Colorado PROFILES:
Social Networking for the
CU Scientist
October, 2019

Ronald J. Sokol, MD
Director and P.I.
Colorado Clinical & Translational Sciences Institute
CTSA Program

• A national consortium of biomedical research institutions collaborating to transform how clinical and translational science is conducted nationwide

• Currently, 58 funded Hubs, many of which include multiple universities and hospitals.

• CTSAs provide many local resources, facilities, research personnel, pilot funding, regulatory and informatics support, research units and education & training programs

• Grants originate from NCATS at NIH
Colorado Clinical & Translational Sciences Institute (CCTSI)

- CCTSI is the Univ. of Colorado CTSA Hub
- Created in 2008
- Funded primarily by NIH CTSA grant
- Substantial institutional support (funding)
- Supports all faculty, post-docs, trainees and staff involved in clinical or translational research
- “Disease – agnostic”
- Most recent grant - $48,444,047 for 2018-2023
CCTSI Vision

Accelerate and catalyze the translation of innovative science into improved health and patient care
CCTSI Partner Institutions

• **Three Universities**
  UC Denver (UCD)
  – CU-Anschutz Medical Campus: 6 health profession schools/colleges
  – Downtown Denver
    CU Boulder (CU-B) (UCCS)
    Colorado State University (CSU)

• **Six Affiliated Hospitals and Health Care Organizations***
  UCH (UCHealth), CHCO, DHH, NJH, RMVAMC, KP

*Each is a separate legal entity, **none** owned by Univ. of Colorado
CCTSI Community Partners

- **20 Community-Academic partnerships** throughout the state, including multiple Practice Based Research Networks
  
  - **Underserved Populations:**
    
    - Native Americans, Latinos, African-Americans, Rural populations, Nursing partnerships, Catholic churches, Ranching, LGBT, etc.

  - **Partnership of Academics and Communities for Translation (PACT) Focus Groups:**
    
    - San Luis Valley, Stapleton 2040, American Indian/Alaskan Native Programs, High Plains Research Network, Kaiser Patient/provider, LUCHAR
We have a New CCTSI Website!!

- Launched August 2019
- Google CCTSI
- https://www.cuanschutz.edu/cctsi
- https://www.cctsi.ucdenver.edu
- For Colorado Profiles:
  - Google “Colorado Profiles”
  - Click “Find a Researcher” on CCTSI, VCR, SOM home pages
  - https://profiles.ucdenver.edu
ACCELERATING RESEARCH TO IMPROVE HEALTH

The CCTSI helps build research teams of the future, speed the development of new treatments and improve human health.
Search Colorado PROFILES

The “Colorado PROFILES” search engine for biomedical research expertise and networking provides tools to help investigators and students find experts, potential collaborators or mentors, and to view past and present research networking of our investigators.

What is Colorado PROFILES?

• A **Search Engine** for a database of >8,000 biomedical researchers at all campuses of University of Colorado

• Each faculty member and post-Doc (biomedical or clinical) has a Profile page automatically generated for them, that you can/should edit/modify and monitor

• Pubmed (weekly) and NIH Reporter (monthly) and PeopleSoft (monthly) direct feeds that provide all Pubmed publications and recent federal grants and directory information
  – “Disambiguation algorithm” – machine learning

• Personal Network tools are built into PROFILES
FIND MENTORS, COLLABORATORS, EXPERTS, GENE, TECHNIQUE, LABORATORY TO WORK IN, ETC., ETC.

Biography

awards and honors

1971 Phi Beta Kappa, University of Illinois, Urbana
1972 Bronze Tablet, University of Illinois, Urbana
1976 Alpha Omega Alpha, University of Chicago Pritzker School of Medicine
1986 Basil O'Connor Award, March of Dimes
1990 Mead Johnson Award for Nutritional Research, American Institute of Nutrition
1994 - 2016 Best Doctors in America
2002 America's Top Pediatricians, Consumers' Research Council of America
2003 2003 Nutrition Award, American Academy of Pediatrics, Committee on Nutrition
2004 Hall of Honor, Cincinnati Pediatric Historical Society
2006 - 2008 Top Doctors in Denver, 5280 Magazine
2009 James E. Strain M.D. Award in Pediatrics, Children's Hospital Colorado Medical Staff,
2009 Pediatric Liver Research Award, Alpha-1 Kids and the Alpha-One Association
2009 Harry Shwachman Award, North American Society for Pediatric Gastroenterology, Hepatology and Nutrition (NASPGHAN)
2010 Arnold Silverman, MD Endowed Chair in Digestive Health, Children's Hospital Colorado
2011-2012 Secretary, Board of Directors, American Association for the Study of Liver Diseases
Manage Proxies

Proxies are people who can edit other people's profiles on their behalf. For example, faculty can designate their assistants as proxies to edit their profiles. If you have a profile, then one or more proxies might be assigned to you automatically by your department or institution. You also have the option of designating your own proxies.

If one of the people listed below has a icon in the Delete column, then you may remove that person as your proxy.

Users who can edit your profile

None

Add A Proxy

Users who have given you permission to edit their profiles

None

Groups of users whose profiles you can edit

You can edit the profiles of any user belonging to any of the organizations listed below. The Visible column indicates whether users in an organization can see that you have permission to edit their profiles.

None

Biliary Atresia

"Biliary Atresia" is a descriptor in the National Library of Medicine's controlled vocabulary thesaurus, MeSH (Medical Subject Headings). Descriptors are arranged in a hierarchical structure, which enables searching at various levels of specificity.

**MeSH information**

- **Definition**: Progressive destruction or the absence of all or part of the extrahepatic BILE DUCTS, resulting in the complete obstruction of BILE flow. Usually, biliary atresia is found in infants and accounts for one third of the neonatal cholestatic JAUNDICE.

**publications**

**Timeline**

This graph shows the total number of publications written about "Biliary Atresia" by people in this website by year, and whether "Biliary Atresia" was a major or minor topic of these publications.

Concepts (991)

Concepts are derived automatically from a person's publications.

In this concept 'cloud', the sizes of the concepts are based not only on the number of corresponding publications, but also how relevant the concepts are to the overall topics of the publications, how long ago the publications were written, whether the person was the first or senior author, and how many other people have written about the same topic. The largest concepts are those that are most unique to this person.

1-4-alpha-Glucan Branching Enzyme
25-Hydroxyvitamin D 2
3-Hydroxysteroid Dehydrogenases
Abdomen, Acute
Abdominal Pain
Abetalipoproteinemia
Abnormalities, Multiple
Abortion, Spontaneous
Absorption
Acetaminophen
Acidosis, Lactic
Hypobetalipoproteinemia
Hypoglycemia
Hypoxia
Hypoxia-Inducible Factor 1, alpha Subunit
Ileal Diseases
Ileum
Immediate Early Proteins
Immunity, Cellular
Immunity, Humoral
Immunity, Innate
Immunity, Maternally-Acquired
Ronald Sokol

Concepts (991)

Concepts are derived automatically from a person's publications.

The timeline below shows the dates (blue tick marks) of publications associated with Ronald Sokol's top concepts. The average publication date for each concept is shown as a red circle, illustrating changes in the primary topics that Ronald Sokol has written about over time.

To see the data from this visualization as text, click here.
The size of the nodes in this network view is proportional to the number of publications that they share. Options for customizing this network view are listed below the graph.

---

Minimum number of publications: any number
Minimum number of co-publications: any collaboration
Year of most recent co-publication: any year

Use the sliders to 1) hide authors who have fewer than the selected minimum number of publications, 2) hide lines that represent fewer than the selected minimum number of co-publications, or 3) hide lines that represent co-publications that were written before the selected year. Click the name of any author to re-center the graph.
Use the sliders to 1) hide authors who have fewer than the selected minimum number of publications, 2) hide lines that represent fewer than the selected minimum number of co-publications, or 3) hide lines that represent co-publications that were written before the selected year. Click the name of any author to re-center the graph.
This cluster graph shows the co-authors (green circles) and top co-authors of co-authors (blue circles) of Ronald Sokol (red circle). The size of a circle is proportional to the number of publications that author has. The thickness of a line connecting two authors’ names is proportional to the number of publications that they share. Options for customizing this network view are listed below the graph.

Caveats

• You can make your own Group for visualization of connections and co-authors (think Center grants) – contact profiles@ucdenver.edu

• If you have a very common name and your co-authors have very common names, we may need to assist you in the disambiguation so that Pubmed feed is correct - profiles@ucdenver.edu

• Faculty at affiliated hospitals (e.g., DH, NJH, VAH) must be registered with UCD People Soft as POI and have the correct department listed (contact Administrator of that Dept.)

• Mega Thanks to Swan Ellert, our CCTSI manager of PROFILES
Ronald J Sokol
