duration of academic suspension is for a period of one year (three semesters, including summer term). Students placed on academic suspension will be unable to take courses from any CU campus during this time.
- Should a student be placed on academic suspension while registered for the next semester, s/he will be administratively dropped from their courses by the University.
- A student's academic suspension status is permanently indicated on his/her official University of Colorado transcript.
- During the one-year academic suspension period, students who wish to return to the University should consider one (or both) of the following actions:
  - ♦ Attend another regionally-accredited college/university.

  Students who choose to attend another institution while on academic suspension can take as many or as few credits as they choose, but must earn a 2.75 cumulative GPA in all transferable course work.

  Students should consult their academic advisor to discuss appropriate course work.

  - ♦ Use the time off to directly address and resolve the factors that contributed to the academic difficulty.

- After the one-year suspension period has elapsed, students must petition the appellate committee (of the school or college they wish to enter) for readmission and meet and document at least one of the following criteria:
♦ Attendance at another regionally accredited college/university where they earned a minimum cumulative GPA of 2.75 in transferable credit.

♦ Explanation of their previous academic difficulty, demonstration of what has changed, and how this will allow them to now achieve and maintain good academic standing (including a semester GPA of at least 2.3 and a cumulative GPA of at least 2.0).

- Students who choose to petition their college’s appellate committee for readmission must submit their petitions by the following deadlines:
  - For fall admission: June 1
  - For spring admission: December 1
  - For Maymester/summer admission: April 1

- If a student is granted readmission and his/her CU GPA is below a 2.0, s/he will be readmitted on restricted academic probation. These students must meet the condition of restricted academic probation every semester until their cumulative CU GPA is at least 2.0.

**Second Suspension**

- Students who are readmitted after their first academic suspension and fail to meet the conditions of restricted academic probation for a second time are placed on a second suspension for an indefinite period of time.
- Students on a second suspension may be readmitted to the University only by petition to the college’s appellate committee.
- Students will not be considered for readmission unless they have demonstrated significant improvement in academic performance at the college/university level, and/or considerable and positive change in personal circumstances.

**EARNING ACADEMIC CREDIT—SPECIAL OPTIONS**

Students in the college may earn credit toward a degree for knowledge gained prior to enrollment in the college or for knowledge gained outside traditional college courses. Specific programs by which credit is awarded are described below. In addition, credit may be earned for ROTC.

General information regarding these options can be found in the “Transfer of College-Level Credit” section of the Information for Undergraduate Students chapter. Students should contact the CLAS Advising Office for specific details of these programs. For credit in a student’s major or minor, the appropriate department must be consulted.

**Advanced Placement/International Baccalaureate**
Students who have taken advanced courses in high school and who have earned high scores on the Advanced Placement or International Baccalaureate standardized exams may be eligible for university credit. See the Information for Undergraduate Students chapter of this catalog under “Transfer of College-Level Credit” for additional information. Individual departments establish advanced placement criteria for credit. Students should contact the department advisor for specific details concerning advanced placement credit.

**College Level Examination Program (CLEP)**

College of Liberal Arts and Sciences students may earn university credit by examination in subject areas in which they have obtained college-level proficiency. The use of CLEP subject examinations toward major, minor or certificate requirements is subject to a separate evaluation by the faculty advisor in the department or program. To receive academic credit from CLEP, students must present official test results to the Downtown Campus Office of Admissions. A maximum of 30 hours of CLEP credit will count toward the degree. See the “Transfer of College-Level Credit” in the Information for Undergraduate Students chapter of this catalog for additional information.

**Credit by Examination**

Students with sufficient experience and knowledge may receive credit for a specific course by taking a comprehensive examination given by the faculty. Students should consult the Registration and Records chapter of this catalog for more information.

**Internships or Cooperative Education**

Undergraduate students may seek credit from an employment experience that contains academic content and is sponsored by a CLAS faculty member. Internships are helpful for career exploration early in a student’s academic career or for job experience after developing academic content in the major.

Students must have a minimum 2.75 cumulative GPA in a minimum of 15 semester hours of UC Denver course work. A maximum of 3 semester hours of internship credit per semester and 9 semester hours overall are allowed toward the 120 semester hours applied toward graduation. Undergraduate students should contact the Experiential Learning Center for details about the internship contract and faculty sponsorship requirements.

**Courses in the Professional Schools and in Physical Education**
Students may count up to 24 semester hours of academic course work taken outside of liberal arts, such as business, engineering, architecture, journalism and education.

Up to 8 semester hours of activity courses in physical education will count toward the 120 hours required for the degree; these are included in the 24 semester hours allowed outside CLAS.

**Independent Study**

Qualified CLAS undergraduate students who seek to further their examination of knowledge outside the structured classroom are encouraged to register for independent study. Undergraduate independent study is a nonstructured, independent research project under the sponsorship and supervision of a faculty member. Students should consult with the faculty sponsor to discuss the project and initiate the independent study contract.

To qualify for independent study credit, students must have a declared major or minor in the discipline of the independent study project and a minimum cumulative UC Denver GPA of 2.5. Those seeking senior level independent study must have a minimum junior standing and sufficient course work to allow independent research in the discipline.

Faculty seeking to sponsor an independent study project must have either instructor or tenure-track rank. Faculty seeking to sponsor an independent study project as part of an undergraduate honors project must be tenure-track rank.

Independent study projects are typically awarded credit on a 3:1 (4:1 in summer) basis for contact hours per week to semester hours. That is, a 3-semester-hour independent study project typically requires 9 hours of effort per week over the semester.

**Graduation Requirements**

Undergraduate students graduating from the College of Liberal Arts and Sciences must fulfill requirements for the college and for the major department. Residence requirements apply to both college and major department. A checklist of graduation requirements follows in this section.

Students are responsible for knowing the requirements for their degree and for fulfilling these requirements. Upon completion of the college and major requirements, the student will be awarded the appropriate degree.

**General Requirements**

- a minimum of 120 semester hours passed
- a minimum 2.0 cumulative GPA
• a minimum of 45 semester hours of upper-division work
• a minimum of 30 semester hours of CLAS course work with letter grades at the Downtown Campus
• fulfillment of all college and major requirements

**CLAS CORE CURRICULUM AND GRADUATION REQUIREMENTS**

*Note:* Not more than 24 hours outside the college (for example, business and engineering) can be applied toward the 120 hours required for the bachelor’s degree.

**General Education**

The general education graduation requirements are established by the CLAS faculty and combine specific requirements from (1) the Downtown Campus core curriculum, (2) the CLAS graduation requirements and (3) foreign language proficiency.

**Major Requirements**

In addition to completing the college requirements outlined above, students must declare a major and fulfill all requirements of the major department. Department requirements include at least 30 semester hours of work in the major with a minimum grade of $C (2.0)$, of which at least 16 semester hours in the major are at the upper-division level. The GPA in the major must be at least 2.0.

The college places a maximum number of semester hours (required plus elective courses) in the major department, discipline or program as follows:

<table>
<thead>
<tr>
<th>Degree</th>
<th>Maximum Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BA</td>
<td>48</td>
</tr>
<tr>
<td>BS</td>
<td>56</td>
</tr>
</tbody>
</table>

The department is responsible for determining when a student has successfully completed the major requirements and for certifying the completion to the dean of the college.

**Declaration of Major**

It is important that students declare a major as early as possible in order to receive proper advising toward departmental requirements. Students in the college must declare a major by the start of their junior year (greater than 60 hours). Transfer students to the college with junior or senior standing should declare a major in their first semester at UC Denver. Students are allowed to change their major at any time.
Residence Requirements

A minimum number of semester hours must be earned in residence in the College of Liberal Arts and Sciences. All students have college and major residence requirements. Students should check with their major department to ascertain residence requirements for the major.

Students transferring to the Downtown Campus must pay particular attention to residence requirements. Students transferring academic credit from Metropolitan State College of Denver should see the CLAS Advising Office for special consideration of residence credit.

Residence credit hours are earned from CLAS courses taught by UC Denver faculty while the student is enrolled as a degree student in the College of Liberal Arts and Sciences.

All CLAS students must meet college residence requirements.

1. Students must earn a minimum of 30 residence semester hours.
2. For students who exceed the minimum 30-hour residence requirement, a minimum of 21 out of the last 30 semester hours applied toward graduation requirements must be in residence.
3. Departments maintain a residence requirement for the major, minor and certificates. Students should consult with a faculty advisor concerning departmental residence requirements.

Intent to Graduate

Students must submit their intent to graduate online application by the published deadline for the semester they expect to graduate. If the degree is not completed, they must resubmit the intent to graduate each subsequent semester until graduation. Failure to submit the intent to graduate will result in delayed graduation.

Graduation Application

Students are required to meet with their CLAS major and minor advisors at the beginning of the semester/term in which they plan to graduate to initiate the graduation verification process. CLAS advisors will distribute graduation applications to students who qualify, and then their intent to graduate online application is approved. The deadline for filing a graduation application with the CLAS Advising Office is the published last day to add courses in each semester. Failure to submit the intent to graduate and graduation application with the CLAS Advising Office will result in delayed graduation.
Academic Honors

College Honors

A student who performs superlatively in course work in the college will be awarded a bachelor’s degree accompanied by the statement with distinction. To be eligible for graduation with distinction, a student must have completed a minimum of 45 semester hours at the University of Colorado (on any CU campus), including the final semester, with a GPA of at least 3.75. The 45 semester hours must be completed in the student’s junior and senior years. A maximum of 6 out of the final 45 semester hours may be completed with a grade of P (on P/F option).

Departmental Honors

Departments in the college offer programs through which students can qualify for Latin honors: cum laude, magna cum laude or summa cum laude. Determination of the level of honors is made by the department. Detailed information can be obtained from the CLAS Advising Office or from the individual department.

Dean's List Criteria

UC Denver will use a fixed criterion across all colleges for determining eligibility for the Dean’s List. This policy applies to undergraduate students.

For fall and spring semesters, students must successfully complete 9 hours in the semester, upon which to determine grade point average. These courses can be both within and outside of the college. Pooled courses will not be included in the calculation nor will they count toward the 9 hours required for consideration. The GPA required for inclusion in the Dean’s List is 3.75.

In the summer semesters, students must complete 6 hours as a basis for inclusion in the Dean’s List. Course inclusion is the same as in fall and spring semesters. The GPA required for Dean’s List in summer is also 3.75.

Colleges will collect data each semester on the number of students making the Dean’s List and report the number and percentage of total students in the college.

Scholarships tied to Dean’s Lists in individual colleges may have additional requirements.

The Office of the Registrar will calculate the semester GPAs for all students two weeks prior to the due date for semester grades. Those GPAs will be the basis for determining the Dean’s List. Incompletes will not be considered in the calculation of minimum
number of hours. The Dean’s List will not be recalculated to include completed incompletes.

Graduate Policies and Procedures

Admission to Graduate Programs

Each CLAS graduate program handles admissions to its master’s or doctoral programs, and defines its own admission standards and procedures based upon the general Graduate School guidelines. Some departments process application files within the department and some have the Office of Admissions process application materials, so be sure to check with the department to which you are applying to learn their specific procedures and deadlines. ApplyYourself, a planned new tool for graduate admissions, is expected to become active by spring 2010. Look for more information as it becomes available.

The criteria for admission shall be based on a combination of the following: minimum 3.0 GPA, standardized examinations, prior professional experience, portfolios or other indicators. Regular admission to master’s programs requires the completion of a bachelor’s degree or master’s degree from an accredited college or university at the time of matriculation or demonstration of the completion of work equivalent to that required of these degrees as specified by UC Denver.

Students are admitted as regular or provisional students. Students receiving provisional admission are subject to certain requirements set out by their programs for a probationary period, not to exceed two years. The requirements may be more stringent, but provisional students must complete each semester’s course work with a GPA of 3.0 or higher on all work taken.

International students must meet all requirements for regular admission as well as the requirements of the UC Denver Office of International Affairs. These include: documentation in English or a certified English translation of the completion of a bachelor’s degree, master’s degree or the equivalent at the time of matriculation as evaluated by International Admissions; financial documents required by the UC Denver Office of Admissions; a certified English translation of all records and references not in English; TOEFL scores above 525. See the Information for International Students chapter for more information.

Transfer Credits

Up to 12 semester hours can be transferred in from another graduate program (including hours taken at UC Denver as a nondegree student with a grade of B- or better) and applied toward a CLAS master’s degree. Courses taken while still an undergraduate student may be counted as pre-admission credits, but may not exceed 15 and cannot
have been applied toward the undergraduate degree. Only courses numbered 5000 and above or classified as graduate level can be transferred. Up to 30 transfer semester hours or semester hours taken as a nondegree student may be applied toward a PhD degree. Courses taken more than 10 years prior to admission must be revalidated by the department or program.

Readmission

If less than one calendar year has passed since a student in good standing was last enrolled in courses at UC Denver, a student must only notify the program they wish to re-enter. If a student does not register for three consecutive terms, he/she needs to be readmitted. This requires the student to submit Part I of the graduate admission form to their department or program; they must also pay the application fee. Those who have not been active for more than four years must complete the full application process.

PhD students may apply for a time extension or leave of absence as long as the total time to complete the degree does not exceed 10 years. Up to one year of an approved leave of absence may be taken without reapplying to the program upon return.

Changing Degree Programs

Students changing degree programs need to be admitted by the new department. They must provide all items required of students applying for the first time, but may petition the program to which they were originally admitted to release their initial application materials to the new department. Any transfer of courses to the new degree program is at the discretion of the new department or program.

Advisors

Students should consult with their faculty advisors early and often. Each graduate program has a faculty coordinator who should be consulted about program requirements. This may be the same person as a student’s faculty advisor. While students are strongly encouraged to meet with their faculty advisor every semester, they must meet with their faculty advisor and/or faculty coordinator at the beginning of their last semester to verify that all degree requirements have been met and to have their candidacy form approved and signed.

Graduate Courses

All courses that count toward a graduate degree must be approved by the degree-granting graduate program. At least 30 hours must be considered graduate rank (taught by graduate faculty). Eighteen hours are required at 5000-level or above with the
remainder subject to departmental approval. Courses below the 4000-level can only be applied if taken beyond the 30-hour graduate minimum.

Students may use courses offered through the continuing and professional education program in the pursuit of graduate study only if they obtain proper academic approval from the graduate program.

Graduate students may take up to a total of 7.5 independent study semester hours (in a 30-hour program), or 25 percent of the total program hours, under the direct supervision of a faculty member and with the approval of the CLAS graduate dean. However, it is important that students check with their programs concerning the maximum number of independent study credit hours that may count toward their degree, as this number may vary. The minimum UC Denver GPA required to register for independent study credits is 3.0, and students must be admitted to a CLAS degree program. Each independent study project may be taken for 1-3 semester hours. Students use the special processing form to outline the project and how the grade is determined, which then must be approved by the supervising faculty member and CLAS graduate dean.

Graduate-level internship credit may be earned in some programs. Students must be admitted to a CLAS degree program, have completed a minimum of 6 semester hours and have a minimum 3.0 GPA. A maximum of 6 hours of internship credit is allowed, except where specified by the program (i.e., nonthesis clinical psychology). Students should contact the Experiential Learning Center for details about the internship contract and faculty sponsorship requirements.

**Minimum GPA**

A minimum cumulative GPA of 3.0 in courses applied to a degree program is required. Grades of *B-* or better are accepted for most master’s degree programs; however, some programs have more stringent grade requirements. Doctoral minimum grade is *B*-. Courses applied to a graduate degree may not be taken pass/fail.

**Probation**

A student whose cumulative GPA falls below 3.0 or who receives a grade lower than a *B-* will be placed on academic probation by the CLAS graduate dean. A registration stop will be placed on students at the time they are placed on probation. This stop keeps probationary students from registering until they meet with their departmental advisor to plan courses that will be taken; then the stop will be removed.

In the two semesters following placement on probation, the student is allowed to take only courses applicable to the degree and all grades must be at or above a *B* grade, or the student will be suspended. At the end of two semesters after being placed on probation, the student must raise his/her cumulative GPA to 3.0 or he/she will be
suspended. A student may petition the CLAS graduate dean for an extension of the probationary period in extenuating circumstances.

**Incomplete Grades**

When a student has special circumstances that make it impossible to complete course assignments, faculty members have discretion to award an incomplete grade. Effective January 1, 2009, all incomplete courses are now assigned a grade of Incomplete (I). Incomplete grades are not awarded for poor academic performance or as a way of extending assignment deadlines. While not required, a CLAS course completion agreement form (available from the CLAS Advising Office) is strongly suggested when faculty and student agree on an incomplete grade.

To be eligible for an incomplete grade, students must:

- have successfully completed 75 percent of the course
- have special circumstances (verification may be required) that preclude the student from attending class and completing graded assignments
- make arrangements to complete missing assignments with the original instructor within one academic year

Students are allowed three semesters (one year) to complete the requirements for the incomplete, after which the I reverts to an F grade on the student’s transcript. Any request to allow a grade change after the one-year period must be petitioned to the CLAS Academic Standards Committee.

**Thesis/Project/Dissertation**

Master’s programs can be either thesis plan or nonthesis plan; nonthesis plans may include a project or report. No more than 6 thesis semester hours or 4 project semester hours can be applied toward a master’s program. Students may register for one or more thesis or project credits each semester up to the maximum.

For doctoral programs, a minimum of 5 hours and maximum of 10 hours of dissertation credit may be registered for in any semester. Students must receive approval from the CLAS graduate dean and the dean of the Graduate School to register for fewer than 5 dissertation hours.

Doctoral candidates must be registered for dissertation credit each fall and spring semester following successful completion of the comprehensive examination. Students on leave of absence, approved by the program and filed with the Graduate School, do not have to register for dissertation credits.

A student does not have to register for thesis or dissertation credits after a successful final examination and thesis defense even if the final version of the thesis/dissertation...
and the record of the final examination are submitted to the Graduate School at a later date.

**Thesis/Dissertation Procedures**

The thesis/dissertation must comply with specifications outlined in “Guidelines for Preparing Master’s and Doctoral Theses,” and have received a preliminary thesis format approval from the Graduate School. The student’s faculty committee must approve the final draft of the thesis, three copies of which must be filed with the Graduate School before graduation. The thesis binding fee must be paid when the thesis is submitted to the Graduate School.

**Research Protocol**

Students doing research that involves gathering data from human subjects must have their research protocol approved by the Human Research Committee. Students doing research that uses animals in any form must have their research protocol approved by the Institutional Animal Care and Use Committee.

**Graduation Application**

Graduate students in a master’s degree program initiate the graduation process through the CLAS Dean's Office, North Classroom Building 5014. Doctoral candidates initiate the graduation process through the Graduate School, Lawrence Street Center, Suite 300. Both master’s and doctoral candidates must follow deadline dates published in the online CLAS Graduate Advising Web site and on sheets available from departmental graduate advisors, the CLAS Dean's Office or the Graduate School.

All graduate students must submit their intent to graduate online application the semester they intend to graduate, an application for admission to candidacy and a request for graduate examination/thesis defense.

**Admission to Candidacy**

The application for admission to candidacy form is available in the CLAS Dean's Office, the Graduate School, the student's program office or online at the CLAS Graduate Advising Web site. This application must be signed by the student’s advisor and the program coordinator, certifying that the student’s work is satisfactory and that the program outlined in the application meets the requirements set for the student.

A student on probation is not eligible to be awarded a degree until s/he is removed from probation. A student with provisional admission status must be changed to regular admission status before admission to candidacy.
Intent to Graduate

Students must submit their intent to graduate online application by the published deadline for the semester they expect to graduate. If the degree is not completed, they must resubmit the intent to graduate each subsequent semester until graduation. Failure to submit the intent to graduate will result in delayed graduation.

Deadlines

The Graduate School deadlines (to file the application for admission to candidacy and intent to graduate, schedule and hold the comprehensive exam or thesis/project defense, submit thesis for format review, and turn in the final thesis) are published each semester and are available from the CLAS Dean's Office, departmental graduate advisors and the Graduate School. Deadlines and forms are also posted on the CLAS Graduate Advising Web site. It is the student's responsibility to know and to adhere to these deadlines.

Comprehensive Examination or Thesis/Project/Dissertation Defense

Students must be registered when they take the comprehensive examination or defend the thesis or project. This can be accomplished by registering to take a regular course, independent study/thesis/project credits or through candidate for degree registration. The examination may be oral, written or both.

The master’s examination must be given by a committee of three members of the graduate faculty, all of whom sign an exam report form signifying that the student has passed the exam or defense. The committee chair must be a regular member of the Downtown Campus graduate faculty, and the other members must hold at least a special graduate faculty appointment. PhD dissertation defense committees include four graduate faculty members, one of whom is from outside the primary department and must unanimously approve the examination.

The record of the thesis defense must be approved by the student’s faculty committee and filed with the CLAS Dean's Office before graduation. In programs where the project/report defense counts as the comprehensive exam, this requirement applies to projects/reports as well. A student who fails the comprehensive final examination or defense may retake the examination only once.
Time Limits

Master’s degree students admitted after January 2009 have a maximum of five years from the date of the start of course work after admission to the program to complete all degree requirements. This limit can be extended by a leave of absence approved by the student’s graduate program. Students admitted prior to January 2009 have seven years to complete their master’s degrees (according to previous Graduate School Rules).

Doctoral students have eight years from the date of the start of course work after admission to complete all degree requirements for a PhD (10 years with approved leave of absence).

Note: Individual graduate programs may have time limits that are more stringent.

Residency Requirements

A minimum of two semesters of work must be completed at UC Denver.

Academic Ethics and Petitions

Academic Ethics

[This information applies to both undergraduate and graduate students in the College of Liberal Arts and Sciences.]

As members of the UC Denver academic community, faculty and students accept the responsibility to maintain the highest standards of intellectual honesty and ethical conduct in all forms of academic work. While most violations center around cheating or plagiarism, the UC Denver Academic Honor Code on the Downtown Campus is more comprehensive and includes the following categories: plagiarism, cheating, fabrication and falsification, multiple submission, misuse of academic materials and complicity in academic dishonesty.

The CLAS Academic Ethics Committee, composed of faculty, students and staff, is charged with establishing academic ethics policies and, when necessary, evaluating ethics charges against students or faculty. Faculty and students should be familiar with the Academic Honor Code for the Downtown Campus (see the University Policies chapter) and the CLAS Academic Ethics Policies, available from the CLAS Advising Office, North Classroom, 4002, and online at the CLAS advising Web site.

Faculty who charge student(s) with a violation of the Academic Honor Code may lower a student’s grade without review. Faculty bringing such charges are required to notify the student in writing. Students charged with an ethics violation continue in the class and may appeal the faculty decision to the CLAS Academic Ethics Committee. Students
charged with a violation of the Academic Honor Code are encouraged to meet with an advisor in the CLAS Advising Office to review their rights and obtain assistance with procedures.

**Petitioning for Exceptions to Standing Academic Policy**

The CLAS Academic Standards Committee is responsible for the administration of the academic policies of the college as established by the faculty. This committee constitutes the bridge between the faculty in its legislative capacity and the students upon whom the legislation comes to bear. The committee is empowered to grant waivers of exemptions from and exceptions to the academic policies of the college. Students wishing to submit a petition to the committee should meet with the advising staff first to discuss the petition.

Students in the College of Liberal Arts and Sciences may appeal a grade. Every attempt is made to resolve grade disputes at the department level. However, unresolved grade issues may be appealed to the CLAS Academic Standards Committee and initiated through the CLAS Advising Office, North Classroom, 4002, 303-556-2555. Details of the grade appeal policies are available in the CLAS Advising Office.

The Office of the Registrar establishes deadlines each semester for registering, adding courses, dropping courses, selecting the pass/fail option and withdrawing from the university. These deadlines are clearly identified on the Registrar's Web site. Students seeking to waive these deadlines must petition the associate dean of the college. Instructions for deadline petitions are available from the CLAS Advising Office.

The Graduate Council reviews grievances related to procedural issues for graduate students that cannot be resolved at the college level.

**Preparation for Professions**

Completion of the undergraduate curriculum of the College of Liberal Arts and Sciences can prepare students for a number of careers in the professions. See below for information on preparation for those professions most frequently asked about by students in the college. Students seeking information about other professions should contact the CLAS Advising Office, North Classroom, 4002, 303-556-2555.

**Law**

Students intending to enter a school of law may major in any field while completing the bachelor's degree, since law schools do not typically specify course work entrance requirements. More important to law schools are methods of study, critical thinking and communication skills. Students interested in law school should consider the interdisciplinary minor in law studies (see Law Studies in the CLAS departmental
Health Careers

The college has faculty health careers advisors to assist students in preparing for careers in the following:

- dentistry
- medicine
- osteopathy
- veterinary medicine

Course programs also have been developed within the college to prepare students for the following specific careers within the general area of health sciences:

- dental hygiene
- medical technology
- nursing
- optometry
- pharmacy
- physical therapy
- physician assistant
- podiatry

Because the prerequisites for these health career programs are continually changing, students interested in pursuing one of these careers should contact a health careers advisor at 303-556-4350 or 303-556-6218 for current requirements and for advising. See the Health Professions chapter of this catalog for further information.

Education

Liberal arts students seeking certification for teaching at the primary or secondary level must complete a baccalaureate degree plus approximately 40 semester hours of professional education required for licensure from the School of Education & Human Development.

Liberal arts students interested in a K–12 teaching career are encouraged to participate in the educational studies minor program or the K–12 teacher licensure program in collaboration with the School of Education & Human Development. See the Educational Studies/Teacher Licensure section in the CLAS departmental descriptions.
Collegewide Interdisciplinary Programs

INTERDISCIPLINARY PROGRAMS IN THE COLLEGE OF LIBERAL ARTS AND SCIENCES

Joint Degree Programs BA/MPA

The College of Liberal Arts and Sciences, in cooperation with the School of Public Affairs, offers students the opportunity to complete both a bachelor’s degree and master’s degree in five years rather than the usual six years. The program combines undergraduate general education and major studies with a specialized curriculum in public affairs and strives to develop intellectual and professional skills in a coordinated manner. Participating major programs in CLAS include communication, economics, political science and sociology, as well as others.

Students in the BA/MPA program must fulfill all of the graduation requirements for the College of Liberal Arts and Sciences; maintain a 3.5 undergraduate GPA in CLAS and have completed 75 percent of their undergraduate program to be eligible for admission; and enroll formally in the programs through the CLAS Advising Office. Students admitted to the program begin taking graduate-level courses in public administration during their senior year. These courses will count toward the bachelor’s degree as electives. For further information, contact the CLAS Advising Office, 303-556-2555.

Centers and Institutes

Center for Computational Biology

Director: Stephen Billups
Telephone: 303-556-6269
E-mail: dana.franklin@ucdenver.edu
Web site: http://ccb.cudenver.edu/

The Center for Computational Biology (CCB) is a multi-campus center aimed at catalyzing interdisciplinary research and developing educational programs in computational biology throughout the University of Colorado system. The center brings together faculty and students from a variety of fields, including mathematics, computer science and the biosciences, to engage in interdisciplinary research aimed at advancing biological discovery through the development and application of computational tools and mathematical models and techniques. The center leads the development of new courses and educational programs for University of Colorado students. All programs led by the
CCB initiative integrate education with research; students are introduced to research as part of their education.

**Center for Computational Mathematics**

**Director:** Jan Mandel  
**Telephone:** 303-556-4475  
**E-mail:** Jan.Mandel@ucdenver.edu  
**Web site:** [http://ccm.ucdenver.edu/index.shtml](http://ccm.ucdenver.edu/index.shtml)

The Center for Computational Mathematics was established to foster research in one of the discipline's most exciting new field. Through extensive ties with industry along the Front Range and government laboratories across the country, the center provides outstanding opportunities for motivated students to receive additional training and experience.

**Center for Ethics and Community**

**Director:** Candice L. Shelby  
**Telephone:** 303-556-4803  
**E-mail:** Candice.Shelby@ucdenver.edu  
**Web site:** [http://carbon.ucdenver.edu/~cshelby/cec.htm](http://carbon.ucdenver.edu/~cshelby/cec.htm)

The Center for Ethics and Community seeks to strengthen ethics in schools, the community, universities and all professions. Certificate programs are available to members of the UC Denver community, as well as individuals outside the university.

**Center for New Directions in Politics and Public Policy**

**Director:** Kathryn Cheever  
**Telephone:** 303-556-5950  
**E-mail:** Kathryn.Cheever@ucdenver.edu  
**Web site:** [clas.ucdenver.edu/newdirections/index.htm](http://clas.ucdenver.edu/newdirections/index.htm)

The center’s programs are based on the notion that effectively addressing the public priorities of the 21st century requires that those working on matters of public interest possess a keen understanding of the political forces that guide or thwart the successful mobilization of resources and the achievement of constituent goals consistent with the public interest. Similarly, the need and opportunity for the active engagement—or leadership—of concerned citizens in the policymaking process is greater than ever before. Accordingly, students in any of the center’s academic programs will be representative of not only those working professionals in the public and nonprofit sectors, but also elected officials; community activists; interest-group stakeholders;
educators from a wide range of demographic, occupational and personal backgrounds; and simply concerned citizens.

**Center for Research in the Health and Behavioral Sciences**

**Director:** Susan Dreisbach  
**Telephone:** 303-556-6796  
**E-mail:** Susan.Dreisbach@ucdenver.edu

The Center for Research in the Health and Behavioral Sciences (CRHBS) is dedicated to promoting research and community service in health issues facing the local Denver area, Colorado, the nation and beyond. Research conducted by the allied CRHBS faculty is unique in integrating biomedical, public health and social science perspectives. Current external funding of research through CRHBS is focused on such topics as preventing HIV and STD transmission program evaluation. Research assistant and internship positions for students in the health and behavioral sciences doctoral program are commonly available through CRHBS.

**Colorado Center for Public Humanities**

**Director:** Philip Joseph  
**Telephone:** 303-556-4648  
**E-mail:** Philip.Joseph@ucdenver.edu  
**Web site:** [http://clas.cudenver.edu/publichumanities/](http://clas.cudenver.edu/publichumanities/)

The work of this center is oriented around two primary goals. First, as a think-tank, the center investigates the public value of the humanities disciplines in relation to historical change by sponsoring programs that help to clarify the roles that humanities-based scholarship can play within the region, the nation and the world more generally. Our second goal is to direct the engagements of humanities scholars toward extra-academic communities. In pursuing this objective, the center will support scholars whose research programs are designed to reach civic groups outside the university walls and to benefit from the involvement of these groups.

**Fourth World Center for the Study of Indigenous Law and Politics**

**Director:** Glenn T. Morris  
**Telephone:** 303-556-2850  
**E-mail:** Glenn.Morris@ucdenver.edu  
**Web site:** [http://carbon.cudenver.edu/public/fwc/](http://carbon.cudenver.edu/public/fwc/)
The Fourth World Center for the Study of Indigenous Law and Politics was founded in 1984 as a resource commons of authoritative information on indigenous peoples’ affairs. The major components of the center’s educational project are:

- the creation and presentation of a university-level multidisciplinary curriculum focused on the study of indigenous peoples
- the publication of the *Fourth World Bulletin*, a journal on indigenous politics with a global concentration
- the development of university textbooks for the study of indigenous politics
- the presentation of public forums
- the presentation of testimony before international legal organizations

The center features a library, periodicals, audio and visual equipment and online news archives on current development issues surrounding "the Fourth World."

---

**Shared Analytical Services Laboratory**

**Lab Manager:** Jeff Boon  
**Telephone:** 303-556-4520  
**E-mail:** Jeffery.Boon@ucdenver.edu  
**Web site:** clas.ucdenver.edu/sasl/

The Shared Analytical Services Laboratory fosters and promotes disciplinary and interdisciplinary research in the environmental sciences. Faculty represent disciplines within the College of Liberal Arts and Sciences, as well as civil engineering. Services provided by the laboratory are available to all members of the university community, as well as to members of the public and private sectors through joint projects.

---

**Smart-Girl Leadership Institute**

**Telephone:** 303-556-2557  
**E-mail:** Lissa.Gallagher@ucdenver.edu  
**Web site:** http://thunder1.cudenver.edu/clas/smartgirl/

The Smart-Girl Leadership Institute is a prevention and enrichment program that trains college students to lead and inspire adolescent girls to make smart choices and become confident, capable and self-reliant women. UC Denver students earn credit while they build the skills to lead small groups of girls through a fun and effective curriculum.

---

**Writing Center**
The Writing Center provides free writing assistance to all members of the UC Denver community, including students, faculty, staff and alumni. Professional writing consultants are available to assist writers in one-on-one sessions. All consultations are by appointment; to schedule an appointment please visit our Web site.

In addition, the center hosts professional development workshops for graduate students and faculty; maintains a library of grammar handbooks, citation manuals and composition texts; and conducts informational class visits. For additional information on our services for students, see the listing in the Student Services chapter.

Departments and Programs

Anthropology

Chair: Stephen Koester
Program Assistant: Connie Turner
Office: Administration Building, 270
Undergraduate Advisor: David Tracer
Graduate Director: Christopher Beekman
Telephone: 303-556-3554
Fax: 303-556-8501
Web site: clas.ucdenver.edu/anthropology/

Faculty

Professors:

Stephen Koester, PhD, University of Colorado
Tammy Stone, PhD, Arizona State University

Associate Professors:
Undergraduate

Anthropology is the study of human origins and evolution, the present conditions of human life and the prospects for the future. It considers human beings as biological and social entities and seeks to explain both diversities and commonalities of peoples and cultures. For undergraduates, anthropology provides a rich overview of human life. It also introduces them to a variety of skills and practical research methods anthropologists apply in laboratory and field studies of the ecological constraints on human existence, the cultural bases of individual and organizational behavior and the problems and circumstances relating to the maintenance of today’s healthy, productive human action in general.

Anthropological training provides entry to a variety of careers in archaeology, museology, education, community service, public administration, public health, international affairs and business. The specific skills it provides are useful to students of environmental design, city planning, community development, the medical and nursing professions and allied health sciences, law, public affairs and secondary education.
REQUIREMENTS FOR MAJOR

Departmental Honors Requirements

Students wishing to graduate with departmental honors in anthropology must have a cumulative GPA of at least 3.5, with a 3.7 minimum GPA in anthropology for *cum laude* (3.8 for *magna cum laude* and 3.9 for *summa cum laude*), as well as prepare an honors thesis of high quality. They must also take ANTH 4810, Integrating Anthropology. Interested students should inquire in the department no later than two semesters before graduation.

REQUIREMENTS FOR MINOR

Graduate

► Graduate School rules apply to this program

The unique intellectual challenge of anthropology is to integrate knowledge from many disciplines for a global understanding of cultural and biological diversity in the past and the present. Individual courses in cultural and biological anthropology and archaeology cut across lines of the humanities and social and natural sciences. Because of this integrative perspective on the human condition—and the training provided in objectively assessing cultural patterning and social interaction—anthropology graduates have a strong and versatile base for careers in a variety of fields. Graduates of our program get jobs as professional archaeologists; work in international NGOs as researchers in the health sciences and public health, as college teachers and in international development; while others have been very competitive in prestigious PhD programs (e.g., Berkeley, Pennsylvania, McMasters, Oxford).

Specialties and Tracks

UC Denver's Department of Anthropology provides an outstanding graduate education in anthropology, giving students a broad yet thorough grounding in the three major subfields of anthropology, as well as specialized instruction in one or more research orientations in which department faculty have substantial expertise. The graduate faculty in anthropology are particularly known for their research and publications in medical anthropology; microfinance; human growth and development; experimental economics; visual anthropology; social and cultural factors in HIV and hepatitis; ethnicity; political economy; southwestern, Mexican and Neanderthal archaeology; and urban and community anthropology. Across the specializations there is a strong emphasis on research design and methodology, providing students concrete job-related skills. Area studies emphases include Latin America, East Africa, and the US Southwest. Students
also have opportunities to study abroad, to participate in one of several field schools, and to gain international research experience.

Topical Concentrations

- medical anthropology
- archaeological studies
- biological anthropology
- sustainable development and political ecology

ANTHROPOLOGY MA PLANS OF STUDY

Application Process

Application is open to holders of a BA, BS or higher degree in any field, and we welcome applications from individuals pursuing particular interests and careers, especially those related to one of the areas of concentration noted above. The departmental deadline for receipt of all application materials is February 15 for admission in the following fall.

Acceptance to the program is competitive and based on:

- an undergraduate record of good quality (3.0 GPA or higher for all undergraduate studies)
- prior training in anthropology
- GRE scores (verbal, analytic and quantitative)
- three letters of recommendation
- a statement of the applicant’s purpose in pursuing the degree
- two copies of transcripts from all undergraduate/graduate institutions attended

If you have no prior anthropology training, we encourage you to gain the necessary background as a nondegree student before applying to the graduate program. Prior training required in anthropology corresponds to that required for the minor, consisting of approximately 18 semester hours and including introductory courses in biological/physical anthropology, cultural anthropology and archaeology. Students with exceptional qualifications may be admitted without prior anthropology training but will be required to make up deficiencies without graduate credit during the course of their graduate study.

Financial Aid

The department offers limited tuition assistance, teaching assistantships and research assistantships for graduate students on a semester-by-semester basis. Appointment is competitive and is typically based on a student’s academic credentials, GRE scores and preparation in anthropology. Contact the department for details. For information on
grants, federal work-study programs, scholarships and loans, contact the UC Denver financial aid office.

Programs

Bachelor of Arts

Anthropology BA

Students majoring in anthropology for the BA degree must declare such by the time they have completed 60 semester hours. Majors must complete a minimum of 40 semester hours in anthropology with a grade of C (2.0) or better in each course. At least 24 hours must be at the upper-division level and a minimum of 21 semester hours must be taken from Downtown Campus faculty. (Note that all upper-division courses have lower-division prerequisites.)

Program Requirements

Required Anthropology Courses

- ANTH 1302 - Introduction to Archaeology Summer 2010 Registration: ANTH 1302
- ANTH 1303 - Introduction to Biological Anthropology Summer 2010 Registration: ANTH 1303
- ANTH 2102 - Culture and the Human Experience Summer 2010 Registration: ANTH 2102

Choose three:

- ANTH 3101 - Foundations of Cultural Anthropology Summer 2010 Registration: ANTH 3101
- ANTH 3121 - Language and Communication Summer 2010 Registration: ANTH 3121
- ANTH 3301 - World Prehistory Summer 2010 Registration: ANTH 3301
- ANTH 3512 - Human Evolution Summer 2010 Registration: ANTH 3512

Total: 20 Hours

Anthropology Electives

Recommended courses:
• ANTH 4050 - Quantitative Methods in Anthropology  Summer 2010 Registration: ANTH 4050
• ANTH 4810 - Integrating Anthropology  Summer 2010 Registration: ANTH 4810

Total (minimum): 20 Hours

Major Total: 40 Hours

Non Degree

Anthropology Minor

A minimum of 18 semester hours in anthropology must be completed with an average of C (2.0) or better. Nine of the 18 hours must be upper division and 9 hours must be taken from Downtown Campus faculty.

Program Requirements

Required Courses

Choose a minimum of three courses from the following:

• ANTH 1302 - Introduction to Archaeology  Summer 2010 Registration: ANTH 1302
• ANTH 1303 - Introduction to Biological Anthropology  Summer 2010 Registration: ANTH 1303
• ANTH 2102 - Culture and the Human Experience  Summer 2010 Registration: ANTH 2102
• ANTH 3101 - Foundations of Cultural Anthropology  Summer 2010 Registration: ANTH 3101
• ANTH 3121 - Language and Communication  Summer 2010 Registration: ANTH 3121
• ANTH 3301 - World Prehistory  Summer 2010 Registration: ANTH 3301
• ANTH 3512 - Human Evolution  Summer 2010 Registration: ANTH 3512

Total: 9-11 Hours

Elective Courses

Total: 7-9 Hours
Minor total: 18 Hours

Master of Arts

Anthropology, MA

► Graduate School Rules apply to this program.

Plans of Study

MA students may pursue the thesis or non-thesis option.

- **Thesis Option:** A thesis is characterized by three factors: 1) it is based in a research question or problem; 2) it involves original research; 3) there is a fully developed research proposal. A thesis can also encompass a range of format alternatives to the traditional thesis (e.g. article submitted for publication to a peer-reviewed journal, or a video production, internship or museum exhibit, each generally accompanied by a companion paper developing a theoretical or problem-oriented question). The thesis option requires 30 semester hours, including 4-6 hours of thesis.

- **Non-Thesis Option:** This track is defined by additional course work in lieu of a thesis. The non-thesis option requires 36 semester hours of course work.

**Thesis Option**

The thesis is a major requirement for those in the MA in anthropology thesis track. The thesis should demonstrate the student’s ability to apply knowledge and skills gained from the anthropology department’s curriculum. A desirable goal for an excellent thesis would be a work of sufficient rigor and quality that it could be considered for publication. Original data collection ("fieldwork") is recommended but not required for the thesis. Analysis of secondary data—whether quantitative, qualitative, visual or other formats—is perfectly acceptable as long as the research is informed by a clearly articulated research question and under-girded by a research proposal.

The traditional thesis is a single document that often incorporates a literature review, definition of a problem, discussion of methods to address the problem, the subsequent research activity and results. However, the student may design a thesis with different emphases, in consultation with their advisor. For example, the goal may instead be a more compact paper submitted to a peer-reviewed journal. Other thesis plans may combine some research activity such as a video production, museum exhibit or an
internship, with an accompanying paper. Students pursuing the thesis option must develop a topic and research proposal that specifies their plans in the semester after their completion of 18 credit hours.

The thesis must be defended before a committee of three faculty, at least two of whom need to be on the Department of Anthropology faculty (which includes senior instructors and research faculty). The structure of the thesis is largely determined by the University of Colorado Denver Graduate School Rules; i.e., a thesis must conform to the rules.

1. For the thesis, students must prepare a full research proposal which must be approved by their thesis chair before beginning their research. This proposal must be completed by the semester after the student has completed 18 credit hours. Sections of the proposal should include, at a minimum:
   a. Introduction and statement of the problem: Should include a one sentence statement of the problem on the first page, and a discussion of its significance (i.e., why is it important that this topic be researched).
   b. Literature review covering theoretical and topical material.
   c. Research design and methods including a data analysis plan.

   Note: Wenner-Gren and National Science Foundation both provide good models and templates for the research proposal. Those in the medical anthropology track might want to consider following the NIH model, depending the nature of their research questions and career goals.

2. All students proposing to work with humans or data on modern humans must apply for and receive approval from the Human Subjects Research Committee before they begin their research. Note: most of the material for the application will be drawn from the research proposal.

3. The draft thesis must be reviewed and approved as “defensible” by the student’s thesis committee faculty chair before a thesis defense date can be set. Defensible means the chair has reviewed the draft and suggested changes have been made.
   a. The draft sent to the student’s committee must be substantively complete: All references must be in the text and properly formatted in a references cited section; there should be no “track changes” comments in the text; the text should be formatted according to Graduate School requirements.
   b. Given the complexity of faculty and student schedules, consultation on a defense date should be done as far in advance as possible.
   c. There must be a minimum of three weeks between the agreed-upon date for the defense and distribution of the draft thesis defined as defensible by the student’s chair. If you would like feedback from your committee members before the defense, you should plan to distribute the thesis at least 4 weeks before the defense date.

Note: If you intend to graduate the same semester you defend your thesis, you must schedule, successfully defend, and complete all
recommended changes in accordance with UC Denver Thesis and Dissertation Guidelines. This effectively translates to having the thesis completed and “defensible” before the middle of the semester.

Non-Thesis Option

The non-thesis option allows students to pursue their own educational goals through the selection of additional courses that fit their interests. We strongly encourage students who choose this option to consider an internship position arranged around an area of expertise or the development of a skill-set. The decision to pursue the non-thesis option should be made by the semester following the completion of 18 credit hours.

Additional Information

Students must maintain an overall GPA of 3.0 to remain in good standing and receive a grade of B- or better in a course to have it count toward graduation. The Graduate School on the Downtown Campus requires a minimum of two full years devoted to advanced study and allows up to five years to complete a master's degree, but students are strongly discouraged from spending more than four years. While it is possible to finish the MA in two years, most of our students work part-time, which limits the time they can dedicate to the program; most finish within three years. All students are required to pass a written comprehensive examination, taken after core course work has been completed.

Some students may benefit from adding a specific skills-based certificate program onto their graduate program. For example: archaeology students may wish to gain expertise in Geographic Information Systems through the GIS certificate offered through the Department of Geography and Environmental Sciences, while medical anthropology students may benefit through the certificate in public health offered through the School of Public Health or the environmental health certificate through the Master of Science in Environmental Sciences program. Graduate-level courses in certificate programs can often fulfill elective requirements in the anthropology program.

Two doctoral programs on the UC Denver campus that may be of particular interest to graduates of the anthropology graduate program are the National Science Foundation funded IGERT program on Sustainable Urban Infrastructure, and the PhD in Health and Behavioral Sciences offered through the Department of Health and Behavioral Sciences. Both are highly interdisciplinary and are natural extensions of a master's degree in anthropology.

Course Requirements

Your graduate anthropology education begins by taking ANTH 5810, Integrating Anthropology, plus two core courses that together encompass contemporary theory in anthropology. These are followed by three courses in research methods and techniques,
including statistics. You are required to take the core series in two of the three subdisciplines. After completing this core, you will select from among the specialized elective courses in the research concentrations described in more detail below. You will work closely with an advisor in selecting the range of courses appropriate both to a problem orientation and to your career objectives.

Tier One: A Survey of Theoretical Perspectives in Contemporary Anthropology

Required in fall of first year

- ANTH 5810 - Integrating Anthropology  
  Summer 2010 Registration: ANTH 5810

Choose two:

- ANTH 6103 - Current Theory in Ethnography  
  Summer 2010 Registration: ANTH 6103
- * ANTH 6307 - Contemporary Perspectives in Archaeology  
  Summer 2010 Registration: ANTH 6307
- † ANTH 6503 - Biological Anthropology Core: The Fossil Record  
  Summer 2010 Registration: ANTH 6503

Total: 9 Hours

Tier Two: Methods of the Discipline

All students must complete or demonstrate competence in subjects covered by the following:

- ANTH 5053 - Quantitative Methods in Anthropology  
  Summer 2010 Registration: ANTH 5053

Choose two:

- ANTH 6063 - Qualitative Research Design and Methods  
  Summer 2010 Registration: ANTH 6063  
  (same as HBSC 7051-3)
- * ANTH 6317 - Archaeological Research Design and Analysis  
  Summer 2010 Registration: ANTH 6317
- † ANTH 6513 - Biological Anthropology Core: Modern Human Variation  
  Summer 2010 Registration: ANTH 6513
Total: 9 Hours

* Students who wish to apply for a teaching assistantship in archaeology must have completed this course.

† Students who wish to apply for a teaching assistantship in biological anthropology must have completed this course.

Tier Three: Research Concentrations (9-21 semester hours)

You will round out your program by selecting from the diverse range of courses offered in the department according to your particular interests in anthropology, your career goals and your plans for future graduate study. You may take courses in one or more concentrations. The courses listed are suggestions only; you must work closely with your advisor in constructing your particular program of study.

MEDICAL ANTHROPOLOGY

Medical anthropology is a subdiscipline of anthropology that includes the study of all aspects of health, illness and disease in human communities and populations. It draws on all of the perspectives that distinguish anthropology as a unique discipline: the analysis of human evolution and adaptation; cultural development, expressions and variability; and historical change and continuity. Medical anthropology takes as its subject a broad range of specific topics, including the study of health care systems, factors that affect the distribution and determinants of disease in populations, maternal and child health, nutrition and food habits, human development, political ecology, health policy and language and communication in health care contexts. Faculty in the department emphasize the applied dimensions of medical anthropology, preparing students for careers in public health, health care and health sciences research. Courses in the department are complemented by electives in other departments (sociology, biology, psychology, history, geography), programs on the Downtown Campus (health administration, public affairs, education) and programs at the Anschutz Medical Campus (schools of medicine, dental medicine, pharmacy and nursing).

Courses

- ANTH 5014 - Global Health Studies I: The Biocultural Basis of Health  Summer 2010 Registration: ANTH 5014 
- ANTH 5030 - Ethnobiology Summer 2010 Registration: ANTH 5030
ANTH 5040 - Anthropology of Food and Nutrition  Summer 2010 Registration: ANTH 5040
ANTH 5060 - Evolutionary Medicine  Summer 2010 Registration: ANTH 5060
ANTH 5090 - Political Economy of Drugs  Summer 2010 Registration: ANTH 5090
ANTH 5150 - Human Biocultural Adaptability  Summer 2010 Registration: ANTH 5150
ANTH 5260 - Human Reproductive Ecology  Summer 2010 Registration: ANTH 5260
ANTH 5560 - Human Ecology  Summer 2010 Registration: ANTH 5560
ANTH 6040 - Advanced Topics in Medical Anthropology  Summer 2010 Registration: ANTH 6040
HBSC 7310 - Environmental Epidemiology  Summer 2010 Registration: HBSC 7310

Note: Students are also strongly encouraged to take elective courses in public health, epidemiology and biostatistics, which are available in the Department of Biometrics and Preventive Medicine on the Anschutz Medical Campus. See the Health Professions chapter of this catalog for further information.

ARCHAEOLOGY

The archaeological studies program concentrates on the study of past human societies using archaeological data collected in field and museum settings. While a quantitative and scientific approach is emphasized, the theoretical perspectives employed also draw heavily from political economy and cultural ecology. The department offers a variety of theoretical, methodological and area courses, which may be supplemented by others in the geography and environmental sciences and history departments. Internships are available in local museums and historic preservation offices in the Denver metropolitan area.

Courses

- ANTH 5210 - Archaeology of the American Southwest  Summer 2010 Registration: ANTH 5210
- ANTH 5320 - Archaeology of Mexico and Central America  Summer 2010 Registration: ANTH 5320
- ANTH 5330 - Lithic Analysis  Summer 2010 Registration: ANTH 5330
- ANTH 5570 - Landscape Archaeology  Summer 2010 Registration: ANTH 5570
- ANTH 5910 - Field Experience in Archaeology  Summer 2010 Registration: ANTH 5910
- GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing  Summer 2010 Registration: GEOG 5060
BIOLOGICAL ANTHROPOLOGY

The biological anthropology concentration is concerned with modern human biological diversity and the past evolutionary history that has led to such diversity. Students in this concentration develop a firm understanding of the evolutionary processes that lead to physical and behavioral variation in humans and nonhuman primates. The concentration also emphasizes the theoretical and quantitative methods used to explore and explain this variation. Students may take courses in diverse areas including evolutionary biology, genetics, ecology, ethnobiology, epidemiology, nutrition, medical anthropology, paleoanthropology, paleontology and primatology. Because biological anthropology is multidisciplinary in nature, students are encouraged to consider courses offered outside the department.

Courses

- ANTH 5014 - Global Health Studies I: The Biocultural Basis of Health  
  Summer 2010 Registration: ANTH 5014
- ANTH 5030 - Ethnobiology  
  Summer 2010 Registration: ANTH 5030
- ANTH 5040 - Anthropology of Food and Nutrition  
  Summer 2010 Registration: ANTH 5040
- ANTH 5060 - Evolutionary Medicine  
  Summer 2010 Registration: ANTH 5060
- ANTH 5150 - Human Biocultural Adaptability  
  Summer 2010 Registration: ANTH 5150
- ANTH 5500 - Advanced Issues in Human Evolution  
  Summer 2010 Registration: ANTH 5500
- ANTH 5520 - Human Biological Variation  
  Summer 2010 Registration: ANTH 5520
- ANTH 5530 - Anthropological Genetics  
  Summer 2010 Registration: ANTH 5530
- ANTH 5550 - Primate Comparative Anatomy  
  Summer 2010 Registration: ANTH 5550
- ANTH 5560 - Human Ecology  
  Summer 2010 Registration: ANTH 5560
- ANTH 5580 - Neanderthals and the Origin of Modern Humans  
  Summer 2010 Registration: ANTH 5580
- ANTH 5640 - Darwinian Approach to Human Behavior  
  Summer 2010 Registration: ANTH 5640
SUSTAINABLE DEVELOPMENT AND POLITICAL ECOLOGY

This concentration provides a critical, multicultural and multidisciplinary perspective on issues of development and resource conservation, with a strong emphasis on the integration of theoretical knowledge with field-based training opportunities. Three major themes are addressed within this concentration:

1. the types of resource management systems present in the world and their relationship to particular ecosystems
2. the types of knowledge systems and ideas associated with this diverse array of resource management systems, environmental knowledge and theoretical perspectives included
3. the culture of institutions—ranging from small-scale NGOs to the World Bank—that design and implement conservation and development

A central goal of this emphasis is to provide students with the information, opportunities and resources required for pursuing a wide variety of career options in conservation and/or development. In addition to offering the following courses, the department encourages students to develop a specialized skill in conjunction with other departments and schools, including areas such as GIS mapping (geography), ecology (biology/anthropology), legal and policy issues (political science, School of Public Affairs), land use (geography, School of Public Affairs) and research/evaluation methodologies (anthropology).

Courses

- ANTH 5030 - Ethnobiology Summer 2010 Registration: ANTH 5030
- ANTH 5070 - Culture of Development and Globalization Summer 2010 Registration: ANTH 5070
- ANTH 5170 - Culture and the Environment Summer 2010 Registration: ANTH 5170
- ANTH 5220 - Community in Global Context Summer 2010 Registration: ANTH 5220
  Other courses in consultation with faculty advisor.

RESEARCH CONCENTRATIONS TOTAL: 9-21 HOURS

DEGREE TOTAL HOURS

James H. Hageman, PhD, University of California, Los Angeles
John A. Lanning, PhD, University of Tennessee
Undergraduate

Why study chemistry? A practical reason is that our highly technical society faces many problems that can be solved through an understanding of the science of chemistry and its methods of solving problems. A more intangible reason is that chemistry is central to a variety of other disciplines and that many problems ultimately will have chemical solutions.

At the undergraduate level, students can prepare for:

1. careers in chemical and medical laboratories
2. careers in nursing, medical technology, dental hygiene and other health-oriented fields
3. post-baccalaureate programs in chemistry, biology, biochemistry, medicine, physical therapy and dentistry.

At the graduate level, an MS degree program is offered. Students with MS degrees have job opportunities in research and technical laboratory services. In addition, flexible programs can be designed to combine chemical knowledge and skills with other interests of the MS-level student (e.g., biology or environmental science).

**REQUIREMENTS FOR MAJOR**
BS/MS PROGRAM

Departmental Honors

Qualified students are encouraged to participate in the chemistry honors program. Three levels of honors are awarded by the Downtown Campus. To earn *cum laude* honors in chemistry, a student must satisfy one of the following criteria: (1) an overall GPA of 3.2 or better and a chemistry GPA of 3.5 or better; or (2) an overall GPA of 3.2, a chemistry GPA of 3.2 or better, and six hours of CHEM 4840, Independent Study, spread over a minimum of two semesters. To earn *magna cum laude* or *summa cum laude* honors in chemistry, a student must satisfy each of the following criteria: an overall GPA of 3.2 or better, a chemistry GPA of 3.5 or better; six hours of CHEM 4840, Independent Study, spread over a minimum of two semesters with a GPA of 3.1 or better; and presentation of a thesis on the independent study research to a faculty advisory committee. The committee decides if *magna cum laude* or *summa cum laude* honors are to be awarded.

REQUIREMENTS FOR MINOR

Graduate

The MS degree offered at the Downtown Campus is a broad-based chemistry degree that allows students to take courses and do research in the following basic fields: analytical, biochemistry, inorganic, organic, physical or environmental chemistry.

The MS program is available to both full- and part-time students. The chemistry faculty strive to ensure that students receive excellent advising and supervision of work. Students enrolled in the program have an opportunity to be appointed as laboratory teaching assistants. Research activities on the part of the chemistry faculty provide opportunities for graduate students to obtain research assistantships.

CHEMISTRY MS

BS/MS PROGRAM

Bachelor of Science

Chemistry BS

Requirements for Major

Students must declare their major by the time they have completed 60 semester hours. The chemistry major requires 45 semester hours in chemistry. Transfer students must
take at least 14 upper-division chemistry hours, including CHEM 4128, 4518 or 4538, in residency at the Downtown Campus. A student who has declared a chemistry major at UC Denver may not take additional chemistry courses outside of the department for the purpose of applying those credits toward meeting the requirements of the major without prior written approval of the undergraduate advisor. Normally, no more than 3 additional hours of transfer credits will be allowed. The minimum grade in chemistry courses is C- (1.7) and a minimum chemistry GPA of 2.0 is required in chemistry and ancillary required courses. All majors must successfully complete the following core:

**TRADITIONAL CHEMISTRY MAJOR**

**Required Chemistry Courses**

- CHEM 2031 - General Chemistry I  
  *Summer 2010 Registration: CHEM 2031*
- CHEM 2038 - General Chemistry Laboratory I  
  *Summer 2010 Registration: CHEM 2038*
- CHEM 2061 - General Chemistry II  
  *Summer 2010 Registration: CHEM 2061*
- CHEM 2068 - General Chemistry Laboratory II  
  *Summer 2010 Registration: CHEM 2068*
- CHEM 3011 - Inorganic Chemistry  
  *Summer 2010 Registration: CHEM 3011*
- CHEM 3111 - Analytical Chemistry  
  *Summer 2010 Registration: CHEM 3111*
- CHEM 3118 - Analytical Chemistry Laboratory  
  *Summer 2010 Registration: CHEM 3118*
- CHEM 3411 - Organic Chemistry I  
  *Summer 2010 Registration: CHEM 3411*
- CHEM 3418 - Organic Chemistry Laboratory I  
  *Summer 2010 Registration: CHEM 3418*
- CHEM 3491 - Honors Organic Chemistry II  
  *Summer 2010 Registration: CHEM 3491*
- CHEM 3498 - Honors Organic Chemistry Laboratory II  
  *Summer 2010 Registration: CHEM 3498*
- CHEM 4121 - Instrumental Analysis  
  *Summer 2010 Registration: CHEM 4121*
- CHEM 4128 - Instrumental Analysis Laboratory  
  *Summer 2010 Registration: CHEM 4128*
- CHEM 4511 - Physical Chemistry I  
  *Summer 2010 Registration: CHEM 4511*
- CHEM 4518 - Physical Chemistry Laboratory I  
  *Summer 2010 Registration: CHEM 4518*
- CHEM 4521 - Physical Chemistry II  
  *Summer 2010 Registration: CHEM 4521*
- CHEM 4538 - Physical Chemistry II Laboratory  
  *Summer 2010 Registration: CHEM 4538*

And one of the following two courses:
CHEM 3018 - Inorganic Chemistry Laboratory Summer 2010 Registration: CHEM 3018
CHEM 4828 - Biochemistry Lab Summer 2010 Registration: CHEM 4828

Total Required Courses: 45 Hours

Required Ancillary Courses

- MATH 1401 - Calculus I Summer 2010 Registration: MATH 1401
- MATH 2411 - Calculus II Summer 2010 Registration: MATH 2411
- MATH 3511 - Mathematics of Chemistry Summer 2010 Registration: MATH 3511
- PHYS 2311 - General Physics I: Calculus-Based Summer 2010 Registration: PHYS 2311
- PHYS 2321 - General Physics Lab I Summer 2010 Registration: PHYS 2321
- PHYS 2331 - General Physics II: Calculus-Based Summer 2010 Registration: PHYS 2331
- PHYS 2341 - General Physics Lab II Summer 2010 Registration: PHYS 2341

Total Required Ancillary Courses : 22 Hours

Recommended Electives

- CHEM 3018 - Inorganic Chemistry Laboratory Summer 2010 Registration: CHEM 3018
- CHEM 3810 - Biochemistry Summer 2010 Registration: CHEM 3810
- OR-
- CHEM 4810 - General Biochemistry I Summer 2010 Registration: CHEM 4810
- CHEM 4700 - Environmental Chemistry Summer 2010 Registration: CHEM 4700
- CHEM 4820 - General Biochemistry II Summer 2010 Registration: CHEM 4820
- Any CHEM 5000-level lecture class (3-4 semester hours)

Total Electives: 14-16 Hours

Chemistry Major Total: 81-83 Hours

Students interested in the chemistry major should consult regularly with a chemistry advisor. A complete description of the chemistry major's program may be obtained in the Department of Chemistry office or department Web site.

Qualified majors are strongly urged to participate in independent study or departmental honors programs.
Students planning chemistry as a career should be familiar with the recommendations of the American Chemical Society for the professional training of chemists. For ACS certification, students are required to take inorganic laboratory and at least one semester of biochemistry. No course with a grade of less than C (2.0) can be applied toward ACS certification. Students should check with a chemistry advisor for details. The Downtown Campus maintains an ACS chapter of student affiliates.

**Bachelor of Science/Master of Science**

**Chemistry BS/MS**

While students are completing a BS degree in chemistry, they may also complete some of the requirements for an MS degree in chemistry under the following guidelines:

- The student must apply and be accepted for participation in the BS/MS program prior to completion of the BS degree and be advised by both the undergraduate and graduate advisors.
- Up to 9 semester hours of graduate-level course work may be taken as an undergraduate and applied toward the MS degree. This course work may not be applied toward the BS degree or ACS certification requirements for the BS degree.
- Up to 3 semester hours of independent study (research) may be applied toward the graduate degree if that research is expanded and continued for a portion of the master's thesis research. This requires approval of the student’s graduate research advisor in chemistry, the chemistry graduate program director and the CLAS associate dean for graduate studies.
- The chemistry department will waive the requirement for qualifying examinations in each area of chemistry for which the student has completed the undergraduate sequence of courses and laboratories at the Downtown Campus with grades of B or better for each course.
- The student must apply for and be admitted to the graduate program in chemistry beginning the semester immediately following completion of the BS degree in chemistry at the Downtown Campus.

This program allows undergraduate students who have begun their research as undergraduates to complete up to 12 semester hours (with approval of the graduate dean) toward the 30 semester hours required for a Plan I MS degree in chemistry while they are still completing their BS degree. This makes it possible for students to complete an MS degree in chemistry in only one year beyond the BS degree in chemistry. Students entering the program through the BS/MS program option must fulfill all of the requirements of the Plan I or Plan II graduate programs.

**Non Degree**
Chemistry Minor

The objective of the chemistry minor is to provide broad introductory course work and laboratory experience to science majors without the more technical mathematical and chemical prerequisites required of the chemistry major. The chemistry minor is open to all CLAS students and should prove beneficial for science majors, pre-professional health science majors and students seeking science education certification.

Course work and grade requirements that must be satisfied to obtain a chemistry minor include:

- a minimum of 20 semester hours of chemistry courses
- a minimum of 10 upper-division chemistry hours
- upper-division course work must include three of the six subdisciplines that comprise chemistry: analytical, biochemistry, inorganic, organic, physical and environmental chemistry
- a minimum 2.0 GPA for chemistry courses taken at UC Denver
- all chemistry minor courses must be taken for a letter grade rather than with the pass/fail grading option
- to satisfy the department residency requirement, a minimum of 7 upper-division hours of chemistry must be taken at the Downtown Campus

Course Requirements

All upper division chemistry courses at UC Denver will satisfy course work requirements for the minor. Furthermore, the Department of Chemistry offers courses that have minimum chemistry and mathematics prerequisites and should be considered for the chemistry minor degree.

Analytical

- CHEM 3111 - Analytical Chemistry Summer 2010 Registration: CHEM 3111
- CHEM 3118 - Analytical Chemistry Laboratory Summer 2010 Registration: CHEM 3118

Biochemistry

- CHEM 3810 - Biochemistry Summer 2010 Registration: CHEM 3810

Organic

- CHEM 3411 - Organic Chemistry I Summer 2010 Registration: CHEM 3411
Inorganic

- CHEM 3011 - Inorganic Chemistry Summer 2010 Registration: CHEM 3011

Physical

Course selections to be announced.

Environmental

- CHEM 4700 - Environmental Chemistry Summer 2010 Registration: CHEM 4700

To register your minor in chemistry, please visit the CLAS advising office in NC 4002. After establishing your minor status, you are encouraged to meet with the chemistry minor advisor, Professor Mark Anderson in NC 3002C.

Master of Science

Chemistry MS

- Graduate School Rules apply to this program

Requirements for Admission

Students must meet the Downtown Campus Graduate School admission requirements with specific chemistry requirements as follows:

- Undergraduate GPA of at least 3.0.
- Undergraduate major in chemistry essentially equivalent to the one offered at UC Denver (see the undergraduate requirements), including two semesters of organic, analytical and physical chemistry with laboratories and one semester of inorganic chemistry. No student will be admitted to the graduate program who is not within two classes of meeting the undergraduate requirements.
• GRE examination is recommended, as is the advanced chemistry GRE examination.
• International students have additional admission requirements concerning immigration status, proof of financial responsibility and acceptable TOEFL scores.
• Failure to meet the full admission standards may lead to provisional admission. Prospective students are encouraged to contact the graduate program director or visit the chemistry department Web site for additional details concerning the chemistry program, admission procedures, financial assistance and faculty research interests.

**General Program Requirements**

At the heart of the graduate program is a set of four core graduate courses in the fields of analytical, inorganic, organic and physical chemistry. A student must qualify in order to register for any core graduate class, either by passing a qualifying examination in that field or by passing the equivalent undergraduate class in that area at UC Denver with a grade of B (3.0) or better. All entering students are required to qualify in all four core fields. The qualifying requirements must be completed during the first year in the graduate program. Individual core classes may have additional prerequisites.

Depending on the program option that she/he selects, a student will be required to pass either three (Plan I) or all four (Plan II) of the graduate core courses with no grade in a core course below B- (2.7).

The remaining course work for the degree will consist of regular graduate offerings in chemistry, a limited number of which may be substituted by approved classes in related fields. In particular, students interested in interdisciplinary areas, such as biochemistry or environmental chemistry, are encouraged to take cognate courses outside the chemistry department. The chemistry graduate program director must approve in advance any graduate class taken outside the department that is to count toward the degree. All students are required to annually submit an updated program plan for approval and to have their progress evaluated by the graduate program director.

**Specific Degree Requirements**

There are two options for obtaining a master’s degree from the Downtown Campus Department of Chemistry: Plan I, the thesis option, and Plan II, the course work emphasis option. All students must complete at least 3 semester hours of master’s report (CHEM 6960). A student is allowed to participate in the thesis option only after the successful completion of the master’s report with the proposed advisor, and upon the mutual agreement of both the student and advisor that the student is prepared to work on a master’s thesis. Students who select the course work emphasis option may petition
to have up to 3 additional semester hours of master’s report research substitute for an equivalent number of course work hours.

**Plan I. Thesis Option**

Plan I is a research-oriented program involving a minimum of 30 semester hours with the following requirements:

- 21-23 semester hours of formal course work, including three of the four graduate core courses
- 4-6 semester hours of CHEM 6950, Master’s Thesis research; successful completion of the thesis research includes the presentation of the results at a departmental seminar
- 3 semester hours of CHEM 6960, Master’s Report research
- a grade of B- (2.7) or better in all courses completed: B- (2.7) or better in all core courses
- a cumulative GPA of 3.0 or better in all courses taken as a graduate student
- an acceptable formal thesis consistent with the guidelines of the Graduate School
- successful oral defense of the master’s thesis before a committee of at least three graduate faculty members, two of whom must be tenure track faculty members in the chemistry department
- compliance with all Graduate School Rules
- all work must be completed within five years of completion of the first graduate class in the department

Plan I thesis research must be conducted under the direct supervision of a tenure-track faculty member of the Downtown Campus Department of Chemistry. Plan I students must take a minimum of 15 semester hours of formal course work in chemistry at the 5000 level or above. Students may petition the graduate program director in advance for permission to take one or two courses at the graduate level outside of chemistry that would count toward the requirements for an MS in chemistry.

**Plan II. Course Work Emphasis Option**

Plan II is a course work-oriented program involving a minimum of 33 semester hours with the following requirements:

- 27-30 semester hours of formal course work, including all four graduate core courses
- at least 3 (but not more than 6) semester hours of CHEM 6960, Master’s Report, research
- a grade of B- (2.7) or better in all courses completed; B- (2.7) or better in all core courses
- a cumulative GPA of 3.0 or better in all courses taken as a graduate student
- a final research report
- presentation of the research project in a final seminar
• successful defense of the project before a committee of at least three graduate faculty members, one of whom must be a tenure-track faculty member in the chemistry department
• compliance with all Graduate School Rules
• all work must be completed within five years of completion of the first graduate class in the department

A Plan II student may petition the graduate program director to substitute up to 3 semester hours of master’s report (CHEM 6960) research, beyond the required minimum, for an equivalent number of semester hours of formal course work. Approval will be perfunctory for research performed with the support and under the direct supervision of a faculty member in the Department of Chemistry on the Downtown Campus. Plan II students must take a minimum of 24 semester hours of formal course work in chemistry at the 5000 level or above. Students may petition the graduate program director in advance for permission to take up to two courses at the graduate level outside of chemistry that would count toward the requirements for an MS in chemistry.

**Chinese Studies**

**Director:** Stephen C. Thomas  
**Faculty Advisors:**  
Ji Chen, Lawrence Street Center 390K, 303-556-6611  
Xiaojia Hou, King Center 560, 303-556-8315  
Stephen C. Thomas, King Center 520, 303-556-5259  
**Office:** Political Science, King Center 520  
**Telephone:** 303-556-5259  
**Web site:** [clas.ucdenver.edu/polisci/chineseStudies.html](http://clas.ucdenver.edu/polisci/chineseStudies.html)

This innovative program offers specialized study of China through course work in the related disciplines of language, anthropology, history, geography, literature and political science. China’s economic and political presence is increasingly prominent in the United States. According to a recent national survey, Chinese is the fastest-growing foreign language in American colleges and universities. UC Denver is uniquely positioned to make use of its location as the cultural, economic and political center of the Rocky Mountain region and of its diverse, well-trained and highly qualified faculty to offer a course of interdisciplinary studies related to China.

The increasing prominence of China in world affairs has made knowledge of Chinese language and cultures a valuable asset in numerous fields. Today, career opportunities abound for Chinese studies graduates in government, international business, banking and financial services, law, medicine, journalism and graduate study in sinology. The breadth of the program’s course offerings, coupled with the resources of the faculty, ensures that its graduates will be especially well prepared for any of these professional pursuits.
The program in Chinese studies offers a host of study abroad opportunities throughout the academic year and every summer. UC Denver has on-going programs at the China Agricultural University in Beijing. Study abroad programs of two weeks to one year in length may be arranged, and program faculty can help students enroll in intensive Chinese language programs. Students pursuing the minor in Chinese language and area studies are encouraged to complete the program with a period of residence and study in China.

**REQUIREMENTS FOR CHINESE STUDIES MINOR**

**Programs**

**Non Degree**

**Chinese Studies Minor**

The minor requires a total of 21 semester hours. A minimum of 15 semester hours must be taken from Downtown Campus faculty. All courses must be completed with a grade of C (2.0) or better.

**Requirements for the Minor**

**Required Courses**

- **CHIN 1010 - Beginning Chinese I Summer 2010 Registration:** CHIN 1010
- **CHIN 1020 - Beginning Chinese II Summer 2010 Registration:** CHIN 1020
- * **CNST 1000 - China and the Chinese Summer 2010 Registration:** CNST 1000

**Total: 13 Hours**

*Note: CNST 1000 should be taken toward the beginning of the minor.*

**Additional Courses**

An additional 8 hours of course work should be selected from the following list of courses:

- **ANTH 4000 - Special Topics in Anthropology Summer 2010 Registration:** ANTH 4000
- **ANTH 4995 - Travel Study Summer 2010 Registration:** ANTH 4995
- CHIN 2110 - Second Year Chinese I Summer 2010 Registration: CHIN 2110
- CHIN 2120 - Second Year Chinese II Summer 2010 Registration: CHIN 2120
- FINE 4750 - Arts of China Summer 2010 Registration: F A 4750
- GEOG 3160 - Geography of China Summer 2010 Registration: GEOG 3160
- HIST 4420 - Traditional China: China to 1600 Summer 2010 Registration: HIST 4420
- HIST 4421 - Modern China Summer 2010 Registration: HIST 4421
- PSCI 4186 - East Asia in World Affairs Summer 2010 Registration: P SC 4186
- PSCI 4615 - Politics and Government of China Summer 2010 Registration: P SC 4615
- PSCI 4726 - Russian and Chinese Foreign Policy Summer 2010 Registration: P SC 4726
- PSCI 4995 - Travel Study Topics Summer 2010 Registration: P SC 4995  
  Take under the topic title, "Window on China," for 3 semester hours.
- PHIL 3666 - Asian Philosophies and Religions Summer 2010 Registration: PHIL 3666
- PHIL 3981 - Chinese Philosophy and Culture Summer 2010 Registration: PHIL 3981

Total: 8 Hours

Minor Total: 21 Hours

* New courses may not appear in the course description section of this catalog. Contact the department for further information.

Communication

Chair: Stephen J. Hartnett
Associate Chair: Barbara Walkosz
Graduate Advisor: Lisa Keränen
Program Assistant: Sally Thee
Undergraduate Advisor: Wanda Lakota
Internship Coordinator: Suzanne Stromberg
Office: Plaza Building, 102
Telephone: 303-556-2591
Fax: 303-556-6018
Web site: clas.ucdenver.edu/communication/

Faculty
The Department of Communication seeks to enrich understanding of the roles of communication in everyday life, organizational settings and public affairs. While the roots of the discipline trace back to the ancient arts of philosophy, rhetoric and aesthetics, its contemporary practices speak to the opportunities and dilemmas of participating in a globalized, mediated and multicultural society.

The department’s classes are organized in nine pathways, including community service and public affairs, legal communication, health communication, mass media, human resources and organizational communication, mediation and conflict resolution, political communication and government, technical communication and public relations and advertising.

Across these pathways, students are encouraged to merge theoretical studies with practical applications, including in-service learning courses, travel study, internships,
social justice projects and other experiential modes of learning. The Department of Communication therefore provides students the skills, knowledge and opportunities to use communication to help create a more humane and civil world.

Undergraduate

REQUIREMENTS FOR MAJOR

Academic Honors

Academic honors are conferred at graduation on students whose achievements are above those required for the bachelor’s degree. Three levels of honors are available to students. *Cum laude* honors may be earned by communication majors with a cumulative GPA of 3.0 and a GPA of 3.5 in 30 hours of communication courses. *Magna cum laude* and *summa cum laude* honors require the completion of a semester-long project during the senior year. Additional information about academic honors may be obtained from the undergraduate advisor in communication.

Undergraduate Internships

Internships are opportunities for students to work in communication-related positions in the community and to receive academic credit for that work. They provide a way for students to maximize their communication background and their understanding of concepts, theories, models and frameworks within the communication discipline.

To qualify to register for internships in communication, undergraduate students must be communication majors and have a cumulative GPA of 2.75.

Students typically receive 3 hours of academic credit for a one-semester internship in which they work between 15 and 30 hours a week. Communication majors may complete up to 6 hours of internship credit (CMMU 3939).

For further information about internships, contact the Experiential Learning Center in Tivoli Student Union, Suite 260, 303-556-6656.

Undergraduate Certificates

UNDERGRADUATE CERTIFICATE IN MEDIATION

UNDERGRADUATE CERTIFICATE IN PUBLIC RELATIONS
UNDERGRADUATE CERTIFICATE IN TECHNICAL AND PROFESSIONAL
COMMUNICATION

Grade and Residency Requirements for Certificates

A grade of B or better must be earned in each course completed as part of the certificate (B- is not acceptable). All semester hours for a certificate must be earned at the Downtown Campus.

Graduate

Grade Requirements

Students must maintain a GPA of 3.0 or higher across all courses applied to a graduate degree or to a graduate certificate.

Course Transfer Policy

A maximum of 6 semester hours of relevant graduate course work may be transferred from another university. Students cannot receive credit for transferred courses in which less than a B grade was earned. Course work transferred from another university must be approved by the director of the MA program.

Time Limits for Completion of Degree

Students have seven years from the date of the beginning of their course work to complete all requirements for a master’s degree in communication.

MASTER OF ARTS IN COMMUNICATION

Application Procedures for U.S. Citizens

Students must submit the following materials to apply for admission to the MA program:

- letter of application explaining career plans and reasons for interest in the degree
- graduate admission application
- application for graduate admission—part II
- three letters of recommendation, preferably from university faculty (those writing the recommendations must use the request for recommendation form and their own letterhead stationery)
- two official transcripts from every college or university attended
- resume or vita
- writing sample
- GRE scores
$50 application fee (nonrefundable)
Application forms are available from the communication department program assistant or the department’s Web site.

The deadline for application for the fall semester is April 1, for spring semester October 1. All application materials should be sent to:

Program Assistant
University of Colorado Denver
Department of Communication
Campus Box 176; P. O. Box 173364
Denver, CO 80217-3364

**Application Procedures for International Students**

Students who are not U.S. citizens should begin the process of application to the MA program in communication by contacting the Office of International Affairs at UC Denver. This office will assist students in compiling their application materials, which then are submitted to the communication department. International students should not apply to the communication department directly. See the Information for International Students chapter for further information.

**Graduate Certificates**

**GRADUATE CERTIFICATE IN PUBLIC RELATIONS**

**Grade and Residency Requirements for Certificates**

A grade of B or better must be earned in each course completed as part of the certificate (B- is not acceptable). All semester hours for a certificate must be earned at the Downtown Campus.

**Programs**

**Bachelor of Arts**

**Communication BA**

**Requirements for Admission**
Undergraduates must declare their intention to major in communication by the time they have completed 60 semester hours; they must apply to the communication department to be accepted as majors.

**Program Requirements**

The communication major requires that students take a total of 39 hours of course work in communication, 18 of which must be taken in residence at the Downtown Campus. At least 21 of the 39 hours must be upper division. Students must achieve a grade of C (2.0) or higher to receive credit for a course in the major and must maintain a minimum GPA of C+ (2.75) in their communication courses.

Students must complete 12 credits (4 courses) from the menu of core classes; they must complete at least 24 credits (8 classes) from the menu of electives; they must also complete at least 3 credits (1 class) from the menu of “exit” classes.

**Core Courses**

- **COMM 1011 - Fundamentals of Communication** *Summer 2010 Registration: CMMU 1011*
- **COMM 1021 - Fundamentals of Mass Communication** *Summer 2010 Registration: CMMU 1021*
- **COMM 2020 - Communication and Citizenship** *Summer 2010 Registration: CMMU 2020*
- **COMM 2050 - Business and Professional Speaking** *Summer 2010 Registration: CMMU 2050*
  - OR -
- **COMM 2101 - Presentational Speaking** *Summer 2010 Registration: CMMU 2101*

**Total: 12 Hours**

**Electives**

**Skill Area Electives**

In addition to the four communication core courses, students are required to complete at least 24 credits (8 classes) from among the department’s nine pathways, which include community service and public affairs, legal communication, health communication, mass media, human resources and organizational communication, mediation and conflict resolution, political communication and government, technical communication and public relations and advertising. Students may use the pathways to help craft a program of study, but they are not required to do so; the pathways are simply suggestions for ways to organize courses that will prepare students for careers.
Total: 24 Hours

Upper Division Elective

“Exit” Course—majors are required to complete at least one “exit” class that concludes their course of study with a special experience focused on high-level research, community engagement, international travel or workplace experience. Students may choose from the following courses:

- COMM 3939 - Internship/Cooperative Education  Summer 2010 Registration: CMMU 3939
- COMM 4282 - Environmental Communication  Summer 2010 Registration: CMMU 4282
- COMM 4500 - Health Communication  Summer 2010 Registration: CMMU 4500
- COMM 4510 - Usability Testing  Summer 2010 Registration: CMMU 4510
- COMM 4620 - Health Risk Communication  Summer 2010 Registration: CMMU 4620
- COMM 4688 - Senior Seminar: Transitioning from College to Career  Summer 2010 Registration: CMMU 4688
- COMM 4710 - Topics in Communication  Summer 2010 Registration: CMMU 4710
  Take under topic "Communication, Social Justice, and Prisons"
- COMM 4995 - Travel Study Topics  Summer 2010 Registration: CMMU 4995

Total: 3 Hours

Major Total: 39 Hours

For more information, see the faculty advisor and the department’s Web site.

Certificate

Mediation Undergraduate Certificate

Mediation entails a third-party intervention designed to assist parties in managing conflict. Trained mediators are impartial process experts who learn to utilize communication and conflict philosophy and theories to increase the probability of more favorable outcomes between parties in conflict. The undergraduate certificate is designed for communication majors or any student interested in developing practical skills in alternative dispute resolution. The courses in this certificate focus on alternative dispute processes that include strategies for managing conflict in personal, public, legal, political, governmental and corporate contexts.
Certificate Requirements

The undergraduate certificate in mediation requires 12 semester hours (four courses).

Core Courses

- COMM 4262 - Mediation Summer 2010 Registration: CMMU 4262

Students must complete at least one of the following two courses (those who take both classes take one elective rather than two; those who take only one class must select two electives):

- COMM 4255 - Negotiations and Bargaining Summer 2010 Registration: CMMU 4255
- COMM 4260 - Communication and Conflict Summer 2010 Registration: CMMU 4260

Electives

- COMM 3271 - Communication and Diversity Summer 2010 Registration: CMMU 3271
- COMM 4015 - Communication and Civility Summer 2010 Registration: CMMU 4015
- COMM 4140 - Argumentation Summer 2010 Registration: CMMU 4140
- COMM 4681 - Communication Issues in Trial Court Practices and Processes Summer 2010 Registration: CMMU 4681

Total: 12 Hours

Students may be allowed to take courses other than those on this list to fulfill the requirements for the certificate, if those courses better fit their professional goals.

Public Relations Graduate Certificate

Public Relations has been defined as the management function that entails planning, research, publicity, promotion and collaborative decision-making to help any organization's ability to listen to, appreciate and respond appropriately to those persons and groups whose mutually beneficial relationships the organization needs to foster as it strives to achieve its mission and vision. The graduate certificate in public relations is
designed to provide students with the principles and theories that guide the work of public relations practitioners in commercial, public and non-profit contexts.

The graduate certificate in public relations is designed for working professionals who already have earned bachelor's degrees but who would like to enhance or upgrade their skills in the area of public relations. Non-degree students who enroll in the MA program following completion of the certificate may transfer up to 12 hours of credits earned for the certificate into credits for the MA degree. The certificate also is designed for students enrolled in a UCD master’s program, including the Department of Communication’s MA program. For such students, the certificate can be completed as part of or in addition to the course work required for the master’s degree (recipients of the undergraduate certificate in public relations are ineligible to complete this certificate).

Certificate Requirements

The graduate certificate in public relations requires four courses (12 semester hours):

- COMM 5240 - Organizational Communication Summer 2010 Registration: CMMU 5240
- COMM 5635 - Principles of Public Relations Summer 2010 Registration: CMMU 5635
- COMM 5640 - Advanced Public Relations Summer 2010 Registration: CMMU 5640
- COMM 5665 - Principles of Advertising Summer 2010 Registration: CMMU 5665

Total: 12 Hours

Students may be permitted to take courses other than those listed above to fulfill the requirements for the certificate if those courses fit their professional goals better (CMMU 5635, Principles of Public Relations may not be substituted, however). Requests for approval of substitute courses, including an explanation for the substitution, must be made in writing to Hamilton Bean.

Grade and Residency Requirements

A grade of B must be earned in each course completed as part of the certificate. All of the credit hours for the certificate must be earned at the University of Colorado Denver.

Application Procedures and Additional Information

Students should apply for the graduate certificate in public relations after the completion of the required courses. To apply, students must complete the certificate application and return it to Hamilton Bean in his mailbox in room 102-A of the Plaza Building or mail to
Students who are not already enrolled at UCD must also complete an Application for Non-Degree Admission prior to registering for courses. The form should be returned to the Office of Admissions in the annex of the CU Building.

Additional information about the graduate certificate in public relations may be obtained from Hamilton Bean, Department of Communication, Plaza 102-V, 303-352-3876, Hamilton.Bean@ucdenver.edu.

Public Relations Undergraduate Certificate

Public relations has been defined as the management function that entails planning, research, publicity, promotion and collaborative decision-making to help any organization’s ability to listen to, appreciate and respond appropriately to those persons and groups whose mutually beneficial relationships the organization needs to foster as it strives to achieve its mission and vision. The undergraduate certificate in public relations is designed for undergraduate communication majors who wish to demonstrate to potential employers that they possess skills and knowledge in the area of public relations. It also is useful for non-degree-seeking working professionals without bachelor’s degrees who plan to enter or re-enter the workplace and who seek to acquire the skills and knowledge necessary to perform public relations in their professional environments.

Certificate Requirements

The undergraduate certificate in public relations requires 12 semester hours (four courses). Students must complete the following three courses:

- COMM 4635 - Principles of Public Relations  
  *Summer 2010 Registration: [CMMU 4635]*

- COMM 4640 - Advanced Public Relations  
  *Summer 2010 Registration: [CMMU 4640]*

- COMM 4665 - Principles of Advertising  
  *Summer 2010 Registration: [CMMU 4665]*

Additionally, students choose one course from the following:

- COMM 3680 - Mass Communication Skills  
  *Summer 2010 Registration: [CMMU 3680]*
Total: 12 Hours

Students may be permitted to take courses other than those listed above to fulfill the requirements for the certificate if those courses fit their professional goals better (CMMU 4635, Principles of Public Relations may not be substituted, however). Requests for approval of substitute courses, including an explanation for the substitution, must be made in writing to Hamilton Bean.

Grade and Residency Requirements

A grade of B must be earned in each course completed as part of the certificate. All of the credit hours for the certificate must be earned at the University of Colorado Denver.

Application Procedures and Additional Information

Students should apply for the undergraduate certificate in public relations after the completion of the required courses. To apply, students must complete the certificate application and return it to Hamilton Bean in his mailbox in room 102-A of the Plaza Building or mail to Department of Communication; P. O. Box 173364, Campus Box 176; University of Colorado Denver; Denver, CO 80217-3364. The approved certificate is mailed to the student.

Students who are not already enrolled at UCD must also complete an Application for Non-Degree Admission prior to registering for courses. The form should be returned to the Office of Admissions in the annex of the CU Building.

Additional information about the undergraduate certificate in public relations may be obtained from Hamilton Bean, Department of Communication, Plaza 102-V, 303-352-3876, Hamilton.Bean@ucdenver.edu.

Technical and Professional Communication Undergraduate Certificate
The undergraduate certificate in technical and professional communication is designed for several types of students:

- working adults who are employed or who are seeking employment in the field of technical communication but who are not seeking an undergraduate degree
- students who are majoring in communication and want to enhance their technical communication abilities
- students pursuing a major other than communication who want to enhance their technical communication abilities

Students enrolled in this certificate receive state-of-the-art training in core professional skills, including technical writing, technical editing and web design. The certificate is especially helpful for those who plan to enter (or re-enter) the workplace and who want to acquire the knowledge and skills necessary to contribute to technical documentation projects.

Certificate Requirements

The undergraduate certificate in technical and professional communication requires 12 semester hours (four courses), as follows:

Required Core

- COMM 3120 - Technical Communication Summer 2010 Registration: CMMU 3120

Electives

Students must complete any three of the following courses:

- COMM 4120 - Writing Technical Reports Summer 2010 Registration: CMMU 4120
- COMM 4290 - Web Design Summer 2010 Registration: CMMU 4290
- COMM 4300 - Multimedia Authoring Summer 2010 Registration: CMMU 4300
- COMM 4410 - Science Writing Summer 2010 Registration: CMMU 4410
- COMM 4805 - Graphics Summer 2010 Registration: CMMU 4805

Total: 12 Hours

Grade and Residency Requirements
A grade of B or higher must be earned in each course completed as part of the Certificate (a grade of B is not acceptable). All of the credit hours for the certificate must be earned at the University of Colorado Denver.

**Application Procedures**

Students should apply for the undergraduate certificate in technical and professional communication after the completion of the required courses. To apply, students must complete the certificate application.

The form should be returned to Jim Stratman, located in the Plaza Building, room 102-F, or put in his mailbox in room PL 102-A, or mailed to him at the Communication Department; Campus Box 176, P. O. Box 173364; Denver, CO 80217-3364. Once the certificate is processed, it will be mailed to the student unless other arrangements have been made by the student to pick up the certificate from the program assistant in PL 102C.

Students need to be registered at the University of Colorado Denver as full-time students, part-time students or as non-degreed students in order to register for these classes. To apply as a non-degreed student, fill out the Application for Non-Degree Admission. Return the form, along with your fee, to the Office of Admissions in the Annex of the CU Building, located at the corner of 14th and Larimer.

**Additional Information**

Additional information about the undergraduate certificate in technical and professional communication may be obtained from the director of the technical communication program, Jim Stratman, Department of Communication, Plaza Building, room 102-F, 303-556-2884, James.Stratman@ucdenver.edu

**Non Degree**

**Communication Minor**

Knowledge in an area of study, such as business, politics, biology or sociology, means little unless it can be communicated effectively. The minor in communication is designed to provide students who are not communication majors with knowledge and skills in communication that are useful in any discipline or profession.

The minor in communication requires 18 semester hours, with 12 hours of required courses and 6 hours of electives.
Requirements

Core Courses

- COMM 1011 - Fundamentals of Communication Summer 2010 Registration: CMMU 1011
- COMM 2020 - Communication and Citizenship Summer 2010 Registration: CMMU 2020
- COMM 2101 - Presentational Speaking Summer 2010 Registration: CMMU 2101
- COMM 4200 - Persuasion Summer 2010 Registration: CMMU 4200

Total: 12 Hours

Elective Courses

In addition to the four courses specified above, students must take two upper-division courses (3000 level or above) to be selected with the aid of the undergraduate advisor in communication.

Total: 6 Hours

Minor Total: 18 Hours

Grade and Residency Requirements for Minors

A grade of C (2.0) or better must be earned in each course completed as part of the minor. No more than 6 of the semester hours for the minor may be transferred from another university.

Master of Arts

Communication MA

- Graduate School rules apply to this program

The master of arts in communication is a generalist degree designed to enhance students’ intellectual and professional growth through the understanding and practice of effective communication.
Degree Requirements

Students have two options for completing the MA degree in communication: the professional track and the academic track.

Professional Track

The professional track requires the completion of 36 hours of graduate course work (5000 level or above). As explained below, students have the option of taking 6 hours of 4000-level courses. In this situation, a student will take 30 hours of graduate credit and 6 hours of 4000-level (undergraduate) course work. The requirements for course work are as follows:

Required Course

- **COMM 6013 - Introduction to Graduate Work in Communication** (Summer 2010 Registration: CMMU 6013) (recommended to be taken the first semester of graduate course work; offered only in the fall semester)

Methods Courses

Most methods courses are offered every other year. The second methods course may be taken outside of the communication department with the approval of the student’s advisor.

Choose two:

- **COMM 5011 - Research Methods: Quantitative** (Summer 2010 Registration: CMMU 5011)
- **COMM 5022 - Critical Analysis of Communication** (Summer 2010 Registration: CMMU 5022)
- **COMM 5221 - Research Methods: Qualitative** (Summer 2010 Registration: CMMU 5221)
- **COMM 6205 - Empirical Research Methods for Communication and Technical Communication** (Summer 2010 Registration: CMMU 6205)

Total: 9 Hours

Graduate Seminars
In addition to the above core requirements, students must take four graduate seminars from the Department of Communication. Graduate seminars are 5000- or 6000-level courses.

**Total: 12 Hours**

**Electives**

Students must complete five electives. A minimum of three of these electives must be at the 5000 or 6000 level; the remaining two may be at the 4000 level. At least three of the five electives must be communication courses; the remaining two electives may be taken from outside of the Department of Communication.

[Students whose bachelor’s degrees are not in communication are required to take one additional course (CMMU 4031). This course does not count toward the semester hours required for the degree; it is taken in addition to those 36 hours.]

- COMM 4031 - Perspectives on Communication  *Summer 2010 Registration: CMMU 4031*

**Total: 15 Hours**

Students must receive a grade of *B* or higher in all courses that are applied to the MA degree.

**Track Total: 36 Hours**

**Academic Track**

The academic track is distinguished from the professional track in that it requires the completion of a substantial academic writing project or projects. The academic track requires the completion of 36-37 hours of graduate course work. At least 30 of these hours must be at the 5000 or 6000 level; 6 hours (two courses) may be at the 4000 level. The requirements for course work are as follows:

- COMM 6013 - Introduction to Graduate Work in Communication  *Summer 2010 Registration: CMMU 6013*  
  (recommended to be taken the first semester of graduate course work; offered only in the fall semester)

**Methods Courses**

Most methods courses are offered every other year.
Choose two:

- **COMM 5011 - Research Methods: Quantitative** Summer 2010 Registration: CMMU 5011
- **COMM 5022 - Critical Analysis of Communication** Summer 2010 Registration: CMMU 5022
- **COMM 5221 - Research Methods: Qualitative** Summer 2010 Registration: CMMU 5221
- **COMM 6205 - Empirical Research Methods for Communication and Technical Communication** Summer 2010 Registration: CMMU 6205

**Total: 9 Hours**

**Graduate Seminars**

In addition to the above core requirements, students must take four graduate seminars from the communication department. Graduate seminars are 5000- or 6000-level courses. The four courses must be approved by the student’s advisor.

**Total: 12 Hours**

**Electives**

Students must complete five electives. A minimum of two of these electives must be at the 5000 or 6000 level; the remaining two may be at the 4000 level. At least two of the electives must be communication courses; the remaining two may be taken from outside of the communication department. If a thesis is presented, the thesis credits will substitute for one elective course requirement.

[Students whose bachelor's degrees are not in communication are required to take one additional course (CMMU 4031). This course does not count toward the semester hours required for the degree; it is taken in addition to those 36-37 hours.]

- **COMM 4031 - Perspectives on Communication** Summer 2010 Registration: CMMU 4031

**Total: 12-15 Hours**

(12 hours for thesis students; 15 for non-thesis)
Thesis

Students either must present a major paper for publication (no additional course credit) or complete a thesis for 4 semester hours. Credit for a thesis may substitute for one elective course requirement.

Total: 4 Hours

Students must receive a grade of B or higher in all courses that are applied to the MA degree.

Track Total: 36-37 Hours

Options for Specialization

The communication department has developed two options for students who wish to create an area of focus or specialization within the MA degree—communication management and doctoral preparation. Students may choose to develop one of these options as they select their electives, or they may earn a general degree by selecting electives across the two areas of specialization. Either option may be pursued by students in the professional track; the doctoral preparation specialization is recommended for students in the academic track.

Communication Management

Communication management is an area of knowledge and skills concerned with the processes involved in managing communication—creating, accessing and delivering communication services within organizational contexts. The area of communication management provides opportunities for the development of communication skills and knowledge by professionals in public, corporate and not-for-profit organizations. Anyone who must manage communication resources for an organization—including account executives, multimedia professionals, human resource specialists and trainers—can advance their career through a specialty in communication management.

Doctoral Preparation

The specialty in doctoral preparation is for students who plan to pursue a PhD after completion of their MA degree. Individuals who earn a PhD typically engage in teaching
and research as university professors, but the degree also may be pursued to increase marketability in the corporate world in areas such as consulting and training.

Haichun Ye, PhD, University of Oklahoma

Economics is the science of decision making. The rigorous and general approach that characterizes economics lends itself to a remarkably wide field of practical application. Economists are noted for major contributions in a number of fields including government policy, taxation, law, regulation, political economy, international trade and finance, international and U.S. development, marketing, environmental studies, medical policy, portfolio management and banking. The broad and rigorous training of economics majors accounts for their significant demand in virtually every industry and government agency. Economics provides excellent preparation for advanced graduate study as well.
Recent studies indicate that economics is a preferred degree for prestigious MBA programs and law schools.

**Undergraduate**

**REQUIREMENTS FOR MAJOR**

**REQUIREMENTS FOR MINOR**

**Honors in Economics**

Students wishing to earn departmental honors in economics should consult with their advisor no later than the beginning of their senior year.

*Cum laude* will be awarded to students who complete an economics major with a 3.5 GPA in all upper-division (3000+) courses in economics taken at UC Denver, with a minimum of eight such courses, and either two additional electives in economics beyond those required for the major, taken at the 4000 or higher level, or an acceptable honors thesis. The thesis must be approved by a three-member committee of department faculty and will include a presentation of the results to that committee. Students should register for the thesis, using ECON 4850 as the course number, as a 3-semester hour independent study, in addition to the regular requirements for the major.

*Magna cum laude* will be awarded to students who complete an economics major with a 3.7 GPA in all upper-division (3000+) courses in economics taken at UC Denver, with a minimum of eight courses, and who complete an acceptable honors thesis.

*Summa cum laude* will be awarded to students who complete an economics major with a 3.88 GPA in all upper-division (3000+) courses in economics taken at UC Denver, with a minimum of eight courses, and who complete an outstanding honors thesis.

In order to be recognized in the graduation program as “Honors Pending,” a draft of the thesis must be submitted to the chair of the committee four weeks prior to the end of the semester. The oral presentation and other requirements must be completed one week before graduation.

In order to be recognized in the graduation program with the specific honors degree being conferred, e.g., *summa, magna*, etc., students must turn in the completed final copy of the honors thesis four weeks prior to the end of the semester, along with meeting other requirements by the week before graduation. Otherwise, recognition will come with the diploma after graduation.

Students who do not have an advisor should contact the department for assignment to an advisor. Students should meet with their advisor at least twice a year.
Graduate

The MA program in economics at UC Denver is directed toward two groups: (1) those who look on the MA as a key to career development in business or government service, and (2) those who desire to go on to pursue the PhD in economics or related fields.

The strong quantitative emphasis of the department’s MA program is ideally suited for the pursuit of both these goals. Students are steeped in econometric theory and its applications from the beginning of the program, receiving broad exposure both to the tools of econometric analysis and the application of these tools to a wide range of economic phenomena. The applications involve extensive exposure to the professional literature in various applied fields and a research seminar in which each student will undertake a sophisticated applied research project under faculty supervision.

Students are allowed a great deal of flexibility in choosing their elective courses. Possibilities include advanced quantitative courses in economics, advanced field courses in economics (e.g., money and banking, international economics) business courses and advanced mathematics courses (which are particularly useful for those who wish to pursue the PhD in economics). All of this is intended to give students the opportunity to complement their extensive quantitative training with additional knowledge and skills that will best enhance their prospects upon graduation.

MASTER OF ARTS IN ECONOMICS

MA ECONOMICS/MS FINANCE DUAL DEGREE

MA ECONOMICS/MPA PUBLIC ADMINISTRATION

Programs

Bachelor of Arts

Economics BA

Requirements for Major

Students majoring in economics for the BA degree must declare such by the time they have completed 60 semester hours and complete a minimum of 40 semester hours in
economics. The minimum grade in each UC Denver economics course is a C- (1.7), except that one D- in one economics elective is allowed. A GPA of 2.5 in economics courses taken at UC Denver is required to graduate. No pass/fail grades may count toward the major.

**Program Requirements**

**Required Economics Courses**

- **ECON 2012 - Principles of Economics: Macroeconomics**  
  *Summer 2010 Registration: ECON 2012*

- **ECON 2022 - Principles of Economics: Microeconomics**  
  *Summer 2010 Registration: ECON 2022*

- **ECON 3801 - Introduction to Mathematical Economics**  
  *Summer 2010 Registration: ECON 3801*

- **ECON 3811 - Statistics with Computer Applications**  
  *Summer 2010 Registration: ECON 3811*

- **ECON 4071 - Intermediate Microeconomic Theory**  
  *Summer 2010 Registration: ECON 4071*

- **ECON 4081 - Intermediate Macroeconomic Theory**  
  *Summer 2010 Registration: ECON 4081*

- **ECON 4091 - History of Economic Thought**  
  *Summer 2010 Registration: ECON 4091*

- **ECON 4811 - Introduction to Econometrics**  
  *Summer 2010 Registration: ECON 4811*

**Total: 25 Hours**

**Electives**

**Economics Courses**

Any five 3-semester-hour courses taken in economics may satisfy this requirement, other than internships and independent studies which require the approval of the department chair.

**Political Science Course**

One political science course. Suggested courses include but are not limited to PSC 1101, American Political System, and PSC 3022, Introduction to Comparative Politics.
Electives Total: 18 Hours

Major Total: 43 Hours

Graduating seniors must submit the three best papers that the student wrote in any three separate courses taken in the Department of Economics at UC Denver for the outcomes assessment of the economics program. The three papers should be handed in at one time in a folder to the economics office, before the first day of the month in which the student plans to graduate.

At least six of the major courses (18 semester hours), including at least three courses out of ECON 3801, 4071, 4081, 4091 and 4811, must be taken from economics faculty on the Downtown Campus.

Once a student has enrolled at UC Denver, no courses in the major may be taken outside the Downtown Campus economics department without permission from the undergraduate advisor. No math is formally required, except for the college algebra prerequisite for ECON 3801. Students desiring a recommendation to a graduate school in economics, however, should consult with economics faculty regarding additional mathematics courses.

Non Degree

Economics Minor

Students minoring in economics must complete a minimum of 15 semester hours in economics. All course work must be completed at the Downtown Campus, or the Department of Economics reserves the right to test the student’s competence in the material covered. No grade below C- will be counted toward the minor requirements.

Courses

- **ECON 2012 - Principles of Economics: Macroeconomics** Summer 2010
  *Registration: ECON 2012*
- **ECON 2022 - Principles of Economics: Microeconomics** Summer 2010
  *Registration: ECON 2022*
  —plus—
  Three upper-division electives in economics: 9 semester hours
  (ECON 3100 - Economics of Race and Gender is acceptable)
Total: 15 Hours

At least two upper-division courses must not overlap with courses required in the student’s major program.

► Graduate School Rules apply to this program

Requirements for Admission

- general requirements of the Graduate School (including a 3.0 undergraduate cumulative GPA)
- three letters of recommendation
- 15 semester hours of undergraduate economics (including theory and quantitative methods); variations to be discussed with graduate advisor
- acceptable GRE scores
- two official transcripts from all colleges attended
- international students must submit TOEFL scores

Degree Requirements

The MA degree requires the completion of 30 semester hours of course work, of which 21 hours are core requirements. Each student’s plan will be worked out in conjunction with the graduate advisor.

Core Courses

All courses must be completed with a grade of B- or better.

- ECON 5073 - Microeconomic Theory Summer 2010 Registration: ECON 5073
- ECON 5083 - Macroeconomic Theory Summer 2010 Registration: ECON 5083
- ECON 5803 - Mathematical Economics Summer 2010 Registration: ECON 5803
- ECON 5813 - Econometrics I Summer 2010 Registration: ECON 5813
- ECON 5823 - Econometrics II Summer 2010 Registration: ECON 5823
- ECON 6053 - Seminar In Applied Economics Summer 2010 Registration: ECON 6053
Total: 21 Hours

Degree Total: 30 Hours

Economics/Public Administration MA/MPA Dual Degree

► Graduate School Rules apply to this program

Admissions Advisor: Brian Duncan (brian.duncan@ucdenver.edu)

Schedule Advisor: Dan Rees (daniel.rees@ucdenver.edu)

The fields of public administration and economics are inextricably linked. Economists provide much of the theory and analytic foundation that administrators use to evaluate and implement policy. Given that the capital of the state of Colorado is in Denver, there is great need for administrators that fully understand methods of program evaluation and have the theoretical background needed to forecast how individuals and institutions will respond to new proposals. Similarly, good theory and practice must take into account how the proposals will be implemented and results interpreted. Both administrators and economists need to be engaged in constructive dialogue for either to be fully effective.

Students interested in completing the dual degree in economics and public administration must apply separately to each program, meet the admission requirements of each program, and be accepted by each program. If one program accepts a student for the dual degree but the other program does not, then the student may not graduate under the dual degree program. It is possible for students currently admitted to one program to learn about the dual degree and choose to apply after admission to either economics or the School of Public Affairs (SPA).
Admission Requirements

Deadlines for Application:
- Fall: June 1
- Spring: December

Applicants must:

- Meet all general requirements of the Graduate School (including a 2.50 undergraduate grade-point average).
- Submit three letters of recommendation (at least two of your letters of recommendation should come from individuals who are familiar with your scholarly record).
- Submit two copies of official transcripts from all colleges attended.
- Have completed 15 credit hours of undergraduate economics (including intermediate microeconomic theory and intermediate macroeconomic theory).
- Have completed courses in calculus and statistics.
- All applicants, international and domestic, must submit GRE scores regardless of prior degrees, course work, or work experience. The institution code for UCD is 4875. Most students admitted to the MA program score 690 or above on the quantitative section of the GRE, but there is not a minimum GRE cutoff score.
- International students must submit TOEFL scores. The required minimum score is 197 (computer-based TOEFL), 71 (IBT-based TOEFL), 525 (paper-based TOEFL), or 6.0 (IELTS). The institution code for UCD is 4875.

The Department of Economics accepts late applications after these official deadlines. However, there is no guarantee that a late application will be processed in time for the start of the semester. Students are encouraged to apply well before the application deadline.

International students who apply after the June 1 or November 1 deadline may not have time to obtain a student visa. Being admitted to the MA program in economics does not guarantee that a student will receive a student visa in time for the start of the semester. International students who are admitted to the MA program, but fail to obtain a visa in time, may defer admission for up to one year. All questions about student visas should be directed to the Office of International Education.

Course Requirements
The requirements for the dual degree in economics and public administration include completing 21 credit hours in ECON and 27 credit hours in SPA (48 total credit hours).

Core Courses

- **ECON 5073 - Microeconomic Theory** Summer 2010 Registration: ECON 5073
- **ECON 5083 - Macroeconomic Theory** Summer 2010 Registration: ECON 5083
- **ECON 5803 - Mathematical Economics** Summer 2010 Registration: ECON 5803
- **ECON 5813 - Econometrics I** Summer 2010 Registration: ECON 5813
- **ECON 5823 - Econometrics II** Summer 2010 Registration: ECON 5823
- **PUAD 5001 - Introduction to Public Administration and Public Service** Summer 2010 Registration: PA 5001
- **PUAD 5002 - Organizational Management and Change** Summer 2010 Registration: PA 5002
- **PUAD 5003 - Research and Analytic Methods** Summer 2010 Registration: PA 5003
- **PUAD 5004 - Economics and Public Finance** Summer 2010 Registration: PA 5004
- **PUAD 5005 - The Policy Process and Democracy** Summer 2010 Registration: PA 5005
- **PUAD 5006 - Leadership and Professional Ethics** Summer 2010 Registration: PA 5006
- **ECON 6073 - Research Seminar** Summer 2010 Registration: ECON 6073
- **PUAD 5361 - Advanced Seminar in Public Policy and Management** Summer 2010 Registration: PA 5006

Core Total: 33 Hours

Electives

If the student takes ECON 6073, then 3 hours of elective credits must come from economics and 12 hours from public administration.

If the student takes PUAD 5361, then 6 hours of elective credits must come from economics and 9 hours from public administration.

All elective courses must be at the 5000 level and above.

Electives Total: 15 Hours
Dual Degree Total: 48 Hours

Master of Science in Finance/Master of Arts in Economics

Economics/Finance MA/MS Dual Degree

► Graduate School Rules apply to this program

For students interested in combining the quantitative skills of an economics degree with the specific applications of a business degree, we offer an MA economics/MS finance dual degree. This 42-semester-hour program is offered jointly with the Business School. It is a "dual" degree, meaning that students who complete the program earn two master's degrees: MA in economics and MS in finance. Students must be admitted separately to both the MA program in economics and MS program in finance; they may apply to both programs at the same time or apply to the economics program first, and then to the finance program at the end of their first semester, or vice versa. Both programs must be completed in the same semester to take advantage of the dual degree program. Further information about this program can be obtained from either the Department of Economics or the Business School. Click here for admissions information for economics.

The dual degree program is intended to create highly-skilled research professionals with considerable econometric skill as well as familiarity with their chosen financial institutions. Given the similarity in course work within the two programs, there can be considerable time savings for the student. Essentially, the program allows students to complete the two programs that separately would require 60 hours of course work with 42 hours of combined course work.

Degree Requirements

Core Courses

- ECON 5073 - Microeconomic Theory Summer 2010 Registration: ECON 5073
- ECON 5083 - Macroeconomic Theory Summer 2010 Registration: ECON 5083
- ECON 5803 - Mathematical Economics Summer 2010 Registration: ECON 5803
- ECON 5813 - Econometrics I Summer 2010 Registration: ECON 5813
- ECON 5823 - Econometrics II Summer 2010 Registration: ECON 5823
- ECON 6073 - Research Seminar Summer 2010 Registration: ECON 6073
- BUSN 6640 - Financial Management  
  *Summer 2010 Registration: BUSN 6640*
- FNCE 6300 - Macroeconomics and Financial Markets

**Dual Degree Total: 42 Hours**

**Educational Studies / Teacher Licensure**

**K–12 Teachers Licensure**

UC Denver offers an undergraduate teacher licensure program through a collaboration between the College of Liberal Arts and Sciences and the School of Education & Human Development. Students in the undergraduate licensure program earn (1) a broad knowledge background and content specialization in the College of Liberal Arts and Sciences and (2) pedagogy principles and classroom experience in the teacher education program through the School of Education & Human Development. When students have satisfactorily completed requirements, they simultaneously earn their baccalaureate degree, BA or BS, and teacher licensure for the state of Colorado.

The Downtown Campus undergraduate teacher licensure program offers licensure in the following areas with the allowed liberal arts majors:

- Elementary Education Licensure *
  - BA—Individually Structured Major
- Secondary English Licensure *
BA—English

Secondary Foreign Language Licensure

BA—French

BA—Spanish

Secondary Social Studies Licensure

BA—History

BA—Political Science

Secondary Mathematics Licensure

BS—Mathematics

* Elementary Education and English licenses with dual endorsements in linguistically diverse education are pending approval by the Colorado Department of Education and the Department of Higher Education.

Students seeking undergraduate K–12 teacher licensure begin in the College of Liberal Arts and Sciences to complete the UC Denver core curriculum, content course work for both the major and licensure and an education internship. Admission to the teacher education program in the School of Education & Human Development is competitive and requires students to do the following:

- attain a minimum 2.75 cumulative undergraduate GPA
- complete 120 hours of supervised experience with children through an approved internship
- complete all general education requirements
- complete all course work in the major
- complete all teacher education admission requirements

Interested students should contact the CLAS Advising Office, North Classroom, 4002, 303-556-2555, and ask to speak to the education academic advisor about undergraduate teacher licensure.

Further information can be found in the Teacher Education Program description in the School of Education and Human Development section of this catalog.

EDUCATIONAL STUDIES MINOR

Programs

Non Degree
Educational Studies Minor

The preparation of high-quality K–12 teachers is dependent on both content knowledge and teaching methodologies. The College of Liberal Arts and Sciences, in cooperation with the School of Education & Human Development, offers an educational studies minor to assist undergraduate students unable to fit licensure course work into their bachelor's degree and to prepare them for the graduate-level licensure programs.

The CLAS educational studies minor is flexible in design and individually tailored for each student to complete some content requirements required for admission into the graduate-level teacher licensure programs at UC Denver. The educational studies minor requires course work in psychology and human development, democratic schooling principles, a K–12 internship and undergraduate course work required for licensure outside college and major requirements.

The educational studies minor is open to all Downtown Campus undergraduate students. For more information, students should contact the CLAS Advising Office, North Classroom, 4002, 303-556-2555.

Bradford K. Mudge, PhD, University of Texas, Austin

**Associate Professors:**

Joanne Addison, PhD, Purdue University  
Pompa Banerjee, PhD, University of Massachusetts  
Nancy Ciccone, PhD, University of California, Berkeley
English majors learn to acquire and synthesize information and to present their ideas and opinions skillfully. They find employment in fields in which the sophisticated use of language is necessary for achievement and advancement. Many graduates go on to postgraduate study, not only in writing, film studies and literature, but to schools of medicine, law, education, journalism and business.

Undergraduate

English

Undergraduates wishing to major in English must declare the major and option by the time they have completed 60 semester hours. The English major allows a student to choose from one of three options: literature, creative writing or film studies. Students interested in a double major must choose one option in English as well as the English writing major and are required to complete 21 different courses (63 hours).

ENGLISH MAJOR

ENGLISH WRITING MAJOR

BA in English With Secondary Teacher Licensure

Students seeking secondary English teacher licensure may pursue a BA in English with a restricted literature option. This enables them to complete their English major as well
as fulfill requirements for licensure at the undergraduate level. Call 303-556-3790 for more information.

**Departmental Honors**

Latin honors may be earned by participating in the department's honors program. Students with a 3.5 GPA in English are encouraged to begin the program in their junior year. The program requires additional course work (1-3 hours) and affords students the opportunity to work individually with the professor of their choice. Detailed information is available in the English department office.

**Minors**

The Department of English also offers four separate minors. No courses taken for a minor may be counted toward an English major.

- **Literature Minor**
- **Writing Minor**
- **Creative Writing Minor**
- **Film Studies Minor**

**Certificates**

The English department also offers a professional writing certificate and a teaching of English to speakers of other languages certificate.

- **Professional Writing Certificate**
- **Teaching of English to Speakers of Other Languages (CTESOL)**

**Additional Information**

For additional information on majors, options, minors and certificates call the Department of English office at 303-556-2584.

**Graduate**

**MA IN ENGLISH**
Programs

Bachelor of Arts

English BA

The course of study offered by the Department of English is designed to develop a student’s ability to read literature responsibly and imaginatively, to foster an understanding and appreciation of our literary inheritance and to provide the historical perspective from which to evaluate contemporary writing. Careful study of the use of the English language also should help a student to resist the misuse and corruption of language in politics, the media and elsewhere. Students who complete the program in English are expected to have mastered the ability to express their ideas in clear and succinct prose.

Requirements for the English Major

Students majoring in English must present a total of 39 hours in the literature, film and/or creative writing options (excluding ENGL 1010, 1020 and 2030), of which 27 hours must be earned in upper-division courses. None of the required 39 hours may be taken on a pass/fail basis. Only courses completed with a grade of \( C (2.0) \) or above may be counted toward the major. At least 15 upper-division hours of the student’s work in English must be taken from English faculty on the Downtown Campus. Students planning to major in English must consult with an advisor as soon as possible. Students must choose one of the three options.

LITERATURE OPTION

REQUIRED COURSES

- **ENGL 1400 - Introduction to Literary Studies**  
  *Summer 2010 Registration: ENGL 1400*
  - ENGL 1400 will be replaced during 2010-11 by ENGL 2450 when it becomes available
- **ENGL 3001 - Critical Writing**  
  *Summer 2010 Registration: ENGL 3001*
- **ENGL 4999 - Literary Studies Senior Seminar**  
  *Summer 2010 Registration: ENGL 4999*

Total: 9 Hours
OPTION-SPECIFIC DISTRIBUTION REQUIREMENTS

Choose one course from each of the six areas below. No course is repeatable.

Historical Survey

- ENGL 4080 - History of the English Language  Summer 2010 Registration: ENGL 4080
- ENGL 4166 - History of American Poetry  Summer 2010 Registration: ENGL 4166
- ENGL 4200 - History of the English Novel I  Summer 2010 Registration: ENGL 4200
- ENGL 4210 - History of the English Novel II  Summer 2010 Registration: ENGL 4210
- ENGL 4230 - The American Novel  Summer 2010 Registration: ENGL 4230
- ENGL 4236 - The American Short Story  Summer 2010 Registration: ENGL 4236
- ENGL 4300 - History of British Drama  Summer 2010 Registration: ENGL 4300
- ENGL 4320 - History of Poetry in English  Summer 2010 Registration: ENGL 4320
- ENGL 4350 - History of American Drama  Summer 2010 Registration: ENGL 4350

Old English, Medieval Language and Literature

- ENGL 4400 - Old English I  Summer 2010 Registration: ENGL 4400
- ENGL 4500 - Medieval Literature  Summer 2010 Registration: ENGL 4500
- ENGL 4510 - Whores and Saints: Medieval Women  Summer 2010 Registration: ENGL 4510
- ENGL 4730 - Chaucer's Canterbury Tales  Summer 2010 Registration: ENGL 4730
- ENGL 4731 - Chaucer's Early Poetry  Summer 2010 Registration: ENGL 4731

Renaissance, Restoration and 18th Century British Literature

- ENGL 3661 - Shakespeare  Summer 2010 Registration: ENGL 3661
- ENGL 4520 - English Renaissance  Summer 2010 Registration: ENGL 4520
- ENGL 4530 - Milton  Summer 2010 Registration: ENGL 4530
- ENGL 4540 - Restoration and the 18th Century  Summer 2010 Registration: ENGL 4540

Eighteenth- and Nineteenth-Century British Literature

- ENGL 4200 - History of the English Novel I  Summer 2010 Registration: ENGL 4200
• ENGL 4210 - History of the English Novel II Summer 2010 Registration: ENGL 4210
• ENGL 4560 - English Romanticism Summer 2010 Registration: ENGL 4560
• ENGL 4580 - The Victorian Age Summer 2010 Registration: ENGL 4580

American Literature

• ENGL 3700 - American Literature to the Civil War Summer 2010 Registration: ENGL 3700
• ENGL 3750 - American Literature from the Civil War Summer 2010 Registration: ENGL 3750
• ENGL 4166 - History of American Poetry Summer 2010 Registration: ENGL 4166
• ENGL 4220 - African-American Literature Summer 2010 Registration: ENGL 4220
• ENGL 4230 - The American Novel Summer 2010 Registration: ENGL 4230
• ENGL 4236 - The American Short Story Summer 2010 Registration: ENGL 4236
• ENGL 4350 - History of American Drama Summer 2010 Registration: ENGL 4350

Modern and Contemporary Literature

• ENGL 3450 - Twentieth Century Women Writers Summer 2010 Registration: ENGL 3450
• ENGL 3480 - Modern Drama Summer 2010 Registration: ENGL 3480
• ENGL 4250 - Twentieth Century Fiction Summer 2010 Registration: ENGL 4250
• ENGL 4460 - Contemporary World Literature Summer 2010 Registration: ENGL 4460
• ENGL 4600 - Modernism Summer 2010 Registration: ENGL 4600

Total: 18 Hours

REQUIRED ELECTIVES

Choose four English courses (literature, film or creative writing); two at the 3000 or 4000 level, and two at any level.

Total: 12 Hours

Literature Option Total: 39 Hours

Additional courses, total not to exceed 48 hours (any level).
CREATIVE WRITING OPTION

Students interested in pursuing careers or graduate work in creative writing should choose the creative writing option in literature.

OPTION-SPECIFIC REQUIREMENTS

- **ENGL 1400 - Introduction to Literary Studies** *Summer 2010 Registration: ENGL 1400*
  
  ENGL 1400 will be replaced during 2010-11 by ENGL 2450 when it becomes available

- **ENGL 1601 - Telling Tales: Narrative Art in Literature and Film** *Summer 2010 Registration: ENGL 1601*

- **ENGL 2250 - Introduction to Film** *Summer 2010 Registration: ENGL 2250*

  • **ENGL 4990 - Senior Writing Project in Creative Writing or Film Studies** Summer 2010 Registration: ENGL 4990

Total: 3 Hours

**Creative Writing Option Total: 39 Hours**

Additional courses, total not to exceed 48 hours (any level).

**FILM STUDIES OPTION**

The film studies option within the English major is designed to prepare students for a range of professional careers in areas such as screenwriting, film criticism, video production and the teaching of film, as well as those students who plan to pursue graduate programs in film studies. Required courses give students a strong grounding in film history, verbal and visual narrative, and the critical terms and techniques used in both film and literary analysis. Electives give students the option of emphasizing either the creative approach or the critical approach to moving-image media, or a combination of the two. The film studies option also affords students the opportunity to create video productions using state-of-the-art digital video and editing equipment and the possibility of airing their productions on cable TV. Offered in cooperation with the College of Arts & Media (CAM), the film studies option can be completed entirely on the Auraria Campus.

**OPTION-SPECIFIC REQUIREMENTS**

• **ENGL 2250 - Introduction to Film** Summer 2010 Registration: ENGL 2250
• **ENGL 3070 - Film History I** Summer 2010 Registration: ENGL 3070
• **ENGL 3080 - Film History II** Summer 2010 Registration: ENGL 3080
Total: 12 Hours

REQUIRED AREA ELECTIVES

Nine elective courses are required, and may be taken in all areas listed below. Fifteen of the 27-hour minimum must be at the 3000/4000 level. Production courses must be taken through the College of Arts & Media (CAM). Equivalent screenwriting courses may also be taken through CAM.

A. Critical Studies

- **ENGL 1400 - Introduction to Literary Studies** *Summer 2010 Registration: ENGL 1400*
  
  ENGL 1400 will be replaced during 2010-11 by ENGL 2450 when it becomes available

- **ENGL 1601 - Telling Tales: Narrative Art in Literature and Film** *Summer 2010 Registration: ENGL 1601*

- **ENGL 3001 - Critical Writing** *Summer 2010 Registration: ENGL 3001*

- * ENGL 3075 - Film Genres  *Summer 2010 Registration: ENGL 3075*

- * ENGL 3085 - Film Directors  *Summer 2010 Registration: ENGL 3085*

- **ENGL 3200 - From Literature to Film** *Summer 2010 Registration: ENGL 3200*

- * ENGL 4190 - Special Topics in Rhetoric and Writing  *Summer 2010 Registration: ENGL 4190*
  
  (film and media-focused only; e.g., Film and Rhetoric)

- **ENGL 4701 - Multimedia in the Community** *Summer 2010 Registration: ENGL 4701*

- * ENGL 4770 - Topics in English: Film and Literature  *Summer 2010 Registration: ENGL 4770*
  
  (film and media-focused only)

- **ENGL 4990 - Senior Writing Project in Creative Writing or Film Studies** *Summer 2010 Registration: ENGL 4990*
  
  (can be taken under B or C)

  May also choose from any single approved film course offered through another department or a single 3000/4000-level literature course (3 semester hours)

B. Screenwriting

- **ENGL 2390 - Writing the Short Script** *Summer 2010 Registration: ENGL 2390*

- **ENGL 2415 - Introduction to Movie Writing** *Summer 2010 Registration: ENGL 2415*

- **ENGL 3415 - Screenwriting Workshop** *Summer 2010 Registration: ENGL 3415*
C. Production

- FILM 2000 - Film/Video Production II
  *Summer 2010 Registration: FILM 2000*
- FILM 2150 - Film and Video Postproduction II
  *Summer 2010 Registration: FILM 2150*

**Total: 27 Hours**

* Repeatable if a different genre/director/topic.

**Film Studies Option Total: 39 Hours**

Additional courses, total not to exceed 48 hours (any level).

**College Core Courses for English Majors**

Students must complete the College of Liberal Arts and Sciences core curriculum requirements as specified in the CLAS Core Curriculum/Graduation Requirements chart. Check the schedule planner for specific course offerings.

**Electives**

Elective hours may be selected at the student’s discretion, but students are urged to work with their advisor in outlining a program in which electives and requirements support each other. Six hours earned in the internship/cooperative education program may be counted toward the major.

**English Writing BA**

Especially designed for future writers, the writing major offers a wide range of intensive writing experiences combining such areas as rhetoric, professional, general and creative writing.

**Requirements for the English Writing Major**

Students majoring in writing must present a total of 39 hours for the major (excluding ENGL 1010, 1020 and 2030), of which 27 hours must be earned in upper-division courses. None of the required 39 hours may be taken on a pass/fail basis. Only courses completed with a grade of C (2.0) or above may be counted toward the major. At least 15 upper-division hours of the student’s work in writing must be taken from English
faculty on the Downtown Campus. Students planning to major in writing should consult with an advisor as soon as possible. This major is also available online.

**Required Courses**

- ENGL 2070 - Grammar, Rhetoric and Style  *Summer 2010 Registration:* ENGL 2070
- ENGL 2154 - Introduction to Creative Writing  *Summer 2010 Registration:* ENGL 2154
- ENGL 3084 - Advanced Composition  *Summer 2010 Registration:* ENGL 3084
- ENGL 3154 - Technical Writing  *Summer 2010 Registration:* ENGL 3154
- ENGL 3170 - Business Writing  *Summer 2010 Registration:* ENGL 3170
- ENGL 3160 - Language Theory  *Summer 2010 Registration:* ENGL 3160
- ENGL 4080 - History of the English Language  *Summer 2010 Registration:* ENGL 4080
- ENGL 4180 - Argumentation and Logic  *Summer 2010 Registration:* ENGL 4180
- ENGL 4190 - Special Topics in Rhetoric and Writing  *Summer 2010 Registration:* ENGL 4190

**Total: 21 Hours**

**Advanced Course Work**

Students pursuing a general writing degree may choose from all writing courses listed. Students pursuing a concentration in professional writing or teaching English as a second language must complete at least 9 hours in those areas.

**Professional Writing Concentration**

Choose at least three:

- ENGL 3154 - Technical Writing  *Summer 2010 Registration:* ENGL 3154
- ENGL 3170 - Business Writing  *Summer 2010 Registration:* ENGL 3170
- ENGL 3416 - Magazine Writing  *Summer 2010 Registration:* ENGL 3416
- ENGL 3939 - Internship/Cooperative Education  *Summer 2010 Registration:* ENGL 3939
- *ENGL 4190 - Special Topics in Rhetoric and Writing  *Summer 2010 Registration:* ENGL 4190 (professional writing topic)
- ENGL 4280 - Proposal and Grant Writing  *Summer 2010 Registration:* ENGL 4280
• ENGL 4701 - Multimedia in the Community  Summer 2010 Registration: ENGL 4701
• ENGL 4995 - Senior Writing Project  Summer 2010 Registration: ENGL 4995

* Repeatable when title/content differ.

Teaching English as a Second Language Concentration

Choose at least three:

• ENGL 3160 - Language Theory  Summer 2010 Registration: ENGL 3160
• ENGL 4601 - Principles and Practices of Second Language Acquisition  Summer 2010 Registration: ENGL 4601
• * ENGL 3939 - Internship/Cooperative Education  Summer 2010 Registration: ENGL 3939
  -OR-
• * ENGL 4190 - Special Topics in Rhetoric and Writing  Summer 2010 Registration: ENGL 4190
  -OR-
• * ENGL 4995 - Senior Writing Project  Summer 2010 Registration: ENGL 4995

* TESOL topics only

General Writing Courses

• ENGL 3020 - Poetry Workshop  Summer 2010 Registration: ENGL 3020
• ENGL 3050 - Fiction Workshop  Summer 2010 Registration: ENGL 3050
• ENGL 3415 - Screenwriting Workshop  Summer 2010 Registration: ENGL 3415
• ENGL 3939 - Internship/Cooperative Education  Summer 2010 Registration: ENGL 3939
• ENGL 4025 - Advanced Poetry Workshop  Summer 2010 Registration: ENGL 4025
• ENGL 4055 - Advanced Fiction Workshop  Summer 2010 Registration: ENGL 4055
• ENGL 4190 - Special Topics in Rhetoric and Writing  Summer 2010 Registration: ENGL 4190
• ENGL 4990 - Senior Writing Project in Creative Writing or Film Studies  Summer 2010 Registration: ENGL 4990
• ENGL 4995 - Senior Writing Project  Summer 2010 Registration: ENGL 4995
Total Advanced Course Work: 9-15 Hours

* Repeatable when title/content differ.

Electives

Students may opt to replace two of the five required “advanced course work” courses with other English 3000-4000 level courses (writing, literature, film, creative writing) and/or approved writing courses from other departments.

Total: 0-6 Hours

Senior Seminar in Writing

- ENGL 4991 - Senior Seminar in Writing  
  Summer 2010 Registration: ENGL 4991

Total: 3 Hours

Major Total: 39 Hours

Additional courses, total not to exceed 48 hours (any level).

College Core Courses for English Writing Majors

Students must complete the College of Liberal Arts and Sciences core curriculum requirements as specified in the CLAS Core Curriculum/Graduation Requirements chart. Check the Web Schedule Planner for specific course offerings.

Electives

Elective hours may be selected at the student’s discretion, but students are urged to work with their advisor in outlining a program in which electives and requirements support each other. Up to 6 hours earned in the cooperative education program may be counted toward the major.

Certificate

Professional Writing Certificate
The certificate consists of 12 semester hours that may be completed in one or two semesters. Enrollment is open to undergraduates, graduates, working professionals and returning students, and the certificate has no prerequisites.

Courses

Required Courses

- **ENGL 2070 - Grammar, Rhetoric and Style** Summer 2010 Registration: ENGL 2070
- OR-
- **ENGL 2154 - Introduction to Creative Writing** Summer 2010 Registration: ENGL 2154
- **ENGL 3154 - Technical Writing** Summer 2010 Registration: ENGL 3154
- OR-
- **ENGL 3170 - Business Writing** Summer 2010 Registration: ENGL 3170
- **ENGL 3084 - Advanced Composition** Summer 2010 Registration: ENGL 3084
- OR-
- **ENGL 4701 - Multimedia in the Community** Summer 2010 Registration: ENGL 4701
- OR-
- **ENGL 5701 - Multimedia in the Community** Summer 2010 Registration: ENGL 5701

Total: 9 Hours

Elective

- **ENGL 3084 - Advanced Composition** Summer 2010 Registration: ENGL 3084 (if not taken as a required course)
- **ENGL 3154 - Technical Writing** Summer 2010 Registration: ENGL 3154 (if not taken as a required course)
- **ENGL 3170 - Business Writing** Summer 2010 Registration: ENGL 3170 (if not taken as a required course)
- **ENGL 3416 - Magazine Writing** Summer 2010 Registration: ENGL 3416
- **ENGL 3939 - Internship/Cooperative Education** Summer 2010 Registration: ENGL 3939
- **ENGL 4180 - Argumentation and Logic** Summer 2010 Registration: ENGL 4180
- **ENGL 4190 - Special Topics in Rhetoric and Writing** Summer 2010 Registration: ENGL 4190 (with advisor approval)
ENGL 4280 - Proposal and Grant Writing  
*Summer 2010 Registration: ENGL 4280*

Other writing electives may be taken as offered, with advisor approval.

**Total: 3 Hours**

**Total: 12 Hours**

## Teaching of English to Speakers of Other Languages (CTESOL)

### Program Description

To meet the increasing needs of individuals seeking advanced training in teaching English as a second language, the English department at UC Denver offers a graduate certificate in the teaching of English to speakers of other languages (CTESOL).

The certificate program is designed to build the necessary skills to teach English as a second language through focused preparation. It is primarily aimed at native speakers of English who want to teach overseas, but may serve the needs of international students wanting to teach English in their home country or other countries.

Upon successful completion of the program, CTESOL participants will be able to:

- Discuss the theoretical basis of second language instruction
- Demonstrate a variety of effective ESL teaching techniques
- Explain, in pedagogically relevant ways, the linguistic structures of the English language

### Curriculum

The curriculum consists of 12 semester hours (9 semester hours of required courses, and three semester hours of electives). The required courses must be taken at UC Denver. A GPA of 3.0 or better is required for all graduate courses.

#### Required Courses

- **ENGL 5171 - Language Theory**  
  *Summer 2010 Registration: ENGL 5171*
- **ENGL 5601 - Principles and Practices of Second Language Acquisition**  
  *Summer 2010 Registration: ENGL 5601*
Total: 9 Hours

Elective Courses

- ENGL 5093 - Teaching of Writing  Summer 2010 Registration: ENGL 5093
  or an alternative elective approved by the program advisor

Total: 3 Hours

Total: 12 Hours

Additional Information

LENGTH OF TIME
The course of study will typically last one academic year, including the summer session.

WHEN YOU MAY BEGIN
You may begin in any semester. There is no fixed deadline for application for admission.

PREREQUISITES
All applicants must have a bachelor’s degree or the equivalent to be accepted to the program. Graduate students at UC Denver will also be permitted to apply for the certificate while they are concurrently completing another graduate degree. Permission may not be granted to graduate students in applied linguistics.

Non-native speakers of English are required to submit an official TOEFL (Test of English as a Foreign Language) report showing a score of at least 580. Those who score below 580 but above 525 on the TOEFL may be admitted conditionally to the program. Under these conditions, students will have their English language skills assessed by the faculty of the program immediately after they arrive on campus to determine whether further courses are needed to develop English language proficiency. After assessment, the students may be assigned to full-time language study in an intensive English program, permitted to take graduate-level classes on a conditional basis along with further designated language study or permitted to begin graduate study without further restrictions.

Non Degree

Creative Writing Minor

The creative writing minor gives students the opportunity to complement their area of major study with experience writing and reading poetry or fiction.

Students minoring in creative writing must complete a total of 15 hours. None of the required courses may be taken pass/fail. Only courses completed with a grade of C (2.0) or better may be counted toward the minor. All upper-division courses must be taken with Downtown Campus English faculty. Students should take ENGL 1020 before beginning the minor.

Courses

Required Courses

- **ENGL 1400 - Introduction to Literary Studies**  *Summer 2010 Registration: ENGL 1400*
  ENGL 1400 will be replaced during 2010-11 by ENGL 2450 when it becomes available
- **ENGL 2154 - Introduction to Creative Writing**  *Summer 2010 Registration: ENGL 2154*

Total: 6 Hours

Requirements for poetry

- **ENGL 3020 - Poetry Workshop**  *Summer 2010 Registration: ENGL 3020*
- **ENGL 4025 - Advanced Poetry Workshop**  *Summer 2010 Registration: ENGL 4025*
- **ENGL 4160 - Poetics**  *Summer 2010 Registration: ENGL 4160*
  - OR -
- **ENGL 4166 - History of American Poetry**  *Summer 2010 Registration: ENGL 4166*
  - OR -
- **ENGL 4320 - History of Poetry in English**  *Summer 2010 Registration: ENGL 4320*
Total: 9 Hours

Requirements for fiction

- ENGL 3050 - Fiction Workshop Summer 2010 Registration: ENGL 3050
- ENGL 4055 - Advanced Fiction Workshop Summer 2010 Registration: ENGL 4055
- ENGL 4200 - History of the English Novel I Summer 2010 Registration: ENGL 4200
  - OR -
- ENGL 4210 - History of the English Novel II Summer 2010 Registration: ENGL 4210
  - OR -
- ENGL 4230 - The American Novel Summer 2010 Registration: ENGL 4230
  - OR -
- ENGL 4236 - The American Short Story Summer 2010 Registration: ENGL 4236

Total: 9 Hours

Minor Total: 15 Hours

Film Studies Minor

The film studies minor offers students the opportunity to gain an informed understanding of the sophisticated medium of film, its language and history. Courses cover critical writing about cinema, creative screenwriting, the evolution of Hollywood movies, international cinema and film in its cultural context. The film studies minor makes a valuable complement to a range of undergraduate majors.

Students must complete a total of 15 hours for the film studies minor. None of the required 15 hours may be taken pass/fail. Only courses completed with a grade of C (2.0) or better may be counted toward the minor. A minimum of 9 hours must be taken with Downtown Campus faculty. Students are strongly advised to take ENGL 2250, Introduction to Film, before taking other film courses. Students are also advised to fulfill the liberal arts and sciences core curriculum writing requirements before enrolling in upper-division topics in film courses. No more than two online film studies courses can be counted toward the minor.

Courses
Required Courses

- ENGL 2250 - Introduction to Film Summer 2010 Registration: ENGL 2250
- ENGL 3070 - Film History I Summer 2010 Registration: ENGL 3070
  - OR -
- ENGL 3080 - Film History II Summer 2010 Registration: ENGL 3080

Total: 6 Hours

Electives

Choose three:

- ENGL 2415 - Introduction to Movie Writing Summer 2010 Registration: ENGL 2415
- ENGL 3070 - Film History I Summer 2010 Registration: ENGL 3070
  - OR -
- ENGL 3080 - Film History II Summer 2010 Registration: ENGL 3080
- * ENGL 3075 - Film Genres Summer 2010 Registration: ENGL 3075
- * ENGL 3085 - Film Directors Summer 2010 Registration: ENGL 3085
- ENGL 3200 - From Literature to Film Summer 2010 Registration: ENGL 3200
- ENGL 4420 - Film Theory and Criticism Summer 2010 Registration: ENGL 4420
- * ENGL 4770 - Topics in English: Film and Literature Summer 2010 Registration: ENGL 4770 (film topics only)

Approved film courses from another department (3 semester hours)

Total: 9 Hours

Total: 15 Hours

* Repeatable with different topic or title.

Literature Minor

This program is designed for students who are interested in the study of English literature but who have elected to major in another area. The recommended series of courses allows students to become acquainted with some of the methods of literary study and with a number of the most important literary works.

The literature minor allows students to complement their area of major study with systematic experience in literature.
Students minoring in literature must complete a total of 15 hours (excluding ENGL 1010, 1020, 2030). None of the required 15 hours may be taken pass/fail. Only courses completed with a grade of C (2.0) or better may be counted toward the minor. A minimum of 9 upper-division hours of work in the minor must be taken with Downtown Campus English faculty.

Courses

Required Courses

- ENGL 1400 - Introduction to Literary Studies  
  Summer 2010 Registration: ENGL 1400
  ENGL 1400 will be replaced during 2010-11 by ENGL 2450 when it becomes available
- ENGL 3001 - Critical Writing  
  Summer 2010 Registration: ENGL 3001

Total: 6 Hours

Electives; distribution requirements

Any three upper division courses, at least two of which must be from those listed as distribution requirements for the major.

Total: 9 Hours

Minor Total: 15 Hours

Restrictions: These requirements may not be met by independent study. All upper-division courses must be taken from a member of the Downtown Campus faculty.

Writing Minor

The writing minor allows students to complement their area of major study with systematic experience in writing.

Students minoring in writing must complete a total of 15 hours (excluding ENGL 1010, 1020, 2030). None of the required 15 hours may be taken pass/fail. Only courses completed with a grade of C (2.0) or better may be counted toward the minor. A minimum of 9 upper-division hours of work in the minor must be taken with Downtown Campus English faculty.
Students are encouraged to take ENGL 1020 and ENGL 2030 before beginning the minor. (ENGL 2154 and ENGL 2030 can be taken concurrently.)

Courses

Required Courses

- ENGL 2070 - Grammar, Rhetoric and Style  Summer 2010 Registration: ENGL 2070
- ENGL 4180 - Argumentation and Logic  Summer 2010 Registration: ENGL 4180
- ENGL 4190 - Special Topics in Rhetoric and Writing  Summer 2010 Registration: ENGL 4190

Total: 9 Hours

Distributed Course

Choose one course from the following:

- ENGL 2154 - Introduction to Creative Writing  Summer 2010 Registration: ENGL 2154
  - OR -
- ENGL 3154 - Technical Writing  Summer 2010 Registration: ENGL 3154
  - OR -
- ENGL 3170 - Business Writing  Summer 2010 Registration: ENGL 3170

Total: 3 Hours

Elective

One 3000-/4000-level writing course.

Total: 3 Hours

Minor Total: 15 Hours

Master of Arts
English MA

► Graduate School Rules apply to this program

Program Director: Michelle Comstock
Telephone: 303-556-8479
E-mail: Michelle.Comstock@ucdenver.edu

The department offers three programs in the English MA degree: 1) the literature program increases students’ knowledge of English and American literature and also their familiarity with a variety of critical methodologies; 2) the rhetoric and teaching of writing program introduces students to the theory, research and pedagogy underlying contemporary instruction in secondary and college composition; 3) the applied linguistics program introduces students to the principles, practices and concerns of teaching English to adults whose first language is not English.

Students concurrently pursuing a master’s in education can count up to 6 hours of education courses toward their MA in English with their English advisor’s permission.

Contact the graduate program director for more information on these programs.

Requirements for Admission

Applicants for any of the programs described above must submit all application materials by either the spring, summer or fall deadline. The deadline for fall enrollment is April 1; the deadline for spring and summer enrollment is October 1. Complete applications for all three programs must include the following:

- a completed University of Colorado graduate application
- two copies of all graduate and undergraduate transcripts, and for any nondegree courses previously taken
- three letters of recommendation in which the recommender specifically addresses the candidate’s ability to pursue successfully the program chosen
- recent scores on the GRE, including the analytical, verbal and quantitative portions. GRE score average should be 600 or higher. Analytical writing score should be 4 or higher.
- evidence of a 3.0 GPA in previous courses
- statement of purpose
- 10-page critical writing sample

In addition to these requirements, applicants for the MA in literature must have successfully completed 24 semester hours in English courses (graduate or
undergraduate), excluding courses in composition, creative writing or speech. At least 15 of these semester hours must be at the upper-division level.

**Transfer of Credits from Other CU Campuses**

Students admitted to graduate study in English may complete all of their course requirements for the MA degree at UC Denver. Up to 12 semester hours (total) may be transferred from the University of Colorado-Boulder, University of Colorado-Colorado Springs or other graduate program; however, such transfer requires the written approval of the specific program coordinator. Only 12 semester hours of courses taken at UC Denver before acceptance into the program can be counted toward the degree. Further, work already applied toward a graduate degree received at the University of Colorado or at another institution cannot be transferred toward another graduate degree of the same level at UC Denver. (For other rules concerning transfer of graduate credits, see the Graduate School Rules.) For more information, contact the graduate program director at 303-556-4648.

**Degree Requirements**

The literature program requires 33 semester hours; the rhetoric and teaching of writing program requires 30 hours; the applied linguistics program requires 30 hours. Students must receive a B- or above in all courses counted toward the MA degree.

**Literature Program**

This program provides a general knowledge of English and American literature, a familiarity with the range of theoretical approaches and critical methodologies, and an opportunity to take courses in film studies, creative writing, and ethnic and world literature.

**GENERAL REQUIREMENTS**

- Satisfactory completion of all required course work
- Satisfactory completion of the MA comprehensive exam OR thesis submission and defense
- Demonstrated fourth-semester proficiency in a foreign language. Old English or Latin will also satisfy this requirement
- Compliance with all graduate school policies and requirements

**COURSE REQUIREMENTS (33 SEMESTER HOURS MINIMUM)**
All courses are 3 credit hours unless otherwise noted. A minimum of 9 semester hours must be taken at the 6000 level.

REQUIRED COURSES

- **ENGL 5100 - Literary Research and Writing** *Summer 2010 Registration: ENGL 5100*
- **ENGL 6001 - Critical Theory in Literature and Film** *Summer 2010 Registration: ENGL 6001*

**Total: 6 Hours**

AREA REQUIREMENTS

Choose seven courses at the 5000/6000 level which fulfill seven different areas from the following 9 areas:

1. Classics
2. Medieval literature
3. Renaissance literature
4. Restoration and 18th-century literature
5. Romanticism
6. American literature, pre-1900
7. Victorian literature
8. American literature or film, post-1900
9. British modernism/20th century British literature or film

Any graduate literature/film course will fulfill at least one of these areas. Each area can be satisfied by several different courses periodically offered. Historical surveys count within the most appropriate area based on the syllabus. Courses in film, world literature, ethnic literature and women's literature generally fulfill one of the 20th-century areas.

**Total: 21 Hours**

ELECTIVES

Choose one of the following:

- **ENGL 5093 - Teaching of Writing** *Summer 2010 Registration: ENGL 5093*
- **ENGL 5913 - Practicum in Language and Rhetoric** *Summer 2010 Registration: ENGL 5913*

An ENGL 5000- or 6000-level literature or film course
Total: 3 Hours

THESIS OR NON-THESIS OPTIONS

Non-Thesis Option

Students not writing a thesis must take the MA comprehensive exam. Prior to the exam, students may take

ENGL 6920. Directed Readings

for 1-3 semester hours to help them prepare for the exam, but this is not required. However, the 33-hour course requirement must be met through electives if directed readings or project/independent study credits are not taken.

Students must be registered during the semester in which they take the MA comprehensive exam, which can be be met by signing up for candidate for degree (CAND 5940-900) if all course work is completed.

Thesis Option

Students must submit a proposal for a thesis to the graduate program director for permission to proceed to the thesis.

- ENGL 6950 - Master's Thesis Summer 2010 Registration: ENGL 6950
  For details about writing, submitting and defending a thesis, see the current thesis guidelines.

Total: 3-6 Hours

LANGUAGE REQUIREMENT

Students must demonstrate fourth-semester proficiency in a foreign language. Old English or Latin also satisfies this requirement.

Total Literature Program: 33 Hours

Rhetoric and Teaching of Writing Program

In this program, you'll study rhetorical and language traditions and apply that knowledge to the teaching of writing. Knowledge of multicultural dimensions of literacy will help you understand the rich cultural complexity of the modern classroom. This program also
focuses on developing your own writing and editing skills to fulfill your professional role as a teacher-writer.

COURSE REQUIREMENTS (30 SEMESTER HOURS MINIMUM)

All courses are 3 credit hours unless otherwise noted.

REQUIRED COURSES

- ENGL 5080 - History of the English Language  
  *Summer 2010 Registration: ENGL 5080*
  -OR-
- ENGL 5171 - Language Theory  
  *Summer 2010 Registration: ENGL 5171*
- ENGL 5093 - Teaching of Writing  
  *Summer 2010 Registration: ENGL 5093*
- ENGL 5150 - Research Methods  
  *Summer 2010 Registration: ENGL 5150*
- ENGL 5190 - Special Topics in Rhetoric and Writing  
  *Summer 2010 Registration: ENGL 5190*
- ENGL 5651 - Second Language Writing  
  *Summer 2010 Registration: ENGL 5651*
- ENGL 6002 - Rhetorical Theory  
  *Summer 2010 Registration: ENGL 6002*

Total: 18 Hours

AREA OF CONCENTRATION

Chosen by the student and approved by the student’s advisor, the area of concentration may be in virtually any field that complements the required core and that meets the student’s goals in the program. Representative areas include but are not limited to literature, technical communication, reading, English as a second language and communication.

ENGL 5913. Practicum in Language and Rhetoric may be included among these nine hours.

Total: 9 Hours

THESIS OR PROJECT OPTIONS

Thesis

ENGL 6950. Master's Thesis

For details about writing, submitting and defending a thesis, see the current thesis guidelines.

Total: 4-6 Hours
Rhetoric and Teaching of Writing Total: 30 Hours

Applied Linguistics Program

If you want a thorough grounding in the principles and practice of teaching English to non-native adult users of English with a special focus on the discourses of the classroom and on teaching second-language writers, this program is a good choice.

GENERAL REQUIREMENTS

Students must demonstrate fourth semester proficiency in a foreign language prior to graduation; assessment of proficiency depends on the language to be demonstrated.

Those students who are not teaching adult ESL students at the time of their course work will be required to take a 3–6 credit internship in an area language school, workplace or high school/college ESL program, either through the Experiential Learning Center or by arrangement with the program coordinator.

COURSE REQUIREMENTS (30 SEMESTER HOURS MINIMUM)

All courses are 3 credit hours unless otherwise noted.

REQUIRED CORE COURSES

- **ENGL 5093** - Teaching of Writing Summer 2010 Registration: ENGL 5093
- **ENGL 5150** - Research Methods Summer 2010 Registration: ENGL 5150
- **ENGL 5171** - Language Theory Summer 2010 Registration: ENGL 5171
- **ENGL 5601** - Principles and Practices of Second Language Acquisition Summer 2010 Registration: ENGL 5601
- **ENGL 5651** - Second Language Writing Summer 2010 Registration: ENGL 5651
- **ENGL 5913** - Practicum in Language and Rhetoric Summer 2010 Registration: ENGL 5913
  - OR- an ENGL elective approved by the student's advisor

Total: 18 Hours

ELECTIVE LANGUAGE OR RHETORIC COURSES
- **ENGL 5080 - History of the English Language**  
  Summer 2010 Registration: **ENGL 5080**
- **ENGL 5190 - Special Topics in Rhetoric and Writing**  
  Summer 2010 Registration: **ENGL 5190**

Total: 6 Hours

**SYNTHESIS OPTIONS**

Students may choose from the following three options:

**Comprehensive Exam or Portfolio Exam**

Students will take a comprehensive exam or portfolio exam in their last semester. Students selecting this option must take two elective courses (6 hours) approved by their advisor.

**Thesis**

**ENGL 5840. Independent Study** (3 hours)

**ENGL 6950. Master's Thesis** (4-6 hours)

For details about writing, submitting and defending a thesis, see the current thesis guidelines.

**Project:**

**ENGL 5840. Independent Study** (3 hours) or an internship* (3 hours) — with advisor's approval

**ENGL 6960. Master's Project**

* **INTERNSHIPS**

Those students who are not teaching adult ESL students at the time of their course work will be required to take a 3-6 credit hour internship in a local area language school, workplace or high school/college ESL program, either through the Experiential Learning Center or by arrangement with the program coordinator.

Total: 6 Hours

**Applied Linguistics Total: 30 Hours**

**Additional Information**
**Candidate for Degree:** Graduate students must be registered for at least one credit hour during the semester in which they graduate. Those who have completed all required courses and requirements may register for candidate for degree: CAND 5940, section 900. CAND 5940 carries no course credit, but you are billed for one credit of tuition and $10 in fees.

**Teaching Assistantships:** Graduate students who receive a teaching assistantship must take the following course in the fall during their first semester as a teaching assistant.

*ENGL 5913. Practicum in Language and Rhetoric*

**Dual Degrees:** Students concurrently pursuing a MA in education can count up to six hours of education courses toward their MA in English, with their English graduate advisor's permission.

**Ethnic Studies**

**Director:** Donna Langston  
**Program Assistant:** Jennifer L. Williams  
**Office:** Lawrence Street Center, 480  
**Telephone:** 303-315-3616  
**Fax:** 303-315-3610

The ethnic studies minor is designed to help students majoring in the liberal arts and sciences develop a sophisticated and broad understanding of ethnicity and its role in contemporary American society. It provides students with the theories and concepts needed to comprehend and interpret relations between and among ethnic groups in the United States. Students are better prepared to live and work in a pluralistic society when educational institutions foster a positive learning environment in which differences contained within various U.S. communities can be studied not as a social problem, as is often the case, but for their history of struggles and contributions.

The interdisciplinary nature of the ethnic studies program curriculum provides students the opportunity, through academic investigation, to develop a greater understanding of the cultural pluralism of the present-day United States and to acquire skills needed in professional and social service fields. This multidisciplinary, comparative approach to contemporary and historical research methodologies provides the basis for students to analyze the diverse social, economic, political and cultural facets of ethnic groups in the United States. Special emphasis is given to new perspectives that recover the history, creative expression and voices previously excluded by the traditional approaches to higher education.

Courses offered under the minor reflect prevailing thought in ethnic studies, draw parallels between various groups in the United States and link the studies of their country of origin with current and historical research on race and ethnic relations in the United States. These courses reflect critical analyses of the dominant perspectives through which ethnic groups have been described and perceived. Also investigated are the intersections of ethnicity with structures of political, educational, gender, business and economic, social and cultural power, all of which are emphasized through the study of materials and works by and about previously excluded groups. The cultural processes through which ethnic groups have sustained or altered their cultural identities are emphasized, as well as the pressures faced by members of various ethnic groups to maintain traditional values and conform to mainstream U.S. society.

REQUIREMENTS FOR THE MINOR
The undergraduate certificate in cultural diversity studies is designed to appeal to undergraduate students with a background in any major. It will allow students to demonstrate to potential employers that they possess the multicultural skills and knowledge necessary to succeed in the workplace. Students will enroll in department courses that focus on the historical context in which race and culture have emerged in the United States.

This certificate is also targeted to nondegree-seeking professionals who seek to acquire multicultural knowledge and the skills necessary to ensure their success in professional environments. Students will be encouraged to think critically about race and race relations. Their expanded understandings of the implications of race and culture in work environments will ensure employers that they offer the highest quality employees opportunities in employment or advancement.

A certificate in cultural diversity studies offers students an enduring intellectual value based on classic articles, book excerpts and scholars who have shaped the study and understanding of race and ethnicity in contemporary society. Our courses provide the opportunity for students to encounter many of the greatest thinkers in race and ethnicity firsthand. Course curriculum includes carefully edited selections from the works of the most distinguished observers of race and ethnicity, past and present. Students will appreciate the broad range of coverage, the logic of course organization and the accessibility of material covered.
The undergraduate certificate in cultural diversity studies requires 12 semester hours (four courses).

**Certificate Requirements**

**Required Course**

- ETST 2000 - Introduction to Ethnic Studies  *Summer 2010 Registration: ETST 2000*

**Total: 3 Hours**

**Electives**

Choose three courses from any ethnic studies department courses, including the following:

- ETST 2155 - African American History  *Summer 2010 Registration: ETST 2155*
- ETST 2294 - Race and the Media  *Summer 2010 Registration: ETST 2294*
- ETST 3254 - Race and Ethnicity in the Inner City  *Summer 2010 Registration: ETST 3254*
- ETST 3297 - Social History of Asian Americans  *Summer 2010 Registration: ETST 3297*
- ETST 3396 - History of the American Indian  *Summer 2010 Registration: ETST 3396*
- ETST 3704 - Culture, Racism and Alienation  *Summer 2010 Registration: ETST 3704*
- ETST 4558 - Chicano and Latino Politics  *Summer 2010 Registration: ETST 4558*

**Total: 9 Hours**

**Certificate Total: 12 Hours**

There are crosslisted courses in a variety of departments, including history, political science and sociology. Any crosslisted course is acceptable. You must register for it under ETST numbers. A complete listing of department offerings and crosslisted courses can be obtained every semester from the ethnic studies department Web page or by calling our office at 303-556-2700 for a copy.
A minimum grade of B- must be earned in each of the four courses completed as part of the certificate. All credits for the certificate must be earned at the Downtown Campus.

Additional information about the undergraduate certificate in cultural diversity studies may be obtained from ethnic studies Director Donna Langston, Lawrence Street Center, 480, 303-556-2726, Donna.Langston@ucdenver.edu.

Non Degree

Ethnic Studies Minor

Requirements for the Minor

The minor in ethnic studies offers students the opportunity to enhance and broaden the body of knowledge acquired in their chosen majors and to apply it in a variety of careers involving intercultural relations. Students are required to complete 18 semester hours (6 courses) in ethnic studies with a grade of C or better. These hours are to be taken with UC Denver faculty (any exception needs to be approved by the ethnic studies advisor). At least 9 of the required 18 hours must be in courses numbered 3000 or above.

The 18 hours required for the minor must be distributed as follows:

Core Courses

- **ETST 2000 - Introduction to Ethnic Studies** *Summer 2010 Registration: ETST 2000*

  Total: 3 Hours

Additional Courses

Select four upper- or lower-division ETST courses from the following four focal U.S. racial/ethnic groups

- Asian-Americans
- African-Americans
- American Indians
- Chicanos/as and Latinos/as

  Total: 12 Hours

Elective
ETST elective course of your choice.

Total: 3 Hours

Ryan Sincavage, MS, University of Colorado

Lecturers:

James Fleming
Jeanne Mayne
Peter Timm
James Tindall

Undergraduate

Geography is a science that focuses on the spatial analysis of human/physical patterns and processes. Geographers attempt to identify the factors affecting the distribution of people and their activities on the surface of the earth and to provide meaningful solutions to problems faced by societies. This discipline is an ideal major for the liberal arts student, providing exposure to the concepts and techniques utilized in investigating the physical sciences, environmental and sustainability issues, socioeconomic problems and planning policies.

The program offers a distinctive curriculum that combines a broad and integrative scientific education with state-of-the-art training in geo-spatial analysis (e.g., computer mapping, GIS, remote sensing). The program is designed to provide the student interested in physical, social or environmental geography with the background necessary for obtaining a rewarding career in government (federal, state, local) or private industry, as well as preparing students for graduate study.

REQUIREMENTS FOR GEOGRAPHY MAJOR

Certificate

GEOGRAPHIC INFORMATION SCIENCE CERTIFICATE
Departmental Honors

The criteria for *cum laude* shall be a GPA of 3.6 in all courses on the Downtown Campus (a minimum of 30 semester hours for transfer students) and an honors thesis that demonstrates independent research skills. The criteria for *magna cum laude* shall be a GPA of 3.75 in all Downtown Campus courses and a superior honors thesis. The criteria for *summa cum laude* shall be a GPA of 3.9 in all Downtown Campus courses and a truly exceptional honors thesis. The GPA alone shall serve only as a minimum criterion for each of the three levels of honors. Evaluation of the honors thesis shall be the deciding criterion for the level that is granted. The department expects that the award of *summa cum laude* would be a rare occurrence reserved for students who demonstrate extraordinary academic promise.

Admission to the honors program and the awarding of departmental honors shall be subject to faculty approval.

Requirements for Major in Geography

Students must declare a major by the time they have completed 60 semester hours of course work. The geography program (within the Department of Geography and Environmental Sciences) offers a BA degree that includes a full range of courses in the fundamentals of geography taught mainly by full-time faculty. Five degree options are available for the major in geography: general, environmental science, environmental studies, urban studies and planning and earth science. Total semester-hour requirements vary among the five options, but all options require a minimum of 24 hours of upper-division credit. In addition, for each option, at least 15 semester hours must be taken at the Downtown Campus.

Option 1—General Geography

Option Advisors: Frederick B. Chambers and Brian Page

OPTION 1 REQUIREMENTS

Lower division

- GEOG 1202 - Introduction to Physical Geography  Summer 2010 Registration: GEOG 1202
- GEOG 1302 - Introduction to Human Geography  Summer 2010 Registration: GEOG 1302
- GEOG 2080 - Introduction to Mapping and Map Analysis  Summer 2010 Registration: GEOG 2080

Upper division

- GEOG 3232 - Weather and Climate  Summer 2010 Registration: GEOG 3232
- GEOG 3411 - Globalization and Regional Development  Summer 2010 Registration: GEOG 3411

- GEOG 4080 - Introduction to GIS  Summer 2010 Registration: GEOG 4080
- OR-
- GEOG 5080 - Introduction to GIS  Summer 2010 Registration: GEOG 5080

Total: 18 Hours
ADDITIONAL REQUIREMENTS

Choose six additional courses, including at least one course from each of the following subfields:

**Physical Geography**

- GEOG 3240 - Colorado Climates  *Summer 2010 Registration: GEOG 3240*
- GEOG 4010 - Landscape Geochemistry  *Summer 2010 Registration: GEOG 4010*
- GEOG 4020 - Earth Environments and Human Impacts  *Summer 2010 Registration: GEOG 4020*
- GEOG 4240 - Principles of Geomorphology  *Summer 2010 Registration: GEOG 4240*
- GEOG 4270 - Glacial Geomorphology  *Summer 2010 Registration: GEOG 4270*

**Human Geography**

- ENVS 1342 - Introduction to Environment and Society  *Summer 2010 Registration: ENVS 1342*
- GEOG 1602 - Introduction to Urban Studies  *Summer 2010 Registration: GEOG 1602*
- GEOG 2202 - Natural Hazards  *Summer 2010 Registration: GEOG 2202*
- GEOG 3300 - Population and Resources in the World Environment  *Summer 2010 Registration: GEOG 3300*
- GEOG 3430 - Geography of Tourism  *Summer 2010 Registration: GEOG 3430*
- GEOG 3501 - Geography of Health  *Summer 2010 Registration: GEOG 3501*
- GEOG 4265 - Sustainability in Resources Management  *Summer 2010 Registration: GEOG 4265*
- OR -
- GEOG 5265 - Sustainability in Resources Management  *Summer 2010 Registration: GEOG 5265*
- GEOG 4335 - Contemporary Environmental Issues  *Summer 2010 Registration: GEOG 4335*
- OR -
- GEOG 5335 - Contemporary Environmental Issues  *Summer 2010 Registration: GEOG 5335*
- GEOG 4350 - Environment and Society in the American Past  *Summer 2010 Registration: GEOG 4350*
- OR -
- GEOG 5350 - Environment and Society in the American Past  *Summer 2010 Registration: GEOG 5350*
- GEOG 4640 - Urban Geography: Denver and the U.S.  *Summer 2010 Registration: GEOG 4640*
• GEOG 5640 - Urban Geography: Denver and the U.S.  Summer 2010
  Registration: GEOG 5640
• GEOG 4710 - Disasters, Climate Change, and Health  Summer 2010
  Registration: GEOG 4710

Regional Geography

• GEOG 1102 - World Regional Geography  Summer 2010 Registration: GEOG 1102
• GEOG 3100 - Geography of Colorado  Summer 2010 Registration: GEOG 3100
• GEOG 3120 - Geography of Europe  Summer 2010 Registration: GEOG 3120
• GEOG 3130 - Central America and the Caribbean  Summer 2010 Registration: GEOG 3130
• GEOG 3140 - Geography of South America  Summer 2010 Registration: GEOG 3140
• GEOG 3150 - Middle East  Summer 2010 Registration: GEOG 3150
• GEOG 3160 - Geography of China  Summer 2010 Registration: GEOG 3160

Techniques for Geographical Analysis

• GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing  Summer 2010 Registration: GEOG 4060
  -OR-
• GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing  Summer 2010 Registration: GEOG 5060
• GEOG 4070 - Remote Sensing II: Advanced Remote Sensing  Summer 2010 Registration: GEOG 4070
  -OR-
• GEOG 5070 - Remote Sensing II: Advanced Remote Sensing  Summer 2010 Registration: GEOG 5070
• GEOG 4081 - Introduction to Cartography and Computer Mapping  Summer 2010 Registration: GEOG 4081
• GEOG 4085 - GIS Applications for the Urban Environment  Summer 2010 Registration: GEOG 4085
  -OR-
• GEOG 5085 - GIS Applications for the Urban Environment  Summer 2010 Registration: GEOG 5085
• GEOG 4090 - Environmental Modeling with Geographic Information Systems  Summer 2010 Registration: GEOG 4090
  -OR-
• GEOG 5090 - Environmental Modeling with Geographic Information Systems  Summer 2010 Registration: GEOG 5090
• GEOG 4095 - Deploying GIS Functionality on the Web  Summer 2010 Registration: GEOG 4095
-OR-
-GEOG 5095 - Deploying GIS Functionality on the Web Summer 2010 Registration: GEOG 5095
-GEOG 4220 - Environmental Impact Assessment Summer 2010 Registration: GEOG 4220
-OR-
-GEOG 5220 - Environmental Impact Assessment Summer 2010 Registration: GEOG 5220
-GEOG 4230 - Hazard Mitigation and Vulnerability Assessment Summer 2010 Registration: GEOG 4230

-GEOG 5230 - Hazard Mitigation and Vulnerability Assessment Summer 2010 Registration: GEOG 5230
-GEOG 4235 - GIS Applications in the Health Sciences Summer 2010 Registration: GEOG 4235
-OR-
-GEOG 5235 - GIS Applications in the Health Sciences Summer 2010 Registration: GEOG 5235
-GEOG 4770 - Applied Statistics for the Natural Sciences Summer 2010 Registration: GEOG 4770

Total: 18 Hours

OPTION TOTAL: 36 HOURS

Option 2—Environmental Science

Option Advisor: Frederick B. Chambers

Option 2 allows geography majors to concentrate on course work in environmental science.

ANCILLARY COURSES

Option 2 students must take one general biology and one general chemistry course (both with labs), OR a sequence of either (BIOL 2051 and 2061 with labs or CHEM 2031 and 2061 with labs). If applying to the MS in Environmental Sciences program, students must have taken both sequences. Also, students must have an introductory statistics course. Course choices with descriptions are below:

- BIOL 2051 - General Biology I Summer 2010 Registration: BIOL 2051
  and  BIOL 2071 - General Biology Laboratory I Summer 2010 Registration: BIOL 2071
  (4 semester hours total), followed by:
- BIOL 2061 - General Biology II  Summer 2010 Registration: BIOL 2061
  and  BIOL 2081 - General Biology Laboratory II  Summer 2010 Registration: BIOL 2081
  (4 semester hours total)

- CHEM 2031 - General Chemistry I  Summer 2010 Registration: CHEM 2031
  and  CHEM 2038 - General Chemistry Laboratory I  Summer 2010 Registration: CHEM 2038
  (4 semester hours total), followed by:

- CHEM 2061 - General Chemistry II  Summer 2010 Registration: CHEM 2061
  and  CHEM 2068 - General Chemistry Laboratory II  Summer 2010 Registration: CHEM 2068
  (5 semester hours total)

-AND-

One introductory statistics course (3 semester hours). Suitable courses include:

- MATH 2830 - Introductory Statistics  Summer 2010 Registration: MATH 2830

- PSYC 2090 - Statistics and Research Methods  Summer 2010 Registration: PSY 2090

**OPTION 2 REQUIREMENTS**

**Lower division**

- ENVS 1042 - Introduction to Environmental Sciences  Summer 2010 Registration: ENVS 1042

- GEOG 1202 - Introduction to Physical Geography  Summer 2010 Registration: GEOG 1202

- GEOG 1302 - Introduction to Human Geography  Summer 2010 Registration: GEOG 1302
  -OR-

- ENVS 1342 - Introduction to Environment and Society  Summer 2010 Registration: ENVS 1342

- GEOG 2080 - Introduction to Mapping and Map Analysis  Summer 2010 Registration: GEOG 2080

**Upper division**

- GEOG 3232 - Weather and Climate  Summer 2010 Registration: GEOG 3232

- GEOG 3411 - Globalization and Regional Development  Summer 2010 Registration: GEOG 3411
  -OR-

- GEOG 4335 - Contemporary Environmental Issues  Summer 2010 Registration: GEOG 4335
  -OR-
- GEOG 5335 - Contemporary Environmental Issues Summer 2010 Registration: GEOG 5335
- GEOG 4080 - Introduction to GIS Summer 2010 Registration: GEOG 4080
  -OR-
- GEOG 5080 - Introduction to GIS Summer 2010 Registration: GEOG 5080

Total: 22 Hours

ADDITIONAL REQUIREMENTS

Choose six additional courses:

Environmental Science

- GEOG 4020 - Earth Environments and Human Impacts Summer 2010 Registration: GEOG 4020
- GEOG 4265 - Sustainability in Resources Management Summer 2010 Registration: GEOG 4265
  -OR-
- GEOG 5265 - Sustainability in Resources Management Summer 2010 Registration: GEOG 5265

Plus one class from the following list:

- ENVS 3082 - Energy and the Environment Summer 2010 Registration: ENVS 3082
- ENVS 5030 - Environmental Geology Summer 2010 Registration: ENVS 5030
- GEOG 3240 - Colorado Climates Summer 2010 Registration: GEOG 3240
- GEOG 4010 - Landscape Geochemistry Summer 2010 Registration: GEOG 4010
- GEOG 4240 - Principles of Geomorphology Summer 2010 Registration: GEOG 4240
  -OR-
- GEOG 4270 - Glacial Geomorphology Summer 2010 Registration: GEOG 4270

Upper-Division Environmental-Oriented Biology or Chemistry (3 Hours)

One upper-division biology or chemistry course related to the student’s environmental science interest must be taken as part of the environmental science option.

Techniques for Environmental Analysis

Quantitative methods (one course):

- GEOG 4770 - Applied Statistics for the Natural Sciences Summer 2010 Registration: GEOG 4770
-OR-

- GEOL 4770 - Applied Statistics for the Natural Sciences  Summer 2010  
  Registration: GEOL 4770

Geo-Spatial Analysis (one course):

- GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing  Summer 2010  
  Registration: GEOG 4060
-OR-
- GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing  Summer 2010  
  Registration: GEOG 5060
- GEOG 4085 - GIS Applications for the Urban Environment  Summer 2010  
  Registration: GEOG 4085
-OR-
- GEOG 5085 - GIS Applications for the Urban Environment  Summer 2010  
  Registration: GEOG 5085

Choose six additional courses:
Urban Studies and Planning

- GEOG 4640 - Urban Geography: Denver and the U.S. Summer 2010
  Registration: GEOG 4640
  -OR-
- GEOG 5640 - Urban Geography: Denver and the U.S. Summer 2010
  Registration: GEOG 5640

Plus three courses from the following list:

- GEOG 4000 - Planning Methods I Summer 2010 Registration: GEOG 4000
  -OR-
- URPL 5510 - Planning Methods I Summer 2010 Registration: URP 5510
- GEOG 4220 - Environmental Impact Assessment Summer 2010 Registration: GEOG 4220
  -OR-
- GEOG 5220 - Environmental Impact Assessment Summer 2010 Registration: GEOG 5220
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment Summer 2010 Registration: GEOG 4230
  -OR-
- GEOG 5230 - Hazard Mitigation and Vulnerability Assessment Summer 2010 Registration: GEOG 5230
- GEOG 4260 - Natural Resource Planning and Management Summer 2010 Registration: GEOG 4260
  -OR-
- URPL 6653 - Natural Resource Planning and Management Summer 2010 Registration: URP 6653
- GEOG 4265 - Sustainability in Resources Management Summer 2010 Registration: GEOG 4265
  -OR-
- GEOG 5265 - Sustainability in Resources Management Summer 2010 Registration: GEOG 5265
- GEOG 4400 - Regional Economic Development Summer 2010 Registration: GEOG 4400
  -OR-
- URPL 6671 - Regional Economic Development Summer 2010 Registration: URP 6671
- GEOG 4630 - Transportation Planning I: Transport Network Analysis Summer 2010 Registration: GEOG 4630
  -OR-
- URPL 6673 - Transportation Planning I: Land Use and Transport Summer 2010 Registration: URP 6673
• GEOG 4670 - Transportation Planning II: Urban Transportation Planning
  Summer 2010 Registration: GEOG 4670
-OR-
• URPL 6674 - Transportation Planning II Summer 2010 Registration: URP 6674
• GEOG 4710 - Disasters, Climate Change, and Health Summer 2010
  Registration: GEOG 4710
• URPL 5501 - Planning Issues and Processes Summer 2010 Registration: URP 5501

Techniques for Urban Analysis

Choose one:

• GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing
  Summer 2010 Registration: GEOG 4060
-OR-
• GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing
  Summer 2010 Registration: GEOG 5060
• GEOG 4070 - Remote Sensing II: Advanced Remote Sensing Summer 2010
  Registration: GEOG 4070
-OR-
• GEOG 5070 - Remote Sensing II: Advanced Remote Sensing Summer 2010
  Registration: GEOG 5070
• GEOG 4081 - Introduction to Cartography and Computer Mapping Summer 2010
  Registration: GEOG 4081
• GEOG 4085 - GIS Applications for the Urban Environment Summer 2010
  Registration: GEOG 4085
-OR-
• GEOG 5085 - GIS Applications for the Urban Environment Summer 2010
  Registration: GEOG 5085
• GEOG 4090 - Environmental Modeling with Geographic Information Systems
  Summer 2010 Registration: GEOG 4090
-OR-
• GEOG 5090 - Environmental Modeling with Geographic Information Systems
  Summer 2010 Registration: GEOG 5090
• GEOG 4095 - Deploying GIS Functionality on the Web Summer 2010
  Registration: GEOG 4095
-OR-
• GEOG 5095 - Deploying GIS Functionality on the Web Summer 2010
  Registration: GEOG 5095
• GEOG 4235 - GIS Applications in the Health Sciences Summer 2010
  Registration: GEOG 4235
-OR-
• GEOG 5235 - GIS Applications in the Health Sciences  Summer 2010  
  Registration: GEOG 5235

Community/Professional Experience

(optional but highly recommended)

• GEOG 3939 - Internship/Cooperative Education  Summer 2010  Registration:  
  GEOG 3939

Total: 18 Hours

OPTION TOTAL: 39 HOURS

*Note:* Up to 4 semester hours of honors thesis course work or up to 3 semester hours of 
internship may be counted toward the 18 hours of additional requirements. Such 
substitutions must be approved by a program option advisor.

Option 5—Earth Science

Option Advisor: Ryan Sincavage

Option 5 allows geography majors to concentrate on studying natural and physical 
processes within and on the surface of the planet.

OPTION 5 REQUIREMENTS

Lower division

• ENVS 1342 - Introduction to Environment and Society  Summer 2010  
  Registration: ENVS 1342  
  -OR- 
  • GEOG 1302 - Introduction to Human Geography  Summer 2010  Registration:  
    GEOG 1302  
  • GEOL 1072 - Physical Geology: Surface Processes  Summer 2010  Registration:  
    GEOL 1072  
  • GEOL 1082 - Physical Geology: Internal Processes  Summer 2010  Registration:  
    GEOL 1082  
  • GEOG 2080 - Introduction to Mapping and Map Analysis  Summer 2010  
    Registration: GEOG 2080
Upper division

- GEOG 3411 - Globalization and Regional Development *Summer 2010 Registration: GEOG 3411*
- OR-
- GEOG 4335 - Contemporary Environmental Issues *Summer 2010 Registration: GEOG 4335*
- OR-
- GEOG 5335 - Contemporary Environmental Issues *Summer 2010 Registration: GEOG 5335*
- GEOG 4080 - Introduction to GIS *Summer 2010 Registration: GEOG 4080*
- OR-
- GEOG 5080 - Introduction to GIS *Summer 2010 Registration: GEOG 5080*

**Total: 20 Hours**

**ADDITIONAL REQUIREMENTS**

Choose six additional courses:

**Earth Science**

- GEOG 3232 - Weather and Climate *Summer 2010 Registration: GEOG 3232*
- GEOG 4240 - Principles of Geomorphology *Summer 2010 Registration: GEOG 4240*
- GEOL 3011 - Mineralogy *Summer 2010 Registration: GEOL 3011*
- GEOL 3421 - Sedimentation and Stratigraphy *Summer 2010 Registration: GEOL 3421*

Plus one of the following courses:

- GEOG 3240 - Colorado Climates *Summer 2010 Registration: GEOG 3240*
- GEOG 4010 - Landscape Geochemistry *Summer 2010 Registration: GEOG 4010*
- GEOG 4020 - Earth Environments and Human Impacts *Summer 2010 Registration: GEOG 4020*
- GEOG 4095 - Deploying GIS Functionality on the Web *Summer 2010 Registration: GEOG 4095*
- OR-
- GEOG 5095 - Deploying GIS Functionality on the Web *Summer 2010 Registration: GEOG 5095*
- OR-
- GEOG 4270 - Glacial Geomorphology *Summer 2010 Registration: GEOG 4270*
- GEOL 3032 - Geology of Colorado *Summer 2010 Registration: GEOL 3032*
- GEOL 4030 - Environmental Geology *Summer 2010 Registration: GEOL 4030*
- OR-
• **ENVS 5030** - Environmental Geology *Summer 2010 Registration: ENVS 5030*
• **GEOL 4111** - Field Geology *Summer 2010 Registration: GEOL 4111*
• **GEOL 4402** - Unsaturated Zone Hydrology *Summer 2010 Registration: GEOL 4402*

**Techniques for Earth Science Analysis**

Choose one:

• **GEOG 4060** - Remote Sensing I: Introduction to Environmental Remote Sensing  
  *Summer 2010 Registration: GEOG 4060*
  - OR -  
  **GEOG 5060** - Remote Sensing I: Introduction to Environmental Remote Sensing  
  *Summer 2010 Registration: GEOG 5060*

• **GEOG 4090** - Environmental Modeling with Geographic Information Systems  
  *Summer 2010 Registration: GEOG 4090*
  - OR -  
  **GEOG 5090** - Environmental Modeling with Geographic Information Systems  
  *Summer 2010 Registration: GEOG 5090*

• **GEOG 4095** - Deploying GIS Functionality on the Web  
  *Summer 2010 Registration: GEOG 4095*
  - OR -  
  **GEOG 5095** - Deploying GIS Functionality on the Web  
  *Summer 2010 Registration: GEOG 5095*

• **GEOG 4770** - Applied Statistics for the Natural Sciences  
  *Summer 2010 Registration: GEOG 4770*
  - OR -  
  **GEOL 4770** - Applied Statistics for the Natural Sciences  
  *Summer 2010 Registration: GEOL 4770*

• **GEOL 4111** - Field Geology  
  *Summer 2010 Registration: GEOL 4111*

**Total: 20 Hours**

**OPTION TOTAL: 40 HOURS**

**Senior Exit Examination**

*All* majors are required to take a senior exit examination based on required courses in the discipline.
Certificate

Environmental Sciences Graduate Certificate

The graduate-level certificate in environmental sciences has seven options: air quality, ecosystems, environmental health, environmental science education, geospatial analysis, hazardous waste and water quality. Each option comprises four courses and is designed to approach an environmental issue from various disciplines. To earn a certificate, students are required to satisfactorily complete the courses in the option of their interest. These courses may be taken as electives within an MS degree program or through nondegree admission. Students must have the prerequisites for each course and must meet the requirements listed. Contact the option advisor for the particular option of interest before starting. A certificate will be issued upon proof of satisfactory completion of the courses. For an MS degree, students must coordinate the option courses with electives in their program. The listings of courses in each option are in the electives section of the master’s program information.

Geographic Information Science Undergraduate Certificate

GISci Certificate Advisor: Rafael Moreno

Office: North Classroom, 3524

Telephone: 303-352-3762

E-mail: rafael.moreno@ucdenver.edu
The intention of this certificate is to provide undergraduates with a mechanism for demonstrating capabilities in spatial techniques in the social and/or physical sciences. The focus of this certificate is on a broad array of geotechniques, including geographic information systems, remote sensing, cartography and statistics, which give students additional analytical skills to take into the workplace or on to graduate school. This certificate is designed for geography majors as well as nonmajors.

Upon successful completion of the certificate, students will be able to:

- understand basic theoretical underpinnings of spatial analysis
- apply geo-spatial technologies to real-world problems
- have a basic knowledge of how to operate at least three types of software used for spatial analysis

Students must have a 3.0 GPA average in all approved geographic technology courses to earn the certificate. The certificate will be awarded when the student graduates with the bachelor’s degree. For those who already have a bachelor’s degree, the certificate will be awarded upon completion of the program.

Application

Students may begin the program in any semester or during the summer by making arrangements with Dr. Rafael Moreno, the GISci certificate coordinator, and completing and signing the Application for GISci Certificate. This should be done once you have elected to pursue the certificate. Those who are not current students must apply for non-degree admission (go to Information for Undergraduate Students and click on Nondegree Students link at top of page) before registering for any classes.

Curriculum

To obtain the certificate, students must complete four core courses, one elective, and a 1-hour independent study, totaling 16 hours. Although the four core courses may be taken in any order, it is advisable to begin with GEOG 3080, Introduction to Mapping and Map Analysis, since this course familiarizes students with many key concepts used in the other classes. Of the four core requirements, only the statistics class has prerequisites, including algebra and introductory calculus. Because of the technical nature of the GIS and remote sensing course work, however, some mathematical experience is desirable prior to beginning the program. All core courses are offered on a yearly basis. Any alterations to the program MUST be approved by the GISci Coordinator.

Course Requirements

Core Courses:
• GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing  
  Summer 2010 Registration: GEOG 4060
-OR-
• GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing  
  Summer 2010 Registration: GEOG 5060
  (May also take as GEOL 4060 or 5060)
• GEOG 4080 - Introduction to GIS  Summer 2010 Registration: GEOG 4080
  -OR-
• GEOG 5080 - Introduction to GIS  Summer 2010 Registration: GEOG 5080
• GEOL 4770 - Applied Statistics for the Natural Sciences  Summer 2010  
  Registration: GEOL 4770
  -OR-
• GEOL 5770 - Applied Statistics for the Natural Sciences  Summer 2010  
  Registration: GEOL 5770
  OR equivalent course approved by the GISci Certificate Coordinator

Lab Requirement (to be taken at the end of the program):

Independent Study in GEOG or GEOL with a geographic technology professor (Moreno, Thomas, Wyckoff, or instructor approved by GISci coordinator). The independent project must also demonstrate a proficiency in GIS in the student’s area of interest (1 credit hour) or take CVEN 5386. GIS Laboratory (3 credit hours). See below for course numbers/descriptions.

• GEOG 4840 - Independent Study: GEOG  Summer 2010 Registration: GEOG 4840
• GEOL 4840 - Independent Study: GEOL  Summer 2010 Registration: GEOL 4840
• CVEN 5386 - GIS Laboratory  Summer 2010 Registration: C E 5386

Elective (choose one from the following):

• GEOG 4070 - Remote Sensing II: Advanced Remote Sensing  Summer 2010  
  Registration: GEOG 4070
  -OR-
• GEOG 5070 - Remote Sensing II: Advanced Remote Sensing  Summer 2010  
  Registration: GEOG 5070
  (May also take as GEOL 4070 or 5070)
• GEOG 4081 - Introduction to Cartography and Computer Mapping  Summer 2010  
  Registration: GEOG 4081
  -OR-
• GEOG 5081 - Introduction to Cartography and Computer Mapping  Summer 2010  
  Registration: GEOG 5081
- GEOG 4085 - GIS Applications for the Urban Environment  Summer 2010  
  Registration: GEOG 4085  
  -OR-  
- GEOG 5085 - GIS Applications for the Urban Environment  Summer 2010  
  Registration: GEOG 5085  
- GEOG 4090 - Environmental Modeling with Geographic Information Systems  
  Summer 2010 Registration: GEOG 4090  
  -OR-  
- GEOG 5090 - Environmental Modeling with Geographic Information Systems  
  Summer 2010 Registration: GEOG 5090  
- GEOG 4095 - Deploying GIS Functionality on the Web  
  Summer 2010 Registration: GEOG 4095  
  -OR-  
- GEOG 5095 - Deploying GIS Functionality on the Web  
  Summer 2010 Registration: GEOG 5095  
- GEOG 4235 - GIS Applications in the Health Sciences  
  Summer 2010 Registration: GEOG 4235  
  -OR-  
- GEOG 5235 - GIS Applications in the Health Sciences  
  Summer 2010 Registration: GEOG 5235  
- CVEN 5382 - GIS Spatial Database Development  
  Summer 2010 Registration: CE 5382  
- CVEN 5385 - GIS Relational Database Systems  
  Summer 2010 Registration: CE 5385  
  OR an elective approved by the GISci Certificate Coordinator.

Non Degree

Environmental Sciences Minor

The environmental sciences minor offers students exposure to the breadth of environmental issues. Students may emphasize the natural/physical sciences, the social sciences and humanities or structure their own mixed emphasis.

Program Requirements

Lecture/Laboratory Courses

Choose two lecture/laboratory courses (see Note 2):

- BIOL 2051 - General Biology I  
  Summer 2010 Registration: BIOL 2051  
  and  
- BIOL 2071 - General Biology Laboratory I  
  Summer 2010 Registration: BIOL 2071
- BIOL 2061 - General Biology II Summer 2010 Registration: BIOL 2061
  and  BIOL 2081 - General Biology Laboratory II Summer 2010 Registration: BIOL 2081
- CHEM 2031 - General Chemistry I Summer 2010 Registration: CHEM 2031
  and  CHEM 2038 - General Chemistry Laboratory I Summer 2010 Registration: CHEM 2038
- CHEM 2061 - General Chemistry II Summer 2010 Registration: CHEM 2061
  and  CHEM 2068 - General Chemistry Laboratory II Summer 2010 Registration: CHEM 2068
- ENVS 1042 - Introduction to Environmental Sciences Summer 2010 Registration: ENVS 1042
- GEOL 1072 - Physical Geology: Surface Processes Summer 2010 Registration: GEOL 1072
- GEOL 1082 - Physical Geology: Internal Processes Summer 2010 Registration: GEOL 1082
- PHYS 2010 - College Physics I Summer 2010 Registration: PHYS 2010
  and  PHYS 2030 - College Physics Lab I Summer 2010 Registration: PHYS 2030
- PHYS 2020 - College Physics II Summer 2010 Registration: PHYS 2020
  and  PHYS 2040 - College Physics Lab II Summer 2010 Registration: PHYS 2040

Total: 8-10 Hours

Upper-division Courses

Choose three upper-division courses outside of the student’s major discipline from the following list (see Notes 5 and 6):

- ANTH 4010 - Global Health Studies I: The Biocultural Basis of Health Summer 2010 Registration: ANTH 4010
- BIOL 3411 - Principles of Ecology Summer 2010 Registration: BIOL 3411
- CHEM 4700 - Environmental Chemistry Summer 2010 Registration: CHEM 4700
  (see note 4)
- ECON 4540 - Environmental Economics Summer 2010 Registration: ECON 4540
- ENVS 3082 - Energy and the Environment Summer 2010 Registration: ENVS 3082
  -OR-
- PHYS 3082 - Energy and the Environment Summer 2010 Registration: PHYS 3082
- GEOG 3232 - Weather and Climate Summer 2010 Registration: GEOG 3232
- GEOG 3240 - Colorado Climates Summer 2010 Registration: GEOG 3240
- GEOG 4020 - Earth Environments and Human Impacts Summer 2010 Registration: GEOG 4020
• ENVS 5020 - Earth Environments and Human Impacts Summer 2010
  Registration: ENVS 5020
• GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing Summer 2010 Registration: GEOG 4060
  -OR-
• GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing Summer 2010 Registration: GEOG 5060
• GEOG 4080 - Introduction to GIS Summer 2010 Registration: GEOG 4080
  -OR-
• GEOG 5080 - Introduction to GIS Summer 2010 Registration: GEOG 5080
• GEOG 4090 - Environmental Modeling with Geographic Information Systems Summer 2010 Registration: GEOG 4090
  -OR-
• GEOG 5090 - Environmental Modeling with Geographic Information Systems Summer 2010 Registration: GEOG 5090
• GEOG 4220 - Environmental Impact Assessment Summer 2010 Registration: GEOG 4220
  -OR-
• GEOG 5220 - Environmental Impact Assessment Summer 2010 Registration: GEOG 5220
• GEOG 4230 - Hazard Mitigation and Vulnerability Assessment Summer 2010 Registration: GEOG 4230
  -OR-
• GEOG 5230 - Hazard Mitigation and Vulnerability Assessment Summer 2010 Registration: GEOG 5230
• GEOG 4240 - Principles of Geomorphology Summer 2010 Registration: GEOG 4240
• GEOG 4265 - Sustainability in Resources Management Summer 2010 Registration: GEOG 4265
  -OR-
• GEOG 5265 - Sustainability in Resources Management Summer 2010 Registration: GEOG 5265
• GEOG 4270 - Glacial Geomorphology Summer 2010 Registration: GEOG 4270
• GEOG 4335 - Contemporary Environmental Issues Summer 2010 Registration: GEOG 4335
  -OR-
• GEOG 5335 - Contemporary Environmental Issues Summer 2010 Registration: GEOG 5335
• GEOG 4350 - Environment and Society in the American Past Summer 2010 Registration: GEOG 4350
  -OR-
• GEOG 5350 - Environment and Society in the American Past Summer 2010 Registration: GEOG 5350
• GEOL 4030 - Environmental Geology  Summer 2010 Registration: GEOL 4030
• HIST 4232 - Historic Preservation  Summer 2010 Registration: HIST 4232
• HIST 4810 - Special Topics  Summer 2010 Registration: HIST 4810
• PSCI 4354 - Environmental Politics  Summer 2010 Registration: PSC 4354

Total: 9 Hours

Minor Total: 17-19 Hours

Notes:

1. All work submitted for an environmental sciences minor must have a grade of C (2.0) or above.
2. The lecture/laboratory sequence can be part of the requirements for the major, but not in the student’s major department (i.e., a biology major cannot use the general biology sequence, but could use the general chemistry sequence, which is also required for the biology major).
3. Students must take a minimum of 9 hours of the upper-division courses at the Downtown Campus.
4. If the student plans to go on to the MS in environmental sciences program, he/she should choose courses other than CHEM 4700. This is a core course in the MS in environmental sciences program.
5. Many of the upper-division courses have prerequisites; the student must check the catalog for prerequisite requirements for these courses.
6. The four upper-division elective courses for the environmental sciences minor cannot be from the student’s major discipline, even if the particular course is not counted toward the major.

Geography Minor

Students must complete 15 semester hours in geography, including at least 6 semester hours of upper-division courses. Students must achieve a grade of C (2.0) or above on required courses. At least 9 semester hours of upper-division geography courses must be completed at the Downtown Campus.

Geology Minor

At least two of the upper-division requirements must be completed at UC Denver. Transfer students who have earned the equivalent of all these courses elsewhere must complete a minimum of two of the required upper-division courses at UC Denver. No grade below a C (2.0) will be counted toward the minor requirements.
Required Courses

- GEOL 1072 - Physical Geology: Surface Processes  
  Summer 2010 Registration: GEOL 1072
- GEOL 1082 - Physical Geology: Internal Processes  
  Summer 2010 Registration: GEOL 1082

Choose at least two of the following courses:

- GEOL 3011 - Mineralogy  
  Summer 2010 Registration: GEOL 3011
- GEOL 3421 - Sedimentation and Stratigraphy  
  Summer 2010 Registration: GEOL 3421
- GEOL 4030 - Environmental Geology  
  Summer 2010 Registration: GEOL 4030

Minor Total: 15-16 Hours

Urban and Regional Planning Minor

The undergraduate planning minor in the Department of Geography and Environmental Sciences provides nongeography undergraduate students the opportunity to pursue studies in the professional field of planning. Geography majors can pursue the urban studies option, so this minor would not be available to these majors.

Geography and urban and regional planning share a common concern for the spatial configuration of the places that we inhabit and enjoy. In recognition of this close association, there is currently an articulation agreement between the Department of Geography and Environmental Sciences and the College of Architecture and Planning that provides students with a mechanism for acceleration through the master of urban and regional planning (MURP) degree program, if accepted into that graduate program. Those students completing the requirements for an undergraduate planning minor may also be eligible to pursue an accelerated MURP degree.

To meet the requirements for this minor, students must complete three core requirements and two electives, totaling 15 semester hours. Although the three core courses may be taken in any order, it is advisable to begin with GEOG 1602, since this course familiarize students with many key concepts used in other classes. All core courses are offered on a yearly basis.

Program Requirements
Required Core

- GEOG 1602 - Introduction to Urban Studies  *Summer 2010 Registration: GEOG 1602*
- GEOG 4640 - Urban Geography: Denver and the U.S.  *Summer 2010 Registration: GEOG 4640*
- GEOG 4840 - Independent Study: GEOG  *Summer 2010 Registration: GEOG 4840*
  (Take as topic: Urban Sustainability)

Total: 9 Hours

Electives

Choose two:

- GEOG 4000 - Planning Methods I  *Summer 2010 Registration: GEOG 4000*
  -OR-
- URPL 5510 - Planning Methods I  *Summer 2010 Registration: URPL 5510*
- GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing  *Summer 2010 Registration: GEOG 4060*
  -OR-
- GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing  *Summer 2010 Registration: GEOG 5060*
- GEOG 4080 - Introduction to GIS  *Summer 2010 Registration: GEOG 4080*
  -OR-
- GEOG 5080 - Introduction to GIS  *Summer 2010 Registration: GEOG 5080*
- GEOG 4085 - GIS Applications for the Urban Environment  *Summer 2010 Registration: GEOG 4085*
  -OR-
- GEOG 5085 - GIS Applications for the Urban Environment  *Summer 2010 Registration: GEOG 5085*
- GEOG 4090 - Environmental Modeling with Geographic Information Systems  *Summer 2010 Registration: GEOG 4090*
  -OR-
- GEOG 5090 - Environmental Modeling with Geographic Information Systems  *Summer 2010 Registration: GEOG 5090*
- GEOG 4095 - Deploying GIS Functionality on the Web  *Summer 2010 Registration: GEOG 4095*
  -OR-
- GEOG 5095 - Deploying GIS Functionality on the Web  *Summer 2010 Registration: GEOG 5095*
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment *Summer 2010 Registration: GEOG 4230 *
- OR-
- GEOG 5230 - Hazard Mitigation and Vulnerability Assessment *Summer 2010 Registration: GEOG 5230 *
- GEOG 4235 - GIS Applications in the Health Sciences *Summer 2010 Registration: GEOG 4235 *
- OR-
- GEOG 5235 - GIS Applications in the Health Sciences *Summer 2010 Registration: GEOG 5235 *
- GEOG 4400 - Regional Economic Development *Summer 2010 Registration: GEOG 4400 *
- GEOG 4630 - Transportation Planning I: Transport Network Analysis *Summer 2010 Registration: GEOG 4630 *
- GEOG 4990 - Special Topics *Summer 2010 Registration: GEOG 4990 *
- URPL 5501 - Planning Issues and Processes *Summer 2010 Registration: URPL 5501 *

**Total: 6 Hours**

**Minor Total: 15 Hours**

**Entrance Requirements**

All undergraduate students, except geography majors, are eligible for this minor.

**Performance Requirements**

Students must complete 15 semester hours in geography and/or planning. Because of the professional nature of this minor and the potential for fast-tracking in the MURP program, 12 semester hours of upper-division courses are required. Students must achieve a grade of $C$ (2.0) or higher in required courses. All upper-division courses must be completed at the Downtown Campus and a minimum of 9 semester hours must be completed in CLAS (geography) to satisfy residency requirements.

Faculty (Concurrently Appointed)

Professors:
Larry Anderson, chemistry
Lloyd Burton, School of Public Affairs
Anne Chin, geography and environmental science
Lynn Johnson, civil engineering
John Lanning, chemistry
Diana Tomback, biology

Associate Professors:
Leo Bruederle, biology
Frederick Chambers, geography and environmental science
Greg Cronin, biology
Brian Page, geography and environmental science
Anu Ramaswami, civil engineering
Timberly Roane, biology
Deborah Thomas, geography and environmental science
John Wyckoff, geography and environmental science

Assistant Professors:
Casey Allen, geography and environmental science
Peter Anthamatten, geography and environmental science
Michael Green, biology
Rafael Moreno, geography and environmental science
Brian Muller, planning and design
Gregory Simon, geography and environmental science
Bryan S. Wee, geography and environmental science

Environmental sciences is a multidisciplinary study of the environment, housed in the Department of Geography and Environmental Sciences. Academic fields involved in environmental sciences include chemistry, biology and ecology, physics, geology, geography, anthropology, engineering, political science, law, economics and the health sciences. Students planning to pursue the MS in environmental sciences must either have earned a bachelor’s degree or have taken significant course work in the
natural/physical sciences or engineering and completed several other prerequisites (see the following graduate information). Graduate-level certificates in environmental sciences are also offered. The certificates may be earned stand-alone or as options in the MS in environmental sciences.

Environmental careers encompass a broad range of professions, from those with a strong foundation in the natural/physical sciences or engineering to those based in the social sciences and/or humanities. Students interested in environmental issues and careers should investigate the whole field before deciding which course to follow. At the Downtown Campus, the MS in environmental sciences emphasizes the natural/physical sciences and engineering with the addition of the social sciences and humanities.

The MS in environmental sciences degree is designed to provide training in engineering, natural/physical sciences and socioeconomic analysis. The goals of the program are to (1) enhance the interdisciplinary communication and analytical skills of the student, and (2) provide a multidisciplinary approach for more intensive study of a particular environmental issue. Students will receive instruction in the physical and biological dynamics of various ecosystems, environmental engineering and socioeconomic issues associated with environmental analysis.

Graduates of the environmental sciences program are involved in many different areas, such as reviewing environmental impact statements, monitoring groundwater quality and communicating with the public. Many students have found employment in various agencies (U.S. Environmental Protection Agency, U.S. Geological Survey, Colorado State Department of Public Health and Environment) and private-sector environmental and engineering firms.

**Requirements for Admission**

The program is for students who either have baccalaureate degrees or significant background in one of the natural/physical sciences or engineering. In addition, minimum undergraduate science and math requirements are:

- one semester of calculus and one semester of upper-division statistics *(if applicant is missing the statistics course, he/she can be admitted but must take ENVS 5600, Applied Statistics, or an approved statistics course as an elective before receiving the MS in environmental sciences degree)*
- two semesters general chemistry with lab
- one semester physics
- two semesters general biology with lab

If only two semesters of the six prerequisite courses are lacking, students may be admitted, but must take them in the first year in the program. Applicants who have fulfilled all prerequisites have a better chance of acceptance. Applicants may be required
to take additional prerequisite courses (necessary for completing particular core or elective courses). The prerequisite courses will not count toward the MS environmental sciences degree. As part of the admission review process, applicants are required to submit a graduate application, a minimum of three letters of recommendation and transcripts from all institutions previously attended. UC Denver has a minimum requirement of a 3.0 undergraduate GPA for applicants to the Graduate School. The program admits new students for the fall semester and the number of students admitted to the program depends, in part, on space availability. Applicants must submit all materials by the March 1 deadline.

Financial Aid

There are three types of financial aid available: tuition assistance; research assistantship positions funded by grants to specific program faculty; and the regular package of financial aid (primarily loans) available through the financial aid office on the Downtown Campus. Incoming students will be automatically considered for program-distributed tuition assistance at the time of admission to the program. Continuing students will be regularly apprised of available aid and positions. Students interested in research assistantships should consult individual faculty with whom they wish to work regarding potential assistantship positions. All other aid should be requested through the UC Denver Financial Aid Office, North Classroom, 1030, Campus Box 125, P.O. Box 173364, Denver, CO 80217-3364. Telephone: 303-556-2886.

Internships

Students in the MS in environmental sciences program are strongly encouraged to contact the Experiential Learning Center for internships and paid positions related to environmental sciences. The Experiential Learning Center is located in the Tivoli Student Union, Suite 260. Telephone: 303-556-2250. Many students have had internships in federal agencies, such as the U.S. Environmental Protection Agency and the U.S. Geological Survey.

Program Requirements

The MS in environmental sciences is a 39-hour program that provides students with two alternate plans: Plan I requires a thesis, while Plan II is a nonthesis program. General requirements for the program include: a set of core courses (15 semester hours), the MS in environmental sciences seminar course (ENVS 6002, 3 semester hours), an environmental policy course (3 semester hours), and elective courses (12 semester hours minimum). Students choosing Plan I must also complete 6 hours of thesis, while those choosing Plan II must complete 6 hours of additional elective course work. Students opting for Plan II are encouraged to enroll in 3 hours of independent study (ENVS 6840) as one of their electives.
The degree is offered through the College of Liberal Arts and Sciences with the cooperation of the College of Engineering and Applied Science. In addition, some courses offered by the College of Architecture and Planning, the School of Public Affairs and the Business School are relevant and applicable to the program.

Required Core Courses

Fall

- CVEN 5401 - Introduction to Environmental Engineering  
  Summer 2010 Registration: CE 5401
- ENVS 5030 - Environmental Geology  
  Summer 2010 Registration: ENVS 5030
- ENVS 6200 - Risk Assessment  
  Summer 2010 Registration: ENVS 6200

Spring

- BIOL 5445 - Applied Environmental Biology  
  Summer 2010 Registration: BIOL 5445
- CHEM 5700 - Environmental Chemistry  
  Summer 2010 Registration: CHEM 5700

Total: 18 Hours

The core courses are to be taken first upon entry into the program. They are the foundation for other courses in environmental sciences.

Seminar Course

Students are required to register for ENVS 6002, Environmental Sciences Seminar, in the first fall semester they are enrolled in the MS in environmental sciences program. The seminar serves as an introduction to the program and helps students to develop research skills and further their professional development.

- ENVS 6002 - Environmental Sciences Seminar  
  Summer 2010 Registration: ENVS 6002

Elective Courses

(See the MS in Environmental Sciences Web site for a complete list of elective courses for the MS in environmental sciences program.)

Students, with the coordinator and/or an advisor, will complete a program plan that will include 12-21 semester hours of elective requirements that will meet their interests. Students may choose to use four of the electives to fulfill one of the following options
offered in environmental sciences: air quality, ecosystems, environmental health, geospatial analysis, hazardous waste and water quality. Students must have the prerequisites for each course and must meet the requirements listed in the notes below. Contact the option advisor for the particular option of interest before starting. Upon graduation, the option will be noted on the student's transcript.

Following are the requirements for each environmental sciences option:

AIR QUALITY OPTION

Option Advisor: Larry Anderson
Telephone: 303-556-2963
E-mail: Larry.Anderson@ucdenver.edu

Required Courses

- CHEM 5710 - Air Pollution Chemistry  
  Summer 2010 Registration: CHEM 5710
- ENVS 5730 - Air Quality Modeling and Analysis  
  Summer 2010 Registration: ENVS 5730

Total: 6 Hours

Electives

Choose two:

- CHEM 5720 - Atmospheric Sampling and Analysis  
  Summer 2010 Registration: CHEM 5720
- URPL 6686 - Special Topics: Urban and Regional Planning  
  Summer 2010 Registration: URP 6686
  (when Air Quality Planning and Policy is the topic)

Total: 6 Hours

Option Total: 12 Hours

ECOSYSTEMS OPTION*

Option Advisor: Gregory Cronin
Telephone: 303-556-6036
E-mail: Gregory.Cronin@ucdenver.edu
Required Courses

- BIOL 5415 - Microbial Ecology  
  Summer 2010 Registration: BIOL 5415

Total: 6 Hours

Electives

Choose two:

- BIOL 5050 - Advanced Biology Topics  
  Summer 2010 Registration: BIOL 5050
- BIOL 5154 - Conservation Biology  
  Summer 2010 Registration: BIOL 5154
- ENVS 6220 - Toxicology  
  Summer 2010 Registration: ENVS 6220  
  (see Note 2)
- GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing  
  Summer 2010 Registration: GEOG 5060

Total: 6 Hours

Option Total: 12 Hours

* BIOL 5445, Applied Environmental Biology, required as a prerequisite for the ecosystems option.

ENVIRONMENTAL HEALTH OPTION*

Option Advisor: Deborah Thomas  
Telephone: 303-556-5292  
E-mail: Deborah.Thomas@ucdenver.edu

Required Courses

- ENVS 6220 - Toxicology  
  Summer 2010 Registration: ENVS 6220  
  (see Note 2) (fall, even years)
- ENVS 6230 - Environmental Epidemiology  
  Summer 2010 Registration: ENVS 6230  
  (spring, even years)

Total: 6 Hours
Electives

Choose two:

- **ANTH 4010** - Global Health Studies I: The Biocultural Basis of Health  
  *Summer 2010 Registration: ANTH 4010*
- **ENVS 6210** - Human Health and Environmental Pollution  
  *Summer 2010 Registration: ENVS 6210*  
  (spring, odd years)
- **PUAD 5633** - Seminar in Natural Resource and Environmental Health Law  
  *Summer 2010 Registration: PUAD 5633*

**Total: 6 Hours**

**Option Total: 12 Hours**

* ENVS 6200, Risk Assessment, required as a prerequisite for the environmental health option.

**ENVIRONMENTAL SCIENCE EDUCATION OPTION**

Option Advisor: Bryan Wee  
Telephone: 303-315-4992  
E-mail: bryan.wee@ucdenver.edu

**Required Courses**

- **ELED 5340** - Multicultural Science Education  
  *Summer 2010 Registration: ELED 5340*  
  -OR-
- **ENVS 5340** - Multicultural Science Education  
  *Summer 2010 Registration: ENVS 5340*  
  -OR-
- **SECE 5340** - Multicultural Science Education  
  *Summer 2010 Registration: SECE 5340*  
- **ENVS 5500** - Topics in Environmental Sciences  
  *Summer 2010 Registration: ENVS 5500*  
  (Taken as Survey of Field Methods topic)

**Total: 6 Hours**
Electives:

Choose two:

- ANTH 5170 - Culture and the Environment  Summer 2010 Registration: ANTH 5170
- BIOL 5154 - Conservation Biology  Summer 2010 Registration: BIOL 5154
- COMM 5282 - Environmental Communication  Summer 2010 Registration: CMMU 5282
- GEOG 5335 - Contemporary Environmental Issues  Summer 2010 Registration: GEOG 5335
- GEOG 5350 - Environment and Society in the American Past  Summer 2010 Registration: GEOG 5350

Or another elective approved by the option advisor

Total: 6 Hours

Option Total: 12 Hours

GEOSPATIAL ANALYSIS OPTION*

Option Advisor: Rafael Moreno
Telephone: 303-556-3762
E-mail: Rafael.Moreno@ucdenver.edu

Required Courses

- GEOG 5080 - Introduction to GIS  Summer 2010 Registration: GEOG 5080
- GEOG 5090 - Environmental Modeling with Geographic Information Systems  Summer 2010 Registration: GEOG 5090

Total: 6 Hours

Electives

Choose two:

- CVEN 5382 - GIS Spatial Database Development  Summer 2010 Registration: C E 5382
- CVEN 5385 - GIS Relational Database Systems  Summer 2010 Registration: C E 5385
- CVEN 5386 - GIS Laboratory  Summer 2010 Registration: C E 5386

Total: 6 Hours
Option Total: 12 Hours

* GEOG 3080, Introduction to Mapping and Map Analysis, is required as a prerequisite of the geospatial analysis option.

For more information, contact the option advisor or Jon Barbour at 303-556-4520, Jon.Barbour@ucdenver.edu.

HAZARDOUS WASTE OPTION*

Option Advisor: Anu Ramaswami
Telephone: 303-556-4734
E-mail: Anu.Ramaswami@ucdenver.edu

Required Courses

- CVEN 5480 - Hazardous Wastes and Site Remediation Summer 2010
  Registration: C E 5480

Total: 6 Hours

Electives

Choose two:

- BIOL 5051 - Advanced Topics In Microbiology Summer 2010 Registration: BIOL 5051
- CVEN 5402 - Environmental and Water Quality Modeling Summer 2010
  Registration: C E 5402
- ENVS 5403 - Unsaturated Zone Hydrology Summer 2010 Registration: ENVS 5403

Total: 6 Hours

Option Total: 12 Hours

*C E 5401, Introduction to Environmental Engineering, required as a prerequisite for the hazardous waste option.

WATER QUALITY OPTION*
Option Advisor: John Wyckoff
Telephone: 303-556-2590
E-mail: John.Wyckoff@ucdenver.edu

Required Courses

- BIOL 5416 - Aquatic Ecology Summer 2010 Registration: BIOL 5416
- ENVS 5410 - Aquatic Chemistry Summer 2010 Registration: ENVS 5410

Total: 6 Hours

Electives

Choose two:

- CVEN 5333 - Applied Hydrology Summer 2010 Registration: C E 5333
- CVEN 5393 - Water Resources Development and Management Summer 2010 Registration: C E 5393
- ENVS 5403 - Unsaturated Zone Hydrology Summer 2010 Registration: ENVS 5403

Total: 6 Hours

Option Total: 12 Hours

*CHEM 5700, Environmental Chemistry, is required as a prerequisite of the water quality option.

Notes:

1. Many of the courses have prerequisites; student must check the catalog for prerequisite requirements for these courses. Some options have a prerequisite course requirement.
2. One course may not be used for more than one option, even if it is listed in several options. Other courses may be offered that will be acceptable as electives with approval of the option advisor and the director of the program.
3. No more than three courses may be from any one discipline (excluding ENVS); i.e., chemistry, biology, civil engineering.
4. Courses used by the student to fulfill a core requirement may not be used to fulfill the options.
5. All work submitted for the environmental sciences options must have a grade of B (3.0) or better.
6. All courses for the environmental sciences options must be completed at the Downtown Campus.
7. Courses applied to either a certificate* or an MS degree may later be applied toward the other if all pertinent course work is completed within a five-year time period.

* The above options of the program may be taken to earn a corresponding environmental sciences certificate. However, certificates may be earned without entrance into the MS in environmental sciences program. (See the Environmental Sciences Graduate Certificate description).

**Fax:** 303-556-8501  
**E-mail:** Abby.Fitch@ucdenver.edu  
**Web site:** clas.ucdenver.edu/hbsc/

**Faculty**  
**Professors:**  
Stephen Koester, PhD, University of Colorado  
Deborah Main, PhD, University of Colorado

**Associate Professors:**  
Sheana Bull, PhD, Georgia State University  
Richard Miech, PhD, University of North Carolina
The mission of the health and behavioral sciences (HBSC) program is to apply social science theory and innovative research methods to critically address emerging issues in health. The program trains students to confront issues affecting the health of communities and populations by focusing on social determinants of health and diseases. These determinants can be more influential on population health than the health care system.

The program’s overarching framework integrates social, cultural and biomedical perspectives to understand the underpinnings of health and the conditions essential for its creation and maintenance. Students and faculty conduct interdisciplinary research on topics including emerging diseases, maternal/child health, substance abuse, health disparities and global health. Graduates are innovative researchers, effective educators and leaders directly engaged in the practice of public health.

**Undergraduate Program in Community Health Science**

The health and behavioral sciences program is committed to the principle that understanding the basic social, cultural and biological dimensions of health is fundamental to a solid liberal arts and sciences undergraduate education. HBSC has developed a minor in community health science that provides undergraduates with the
basic intellectual and methodological tools needed to understand the societal contexts of health, health care and public health. We expect that graduates with a minor in community health science will be successful in their pursuit of graduate degrees in a broad range of fields including the biomedical sciences, social and behavioral sciences, public health, law, medicine, dentistry, pharmacy, business administration and health services research. The program is especially appropriate for students who intend to pursue careers in public health as well as medicine, nursing, health policy and administration. Students seeking the minor should contact CLAS advising and the health and behavioral sciences program with specific questions.

A major is not currently available, but students may complete an individually structured major (ISM) that combines course work in HBS with that of related fields such as anthropology, biology and psychology. Students should consult the Individually Structured Major section in this catalog for a description of ISM programs and with CLAS Advising or the HBSC program regarding specific questions.

**REQUIREMENTS FOR THE MINOR**

**PhD Program in Health and Behavioral Sciences**

The doctor of philosophy degree in health and behavioral sciences is rooted in the realization that our ability as a global society to overcome some of the most significant and intractable public health problems today rests on the willingness of biomedical and social science researchers to innovate across traditional disciplinary boundaries. Students are trained in theory from multiple disciplines and in both quantitative and qualitative research methods.

Although a master’s degree is not provided by the health and behavioral sciences department, two relevant master’s programs currently exist at UC Denver, as described in the PhD program requirements for admission.

A student’s particular research focus constitutes a key part of his or her doctoral program. A range of possible foci exists, given the particular student’s interest and faculty expertise. Examples of HBSC research foci include:

- **Social determinants of health.** Such research interests include studies on the health-related influences of socioeconomic position, social and economic inequality, discrimination, social networks and support, social capital, work conditions and psychological states including stress.
- **Community health.** This area of research involves community health assessment; program design and evaluation; translation of evidence-based interventions to diverse populations and communities; participatory research and community mobilization; policy analysis and advocacy for health-related problems.
- **Biosocial ecology.** Within this area are studies of the interplay of biological (including physiological, genetic or others of the biomedical health sciences),
social, cultural and environmental characteristics influencing maternal/infant health, exercise performance or susceptibility to disease.

- Global health topics include social, cultural and biomedical factors influencing transmission of disease and health disparities on an international (as well as national) scale.

Recent student research exemplifying such foci includes:

- social factors affecting newly emerging diseases in the American Southwest
- factors that contribute to positive perceived health in the older-aged population
- ethnic group differences in weight gain and cardiovascular disease
- the impact of natural hazards and risk management strategies on health among pastoral herders in Mongolia
- adolescent sexual risk behaviors in the context of social networks and cultural norms
- disease incidence patterns and environmental contamination in north Casper, Wyoming

Graduates of the HBSC program acquire skills that situate them for leadership roles in public health. Depending upon a student’s concentration, the successful graduate will gain expertise in research design and methods; social, cultural and biobehavioral determinants of health and disease; the structure and organization of health care systems; the contribution of individual, social and cultural factors for deciding health behaviors; and how guided change in health care systems may enhance quality, efficacy and access. The significance of these skills in addressing current complex health issues ensures that graduates will be in demand in a number of employment sectors ranging from community and public health organizations, to academic institutions, to nonprofit research organizations and to private health care settings.

**PhD PROGRAM REQUIREMENTS**

**Programs**

**Non Degree**

**Community Health Science Minor**

To earn a minor in community health science, a minimum of 18 semester hours are required, of which 12 must be upper-division. Students must achieve no less than a C (2.0) in each course applied toward minor requirements. At least 12 semester hours must be taken from the Downtown Campus faculty. Note that additional HBSC courses are currently being developed to provide additional choices. As they are approved, these courses will appear on the HBS Web site, the online course descriptions and term
Program Requirements

Community Health Science Courses

Choose two:

- **HBSC 2001 - Introduction to Community and Population Health Science**  
  *Summer 2010 Registration: HBSC 2001*
- **HBSC 3021 - Fundamentals of Health Promotion**  
  *Summer 2010 Registration: HBSC 3021*
- **HBSC 3031 - Health, Human Biology and Behavior**  
  *Summer 2010 Registration: HBSC 3031*
- **HBSC 3041 - Health, Culture and Society**  
  *Summer 2010 Registration: HBSC 3041*

Total: 6 Hours

Methods Courses

Choose at least two:

- **GEOG 4235 - GIS Applications in the Health Sciences**  
  *Summer 2010 Registration: GEOG 4235*
- **HBSC 4021 - Community Health Assessment**  
  *Summer 2010 Registration: HBSC 4021*

Total: 6 Hours

Community Health Emphasis Courses

Choose at least two:

- **ANTH 4040 - Anthropology of Food and Nutrition**  
  *Summer 2010 Registration: ANTH 4040*
- **ANTH 4060 - Evolutionary Medicine**  
  *Summer 2010 Registration: ANTH 4060*
- **ANTH 4090 - Political Economy of Drugs**  
  *Summer 2010 Registration: ANTH 4090*
- **ANTH 4260 - Human Reproductive Ecology**  
  *Summer 2010 Registration: ANTH 4260*
- **ANTH 4560 - Human Ecology**  
  *Summer 2010 Registration: ANTH 4560*
- COMM 4500 - Health Communication Summer 2010 Registration: CMMU 4500
- COMM 4620 - Health Risk Communication Summer 2010 Registration: CMMU 4620
- GEOG 4020 - Earth Environments and Human Impacts Summer 2010 Registration: GEOG 4020
- GEOG 4230 - Hazard Mitigation and Vulnerability Assessment Summer 2010 Registration: GEOG 4230
- HBSC 3010 - Evolution of Human Sexuality Summer 2010 Registration: HBSC 3010
- HBSC 4010 - Global Health Studies I: The Biocultural Basis of Health Summer 2010 Registration: HBSC 4010
- HBSC 4020 - Global Health Studies II: Comparative Health Systems Summer 2010 Registration: HBSC 4020
- HBSC 4080 - Global Health Practice Summer 2010 Registration: HBSC 4080
- HBSC 4200 - The Global HIV/AIDS Epidemic Summer 2010 Registration: HBSC 4200
- HIST 4345 - Gender, Science, and Medicine: 1600 to the Present Summer 2010 Registration: HIST 4345
- HIST 4346 - Medicine and Society: the Ancients to the Present Summer 2010 Registration: HIST 4346
- HIST 4503 - Topics in History of Science Summer 2010 Registration: HIST 4503
- PSYC 3235 - Human Sexuality Summer 2010 Registration: PSY 3235
- PSYC 3262 - Health Psychology Summer 2010 Registration: PSY 3262

Total: 6 Hours

Total: 18 Hours

Check the department Web site for additional course offerings.

Doctor of Philosophy

Health and Behavioral Sciences PhD

► Graduate School Rules apply to this program

Requirements for Admission

A master's or equivalent graduate degree is required for admission to the PhD program. In addition, we encourage prior graduate training in the areas noted below. Students
applying without prerequisites may be admitted, but will be required to complete appropriate courses before being permitted to complete the core curriculum. The program currently works with two master's-level programs to provide articulated master's-PhD training, as described below.

In addition to the general admission requirements of the Graduate School, the specific admission requirements for the PhD in health and behavioral sciences are as follows:

1. Knowledge from prior course work or vocational experience at the equivalent of college senior or graduate level in each of the following areas.
   - **Social or behavioral sciences (15 semester hours minimum):** knowledge of essential facts and concepts concerning the relationship among individuals and society, social organization, individual psychology and the relationship among culture, belief and behavior. This could be satisfied by course work in psychology, sociology and anthropology.
   - **Human biology or physiology (6 semester hours minimum):** familiarity with the functioning of the human body in health and disease states, including an understanding of cellular and organ system processes; an appreciation of evolutionary theory and the mechanisms by which evolution operates on both cellular and population levels; and an understanding of the interplay between the evolution of disease and host response. This could be satisfied by course work in human biology, physiology, pathophysiology or biological anthropology.
   - **Statistics (3 semester hours minimum):** prior course work and current familiarity with statistics including probability theory, parametric and nonparametric methods and acquaintance with basic multivariate techniques.
   - **Epidemiology (3 semester hours minimum):** prior course work at the advanced undergraduate or graduate level with the basic concepts and methods of epidemiology including measures of risk, mortality, distribution of disease, role of bias and confounders and study design.

2. Demonstrated academic excellence as evidenced by an undergraduate GPA of 3.25 (out of a possible 4.0 points) or better, a graduate GPA of 3.5 or better, and scores in the top 30th percentile (averaged) of the GRE. Admission to the program is highly competitive; minimum GPAs and GRE scores for acceptance in any given year may be higher than the minimum levels indicated here.

The applicability of a student's prior course work will be decided by the program executive committee after reviewing the student's transcript and additional materials. If the student does not have the requisite educational background or GPA, the student may be admitted on a conditional or provisional basis and additional course work required in accordance with Graduate School Rules.

Prospective students should not be dissuaded from applying to the program if they do not meet all of the requirements for admission. In some cases, employment experience
may be counted toward meeting a requirement. In other cases, students may be admitted conditionally upon their completion of a list of prerequisite courses that will be established at the time of admission. Students should be sure to address this issue in completing the graduate application by specifying the academic and vocational experience they possess that meets, in part or full, the admission requirements described above.

**MASTER'S LEVEL PREPARATION FOR THE DOCTORAL PROGRAM IN HEALTH AND BEHAVIORAL SCIENCES**

The program does not currently offer master's-level training in HBSC. Instead, we urge interested applicants to pursue relevant master's degree training in one of the social, behavioral or health sciences disciplines. In addition, we work closely with two master's programs at UC Denver. These are the concentrations in medical anthropology within the **anthropology MA program** offered by the anthropology department and the **master of public health** offered by the Colorado School of Public Health. Contact the respective programs for more information on these degree options and our program for how their requirements articulate with those for the health and behavioral sciences PhD.

**TO APPLY FOR ADMISSION**

At the UC Denver Downtown Campus, all graduate applications are now submitted electronically. To begin the application process, go to the **online admissions Web site**. If you have any difficulties, call the program assistant at 303-556-4300. The program admits students only for the fall semester, which typically begins in mid- to late August. The deadline for the receipt of all application materials is **February 15** for admission the following August.

Applicants should invest considerable thought and effort in preparing their application. For instance, in the essay (Part II, question six) applicants should provide information on: (a) their academic training and any employment related to public health or health care; (b) their experiences with inter- and multidisciplinary perspectives, and (c) how they envision using their doctoral degree to improve the health status of human populations and individuals. Students should also indicate the kinds of research **foci** that interest them the most.

In addition to the required recommendation form, letters of recommendation are required from at least three individuals in a position to judge the applicant’s ability to complete the program. Recommenders may be employers, colleagues or professors; however, the applicant should be sure that the letters address the quality of and aptitude for academic work as well as personal characteristics and qualities.
Financial Aid

There are four kinds of financial aid available: graduate student stipends/fellowships; tuition assistance; research assistantship positions funded by grants to specific program faculty; and the regular package of financial aid (primarily loans) available through the financial aid office.

Newly admitted, out-of-state and students demonstrating outstanding scholastic achievement receive priority when assigning departmental sources of funding. Students interested in research assistantships should contact the individual faculty member with whom they wish to work regarding potential assistantship positions.

All other aid should be requested through the UC Denver Financial Aid Office, North Classroom, 1030, Campus Box 125, P.O. Box 173364, Denver, CO 80217-3364. Telephone: 303-556-2886.

Program Requirements

There are three dimensions to the required curriculum:

a. A core curriculum that focuses on problem-oriented, interdisciplinary approaches to theory and method
b. Elective course work intended to provide the student with a solid base from which to launch the dissertation research
c. Dissertation research and writing

The core curriculum is subject to change. What appears below is intended to give students a general idea of the extent, shape and content of the core curriculum. Students should check with the program office for up-to-date information on specific course requirements and scheduling.

The Core Curriculum

The core curriculum should be completed by students by the end of their second year of full-time study. It consists of the following series of courses which, together, constitute 26 semester hours:

I. Health and Behavioral Sciences Colloquium

Each fall, the HBSC program will organize a series of presentations by scholars working in the health and behavioral sciences. The presentations provide students with the most current science and theory in the field. Required of all first- and second-year students, who must take at least two times.
II. Theoretical Perspectives in the Health and Behavioral Sciences

This series is designed to give students a thorough background in how the principles of the social and behavioral sciences have been applied to health issues. Topics include: the interplay between structure and agency in creating and maintaining health; social epidemiology; critical theory and social determinants of health; issues affecting Western biomedicine and public health systems; diffusion of healthy behavioral change among populations; social construction of health and illness; health policy and bioethics; social networks; and stress.

- HBSC 7011 - Theoretical Perspectives in Health and Behavioral Science I  
  *Summer 2010 Registration: HBSC 7011*
- HBSC 7021 - Theoretical Perspectives in Health and Behavioral Science II  
  *Summer 2010 Registration: HBSC 7021*
- HBSC 7071 - Social and Behavioral Determinants of Health and Disease  
  *Summer 2010 Registration: HBSC 7071*

Total: 9 Hours

III. Human Ecology and Environmental Adaptation

This course will emphasize the biological/physiological dimensions of human health and disease.

- HBSC 7031 - Human Ecology and Environmental Adaptation  
  *Summer 2010 Registration: HBSC 7031*

Total: 3 Hours

IV. Research Design and Methods in the Health and Behavioral Sciences

Two HBSC core research design and methods courses, plus one additional advanced methods course of student’s choosing. This series covers the philosophy of science and the structure of scientific inquiry, procedures for hypothesis-testing, quantitative and qualitative methodological strategies commonly employed in the field, epidemiology and program evaluation. Students must further develop specialized methodological skills by completing an independent study (HBSC 6840) or taking one additional course in
advanced epidemiology, advanced biostatistics, health economics, survey research design or qualitative methods and data analysis. This requirement will be tailored specifically to the student's particular interests by his/her advisor.

- HBSC 7041 - Research Design and Methods in the Health and Behavioral Sciences I  
  Summer 2010 Registration: HBSC 7041
- HBSC 7051 - Qualitative Research Design and Methods  
  Summer 2010 Registration: HBSC 7051
  One elective course in advanced methods: 3 semester hours

Total: 9 Hours

V. Applications of the Health and Behavioral Sciences

This course offers students the opportunity to focus on individual research interests with guidance from faculty and input from peers.

- HBSC 7111 - Applications of the Health and Behavioral Sciences  
  Summer 2010 Registration: HBSC 7111

Total: 3 Hours

TOTAL CORE: 26 Hours

Elective Courses

Elective course work together constitutes 26 semester hours, of which a minimum of 6 hours can be drawn from the large number of offerings in the health and behavioral sciences at UC Denver. A full listing of elective courses is available in the program office and online on the HBSC Web site. Students will be expected to fulfill the necessary prerequisites for taking these courses, and final authority as to whether a student may enroll in the course will rest with the department in which the course is offered.

TOTAL ELECTIVES: 26 Hours

Doctoral Dissertation Research

The doctoral dissertation research topic is chosen by the student. The student is expected to define a research question in health and behavioral science, identify the research strategy to be used for answering the question, conduct the research required and document the project in the form of a doctoral dissertation. The student will be guided in this process by a doctoral dissertation advisor and the additional members
who comprise the student’s doctoral dissertation committee (see below). A minimum of 30 semester hours of dissertation work is required. Students must register for a minimum of 5 dissertation credits each semester of their dissertation work. Students may not take more than a year’s leave of absence or fail to enroll for semester hours more than three semesters before they are dropped from the program.

Advisors

Upon admission to the program, each student will be assigned a first-year advisor. The student or the faculty will then choose the faculty advisor who will guide the student through the core and elective course work. The faculty advisor may or may not be the chair of the student’s dissertation committee. The student selects his or her chair and three additional committee members who oversee the student’s comprehensive examination and dissertation research.

Formal Review

A formal review of each student’s first-year progress will be undertaken at the end of the first year of study. A student may not take any additional courses in the program until this review is completed. Students who are deemed not to be making satisfactory progress will be informed in writing as to the nature and final result of the review before the end of June in the first year of study.

The Dissertation Prospectus and the Comprehensive Examination

Before a student advances to candidacy, she/he must complete a dissertation prospectus and defend it successfully in the context of an oral comprehensive examination. The dissertation prospectus is a complete description of the question or hypothesis that the student wishes to research for the dissertation project, the research design and study techniques and an assessment of the proposed project’s contribution to the field. It will include a comprehensive review of the relevant literature. If the student chooses to undertake research in a particular ethnic or cultural community, she/he must also demonstrate sufficient understanding of that setting including adequate knowledge of the language. This prospectus must be approved by the student’s advisor prior to scheduling the comprehensive examination.

The comprehensive examination will be an oral format based in part on, but not restricted to, the material presented in the dissertation prospectus. This exam must take place before the student’s advancement to candidacy and will typically occur by the end of the third year of study. A committee comprising the chair and three faculty members
will supervise the completion of the dissertation prospectus. This committee will conduct the oral examination and will recommend to the executive committee by a majority vote whether or not the student should be advanced to candidacy.

The Doctoral Dissertation and Final Exam

After advancement to candidacy, the student in consultation with his or her advisor will appoint a dissertation committee comprising the chair and three faculty members. The chair and composition of the committee will be subject to approval by the program executive committee. The chair and two other members must have been present at the student's comprehensive examination and will be responsible for overseeing the research and writing of the doctoral dissertation. The committee will review drafts of the dissertation and, when the dissertation is completed to its satisfaction, will conduct the final exam, which will be based on the doctoral dissertation and related materials. The final examination will be open to the public.

Dissertation Total: 30 Hours minimum

History

Chair: Marjorie Levine-Clark
Program Assistant: Tabitha Fitzpatrick
Undergraduate Advisor: Myra L. Rich
Graduate Advisor: Pamela Laird
Office: King Center, 562
Telephone: 303-556-4830
Fax: 303-556-6037
Web site: clas.ucdenver.edu/history/

Faculty

Professors:

Pamela W. Laird, PhD, Boston University
Thomas J. Noel, PhD, University of Colorado

Associate Professors:

Michael T. Ducey, PhD, University of Chicago
Gabriel Finkelstein, PhD, Princeton University
Marjorie Levine-Clark, PhD, University of Iowa
The special responsibility of historical studies is understanding the past. History courses integrate many branches of knowledge, cutting across the lines of the social sciences and the humanities, and even the natural sciences. Identifying forces of stability and processes of change, history students develop their research, writing and analytical skills, which serve them well beyond their university years.

**Undergraduate**

**REQUIREMENTS FOR THE MAJOR**
REQUIREMENTS FOR THE MINOR

Internships

Students may qualify for internships with the Center for Colorado and the West, Colorado State Historical Society, Historic Denver, Denver Museum of Nature and Science, the Colorado Railroad Museum, the National Park Service and other agencies to earn credit and experience. Students must have a minimum 2.75 cumulative GPA in at least 15 semester hours of University of Colorado course work to take an internship. Three hours of internship can be taken in one semester.

Honors Program

Students with a cumulative GPA of 3.5 or higher in their history classes are encouraged to complete an honors thesis to achieve a degree awarded with Latin honors: *cum laude, magna cum laude* or *summa cum laude*. A cumulative GPA of 3.5-3.69 is required for *cum laude*, 3.7-3.89 for *magna cum laude*, and 3.9-4.0 for *summa cum laude*. Students must enroll for HIST 4849, in which they will prepare and submit a research paper for honors review by a faculty committee.

Downtown Campus Historical Studies Journal

Since 1983, Downtown Campus graduate students have published this illustrated journal showcasing the most outstanding original research done each year by history students.

Independent Study

Students may take up to 9 semester hours of courses in independent study or internships (no more than 6 hours per semester), with permission of the concerned instructors and an undergraduate advisor.

Graduate

REQUIREMENTS FOR MA IN HISTORY

PUBLIC HISTORY MA MAJOR PROGRAM

Certificate in Historic Preservation
The history department also offers a certificate in historic preservation in conjunction with the College of Architecture and Planning. History students pursuing the certificate should consult the historic preservation Web site for this program as well as their history advisor to determine appropriate course work.

Programs

Bachelor of Arts

History BA

The bachelor’s degree in history provides students with firm grounding for advanced studies in education, librarianship, law, business and public service, as well as graduate work in the humanities and social sciences broadly. History is an all-inclusive discipline, making it an excellent choice for students with a wide variety of career goals.

Students must declare a major by the time they have completed 60 semester hours of course work. For the BA in history, students must complete a minimum of 36 semester hours of history course work. Majors must complete at least 18 upper-division (3000- and 4000-level) hours at the University of Colorado Denver. Not more than 48 hours of history will be counted toward graduation requirements. No grade below a C (2.0) will count toward major requirements to graduate.

Course Requirements

Required History Courses

- HIST 3031 - Theory and Practice of History: An Introduction to the Major
  *Summer 2010 Registration: HIST 3031*
- HIST 4839 - History Seminar
  *Summer 2010 Registration: HIST 4839*

Students must complete HIST 3031 before enrolling in HIST 4839. Majors must take a minimum of 15 credit hours in History at the 4000-level, including HIST 4839.

Total: 6 Hours

Distribution Requirement
A minimum of 6 semester hours in each of the following areas: United States, Europe and world (Africa, Asia, Latin America). At least 3 semester hours in each area must be upper-division (3000- and 4000-level).

**Total: 18 Hours**

**Electives**

The degree requires a minimum of 12 additional semester hours of electives, which can be satisfied by a combination of additional history courses, history internships, or history honors independent study for eligible students.

**Total: 12 Hours**

**Major Total: 36 Hours**

**BA in History with Secondary Licensure**

Students seeking secondary social studies teacher licensure may pursue a BA in history. This option enables them to complete their history major as well as fulfill requirements for licensure at the undergraduate level.

If you are interested in this option, you should meet with a CLAS advisor as soon as possible. You can complete your degree, including licensure, within a 4-year graduation plan, but only if you declare it early in your college career and meet regularly with your advisors.

To earn the professional teacher licensure, you will complete a major in history and then complete the teacher licensure requirements through the School of Education & Human Development (SEHD). The licensure process requires that you be admitted into the SOEHD to complete licensure classes. You will be working with your CLAS advisor through the application process.

Get to know your advisor! He/she is your guide through what can be a complex process dictated by the State of Colorado. Call 303-556-8316 for more information.

**Non Degree**

**History Minor**
Students interested in a minor in history are required to complete 18 hours of course work. At least 12 semester hours must be completed at UCD. No grade below a C (2.0) will count toward the minor.

Students minoring in history must take at least 9 credit hours of upper division (3000- and 4000-level) courses.

**Course Requirements**

**Required Course**

- HIST 3031 - Theory and Practice of History: An Introduction to the Major
  
  *Summer 2010 Registration: HIST 3031*
  
  Total: 3 Hours

**Distribution Requirement**

A minimum of 3 semester hours must be taken in each of the following areas: United States, Europe and World.

Total: 9 Hours

**Electives**

Choose at least 6 hours of elective upper-division history credit.

Total: 6 Hours

**Minor Total: 18 Hours**

**Master of Arts**

**History MA**

- Graduate School Rules apply to this program

The master of arts in history requires 36 semester hours (12 courses). Students applying for admission to the program should have some background in history, though not
necessarily a BA in the subject. The department encourages applications from individuals of any age interested in resuming their education. Graduate students in history develop skills in critical thinking, writing and independent research. Our program prepares students for a wide variety of professions, including teaching, government service, museum and archive management and historic preservation, as well as further degree work in history, law, librarianship and business. The department expects that students graduating with an MA in history will master the following general skills for their degrees:

- The ability to pursue independent historical research projects
- The ability to analyze historiographical arguments
- The ability to analyze primary documents and develop arguments from them
- The ability to create bibliographies using archival, library and Internet resources
- The ability to write in a variety of formats, including historiographical essays, book reviews and research papers

Students will also master knowledge of the basic historical content of both their major and minor fields, and an understanding of the historiographies and historical methods in their major and minor fields.

Admission Requirements

- In addition to the general admission requirements of the Graduate School, the Department of History requires an undergraduate GPA of at least 3.25.
- All applicants to the history program must take the GRE. GRE scores form a part of the department's consideration of students' qualifications.
- Applicants are required to submit a sample of written work, usually a term paper or project of similar length.
- Applicants should address any gaps, weaknesses or special circumstances in their academic records in the statement of purpose portion of the application. In special circumstances, the department may modify its admission standards.

APPLICATION DEADLINES

<table>

<tr>
<th>Date</th>
<th>Admission</th>
</tr>
</thead>
<tbody>
<tr>
<td>April 1</td>
<td>Fall admission</td>
</tr>
<tr>
<td>October</td>
<td>Spring admission</td>
</tr>
</tbody>
</table>

Admission decisions are made by a graduate committee comprising the graduate advisor and faculty representing fields in U.S., European, global and public history.

Graduate School Policies

All history MA students are subject to Graduate School policies related to graduate study, as well as to all relevant university policies. These policies cover such topics as time limits on degree completion, changing degree programs, incomplete grades, and
more. Further information on these policies can be found in the Graduate School section of this online catalog.

Transfer Credits

With approval from the graduate advisor and the appropriate faculty, students may transfer nine graduate-level credits accrued before enrollment in the UC Denver MA history degree program, provided that they earned a grade of B+ or better in these courses. Students must submit a syllabus for each course they wish to transfer, and faculty may require students to complete additional assignments to meet the expectations of the department. The department will not accept transfer of courses comparable to HIST 6013. Introduction to the Professional Study of History.

Grade Requirements

A minimum grade of B- (2.7) is required in all UC Denver history courses applied toward the degree. Students who earn less than a B- in HIST 6013 must retake the class.

Residency Requirements

The history department requires a residency of at least one academic year for the degree.

Graduate Advising

Upon admission, students will sign a check list indicating their understanding and acceptance of the department’s expectations. Early in their first semester students should contact the history department graduate advisor to discuss their path through the program and to receive advice regarding the selection of major and minor fields.

Degree Tracking Responsibility

Although faculty will provide reasonable guidance, it is up to students to monitor their own progress through the program in consultation with the graduate advisor and their major advisor; this includes knowledge and understanding of application and graduate deadlines, degree requirements, thesis guidelines, etc.

Choosing Advisors and Fields of Study
All history MA candidates choose a major and minor field. Students will take courses in these fields (see Degree Requirements below) and will be tested in these fields (see Comprehensive Examinations). As soon as possible after consulting with the graduate advisor, students are responsible for contacting two field advisors, one to oversee their progress in the major field, the other to oversee their minor field. All students should have chosen a major field and major advisor by the beginning of their second semester.

Major Fields, Minor Fields and Concentrations

The MA in history seeks to provide students with a balance of breadth and depth in the study of history. Major fields are broad areas of study within which students gain a general picture of historical processes. Concentrations provide focus for developing expertise within the major, either regionally or thematically. Minor fields provide a complementary or comparative area and must be from outside the major field.

Advisors and students together will work out Plans of Study, which indicate the courses students intend to take to meet their requirements, based on their selection of major and minor fields. Students should make every effort to enroll in courses which best fit their major field, major concentration and minor field.

Students can choose to major in one of the following four fields:

- European History
- Global History
- Public History
- U.S. History

The department has compiled a core readings list for each of these major fields. Students will draw on the core lists for their comprehensive exams. Core lists contain a number of themes with bibliographies for each theme. In consultation with their major advisor, students choose at least two books from each theme; for some themes, students will read more than two books.

Major Field Concentrations

Students work with advisors to select one of the major field concentrations listed above. Concentrations provide thematic or regional focus to a broad geographical major (e.g. for the global history major, students could concentrate on trade, borders, imperialism, etc. or any of the areas of regional expertise of our faculty). Readings for the major field concentration are in addition to the core reading list.

Minor Fields

Students choose minor fields from the list of major fields or the list of major field concentrations. They choose their minor field list in consultation with the minor field advisor.
Degree Requirements

All history MA students must have a major field and a minor field, and they must complete half of their course work at the 6000 level.

Required Introductory Course

- HIST 6013 - Introduction to the Professional Study of History  Summer 2010
  Registration: HIST 6013

Total: 3 Hours

Major Field

Core course in Major Field (3 semester hours)

Each major field has a core course covering major approaches and themes. The core course familiarizes students with the field in a broad sense.

Research Seminars (3-6 semester hours)

Research seminars focus on students’ development of an original, primary research paper. One 3-semester-hour research seminar is required of all students. A second research seminar is required for students not pursuing an extended research option; the second 3 semester hours can be taken within the major or minor field.

Major electives (9-12 semester hours)

Electives are made up of courses in the major and concentration, including readings courses, which address specific field historiographies, and optional extended research credits. Students who choose to do a thesis may apply 6 thesis semester hours (HIST 6950) toward the major electives requirement.

Total: 18 Hours

Minor Field

Minor Electives

Electives are made up of courses in the minor field, including readings courses, which address specific field historiographies, or research seminars.

Total: 12 Semester Hours
Open Elective

Students may use the open elective to explore a course outside their major or minor or to do extra course work in one of their fields.

Total: 3 Hours

Degree Total: 36 Hours

PUBLIC HISTORY MA MAJOR PROGRAM

INDEPENDENT STUDY AND/OR INTERNSHIP

Candidates may register for up to 6 hours of internships or independent study, only one of which may be at the 6000-level. Students will not be allowed to fulfill the research requirement with an independent study. Any independent study at the 6000-level needs the permission of the graduate advisor. Students interested in pursuing an independent study must find a faculty member willing to oversee their work, and they should expect the workload for an independent study to equal or exceed that required for other courses at the same level.

- HIST 5840 - Independent Study: History Summer 2010 Registration: HIST 5840
- HIST 6840 - Independent Study: HIST Summer 2010 Registration: HIST 6840
- HIST 6939 - Cooperative Education Summer 2010 Registration: HIST 6939

COMPREHENSIVE EXAMINATIONS

All history MA candidates must pass a comprehensive examination in the major and minor fields after the completion of course work and before embarking on a thesis, curriculum project or public history project. The comprehensive exam evaluates students' knowledge of their course work and their reading lists for their major, minor and concentration. The exam consists of a take-home written section, with broad essay questions in both the major and minor fields; this is followed by an oral exam with the student's faculty committee. In answering their exam questions, students are expected to construct arguments and to show mastery of the historiographies, narratives and historical content in their fields. The comprehensive exam is administered and evaluated
by a committee of the major advisor, the minor advisor and an outside reader from the history faculty.

**Master’s Degree Extended Research Options**

The MA program in history offers a set of courses in which students can develop extended research interests. Students must select an advisor and develop a proposal for a specific research agenda in the semester before beginning work on a project.

**REQUIRED PUBLIC HISTORY THESIS (HIST 6950) OR PROJECT (HIST 6952)**

Students majoring in public history must complete either a thesis (6 semester hours) or a project (3 semester hours).

**OPTIONAL THESIS FOR STUDENTS IN U.S., GLOBAL AND EUROPEAN HISTORY (HIST 6950)**

Students majoring in U.S., global or European history can choose to write a thesis (6 semester hours in their major field).

**OPTIONAL ADVANCED HISTORY CURRICULUM DEVELOPMENT (HIST 6951)**

Students who undertake their master’s program when they are already teachers can choose to construct curriculum projects relevant to their teaching practice. See the separate section below on “Opportunities for Teachers and Teachers-in-Training.”

- **HIST 6950 - Master's Thesis Summer 2010 Registration:** HIST 6950
- **HIST 6951 - Masters Project: Advanced History Curriculum Development Summer 2010 Registration:** HIST 6951
- **HIST 6952 - Master's Project: Public History Summer 2010 Registration:** HIST 6952

**Thesis Requirements**

Students writing theses are expected to develop an original research agenda resulting in an extended paper. Students work with their major field advisor, who will help guide them through the process of research and writing. Students are expected to take no less than two semesters (enrolled in HIST 6950) to complete their theses. Before registering for HIST 6950, students must have a thesis proposal and initial bibliography approved by
their advisor. The first semester of the thesis course is organized as a seminar in which students meet regularly with a department member and other thesis writers.

A thesis is evaluated by a committee of three, including the major advisor and two other faculty members chosen by the student in consultation with the major advisor. Upon completion of the thesis, the student meets with the committee members, who ask questions about the research and conclusions which the student must defend. In many instances, the committee will require further revisions, sometimes major in scope, before the thesis is accepted and cleared for submission to the Graduate School in fulfillment of degree requirements.

**Project Requirements**

In lieu of a thesis, public history majors may choose to enroll in one semester of HIST 6952 to complete a public history project. Projects, which are usually conducted in collaboration with a public history organization, can entail creating an exhibit, organizing a museum or archival collection, conducting a preservation survey or similar activities. Students are required to prepare a paper describing the process and results of their project.

**Opportunities for Teachers and Teachers-in-Training**

**Curriculum Projects**

Licensed teachers enrolled in the history graduate program may choose to complete a curriculum development project. Students arrange curriculum development projects with a sponsoring faculty member. Generally, students are expected to develop and submit a complete course curriculum plan for each 3-semester-hour project. Projects need to show evidence of familiarity with the relevant historiographies and primary sources. Students may apply the hours from HIST 6951 to either the major field or the minor field, depending on the project subjects. Curriculum plans must meet minimum criteria established by the history department in the document Advanced History Curriculum Development Projects.

- **HIST 6951 - Masters Project: Advanced History Curriculum Development**
  *Summer 2010 Registration: HIST 6951*
  (3 or 6 semester hours in their major field, or 3 semester hours in their major and 3 semester hours in their minor)

**Secondary Teacher Licensure**
Students interested in becoming secondary history and social studies teachers may choose to earn both the MA in history and secondary teacher licensure.

We strongly encourage students to complete the School of Education & Human Development’s teacher licensure program before enrolling in the history MA program; the history graduate program and the teacher licensure program require separate admission. Students complete 36 semester hours in history and 37 semester hours in the teacher licensure program. For the history degree, students take 18 semester hours in their major field, 12 semester hours in their minor field and 6 semester hours in curriculum and methods course work, which apply both to the teacher licensure program and the MA in history:

- HIST 5464 - Problems and Methods in Teaching History and Social Studies I
  *Summer 2010 Registration: HIST 5464*
- HIST 5465 - Problems and Methods in Teaching History and Social Studies II
  *Summer 2010 Registration: HIST 5465*

Public History, MA in History

The MA program in history offers graduate-level major and minor fields in public history. Public history is a field of study that applies historical methods to the public sphere. This graduate major does not require a concentration, but students can choose to concentrate in museum studies or historic preservation. Public history majors can minor in any subspecialty the department currently offers. Students majoring in U.S., European or global history can also minor in public history.

**Admission Requirements—See History MA**

**Degree Requirements**

**Required Introductory Course**

- HIST 6013 - Introduction to the Professional Study of History
  *Summer 2010 Registration: HIST 6013*

**Total: 3 Hours**

**Major Courses**

- HIST 5234 - Introduction to Public History
  *Summer 2010 Registration: HIST 5234*
Concentration Requirement (optional)
Students who choose to concentrate in museum studies or historic preservation must take either

- HIST 5231 - History in Museums  *Summer 2010 Registration: HIST 5231*
  -OR-
- HIST 5232 - Historic Preservation  *Summer 2010 Registration: HIST 5232*

Research Seminar (3 hours)
Research seminars focus on students’ development of an original, primary research paper.

Major Electives (9-12 hours)
Electives are made up of courses in public history, which focus on methodology and practice and thesis or project credits. These courses include:

- HIST 5133 - Management of Material Culture and Museum Collections  *Summer 2010 Registration: HIST 5133*
- HIST 5228 - Western Art and Architecture  *Summer 2010 Registration: HIST 5228*
- HIST 5229 - Colorado Historic Places  *Summer 2010 Registration: HIST 5229*
- HIST 5240 - National Parks History  *Summer 2010 Registration: HIST 5240*
- HIST 5242 - Oral History  *Summer 2010 Registration: HIST 5242*
- HIST 5243 - Public History Administration  *Summer 2010 Registration: HIST 5243*
- HIST 5244 - Interpretation of History in Museums: Exhibits and Education  *Summer 2010 Registration: HIST 5244*
- HIST 5245 - Heritage Tourism  *Summer 2010 Registration: HIST 5245*
- HIST 6992 - Seminar: Colorado Studies  *Summer 2010 Registration: HIST 6992*

Additionally, special topics courses may be offered in such areas as historic reenactments, monuments and memory and recreating historic house interiors. Students who didn't take HIST 5231 or HIST 5232 as their concentration requirement may use these courses toward their elective requirements.

**Total: 18 Hours**

Minor Electives

Electives are made up of courses in the minor field, including readings courses, which address specific field historiographies, or research seminars.

**Total: 12 Hours**
Open Elective

Students may use the open elective to explore a course outside their major or minor or to do extra course work in one of their fields.

Total: 3 Hours

Total: 36 Hours

INDEPENDENT STUDIES AND/OR INTERNSHIPS

Candidates may register for up to 6 hours of internships or independent study, only one of which may be at the 6000-level. Only in exceptional circumstances will students be allowed to satisfy the research seminar requirement via independent study. Any independent study at the 6000-level needs the permission of the graduate advisor. Students interested in pursuing an independent study must find a faculty member willing to oversee their work, and they should expect the workload for an independent study to equal or exceed that required for other courses at the same level.

- HIST 5840 - Independent Study: History  Summer 2010 Registration: HIST 5840
- HIST 6840 - Independent Study: HIST  Summer 2010 Registration: HIST 6840
- HIST 6939 - Cooperative Education  Summer 2010 Registration: HIST 6939

COMPREHENSIVE EXAMINATIONS

All history MA candidates must pass a comprehensive examination in the major and minor fields after the completion of course work and before embarking on a thesis, curriculum project or public history project. The comprehensive exam evaluates students’ knowledge of their course work and their reading lists for their major, minor and concentration. In answering their exam questions, students are expected to construct arguments and to show mastery of the historiographies, narratives and historical content in their fields. The comprehensive exam is administered and evaluated by a committee of the major advisor, the minor advisor and an outside reader from the history faculty.

Master’s Degree Extended Research Options

The MA program in history offers a set of courses in which students can develop extended research interests. Students must select an advisor and develop a proposal for a specific research agenda in the semester before beginning work on a project.

REQUIRED PUBLIC HISTORY THESIS (HIST 6950) OR PROJECT (HIST 6952)
Students majoring in public history must complete either a thesis (6 semester hours) or a
project (3 semester hours).

**OPTIONAL ADVANCED HISTORY CURRICULUM DEVELOPMENT (HIST 6951)**

Students who undertake their master’s program when they are already teachers can choose to construct curriculum projects relevant to their teaching practice. See the separate section below on “Opportunities for Teachers and Teachers-in-Training.”

- HIST 6950 - Master's Thesis  
  *Summer 2010 Registration: HIST 6950*
- HIST 6951 - Masters Project: Advanced History Curriculum Development  
  *Summer 2010 Registration: HIST 6951*
- HIST 6952 - Master's Project: Public History  
  *Summer 2010 Registration: HIST 6952*

**Thesis Requirements**

Students writing theses are expected to develop an original research agenda resulting in an extended paper. Students work with their major field advisor, who will help guide them through the process of research and writing. Students are expected to take no less than two semesters (enrolled in HIST 6950) to complete their theses. Before registering for HIST 6950, students must have a thesis proposal and initial bibliography approved by their advisor. The first semester of the thesis course is organized as a seminar in which students meet regularly with a department member and other thesis writers.

A thesis is evaluated by a committee of three, including the major advisor and two other faculty members chosen by the student in consultation with the major advisor. Upon completion of the thesis, the student meets with the committee members, who ask questions about the research and conclusions which the student must defend. In many instances, the committee will require further revisions, sometimes major in scope, before the thesis is accepted and cleared for submission to the Graduate School in fulfillment of degree requirements.

**Project Requirements**

In lieu of a thesis, public history majors may choose to enroll in one semester of HIST 6952 to complete a public history project. Projects, which are usually conducted in collaboration with a public history organization, can entail creating an exhibit, organizing a museum or archival collection, conducting a preservation survey, or similar activities. Students are required to prepare a paper describing the process and results of their project.

- HIST 6952 - Master's Project: Public History  
  *Summer 2010 Registration: HIST 6952*
Opportunities for Teachers and Teachers-in-Training

Curriculum Projects

Licensed teachers enrolled in the history graduate program may choose to complete a curriculum development project. Students arrange curriculum development projects with a sponsoring faculty member. Generally, students are expected to develop and submit a complete course curriculum plan for each 3-semester-hour project. Projects need to show evidence of familiarity with the relevant historiographies and primary sources. Students may apply the credits from HIST 6951 to either the major field or the minor field, depending on the project subjects. Curriculum plans must meet minimum criteria established by the history department in the document Advanced History Curriculum Development Projects.

- HIST 6951 - Masters Project: Advanced History Curriculum Development
  Summer 2010 Registration: HIST 6951
  (3 or 6 semester hours in their major field, or 3 semester hours in their major and 3 semester hours in their minor)

Secondary Teacher Licensure

Students interested in becoming secondary history and social studies teachers may choose to earn both the MA in history and secondary teacher licensure.

We strongly encourage students to complete the School of Education & Human Development's teacher licensure program before enrolling in the history MA program; the history graduate program and the teacher licensure program require separate admission. Students complete 36 semester hours in history and 37 semester hours in the teacher licensure program. For the history degree, students take 18 semester hours in their major field, 12 semester hours in their minor field and 6 semester hours in curriculum and methods course work, which apply both to the teacher licensure program and the MA in history:

- HIST 5464 - Problems and Methods in Teaching History and Social Studies I
  Summer 2010 Registration: HIST 5464
  -and-

- HIST 5465 - Problems and Methods in Teaching History and Social Studies II
  Summer 2010 Registration: HIST 5465

Certificate in Historic Preservation
The history department also offers a certificate in historic preservation in conjunction with the College of Architecture and Planning. History students pursuing the certificate should consult the historic preservation Web site for this program as well as their history advisor to determine appropriate course work.

Senior Instructors:  
Myra Bookman, PhD, University of Colorado  
Margaret Woodhull, PhD, University of Texas, Austin

The master of humanities offers graduate interdisciplinary studies designed for recent university graduates or those who have graduated earlier and are now seeking intellectual enrichment, career change or preparation for a PhD or professional school. Some students are teachers or other professionals seeking additional training to expand their expertise. Many enroll in the program for the sheer satisfaction of intellectual enrichment. It is ideal for students whose professional and personal obligations require flexibility and accessibility, whether they are part-time or full-time students. Students are able to pursue their interests across disciplinary boundaries and enroll in courses from a number of departments. Students who pursue the master of humanities will take courses from disciplines traditionally included in the category of liberal arts, such as literature, philosophy, history, communication, fine arts, art history, theatre and music. But they may also include appropriate course work from the social sciences or other areas. Each student's program is supervised by a faculty advisor.

MH REQUIREMENTS
Programs

Master of Humanities

Humanities MH

► Graduate School Rules apply to this program

Requirements for Admission

In addition to the general requirements of the Graduate School governing acceptance to a master's degree program, applicants must submit the following:

- a bachelor's degree
- two official copies of all transcripts, with an overall GPA of at least 3.0 out of 4.0
- a writing sample
- three letters of recommendation (at least two from academic sources)
- appropriate undergraduate training or professional background, or indicators that supply evidence of ability to pursue the MH degree
- a typed statement specifying the goal of advanced study in the humanities expressed in clear, correct and effective English
- standardized test scores are not required, but will be considered if submitted

After meeting all other requirements for admission, applicants may be required to have an interview to discuss their interest in the program and their plans for study. For out-of-state applicants, an appropriate substitute for the interview may be determined by the director.

**Provisional admission:**

Applicants may be admitted as provisional-status graduate students if their complete record indicates a high probability of success.

**Nondegree students:**

Potential applicants may take graduate-level courses as nondegree students (unclassified student with a bachelor’s degree) if they:

1. Wish to strengthen their record in order to demonstrate that they can successfully complete courses in the program
   -or-
2. Wish to start courses in the program prior to completing their application. Up to 12 semester hours taken as a nondegree student may be accepted by the program once a student has been admitted to the program (the 12-hour limit also includes graduate work from another university).

*International Students:*

International students must also meet UC Denver requirements for international admission. See the *Information for International Students* section of this catalog or call 303-315-2230 for further information.

**Degree Requirements**

The master of humanities offers two general plans of study: Track I (individualized program) and Track II (cultural studies in interdisciplinary cluster areas).

Thirty-six semester hours are required for Track I and 39 semester hours are required for Track II. All courses credited toward the MH degree must be taken at UC Denver over a period not exceeding five years (a maximum of 12 graduate semester hours may be transferred from other institutions). At least a *B* average (3.0) must be maintained. A grade of *B*- or below will not be counted toward the degree. Each student’s program is supervised by a faculty advisor. All independent study contracts must be approved in advance by one of the program directors. A total of two independent study courses and two 4000-level undergraduate courses may count toward the degree. The rest must be 5000/6000-level courses offered through various departments. All students must pass an oral comprehensive exam in order to graduate.

**TRACK I (Individualized Program) Requirements—Thesis or Project Option**

Students in Track I have the opportunity to fashion a course of study based on their individual interests and goals. In consultation with a faculty advisor, students choose two or three academic disciplines as areas of concentration. Students who select a thesis (6 semester hours) will submit a thesis proposal after completing 30 hours of course work. In the case of a project (3 semester hours), students will submit a project proposal after 33 hours.

**TRACK I REQUIREMENTS:**

Three interdisciplinary seminars
• **HUMN 5025 - Methods and Texts of the Humanities**  
  *Summer 2010 Registration: HUM 5025*
  (Must be taken during the first year of entrance into the program. Offered fall only.)

  **Mid-Program Seminar**, an interdisciplinary seminar with a HUM prefix, which is approved for the student’s program by one of the program directors (note that a Mid-Program Seminar must have a HUM prefix).

• **HUMN 5924 - Directed Research and Reading in Interdisciplinary Humanities**  
  *Summer 2010 Registration: HUM 5924*
  (A final seminar that provides background reading, theory and research approaches for students to develop a thesis or project. Offered spring only; student must have completed 24 hours of course work and must register for the course via a schedule adjustment form with instructor approval.)

**Total: 9 Hours**

**Electives**

Additionally, students must complete a total of 21-24 semester hours comprising a coherent selection of courses from a variety of disciplines. All courses for the self-structured portion of the program must be selected with the approval of one of the MSS program directors.

A total of two independent study courses and two 4000-level undergraduate courses taken when enrolled in the program may count toward the degree. All independent study contracts must be approved by one of the program directors. The remaining course work must be 5000/6000-level courses offered through various departments.

Students completing a project take 24 hours of electives, while thesis students complete 21 hours of electives.

**Total: 21-24 Hours**

**Thesis or Project**

A thesis (6 semester hours) or a final project (3 semester hours), which must include a substantial scholarly paper and may include a creative exercise involving at least two disciplines. In order to proceed with a thesis or project, all students must submit a
proposal approved by three faculty members (and approved by one of the program directors in cases where one of the directors is not serving on the committee).

- HUMN 5950 - Master's Thesis  
  Summer 2010 Registration: HUM 5950
- HUMN 5960 - Master's Project  
  Summer 2010 Registration: HUM 5960
  Total: 3-6 Hours

**Oral Exam**

An oral exam before a committee of three faculty members in order to graduate.

**Track I Total: 36 Hours**

**TRACK II (Cultural Studies)—Non-thesis or Project Option**

This track is somewhat more structured than Track I, but does not require a thesis or a project. In consultation with a faculty advisor, students choose from courses organized into eight interdisciplinary clusters:

- classics
- identity and gender
- meaning and values
- philosophy and theory
- self, society and community
- social and political thought
- technology and culture
- understanding America/understanding the world

**TRACK II REQUIREMENTS:**

**Core cluster courses**

Complete 15 semester hours in one of the above clusters.

**Total: 15 Hours**

**Three required interdisciplinary seminars**

- HUMN 5025 - Methods and Texts of the Humanities  
  Summer 2010 Registration: HUM 5025
  (Must be taken during the first year of entrance into the program.)
Mid-Program Seminar, an interdisciplinary seminar with a HUM prefix, which is approved for the student’s program by one of the program directors (note that a Mid-Program Seminar must have a HUM prefix).

- HUMN 5924 - Directed Research and Reading in Interdisciplinary Humanities
  *Summer 2010 Registration: HUM 5924*
  (A final seminar that provides background reading, theory and research approaches for students to develop a theme for the oral exam. Offered spring only; student must have completed 24 hours of course work and must register for the course via a schedule adjustment form with instructor approval.)
  **Total: 9 Hours**

**Electives**

15 additional elective semester hours (students retain considerable flexibility in selecting these hours).

**Total: 15 Hours**

**Comprehensive Exam**

A comprehensive oral exam and a brief paper (15-20 pages) presented before a committee of three faculty members in order to graduate.

**Track II Total: 39 Hours**

**Individually Structured Major**

**Contact:** CLAS Advising Office, North Classroom, 4002
**Telephone:** 303-556-2555
**Web site:** thunder1.cudenver.edu/clas/ISMmajor.html

The individually structured major (ISM) is an interdisciplinary major based on an individual contract rather than a preset list of courses. The flexibility of designing your own major affords liberal arts students an opportunity to pursue academic interests that cross traditional department or college boundaries. The ISM is attractive to students who have specific educational and career goals not satisfied with a traditional major or to students interested in a K–12 teaching career where breadth more than depth is valued to meet licensure requirements.

Students interested in the individually structured major work with faculty advisors in each discipline to create a program plan or contract to define the individually structured major.
The ISM program plan must have an academic or career theme that ties course work together. Students are encouraged to complete the program plan before the end of the sophomore year.

Upon completion of graduation requirements, students in the individually structured major program will receive a diploma that will read “Bachelor of Arts, Individually Structured.” The University of Colorado transcript will read “Bachelor of Arts, Major: Individually Structured, Area:” (ISM title selected by student and approved as part of the ISM program plan).

REQUIREMENTS FOR THE MAJOR

Honors

Liberal arts students interested in graduating with Latin honors in the individually structured major program should meet with the assistant dean in the CLAS Advising Office to verify they meet eligibility requirements and to modify the program plan for the honors project. Students who successfully complete the ISM honors program will have the appropriate Latin honor designation placed on the University of Colorado diploma and transcript.

To participate in the ISM honors program, CLAS students must meet each of the following eligibility requirements:

- have a declared ISM major with an approved ISM contract
- possess a minimum 3.2 cumulative University of Colorado GPA
- possess a minimum 3.5 GPA on all completed University of Colorado course work in the ISM contract

Eligible ISM students must complete an undergraduate research project and present the results to a faculty honors committee. The level of Latin honors awarded is determined by the faculty honors committee. ISM students are to complete 3 to 6 semester hours of undergraduate independent study over a period of two semesters in one of the disciplines that constitute the ISM contract. The faculty sponsor from the project discipline will serve as the honors committee chair. The independent study research project is to produce a thesis-quality report to be presented orally to a three-member interdisciplinary faculty honors committee representing the disciplines in the ISM contract. Upon completion of the research report and oral presentation to the honors committee, the level of Latin honors will be determined by the following criteria:

* cum laude *—awarded upon completion of written report and oral presentation

* magna cum laude *—awarded by honors committee based on successful written report and oral presentation
summa cum laude—awarded by honors committee based on excellence in written report and oral presentation

Programs

Bachelor of Arts

Individually Structured Major BA

Requirements for the Major

The ISM program plan requires course work over two or three disciplines. A discipline is defined as a single department or program such as biology, ethnic studies or math. The ISM program plan must comply with the following policies:

- Between 48 and 54 semester hours are allowed for the program plan.
- A minimum of 16 semester hours must be upper-division credit.
- Each discipline requires a minimum of 15 semester hours, of which at least 3 must be upper-division hours.
- A minimum of 6 semester hours in each discipline must be taken from Downtown Campus faculty.
- A maximum of one discipline may be outside CLAS.
- A third optional discipline may be a mixture of course work, excluding courses from the first and second disciplines.
- An ISM title must be consistent with the academic theme and disciplines in the program plan.

The ISM program plan contract is approved by faculty for each discipline and submitted to the CLAS Advising Office, North Classroom, 4002, for college approval by the associate dean. The ISM program plan must be approved before one-third of the ISM course work is completed. Typically, a maximum of 18-21 hours of previously completed courses is allowed.

Graduation requirements for ISM students include a minimum 2.0 GPA for all ISM course work, a minimum 2.0 GPA in each discipline in the program plan and a minimum of 24 hours of course work taken from Downtown Campus faculty.

Integrated Sciences, Master of

Director: Mary Coussons-Read
Office: North Classroom, 5014
Telephone: 303-556-6665
Fax: 303-556-4861
Students in this program have the opportunity to take courses from a variety of areas in mathematics, the natural and physical sciences (biology, chemistry, geology, physics) and computer science in a program designed for professional growth in their area of interest. These areas are further explored through a required project or thesis that includes independent research into some particular area of interest.

The length of time it takes to complete the degree is determined by the student’s own schedule flexibility; many finish within two years of full-time work. The program requires completion within five years or within six successive summers. Courses are offered during a wide range of times, and many MIS students complete their curriculum while working full time.

Requirements for Admission

To be considered for admission to the program, students:

- must submit an application for graduate admission, an essay specifying why they wish to be admitted to the program and their career goals, and three letters of recommendation
- must have completed at least 40 semester hours in mathematics, computer science, physics, biology, chemistry and/or geology
- may be required to take the GRE if their undergraduate GPA is less than 3.0

Students are admitted for the fall and spring semesters. The deadline for a complete application for fall admission is April 15; for spring admission it is October 15.

DEGREE REQUIREMENTS

Programs

Master of Science

Integrated Sciences MIS

- Graduate School Rules apply to this program

Degree Requirements
**Minimum Hours**

Students must complete a minimum of 30 semester hours at the 4000+ level, of which 1-4 must be project hours or 4-6 must be thesis hours. In accordance with Graduate School rules, a minimum of 18 hours must be at the 5000+ level.

**Breadth Requirement**

Students are required to take classes in a minimum of two (2) areas and maximum of three (3) areas within the disciplines of computer science, math, chemistry, biology, physics or geology. With approval, students may take a maximum of three (3) hours at the 4000+ level in one other school or college. All classes counted toward the degree must be related to the student’s stated program goal and be approved as part of a program of study by the program director. The student is responsible for insuring that all prerequisite requirements for the classes they take have been met.

**Depth Requirement**

The student must designate a primary area (either within a department or as an interdisciplinary concentration including, but not limited to, biophysics, biochemistry and computational biology). The student must take a minimum of nine (9) semester hours in the chosen area of concentration.

**Project or Thesis**

All students must conduct independent research that results in either a thesis or project, which is presented to their committee in written form and is subject to an oral defense.

**Graduate Advisor and Project Committee**

All candidates for the master of integrated sciences degree must select a faculty advisor and two other faculty members to serve with the advisor as the candidate’s graduate committee. The committee members must be part of the graduate faculty and approved by the program director. The name of the faculty advisor must be submitted to the MIS director no later than two semesters following full admission to the program.

Undergraduate

Biology is the study of life. Our program teaches students about the diversity of life, the chemical processes and adaptations shared by species, and the interaction of species with their environment. By studying the different fields of biology, the student gains an appreciation for the characteristics of life and the remarkable evolutionary history leading to the present forms, and to understand the advances in biological technology that are transforming our society. Knowledge of the interrelationships between populations and
their habitats leads to respect, concern and a sense of responsibility for our environment.

The curriculum is designed to provide a firm foundation in biology. As such, graduates are well prepared for graduate study in biology, professional schools in the health careers, a variety of biologically oriented jobs in government and industry, teaching at various educational levels and, as with any liberal arts major, life itself. Students planning on a teaching career should consult the Teacher Education Program description in the School of Education & Human Development for information on teaching licensure.

REQUIREMENTS FOR MAJOR

Additional Information

Students with transfer credits in biology from other institutions should consult an undergraduate major advisor in the department for transfer credit and/or proper placement. Transfer credit from community college courses will not fulfill the requirements for upper-division semester hours or electives. However, students who have taken both semesters of anatomy and physiology at a community college may be given credit for having satisfied the structure/function requirement for the major. Biology students seeking credit through AP (Advanced Placement), CLEP (College Level Examination Program) and/or IB (International Baccalaureate, Diploma Programme) should refer to the transfer tables (AP, CLEP, IB) in the Information for Undergraduate Students chapter of this catalog, as well as consult an undergraduate major advisor in the department for proper placement.

Departmental Honors. Departmental honors will be awarded to students based on their GPA in classes taken from Downtown Campus faculty. The following minimum GPA must be met both for all courses taken at UC Denver (overall GPA) and for biology courses alone (biology GPA): cum laude, 3.5; magna cum laude, 3.7; summa cum laude, 3.9.

Biology Research Scholars. The biology faculty encourages students to pursue research as part of their undergraduate education. Students who excel in both course work and research will be recognized as UC Denver biology research scholars. To qualify as biology research scholars, students must fulfill all of the following requirements: (1) achieve a minimum GPA of 3.5 in courses taken from Downtown Campus faculty; (2) participate in a research project consisting of a minimum of 6 semester hours of independent study, taken over at least two semesters; (3) write a paper describing the rationale, methodology and results of their research; and (4) present a seminar or poster based on their research. Students who wish to become involved in research should contact Michele Engel no later than their junior year.
REQUIRED FOR MINOR

Biotechnology Certificate

To serve the needs of students who wish to obtain recognition for the acquisition of specialized skills in biology and to prepare students for graduate school, health careers and jobs in industry, the Department of Integrative Biology offers a certificate program in biotechnology. Upon completion of the required courses (21 to 22 semester hours), including independent study or internship, the student will be awarded a certificate and receive the biotechnology certificate on their transcript. The certificate may be completed in addition to an undergraduate or graduate degree or as a stand-alone certificate. For complete information, see the Biotechnology Certificate description.

Graduate

The master's program in biology is designed to prepare graduates for research and teaching positions, employment in business and industry, advanced training as secondary school science teachers and for graduate work at the doctoral level. The MS in biology may be obtained with an emphasis in ecology, genetics, plant systematics, evolutionary biology, neurobiology, microbiology, animal behavior, cell and developmental biology or molecular biology. These emphases are available through two tracks of study: the course work (non-research) M.S. track or the thesis (research) M.S. track.

The Department of Integrative Biology consists of a small highly-qualified and dedicated group of faculty who sponsor thesis projects in their areas of expertise. They have attracted extramural research support from a wide variety of sources, including:

- Environmental Protection Agency
- National Science Foundation
- National Institutes of Health
- U.S. Forest Service
- National Park Service
- private agencies

The department occupies modern, well-equipped laboratories on the Auraria campus in downtown Denver. There are also many opportunities for field research.
BIOLOGY MS REQUIREMENTS

Programs

Bachelor of Science

Biology BS

Biology students must declare their major by the time they have taken 60 semester hours. A minimum of 36 hours of biology must be completed, of which 18 hours are at the upper-division level and taken in residence with UC Denver Downtown Campus biology faculty. Included in the 36 hours are 22 semester hours of biology core courses, required of all majors. At least 14 hours of upper-division biology elective courses beyond the core are required to fulfill the remaining hours, including one 4000-level lecture course. A maximum of 6 semester hours of independent study (BIOL 3840/4840) or a combined maximum total of 6 hours of independent study (3 hours) and internship/cooperative education (BIOL 3939) (3 hours) can be counted toward the 14 hours of upper-division electives in biology. The minimum grade in each UC Denver biology course is C- (1.7). However, a GPA of 2.5 in biology courses taken at UC Denver is required to graduate.

To ensure a proper background for the study of biology, majors are required to pass 31-33 hours of course work in ancillary disciplines, including two semesters of general chemistry laboratory, for which the minimum grade is C- (1.7). MATH 1110, with either BIOL 4764 or MATH 4830, may substitute for Calculus I (MATH 1401). All biology courses applied to the undergraduate biology major must be completed within 10 years of graduation. The following biology and ancillary courses are required and must be completed with a letter grade of C- (1.7) or higher:

Requirements for the Major

Biology Core Courses

- **BIOL 2051 - General Biology I Summer 2010 Registration:** BIOL 2051
- **BIOL 2071 - General Biology Laboratory I Summer 2010 Registration:** BIOL 2071
- **BIOL 2061 - General Biology II Summer 2010 Registration:** BIOL 2061
- **BIOL 2081 - General Biology Laboratory II Summer 2010 Registration:** BIOL 2081
- **BIOL 3411 - Principles of Ecology Summer 2010 Registration:** BIOL 3411
-OR-
• BIOL 3412 - Fundamentals of Applied Ecology  Summer 2010 Registration: BIOL 3412
• BIOL 3611 - General Cell Biology  Summer 2010 Registration: BIOL 3611
• BIOL 3832 - General Genetics  Summer 2010 Registration: BIOL 3832

One of the following structure/function courses:

• BIOL 3225 - Human Physiology  Summer 2010 Registration: BIOL 3225
• BIOL 3244 - Human Anatomy  Summer 2010 Registration: BIOL 3244
• BIOL 3654 - General Microbiology  Summer 2010 Registration: BIOL 3654
• BIOL 4335 - Plant Science  Summer 2010 Registration: BIOL 4335

Total Biology Core: 22 Hours

Biology Electives

Biology elective courses (3000 or 4000 level) *

Total Electives: 14 Hours

Biology (core and electives) Total: 36 Hours

* Biochemistry as a Biology Elective

Students who have taken both semesters of organic chemistry (CHEM 3411 and CHEM 3421) may use either biochemistry (CHEM 3810) or 4 hours of the general biochemistry series (CHEM 4810 and 4820 combined) as one of their required upper-division biology electives.

Ancillary Core Courses

• CHEM 2031 - General Chemistry I  Summer 2010 Registration: CHEM 2031
• CHEM 2038 - General Chemistry Laboratory I  Summer 2010 Registration: CHEM 2038
• CHEM 2061 - General Chemistry II  Summer 2010 Registration: CHEM 2061
• CHEM 2068 - General Chemistry Laboratory II  Summer 2010 Registration: CHEM 2068
• CHEM 3411 - Organic Chemistry I  Summer 2010 Registration: CHEM 3411
• CHEM 3421 - Organic Chemistry II  Summer 2010 Registration: CHEM 3421
  -OR-
• CHEM 3810 - Biochemistry  Summer 2010 Registration: CHEM 3810
• MATH 1401 - Calculus I  Summer 2010 Registration: MATH 1401
-OR-

- MATH 1110 - College Algebra  
  Summer 2010 Registration: MATH 1110
- with either BIOL 4764 - Biostatistics  
  Summer 2010 Registration: BIOL 4764
- or  MATH 4830 - Applied Statistics  
  Summer 2010 Registration: MATH 4830
- PHYS 2010 - College Physics I  
  Summer 2010 Registration: PHYS 2010
- PHYS 2030 - College Physics Lab I  
  Summer 2010 Registration: PHYS 2030
- PHYS 2020 - College Physics II  
  Summer 2010 Registration: PHYS 2020
- PHYS 2040 - College Physics Lab II  
  Summer 2010 Registration: PHYS 2040

Total Ancillary Core: 31-33 Hours

The following courses will not count toward the BS in biology:

- BIOL 1136 - Human Biology  
  Summer 2010 Registration: BIOL 1136
- BIOL 1550 - Basic Biology: Ecology and the Diversity of Life  
  Summer 2010 Registration: BIOL 1550
- BIOL 1560 - Basic Biology: From Cells to Organisms  
  Summer 2010 Registration: BIOL 1560

Degree Total: 36 Hours Biology + 31-33 Hours Ancillary

Non Degree

Biology Minor

For a biology minor, students must complete all biology core requirements (22 hours), of which a minimum of 9 hours must be completed in residence on the UC Denver Downtown Campus. The minimum grade in each UC Denver course is C- (1.7); however, a GPA of 2.5 is required in biology courses taken at UC Denver to complete the minor. In addition, students must complete one year of general chemistry including laboratory with a grade of C- (1.7) or higher.

Course Requirements

- BIOL 2051 - General Biology I  
  Summer 2010 Registration: BIOL 2051
- BIOL 2071 - General Biology Laboratory I  
  Summer 2010 Registration: BIOL 2071
- BIOL 2061 - General Biology II  
  Summer 2010 Registration: BIOL 2061
- BIOL 2081 - General Biology Laboratory II  
  Summer 2010 Registration: BIOL 2081
- BIOL 3411 - Principles of Ecology  
  Summer 2010 Registration: BIOL 3411

-OR-
- BIOL 3412 - Fundamentals of Applied Ecology  Summer 2010 Registration: BIOL 3412
- BIOL 3611 - General Cell Biology  Summer 2010 Registration: BIOL 3611
- BIOL 3832 - General Genetics  Summer 2010 Registration: BIOL 3832

One of the following structure/function courses:

- BIOL 3225 - Human Physiology  Summer 2010 Registration: BIOL 3225
- BIOL 3244 - Human Anatomy  Summer 2010 Registration: BIOL 3244
- BIOL 3654 - General Microbiology  Summer 2010 Registration: BIOL 3654
- BIOL 4335 - Plant Science  Summer 2010 Registration: BIOL 4335

Ancillary chemistry courses:

- CHEM 2031 - General Chemistry I  Summer 2010 Registration: CHEM 2031
- CHEM 2038 - General Chemistry Laboratory I  Summer 2010 Registration: CHEM 2038
- CHEM 2061 - General Chemistry II  Summer 2010 Registration: CHEM 2061
- CHEM 2068 - General Chemistry Laboratory II  Summer 2010 Registration: CHEM 2068

Minor Total: 31 Hours

Master of Science

Biology MS

- Graduate School Rules apply to this program.

Associate Chair for Graduate Studies: Timberley Roane
Office: North Classroom, 3411
Telephone: 303-556-6592
E-mail: timberley.roane@ucdenver.edu
Web site: clas.ucdenver.edu/biology/grad.html
Requirements for Admission

Applicants must hold a baccalaureate degree from an accredited college or university, awarded within the preceding nine years. Students whose biology degree was awarded 10 or more years prior to entrance to the UC Denver program will be expected to retake or show competence in the biology core courses. Successful applicants generally have earned an overall GPA of 3.0 or better. Most applicants have an undergraduate major in biology or a related field. Students entering the master’s program in biology must have completed the equivalent of a minor in biology. Although a deficit of one course is allowed, this must be completed within the first semester of entering the master’s program and will not apply toward the degree.

The general GRE is required of all applicants, with scores above the 50th percentile required on all parts. The online graduate application form is submitted online to UC Denver graduate admissions. The biology supplemental application form is also required and is submitted directly to the biology program (jacki.craig@ucdenver.edu).

Plan I (thesis option) applicants must indicate an area of concentration AND MUST HAVE THE PRIOR APPROVAL OF A FACULTY MEMBER IN BIOLOGY WHO WILL SUPERVISE THEIR THESIS WORK. Prospective thesis students must have a tentative advisor listed on the application form. Plan I applications cannot be considered without this information.

Plan II (course work only) applicants must indicate an area of concentration in addition to the name of a faculty member in biology who has tentatively agreed to serve as your advisor. Applications cannot be considered without this information.

Application deadlines are February 1 for domestic U.S. students and January 15 for international students. Online applications submitted electronically after the deadline dates WILL NOT be considered for that term. Applicants will be given the opportunity to have these applications considered for the next term.

Before submitting an application it is highly recommended that you meet with the associate chair for graduate studies, Dr. Timberley Roane, to make sure this program meets your needs and that you meet the program requirements.

Degree Requirements

All course work taken within the Department of Integrative Biology and applied toward the degree must be 5000 level or above. There is no core of required courses. A course plan is developed by the student and major advisor and is approved by the student’s graduate committee. In addition to regular meetings throughout the semester, all students must meet with their faculty advisor at the beginning of each academic year to determine course schedules and upcoming deadlines. A pre-registration agreement is signed by student and advisor, and then filed with the associate chair of graduate
studies in biology to make sure you are satisfying your degree requirements, and that the courses you want to take will be applicable toward your degree.

With the advisor’s and/or graduate committee’s approval, a maximum of 6 semester hours of course work at the 4000 level taken outside the department may be applied toward the degree. At least 18 semester hours must be taken from faculty in the Department of Integrative Biology at UC Denver. Upon approval of the department, no more than 12 semester hours may be transferred into the program. Two types of degree plans are offered:

**Plan I (with thesis)**

Students must form a three-person advisory committee consisting of members of the graduate faculty, with at least two from the regular UC Denver faculty. Committee membership must be approved by your graduate advisor. The thesis option requires 30 semester hours, including a minimum of 4 and no more than 6 thesis hours. You may also count a maximum of 6 hours (total) of independent study and/or graduate level internship. Graduate internship or independent study projects must consist primarily of research. In addition, two semesters of the following are required:

- **BIOL 6655 - Seminar** Summer 2010 Registration: BIOL 6655

**Plan II (without thesis)**

Requires 32 semester hours, including two semesters of:

- **BIOL 6655 - Seminar** Summer 2010 Registration: BIOL 6655

**Comprehensive Examination**

All students in the MS in biology program are required to complete a series of biology comprehensive exams. The purpose of the exams is to demonstrate mastery of chosen biological concepts in general biology, cell biology, ecology, genetics, and anatomy/physiology. The comprehensive exams include three written exams and an oral exam.

**Financial Assistance**

Financial aid for graduate students may be available from university and/or state fellowships, research assistantships sponsored by individual faculty members and teaching assistantships. The biology department hires teaching assistants for laboratories and recitations in a number of courses. Teaching is a valuable addition to
your graduate training. Hiring decisions are made by the instructors teaching labs and recitations. Please contact them (early) if you are interested.

Contact the Office of Financial Aid for information about fellowships, or the associate chair for graduate studies (303-556-6592) for information about research and teaching assistantships.

Interdisciplinary Programs

Most of the individual departments represented in the College of Liberal Arts and Sciences have numerous links with other disciplines; consequently, many faculty members encourage students to take courses in related disciplines. Students will often find opportunities to explore relationships among different disciplines while studying within traditional disciplines.

The college also has several established interdisciplinary programs leading to full undergraduate degrees, minors, certificates and graduate degrees. A brief description of each program follows, with a link to its respective program section.

Undergraduate

- The MINOR IN CHINESE STUDIES combines studies in language, literature and social sciences for students wishing to explore the interwoven perspectives of Chinese culture.
- The EDUCATIONAL STUDIES MINOR AND K-12 TEACHER LICENSURE PROGRAMS, in collaboration with the School of Education & Human Development, enable students to add educational training to their liberal arts and sciences discipline studies.
- The ENVIRONMENTAL SCIENCES MINOR allows students to choose courses from the social sciences, physical sciences, engineering, humanities and statistics to create a unique program of study.
- The ETHNIC STUDIES MINOR provides students the opportunity, through academic investigation, to develop a greater understanding of the cultural pluralism of the present day United States and to acquire skills needed in professional and social service fields.
- Students in the COMMUNITY HEALTH SCIENCE MINOR program focus on the social determinants of health and disease as they prepare for careers in public health and medicine.
- The INDIVIDUALLY STRUCTURED MAJOR (ISM) provides liberal arts and sciences students the freedom to create their own interdisciplinary major centered around an academic or career theme.
- The INTERNATIONAL STUDIES MAJOR affords students the opportunity to learn about diverse cultures as they acquire the methodological tools to analyze
the world from different academic disciplines. Study abroad experiences are strongly encouraged in this major.

- **The LAW STUDIES MINOR** introduces the study of law in relation to social and political discourse, and provides preparation for students contemplating application to law school.
- **The MINOR IN RELIGIOUS STUDIES** gives students a grounding in religious traditions through such interrelated disciplines as anthropology, literature, philosophy and psychology.
- **The MINOR IN SOCIAL JUSTICE** invites students to consider social justice as a goal of every healthy society and the best guarantee for sustaining peace. Two components of social justice are civic engagement and critical consumption, around which students create an interdisciplinary course of study.
- **Students in the MINOR IN SUSTAINABILITY** are encouraged to integrate approaches from different disciplines to problems related to sustainability, including sustainable ecology, environmental ethics, sustainable food production, critical consumerism and environmental policymaking.
- **The WOMEN'S AND GENDER STUDIES MINOR** focuses on the ways in which gender and sexuality help us to understand our past and present worlds, combining course work from humanities and social sciences disciplines.

**Graduate**

- **The MS IN ENVIRONMENTAL SCIENCE** combines environmental courses from the social sciences, physical sciences, engineering, humanities and statistics. A graduate certificate is also available.
- **PhD IN HEALTH AND BEHAVIORAL SCIENCES** students integrate social, cultural and biomedical perspectives to understand the underpinnings of health and the conditions essential for its creation and maintenance.
- **Students interested in synthesizing curricula in the arts, communication, history, literature, philosophy and theatre at the graduate level may be interested in the MASTER OF HUMANITIES (MH) degree.**
- **The MASTER OF INTEGRATED SCIENCES (MIS) degree** enables students to combine course work and independent research within the disciplines of computer science, math, chemistry, biology, physics or geology.
- **Students in the MASTER OF SOCIAL SCIENCE (MSS) degree program** develop their own interdisciplinary curriculum in the social sciences (anthropology, economics, geography, history, political science, psychology and sociology), as well as related disciplines (such as English, philosophy, education, public affairs and architecture).

**International Studies**
Faculty

The international studies program is an interdisciplinary major with faculty drawn from several independent academic departments.

Undergraduate Major

In a world where global commerce and politics have emerged as driving forces, the international studies major provides students with global perspectives. This interdisciplinary liberal arts degree is designed to offer a thorough education in international issues in preparation for international careers. This major offers students the opportunity to develop a deeper understanding of complex international issues and the forces shaping our world. Increasingly, government and the private sector seek graduates familiar with differing perspectives and cultures and willing to adapt to the rapidly changing workplace.

The international studies major not only introduces students to diverse cultures, but also gives them the methodological tools to analyze the world from different academic disciplines. The program requires students to take courses from a wide array of departments: anthropology, economics, geography, history, modern languages, political science, religious studies and the Business School. The program is designed to give students both a broad understanding of different methods and approaches to international problems and ensure that students come out of the program with a deeper understanding of one world region.

While the major does not require study abroad or an international internship, we encourage students to pursue such opportunities. The major is committed to supporting students who wish to take advantage of the numerous international education opportunities available through the UC Denver Office of International Affairs.

REQUIREMENTS FOR THE MAJOR
Regional Specialization

Within the courses taken to fulfill the three different thematic concentrations and introductory courses, students must specialize in a single region. Students should consult with the major advisor to confirm which courses fulfill the regional requirement. At least 15 hours of courses must focus on one of the following world regions:

- Asia
- Europe
- Latin America
- Middle East or Islamic World
- Sub-Saharan Africa

Majors may use any of the courses taken to fulfill the introductory or concentration requirements for the regional specialization. Language courses may be used to fulfill the regional requirement. Wherever possible, students must fulfill their language requirement with a language applicable to the region they study. (No semester hours are required beyond those needed to fulfill the introductory courses and thematic concentrations).

Honors

Students with a cumulative GPA of 3.5 or above in all UC Denver courses may compete for a degree in international studies awarded with Latin praise of *cum laude*, *magna cum laude* or *summa cum laude*. Students with a GPA of 3.5 in their international courses are eligible for the award of *cum laude*, those with 3.7 are eligible for *magna cum laude*, and those with 3.9 or above may be awarded *summa cum laude*. In addition to a high GPA, candidates for honors must submit a research paper prepared under the supervision of a Downtown Campus faculty member for review by an honors examination committee. The committee will consist of three faculty members drawn from departments participating in the program.

Study Abroad

Students are encouraged to participate in a study abroad program in the region they choose as their specialization. Please note that the major advisor must approve the study program in advance, and no more than 18 semester hours from a study abroad program can apply to the major. The courses applied to the major must also be approved by their respective disciplines. Travel-study courses that are University of Colorado resident courses will not count against the residency requirement for the major. Students should contact the Office of International Affairs for more information.
concerning study abroad opportunities (located at the Lawrence Street Center, 932, 303-315-2230).

**Internships**

Students may use up to 6 internship semester hours toward international studies graduation requirements. The internship must have a CLAS faculty sponsor who teaches courses applicable to the international studies degree. The internship must have an international element to count toward the degree. Students should seek the approval of the international studies program director for all internships. Students must fulfill the CLAS requirements to participate in an internship: junior standing and a minimum 2.75 GPA. Students must maintain communication with their faculty advisors on the progress they make during the internship if they expect to receive credit toward the major. For further information regarding internships, students should contact the Experiential Learning Center in Tivoli 260, 303-556-2250.

**Independent Study**

Students may apply up to 6 semester hours of independent study toward international studies graduation requirements. All independent studies require students to work closely with a faculty member to carry out a research project. Under the supervision of a faculty member, students must prepare a serious research proposal to guide their project during the semester. Students participating in these courses must have completed at least 18 hours of the international studies major to participate in independent study. Students who participate in independent study must have an overall UC Denver GPA of 2.5. All independent studies are subject to approval of the dean’s office.

**Programs**

**Bachelor of Arts**

**International Studies BA**

**Program Requirements**

The major consists of 48 to 51 semester hours, structured as follows:

- complete 9 semester hours from a list of introductory courses listed below
• choose three thematic concentrations from the following five:
  language and culture, international relations and comparative politics, economics
  and development, international commerce, and regional societies and history.
Majors complete 12 hours in each theme (except international commerce, which
requires 15). Below is a list of preapproved courses in each concentration.
Students wishing to apply courses not on the list may do so with the approval of
the program director.
• a capstone seminar (3 semester hours) for students in their last year
• the major is interdisciplinary, and students must take classes in at least three
different disciplines (anthropology, economics, geography, history, international
commerce/business, modern languages, political science or religious studies).
No more than 18 hours in any one discipline will be accepted toward the major.
• students are expected to develop a regional specialization. They must choose
courses from the introductory and thematic concentration lists that contribute to
an understanding of a world region.
• all international studies majors must demonstrate a proficiency in a language
other than English. This may be fulfilled with the fourth semester of a foreign
language course sequence. Students must receive a grade of C or better in all
language courses; they also have the option of testing out of this requirement.
• majors must complete at least half (24 hours) of the semester hours at the
Downtown Campus. A cumulative GPA of 2.5 or better is required, with a
minimum grade of C- earned in all major courses to graduate.

Required Courses

Introductory Courses

Choose one course from each of the following three groups:

Choose one:

- ECON 2012 - Principles of Economics: Macroeconomics Summer 2010
  Registration: ECON 2012
- GEOG 1102 - World Regional Geography Summer 2010 Registration: GEOG
  1102

Choose one:

- INTB 3000 - Global Perspectives Summer 2010 Registration: INTB 3000
- PSCI 3022 - Introduction to Comparative Politics Summer 2010 Registration: P
  SC 3022
Choose one:

- **ANTH 2102 - Culture and the Human Experience Summer 2010 Registration: ANTH 2102**
- **HIST 3451 - Introduction to African History Summer 2010 Registration: HIST 3451**
- **HIST 3460 - Introduction to Latin American History Summer 2010 Registration: HIST 3460**
- **HIST 3470 - Introduction to Asian History Summer 2010 Registration: HIST 3470**
- **HIST 3480 - Introduction to European History Summer 2010 Registration: HIST 3480**
- **HIST 3483 - Introduction to Modern South Asia Summer 2010 Registration: HIST 3483**
- **RLST 2660 - World Religions Summer 2010 Registration: RLST 2660**

**Total: 9 Hours**

**Thematic Concentrations**

Students must take a minimum of four upper-division courses in each of three of the following five concentrations, for a total of 36 semester hours (12 hours in each concentration). Please note that the concentration in international commerce requires five courses rather than four, for a total of 39 semester hours. The list below does not include all the international courses applicable to the major, only the ones frequently taught. It is expected to change as departments develop new courses and hire new faculty in different areas.

*Note:* Concentrations are interdisciplinary and are not the same as academic departments. Students must take courses in at least three different academic departments and no more than 18 semester hours in any one department.

**Language, Culture and Literature**

This concentration aims at deepening the student’s understanding of the cultural underpinnings and worldviews of different societies.

Modern languages: any upper-division courses in the Department of Modern Languages except Methods of Teaching French/German/Spanish. We have not listed the courses individually because there are so many upper-division courses on world literature and culture available in modern languages.
• ANTH 3121 - Language and Communication  Summer 2010 Registration: ANTH 3121
• ANTH 4130 - Comparative Religious Systems  Summer 2010 Registration: ANTH 4130
  -OR-
• RLST 4010 - Comparative Religious Systems  Summer 2010 Registration: RLST 4010
• PHIL 4650 - Differing Concepts of God  Summer 2010 Registration: PHIL 4650
  -OR-
• RLST 4400 - Differing Concepts of God  Summer 2010 Registration: RLST 4400

International Relations and Comparative Politics

Courses in this concentration stress comparative approaches, diplomacy and conflict resolution. Students will have an understanding of how different societies make decisions and manage international relations. How do other cultures conceive of and practice power?

• ANTH 4180 - The Nature of Power  Summer 2010 Registration: ANTH 4180
• HIST 3121 - The World at War, 1914-1945  Summer 2010 Registration: HIST 3121
• HIST 4032 - Globalization in World History Since 1945  Summer 2010 Registration: HIST 4032
• HIST 4220 - U.S. Foreign Policy Since 1912  Summer 2010 Registration: HIST 4220
• HIST 4412 - Mexico and the United States: People and Politics on the Border  Summer 2010 Registration: HIST 4412
• HIST 4471 - The Second World War  Summer 2010 Registration: HIST 4471
• HIST 4475 - The Vietnam War  Summer 2010 Registration: HIST 4475
• * PSCI 3022 - Introduction to Comparative Politics  Summer 2010 Registration: P SC 3022
• * PSCI 3042 - Introduction to International Relations  Summer 2010 Registration: P SC 3042
• PSCI 4057 - Religion and Politics  Summer 2010 Registration: P SC 4057
  -OR-
• RLST 4500 - Religion and Politics  Summer 2010 Registration: RLST 4500
• PSCI 4105 - Comparative Politics: Europe  Summer 2010 Registration: P SC 4105
• PSCI 4146 - Indigenous Politics  Summer 2010 Registration: P SC 4146
• PSCI 4156 - The Arab-Israeli Peace Process  Summer 2010 Registration: P SC 4156
• PSCI 4185 - Corruption in the U.S. and Abroad  Summer 2010 Registration: P SC 4185
Economics, Development and Environment

Students taking this concentration will develop an understanding of economic processes in an international context. The courses offer comparative approaches and cultural perspectives on development and environment.

Note: Students in this concentration must take

ECON 2012 - Principles of Economics: Macroeconomics as one of their three introductory courses.

Required economics course

- ECON 2022 - Principles of Economics: Microeconomics Summer 2010 Registration: ECON 2022

Choose three upper division courses from the following:

- ANTH 4010 - Global Health Studies I: The Biocultural Basis of Health Summer 2010 Registration: ANTH 4010
- ANTH 4070 - Culture of Development and Globalization Summer 2010 Registration: ANTH 4070
• ANTH 4140 - Principles of Economic Anthropology  Summer 2010 Registration: ANTH 4140
• ANTH 4170 - Culture and the Environment  Summer 2010 Registration: ANTH 4170
• ANTH 4390 - Laboratory Methods in Archaeology  Summer 2010 Registration: ANTH 4390
• ECON 4081 - Intermediate Macroeconomic Theory  Summer 2010 Registration: ECON 4081
• ECON 4230 - Law and Economics  Summer 2010 Registration: ECON 4230
• ECON 4410 - International Trade  Summer 2010 Registration: ECON 4410
• ECON 4420 - International Finance  Summer 2010 Registration: ECON 4420
• ECON 4540 - Environmental Economics  Summer 2010 Registration: ECON 4540
• ECON 4770 - Economic Development--Theory and Problems  Summer 2010 Registration: ECON 4770
• GEOG 3300 - Population and Resources in the World Environment  Summer 2010 Registration: GEOG 3300
• GEOG 3411 - Globalization and Regional Development  Summer 2010 Registration: GEOG 3411
• GEOG 3420 - Political Ecology  Summer 2010 Registration: GEOG 3420
• GEOG 3430 - Geography of Tourism  Summer 2010 Registration: GEOG 3430
• GEOG 4265 - Sustainability in Resources Management  Summer 2010 Registration: GEOG 4265
• INTB 3000 - Global Perspectives  Summer 2010 Registration: INTB 3000
• PSCI 4085 - Comparative Public Policy  Summer 2010 Registration: PSC 4085
• PSCI 4126 - Introduction to International Political Economy  Summer 2010 Registration: PSC 4126
• PSCI 4235 - Politics and Markets in Latin America  Summer 2010 Registration: PSC 4235
• PSCI 4248 - Gender, Globalization and Development  Summer 2010 Registration: PSC 4248
• PSCI 4326 - Advanced International Political Economy: Globalization  Summer 2010 Registration: PSC 4326
• PSCI 4365 - Global Ecological Crises  Summer 2010 Registration: PSC 4365
• PSCI 4555 - International Women's Resistance  Summer 2010 Registration: PSC 4555

**International Commerce**

The objective of this concentration is to give students an introduction to international business practices.

ECON 2012 and ECON 2022 are prerequisites for most of these courses. Note that the first three courses are prerequisites for MGMT 4400 and MKTG 4200. Students opting for this concentration must take both MGMT 4400 and MKTG 4200. Students must meet
Business School entrance requirements for the international commerce concentration, with a 3.0 GPA overall or in the last 24 hours.

Note: This concentration requires 15 hours, not 12.

- **ACCT 2200** - Financial Accounting and Financial Statement Analysis  *Summer 2010 Registration: ACCT 2200*
  (MATH 1070 or MATH 1110 prerequisite and sophomore standing).
- **MGMT 3000** - Managing Individuals and Teams  *Summer 2010 Registration: MGMT 3000*
- **MKTG 3000** - Principles of Marketing  *Summer 2010 Registration: MKTG 3000*
- **MGMT 4400** - Environments of International Business  *Summer 2010 Registration: MGMT 4400*
- **MKTG 4200** - International Marketing  *Summer 2010 Registration: MKTG 4200*

* Students must have junior standing to take the 3000-level courses and must be formally admitted to the international studies program to take the 4000-level courses.

---

**Regional Societies and History**

Students in this concentration are expected to develop a historical understanding of how nations and political systems develop. To understand why international actors behave in a given way, one needs to understand the historical background of those actors; this concentration will familiarize students with that background.

- **ANTH 4220** - Community in Global Context  *Summer 2010 Registration: ANTH 4220*
- **ANTH 4250** - Culture Change in the Modern World  *Summer 2010 Registration: ANTH 4250*
- **ANTH 4740** - Ethnography of Mexico and Central America  *Summer 2010 Registration: ANTH 4740*
- **ANTH 4995** - Travel Study  *Summer 2010 Registration: ANTH 4995*
- **GEOG 3120** - Geography of Europe  *Summer 2010 Registration: GEOG 3120*
- **GEOG 3130** - Central America and the Caribbean  *Summer 2010 Registration: GEOG 3130*
- **GEOG 3140** - Geography of South America  *Summer 2010 Registration: GEOG 3140*
- **GEOG 3150** - Middle East  *Summer 2010 Registration: GEOG 3150*
- **HIST 3350** - Colonial Latin America  *Summer 2010 Registration: HIST 3350*
- HIST 3500 - African History in Novels and Films

Additional Advisor: Glenn Morris (political science), JD, Harvard University School of Law
Telephone: 303-556-6243
E-mail: Glenn.Morris@ucdenver.edu
Web site: clas.ucdenver.edu/communication/
The law studies minor at UC Denver is an interdisciplinary course of studies intended to help students become intelligent and critical scholars of legal and political discourse. While the minor may be useful for students contemplating law school, it is also intended to appeal to a wider group of students interested in issues relating to law and society and careers in public policy-related fields. The minor is designed to achieve the following three interrelated goals:

- to introduce students to the major areas of law that affect life in the United States and important legal issues that influence current events
- to enable students to become familiar and fluent with a legal vocabulary and legal reasoning
- to better prepare students with the analytical and conceptual tools to be critical citizens in our constitutional democracy

In addition to these goals, students who complete the minor with the intention of attending law school may find themselves more prepared than they otherwise would be for the often mystifying and rigorous first year. To help these students, the program contains an advising component which assists students who are contemplating law school to provide them with a realistic appraisal of law school and of the legal profession. The counselors will aid students with the law school application process.

**REQUIREMENTS FOR THE MINOR**

**Programs**

**Non Degree**

**Law Studies Minor**

**Program Requirements**

A total of 18 semester hours must be completed for the law studies minor. The five required courses (15 semester hours) must be taken in residence at UC Denver. A minimum grade of C is required in each course and students must maintain a GPA of 3.0 in courses taken toward the minor. Every course taken for the minor must be upper division, and cannot serve to fulfill requirements of the undergraduate core. Students should check with their major department to determine whether courses counted toward the law studies minor can fulfill major requirements. To apply for this minor, students must complete and submit a major/minor change declaration form to the CLAS Advising Office in North Classroom, 4002.
Required Courses

- COMM 4680 - Mass Communication Law and Policy  
  Summer 2010 Registration: CMMU 4680  
  (offered at least once a year)
- HUMN 3250 - Introduction to Law Studies  
  Summer 2010 Registration: HUM 3250  
  (offered every fall)
- PHIL 4260 - Philosophy of Law  
  Summer 2010 Registration: PHIL 4260  
  (offered every spring)

Choose two:

- COMM 4681 - Communication Issues in Trial Court Practices and Processes  
  Summer 2010 Registration: CMMU 4681  
  (offered every other year)
- COMM 4750 - Legal Reasoning and Writing  
  Summer 2010 Registration: CMMU 4750  
  (offered every other year)
- PSCI 3034 - Race, Gender, Law and Public Policy  
  Summer 2010 Registration: PSCI 3034
- PSCI 4427 - Law, Politics and Justice  
  Summer 2010 Registration: PSCI 4427
- PSCI 4494 - Judicial Politics  
  Summer 2010 Registration: PSCI 4494

Total: 15 Hours

Electives

Choose one:

- BLAW 3000 - Legal and Ethical Environments of Business I  
  Summer 2010 Registration: BLAW 3000
- COMM 4140 - Argumentation  
  Summer 2010 Registration: CMMU 4140  
  (taught each summer)
- COMM 4255 - Negotiations and Bargaining  
  Summer 2010 Registration: CMMU 4255
- MUSC 3720 - Law and the Music Industry  
  Summer 2010 Registration: MUSC 3720
- PHIL 4812 - Special Topics in Philosophy  
  Summer 2010 Registration: PHIL 4812
- PSCI 3214 - Federal Law and American Indians  
  Summer 2010 Registration: PSCI 3214
- PSCI 4024 - Legislatues and Legislation  
  Summer 2010 Registration: PSCI 4024
- PSCI 4477 - Constitutional Law I  
  Summer 2010 Registration: PSCI 4477
Total: 3 Hours

Minor Total: 18 Hours

The law studies program also recommends a course in informal logic to aid in preparation for the LSAT (e.g., PHIL 2441).

Mathematical and Statistical Sciences

Chair: Michael S. Jacobson
Associate Chair: Lynn S. Bennethum
Program Assistant: Lindsay Hiatt
Administrative Assistant: Angela Beale
Office: CU-Denver Building, 600
Telephone: 303-556-8442
Fax: 303-556-8550

Faculty

Professors:

William E. Cherowitzo, PhD, Columbia University
Leopoldo Franca, PhD, Stanford University
Michael S. Jacobson, PhD, Emory University
Andrew Knyazev, PhD, Institute of Numerical Mathematics, Russian Academy of Sciences
Weldon A. Lodwick, PhD, Oregon State University
J. Richard Lundgren, PhD, Ohio State University
Jan Mandel, PhD (equivalent), Charles University (Czechoslovakia)
Stanley E. Payne, PhD, Florida State University

Associate Professors:

Lynn Bennethum, PhD, Purdue University
Stephen Billups, PhD, University of Wisconsin-Madison
Roxanne M. Byrne, PhD, University of Colorado
Anatolii Puhalskii, PhD, Moscow Institute of Physics and Technology
Stephanie A Santorico, PhD, North Carolina State University
Burton Simon, PhD, University of Michigan, Ann Arbor

**Assistant Professors:**

Steven Culpepper, PhD, University of Minnesota
Alexander Engau, PhD, Clemson University
Michael Ferrara, PhD, Emory University
Joshua French, PhD, Colorado State University
Julien Langou, PhD, INSA, Toulouse, France
Diana White, PhD, University of Nebraska

**Instructors:**

RaKissa Cribari, EdD, University of Northern Colorado
Michael Kawai, MS, University of Colorado
Nathan Kurtz, MS, University of Colorado
Lance Lana, MS, University of Colorado
Gary Olson, MS, University of Colorado

**Research Faculty:**

Loren Cobb, PhD, Cornell University

**Post-Docs:**

Jonathan Beezley, PhD, University of Colorado
Jinhai Chen, PhD, Hong Kong Polytechnic University
Yongku Kim, PhD, Ohio State University
Ashok Krishnamurthy, PhD, University of Louisville

**Adjuncts:**

Rico Argentati
Arthur Busch
George Corliss
Faun Doherty
Markus Emsermann
Mark Fitzgerald
Sylvia Hobart
Joan Hutchinson
Masahiro Inuiguchi
Craig Johns
Roger Johnson
Abram Jujunashvi
Karen Kafadar
David Mays
Doug Nychka
Brooks Reid
Steve R. Sain

Emeritus Faculty:

William Briggs, PhD, Harvard University
Kathryn L. Fraughnaugh, PhD, University of Houston
Harvey J. Greenberg, PhD, Johns Hopkins University
Zenas R. Hartvigson, PhD, Oregon State University
Sylvia Lu, PhD, Pennsylvania State University
Roland Sweet, PhD, Purdue University

The Department of Mathematical and Statistical Sciences offers courses and research opportunities with an emphasis on applied and computational mathematics. Traditional courses such as calculus, linear algebra, probability, statistics and discrete mathematics are offered regularly by the department. In addition, contemporary subjects such as continuous, probabilistic, optimization and discrete modeling; supercomputing; numerical analysis; optimization; and operations research are also well represented by course offerings and faculty interests. In all of its activities, the department embodies the outlook that mathematics is a powerful tool that can be used to solve problems of immediate and practical importance.

The study of mathematics with an emphasis on computers and applications can prepare students for careers in engineering, the sciences, business and management, actuarial science, public health and all computer-dependent disciplines.

Center for Computational Biology

Director: Stephen Billups
Telephone: 303-556-4814
Web site: http://ccb.cudenver.edu

The Center for Computational Biology (CCB) is a multidisciplinary center focused on computational biology research and education. A complete description of the CCB is provided at the CCB Web site.
Center for Computational Mathematics

**Director:** Jan Mandel  
**Telephone:** 303-556-4475  
**Web site:** [http://math.ucdenver.edu/ccm/](http://math.ucdenver.edu/ccm/)

The Center for Computational Mathematics is composed of faculty members who have an interest in computational mathematics, the study of solving mathematical problems with computers. The center resides in the Department of Mathematical and Statistical Sciences and includes faculty members from various other departments. The primary goal of the center is to foster research in computational mathematics and to maintain a strong educational program at all levels. It has extensive ties with industry along the Front Range and with government laboratories throughout the nation. It offers students an excellent opportunity to receive training and experience in this exciting new field. The center operates a supercomputing cluster, Beowulf.

Math Clinic

**Web site:** [http://math.ucdenver.edu/clinic/](http://math.ucdenver.edu/clinic/)

Each semester, the mathematical and statistical sciences department conducts math clinics that are open to both undergraduate and graduate students. Each clinic is sponsored by a business, government agency or research organization. The clinic sponsor provides a specific project on which students work with the supervision of a faculty member and a sponsor representative. Every clinic results in a final report to the sponsor and provides participating students with an opportunity to apply mathematics to relevant problems. Recent math clinic sponsors include Raytheon, Lockheed Martin, Xenometrix, Budget Truck Rental and United Launch Alliance.

Statistics Consulting Workshop

The Department of Mathematical and Statistical Sciences regularly offers a graduate course in statistics consulting in which students work on problems provided by researchers and clients at the Downtown Campus and in the Denver metropolitan area. Potential clients should contact Loren Cobb at stats@math.ucdenver.edu or 303-556-8571.

Undergraduate Program
The Department of Mathematical and Statistical Sciences offers a BS program that provides broad training in mathematics with the option of specializing in one of seven areas of special emphasis, or simply satisfying the requirements without specifying an area. The seven areas of emphasis are: pure mathematics, applied mathematics, computer science, discrete mathematics, probability and statistics, actuarial science and mathematics education. (Required courses for each option are given on the Requirements for Math Majors page.) Graduates typically teach, work in actuarial firms, develop software, work for engineering companies, perform statistical analysis for private and public organizations or pursue graduate work in mathematics.

Selecting a First Mathematics Course (Mathematics Majors)

The following table is a guide for mathematics majors selecting a first mathematics course:

<table>
<thead>
<tr>
<th>Previous Mathematics Courses</th>
<th>Recommended First Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. one year high school algebra and one year high school geometry</td>
<td>Beginning or intermediate algebra at a community college</td>
</tr>
<tr>
<td>B. two years high school algebra and one year high school geometry (i) $C$ average (ii) $B$ average</td>
<td>MATH 1110 - College Algebra MATH 1120 - College Trigonometry</td>
</tr>
<tr>
<td>C. two years high school algebra and one year high school geometry with trigonometry (i) $C$ average (ii) $B$ average</td>
<td>MATH 1130 - Precalculus Mathematics MATH 1401 - Calculus I</td>
</tr>
</tbody>
</table>

Students planning to take MATH 1070, MATH 1110 or MATH 1401 must take a prerequisite exam. For more information, see Math Prerequisite Exams. Students with transfer or advanced placement credit should see an academic advisor in the Department of Mathematical and Statistical Sciences.

The BS in mathematics requires a minimum of 48 semester hours in mathematics with an average of $C$ (2.0) and with a grade of at least $C$ in each course. At least 30 semester hours must be in upper-division courses (3000 level or above), excluding MATH 3040. To graduate, a mathematics major must have a minimum of 30 hours of resident credit
(letter grades received at UC Denver). Furthermore, 21 out of the last 30 hours must be taken at UC Denver. Finally, at least 15 upper-division mathematics credits must be taken at UC Denver.

Students must declare a major in the CLAS Advising Office by the time they have completed 60 semester hours. At this time, they will also be assigned a mathematics advisor in the Department of Mathematical and Statistical Sciences, whom they should consult at least once a semester. All mathematics majors should visit the CLAS Advising Office to have graduation requirements checked.

**REQUIREMENTS FOR MATHEMATICS MAJOR**

**REQUIREMENTS FOR THE MATHEMATICS MINOR**

**Graduation With Honors**

The mathematical and statistical sciences department recognizes students who complete the undergraduate program with distinction. To be eligible for graduation with honors (*cum laude, magna cum laude, summa cum laude*), a student must graduate with an overall GPA of 3.2 or better; must have a GPA of 3.5 or better in upper-division math courses; and must complete an honors project. Specific details may be obtained from the Department of Mathematical and Statistical Sciences. Students who wish to be considered for graduation with honors should notify a mathematics advisor as early in the program as possible.

**Applied Statistics Certificate**

**Director:** Stephanie Santorico  
**Telephone:** 303-556-2547  
**Web site:** [http://math.cudenver.edu/statistics/certificates.shtml](http://math.cudenver.edu/statistics/certificates.shtml)

**Applied Statistics Certificate - Undergraduate**

**Applied Statistics Certificate - Graduate**

**Graduate Program**

**Director:** Stephanie Santorico  
**Telephone:** 303-556-2547

The Department of Mathematical and Statistical Sciences offers the MS degree in applied mathematics and the PhD degree in applied mathematics. Each of these degree programs conforms to the rules and policies of the Graduate School.
Detailed descriptions of the requirements for the MS and PhD degrees are maintained in the Math Graduate Handbook. The following is an abbreviated summary of these requirements.

Requirements for Admission

To begin graduate work toward the MS or PhD degrees, a student should have at least the following preparation: 30 semester hours of mathematics [B (3.0) or better], at least 24 of which are at or above the level of MATH 3000. These courses should include a full year of advanced calculus or introduction to analysis, one semester of linear algebra and one semester of either differential equations, abstract algebra, discrete mathematics or probability. Additionally, students should take the GRE exam.

Students who do not have all the prerequisites may be admitted with prerequisite deficiencies with the understanding that those deficiencies must be removed after admission. Students who have a cumulative undergraduate GPA that is less than 3.0 may be eligible for provisional admission to the master's program (see also the Graduate School admission requirements).

Application Deadlines

Applications to the MS or PhD program should be submitted by the following target dates to be guaranteed full consideration. International students should submit their applications one month prior to these target dates.

<table>
<thead>
<tr>
<th>Target Dates for PhD Program</th>
<th>Target Dates for MS Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>Feb 15: fall or summer semester</td>
<td>Apr 1: fall or summer semester</td>
</tr>
<tr>
<td>Oct 1: spring semester</td>
<td>Nov 1: spring semester</td>
</tr>
</tbody>
</table>

Applications received after the target dates may still be considered for admission, depending on space availability.

Financial Support

PhD students and exceptionally strong MS students are encouraged to apply for teaching assistantships. A variety of other opportunities for financial support are also available. See the Math Graduate Handbook for details.

REQUIREMENTS FOR THE MS IN APPLIED MATHEMATICS

REQUIREMENTS FOR THE PhD IN APPLIED MATHEMATICS
Required Core Courses for All Mathematics Majors

- MATH 1401 - Calculus I Summer 2010 Registration: MATH 1401
- MATH 2411 - Calculus II Summer 2010 Registration: MATH 2411
- MATH 2421 - Calculus III Summer 2010 Registration: MATH 2421
- MATH 3000 - Introduction to Abstract Mathematics Summer 2010 Registration: MATH 3000
- MATH 3191 - Applied Linear Algebra Summer 2010 Registration: MATH 3191
- MATH 3200 - Elementary Differential Equations Summer 2010 Registration: MATH 3200
  - OR -
  - MATH 4408 - Applied Graph Theory Summer 2010 Registration: MATH 4408
  - MATH 4201 - Topology Summer 2010 Registration: MATH 4201
  - MATH 4310 - Introduction to Real Analysis I Summer 2010 Registration: MATH 4310
- MATH 3800 - Probability and Statistics for Engineers Summer 2010 Registration: MATH 3800
  - OR -
  - MATH 4810 - Probability Summer 2010 Registration: MATH 4810
  - MATH 4779 - Math Clinic Summer 2010 Registration: MATH 4779

TOTAL REQUIRED CORE: 30 HOURS

Core Areas

Choose one course from each of the following three areas:

Analysis

Choose one:

- MATH 3200 - Elementary Differential Equations Summer 2010 Registration: MATH 3200
- MATH 4201 - Topology Summer 2010 Registration: MATH 4201
- MATH 4310 - Introduction to Real Analysis I Summer 2010 Registration: MATH 4310
• MATH 4450 - Complex Variables  
  Summer 2010 Registration: MATH 4450
• MATH 4650 - Numerical Analysis I  
  Summer 2010 Registration: MATH 4650
• MATH 4733 - Partial Differential Equations  
  Summer 2010 Registration: MATH 4733

Modeling
Choose one:
• MATH 4387 - Regression Analysis, Modeling and Time Series  
  Summer 2010 Registration: MATH 4387
• MATH 4791 - Continuous Modeling  
  Summer 2010 Registration: MATH 4791
• MATH 4792 - Probabilistic Modeling  
  Summer 2010 Registration: MATH 4792
• MATH 4793 - Discrete Math Modeling  
  Summer 2010 Registration: MATH 4793
• MATH 4794 - Optimization Modeling  
  Summer 2010 Registration: MATH 4794

Discrete Math
Choose one:
• MATH 3140 - Introduction to Modern Algebra  
  Summer 2010 Registration: MATH 3140
• MATH 3301 - Introduction to Operations Research I - Deterministic Systems  
  Summer 2010 Registration: MATH 3301
• MATH 4408 - Applied Graph Theory  
  Summer 2010 Registration: MATH 4408
• MATH 4409 - Applied Combinatorics  
  Summer 2010 Registration: MATH 4409

TOTAL CORE AREAS: 9 HOURS

Electives Mathematics Majors Must Complete
Mathematics majors must take three upper-division mathematics courses, excluding MATH 3040, chosen to provide depth and breadth. Depth is obtained by taking a two-semester sequence of upper-division courses, one of which may be a course taken for the core area requirement.

Portfolio, Interview, Survey
In the semester of graduation, students must:
• submit a portfolio consisting of two papers, typically written for previous courses, that demonstrate mathematical and writing proficiency
• participate in an exit interview, which may be scheduled by the department administrative assistant
- complete a senior survey, available from the department administrative assistant

**Math Majors Considering Graduate Study**

Mathematics majors who are considering graduate study in mathematics should plan to take the following courses as part of their major:

- MATH 4310 - Introduction to Real Analysis I  *Summer 2010 Registration: MATH 4310*
- MATH 4320 - Introduction to Real Analysis II  *Summer 2010 Registration: MATH 4320*

**Required Courses for Each Option**

**PURE MATHEMATICS OPTION**

All core courses, with MATH 3200 chosen (30 semester hours), plus the following:

- MATH 3140 - Introduction to Modern Algebra  *Summer 2010 Registration: MATH 3140*
- MATH 4201 - Topology  *Summer 2010 Registration: MATH 4201*
- MATH 4110 - Theory of Numbers  *Summer 2010 Registration: MATH 4110*
- MATH 4409 - Applied Combinatorics  *Summer 2010 Registration: MATH 4409*
- MATH 4310 - Introduction to Real Analysis I  *Summer 2010 Registration: MATH 4310*
- MATH 4320 - Introduction to Real Analysis II  *Summer 2010 Registration: MATH 4320*
- Two approved math electives (6 semester hours)

Pure Mathematics Option Total: 50 Hours

**APPLIED MATHEMATICS OPTION**

All core courses with MATH 3200 and 4810 chosen (30 semester hours), plus the following:

- MATH 3301 - Introduction to Operations Research I - Deterministic Systems  *Summer 2010 Registration: MATH 3301*
- MATH 3302 - Operations Research II  *Summer 2010 Registration: MATH 3302*
- MATH 4408 - Applied Graph Theory  *Summer 2010 Registration: MATH 4408*
• MATH 4650 - Numerical Analysis I  Summer 2010 Registration: MATH 4650
  Two modeling courses, chosen from:
  • MATH 4387 - Regression Analysis, Modeling and Time Series  Summer 2010 Registration: MATH 4387
  • MATH 4791 - Continuous Modeling  Summer 2010 Registration: MATH 4791
  • MATH 4792 - Probabilistic Modeling  Summer 2010 Registration: MATH 4792
  • MATH 4793 - Discrete Math Modeling  Summer 2010 Registration: MATH 4793
  • MATH 4794 - Optimization Modeling  Summer 2010 Registration: MATH 4794
  Two approved math electives: 6 semester hours

Applied Mathematics Option Total: 48 Hours

COMPANY SCIENCE OPTION

All core courses with MATH 4408 chosen (30 semester hours), plus the following:

• CSCI 2421 - Data Structures and Program Design  Summer 2010 Registration: CSCI 2421
• MATH 3140 - Introduction to Modern Algebra  Summer 2010 Registration: MATH 3140
• MATH 4650 - Numerical Analysis I  Summer 2010 Registration: MATH 4650
• MATH 4660 - Numerical Analysis II  Summer 2010 Registration: MATH 4660
  -OR-
• MATH 4674 - Parallel Computing and Architectures  Summer 2010 Registration: MATH 4674
  One modeling course, chosen from:
  • MATH 4387 - Regression Analysis, Modeling and Time Series  Summer 2010 Registration: MATH 4387
  • MATH 4791 - Continuous Modeling  Summer 2010 Registration: MATH 4791
  • MATH 4792 - Probabilistic Modeling  Summer 2010 Registration: MATH 4792
  • MATH 4793 - Discrete Math Modeling  Summer 2010 Registration: MATH 4793
  • MATH 4794 - Optimization Modeling  Summer 2010 Registration: MATH 4794
  Two approved math electives: 6 semester hours
  One upper division computer science elective approved by advisor: 3 semester hours

Computer Science Option Total: 54 Hours

DISCRETE MATHEMATICS OPTION

This option allows students and advisors to create a program that differs from the pre-approved option.

Such a program must be approved by the advisor at least one year before graduation.
All core courses, with MATH 4408 chosen (30 semester hours) plus the following:

- MATH 3140 - Introduction to Modern Algebra  
  *Summer 2010 Registration: MATH 3140*
- MATH 4201 - Topology  
  *Summer 2010 Registration: MATH 4201*
- MATH 4310 - Introduction to Real Analysis I  
  *Summer 2010 Registration: MATH 4310*
- MATH 4409 - Applied Combinatorics  
  *Summer 2010 Registration: MATH 4409*
- MATH 4793 - Discrete Math Modeling  
  *Summer 2010 Registration: MATH 4793*
- MATH 4409 - Applied Combinatorics  
  *Summer 2010 Registration: MATH 4409*
- MATH 4794 - Optimization Modeling  
  *Summer 2010 Registration: MATH 4794*
  Choose one course from the following
- MATH 3210 - Higher Geometry I  
  *Summer 2010 Registration: MATH 3210*
- MATH 4110 - Theory of Numbers  
  *Summer 2010 Registration: MATH 4110*
- MATH 4220 - Higher Geometry II  
  *Summer 2010 Registration: MATH 4220*
  One Math elective above MATH 3000, excluding 3040: **3 semester hours**

**Discrete Mathematics Option Total: 51-52 Hours**

**PROBABILITY AND STATISTICS OPTION**

All core courses with MATH 3200 and 4810 chosen (30 semester hours), plus the following:

- MATH 4650 - Numerical Analysis I  
  *Summer 2010 Registration: MATH 4650*
- MATH 4387 - Regression Analysis, Modeling and Time Series  
  *Summer 2010 Registration: MATH 4387*
- MATH 4792 - Probabilistic Modeling  
  *Summer 2010 Registration: MATH 4792*
- MATH 4820 - Statistics  
  *Summer 2010 Registration: MATH 4820*
  One course from the discrete mathematics area: **3 semester hours**
  Two approved math electives: **6 semester hours**

**Probability and Statistics Option Total: 48 Hours**

**ACTUARIAL SCIENCE OPTION**

All core courses with MATH 3200 and 4810 chosen (30 semester hours), plus the following:

- MATH 3301 - Introduction to Operations Research I - Deterministic Systems  
  *Summer 2010 Registration: MATH 3301*
- MATH 3302 - Operations Research II  
  *Summer 2010 Registration: MATH 3302*
• MATH 4408 - Applied Graph Theory  
  Summer 2010 Registration: MATH 4408
• MATH 4387 - Regression Analysis, Modeling and Time Series  
  Summer 2010 Registration: MATH 4387
• MATH 4650 - Numerical Analysis I  
  Summer 2010 Registration: MATH 4650
• MATH 4820 - Statistics  
  Summer 2010 Registration: MATH 4820
  One modeling course, chosen from:
  • MATH 4792 - Probabilistic Modeling  
    Summer 2010 Registration: MATH 4792
  -OR-
  • MATH 5350 - Mathematical Theory of Interest  
    Summer 2010 Registration: MATH 5350
    (MATH 5350 strongly recommended)
  One MATH elective above 3000: 3 semester hours

Actuarial Science Option Total: 45 Hours

Suggested minor for actuarial science major option:

Actuaries need a background in business, particularly accounting, economics and finance. You are strongly advised to do a minor in one of these areas. Recommended classes are:

• ACCT 2200 - Financial Accounting and Financial Statement Analysis  
  Summer 2010 Registration: ACCT 2200
• ECON 2012 - Principles of Economics: Macroeconomics  
  Summer 2010 Registration: ECON 2012
• ECON 2022 - Principles of Economics: Microeconomics  
  Summer 2010 Registration: ECON 2022
• FNCE 3000 - Principles of Finance  
  Summer 2010 Registration: FNCE 3000

MATHEMATICS EDUCATION OPTION

All core courses with MATH 3800 and 4408 chosen (30 semester hours), plus the following:

• MATH 3140 - Introduction to Modern Algebra  
  Summer 2010 Registration: MATH 3140
• MATH 3210 - Higher Geometry I  
  Summer 2010 Registration: MATH 3210
• MATH 4010 - History of Mathematics  
  Summer 2010 Registration: MATH 4010
• MATH 4201 - Topology  
  Summer 2010 Registration: MATH 4201
  One modeling course, chosen from:
  • MATH 4387 - Regression Analysis, Modeling and Time Series  
    Summer 2010 Registration: MATH 4387
  • MATH 4791 - Continuous Modeling  
    Summer 2010 Registration: MATH 4791
  • MATH 4792 - Probabilistic Modeling  
    Summer 2010 Registration: MATH 4792
  • MATH 4793 - Discrete Math Modeling  
    Summer 2010 Registration: MATH 4793
  • MATH 4794 - Optimization Modeling  
    Summer 2010 Registration: MATH 4794
Approved math elective: 3 semester hours
Mathematics Education Option Total: 48 Hours

Note:
Certification by the School of Education and Human Development is required for public school teaching. Contact the school for details.

Certificate

Applied Statistics Graduate Certificate

Coordinator: Stephanie Santorico:
Telephone: 303-556-2547
E-mail: Stephanie.Santorico@ucdenver.edu

Entrance Requirements

Students are expected to have a bachelor's degree and be admitted to the graduate school as either a degree-seeking or nondegree-seeking student. Students are expected to have completed an introductory statistics course (such as MATH 2830 or the equivalent) or an introductory course in probability. At least one semester of calculus and a course containing linear algebra are also recommended.

To apply, see Graduate Applied Statistics Certificate

Curriculum

There are three parts to the requirements:

Required Courses

Basic methods (choose one):
- MATH 4820 - Statistics Summer 2010 Registration: MATH 4820
  -OR-
- MATH 4830 - Applied Statistics Summer 2010 Registration: MATH 4830
  -OR-
- MATH 5320 - Statistics Summer 2010 Registration: MATH 5320

Advanced methods (choose two):
- MATH 5387 - Regression Analysis, Modeling and Time Series Summer 2010 Registration: MATH 5387
- AND/OR-
- MATH 5394 - Experimental Designs Summer 2010 Registration: MATH 5394
- AND/OR-
- MATH 6360 - Exploratory Data Analysis Summer 2010 Registration: MATH 6360

Elective (choose one):

Any statistics course in the math department at the 5000 level or higher
- ECON 5150 - Economic Forecasting Summer 2010 Registration: ECON 5150
- ECON 5813 - Econometrics I Summer 2010 Registration: ECON 5813
- ECON 5823 - Econometrics II Summer 2010 Registration: ECON 5823
- ENVS 5600 - Applied Statistics for the Natural Sciences Summer 2010 Registration: ENVS 5600
- GEOL 5770 - Applied Statistics for the Natural Sciences Summer 2010 Registration: GEOL 5770
- PSYC 5713 - Advanced Statistics Summer 2010 Registration: PSY 5713
- SOCY 5183 - Seminar: Quantitative Data Analysis Summer 2010 Registration: SOC 5183

Equivalent course pre-approved by the certificate coordinator

Project

An independent data analysis project with a report and presentation to demonstrate proficiency with data analysis techniques and a statistical computing software package. Enroll for one hour of MATH 5840 (Independent Study) or in an equivalent course preapproved by the certificate coordinator.

Certificate Total: 13 Hours

Grade Requirements

Students must maintain a 3.0 GPA in these courses with no credit given for courses with grades below B-.

Residency Requirements

Since a certificate is a University of Colorado Denver certification of a student’s specialized knowledge in an advanced subject area, all courses in the certificate program are expected to be taken in residency at the University of Colorado Denver.
Applied Statistics Undergraduate Certificate

Coordinator: Stephanie Santorico:
Telephone: 303-556-2547
E-mail: Stephanie.Santorico@ucdenver.edu
Web site: http://math.ucdenver.edu/statistics/ugrad_cert.shtml

Entrance Requirements

All undergraduate students in good standing (including nondegree-seeking students) will be admitted to the program. For students in the College of Liberal Arts and Sciences, this requires a cumulative grade point average of 2.0. Some mathematical background (including calculus and linear algebra) is recommended.

To apply, see Undergraduate Applied Statistics Certificate

Curriculum

There are three parts to the requirements:

Required Courses

- MATH 2830 - Introductory Statistics Summer 2010 Registration: MATH 2830

  Basic Methods (choose one):
  - MATH 4820 - Statistics Summer 2010 Registration: MATH 4820
  - MATH 4830 - Applied Statistics Summer 2010 Registration: MATH 4830

  Advanced Methods (choose one):
  - MATH 4387 - Regression Analysis, Modeling and Time Series Summer 2010 Registration: MATH 4387
  - MATH 4394 - Experimental Designs Summer 2010 Registration: MATH 4394

Elective (choose one):

- MATH 4101 - Applied Statistics Using SAS and SPSS I Summer 2010 Registration: MATH 4101
  - or any statistics course in the math department at the 4000 level or higher
• ECON 4150 - Economic Forecasting  Summer 2010 Registration: ECON 4150
• ECON 4811 - Introduction to Econometrics  Summer 2010 Registration: ECON 4811
• GEOG 4770 - Applied Statistics for the Natural Sciences  Summer 2010 Registration: GEOG 4770
• GEOL 4770 - Applied Statistics for the Natural Sciences  Summer 2010 Registration: GEOL 4770
• SOCY 5183 - Seminar: Quantitative Data Analysis  Summer 2010 Registration: SOC 5183
  Equivalent course pre-approved by the certificate coordinator

Project

An independent data analysis project with a report and presentation to demonstrate proficiency with data analysis techniques and a statistical computing software package. Enroll for one hour of MATH 4840 (Independent Study) or in an equivalent course pre-approved by the certificate coordinator.

Certificate Total: 13 Hours

Grade Requirements

Students must maintain a 3.0 GPA in these courses with no credit given for courses with grades below B-.

Residency Requirements

Since a certificate is a University of Colorado Denver certification of a student’s specialized knowledge in an advanced subject area, all courses in the certificate program are expected to be taken in residency at the University of Colorado Denver.

Non Degree

Mathematics Minor

Program Requirements

• MATH 1401 - Calculus I  Summer 2010 Registration: MATH 1401
• MATH 2411 - Calculus II  Summer 2010 Registration: MATH 2411
• MATH 2421 - Calculus III  
  Summer 2010 Registration: MATH 2421  
  Three additional upper-division math courses (3 or more semester hours each, excluding MATH 3040): 9 semester hours

Minor Total: 21 Hours

Minimum of 21 semester hours with a C average.

Note: At least 6 of the upper-division semester hours must be taken at the Downtown Campus. No grade below a C- will be counted toward the minor requirements.

Master of Science

Applied Mathematics, MS

► Graduate School Rules apply to this program.

Program Requirements

Students must present 30 hours of course work and maintain a 3.0 GPA for the MS degree. At least 24 of these hours must consist of graduate-level (numbered 5000 or higher) mathematics courses. The remaining 6 hours must be either mathematics courses numbered 5000 or above or approved courses outside the department numbered 4000 or above. Up to 12 semester hours may be transferred from other institutions.

A student may devote from 4 to 6 hours (of the 30 required hours) to the writing of a thesis. Following completion of course work, all candidates must make a one-hour oral presentation before a committee consisting of three graduate faculty members.

Students must take either applied analysis or real analysis and applied linear algebra. Additionally, students must fulfill specific course work requirements for one of the following areas of specialization:

• discrete mathematics
• operations research
• applied statistics
• applied probability
• numerical analysis
• mathematics of science and engineering
• mathematical foundations of computer science
• computational biology
All master's degree students are encouraged to participate in the Math Clinic, a unique program in which students have an opportunity to work on real-world problems supplied by local businesses, research firms and government agencies.

For more detailed information about the applied mathematics MS, see the Math Graduate Handbook.

**Doctor of Philosophy**

**Applied Mathematics, PhD**

- [Graduate School Rules](#) apply to this program.

**Program Requirements**

The Department of Mathematical and Statistical Sciences also offers a PhD in applied mathematics. The degree is designed to give candidates a contemporary, comprehensive education in applied mathematics and to provide research opportunities in the special fields of discrete mathematics, optimization, operations research, applied probability, computer science, computational mathematics, applied statistics and the mathematics of science and engineering.

There are six phases of the PhD program. A candidate must fulfill course requirements, pass the preliminary examinations, establish a PhD committee, meet the academic residency requirement, pass the comprehensive examination and write and defend a dissertation.

- Students must complete 42 semester hours of nonthesis course work at the graduate level (up to 30 hours of this course work may be transferred in, including courses taken as part of the MS master's degree). In addition, 30 hours of dissertation credit must be taken. The following courses are required as part of the formal course work: four PhD-level courses (3 hours each), math clinic and three readings courses (1 semester hour each). Students must also satisfy a **breadth requirement** by completing a total of six graduate math courses from among several areas of mathematics, with no more than three of these courses from any one area. A 3.25 GPA must be maintained throughout all course work.

- The preliminary examinations are designed to determine that students who intend to pursue the PhD program are qualified to do so. These four-hour written examinations are in the areas of applied analysis and applied linear algebra. Students must pass these exams within two years of entering the program. Exception: students admitted with prerequisite deficiencies must pass these exams within three years.
• Six semesters of residence are required, as specified in the rules of the Graduate School. All students are strongly advised to spend at least one year doing full-time course work or research with no outside employment.

• Application for candidacy is made after completion of the preliminary examinations and after at least three semesters of residency. The application must be submitted at least two weeks before taking the comprehensive examination. The comprehensive examination is designed to determine mastery of graduate-level mathematics and the ability to embark on dissertation research. It consists of a six-hour written examination and an oral follow-up examination. Students must pass the comprehensive exam within 4 years of admission. Within six months after passing the comprehensive examination, the candidate must present a dissertation proposal to the dissertation committee.

• Each student must write and defend a dissertation containing original contributions and evidence of significant scholarship. The dissertation defense is public and must be given before an examining committee approved by the Graduate School.

For more detailed information about the applied mathematics PhD, see the Math Graduate Handbook.

**Graduate Advisor:**
General Information

The Department of Modern Languages includes Chinese, French, German, Latin and Spanish. Majors are available in French and Spanish, and minors are available in French, German and Spanish. Certification is available in German. Students must declare a major by the time they have completed 60 semester hours of course work. The department recommends that majors and minors include some study abroad while they are fulfilling their degree requirements at UC Denver. Please see a departmental advisor about study abroad opportunities. Credit earned abroad will normally count toward satisfaction of the major and minor requirements at UC Denver, but to assure full transfer of credit, students must see an advisor in the department before enrolling in programs abroad. Courses taken abroad and designated as upper division in French, German or Spanish are subject to the 48-hour maximum of semester hours from a single discipline in the College of Liberal Arts and Sciences.

Departmental Honors

Students who meet certain criteria and have been invited by the faculty of the appropriate language are encouraged to participate in the Department of Modern Languages honors program. Successful completion of this program by students majoring in French or Spanish leads to graduation with the distinction of *cum laude*, *magna cum laude* or *summa cum laude*. See French and Spanish sections for details.

Relevance to Other Programs

In addition to fulfilling major and minor requirements, courses in the Department of Modern Languages prepare students in the language, literature and civilization of the countries and peoples they are studying. Certain courses may apply to the fulfillment of core curriculum requirements in the College of Liberal Arts and Sciences. Other courses lead to a secondary-school teaching certificate, the *master of humanities degree* and the master of arts degrees in Spanish and education at the Downtown Campus, and to the master of arts degree in French or Spanish on the Boulder campus. Only courses
numbered 5000 and above apply to the master’s degree; students enrolled in a master’s program in Boulder should consult with their advisor before enrolling in courses on the Downtown Campus.

Foreign Language Requirement

All students with majors in the College of Liberal Arts and Sciences must demonstrate proficiency in a foreign language at the second semester level. This is accomplished through course work, by examination or by completion of second-year high school credit. Students must receive a grade of C- (1.7) or higher in the final semester of the second-year course in high school or the second-semester college-level course in order to fulfill the foreign language requirement. The prerequisite for the second-semester college course is a grade of C (2.0) or better in the first-semester course. There is no pass/fail option for any course taken for the foreign language requirement.

Students may show their level of proficiency by taking the placement/proficiency exam. The languages tested are French, German and Spanish. For other languages, consult the CLAS Advising Office (North Classroom, 4002). For information on the placement/proficiency exam, check the Modern Languages Web site or call the Department of Modern Languages, 303-556-4893. The number of times a student may take the exam is limited to once per semester.

For information on fulfilling part of the foreign language requirement through study abroad, see the Study Abroad Web site or call 303-315-2232, or consult a Modern Languages advisor.

Department of Modern Languages Policy on Student Placement in Lower-Division Courses

A student may not enroll in a lower-division (1000/2000) language course that is below his/her level of language proficiency. Students wishing to enroll in a lower-division language course that does not directly follow their last completed course in the regular sequence must consult with an appropriate faculty member of the Department of Modern Languages prior to enrollment. Students who have achieved some proficiency in a foreign language through other means than academic courses must also consult with an appropriate faculty member of the Department of Modern Languages prior to enrollment. Call 303-556-4893 for further information.

Departmental Advising

Upon declaring a major or minor in modern languages, each student will be assigned to a faculty advisor with whom the student should consult at least once per semester thereafter. It is especially important that modern language majors have their transcripts reviewed by a departmental advisor before enrolling in their final 30 semester hours at UC Denver. Failure to do so may result in delay of graduation. Students presenting four
years of high school foreign language (Level IV) for admission must see a departmental advisor before enrolling in courses for the major or minor. Students with advanced placement credits from high school should see a departmental advisor about course equivalencies. The Department of Modern Languages does not accept CLEP credits.

Before enrolling in their final semester, seniors demonstrate advanced oral and written proficiency in the language that they are studying through an oral proficiency interview and a written outcomes assessment exam. Students must see a departmental advisor to schedule proficiency tests in their language.

**Residency Requirement**

A minimum of 18 semester hours of course work leading to a UC Denver major in French or Spanish must be taken from modern languages faculty at the Downtown Campus. For a UC Denver minor in French, German or Spanish, 9 semester hours must be taken from modern languages faculty at the Downtown Campus. Courses taken at other institutions while a student is enrolled at UC Denver may be applied to the major or minor only with departmental approval before enrollment in those courses.

**French**

**Undergraduate**

**REQUIREMENTS FOR THE FRENCH MAJOR**

**REQUIREMENTS FOR THE FRENCH MINOR**

**Graduate**

At present, UC Denver offers no French courses above 5999. The courses at the 5000 level are applicable to an MA degree through the University of Colorado at Boulder and to the master of humanities program at UC Denver, depending upon degree plan approval by the appropriate graduate advisor.

**German**

**Undergraduate**

**REQUIREMENTS FOR THE GERMAN MINOR**

**UNDERGRADUATE CERTIFICATE IN APPLIED GERMAN LANGUAGE SKILLS**
Graduate

UC Denver offers no German courses above 5999. Courses at the 5000 level are applicable to an MA degree in German through the University of Colorado at Boulder and to the master of humanities program at UC Denver, depending upon degree plan approval by the appropriate graduate advisor.

Spanish

Undergraduate

REQUIREMENTS FOR THE SPANISH MAJOR

REQUIREMENTS FOR THE SPANISH MINOR

Graduate

REQUIREMENTS FOR THE MA IN SPANISH

Programs

Bachelor of Arts

French BA

The French program offers courses in advanced language, linguistics, literature, civilization, culture and business, all taught exclusively in French. A minor is also offered. All French majors are strongly encouraged to participate in a study abroad program. Please see your French department advisor for information about opportunities to include study abroad as part of your major.

Admission and Grade Requirements

To be admitted to major status in French, students must have an overall GPA of C+ (2.3). The minimum grade acceptable in any French course applied to a French major is C (2.0). The grade point average in all courses applied to a French major at UC Denver must be 2.5. No courses taken on a pass/fail basis may be credited toward a French major. Upon declaring a major in French, each student will be assigned to a faculty advisor with whom the student should consult at least once per semester thereafter. It is especially important that students have their transcripts reviewed by their advisor before enrolling in their final 30 credit hours at UC Denver. Failure to do so may result in delay of graduation. Students presenting four years of high school French (Level IV) for
admission to UC Denver must see a French advisor before enrolling in courses for the major. Students with advanced placement credits from high school must see a French advisor about course equivalencies. The Department of Modern Languages does not accept CLEP credits.

Honors in French

Qualified majors will automatically graduate with regular honors in French. Faculty occasionally nominate students for extra course work leading to higher levels of honors in French. For information, consult the French advisor in the Department of Modern Languages.

Outcomes Assessment

During their final semester in the language, French major students participate in an oral proficiency interview and take a written outcomes assessment exam to measure their level of proficiency and mastery of key concepts.

Residency Requirement

All students majoring in French must complete 30 semester hours of upper-division French courses (courses numbered 3000 and above). A minimum of 18 of those semester hours must be taken from the faculty in French at the Downtown Campus. Courses taken at other institutions while a student is enrolled at UC Denver may be applied to the major only with departmental approval before enrollment in those courses. Students studying French for the professions must also take courses in other areas. Requirements for both tracks are outlined below.

Course Requirements for the Major

Track A: Language, Literature and Culture

Students wishing to improve their linguistic skills as well as their knowledge of Francophone literature and culture may choose this track.

Required Courses

- FREN 3010 - French Phonetics and Pronunciation  
  *Summer 2010 Registration: FR 3010*
- FREN 3020 - Oral Practice  
  *Summer 2010 Registration: FR 3020*
- FREN 3050 - Advanced Grammar and Composition  
  *Summer 2010 Registration: FR 3050*
- **FREN 3060 - Advanced French Language Skills Summer 2010 Registration:** FR 3060

**Total: 12 Hours**

**Electives**

Three courses at the 4000 level: **9 semester hours**

Three electives at 3000 or 4000 level: **9 semester hours**

*Note:* students must take at least one literature course and at least one culture or civilization course.

**Total: 18 Hours**

**Track A Major Total: 30 Hours**

**Track B: International Language and Culture for the Professions**

This option in the French major offers career possibilities, both in government and private industry, at home and abroad. Languages are useful in business, industry, commerce, civil service, law, library science, media, science, economics, health and social sciences. Students who follow this course of study could also qualify as teachers of general business subjects in bilingual as well as traditional school systems. Students interested in this track should contact the French advisor in the Department of Modern Languages as early as possible in their academic career, but not later than the second semester of the sophomore year.

**Prerequisites**

(these courses do not count toward the major total of 48 hours)

- **ECON 2012 - Principles of Economics: Macroeconomics Summer 2010 Registration:** ECON 2012
- **ECON 2022 - Principles of Economics: Microeconomics Summer 2010 Registration:** ECON 2022
• MATH 1070 - Algebra for Social Sciences and Business Summer 2010  
  Registration: MATH 1070 -OR-  
• MATH 1110 - College Algebra Summer 2010 Registration: MATH 1110  
  (or higher level math course)

Required French Courses

• FREN 1000 - Introduction to Cultures of the French-Speaking World Summer 2010 Registration: FR 1000  
• FREN 3020 - Oral Practice Summer 2010 Registration: FR 3020  
• FREN 3050 - Advanced Grammar and Composition Summer 2010 Registration: FR 3050  
• FREN 3060 - Advanced French Language Skills Summer 2010 Registration: FR 3060  
• FREN 3112 - Survey of French Literature I Summer 2010 Registration: FR 3112 -OR-  
• FREN 3122 - Survey of French Literature II Summer 2010 Registration: FR 3122  
• FREN 3130 - Current Topics of the French-Speaking World Summer 2010 Registration: FR 3130 -OR-  
• FREN 3140 - Contemporary Francophone Cultures Summer 2010 Registration: FR 3140  
• FREN 4050 - Advanced French for Business Summer 2010 Registration: FR 4050  
• FREN 4082 - Introduction to Translation Summer 2010 Registration: FR 4082  
• FREN 4210 - French Civilization - Twentieth and Twenty-First Centuries Summer 2010 Registration: FR 4210

Total: 27 Hours

French Electives

Choose two (at least one at 4000 level) from:

• FREN 3120 - French Cultural Identities: Myths and Realities Summer 2010  
  Registration: FR 3120  
• FREN 3130 - Current Topics of the French-Speaking World Summer 2010  
  Registration: FR 3130  
• FREN 3140 - Contemporary Francophone Cultures Summer 2010 Registration: FR 3140  
• FREN 4200 - French Civilization Through the Nineteenth Century Summer 2010  
  Registration: FR 4200
Any 3000- or 4000-level literature course (not already taken from required list)

Total: 6 Hours

Business Courses

(please be aware of prerequisites in business course descriptions)

- ACCT 2200 - Financial Accounting and Financial Statement Analysis  
  Summer 2010 Registration: ACCT 2200
- MGMT 1000 - Introduction to Business  
  Summer 2010 Registration: MGMT 1000
- MGMT 3000 - Managing Individuals and Teams  
  Summer 2010 Registration: MGMT 3000
- MKTG 3000 - Principles of Marketing  
  Summer 2010 Registration: MKTG 3000

One 3000-level course in international business

Total: 15 Hours

Recommended

Official proficiency exam (Paris Chamber of Commerce)

Track B Major Total: 48 Hours

Secondary Foreign Language Teacher Licensure Program

With this option, students complete a major in French along with additional course work required for certification to teach French in the public schools. This program should be chosen early in the students' careers. For information, see the Teacher Education Program section of this catalog or contact the CLAS Advising Office (phone 303-556-2555 or visit North Classroom, 4002) and the French advisor.

Spanish BA

The Spanish program studies the language, linguistics, literature, culture and civilization of Spain, Spanish America and the Spanish-speaking areas of the United States.

Admission and Grade Requirements
To be admitted to major status in Spanish, students must have an overall GPA of \textit{C+} (2.3). The minimum grade acceptable in any course applied to a Spanish major or minor is a \textit{C} (2.0). The GPA in all courses applied to a Spanish major or minor at UC Denver must be 2.5. No courses taken on a pass/fail basis may be credited toward a Spanish major or minor.

**Residency Requirement**

The BA in Spanish requires 30 semester hours of upper-division course work in Spanish and 6 additional hours in related fields. A minimum of 18 semester hours of Spanish course work for the major, and 9 hours for the minor, must be taken from Spanish faculty at the Downtown Campus. Courses taken at other institutions while a student is enrolled at UC Denver may be applied to the major only with departmental approval before enrollment in those courses.

**Proficiency Requirement**

Before enrolling in their final semester in the language, Spanish majors must be evaluated by the faculty in oral and written skills. Students must see their Spanish advisor for specific information.

**Course Requirements for the Major**

Students majoring in Spanish for the BA degree must complete 30 semester hours of upper-division course work, at least 12 of which must be at the 4000 level. All course work applied to the 30-semester hour minimum must be taught in Spanish. In addition, students must complete 6 semester hours in courses in related fields outside the curriculum in Spanish.

**Program Requirements**

**Language, Literature and Culture Track**

**LITERATURE**

- \textbf{SPAN 3252 - Introduction to the Study of Literature} \textit{Summer 2010 Registration: SPAN 3252}
  - At least one course on the literature of Spain: \textbf{3 semester hours}
  - At least one course on the literature of Spanish America: \textbf{3 semester hours}

**Total: 9 Hours**
LANGUAGE SKILLS AND THEORY

- SPAN 3060 - Hispanic Phonetics: Theory and Practice *Summer 2010 Registration: SPAN 3060*
  6 additional hours in language skills and theory

Total: 9 Hours

CULTURE AND CIVILIZATION OF SPAIN OR SPANISH AMERICA

Choose two:

- SPAN 3070 - Bilingual Communities: Spanish as a Language of Contact *Summer 2010 Registration: SPAN 3070*
- SPAN 3212 - Spanish American Culture and Civilization *Summer 2010 Registration: SPAN 3212*
- SPAN 3221 - Culture and Civilization of Spain I *Summer 2010 Registration: SPAN 3221*
- SPAN 3222 - Culture and Civilization of Spain II *Summer 2010 Registration: SPAN 3222*
- SPAN 4230 - Modern Culture of Spain through Film and Narrative *Summer 2010 Registration: SPAN 4230*

Total: 6 Hours

RELATED FIELDS

Choose 2 courses from the following fields of study (see Modern Languages departmental web site for a list of pre-approved courses):

- Latin American studies (from fields such as history, geography, political science, art history)
- Hispanic American studies
- Linguistics (in the fields of anthropology or English)
- Comparative literature
- Upper-division courses in another foreign language

Total: 6 Hours

MAJOR TOTAL: 30 Hours
International Language and Culture for the Professions Track

This option in the Spanish major offers career possibilities, both in government and private industry, at home and abroad. Languages are useful in business, industry, commerce, civil service, law, library science, media, science, economics, health and social sciences. Students who follow this course of study could also qualify as teachers of general business subjects in bilingual as well as traditional school systems. (However, students who wish to be certified to teach Spanish in the public schools should consult the department for information concerning the undergraduate language licensure program.)

International Spanish for the professions is a controlled-enrollment major that takes two years to complete. Interested students should contact the Spanish advisor in the Department of Modern Languages to declare the major. This should be done as early as possible in the student’s academic career, but not later than the second semester of the sophomore year.

**PREREQUISITES**

*(These courses do not count toward the major total of 45 semester hours)*

- ECON 2012 - Principles of Economics: Macroeconomics  *Summer 2010 Registration: ECON 2012*
- ECON 2022 - Principles of Economics: Microeconomics  *Summer 2010 Registration: ECON 2022*
- MATH 1070 - Algebra for Social Sciences and Business  *Summer 2010 Registration: MATH 1070*
  -OR-
- MATH 1110 - College Algebra  *Summer 2010 Registration: MATH 1110*
  (or higher level math course)
- SPAN 2110 - Second Year Spanish I  *Summer 2010 Registration: SPAN 2110*
  -OR-
- SPAN 2120 - Second Year Spanish II  *Summer 2010 Registration: SPAN 2120*

**REQUIRED SPANISH COURSES**

- SPAN 3082 - Introduction to Translation I  *Summer 2010 Registration: SPAN 3082*
- SPAN 3252 - Introduction to the Study of Literature  *Summer 2010 Registration: SPAN 3252*
- SPAN 3700 - Spanish for International Business I  *Summer 2010 Registration: SPAN 3700*
• SPAN 3710 - Spanish for International Business II  
  *Summer 2010 Registration: SPAN 3710*

**Total: 12 Hours**

Two of the following language skills and theory courses:

• SPAN 3010 - Advanced Conversation and Composition I  
  *Summer 2010 Registration: SPAN 3010*

• SPAN 3020 - Advanced Conversation and Composition II  
  *Summer 2010 Registration: SPAN 3020*

• SPAN 3060 - Hispanic Phonetics: Theory and Practice  
  *Summer 2010 Registration: SPAN 3060*

• SPAN 3310 - Spanish Writing and Grammar I  
  *Summer 2010 Registration: SPAN 3310*

**Total: 6 Hours**

Two of the following culture courses:

• SPAN 3070 - Bilingual Communities: Spanish as a Language of Contact  
  *Summer 2010 Registration: SPAN 3070*

• SPAN 3212 - Spanish American Culture and Civilization  
  *Summer 2010 Registration: SPAN 3212*

• SPAN 3222 - Culture and Civilization of Spain II  
  *Summer 2010 Registration: SPAN 3222*

**Total: 6 Hours**

**Electives**

Two SPAN electives, to be taken at the 4000 level.

**Total: 6 Hours**

**SPANISH TOTAL: 30 Hours**

**BUSINESS COURSES**

*(please be aware of prerequisites in business course descriptions)*

• ACCT 2200 - Financial Accounting and Financial Statement Analysis  
  *Summer 2010 Registration: ACCT 2200*

• MGMT 1000 - Introduction to Business  
  *Summer 2010 Registration: MGMT 1000*
- MGMT 3000 - Managing Individuals and Teams Summer 2010 Registration: MGMT 3000
- MGMT 4400 - Environments of International Business Summer 2010 Registration: MGMT 4400
- MKTG 3000 - Principles of Marketing Summer 2010 Registration: MKTG 3000

Business Total: 15 Hours

SPANISH BUSINESS OPTION TOTAL: 45 Hours

RECOMMENDED:

- Language study abroad / international travel or field study
- Internship in target language
- Official proficiency exam

Undergraduate Licensure Program in Spanish

With this option, students complete a major in Spanish along with additional course work required for certification to teach Spanish in the public schools. This program should be chosen early in the students’ careers. For information, see the Teacher Education Program section of this catalog or contact the CLAS Advising Office (phone 303-556-2555 or visit North Classroom, 4002) and the Spanish advisor.

Honors in Spanish

Students who complete all the requirements for the Spanish major (as outlined above) and meet the following criteria are encouraged to talk with the Spanish faculty about participation in the honors program. Successful completion of this program by students majoring in Spanish leads to graduation with the distinction of cum laude, magna cum laude or summa cum laude.

Cum laude

Overall GPA of 3.5 or better and Spanish GPA of 3.8 or better

Magna cum laude or summa cum laude

1. Overall GPA of 3.5 or better and Spanish GPA of 3.8 or better
   —and—
2. 6 semester hours of Spanish 4840, Independent Study, spread over two semesters. The candidate must present the independent study topic for approval by the faculty honors committee by the end of the semester preceding the independent study. At the end of the independent study project, and at least one
month before the end of the second semester, the candidate shall submit a
written thesis to the faculty honors committee.

3. The designation of magna or summa will be the decision of the faculty honors
committee.

Certificate

Applied German Language Skills
Undergraduate Certificate

Certificate Description

The undergraduate certificate in applied German language skills is designed for students
of any discipline who wish to acquire and demonstrate to potential employers that they
possess a fluid working knowledge of the German language and understanding of the
cultures in which German is spoken. The completion of the requirements for this
certificate can also serve as a means for nondegree-seeking professionals to develop a
working competency in the German language and culture for use in such areas as
international business, education, genealogy, transatlantic travel, academic research,
translation and many other fields.

Admission

All currently enrolled students at UC Denver (undergraduate or graduate) in good
standing (including nondegree-seeking students) are eligible for admission into the
program. Any student who already possesses an undergraduate degree is also qualified
for admission into the program, but must apply to the university as a nondegree-seeking
student. Students working toward a baccalaureate degree who are currently enrolled in
a college-level institution other than UC Denver are also eligible for certification.

Course Requirements

Twenty-four (24) semester hours of course work with UC Denver faculty (15 of which
must be upper division), distributed as follows:

**German Language Skills (15 credit hours):** Students must complete a
minimum of 15 semester credit hours of upper-division German language skills
courses. These courses are defined as those areas of study in which grammar,
vocabulary, pronunciation and/or communicative abilities in German are the
primary focus of instruction. Up to six credit hours of upper-division German skills
courses may be applied as transfer credit from outside, college-level institutions.
Alternately, students may apply up to nine credit hours of officially recognized study abroad credit toward this requirement.

**German Culture (9 credit hours):** Students must complete a minimum of nine semester credit hours of German culture courses where the primary focus of instruction addresses any facet of Austrian, German and/or Swiss culture. These courses may be completed at any level (lower or upper division as well as graduate) and in any combination of disciplines, provided that the student supplies evidence that a significant portion of each course is devoted to Austrian, German and/or Swiss culture. This includes but is not limited to history, philosophy, political science, literature (in German or in translation) and other German cultural topics. Up to three credit hours of culture courses may be applied as transfer credit from outside, college-level institutions. Alternately, students may apply up to six credit hours of officially recognized, documented university-level course work (or the equivalent) in a German-speaking country.

**Proficiency Exam:** Successful completion of an internationally recognized German language proficiency exam. At any point prior to the awarding of the certificate, students must submit documentation that they have passed an internationally recognized German language skills examination. Such proficiency exams (some of which are administered locally in Denver and Boulder) include but are not limited to the TestDaF (Test Deutsch als Fremdsprache), Zertifikat Deutsch (ZD), Zertifikat Deutsch für den Beruf (ZDfB) or Prüfung Wirtschaftsdeutsch (PWD). Students must receive approval from German faculty at UC Denver to ensure that their exam scores are valid and applicable toward certification.

Students must obtain approval from UC Denver German faculty for all of the above and maintain a minimum 3.0 GPA in all course work applied to the certificate.

**Transfer Credit**

A significant portion of the certificate program is based on language proficiency. Consequently, students who have developed language skills through course work at institutions outside of UC Denver, including study abroad, may apply a limited number of previously earned semester hours toward the program. Please make an appointment with an advisor in the department to discuss details. All transfer credits must be approved by UC Denver German faculty.

**Application of Course Work**

The course work applied toward certification is meant as a proficiency requirement and not as a total semester hour amount. As a result, students who are working toward a degree may apply course work in German certification as credit toward other programs such as a minor, general education requirements or their major. Students are
encouraged to inform their major advisor that they are working toward certification in German for help in coordinating their overall academic curriculum.

Further Information

Students are encouraged to hold a personal conference with a departmental advisor before applying to the certificate program. Phone 303-556-4893 for contact information.

Non Degree

French Minor

Students minoring in French must complete 15 semester hours of upper-division French courses (courses numbered 3000 and above). The minor in French must include at least one language skills class, chosen from the following:

Required Courses

Choose one:

- FREN 3010 - French Phonetics and Pronunciation  
  Summer 2010 Registration: FR 3010
- FREN 3020 - Oral Practice  
  Summer 2010 Registration: FR 3020
- FREN 3050 - Advanced Grammar and Composition  
  Summer 2010 Registration: FR 3050
- FREN 3060 - Advanced French Language Skills  
  Summer 2010 Registration: FR 3060

Total: 3 Hours

Electives

In addition, students minoring in French must complete four additional upper-division French courses

Total: 12 Hours

Minor Total: 15 Hours
German Minor

The German program provides a variety of courses for students interested in German language, linguistics, literature, history, philosophy, music and art.

Admission and Grade Requirements

To be admitted to minor status in German, students must have an overall GPA of C+ (2.3). The minimum grade acceptable in any course applied to a German minor is a C (2.0). The GPA in all courses applied to a German minor at UC Denver must be 2.5. No courses taken on a pass/fail basis may be credited toward a German minor.

Residency Requirement

The German minor requires 15 semester hours of upper-division course work. A minimum of 6 semester hours must be taken from German faculty at the Downtown Campus. Courses taken at other institutions while a student is enrolled at UC Denver may be applied to the minor only with departmental approval before enrollment in those courses.

Students who have completed course work through an approved exchange program must also complete a residency requirement of a minimum of 6 credits of upper-division German courses. This residency requirement must include at least 3 semester hours of language skills courses at the Downtown Campus.

Course Requirements for the Minor

Students minoring in German must complete 15 hours of upper division German courses (courses numbered 3000 and above). The minor in German must include at least one language skills course:

Required Courses

Choose one:

- GRMN 3050 - Phonetics and Pronunciation of German Summer 2010 Registration: GER 3050
- GRMN 3060 - Advanced German Language Skills I Summer 2010 Registration: GER 3060
- GRMN 3070 - Advanced German Language Skills II Summer 2010 Registration: GER 3070
- GRMN 3080 - Advanced German Language Skills III Summer 2010 Registration: GER 3080
- **GRMN 3090 - Advanced German Language Skills IV**  
  *Summer 2010 Registration: GER 3090*

**Total: 3 Hours**

**Electives**

In addition, students minoring in German must complete four additional German courses.

**Total: 12 Hours**

**Minor Total: 15 Hours**

Students taking a German course taught in English must complete a portion of the course work (e.g., papers and exams) in German for the course to count toward the minor.

**Spanish Minor**

Students minoring in Spanish for the BA degree must complete 15 semester hours of upper-division Spanish courses (courses numbered 3000 and higher). All course work must be taught in Spanish.

The minor in Spanish must include at least one culture and civilization class, chosen from the following:

**Required Courses**

Choose one:

- **SPAN 3070 - Bilingual Communities: Spanish as a Language of Contact**  
  *Summer 2010 Registration: SPAN 3070*
- **SPAN 3212 - Spanish American Culture and Civilization**  
  *Summer 2010 Registration: SPAN 3212*
- **SPAN 3221 - Culture and Civilization of Spain**  
  *Summer 2010 Registration: SPAN 3221*
- SPAN 3222 - Culture and Civilization of Spain II  
  Summer 2010 Registration: SPAN 3222
- SPAN 3230 - Ibero-American Cultures through Film  
  Summer 2010 Registration: SPAN 3230
- SPAN 4230 - Modern Culture of Spain through Film and Narrative  
  Summer 2010 Registration: SPAN 4230

**Total: 3 Hours**

**Electives**

In addition, students minoring in Spanish must complete four additional upper-division Spanish courses.

**Total: 12 Hours**

**Minor Total: 15 Hours**

**Master of Arts**

**Spanish MA**

- [Graduate School Rules](#) apply to this program

The UC Denver modern languages faculty offers a Spanish master’s degree program that is an alternative to the exclusively literary studies that traditionally lead to doctoral programs. By integrating language, literature and cultural studies with ancillary work in other disciplines, the degree provides a broader expertise that will lead to or enhance careers in teaching, government, social services, business and international trade. Students will tailor the program to their specific interests and needs by developing a topical focus and including courses from outside the Department of Modern Languages, through which they may develop a secondary emphasis that can be incorporated in a thesis project.

**Requirements for Admission**

In addition to the general admission requirements of the Graduate School, the Spanish MA program requires:
- An undergraduate GPA of at least 2.5, with a GPA of at least 3.0 in Spanish courses
- A bachelor's degree in Spanish is not required, although all candidates must demonstrate Spanish oral and written proficiency at the advanced level, as defined by the American Council on the Teaching of Foreign Languages
- Two copies of all college transcripts
- Three letters of recommendation
- A statement of the applicant’s purpose in pursuing the degree, in Spanish; any gaps, weaknesses or special circumstances affecting an applicant’s academic record should be addressed in the statement of purpose portion of the application
- A TOEFL score higher than 550 for students whose previous academic degree was completed in a non-English-speaking country

In special circumstances, the department may modify its admission standards.

Program Requirements

Candidates in Spanish must satisfy the general requirements of the Graduate School as outlined in this catalog and will be required to complete 33 hours of course work distributed with respect to one of the following two options:

Thesis option (course work + thesis):

- **SPAN 5000 - Introduction to Graduate Studies in Spanish** Summer 2010
  
  Registration: SPAN 5000

  Literature/culture and linguistics, including at least 6 hours in literature/culture and 6 hours in linguistics: **15 semester hours**
  Courses outside the Department of Modern Languages, as approved by advisor: **6 semester hours**
  Elective, as approved by advisor: **3 semester hours**
  Thesis preparation and writing: **6 semester hours**

Thesis Option Total: 33 Hours

Nonthesis option (course work):
- **SPAN 5000 - Introduction to Graduate Studies in Spanish Summer 2010**

  **Registration:** SPAN 5000

  Literature/culture and linguistics, including at least 6 hours in literature/culture and 6 hours in linguistics: **18 semester hours**

  Courses outside the Department of Modern Languages, as approved by advisor: **6 semester hours**

  Electives as approved by advisor (may include another course outside the Department of Modern Languages): **6 semester hours**

  **Nonthesis Option Total: 33 Hours**

  **Notes:**

  1. No more than one undergraduate course (3 semester hours) may be applied toward the MA degree and then only in an ancillary field outside the Department of Modern Languages.

  2. Students choosing the nonthesis option may elect to take three courses (9 semester hours) outside the department.

  **Financial Aid**

  The department offers a limited number of teaching assistantships for graduate students on a semester-by-semester basis. Appointment is competitive and is typically based on a student's academic credentials. Contact the department for details. For information on grants, federal work-study programs, scholarships and loans, contact the **Office of Financial Aid** (303-556-2886).

  For further information concerning the master's degree in Spanish at UC Denver, direct inquiries to the graduate advisor.

  **Philosophy**

  **Chair:** Candice Shelby  
  **Program Assistant:** Agnes Romero  
  **Office:** Plaza Building, M108  
  **Telephone:** 303-556-4868  
  **Fax:** 303-556-8100

Instructor:

Brian Lisle, PhD, University of Illinois at Chicago

Honoraria:

Barbara Goodrich, William Simpson, Maria L. Talero

The philosophy program is recommended to students whose goal is a liberal arts education in the finest sense. Philosophy is concerned with the transmission and evaluation of basic beliefs and values. It is not an easy field of study, but for more than 25 centuries philosophy has been judged most rewarding by those who seek self-development, intellectual sophistication and the happiness of a reflective life.

Philosophy is an excellent undergraduate preparation for almost any professional field.

Undergraduate

REQUIREMENTS FOR THE MAJOR
REQUIREMENTS FOR THE MINOR

HONORS PROGRAM

Requirements for honors are the following:

A. Course Performance

1. *Cum laude* 3.4 GPA within the major 3.3 overall GPA

2. *Magna cum laude* 3.6 GPA within the major 3.5 overall GPA

3. *Summa cum laude* 3.8 GPA within the major 3.7 overall GPA

B. Thesis

Majors desiring to graduate with honors in philosophy must enroll in PHIL 4950 for a minimum of 3 hours and a maximum of 6 hours (note that these hours are in addition to the 36 hours required for the philosophy major) and complete research that culminates in a thesis and oral examination. Majors must work with two faculty members during the project. Written proposals must be submitted and approved by the faculty committee prior to the beginning of the project. If the completed thesis and oral exam are deemed worthy of honors, the student will be awarded the honors consistent with his or her GPA. However, to receive highest honors (*summa cum laude*), the faculty committee must designate the performance for both the written thesis and the oral defense as worthy of graduation with highest honors. If the faculty committee makes no such designation, students will graduate *magna cum laude*.

MINOR IN ETHICS

CERTIFICATE IN ETHICS

Graduate

Graduate-level courses offered at the Downtown Campus may be applied to University of Colorado-Boulder graduate degrees in philosophy or toward the Master of Humanities and Master of Social Science degree programs at UC Denver. Contact these programs for degree requirements and applicability limitations of UC Denver course work.

Programs

Bachelor of Arts

Philosophy BA
Students must declare a major by the time they have completed 60 semester hours of
course work. A total of 36 semester hours must be completed for the philosophy major,
at least 18 of which must be taken at the Downtown Campus. A minimum grade of C
(2.0) is required in each course. For those students who qualify for and fulfill the
requirements for graduation with honors, a total of at least 39 hours is required.

A total of 18 upper-division semester hours are required for the major, and no more than
6 hours below the 3000 level may be counted toward the major. Courses taken at other
institutions must be approved by an advisor in the Department of Philosophy to be
applied toward the major.

Unless otherwise noted, registration for 4000-level courses in philosophy require a
minimum grade of C (2.0) in every prior philosophy course and completion of at least
PHIL 3002 or PHIL 3022 or permission of instructor.

**Program Requirements**

**Required Courses**

- PHIL 3002 - Ancient Greek Philosophy  *Summer 2010 Registration: PHIL 3002*
- PHIL 3022 - Modern Philosophy  *Summer 2010 Registration: PHIL 3022*
  (It is recommended, but not required, that PHIL 3002 be taken before PHIL
   3022)
- PHIL 3440 - Introduction to Symbolic Logic  *Summer 2010 Registration: PHIL
   3440*
- PHIL 4760 - Kant  *Summer 2010 Registration: PHIL 4760*

**Total: 12 Hours**

**Additional distribution requirements**

(All are upper-division courses)

- One course in social/political philosophy
- One course in ethics
- One course in Continental philosophy
- One course in EITHER American or analytic philosophy
- One course with specific focus in the history of philosophy (may be fulfilled by a
course in a single figure)

**Total: 15 Hours**
Electives

Choose three:

One upper-division elective (may include courses from previous lists that are not counted toward those requirements)
Two electives at any level

Total: 9 Hours

Major Total: 36 Hours

Course work required for graduation with honors:

3-6 semester hours taken over two semesters of:

- PHIL 4950 - Honors Thesis Summer 2010 Registration: PHIL 4950

Certificate

Ethics Undergraduate Certificate

The certificate in ethics is designed for students currently enrolled in a degree program as well as nondegree students.

A total of 15 semester hours is required for an ethics certificate. Students are required to write a capstone paper in an area of ethics directly related to their career and/or field of study (PHIL 3840).

Certificate Requirements

- PHIL 1020 - Introduction to Ethics and Society: The Person and the Community Summer 2010 Registration: PHIL 1020

Choose four:

- PHIL 3002 - Ancient Greek Philosophy Summer 2010 Registration: PHIL 3002
- PHIL 3150 - History of Ethics Summer 2010 Registration: PHIL 3150
- PHIL 3200 - Social and Political Philosophy Summer 2010 Registration: PHIL 3200
- PHIL 3250 - Business Ethics Summer 2010 Registration: PHIL 3250
• PHIL 3500 - Ideology and Culture: Racism and Sexism  
  Summer 2010  
  Registration: PHIL 3500
• PHIL 3840 - Independent Study  
  Summer 2010 Registration: PHIL 3840
• PHIL 4150 - Twentieth Century Ethics  
  Summer 2010 Registration: PHIL 4150
• PHIL 4242 - Bioethics  
  Summer 2010 Registration: PHIL 4242

Certificate Total: 15 Hours

Non Degree

Ethics Minor

A total of 15 semester hours is required for an ethics minor, with a minimum grade of C (2.0) in each course.

Required Courses

• PHIL 1020 - Introduction to Ethics and Society: The Person and the Community  
  Summer 2010 Registration: PHIL 1020

Choose four:

• PHIL 3150 - History of Ethics  
  Summer 2010 Registration: PHIL 3150
• PHIL 3200 - Social and Political Philosophy  
  Summer 2010 Registration: PHIL 3200
• PHIL 3250 - Business Ethics  
  Summer 2010 Registration: PHIL 3250
• PHIL 3500 - Ideology and Culture: Racism and Sexism  
  Summer 2010 Registration: PHIL 3500
• PHIL 3939 - Internship/Cooperative Education  
  Summer 2010 Registration: PHIL 3939
• PHIL 4150 - Twentieth Century Ethics  
  Summer 2010 Registration: PHIL 4150
• PHIL 4242 - Bioethics  
  Summer 2010 Registration: PHIL 4242

Minor Total: 15 Hours

For those students who major in philosophy and minor in ethics, no course can satisfy the requirements for both. For example, if a student takes PHIL 4150, Twentieth Century Ethics, it cannot satisfy the requirement in the major for a course in 19th or 20th century philosophy.
Philosophy Minor

A total of 15 semester hours is required for the minor in philosophy, with a minimum grade of C (2.0) in each course.

Program Requirements

Required Courses:

- **PHIL 1012** - Introduction to Philosophy: Relationship of the Individual to the World  
  Summer 2010 Registration: PHIL 1012
- **PHIL 3002** - Ancient Greek Philosophy  
  Summer 2010 Registration: PHIL 3002
- **PHIL 3022** - Modern Philosophy  
  Summer 2010 Registration: PHIL 3022
  (It is recommended but not required that PHIL 3002 be taken before PHIL 3022.)

Total: 9 Hours

Electives

Choose two additional philosophy courses, one of which must be at the upper-division level.

Total: 6 Hours

Minor Total: 15 Hours

Religious studies courses cannot be used to fulfill the requirements for the minor.

Clyde S. Zaidins, PhD, California Institute of Technology

Undergraduate

Physics, as the most fundamental of the sciences, is the base on which many other disciplines rest. Therefore, knowledge of the fundamentals of physics is often required in other programs, and a physics degree is an outstanding platform for employment and advanced study in many technical disciplines. The department offers both a course of study fulfilling the bachelor of science degree and a wide range of service courses for students majoring in disciplines other than physics. Students intending to major in physics should have a high school background that includes trigonometry, advanced algebra, chemistry and physics, as well as a good preparation in the arts and humanities. Students have an option during their freshman year to overcome some deficiencies in these areas.

The Department of Physics offers various programs of study, or tracks, tailored to the specific career goals of its majors. Students should consult with a departmental advisor
prior to choosing a track. **Track 1—Pure and Applied Physics** is intended for students preparing for graduate school, teaching careers, or careers in industry or government labs. **Track 2—Biophysics and Medical Physics** is seen as a bridge to an advanced degree in the health sciences for those interested in medical research, admission to medical school, preparation for work in a hospital or clinical situation, or industrial jobs in biomedical instrumentation. For any track, students preparing for employment in an interdisciplinary area (such as environmental, geophysical or energy study) can choose to add an appropriate minor or arrange a specific major program on an individual basis.

Students interested in teaching physics in high school are encouraged to consider the CLAS educational studies minor in addition to their physics major. Students in other disciplines have the option of choosing a minor in physics or in astrophysics. The department now also offers an online certificate in the scientific foundations of technical innovation, both at undergraduate and graduate levels. This 12-semester-hour program is intended to foster careers in the practical application of physics and the potential commercialization of new technologies.

To enhance the employment and postgraduate study options of physics majors, the department is committed to providing students with opportunities for experimental, computational and theoretical research. On-campus opportunities are available through the faculty research programs, or the department will assist interested physics majors in locating off-campus opportunities at a government or industrial laboratory. Questions regarding physics courses or the physics curriculum should be directed to a departmental advisor. Appointments should be made through the physics office.

**REQUIREMENTS FOR MAJOR**

**Departmental Honors**

Qualified students are encouraged to participate in the physics honors program. For these students, a senior thesis is required. This work will be conducted under the supervision of a faculty advisor. The topic and scope of this work will be chosen by the student in consultation with the thesis advisor. The student has the option of registering for up to 3 semester hours of independent study for the thesis project; regardless of registered semester hours, the student should commit the effort equivalent to a 3-semester-hour laboratory course toward completion of the thesis. The levels of passing scores are satisfactory, meritorious and excellent.

Within this framework, three levels of honors are awarded by the Downtown Campus:

1. **Cum laude**: The student must have a cumulative GPA of 3.25 both in physics and overall at UC Denver. The student’s senior thesis and presentation must be judged to be meritorious by the committee.
2. *Magna cum laude*: The student must have a cumulative GPA of 3.50 both in physics and overall at UC Denver. The student’s senior thesis and presentation must be judged to be meritorious by the committee.

3. *Summa cum laude*: The student must have a cumulative GPA of 3.75 both in physics and overall at UC Denver. The student’s senior thesis and presentation must be judged to be excellent by the committee.

**Physics Minors**

**MINOR IN PHYSICS**

**MINOR IN ASTROPHYSICS**

**Certificate**

*Scientific Foundations of Technical Innovation*

**Programs**

**Bachelor of Science**

**Physics BS**

**Program Requirements**

Students must declare their intention to major in physics by the time they have completed 60 semester hours and complete between 47 and 51 semester hours (depending on the track chosen) in physics and related topics. Additionally, all tracks require 16 semester hours in math ancillary courses. No grade below a *C* (2.0) can be used to meet the requirements for the major. At least 12 semester hours of the requirements for the major must be completed at the Downtown Campus.

A senior thesis, usually from participation in research, is *required* for all students wishing to graduate with departmental honors. All other students are encouraged to do research leading to a project report or senior thesis.

**Required Courses Common to All Tracks**
Required Physics Courses

- PHYS 2311 - General Physics I: Calculus-Based  Summer 2010 Registration: PHYS 2311
- PHYS 2331 - General Physics II: Calculus-Based  Summer 2010 Registration: PHYS 2331
- PHYS 2371 - Topic-Driven Physics Lab  Summer 2010 Registration: PHYS 2371
- PHYS 2711 - Vibrations and Waves  Summer 2010 Registration: PHYS 2711
- PHYS 2811 - Modern Physics I  Summer 2010 Registration: PHYS 2811
- PHYS 3120 - Methods of Mathematical Physics  Summer 2010 Registration: PHYS 3120
- PHYS 3711 - Junior Laboratory I  Summer 2010 Registration: PHYS 3711
- PHYS 3811 - Quantum Mechanics  Summer 2010 Registration: PHYS 3811

Note: The department will accept the following combination of independent study and introductory lab courses in lieu of PHYS 2371. However, PHYS 2371 is strongly recommended because it provides explicit preparation for upper division lab courses.

- PHYS 1840 - Independent Study: PHYS  Summer 2010 Registration: PHYS 1840
- PHYS 2321 - General Physics Lab I  Summer 2010 Registration: PHYS 2321
- PHYS 2341 - General Physics Lab II  Summer 2010 Registration: PHYS 2341

Total physics courses required for all tracks: 26 Hours

Required Ancillary Courses

- MATH 1401 - Calculus I  Summer 2010 Registration: MATH 1401
- MATH 2411 - Calculus II  Summer 2010 Registration: MATH 2411
- MATH 2421 - Calculus III  Summer 2010 Registration: MATH 2421
- MATH 3195 - Linear Algebra and Differential Equations  Summer 2010 Registration: MATH 3195

Note: The department will accept the following combination of math courses in place of MATH 3195:

- MATH 3191 - Applied Linear Algebra  Summer 2010 Registration: MATH 3191
- MATH 3200 - Elementary Differential Equations  Summer 2010 Registration: MATH 3200

Total ancillary math courses required for all tracks: 16 Hours

Total required semester hours for all physics major tracks: 42 Hours
Pure and Applied Physics (Track 1)

Take in addition to the courses common to all tracks:

- PHYS 3211 - Analytical Mechanics Summer 2010 Registration: PHYS 3211
- PHYS 3411 - Thermal Physics Summer 2010 Registration: PHYS 3411
- PHYS 3721 - Junior Laboratory II Summer 2010 Registration: PHYS 3721
- * PHYS 4331 - Principles of Electricity and Magnetism Summer 2010 Registration: PHYS 4331
- PHYS 4711 - Senior Laboratory I Summer 2010 Registration: PHYS 4711
  (or a course in computational physics approved by advisor)

* Note: Students who must retake PHYS 4331 may fulfill this requirement by obtaining a C or better in
- PHYS 4351 - Bioelectromagnetism Summer 2010 Registration: PHYS 4351

Elective Physics Courses

Six semester hours of physics-related electives at 3000-level or above approved by advisor, including up to 3 hours of independent study

Total Track 1 Specific Courses: 21 Hours

Biophysics and Medical Physics (Track 2)

Take in addition to the courses common to all tracks:

- PHYS 3251 - Biophysics of the Body Summer 2010 Registration: PHYS 3251
- PHYS 3411 - Thermal Physics Summer 2010 Registration: PHYS 3411
- PHYS 4351 - Bioelectromagnetism Summer 2010 Registration: PHYS 4351
  (recommended option)
  -OR-
- PHYS 4331 - Principles of Electricity and Magnetism Summer 2010 Registration: PHYS 4331

Biophysics electives (8-9 hours)

Biophysics electives at the 3000-level or above approved by advisor (including up to 3 semester hours independent study and/or two courses, PHYS 3151 and PHYS 3161, listed below)
  -OR-
  The following four courses (an option primarily for pre-med physics majors):
  - * BIOL 2051 - General Biology I Summer 2010 Registration: BIOL 2051
- * BIOL 2061 - General Biology II Summer 2010 Registration: BIOL 2061
- PHYS 3151 - Biophysics Outlook I Summer 2010 Registration: PHYS 3151
- PHYS 3161 - Biophysics Outlook II Summer 2010 Registration: PHYS 3161
- PHYS 3721 - Junior Laboratory II Summer 2010 Registration: PHYS 3721

-OR-

The following two courses (an option primarily for pre-med physics majors):
- * BIOL 2071 - General Biology Laboratory I Summer 2010 Registration: BIOL 2071
- * BIOL 2081 - General Biology Laboratory II Summer 2010 Registration: BIOL 2081

Numerical modeling or probability and statistics course approved by advisor: 3 semester hours

Total Track 2 Specific Courses: 25 Hours

Major Total: 63-67 Hours

Pre-Med Students

*Note: courses above marked * are generally required for medical school admissions. In addition, the following are generally required for medical school admissions but NOT for the biophysics and medical physics track:

- * CHEM 2031 - General Chemistry I Summer 2010 Registration: CHEM 2031
- * CHEM 2038 - General Chemistry Laboratory I Summer 2010 Registration: CHEM 2038
- * CHEM 2061 - General Chemistry II Summer 2010 Registration: CHEM 2061
- * CHEM 2068 - General Chemistry Laboratory II Summer 2010 Registration: CHEM 2068
- * CHEM 3411 - Organic Chemistry I Summer 2010 Registration: CHEM 3411
- * CHEM 3418 - Organic Chemistry Laboratory I Summer 2010 Registration: CHEM 3418
- * CHEM 3421 - Organic Chemistry II Summer 2010 Registration: CHEM 3421
- * CHEM 3428 - Organic Chemistry Laboratory II Summer 2010 Registration: CHEM 3428

Total additional pre-med (but not required for Track 2): 19 hours
Certificate

Scientific Foundations of Technical Innovation Certificate

The goal of this certificate is to give students and working professionals an opportunity to broaden their technical knowledge while contributing to regional economic development. Two real-world projects—one for a client and one for the student’s own pursuits—are combined with a series of six short courses to provide both context and substance for gaining knowledge needed to create technical prototypes. The model is based on the method by which most physical science graduate students learn technical domains on a “just-in-time” basis. It is also a method by which many corporations quickly bring new project team members up to speed on project knowledge. Entry into the certificate program requires prior completion of two semesters of calculus-based physics and two semesters of calculus or permission of the certificate advisor.

Undergraduate required courses

- PHYS 4850 - Physics for Design and Innovation I  
  Summer 2010 Registration: PHYS 4850
- PHYS 4852 - Physics for Design and Innovation II  
  Summer 2010 Registration: PHYS 4852

Total: 12 Hours

Graduate required courses

Graduate versions of the courses (5000-level) require an undergraduate degree and additional work on technical analysis or connection to professional practice.

- PHYS 5850 - Physics for Design and Innovation I  
  Summer 2010 Registration: PHYS 5850
Astrophysics Minor

Astrophysics is an important and well-represented subdiscipline of physics. It includes the study of the solar system, galactic and extra-galactic astrophysics, as well as cosmology. A minor in this field combines a theoretical approach with observational analysis. There is also opportunity to do research in this field.

While the Department of Physics offers minors in both physics and astrophysics, it is not possible to receive minors in both fields. Physics majors may elect to receive only the astrophysics minor from the department.

The astrophysics minor requires a total of 17 semester hours, in which no grade below a C (2.0) may be used to meet the requirements for the minor. At least 6 semester hours taken for the minor must be completed at the Downtown Campus. Requirements for the minor in astrophysics may be used to fulfill the requirements of the major in physics. However, a student majoring in physics who wants to minor in astrophysics needs to take 15 semester hours in astrophysics that do not overlap with the major.

Program Requirements

Required Physics Courses:

- PHYS 1052 - General Astronomy I  Summer 2010 Registration: PHYS 1052

Either of the following two sequences:

- PHYS 2010 - College Physics I  Summer 2010 Registration: PHYS 2010
- PHYS 2020 - College Physics II  Summer 2010 Registration: PHYS 2020
- PHYS 2030 - College Physics Lab I  Summer 2010 Registration: PHYS 2030
- PHYS 2040 - College Physics Lab II  Summer 2010 Registration: PHYS 2040

Sequence Total: 10 Hours
-OR-

- PHYS 2311 - General Physics I: Calculus-Based  
  Summer 2010 Registration: PHYS 2311

- PHYS 2321 - General Physics Lab I  
  Summer 2010 Registration: PHYS 2321

- PHYS 2331 - General Physics II: Calculus-Based  
  Summer 2010 Registration: PHYS 2331

- PHYS 2341 - General Physics Lab II  
  Summer 2010 Registration: PHYS 2341

Sequence Total: 10 Hours

Elective Physics Courses

Choose one:

- GEOL 1302 - Introduction to Astrogeology  
  Summer 2010 Registration: GEOL 1302

- PHYS 3040 - Modern Cosmology  
  Summer 2010 Registration: PHYS 3040

- PHYS 3050 - General Astronomy II  
  Summer 2010 Registration: PHYS 3050

- PHYS 3060 - Astronomical Image Processing Lab  
  Summer 2010 Registration: PHYS 3060

- * PHYS 3840 - Independent Study: PHYS  
  Summer 2010 Registration: PHYS 3840

- PHYS 3939 - Internship/Cooperative Education  
  Summer 2010 Registration: PHYS 3939

- * PHYS 4840 - Independent Study: PHYS  
  Summer 2010 Registration: PHYS 4840

- * PHYS 4920 - Advanced Undergraduate Seminar  
  Summer 2010 Registration: PHYS 4920

- * PHYS 4931 - Internship in Applied Physics  
  Summer 2010 Registration: PHYS 4931

- * PHYS 4980 - Advanced Physics Topics  
  Summer 2010 Registration: PHYS 4980

Total: 3 Hours

Minor Total: 17 Hours

*Topics in these classes vary. See departmental advisor for approval.

Physics Minor
A total of 16 semester hours is required for a minor in physics. No grade below a C can be used to meet the requirements for the minor. At least 6 semester hours of the requirements for the minor must be completed at the Downtown Campus.

Program Requirements

Required Physics Courses

Either of the following two sequences:

- PHYS 2010 - College Physics I  
  Summer 2010 Registration: PHYS 2010
- PHYS 2020 - College Physics II  
  Summer 2010 Registration: PHYS 2020
- PHYS 2030 - College Physics Lab I  
  Summer 2010 Registration: PHYS 2030
- PHYS 2040 - College Physics Lab II  
  Summer 2010 Registration: PHYS 2040
Sequence Total: 10 Hours

- PHYS 2311 - General Physics I: Calculus-Based  
  Summer 2010 Registration: PHYS 2311
- PHYS 2321 - General Physics Lab I  
  Summer 2010 Registration: PHYS 2321
- PHYS 2331 - General Physics II: Calculus-Based  
  Summer 2010 Registration: PHYS 2331
- PHYS 2341 - General Physics Lab II  
  Summer 2010 Registration: PHYS 2341
Sequence Total: 10 Hours

Elective Physics Courses

At least 3 of the 6 semester hours must be at the 3000 level or above.
Total: 6 Hours

Minor Total: 16 Hours

Political Science

Chair: Jana Everett
Program Assistant: Cory Gruebele
Undergraduate Advisor: Lucy McGuffey
Graduate Advisor: Thorsten Spehn
Pre-law Advisor: Glenn Morris
Office: King Center, 502
Telephone: 303-556-3556
Faculty

Professors:
Mike Cummings, PhD, Stanford University
Jana Everett, PhD, University of Michigan

Associate Professors:
Glenn T. Morris, JD, Harvard University School of Law
Tony Robinson, PhD, University of California, Berkeley
Stephen C. Thomas, PhD, Stanford University

Assistant Professors:
Michael J. Berry, PhD, University of Colorado
Christoph Stefes, PhD, University of Denver

Adjoint Faculty:
Kathryn Cheever, PhD, University of Colorado

Senior Instructors:
Karen Breslin, JD, University of Denver
Amin Kazak, PhD, University of Denver
Lucy McGuffey, PhD, University of Denver
Thorsten Sphen, PhD, University of Denver

Instructor:
Harvey Bishop, MA, University of Colorado

Adjunct Faculty:
Political science is the study of people, power and the public good. Looking at a variety of societies, institutions and interpersonal situations, the discipline asks who has power, where this power comes from, how it is used, how it promotes or impairs the public good and how the public good is defined. Political science draws from other fields, such as psychology, philosophy, economics, sociology and world literature. Finally, it explores the relationship between idealism and realism, between theory and practice, between political thought and personal action.

Opportunities for students with a BA in political science include careers in business, teaching, journalism, community organizing and government service. A political science degree also serves as good preparation for professional training in law and public administration. The students’ internship experiences increase their job opportunities. Students with an MA in political science may find careers in such areas as business, government research and administration and teaching at the community-college level.

Please visit the [political science department Web site](http://polisci.university.edu) for detailed information on programs, faculty, students, courses and syllabi, community involvement and service learning, internships and photographs.

**Undergraduate**

**REQUIREMENTS FOR THE MAJOR**

**REQUIREMENTS FOR THE MINOR**

**Departmental Honors**

Requirements for honors in political science are an overall GPA (in all courses, not just political science courses) of 3.65 or better and the preparation and defense of an honors paper. Honors graduates with an overall GPA of 3.75 to 3.84 may graduate with high honors, and those with GPAs of 3.85 and higher may graduate with highest honors. Level of honors granted depends upon both the GPA and the quality of the honors paper.
Graduate

REQUIREMENTS FOR THE MA DEGREE

Fourth World Center for the Study of Indigenous Law and Politics

Executive Director: Glenn T. Morris
Telephone: 303-556-6243
Web site: http://carbon.cudenver.edu/public/fwc/

This center provides a research clearinghouse to students and faculty on the Downtown Campus on legal and political issues that affect indigenous peoples (the Fourth World). In addition to supporting a modest library of rare books and periodicals on indigenous issues, the center also stocks video and audio resources on subjects of indigenous politics and a substantial news file archive on current developments in the Fourth World. The center has produced curricular materials, including the Fourth World Bulletin, for use in international relations and area-studies courses.

Center for NEW DIRECTIONS in Politics and Public Policy

Director: Kathryn Cheever
Telephone: 303-556-5950
Web site: clas.ucdenver.edu/newdirections/index.htm

This center provides academic programs, courses and research focused in the areas of politics and public policy with the purpose of developing the leadership capacities necessary to address changing public priorities for the 21st century within neighborhoods, communities, governmental jurisdictions and nonprofit entities.

The center offers both undergraduate and graduate degrees in political science with emphases in public policy and administration.

Programs

Bachelor of Arts

Political Science BA

Undergraduate students must declare their intention to major in political science by the time they have completed 60 semester hours, and must complete a minimum of 36
semester hours in political science, of which at least 21 must be upper-division courses. Fifteen of the 36 hours must be taken from Downtown Campus faculty. Courses are distributed among the primary fields as listed in this section, i.e., American politics, comparative politics, international relations, political theory and public policy and administration. To count for the major, all course work must be completed with a grade of \( C \) (2.0) or better. Two cognate courses (which don’t count toward the 36 hours) from the list below must also be completed.

**Traditional Option**

**Required Core**

- PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice  
  *Summer 2010 Registration: P SC 1001*
- PSCI 1101 - American Political System  
  *Summer 2010 Registration: P SC 1101*
- PSCI 3011 - Research Methods  
  *Summer 2010 Registration: P SC 3011*
- OR-
- PSCI 4011 - GIS in Political Science  
  *Summer 2010 Registration: P SC 4011*

**Total:** 9 Hours

**Choose two:**

- PSCI 4207 - Theories of Social and Political Change  
  *Summer 2010 Registration: P SC 4207*
- PSCI 4407 - Early Political Thought  
  *Summer 2010 Registration: P SC 4407*
- PSCI 4417 - Modern Political Thought  
  *Summer 2010 Registration: P SC 4417*
- PSCI 4427 - Law, Politics and Justice  
  *Summer 2010 Registration: P SC 4427*
- PSCI 4437 - Coercion and the State  
  *Summer 2010 Registration: P SC 4437*
- PSCI 4457 - American Political Thought  
  *Summer 2010 Registration: P SC 4457*

**Total:** 6 Hours

**One 4000-level course in each of three fields:**

American politics, comparative politics, and international relations

**Total:** 9 Hours

**Experiential-Learning Requirement** *
Choose one:

- PSCI 3914 - The Urban Citizen  
  *Summer 2010 Registration: PSC 3914*
- PSCI 3939 - Internship/Cooperative Education  
  *Summer 2010 Registration: PSC 3939*
- PSCI 4217 - Human Rights in Theory and Practice  
  *Summer 2010 Registration: PSC 4217*
- PSCI 4934 - CU at the Capitol  
  *Summer 2010 Registration: PSC 4934*
  Experiential learning project in any PSC class: 3 semester hours

* Students with significant volunteer experience in the community or for whom the experiential-learning requirement poses a hardship may petition the chair to waive the requirement (36 hours still required).

**Total: 3 Hours**

**Electives**

Three political science elective courses

**Total: 9 Hours**

**Political Science Total: 36 Hours**

**Required Cognate Courses**

In addition to the 36 hours above, choose two of the following cognate courses:

- ECON 2012 - Principles of Economics: Macroeconomics  
  *Summer 2010 Registration: ECON 2012*
- ECON 2022 - Principles of Economics: Microeconomics  
  *Summer 2010 Registration: ECON 2022*
- HIST 1016 - World History to 1500  
  *Summer 2010 Registration: HIST 1016*
- HIST 1026 - World History Since 1500  
  *Summer 2010 Registration: HIST 1026*
- HIST 1211 - Western Civilization I  
  *Summer 2010 Registration: HIST 1211*
- HIST 1212 - Western Civilization II  
  *Summer 2010 Registration: HIST 1212*
- HIST 1361 - U.S. History to 1876  
  *Summer 2010 Registration: HIST 1361*
- HIST 1362 - U.S. History Since 1876  
  *Summer 2010 Registration: HIST 1362*

**Total: 6 Hours**
Major Total: 42 Hours

Public Policy Option

This option was designed for students who specifically desire to pursue careers in public policy and/or public administration in the public or nonprofit sectors. Grounded in basic political science theory and familiarity with American, comparative and international politics, this BA track emphasizes the specifically political aspects of public policy processes and settings. Cases will emphasize key policy issues confronting U.S. local, state and national decision makers and citizens. A focus on politics and the policy-making process will prepare students conceptually and methodologically to move beyond partisan politics to address how leaders can best mobilize resources to achieve constituent goals consistent with the public interest.

Required Core

- PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice
  Summer 2010 Registration: P SC 1001
- PSCI 1101 - American Political System
  Summer 2010 Registration: P SC 1101
- PSCI 3011 - Research Methods
  Summer 2010 Registration: P SC 3011

Total: 9 Hours

One 4000-level course in each of the following three fields:

American Politics

- PSCI 4002 - Topics in Political Science
  Summer 2010 Registration: P SC 4002
- PSCI 4014 - Media and Politics
  Summer 2010 Registration: P SC 4014
- PSCI 4024 - Legislatures and Legislation
  Summer 2010 Registration: P SC 4024
- PSCI 4025 - Local Governance and Globalization
  Summer 2010 Registration: P SC 4025
- PSCI 4044 - The Presidency
  Summer 2010 Registration: P SC 4044
- PSCI 4094 - Seminar: American Politics
  Summer 2010 Registration: P SC 4094
- PSCI 4124 - Denver Politics
  Summer 2010 Registration: P SC 4124
- PSCI 4324 - Politics, Public Policy and Leadership
  Summer 2010 Registration: P SC 4324
- PSCI 4354 - Environmental Politics
  Summer 2010 Registration: P SC 4354
• PSCI 4374 - Public Priorities for the 21st Century  
  Summer 2010 Registration: P SC 4374
• PSCI 4477 - Constitutional Law I  
  Summer 2010 Registration: P SC 4477
• PSCI 4487 - Constitutional Law II  
  Summer 2010 Registration: P SC 4487
• PSCI 4545 - Immigration Politics  
  Summer 2010 Registration: P SC 4545

Comparative Politics and International Relations

• PSCI 4085 - Comparative Public Policy  
  Summer 2010 Registration: P SC 4085
• PSCI 4124 - Denver Politics  
  Summer 2010 Registration: P SC 4124
• PSCI 4185 - Corruption in the U.S. and Abroad  
  Summer 2010 Registration: P SC 4185
• PSCI 4226 - The United Nations in World Affairs  
  Summer 2010 Registration: P SC 4226
• PSCI 4236 - American Foreign Policy  
  Summer 2010 Registration: P SC 4236
• PSCI 4266 - International Law  
  Summer 2010 Registration: P SC 4266
• PSCI 4326 - Advanced International Political Economy: Globalization  
  Summer 2010 Registration: P SC 4326
• PSCI 4645 - Comparative Political Leadership  
  Summer 2010 Registration: P SC 4645

Public Policy and Administration

• PSCI 4009 - Politics of the Budgetary Process  
  Summer 2010 Registration: P SC 4009
• PSCI 4024 - Legislatures and Legislation  
  Summer 2010 Registration: P SC 4024
• PSCI 4084 - Local Government and Administration  
  Summer 2010 Registration: P SC 4084
• PSCI 4274 - Conflict Resolution and Public Consent Building  
  Summer 2010 Registration: P SC 4274
• PSCI 4414 - Organizational Change Agents  
  Summer 2010 Registration: P SC 4414
• PSCI 4644 - Ethical Responsibilities of Leaders  
  Summer 2010 Registration: P SC 4644

Total: 9 Hours

Elective courses

Choose any two additional courses from the list above, plus choose one other upper or lower division PSCI course.
Total: 9 Hours

Two political theory courses

- PSCI 4427 - Law, Politics and Justice  
  Summer 2010 Registration: P SC 4427
- PSCI 4437 - Coercion and the State  
  Summer 2010 Registration: P SC 4437

Total: 6 Hours

Experiential-Learning Requirement *

Choose one:

- PSCI 3939 - Internship/Cooperative Education  
  Summer 2010 Registration: P SC 3939
- PSCI 4934 - CU at the Capitol  
  Summer 2010 Registration: P SC 4934

* Students with significant volunteer experience in the community or for whom the experiential-learning requirement poses a hardship may petition the chair to waive the requirement (36 hours still required).

Total: 3 Hours

Two cognate courses

- ECON 2012 - Principles of Economics: Macroeconomics  
  Summer 2010 Registration: ECON 2012
- ECON 2022 - Principles of Economics: Microeconomics  
  Summer 2010 Registration: ECON 2022

Total: 6 Hours

Public Policy Option Total: 42 Hours

Non Degree

Political Science Minor
A student can earn an undergraduate minor in political science by completing 15 semester hours distributed as shown below. At least 9 of the 15 hours must be taken from Downtown Campus faculty.

**Course Requirements**

**One lower-division course**

- PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice  
  *Summer 2010 Registration: PSC 1001*

- OR-

- PSCI 1101 - American Political System  
  *Summer 2010 Registration: PSC 1101*

**Four 4000-level courses**

Choose one 4000-level course in each of four fields: political theory, American politics, comparative politics and international relations.

**Minor Total: 15 Hours**

**Master of Arts**

**New Directions, Political Science MA**

**Director:** Kathryn Cheever  
**Telephone:** 303-556-5950  
**E-mail:** kathryn.cheever@ucdenver.edu

An alternative track of the political science MA program (Plan II) is offered off-campus through the Center for New Directions in Politics and Public Policy at Chaparral in Douglas County and on the Fort Lewis College campus in Durango. This politics and public policy track presents courses in an intensive weekend format. The emphasis on politics and the policy-making process relates to the ability of leaders to mobilize resources and achieve constituent goals consistent with the public interest. In this context, politics entails communication, and effective politics requires communication. In short, this emphasis on political awareness seeks to help participants utilize the political process as the “art of making what appears to be impossible, possible.”

**Degree Requirements**
Students must complete a total of 33 graduate credit hours to complete the MA degree. All classes are offered in a weekend format which consists of two or three weekend sessions for a given course spread out over a two month period. In most cases, a student will complete all of the weekend sessions of one course before starting the weekend sessions for the next course.

**Core Courses**

- PSCI 5014 - Seminar: American Politics  
  *Summer 2010 Registration: P SC 5014*
- PSCI 5085 - Comparative Public Policy  
  *Summer 2010 Registration: P SC 5085*
- PSCI 5324 - Politics, Public Policy and Leadership  
  *Summer 2010 Registration: P SC 5324*
- PSCI 5457 - Seminar: American Political Thought  
  *Summer 2010 Registration: P SC 5457*
- PSCI 5468 - Research Methods in Political Science  
  *Summer 2010 Registration: P SC 5468*

**Total: 15 Hours**

**Electives**

In addition to the required core courses, students must take 15 credit hours of political science electives.

*[NOTE: Previously earned graduate credit may be submitted for approval to satisfy up to nine hours of the supportive elective requirement. The elective courses offered may change from time to time based on needs, interests and other factors.]*

Below are examples of electives taken by New Directions students:

- PSCI 5007 - Beyond Political Correctness  
  *Summer 2010 Registration: P SC 5007*
- PSCI 5009 - Politics of the Budgetary Process  
  *Summer 2010 Registration: P SC 5009*
- PSCI 5024 - State Politics: Focus on Colorado  
  *Summer 2010 Registration: P SC 5024*
- PSCI 5084 - Local Government and Administration  
  *Summer 2010 Registration: P SC 5084*
- PSCI 5274 - Conflict Resolution and Public Consent Building  
  *Summer 2010 Registration: P SC 5274*
- PSCI 5354 - Seminar: Environmental Politics and Policy  
  *Summer 2010 Registration: P SC 5354*
- PSCI 5374 - Public Priorities for the 21st Century  
  *Summer 2010 Registration: P SC 5374*
- PSCI 5414 - Organizational Change Agents  *Summer 2010 Registration:* P SC 5414
- PSCI 5644 - Ethical Responsibilities of Leaders  *Summer 2010 Registration:* P SC 5644

**Total: 15 Hours**

**Project Requirement**

All students are required to complete a 3-credit master's project under the direction of a faculty advisor. Registration is done using the Special Processing form, rather than online.

- PSCI 5960 - Master's Project  *Summer 2010 Registration:* P SC 5960

**Total: 3 Hours**

**Major Total: 33 Hours**

**Common Course Outcomes**

In addition to clearly stated subject outcomes, all courses will have a common set of outcomes related to the following areas which are considered critical in developing leadership capacities necessary to address the changing public priorities for the 21st century:

- Creativity and innovation
- Changing public priorities
- Political and social diversity
- Ethical accountability
- Deductive and inductive reasoning
- Applied use of appropriate technology
- Strategic planning and decision making
- Resolution of conflicts and public consent building
- Individual, organizational and cultural communication effectiveness

**Course Format**

All courses will be offered in a weekend format that consists of two or three weekend sessions for a given course spread out over a two-month period. Three-weekend classes are held from 9:00 am to 4:00 pm on both Saturday and Sunday of each weekend session. Two-weekend classes meet from 5:00 until 9:00 p.m. on Friday.
evening and from 8:30 a.m. until 4:30 p.m. on Saturday and Sunday. In most cases, a student will complete all of the two or three weekend sessions of one course before starting the weekend sessions for the next course. There is typically a 2-3 week break between semesters.

### Location

All of the courses for the Denver-based programs are currently offered at the University Center at Chaparral, 20 miles south of downtown Denver. The University Center is located next to the Chaparral High School, just north of Lincoln Avenue at Chambers Road in Douglas County (15653 Brookstone Drive).

Courses for the Durango-based program are currently offered on the campus of Fort Lewis College.

### Political Science MA

- **Graduate School Rules** apply to this program

The political science department offers a master of arts (MA) degree in political science with an emphasis on building academic and practical skills in key areas of the discipline. Research and teaching in the department centers on the major fields of American politics, comparative politics, international relations, political theory and public policy; however, the department also offers more specialized training in human rights, legal studies, gender politics, race and ethnic politics, European studies, indigenous politics and urban politics. Students pursuing the MA have the option of completing the traditional track or an alternative track centered on the study on politics, public policy and leadership. Students completing the program have gone on to PhD programs across the country and work in a variety of areas, including: state and local elected office, government service, directors of community-based organizations and nongovernmental organizations, legislative analysts, UN affiliates, lobbyists, teachers, media analysis and political consulting.

### Requirements for Admission
Students applying for admission to the MA program in political science should present at least 18 semester hours of previous academic work in political science, at least 9 hours of which should be at the upper-division or graduate level. The department may make exceptions to these requirements in unusual cases (for instance, if course work in related fields such as psychology, economics and history compensates for the deficiencies in political science). Applicants should present an undergraduate GPA of at least 3.0 to be considered; however, the department typically admits students with a GPA of 3.2 or higher. In their applications, students must submit transcripts and letters of recommendation (from academic sources) as specified by the Graduate School. In addition, applicants must submit a statement of academic objectives and an academic writing sample. Standardized test scores are not required of applicants, but will be considered if submitted.

In order to take graduate courses in political science, students must either be admitted to the MA program or secure permission as a nondegree student. Nondegree students may take up to 12 semester hours of graduate course work; however, they must first secure permission from the department graduate advisor to enroll in all graduate course work.

**Degree Requirements**

In addition to the requirements for admission and details of the program spelled out here, graduate students in political science must also abide by department rules and procedures specified in the Graduate Student Handbook. Failure to meet these policies may result in a student being dropped from the program.

Under the MA program in political science, two degree plans are available:

- Plan I requires the completion of nine graduate courses (27 semester hours) and a 6-credit thesis
- Plan II requires the completion of ten graduate courses (30 semester hours) and a 3-credit project.

Course work in both plans completed under the traditional track offered on the Downtown Campus must include:

**P SC 5000. The State of the Discipline**

Additionally, at least one graduate seminar is required in each of the following areas: American politics, comparative politics or international relations, political theory and research methods.

Students will complete between 12 and 15 elective semester hours, depending on whether they are working under Plan I or II, which may be fulfilled through graduate course work in political science, related disciplines, independent study or internships. Ultimately, the total combination of independent study, graduate course work in related disciplines and internship cannot exceed 9 semester hours. With either plan, students are required to complete a minimum of 16 semester hours with the political science
department at the University of Colorado Denver, and maintain a minimum $B (3.0)$ overall GPA or better. Students who are on probation must meet regularly with the graduate advisor and must secure approval from the advisor for all course work while on probation.

Plan II is available both under the traditional MA track offered on the Denver campus, as well as through an alternative track offered off-campus through the Center for New Directions in Politics and Public Policy. For details about this off-campus track in politics and public policy, see New Directions, MA in Political Science.

Faculty

Professors:

Mary Coussons-Read, PhD, University of North Carolina  
James Grigsby, PhD, University of Colorado  
Mitchell M. Handelsman, PhD, University of Kansas  
Peter S. Kaplan, PhD, Indiana University

Associate Professors:

David Albeck, PhD, University of Colorado  
Richard Allen, PhD, University of North Carolina at Chapel Hill
Joy L. Berrenberg, PhD, University of Colorado
Evelinn Borrayo, PhD, University of North Texas
Michael Zinser, PhD, University of Wisconsin, Madison

Assistant Professors:
Elizabeth Sandin Allen, PhD, University of North Carolina at Chapel Hill
Abbie Beacham, PhD, University of Louisville
Sondra Bland, PhD, University of Texas
Kristin Kilbourn, PhD, University of Miami

Research Assistant Professor:
Jennifer H. Adams, PhD, University of Houston

Senior Instructors:
Allison Bashe, PhD, Stony Brook University
Matthew Bealor, PhD, University of Colorado
Joan Bihun, PhD, Wayne State University
Kevin Everhart, PhD, University of South Carolina

Emeritus Professors:
Rick M. Gardner, PhD, University of Nevada
Gary S. Stern, PhD, University of Massachusetts

Psychology is the scientific study of behavior, consisting of the following major areas of study: experimental psychology, biopsychology, animal behavior, developmental psychology, social psychology, cognitive psychology, personality, industrial/organizational psychology and abnormal psychology. The requirements for the major are designed to introduce the student to the spectrum of psychology, including an early exposure to research methods and statistics.

The psychology major prepares students for employment and for graduate study in psychology and related fields. The psychology department also offers an MA in psychology with a clinical emphasis and a PhD in clinical health psychology.
Undergraduate

REQUIREMENTS FOR THE MAJOR: BA

REQUIREMENTS FOR THE MAJOR: BS

Honors

There are two ways in which a student graduating with a Bachelor of Arts or Bachelor of Science degree in Psychology can graduate with honors. First, the College of Liberal Arts and Sciences (CLAS) awards the honor of graduating “with distinction” primarily based on the student having a high overall grade point average. See the CLAS general information section on Undergraduate Policies and Procedures, Academic Honors, in the current catalog for further information.

The second form of honors, “Latin honors,” is awarded by individual departments within CLAS, including psychology. The UCD Department of Psychology has approved a very rigorous set of requirements for Latin honors. Successful completion of an honors project is at least a year-long, multi-faceted process in which the student makes a contribution to our knowledge in psychology. A student who satisfies these requirements will have truly earned a noteworthy academic achievement of which they rightfully should be proud.

Students interested in research are encouraged to pursue opportunities as early in their academic career as possible. These early research experiences can be useful in helping formulate research ideas and hypotheses that can form the basis of an honors thesis project. Listed below are the policies and requirements for completing an honors project.

An honors thesis can take one of the following forms:

1. An original empirical study designed and carried out by the student. The experimental design must be substantially complex to warrant honors. Honors students may collect their own data for this project or may use archival data for the purposes of answering their own original question. A research question is considered to be substantially complex enough if the analyzed data would be of high enough quality to be presented at a local research meeting.

2. A substantive, integrative library review in an area approved by the honors committee, culminating in a high quality review article which includes proposed research directions designed by the student to gather knowledge lacking in the current scientific literature.

3. A substantive, integrative critical analysis of a major theoretical issue in the field of psychology approved by the honors committee and culminating in a high quality theoretical paper.

Eligibility
To be eligible to graduate with honors in psychology, a UCD psychology major must meet the following requirements:

- Student must have an overall GPA of 3.5 or higher at the start of the project (75 credit hours completed toward the degree)
- The student must have a psychology GPA of 3.5 or higher in psychology courses taken at UCD

Students interested in earning honors should consult with the psychology faculty during their junior year. More information about honors projects can be found on the psychology department Web site.

**REQUIREMENTS FOR THE MINOR**

**Graduate**

The psychology department offers a master of arts (MA) degree in psychology with an emphasis in clinical psychology and a doctor of philosophy (PhD) degree in clinical health psychology. In general, our programs train students within the context of the scientist-practitioner model. That is, we value an integrated approach to both the science and practice of clinical psychology. Our training emphasizes the contribution of research to the understanding, treatment and prevention of human problems, and the application of knowledge that is grounded in scientific evidence.

**REQUIREMENTS FOR THE MA IN PSYCHOLOGY, CLINICAL EMPHASIS**

**REQUIREMENTS FOR THE PhD IN CLINICAL HEALTH PSYCHOLOGY**

**Programs**

**Bachelor of Arts**

**Psychology BA**

Students should consult with the advisor when they declare a psychology major, which must be done once they have completed 60 semester hours of course work. Psychology BA major requirements include at least 37 and not more than 48 semester hours in psychology. Of these, at least 15 hours must be in upper-division courses completed at the Downtown Campus. No grade below C (2.0) will be accepted toward the major requirements. Note that a prior college-level algebra course is strongly recommended for PSYC 2090.
PSYC 3939, Internship/Cooperative Education, does NOT count toward the 37-hour minimum or the 15-hour upper-division requirement, but it does count as elective psychology credit.

Program Requirements

Required Courses

- PSYC 1000 - Introduction to Psychology I  Summer 2010 Registration: PSY 1000
- PSYC 1005 - Introduction to Psychology II  Summer 2010 Registration: PSY 1005
- PSYC 2090 - Statistics and Research Methods  Summer 2010 Registration: PSY 2090
- PSYC 2220 - Biological Basis of Behavior  Summer 2010 Registration: PSY 2220

Total: 13 Hours

Choose three, including one or both PSYC 3222 and PSYC 4144:

- PSYC 3104 - Behavioral Genetics  Summer 2010 Registration: PSY 3104
- PSYC 3222 - Principles of Learning and Behavior  Summer 2010 Registration: PSY 3222
- PSYC 3254 - Introduction to Animal Behavior  Summer 2010 Registration: PSY 3254
- PSYC 3262 - Health Psychology  Summer 2010 Registration: PSY 3262
- PSYC 3263 - Hormones and Behavior  Summer 2010 Registration: PSY 3263
- PSYC 3265 - Drugs, Brain and Behavior  Summer 2010 Registration: PSY 3265
- PSYC 3724 - Developmental Psychobiology  Summer 2010 Registration: PSY 3724
- PSYC 3810 - Neuropsychology  Summer 2010 Registration: PSY 3810
- PSYC 3822 - Aging, Brain and Behavior  Summer 2010 Registration: PSY 3822
- PSYC 4054 - Behavioral Neuroscience  Summer 2010 Registration: PSY 4054
- PSYC 4144 - Human Cognition  Summer 2010 Registration: PSY 4144
- PSYC 4164 - Psychology of Perception  Summer 2010 Registration: PSY 4164

Total: 9 Hours

Choose four, including at least two or all three of PSYC 3205, PSYC 3305, and PSYC 4415:

- PSYC 3090 - Research Methods in Experimental Psychology  Summer 2010 Registration: PSY 3090
- PSYC 3135 - Organizational Psychology  Summer 2010 Registration: PSY 3135
- PSYC 3205 - Human Development I: Child Psychology Summer 2010
  Registration: PSY 3205
- PSYC 3215 - Human Development II: Adolescence and Adulthood Summer 2010
  Registration: PSY 3215
- PSYC 3235 - Human Sexuality Summer 2010 Registration: PSY 3235
- PSYC 3305 - Abnormal Psychology Summer 2010 Registration: PSY 3305
- PSYC 3405 - Family Psychology Summer 2010 Registration: PSY 3405
- PSYC 3505 - Psychology and the Law Summer 2010 Registration: PSY 3505
- PSYC 3610 - Psychological Trauma Summer 2010 Registration: PSY 3610
- PSYC 3611 - Psychology of Women Summer 2010 Registration: PSY 3611
- PSYC 3612 - Domestic Abuse Summer 2010 Registration: PSY 3612
- PSYC 4415 - Experimental Social Psychology Summer 2010 Registration: PSY 4415
- PSYC 4455 - Theories of Personality Summer 2010 Registration: PSY 4455
- PSYC 4485 - Psychology of Cultural Diversity Summer 2010 Registration: PSY 4485
- PSYC 4500 - Psychotherapy Summer 2010 Registration: PSY 4500
- PSYC 4645 - Industrial Psychology Summer 2010 Registration: PSY 4645
- PSYC 4730 - Clinical Psychology: Ethics and Issues Summer 2010 Registration: PSY 4730

Total: 12-13 Hours

One integrative course:

- PSYC 4511 - History of Psychology Summer 2010 Registration: PSY 4511

Total: 3 Hours

BA Major Total: 37-38 Hours

PSYCHOLOGY BS REQUIREMENTS

Bachelor of Science

Psychology BS

Students must declare a major by the time they have completed 60 semester hours of course work. To be admitted to the BS major, students must have sophomore standing and have received grades of B or better in General Biology I and II for majors with
laboratory, or the equivalent. Students must take at least 48 hours and a maximum of 56 semester hours in psychology, biology and chemistry that will count toward graduation. A minimum of 15 upper-division semester hours must be taken from Downtown Campus faculty. No grade below C is acceptable toward the major requirements; i.e., psychology, biology or chemistry courses in which a student earns a C- or below will not count toward the major.

**Psychology Requirements**

**Required Psychology Courses**

- PSYC 1000 - Introduction to Psychology I  
  *Summer 2010 Registration: PSY 1000*
- PSYC 1005 - Introduction to Psychology II  
  *Summer 2010 Registration: PSY 1005*
- PSYC 2090 - Statistics and Research Methods  
  *Summer 2010 Registration: PSY 2090*
- PSYC 2220 - Biological Basis of Behavior  
  *Summer 2010 Registration: PSY 2220*
- PSYC 4054 - Behavioral Neuroscience  
  *Summer 2010 Registration: PSY 4054*

**Total: 16 Hours**

**Choose two:**

- PSYC 3090 - Research Methods in Experimental Psychology  
  *Summer 2010 Registration: PSY 3090*
- PSYC 3104 - Behavioral Genetics  
  *Summer 2010 Registration: PSY 3104*
- PSYC 3222 - Principles of Learning and Behavior  
  *Summer 2010 Registration: PSY 3222*
- PSYC 3254 - Introduction to Animal Behavior  
  *Summer 2010 Registration: PSY 3254*
- PSYC 3263 - Hormones and Behavior  
  *Summer 2010 Registration: PSY 3263*
- PSYC 3265 - Drugs, Brain and Behavior  
  *Summer 2010 Registration: PSY 3265*
- PSYC 3724 - Developmental Psychobiology  
  *Summer 2010 Registration: PSY 3724*
- PSYC 3810 - Neuropsychology  
  *Summer 2010 Registration: PSY 3810*
- PSYC 3822 - Aging, Brain and Behavior  
  *Summer 2010 Registration: PSY 3822*
- PSYC 4164 - Psychology of Perception  
  *Summer 2010 Registration: PSY 4164*

**Total: 6-7 Hours**

**Experiential Learning Requirement**
Students must complete at least one of the following (all require consultation with BS advisor AND permission of instructor):

- **PSYC 3939 - Internship/Cooperative Education Summer 2010 Registration: PSY 3939** (2.75 GPA required)
- **PSYC 4840 - Independent Study: PSYC Summer 2010 Registration: PSY 4840** Honors Project in Psychology (3.5 GPA required): 3 Semester Hours

Total: 3 Hours

**Physical and Biological Science Requirements**

**Required Courses**

- **BIOL 2051 - General Biology I Summer 2010 Registration: BIOL 2051**
- **BIOL 2061 - General Biology II Summer 2010 Registration: BIOL 2061**
- **BIOL 2071 - General Biology Laboratory I Summer 2010 Registration: BIOL 2071**
- **BIOL 2081 - General Biology Laboratory II Summer 2010 Registration: BIOL 2081**
- **CHEM 2031 - General Chemistry I Summer 2010 Registration: CHEM 2031**
- **CHEM 2038 - General Chemistry Laboratory I Summer 2010 Registration: CHEM 2038**
- **CHEM 2061 - General Chemistry II Summer 2010 Registration: CHEM 2061**
- **CHEM 2068 - General Chemistry Laboratory II Summer 2010 Registration: CHEM 2068**

Total: 17 Hours

**Choose two:**

- **BIOL 3225 - Human Physiology Summer 2010 Registration: BIOL 3225**
- **BIOL 3244 - Human Anatomy Summer 2010 Registration: BIOL 3244**
- **BIOL 3611 - General Cell Biology Summer 2010 Registration: BIOL 3611**
- **BIOL 3654 - General Microbiology Summer 2010 Registration: BIOL 3654**
- **BIOL 3832 - General Genetics Summer 2010 Registration: BIOL 3832**
- **BIOL 4134 - Human Genetics Summer 2010 Registration: BIOL 4134**
- **BIOL 4165 - Neurobiology Summer 2010 Registration: BIOL 4165**
- **BIOL 4621 - Immunology Summer 2010 Registration: BIOL 4621**
- **CHEM 4810 - General Biochemistry I Summer 2010 Registration: CHEM 4810**

Total: 6-8 Hours
BS Major Total: 48-51 Hours

Additional elective courses in psychology, biology and chemistry may be taken up to the maximum of 56 hours.

PSYCHOLOGY BA REQUIREMENTS

Non Degree

Psychology Minor

Program Requirements

A minor in psychology requires the completion of 15 semester hours with a grade of C (2.0) or better, including the following courses:

- PSYC 1000 - Introduction to Psychology I  Summer 2010 Registration: PSY 1000
- PSYC 1005 - Introduction to Psychology II  Summer 2010 Registration: PSY 1005
- PSYC 3205 - Human Development I: Child Psychology  Summer 2010 Registration: PSY 3205
  OR
- PSYC 3305 - Abnormal Psychology  Summer 2010 Registration: PSY 3305
  OR
- PSYC 4415 - Experimental Social Psychology  Summer 2010 Registration: PSY 4415
- PSYC 3222 - Principles of Learning and Behavior  Summer 2010 Registration: PSY 3222
  OR
- PSYC 4144 - Human Cognition  Summer 2010 Registration: PSY 4144
- PSYC 4511 - History of Psychology  Summer 2010 Registration: PSY 4511

At least 6 upper-division semester hours must be taken from UC Denver Downtown Campus faculty. Further information about the department may be obtained from department advisors or by calling 303-556-8565.

Master of Arts

Psychology MA

- Graduate School Rules apply to this program
Objectives and Requirements

The two major objectives of the MA program are to prepare graduates for doctoral-level study in both PhD and PsyD programs and to train graduates to provide direct service, under supervision, in mental health agencies. Assessment training includes theory, diagnostic interviewing, intelligence testing and some personality testing with both children and adults. We introduce students to the theory and application of major models of psychotherapy and to psychopathology theory and research. We also emphasize the ethical principles that permeate clinical psychology and the application of these principles to problems in mental health practice, teaching and research. Finally, students become well versed in statistical methods. Students take the required courses during their first year in the program. During the second year, they choose to specialize by opting for a research-based thesis and/or an applied internship at a mental health agency. Students also demonstrate competency by defending a thesis or an internship competency project. Students can complete the program in slightly less than two years, and have up to five years to complete the program according to Graduate School Rules.

Admissions

The application deadline is February 1 for the following fall. You are responsible for making sure all materials are in on time. We do not consider late applications. International students should be sure to submit all materials at least two weeks before this deadline (by January 15) so that they arrive at our department on time. Below is condensed information; see the psychology department website for complete information.

Admission Requirements:

- BA or BS from an accredited college or university, with a minimum GPA of 3.5 based on all college course work. However, successful applicants over the past several years have typically held GPAs above 3.5, with an average GPA of 3.7.
- Undergraduate courses in: introductory psychology, psychological statistics and abnormal psychology. Additional courses in psychology are highly desirable; our admissions committee will also look favorably upon courses in the biological and physical sciences.
- Two official transcripts from each college and university attended.
- Graduate Record Exam (GRE) General Test (verbal, quantitative, analytical writing) is required for all applicants. The subject test in psychology is not required, but is strongly recommended for applicants who do not hold an undergraduate degree in psychology. Successful applicants in recent years have typically had GRE verbal plus quantitative scores above 1100. Take both exams
at least six weeks before the February 1 deadline so that the scores arrive on time.

- Three letters of recommendation, at least two of which must be academic references, accompanied by the Request for Recommendation form. Recommendations and supplemental application materials are sent directly to the department. Each recommendation should be in a sealed envelope, signed along the back by the recommender.
- Application Forms I and II, with answers to Part II as informative as possible.
- Application fee of $50 ($75 for International Students). Specify “PSY M.A. CLN” on the memo line in the lower left corner of your check.

Financial Information

The University of Colorado Denver administers various forms of financial aid for graduate students: fellowships, scholarships and a number of awards from outside agencies. See the Office of Financial Aid for further information. Additionally, the psychology department offers teaching assistantships each year in such courses as introductory psychology, statistics, research methods and human development. Although we do not guarantee TA positions, we generally have been able to offer positions to most of our interested students.

Contingent upon the availability of grant money, faculty may also offer part-time research assistantships to qualified students. The typical RA position involves data collection and analysis, library research, etc. Some computer and statistical skills are usually required. RA positions are less available than TA positions, and they may arise on very short notice.

In-state tuition waivers and additional stipend monies may be available for doctoral students.

Please note: Neither teaching nor research assistantships confer in-state tuition status or include tuition waivers.

Degree Requirements

A total of 31 (for thesis students) or 33 (for internship students) semester hours are required for graduation: 25 for required courses and either six thesis hours or eight internship hours. Students must maintain a 3.0 grade point average.

Demonstration of competence

Upon completion of the 25 hours of course work (nine courses), students must demonstrate competence in several core areas (e.g., statistics and methods, ethics,
assessment, psychotherapy, psychopathology) by completing a thesis or an internship competency project (ICP).

**Internship or Thesis**

Students have the option of completing a master’s thesis and/or pursuing an internship. The thesis involves a research project that makes a significant contribution to the field. Topics pursued by students in our master's program have included body image in eating disorders, HIV infection and childhood abuse, humor as a moderator between social conflict and psychological distress, and ethical issues regarding informed consent for psychotherapy.

Students who are particularly interested in going on to PhD programs should strongly consider the thesis option, since most PhD programs prefer individuals who have prior research experience. Applicants who are interested in the thesis option and whose research interests/experience overlap with those of a faculty member should contact that faculty member directly.

Alternatively, students may begin work on an 800-hour internship following successful completion of their courses. Students select internships (subject to program approval) based on personal interests. The greater Denver area offers a rich variety of internship possibilities, and our students have worked at a variety of agencies, including community mental health centers, inpatient and residential treatment facilities, social services, hospitals, probation and diversion programs and university counseling centers.

At minimum, students must complete either an 800-hour internship or a thesis. Students also have the option to complete both or to do a thesis and a 400-hour internship.

**Doctor of Philosophy**

**Clinical Health Psychology PhD**

- Graduate School Rules apply to this program

**Objectives of the Program**

A primary focus of clinical health psychology is the development of effective disease prevention interventions for populations at high risk for medical problems. A second focus of clinical health psychology is the development of strategies to help individuals who are already ill to manage their disease, increase their ability to collaborate with medical professionals and improve their coping skills. Students in this program will be trained to work within the community to use psychological tools and techniques to
promote health, prevent and treat illness and improve the health care system. In addition to course work, students acquire expertise in research by completing a second-year project and doctoral dissertation, and demonstrate competence in clinical assessment and intervention through several applied practicum experiences, a clinical competency project and a pre-doctoral internship. Students can complete the program in five years and have up to eight years to complete the program according to Graduate School Rules.

Admissions

The application deadline is December 15 for the following fall. You are responsible for making sure all materials are in on time. We do not consider late applications. International students should be sure to submit all materials at least two weeks before this deadline (by December 1) so that they arrive at our department on time. Below is condensed information; see the department website for complete information.

Admission Requirements:

- BA or BS from an accredited college or university, with a minimum GPA of 3.5 based on all college course work.
- Undergraduate courses in: introductory psychology, psychological statistics, research methods and abnormal psychology. Additional courses in psychology are highly desirable; our admissions committee will also look favorably upon courses in the biological and physical sciences.
- Two official transcripts from each college and university attended.
- Graduate Record Exam (GRE): The GRE General Test (verbal, quantitative, analytical writing) AND the Psychology Subject Test are required. General test: minimum score of 1100 for the combined verbal and quantitative sections is required. 600 is the minimum required score for the psychology subject test. Take both exams at least six weeks before the December 15 deadline so that the scores arrive on time.
- Three letters of recommendation, at least two of which must be academic references, accompanied by the Request for Recommendation form. Recommendations and supplemental application materials are sent directly to the department. Each recommendation should be in a sealed envelope, signed along the back by the recommender.
- Application Forms I and II, with answers to Part II as informative as possible.
- Application fee of $50 ($75 for International Students). Specify "CHP PhD" on the memo line in the lower left corner of your check.

Financial Information

The University of Colorado Denver administers various forms of financial aid for graduate students: fellowships, scholarships and a number of awards from outside
agencies. See the Office of Financial Aid for further information. Additionally, the psychology department offers teaching assistantships each year in such courses as introductory psychology, statistics, research methods and human development. Although we do not guarantee TA positions, we generally have been able to offer positions to most of our interested students.

Contingent upon the availability of grant money, faculty may also offer part-time research assistantships to qualified students. The typical RA position involves data collection and analysis, library research, etc. Some computer and statistical skills are usually required. RA positions are less available than TA positions, and they may arise on very short notice.

In-state tuition waivers and additional stipend monies may be available for doctoral students.

*Please note:* Neither teaching nor research assistantships confer in-state tuition status or include tuition waivers.

**Degree Requirements**

**Course Work:**
Approximately 69 credits of course work are required for graduation. Typically, students will take 4 courses each semester of their first year, 3 courses each semester of their second and third years, 2 courses in the first semester of their fourth year and at least 1 course in the second semester of their fourth year in the program. Students must maintain a 3.0 grade point average, and no grade below a *B*- will count toward the requirements.

In addition to the minimum required 69 credits of course work, students must also register for a minimum of 12 clinical practicum hours and 30 dissertation hours. Students must also register for 3 credits of pre-doctoral internship each of the three semesters of their internship year, for a total of 120 credits. Students can complete the program in five years and have up to eight years to complete the program according to Graduate School Rules.

**Second Year Project:**
All students must complete a second year research project. This thesis involves a research project that makes a significant contribution to the field. Although the question must be the student’s own original question, use of archival data and pilot studies are encouraged for this project.

**Clinical Practica:**
A minimum of 500 face-to-face intervention and assessment hours and 1200 total practicum hours [face-to-face intervention and assessment hours, plus supervision, plus support hours as defined by the Association of Psychology Postdoctoral and Internship Centers (APPIC)] will be required in preparation for applications to pre-doctoral
internships. A minimum of 50% of required practica will be conducted in medical settings. Beyond the minimum requirements, students select practica based on personal interests. All field placements must be approved by the Director of Clinical Training (DCT) in advance.

**Demonstration of competence:**
Upon completion of the first two years of course work (42 credits), in the third year of training, students must demonstrate competence in several core areas (e.g., statistical methods, ethics, assessment, psychotherapy, psychopathology) by completing a clinical competency project (CCP). The primary goal of this project is to encourage integration of empirical research and applied clinical work. Following completion of the written portion of the exam, students must orally defend the project to a committee of three faculty members.

**Dissertation:**
Students must complete a dissertation that involves original empirical work and is distinct from other research projects and publications. The dissertation proposal must be completed and defended prior to making application for the pre-doctoral internship. Students must have a dissertation committee composed of four members. When the dissertation is completed to the satisfaction of the primary advisor, the student must orally defend the dissertation to the committee.

**Internship:**
Students must complete a 12-month, full-time pre-doctoral clinical internship, preferably at an APA-accredited site. This internship is required of all clinical psychologists and is the capstone of clinical training in the doctoral program.

**Religious Studies**

**Director:** Sharon L. Coggan  
**Office:** Plaza Building, M108K  
**Telephone:** 303-556-4715  
**Web site:** [clas.ucdenver.edu/religiousStudies/](clas.ucdenver.edu/religiousStudies/)

**Faculty (concurrently appointed)**

**Associate Professors:**
Nancy Ciccone (English)  
Colleen Donnelly (English)  
Robert Metcalf (Philosophy)

**Instructors:**
Edward Casteel (Sociology)
An undergraduate minor is offered in religious studies, a discipline that overlaps with many other fields of study: anthropology, literature, philosophy, psychology and others. Religion has played a vital role in history and continues to do so in contemporary life. The degree of interaction between a religious tradition and its host society is profound. Knowledge of its religion(s) is essential for a genuine understanding of each culture. Students will study the nature of the belief systems of the world’s great religious traditions. Specific courses will offer the possibility of focusing one’s studies in the areas of ancient myth and shamanic traditions, Judaic and Christian studies, Islam, Asian religions, psychology of religion, philosophy of religion, anthropology and sociology of religion, religion and literature and biblical studies.

REQUIREMENTS FOR THE MINOR

Programs

Non Degree

Religious Studies Minor

Eighteen semester hours, at least 9 of which must be upper division and at least 9 semester hours taken with Downtown Campus faculty. A minimum cumulative GPA of 2.0 for all UC Denver courses taken in the minor is required, with no individual course grade lower than a C (2.0).

Program Requirements

Required Courses

- RLST 1610 - Introduction to Religious Studies Summer 2010 Registration: RLST 1610
One course in Western religions chosen from approved list:

- RLST 2660 - World Religions  
  Summer 2010 Registration: RLST 2660
- RLST 3000 - Judaism, Christianity and Islam: Affinity and Difference  
  Summer 2010 Registration: RLST 3000
- RLST 3060 - History of Early Christianity  
  Summer 2010 Registration: RLST 3060
- RLST 2700 - The Bible as Literature  
  Summer 2010 Registration: RLST 2700
  - OR -
- ENGL 2520 - The Bible as Literature  
  Summer 2010 Registration: ENGL 2520
- RLST 3740 - Biblical Traditions: Old Testament  
  Summer 2010 Registration: RLST 3740
  Summer 2010 Registration: RLST 3760
- RLST 3770 - Archaeological Discoveries Relating to the Bible  
  Summer 2010 Registration: RLST 3770
- RLST 4070 - Western Religious Thought  
  Summer 2010 Registration: RLST 4070
  - OR -
- PHIL 4710 - Western Religious Thought  
  Summer 2010 Registration: PHIL 4710
- RLST 4400 - Differing Concepts of God  
  Summer 2010 Registration: RLST 4400
  - OR -

Undergraduate Minor

Twenty-first century students need global perspectives on citizenship that are informed by and can contribute to processes of civic engagement locally and in all parts of the world. This minor encourages students to recognize how social justice, critical consumption of goods and ideas and civic engagement intersect. It reinforces the many ways that our students are already engaged as citizens, and it helps solidify their power to effect real change.

STUDENT LEARNING GOALS

As minors in social justice, students will hone skills in critical thinking, oral and written discourse and problem solving so that they can reflect on their own moral values and civic responsibilities. They will also critically assess how they are defined and influenced by various sources such as media and institutions that describe and prescribe our and others’ cultures and learn to understand others’ beliefs and values despite differences. Finally, social justice minors will engage in dialogue to resolve conflicts and design solutions by working in a collaborative manner to create change.

REQUIREMENTS FOR THE MINOR

Programs

Non Degree

Social Justice Minor

Requirements for the Minor

The minor consists of 18 semester hours, structured as follows:

- A required introductory class (with either a social science or humanities focus); see below.
- An experiential learning component of 3 semester hours.
• Upper-division course work to be determined by individual students in consultation with the social justice minor director. At least two disciplines must be represented.
• A 3-semester-hour capstone seminar that will provide opportunity for further reflection on the experiential learning projects and student group projects.

Required course

Choose one:

• SJUS 2010 - Social Justice: Theories, Narratives, and Technologies  
  Summer 2010 Registration: SJUS 2010
  -OR-
• SJUS 2000 - Democratic Participation and Social Justice  
  Summer 2010 Registration: SJUS 2000

Total: 3 Hours

Internship

A 3-semester-hour internship in any discipline of the social sciences or humanities, involving community work and including a reflective component and public dissemination or report.

Total: 3 Hours

Upper-Division Courses

Choose three (below is a sample list of upper-division courses, but other courses may be considered):

• ANTH 3142 - Cultural Diversity in the Modern World  
  Summer 2010 Registration: ANTH 3142
• ANTH 4070 - Culture of Development and Globalization  
  Summer 2010 Registration: ANTH 4070
• COMM 4022 - Critical Analysis of Communication  
  Summer 2010 Registration: CMMU 4022
• COMM 4200 - Persuasion  
  Summer 2010 Registration: CMMU 4200
• COMM 4260 - Communication and Conflict  
  Summer 2010 Registration: CMMU 4260
• ENGL 3795 - Race and Ethnicity in American Literature  
  Summer 2010 Registration: ENGL 3795
- ENGL 4280 - Proposal and Grant Writing Summer 2010 Registration: ENGL 4280

Margaret Woodhull, PhD, University of Texas, Austin

The master of social science (MSS) program is designed to meet the needs of students who prefer flexibility in constructing an individualized course of study in social science. Emphasis is placed on the integration of knowledge across and beyond traditional disciplinary boundaries. This is accomplished through three required seminars, courses from a variety of disciplines chosen with the approval of advisors and program directors, and a project or thesis. Courses can be chosen from the social science disciplines: anthropology, communication, economics, geography, history, political science,
psychology and sociology, as well as from other disciplines and programs, e.g., English, philosophy, education, public affairs and architecture.

The MSS program is intended for students interested in developing their own interdisciplinary perspectives in such areas as social thought, public policy, women’s studies, educational reform and cross-cultural studies or politics. The program can provide: training for advancement in the professions of education, business, social service and government; a basis for further graduate studies in a specific social science discipline or professional field; a means for teachers and other working students to tailor degree programs to fit their personal career development needs; and a nontraditional approach for recent university graduates or adults re-entering the university to pursue liberal educational goals in the social sciences.

MSS REQUIREMENTS

Programs

Master of Social Science

Social Science MSS

► Graduate School Rules apply to this program

Requirements for Admission

General rules for admission into the Graduate School apply to admission into the MSS program.

For admission as a regular graduate student, applicants must:

- have earned a bachelor's degree
- submit two official copies of all transcripts, with an overall GPA of at least 3.0 out of 4.0
- have appropriate undergraduate training or professional background or indicators that supply evidence of ability to pursue the MSS degree
- include a writing sample
- submit three letters of recommendation (at least two from academic sources)
- submit a written statement specifying the goal of advanced study in the social sciences, expressed in clear, correct and effective English
- standardized test scores are not required, but will be considered if submitted

After meeting all other requirements for admission, applicants may be required to have an interview to discuss their interest in the program and their plans for study. For out-of-
state applicants, an appropriate substitute for the interview may be determined by the director.

**Provisional Admission:**

Applicants may be admitted as provisional-status graduate students if their complete record indicates a high probability of success.

**Non-degree Students:**

Potential applicants may take graduate-level courses as nondegree students (unclassified student with a bachelor's degree) if they:

1. Wish to strengthen their record in order to demonstrate that they can successfully complete courses in the program
   – or –
2. Wish to start courses in the program prior to completing their application. Up to 12 semester hours taken as a nondegree student may be accepted by the program once a student has been admitted into the program (the 12-hour limit also includes graduate work from another university).

**International Students:**

International students must also meet UC Denver requirements for international admission. See the *Information for International Students* section of this catalog or call 303-315-2230 for further information.

**Degree Requirements**

The MSS is a 36-semester-hour program, of which 30 hours must meet all specifications of the Graduate School. Throughout their work toward the MSS degree, students must maintain at least a B (3.0) average in all courses. A grade of B- or below will not be counted toward the degree.

Students may pursue courses around any coherent theme with the approval of MSS program directors and advisors. In addition to the unlimited self-structured options, there are four tracks in place from which students can select: women’s and gender studies, international studies, society and environment and community health science.

**Three Required Core Seminars**

The following two courses must be taken during the first year following entrance to the program:

- **SSCI 5013 - Philosophical Problems in the Social Sciences and Humanities**
  *Summer 2010 Registration: S SC 5013*
  (Offered spring only)
- **SSCI 5020 - Elements of Social Thought** *Summer 2010 Registration: S SC 5020* (Offered fall only)
  The third required course should be taken later in the program when students are ready to write a proposal for the thesis or project:
- **SSCI 5023 - Research Perspectives in Social Science** *Summer 2010 Registration: S SC 5023* (Offered spring only)

**Total: 9 Hours**

**Electives**

Additionally, students must complete a total of 21-24 semester hours comprising a coherent selection of courses from a variety of disciplines. All courses for the self-structured portion of the program must be selected with the approval of one of the MSS program directors.

A total of two independent study courses and two 4000-level undergraduate courses taken while enrolled in the program may count toward the degree. All independent study contracts must be approved by one of the program directors. The remaining course work must be 5000/6000-level courses offered through various departments.

Students completing a project take 24 hours of electives, while thesis students complete 21 hours of electives.

**Total: 21-24 Hours**

**Thesis or Project**

In order to proceed with a thesis or project, all students must submit a proposal approved by three faculty members (and approved by one of the program directors in cases where one of the directors is not serving on the committee). Students must also pass an oral comprehensive exam to graduate. Total hours required are: 3 hours of project and 6 hours of thesis.

- **SSCI 6950 - Master's Thesis** *Summer 2010 Registration: S SC 6950*
- **SSCI 6960 - Master's Project or Report** *Summer 2010 Registration: S SC 6960*

**Total: 3-6 Hours**

**Degree Total: 36 Hours**

Undergraduate

Sociology is the scientific study of groups, social process and behavior. The major in sociology is designed to familiarize the student with these areas through an understanding of theory, method and statistical procedures employed within them. Concentration is possible at the undergraduate level. However, the faculty believes the undergraduate should have a foundation in the basics of the discipline upon which to build a future specialization. Such specialization is more appropriate at the advanced levels.

Many career opportunities combine a foundation in sociology with business, computer science or community development. Opportunities within the field of sociology proper usually require graduate study. The major will prepare the student for such advanced work as well as for pursuit of career options with only the BA degree. For example, graduates with a sociology BA are employed in the human services field and with state and local government agencies.

The department has developed the following rationale for courses offered:

1. Lower-division courses (for majors and nonmajors)
   a. 1000-level courses provide an introduction to the broad sociological perspective as it applies to social life, social systems and society.
   b. 2000-level courses introduce the student to somewhat more specific content areas: population study, human ecology, social psychology, etc.

2. Upper-division courses (3000 and 4000)
   a. 3000-level courses serve as advanced surveys of some specific area of concentration. They are designed to acquaint the student with the issues, methods, concepts and theoretical frameworks employed in the content area. Such courses as urban sociology, race and ethnicity, etc. are offered at this level. Many of these courses are open courses, in that students from other departments and colleges are encouraged to enroll in them.
   b. 4000-level courses are devoted to a more detailed in-depth examination of specific issues, approaches and concepts within the previously identified content areas. These are advanced courses and are geared more directly to sociology and social science majors.
   c. Undergraduate students can enroll in a course at the 4000/5000 level only if they are classified at junior or senior standing.

REQUIREMENTS FOR THE MAJOR

REQUIREMENTS FOR THE MINOR
Departmental Honors

Students wishing to graduate with departmental honors in sociology (cum laude, magna cum laude, or summa cum laude) must have a minimum cumulative GPA of 3.2 and a 3.2 or higher in all sociology courses. Additional requirements are available in the sociology office. Qualified students are encouraged to apply for the honors program no later than the beginning of their senior year.

Graduate

The MA degree in sociology offered at the Downtown Campus focuses on social psychology, sociology of the family, criminology, medical sociology, urban sociology and applied sociology. The program’s urban emphasis complements professional degree programs in design and planning, medicine, nursing, community health, physical engineering, public and business administration, education and fine arts by providing advanced seminars and planning and research opportunities in theory and research.

Admission Requirements

Application to the MA program is open to all students holding a BA, BS or higher degree in any field. Students without prior training in sociology, but with otherwise exemplary records, may be admitted and may be required to make up deficiencies without graduate credit depending upon the results of the mandatory diagnostic exams in the areas of theory, methods and statistics.

Recommended Academic Standards

- A combined GPA of at least 3.3 for all courses taken at the undergraduate or graduate level prior to admission
- A combined GPA of at least 3.5 for all sociology courses taken at the undergraduate or graduate level prior to admission

Application Materials

- Complete application form
- Three letters of recommendation (at least two must be from academic/professional sources)
- Two copies of official transcripts sent directly to the Department of Sociology from all schools where BA credit hours were taken
- A statement of purpose and goal of graduate study
- Writing sample
- GRE score may be optionally submitted to aid application file
- International Students: You must complete an International Student Application. Minimum TOEFL score of 525 required.
Application Deadlines

Applications are accepted for fall admission only. All application materials are due on February 15th.

**REQUIREMENTS FOR THE MA IN SOCIOLOGY**

Programs

Bachelor of Arts

**Sociology BA**

Students must declare a major by the time they have completed 60 semester hours of course work. The major requires a total of 34 hours with an average grade of C (2.0) in all courses. At least 16 of the 34 hours must be upper-division (3000-4000 level) courses. The maximum number of hours allowed in sociology is 48.

**Course Requirements**

**Core Courses**

The core consists of the following group of courses, all of which must be completed with a grade of C (2.0) or better:

- **SOCY 1001 - Introduction to Sociology** *Summer 2010 Registration: SOC 1001*
- **SOCY 3001 - Urban Sociology** *Summer 2010 Registration: SOC 3001*
- * **SOCY 3111 - Research Methods** *Summer 2010 Registration: SOC 3111*
- * **SOCY 3121 - Statistics** *Summer 2010 Registration: SOC 3121*
- * **SOCY 4150 - History of Sociological Theory** *Summer 2010 Registration: SOC 4150*
- * **SOCY 4160 - Contemporary Sociological Theory** *Summer 2010 Registration: SOC 4160*

**Total: 19 Hours**

*Must be taken from Downtown Campus faculty

**Electives: 15 Hours**
Choose a minimum of 15 hours and a maximum of 29 hours of electives in sociology, with an average grade of C (2.0) in all courses.

**Major Total: 34 Hours**

All prospective majors should contact the department as early in their academic careers as possible for information and for assignment to a major advisor. Transfer or returning students should consult with the department chairman concerning completion of the core courses.

The department requires that at least 13 hours of sociology be taken from Downtown Campus faculty, including the following courses: SOC 3111, 3121, 4150 and 4160.

**Non Degree**

**Sociology Minor**

For an undergraduate minor in sociology, a minimum of 15 semester hours in sociology must be completed with a grade of C or better. Nine of these hours must be taken from Downtown Campus faculty.

**Course Requirements**

**Required Courses**

- **SOCY 1001 - Introduction to Sociology**  *Summer 2010 Registration: SOC 1001*
- **SOCY 4150 - History of Sociological Theory**  *Summer 2010 Registration: SOC 4150*

**Total: 6 Hours**

**Electives**

Nine hours of sociology elective courses, completed with a grade of C or better.

**Total: 9 Hours**

**Minor Total: 15 Hours**

**Master of Arts**
Sociology MA

► Graduate School Rules apply to this program

Program Requirements

Two plans of study are available for students. Both options require a minimum of 36 hours. A thesis is required for the thesis option, and a project and internship are required for the nonthesis option. Before beginning the required course work, attendance at an orientation is required for incoming cohorts as well as the completion of mandatory diagnostic exams.

Required Courses

Core courses are required for all graduate students, regardless of plan. Students who are officially admitted to the program are required to follow a sequential plan. SOC 5000 must be taken in the first fall semester. Students must take SOC 5014 before taking SOC 5015. Similarly, SOC 5024 must be taken before SOC 5183.

- **SOCY 5000** - Professional Seminar: Sociological Inquiry  
  *Summer 2010 Registration: SOC 5000*
- **SOCY 5014** - Classical Sociological Theory  
  *Summer 2010 Registration: SOC 5014*
- **SOCY 5015** - Contemporary Sociological Theory  
  *Summer 2010 Registration: SOC 5015*
- **SOCY 5024** - Seminar: Research Methods I  
  *Summer 2010 Registration: SOC 5024*
- **SOCY 5183** - Seminar: Quantitative Data Analysis  
  *Summer 2010 Registration: SOC 5183*

**Total: 15 Hours**

PLANS OF STUDY

Students must also choose one of the following options:

**Thesis Option Requirements**

- Core course requirements  
  15 Hours
Five elective courses  15 Hours  
Master's thesis  6 Hours total required

- SOCY 5955 - Master's Thesis  Summer 2010 Registration: SOC 5955

**Thesis Option Total: 36 Hours**

**Nonthesis Option Requirements**

- Core course requirements  15 Hours  
- Five elective courses  15 Hours
- Internship  3 Hours
- Master's project  3 Hours

- SOCY 5964 - Master's Report  Summer 2010 Registration: SOC 5964

**Nonthesis Option Total: 36 Hours**

**Elective Credit Requirements (15 semester hours for both options)**

Students can take an unlimited number of sociology graduate seminars (i.e., 5000-level, stacked or not) to fulfill their 15 elective semester hours, or a combination of the following:

- Independent study: maximum 6 semester hours
- Courses in other departments: maximum 6 semester hours
- Internship: maximum 3 semester hours

For further information about the Department of Sociology or the MA program, visit the Sociology Web Site.

**Sustainability**

**Director:** Stephen Koester (Anthropology)  
**Office:** Administration Building, 270  
**Telephone:** 303-556-6795
Questions of sustainability are currently among the most important facing humankind and are receiving tremendous attention in the media. Because issues of sustainability do not arise from single causes, nor can solutions be developed from within narrow disciplinary frameworks, a multidisciplinary perspective is not only desirable but necessary to identify and understand problems, and create, evaluate and implement solutions.
Specializations in this critical area of study include: health and the environment, sustainable ecology, environmental ethics, environmental policymaking and policy analysis, institutional behavior, community-based and participatory approaches to sustainable development and conservation, environmental justice, sustainable food production and critical consumerism. The sustainability minor offers a holistic approach to development and daily living, which demands scientific, economic, environmental and social perspectives to understand and implement actions that can inform the public, business, industry, government and service organizations on how their activities affect the environment.

REQUIREMENTS FOR THE SUSTAINABILITY MINOR

Programs

Non Degree

Sustainability Minor

The sustainability minor is interdisciplinary, drawing on the expertise across CLAS departments: anthropology, biology, chemistry, communication, economics, environmental sciences, geography, geology, history, economics, philosophy, physics and political science. The core courses are taught by a faculty team from natural sciences and social sciences, who will present the concepts from the empirical and humanistic perspectives. The teaching team changes each term so that faculty from any given CLAS department will rotate through the core courses every 3-4 years.

The minor comprises 18 hours, distributed as follows:

- two core courses that introduce students to the systems theories that document how living things affect and are affected by their environments
- two electives chosen from an approved list of CLAS courses
- students select either a field study, internship, service learning or related travel study course
- capstone course in sustainability

Requirements for the Minor

Core Courses

- **SUST 3010 - The Non-Sustainable Past** Summer 2010 Registration: **SUST 3010**
SUST 3011 - Toward a Sustainable Future  
Summer 2010 Registration: SUST 3011

Total: 6 Hours

Electives

Choose two from the following list of approved electives:

Anthropology

- ANTH 1302 - Introduction to Archaeology  
  Summer 2010 Registration: ANTH 1302
- ANTH 1303 - Introduction to Biological Anthropology  
  Summer 2010 Registration: ANTH 1303
- ANTH 2102 - Culture and the Human Experience  
  Summer 2010 Registration: ANTH 2102
- ANTH 3006 - Development, Environment and Culture  
  Summer 2010 Registration: ANTH 3006
- ANTH 3301 - World Prehistory  
  Summer 2010 Registration: ANTH 3301
- ANTH 3512 - Human Evolution  
  Summer 2010 Registration: ANTH 3512
- ANTH 4030 - Ethnobiology  
  Summer 2010 Registration: ANTH 4030
- ANTH 4060 - Evolutionary Medicine  
  Summer 2010 Registration: ANTH 4060
- ANTH 4070 - Culture of Development and Globalization  
  Summer 2010 Registration: ANTH 4070
- ANTH 4170 - Culture and the Environment  
  Summer 2010 Registration: ANTH 4170
- ANTH 4220 - Community in Global Context  
  Summer 2010 Registration: ANTH 4220
- ANTH 4250 - Culture Change in the Modern World  
  Summer 2010 Registration: ANTH 4250
- ANTH 4450 - Development and Conservation: Contemporary Issues  
  Summer 2010 Registration: ANTH 4450
- ANTH 4460 - Development and Conservation: Theory and Practice  
  Summer 2010 Registration: ANTH 4460
- ANTH 4560 - Human Ecology  
  Summer 2010 Registration: ANTH 4560

Biology

- BIOL 1550 - Basic Biology: Ecology and the Diversity of Life  
  Summer 2010 Registration: BIOL 1550
- BIOL 3330 - Plant Diversity  
  Summer 2010 Registration: BIOL 3330
- BIOL 3411 - Principles of Ecology  
  Summer 2010 Registration: BIOL 3411
• BIOL 3412 - Fundamentals of Applied Ecology  Summer 2010 Registration: BIOL 3412
• BIOL 3521 - Vertebrate Biology  Summer 2010 Registration: BIOL 3521
• BIOL 4154 - Conservation Biology  Summer 2010 Registration: BIOL 4154

Business

• MGMT 4950 - Special Topics in Management  Summer 2010 Registration: MGMT 4950
  when offered as Business and Sustainability
• MKTG 4950 - Special Topics  Summer 2010 Registration: MKTG 4950
  when offered as Nonprofit and Social Marketing

Chemistry

• CHEM 1474 - Core Chemistry: Chemistry For the Consumer  Summer 2010 Registration: CHEM 1474
• CHEM 4700 - Environmental Chemistry  Summer 2010 Registration: CHEM 4700
• CHEM 5700 - Environmental Chemistry  Summer 2010 Registration: CHEM 5700

Communication

• COMM 4282 - Environmental Communication  Summer 2010 Registration: CMMU 4282
• COMM 5282 - Environmental Communication  Summer 2010 Registration: CMMU 5282

Economics

• ECON 4530 - Economics of Natural Resources  Summer 2010 Registration: ECON 4530
• ECON 4540 - Environmental Economics  Summer 2010 Registration: ECON 4540
• ECON 4770 - Economic Development--Theory and Problems  Summer 2010 Registration: ECON 4770

Brenda J. Allen (Communication)
Elizabeth Allen (Psychology)
Sharon Araji (Sociology)
Laura Argys (Economics)
Pompa Banerjee (English)
Women's and gender studies (WGST) is an interdisciplinary program that focuses on the centrality of gender and sexuality to understanding our past and present worlds. Students and faculty probe assumptions about men and women and question structures of inequality as they play out in local and global contexts. Through a study of gender and sexuality, we expand our thinking about other relations of power, such as race, class, ethnicity, nationality and physical ability. WGST fosters connections with the local community and promotes advocacy of human rights and social justice.

**Undergraduate Studies**

**MINOR IN WOMEN’S AND GENDER STUDIES**

**Individually Structured Major**

Students interested in a major in women’s and gender studies may develop one through the individually structured major (ISM). The ISM is an interdisciplinary major based on an individual contract rather than a preset list of courses. By choosing an ISM, students can pursue their interests in WGST across a variety of departments. For more information on an ISM in women’s and gender studies, contact Marjorie Levine-Clark, and see the individually structured major section of this catalog.

**Graduate Studies**

At the graduate level, students may pursue women's and gender studies as a track in the master of social science degree program. Students learn to think critically about the
condition of women and the role of gender in both historical and contemporary experience. Course work focuses on conceptual models for understanding women and gender, such as feminist, queer, post-colonial and race theories as they operate through culture, language, politics, visual representation and history. For more information, contact Myra Bookman or Margaret Woodhull.

The master of social science program also offers a certificate in women’s studies for students pursuing master’s degrees in departments in the College of Liberal Arts and Sciences. For details, contact Myra Bookman or Margaret Woodhull.

Non Degree

Women’s and Gender Studies Minor

The women’s and gender studies minor gives students the opportunity to explore gender issues in the humanities and social sciences. To minor in WGST, a student must complete 18 semester hours in WGST courses with a grade of C or better. At least 12 semester hours for the WGST minor must be taken with UC Denver faculty, and all courses for the minor must be approved by a WGST advisor.

Requirements for the Minor

1. Required Course: WGST 1050 (3 semester hours)

This course provides an introduction to key concepts, themes and approaches to the interdisciplinary field of women’s and gender studies. It helps students develop an overall framework for WGST in which to place their electives and internship.

- WGST 1050 - Introduction to Women's and Gender Studies Summer 2010 Registration: WGST 1050

2. WGST-related courses at the 3000 level or above (12 semester hours)

These courses combine humanities and social science fields. Advisor approval is required for course selection. Students are strongly urged to take at least one course
that focuses on women’s and gender issues in international perspective. Courses which are eligible for WGST credit include (but are not limited to):

**Humanities**

- **ENGL 3450** - Twentieth Century Women Writers, *Summer 2010 Registration: ENGL 3450*
- **ENGL 4510** - Whores and Saints: Medieval Women, *Summer 2010 Registration: ENGL 4510*
- **FREN 4510** - French Women Writers, *Summer 2010 Registration: FR 4510*
- **HIST 3343** - Women in U.S. History, *Summer 2010 Registration: HIST 3343*
- **HIST 4230** - Women in the West, *Summer 2010 Registration: HIST 4230*
- **HIST 4303** - Sex and Gender in Modern Britain, *Summer 2010 Registration: HIST 4303*
- **HIST 4307** - History of Sexuality, *Summer 2010 Registration: HIST 4307*
- **HIST 4345** - Gender, Science, and Medicine: 1600 to the Present, *Summer 2010 Registration: HIST 4345*
- **PHIL 3500** - Ideology and Culture: Racism and Sexism, *Summer 2010 Registration: PHIL 3500*
- **PHIL 4933** - Philosophy of Eros, *Summer 2010 Registration: PHIL 4933*
- **RLST 4420** - Goddess Traditions, *Summer 2010 Registration: RLST 4420*
- **SPAN 4540** - Race, Class, and Gender in Spanish Golden Age Literature, *Summer 2010 Registration: SPAN 4540*

See the WGST Web site for this semester's course offerings.

3. WGST Community Internship (3 semester hours)

An internship working in the community around issues related to women and gender. Working with a WGST advisor and the UC Denver Experiential Learning Center (ELC), students will choose an internship related to their interests in WGST. Through the ELC, students sign up for their internship under WGST 3939. Students will be required to complete a critical writing component comprising an ongoing log about the internship experience and an 8-10 page final paper discussing the interrelationships between the practical internship experience and the theoretical/scholarly insights of women's and gender studies. Students may also choose to use WGST 2900, Smart Girl Leadership
Training, in lieu of their internship and must follow the requirements of that course and practicum. Students must have taken WGST 1050 before enrolling for their internship.

- **WGST 3939 - Cooperative Education Summer 2010 Registration:** WGST 3939
- **OR**
- **WGST 2900 - Smart Girl Leadership Training and Practicum Summer 2010 Registration:** WGST 2900

Graduates of the School of Public Affairs (SPA) are prepared to **lead the field**, **solve** pressing social issues and **change** communities for the better. Nationally ranked for excellence, SPA offers programs in multiple locations: on the UC Denver, Denver Campus, at the Colorado Springs campus, on the Western Slope (Grand Junction) and through the nation’s oldest online MPA and brand new online MCJ. The school offers four degrees: the bachelor of arts in criminal justice, the master of public administration (MPA), the master of criminal justice (MCJ) and the PhD in public affairs. Qualified senior managers may elect to participate in the school’s executive MPA option, an
innovative partnership between the school and the federal management development centers. SPA offers an accelerated MPA option as well as a variety of concentrations and dual degrees in law, economics and urban and regional planning for students with diverse interests.

SPA Students

The School of Public Affairs (SPA) attracts a dynamic mix of students, from undergraduates just beginning their public service careers to well-seasoned professionals already immersed in public or nonprofit management and policy. Students encompass a range of age and experience, and they represent the diversity of the Denver metropolitan area. SPA classrooms promote interaction among students, and the variety of backgrounds including domestic, international, pre-career and mid-career students enriches learning enormously.

Our graduates are leaders. They include state legislators and department heads, city managers and mayors, police chiefs and correctional administrators, nonprofit and for-profit executives, school superintendents, university presidents and faculty.

The School of Public Affairs is accredited by the National Association of Schools of Public Affairs and Administration’s (NASPAA) Commission on Peer Review and Accreditation.

The Mission of SPA

The School of Public Affairs will improve the quality of public life in Colorado and the Rocky Mountain West.

To achieve this mission, SPA has set the following objectives:

- **build educational and research excellence**, establishing the School of Public Affairs as the best school of public affairs in the Rocky Mountain West and a top-ranked national school
- **focus on solving pressing public problems**, both by helping students to build strong problem-solving skills and by committing the entire SPA community to participation in problem-solving efforts
- **strengthen SPA’s contribution to successful student career development**
- **serve all of Colorado, the Mountain West and the global community**

A Commitment to Community, to Public Service and to Problem Solving

The School of Public Affairs seeks students committed to public service. It prepares those students through a rigorous course of study that combines scholarship and theory
while building practical analytical, management and policymaking skills. SPA faculty frequently engage students in community-centered research projects, and the school offers a variety of opportunities for students to engage in the work of its centers or to participate in events featuring visiting experts.

The Centers

The centers at the School of Public Affairs create bridges between the research-driven world of academia and the public and nonprofit sectors. This is how SPA contributes to the community—and how the school in turn seeks to provide leadership, policy solutions and ideas for societal change. The centers also enable students to engage first-hand in public policy research, work with client organizations, participate in internships and attend conferences and seminars. The SPA centers involve themselves in an impressive array of projects, from working with the Colorado Trust to helping Colorado communities establish health-delivery partnerships and studying Colorado’s homeless population.

SPA Centers

- Institute for Policy Research and Implementation
- Center on Domestic Violence
- Wirth Chair in Environmental and Community Development Policy
- Center for Education Policy Analysis
- Center for Public/Private Sector Cooperation
- Center for the Improvement of Public Management
- Center on Reinventing Public Education—Denver

Prospective Students: 303-315-2227
Current Students and Advising: 303-315-2227

Faculty

Professors:

Mark Pogrebin, PhD, University of Iowa
The School of Public Affairs is excited to offer a new bachelor of arts program in criminal justice. It is an interdisciplinary program that combines specific course work in criminal justice with a liberal arts focus. The criminal justice degree offers training for specific occupations within criminal justice agencies and provides students with the critical thinking, writing and presentation skills necessary for career advancement and graduate study. The course work explores the complex nature of crime causation, criminal justice organizations and the implications of public policies that allow graduates to adapt to the evolving nature of the field.

As with all undergraduate degrees, students are required to complete the requirements of the Downtown Campus core curriculum, providing an education that draws heavily on social and natural sciences as well as liberal arts. The program will not only provide a direct line to employment in the growing field of criminal justice, but will also facilitate the movement of outstanding students into SPA’s MCJ and PhD graduate programs. Junior and senior criminal justice students may be permitted to enroll in a graduate level MCJ course by advisement. Students will be well prepared to pursue additional advanced degrees in fields where critical thinking and analytical skills are required.

Admissions Requirements

Entering freshmen, current UC Denver students and transfer students are eligible for admission to the program. All students must meet the admission requirements described in the Information for Undergraduate Students chapter of this catalog.
Transfer Students

Students who have attended another college or university are expected to meet general requirements for admission of transfer students as described in the Information for Undergraduate Students chapter. A maximum of 15 semester credits of criminal justice coursework can be accepted and applied to the criminal justice major. The BACJ Program Director has the final discretionary authority to accept or reject criminal justice transfer credits. Transfer students with at least 30 semester hours of transferable credit who have been denied admission to the college by the Downtown Campus Office of Admissions, and who have special circumstances not covered by the regular admission policies, may petition the SPA Academic Standards for provisional admission. The Academic Standards Committee requires evidence of academic performance before provisional admission is granted. Policies and procedures for the SPA Academic Standards Committee are available through the SPA Advising Office.

Advising and Student Services

Upon matriculation into the criminal justice program, students will receive advising from the undergraduate academic advisor. The academic advisor will assist students with registration, clarify university and department policy and facilitate the graduation checkout. Advising will ensure that students take appropriate courses in the core curriculum to provide a foundation for their course work in the program. Students will also be assigned a faculty advisor who will assist them with questions about their majors, concentrations and career directions.

Grading and Policies

Dean's List Criteria

UC Denver will use a fixed criterion across all colleges for determining eligibility for the Dean’s List. This policy applies to undergraduate students.

For fall and spring semesters, students must successfully complete 9 hours in the semester upon which to determine grade point. These courses can be both within and outside of the School of Public Affairs. MSCD Pooled courses will not be included in the calculation nor will they count towards the 9 hours required for consideration. The GPA set for inclusion in the Dean’s List is 3.75. In the summer semesters, students must complete 6 hours as a basis for inclusion in the Dean’s List. Course inclusion will be the same as in fall and spring semesters. The GPA for Dean’s List in summer will also be 3.75. Colleges will collect data each semester on the number of students making the Dean’s List and report the number and percentage of total students in the college. Students who make the Dean’s List for both fall and spring semesters may be eligible for a Dean’s List scholarship award. Dean’s List Scholarship awards vary in amount each
semester depending on funding and the number of BACJ students who achieve Dean’s List status. The Registrar’s Office will calculate the semester GPAs for all students two weeks prior to the due date for semester grades. Those GPAs will be the basis for determining the Dean’s List. Incompletes will not be considered in the calculation of minimum number of hours. The Dean’s List will not be recalculated to include completed incompletes.

**Academic Probation and Suspension**

Students at the university are expected to maintain progress in their degree program, as defined by being in “good academic standing.” Good academic standing requires minimally a cumulative grade point average (GPA) of 2.0 on all University of Colorado course work.

**Academic Probation**

- Academic probation is a warning to students that they are not progressing toward completion of their degree in a satisfactory manner.
- Students are placed on academic probation when their cumulative CU GPA falls below a 2.0 at the end of any academic term.
- Students are informed in writing (via University-assigned email and postal letter) of their academic probation status.
- Students on Academic Probation will be required to complete the Academic Success Plan during their first semester on Academic Probation.
- Students will be required to schedule an appointment and meet with their academic advisor to discuss the completed Academic Success Plan before they will be allowed to register for the subsequent term.
- Students on Academic Probation will be required to schedule an appointment and meet with their academic advisor every semester that they are on Academic Probation before they will be allowed to register.
- Academic Probation requires that students achieve a minimum 2.3 semester GPA each subsequent term until their cumulative CU GPA is at least a 2.0 to return to good academic standing. Students must achieve a minimum 2.0 cumulative CU GPA to meet graduation requirements.
- Students who fail to earn the 2.3 semester GPA during any semester of Academic Probation will be placed on Restricted Academic Probation.
- Students have five semesters or 30 credits (whichever happens sooner) to raise their cumulative GPA to above a 2.0, or they will be placed on Academic Suspension.
- Once a student has raised his/her cumulative CU GPA to at least a 2.0, s/he will be removed from Academic Probation and notified via University-assigned email that s/he is in Academic Good Standing.

**Restricted Academic Probation**
• Students who fail to earn the 2.3 semester GPA during any semester of Academic Probation will be placed on Restricted Academic Probation.
• Students are informed in writing (via University-assigned email and postal letter) of Restricted Academic Probation status.
• Students on Restricted Academic Probation will be allowed to enroll for a maximum of 6 credits/2 classes per semester (whichever is more). A course and its attached lab are considered to be one course in this case.
• Students on Restricted Academic Probation will be required to schedule an appointment and meet with their academic advisor in order to register for courses.
• Students on Restricted Academic Probation will not be able to register online; they will need to register for courses using a Schedule Adjustment Form, which must be submitted to the Service Center (North Classroom #1003) for processing.
• Restricted Academic Probation requires that students achieve a minimum 2.3 semester GPA each subsequent term until their cumulative CU GPA is at least a 2.0. Students must achieve a minimum 2.0 cumulative CU GPA to return to good academic standing and to meet graduation requirements.
• Students on Restricted Academic Probation who do not meet the 2.3 minimum semester GPA will be placed on Academic Suspension.
• Students who fail to raise their cumulative GPA to 2.0 or above in five semesters or 30 credit hours on Academic Probation and Restricted Academic Probation will be placed on Academic Suspension.

Academic Suspension

• Students on Restricted Academic Probation who do not meet the 2.3 minimum semester GPA will be placed on Academic Suspension.
• Students are informed in writing via certified/registered letter of their Academic Suspension status.
• The minimum duration of Academic Suspension is for a period of one year (three semesters, including summer term). Students placed on Academic Suspension will be unable to take courses from any CU campus during this time.
• §Should a student be placed on Academic Suspension while registered for the next semester, s/he will be administratively dropped from their courses by the University.
• A student’s Academic Suspension status is permanently indicated on his/her official University of Colorado transcript. During the one-year Academic Suspension period, students who wish to return to the University should consider one (or both) of the following actions:
  o Attend another regionally-accredited college/university.
    Students who choose to attend another institution while on Academic Suspension can take as many or as few credits as they choose, but must earn a 2.75 cumulative GPA in all transferable course work. Students should consult their academic advisor to discuss appropriate course work.
• Use the time off to directly address and resolve the factors that contributed to the academic difficulty.

- After the one-year suspension period has elapsed, students must petition the appellate committee (of the school or college they wish to enter) for readmission and meet and document at least one of the following criteria:
  - Attendance at another regionally accredited college/university where they earned a minimum cumulative GPA of 2.75 in transferable credit.
  - Explanation of their previous academic difficulty, demonstration of what has changed, and how this will allow them to now achieve and maintain Good Academic Standing (including a semester GPA of at least 2.3 and a cumulative GPA of at least a 2.0).

- Students who choose to petition the School of Public Affairs appellate committee for readmission must submit their petitions by the following deadlines:
  - For fall admission: June 1
  - For spring admission: December 1
  - For Maymester/summer admission: April 1

- If a student is granted readmission and his/her CU GPA is below a 2.0, s/he will be readmitted on Restricted Academic Probation. These students must meet the condition of Restricted Academic Probation every semester until their cumulative CU GPA is at least a 2.0.

Second Suspension

- Students who are readmitted after their first Academic Suspension and fail to meet the conditions of Restricted Academic Probation for a second time are placed on a second suspension for an indefinite period of time.
- Students on a second suspension may be readmitted to the University only by petition to the college’s appellate committee.
- Students will not be considered for readmission unless they have demonstrated significant improvement in academic performance at the college/university level, and/or considerable and positive change in personal circumstances.

Grade Policy

The University of Colorado Grading System is based on a 4.0 absolute scale.

Incomplete Grades

An incomplete grade of “I” can be issued at faculty discretion when there are special circumstances that preclude course completion. Incomplete grades are only issued when a small portion of the course remains. At minimum, 75% of the work in the course must be completed. Students are allowed up to 12 months to complete the unfinished portion of the course. After 12 months an “I” grade that has not been completed will become an “F.”
**Pass/Fail Grades**

Core knowledge area and general electives are the only courses that can be completed pass/fail. Grades of “D-” of better is translated by the Records Office to a P (pass) grade. P grades do no affect students’ GPA. F grades do affects students; GPA. Students interested in completing a course as pass/fail must submit a Schedule Adjustment Form during the add/drop during the respective semester to the BACJ Academic Advisor. Students need to consult the academic calendar posted on the Office of the Registrar’s webpage for add/drop dates. Up to 16 credits may be completed as pass/fail and credited toward the bachelor degree. Students can complete a maximum of 6 credits as pass/fail in any one semester.

**The Internship Program**

Undergraduate students without experience in the field will be expected to complete an internship for credit under the direction of a faculty sponsor. Internships are helpful for career exploration early in a student’s academic career or for job experience after developing academic content in the major. Students must have a minimum 2.0 cumulative GPA and a minimum of 15 semester hours completed at UC Denver before registering for the internship. A maximum of 3 semester hours of internship per semester and 6 semester hours total may be counted toward the 120 semester hours necessary for graduation.

Undergraduate students should contact the Experiential Learning Center for details on internship placements, paperwork and requirements.

**Program Requirements**

Students completing a BA in criminal justice at UC Denver will complete a minimum of 120 semester hours including:

- 34–36 general education core curriculum semester hours
- 21 undergraduate criminal justice semester hours, including 18 upper-division semester hours
- 15 elective semester hours in criminal justice and ancillary fields for the selected area of concentration (including an internship)
- 46–48 elective semester hours, an optional CLAS or language minor (15-21 hours), optional electives or internship
- students without experience in the field of criminal justice must complete a 3-semester-hour internship
Students must receive a minimum of a C (2.0) in each undergraduate course applied to satisfy major or minor degree requirements.

Required Criminal Justice Courses

- CRJU 1001 - Introduction to Criminal Justice Summer 2010 Registration: C J 1001
- CRJU 2041 - Crime Theory and Causes Summer 2010 Registration: C J 2041
- CRJU 3100 - Criminal Justice Research Methods Summer 2010 Registration: C J 3100
- CRJU 3150 - Statistics for Criminal Justice Summer 2010 Registration: C J 3150
- CRJU 4042 - Corrections Summer 2010 Registration: C J 4042
- CRJU 4043 - Law Enforcement Summer 2010 Registration: C J 4043
- CRJU 4044 - Courts and Judicial Process Summer 2010 Registration: C J 4044

Total: 21

Criminal Justice Electives

Criminal Justice Electives—15 semester hours, with 9 hours from the Department of Criminal Justice and 6 from other departments

- CRJU 2110 - Drugs, Alcohol and Crime Summer 2010 Registration: C J 2110
- CRJU 2210 - Probation and Parole Summer 2010 Registration: C J 2210
- CRJU 2320 - Police-Community Relations Summer 2010 Registration: C J 2320
- CRJU 2510 - Juvenile Justice Administration Summer 2010 Registration: C J 2510
- CRJU 3160 - White-Collar Crime Summer 2010 Registration: C J 3160
- CRJU 3220 - Community-Based Corrections Summer 2010 Registration: C J 3220
- CRJU 3250 - Violence in Society Summer 2010 Registration: C J 3250
- CRJU 3252 - Violent Offenders Summer 2010 Registration: C J 3252
- CRJU 3310 - Police in Contemporary Society Summer 2010 Registration: C J 3310
- CRJU 3420 - Pleas, Trials and Sentences Summer 2010 Registration: C J 3420
- CRJU 3540 - Crime and Delinquency Prevention Summer 2010 Registration: C J 3540
- CRJU 4120 - Race, Class and Crime Summer 2010 Registration: C J 4120
- CRJU 4130 - Poverty and Crime Summer 2010 Registration: C J 4130
- CRJU 4140 - Domestic Violence and Crime Summer 2010 Registration: C J 4140
- CRJU 4170 - Victim Studies Summer 2010 Registration: C J 4170
- CRJU 4180 - Comparative Study of Criminal Justice Systems Summer 2010 Registration: C J 4180 (CJ 1001++)
- CRJU 4230 - Corrections and Treatment Summer 2010 Registration: C J 4230
- CRJU 4410 - Criminal Law and Constitutional Procedures Summer 2010 Registration: C J 4410
- CRJU 4430 - Law and Society Summer 2010 Registration: C J 4430
- CRJU 4440 - Courts and Social Policy Summer 2010 Registration: C J 4440
- CRJU 4520 - Gangs and Criminal Organizations Summer 2010 Registration: C J 4520
- CRJU 4530 - Families and Intergenerational Crime Summer 2010 Registration: C J 4530
- CRJU 4600 - Special Topics in Criminal Justice Summer 2010 Registration: C J 4600 (CJ 1001, CJ 2041++)

Total: 9 hours

++Prerequisite

Other Department Electives**

- COMM 4265 - Gender and Communication Summer 2010 Registration: CMMU 4265
- ECON 3300 - Economics of Crime and Punishment Summer 2010 Registration: ECON 3300
- PSCI 3034 - Race, Gender, Law and Public Policy Summer 2010 Registration: P SC 3034

Total: 15 hours

Bachelor of Arts/Master of Public Administration

Public Affairs BA/MPA

The College of Liberal Arts and Sciences and the School of Public Affairs, offer students the opportunity to complete both a bachelor’s degree and master’s degree in five years rather than the usual six years. The program combines undergraduate general education and major studies with a specialized curriculum in public affairs and strives to develop intellectual and professional skills in a coordinated manner. The five year BA/MPA program decreases the time and number of semester hours required to earn both degrees by allowing students to count graduate level courses in the School of Public Affairs toward the bachelor’s degree requirements. The program is designed to give students an opportunity to prepare for professional positions and advancement with federal, state or local governments, nonprofits or private sector firms concerned or involved with public affairs.

Admissions Requirements and Recommendations

Interested students should contact their CLAS advisor as early as possible to ensure proper planning for the five year degree.

Interested students should contact the MPA Director as early as possible for advising (Dr. Mary Guy, 303-315-2007 or mary.guy@ucdenver.edu).

Students may apply to the program during the semester in which they will successfully complete 90 semester hours.
To apply, students must have a 3.5 or higher GPA in CLAS.

Students who wish to apply should have most of their general education and major requirements completed by the time they have earned 90 semester hours.

Students must complete all the required application materials for the School of Public Affairs:

- The UC Denver graduate application, parts 1 and 2
- A declaration of program form
- A resume highlighting work and volunteer experience, extra-curricular activities and any special skills, achievements and awards
- Scores from the GRE, GMAT or LSAT (GRE preferred)

**Program Requirements**

Students must fulfill all the requirements for graduation for CLAS:

- Total of 120 hours (includes hours in public affairs)
- 30 hours in the core curriculum
- 30-48 hours to satisfy major requirements
- Writing proficiency (1 – 7 hours)
- Mathematics proficiency (0 – 3 hours)
- Level III foreign language (0 – 13 hours)
- It is highly recommended that students complete a course in American government, statistics and economics before applying to the MPA program

Students must maintain a 3.5 GPA in CLAS course work.

Students may complete a maximum of 18 semester hours of SPA course work while classified as an undergraduate student.

Students must fulfill all the requirements for graduation from SPA:

- Total of 36–39 semester hours in public affairs
- Six core courses (PUAD 5001 – PUAD 5006)
- Five elective courses at the graduate level (5000 and 6000 level courses)
- Nine of the 15 elective semester hours must be PUAD courses
- An internship (3 hours) is required from those who do not have significant work experience in the field
- Successful completion of the advanced seminar (capstone) course taken in a semester AFTER all core courses are completed. A thesis option is available. Interested students should contact their SPA faculty advisor.

Students must maintain a 3.0 or higher GPA in public affairs course work.
Program Options

BA/MPA students may choose from any CLAS major.
BA/MPA students may choose to do a general MPA or select a MPA concentration in
local government, nonprofit management, environmental policy, emergency
management and homeland security or domestic violence.

Degree Confirmation

Students are eligible to receive a bachelor’s degree once they have successfully
completed 120 semester hours and all CLAS requirements. The BA/MPA will be
conferred once the student has completed all requirements of the master of public
administration degree, including at least 36 hours of graduate level course work.

Certificate

Domestic Violence Graduate
Certificate

Certificate Requirements

Students take the four specified courses below and one elective.

- PUAD 5910 - Women and Violence: A Sociological Perspective  Summer 2010
  Registration: P AD 5910
- PUAD 5920 - Psychology of Violence Against Women  Summer 2010
  Registration: P AD 5920
- PUAD 5930 - Battered Women and the Legal System  Summer 2010
  Registration: P AD 5930
- PUAD 5940 - Domestic Violence Social Change and Advocacy  Summer 2010
  Registration: P AD 5940

Total: 15 Hours
Emergency Management and Homeland Security Graduate Certificate

Certificate Requirements

Students take two required courses as well as three elective courses approved by their advisor. The emergency management and homeland security concentration/certificate allows students to choose electives organized in the following tracks: policy and management, spatial analysis and quantitative assessment, public safety, homeland security and justice or public and environmental health. Students may choose courses in one track to create a more focused concentration or pick from among the tracks to fulfill their elective course requirements.

- GEOG 5230 - Hazard Mitigation and Vulnerability Assessment  
  *Summer 2010*  
  *Registration: GEOG 5230*

- PUAD 5650 - Disaster and Emergency Management Policies  
  *Summer 2010*  
  *Registration: PUAD 5650*  
  Electives approved by advisor (3) (6-9 semester hours)

Total: 15 Hours

The emergency management and homeland security certificate requires the completion of three electives chosen from a preapproved, multidisciplinary list of courses relevant to emergency management. Students may choose electives in one of three tracks: policy and management; spatial analysis, planning and quantitative assessment; or public safety, homeland security and justice.

Environmental Policy, Management and Law Graduate Certificate

Certificate Requirements

Students take at least two of the three courses listed below:

- PUAD 5631 - Seminar in Environmental Politics and Policy  
  *Summer 2010*  
  *Registration: PUAD 5631*
- **PUAD 5632 - Seminar in Environmental Management** *Summer 2010 Registration: P AD 5632*
- **PUAD 5633 - Seminar in Natural Resource and Environmental Health Law** *Summer 2010 Registration: P AD 5633*

**Total: 15 Hours**

**Local Government Graduate Certificate**

**Certificate Requirements**

Students take at least two of the three courses listed below:

- **PUAD 5625 - Local Government Management** *Summer 2010 Registration: P AD 5625*
- **PUAD 5626 - Local Government Politics and Policy** *Summer 2010 Registration: P AD 5626*
- **PUAD 5628 - Urban Social Problems** *Summer 2010 Registration: P AD 5628*
  
  Electives approved by advisor (3) (6-9 semester hours)

**Total: 15 Hours**

**Nonprofit Management Graduate Certificate**

**Certificate Requirements**

Students take two required courses as well as electives approved by advisor.

- **PUAD 5110 - Seminar in Nonprofit Management** *Summer 2010 Registration: P AD 5110*
- **PUAD 5140 - Nonprofit Financial Management** *Summer 2010 Registration: P AD 5140*
  
  Additional electives (3): **Semester Hours**: 9

**Total: 15 Hours**
Non Degree

Criminal Justice Minor

Program Requirements

A minor in criminal justice requires 18 semester hours of course work including the following:

- **CRJU 1001 - Introduction to Criminal Justice**  
  Summer 2010 Registration: **C J 1001**
- **CRJU 2041 - Crime Theory and Causes**  
  Summer 2010 Registration: **C J 2041**

Total: 6 Hours

At least one of the following

- **CRJU 4042 - Corrections**  
  Summer 2010 Registration: **C J 4042**
- **CRJU 4043 - Law Enforcement**  
  Summer 2010 Registration: **C J 4043**
- **CRJU 4044 - Courts and Judicial Process**  
  Summer 2010 Registration: **C J 4044**

Total: 3-9 Hours

One to three additional elective courses in criminal justice or ancillary fields.

Master of Criminal Justice

Criminal Justice MCJ

- **Graduate School Rules** apply to this program

**Program Director:** Mary Dodge, PhD

**Faculty**

**Professors:**

Mark Pogrebin, PhD, University of Iowa
Eric Poole, PhD, Washington State University
Associate Professors:

Mary Dodge, PhD, University of California, Irvine
Angela Gover, PhD, University of Maryland
Callie Rennison, PhD University of Houston
Paul Stretesky, PhD Florida State University

Assistant Professor:

Deanna Perez, PhD, University of Maryland

Associate Research Professor:

Jerry Williams, DPA, University of Colorado Denver

The master of criminal justice (MCJ) program is designed for students interested in comprehensive professional graduate education in the field of criminal justice. It is intended to develop in the student an in-depth understanding of the fields within criminal justice and of background material from supporting disciplines, which enables the student to adapt to many operational specializations.

As an academic and professional field of study, this program is dedicated to preparing men and women not only to administer the system as it presently exists—but also to evaluate, to analyze and to change—to become pioneers in accelerating the shaping of a rational and responsive criminal justice system.

To deal with this system effectively, research design capability must be developed along with the skills required for the ordering and analysis of empirical data. This course of study prepares the student to be an innovator in crime control and prevention through course work dealing with strategies and skills for promoting individual, organizational and social change.

MPA AND MCJ—General Information

Admission Requirements

1. A baccalaureate degree from a college or university of accredited standing, with a minimum GPA of 3.0. Two sets of official transcripts are required from all higher education institutions attended.
2. Three recommendations from qualified references. Recommendations may be from professors, employers and/or others acquainted with the prospective student's professional and/or academic work.

3. Applicants are required to take the GRE, the GMAT or the LSAT unless they meet the requirements for waiver. Standard graduate admission test scores are normally waived when the candidate already has a graduate degree in another field from an accredited institution. Other applicants may have test scores waived if they have an undergraduate GPA of 3.0 or better and they have significant professional employment in management or policymaking positions for a minimum of 10 years or the equivalent.

4. A current resume highlighting professional accomplishments and community involvement.

5. International students whose first language is not English are required to take the TOEFL or IELTS. A score of 550 or higher on the paper-based exam or 213 or higher on the computer-based exam is required for the MPA or 525/197 for the MCJ.

All application material and test scores should be sent to SPA, University of Colorado Denver, Campus Box 142, P.O. Box 173364, Denver, CO 80217-3364.

SPA will process applications as they come in. Master-level applicants generally receive notification of their admission status three weeks after all materials have been received in the office. The preferred deadlines listed below allow students to receive best consideration for scholarships, financial aid and course selection. Students who do not meet the preferred deadline may still submit application materials until approximately one month before the start of classes and will be considered on a space-available basis.

*Final deadline does not apply to international students who should contact the Office of International Admissions for deadline information.

**Provisional Admission**

Under special circumstances, a student may be admitted on provisional status for one semester. Students admitted on a provisional basis take two courses in their first semester. MPA students may select two of the following: **PUAD 5001**, **5003** or **5004**.
They may take no other courses during that semester. Based on their performance in these courses, a decision will be made concerning their admission into the program.

**Nondegree Admissions**

Students may register as nondegree students while developing their application packet. However, students are discouraged from taking many courses as a nondegree student if they hope to pursue a degree. **Nine semester hours taken in the program as a nondegree student may be applied to the master’s degree programs with approval of an advisor.** Nondegree student application forms are available in the Office of Admissions or online.

**Transfer of Credit to SPA**

Up to 9 semester hours of appropriate graduate work from an accredited college or university may transfer, if such credit was not applied to a completed degree.

**Limitation of Course Load**

The normal course load for a full-time student is 9 semester hours. A student who is employed full time may not carry more than 9 hours unless an excess load has been approved in advance by the faculty advisor.

**Financial Assistance**

Students in the master’s degree programs are eligible for several types of financial assistance. Educational loans require application to the Office of Financial Aid on the Downtown Campus and completion of the FAFSA. A number of students secure internships or other part-time positions with local, state and federal agencies in the Denver metropolitan area. Scholarship assistance is available on a limited basis.

The school receives announcements for fellowships from various government organizations and actively seeks additional funding for student support in the form of internship positions and research assistantships.

Persons interested in applying for financial assistance should inquire in the SPA office. The deadline for current students is March 15 for the fall term. Prospective students seeking scholarship funds should have complete scholarship applications on file at the SPA office by the preferred application deadline for the semester they are requesting funds.

**The Internship Program**
An internship for the MPA and MCJ programs is required for students who have not had significant public, nonprofit or private-sector experience. The purpose of the internship is to continue the linkage between theory and practice that is the philosophical basis of SPA. The internships generally involve part-time work. A maximum of three semester hours will be awarded for internship service. Great care is taken by the SPA to ensure that the internship experience meets the intellectual needs of the student. Placements have included the Governor’s Office, Colorado General Assembly, Denver Mayor’s Office, City of Denver, Denver Police Department, Boulder Crime Lab, Western Governor’s Association, the National Conference of State Legislatures, the Colorado Department of Public Health and Environment and the Denver Center for the Performing Arts.

**Time Limit for Master’s Degree**

Master’s degree students must complete all course work and degree requirements within six years of registration in their first course.

**Degree Requirements**

1. **Graduate Study**

The program leading to the MCJ degree requires a minimum of 36 semester hours of appropriate graduate study with an average of B or better. No grade below C will be accepted for graduate credit. No more than 6 semester hours of independent study can be applied toward the degree.

2. **Core Courses**

The completion of the following core courses is required with a grade of B- or better:

- CRJU 5000 - Law and Social Control  *Summer 2010 Registration: C J 5000*
- CRJU 5100 - Administration of Criminal Justice  *Summer 2010 Registration: C J 5100*
- CRJU 5120 - Nature and Causes of Crime  *Summer 2010 Registration: C J 5120*
- CRJU 5321 - Research Methods  *Summer 2010 Registration: C J 5321*

**Total: 12 Hours**

3. **Course Work**

Students must complete a minimum of 27 semester hours of course work in criminal justice.
4. Criminal Justice Experience

Students who have not had criminal justice experience are required to complete CRJU 6910 (field study). A minimum of 240 hours of supervised work is required to earn 3 hours of credit. All required core courses must be completed before taking CRJU 6910.

5. Advanced Seminar

All MCJ students, except those pursuing the thesis option, must complete the advanced seminar during the last semester of their degree program. All core classes must be completed before taking the advanced seminar. Students admitted before spring 2009 may opt to take a written comprehensive exam in lieu of CRJU 5561.

- CRJU 5561 - Advanced Seminar in Criminal Justice Summer 2010 Registration: C J 5561

Students must receive the approval of both a faculty advisor and the director of the criminal justice program to complete a thesis for 3–6 semester hours in lieu of the advanced seminar.

Elective Courses

The courses listed below may be taken as electives for the MCJ degree:

- CRJU 5200 - Wrongful Convictions Summer 2010 Registration: C J 5200
- CRJU 5210 - Prisoner Reentry Summer 2010 Registration: C J 5210
- CRJU 5220 - The American Jury System Summer 2010 Registration: C J 5220
- CRJU 5250 - Criminal Offenders Summer 2010 Registration: C J 5250
- CRJU 5260 - Crime and Literature Summer 2010 Registration: C J 5260
- CRJU 5325 - Qualitative Methods for Criminal Justice Summer 2010 Registration: C J 5325 or C J 7325
- CRJU 7325 - Qualitative Methods for Criminal Justice Summer 2010 Registration: C J 7325
- CRJU 5410 - Victimology Summer 2010 Registration: C J 5410
- CRJU 5430 - Drugs, Alcohol and Crime Summer 2010 Registration: C J 5430
- CRJU 5510 - Contemporary Issues in Law Enforcement Summer 2010 Registration: C J 5510 or C J 7510
- CRJU 5520 - Corrections Summer 2010 Registration: C J 5520 or C J 7520
- CRJU 5530 - Community Corrections Summer 2010 Registration: C J 5530 or C J 7530
- CRJU 7530 - Seminar: Community Corrections Summer 2010 Registration: C J 7530
• CRJU 5540 - Juvenile Justice Administration Summer 2010 Registration: C J 5540 or
• CRJU 7540 - Seminar: Juvenile Justice Administration Summer 2010 Registration: C J 7540
• CRJU 5552 - Criminal Justice Ethics Summer 2010 Registration: C J 5552 or
• CRJU 7552 - Seminar: Criminal Justice Ethics Summer 2010 Registration: C J 7552
• CRJU 5553 - Women and Crime Summer 2010 Registration: C J 5553 or
• CRJU 7553 - Seminar: Women and Criminal Justice Summer 2010 Registration: C J 7553
• CRJU 5554 - Criminal Justice Reform Summer 2010 Registration: C J 5554 or
• CRJU 7554 - Seminar: Criminal Justice Reform Summer 2010 Registration: C J 7554
• CRJU 5571 - The Social Organization of Crime Summer 2010 Registration: C J 5571 or
• CRJU 7571 - Advanced Seminar: The Social Organization of Crime Summer 2010 Registration: C J 7571
• CRJU 5572 - Race, Crime and Justice Summer 2010 Registration: C J 5572 or
• CRJU 7572 - Advanced Seminar: Race, Crime and Justice Summer 2010 Registration: C J 7572
• CRJU 5574 - White Collar Crime Summer 2010 Registration: C J 5574 or
• CRJU 7574 - Advanced Seminar: White Collar Crime Summer 2010 Registration: C J 7574
• CRJU 5575 - The Mentally Disordered Offender Summer 2010 Registration: C J 5575 or
• CRJU 7575 - Advanced Seminar: The Mentally Disordered Offender Summer 2010 Registration: C J 7575

MCJ Options

Concentration in Domestic Violence

A student may choose to complete a concentration in domestic violence as part of the MCJ degree. The concentration provides an interdisciplinary perspective on crime, the formulation of laws and codes, the criminal legal system and its intersection with women and violence. Students seeking a domestic violence concentration must complete 15 semester hours related to domestic violence, which are completed via intensive workshops that meet periodically throughout a two-year period.

• PUAD 5910 - Women and Violence: A Sociological Perspective Summer 2010 Registration: P AD 5910
• PUAD 5920 - Psychology of Violence Against Women Summer 2010 Registration: P AD 5920
• PUAD 5930 - Battered Women and the Legal System  Summer 2010  
  Registration: P AD 5930  
• PUAD 5940 - Domestic Violence Social Change and Advocacy  Summer 2010  
  Registration: P AD 5940  
  Elective (1) (3 semester hours)  

Total: 15 Hours  

Online Option  

SPA is launching an online option for the master of criminal justice degree in 2010.  

Designed to serve students who are looking for a high-quality education, but who need an alternative to traditional classroom instruction, students may elect to do one or all of their courses online. This option allows students to complete the entire degree at a distance or to choose to come to campus for some courses while using an interactive online format for others. For both in-state and out-of-state online students, tuition is comparable to the rate charged to in-state students for courses that meet in the classroom.

Robert Reichardt, PhD, Pardee RAND Graduate School
Kelly Hupfeld, JD, Northwestern University

**Professors Emeritus:**

John Buechner, PhD, University of Michigan
Dale Neugarten, PhD, University of Southern California
The master of public administration (MPA) is designed to provide graduate professional education for students who wish to prepare themselves for careers in public management or policy, in nonprofit organizations or in private corporations that interface with the other sectors. The program also offers to those already in public service an opportunity to pursue additional education as a means of furthering their careers.

MPA AND MCJ—General Information

Admission Requirements

1. A baccalaureate degree from a college or university of accredited standing, with a minimum GPA of 3.0. Two sets of official transcripts are required from all higher education institutions attended.
2. Three recommendations from qualified references. Recommendations may be from professors, employers and/or others acquainted with the prospective student's professional and/or academic work.
3. Applicants are required to take the GRE, the GMAT or the LSAT unless they meet the requirements for waiver. Standard graduate admission test scores are normally waived when the candidate already has a graduate degree in another field from an accredited institution. Other applicants may have test scores waived if they have an undergraduate GPA of 3.0 or better and they have significant professional employment in management or policymaking positions for a minimum of 10 years or the equivalent.
4. A current resume highlighting professional accomplishments and community involvement.
5. International students whose first language is not English are required to take the TOEFL or IELTS. A score of 550 or higher on the paper-based exam or 213 or higher on the computer-based exam is required for the MPA or 525/197 for the MCJ.

All application material and test scores should be sent to SPA, University of Colorado Denver, Campus Box 142, P.O. Box 173364, Denver, CO 80217-3364.

SPA will process applications as they come in. Master-level applicants generally receive notification of their admission status three weeks after all materials have been received in the office. The preferred deadlines listed below allow students to receive best consideration for scholarships, financial aid and course selection. Students who do not meet the preferred deadline may still submit application materials until approximately one month before the start of classes and will be considered on a space-available basis.

*Final deadline does not apply to international students who should contact the Office of International Admissions for deadline information.

**Provisional Admission**

Under special circumstances, a student may be admitted on provisional status for one semester. Students admitted on a provisional basis take two courses in their first semester. MPA students may select two of the following: PUAD 5001, 5003 or 5004. They may take no other courses during that semester. Based on their performance in these courses, a decision will be made concerning their admission into the program.

**Nondegree Admissions**

Students may register as nondegree students while developing their application packet. However, students are discouraged from taking many courses as a nondegree student if they hope to pursue a degree. **Nine semester hours taken in the program as a nondegree student may be applied to the master’s degree programs with approval of an advisor.** Nondegree student application forms are available in the Office of Admissions or online.

**Transfer of Credit to SPA**

Up to 9 semester hours of appropriate graduate work from an accredited college or university may transfer, if such credit was not applied to a completed degree.

**Limitation of Course Load**

The normal course load for a full-time student is 9 semester hours. A student who is employed full time may not carry more than 9 hours unless an excess load has been approved in advance by the faculty advisor.

**Financial Assistance**

Students in the master’s degree programs are eligible for several types of financial assistance. Educational loans require application to the Office of Financial Aid on the Downtown Campus and completion of the FAFSA. A number of students secure internships or other part-time positions with local, state and federal agencies in the Denver metropolitan area. Scholarship assistance is available on a limited basis.
The school receives announcements for fellowships from various government organizations and actively seeks additional funding for student support in the form of internship positions and research assistantships.

Persons interested in applying for financial assistance should inquire in the SPA office. The deadline for current students is March 15 for the fall term. Prospective students seeking scholarship funds should have complete scholarship applications on file at the SPA office by the preferred application deadline for the semester they are requesting funds.

The Internship Program

An internship for the MPA and MCJ programs is required for students who have not had significant public, nonprofit or private-sector experience. The purpose of the internship is to continue the linkage between theory and practice that is the philosophical basis of SPA. The internships generally involve part-time work. A maximum of three semester hours will be awarded for internship service. Great care is taken by the SPA to ensure that the internship experience meets the intellectual needs of the student. Placements have included the Governor’s Office, Colorado General Assembly, Denver Mayor’s Office, City of Denver, Denver Police Department, Boulder Crime Lab, Western Governor’s Association, the National Conference of State Legislatures, the Colorado Department of Public Health and Environment and the Denver Center for the Performing Arts.

Time Limit for Master’s Degree

Master’s degree students must complete all course work and degree requirements within six years of registration in their first course.

Degree Requirements

The minimum requirements for the basic MPA degree are outlined below. Occasionally, changes are made; students may graduate under the requirements that were in effect when they were admitted.

1. Graduate Course Work

All students must complete a minimum of 36 semester hours of graduate course work, with an average of B or better. No more than 6 semester hours of independent study can be applied toward the degree. Students who have not had professional work experience in the public or nonprofit sectors must complete an internship through an additional 3-
semester-hour course described in No. 6 below, bringing their total semester-hour requirements to 39.

2. Complete the Following Core Courses

All MPA students (with the exception of those in the executive MPA option) must complete the following core courses or approved equivalents:

- **PUAD 5001 - Introduction to Public Administration and Public Service** *Summer 2010 Registration: PAD 5001*
- **PUAD 5002 - Organizational Management and Change** *Summer 2010 Registration: PAD 5002*
- **PUAD 5003 - Research and Analytic Methods** *Summer 2010 Registration: PAD 5003*
- **PUAD 5004 - Economics and Public Finance** *Summer 2010 Registration: PAD 5004*
- **PUAD 5005 - The Policy Process and Democracy** *Summer 2010 Registration: PAD 5005*
- **PUAD 5006 - Leadership and Professional Ethics** *Summer 2010 Registration: PAD 5006*

**Total: 18 Hours**

Students must receive a grade of *B-* or better in each core course. Students who earn a lower grade may repeat the course once to attempt to earn a *B-* or better.

3. Electives

All MPA students must complete 15 hours of electives. Courses in which a student earns a grade of less than a *C* will not be counted toward a degree.

4. Advanced Seminar Class

All MPA students, except those pursuing the thesis option, must complete the advanced seminar class during the last semester of their degree program. All core courses must be completed before beginning the advanced seminar.

- **PUAD 5361 - Advanced Seminar in Public Policy and Management** *Summer 2010 Registration: PAD 5361*

5. Thesis Option

The thesis option is available in lieu of PAD 5361 for MPA students who have an interest in pursuing a topic in-depth or who are planning to pursue a career in research or
Students must receive approval from their faculty advisor or the MPA director to pursue the thesis option. The thesis is a six credit course that normally spans two semesters.

6. Internships

Students who have limited experience (generally defined as less than one year of experience) in public, nonprofit or relevant private-sector service must enroll in P AD 6910, Field Study in Public Administration. The decision to require P AD 6910 for a particular student is made by the faculty admissions committee or the student’s faculty advisor upon the student’s acceptance to the MPA program. A minimum of 300 hours of supervised work and study is required to earn 3 semester hours of credit. This requirement raises the total semester hours needed to earn the MPA degree to 39.

MPA Options

Concentrations and Graduate Certificates

All SPA concentrations are a total of 15 semester hours and may either be taken as part of the MPA program or as a stand-alone graduate certificate.

A student may choose to select one of the concentrations described below or may complete the MPA without a specified concentration. Students completing a concentration take their electives in the area of their concentration, complete the advanced seminar project in the area of their concentration and are advised by faculty from the concentration. The concentrations and their particular required courses are:

Environmental Policy, Management and Law Concentration

Students take at least two of the three courses listed below:

- PUAD 5631 - Seminar in Environmental Politics and Policy Summer 2010
  Registration: P AD 5631
- PUAD 5632 - Seminar in Environmental Management Summer 2010
  Registration: P AD 5632
- PUAD 5633 - Seminar in Natural Resource and Environmental Health Law Summer 2010
  Registration: P AD 5633
  Electives approved by advisor (3) (6-9 semester hours)

Total: 15 Hours

Local Government Concentration
Students take at least two of the three courses listed below:

- **PUAD 5625** - Local Government Management  *Summer 2010 Registration: P AD 5625*
- **PUAD 5626** - Local Government Politics and Policy  *Summer 2010 Registration: P AD 5626*
- **PUAD 5628** - Urban Social Problems  *Summer 2010 Registration: P AD 5628*

Electives approved by advisor (3) (6-9 semester hours)

**Total: 15 Hours**

**Domestic Violence Concentration**

Students take four specified courses and one elective.

- **PUAD 5110** - Seminar in Nonprofit Management  *Summer 2010 Registration: P AD 5110*
- **PUAD 5910** - Women and Violence: A Sociological Perspective  *Summer 2010 Registration: P AD 5910*
- **PUAD 5920** - Psychology of Violence Against Women  *Summer 2010 Registration: P AD 5920*
- **PUAD 5930** - Battered Women and the Legal System  *Summer 2010 Registration: P AD 5930*

Elective approved by advisor (1) (3 semester hours)

**Total: 15 Hours**

**Emergency Management and Homeland Security Concentration**

Students take two required courses as well as electives approved by advisor.

- **GEOG 5230** - Hazard Mitigation and Vulnerability Assessment  *Summer 2010 Registration: GEOG 5230*
- **PUAD 5650** - Disaster and Emergency Management Policies  *Summer 2010 Registration: P AD 5650*

Electives approved by advisor (3) (6-9 semester hours)

**Total: 15 Hours**

The emergency management and homeland security concentration requires the completion of three electives chosen from a preapproved, multidisciplinary list of courses relevant to emergency management. Students may choose electives in one of three
tracks: policy and management; spatial analysis, planning and quantitative assessment; or public safety, homeland security and justice.

Nonprofit Organizations Concentration

Students take two required courses as well as nonprofit electives approved by advisor.

- PUAD 5110 - Seminar in Nonprofit Management  
  Summer 2010 Registration: P AD 5110
- PUAD 5140 - Nonprofit Financial Management  
  Summer 2010 Registration: P AD 5140
  Other nonprofit courses (9 semester hours)

Total: 15 Hours

The Accelerated Cohort

The accelerated MPA is a fast-paced, full-time option that brings academically superior students together with a dedicated research and teaching faculty in the midst of the vibrant downtown Denver environment.

The accelerated option enables students to focus their energies in a concentrated program of study and earn a nationally accredited, 36-hour MPA in 12 months. (It is preferred that applicants have some knowledge of economics, statistics and political science.)

The cost for the accelerated option is the same for both in-state and out-of-state students, providing out-of-state students with substantial savings.

The students in the cohort enjoy a unique experience as they go through all classes in the MPA together, fostering a community of scholar-practitioners.

Students are admitted to the program in cohorts of approximately 20 participants. A new cohort starts each fall. The cohort format helps to increase the opportunity to become acquainted with other graduate students and increases the opportunities for interaction between program participants and faculty.

The Executive Option

The School of Public Affairs and the management development centers of the federal Office of Personnel Management have formed a partnership to offer an innovative course of study for selected senior level professionals in the public and nonprofit sectors.
The executive MPA option provides students with an opportunity to earn a master’s degree targeted at improving their leadership competencies, while also offering significant flexibility in customizing coursework to fit students’ individual needs and career objectives. In addition, the course formats—online courses and weekend or week-long intensive meetings—enable students to fit their study into the framework of busy lives.

The executive MPA option is intended to serve high-level managers and policy experts from public agencies—federal, state and local—as well as those from the nonprofit sector.

**Program Design**

The executive MPA option requires 30 semester hours of credit plus two required seminars at one of the management development centers of the federal Office of Personnel Management. One is in Aurora, Colorado; the other is outside Washington, D.C. The first required seminar is an assessment seminar. Students explore their own managerial and leadership styles, their personality types and their levels of competence in a variety of executive skills. A group of highly-skilled trainers and psychologists administers and interprets test results, and participants use this self-knowledge to plan their MPA degree.

Near the end of the program, students also participate in one of the management development centers’ core leadership seminars. These seminars focus on developing competencies identified by the federal government as necessary for its highest-level managers, the senior executive service. The required Western Management Development Center courses should total six semester hours of graduate credit. More information is available online at [www.leadership.opm.gov](http://www.leadership.opm.gov) or by e-mail from WMDC Program Manager Bruce Kirschner at bhkirsch@opm.gov.

Executive students must take PUAD 5001, Introduction to Public Administration and Public Service, as one of their first courses. They then must select a minimum of three of the core courses listed below. Their advisor will assist in this selection. They must be able to demonstrate that they have gained competencies in the core courses they do not take through job experience and/or past course work.

Three of five are required:

- **PUAD 5002 - Organizational Management and Change** *Summer 2010 Registration: P AD 5002*
- **PUAD 5003 - Research and Analytic Methods** *Summer 2010 Registration: P AD 5003*
- **PUAD 5004 - Economics and Public Finance** *Summer 2010 Registration: P AD 5004*
- **PUAD 5005** - The Policy Process and Democracy  *Summer 2010 Registration: P AD 5005*
- **PUAD 5006** - Leadership and Professional Ethics  *Summer 2010 Registration: P AD 5006*

**Total: 9 Hours**

These courses may be taken at one of SPA’s sites in Denver, Colorado Springs or Grand Junction, or, for students who live outside of Colorado, online.

Students also take five elective courses (15 semester hours), which may be selected either from the offerings at the management development centers or from SPA. Both partners provide a wide variety of courses. At least 18 semester hours must be SPA course work.

At or very near the end of their program, students participate in PUAD 5361, Advanced Seminar. In this course, students engage in a self-designed professional project that integrates their new skills and knowledge. In addition, they reassess their professional competencies, charting the progress they have made during the program and designing a plan for future developmental experiences.

**Online Option**

SPA provides a unique opportunity for students who live at a distance from the university to obtain a MPA degree.

Designed to serve students who are looking for a high-quality education, but who need an alternative to traditional classroom instruction, students may elect to do one or all of their courses online. This option allows students to complete the entire degree at a distance or to choose to come to campus for some courses while using an interactive online format for others. For both in-state and out-of-state online students, tuition is comparable to the rate charged to in-state students for courses that meet in the classroom. The nonprofit organization concentration is available online, as well as a variety of other electives leading to a general MPA degree. Students in the executive option may also choose to do all SPA course work online.

**Domestic Violence Cohort**

The first graduate program of its kind in the nation, the University of Colorado Denver’s MPA concentration in domestic violence focuses on the management and policies surrounding domestic violence, as well as grass-roots social justice work and best practices in this emerging field. Each fall, 10 to 20 students are accepted into the cohort program, allowing the participants to build a strong community of advocates and learners.
The program invites students from around the world to participate in a unique cohort program, which combines online courses with five intensive campus seminars spaced throughout the two-year program. Students may choose to take all courses in the classroom if they wish.

The cost of the domestic violence concentration courses is the same for in-state and out-of-state students. Nonresident students pursuing the MPA with a concentration in domestic violence may also qualify for reduced tuition through the Western Regional Graduate Program which covers 14 western states.

Western Slope Cohort

Public and nonprofit sector professionals living in Colorado's Western Slope have the opportunity to earn a MPA without traveling to the Front Range. SPA offers one MPA course each semester in Grand Junction at Mesa State College and supplements these offerings with online courses. Courses are designed to integrate the academic and applied experiences necessary to be an effective modern manager. The courses are offered in an intensive weekend format and emphasize the needs of small and rural communities.

Master of Public Administration/Dual Degree

Public Administration MPA/JD

The School of Public Affairs and the University of Colorado at Boulder School of Law jointly sponsor a dual degree program leading to the simultaneous granting of the master of public administration (MPA) and juris doctor (JD) degrees. The program may be of particular interest to students who wish to practice law within the public sector, obtain a senior administrative post, represent public-sector clients, represent private-sector clients in transactions with government agencies and institutions and/or develop scholarly expertise in the relationship between law and public administration.

Interested persons must separately apply to and be admitted by both SPA and the School of Law. Upon admission, students may begin full-time study at either SPA or the School of Law; however, law study must be initiated no later than the beginning of the second year of enrollment in the program, and the first year of law study must be taken in its entirety and exclusive of nonlaw course work.

Through the choice of electives, students may develop a limited substantive specialization within the study of law and public administration. The dual degree program is structured to allow for 12 semester hours from the law school to be accepted as electives in the 36-semester-hour MPA program, and 12 semester hours from SPA to be accepted into the law school’s 89-semester-hour JD program. Students are thus simultaneously awarded both degrees with a cumulative total of 101 semester hours; the
program therefore allows students to complete all dual degree requirements in approximately four years of full-time study. Students without prior public-sector work experience will be required to complete an internship in an appropriate governmental institution or closely related nonprofit organization.

**Public Administration/Economics**

**MPA/MA**

The fields of public administration and economics are inextricably linked. Economists provide much of the theory and analytic foundation that administrators use to evaluate and implement policy. Given that the capitol of Colorado is in Denver, there is great need for administrators that fully understand methods of program evaluation and have the theoretical background needed to forecast how individuals and institutions will respond to new proposals. Similarly, good theory and practice must take into account how the proposals will be implemented and results interpreted. Both administrators and economists need to be engaged in constructive dialogue for either to be fully effective.

Therefore the Department of Economics of the College of Liberal Arts and Sciences and the School of Public Affairs jointly sponsor a dual degree program. This program enables students to simultaneously earn an MA degree in economics with a master of public administration (MPA).

The dual degree program provides students to opportunity to take the core of both programs and choose electives that suit their career and personal goals best. Electives in one program are allowed to count as an elective in the other. The net result is that while both degrees separately require 66 hours, the dual degree program provides a more comprehensive and effective education in 48 hours or 73 percent of the dual degree total.

**Degree Requirements**

**Admission into both programs**

Students must apply separately to each program, meet the admission requirements of each program and be accepted by each program. If one program accepts a student for the dual degree but the other program does not, then the student will not be accepted for the dual degree. It is possible for students currently admitted to one program to learn about the dual degree and choose to apply after admission to either economics or SPA.

**Other policies**

**Minimum Grade for Graduation**
Students must maintain a GPA of 3.0 or higher across all courses that are applied to the dual degree. Students who fail to maintain a GPA of 3.00 will be placed on probation for a semester, after which they may be dropped from the dual degree program if the GPA is not increased to 3.0 or above. Additionally, any core course in which a student receives a final grade lower than B- cannot be counted toward the total credits required for the dual degree; in such a case, the student must retake the course.

Capstone Advising

All students are required to complete a capstone paper and obtain the signatures of three graduate faculty. Every dual degree student, regardless of the capstone course they choose (ECON 6073 or PUAD 5361) must select a committee composed of faculty from both programs.

Course Credit Transfers from Other Universities

No more than 6 hours may be transferred, and both SPA and economics program directors must approve any transfers.

Sample Plan of Study for the MPA/MA Economics

Total: 48 semester hours with 21 in economics and 27 in public administration

Core

(33 semester hours)

A grade of B- or better is required in all core courses, with a B average overall. No public administration course may be taken a third time.

- ECON 5073 - Microeconomic Theory  Summer 2010 Registration: ECON 5073
- ECON 5083 - Macroeconomic Theory  Summer 2010 Registration: ECON 5083
- ECON 5803 - Mathematical Economics  Summer 2010 Registration: ECON 5803
- ECON 5813 - Econometrics I  Summer 2010 Registration: ECON 5813
- ECON 5823 - Econometrics II  Summer 2010 Registration: ECON 5823
- PUAD 5001 - Introduction to Public Administration and Public Service  Summer 2010 Registration: P AD 5001
- PUAD 5002 - Organizational Management and Change  Summer 2010 Registration: P AD 5002
- PUAD 5003 - Research and Analytic Methods  Summer 2010 Registration: P AD 5003

or

- PUAD 5004 - Economics and Public Finance  Summer 2010 Registration: P AD 5004
- **PUAD 5005** - The Policy Process and Democracy  *Summer 2010 Registration: P AD 5005*
- **PUAD 5006** - Leadership and Professional Ethics  *Summer 2010 Registration: P AD 5006*
- **ECON 6073** - Research Seminar  *Summer 2010 Registration: ECON 6073*
  or
- **PUAD 5361** - Advanced Seminar in Public Policy and Management  *Summer 2010 Registration: P AD 5361*
  To be completed after all other core courses or with instructor and advisor consent.

**Electives**

(15 semester hours)

If the student takes PUAD 5361, then they are required to take 6 semester hours of economics electives and 9 semester hours of electives from SPA labeled 5000 or above.

If the student takes ECON 6073, then they are required to take 3 semester hours of economics electives and 12 semester hours of electives from SPA labeled 5000 or above.

**Public Affairs/Urban and Regional Planning MPA/MURP**

**Background and Purpose**

Public administration and urban and regional planning have many aspects in common. To provide students with an excellent education through understanding of both professions, the School of Public Affairs and the College of Architecture and Planning have developed a dual degree program. Students can obtain both master of public administration (MPA) and master of urban and regional planning (MURP) degrees with a minimum of 63 semester hours, as compared to a total of 87 semester hours to complete both degrees independently.

To be eligible for the dual MPA/MURP degree program, students must be admitted to each of the two schools under their respective admission procedures and standards and indicate an intention to pursue the dual degree. Students will take all the core courses and the advanced seminar in public policy and management required for an MPA, plus the core and concentration requirements necessary for the MURP.
Students in each school must apply to the other school before completing 18 hours in their respective programs. Upon admission to both schools, students will be assigned an advisor in each school to work out a specific degree plan.

**Core and Elective Requirements**

**Core Courses (42 semester hours)**

**MURP**

- URPL 5501 - Planning Issues and Processes  *Summer 2010 Registration: URP 5501*
- URPL 5511 - Planning Methods II  *Summer 2010 Registration: URP 5511*
- URPL 5520 - Urban Spatial Analysis  *Summer 2010 Registration: URP 5520*
- URPL 5530 - Planning Law  *Summer 2010 Registration: URP 5530*
- URPL 6630 - Planning Studio I  *Summer 2010 Registration: URP 6630*
- URPL 6631 - Planning Studio II  *Summer 2010 Registration: URP 6631*

Total: 18 Hours

**MPA**

- PUAD 5001 - Introduction to Public Administration and Public Service  *Summer 2010 Registration: P AD 5001*
- PUAD 5002 - Organizational Management and Change  *Summer 2010 Registration: P AD 5002*
- PUAD 5004 - Economics and Public Finance  *Summer 2010 Registration: P AD 5004*
- PUAD 5005 - The Policy Process and Democracy  *Summer 2010 Registration: P AD 5005*
- PUAD 5006 - Leadership and Professional Ethics  *Summer 2010 Registration: P AD 5006*

Total: 15 Hours

**Take one of two**

- PUAD 5003 - Research and Analytic Methods  *Summer 2010 Registration: P AD 5003*
- URPL 5510 - Planning Methods I  *Summer 2010 Registration: URP 5510*

Total: 3 Hours
Additional Course Work (21 semester hours)

MURP

12 hours if URPL 5510 elected, or 15 hours if PUAD 5003 elected. Courses are to be selected with MURP advisor’s approval.

- URPL 5510 - Planning Methods I  
  *Summer 2010 Registration: URP 5510*
- PUAD 5003 - Research and Analytic Methods  
  *Summer 2010 Registration: P AD 5003*

Total: 12-15 Hours

MPA

6 hours if PUAD 5003 elected, or 9 hours if URPL 5510 elected.

- PUAD 5003 - Research and Analytic Methods  
  *Summer 2010 Registration: P AD 5003*
- URPL 5510 - Planning Methods I  
  *Summer 2010 Registration: URP 5510*

Total: 6-9 Hours

Practicum

- PUAD 5361 - Advanced Seminar in Public Policy and Management  
  *Summer 2010 Registration: P AD 5361 (3 hours required)*

Total: 3 Hours (required)

Electives

Take one of the following or another option with MPA advisor’s approval (3 hours):

- PUAD 5250 - Intergovernmental Management  
  *Summer 2010 Registration: P AD 5250*
- PUAD 5410 - Administrative Law  
  *Summer 2010 Registration: P AD 5410*
- PUAD 5440 - Negotiation and Conflict Resolution  
  *Summer 2010 Registration: P AD 5440*
- PUAD 5502 - Public Financial Management and Policy  
  *Summer 2010 Registration: P AD 5502*
- PUAD 5503 - Governmental Budgeting  
  *Summer 2010 Registration: P AD 5503*
- PUAD 5540 - Organization Development  
  *Summer 2010 Registration: P AD 5540*
• PUAD 5625 - Local Government Management  Summer 2010 Registration:  P AD 5625
• PUAD 5626 - Local Government Politics and Policy  Summer 2010 Registration:  P AD 5626
• PUAD 5631 - Seminar in Environmental Politics and Policy  Summer 2010 Registration:  P AD 5631
• PUAD 5632 - Seminar in Environmental Management  Summer 2010 Registration:  P AD 5632

Total: 3 Hours

Doctor of Philosophy

Public Affairs PhD

▸ Graduate School Rules apply to this program

Program Director: Peter deLeon, PhD

Faculty

Professors:
Kathleen Beatty, PhD, Washington State University
Lloyd Burton, PhD, University of California, Berkley
Peter deLeon, PhD, Pardee RAND Graduate School
Robert Gage, PhD, Indiana University
Mary Guy, PhD, University of South Carolina
Richard Stillman, PhD, Syracuse University
Paul Teske, PhD, Princeton University

Associate Professors:
Linda deLeon, PhD, University of California, Los Angeles
Angela Gover, PhD, University of Maryland
Jody Fitzpatrick, PhD, University of Texas, Austin
Allan Wallis, PhD, City University Graduate Center
Christine Martell, PhD, Indiana University

Assistant Professors:
George Busenberg, PhD, University of North Carolina at Chapel Hill
The School of Public Affairs offers a program of advanced graduate study leading to the doctor of philosophy in public affairs. The program, based on the Downtown Campus, permits elective work to be taken on any campus of the university if it is part of the approved program of study or degree plan.

The doctoral program was developed to meet the need for people with mastery in the scholarly theory, concepts and research skills of public administration, public policy and public management, and who are able to use such skills in careers of research, teaching and analysis of public-sector challenges. The PhD is designed to prepare students for leadership responsibilities in academia, research and public policy analysis. Accordingly,
the PhD stresses the development of theoretical, conceptual and methodological
knowledge in public administration, policy and management.

Participants

The doctoral program is primarily designed to serve (1) people who desire to further the
field of public policy and public and nonprofit management through teaching and research; (2) scholar-practitioners working in government, private-sector organizations concerned with government and nonprofit organizations; and (3) policy analysts in government, private-sector organizations concerned with government and nonprofit organizations.

Time Required for PhD Degree

The PhD program requires an intense commitment. Most courses and seminars are
offered during the late afternoon, in the evenings or on an intensive basis. (Some electives are offered online, but core courses are not.) Anyone starting the PhD program with a master’s degree in public administration can expect to take at least three but no more than eight years to complete all of the requirements for the PhD.

Students are required to enroll for a minimum of 6 semester hours of course work each fall and spring semester. All requirements for the PhD degree should be completed within eight years of admittance. Any student entering the program with no prior graduate work in public administration, public policy or management should expect additional course requirements.

PhD Admission Requirements

Admission to the program is based on the personal and professional qualifications of the applicant. It is desirable that an applicant have a master’s degree in public administration or a closely related field before undertaking doctoral work. Applicants should have a 3.5 GPA or above in master-level course work, as well as a combined score of 1,000 or better on the quantitative and verbal sections of the GRE. Successful applicants will also show the potential for productive careers of scholarship, research and analysis.

Meeting the minimum thresholds listed above does not assure admission. In unusual cases, students who fail to meet the thresholds may be admitted if high academic skills are demonstrated in other ways.

PhD Application Process
Applicants must submit the following items to the SPA office before they can be formally considered for admission. The application deadline is February 1; admitted students will begin in the fall semester.

- application forms
- official transcripts (two copies) from all degree granting institutions
- GRE scores (no more than three years old)
- a resume or vita
- three letters of recommendation from colleagues and previous professors, focusing on the potential for deriving benefit from the PhD program
- a 500–1,000 word statement of educational and career goals, focusing on research interests

In addition, students may also submit samples of research reports or publications. All application materials will be retained by SPA and will not be returned. A personal meeting with the PhD director or other faculty member is recommended.

Financial Assistance

For excellent candidates, SPA will fund a small number of doctoral research assistantships each year based on financial availability. Students selected will receive a full-tuition waiver as well as a stipend of $15,000 for the academic year. Our goal is to provide such funding for students for at least three years.

Degree Requirements

Course Work

A total of 36 semester hours of course work is required past a master's degree in public administration or a related degree. In some cases, additional prerequisite courses may be required to assure adequate preparation for doctoral studies. All PhD students are required to take a minimum of 6 semester hours of course work in both the fall and spring semesters, until their course work requirements are met, if they wish to maintain their full-time student status.

During their first year of study, all PhD students are required to take the following four doctoral seminars:

- **PUAD 8010** - Historical and Comparative Foundations of Public Administration
  
  *Summer 2010 Registration: P AD 8010*

- **PUAD 8020** - Seminar in Public Management
  
  *Summer 2010 Registration: P AD 8020*
- PUAD 8030 - Seminar in Public Policy  
  Summer 2010 Registration: P AD 8030
- PUAD 8040 - Critical Issues in Public Affairs  
  Summer 2010 Registration: P AD 8040

Total: 12 Hours

During the next year, doctoral students are required to take

- PUAD 8040 - Critical Issues in Public Affairs  
  Summer 2010 Registration: P AD 8040
- PUAD 8070 - Advanced Seminar in Research Methods  
  Summer 2010 Registration: P AD 8070
- PUAD 8060 - Seminar on Conduct of Empirical Inquiry  
  Summer 2010 Registration: P AD 8060

Total: 6 Hours

Prerequisites for PUAD 8070 include PUAD 7330, Intermediate Statistical Analysis, PUAD 8010, 8020, 8030, 8040 and 8060. These prerequisites may be waived with the permission of the doctoral director.

In addition, all PhD students must complete a second methodology course (as well as four elective courses) relevant to the student’s dissertation plans.

Comprehensive Exam and Dissertation

In addition to course work, PhD students must pass a comprehensive exam no later than the beginning of their third year of study. Students are also required to complete and defend, before a faculty committee, a dissertation that makes a significant contribution to the literature and theory of public administration, management or policy.

Students are advanced to candidacy for the PhD once they have completed all required course work and examinations, have successfully presented their research colloquium and have been certified for candidacy by his/her doctoral committee. After students are formally advanced to candidacy, they must register for a total of 30 hours of dissertation research credit to complete the PhD. Each fall and spring semester, students are expected to register for 5 semester hours of dissertation research; if unable to register for at least 5 semester hours, students must request a leave of absence from the PhD program until able to complete the minimum dissertation requirement. Students may take up to two semesters’ leave of absence before they are disenrolled from the program. Students then would need to reapply to the program.
Further details on the program can be found in the *Handbook for the Doctor of Philosophy in Public Affairs Program*, available from the SPA office online at [http://spa.ucdenver.edu](http://spa.ucdenver.edu).

**Bachelor of Arts/Master of Criminal Justice**

**Criminal Justice BA/MCJ**

The dual BA/MCJ program is designed to allow students to work concurrently toward the BA in criminal justice and the master in criminal justice (MCJ). Graduate credit hours earned while enrolled in the BA/MCJ program can be counted toward both the bachelor of arts and master of criminal justice. This program offers high-achieving students the opportunity to complete their undergraduate and graduate degrees in criminal justice in five years.

**Admissions Requirements and Process**

Interested students should contact their BA academic advisor as early as possible to ensure proper planning for the five year degree.

**Eligibility Requirements**

Both current UC Denver students and new transfer students are eligible to apply after meeting the following:

- Currently enrolled in the School of Public Affairs as a criminal justice major
- Completed the University of Colorado Denver’s core curriculum
- Completed 60 semester credit hours
- Completed the following 12 semester credit hours in criminal justice: **CRJU 1001 Introduction to Criminal Justice**, **CRJU 2041 Crime Theory and Causes**, **CRJU 3100 Criminal Justice Research Methods**, and **CRJU 3150 Statistics for Criminal Justice** (transfer criminal justice courses must have been approved and accepted toward the major).
- Minimum 3.0 cumulative GPA
- Minimum 3.5 cumulative GPA in criminal justice courses
- Completed or Scheduled official GRE or LSAT exam

**Application Process**

Students can apply for the joint program anytime from their second year forward, but students will most likely apply during the second semester of their junior year. We require students submit all application materials by Oct. 15 for admission to the spring
semester and by March 15 for admission to the fall semester for full consideration. The following steps should help in the application process:

1. Plan ahead when scheduling courses through the junior year. All four of the required criminal justice courses and all of the student's core education requirements must be completed by the end of the student's junior year.

2. At the beginning of the semester in which the student is applying to the program, the student should approach a criminal justice faculty member about writing a letter of recommendation. The student should also begin working on a personal statement of purpose. The following guidelines should help with writing the statement.
   - Length 1 to 2 pages
   - The statement should describe:
     - Applicant's reasons for undertaking graduate study in criminal justice
     - Applicant's future career plans
     - Planned area of concentration within criminal justice

3. By Oct 15 of the fall semester or March 15 of the spring semester the student must submit the following items to the undergraduate coordinator:
   - Personal statement of purpose
   - One letter of recommendation from a faculty member
   - School of Public Affairs’ BA/MCJ application form
   - Official GRE or LSAT scores

**Admission Criteria**

Admission to the BA/MCJ program is competitive. Applicants will be evaluated on the following:

1. Grade point average (overall and in criminal justice course work)
2. Grade trend (improving, consistent, or declining)
3. Total number of credit hours completed
4. Likelihood of success and persistence based from the Statement of Intent and Reference Letter
5. Official GRE or LSAT scores

Students who are not admitted to the BA/MCJ program are eligible to reapply after completing an additional 12 semester credit hours. Students can apply and be considered for admission to the dual BACJ/MCJ program a maximum of two times.

**BA/MCJ Program Matriculation**

Students must successfully complete (B, or better) a minimum of 6 semester credit hours of graduate criminal justice course work each academic year following admission.
to the BA/MCJ program. A maximum of 15 graduate semester credits can be completed as a BA/MCJ student, for dual credit.

Students must maintain a minimum 3.0 cumulative grade point average for all course work and a 3.0 grade point average for courses in criminal justice.

The School of Public Affairs reserves the right to rescind a BA/MCJ student’s admittance to the dual program if at any point the students’ grade point average falls below the requirements listed above.

Tuition and Fees

Students will be assessed tuition and fees at the undergraduate rate until the bachelor of arts in criminal justice degree is conferred.

Students will assess tuition and fees at the graduate level upon formal acceptance to the master of criminal justice program.

Program Requirements

General BA/MCJ Degree Program Requirements

- 144 total semester credit hours passed
- 34-36 semester credit hours in UC Denver general education core curriculum
- 46-48 semester credit hours in general electives
- 21 semester hours of undergraduate criminal justice course work
- 18 upper-level (3000 or higher) semester credit hours in criminal justice
- 45 total semester hours of upper-division course work (3000 and above)
- Minimum 3.0 CU cumulative grade point average in undergraduate criminal justice courses
- Full acceptance to the Graduate School and the master in criminal justice program
- Minimum 36 semester hours of graduate-level course work (5000 and above)
- Minimum of 30 hours of resident credit; 21 out of the last 30 hours in resident course work
- Minimum of a B (3.0) in each required core MCJ course
- Minimum of 3.0 CU cumulative grade point average in all graduate level courses
- Successful completion of master of criminal justice capstone/advanced seminar or thesis
- Fulfillment of all college and major requirements

Degree Confirmation

Students are eligible to receive the BA in criminal justice degree once they have successfully completed 120 semester hours and all UC Denver undergraduate degree
requirements. The MCJ will be conferred once the student has completed all requirements of the master of criminal justice degree.

Programs

Undergraduate Areas of Study

Accounting Emphasis BS in Business Administration

Program Director: Michael Roberts
Telephone: 303-556-5884
E-mail: Michael.Roberts@ucdenver.edu

Accounting courses are offered in several fields of professional accountancy at the intermediate, advanced and graduate levels. They provide preparation for practice in one or more of the following fields:

- Auditing
- Financial Accounting
- Financial Management
- Management Control Systems
- Managerial Accounting
- Tax Accounting
- Teaching and Research

In all of these fields a thorough knowledge of the social, legal, economic and political environment is needed. A high degree of analytical ability and communication skill is indispensable. A grade of C must be earned in all accounting courses to qualify for graduation.

Courses in English composition, speech, ethics and logic are desirable. Courses in statistics and information systems, beyond the required business core courses, are highly recommended.

Required Courses

- ACCT 3054 - Accounting Systems and Data Processing
  
  Summer 2010 Registration ACCT 3054
  
  The design and analysis of accounting information systems, with special emphasis on computers and computer programming, and the role of accounting in the role of accounting in the management process. Must earn a grade of 'C' or
better to qualify for graduation. Prereq: Completion of ACCT 2220 and ISMG 2050 with a grade of 'C' or better. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ACCT 3220 - Intermediate Financial Accounting I**
  *Summer 2010 Registration ACCT 3220*
  An intensive analysis of generally accepted accounting principles, accounting theory and preparation of annual financial statements for public corporations. Must complete course with a 'C' to qualify in graduation requirements. Prereq: Completion of ACCT 2220 with a grade of 'C' or better. Strictly enforced. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ACCT 3230 - Intermediate Financial Accounting II**
  *Summer 2010 Registration ACCT 3230*
  Selected topics not covered in ACCT 3220. Must complete course with a grade of 'C' to qualify in graduation requirements. Prereq: ACCT 3220, completed with a grade of a 'C' or better. Strictly enforced. **Semester Hours:** 3to 3 **When Offered:** FALL SPR
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ACCT 3320 - Intermediate Cost Accounting**
  *Summer 2010 Registration ACCT 3320*
  Cost analysis for purposes of control and decision making. Analysis of cost behavior, role of accounting in planning and control, and managerial uses of cost accounting data. Includes use of computer assisted decision models. Must receive a 'C' grade to qualify in graduation requirements. Prereq: ACCT 2220, and DSCI 2010 completed with a grade of 'C' or better. Strictly enforced. **Semester Hours:** 3to 3 **When Offered:** FASPRSUM
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ACCT 4410 - Income Tax Accounting**
  *Summer 2010 Registration ACCT 4410*
  Provisions and procedures of federal income tax laws and requirements affecting individuals and business organizations, including problems of tax planning and compliance. Note: Students cannot receive credit for both ACCT 4410 and ACCT 6140. Prereq: ACCT 3230 completed with a grade of "C" or better. Strictly enforced. Cross-listed with ACCT 6140. **Semester Hours:** 3to 3 **When Offered:** FALL SPR
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ACCT 4620 - Auditing**
  *Summer 2010 Registration ACCT 4620*
  Generally accepted auditing standards and the philosophy supporting them; auditing techniques available to the independent public accountant. Pertinent
publications of the AICPS reviewed. Note: Students cannot receive credit for both ACCT 4620 and ACCT 6020. Prereq: ACCT 3230 must be completed with a grade of a 'C' or better. Strictly enforced. Cross-listed with ACCT 6020. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

ACCT free elective (4000 level) (3 semester hours) choose one course from the following:

- **ACCT 4240 - Advanced Financial Accounting**  
*Summer 2010 Registration ACCT 4240*  
Advanced financial accounting concepts and practices with emphasis on accounting for partnerships, business combinations and consolidations. Prereq: Completion of ACCT 3230 with a grade of a 'C' or better. Strictly enforced. Cross-listed with ACCT 6024. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ACCT 4070 - Management Accounting**  
*Summer 2010 Registration ACCT 4070*  
Designed to provide students with a foundation in management accounting models and information, with emphasis on management decision making uses of accounting information. (Not recommended for candidates planning to sit for the CPA examination.) Prereq: ACCT 2200 and 2220 or equivalent with a grade of a 'C' or better. Note: students who have taken ACCT 3320 or its equivalent may not take this course. **Semester Hours:** 3 to 3 **When Offered:** SPRING  
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ACCT 4330 - Managerial Accounting Problems and Cases**  
*Summer 2010 Registration ACCT 4330*  
Critical analysis of advanced topics in managerial accounting. Considerable use of cases and current readings. Prereq: Completion of ACCT 3320 with a grade of 'C'. Strictly enforced. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ACCT 4370 - International Accounting**  
*Summer 2010 Registration ACCT 4370*  
Designed to expose students to the international aspects of accounting and financial management. Includes discussion of some of the different financial accounting practices across countries; financial statement analysis in a global context, international auditing practices and procedures, international tax implications and the implications of operating within the regulations of the Foreign Corrupt Practices Act, the European Union, North American Free Trade Agreement and General Agreement on Tariffs and Trade. Prereq: Completion of ACCT 3220 with a grade of 'C' or better. Strictly enforced. Cross-listed with
• ACCT 4520 - Oil and Gas Accounting  
  Summer 2010 Registration ACCT 4520  
The Oil and Gas Accounting course is designed to give students an overview of the oil and gas industry and the particular accounting issues this industry faces. The focus is on the oil and gas industry but many of the issues discussed are appropriate and applicable to all energy-related entities. This is a valuable learning experience for those interested in acquiring an understanding of the accounting issues for energy management firms in preparation for entry into public accounting. The course enjoys support from the energy industry in the form of guest speakers and project ideas. Prereq: Completion of ACCT 3220 with a grade of 'C' or better. Strictly enforced. Cross-listed with ACCT 6520.  
  Semester Hours: 3 to 3  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

• ACCT 4780 - Accounting and Information Systems Processes and Controls  
  Summer 2010 Registration ACCT 4780  
The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. It focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: Completion of ACCT 2200, ACCT 2220 and ACCT 3054 with a grade of 'C' or better (strictly enforced). Cross-listed with ACCT 6510, ISMG 4780, and ISMG 6510.  
  Semester Hours: 3 to 3  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

• ACCT 4800 - Accounting for Government and Nonprofit Organizations  
  Summer 2010 Registration ACCT 4800  
Planning and control of government and nonprofit organizations. Includes program budgets, responsibility accounting and fund accounting. Prereq: Completion of ACCT 3220 with a grade of 'C' and permission of instructor, strictly enforced. Cross-listed with ACCT 6080.  
  Semester Hours: 3 to 3  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

• ACCT 4840 - Independent Study  
  Summer 2010 Registration ACCT 4840  
  Semester Hours: 1 to 8  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

• ACCT 4915 - Accounting for the Public Interest
Summer 2010 Registration **ACCT 4915**
Applies accounting knowledge and concepts in a not-for-profit organization.
Student volunteers help with functions or special projects and are supervised by both faculty members and personnel from the agency to which they are assigned. Prereq: Permission of instructor. Cross-listed with ACCT 6015. **Semester Hours:** 3 to 3
**When Offered:** FASPRSUM
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ACCT 4950** - Special Topics
**Summer 2010 Registration **ACCT 4950**
Research methods and results, special topics and professional developments in accounting. Consult the current 'Schedule Planner' for semester offerings. Prereq: Varies according to topic and instructor requirements. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total: 21 Hours**

Students planning to pursue accounting as a career may take more than the above required hours. Many students complete a total of 30 hours of accounting, often taking two accounting courses each semester in their junior and senior years. Students should work closely with the accounting faculty and business advisors in planning their accounting programs.

The accounting program offers several 4000/6000-level courses. Students with credit for a 4000-level course cannot receive credit for the corresponding 6000-level course. Graduate students should take 6000-level courses.

Accounting students often specialize in a particular topical area of accounting.

**Financial Accounting**

*Recommended Electives*

- **ACCT 4240** - Advanced Financial Accounting
**Summer 2010 Registration **ACCT 4240**
Advanced financial accounting concepts and practices with emphasis on accounting for partnerships, business combinations and consolidations. Prereq: Completion of ACCT 3230 with a grade of a 'C' or better. Strictly enforced. Cross-listed with ACCT 6024. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ACCT 4800** - Accounting for Government and Nonprofit Organizations
Summer 2010 Registration ACCT 4800
Planning and control of government and nonprofit organizations. Includes program budgets, responsibility accounting and fund accounting. Prereq: Completion of ACCT 3220 with a grade of 'C' and permission of instructor, strictly enforced. Cross-listed with ACCT 6080. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Managerial Accounting

Recommended Electives

- ACCT 4330 - Managerial Accounting Problems and Cases
  Summer 2010 Registration ACCT 4330
  Critical analysis of advanced topics in managerial accounting. Considerable use of cases and current readings. Prereq: Completion of ACCT 3320 with a grade of 'C'. Strictly enforced. Semester Hours: 3 to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- ACCT 4800 - Accounting for Government and Nonprofit Organizations
  Summer 2010 Registration ACCT 4800
  Planning and control of government and nonprofit organizations. Includes program budgets, responsibility accounting and fund accounting. Prereq: Completion of ACCT 3220 with a grade of 'C' and permission of instructor, strictly enforced. Cross-listed with ACCT 6080. Semester Hours: 3 to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

Accounting and Information Systems (ACIS)

Within the accounting curriculum students can choose to add courses in information systems to complement their individual interests as well as prior education and work experiences.

Required Courses

- ACCT 3054 - Accounting Systems and Data Processing
  Summer 2010 Registration ACCT 3054
  The design and analysis of accounting information systems, with special emphasis on computers and computer programming, and the role of accounting in the role of accounting in the management process. Must earn a grade of 'C' or better to qualify for graduation. Prereq: Completion of ACCT 2220 and ISMG 2050 with a grade of 'C' or better (Strictly enforced). Semester Hours: 3 to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.
• **ACCT 3220 - Intermediate Financial Accounting I**  
  *Summer 2010 Registration ACCT 3220*  
  An intensive analysis of generally accepted accounting principles, accounting theory and preparation of annual financial statements for public corporations. Must complete course with a 'C' to qualify in graduation requirements. Prereq: Completion of ACCT 2220 with a grade of 'C' or better. Strictly enforced.  
  **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **ACCT 3230 - Intermediate Financial Accounting II**  
  *Summer 2010 Registration ACCT 3230*  
  Selected topics not covered in ACCT 3220. Must complete course with a grade of 'C' to qualify in graduation requirements. Prereq: ACCT 3220, completed with a grade of a 'C' or better. Strictly enforced.  
  **Semester Hours:** 3 to 3  
  **When Offered:** FALL SPR  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **ACCT 3320 - Intermediate Cost Accounting**  
  *Summer 2010 Registration ACCT 3320*  
  Cost analysis for purposes of control and decision making. Analysis of cost behavior, role of accounting in planning and control, and managerial uses of cost accounting data. Includes use of computer assisted decision models. Must receive a 'C' grade to qualify in graduation requirements. Prereq: ACCT 2220, and DSCI 2010 completed with a grade of 'C' or better. Strictly enforced.  
  **Semester Hours:** 3 to 3  
  **When Offered:** FASPRSUM  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **ACCT 4410 - Income Tax Accounting**  
  *Summer 2010 Registration ACCT 4410*  
  Provisions and procedures of federal income tax laws and requirements affecting individuals and business organizations, including problems of tax planning and compliance. Note: Students cannot receive credit for both ACCT 4410 and ACCT 6140. Prereq: ACCT 3230 completed with a grade of "C" or better. Strictly enforced. Cross-listed with ACCT 6140.  
  **Semester Hours:** 3 to 3  
  **When Offered:** FALL SPR  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **ACCT 4620 - Auditing**  
  *Summer 2010 Registration ACCT 4620*  
  Generally accepted auditing standards and the philosophy supporting them; auditing techniques available to the independent public accountant. Pertinent publications of the AICPS reviewed. Note: Students cannot receive credit for both ACCT 4620 and ACCT 6020. Prereq: ACCT 3230 must be completed with a grade of a 'C' or better. Strictly enforced. Cross-listed with ACCT 6020.  
  **Semester**
**Hours:** 3to 3 **When Offered:** FALL SPR  
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ACCT 4780 - Accounting and Information Systems Processes and Controls**  
  *Summer 2010 Registration ACCT 4780*
  The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. It focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: Completion of ACCT 2200, ACCT 2220 and ACCT 3054 with a grade of 'C' or better (strictly enforced). Cross-listed with ACCT 6510, ISMG 4780, and ISMG 6510. **Semester Hours:** 3to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ISMG 4780 - Accounting and Information Systems Processes and Controls**  
  *Summer 2010 Registration ISMG 4780*
  The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. It focuses on financial and information system internal controls and the flow of corporate information through accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: Completion of ACCT 2200 and 2220 with a grade of 'C' or better. Strictly enforced. Cross-listed with ACCT 4780, 6510 and ISMG 6510. **Semester Hours:** 3to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**ISMG Electives**

Choose two:

- **ISMG 4500 - Database Management and Applications**  
  *Summer 2010 Registration ISMG 4500*
  The success of today's business often hinges on the ability to turn mountains of data into critical information and to utilize the critical information to make the right decisions quickly and efficiently. This course introduces students to the basic principles of data management and utilization. Topics include data modeling, normalization and database design, query formulation using SQL and QBE and interface design. Actual database management systems products (e.g. Oracle and Access) are utilized to demonstrate the design of database applications in management, marketing, finance, accounting and other business areas. Each
student will also design a working database system as a project. Prereq: ISMG 3000. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ISMG 4600 - Systems Analysis and Design**
  *Summer 2010 Registration ISMG 4600*
  Provides an understanding of the system development and maintenance process. It enables students to evaluate and choose a system development methodology. Topics include: systems development life cycle phases, structured analysis and design, object-oriented analysis and design; prototyping, joint application development (JAD) and structured walk-through; communication, interviewing, interpersonal and presentation skills; risk and feasibility analysis, project management, systems operations and support. Prereq: ISMG 3000. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ISMG 4900 - Project Management and Practice**
  *Summer 2010 Registration ISMG 4900*
  Covers the factors necessary for successful management of enhancement projects. Both technical and behavioral aspects of project management are discussed. The focus is on management of development for enterprise-level systems. Topics include: managing the system lifecycle; requirements determination, logical design, physical design, testing, implementation; metrics for project management; managing expectations: superiors, users, team members and others related to the project; determining skill requirement and staffing the project; cost-effectiveness analysis; reporting and presentation techniques; effective management of both behavioral and technical aspects of the project; change management. Note: Successful completion of this course meets the educational requirements to sit for both the PMP and CAPM exams. Prereq: ISMG 2200. Cross-listed with CSCI 4900 and MGMT 4900. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total: 27 Hours**

To further specialize, consider a graduate accounting program. Graduate study in accounting is receiving increasing emphasis by professional organizations and employers. Students meeting admission requirements should consider continuing their education at the graduate level. Qualified undergraduates may petition for permission to take one or two graduate accounting courses as electives (e.g. ACCT 6800, Special Topics).
Anthropology BA

Students majoring in anthropology for the BA degree must declare such by the time they have completed 60 semester hours. Majors must complete a minimum of 40 semester hours in anthropology with a grade of $C (2.0)$ or better in each course. At least 24 hours must be at the upper-division level and a minimum of 21 semester hours must be taken from Downtown Campus faculty. (Note that all upper-division courses have lower-division prerequisites.)

Program Requirements

Required Anthropology Courses

- ANTH 1302 - Introduction to Archaeology
  *Summer 2010 Registration ANTH 1302*
  Introduces the study of past cultures and their environments. Emphasis is on the scientific method, aspects of research design and analytical techniques used by archaeologists to determine chronology, taphonomy, source production areas, exchange networks, and human-environment interactions. Note: Three hours of lecture and a two-hour lab each week. **Semester Hours:** 4 to 4
  **GT Pathways Category Key:** GT-SS3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- ANTH 1303 - Introduction to Biological Anthropology
  *Summer 2010 Registration ANTH 1303*
  Introduces the study of human biological evolution, both processes and outcomes, from primate ancestors to fossil hominids to contemporary human populations. Methods of obtaining and interpreting data concerning the genetic, biological and evolutionary basis of physical variation in living and skeletal populations. Note: 3 hours of lecture and a 2 hour lab each week. **Semester Hours:** 4 to 4
  **GT Pathways Category Key:** GT-SC1
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- ANTH 2102 - Culture and the Human Experience
  *Summer 2010 Registration ANTH 2102*
  An application of the concept of culture to several aspects of the human experience, including gender relations, emotion and personality, cognition, language, health and healing and economic behavior. In exploring these dimensions of the human experience, the course focuses on selected cultures from each of the world's major geographic areas. **Semester Hours:** 3 to 3
Pathways Category Key: GT-SS3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Choose three:

- **ANTH 3101 - Foundations of Cultural Anthropology**  
  *Summer 2010 Registration ANTH 3101*  
  Covers current theories in cultural anthropology and discusses the nature of field work. Major schools of thought and actual field studies are explored with an emphasis on anthropological data gathering, analysis and writing. Prereq: Introductory course in cultural anthropology. *Semester Hours: 3 to 3*
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ANTH 3121 - Language and Communication**  
  *Summer 2010 Registration ANTH 3121*  
  Definitions of language and communication and their relationship to human behavior, thought and culture. The classification of languages, linguistic universals, language acquisition, multilingualism, and nonhuman communication, with consideration of the evolutionary implications of such studies. Prereq: Introductory course in cultural anthropology. *Semester Hours: 3 to 3*
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ANTH 3301 - World Prehistory**  
  *Summer 2010 Registration ANTH 3301*  
  Explores of 3.5 million years of human cultural development that examines the prehistory of Africa, Asia, Europe and the Americas. Patterns and processes that underlie the earliest hominid expansion out of Africa, tool use, origins of fire, the peopling of the Americas, the development of metallurgy, the domestication of plants and animals and the rise of cities and the state are examined. Emphasis is on both regional developments and landmark projects that have helped clarify prehistory. Prereq: Introductory course in archaeology. *Semester Hours: 3 to 3*
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ANTH 3512 - Human Evolution**  
  *Summer 2010 Registration ANTH 3512*  
  Provides an overview of the fossil and archaeological evidence for human origins. Theory and method in paleoanthropology is emphasized. The goal is to outline current knowledge of human biological evolution and the lifeways of our evolutionary relatives. Prereq: ANTH 1303. *Semester Hours: 3 to 3*
  Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 20 Hours**
Anthropology Electives

Recommended courses:

- **ANTH 4050 - Quantitative Methods in Anthropology**
  
  *Summer 2010 Registration ANTH 4050*

  Surveys the ways of deriving meaning from anthropological data by numerical means, including, but not confined to basic statistical procedures. Prereq: College-level algebra or its equivalent. Cross-listed with ANTH 5053. **Semester Hours:** 3 to 3

  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ANTH 4810 - Integrating Anthropology**
  
  *Summer 2010 Registration ANTH 4810*

  Designed to build on specialized course work in the subdisciplines of anthropology, this course emphasizes the basic concepts that integrate and unite the discipline and give it unique perspective. These are the concepts of culture, adaptation and human evolution. In the last several weeks of the course, students consider the applicability of the anthropological perspective to specific human issues. Note: Centers on the critical examination and discussion of presentations made by department faculty and graduate students. Prereq: junior or senior standing and course work equivalent to a minor in anthropology. Cross-listed with ANTH 5810. **Semester Hours:** 3 to 3

  Registration is changing. Visit our website for details ucdenver.edu/registration.

Total (minimum): 20 Hours

Major Total: 40 Hours

Biology BS

Biology students must declare their major by the time they have taken 60 semester hours. A minimum of 36 hours of biology must be completed, of which 18 hours are at the upper-division level and taken in residence with UC Denver Downtown Campus biology faculty. Included in the 36 hours are 22 semester hours of biology core courses, required of all majors. At least 14 hours of upper-division biology elective courses beyond the core are required to fulfill the remaining hours, including one 4000-level lecture course. A maximum of 6 semester hours of independent study (BIOL 3840/4840) or a combined maximum total of 6 hours of independent study (3 hours) and internship/cooperative education (BIOL 3939) (3 hours) can be counted toward the 14 hours of upper-division electives in biology. The minimum grade in each UC Denver
A biology course is \( C-(1.7) \). However, a GPA of 2.5 in biology courses taken at UC Denver is required to graduate.

To ensure a proper background for the study of biology, majors are required to pass 31-33 hours of course work in ancillary disciplines, including two semesters of general chemistry laboratory, for which the minimum grade is \( C-(1.7) \). MATH 1110, with either BIOL 4764 or MATH 4830, may substitute for Calculus I (MATH 1401). All biology courses applied to the undergraduate biology major must be completed within 10 years of graduation. The following biology and ancillary courses are required and must be completed with a letter grade of \( C-(1.7) \) or higher:

**Requirements for the Major**

**Biology Core Courses**

- **BIOL 2051 - General Biology I**  
  *Summer 2010 Registration BIOL 2051*  
  Introduces four major areas of study: (1) the chemistry of biological systems; (2) the structure and function of the cell; (3) cellular energy transformations (photosynthesis and respiration); and (4) genetics (mitosis, meiosis, patterns of inheritance, molecular genetics). Note: Biology and health science (pre-med, pre-vet, pre-physical therapy, etc.) majors must also take the accompanying laboratory - BIOL 2071. Prereq: CHEM 1000 or high school chemistry required. **Semester Hours:** 3 to 3  
  **GT Pathways Category Key:** GT-SC1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **BIOL 2071 - General Biology Laboratory I**  
  *Summer 2010 Registration BIOL 2071*  
  Introduces the basic scientific approach and report preparation through exercises and experiments in cell biology, basic biochemical techniques, genetics, molecular genetics and applications of biotechnology. Note: Exercises corresponding to topics in BIOL 2051. Coreq: BIOL 2051. **Semester Hours:** 1 to 1  
  **GT Pathways Category Key:** GT-SC1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **BIOL 2061 - General Biology II**  
  *Summer 2010 Registration BIOL 2061*  
  This course is a continuation of BIOL 2051. Introduces four major areas of study: (1) evolution, (2) animal structure and function, (3) plant structure and function and (4) ecology. Note: Biology and health science (pre-med, pre-vet, nursing, etc.) majors must also take the accompanying laboratory - BIOL 2081. Prereq: BIOL 2051 or equivalent with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3  
  **GT Pathways Category Key:** GT-SC1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
• **BIOL 2081 - General Biology Laboratory II**  
*Summer 2010 Registration BIOL 2081*
Study of evolution, plant and animal anatomy, developmental biology; includes two off-campus ecology field trips. Note: Exercises corresponding to topics in BIOL 2061. Prereq: BIOL 2071 or equivalent with a grade of "C" (2.0) or higher; Coreq: BIOL 2061. **Semester Hours:** 1 to 1  
**GT Pathways Category Key:** GT-SC1  
Registration is changing. Visit our website for details ucdenver.edu/registration.

• **BIOL 3411 - Principles of Ecology**  
*Summer 2010 Registration BIOL 3411*
A lecture course that examines the interrelationships between organisms and their environments. Subject matter includes organism, population and ecosystem levels of study and application to current environmental issues. The emphasis is on the underlying principles of ecology that involve all types of organisms. Note: Satisfies core ecology requirement for biology major. May not be used as upper division biology elective. No co-credit with BIOL 3412. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.  
-OR-

• **BIOL 3412 - Fundamentals of Applied Ecology**  
*Summer 2010 Registration BIOL 3412*
Ecology is the science of interrelationships between organisms, including humans and their environment. This lecture course examines applications of ecological principles to human needs and environmental protection. Covers the ecology of humans and managed systems. Note: Satisfies core ecology requirement for biology major. May not be used as upper division biology elective. No co-credit with BIOL 3411. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

• **BIOL 3611 - General Cell Biology**  
*Summer 2010 Registration BIOL 3611*
Covers the structure and function of the cell including bioenergetics, membranes, secretion, respiration and the cell cycle. Prereq: One year of general biology with a grade of "C" (2.0) or higher and one year of general chemistry. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

• **BIOL 3832 - General Genetics**  
*Summer 2010 Registration BIOL 3832*
Introduces molecular, classical, developmental and population genetics. Prereq:
One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**One of the following structure/function courses:**

- **BIOL 3225 - Human Physiology**
  *Summer 2010 Registration BIOL 3225*
  The basic orientation of the course is toward understanding the functioning of the body as a set of homeostatic mechanisms. Particular emphasis is placed on membrane potentials, muscle, circulation, respiration, digestion, the kidney, the control of metabolism and acid-based balance. Prereq: One year of general biology, general cell biology and one year of chemistry with grades of 'C' (2.0) or higher. **Semester Hours:** 4 to 4
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **BIOL 3244 - Human Anatomy**
  *Summer 2010 Registration BIOL 3244*
  Introduces the structural aspects of the human body. Anatomical models, microscope slides and dissections, including human cadavers are used in the lab. Prereq: one year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 4 to 4
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **BIOL 3654 - General Microbiology**
  *Summer 2010 Registration BIOL 3654*
  Covers all aspects of the biology of microorganisms: their cellular structures and function, growth and metabolism, general and molecular genetics, diversity and interactions with other organisms and the environment (ecology). The objective is to provide students with a thorough introduction to microbiology including basic micro-biological laboratory techniques. Note: General cell biology or general genetics is recommended. Prereq: One year of general biology and one year of general chemistry with grades of "C" (2.0) or higher. **Semester Hours:** 4 to 4
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **BIOL 4335 - Plant Science**
  *Summer 2010 Registration BIOL 4335*
  Lecture, lab and field trips. An in-depth study of flowering plants, including embryology, structure, function, reproduction, ecology and evolution of the group. Emphasis is placed upon morphology and anatomy at all stages of plant development. Prereq: One year of general biology with a grade of "C" (2.0) or higher. **Semester Hours:** 4 to 4
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
Total Biology Core: 22 Hours

Biology Electives

Biology elective courses (3000 or 4000 level) *

Total Electives: 14 Hours

Biology (core and electives) Total: 36 Hours

* Biochemistry as a Biology Elective

Students who have taken both semesters of organic chemistry (CHEM 3411 and CHEM 3421) may use either biochemistry (CHEM 3810) or 4 hours of the general biochemistry series (CHEM 4810 and 4820 combined) as one of their required upper-division biology electives.

Ancillary Core Courses

- **CHEM 2031 - General Chemistry I**
  *Summer 2010 Registration CHEM 2031*
  Topics include chemical structure, atomic and molecular properties, molecular geometry and bonding, and gas laws. Prepares students to take upper division chemistry courses. Note: a beginning course for science majors, medical technologists, pre-medical and pre-dental students. Prereq: One year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent); Coreq: CHEM 2038. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-SC1
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CHEM 2038 - General Chemistry Laboratory I**
  *Summer 2010 Registration CHEM 2038*
  Students perform laboratory experiments on topics covered in CHEM 2031 and gain experience in observing, recording, and interpreting physical and chemical phenomena. Note: Laboratory to accompany CHEM 2031. Coreq: CHEM 2031. **Semester Hours:** 1 to 1 **GT Pathways Category Key:** GT-SC1
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CHEM 2061 - General Chemistry II**
  *Summer 2010 Registration CHEM 2061*
  (Continuation of CHEM 2031.) Topics include kinetics, equilibria and thermodynamics. Prereq: CHEM 2031; Coreq: CHEM 2068. **Semester Hours:**
• **CHEM 2068 - General Chemistry Laboratory II**  
  *Summer 2010 Registration CHEM 2068*  
Students gain experience with laboratory technique and elementary chemical instrumentation. Note: Laboratory to accompany CHEM 2061 and a continuation of CHEM 2038. Prereq: CHEM 2038; Coreq: CHEM 2061. **Semester Hours:** 2to2  
**GT Pathways Category Key:** GT-SC1  
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **CHEM 3411 - Organic Chemistry I**  
  *Summer 2010 Registration CHEM 3411*  
Lecture course designed to introduce the study of structure, reactions, properties, and mechanisms of organic molecules. Prereq: CHEM 2061. **Semester Hours:** 4to4  
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **CHEM 3421 - Organic Chemistry II**  
  *Summer 2010 Registration CHEM 3421*  
Lecture course designed to introduce the study of structure, reaction, properties and mechanisms of organic molecules. Note: Continuation of CHEM 3411. Prereq: CHEM 3411. **Semester Hours:** 4to4  
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).  
-OR-  

• **CHEM 3810 - Biochemistry**  
  *Summer 2010 Registration CHEM 3810*  
Introduces the principles of biochemistry for science and health science-oriented majors. Designed to cover the important aspects of modern biochemistry. Prereq: BIOL 2061 and CHEM 3411. **Semester Hours:** 4to4  
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **MATH 1401 - Calculus I**  
  *Summer 2010 Registration MATH 1401*  
First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: Students cannot receive credit for both MATH 1080 and 1401. Prereq: MATH 1120 or 1130 and satisfactory score on the placement exam. **Semester Hours:** 4to4  
**GT Pathways Category Key:** GT-MA1  
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).  
-OR-  

• **MATH 1110 - College Algebra**  
  *Summer 2010 Registration MATH 1110*  
Topics in algebra designed for students who intend to take the calculus
sequence. Functions, domains, ranges, graphs, data scatter plots and curve fitting, solving equations and systems of equations, polynomial functions, rational functions, and selected other topics. Graphic calculators and/or computer algebra systems are used extensively. Applications are emphasized. Note: No co-credit with either MATH 1070 or 1130. Prereq: intermediate algebra and satisfactory score on the placement exam. **Semester Hours:** 3 to 3

**GT Pathways Category Key:** GT-MA1

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **with either BIOL 4764 – Biostatistics Summer 2010 Registration BIOL 4764**
  Covers the quantitative aspects of data collection, organization, and analysis in the biological sciences. Emphasizes understanding of relationships among probability theory, parameter estimation, test statistics, scope of inference, and interpretation. Provides "Hands-on" experience with data analysis. Prereq: One year of general biology with a "C" (2.0) or higher, college-level algebra with "B" (3.0) or higher, or permission of instructor. Cross-listed with BIOL 5764. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **or MATH 4830 - Applied Statistics Summer 2010 Registration MATH 4830**
  Review of estimation, confidence intervals and hypothesis testing; Anova; categorical data analysis; non-parametric tests; linear and logistic regression. Prereq: an introductory course in statistics such as MATH 2830 or permission of instructor. Cross-listed with MATH 5830. **Semester Hours:** 3 to 3

  **When Offered:** **SPRING**

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PHYS 2010 - College Physics I Summer 2010 Registration PHYS 2010**
  (This course is an approved Colorado Statewide Guaranteed Transfer Course). Mechanics, heat and sound. Prereq: College algebra and trigonometry. **Semester Hours:** 4 to 4

  **GT Pathways Category Key:** GT-SC1

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PHYS 2030 - College Physics Lab I Summer 2010 Registration PHYS 2030**
  **Semester Hours:** 1 to 1

  **GT Pathways Category Key:** GT-SC1

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PHYS 2020 - College Physics II Summer 2010 Registration PHYS 2020**
  Electricity, magnetism, light and modern physics. Prereq: PHYS 2010. **Semester Hours:** 4 to 4

  **GT Pathways Category Key:** GT-SC1

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PHYS 2040 - College Physics Lab II**
**Summer 2010 Registration**  
**PHYS 2040**  
Prereq: PHYS 2030.  
**Semester Hours:** 1to 1  
**GT Pathways Category Key:** GT-SC1  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total Ancillary Core: 31-33 Hours**

The following courses will **not** count toward the BS in biology:

- **BIOL 1136 - Human Biology**  
  **Summer 2010 Registration** **BIOL 1136**  
  Topics include: basic human body chemistry, healthy internal body balance, new disease treatments, human inheritance and human beings as part of Earth's living systems. Note: For students who are not majoring in biology.  
  **Semester Hours:** 3to 3  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **BIOL 1550 - Basic Biology: Ecology and the Diversity of Life**  
  **Summer 2010 Registration** **BIOL 1550**  
  Introduces important biological concepts, including: the process of science, biological diversity, evolution, basic ecological principles and environmental issues. Lectures emphasize current issues. Note: For students who are not majoring in biology. Biology and health career majors should not take this course.  
  **Semester Hours:** 4to 4  
  **GT Pathways Category Key:** GT-SC1  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **BIOL 1560 - Basic Biology: From Cells to Organisms**  
  **Summer 2010 Registration** **BIOL 1560**  
  Introduces students to cell structure and function, survey of representative human systems, genetics and applications of biotechnology. Immune systems featured with an emphasis on Aids, cancer and other human diseases prevalent in today's world. Note: For students who are not majoring in biology. Biology and health career majors should not take this course.  
  **Semester Hours:** 4to 4  
  **GT Pathways Category Key:** GT-SC1  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

**Degree Total: 36 Hours Biology + 31-33 Hours Ancillary**

**Chemistry BS**

**Requirements for Major**

Students must declare their major by the time they have completed 60 semester hours. The chemistry major requires 45 semester hours in chemistry. Transfer students must
take at least 14 upper-division chemistry hours, including CHEM 4128, 4518 or 4538, in residency at the Downtown Campus. A student who has declared a chemistry major at UC Denver may not take additional chemistry courses outside of the department for the purpose of applying those credits toward meeting the requirements of the major without prior written approval of the undergraduate advisor. Normally, no more than 3 additional hours of transfer credits will be allowed. The minimum grade in chemistry courses is C- (1.7) and a minimum chemistry GPA of 2.0 is required in chemistry and ancillary required courses. All majors must successfully complete the following core:

TRADITIONAL CHEMISTRY MAJOR

Required Chemistry Courses

- **CHEM 2031 - General Chemistry I**  
  *Summer 2010 Registration CHEM 2031*  
  Topics include chemical structure, atomic and molecular properties, molecular geometry and bonding, and gas laws. Prepares students to take upper division chemistry courses. Note: a beginning course for science majors, medical technologists, pre-medical and pre-dental students. Prereq: One year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent); Coreq: CHEM 2038.  
  *Semester Hours: 3to 3*  
  *GT Pathways Category Key: GT-SC1*  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CHEM 2038 - General Chemistry Laboratory I**  
  *Summer 2010 Registration CHEM 2038*  
  Students perform laboratory experiments on topics covered in CHEM 2031 and gain experience in observing, recording, and interpreting physical and chemical phenomena. Note: Laboratory to accompany CHEM 2031. Coreq: CHEM 2031.  
  *Semester Hours: 1to 1*  
  *GT Pathways Category Key: GT-SC1*  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CHEM 2061 - General Chemistry II**  
  *Summer 2010 Registration CHEM 2061*  
  (Continuation of CHEM 2031.) Topics include kinetics, equilibria and thermodynamics. Prereq: CHEM 2031; Coreq: CHEM 2068.  
  *Semester Hours: 3to 3*  
  *GT Pathways Category Key: GT-SC1*  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CHEM 2068 - General Chemistry Laboratory II**  
  *Summer 2010 Registration CHEM 2068*  
  Students gain experience with laboratory technique and elementary chemical instrumentation. Note: Laboratory to accompany CHEM 2061 and a continuation of CHEM 2038. Prereq: CHEM 2038; Coreq: CHEM 2061.  
  *Semester Hours: 2to 2*  
  *GT Pathways Category Key: GT-SC1*  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
Pathways Category Key: GT-SC1
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 3011 - Inorganic Chemistry**  
  *Summer 2010 Registration CHEM 3011*  
The fundamentals of inorganic chemistry, including: atomic, molecular and crystal structures; the energetics of reactions, acid-base interactions; and the chemistry of main group and transition metal elements, including coordination and organometallic chemistry. Prereq or Coreq: CHEM 3421 or 3491. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 3111 - Analytical Chemistry**  
  *Summer 2010 Registration CHEM 3111*  
Topics include sampling, volumetric analyses, instrumental analyses and statistical treatment of data. Note: Lecture course for chemistry, biology, medical technology and environmental students. Prereq: CHEM 2061. **Semester Hours:** 3 to 3  
When Offered: **FALL**  
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 3118 - Analytical Chemistry Laboratory**  
  *Summer 2010 Registration CHEM 3118*  
Students gain experience with technique of sampling and analysis, including an introduction to instrumental methods. Note: Laboratory course to be taken concurrently with CHEM 3111. Prereq: CHEM 2068; Coreq: CHEM 3111. **Semester Hours:** 2 to 2  
When Offered: **FALL**  
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 3411 - Organic Chemistry I**  
  *Summer 2010 Registration CHEM 3411*  
Lecture course designed to introduce the study of structure, reactions, properties, and mechanisms of organic molecules. Prereq: CHEM 2061. **Semester Hours:** 4 to 4  
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 3418 - Organic Chemistry Laboratory I**  
  *Summer 2010 Registration CHEM 3418*  
Laboratory course to augment concepts of CHEM 3411, illustrating the practical aspects of organic chemistry. Prereq: CHEM 2068; Prereq or Coreq: CHEM 3411. **Semester Hours:** 1 to 1  
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 3491 - Honors Organic Chemistry II**  
  *Summer 2010 Registration CHEM 3491*  
Second semester organic chemistry. Theoretical concepts and practical aspects of organic structure, mechanism, synthesis and analysis. Note: Required for chemistry majors and open to all students. No joint credit with CHEM 3421. Prereq: CHEM
3411. Coreq: CHEM 3498. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 3498 - Honors Organic Chemistry Laboratory II**
  *Summer 2010 Registration CHEM 3498*
  In small groups, students use the chemical literature to devise multi-step syntheses and determine reaction mechanisms for organic compounds. Note: Laboratory course required for chemistry majors. Open to non-majors on approval of the instructor. Prereq or Coreq: CHEM 3491. **Semester Hours:** 2 to 2
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 4121 - Instrumental Analysis**
  *Summer 2010 Registration CHEM 4121*
  Surveys instrumental methods of analysis. Emphasis on spectrophotometry, electrochemistry, chromatography and radiochemical techniques. Prereq: CHEM 3111, 3421 or 3491, and PHYS 2331; Coreq for Chemistry majors: CHEM 4128. **Semester Hours:** 3 to 3
  **When Offered:** SPRING
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 4128 - Instrumental Analysis Laboratory**
  *Summer 2010 Registration CHEM 4128*
  Laboratory practice to accompany CHEM 4121. One hour of discussion and three hours of laboratory, with an emphasis on writing laboratory reports. Note: Required of chemistry majors and open to other students in CHEM 4121. Coreq: CHEM 4121. **Semester Hours:** 2 to 2
  **When Offered:** SPRING
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 4511 - Physical Chemistry I**
  *Summer 2010 Registration CHEM 4511*
  Includes study of the laws of thermodynamics, thermochemistry, chemical equilibria, solutions and statistical mechanics. Prereq: PHYS 2331; Coreq: MATH 3511. **Semester Hours:** 3 to 3
  **When Offered:** FALL
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 4518 - Physical Chemistry Laboratory I**
  *Summer 2010 Registration CHEM 4518*
  Instruction in the experimental techniques of physical chemistry with emphasis on the properties of gases, thermodynamics and chemical equilibrium. Prereq: CHEM 3118; Coreq: CHEM 4511. **Semester Hours:** 2 to 2
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CHEM 4521 - Physical Chemistry II**
  *Summer 2010 Registration CHEM 4521*
  Continuation of CHEM 4511, with emphasis on chemical kinetics, quantum mechanics, molecular structure and spectroscopy. Prereq: CHEM 4511 and MATH
3511. **Semester Hours:** 3  
**When Offered:** SPRING  
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CHEM 4538 - Physical Chemistry II Laboratory**  
  *Summer 2010 Registration CHEM 4538*  
  Instruction in the experimental techniques of physical chemistry with emphasis on quantum chemistry, spectroscopy and chemical kinetics. Prereq: CHEM 4518; Coreq: CHEM 4521. **Semester Hours:** 2 to 2  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

  And one of the following two courses:

- **CHEM 3018 - Inorganic Chemistry Laboratory**  
  *Summer 2010 Registration CHEM 3018*  
  Combines theoretical concepts with hands-on laboratory experience and introduces students to modern inorganic chemistry. Experiments cover both main group and transition metal chemistry with an emphasis on synthesis, characterization, and application of inorganic compounds. Prereq or Coreq: CHEM 3011. **Semester Hours:** 2 to 2  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CHEM 4828 - Biochemistry Lab**  
  *Summer 2010 Registration CHEM 4828*  
  Focuses on modern laboratory techniques for biochemical research, with an emphasis on methods for protein isolation, purification, and identification. Students perform experiments involving (but not limited to) chromatography, electrophoresis, spectrophotometry, and protein activity assays. Prereq: CHEM 3810 or 4810. **Semester Hours:** 2 to 2  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total Required Courses: 45 Hours**

**Required Ancillary Courses**

- **MATH 1401 - Calculus I**  
  *Summer 2010 Registration MATH 1401*  
  First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: Students cannot receive credit for both MATH 1080 and 1401. Prereq: MATH 1120 or 1130 and satisfactory score on the placement exam. **Semester**
• MATH 2411 - Calculus II
  Summer 2010 Registration **MATH 2411**
  The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: MATH 1401. **Semester Hours:** 4to 4  **GT Pathways Category Key:** GT-MA1 Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• MATH 3511 - Mathematics of Chemistry
  Summer 2010 Registration **MATH 3511**
  Multivariate functions, probability and statistics for chemistry, matrices and vectors, mathematics of reaction kinetics and symmetry point groups. Course covers mathematics needed for CHEM 4511 and 4521. Can also be an elective for the mathematics minor. Prereq: MATH 2411, CHEM 2031, CHEM 2061. **Semester Hours:** 4to 4  **When Offered:** FALL Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• PHYS 2311 - General Physics I: Calculus-Based
  Summer 2010 Registration **PHYS 2311**
  Covers vector displacement, uniform and accelerated motion, force, momentum, energy, rotating systems, oscillations, and an introduction to thermodynamics. Emphasis is on basic principles. Coreq: MATH 1401. **Semester Hours:** 4to 4 Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• PHYS 2321 - General Physics Lab I
  Summer 2010 Registration **PHYS 2321**
  **Semester Hours:** 1to 1 Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• PHYS 2331 - General Physics II: Calculus-Based
  Summer 2010 Registration **PHYS 2331**
  Covers electrostatics, magnetic fields, electromagnetic waves (including light), and optics. Prereq: PHYS 2311. Coreq: MATH 2411. **Semester Hours:** 4to 4 Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• PHYS 2341 - General Physics Lab II
  Summer 2010 Registration **PHYS 2341**
  Prereq: PHYS 2321. **Semester Hours:** 1to 1 Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total Required Ancillary Courses : 22 Hours**
Recommended Electives

- **CHEM 3018** - Inorganic Chemistry Laboratory
  
  *Summer 2010 Registration CHEM 3018*
  
  Combines theoretical concepts with hands-on laboratory experience and introduces students to modern inorganic chemistry. Experiments cover both main group and transition metal chemistry with an emphasis on synthesis, characterization, and application of inorganic compounds. Prereq or Coreq: CHEM 3011. **Semester Hours:** 2 to 2
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CHEM 3810** - Biochemistry
  
  *Summer 2010 Registration CHEM 3810*
  
  Introduces the principles of biochemistry for science and health science-oriented majors. Designed to cover the important aspects of modern biochemistry. Prereq: BIOL 2061 and CHEM 3411. **Semester Hours:** 4 to 4
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

  **OR**

- **CHEM 4810** - General Biochemistry I
  
  *Summer 2010 Registration CHEM 4810*
  
  Topics include structure, conformation, and properties of proteins; enzymes, mechanisms and kinetics; carbohydrates, lipids and membranes, and energetics. Prereq: CHEM 3421 or 3491. Cross-listed with CHEM 5810. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CHEM 4700** - Environmental Chemistry
  
  *Summer 2010 Registration CHEM 4700*
  
  A discussion of the sources, reactions, transport, effects, and fates of chemical species in the water, soil, and air environments. Prereq: CHEM 3111 or 3411. Cross-listed with CHEM 5700. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CHEM 4820** - General Biochemistry II
  
  *Summer 2010 Registration CHEM 4820*
  
  Topics include biosynthesis and metabolism of carbohydrates, lipids and amino acids, information processing. Note: continuation of CHEM 4810. Prereq: CHEM 4810. Cross-listed with CHEM 5820. **Semester Hours:** 3 to 3
  
  When Offered: SPRING
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

Any CHEM 5000-level lecture class (3-4 semester hours)

**Total Electives: 14-16 Hours**
Chemistry Major Total: 81-83 Hours

Students interested in the chemistry major should consult regularly with a chemistry advisor. A complete description of the chemistry major’s program may be obtained in the Department of Chemistry office or department Web site.

Qualified majors are strongly urged to participate in independent study or departmental honors programs.

Students planning chemistry as a career should be familiar with the recommendations of the American Chemical Society for the professional training of chemists. For ACS certification, students are required to take inorganic laboratory and at least one semester of biochemistry. No course with a grade of less than C (2.0) can be applied toward ACS certification. Students should check with a chemistry advisor for details. The Downtown Campus maintains an ACS chapter of student affiliates.

Civil Engineering BS

Program Objectives

The objectives of the bachelor of science in civil engineering program are to produce graduates who:

- are able to perform the technical analyses and design tasks of entry-level civil engineers
- can successfully work toward professional engineering licensure
- communicate effectively, both orally and in writing
- understand the importance of leadership skills, team building and ethical practice
- value lifelong learning and improvement through graduate degrees or professional study
- appreciate the importance of community involvement and social contribution civil engineers are dedicated to improving our living environment

Civil engineering offers an interesting and challenging career in the design, construction, and maintenance of buildings and urban infrastructure; in transportation systems, including highways, airports, rapid transit lines, railroads, and harbor facilities; in the development of water resources, including reservoirs for storage, canals for irrigation, dams for power generation, stormwater management for drainage, groundwater recharge for contamination prevention, wastewater treatment for environmental protection, and water purification for drinking purposes; in the construction industry; including foundations, bridges, concrete and steel structures, in problems concerned
with environmental preservation; and in the sustainable development of cities. In preparing for work in such a broad field, the civil engineering student studies mathematics, basic science, communication, social science and humanities, engineering science and civil engineering design. UC Denver’s civil engineering graduates usually find their first professional employment with consulting engineering firms, government agencies and various industries.

Typical Curriculum for BS (Civil Engineering)

Freshman Year

First Semester

- **CHEM 1130 - Engineering General Chemistry**  
  *Summer 2010 Registration CHEM 1130*  
  A one-semester non-laboratory version of general chemistry for engineers and those science majors who do not require laboratory credit and do not plan to take a second semester of chemistry. Prereq: One year of high school chemistry or Chem 1000 and Math 1110 (or high school equivalent). *Semester Hours: 5 to 5*  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 1020 - Core Composition I**  
  *Summer 2010 Registration ENGL 1020*  
  Provides opportunities to write for different purposes and audiences, with an emphasis on learning how to respond to various rhetorical situations; improving critical thinking, reading, and writing abilities; understanding various writing processes; and gaining a deeper knowledge of language conventions. *Semester Hours: 3 to 3*  
  GT Pathways Category Key: GT-C01  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **MATH 1401 - Calculus I**  
  *Summer 2010 Registration MATH 1401*  
  First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: Students cannot receive credit for both MATH 1080 and 1401. Prereq: MATH 1120 or 1130 and satisfactory score on the placement exam. *Semester Hours: 4 to 4*  
  GT Pathways Category Key: GT-MA1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

Core Curriculum Elective (*see note 2*) (3 semester hours)

Total: 15 Hours
Second Semester

- **CVEN 1025 - Civil Engineering Graphics & Computer Aided Design**
  *Summer 2010 Registration CE 1025*
  Introduces microcomputer-based, menu-driven, 2-D and 3-D computer-aided design systems; standard Civil Engineering industry details and some three-dimensional modeling of solid objects; principles on engineering drawing and descriptive geometry with applications specifically geared for civil engineers. Prereq: High School Geometry and Algebra. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CVEN 2212 - Plane Surveying**
  *Summer 2010 Registration CE 2212*
  Observation, analysis and presentations of basic linear, angular, area and volume field measurements common to civil engineering endeavors. Prereq/Coreq: MATH 1401. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 2030 - Core Composition II**
  *Summer 2010 Registration ENGL 2030*
  Focuses on academic and other types of research-based writing and builds on the work completed in ENGL 1020. Focuses on critical thinking, reading and writing as well as working with primary and secondary source material to produce a variety of research-based essays. Emphasis on using both print-based and electronic-based information. Prereq: ENGL 1020. **Semester Hours:** 3 to 3
  **GT Pathways Category Key:** GT-C02
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **MATH 2411 - Calculus II**
  *Summer 2010 Registration MATH 2411*
  The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: MATH 1401. **Semester Hours:** 4 to 4
  **GT Pathways Category Key:** GT-MA1
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PHYS 2311 - General Physics I: Calculus-Based**
  *Summer 2010 Registration PHYS 2311*
  Covers vector displacement, uniform and accelerated motion, force, momentum, energy, rotating systems, oscillations, and an introduction to thermodynamics. Emphasis is on basic principles. Coreq: MATH 1401. **Semester Hours:** 4 to 4
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
- PHYS 2321 - General Physics Lab I  
  *Summer 2010 Registration PHYS 2321*  
  **Semester Hours:** 1 to 1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total: 18 Hours**

**Sophomore Year**

**First Semester**

- CVEN 2121 - Analytical Mechanics I  
  *Summer 2010 Registration C E 2121*  
  A vector treatment of force systems and their resultants; equilibrium of trusses, beams, frames, and machines, including internal forces and three-dimensional configurations, static friction, properties of areas, distributed loads and hydrostatics. Prereq: PHYS 2311. Coreq: ENGR 1025, MATH 2422. Cross-listed with MECH 2023. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- CVEN 2200 - Computing Methods in Civil Engineering  
  *Summer 2010 Registration C E 2200*  
  Introduces Fortran computer programming and advanced spreadsheet methods of solving civil engineering problems. Prereq: ENGR 1025 and MATH 2411. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- MATH 2421 - Calculus III  
  *Summer 2010 Registration MATH 2421*  
  The third of a three-semester sequence in calculus (MATH 1401, 2411 and 2421). Topics include vectors, vector-valued functions, partial differentiation, differentiation, multiple integration, and vector calculus. Prereq: MATH 2411. **Semester Hours:** 4 to 4  
  **4GT Pathways Category Key:** GT-MA1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- PHYS 2331 - General Physics II: Calculus-Based  
  *Summer 2010 Registration PHYS 2331*  
  Covers electrostatics, magnetic fields, electromagnetic waves (including light), and optics. Prereq: PHYS 2311. Coreq: MATH 2411. **Semester Hours:** 4 to 4  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

Core Curriculum Elective *(see note 2)* (3 semester hours)
Total: 17 Hours

Second Semester

- **CVEN 3121 - Mechanics of Materials**  
  *Summer 2010 Registration C E 3121*  
  Mechanical properties of materials, stresses and strains in members subjected to tension, compression and shear, combined stresses, flexural and shearing stresses in beams, deflections of beams, column analysis, principal stresses. Prereq: CVEN 2121. Cross-listed with MECH 3043. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CVEN 3141 - Introduction to Structural Materials**  
  *Summer 2010 Registration C E 3141*  
  Introduces the production, properties, and behavior of common engineering materials. Emphasis is placed on concrete, steel, and wood. Includes the techniques used to determine material properties. Coreq: CVEN 3121. **Semester Hours:** 2 to 2  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CVEN 3401 - Introduction to Environmental Engineering**  
  *Summer 2010 Registration C E 3401*  
  An introductory course that provides a unique systems approach to environmental engineering, examining the source-to-receptor feedback loop for pollution control. Physical, chemical and biological processes are integrated across atmospheric, wastewater and sub-surface systems. Laboratory exercises provide direct experiential learning of key concepts. Prereq: CHEM 1130 or equivalent. Cross-listed with CVEN 5401. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CVEN 4780 - Engineering Geology**  
  *Summer 2010 Registration C E 4780*  
  Studies geology as utilized in engineering and environmental practice. Emphasizes a conceptual integration of geologic materials, processes, and rates of change as a basis for successful application of geologic knowledge to environmental planning and engineering design projects. Prereq: MATH 2411 and CVEN 2121. Cross-listed with CVEN 5780 and GEOL 4780, 5780. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **GEOL 1072 - Physical Geology: Surface Processes**  
  *Summer 2010 Registration GEOL 1072*  
  Introductory course in physical geology that covers surface processes and landforms, and includes one all-day field trip. Note: Required for geology majors. **Semester Hours:** 4 to 4 **GT Pathways Category Key:** GT-SC1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
• **MATH 3800 - Probability and Statistics for Engineers**  
  *Summer 2010 Registration MATH 3800*  
  Basic probability theory, discrete and continuous random variables, point and interval estimation, test of hypotheses, one-way analysis of variance, and simple linear regression. Note: no co-credit with MATH 4810. Prereq: MATH 2411; coreq: MATH 2421. **Semester Hours:** 3to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **MATH 3195 - Linear Algebra and Differential Equations**  
  *Summer 2010 Registration MATH 3195*  
  Presents the essential ideas and methods of linear algebra and differential equations, emphasizing the connections between and the applications of both subjects. The course is designed for students in the sciences and engineering. Note: no co-credit with MATH 3200 and MATH 3191. Prereq: MATH 2411. **Semester Hours:** 4to 4  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

  **Total: 15 Hours**

**Junior Year**

**First Semester**

• **CVEN 3111 - Analytical Mechanics II**  
  *Summer 2010 Registration C E 3111*  
  A vector treatment of dynamics of particles and rigid bodies, including rectilinear translation, central-force, general motion of particles, kinematics of rigid bodies, the inertia tensor, plane motion of rigid bodies; energy and momentum methods for particles, systems of particles and rigid bodies. Prereq: CVEN 2121. Cross-listed with MECH 2033. **Semester Hours:** 3to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **CVEN 3313 - Theoretical Fluid Mechanics**  
  *Summer 2010 Registration C E 3313*  
  Introduces the fundamentals of fluid mechanics. Subject matter includes fluid properties, hydrostatics, the continuity principle, the energy principle, the momentum principle, similitude and dimensional analysis, forces on immersed bodies and laminar and turbulent flow in a closed conduit. Prereq: CVEN 2121. **Semester Hours:** 3to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **CVEN 3505 - Structural Analysis**
**Summer 2010 Registration C E 3505**
Principles of structural analysis applied to statically determinate and indeterminate structures. Prereq: CVEN 3121. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CVEN 3602 - Transportation Engineering**
  **Summer 2010 Registration C E 3602**
  This course will introduce you to the concepts and methods of transportation engineering, planning and management. This course will emphasize traffic engineering. Topics will include vehicle dynamics, traffic flow fundamentals, accident analysis, signal timing, highway capacity analysis, level of service analysis, freeway operations, and evaluation procedures for alternative transportation projects. Prereq: Junior standing or permission of instructor. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

Core Curriculum Elective *(see note 2)* (3 semester hours)

**Total: 15 Hours**

### Second Semester

- **CVEN 3323 - Applied Fluid Mechanics**
  **Summer 2010 Registration C E 3323**
  Applies the principles of fluid mechanics to analysis and design of hydraulic systems involving pressurized pipelines, open channels and pumps. Introduces fluid measurements which includes laboratory demonstrations and experiments. Prereq: CVEN 2200 and CVEN 3313. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CVEN 3414 - Design of Water and Wastewater Systems**
  **Summer 2010 Registration C E 3414**
  Covers the design of water distribution and wastewater collection systems. Topics include the design process, estimation of water demand and sewage flows, analysis of pipe networks and sewer systems, cost estimating, and design selection. Field trips are required. Prereq/Coreq: CVEN 3323. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CVEN 3708 - Introduction to Geotechnical Engineering**
  **Summer 2010 Registration C E 3708**
  Index properties of soils, soil classification, clay minerals, compaction and other soil improvement methods; shrinkage, swelling and frost action; permeability and seepage analysis, consolidation settlement and time rate of consolidation, shear strength of soils, bearing capacity and lateral earth pressure. Prereq: CVEN 3121.
Prereq/Coreq: CVEN 3313. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CVEN 4718 - Intermediate Soils Engineering**
  **Summer 2010 Registration C E 4718**
  Continuation of CVEN 3708 into selected topics in soils engineering. Laboratory experiments are performed to assess index properties of soils including gradation, soil consistency and specific gravity; moisture/density relations; soil classification, permeability, compressibility; and shear strength of soils. These soil parameters are then used in a design project required for the course. Prereq/Coreq: CVEN 3708. **Semester Hours:** 2 to 2
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGR 3012 - Thermodynamics**
  **Summer 2010 Registration ENGR 3012**
  Introduces thermodynamic properties and state relationships, processes and cycles with work and heat transfer. Applications of the first and second laws to energy-related engineering systems. Prereq: MATH 1401 and PHYS 2311. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

Core Curriculum Elective (see note 2) (3 semester hours)

**Total: 17 Hours**

### Senior Year

#### First Semester

- **CVEN 4000 - Senior Seminar**
  **Summer 2010 Registration C E 4000**
  Required of all Civil Engineering majors. Each student shall take the state-administered Fundamentals of Engineering (F.E.) examination. This course must be taken prior to the semester of graduation. Prereq: CVEN 3111, ENGR 3012, ELEC 3030, senior standing and approved 30 credit hour check. **Semester Hours:** 0 to 0
  **When Offered:** FALL SPR
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 3030 - Electric Circuits and Systems**
  **Summer 2010 Registration E E 3030**
  This basic electrical engineering course is for non-majors (does not apply to BSEE degree). Students study circuit analysis, transformers, electric motors, and simple electronic circuits (diodes and transistors). Prereq: MATH 2421 and PHYS 2331. Cross-listed with MECH 3030. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
Civil Engineering Design Electives (see note 3) (6 semester hours)
Upper-level Science, Math or Engineering Electives (see note 4) (6 semester hours)
Core Curriculum Elective (see note 2) (3 semester hours)

Total: 18 Hours

Second Semester

Civil Engineering Design Electives (see note 3) (6 semester hours)

- CVEN 4067 - Senior Design Projects
  
  *Summer 2010 Registration C E 4067*

  Senior civil engineering students, working in teams, are assigned significant open-ended design problems requiring the synthesis of material learned in previous engineering courses for solution. Design teams work independently under the supervision of a civil engineering faculty member. Prereq: An approved graduation agreement. **Semester Hours:** 3 to 3

  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

Core Curriculum Elective (see note 2) (3 semester hours)

Science, Math or Engineering Electives (see note 4) (3 semester hours)

Total: 15 Hours

Program Total: 130 Hours

1. Or CHEM 2031 and CHEM 2038, which are required for students wishing to take CHEM 2061 and CHEM 2068 as general electives.
2. The communication, humanities and social science electives selected by the student and approved by his/her advisor must satisfy the college core curriculum.
3. Students must satisfactorily complete four of the six civil engineering design courses listed below:

   CVEN 4427 Storm Water System Design
   CVEN 4565 Timber Structure Design
   CVEN 4575 Structural Steel Design
   CVEN 4585 Reinforced Concrete Design
   CVEN 4602 Highway Engineering
   CVEN 4738 Intermediate Foundation Engineering
4. Science, math or engineering electives. The purpose of the electives is to extend the student’s knowledge beyond the basic civil engineering requirements. Electives chosen should come from the areas of engineering, mathematics, chemistry, biology, physics or geology. In the case of mathematics, chemistry, physics or geology, the elective must be of higher level than courses in this field required by the civil engineering program. Suggested courses are CVEN 4077, CVEN 4087, CVEN design courses or any 5000-level CVEN course.

Communication BA

Requirements for Admission

Undergraduates must declare their intention to major in communication by the time they have completed 60 semester hours; they must apply to the communication department to be accepted as majors.

Program Requirements

The communication major requires that students take a total of 39 hours of course work in communication, 18 of which must be taken in residence at the Downtown Campus. At least 21 of the 39 hours must be upper division. Students must achieve a grade of C (2.0) or higher to receive credit for a course in the major and must maintain a minimum GPA of C+ (2.75) in their communication courses.

Students must complete 12 credits (4 courses) from the menu of core classes; they must complete at least 24 credits (8 classes) from the menu of electives; they must also complete at least 3 credits (1 class) from the menu of “exit” classes.

Core Courses

- **COMM 1011 - Fundamentals of Communication**  
  *Summer 2010 Registration CMMU 1011*
  Studies communication theory and application. Topics include communication models, interpersonal communication and the concept of self, nonverbal communication, message preparation and analysis, and decision making.  
  **Semester Hours:** 3 to 3  
  **GT Pathways Category Key:** GT-SS3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **COMM 1021 - Fundamentals of Mass Communication**  
  *Summer 2010 Registration CMMU 1021*
  Studies relationships among television, radio, newspapers, magazines and society. Examines the effects of exposure to mass media, mass media ownership and
control, mass media law, technical aspects of message and program production, and delivery. **Semester Hours:** 3 to 3

**GT Pathways Category Key:** GT-SS3

Registration is changing. Visit our website for details [ucdenver.edu-registration](http://ucdenver.edu-registration).

- **COMM 2020 - Communication and Citizenship**
  **Summer 2010 Registration CMMU 2020**
  Offers an introduction to debates about, and the different means of practicing, citizenship in America. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu-registration](http://ucdenver.edu-registration).

- **COMM 2050 - Business and Professional Speaking**
  **Summer 2010 Registration CMMU 2050**
  Development of communication skills often used in business and professional settings, with an emphasis on various kinds of presentations. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu-registration](http://ucdenver.edu-registration).
  -OR-

- **COMM 2101 - Presentational Speaking**
  **Summer 2010 Registration CMMU 2101**
  Theory and practice of presentational speaking in a variety of contexts to accomplish goals of asserting individuality, building community, securing adherence, discovering knowledge and belief, and offering perspectives. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu-registration](http://ucdenver.edu-registration).

**Total:** 12 Hours

**Electives**

**Skill Area Electives**

In addition to the four communication core courses, students are required to complete at least 24 credits (8 classes) from among the department’s nine pathways, which include community service and public affairs, legal communication, health communication, mass media, human resources and organizational communication, mediation and conflict resolution, political communication and government, technical communication and public relations and advertising. Students may use the pathways to help craft a program of study, but they are not required to do so; the pathways are simply suggestions for ways to organize courses that will prepare students for careers.

**Total:** 24 Hours

**Upper Division Elective**

“Exit” Course—majors are required to complete at least one “exit” class that concludes their course of study with a special experience focused on high-level research,
community engagement, international travel or workplace experience. Students may choose from the following courses:

- **COMM 3939 - Internship/Cooperative Education**  
  Summer 2010 Registration **CMMU 3939**  
  Applies communication or technical communication concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **COMM 4282 - Environmental Communication**  
  Summer 2010 Registration **CMMU 4282**  
  Studies the communication processes involved in policies and practices affecting natural and human environments. Cross-listed with COMM 5282. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **COMM 4500 - Health Communication**  
  Summer 2010 Registration **CMMU 4500**  
  Examines the role of communication in a wide range of health contexts. Topics include cultural constructions of health and illness, public health communication campaigns, client-provider interactions, telemedicine, community-based health programs and medical journalism. Cross-listed with COMM 5500. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **COMM 4510 - Usability Testing**  
  Summer 2010 Registration **CMMU 4510**  
  Teaches students how to evaluate technical documentation testing needs, evaluate testing options for their feasibility and costs/benefits, design and carry out a usability testing plan, evaluate and write up test results for actual client documents and products. Prereq: COMM 3120 or permission of instructor. Cross-listed with COMM 5510. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **COMM 4620 - Health Risk Communication**  
  Summer 2010 Registration **CMMU 4620**  
  Acquaints students with contemporary theory, research, and practice in health risk communication. Prereq: COMM 3120, COMM 4011, COMM 4200, COMM 4500, or permission of instructor. Cross-listed with COMM 5620, HBSC 4620, HBSC 5620, and ENVS 5620. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **COMM 4688 - Senior Seminar: Transitioning from College to Career**  
  Summer 2010 Registration **CMMU 4688**  
  Synthesis experience for communication majors designed to prepare students to
enter the job market and to integrate and reflect on their experience in communication. Prereq: Communication major status. **Semester Hours:** 3 to 3 Registration is changing. Visit our website for details ucdenver.edu/registration.

- **COMM 4710 - Topics in Communication**
  
  **Summer 2010 Registration CMMU 4710**
  
  Special classes for faculty-directed experiences examining communication issues and problems not generally covered in the curriculum. Cross-listed with COMM 5710. **Semester Hours:** 1 to 3
  
  Registration is changing. Visit our website for details ucdenver.edu/registration.
  
  Take under topic "Communication, Social Justice, and Prisons"

- **COMM 4995 - Travel Study Topics**
  
  **Summer 2010 Registration CMMU 4995**
  
  Students study various topics in a foreign country led by a CU-Denver instructor; register through the Office of International Education. Cross-listed with COMM 5995. **Semester Hours:** 1 to 15
  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3 Hours**

**Major Total: 39 Hours**

For more information, see the faculty advisor and the department's Web site.

**Computer Science and Engineering BS**

**Program Objectives**

The objectives of the bachelor of science degree in the computer science and engineering program are to:

1. Produce graduates who are successful professionals in computer science and engineering
2. Prepare students for graduate or professional study
3. Develop team building
4. Involve students in software design and projects
5. Support and enhance leadership skills
6. Produce students who can communicate effectively
Measurable Outcomes

To attain the educational objectives of the BS CSE program, the CSE department intends to produce the following measurable outcomes at the time of graduation. Graduates of the BS CSE program will have the following skills:

- an ability to apply knowledge of mathematics, science and engineering
- an ability to analyze a problem and identify and define the computing requirements appropriate to its solution
- an ability to design and conduct software and/or hardware experiments, as well as to analyze and interpret data
- an ability to design software and/or hardware to meet desired needs
- an ability to function on multidisciplinary teams
- an ability to identify, formulate and solve computer science and engineering problems
- an understanding of professional and ethical responsibility
- an ability to communicate effectively
- the broad education necessary to understand the impact of engineering and computer science solutions in a global and societal context
- a recognition of the need for, and an ability to engage in, lifelong learning
- a knowledge of contemporary issues
- an ability to use the techniques, skills and modern tools necessary for computer science and engineering practice
- an ability to display leadership

Typical Curriculum for BS in Computer Science and Engineering

Freshman Year

First Semester

- **CSCI 1410 - Fundamentals of Computing**
  
  *Summer 2010 Registration C SC 1410*

  First course in computing for those who will take additional computer science courses. Covers the capabilities of a computer, the elements of the computer language C++, and basic techniques for solving problems using a computer. Coreq: CSCI 1411. **Semester Hours:** 3 to 3

  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CSCI 1411 - Fundamentals of Computing Laboratory**
Summer 2010 Registration C SC 1411
This laboratory is taken with CSCI 1410 and will provide students with additional help with problem solving and computer exercise to complement the course material covered in CSCI 1410. Prereq: Freshman status. Coreq: CSCI 1410. **Semester Hours:** 1 to 1
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- CSCI 1510 - Logic Design
  **Summer 2010 Registration C SC 1510**
  The design and analysis of combinational and sequential logic circuits. Topics include binary and hexadecimal number systems, Boolean algebra and Boolean function minimization, and algorithmic state machines. Lecture/lab includes experiments with computer-aided design tools. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- ENGL 1020 - Core Composition I
  **Summer 2010 Registration ENGL 1020**
  Provides opportunities to write for different purposes and audiences, with an emphasis on learning how to respond to various rhetorical situations; improving critical thinking, reading, and writing abilities; understanding various writing processes; and gaining a deeper knowledge of language conventions. **Semester Hours:** 3 to 3 **GT Pathways Category Key:** GT-C01
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- MATH 1401 - Calculus I
  **Summer 2010 Registration MATH 1401**
  First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: Students cannot receive credit for both MATH 1080 and 1401. Prereq: MATH 1120 or 1130 and satisfactory score on the placement exam. **Semester Hours:** 4 to 4 **GT Pathways Category Key:** GT-MA1
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

Core Curriculum Elective. Semester Hours: 3 (see note 1)

**Total:** 17 Hours

**Second Semester**

- CSCI 2312 - Intermediate Programming
  **Summer 2010 Registration C SC 2312**
  Programming topics in the C++ language. The emphasis is on problem solving using object oriented and Generic Programming. Topics include advanced I/O, classes, inheritance, polymorphism and virtual functions, abstract base classes, exception handling, templates, and the Standard Template Library. Prereq: CSCI
• MATH 2411 - Calculus II
  Summer 2010 Registration MATH 2411
  The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: MATH 1401. Semester Hours: 4 to 4 GT Pathways Category Key: GT-MA1
  Registration is changing. Visit our website for details ucdenver.edu/registration.

• PHYS 2311 - General Physics I: Calculus-Based
  Summer 2010 Registration PHYS 2311
  Covers vector displacement, uniform and accelerated motion, force, momentum, energy, rotating systems, oscillations, and an introduction to thermodynamics. Emphasis is on basic principles. Coreq: MATH 1401. Semester Hours: 4 to 4
  Registration is changing. Visit our website for details ucdenver.edu/registration.

• PHYS 2321 - General Physics Lab I
  Summer 2010 Registration PHYS 2321
  Semester Hours: 1 to 1
  Registration is changing. Visit our website for details ucdenver.edu/registration.

• ENGL 2030 - Core Composition II
  Summer 2010 Registration ENGL 2030
  Focuses on academic and other types of research-based writing and builds on the work completed in ENGL 1020. Focuses on critical thinking, reading and writing as well as working with primary and secondary source material to produce a variety of research-based essays. Emphasis on using both print-based and electronic-based information. Prereq: ENGL 1020. Semester Hours: 3 to 3 GT Pathways Category Key: GT-C02
  Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 15 Hours

Sophomore Year

First Semester

• CSCI 2421 - Data Structures and Program Design
  Summer 2010 Registration C SC 2421
  Topics include a first look at an algorithm, data structures, abstract data types, and basic techniques such as sorting, searching, and recursion. Programming exercises are assigned through the semester. Prereq: ENGL 1020, CSCI 2312. Semester
CSCI 2511 - Discrete Structures
*Summer 2010 Registration C SC 2511*
Covers the fundamentals of discrete mathematics, including: logic, sets, functions, asymptotics, mathematical reasoning, induction, combinatorics, discrete probability, relations and graphs. Emphasis on how discrete mathematics applies to computer science in general and algorithm analysis in particular. Prereq: MATH 1401. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

CSCI 2525 - Assembly Language and Computer Organization
*Summer 2010 Registration C SC 2525*
Topics include computer architecture, program execution at the hardware level, programming in assembly language, the assembly process, hardware support of some high-level language features, and a program's interface to the operating system. Programming exercises are assigned in this course. These exercises involve the use of specific hardware in designated laboratories. Prereq: CSCI 1410 and 1510. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2331 - General Physics II: Calculus-Based
*Summer 2010 Registration PHYS 2331*
Covers electrostatics, magnetic fields, electromagnetic waves (including light), and optics. Prereq: PHYS 2311. Coreq: MATH 2411. **Semester Hours:** 4to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

PHYS 2341 - General Physics Lab II
*Summer 2010 Registration PHYS 2341*
Prereq: PHYS 2321. **Semester Hours:** 1to 1
Registration is changing. Visit our website for details ucdenver.edu/registration.

Core Curriculum Elective Semester Hours: 3 (see note1)

**Total: 17 Hours**

**Second Semester**

CSCI 2132 - Circuit Analysis I
*Summer 2010 Registration C SC 2132*
Basic theorems of circuit analysis. Transient solution of circuits by classical techniques. Ideal operational amplifier analysis techniques and applications. Prereq:
MATH 2411 and PHYS 2331. Cross-listed with ELEC 2132. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

- **CSCI 3320 - Advanced Programming**
  **Summer 2010 Registration** C SC 3320
  A continuation of programming and problem solving methodologies. The focus will be on generic programming with C++ templates and the standard template library, and will be supplemented with object-oriented programming and top-down design. Prereq: CSCI 2421. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

- **CSCI 3412 - Algorithms**
  **Summer 2010 Registration** C SC 3412
  Design and analysis of algorithms. Asymptotic analysis as a means of evaluating algorithm efficiency. The application of induction and other mathematical techniques for proving the correctness of an algorithm. Data structures for simplifying algorithm design, such as hash tables, heaps and search trees. Elementary graph algorithms. Assignments include written work and programming projects. Prereq: CSCI 2421 and CSCI 2511. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

Core Curriculum Elective Semester Hours: 3 (see note 1)

- **CSCI 3287 - Database System Concepts**
  **Summer 2010 Registration** C SC 3287
  Introduces database design, database management systems, and the SQL standard database language. Includes data modeling techniques, conceptual database design, theory of object-relational and relational databases, relational algebra, relational calculus, normalization and database integrity. Prereq: CSCI 2421. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

**Total: 15 Hours**

### Junior Year

### First Semester

- **CSCI 3415 - Principles of Programming Languages**
  **Summer 2010 Registration** C SC 3415
  Introduces programming language design concepts and implementation issues. Includes language concepts such as control structures and data types, formal language specification techniques, and syntactic and semantic implementation
issues. Prereq: CSCI 2421 and 2525. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CSCI 3453 - Operating System Concepts**
  *Summer 2010 Registration C SC 3453*
  Covers the principles of computer operating systems and the essential components of an operating system. Topics include: I/O devices, file systems, CPU scheduling and memory management. Prereq: CSCI 3412 (Algorithm). **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CSCI 3511 - Hardware-Software Interface**
  *Summer 2010 Registration C SC 3511*
  Hardware and software techniques needed to control and program device interfaces. Input and output devices, computer peripherals, device drivers and interfaces are introduced. Specific programmable devices are used in class projects. Prereq: CSCI 2525. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CSCI 3560 - Probability and Computing**
  *Summer 2010 Registration C SC 3560*
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

CSE Tech Elective. Semester Hours: 3
Core Curriculum Elective Semester Hours: 3 (see note 1)

**Total: 18 Hours**

### Second Semester

- **CSCI 3508 - Introduction to Software Engineering**
  *Summer 2010 Registration C SC 3508*
  Introduces principles and practices of software engineering: software life-cycle models, requirements engineering, analysis and design tools, human factors risk management, program certification, project management and intellectual property rights. Prereq: ENGL 1020 and CSCI 3412. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **MATH 3195 - Linear Algebra and Differential Equations**
  *Summer 2010 Registration MATH 3195*
  Presents the essential ideas and methods of linear algebra and differential equations.
equations, emphasizing the connections between and the applications of both subjects. The course is designed for students in the sciences and engineering. Note: No co-credit with MATH 3200 and MATH 3191. Prereq: MATH 2411. **Semester Hours:** 4 to 4
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

CSE Tech Elective. Semester Hours: 3
CSE Tech Elective. Semester Hours: 3
Core Curriculum Elective. Semester Hours: 3 (see note 1)

**Total: 16 Hours**

**Senior Year**

**First Semester**

- **CSCI 3287 - Database System Concepts**
  *Summer 2010 Registration C SC 3287*
  Introduces database design, database management systems, and the SQL standard database language. Includes data modeling techniques, conceptual database design, theory of object-relational and relational databases, relational algebra, relational calculus, normalization and database integrity. Prereq: CSCI 2421. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CSCI 4034 - Theoretical Foundations of Computer Science**
  *Summer 2010 Registration C SC 4034*
  Introduces abstract models for computation, formal languages and machines. Topics include: automata theory, formal languages, grammars and Turing machines. Prereq: CSCI 3412. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CSCI 4650 - Numerical Analysis I**
  *Summer 2010 Registration C SC 4650*
  Methods and analysis of techniques used to resolve continuous mathematical problems on the computer. Solution of linear and nonlinear equations, interpolation and integration. Prereq: MATH 2411, MATH 3191 or MATH 3195, and programming experience. Cross-listed with CSCI 5660, MATH 4650, and MATH 5660. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CSCI 4738 - Senior Design I**
  *Summer 2010 Registration C SC 4738*
  This is an advanced practical course in which students design, implement, and
document and test software systems for use in industry, non-profits, government and research institutions. The course offers practical experience by working closely with project sponsors. It also offers extensive experience in oral and written communication throughout the software lifecycle. Prereq: CSCI 3508. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

CSE Tech Elective. Semester Hours: 3

**Total: 15 Hours**

**Second Semester**

- **CSCI 4739 - Senior Design II**
  *Summer 2010 Registration C SC 4739*
  This course is a continuation of Senior Design I. Students must have taken Senior Design I in order to enroll for Senior Design II. In this course, the projects begun in Senior Design I are completed and presented. Prereq: CSCI 4738. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

- **CSCI 4591 - Computer Architecture**
  *Summer 2010 Registration C SC 4591*
  Deals with how assembly language maps to hardware, and basic hardware techniques implemented in computers. Topics include logic design of arithmetic units, data control path processor logic, pipelining, memory systems, and input-output units. The emphasis is on logic structure rather than electronic circuitry. Students must know basic control logic design and be familiar with an assembly language before taking this course. Prereq: CSCI 2525 or ELEC 2651. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

- **CSCI 4761 - Introduction To Computer Networks**
  *Summer 2010 Registration C SC 4761*
  Introduction and overview of computer networks. Topics include protocols, quality of services and performance issues. Prereq: CSCI 2421. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

CSE Tech Elective. Semester Hours: 3
Core Curriculum Elective Semester Hours: 3 (see note 1)

**Total: 15 Hours**
Program Total: 128 Hours

In addition to planning for sequences of courses based on prerequisites, students should plan to complete sophomore-level courses before taking junior-level courses.

1. Downtown Campus core curriculum: core requirements of the College of Engineering and Applied Science are outlined in the section titled “Undergraduate Core Curriculum in Engineering” or at www.ucdenver.edu/cse. In the communication area, students must pass ENGL 1020-3, Core Composition I, with a C- or better prior to taking either CSCI 2421 or CSCI 4739.

2. Computer science and engineering technical electives: The student must take five courses (15 semester hours) chosen from any CSCI 3000 or 4000-level courses that are not part of the required bachelor of science in computer science and engineering curriculum. The 2000-level CSCI "Practical Systems Administration" course will be counted as one CSCI elective. ELEC 4000-level computer engineering courses may be taken to satisfy a CSE tech elective with prior approval of a CSE academic advisor.

Criminal Justice BA

Program Director: Mary Dodge, PhD
Prospective Students: 303-315-2227
Current Students and Advising: 303-315-2227

Faculty

Professors:
Mark Pogrebin, PhD, University of Iowa
Eric Poole, PhD, Washington State University

Associate Professors:
Mary Dodge, PhD, University of California, Irvine
Angela Gover, PhD, University of Maryland
Callie Rennison, PhD, University of Houston
Paul Stretesky, PhD Florida State University

Assistant Professor:
Deanna Perez, PhD, University of Maryland

Associate Research Professor:
Jerry Williams, DPA, University of Colorado

The School of Public Affairs is excited to offer a new bachelor of arts program in criminal justice. It is an interdisciplinary program that combines specific course work in criminal justice with a liberal arts focus. The criminal justice degree offers training for specific occupations within criminal justice agencies and provides students with the critical thinking, writing and presentation skills necessary for career advancement and graduate study. The course work explores the complex nature of crime causation, criminal justice organizations and the implications of public policies that allow graduates to adapt to the evolving nature of the field.

As with all undergraduate degrees, students are required to complete the requirements of the Downtown Campus core curriculum, providing an education that draws heavily on social and natural sciences as well as liberal arts. The program will not only provide a direct line to employment in the growing field of criminal justice, but will also facilitate the movement of outstanding students into SPA’s MCJ and PhD graduate programs. Junior and senior criminal justice students may be permitted to enroll in a graduate level MCJ course by advisement. Students will be well prepared to pursue additional advanced degrees in fields where critical thinking and analytical skills are required.

Admissions Requirements

Entering freshmen, current UC Denver students and transfer students are eligible for admission to the program. All students must meet the admission requirements described in the Information for Undergraduate Students chapter of this catalog.

Transfer Students

Students who have attended another college or university are expected to meet general requirements for admission of transfer students as described in the Information for Undergraduate Students chapter. A maximum of 15 semester credits of criminal justice coursework can be accepted and applied to the criminal justice major. The BACJ Program Director has the final discretionary authority to accept or reject criminal justice transfer credits. Transfer students with at least 30 semester hours of transferable credit who have been denied admission to the college by the Downtown Campus Office of Admissions, and who have special circumstances not covered by the regular admission policies, may petition the SPA Academic Standards for provisional admission. The Academic Standards Committee requires evidence of academic performance before provisional admission is granted. Policies and procedures for the SPA Academic Standards Committee are available through the SPA Advising Office.

Advising and Student Services
Upon matriculation into the criminal justice program, students will receive advising from the undergraduate academic advisor. The academic advisor will assist students with registration, clarify university and department policy and facilitate the graduation checkout. Advising will ensure that students take appropriate courses in the core curriculum to provide a foundation for their course work in the program. Students will also be assigned a faculty advisor who will assist them with questions about their majors, concentrations and career directions.

**Grading and Policies**

**Dean's List Criteria**

UC Denver will use a fixed criterion across all colleges for determining eligibility for the Dean’s List. This policy applies to undergraduate students.

For fall and spring semesters, students must successfully complete 9 hours in the semester upon which to determine grade point. These courses can be both within and outside of the School of Public Affairs. MSCD Pooled courses will not be included in the calculation nor will they count towards the 9 hours required for consideration. The GPA set for inclusion in the Dean’s List is 3.75. In the summer semesters, students must complete 6 hours as a basis for inclusion in the Dean’s List. Course inclusion will be the same as in fall and spring semesters. The GPA for Dean’s List in summer will also be 3.75. Colleges will collect data each semester on the number of students making the Dean’s List and report the number and percentage of total students in the college. Students who make the Dean’s List for both fall and spring semesters may be eligible for a Dean’s List scholarship award. Dean’s List Scholarship awards vary in amount each semester depending on funding and the number of BACJ students who achieve Dean’s List status. The Registrar’s Office will calculate the semester GPAs for all students two weeks prior to the due date for semester grades. Those GPAs will be the basis for determining the Dean’s List. Incompletes will not be considered in the calculation of minimum number of hours. The Dean’s List will not be recalculated to include completed incompletes.

**Academic Probation and Suspension**

Students at the university are expected to maintain progress in their degree program, as defined by being in “good academic standing.” Good academic standing requires minimally a cumulative grade point average (GPA) of 2.0 on all University of Colorado course work.

**Academic Probation**

- Academic probation is a warning to students that they are not progressing toward completion of their degree in a satisfactory manner.
- Students are placed on academic probation when their cumulative CU GPA falls below 2.0 at the end of any academic term.
- Students are informed in writing (via University-assigned email and postal letter) of their academic probation status.
- Students on Academic Probation will be required to complete the Academic Success Plan during their first semester on Academic Probation.
- Students will be required to schedule an appointment and meet with their academic advisor to discuss the completed Academic Success Plan before they will be allowed to register for the subsequent term.
- Students on Academic Probation will be required to schedule an appointment and meet with their academic advisor every semester that they are on Academic Probation before they will be allowed to register.
- Academic Probation requires that students achieve a minimum 2.3 semester GPA each subsequent term until their cumulative CU GPA is at least a 2.0 to return to good academic standing. Students must achieve a minimum 2.0 cumulative CU GPA to meet graduation requirements.
- Students who fail to earn the 2.3 semester GPA during any semester of Academic Probation will be placed on Restricted Academic Probation.
- Students have five semesters or 30 credits (whichever happens sooner) to raise their cumulative GPA to above a 2.0, or they will be placed on Academic Suspension.
- Once a student has raised his/her cumulative CU GPA to at least a 2.0, s/he will be removed from Academic Probation and notified via University-assigned email that s/he is in Academic Good Standing.

Restricted Academic Probation

- Students who fail to earn the 2.3 semester GPA during any semester of Academic Probation will be placed on Restricted Academic Probation.
- Students are informed in writing (via University-assigned email and postal letter) of Restricted Academic Probation status.
- Students on Restricted Academic Probation will be allowed to enroll for a maximum of 6 credits/2 classes per semester (whichever is more). A course and its attached lab are considered to be one course in this case.
- Students on Restricted Academic Probation will be required to schedule an appointment and meet with their academic advisor in order to register for courses.
- Students on Restricted Academic Probation will not be able to register online; they will need to register for courses using a Schedule Adjustment Form, which must be submitted to the Service Center (North Classroom #1003) for processing.
- Restricted Academic Probation requires that students achieve a minimum 2.3 semester GPA each subsequent term until their cumulative CU GPA is at least a 2.0. Students must achieve a minimum 2.0 cumulative CU GPA to return to good academic standing and to meet graduation requirements.
Students on Restricted Academic Probation who do not meet the 2.3 minimum semester GPA will be placed on Academic Suspension.

Students who fail to raise their cumulative GPA to 2.0 or above in five semesters or 30 credit hours on Academic Probation and Restricted Academic Probation will be placed on Academic Suspension.

Academic Suspension

Students on Restricted Academic Probation who do not meet the 2.3 minimum semester GPA will be placed on Academic Suspension.

Students are informed in writing via certified/registered letter of their Academic Suspension status.

The minimum duration of Academic Suspension is for a period of one year (three semesters, including summer term). Students placed on Academic Suspension will be unable to take courses from any CU campus during this time.

Should a student be placed on Academic Suspension while registered for the next semester, s/he will be administratively dropped from their courses by the University.

A student’s Academic Suspension status is permanently indicated on his/her official University of Colorado transcript. During the one-year Academic Suspension period, students who wish to return to the University should consider one (or both) of the following actions:

- Attend another regionally-accredited college/university. Students who choose to attend another institution while on Academic Suspension can take as many or as few credits as they choose, but must earn a 2.75 cumulative GPA in all transferable course work. Students should consult their academic advisor to discuss appropriate course work.
- Use the time off to directly address and resolve the factors that contributed to the academic difficulty.

After the one-year suspension period has elapsed, students must petition the appellate committee (of the school or college they wish to enter) for readmission and meet and document at least one of the following criteria:

- Attendance at another regionally accredited college/university where they earned a minimum cumulative GPA of 2.75 in transferable credit.
- Explanation of their previous academic difficulty, demonstration of what has changed, and how this will allow them to now achieve and maintain Good Academic Standing (including a semester GPA of at least 2.3 and a cumulative GPA of at least 2.0).

Students who choose to petition the School of Public Affairs appellate committee for readmission must submit their petitions by the following deadlines:

- For fall admission: June 1
- For spring admission: December 1
- For Maymester/summer admission: April 1

If a student is granted readmission and his/her CU GPA is below a 2.0, s/he will be readmitted on Restricted Academic Probation. These students must meet the
condition of Restricted Academic Probation every semester until their cumulative CU GPA is at least a 2.0.

Second Suspension

- Students who are readmitted after their first Academic Suspension and fail to meet the conditions of Restricted Academic Probation for a second time are placed on a second suspension for an indefinite period of time.
- Students on a second suspension may be readmitted to the University only by petition to the college’s appellate committee.
- Students will not be considered for readmission unless they have demonstrated significant improvement in academic performance at the college/university level, and/or considerable and positive change in personal circumstances.

Grade Policy

The University of Colorado Grading System is based on a 4.0 absolute scale.

Incomplete Grades

An incomplete grade of “I” can be issued at faculty discretion when there are special circumstances that preclude course completion. Incomplete grades are only issued when a small portion of the course remains. At minimum, 75% of the work in the course must be completed. Students are allowed up to 12 months to complete the unfinished portion of the course. After 12 months an “I” grade that has not been completed will become an “F.”

Pass/Fail Grades

Core knowledge area and general electives are the only courses that can be completed pass/fail. Grades of “D-” of better is translated by the Records Office to a P (pass) grade. P grades do no affect students’ GPA. F grades do affects students; GPA. Students interested in completing a course as pass/fail must submit a Schedule Adjustment Form during the add/drop during the respective semester to the BACJ Academic Advisor. Students need to consult the academic calendar posted on the Office of the Registrar’s webpage for add/drop dates. Up to 16 credits may be completed as pass/fail and credited toward the bachelor degree. Students can complete a maximum of 6 credits as pass/fail in any one semester.

The Internship Program

Undergraduate students without experience in the field will be expected to complete an internship for credit under the direction of a faculty sponsor. Internships are helpful for career exploration early in a student’s academic career or for job experience after developing academic content in the major. Students must have a minimum 2.0
cumulative GPA and a minimum of 15 semester hours completed at UC Denver before registering for the internship. A maximum of 3 semester hours of internship per semester and 6 semester hours total may be counted toward the 120 semester hours necessary for graduation.

Undergraduate students should contact the Experiential Learning Center for details on internship placements, paperwork and requirements.

Program Requirements

Students completing a BA in criminal justice at UC Denver will complete a minimum of 120 semester hours including:

- 34–36 general education core curriculum semester hours
- 21 undergraduate criminal justice semester hours, including 18 upper-division semester hours
- 15 elective semester hours in criminal justice and ancillary fields for the selected area of concentration (including an internship)
- 46–48 elective semester hours, an optional CLAS or language minor (15-21 hours), optional electives or internship
- students without experience in the field of criminal justice must complete a 3-semester-hour internship

*Students must receive a minimum of a C (2.0) in each undergraduate course applied to satisfy major or minor degree requirements.*

Required Criminal Justice Courses

- **CRJU 1001 - Introduction to Criminal Justice**  
  *Summer 2010 Registration C J 1001*
  
  This course is designed to provide an overview of the criminal justice process and the criminal justice system in general. Concepts of crime, deviance and justice are discussed and general theories of crime causality are examined. Special emphasis is placed on the components of the criminal justice system: the police, the prosecutorial and defense functions, the judiciary and the field of corrections. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 2041 - Crime Theory and Causes**  
  *Summer 2010 Registration C J 2041*
  
  This course provides a general survey of the nature and causes of crime and efforts of the criminal justice system to predict, prevent, modify and correct this behavior. This course involves a critical appraisal of various theories of crime causation, including an examination of biological, psychological, economic and sociological
perspectives that explain crime and deviance. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 3100 - Criminal Justice Research Methods**  
  *Summer 2010 Registration C J 3100*
  This course introduces students to the formulation of research questions covering crime and justice, research designs, data collection and the interpretation and reporting of these data in criminological and justice-system settings. Course content also includes experimental and non-experimental research designs, probability and non-probability sampling techniques and construction of scales and indexes for research purposes. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 3150 - Statistics for Criminal Justice**  
  *Summer 2010 Registration C J 3150*
  This course serves as an introduction to descriptive and inferential statistics and the computer analysis of criminology and criminal justice data. Course content includes basic procedures of hypothesis testing, correlation and regression analysis and the analysis of continuous and binary dependent variables. Emphasis is placed on the examination of research problems and issues in the field of criminology and criminal justice. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4042 - Corrections**  
  *Summer 2010 Registration C J 4042*
  This course consists of an overview of the field of penology and corrections. Attention is paid to conflicting philosophies of punishment, criminological theory as it applies to the field of corrections, the selectivity of the process through which offenders move prior to their involvement in correctional programs, alternative correctional placements and empirical assessments of the short and long-term consequences of one's involvement in correctional programs. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4043 - Law Enforcement**  
  *Summer 2010 Registration C J 4043*
  This course presents an overview of the role of police in the United States. Attention is placed on the origins of policing, the nature of police organizations and police work, patterns of relations between the police and the public, discretion and police role in a sociological context. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4044 - Courts and Judicial Process**
Summer 2010 Registration **C J 4044**
This course examines the basic functions, structure and organization of the federal and state court system, with special attention on the criminal court system. This course also focuses on the influence of judicial behavior on the court process by examining judges' policy preferences, legal considerations, group processes within courts and courts' political and social environments. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total: 21**

**Criminal Justice Electives**

*Criminal Justice Electives—15 semester hours, with 9 hours from the Department of Criminal Justice and 6 from other departments*

- **CRJU 2110 - Drugs, Alcohol and Crime**
  *Summer 2010 Registration C J 2110*
  This course looks at the socially constructed nature of drugs and drug policy. The course explores the connection between drugs and crime within the socio-historical context of contemporary U.S. drug policy. Special emphasis is placed on the relationships between drugs and alcohol abuse and criminal offending, including the historical and contemporary criminal justice system responses to illegal substances. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 2210 - Probation and Parole**
  *Summer 2010 Registration C J 2210*
  This course is appropriate for students who have a specific interest in the role of probation and parole as correctional sanctions in community settings. Particular attention is paid to evaluations research evidence on the success of probation and parole, factors that contribute to the successful completions of probation and parole and the role that the community and citizens play in the community corrections process. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 2320 - Police-Community Relations**
  *Summer 2010 Registration C J 2320*
  This course focuses on the police and community response to crime. Course content includes an overview of the major concepts and issues involved in what many consider to be a major fundamental shift in the approach and operations of modern policing. The origins, meaning, development and experiences of community policing and various assessments of the advantages and disadvantages of community...
policing are emphasized. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 2510 - Juvenile Justice Administration**  
  **Summer 2010 Registration C J 2510**
  This course examines the development, change and operation of the American juvenile justice system and the social factors that shape the identification and treatment of juvenile offenders. Special emphasis is placed on the nature of juvenile law and methods of dealing with youthful offenders. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 3160 - White-Collar Crime**  
  **Summer 2010 Registration C J 3160**
  This course introduces students to a variety of topics and issues in white-collar crime including types, causes and the measurement of white-collar crime. The class examines the debate surrounding the definition of white-collar crime, provides an overview of the costs of white-collar crime and corporate crime to society, considers competing theories that explain white-collar criminality and explores the use of criminal sanctions to deter misconduct involving corporations and elite offenders. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 3220 - Community-Based Corrections**  
  **Summer 2010 Registration C J 3220**
  This course focuses on innovative community-based strategies for dealing with criminal offenders. Correctional alternatives to imprisonment discussed in this course include probation and parole and various community programs such as day reporting centers, electronic monitoring, half-way houses and boot camp programs. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 3250 - Violence in Society**  
  **Summer 2010 Registration C J 3250**
  This course examines various aspects of violence including distribution over time and space, situations and circumstances associated with violent victimization and offending and how social institutions, community structure and cultural factors shape violent events. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 3252 - Violent Offenders**  
  **Summer 2010 Registration C J 3252**
  This course consists of a historical overview of violence in American society. Course content includes an examination of violent crime rates over time, societal explanations for changes in rates and an examination of the theoretical causes and
preventative strategies for acts of violence. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 3310 - Police in Contemporary Society**
  
  **Summer 2010 Registration C J 3310**
  
  This course examines law enforcement's role in contemporary society and the impact of police interaction on other segments of the criminal justice system. Special attention is paid to controversies related to police training and education, career development and community relations. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 3420 - Pleas, Trials and Sentences**
  
  **Summer 2010 Registration C J 3420**
  
  This course focuses on analysis of case materials involving pleas, trials and sentences. Course content includes an examination of the basic dimensions of criminality, the specific elements of major crimes, the use of confessions, fair trial procedures and the nature of criminal sanctions including cruel and unusual punishments. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 3540 - Crime and Delinquency Prevention**
  
  **Summer 2010 Registration C J 3540**
  
  This course provides students with an overview of issues related to crime and delinquency prevention, both from criminological and criminal justice points of view. Crime prevention programs that encompass both the individual and community levels are examined. Responses to juvenile offenders-ranging from prevention and diversion to institutional corrections and after care are explored in context of youth policy generally. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4120 - Race, Class and Crime**
  
  **Summer 2010 Registration C J 4120**
  
  This course examines the relationships between race, social class and crime. Attention is given to theoretical explanations, empirical research and patterns of criminal behavior and focuses on historical frameworks that are relevant to current perspectives on the impact and interactions of race, class and crime in the field. Prereq: CRJU 3041. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4130 - Poverty and Crime**
  
  **Summer 2010 Registration C J 4130**
  
  This course involves an economic analysis of crime and the criminal justice system. Topics include empirical and theoretical analysis of the economic causes of criminal behavior, the social costs of crime and its prevention and the design of crime
• CRJU 4140 - Domestic Violence and Crime
  *Summer 2010 Registration C J 4140*
  This course examines the criminal justice system's response to intimate partner violence by focusing on the interactions between victims, offenders and the individual components of the criminal justice system (law enforcement and the judiciary). By exploring the dynamics of intimate partner violence this course addresses the theory, history, research, legislation and policy implications related to the criminal justice system's response to violence against women. **Semester Hours: 3 to 3**
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• CRJU 4170 - Victim Studies
  *Summer 2010 Registration C J 4170*
  This course involves the scientific study of crime victims and focuses on the physical, emotional and financial harm people suffer at the hands of criminals. Focus is placed on the victim-offender relationships, interactions between victims and the criminal justice system and connections between victims and other social groups and institutions. The theory, history, research, legislation and policy implications related to the social construction of "The victim" are explored. **Semester Hours: 3 to 3**
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• CRJU 4180 - Comparative Study of Criminal Justice Systems
  *Summer 2010 Registration C J 4180*
  This course analyzes the dynamics of criminality and the social response to criminality across countries. Special emphasis is placed on the methods of comparative legal analysis utilized to examine international differences in crime and justice, international cooperation in criminal justice and crime and development. Prereq: CRJU 1001. **Semester Hours: 3 to 3**
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• CRJU 4230 - Corrections and Treatment
  *Summer 2010 Registration C J 4230*
  This course examines the origins and historical development of prisons and jails in America. Particular attention is given to the impact of reform movements, the rise of centralized correctional systems and regional variations in the practice of punishment. **Semester Hours: 3 to 3**
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• CRJU 4410 - Criminal Law and Constitutional Procedures
  *Summer 2010 Registration C J 4410*
  This course focuses on substantive criminal law and constitutional rights of the accused in criminal proceedings. Course content includes legal aspects of the
investigation and arrest processes as well as the rules governing the admissibility of evidence in court. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4430 - Law and Society**
  *Summer 2010 Registration C J 4430*
  This course introduces students to the scholarly study of law. Students will have an opportunity to become familiar with social science perspectives of the law, legal institutions, the legal process and the impact of law on behavior, with particular emphasis on the study of criminal behavior and the criminal justice process in American society. Additional topics include theories of law and legality, comparative legal systems, lawyers, judges and juries and the use of social science in the courts. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4440 - Courts and Social Policy**
  *Summer 2010 Registration C J 4440*
  This course involves the study of emerging trends and issues in the administration of the courts, the emerging role of the judiciary in the administration of programs in the public and private sectors and the implications of court administration on social policy. Course content includes the history of the judicial approaches to the criminal justice administrative process and substantive social policy. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4520 - Gangs and Criminal Organizations**
  *Summer 2010 Registration C J 4520*
  This course traces the origins and historical development of the activities known as "Organized Crime." These crimes are some of the most dangerous to American society and range from the commonly known offenses of gambling and narcotics to the more subtle and sophisticated, less understood but equally serious, crimes of extortion, commercial bribery and political corruption. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4530 - Families and Intergenerational Crime**
  *Summer 2010 Registration C J 4530*
  This course focuses on the family as the primary institutional mechanism of social control. The course is structured around social learning theory and explores the relationships between exposure to childhood violence and violence in dating relationships during adolescence and later violent marital relationships. The "Cycle of Violence" is also discussed in terms of the impact on early childhood violence on juvenile delinquency, adult criminality and violent behavior in general. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4600 - Special Topics in Criminal Justice**
Summer 2010 Registration  **C J 4600**
This highly specialized seminar addresses cutting-edge and emerging developments in the field of criminal justice and provides students and faculty with the opportunity to explore significant themes, issues and problems from a broad interdisciplinary perspective. Topics vary from semester to semester. Prereq: CRJU 1001 and CRJU 2041 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total:** 9 hours

++Prerequisite

### Other Department Electives**

- **COMM 4265 - Gender and Communication**
  *Summer 2010 Registration  **CMMU 4265***
  Explores the relationship between gender and communication, including how language treats women and men differently and verbal and nonverbal differences in women's and men's communication. Cross-listed with COMM 5265. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ECON 3300 - Economics of Crime and Punishment**
  *Summer 2010 Registration  **ECON 3300***
  Presents the economic approach to crime. Teaches economic reasoning in the analysis of the determinants of criminal activity, provides an in-depth analysis of the importance of socioeconomic factors in determining crime. Investigates the relative importance of labor market conditions, deterrence, and other factors in the level of criminal activity. Also covers topics to reduce crime such as, the death penalty, issues around victimless crime and public choices. Prereq: ECON 2022. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSCI 3034 - Race, Gender, Law and Public Policy**
  *Summer 2010 Registration  **P SC 3034***
  Historical overview of race and gender relations in the U.S. and an examination of the treatment of issues of race and gender in the judicial system and public policy. Cross-listed with WGST 3034. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSCI 4124 - Denver Politics**
  *Summer 2010 Registration  **P SC 4124***
  Surveys Denver's dominant political and economic forces and community agendas
that compete with the downtown growth machine. Examines urban renewal strategies, gentrification and grass-roots resistance, and the role of officials in shaping Denver's distribution of wealth and life-opportunities.

**Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSCI 4185 - Corruption in the U.S. and Abroad**  
  *Summer 2010 Registration* **P SC 4185**  
  Explores the causes and consequences of administrative and political corruption in developed and developing countries, and evaluates various anti-corruption strategies. Prereq: PSCI 1001 or 3022. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSCI 4427 - Law, Politics and Justice**  
  *Summer 2010 Registration* **P SC 4427**  
  Analysis of the relationship of politics, law, and justice, particularly the degree to which moral norms and political concerns should and do influence legal standards and their perceived legitimacy. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSCI 4477 - Constitutional Law I**  
  *Summer 2010 Registration* **P SC 4477**  
  Nature and scope of the following American constitutional principles as developed by the U.S. Supreme Court: federalism, jurisdiction of the federal courts, separation of powers, the taxing power, and the commerce power. Case method. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSCI 4487 - Constitutional Law II**  
  *Summer 2010 Registration* **P SC 4487**  
  Continuation of PSCI 4477, with emphasis on the war powers of the president, citizenship, the Bill of Rights, and the Civil War amendments. (Case method.) Note: PSCI 4477 is not a prerequisite for PSCI 4487. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSCI 4545 - Immigration Politics**  
  *Summer 2010 Registration* **P SC 4545**  
  Introduces students to central theories of migration and a survey of immigration law and policy in the 20th century. Highlights experiences of Mexican and Latin American immigrants and related topics, including: U.S.-Mexican foreign relations, bilingual education, undocumented immigration and globalization. Cross-listed with PSCI 5545. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSCI 4837 - Contemporary Issues in Civil Liberties**  
  *Summer 2010 Registration* **P SC 4837**  
  Conflicting rights of individuals and groups in several areas of civil liberties, including
religious groups, free speech, sexual freedom, racial quotas, and anti-governmental actions and publications. This course includes case law, readings, guest speakers and case discussions. Cross-listed with PSCI 5837. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSYC 3135 - Organizational Psychology**
  *Summer 2010 Registration PSY 3135*
  Surveys the behavior of individuals in organizations. Topics include leadership and motivation theories; group dynamics; measuring, understanding, and explaining job attitudes; analyzing and designing jobs; training and organizational development. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSYC 3205 - Human Development I: Child Psychology**
  *Summer 2010 Registration PSY 3205*
  Studies human development covering birth, infancy, toddler, preschool and school-aged child. Covers biological, cognitive and social processes. Prereq: PSYC 1000 or 1005. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSYC 3215 - Human Development II: Adolescence and Adulthood**
  *Summer 2010 Registration PSY 3215*
  Study of human development from adolescence through adulthood and aging. Covers biological, cognitive, and social processes. Prereq: PSYC 1000 or 1005. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSYC 3265 - Drugs, Brain and Behavior**
  *Summer 2010 Registration PSY 3265*
  Explores the pharmacological, biological, and behavioral basis of drug effects. Topics include mechanisms of drug action, brain reward pathways, role of environment and history on drug effects, and the impact of science on drug abuse and medication development. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSYC 3305 - Abnormal Psychology**
  *Summer 2010 Registration PSY 3305*
  Borderline disorders as extreme variations of the normal personality. Major functional and organic disorders. Theories of mental disorders and methods of psychotherapy. Prereq: PSYC 1000. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PSYC 3612 - Domestic Abuse**
Summer 2010 Registration PSY 3612
Examines the nature and extent of domestic violence. Personal characteristics and dynamics that contribute to spouse abuse are reviewed. Theories and research in the general field of family violence, victims' and perpetrators' treatment, and child abuse are discussed. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. **Semester Hours: 3 to 3**
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **SOCY 2462 - Introduction to Social Psychology**
  **Summer 2010 Registration SOC 2462**
  Studies the development and functioning of persons, especially within a group context, and the dynamics of small groups. Emphasis is on import of symbols for human behavior, development of self-concepts, and the processes of competition and cooperation in group dynamics. **Semester Hours: 3 to 3**
  **GT Pathways Category Key:** GT-SS3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **SOCY 3020 - Race and Ethnicity in the U.S.**
  **Summer 2010 Registration SOC 3020**
  A sociological examination of race and ethnicity in contemporary U.S. society. Includes a focus on the nature and causes of prejudice and discrimination. Dominant-minority relations are examined, with an emphasis on current status of minority groups and issues. Prereq: Six hours of social science. **Semester Hours: 3 to 3**
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **SOCY 3600 - Social Relations**
  **Summer 2010 Registration SOC 3600**
  The course has two aims: first, to improve the student's abilities to observe, analyze, and understand his own behavior and that of others in everyday interpersonal situations; and second, to improve his ability to see the small group as a social system. The student is expected to demonstrate his abilities by effective participation in his group as well as in periodic written analyses. **Semester Hours: 3 to 3**
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **SOCY 3700 - Sociology of the Family**
  **Summer 2010 Registration SOC 3700**
  The family as a social institution. Historical development and contemporary cross-cultural analysis, with emphasis on the contemporary American family. Cross-listed with WGST 3700. **Semester Hours: 3 to 3**
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **SOCY 4340 - Juvenile Delinquency**
  **Summer 2010 Registration SOC 4340**
  Factors involved in delinquent behavior. Problems of adjustment of delinquents, and
factors in treatment and post-treatment adjustment. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **SOCY 4440 - Social Stratification**  
  *Summer 2010 Registration SOC 4440*
  The relations among the concentration of income and wealth, economic organization and power, power and class phenomena in the United States. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **SOCY 4460 - Hate Groups and Group Violence**  
  *Summer 2010 Registration SOC 4460*
  Social sciences help us understand the phenomena of hate groups and group violence and contribute toward their elimination. Examples are examined using theoretical perspectives on different levels of analysis and within different areas of research. Cross-listed with SOCY 5680. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **SOCY 4770 - Advanced Topics in Sociology**  
  *Summer 2010 Registration SOC 4770*
  Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Cross-listed with SOCY 5770. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total:** 6 hours

**Students must comply with departmental prerequisites.**

**Examples for Areas of Concentration**

**Juvenile Justice**

- **CRJU 2510 - Juvenile Justice Administration**  
  *Summer 2010 Registration C J 2510*
  This course examines the development, change and operation of the American juvenile justice system and the social factors that shape the identification and treatment of juvenile offenders. Special emphasis is placed on the nature of juvenile law and methods of dealing with youthful offenders. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 3540 - Crime and Delinquency Prevention**  
  *Summer 2010 Registration C J 3540*
  This course provides students with an overview of issues related to crime and
delinquency prevention, both from criminological and criminal justice points of view. Crime prevention programs that encompass both the individual and community levels are examined. Responses to juvenile offenders-ranging from prevention and diversion to institutional corrections and after care are explored in context of youth policy generally. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4520 - Gangs and Criminal Organizations**  
  *Summer 2010 Registration C J 4520*  
  This course traces the origins and historical development of the activities known as "Organized Crime." These crimes are some of the most dangerous to American society and range from the commonly known offenses of gambling and narcotics to the more subtle and sophisticated, less understood but equally serious, crimes of extortion, commercial bribery and political corruption. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **SOCY 3700 - Sociology of the Family**  
  *Summer 2010 Registration SOC 3700*  
  The family as a social institution. Historical development and contemporary cross-cultural analysis, with emphasis on the contemporary American family. Cross-listed with WGST 3700. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **SOCY 4340 - Juvenile Delinquency**  
  *Summer 2010 Registration SOC 4340*  
  Factors involved in delinquent behavior. Problems of adjustment of delinquents, and factors in treatment and post-treatment adjustment. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total: 15 hours**

### Law and Society

- **CRJU 3420 - Pleas, Trials and Sentences**  
  *Summer 2010 Registration C J 3420*  
  This course focuses on analysis of case materials involving pleas, trials and sentences. Course content includes an examination of the basic dimensions of criminality, the specific elements of major crimes, the use of confessions, fair trial procedures and the nature of criminal sanctions including cruel and unusual punishments. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **CRJU 4430 - Law and Society**  
  *Summer 2010 Registration C J 4430*  
  This course introduces students to the scholarly study of law. Students will have an
opportunity to become familiar with social science perspectives of the law, legal institutions, the legal process and the impact of law on behavior, with particular emphasis on the study of criminal behavior and the criminal justice process in American society. Additional topics include theories of law and legality, comparative legal systems, lawyers, judges and juries and the use of social science in the courts. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **CRJU 4440 - Courts and Social Policy**  
  *Summer 2010 Registration C J 4440*
  This course involves the study of emerging trends and issues in the administration of the courts, the emerging role of the judiciary in the administration of programs in the public and private sectors and the implications of court administration on social policy. Course content includes the history of the judicial approaches to the criminal justice administrative process and substantive social policy. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **PSCI 4427 - Law, Politics and Justice**  
  *Summer 2010 Registration P SC 4427*
  Analysis of the relationship of politics, law, and justice, particularly the degree to which moral norms and political concerns should and do influence legal standards and their perceived legitimacy. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **PSCI 3034 - Race, Gender, Law and Public Policy**  
  *Summer 2010 Registration P SC 3034*
  Historical overview of race and gender relations in the U.S. and an examination of the treatment of issues of race and gender in the judicial system and public policy. Cross-listed with WGST 3034. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 15 hours**

**Domestic Violence**

- **CRJU 4140 - Domestic Violence and Crime**  
  *Summer 2010 Registration C J 4140*
  This course examines the criminal justice systems response to intimate partner violence by focusing on the interactions between victims, offenders and the individual components of the criminal justice system (law enforcement and the judiciary). By exploring the dynamics of intimate partner violence this course addresses the theory, history, research, legislation and policy implications related to the criminal justice system's response to violence against women. **Semester Hours:**
CRJU 4170 - Victim Studies
*Summer 2010 Registration C J 4170*
This course involves the scientific study of crime victims and focuses on the physical, emotional and financial harm people suffer at the hands of criminals. Focus is placed on the victim-offender relationships, interactions between victims and the criminal justice system and connections between victims and other social groups and institutions. The theory, history, research, legislation and policy implications related to the social construction of "The victim" are explored. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

CRJU 4530 - Families and Intergenerational Crime
*Summer 2010 Registration C J 4530*
This course focuses on the family as the primary institutional mechanism of social control. The course is structured around social learning theory and explores the relationships between exposure to childhood violence and violence in dating relationships during adolescence and later violent marital relationships. The "Cycle of Violence" is also discussed in terms of the impact on early childhood violence on juvenile delinquency, adult criminality and violent behavior in general. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

COMM 4265 - Gender and Communication
*Summer 2010 Registration CMMU 4265*
Explores the relationship between gender and communication, including how language treats women and men differently and verbal and nonverbal differences in women's and men's communication. Cross-listed with COMM 5265. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

PSYC 3612 - Domestic Abuse
*Summer 2010 Registration PSY 3612*
Examines the nature and extent of domestic violence. Personal characteristics and dynamics that contribute to spouse abuse are reviewed. Theories and research in the general field of family violence, victims' and perpetrators' treatment, and child abuse are discussed. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total: 15 hours**
Economics BA

Requirements for Major

Students majoring in economics for the BA degree must declare such by the time they have completed 60 semester hours and complete a minimum of 40 semester hours in economics. The minimum grade in each UC Denver economics course is a C- (1.7), except that one D- in one economics elective is allowed. A GPA of 2.5 in economics courses taken at UC Denver is required to graduate. No pass/fail grades may count toward the major.

Program Requirements

Required Economics Courses

- **ECON 2012 - Principles of Economics: Macroeconomics**  
  *Summer 2010 Registration ECON 2012*  
  Covers topics of inflation, unemployment, national income, growth and problems of the national economy, stabilization policy, plus others at the discretion of the instructor. Purpose is to teach fundamental principles, to open the field of economics in the way most helpful to further a more detailed study of special problems, and to give those not intending to specialize in the subject an outline of the general principles of economics. **Semester Hours: 3 to 3**  
  **GT Pathways Category Key: GT-SS1**  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ECON 2022 - Principles of Economics: Microeconomics**  
  *Summer 2010 Registration ECON 2022*  
  Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022. **Semester Hours: 3 to 3**  
  **GT Pathways Category Key: GT-SS1**  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ECON 3801 - Introduction to Mathematical Economics**  
  *Summer 2010 Registration ECON 3801*  
  Introduces the use of mathematics in micro- and macro-economic analysis. Emphasis on model-building techniques, solution methods, and economic interpretations. Prereq: MATH 1070, 1080 (or equivalent), ECON 2012 and 2022. **Semester Hours: 3 to 3**  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
• **ECON 3811 - Statistics with Computer Applications**  
*Summer 2010 Registration ECON 3811*  
Introduces statistical methods and their application to quantitative problems in economics and social sciences. Note: Recitation is required. Prereq: College algebra, ECON 2012 and 2022. **Semester Hours:** 4to 4  
Registration is changing. Visit our website for details ucdenver.edu/registration.

• **ECON 4071 - Intermediate Microeconomic Theory**  
*Summer 2010 Registration ECON 4071*  
Production, price and distribution theory. Study of value and distribution theories under conditions of varying market structures, with special references to the contribution of modern theorists. Prereq: ECON 2012, 2022 and 3801. **Semester Hours:** 3to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

• **ECON 4081 - Intermediate Macroeconomic Theory**  
*Summer 2010 Registration ECON 4081*  
National income and employment theory. Primary emphasis placed on determination of employment and prices. Problems of unemployment and inflation analyzed and appropriate policies considered. Prereq: ECON 2012, 2022 and 3801. **Semester Hours:** 3to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

• **ECON 4091 - History of Economic Thought**  
*Summer 2010 Registration ECON 4091*  
Traces the development of economic thought from ancient times to the 20th century. Considers the context in which these ideas were developed and their relationship to modern economic thought and contemporary economic problems. Prereq: ECON 2012 and ECON 2022. Cross-listed with ECON 5090. **Semester Hours:** 3to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

• **ECON 4811 - Introduction to Econometrics**  
*Summer 2010 Registration ECON 4811*  
Introduces econometric methods and their applications to quantitative economic problems. Simple and multiple regression models and problems encountered in their applications are developed in lectures and applied computer projects. Prereq: ECON 3811 or equivalent. **Semester Hours:** 3to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 25 Hours**
Electives

**Economics Courses**

Any five 3-semester-hour courses taken in economics may satisfy this requirement, other than internships and independent studies which require the approval of the department chair.

**Political Science Course**

One political science course. Suggested courses include but are not limited to PSC 1101, American Political System, and PSC 3022, Introduction to Comparative Politics.

**Electives Total: 18 Hours**

**Major Total: 43 Hours**

Graduating seniors must submit the three best papers that the student wrote in any three separate courses taken in the Department of Economics at UC Denver for the outcomes assessment of the economics program. The three papers should be handed in at one time in a folder to the economics office, before the first day of the month in which the student plans to graduate.

At least six of the major courses (18 semester hours), including at least three courses out of ECON 3801, 4071, 4081, 4091 and 4811, must be taken from economics faculty on the Downtown Campus.

Once a student has enrolled at UC Denver, no courses in the major may be taken outside the Downtown Campus economics department without permission from the undergraduate advisor. No math is formally required, except for the college algebra prerequisite for ECON 3801. Students desiring a recommendation to a graduate school in economics, however, should consult with economics faculty regarding additional mathematics courses.

**Electrical Engineering BS**

**Undergraduate Program Objectives**

Objectives of the bachelor of science in electrical engineering are to develop graduates:

- who are immediately productive engineers and can advance their careers on different professional tracks in the engineering industry
who can pursue graduate education in engineering or other fields such as business, medicine and law.

These objectives are consistent with the mission of the University of Colorado Denver, congruent with the goals of the College of Engineering and Applied Science and reflective of the mission of the Department of Electrical Engineering.

**Typical Curriculum for BS (Electrical Engineering)**

**Freshman Year**

**First Semester**

- **CHEM 1130 - Engineering General Chemistry**  
  *Summer 2010 Registration CHEM 1130*  
  A one-semester non-laboratory version of general chemistry for engineers and those science majors who do not require laboratory credit and do not plan to take a second semester of chemistry. Prereq: One year of high school chemistry or Chem 1000 and Math 1110 (or high school equivalent). **Semester Hours:** 5 to 5  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 1201 - Introduction to Electrical Engineering**  
  *Summer 2010 Registration E E 1201*  
  Introduces the field of electrical engineering and the computer -- its primary tool. ELEC faculty members explain the various specialties within the field by demonstration. Word processors, spreadsheets, and engineering software are introduced. Note: This course is not available to students who have taken ELEC 2142. ENGR 1000 cannot be substituted for ELEC 1201. Prereq: High School Trigonometry. **Semester Hours:** 1 to 1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 1510 - Logic Design**  
  *Summer 2010 Registration E E 1510*  
  The design of combinatorial and sequential switching circuits. Topics include Boolean algebra, Boolean function minimization technique, combinatorial circuit analysis and synthesis, synchronous sequential circuit analysis and synthesis, algorithmic state machine design, asynchronous sequential circuit analysis and synthesis. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 1020 - Core Composition I**  
  *Summer 2010 Registration ENGL 1020*  
  Provides opportunities to write for different purposes and audiences, with an emphasis on learning how to respond to various rhetorical situations; improving critical thinking, reading, and writing abilities; understanding various writing processes; and gaining a deeper knowledge of language conventions. **Semester**
Hours: 3 to 3
GT Pathways Category Key: GT-C01
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **MATH 1401 - Calculus I**
  *Summer 2010 Registration MATH 1401*
  First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: Students cannot receive credit for both MATH 1080 and 1401. Prereq: MATH 1120 or 1130 and satisfactory score on the placement exam. **Semester Hours:** 4 to 4
  GT Pathways Category Key: GT-MA1
  Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 16 Hours

Second Semester

- **ELEC 1520 - Embedded Systems Engineering I**
  *Summer 2010 Registration E E 1520*
  Programming concepts are introduced from a hardware design standpoint. Assembly language and the "C" language are used to interface and manipulate hardware. Microcontroller programming for electrical engineering applications is studied. Prereq: ELEC 1510. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ELEC 2531 - Logic Laboratory**
  *Summer 2010 Registration E E 2531*
  Experiments in digital logic utilizing both computer simulation and actual analysis using integrated circuits. Initially, combinational logic circuits are studied, including circuits such as binary adders and multipliers, followed by sequential circuits, including counters. Meters and oscilloscopes are introduced. Use of computer-aided design tools facilitating design, simulation, and implementation of digital systems using field-programmable logic devices are an integral part of the entire course. Prereq/Coreq: ELEC 1510. **Semester Hours:** 1 to 1
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **MATH 2411 - Calculus II**
  *Summer 2010 Registration MATH 2411*
  The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: MATH 1401. **Semester Hours:** 4 to 4
  GT Pathways Category Key: GT-MA1
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **PHYS 2311 - General Physics I: Calculus-Based**
Summer 2010 Registration **PHYS 2311**
Covers vector displacement, uniform and accelerated motion, force, momentum, energy, rotating systems, oscillations, and an introduction to thermodynamics. Emphasis is on basic principles. Coreq: MATH 1401. **Semester Hours:** 4to 4
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **PHYS 2321 - General Physics Lab I**
  *Summer 2010 Registration **PHYS 2321***
  **Semester Hours:** 1to 1
  Registration is changing. Visit our website for details ucdenver.edu/registration.

  Core Curriculum Elective (*see note 1*) (3 semester hours)

  **Total: 16 Hours**

### Sophomore Year

#### First Semester

- **ELEC 2132 - Circuit Analysis I**
  *Summer 2010 Registration **E E 2132***
  Introduces circuit analysis: basic principles, operational amplifier circuits, first-order and second-order circuits, steady-state sinusoidal analysis with phasor mathematics. Prereq: MATH 2411 and PHYS 2311. Cross-listed with CSCI 2132. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ENGL 2030 - Core Composition II**
  *Summer 2010 Registration **ENGL 2030***
  Focuses on academic and other types of research-based writing and builds on the work completed in ENGL 1020. Focuses on critical thinking, reading and writing as well as working with primary and secondary source material to produce a variety of research-based essays. Emphasis on using both print-based and electronic-based information. Prereq: ENGL 1020. **Semester Hours:** 3to 3
  **GT Pathways Category Key:** GT-C02
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **MATH 2421 - Calculus III**
  *Summer 2010 Registration **MATH 2421***
  The third of a three-semester sequence in calculus (MATH 1401, 2411 and 2421). Topics include vectors, vector-valued functions, partial differentiation, differentiation, multiple integration, and vector calculus. Prereq: MATH 2411. **Semester Hours:** 4to 4
  **GT Pathways Category Key:** GT-MA1
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **MATH 3195 - Linear Algebra and Differential Equations**
Summer 2010 Registration **MATH 3195**
Presents the essential ideas and methods of linear algebra and differential equations, emphasizing the connections between and the applications of both subjects. The course is designed for students in the sciences and engineering. Note: No co-credit with MATH 3200 and MATH 3191. Prereq: MATH 2411. **Semester Hours:** 4to 4
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **PHYS 2331 - General Physics II: Calculus-Based**
  **Summer 2010 Registration **PHYS 2331**
Covers electrostatics, magnetic fields, electromagnetic waves (including light), and optics. Prereq: PHYS 2311. Coreq: MATH 2411. **Semester Hours:** 4to 4
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total: 18 Hours**

**Second Semester**

- **ELEC 2142 - Circuit Analysis II**
  **Summer 2010 Registration **E E 2142**
Sequential course after ELEC 2132. Topics include: Solution of circuits using Laplace transforms, frequency domain analysis, additional steady-state solutions, Bode plots, active filters, pulses, impulses, and computer-aided analysis. Prereq: ELEC 2132, MATH 2421, PHYS 2331. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 2552 - Sophomore Circuits Laboratory**
  **Summer 2010 Registration **E E 2552**
Conduct experiments in circuit measurement using oscilloscopes, power supplies, and function generators. Verify basic circuitry, basic circuit theorems such as Ohm's Law, Kirchoff's Law, and Thevenin's theorem and Norton's theorem. Learn by experiments: impedance functions, transfer functions, resonance, Fourier series and analog filters. Prereq/coreq: ELEC 2142. **Semester Hours:** 1to 1
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 2520 - Embedded Systems Engineering 2**
  **Summer 2010 Registration **E E 2520**
A second semester computer engineering course covering basic computer architecture including CPU's, memory, peripherals, and operating systems including development tools, Kernel selection, file systems, and storage device manipulation, boot loaders, USB, networking, device drivers, and real-time operating system usage. Prereq: ELEC 1520. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total: 13 Hours**
Junior Year

First Semester

- **ELEC 3133 - Electromagnetic Fields**  
  *Summer 2010 Registration E E 3133*  
  Basic material is covered, including: vector analysis in generalized coordinates, Maxwell's equations postulated for free space and extended to material regions and boundary conditions, uniform plane waves for free space and for materials, and static and quasi-static electric and magnetic fields. Prereq: ELEC 2132, MATH 3195, 2421 and PHYS 2331. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

- **ELEC 3215 - Electronics I**  
  *Summer 2010 Registration E E 3215*  
  The learning objective is fundamental semiconductor theory as applied to electronic circuits. Topics include: semiconductor theory, P-N junctions and diode applications, power supply design, transistor (BJT) theory and applications, low-frequency amplifiers, FET and MOSFET devices. Prereq: ELEC 2132, PHYS 2331 and CHEM 1130.  
  **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

- **ELEC 3316 - Linear Systems Theory**  
  *Summer 2010 Registration E E 3316*  
  Introduces the fundamentals of signals and systems analysis. Topics include: time domain analysis of continuous and discrete time systems, frequency domain (Laplace and z-transform) analysis, applications to filters and feedback systems, Fourier transform for both continuous and discrete time signals, sampling and signal reconstruction, applications to communication systems and state space representation. Learning experience is enhanced by using MATLAB-based examples and experiments. Prereq: ELEC 2142.  
  **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

- **ELEC 3651 - Digital Hardware Design**  
  *Summer 2010 Registration E E 3651*  
  The specification and design of large digital hardware systems. Applications include using a hardware description language and simple digital control circuits. Prereq: ELEC 2531 and ELEC 2520.  
  **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](ucdenver.edu/registration).

- **ELEC 3715 - Electronics Laboratory**  
  *Summer 2010 Registration E E 3715*  
  Design and experimental verification of the operation of filter circuits, power supply circuits, transistor amplifier circuits and FET circuits. Prereq: ELEC 2552.
Prereq/Coreq: ELEC 3215  
**Semester Hours:** 1 to 1
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

Core Curriculum Elective *(see note 1)* (3 semester hours)

**Total: 16 Hours**

### Second Semester

- **ELEC 3164 - Energy Conversion**  
  *Summer 2010 Registration E E 3164*  
  Theory of transformers. Energy conversion concepts. Basic rotating energy converters, including direct current, synchronous and induction machines and applications. Prereq: ELEC 2142. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 3225 - Electronics II**  
  *Summer 2010 Registration E E 3225*  
  BJT and FET transistor models at high frequencies, multi-stage amplifiers, frequency response of amplifiers. Feedback, operational amplifiers, oscillators, power amplifiers, and introduction to power electronics. Prereq: ELEC 2142 and 3215. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 3724 - Energy Conversion Laboratory**  
  *Summer 2010 Registration E E 3724*  
  Basic electro-mechanical energy conversion concepts as applied to the synchronous machine, induction machine, and DC machine; the transformer; applications. Prereq: ELEC 2142. Prereq or Coreq: ELEC 3164. **Semester Hours:** 1 to 1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 3735 - Junior Laboratory**  
  *Summer 2010 Registration E E 3735*  
  Design and measure: several nonlinear op-amp circuits, a multi-stage amplifier, and a complementary-symmetry output stage. Oral presentations on experiments to be given. Prereq: ELEC 3715. Prereq/Coreq: ELEC 3225. **Semester Hours:** 1 to 1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 3817 - Engineering Probability and Statistics**  
  *Summer 2010 Registration E E 3817*  
  Topics include: definition of probability, conditional probability, independence, combined experiments and Bernoulli trials, random variables, joint distribution and density functions, correlations, sample mean and variance. Also, introduction to random processes, auto and cross correlation functions, spectral density of random
signals, responses of a linear system to random inputs. Prereq: MATH 3195 and 2421. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
Core Curriculum Elective *(see note 1)* (3 semester hours)

**Total:** 17 Hours

### Senior Year

#### First Semester

- **ELEC 4309 - Senior Design Project I**
  *
  Summer 2010 Registration E E 4309*
  Design methodology and tools, project planning and team building, ethics in engineering and research, career planning and portfolio building. Project designs are completed and presented to the class. Prereq: Students must complete their Senior/30 hour check prior to enrollment. Prereq/Coreq: all required ELEC 3000-level classes and labs. ELEC 4309 and ELEC 4319 must be completed in subsequent academic semesters. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

  Engineering Science Elective *(see note 4)* (3 semester hours)
  ELEC Specialty and Laboratory *(see note 5)* (4 semester hours)
  ELEC Specialty Course (3 semester hours)

  **Total:** 16 Hours

#### Second Semester

- **ELEC 4319 - Senior Design Project II**
  *
  Summer 2010 Registration E E 4319*
  Project designs completed in ELEC 4309 are constructed and tested. Oral and written presentations of the completed project performance are required. Prereq: ELEC 4309. All required ELEC 3000-level classes and labs. Students must complete their Graduation Agreement prior to enrollment. ELEC 4309 and ELEC 4319 must be completed in subsequent academic semesters. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

  Professional Elective *(see note 3)* (3 semester hours)
  ELEC Specialty and Laboratory *(see note 6)* (4 semester hours)
  ELEC Specialty *(see note 6)* (3 semester hours)
  Core Curriculum Elective *(see note 1)* (3 semester hours)
Total: 16 Hours

Program Total: 128 Hours

The particular curriculum to be satisfied by each student is the one published in the catalog current at the time of his/her 30-hour senior checkout. A graduation agreement should be requested by each student after completing registration for his/her last semester. Additional information is contained in the “E E Advisement Guide.” Students should also refer to the section in this catalog on “Academic Policies of the College of Engineering and Applied Science.”

1. Common core requirements of the College of Engineering and Applied Science are outlined in the section titled “Undergraduate Core Curriculum in Engineering” in this catalog or in the “E E Advisement Guide.”
2. All electrical engineering students must satisfactorily complete ELEC 4309, Senior Design Project I, and ELEC 4319, Senior Design Project II, in consecutive semesters.
3. Professional electives may be selected from an approved list of upper-division or graduate-level courses or cooperative education. The electrical engineering advisor must be consulted prior to the selection of these electives.
4. The engineering science elective may be satisfied by taking ENGR 3012, Thermodynamics.
5. Seventeen semester hours of electrical engineering elective and specialty courses in association with the laboratories are required.

Laboratory Requirements

Students are required to take at least two laboratories out of the following six groups. Theory components are either prerequisites or corequisites to the laboratory components. The theory component may be taken as a specialty course.

- **ELEC 4136 - Control Systems Analysis**
  *Summer 2010 Registration E E 4136*
  Introduces students to the fundamentals of analysis and design of feedback systems. Topics include: mathematical models of linear continuous-time systems applied to modeling physical systems in the time and frequency domain, control system characteristics, Routh’s stability and transient response analysis, Nyquist stability and polar plots, analysis and design of linear control systems by root locus and frequency response, methods, compensator implementation, finite-precision numerical effects, round-off errors, and computer-based design applications. Prereq: ELEC 3316; Prereq/Coreq: ELEC 3817. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
• **ELEC 4276 - Digital Control Systems**  
  *Summer 2010 Registration E E 4276*
  Topics to be covered include: discrete-time systems and the z-transform, characteristics of open-loop and closed-loop discrete-time systems, time-response characteristics and stability analysis, design of digital and hybrid control systems using z-transform, root locus, frequency domain, and state variable compensation techniques, compensator on, implementation, and computer-based design applications. Prereq: ELEC 3316; Prereq or Coreq: ELEC 3817. **Semester Hours:** 3to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **ELEC 4406 - Control Systems Laboratory**  
  *Summer 2010 Registration E E 4406*
  This lab includes system identification, design of velocity control systems, design of PID controllers and control systems using state variable feedback. Prereq: ELEC 3225, 3316, 3735 and 3817. **Semester Hours:** 1to 1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **ELEC 4225 - Advanced Electronics**  
  *Summer 2010 Registration E E 4225*
  Switching state models of discrete components and integrated circuits, including logic gates, comparators, and operational amplifiers. Input, output, and transfer characteristics. Non-ideal properties. Analog-digital and digital-analog conversion. Mos-integrated circuits. Prereq: ELEC 3215, 3225, 3735. **Semester Hours:** 3to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **ELEC 4435 - Advanced Electronics Laboratory**  
  *Summer 2010 Registration E E 4435*
  Projects related to digital logic, analog and digital switches, A/D and D/A converters, and design of signal filters. Prereq: ELEC 3225 and 3735; Prereq or Coreq: ELEC 4225. **Semester Hours:** 1to 1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

• **ELEC 4247 - Communication Theory**  
  *Summer 2010 Registration E E 4247*
  Introduces the principles of analog and digital communication systems. Series expansion and Fourier Series and transforms. The sampling theorem. Stochastic principles and noise. Linear systems and Fourier analysis. Design of transmitters and receivers: modulation and demodulation schemes. Some information theoretic concepts: source coding, channel coding, channel capacity and performance
measures. Prereq: ELEC 3316 and 3817. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4248 - Digital Communication Systems**
  *Summer 2010 Registration E E 4248*
  Introduces digital communication systems covering elements of information theory; mathematical representation of signals and systems; modulation and demodulation for the additive Gaussian noise channel; performance analysis of various transmission formats; synchronization; coded waveforms; decoding algorithms; and other related topics. Prereq: ELEC 3316, 3817; recommended ELEC 4247. Cross-listed with ELEC 5248. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4467 - Communications Laboratory**
  *Summer 2010 Registration E E 4467*
  Analysis and design in three main areas: traditional analog communications at low and medium frequencies, digital communications, and microwave communications systems. Extensive use of spectrum analysis from low frequencies up to microwave range. Projects include noise, AM, FN, PM, PLL, sampling, quantizing, encoding, TDM, FSK, QPSK, 16QAM, receivers, and satellite communications systems. Prereq: ELEC 3735; Prereq or Coreq: ELEC 4247 or ELEC 4248. **Semester Hours:** 1 to 1
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4133 - Advanced Electromagnetic Fields**
  *Summer 2010 Registration E E 4133*
  Topics include: Poynting's power theorem, reflection and transmission of uniform plane waves in layered media, two-conductor transmission lines, rectangular wave guides, Smith Chart elements of radiation ands antenna theory. Prereq: ELEC 3133. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4423 - Microwave Laboratory**
  *Summer 2010 Registration E E 4423*
  Microwave design and matching of coaxial and waveguide devices, transmission lines and systems. Devices include attenuators, directional couplers, antennas, ferrites, detectors, mixers, oscillators and amplifiers. Systems are represented by modern X-band transceivers and multi-band satellite systems. Project in microwave computer-aided design of microwave transistor amplifiers. Prereq: ELEC 3225, 3735 and 3133. **Semester Hours:** 1 to 1
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4501 - Microprocessor Based Design**
Summer 2010 Registration **E E 4501**
Covers advanced treatment of embedded system design using microprocessors. Analog input circuitry is interfaced to a microprocessor, and a PC board layout is created to develop a complete system design. Software/Operating System is implemented for real time I/O. Prereq: ELEC 3225, ELEC 3133 and ELEC 3735. Coreq: ELEC 3651. Cross-listed with ELEC 5501. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4521 - Microprocessor Laboratory**
  Summer 2010 Registration **E E 4521**
  Provides support for the projects assigned in ELEC 4501 - a complete embedded system is designed, built and tested. Coreq: ELEC 4501. **Semester Hours:** 1to 1
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4511 - Hardware-Software Interface**
  Summer 2010 Registration **E E 4511**
  Computer engineering methods in hardware and software design applied to problems drawn from the mini- and micro-computer systems field. Hardware and software techniques for the design of combined hardware or software are developed. Interface and real-time programming techniques are considered. Graduate level requires additional projects and homework. Prereq: ELEC 3651 and ELEC 3735. Cross-listed with ELEC 5511. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4561 - Hardware-Software Lab**
  Summer 2010 Registration **E E 4561**
  Projects related to the software interface of a processor to external devices. Topics include A/D converters, serial and parallel interfaces. Coreq: ELEC 4511. **Semester Hours:** 1to 1
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

Other courses available (without any laboratory component) as electrical engineering specialty courses include the following:

- **ELEC 4174 - Power Electronic Systems**
  Summer 2010 Registration **E E 4174**
  Topics to be covered include: power electronics fundamentals and applications in power systems; uncontrolled, semi-controlled and fully controlled power semiconductors; converters design and control. Prereq: ELEC 3164. Cross-listed with ELEC 5174. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4184 - Power Systems Analysis**
**Summer 2010 Registration E E 4184**

Topics to be covered include: complex power; per-unit quantities; modeling of generators, transformers and transmission lines; power flow problem; economic dispatch; faults and sequence networks; and an introduction to power system protection and dynamics. Prereq: ELEC 3164. Cross-listed with ELEC 5184. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4025 - Device Electronics**
  **Summer 2010 Registration E E 4025**
  A course relating performance and limitations of solid state devices to their structures and technology. For both advanced circuit and device engineers. Semiconductor physics and technology, pn-junction and MOS devices used in modern integrated circuits. Prereq: ELEC 3225 and senior standing. Cross-listed with ELEC 5025. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4555 - VLSI Circuit Simulation**
  **Summer 2010 Registration E E 4555**
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Computer Engineering Option**

Students can add a computer engineering emphasis to their electrical engineering degree program by making the following changes in the curriculum described above:

**Junior Year**

**First Semester**

Substitute ELEC 3651, Digital Hardware Design, for ELEC 3817, Engineering Probability and Statistics.

- **ELEC 3651 - Digital Hardware Design**
  **Summer 2010 Registration E E 3651**
  The specification and design of large digital hardware systems. Applications include using a hardware description language and simple digital control circuits. Prereq: ELEC 2531 and ELEC 2520. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
Second Semester

Substitute ELEC 3817, Engineering Probability and Statistics, ELEC 3701, Professional Elective, for ELEC 3651, Digital Hardware Design, ELEC 3724, Power Laboratory, and a humanities and social sciences course.

- **ELEC 3817 - Engineering Probability and Statistics**  
  *Summer 2010 Registration E E 3817*
  Topics include: definition of probability, conditional probability, independence, combined experiments and Bernoulli trials, random variables, joint distribution and density functions, correlations, sample mean and variance. Also, introduction to random processes, auto and cross correlation functions, spectral density of random signals, responses of a linear system to random inputs. Prereq: MATH 3195 and 2421. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

Senior Year

First Semester

Choose ELEC 4501, Microprocessor-based Design, and ELEC 4521, Microprocessor Laboratory, as one electrical engineering specialty and laboratory selection.

- **ELEC 4501 - Microprocessor Based Design**  
  *Summer 2010 Registration E E 4501*
  Covers advanced treatment of embedded system design using microprocessors. Analog input circuitry is interfaced to a microprocessor, and a PC board layout is created to develop a complete system design. Software/Operating System is implemented for real time I/O. Prereq: ELEC 3225, ELEC 3133 and ELEC 3735. Coreq: ELEC 3651. Cross-listed with ELEC 5501. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4521 - Microprocessor Laboratory**  
  *Summer 2010 Registration E E 4521*
  Provides support for the projects assigned in ELEC 4501 - a complete embedded system is designed, built and tested. Coreq: ELEC 4501. **Semester Hours:** 1 to 1  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

Second Semester

Choose ELEC 4511, Hardware-Software Interface Design, ELEC 4561, Hardware-Software Laboratory, and a humanities and social sciences elective as professional elective and electrical engineering specialty and laboratory selections.

- **ELEC 4511 - Hardware-Software Interface**
**Summer 2010 Registration E E 4511**

Computer engineering methods in hardware and software design applied to problems drawn from the mini- and micro-computer systems field. Hardware and software techniques for the design of combined hardware or software are developed. Interface and real-time programming techniques are considered. Graduate level requires additional projects and homework. Prereq: ELEC 3651 and ELEC 3735. Cross-listed with ELEC 5511. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ELEC 4561 - Hardware-Software Lab**

**Summer 2010 Registration E E 4561**

Projects related to the software interface of a processor to external devices. Topics include A/D converters, serial and parallel interfaces. Coreq: ELEC 4511. **Semester Hours:** 1 to 1

Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

---

**English BA**

The course of study offered by the Department of English is designed to develop a student’s ability to read literature responsibly and imaginatively, to foster an understanding and appreciation of our literary inheritance and to provide the historical perspective from which to evaluate contemporary writing. Careful study of the use of the English language also should help a student to resist the misuse and corruption of language in politics, the media and elsewhere. Students who complete the program in English are expected to have mastered the ability to express their ideas in clear and succinct prose.

**Requirements for the English Major**

Students majoring in English must present a total of 39 hours in the literature, film and/or creative writing options (excluding ENGL 1010, 1020 and 2030), of which 27 hours must be earned in upper-division courses. None of the required 39 hours may be taken on a pass/fail basis. Only courses completed with a grade of C (2.0) or above may be counted toward the major. At least 15 upper-division hours of the student's work in English must be taken from English faculty on the Downtown Campus. Students planning to major in English must consult with an advisor as soon as possible. Students must choose one of the three options.

**LITERATURE OPTION**

**REQUIRED COURSES**

- **ENGL 1400 - Introduction to Literary Studies**
Summer 2010 Registration ENGL 1400
Helps students develop a sense of literary techniques and issues so they can bring an improved critical sensibility to their reading and writing. Note: Designed for students who plan to major in English or who are seriously interested in literature. Prereq or Coreq: ENGL 1020. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).
ENGL 1400 will be replaced during 2010-11 by ENGL 2450 when it becomes available.

- **ENGL 3001 - Critical Writing**
  *Summer 2010 Registration ENGL 3001*
  Introduces literary theory, which provides extensive practice in writing about literature. Note: Required for literature majors, and should be taken in the sophomore or junior year. Prereq: ENGL 1400 and two literature courses. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4999 - Literary Studies Senior Seminar**
  *Summer 2010 Registration ENGL 4999*
  Allows students to pursue, learn, and apply advanced methodologies such as bibliographical, archival/historical, or cultural and ideological, and apply them to a single author, genre, or period of text. Students engage in research under the tutelage of their instructor. Note: Senior capstone course for literature majors in the literary studies track. Prereq: Senior standing and ENGL 3001 previously completed or concurrent. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total: 9 Hours**

**OPTION-SPECIFIC DISTRIBUTION REQUIREMENTS**

Choose one course from each of the six areas below. No course is repeatable.

**Historical Survey**

- **ENGL 4080 - History of the English Language**
  *Summer 2010 Registration ENGL 4080*
  Examines how English has changed since A.D. 800 through examples of writing from different periods, with attention to the way various groups have enriched our vocabulary and altered our syntax. Prereq: ENGL 2070 or one year of a college foreign language. Cross-listed with ENGL 5080. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4166 - History of American Poetry**
**Summer 2010 Registration ENGL 4166**
Examines major American poets and poetic trends from the colonial period to the present, with attention to cultural contexts and to development of distinctively American practices. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5166. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4200 - History of the English Novel I**
  **Summer 2010 Registration ENGL 4200**
  Rise and development of the English novel from its beginnings in the 18th century through the mid-19th century, including such writers as Defoe, Fielding, Austen and Shelley. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5200. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4210 - History of the English Novel II**
  **Summer 2010 Registration ENGL 4210**
  Overview of the English novel from mid-19th century to World War II, emphasizing the important developments which the form underwent in the hands of notable novelists, including Charles Dickens, the Brontes, George Eliot, Henry James, Joseph Conrad, D.H. Lawrence and Virginia Woolf. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5210. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4230 - The American Novel**
  **Summer 2010 Registration ENGL 4230**
  Surveys major developments in the American novel from the 18th century to the 21st century. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5230. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4236 - The American Short Story**
  **Summer 2010 Registration ENGL 4236**
  Traces the development of the short story in the United States, from its beginnings in colonial tales to its contemporary renaissance as a dominant literary form. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5236. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4300 - History of British Drama**
  **Summer 2010 Registration ENGL 4300**
  Intended as a survey of British drama from the miracle plays of the medieval period, through the Renaissance and Restoration, to the "kitchen sink" realists of the 1960s.
Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5300. **Semester Hours:** 3 to 3  
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4320 - History of Poetry in English**  
  **Summer 2010 Registration ENGL 4320**  
  Studies the major schools and eras of English prosody, including the poetry of Great Britain and the United States, from the medieval period to the present. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5320. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4350 - History of American Drama**  
  **Summer 2010 Registration ENGL 4350**  
  Studies American drama from its foundations in the 18th century through movements including realism, expressionism, symbolism, agit-prop, black nationalism, feminism, and performance art. Drama read as both text and performance, as sometimes supporting the status quo and as sometimes subverting it. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5350. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Old English, Medieval Language and Literature**

- **ENGL 4400 - Old English I**  
  **Summer 2010 Registration ENGL 4400**  
  Instruction in the Old English language. Prereq: Must have 30 semester hours or permission of the instructor. One year of college foreign language or ENGL 2070 recommended. Cross-listed with ENGL 5400. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4500 - Medieval Literature**  
  **Summer 2010 Registration ENGL 4500**  
  Introduces representative writers from the Norman Conquest to about 1550. Emphasis on a variety of genres, including religious poetry, Arthurian romance, dream vision and drama. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5500. **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4510 - Whores and Saints: Medieval Women**  
  **Summer 2010 Registration ENGL 4510**  
  Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Prereq: Nine hours of
literature courses or instructor permission. Cross-listed with ENGL 5510, RLST 4730 and RLST 5730, WGST 4510. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4730 - Chaucer's Canterbury Tales**
  **Summer 2010 Registration ENGL 4730**
  An intensive study of Chaucer's Canterbury Tales, as an introduction to the historical, ideological, and literary genres of the period. Learn to read Middle English by studying Chaucer's text. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5730. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4731 - Chaucer's Early Poetry**
  **Summer 2010 Registration ENGL 4731**
  Examines Chaucer's dream visions and Troilus and Criseyde through sources and historical and ideological factors influencing the texts. Learn to read Middle English by reading Chaucer's texts. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5731. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Renaissance, Restoration and 18th Century British Literature**

- **ENGL 3661 - Shakespeare**
  **Summer 2010 Registration ENGL 3661**
  Introduces some of Shakespeare's major plays and poems, which usually includes Richard II, Romeo and Juliet, Measure for Measure, Othello, King Lear, Anthony and Cleopatra and The Tempest. Prereq: Must have 30 semester hours or permission of the instructor. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4520 - English Renaissance**
  **Summer 2010 Registration ENGL 4520**
  Introduces some of the important writers in this major period of English literature (1500-1660). Special attention to the works of Sidney, Milton, Spenser, Shakespeare, Donne, Herbert and Johnson. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5520. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4530 - Milton**
  **Summer 2010 Registration ENGL 4530**
  Extensive reading in John Milton's poetry (Lycidas, Paradise Lost, Paradise Regained, Samson Agonistes) as well as his political, social and theological writings. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed
with ENGL 5530. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ENGL 4540 - Restoration and the 18th Century**  
  *Summer 2010 Registration ENGL 4540*  
  Introduces some of the important writers of the "Age of Reason." Emphasis on such figures as Bunyan, Burke, Dryden, Johnson, Pope and Swift. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5540. Semester Hours: 3 to 3  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

### Eighteenth- and Nineteenth-Century British Literature

- **ENGL 4200 - History of the English Novel I**  
  *Summer 2010 Registration ENGL 4200*  
  Rise and development of the English novel from its beginnings in the 18th century through the mid-19th century, including such writers as Defoe, Fielding, Austen and Shelley. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5200. Semester Hours: 3 to 3  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ENGL 4210 - History of the English Novel II**  
  *Summer 2010 Registration ENGL 4210*  
  Overview of the English novel from mid-19th century to World War II, emphasizing the important developments which the form underwent in the hands of notable novelists, including Charles Dickens, the Brontes, George Eliot, Henry James, Joseph Conrad, D.H. Lawrence and Virginia Woolf. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5210. Semester Hours: 3 to 3  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ENGL 4560 - English Romanticism**  
  *Summer 2010 Registration ENGL 4560*  
  Studies major works of the chief English writers of the first part of the 19th century, with emphasis on such representative figures as Wollstonecraft, Godwin, Blake, Wordsworth, Coleridge, Hazlitt, Byron, Keats and Shelley. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5560. Semester Hours: 3 to 3  
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ENGL 4580 - The Victorian Age**  
  *Summer 2010 Registration ENGL 4580*  
  Examines the main currents of Victorian thought in prose and poetry from about 1830 to the end of the century, including such writers as Browning, Carlyle, Mill, Newman, Ruskin, Swinburne and Tennyson. Prereq: Must have 30 semester hours
American Literature

- **ENGL 3700** - American Literature to the Civil War
  
  *Summer 2010 Registration ENGL 3700*
  
  Surveys American literature from the colonial era to the Civil War. Prereq: ENGL 1020. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 3750** - American Literature from the Civil War
  
  *Summer 2010 Registration ENGL 3750*
  
  Surveys American literature from the Civil War to the contemporary era. Prereq: ENGL 1020. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4166** - History of American Poetry
  
  *Summer 2010 Registration ENGL 4166*
  
  Examines major American poets and poetic trends from the colonial period to the present, with attention to cultural contexts and to development of distinctively American practices. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5166. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4220** - African-American Literature
  
  *Summer 2010 Registration ENGL 4220*
  
  Surveys African-American literature with special emphasis on post-Civil War writing. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5220, ETST 4220. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4230** - The American Novel
  
  *Summer 2010 Registration ENGL 4230*
  
  Surveys major developments in the American novel from the 18th century to the 21st century. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5230. **Semester Hours:** 3 to 3
  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4236** - The American Short Story
  
  *Summer 2010 Registration ENGL 4236*
  
  Traces the development of the short story in the United States, from its beginnings in colonial tales to its contemporary renaissance as a dominant literary form. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL
Modern and Contemporary Literature

- **ENGL 4350 - History of American Drama**  
  *Summer 2010 Registration ENGL 4350*
  Studies American drama from its foundations in the 18th century through movements including realism, expressionism, symbolism, agit-prop, black nationalism, feminism, and performance art. Drama read as both text and performance, as sometimes supporting the status quo and as sometimes subverting it. **Prereq:** Must have 30 semester hours or permission of the instructor. **Cross-listed with ENGL 5350.**  
  **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 3450 - Twentieth Century Women Writers**  
  *Summer 2010 Registration ENGL 3450*
  Examines how women write about a specific theme, such as home, work, family, the "Other," as well as how women's writing may differ from men's. Theme and genre vary. **Prereq:** Must have 30 semester hours or permission of the instructor. **Cross-listed with WGST 3450.**  
  **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 3480 - Modern Drama**  
  *Summer 2010 Registration ENGL 3480*
  How does drama change from the pioneering realism of Ibsen and Chekhov to the absurdism of Ionesco and Pinter and beyond? The course covers plays in English and translation from the late nineteenth to the twenty-first century, with attention to performance as well as literary texts. **Prereq:** Must have 30 hours or the permission of the instructor.  
  **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4250 - Twentieth Century Fiction**  
  *Summer 2010 Registration ENGL 4250*
  Deals with novels originating in a variety of countries in an effort to see the similarities and differences that varying nationalities bring to the genre. **Prereq:** Must have 30 semester hours or permission of the instructor. **Cross-listed with ENGL 5250.**  
  **Semester Hours:** 3 to 3  
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4460 - Contemporary World Literature**  
  *Summer 2010 Registration ENGL 4460*
  Surveys literature written by world writers since World War II. **Prereq:** Must have 30 semester hours or permission of the instructor. **Note:** Texts read in English. **Cross-listed with ENGL 5460.**

  **Summer 2010 Registration ENGL 3750**
  Surveys American literature from the Civil War to the contemporary era. Prereq: ENGL 1020. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **• ENGL 4000 - Studies of Major Authors**
  **Summer 2010 Registration ENGL 4000**
  An intensive study of works of one major British or American author. Examples: Dickens, Woolf or James. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5000. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4166 - History of American Poetry**
  **Summer 2010 Registration ENGL 4166**
  Examines major American poets and poetic trends from the colonial period to the present, with attention to cultural contexts and to development of distinctively American practices. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5166. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4200 - History of the English Novel I**
  **Summer 2010 Registration ENGL 4200**
  Rise and development of the English novel from its beginnings in the 18th century through the mid-19th century, including such writers as Defoe, Fielding, Austen and Shelley. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5200. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4210 - History of the English Novel II**
  **Summer 2010 Registration ENGL 4210**
  Overview of the English novel from mid-19th century to World War II, emphasizing the important developments which the form underwent in the hands of notable
novelists, including Charles Dickens, the Brontes, George Eliot, Henry James, Joseph Conrad, D.H. Lawrence and Virginia Woolf. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5210. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ENGL 4220 - African-American Literature**
  *Summer 2010 Registration* **ENGL 4220**
  Surveys African-American literature with special emphasis on post-Civil War writing. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5220, ETST 4220. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ENGL 4230 - The American Novel**
  *Summer 2010 Registration* **ENGL 4230**
  Surveys major developments in the American novel from the 18th century to the 21st century. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5230. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ENGL 4235 - Faulkner**
  *Summer 2010 Registration* **ENGL 4235**
  Studies the works of Faulkner's high period with special attention to southern themes and Faulkner's experimentation with narrative form. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5235. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ENGL 4236 - The American Short Story**
  *Summer 2010 Registration* **ENGL 4236**
  Traces the development of the short story in the United States, from its beginnings in colonial tales to its contemporary renaissance as a dominant literary form. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5236. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ENGL 4250 - Twentieth Century Fiction**
  *Summer 2010 Registration* **ENGL 4250**
  Deals with novels originating in a variety of countries in an effort to see the similarities and differences that varying nationalities bring to the genre. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5250. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details ucdenver.edu/registration.

- **ENGL 4460 - Contemporary World Literature**
Summer 2010 Registration **ENGL 4460**
Surveys literature written by world writers since World War II. Prereq: Must have 30 semester hours or permission of the instructor. Note: Texts read in English. Cross-listed with ENGL 5460. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

-OR-

- **ENGL 4600 - Modernism**
  *Summer 2010 Registration ENGL 4600*
  Modernist literature from the beginning of the 20th century through World War II, including such writers as Eliot, Joyce, Forester, Ford, Yeats, Woolf and Barnes. Examines the social-political influences as well as the aesthetic and stylistic elements which define modernist writing. Prereq: Must have 30 semester hours or permission of the instructor.   Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4300 - History of British Drama**
  *Summer 2010 Registration ENGL 4300*
  Intended as a survey of British drama from the miracle plays of the medieval period, through the Renaissance and Restoration, to the "kitchen sink" realists of the 1960s. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5300. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

-OR-

- **ENGL 4350 - History of American Drama**
  *Summer 2010 Registration ENGL 4350*
  Studies American drama from its foundations in the 18th century through movements including realism, expressionism, symbolism, agit-prop, black nationalism, feminism, and performance art. Drama read as both text and performance, as sometimes supporting the status quo and as sometimes subverting it. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5350. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4320 - History of Poetry in English**
  *Summer 2010 Registration ENGL 4320*
  Studies the major schools and eras of English prosody, including the poetry of Great Britain and the United States, from the medieval period to the present. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5320. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4500 - Medieval Literature**
Summer 2010 Registration **ENGL 4500**
Introduces representative writers from the Norman Conquest to about 1550. Emphasis on a variety of genres, including religious poetry, Arthurian romance, dream vision and drama. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5500. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- ENGL 4510 - Whores and Saints: Medieval Women

  **Summer 2010 Registration ENGL 4510**
  Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Prereq: Nine hours of literature courses or instructor permission. Cross-listed with ENGL 5510, RLST 4730 and RLST 5730, WGST 4510. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- ENGL 4520 - English Renaissance

  **Summer 2010 Registration ENGL 4520**
  Introduces some of the important writers in this major period of English literature (1500-1660). Special attention to the works of Sidney, Milton, Spenser, Shakespeare, Donne, Herbert and Johnson. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5520. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- ENGL 4530 - Milton

  **Summer 2010 Registration ENGL 4530**
  Extensive reading in John Milton's poetry (Lycidas, Paradise Lost, Paradise Regained, Samson Agonistes) as well as his political, social and theological writings. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5530. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- ENGL 4540 - Restoration and the 18th Century

  **Summer 2010 Registration ENGL 4540**
  Introduces some of the important writers of the "Age of Reason." Emphasis on such figures as Bunyan, Burke, Dryden, Johnson, Pope and Swift. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5540. **Semester Hours:** 3 to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- ENGL 4560 - English Romanticism

  **Summer 2010 Registration ENGL 4560**
  Studies major works of the chief English writers of the first part of the 19th century, with emphasis on such representative figures as Wollstonecraft, Godwin, Blake,
Wordsworth, Coleridge, Hazlitt, Byron, Keats and Shelley. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5560. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4580 - The Victorian Age**
  *Summer 2010 Registration ENGL 4580*
  Examines the main currents of Victorian thought in prose and poetry from about 1830 to the end of the century, including such writers as Browning, Carlyle, Mill, Newman, Ruskin, Swinburne and Tennyson. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5580. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4730 - Chaucer's Canterbury Tales**
  *Summer 2010 Registration ENGL 4730*
  An intensive study of Chaucer's Canterbury Tales, as an introduction to the historical, ideological, and literary genres of the period. Learn to read Middle English by studying Chaucer's text. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5730. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 4731 - Chaucer's Early Poetry**
  *Summer 2010 Registration ENGL 4731*
  Examines Chaucer's dream visions and Troilus and Criseyde through sources and historical and ideological factors influencing the texts. Learn to read Middle English by reading Chaucer's texts. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5731. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

**Total: 9 Hours**

* Repeatable if topics differ

**Choose one:**

- **ENGL 2390 - Writing the Short Script**
  *Summer 2010 Registration ENGL 2390*
  Examines narrative screenwriting elements--premise, theme, conflict, protagonist/antagonist, setting/situation, dialogue, plot structure, imagery--required to create a strong narrative short film. Prereq: ENGL 1020. **Semester Hours:** 3to 3
  Registration is changing. Visit our website for details [ucdenver.edu/registration](http://ucdenver.edu/registration).

- **ENGL 2415 - Introduction to Movie Writing**
**ENGL 2415 - Structural and Dramatic Elements of Screenwriting**

Examines structural and dramatic elements required to write a feature-length screenplay. Students conceptualize, plan, write and then re-write to complete the first ten pages of their own feature-length screenplay. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3020 - Poetry Workshop**

Examines structural and dramatic elements required to write a feature-length screenplay. Students conceptualize, plan, write and then re-write to complete the first ten pages of their own feature-length screenplay. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3050 - Fiction Workshop**

Examines structural and dramatic elements required to write a feature-length screenplay. Students conceptualize, plan, write and then re-write to complete the first ten pages of their own feature-length screenplay. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3084 - Advanced Composition**

Examines structural and dramatic elements required to write a feature-length screenplay. Students conceptualize, plan, write and then re-write to complete the first ten pages of their own feature-length screenplay. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3154 - Technical Writing**

Examines structural and dramatic elements required to write a feature-length screenplay. Students conceptualize, plan, write and then re-write to complete the first ten pages of their own feature-length screenplay. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3170 - Business Writing**

Examines structural and dramatic elements required to write a feature-length screenplay. Students conceptualize, plan, write and then re-write to complete the first ten pages of their own feature-length screenplay. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.
Summer 2010 Registration **ENGL 3170**
Focuses on the strategies and techniques of business writing, with emphasis on reader, message and form. Prereq: ENGL 1020. ENGL 2030 highly recommended. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4701 - Multimedia in the Community**

Summer 2010 Registration **ENGL 4701**
Produce dossier-quality multimedia shorts by researching and writing digital compositions for selected community organizations. Topics for research range across numerous social issues and involve all disciplines. Prereq: ENGL 2030, 3154, and 3170 or permission of instructor. Cross-listed with ENGL 5701. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3 Hours**
INTERNship or Senior Writing Project in Creative Writing or Film Studies

ENGL 3939 - Internship/Cooperative Education

Summer 2010 Registration ENGL 3939
Employment situations designed and supervised by members of the faculty; concepts and skills developed in the classroom are used in business and public service contexts. Prereq: Junior standing and 2.75 grade-point average. Before enrolling, students should contact the Career Center. Note: Up to six hours may be counted toward the major. Semester Hours: 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

OR

ENGL 4990 - Senior Writing Project in Creative Writing or Film Studies

Summer 2010 Registration ENGL 4990
Individual writing project consisting of a creative manuscript or critical study. Manuscript must be 30 pages of high quality text. Note: Available only to students in the creative writing and film tracks. Prereq: Senior standing. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 3 Hours

Creative Writing Option Total: 39 Hours

Additional courses, total not to exceed 48 hours (any level).

FILM STUDIES OPTION

The film studies option within the English major is designed to prepare students for a range of professional careers in areas such as screenwriting, film criticism, video production and the teaching of film, as well as those students who plan to pursue graduate programs in film studies. Required courses give students a strong grounding in film history, verbal and visual narrative, and the critical terms and techniques used in both film and literary analysis. Electives give students the option of emphasizing either the creative approach or the critical approach to moving-image media, or a combination of the two. The film studies option also affords students the opportunity to create video productions using state-of-the-art digital video and editing equipment and the possibility of airing their productions on cable TV. Offered in cooperation with the College of Arts & Media (CAM), the film studies option can be completed entirely on the Auraria Campus.
OPTION-SPECIFIC REQUIREMENTS

ENGL 2250 - Introduction to Film

Summer 2010 Registration ENGL 2250
Introduces students to the critical study of cinema as an art form and a cultural phenomenon. Topics include cinematography, editing, mise-en-scene and sound; the connections between cinema and related art forms; film genres; the social dimensions of film production and reception; and films by such key filmmakers as Alfred Hitchcock, Maya Deren and Spike Lee. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Summer 2010 Registration ENGL 3070
Examines the history of cinema from its 19th-century origins until the early sound era. Explores important developments and influences in American and international cinema, including the origins of Hollywood narrative, avant-garde cinema, German Expressionism, and Soviet Cinema. Prereq: Must have 30 semester hours or permission of the instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 3080 - Film History II

Summer 2010 Registration ENGL 3080
Examines world cinema from 1938 to the present, with examples from major movements and directors--such as Film Noir, Italian Neo-Realism, the French New Wave, Jean Renoir, Agnes Varda, John Ford, Alfred Hitchcock and Werner Herzog. Prereq: Must have 30 semester hours or permission of the instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 4420 - Film Theory and Criticism

Summer 2010 Registration ENGL 4420
(1) Familiarizes students with some of the central concepts and debates in film theory and criticism, both classic and contemporary, (2) enables students to develop advanced analytic and interpretive skills, and (3) guides students toward discovering and articulating original critical and theoretical perspectives. Prereq: ENGL 2250 and 3070, 3080 or permission of instructor. Cross-listed with ENGL 5420. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 12 Hours
REQUIRED AREA ELECTIVES

Nine elective courses are required, and may be taken in all areas listed below. Fifteen of the 27-hour minimum must be at the 3000/4000 level. Production courses must be taken through the College of Arts & Media (CAM). Equivalent screenwriting courses may also be taken through CAM.

A. Critical Studies

ENGL 1400 - Introduction to Literary Studies

*Summer 2010 Registration ENGL 1400*

Helps students develop a sense of literary techniques and issues so they can bring an improved critical sensibility to their reading and writing. Note: Designed for students who plan to major in English or who are seriously interested in literature. Prereq or Coreq: ENGL 1020. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 1400 will be replaced during 2010-11 by ENGL 2450 when it becomes available

ENGL 1601 - Telling Tales: Narrative Art in Literature and Film

*Summer 2010 Registration ENGL 1601*

Asks students to explore how stories determine who we are. Everything people do fits into a narrative pattern, evident everywhere from TV news to memory to daily schedules. We tell ourselves stories about ourselves and others--how do these stories shape who we are as cultural beings? Prereq or Coreq: ENGL 1020. **Semester Hours:** 3 to 3

**GT Pathways Category Key:** GT-AH2

Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 3001 - Critical Writing

*Summer 2010 Registration ENGL 3001*

Introduces literary theory, which provides extensive practice in writing about literature. Note: Required for literature majors, and should be taken in the sophomore or junior year. Prereq: ENGL 1400 and two literature courses. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 3075 - Film Genres

*Summer 2010 Registration ENGL 3075*

An intensive study of films of one or more significant genres, such as comedy, film noir, science fiction. Prereq: Must have 30 semester hours or permission of the instructor.
ENGL 3085 - Film Directors

Summer 2010 Registration ENGL 3085
An intensive study of the films of one or more major directors, such as Chaplin, Keaton, Hitchcock, Welles, Coen Brothers. Prereq: Must have 30 semester hours or permission of the instructor. Note: May be taken more than once when directors vary. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 3200 - From Literature to Film

Summer 2010 Registration ENGL 3200
Explores the relationship between literature and cinema; the process of adapting and transforming a novel into a feature-length film; and the historical, cultural, and commercial influences that shaped the creation of each novel and film studied. Prereq: Must have 30 semester hours or permission of the instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 4190 - Special Topics in Rhetoric and Writing

Summer 2010 Registration ENGL 4190
Focuses on particular issues in rhetoric and writing as they pertain to reading and writing, including language and gender, language and culture, and language of political action. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5190. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
(film and media-focused only; e.g., Film and Rhetoric)

ENGL 4701 - Multimedia in the Community

Summer 2010 Registration ENGL 4701
Produce dossier-quality multimedia shorts by researching and writing digital compositions for selected community organizations. Topics for research range across numerous social issues and involve all disciplines. Prereq: ENGL 2030, 3154, and 3170 or permission of instructor. Cross-listed with ENGL 5701. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 4770 - Topics in English: Film and Literature
**Summer 2010 Registration ENGL 4770**

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5770. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

(film and media-focused only)

**ENGL 4990 - Senior Writing Project in Creative Writing or Film Studies**

*Summer 2010 Registration ENGL 4990*

Individual writing project consisting of a creative manuscript or critical study. Manuscript must be 30 pages of high quality text. Note: Available only to students in the creative writing and film tracks. Prereq: Senior standing. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

(can be taken under B or C)

May also choose from any single approved film course offered through another department or a single 3000/4000-level literature course (3 semester hours)

**B. Screenwriting**

**ENGL 2390 - Writing the Short Script**

*Summer 2010 Registration ENGL 2390*

Examines narrative screenwriting elements—premise, theme, conflict, protagonist/antagonist, setting/situation, dialogue, plot structure, imagery—required to create a strong narrative short film. Prereq: ENGL 1020. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 2415 - Introduction to Movie Writing**

*Summer 2010 Registration ENGL 2415*

Examines structural and dramatic elements required to write a feature-length screenplay. Students conceptualize, plan, write and then re-write to complete the first ten pages of their own feature-length screenplay. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3415 - Screenwriting Workshop**

*Summer 2010 Registration ENGL 3415*

Continues and expands ENGL 2415. By the end of ENGL 3415, students have completed the first two acts of their screenplay. Note: May be repeated a second time in
a different semester to complete entire screenplay. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**C. Production**

**FILM 2000 - Film/Video Production II**

*Summer 2010 Registration FILM 2000*
Students work in teams to create productions using three chip digital cameras and advanced techniques. Preproduction planning, working with actors and maximizing production values are stressed. Studio and exterior location shoots are included. Prereq: FILM 1050, 2060, BA TFVP majors, minors. Concurrently. Coreq: FILM 2150. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FILM 2150 - Film and Video Postproduction II**

*Summer 2010 Registration FILM 2150*
Students edit the projects filmed in FILM 2000. Cutting for narrative and storytelling are stressed. Importation of sound and visual effects files are covered. Students use professional non-linear digital editing software. Prereq: FILM 1050, THTR/FILM 1100, Theatre/Film majors and minors or permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 27 Hours**

* Repeatable if a different genre/director/topic.

**Film Studies Option Total: 39 Hours**

Additional courses, total not to exceed 48 hours (any level).

**College Core Courses for English Majors**

Students must complete the College of Liberal Arts and Sciences core curriculum requirements as specified in the CLAS Core Curriculum/Graduation Requirements chart. Check the schedule planner for specific course offerings.

**Electives**

Elective hours may be selected at the student’s discretion, but students are urged to work with their advisor in outlining a program in which electives and requirements
support each other. Six hours earned in the internship/cooperative education program may be counted toward the major.

Return to Department of English

**English Writing BA**

Especially designed for future writers, the writing major offers a wide range of intensive writing experiences combining such areas as rhetoric, professional, general and creative writing.

**Requirements for the English Writing Major**

Students majoring in writing must present a total of 39 hours for the major (excluding ENGL 1010, 1020 and 2030), of which 27 hours must be earned in upper-division courses. None of the required 39 hours may be taken on a pass/fail basis. Only courses completed with a grade of C (2.0) or above may be counted toward the major. At least 15 upper-division hours of the student’s work in writing must be taken from English faculty on the Downtown Campus. Students planning to major in writing should consult with an advisor as soon as possible. This major is also available online.

**Required Courses**

**ENGL 2070 - Grammar, Rhetoric and Style**

*Summer 2010 Registration ENGL 2070*

Teaches the basics of English grammar in order to develop a rhetorical and stylistic confidence in reading and writing, using an approach that is more descriptive than prescriptive. Teaches students how to evaluate the grammatical choices of established writers and how to develop flexibility in the grammatical choices they make in their own writing. Prereq: ENGL 1020 or equivalent. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 2154 - Introduction to Creative Writing**

*Summer 2010 Registration ENGL 2154*

Reading, discussing, writing short fiction and poetry in a workshop setting. Prereq: ENGL 1020. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3084 - Advanced Composition**
Summer 2010 Registration ENGL 3084
Focuses on the rhetorical examination and production of visual and textual documents in such areas as politics, education, art, culture and advertising. Equal focus on developing individual student writing skills at advanced levels. Prereq: ENGL 2030. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 3154 - Technical Writing

Summer 2010 Registration ENGL 3154
Introduces the study and writing of technical documents. Emphasizes the processes, style, structure, and forms of technical writing. Attention is paid to audience analysis, organization, clarity and precision. Prereq: ENGL 1020. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

ENGL 3170 - Business Writing

Summer 2010 Registration ENGL 3170
Focuses on the strategies and techniques of business writing, with emphasis on reader, message and form. Prereq: ENGL 1020. ENGL 2030 highly recommended. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 3160 - Language Theory

Summer 2010 Registration ENGL 3160
Provides a basic introduction to linguistics and language theory for undergraduates, including phonetics, grammar, semantics, pragmatics, sociolinguistics, cognitive processing, and language acquisition. Includes practical applications of the theories and methodologies presented. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

-OR-

ENGL 4080 - History of the English Language

Summer 2010 Registration ENGL 4080
Examines how English has changed since A.D. 800 through examples of writing from different periods, with attention to the way various groups have enriched our vocabulary and altered our syntax. Prereq: ENGL 2070 or one year of a college foreign language. Cross-listed with ENGL 5080. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
ENGL 4180 - Argumentation and Logic

Summer 2010 Registration  ENGL 4180
Explores the history of logic and its role in argumentation, studies various types of logical structures, and analyzes current uses of argumentation, with attention to writing arguments on current public issues. Prereq: ENGL 1020, 2030 and 2070. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 4190 - Special Topics in Rhetoric and Writing

Summer 2010 Registration  ENGL 4190
Focuses on particular issues in rhetoric and writing as they pertain to reading and writing, including language and gender, language and culture, and language of political action. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5190. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

Total: 21 Hours

Advanced Course Work

Students pursuing a general writing degree may choose from all writing courses listed. Students pursuing a concentration in professional writing or teaching English as a second language must complete at least 9 hours in those areas.

Professional Writing Concentration

Choose at least three:

ENGL 3154 - Technical Writing

Summer 2010 Registration  ENGL 3154
Introduces the study and writing of technical documents. Emphasizes the processes, style, structure, and forms of technical writing. Attention is paid to audience analysis, organization, clarity and precision. Prereq: ENGL 1020. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 3170 - Business Writing

Summer 2010 Registration  ENGL 3170
Focuses on the strategies and techniques of business writing, with emphasis on reader, message and form. Prereq: ENGL 1020. ENGL 2030 highly recommended. **Semester
ENGL 3416 - Magazine Writing

An intensive, practical course in writing non-fiction with an emphasis on journalistic approaches for daily, weekly, and monthly publications. Prereq: ENGL 1020. Semester Hours: 3 to 3

ENGL 3939 - Internship/Cooperative Education

Employment situations designed and supervised by members of the faculty; concepts and skills developed in the classroom are used in business and public service contexts. Prereq: Junior standing and 2.75 grade-point average. Before enrolling, students should contact the Career Center. Note: Up to six hours may be counted toward the major. Semester Hours: 1 to 3

ENGL 4190 - Special Topics in Rhetoric and Writing

Focuses on particular issues in rhetoric and writing as they pertain to reading and writing, including language and gender, language and culture, and language of political action. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5190. Semester Hours: 3 to 3

ENGL 4280 - Proposal and Grant Writing

Focuses on research, design, composition, and editing original proposals. Includes idea development, identification of funding sources, and the creation of persuasive documents. Prereq: ENGL 1020. Cross-listed with ENGL 5280. Semester Hours: 3 to 3

ENGL 4701 - Multimedia in the Community

Produce dossier-quality multimedia shorts by researching and writing digital compositions for selected community organizations. Topics for research range across
numerous social issues and involve all disciplines. Prereq: ENGL 2030, 3154, and 3170 or permission of instructor. Cross-listed with ENGL 5701. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4995 - Senior Writing Project**

*Summer 2010 Registration ENGL 4995*  
Individual writing project in any genre and any discipline upon approval of faculty advisor. Manuscript must be 30 pages of high quality text. Prereq: Senior standing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

* Repeatable when title/content differ.

**Teaching English as a Second Language Concentration**

Choose at least three:

**ENGL 3160 - Language Theory**

*Summer 2010 Registration ENGL 3160*  
Provides a basic introduction to linguistics and language theory for undergraduates, including phonetics, grammar, semantics, pragmatics, sociolinguistics, cognitive processing, and language acquisition. Includes practical applications of the theories and methodologies presented. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4601 - Principles and Practices of Second Language Acquisition**

*Summer 2010 Registration ENGL 4601*  
Overview of basic principles and practices in the learning and teaching of English as a second language. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5601. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3939 - Internship/Cooperative Education**

*Summer 2010 Registration ENGL 3939*  
Employment situations designed and supervised by members of the faculty; concepts and skills developed in the classroom are used in business and public service contexts. Prereq: Junior standing and 2.75 grade-point average. Before enrolling, students should contact the Career Center. Note: Up to six hours may be counted toward the major. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.
ENGL 4190 - Special Topics in Rhetoric and Writing

Summer 2010 Registration ENGL 4190
Focuses on particular issues in rhetoric and writing as they pertain to reading and writing, including language and gender, language and culture, and language of political action. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5190. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 4995 - Senior Writing Project

Summer 2010 Registration ENGL 4995
Individual writing project in any genre and any discipline upon approval of faculty advisor. Manuscript must be 30 pages of high quality text. Prereq: Senior standing. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

* TESOL topics only

General Writing Courses

ENGL 3020 - Poetry Workshop

Summer 2010 Registration ENGL 3020
Practical workshop for developing poetic craft, focusing on writing process and specialized topics. Prereq: ENGL 2154 for English majors and minors only; all others must obtain permission of instructor. Semester Hours: 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 3050 - Fiction Workshop

Summer 2010 Registration ENGL 3050
Practical workshop for developing narrative craft, focusing on writing process and specialized topics. Prereq: ENGL 2154 for English majors and minors only; all others
must obtain permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3415 - Screenwriting Workshop**

*Summer 2010 Registration ENGL 3415*
Continues and expands ENGL 2415. By the end of ENGL 3415, students have completed the first two acts of their screenplay. Note: May be repeated a second time in a different semester to complete entire screenplay. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 3939 - Internship/Cooperative Education**

*Summer 2010 Registration ENGL 3939*
Employment situations designed and supervised by members of the faculty; concepts and skills developed in the classroom are used in business and public service contexts. Prereq: Junior standing and 2.75 grade-point average. Before enrolling, students should contact the Career Center. Note: Up to six hours may be counted toward the major. **Semester Hours:** 1 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4025 - Advanced Poetry Workshop**

*Summer 2010 Registration ENGL 4025*
Focuses on the development of poetic craft. Prereq: ENGL 2154 and 3020 for English majors and minors only; all others must obtain permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4055 - Advanced Fiction Workshop**

*Summer 2010 Registration ENGL 4055*
Focuses on the development of narrative craft. Prereq: ENGL 2154 and 3050 for English majors and minors only; all others must obtain permission of instructor. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ENGL 4190 - Special Topics in Rhetoric and Writing**

*Summer 2010 Registration ENGL 4190*
Focuses on particular issues in rhetoric and writing as they pertain to reading and writing, including language and gender, language and culture, and language of political action. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed
ENGL 4990 - Senior Writing Project in Creative Writing or Film Studies

Summer 2010 Registration ENGL 4990
Individual writing project consisting of a creative manuscript or critical study. Manuscript must be 30 pages of high quality text. Note: Available only to students in the creative writing and film tracks. Prereq: Senior standing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

ENGL 4995 - Senior Writing Project

Summer 2010 Registration ENGL 4995
Individual writing project in any genre and any discipline upon approval of faculty advisor. Manuscript must be 30 pages of high quality text. Prereq: Senior standing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total Advanced Course Work: 9-15 Hours**

* Repeatable when title/content differ.

**Electives**

Students may opt to replace two of the five required “advanced course work” courses with other English 3000-4000 level courses (writing, literature, film, creative writing) and/or approved writing courses from other departments.

**Total: 0-6 Hours**

**Senior Seminar in Writing**

ENGL 4991 - Senior Seminar in Writing

Summer 2010 Registration ENGL 4991
Students focus on rhetorical studies through extensive reading, writing, discussion, and reflection upon their own literacy practices. Students produce individual and collaborative writing projects for a final portfolio. Prereq: ENGL 3084 and senior
Standing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 3 Hours**

**Major Total: 39 Hours**

Additional courses, total not to exceed 48 hours (any level).

**College Core Courses for English Writing Majors**

Students must complete the College of Liberal Arts and Sciences core curriculum requirements as specified in the CLAS Core Curriculum/Graduation Requirements chart. Check the Web Schedule Planner for specific course offerings.

**Electives**

Elective hours may be selected at the student’s discretion, but students are urged to work with their advisor in outlining a program in which electives and requirements support each other. Up to 6 hours earned in the cooperative education program may be counted toward the major.

Return to Department of English

**Financial Management and Information Systems Emphasis—BS in Business Administration**

The financial management and information systems emphasis provides students with skills that they need to succeed in careers that bridge the fields of finance and information systems.

The financial management and information systems specialty incorporates knowledge of financial management and markets, accounting and information systems and technology. This specialization provides the manager with knowledge of financial information systems, databases, risk management and accounting systems.

Job opportunities include positions that require knowledge of both financial management and business information systems and databases. The specialization provides a solid
accounting/finance and information systems background for other finance specialist and business analyst positions as well.

**Required Courses**

**Finance**

**FNCE 3500 - Management of Business Capital**

*Summer 2010 Registration FNCE 3500*

Students learn the basic principles of managing capital in the business firm. Topics include financial statement analysis, management of working capital, theory and management of capital structure and cost of capital. A grade of 'C' or better must be earned to receive credit for this course and to take subsequent courses for which it is a prerequisite. Prereq: MATH 1080, DSCI 2010, ACCT 2220, FNCE 3000 with a grade of 'C' or better. **Semester Hours:** 3to 3  
*When Offered: FASPRSUM*  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FNCE 4330 - Investment and Portfolio Management**

*Summer 2010 Registration FNCE 4330*

In this course students learn about the different types of investment vehicles, including methods to estimate their value and analyze their risk. They will also be introduced to portfolio management, including the identification of objectives and constraints and the analysis and use of investment information. Topics include the functioning of security markets, asset allocation, security valuation, and portfolio analysis. A grade of 'C' or better must be earned to receive credit for the course, and to take subsequent courses for which it is a prerequisite. Prereq: FNCE 3500 (and its prerequisites) and FNCE 4330, FNCE 4350 (which may be taken concurrently). **Semester Hours:** 3to 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FNCE 4350 - Financial Markets and Institutions**

*Summer 2010 Registration FNCE 4350*

Focuses on the supply and demand for loanable funds, the process of money creation, the structure of interest rates, and the role of banks and the Federal Reserve in the financial system. Special attention is devoted to the impact of monetary and fiscal policies on interest rates, the flow of funds and economic activity; and the operation of financial markets and institutions. A grade of 'C' or better must be earned in this course to receive credit for the area of emphasis and to take subsequent courses for which it is
a prerequisite. Prereq: FNCE 3000. **Semester Hours:** 3 to 3  **When Offered:** FALL SPR
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FNCE 4500 - Corporate Financial Decisions**

*Summer 2010 Registration FNCE 4500*

This is a required capstone course for the financial management emphasis. It uses the case method to develop the analytical and decision making skills of students. Students are required to apply theories and concepts learned in previous finance and accounting classes to real world scenarios. Topical coverage includes financial analysis, planning, control, working capital management, long-term investment and financing decisions and corporate valuation. A grade of 'C' or better must be earned to receive credit towards graduation. Prereq: FNCE 3000, FNCE 3500 and FNCE 4330 all with a grade of 'C' or better and senior standing. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Accounting**

**ACCT 3054 - Accounting Systems and Data Processing**

*Summer 2010 Registration ACCT 3054*

The design and analysis of accounting information systems, with special emphasis on computers and computer programming, and the role of accounting in the role of accounting in the management process. Must earn a grade of 'C' or better to qualify for graduation. Prereq: Completion of ACCT 2220 and ISMG 2050 with a grade of 'C' or better (Strictly enforced). **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 3220 - Intermediate Financial Accounting I**

*Summer 2010 Registration ACCT 3220*

An intensive analysis of generally accepted accounting principles, accounting theory and preparation of annual financial statements for public corporations. Must complete course with a 'C' to qualify in graduation requirements. Prereq: Completion of ACCT 2220 with a grade of 'C' or better. Strictly enforced. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 3320 - Intermediate Cost Accounting**

*Summer 2010 Registration ACCT 3320*

Cost analysis for purposes of control and decision making. Analysis of cost behavior, role of accounting in planning and control, and managerial uses of cost accounting data. Includes use of computer assisted decision models. Must receive a 'C' grade to qualify in graduation requirements. Prereq: ACCT 2220, and DSCI 2010 completed with a grade
ACCT 4780 - Accounting and Information Systems Processes and Controls

*Summer 2010 Registration ACCT 4780*

The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. It focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: Completion of ACCT 2200, ACCT 2220 and ACCT 3054 with a grade of 'C' or better (strictly enforced). Cross-listed with ACCT 6510, ISMG 4780, and ISMG 6510. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG 4780 - Accounting and Information Systems Processes and Controls

*Summer 2010 Registration ISMG 4780*

The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. It focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: Completion of ACCT 2200 and 2220 with a grade of 'C' or better. Strictly enforced. Cross-listed with ACCT 4780, 6510 and ISMG 6510. **Semester Hours:** 3 to 3

Registration is changing. Visit our website for details ucdenver.edu/registration.

ISMG

ISMG 4500 - Database Management and Applications

*Summer 2010 Registration ISMG 4500*

The success of today's business often hinges on the ability to turn mountains of data into critical information and to utilize the critical information to make the right decisions quickly and efficiently. This course introduces students to the basic principles of data management and utilization. Topics include data modeling, normalization and database design, query formulation using SQL and QBE and interface design. Actual database
management systems products (e.g. Oracle and Access) are utilized to demonstrate the
design of database applications in management, marketing, finance, accounting and
other business areas. Each student will also design a working database system as a
project. Prereq: ISMG 3000. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 4600 - Systems Analysis and Design**

*Summer 2010 Registration ISMG 4600*
Provides an understanding of the system development and maintenance process. It enables
students to evaluate and choose a system development methodology. Topics include:
systems development life cycle phases, structured analysis and design, object-oriented analysis and design; prototyping, joint application development (JAD) and structured walk-through; communication, interviewing, interpersonal and presentation
skills; risk and feasibility analysis, project management, systems operations and support.
Prereq: ISMG 3000. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ISMG 4900 - Project Management and Practice**

*Summer 2010 Registration ISMG 4900*
Covers the factors necessary for successful management of enhancement projects. Both
technical and behavioral aspects of project management are discussed. The focus is
on management of development for enterprise-level systems. Topics include:
managing the system lifecycle; requirements determination, logical design, physical
design, testing, implementation; metrics for project management; managing expectations: superiors, users, team members and others related to the project;
determining skill requirement and staffing the project; cost-effectiveness analysis;
reporting and presentation techniques; effective management of both behavioral and
technical aspects of the project; change management. Note: Successful completion of this course meets the educational requirements to sit for both the PMP and CAPM exams. Prereq: ISMG 2200. Cross-listed with CSCI 4900 and MGMT 4900. **Semester Hours:** 3to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 33 Hours**

In addition, students must complete FNCE 4370, International Finance, to fulfill the
international studies requirement.
Financial Management Emphasis—BS in Business Administration

The financial management emphasis provides students with the skills needed to succeed in careers in financial management. The business community has affirmed that students need skills in both the accounting and finance areas. The financial management specialty incorporates knowledge of corporate financial management, financial institutions and markets, investments, financial accounting and managerial accounting, accounting information systems and information technology. Career opportunities include corporate financial management, finance/accounting positions with financial institutions and accounting positions that are not CPA-track. The specialization provides a solid finance and accounting background for other business positions as well.

Required Courses

FNCE 3500 - Management of Business Capital

*Summer 2010 Registration FNCE 3500*
Students learn the basic principles of managing capital in the business firm. Topics include financial statement analysis, management of working capital, theory and management of capital structure and cost of capital. A grade of 'C' or better must be earned to receive credit for this course and to take subsequent courses for which it is a prerequisite. Prereq: MATH 1080, DSCI 2010, ACCT 2220, FNCE 3000 with a grade of 'C' or better. *Semester Hours: 3 to 3 When Offered: FASPRSUM*
Registration is changing. Visit our website for details ucdenver.edu/registration.

FNCE 4330 - Investment and Portfolio Management

*Summer 2010 Registration FNCE 4330*
In this course students learn about the different types of investment vehicles, including methods to estimate their value and analyze their risk. They will also be introduced to portfolio management, including the identification of objectives and constraints and the analysis and use of investment information. Topics include the functioning of security markets, asset allocation, security valuation, and portfolio analysis. A grade of 'C' or better must be earned to receive credit for the course, and to take subsequent courses for which it is a prerequisite. Prereq: FNCE 3500 (and its prerequisites) and FNCE 4330, FNCE 4350 (which may be taken concurrently). *Semester Hours: 3 to 3*
Registration is changing. Visit our website for details ucdenver.edu/registration.

FNCE 4350 - Financial Markets and Institutions
**Summer 2010 Registration**  
**FNCE 4350**  
Focuses on the supply and demand for loanable funds, the process of money creation, the structure of interest rates, and the role of banks and the Federal Reserve in the financial system. Special attention is devoted to the impact of monetary and fiscal policies on interest rates, the flow of funds and economic activity; and the operation of financial markets and institutions. A grade of 'C' or better must be earned in this course to receive credit for the area of emphasis and to take subsequent courses for which it is a prerequisite. Prereq: FNCE 3000. **Semester Hours:** 3  
**When Offered:** FALL SPR  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FNCE 4500 - Corporate Financial Decisions**  
**Summer 2010 Registration**  
This is a required capstone course for the financial management emphasis. It uses the case method to develop the analytical and decision making skills of students. Students are required to apply theories and concepts learned in previous finance and accounting classes to real world scenarios. Topical coverage includes financial analysis, planning, control, working capital management, long-term investment and financing decisions and corporate valuation. A grade of 'C' or better must be earned to receive credit towards graduation. Prereq: FNCE 3000, FNCE 3500 and FNCE 4330 all with a grade of 'C' or better and senior standing. **Semester Hours:** 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 3054 - Accounting Systems and Data Processing**  
**Summer 2010 Registration**  
The design and analysis of accounting information systems, with special emphasis on computers and computer programming, and the role of accounting in the role of accounting in the management process. Must earn a grade of 'C' or better to qualify for graduation. Prereq: Completion of ACCT 2220 and ISMG 2050 with a grade of 'C' or better (Strictly enforced). **Semester Hours:** 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 3220 - Intermediate Financial Accounting I**  
**Summer 2010 Registration**  
An intensive analysis of generally accepted accounting principles, accounting theory and preparation of annual financial statements for public corporations. Must complete course with a 'C' to qualify in graduation requirements. Prereq: Completion of ACCT 2220 with a grade of 'C' or better. Strictly enforced. **Semester Hours:** 3  
Registration is changing. Visit our website for details ucdenver.edu/registration.

**ACCT 3320 - Intermediate Cost Accounting**
Summer 2010 Registration  ACCT 3320
Cost analysis for purposes of control and decision making. Analysis of cost behavior, role of accounting in planning and control, and managerial uses of cost accounting data. Includes use of computer assisted decision models. Must receive a 'C' grade to qualify in graduation requirements. Prereq: ACCT 2220, and DSCI 2010 completed with a grade of 'C' or better. Strictly enforced. **Semester Hours:** 3to 3 **When Offered:** FASPRSUM
Registration is changing. Visit our website for details ucdenver.edu/registration.

**Total: 24 Hours**

In addition, financial management students must complete FNCE 4370, International Finance, to fulfill the international studies requirement.

* Students should note that all finance and accounting courses are not offered every semester. Students should take the ACCT 2200 and ACCT 2220 courses as soon as possible to avoid future problems in their schedules, since these are prerequisites for all courses in the specialization.

**Fine Arts BA — Art History**

All students pursuing a BA in fine arts with an emphasis in art history must complete the 12 semester hours of visual arts foundation courses, the 18 semester hours of required art history emphasis courses and 15 semester hours of upper-division art history electives.

**General Requirements**

- All major courses within the major must be completed with a C (2.0) or better.
- All upper-division visual arts courses must be taken at UC Denver unless approved otherwise by visual arts faculty.
- 21 semester hours of all visual arts credits (at any level) must be taken at UC Denver.
- 18 semester hours of total visual arts courses must be upper-division.

Students must also follow the College of Arts and Media’s general degree requirements.

**Visual Arts Foundation Courses**

FINE 1100 - Drawing I
Summer 2010 Registration  F A 1100
This course explores the act of drawing as a process of visual thought as an initial step to artistic expression. Students will develop an understanding of the basic principles of drawing as a way of learning to see. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 1150 - Introduction to Photography**

*Summer 2010 Registration  F A 1150*

Students learn traditional, film-based photographic practice. Topics such as camera functions, film processing, black and white darkroom printing, color theory and alternative darkroom techniques are explored through demonstrations, critiques, readings and discussions of historical and contemporary photography. **Semester Hours:** 3 to 3
Registration is changing. Visit our website for details ucdenver.edu/registration.

**FINE 1400 - Two Dimensional Design**

*Summer 2010 Registration  F A 1400*

Focuses on the concepts and visual elements of all forms of two-dimensional art. Students gain an understanding of basic design principles as they analyze and visually articulate formal concerns in viewing contemporary and historical artworks as applied to studio problems. **Semester Hours:** 3 to 3

**Total: 15 Hours**
Fine Arts BA — Drawing, Painting, Photography, Sculpture

All students pursuing a BA in studio fine arts must complete 27 semester hours of visual arts courses and also select a emphasis area, consisting of 21 additional semester hours. Students interested in pursuing a double emphases (e.g., emphases in drawing and painting) are encouraged to consult a College of Arts and Media advisor to discuss required courses.

General Requirements

- All major courses in the major must be completed with a C (2.0) or better.
- All upper-division visual arts courses must be taken at UC Denver unless approved otherwise by visual arts faculty.
- 21 semester hours of visual arts credits (at any level) must be taken at UC Denver.
- 18 semester hours of total visual arts courses must be upper-division.

Students must also follow the College of Arts and Media's general degree requirements.

Required Visual Arts Courses

To be completed by all BA-seeking students:
