Upcoming Events

Please join the Clinical Education Special Interest Group (CE SIG) this year for an engaging three-part series on creating a successful clinical education experience. The first session will focus on structuring the clinical experience; in the second session, participants will learn how to use questions to facilitate reflection and clinical reasoning; and we will finish the series with a panel discussion on using the CPI for assessing performance.

To register for any of the events go to: Click Here To Register

Part I: "Where do I start?" Structuring your clinical experience to get off to a good start.
